Subject: An Update from Senate President Matt Huffman

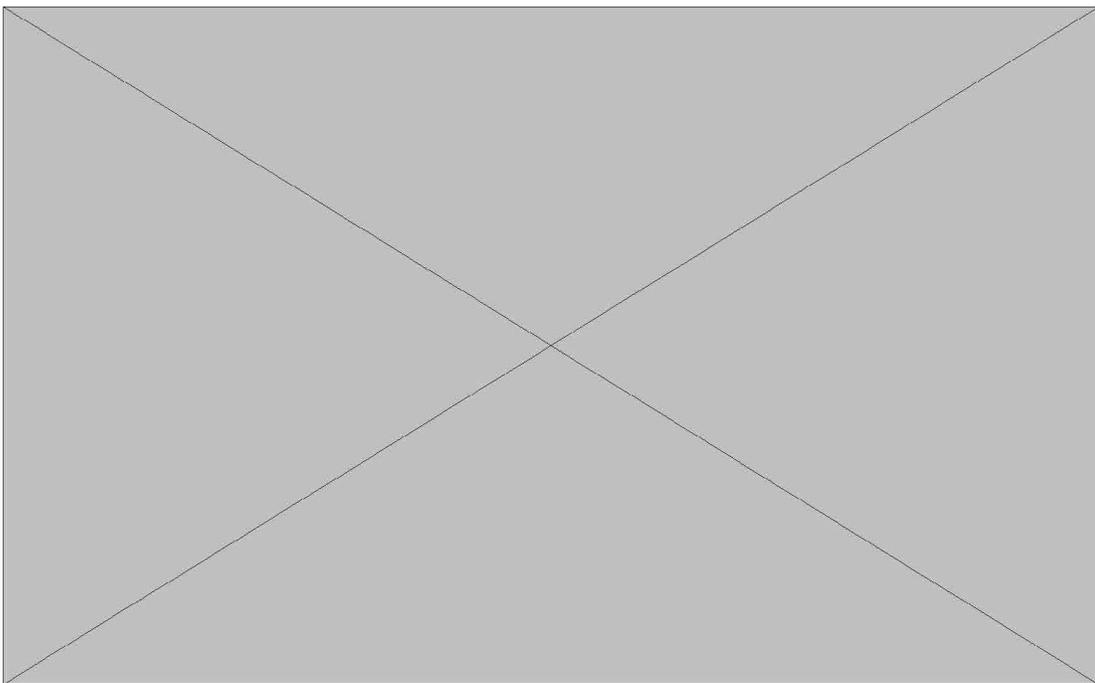

Click [here](#) to view this email in your browser.

Hello,

Happy Thanksgiving to you! I trust this update finds you well, and looking forward to the extra time spent with your family and friends.

My family and I have so much to be thankful for again this year. A couple highlights include the birth of our 5th grandchild and witnessing our youngest son marry a wonderful young lady—both incredible additions to the Huffman family. I am truly blessed and I am thankful for the life and the opportunities I have been given.

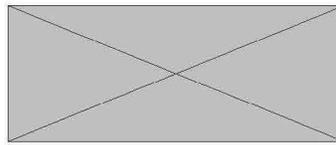

I want to let you know how grateful I am for the opportunity to represent the incredible, hard-working people of the 12th Senate District. We each have an important role to play in our state and in our community, and I hope you know

I am doing my best, as Senate President, to make your priorities my priorities.

My Senate colleagues and I have been working diligently on legislation to protect your rights, create clear pathways to gainful employment, and uphold the Constitution of Ohio as we have worked through the redistricting processes for both the state legislative and congressional maps. Below you will find an update on this work and more.

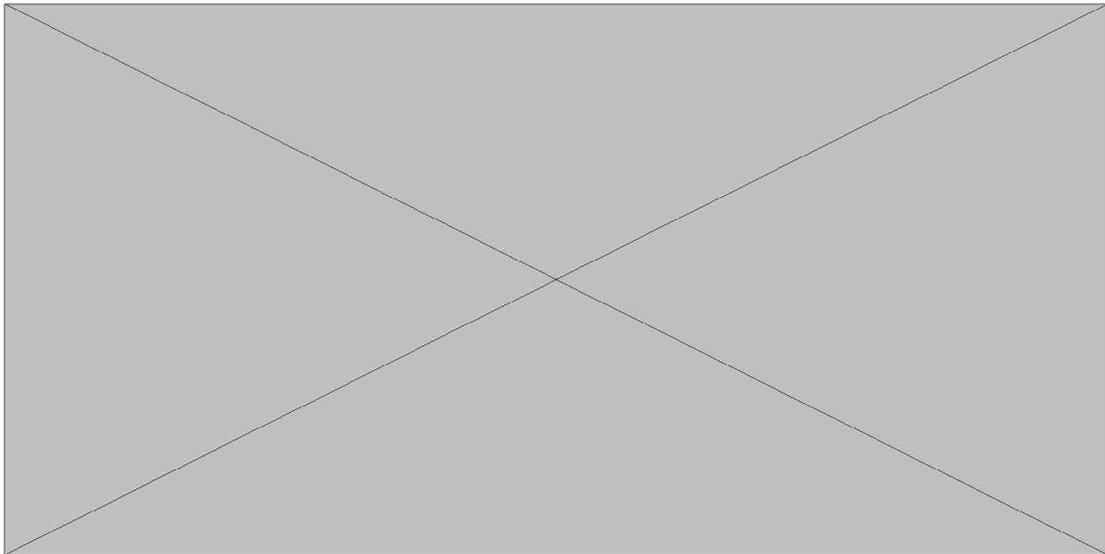

Please don't hesitate to reach out to my office if you have ideas or need help accessing state resources. I'm available at Huffman@OhioSenate.gov or by phone at (614) 466-7584.

Look forward to hearing from you,

Matt Huffman
12th Senate District
OhioSenate.gov/Huffman

Ohio's new congressional map, recently approved by the General Assembly, followed the requirements of the constitutional amendment approved by voters in 2018.

This is a **competitive** and **compact** map, that keeps communities together, and makes it clear that candidates and campaigns matter. You can view the new map [here](#) and click below to read additional details on Ohio's new congressional map.

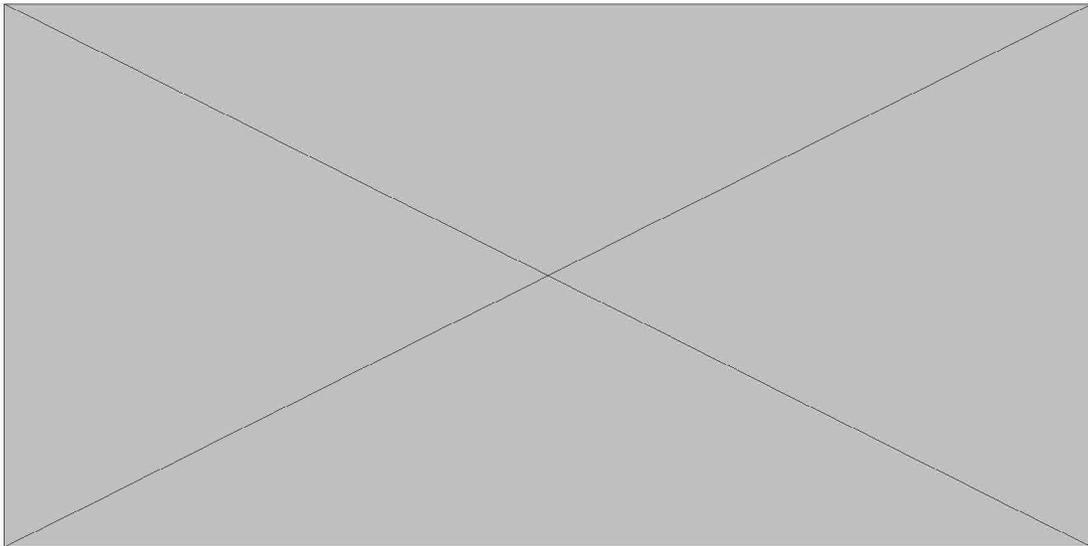

Constitutional and Competitive

By Matt Huffman

[Click here](#) to read additional support provided by the Dayton Chamber of Commerce on the new map, which keeps Dayton and Wright Patterson AFB in the same congressional district.

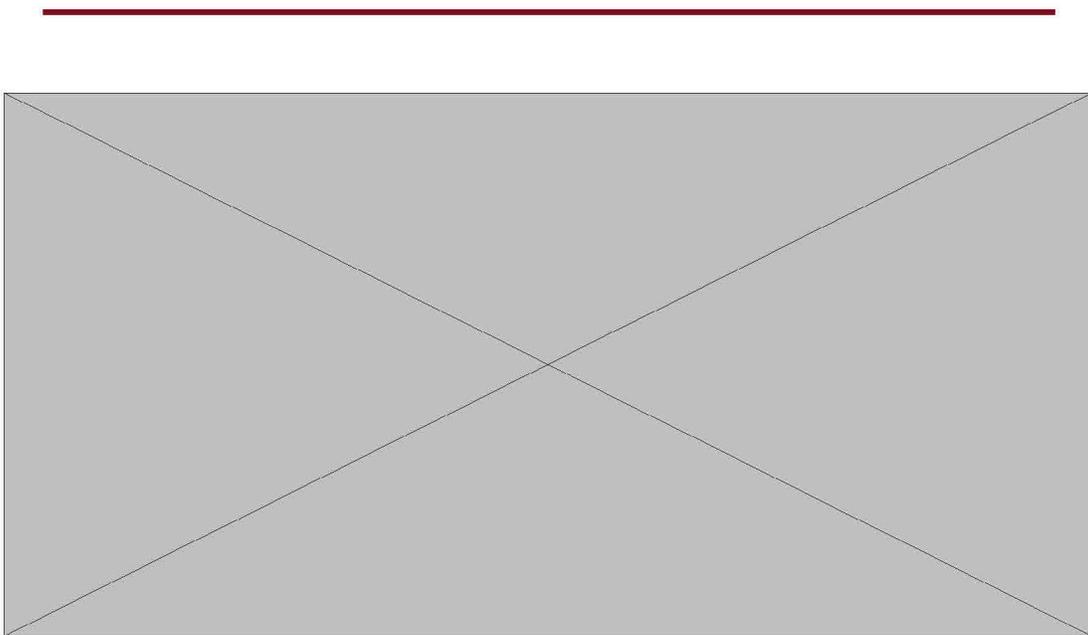

My Senate colleagues and I have worked hard to pass a lot of common-sense legislation for the people of Ohio. Recently, I signed Senate Bill 36 to expand eligibility and remove certain restrictions from compensation paid to victims of certain severe, life-altering crimes and their immediate family members who require counseling.

My hope is that this piece of legislation will have a significant impact on providing much needed relief for victims and their families.

Subject: FW: Release: Secretary LaRose Week in Review 09/13/2021 - 09/17/2021

Greetings!

Secretary LaRose had a busy week working to build consensus on a ten-year map for Ohio House and Senate districts. Unfortunately, the Ohio Redistricting Commission's work resulted in a four-year map. Now work begins on Congressional maps, with a September 30 deadline looming for the General Assembly to pass maps with super majority votes from both parties.

Earlier this week, Senate President Matt Huffman indicated concern about whether the legislature will be able to meet the September 30 deadline. (Read more in [this article](#) from Gongwer).

In that event, the work of drawing 10-year Congressional districts will return to the Redistricting Committee on October 1.

Best,

Chris

Ohio Secretary of State Week in Review

For the Week Ending September 17, 2021

Redistricting Ohio

Late Wednesday night, the Ohio Redistricting Commission approved the Ohio House and Senate legislative district maps for the next four years.

Unfortunately, not all of the commission members shared in the Secretary's commitment to work collaboratively and in a bi-partisan manner – consistent with the Ohio Constitutional amendments approved by the voters in 2015 and 2018 -- to achieve the preferred ten-year map.

The Secretary shared his frustrations with both the outcome and the process in his [closing remarks](#): "I'm no stranger to trying valiantly for a worthwhile cause, but I don't like to fail. I'm no stranger to trying hard and spending myself for a mission that matters. My mission has been clear: bipartisan compromise that yields a ten-year map. I believed all along that it was possible. I even told a couple of you that our state motto is 'With God all things are possible.' That was my guiding north arrow over the past couple of weeks, but we have fallen short. Not enough members of this commission wanted to come along in this effort."

When it comes to the legislature passing a congressional district map, top lawmakers have [already said](#) the Redistricting Commission will likely miss the congressional redistricting deadline on September 30th. In an effort to avoid repeating the mistakes made in the state legislative redistricting process, Secretary LaRose has stated he will ensure new rules are instituted which will require greater participation and information sharing among the commission members.

Clevelanders and Toledoans Made Their Voices Heard

On Tuesday, the cities of Cleveland and Toledo held their Municipal Primary Elections, with thousands of Ohioans voting early, by absentee ballot, or by going to the polls on Election Day.

Congratulations to the hardworking teams of bipartisan election officials at the Cuyahoga and Lucas County Boards of Elections for another successful election!

We Make It Easy for *Every* Ohioan to Vote

This National Disability Voters Registration Week, the Secretary highlighted

how his office works with each of our 88 county boards of elections to ensure important ADA upgrades are made so all voters have a seamless and accessible experience!

A Great Man Passed, But His Legend Will Never Die

From his decorated service in WWII storming the beaches on D-Day and liberating concentration camps, to his time mentoring hundreds of Boy Scouts like Secretary LaRose, Col. Bill Miller led an inspiring life. His legacy will live forever. Read his obituary [here](#).

Important Election Dates & Reminders:

- **September 17: Voting for military and overseas Ohioans begins for the November 2 general election**
- **October 4: Deadline for voter registration for the November 2 general election**
- **October 5: Early voting starts**
- **November 2: Election Day**

Additional Meetings:

Secretary LaRose shared his office's successes and priorities at the Impact Ohio Conference in Toledo. Attended by business, political, and community leaders, Impact Ohio meetings explore elections, the outcomes of the political process, and policy choices facing Ohio and its communities. The forum is a rare and refreshing display of bipartisanship and collegiality, and the Secretary attends them whenever his schedule allows for him to do so.

Secretary LaRose visited and toured the Great Lakes Innovation and Development Enterprise (GLIDE) program at Lorain County Community College to learn more about their remarkable program. He then held a roundtable discussion with a diverse group of entrepreneurs and business owners about the successes and challenges they have faced in creating and growing their enterprises.

reLink Medical, a successful business located in Twinsburg, resells medical equipment, and during the pandemic, the company received national attention for its creativity and innovation. The Secretary visited reLink to learn about the company's operations and its unique projects, including its partnership with the Ohio Department of Rehabilitation and Correction, its humanitarian efforts in Haiti, and its generous philanthropy both in Northeast Ohio and around the globe.

If interested in interviewing Secretary LaRose, please contact Rob Nichols at RNichols@OhioSoS.gov or 330-760-7582?.

Message :

Sen. Huffman,

Statements like the below drive rational Republicans out of the party. They indicate a disconnect from reality that is hurting your perception with Ohio voters. For your own political survival, please return to planet Earth. What "special interests" are you even talking about? Article XI section 6 is part of the constitution.

Geoff Wise

COLUMBUS— Faced with more than a four-month delay in critical U.S. Census data, the Ohio Redistricting Commission moved forward today with a four-year map plan for the Ohio General Assembly's legislative districts.

"These house and senate maps will be in place for the next four years, and represent an important first step towards approving the next map that will complete the decade," said commission member and Senate President Matt Huffman.

Senator Huffman was the primary author of the constitutional amendment voters approved in 2015 which changed the process, establishing strong bipartisan standards designed to keep communities and counties together.

The seven-member commission consists of the Governor, Auditor, Secretary of State and four members of the General Assembly, two from each party. Despite a majority vote of 5-2, both democrats voted against the plan, which under the new rules prevents a ten-year map from becoming law.

"I'm convinced we could've reached a ten-year map," said Huffman, "However, special interests pressured democrats to not support it, asking voters to extend the deadline to accomplish that."

The commission traveled the state, holding more than a dozen hearings for the public to provide input on the proposed maps.

"Make no mistake, special interests want to get what they can't win at the polls," said Huffman. "So-called representational fairness is just another way to describe gerrymandering, and these groups need to remember districts are won with quality candidates, issues and campaigns, not on predetermined outcomes based on a false premise of letting special interests from Washington D.C. define what is fair."

The commission has until October 31 to adopt a ten year map, or return the task to the GA. A four year map is not an option for the commission in this process.

Secretary LaRose is ready to begin negotiations on the contours of the map, as opposed to another listening tour that resulted in the adoption of a four year map.

How is this going to intersect with the time commitments for redistricting that the commission needs to get done by 10-31-22 if the commission is to do it?

Dr. Vernon Sykes
Ohio State Senator
28th Senate District

October 25, 2021

The Honorable Bob Cupp
Co-Chair, Ohio Redistricting Commission
Ohio House of Representatives
77 South High Street, 14th Floor
Columbus, Ohio 43215

Dear Speaker Cupp,

I write today to ask you to reconsider your offer of scheduling only one meeting of the Ohio Redistricting Commission before the constitutional deadline of October 31. As you explained in our phone conversations today, under your proposal the majority would not submit a plan for consideration and the Commission would not vote on a congressional map.

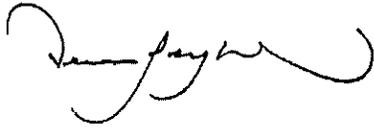

It would be regrettable to schedule only one meeting and not comply with the constitutional reforms overwhelmingly approved by Ohio voters in 2018 and to the spirit of bipartisanship with which they were created. It would also be disappointing to members of the public who want to present their maps and testify on how congressional gerrymandering affects them. Under your proposal, these Ohioans who travel to Columbus would be disappointed that Republican commissioners do not intend to act and would not be giving any consideration to their proposals.

I believe that the Commission should instead meet multiple times before Sunday to not only give Ohioans the opportunity to testify but also to allow commissioners the workspace to adopt a fair, 10-year map. I also believe that the majority should release a map as soon as possible to allow the public and the other commissioners the opportunity to properly review it.

I appreciate your prompt attention to the matter and look forward to your response.

Sincerely,

Cupp000045

A handwritten signature in black ink, appearing to read 'Vernon Sykes', with a large, sweeping flourish at the end.

Vernon Sykes, Co-Chair
Ohio Redistricting Commission

Subject: Overview of Agenda for 10/28/2021 Commission Meeting

Dear Redistricting Commission Members & Staff:

In advance of the meeting tomorrow (Thursday, 10/28/21, at 10:00AM), the Co-chairs wanted to provide an overview of the agenda.

- I. Call to Order
- II. Roll Call
- III. Adoption of Minutes (attached)
- IV. Adoption of Public Records Policy (attached):

As Commission members may recall, the Commission incorporated the Ohio DAS general records retention schedule when we adopted the Commission Rules. Pursuant to Revised Code 149.43 and Commission Rule 07, a motion will be offered adopt the Attorney General's Model Public Records Policy (attached, <https://www.ohioattorneygeneral.gov/Files/Government-Entities/Model-Public-Records-Policy.aspx>)) as the public records policy for the Commission, with four non-substantive changes:

- Updates references to “public office” with “Ohio Redistricting Commission”
- Instead of setting charges for actual costs of copies or compact discs, states: “Those seeking public records may be charged only the actual cost of making copies or the physical storage medium on which electronic files are provided, not labor.”

- Updates link to Sunshine Law Manual
- Updates link to Commission website where policy is posted

- V. Motion that that expenses incurred by Commission members, their designees, and their staff for mileage, lodging, and supplies in conjunction with regional Commission hearings and meetings through October 31, 2021 be reimbursed, with the approval of both Co-Chairs.
- VI. Public testimony from sponsors of submitted Congressional plans (only). All plans have been posted on the website and automatically emailed to your offices upon submission. As we receive testimony or notice that a sponsor plans on testifying, we are posting it to the website at: <https://www.redistricting.ohio.gov/meetings>. So far we have received notice from two plan sponsors who plan on testifying in person.
- VII. Any other business?
- VIII. Adjourn.

Please contact the Co-Chairs offices with any further questions or suggestions.

Sincerely,
Heather Blessing

Good evening Members,

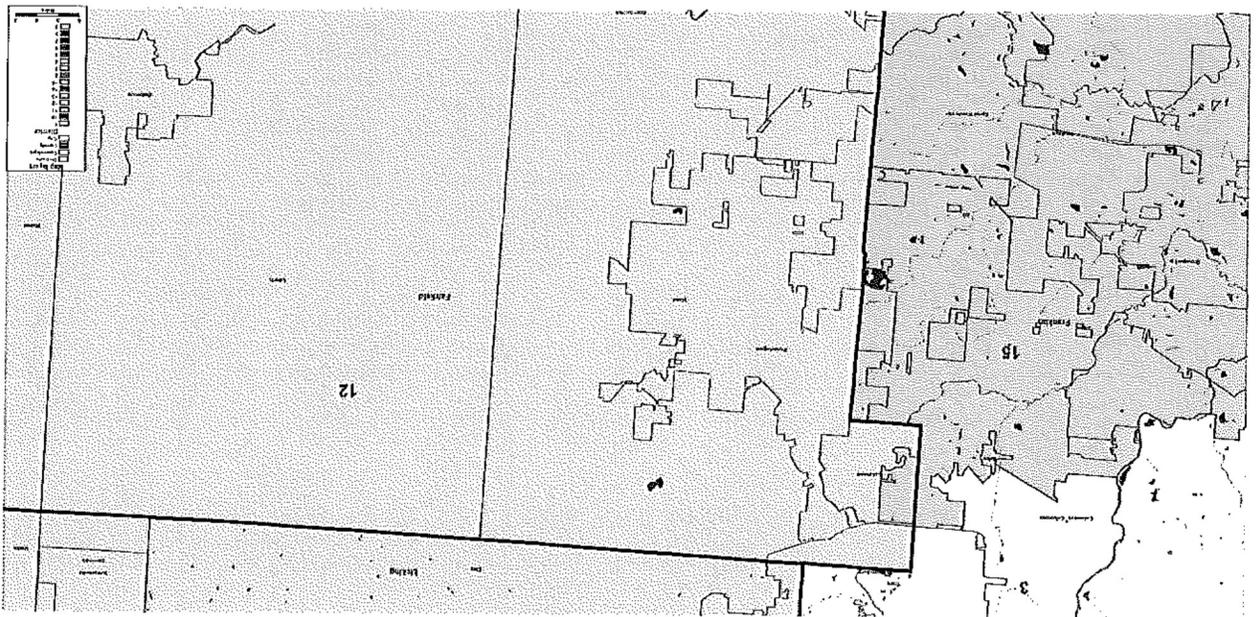

In follow up to our caucus call this afternoon, please find additional information regarding the newly proposed congressional plan.

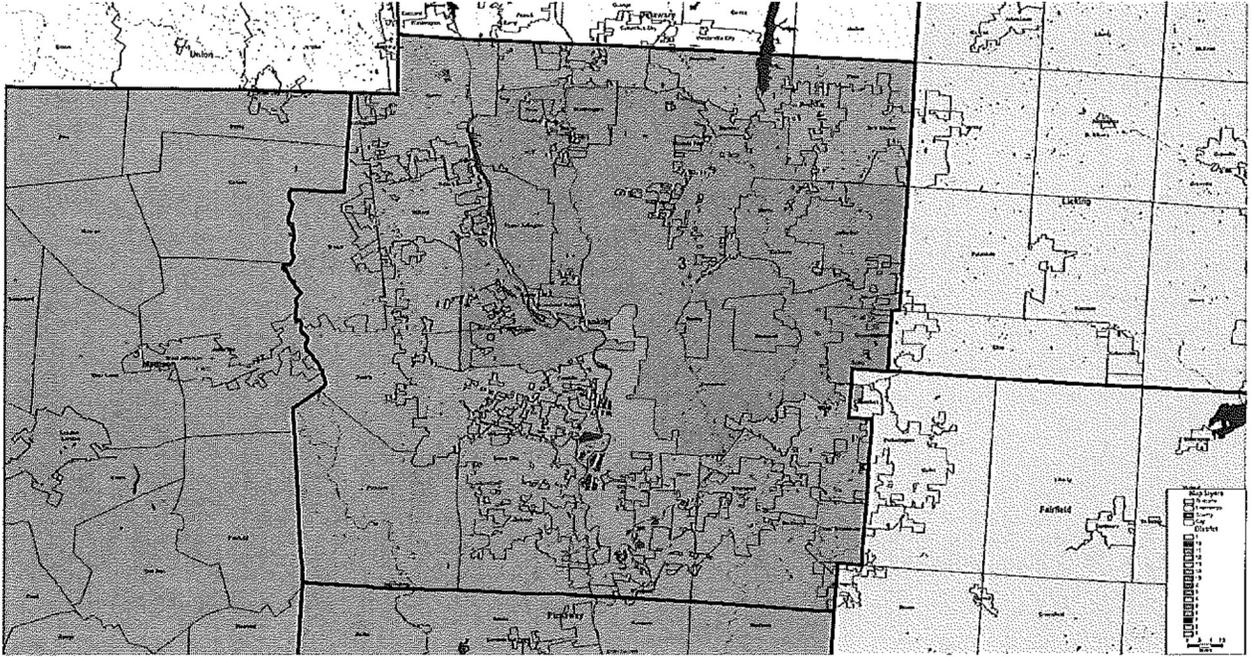

The zip file contains the full congressional plan and close ups of the counties that are split with geography.

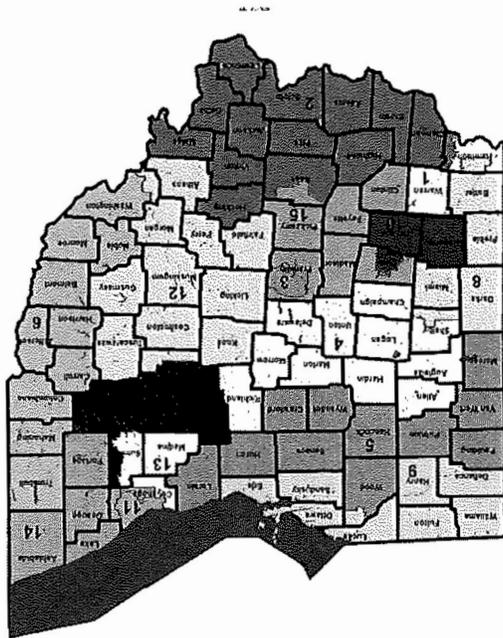

Thanks,
Christine

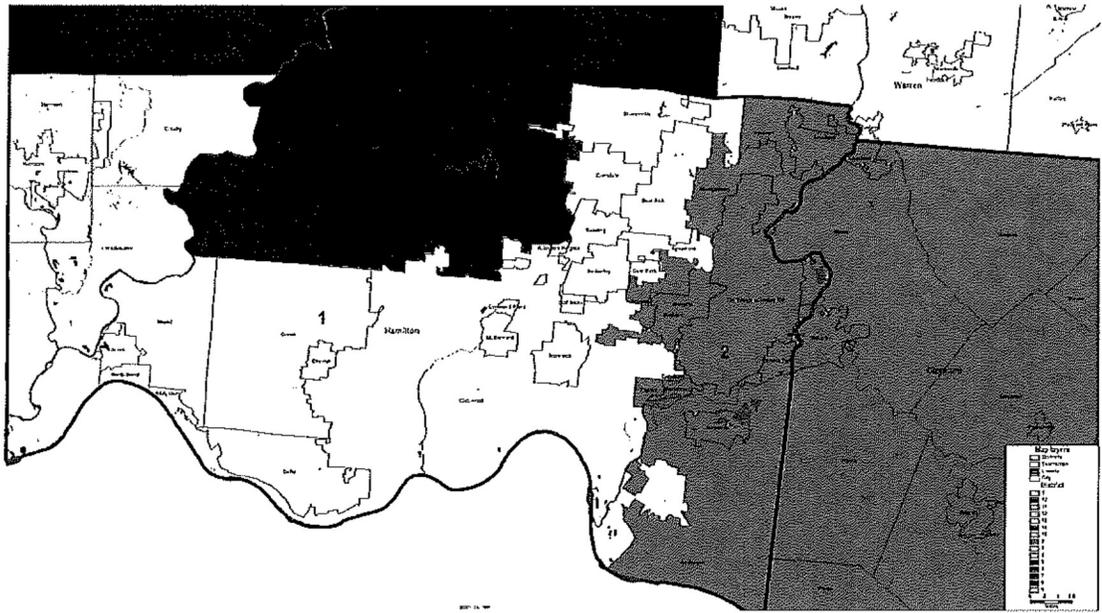

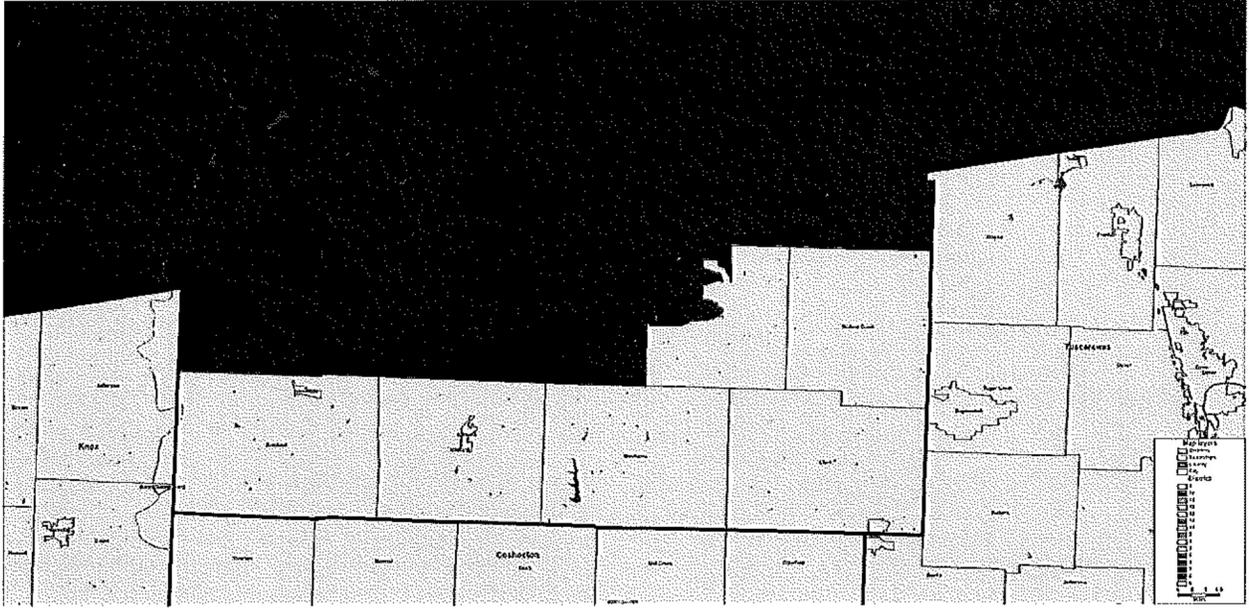

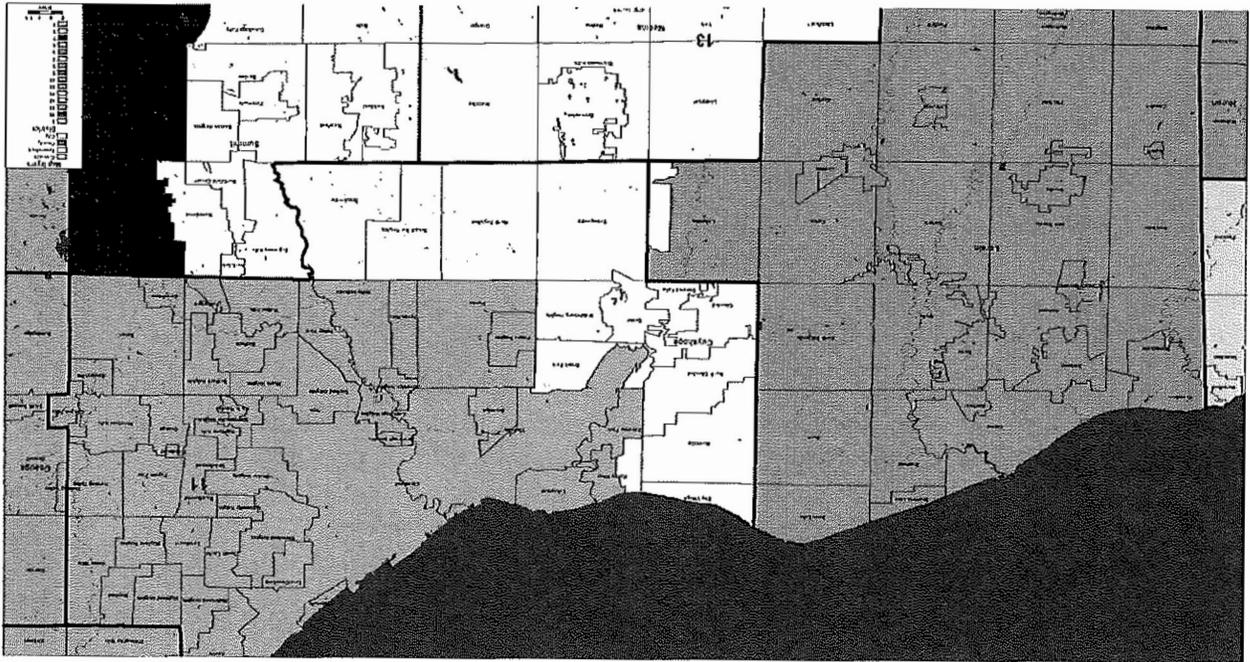

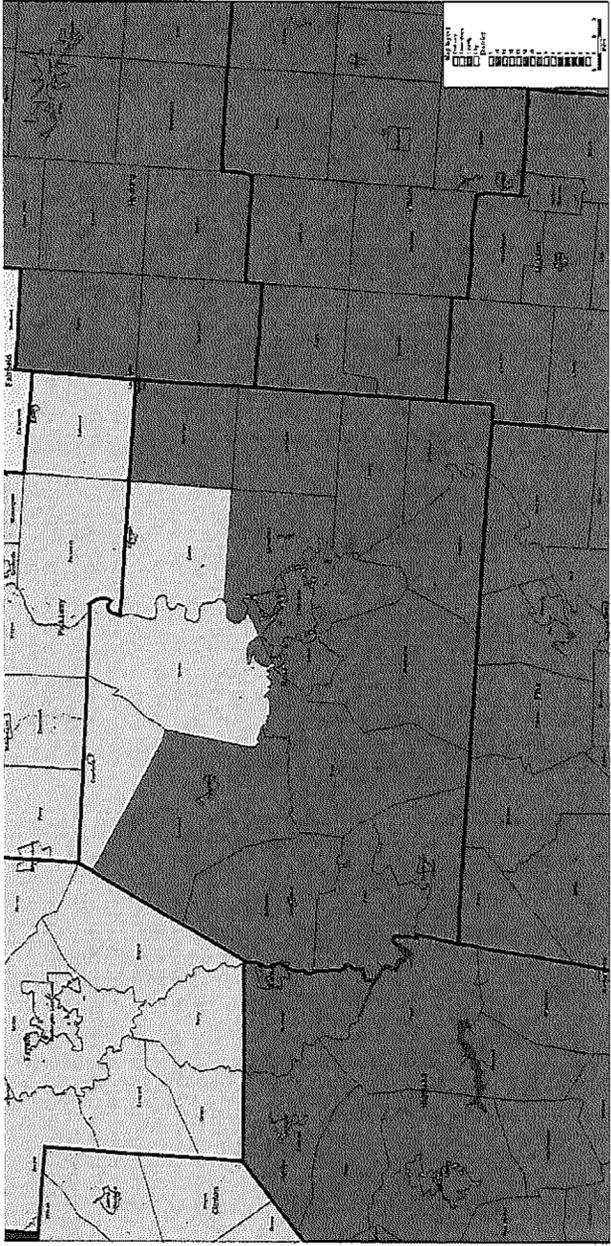

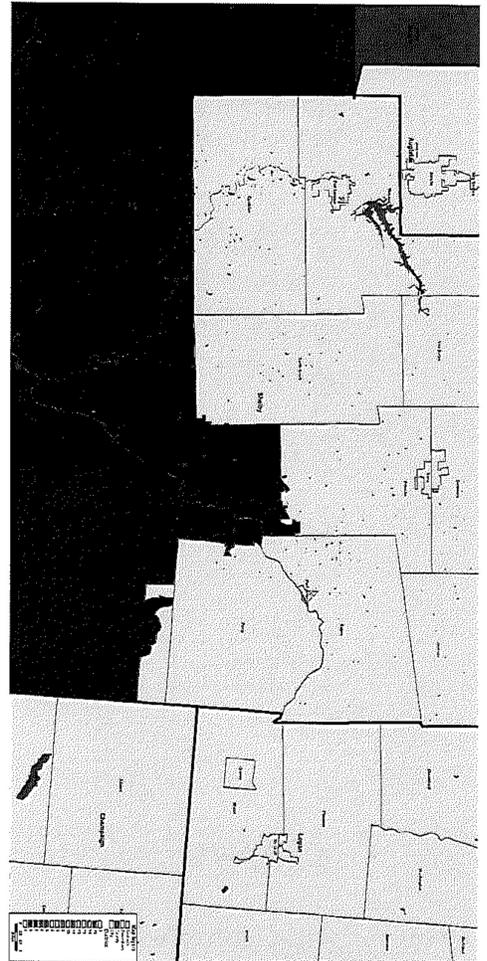

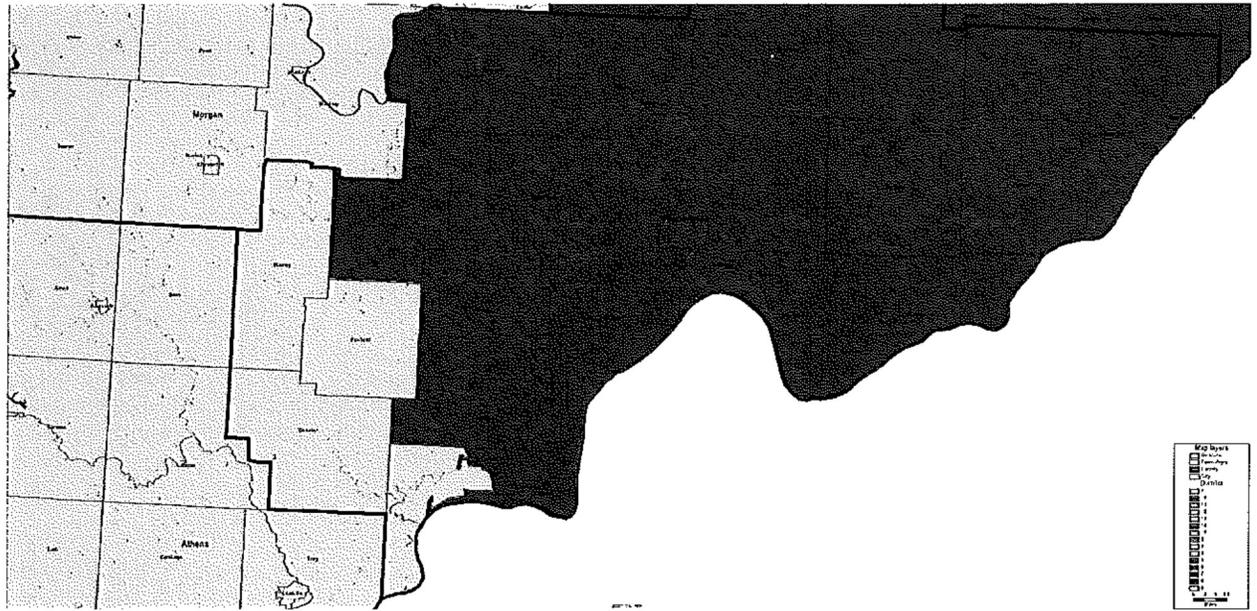

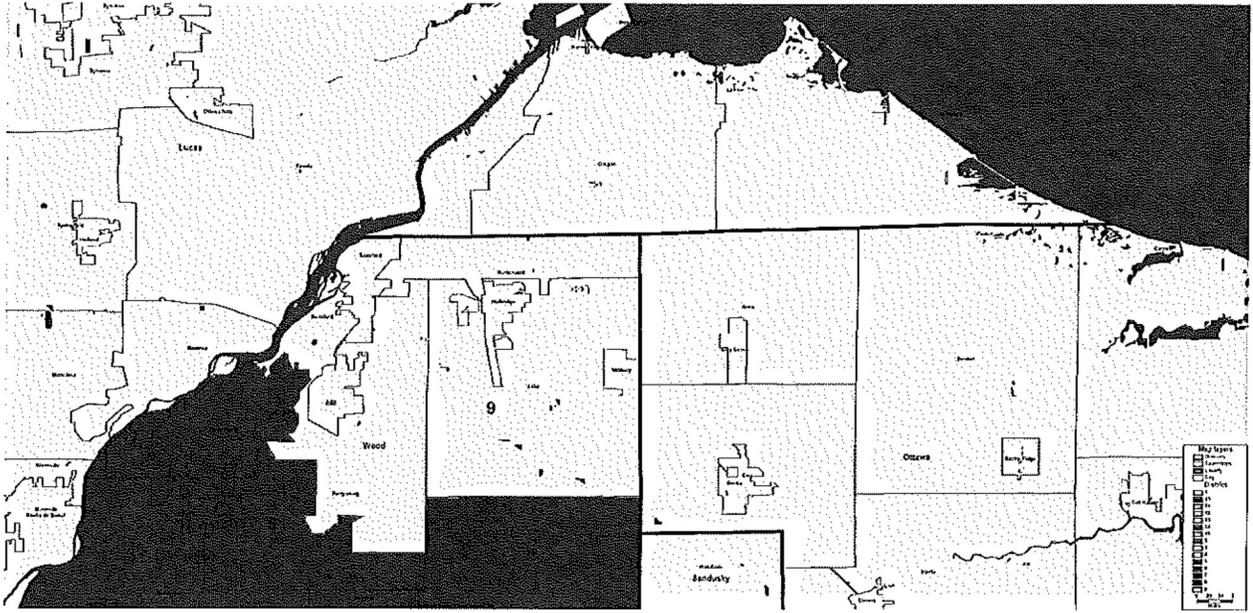

Cupp000099

**SUB. S.B. 258 (MCCOLLEY)
To declare intent to establish Congressional districts**

Bill History

10/27/2021 Introduced

11/16/2021 Reported Senate Local Government and Elections Committee 5-2

11/16/2021 Passed Senate 24-7

11/16/2021 Reported House Government Oversight Committee 8-5

Stakeholders

| Proponent | Opponent | Interested Party |
|---|---|--|
| <ul style="list-style-type: none"> • N/A | <ul style="list-style-type: none"> • Ohio Environmental Council Action Fund • Council on American-Islamic Relations-Ohio • Ohio Women's Alliance Action Fund • Associate Director of Public Policy, Equitas Health • Common Cause Ohio • League of Women Voters of Ohio • The ACLU of Ohio • Ohio Education Association • All On The Line - Ohio | <ul style="list-style-type: none"> • League of Women Voters of the Greater Dayton Area • For our Future Ohio • The Ohio Women's Public Policy Network |

Key Provisions and Highlights

- Establishes new congressional district boundaries for Ohio based on the results of the 2020 federal census.
- Delays certain election deadlines for purposes of the congressional primary election to be held on May 3, 2022.
 - Moves the deadline for U.S. House candidates to file a declaration of candidacy and petition to appear on the ballot at the primary election from February 2, 2022 to March 4, 2022.
 - Moves the deadline for U.S. House candidates to file a declaration of intent to be a write-in candidate at the primary election from February 22, 2022 to March 4, 2022.
- The direct costs associated with Ohio's current decennial redistricting for both General Assembly and congressional districts are paid from two GRF line items under the Legislative Service Commission (LSC) budget group.

The bill states that, concerning the congressional district plan, the General Assembly finds as follows:

- The plan does not unduly favor or disfavor a political party or its incumbents. The plan contains six Republican-leaning districts, two Democratic-leaning districts, and seven competitive districts. The number of competitive districts in the plan significantly exceeds the number of competitive districts contained in Ohio's current plan. Two incumbents expected to seek office again, both Republican, are paired in one district in the bill. No other incumbent, either Republican or Democratic, expected to seek office again, is paired with another incumbent in a congressional district in this plan.
- The plan does not unduly split governmental units and gives preference to keeping whole, in the order named, counties, then townships and municipal corporations. The plan splits only 12 counties and only 14 townships and municipal corporations. Ohio's current plan splits 23 counties and over 30 townships and municipal corporations.
- A visual inspection of the plan demonstrates that it draws districts that are compact, particularly when visually compared to Ohio's current plan.

ANNOUNCEMENT OF COMMISSION MEETING

TO:: Members of the Ohio Redistricting Commission

FROM: Speaker Robert Cupp, Co-Chair
Senator Vernon Sykes, Co-Chair

DATE: Thursday, October 28, 2021

TIME: 10 a.m. – 1 p.m.

LOCATION: Ohio House Finance Hearing Room (Room 313)
Ohio Statehouse
1 Capitol Square
Columbus, Ohio 43215-4275

AGENDA

- The Ohio Redistricting Commission will hear testimony only from **sponsors who submitted complete, statewide congressional district plans.**^[1] No other testimony will be accepted.
- Plan sponsors requesting to testify in person should submit a completed witness form^[2] to: testimony@redistricting.ohio.gov. If testifying in person, be prepared to limit your testimony in the interest of time and other witnesses.
- Please (1) confirm that you are a plan sponsor, (2) indicate which plan you submitted and (3) confirm that your submission is a complete statewide congressional plan.
- If you have written testimony to accompany your in-person presentation, or if you are submitting written testimony only, you may send an electronic copy of your testimony to: testimony@redistricting.ohio.gov.

TIMELINE

1. The Senate will accept the substitute bill (new map) in committee tomorrow morning, with a floor vote sometime tomorrow.
2. We will have Rules committee tomorrow evening to refer the sub bill to Government Oversight
3. We plan to approve the sub bill in committee tomorrow with a floor vote on Thursday.
4. It is important to pass and sign this ASAP to start the referendum clock should one occur.
5. Images of the new map will be circulated to you all this evening and additional information will be provided tomorrow.

1. This map is a result of concepts negotiated between myself and President Huffman that is strong and complies with the Ohio Constitution and should also withstand legal scrutiny from a swing 4-3 Ohio Supreme Court.
2. This map splits 12 counties, less than any of the proposed map pending in the legislature
3. This map splits 14 subdivisions – the House Democrat plan split 21 subdivisions.
- 4.
5. This map splits the below counties and subdivisions
 - a. *Clark County: Mad River Township*
 - b. *Cuyahoga County: Rocky River and Oakwood*
 - c. *Fairfield County: Columbus (counts as a split because the city boundary within the county is split between two congressional districts)*
 - d. *Franklin County: Columbus*
 - e. *Hamilton County: Glendale and Sycamore Township*
 - f. *Holmes County: Berlin Township*
 - g. *Lorain County: Columbia Township*
 - h. *Ross County: Union Township*
 - i. *Shelby County: Green Township*
 - j. *Summit County: Cuyahoga Falls*
 - k. *Washington County: Belpre Township*
 - l. *Wood County: Perrysburg Township*
6. This is a 6-7-2 map, with competitive districts being +/- 4 percent, but could lean 11- 4 based on federal elections over the last ten years.

a. **Presidential races** in 2012 (Obama vs Romney), 2016 (Trump vs Clinton) and 2020 (Trump vs Biden)

b. **US Senate Races** in 2012 (Brown vs Mandel), 2016 (Portman vs Strickland) and 2018 (Brown vs Renacci)

| District | Population | Deviation | FED Election Data |
|----------|------------|-----------|-------------------|
| 1 | 786,630 | 0 | 51.5 |
| 2 | 786,630 | 0 | 65.1 |
| 3 | 786,630 | 0 | 30.4 |
| 4 | 786,630 | 0 | 66.0 |
| 5 | 786,630 | 0 | 58.8 |
| 6 | 786,629 | -1 | 52.9 |
| 7 | 786,630 | 0 | 56.7 |
| 8 | 786,630 | 0 | 62.0 |
| 9 | 786,630 | 0 | 47.7 |
| 10 | 786,630 | 0 | 52.2 |
| 11 | 786,630 | 0 | 19.4 |
| 12 | 786,629 | -1 | 61.3 |
| 13 | 786,630 | 0 | 48.6 |
| 14 | 786,630 | 0 | 53.2 |
| 15 | 786,630 | 0 | 53.7 |

Note: Uses Federal election data from Presidential and U.S. Senate races between 2012 and 2020

Note: Prior election results do not guarantee future election outcomes

Subject: Congressional Map compare
Sensitivity: Normal

- House D map: 8 of 15 districts would favor one political party by 60% or more. We want competitive districts, and believe the people want competitive districts.
- House D map: maintains nearly all of the snake on the lake.
- House D map: 7 of 12 Republican incumbents paired into three districts.
- House D map: unduly splits 21 subdivisions. Five more than the Oelslager map.
- House D map: splits nearly only townships. They clearly prioritized municipal corporations over townships.

Hello, how is Libby doing?

Im sorry to bring work stuff up but i'm sending early in the day so you can respond when you have a moment.

Here is a brief outline of what I would propose the schedule be for Monday

Monday

2pm leadership call (ginter responded way late and won't be able to join but he said I can catch him up) 2:00 pm is literally the only time that works for the rest of the leadership team.

5:30pm. Call with government oversight committee (1/2)

6:00pm. Call with government oversight committee. (1/2)

7pm. Caucus call to explain the schedule and rollout of the maps

8pm. Both the House and Senate R's release the new map.

Paul and I are working on agendas and scripts for all of these calls.

Please let me know if you are ok with this schedule or would like to discuss further.

Thanks!

Sent from my mobile assistant.

All Senate Members and Staff,

Please see the attached documents submitted to my office that include the congressional map and magnified images of highlighted counties that Senator McColley will present as a substitute bill for Senate Bill 258 before the Local Government and Elections Committee tomorrow morning.

Sincerely,

Theresa Gavarone
Senator
Ohio's 2nd Senate District

Andrew
This is embargoed until further notice
But we wanted you to have this info for the committee web site

The XLS is a BAF "Block Assignment File"
and the PDF is a statewide image of the sub bill

I will send the drafted sub bill to Theresa under separate email when it is received from LSC

Andrew

This is embargoed until further notice
But we wanted you to have this info for the committee web site

The XLS is a BAF "Block Assignment File"
and the PDF is a statewide image of the sub bill

I will send the drafted sub bill to Theresa under separate email when it is received from LSC

PRODUCED IN NATIVE FORMAT

Article XI - Legislative

§ 03* [Effective 1/1/2021] Requirements for drawing House of Representatives districts

(A) The whole population of the state, as determined by the federal decennial census or, if such is unavailable, such other basis as the general assembly may direct, shall be divided by the number "ninety-nine" and by the number "thirty-three" and the quotients shall be the ratio of representation in the house of representatives and in the senate, respectively, for ten years next succeeding such redistricting.

§ 07* [Effective 1/1/2021] Political subdivision boundaries to be used

Notwithstanding the fact that boundaries of counties, municipal corporations, and townships within a district may be changed, district boundaries shall be created by using the boundaries of counties, municipal corporations, and townships as they exist at the time of the federal decennial census on which the redistricting is based, or, if unavailable, on such other basis as the general assembly has directed.

Article XIX - Congressional

§ 02 Requirements for drawing congressional districts

(A)(1) Each congressional district shall be entitled to a single representative in the United States house of representatives in each congress.

(2) The whole population of the state, as determined by the federal decennial census or, if the federal decennial census is unavailable, another basis as directed by the general assembly, shall be divided by the number of congressional districts apportioned to the state pursuant to Section 2 of Article I of the Constitution of the United States, and the quotient shall be the congressional ratio of representation for the next ten years.

(3) Notwithstanding the fact that boundaries of counties, municipal corporations, and townships within a district may be changed, district boundaries shall be created by using the data from the most recent federal decennial census or from the basis directed by the general assembly, as applicable.

Rob McColley
Senate Majority Whip
1st Senate District

Thank you, Chairwoman Gavarone, Vice-Chair O'Brien, Ranking Member Sykes and members of the Local Government and Elections Committee for allowing me to present testimony today for Senate Bill 258, which seeks to fulfill the Ohio General Assembly's responsibility under the Ohio Constitution for redistricting of United States congressional maps within this state. I would like to start by providing an explanation of Article 19 of the Ohio Constitution regarding congressional redistricting and then I will go on to describe the proposed congressional map in Substitute Senate Bill 258.

As you will recall, Article 19 of the Ohio Constitution was added in 2018 by the voters of the State of Ohio after the Ohio General Assembly voted to put the proposed amendment on the ballot. Article 19 prescribes the process by which congressional redistricting shall occur in Ohio. The Article is divided into three sections. Of course, this process is conducted with United States census data gathered in the most recent decennial census relative to Ohio's population, which also determines how many seats the state will be apportioned under Section 2, Article 1 of the United States Constitution.

Section 1 of Article 19 describes the methods for adopting a congressional districting plan. From a timeline perspective, there are up to three opportunities to pass a congressional districting plan.

1. The first opportunity to pass a congressional redistricting plan shall occur not later than the last day of September ending in a year ending in the numeral one. In order to pass a ten-year map at this stage, the Ohio General assembly must secure the votes of three-fifths of the members of each chamber, including the affirmative vote of at least one-half of the members of each of the two largest political parties.¹
2. If the General Assembly is unsuccessful at passing a map by the last day of September, the Redistricting Commission comprised of the Governor, Secretary of State, Auditor of State, and a majority party and minority party from each chamber shall have the next opportunity to pass a congressional redistricting plan. Just as with state legislative districts, a plan would require the vote of at least four members of the seven-member Commission, including two members from each of the two largest parties making up the General

¹ Article 19, Section 1(A) of the Ohio Constitution

Assembly, in order to create a 10-year map. The Redistricting Commission shall have until the last day of October to do so.²

3. If the Redistricting Commission is unsuccessful, the responsibility returns to the General Assembly where a bill must be passed not later than the last day of November.³ At this stage, a ten-year map can be passed with three-fifths of the members of each chamber and at least one-third of the members of the two largest political parties in the General Assembly⁴. Alternatively, if the General Assembly passes a congressional redistricting plan with a simple majority from each chamber, and not in accordance with the vote threshold above, there are several requirements that must be met:
 - a. The plan shall not unduly favor or disfavor a political party or its incumbents;⁵
 - b. The general assembly shall not unduly split governmental units.⁶ and
 - c. The General Assembly shall attempt to draw districts that are compact.⁷

Additionally, Section 1 of Article 19 requires a joint committee of the General Assembly to hold at least two public committee hearings regarding a proposed plan.⁸

Section 2 of Article 19 specifies additional requirements for the drawing of congressional districts. First, the plan shall comply with the constitution of Ohio and the United States and federal laws, including federal laws protecting racial minority voting rights.⁹ Second, all districts shall be compact.¹⁰ Third, every district shall be contiguous and have a single nonintersecting continuous line.¹¹

Most of the remaining requirements in the section deal with the splitting of political subdivisions in the map. One term to become familiar with is the “ratio of representation.” This is determined by dividing the state’s population determined by the census by the number of congressional seats apportioned to the state. In this case, Ohio’s population divided by the fifteen seats Ohio was apportioned turns out to be about 786,630.

Below is a description of permissive splits of political subdivisions:

1. If a county’s population exceeds the ratio of representation, it is, of course, going to be split in some fashion because it will have too many people to form one congressional district. If such a county exists, which in Ohio’s case includes only Cuyahoga, Franklin and Hamilton counties, the following rules shall apply:
 - a. If a city or township within that county also exceeds the ratio of representation, the drawing authority shall attempt to include a significant portion of that city or

township in a single district.¹² Currently, only the City of Columbus would meet this criterion.

- b. If a city or township in that county has a population of greater than one hundred thousand and it is the largest city or township in that county, that city or township cannot be split.¹³ The two cities that meet this criterion are Cleveland and Cincinnati.
2. The remaining criteria regarding splitting of political subdivisions deal with the splitting of counties. Those requirements are as follows:
 - a. 65 of Ohio's 88 counties shall not be split. 18 counties may be split not more than once and five counties may be split not more than twice.¹⁴
 - b. The parts of a congressional district within one county shall be contiguous.¹⁵
 - c. No two counties shall be split among the same two districts, unless one of the counties has a population of greater than 400,000.¹⁶
 - d. The drawing authority shall attempt to have at least one whole county in each district where possible.¹⁷

Lastly, Section 3 of Article 19 deals with the legal process of challenging a constitutional redistricting plan.

Next, I would like to describe the proposed map in Substitute Senate Bill 258.

1. Only 14 counties are split. You will recall, we are permitted to split up to 23 counties. Comparatively speaking, the 2011 map split 23 counties. This is also the lowest number of split counties in at least fifty years. The eleven counties split once are Delaware, Licking, Lorain, Lucas, Montgomery, Pike, Portage, Ross, Stark, Summit and Washington.
2. Only three counties are split twice. We are permitted to have up to five. Comparatively speaking, the 2011 map had 5 such splits. The three counties split twice are Cuyahoga, Franklin and Hamilton. It is worth noting that each county would be required to be split at least once due to its population.
3. Every district that is not contained entirely within one county has an entire county within it.
4. This map truly balances to "one person, one vote" with 13 districts having exactly 786,630 people in them and two districts having 786,629

Our goal for this map was to draw districts that are compact, while also keeping Ohio's largest cities whole. It is worth mentioning that the compactness requirement does not apply only to districts comprised of urban and suburban areas. It also applies to rural districts. While rural districts will generally be geographically larger than those in urban and suburban areas, the primary reason we decided to split some of most populous counties in Ohio was to ensure geographic compactness of *all* districts in accordance with the Ohio Constitution. However, even though we split some of the larger counties, we made it a point to keep the largest cities in

¹² Article 19, Section 2(B)(4)(a) of the Ohio Constitution

those counties and the state whole. With exception to Columbus, which had to be split because of its population, and Dublin and Middletown, which straddle county lines and, therefore, do not count as splits under the Ohio Constitution, each of the twenty-five most populous cities in the State of Ohio are kept whole within the proposed map. In fact, only seven municipalities and nine townships in the entire state are split in the proposed map.

The map before you complies with the requirements placed upon the General Assembly under the Ohio Constitution. It is the product of a deliberate effort to draw compact districts, while keeping Ohio's largest cities whole. Thank you Chairwoman Gavarone, Vice-Chair O'Brien, Ranking Member Sykes and members of the Local Government and Elections Committee for allowing me to present testimony on Substitute Senate Bill 258 and the proposed congressional district map contained therein. I would be happy to take any questions.

Ohio Senate
Senate Building
1 Capitol Square
Columbus, Ohio 43215

Rob McColley
Senate Majority Whip
1st Senate District

Thank you, Chairwoman Gavarone, Vice-Chair O'Brien, Ranking Member Maharath and members of the Local Government and Elections Committee for allowing me to present testimony today for Substitute Senate Bill 258. After considering multiple maps presented by Democrat and Republican Caucuses in both the House and the Senate, and listening to the public's input on all of those maps, we offer this map that is not only constitutionally compliant, but the most competitive map offered by any caucus to date. It is also a map that splits the least counties of any map offered by any caucus, keeps Ohio's largest cities whole, installs compact districts and implements many of the requested changes we heard in testimony.

Article 19, Section 2(B)(5) of the Ohio Constitution describes the process that must be followed when splitting counties in a congressional map. In essence, a map may have up to 23 split counties with up to 18 being split once and up to five being split twice. This map splits only 12 counties with only two of those counties being split twice. The counties that are split once are Clark, Fairfield, Franklin, Holmes, Lorain, Ross, Shelby, Summit, Washington and Wood. The Counties split twice are Hamilton and Cuyahoga. Notably, for the first time since the map passed thirty years ago, Lucas County will be whole and for the first time since the map passed twenty years ago Stark County will be whole. The impact on several of Ohio's other large counties is also minimized by Franklin and Summit County having the least splits since the maps passed thirty years ago. Finally, the map complies with Article 19, Section 2(B)(8) by including an entire county in each district where possible. If passed, this map would have the least counties split in over fifty years. Additionally, this map splits two less counties than both the House and Senate Democrat proposals.

Since the introduction of SB258, we have maintained that it is important to keep Ohio's largest cities whole. With exception to Columbus, which must be split under the Constitution and cities that straddle county lines and, therefore, do not count as a split under the Constitution, 98 of Ohio's 100 largest cities are kept whole in this map (Rocky River, Cuyahoga Falls). In total, only eight townships and six municipalities are split in this proposed map, which more than adequately complies with Article 19, Section 1(C)(3)(b)'s requirement that the general assembly not unduly split governmental units.

Article 19, Section 2(B)(2) also requires that districts be compact. This requirement is not applicable to a four-year map, however, under Section 1(C)(3)(c). In such an instance, the

general assembly shall attempt, but is not required to draw compact districts. Nevertheless, the districts presented before you are compact.

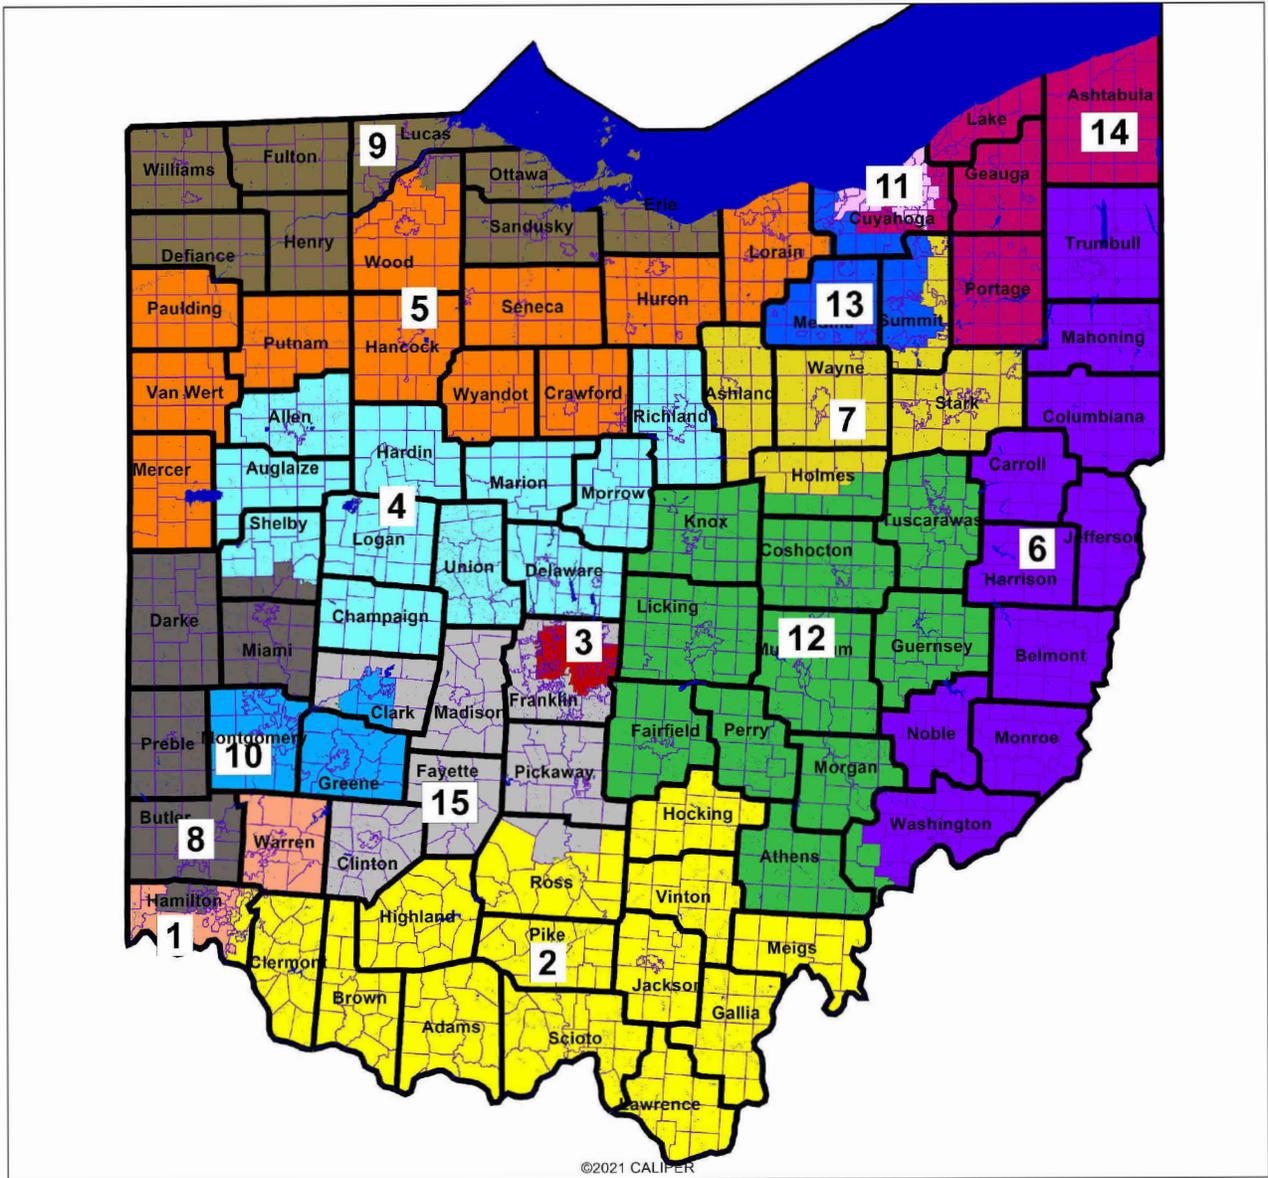

Finally, the map before you is the most competitive map offered by any caucus to date and the most competitive Ohio congressional map in decades. Ohio is subject to swings in voter preferences, particularly in federal elections. Even though, with exception to 2006, Republicans have swept every election for statewide constitutional office since 1994, Ohio has voted for a both a Democrat and a Republican for President in the past four presidential elections and continues to be represented by both a Democrat and Republican in the United States Senate. Clearly, Ohioans are bifurcating between federal and state elections and issues. Therefore, because the map before you is for United States Congressional districts, it makes sense to judge competitiveness based upon statewide federal elections over the last ten years. This allows us to capture the true nature of Ohio’s voting tendencies in federal elections and to insulate from outliers. When evaluating these districts in the federal statewide context and defining a competitive district as one with a 46%-54% Republican index, this map has six seats that lean Republican, seven seats that are competitive and two seats that lean Democrat. The indexes are as follows:

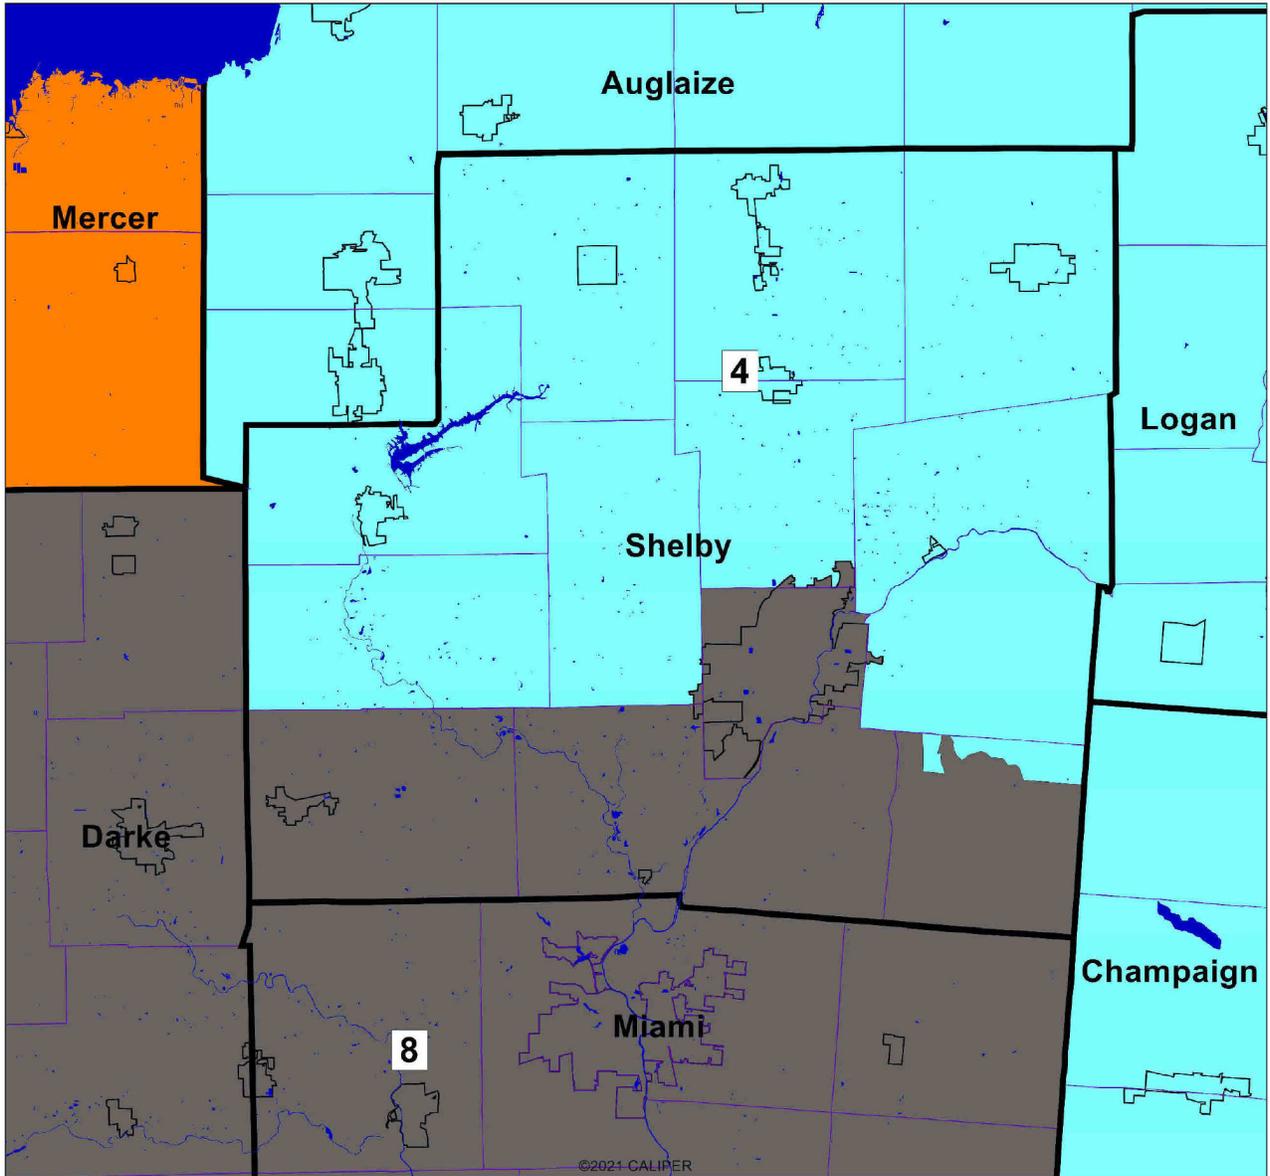

| Congressional District # | Population | Deviation | Federal Statewide Elections 2012-2020 |
|---------------------------------|-------------------|------------------|--|
| 1 | 786,630 | 0 | 51.5 |
| 2 | 786,630 | 0 | 65.1 |
| 3 | 786,630 | 0 | 30.4 |
| 4 | 786,630 | 0 | 66.0 |
| 5 | 786,630 | 0 | 58.8 |
| 6 | 786,629 | -1 | 52.9 |
| 7 | 786,630 | 0 | 56.7 |
| 8 | 786,630 | 0 | 62.0 |
| 9 | 786,630 | 0 | 47.7 |
| 10 | 786,630 | 0 | 52.2 |
| 11 | 786,630 | 0 | 19.4 |
| 12 | 786,629 | -1 | 61.3 |
| 13 | 786,630 | 0 | 48.6 |
| 14 | 786,630 | 0 | 53.2 |
| 15 | 786,630 | 0 | 53.7 |

Article 19, Section 1(C)(3)(a) states that a map shall not unduly favor or disfavor a party or its

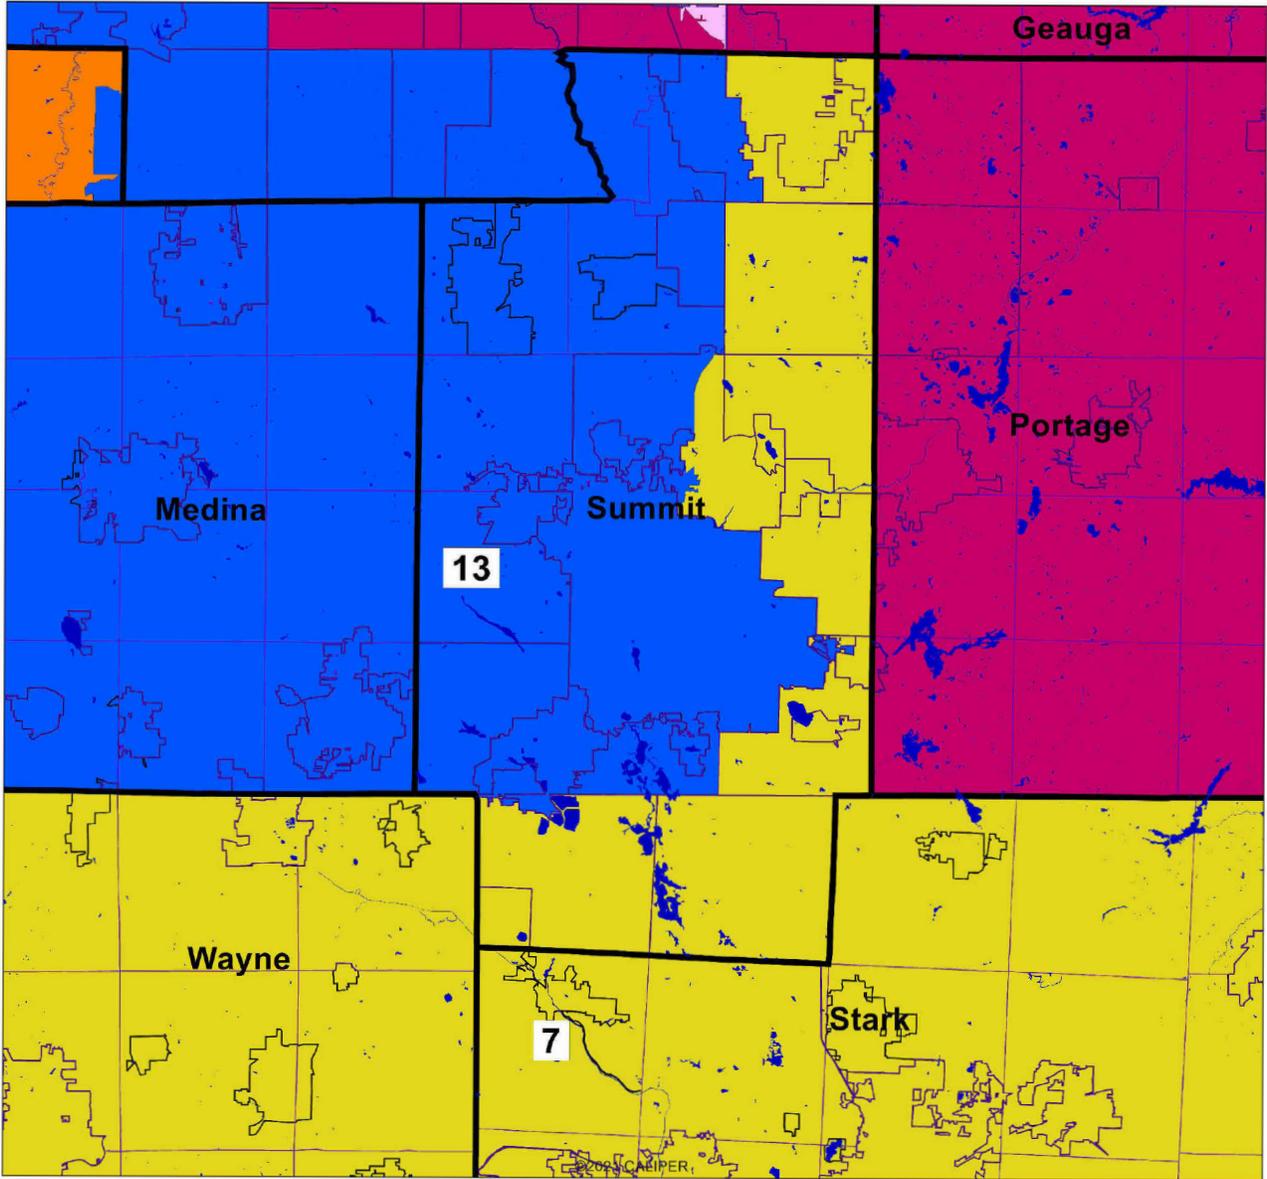

incumbents. No sporting event should ever favor or disfavor a team by some predetermined final score before either team walks on the field. A congressional map should not be judged to favor or disfavor either party that way either. Rather, it should be judged based upon how many districts are going to be determined by the various important issues and candidates in that election. This map embodies that belief by ensuring a plurality of the districts will be competitive in any given cycle. Its seven competitive districts are two more than any House or Senate Democrat proposal and five more than the map passed in 2011. Further, this map neither favors nor disfavors either party's incumbents. It accomplishes this by only combining two incumbents, who are required to be combined through the prohibition against splitting Cincinnati.

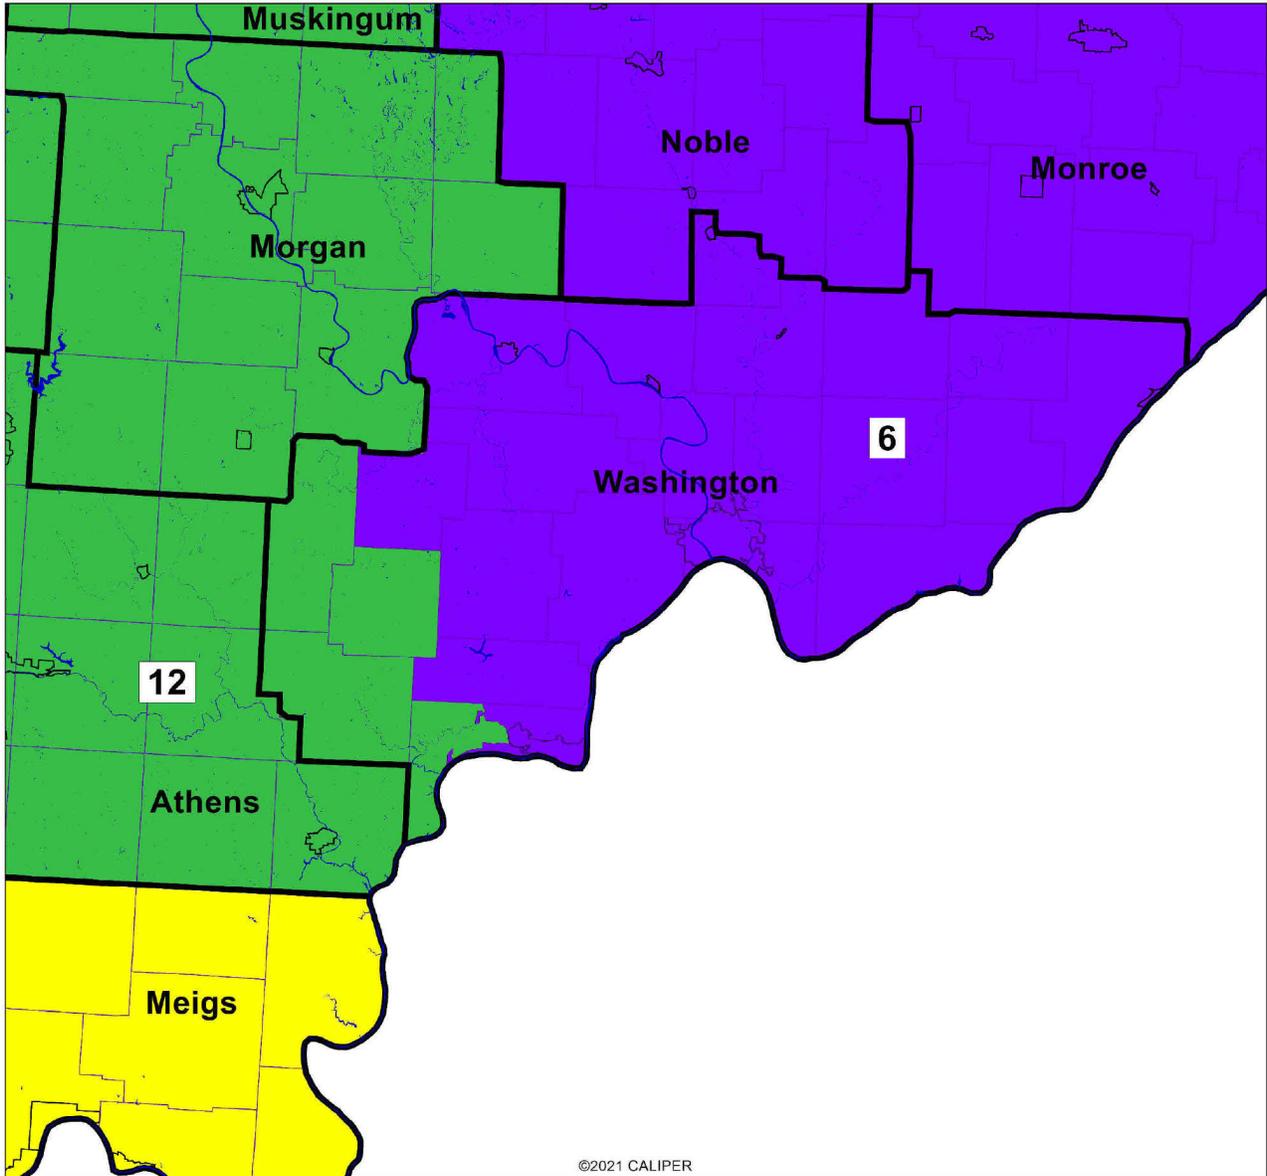

The map before you complies with the requirements placed upon the General Assembly under the Ohio Constitution. It is the product of a deliberate effort to draw compact districts, minimize county splits, keep Ohio's largest cities whole and ensure a plurality of Ohio's congressional districts will be competitive. Thank you Chairwoman Gavarone, Vice-Chair O'Brien, Ranking Member Maharath and members of the Local Government and Elections Committee for allowing me to present testimony on Substitute Senate Bill 258 and the proposed congressional district map contained therein. I would be happy to take any questions.

Subject: Re: Next steps

Good evening.

Presuming that Senator Sykes and Speaker Cupp continue to serve as the co-chairs of the Commission as it transitions its work from state maps to the congressional map, Secretary LaRose asked me to inquire when the commission members should expect to meet? Secretary LaRose believes the commission was close to a ten year constitutional map before it adopted a four year constitutional map. He is committed to working toward a ten year constitutional map with the commission by October 31.

Thanks.

-Merle

Subject: Re: [EXTERNAL] Letter from Co-chair Sykes
Date: Wednesday, October 6, 2021 9:20:43 AM

The commission has until October 31 to adopt a ten year map, or return the task to the GA. A four year map is not an option for the commission in this process.

Secretary LaRose is ready to begin negotiations on the contours of the map, as opposed to another listening tour that resulted in the adoption of a four year map.

Dear Speaker Cupp,

I write to follow up on my October 5 letter, in which I urged that we schedule meetings of the Redistricting Commission to work on congressional redistricting. These meetings are essential, particularly because we promised the public they would have the opportunity to testify on congressional redistricting before the commission. It is imperative that these meetings take place as soon as possible so that members of the commission can work toward adopting a ten-year plan. I also am eager for your schedule suggestions so we may jointly decide as co-chairs when to meet.

The public expects an open process with the opportunity to offer input and suggestions about how to draw maps that represent all Ohioans. As a commission, we must demonstrate that we are using a fair, transparent process to consider and adopt maps.

As you know, last month, Leader Yuko and I submitted a Senate Democratic congressional redistricting map. I would like your input on our plan and to provide an opportunity for all commissioners and the public to formally comment. Lastly, I look forward to the majority releasing a plan for consideration by the commission and public.

I appreciate your attention to these issues and look forward to your response.

Sincerely,

A handwritten signature in black ink, appearing to read "Vernon Sykes".

As you guys know, I'm very frustrated by the lack of progress on getting a meeting together and trying to reach a bipartisan compromise on congressional maps. It feels like many of the commission members have given up and aren't even interested in trying at this point, but I'm not willing to accept that there is no way to get it done.

Following Matt's comments yesterday I thought it was necessary to try to turn this back in a more positive direction so this morning I've spoken with and left messages for some of the other commission members. My point to them continues to be that this is hard, but possible so let's try and that a productive conversation should start with reaching an agreement in principle on;

- proportion of competitive districts, safe D districts and safe R districts
- avoiding drawing incumbents together
- minority opportunity districts

It feels like if there was an agreement on those things we could move forward and draw a compromise map. Matt's comments yesterday made this harder and show a willingness on his part to accept defeat... I can't give up unless (as with 11:30pm on statehouse maps) there is absolutely no route to a compromise because the others have walked away from the table. My goal for now is to keep the others from giving up so we at least have a chance to get this done.

Let's huddle this afternoon or evening because I'd like to hear your thoughts.

Dear Speaker Cupp,

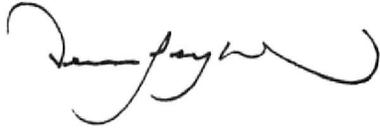

I write today to ask you to reconsider your offer of scheduling only one meeting of the Ohio Redistricting Commission before the constitutional deadline of October 31. As you explained in our phone conversations today, under your proposal the majority would not submit a plan for consideration and the Commission would not vote on a congressional map.

It would be regrettable to schedule only one meeting and not comply with the constitutional reforms overwhelmingly approved by Ohio voters in 2018 and to the spirit of bipartisanship with which they were created. It would also be disappointing to members of the public who want to present their maps and testify on how congressional gerrymandering affects them. Under your proposal, these Ohioans who travel to Columbus would be disappointed that Republican commissioners do not intend to act and would not be giving any consideration to their proposals.

I believe that the Commission should instead meet multiple times before Sunday to not only give Ohioans the opportunity to testify but also to allow commissioners the workspace to adopt a fair, 10-year map. I also believe that the majority should release a map as soon as possible to allow the public and the other commissioners the opportunity to properly review it.

I appreciate your prompt attention to the matter and look forward to your response.

Sincerely,

A handwritten signature in black ink, appearing to read 'Vernon Sykes', with a large, sweeping flourish at the end.

OHIO REDISTRICTING COMMISSION

ANNOUNCEMENT OF COMMISSION MEETING

TO:: Members of the Ohio Redistricting Commission

FROM: Speaker Robert Cupp, Co-Chair
Senator Vernon Sykes, Co-Chair

DATE: Thursday, October 28, 2021

TIME: 10 a.m. – 1 p.m.

LOCATION: Ohio House Finance Hearing Room (Room 313)
Ohio Statehouse
1 Capitol Square
Columbus, Ohio 43215-4275

AGENDA

- The Ohio Redistricting Commission will hear testimony only from **sponsors who submitted complete, statewide congressional district plans.**¹ No other testimony will be accepted.
- Plan sponsors requesting to testify in person should submit a completed witness form² to: testimony@redistricting.ohio.gov. If testifying in person, be prepared to limit your testimony in the interest of time and other witnesses.
- Please (1) confirm that you are a plan sponsor, (2) indicate which plan you submitted and (3) confirm that your submission is a complete statewide congressional plan.
- If you have written testimony to accompany your in-person presentation, or if you are submitting written testimony only, you may send an electronic copy of your testimony to testimony@redistricting.ohio.gov.

Senate Contact: Giulia Cambieri, (614) 644-5533

Secretary LaRose,

As I am sure you are aware by now, the Ohio Senate Local Government and Elections Committee began holding hearings today to consider proposed Congressional district plans introduced in the Senate.

The next hearing will take place tomorrow (November 4, 2021) and we will have more hearings next week. As Chair of this committee, I invite you to have a Senator introduce the Congressional plan(s) that you recently developed so that the committee can better understand your ideas.

Despite the Secretary of State no longer having a formal role in the redistricting process now that it has officially moved to the legislature, I have instructed my staff to work with you so that you may address the committee after the introduction of your plan(s). Along with my fellow committee members, I look forward to reviewing the plan(s) that you have developed.

Should you have any questions, please do not hesitate to contact my office.

Sincerely,

A handwritten signature in blue ink that reads "Theresa Gavarone".

Senator Gavarone,

Thank you for your letter, I appreciate hearing from you.

As you no doubt know, the Ohio General Assembly failed to adopt a Congressional map prior to September 30, 2021. At that point, the Ohio Redistricting Commission had from October 1 until October 31 to adopt a Congressional map. You may also know that, despite repeated calls from me for the Commission to meet beginning in early October, Senator Vernon Sykes and Speaker Bob Cupp, the bipartisan legislative co-chairs of the Ohio Redistricting Commission, did not hold a meeting until October 28, three days before the deadline. Further, each of the four legislators on the Ohio Redistricting Commission made comments ahead of the hearing that made it clear that the Commission would neither adopt nor accept a Congressional map, and that the process would go back to legislature beginning November 1.

The month of October was the opportunity for me and the other executive officeholders of the Commission to engage with the legislative members. Now that it is November, the ball is squarely in the legislature's court. I wish you well in your task.

Yours in service,

Frank LaRose
Ohio Secretary of State

Post adoption of the following redistricting maps

I am attaching 3 PDFs that show the county and population breakdowns by HD SD and CD

In decades past, these were used by BOEs to verify the required petition filing locations for any candidates for the new districts.

If these 3 documents are still helpful this decade - they are attached and I leave them in your capable hands

Thanks

Ray DiRossi

This e-mail is from an external source. Think before you click links or open attachments.

Chris/Mike,

As you know, Ohio's congressional district plan was passed in the form of Substitute Senate Bill No. 258. For purposes of Section 1(I) of Article XIX of the Ohio Constitution, the legal description of the boundaries of the congressional districts is attached to this email (the enrolled version of Sub. SB 258), in addition to the electronic data necessary to create the congressional district map (the block assignment file).

Regards,

Frank

GOP map passed 5-2 out of senate committee. On the floor today

McColley testified that the map is a 6 R, 2 D, 7 competitive map.

They define competitive as 46-54

Additionally, SB 105, MBE, is picking up an LSC conforming amendment. They did to confirm the bill to changes made in the budget. Not ideal, but concurrence on an LSC amendment is typically smooth

Dear Redistricting Commission Members & Staff:

Please find below a list of witnesses and how they will be testifying. In total, as of the time of this email, we have 7 separate in person presentations and 2 written testimony.

- (1) Tim Clarke – Written testimony only
- (1) Stephen Kellat – Written testimony only
- (1) Gary Gale
- (1) Samuel Gresham & Chris Tavenor – testifying together on behalf of the Ohio Citizens Redistricting Commission Map
- (3) Catherine Turcer (Fair Districts Ohio) – testifying on three submitted maps, on behalf of the three winning maps from the Fair Districts Ohio competition
- (1) Geoff Wise, testifying on behalf of the “Frank LaRose Fan Club”
- (1) Andrew Green

The testimony, if provided in advance, is available on the website under meetings:
<https://redistricting.ohio.gov/meetings>.

Subject: Overview of Agenda for 10/28/2021 Commission Meeting

Dear Redistricting Commission Members & Staff:

In advance of the meeting tomorrow (Thursday, 10/28/21, at 10:00AM), the Co-chairs wanted to provide an overview of the agenda.

- I. Call to Order
- II. Roll Call
- III. Adoption of Minutes (attached)
- IV. Adoption of Public Records Policy (attached):

As Commission members may recall, the Commission incorporated the Ohio DAS general records retention schedule when we adopted the Commission Rules. Pursuant to Revised Code 149.43 and Commission Rule 07, a motion will be offered adopt the Attorney General's Model Public Records Policy (attached, <https://www.ohioattorneygeneral.gov/Files/Government-Entities/Model-Public-Records-Policy.aspx>)) as the public records policy for the Commission, with four non-substantive changes:

- Updates references to “public office” with “Ohio Redistricting Commission”
 - Instead of setting charges for actual costs of copies or compact discs, states: “Those seeking public records may be charged only the actual cost of making copies or the physical storage medium on which electronic files are provided, not labor. “
 - Updates link to Sunshine Law Manual
 - Updates link to Commission website where policy is posted
- V. Motion that that expenses incurred by Commission members, their designees, and their staff for mileage, lodging, and supplies in conjunction with regional Commission hearings and meetings through October 31, 2021 be reimbursed, with the approval of both Co-Chairs.

- VI. Public testimony from sponsors of submitted Congressional plans (only). All plans have been posted on the website and automatically emailed to your offices upon submission. As we receive testimony or notice that a sponsor plans on testifying, we are posting it to the website at: <https://www.redistricting.ohio.gov/meetings>. So far we have received notice from two plan sponsors who plan on testifying in person.
- VII. Any other business?
- VIII. Adjourn.

Please contact the Co-Chairs offices with any further questions or suggestions.

Sincerely,
Heather Blessing

Fellow Commission Members:

The Ohio Constitution provided the Ohio General Assembly the opportunity to pass legislation creating new congressional districts by September 30th. A bill was introduced on September 29th, but that did not move through both chambers and advance to the Governor's desk ahead of the September 30th deadline. The relevant amendment that was overwhelmingly approved by Ohio voters in 2018 now places the responsibility to approve a ten-year map into our hands. If we can't reach a compromise to create a ten-year map that garners the yes vote of at least four Commission members including both Democratic members by October 31st, that responsibility returns once again to the legislature.

The bottom line is this, the legislature has thus far been unable to pass congressional district maps for the next decade, so now that is our job. This is a complex and important mission and it won't be easy. As of today, the Ohio Redistricting Commission is on the clock and we should begin immediately working to get the job done for the people we serve, the citizens of Ohio.

In an effort to provide Ohio voters both confidence in the process and the transparency they deserve, we are calling for our Commission to begin this process in earnest. We call on the co-chairs to convene the Commission on Thursday, October 7th at 3:00pm. Our first task should be to discuss and adopt reforms to the Commission's rules that provide better information sharing among the commission members and a more productive method of debate & compromise. By meeting on Thursday, we each have the adequate time necessary to examine the previous rules of the commission and determine how we can improve upon them. Once these new rules are established, we must move quickly to determine a set schedule for map development, commission meetings, and public debate. Additionally we as commission members should all agree to and mutually commit ourselves to a singular purpose over the next four weeks; coming together in good faith to reach a reasonable bipartisan compromise which will yield congressional districts for the next decade. This is our duty under the Ohio Constitution. Anything short of a full commitment of effort to this purpose is unacceptable.

As you know, the process and requirements of congressional redistricting differ significantly from those used during state legislative redistricting. For example, our Ohio Redistricting Commission may only adopt a ten-year district plan, which requires a majority vote of the commission including the votes of both Democratic members. If we do not adopt a ten-year district plan for Ohio's 15 congressional districts by October 31, 2021, then the task of adopting a new congressional district plan reverts back to the Ohio General Assembly. Only by getting to work right away can we hope to avoid such an unfortunate outcome.

Yours in service,

Frank LaRose

Ohio Secretary of State

Keith Faber

Ohio Auditor of State

LAROSE, FABER CALL ON REDISTRICTING COMMISSION MEMBERS TO CONVENE AND CONSIDER NEW RULES TO FOSTER A MORE PRODUCTIVE METHOD OF DEBATE & COMPROMISE

Letter Also Highlights Important Differences Between General Assembly and Congressional Redistricting Processes

In an effort to strengthen the redistricting process and boost the commission's ability to negotiate and compromise, Ohio Secretary of State Frank LaRose and Ohio Auditor Keith Faber sent a letter to all Ohio Redistricting Commission members requesting a meeting date where new rules will be considered.

From the letter:

In an effort to provide Ohio voters both confidence in the process and the transparency they deserve, we are calling for our Commission to begin this process in earnest. We call on the co-chairs to convene the Commission on Thursday, October 7th at 3:00pm to discuss and potentially adopt reforms to the Commission's rules that provide better information sharing among the commission members and a more productive method of debate & compromise. By meeting on Thursday, we each have the adequate time necessary to examine the previous rules of the commission and determine how we can improve upon them. Once these new rules are established, we must move quickly to determine a set schedule for map development, commission meetings, and public debate.

Read the full letter by clicking [here](#).

"Simply put, the Commission needs to re-work its rules to ensure all members are working from the same playbook," said LaRose. "Our goal is bipartisan agreement on a 10-year map, and that can only happen if we work together to get the job done."

Additionally, the letter included information that highlighted the significant differences between the state legislative redistricting process and the congressional redistricting process.

Congressional Redistricting by the Ohio Redistricting Commission Under Article XIX of the Ohio Constitution

- The Ohio Redistricting Commission (ORC) must reconvene in October to address new congressional districts for the next decade because the Ohio General Assembly did not pass legislation creating 15 new congressional districts by September 30, 2021.
- Under new Article XIX of the Ohio Constitution, the ORC has until October 31, 2021 to adopt a new congressional district plan for the next ten years.
- Unlike the process for adopting the new House and Senate district plans for the Ohio General Assembly, the ORC cannot adopt a four-year plan for congressional districts. The

ORC can only adopt a ten-year district plan. This plan requires a majority vote of the commission including the votes of *both* Democratic members. If the ORC does not adopt a ten-year district plan for Ohio's 15 congressional districts by October 31, 2021, then the task of adopting a new congressional district plan reverts back to the Ohio General Assembly.

- Unlike Article XI of the Ohio Constitution pertaining to the drawing of House and Senate districts for the Ohio General Assembly, there is no provision in Article XIX of the Ohio Constitution that requires the ORC to draw the congressional districts in a way that reflects the partisan statewide election results of the State of Ohio for the last ten years.
- Under Article XIX of the Ohio Constitution, the prohibition on drawing a congressional district plan that unduly favors or disfavors a political party or its incumbents applies only if the General Assembly passes a congressional district plan in November by a simple majority vote in each chamber.
- Unlike Article XI of the Ohio Constitution pertaining to the drawing of House and Senate districts for the Ohio General Assembly, which allows for state House and Senate districts to deviate from the average population by plus or minus 5%, federal law requires the population of each congressional district to be almost exactly equal. That means each Ohio congressional district should be very close to 786,630 in population (Ohio 2020 census figure of 11,799,488 ÷ 15 districts).
- Under Article XIX of the Ohio Constitution, 65 of the 88 Ohio counties must be kept whole within a single district. Eighteen counties may be split once, and five counties may be split twice.
- Under Article XIX of the Ohio Constitution, the cities of Cleveland and Cincinnati cannot be split between congressional districts. Each of those cities must be wholly contained within one district.

Fellow Commission Members:

The Ohio Constitution provided the Ohio General Assembly the opportunity to pass legislation creating new congressional districts by September 30th. A bill was introduced on September 29th, but that did not move through both chambers and advance to the Governor's desk ahead of the September 30th deadline. The relevant amendment that was overwhelmingly approved by Ohio voters in 2018 now places the responsibility to approve a ten-year map in our hands. If we can't come to a compromise on a ten-year map that garners the yes vote of both Democratic members of the Commission by October 31st, that responsibility returns to the legislature.

In an effort to provide Ohio voters both confidence in the process and the transparency they deserve, we are calling for our Commission to begin this process in earnest. We call on the co-chairs to convene the Commission on Thursday, October 7th at 3:00pm to discuss and potentially adopt reforms to the Commission's rules that provide better information sharing among the commission members and a more productive method of debate & compromise. By meeting on Thursday, we each have the adequate time necessary to examine the previous rules of the commission and determine how we can improve upon them. Once these new rules are established, we must move quickly to determine a set schedule for map development, commission meetings, and public debate.

As you know, the process and requirements of congressional reapportionment differ significantly from those used during state legislative redistricting. For example, our Ohio Redistricting Commission may only adopt a ten-year district plan, which requires a majority vote of the commission including the votes of both Democratic members. If we do not adopt a ten-year district plan for Ohio's 15 congressional districts by October 31, 2021, then the task of adopting a new congressional district plan reverts back to the Ohio General Assembly. For your reference, I've attached other important differences so we all have the appropriate expectations as we move forward with this process. Add language about the difference re: partisan representation is not a component of the commission's role

Yours in service,

Frank LaRose

Ohio Secretary of State Week in Review

For the Week Ending October 15, 2021

Calling for More Poll Workers

On Wednesday, Ohio Secretary of State Frank LaRose alerted the public and the media of Ohio's deficit in confirmed poll workers for the November 2nd Election. After shattering records in poll recruitment in 2020, Ohio is currently short more than 17,000 commitments less than three weeks before Election Day.

In an effort to help our county boards of elections find the workers they need, the Secretary spoke to Ohio media about the incredible importance and satisfaction of serving ones' fellow Ohioans and communities in advancing our democratic process by serving as a poll worker.

By becoming a poll worker, you are not only providing a critically important and invaluable public service to your community, but you will learn firsthand how Ohio's bipartisan boards of elections work collaboratively and professionally to administer accessible, secure and accurate elections. To learn more or to enroll as a poll worker, visit voteohio.gov/defenddemocracy.

Watch Secretary LaRose's interview with WCMH NBC 4's Kristine Varkony below.

Celebrating Nelsonville's Remarkable Achievement

Last month, the City of Nelsonville was dealt a blow from the U.S. Census Bureau when it informed that its population had dropped below the 5,000 threshold necessary to be considered a city; in Nelsonville was slated to be legally changed to a village, jeopardizing significant public dollars potential grant funding for its community and residents.

Congratulations to Nelsonville City Auditor Taylor Sappington who intuitively suspected the Census Bureau's tabulation was wrong, and quickly convened a team of volunteers to canvass the city, going door-to-door to Nelsonville households to determine the accurate population totals. His suspicions validated, as Nelsonville was certified by Secretary LaRose on Tuesday to have 5,373 residents, thus retaining its city status under Ohio law.

It is an incredible story of one of Ohio's communities quickly banding together to right a wrong and successfully challenge an enormous federal bureaucracy, and responsibly care for the well-being of its residents.

WSYX ABC 6 was at the Secretary of State's office on Tuesday to cover the Secretary presenting Taylor Sappington and his canvassers with a proclamation returning Nelsonville to its proper city status. Watch that story [here](#) or by clicking on the image below.

Honoring the Heritage of Italian Americans

On Saturday, the Secretary attended and celebrated Italian Fest in Columbus, and on Sunday travelled to Cleveland to join in on the festivities in Little Italy.

The Secretary is a proud descendent of Italian immigrants, and Cleveland is steeped in rich Italian heritage. Last month, the Secretary toured the newly-opened Italian American Museum of Cleveland, also in Little Italy, which through exhibits, artifacts, and historical photos, shares the profound impact Italian Americans had in building Cleveland into the incredible city it is today.

To learn more about the Italian American Museum of Cleveland, click [here](#) or on the image below.

Promoting Efforts to Connect Military Spouses with Employment Opportunities

On Tuesday, Secretary LaRose joined Lieutenant Governor Jon Husted at the National Veterans Memorial and Museum in Columbus to announce that Ohio has been designated a Military Spouse Economic Empowerment Zone by the U.S. Chamber of Commerce "Hiring Our Heroes" program. Spousal employment for military members is often hindered by frequent relocations for U.S. Service Members and their families and is often exacerbated by conflicting occupational licensing requirements among the states.

The Hiring Our Heroes program focuses on connecting veterans, transitioning service members and military spouses with employment opportunities, creating a win-win for our military families and employers in need of qualified workers.

Learn more about Military Spouse Economic Empowerment Zones [here](#).

Election Reminders

- **Saturday, October 30: Early voting hours 8AM--4PM**
- **Sunday, October 31: Early voting hours 1PM--5PM**
- **Monday, November 1: Early voting hours 8AM--2PM**
- **Tuesday, November 2: Election Day, polls open 6:30AM--7:30PM**

Additional Meetings

- On Tuesday, Secretary LaRose met with Kenny McDonald and the leadership team of the Columbus Partnership. The Partnership has been a driving force in economic growth and regional development in Columbus for decades, helping to create jobs and opportunities for countless central Ohioans. Kenny McDonald will assume the role of President and CEO of the Columbus Partnership beginning in January 2022.
- On Wednesday, Secretary LaRose joined Ohio Congresswoman Joyce Beatty for a Small and Agri-Business Information Summit virtual meeting hosted by Central Ohio University. Food and agri-business contributes \$124 billion to Ohio's economy, a sector that includes household named businesses such as Kroger, Nestle, Smucker's, and Nestle. Many of these businesses are headquartered in our state, creating jobs for thousands for Ohioans. Despite the challenges posed by the pandemic, Ohioans continue to create new businesses at an astounding pace. To help maintain this momentum, the State of Ohio needs to continue to be a collaborative partner with agri-businesses to connect them with the resources available to help them launch, grow and prosper.

In Case You Missed It

SECRETARY LAROSE STATEMENT ON THE OHIO REDISTRICTING COMMISSION

The following statement from Ohio Secretary of State Frank LaRose is pursuant to some members of the Ohio Redistricting Commission calling for another statewide tour instead of working to reach agreement on a 10-year congressional map:

"In August, the Ohio Redistricting Commission listened to more than thirty hours of testimony from citizens who gave their general perspectives about what they wanted to see in both the General Assembly and congressional district plans following the overwhelming passage of constitutional amendments in 2018 to reform the processes.

"Unless and until the co-chairs call a meeting of the Commission to review maps and begin the hard negotiating, another road show would once again put the cart before the horse. Public input is the valuable when we have something substantive for the public to consider. That only happens after coming together as a commission, developing and reviewing maps that meet the requirements of the constitution and finding compromise.

"After the upcoming holiday weekend, there are just 20 days left for Commissioners to come to an agreement on a bipartisan, ten-year congressional map. The Commission should set a goal of developing maps that provide the public an honest opportunity to provide substantive input. A big lesson learned from our experience is that we need every minute we can get to sit down together to consider proposed maps and negotiate in the hope of reaching a bipartisan consensus. This is particularly true as now the Commission must also take valuable time away from the task of working on a congressional map to answer questions from the 35 high-priced lawyers from California, New York, and Washington, D.C. who have sued the Commission.

"To try and get a ten-year General Assembly map, I literally worked with some commission members at the eleventh hour in an effort to find a bipartisan compromise. Unfortunately, the clock ran out. That has to happen again. Let's get to work.

"I now reiterate the request made to the Commission co-chairs on October 4th to call a meeting so we can move forward in an effort to reach a bipartisan compromise on a 10-year congressional map.

FOR IMMEDIATE RELEASE

September 29, 2021

Yuko, Sykes Introduce Congressional District Map

COLUMBUS – Today, Ohio Senate Minority Leader Kenny Yuko (D-Richmond Heights) and state Senator Vernon Syke (D-Akron), co-chair of the Ohio Redistricting Commission, introduced Senate Bill 237, the Ohio Senate Democratic Caucus' proposal for a congressional district map.

"The plan we are introducing today is fair, keeps communities together and doesn't gerrymander our state," Yuko said.

LAROSE001584

“Most importantly, it doesn’t favor or disfavor any political party. I’m hopeful that it can be a starting point to create a bipartisan map that meets the constitutional reforms Ohio voters demanded in 2018.”

S. B. 237, which is co-sponsored by all members of the Ohio Senate Democratic Caucus, does not illegally split contiguous municipalities or townships in any district in the state. Counties are only split to account for population requirements.

“Our plan demonstrates that if the majority had the will, we could have drawn a bipartisan map before the September 30 deadline,” Sykes said. “It is not too late for the majority to work with us on a plan that fulfills the reforms overwhelmingly approved by Ohioans in 2018.”

The legislature is required to create a congressional map by September 30. If a plan is not adopted by this date, the Ohio Redistricting Commission is responsible for adopting a congressional district map by October 31. If a plan is not adopted by this date, the legislature once again becomes responsible. During the later stages of this process, maps must adhere to stricter requirements if it fails to receive the support of at least a third of the minority members of the general assembly. These requirements include the following:

- The plan must not unduly favor or disfavor a political party or its incumbents;
- The map shall not unduly split governmental units, giving preference to keeping whole, counties, townships and cities.
- The districts shall be compact.

The plan Senate Democrats introduced today proactively accounts for these additional requirements.

DEWINE, LAROSE, FABER SAY THE BALL IS IN THE LEGISLATURE'S COURT

Despite repeated calls for co-chairs of the Ohio Redistricting Commission to set meeting dates, the Republican and Democratic legislative members of the commission have made it abundantly clear that the ORC will not make any attempt to pass a congressional map before the October 31st deadline. The legislative leaders on the commission have stated that the purpose of the October 28th hearing is to hear comment on maps submitted by the public and will utilize this input as they move forward with the legislative process as outlined in the Ohio constitution. With those facts in mind, Governor Mike DeWine, Secretary of State Frank LaRose, and Auditor Keith Faber will not attend the public hearing recently scheduled for October 28th.

"We are disappointed that the legislative co-chairs of the Commission couldn't find a way for us to sit down and get to work to find compromise on a 10-year congressional map. Ohioans deserved better than this, and the inability by the co-chairs to even come to an agreement on meeting dates says a lot about where things stand. We hope the legislature can find a way to come to a compromise and approve a 10-year congressional map under the guidelines of the constitution and in the spirit of the amendment supported overwhelmingly by Ohio voters in 2018."

From [the Columbus Dispatch](#):

It's official: Ohio's congressional districts will be drawn by the GOP-controlled Legislature.

House Speaker Bob Cupp, R-Lima, said the seven-member Ohio Redistricting Commission ran out of time to approve a 10-year map for the state's 15 congressional districts. The commission will miss its Oct. 31 deadline – the second missed deadline for a congressional district map.

"It's apparent that it's not going to be possible to have congressional district maps drawn in time.

He asked me to write up something at the end that reiterates the call for a meeting. If this is good with you, we are going to push this to a couple members of the press corps who have expressed interest.

The following statement from Ohio Secretary of State Frank LaRose is pursuant to some members of the Ohio Redistricting Commission calling for another statewide tour instead of working to reach agreement on a 10-year congressional map:

In August, the Ohio Redistricting Commission listened to more than thirty hours of testimony from Ohio citizens who gave their general perspectives about what they wanted to see in both the General Assembly *and* congressional district plans following the overwhelming passage of constitutional amendments in 2015 and 2018 to reform the processes.

Unless and until the co-chairs call a meeting of the Commission to review maps and begin the hard work of negotiating, another road show would once again put the cart before the horse. Public input is the most valuable when we have something substantive for the public to consider. That only happens after coming together as a commission, developing and reviewing maps that meet the requirements of the constitution, and finding compromise.

After the upcoming holiday weekend, there are just 20 days left for Commissioners to come to an agreement on a bipartisan, ten-year congressional map. The Commission should set a goal of developing maps that can provide the public an honest opportunity to provide substantive input. A big lesson learned from our last experience is that we need every minute we can get to sit down together to consider proposed maps and negotiate in the hope of reaching a bipartisan consensus. This is particularly true as now the Commissioners must also take valuable time away from the task of working on a congressional map to answer questions from the 35 high-priced lawyers from California, New York, and Washington, D.C. who have sued the Commission.

To try and get a ten-year General Assembly map, I literally worked with some commission members up to the eleventh hour in an effort to find a bipartisan compromise. Unfortunately, the clock ran out. That doesn't have to happen again. Let's get to work.

I now reiterate the request made to the Commission co-chairs on October 4th to call a meeting so we may move forward in an effort to reach a bipartisan compromise on a 10-year congressional map.

Jon Keeling | Director of Communication

Sent on: Thursday, October 7, 2021 8:18:06 PM
To: Madrid, Merle<mmadrid@OhioSOS.Gov>; Keeling, Jon<jkeeling@OhioSOS.Gov>
Subject: statement

The Ohio Redistricting Commission has listened to more than thirty hours of testimony from all corners of the state, and I am grateful for the insights, concerns, and aspirations that were conveyed from the Ohioans who were genuinely troubled about gerrymandering, testified in the spirit of the constitutional amendments, and didn't have a vested stake in a political outcome. Unfortunately, far too many partisans, operatives and insiders exploited these hearings as a forum to wage wars to benefit their own parochial, political interests.

A valuable lesson learned from those regional hearings is that while helpful, the hearings sapped the Commission of the very limited time it had to work internally to try to reach a ten-year map. While two other Commission members and I literally worked to the eleventh hour in an effort to find a bipartisan compromise, our efforts were rebuffed and the clock ran out.

Now, the clock is ticking again, and the Commission has a mere three weeks to redraw congressional district lines. If the Commission is going to reach a consensus map by October 31, members of the commission must meet as soon as possible to begin the difficult negotiations and collaborative cooperation necessary to accomplish what is required by the constitution and what was overwhelmingly supported by Ohio voters. Additional, unnecessary regional meetings usurp the limited time Commissioners have to come to a bipartisan map agreement, and that time would be far better served by calling for an immediate Commission meeting to begin the negotiations.

?

Thank you, Chairwoman Gavarone, Vice-Chair O'Brien, Ranking Member Maharath and members of the Local Government and Elections Committee for allowing me to present testimony today for Substitute Senate Bill 258. After considering multiple maps presented by Democrat and Republican Caucuses in both the House and the Senate, we offer this map that is not only constitutionally compliant, but the most competitive map offered by any caucus to date. It is also a map that splits the least counties of any map offered by any caucus, keeps Ohio's largest cities whole, installs compact districts and implements many of the requested changes we heard in testimony.

Article 19, Section 2(B)(5) of the Ohio Constitution describes the process that must be followed when splitting counties in a congressional map. In essence, a map may have up to 23 split counties with up to 18 being split once and up to five being split twice. This map splits only 12 counties with only two of those counties being split twice. The counties that are split once are Clark, Fairfield, Franklin, Holmes, Lorain, Ross, Shelby, Summit, Washington and Wood. The Counties split twice are Hamilton and Cuyahoga. Notably, for the first time since the map passed thirty years ago, Lucas County will be whole and for the first time since the map passed twenty years ago Stark County will be whole. The impact on several of Ohio's other large counties is also minimized by Franklin and Summit County having the least splits since the maps passed thirty years ago. Finally, the map complies with Article 19, Section 2(B)(8) by including an entire county in each district where possible. If passed, this map would have the least counties split in over fifty years. Additionally, this map splits two less counties than both the House and Senate Democrat proposals.

Since the introduction of SB258, we have maintained that it is important to keep Ohio's largest cities whole. With exception to Columbus, which must be split under the Constitution and cities that straddle county lines and, therefore, do not count as a split under the Constitution, 98 of Ohio's 100 largest cities are kept whole in this map (Rocky River, Cuyahoga Falls). In total, only eight townships and six municipalities are split in this proposed map, which more than adequately complies with Article 19, Section 1(C)(3)(b)'s requirement that the general assembly not unduly split governmental units.

Article 19, Section 2(B)(2) also requires that districts be compact. This requirement is not applicable to a four-year map, however, under Section 1(C)(3)(c). In such an instance, the general assembly shall attempt, but is not required to draw compact districts. Nevertheless, the districts presented before you are compact.

Finally, the map before you is the most competitive map offered by any caucus to date and the most competitive Ohio congressional map in decades. Ohio is subject to swings in voter preferences, particularly in federal elections. Even though, with exception to 2006, Republicans have swept every election for statewide constitutional office since 1994, Ohio has voted for a both a Democrat and a Republican for President in the past four presidential elections and continues to be represented by both a Democrat and Republican in the United States Senate. Clearly, Ohioans are bifurcating between federal and state elections and issues. Therefore, because the map before you is for United States Congressional districts, it makes sense to judge competitiveness based upon statewide federal elections over the last ten years. This allows us to capture the true nature of Ohio's voting tendencies in federal elections and to insulate from outliers. When evaluating these districts in the federal statewide context and defining a competitive district as one with a 46%-54% Republican index, this map has six seats that lean Republican, seven seats that are competitive and two seats that lean Democrat. The indexes are as follows:

| Congressional District # | Population | Deviation | Federal Statewide Elections 2012-2020 |
|---------------------------------|-------------------|------------------|--|
| 1 | 786,630 | 0 | 51.5 |
| 2 | 786,630 | 0 | 65.1 |
| 3 | 786,630 | 0 | 30.4 |
| 4 | 786,630 | 0 | 66.0 |
| 5 | 786,630 | 0 | 58.8 |
| 6 | 786,629 | -1 | 52.9 |
| 7 | 786,630 | 0 | 56.7 |
| 8 | 786,630 | 0 | 62.0 |
| 9 | 786,630 | 0 | 47.7 |
| 10 | 786,630 | 0 | 52.2 |

| 14 | 786,630 | 0 | 53.2 |
| 15 | 786,630 | 0 | 53.7 |

Article 19, Section 1(C)(3)(a) states that a map shall not unduly favor or disfavor a party or its incumbents. No sporting event should ever favor or disfavor a team by some predetermined score before either team walks on the field. A congressional map should not be judged to favor or disfavor either party that way either. Rather, it should be judged based upon how many districts are going to be determined by the various important issues and candidates in that election. This map embodies that belief by ensuring a plurality of the districts will be competitive in any given cycle. Its seven competitive districts are two more than any House or Senate Democrat proposal and five more than the map passed in 2011. Further, this map neither favors or disfavors either party's incumbents. It accomplishes this by only combining two incumbents, who are required to be combined through the prohibition against splitting Cincinnati.

The map before you complies with the requirements placed upon the General Assembly under the Ohio Constitution. It is the product of a deliberate effort to draw compact districts, minimize county splits, keep Ohio's largest cities whole and ensure a plurality of Ohio's congressional districts will be competitive. Thank you Chairwoman Gavarone, Vice-Chair O'Brien, Ranking Member Sykes and members of the Local Government and Elections Committee for allowing me to present testimony on Substitute Senate Bill 258 and the proposed congressional district map contained therein. I would be happy to take any questions.

Can I share the senate post about 258 on your page?

McKenzie >

Can I share the senate post about 258 on your page?

Yes

"I'm proud to have done my part during this important process."

Is that quote fine for the post?

I'm proud to have helped pass a map with districts that are competitive, compact and constitutionally compliant.

the public to weigh in on it.

The Ohio Senate Republicans unveiled a proposed congressional district map. It is expected to be approved this week, though it's unclear whether Democrats will support it. *Contributed*

Senate Republicans said in a press release

Interesting new map.
 Let me know if you think about the
 new district . I'll help you anyway
 way I can.

Thanks, Phil. Sorry I'm just getting to this. It's been a busy week. I have some thinking to do, that's for sure.

No problem. I'm sure you've been busy finishing the redistricting. Everyone has an opinion.. Impossible to make everyone happy while staying with rules you need to follow. The maps make sense to me. Let's hope they hold up. Thanks Rob.

Ohio Senate
Senate Building
1 Capitol Square
Columbus, Ohio 43215
(614) 466-8150

Rob McColley
Senate Majority Whip
1st Senate District

Thank you, Chairwoman Gavarone, Vice-Chair O'Brien, Ranking Member Maharath and members of the Local Government and Elections Committee for allowing me to present testimony today for Substitute Senate Bill 258. After considering multiple maps presented by Democrat and Republican Caucuses in both the House and the Senate, and listening to the public's input on all of those maps, we offer this map that is not only constitutionally compliant, but the most competitive map offered by any caucus to date. It is also a map that splits the least counties of any map offered by any caucus, keeps Ohio's largest cities whole, installs compact districts and implements many of the requested changes we heard in testimony.

Article 19, Section 2(B)(5) of the Ohio Constitution describes the process that must be followed when splitting counties in a congressional map. In essence, a map may have up to 23 split counties with up to 18 being split once and up to five being split twice. This map splits only 12 counties with only two of those counties being split twice. The counties that are split once are Clark, Fairfield, Franklin, Holmes, Lorain, Ross, Shelby, Summit, Washington and Wood. The Counties split twice are Hamilton and Cuyahoga. Notably, for the first time since the map passed thirty years ago, Lucas County will be whole and for the first time since the map passed twenty years ago Stark County will be whole. The impact on several of Ohio's other large counties is also minimized by Franklin and Summit County having the least splits since the maps passed thirty years ago. Finally, the map complies with Article 19, Section 2(B)(8) by including an entire county in each district where possible. If passed, this map would have the least counties split in over fifty years. Additionally, this map splits two less counties than both the House and Senate Democrat proposals.

Since the introduction of SB258, we have maintained that it is important to keep Ohio's largest cities whole. With exception to Columbus, which must be split under the Constitution and cities that straddle county lines and, therefore, do not count as a split under the Constitution, 98 of Ohio's 100 largest cities are kept whole in this map (Rocky River, Cuyahoga Falls). In total, only eight townships and six municipalities are split in this proposed map, which more than adequately complies with Article 19, Section 1(C)(3)(b)'s requirement that the general assembly not unduly split governmental units.

Article 19, Section 2(B)(2) also requires that districts be compact. This requirement is not applicable to a four-year map, however, under Section 1(C)(3)(c). In such an instance, the

general assembly shall attempt, but is not required to draw compact districts. Nevertheless, the districts presented before you are compact.

Finally, the map before you is the most competitive map offered by any caucus to date and the most competitive Ohio congressional map in decades. Ohio is subject to swings in voter preferences, particularly in federal elections. Even though, with exception to 2006, Republicans have swept every election for statewide constitutional office since 1994, Ohio has voted for a both a Democrat and a Republican for President in the past four presidential elections and continues to be represented by both a Democrat and Republican in the United States Senate. Clearly, Ohioans are bifurcating between federal and state elections and issues. Therefore, because the map before you is for United States Congressional districts, it makes sense to judge competitiveness based upon statewide federal elections over the last ten years. This allows us to capture the true nature of Ohio’s voting tendencies in federal elections and to insulate from outliers. When evaluating these districts in the federal statewide context and defining a competitive district as one with a 46%-54% Republican index, this map has six seats that lean Republican, seven seats that are competitive and two seats that lean Democrat. The indexes are as follows:

| Congressional District # | Population | Deviation | Federal Statewide Elections 2012-2020 |
|---------------------------------|-------------------|------------------|--|
| 1 | 786,630 | 0 | 51.5 |
| 2 | 786,630 | 0 | 65.1 |
| 3 | 786,630 | 0 | 30.4 |
| 4 | 786,630 | 0 | 66.0 |
| 5 | 786,630 | 0 | 58.8 |
| 6 | 786,629 | -1 | 52.9 |
| 7 | 786,630 | 0 | 56.7 |
| 8 | 786,630 | 0 | 62.0 |
| 9 | 786,630 | 0 | 47.7 |
| 10 | 786,630 | 0 | 52.2 |
| 11 | 786,630 | 0 | 19.4 |
| 12 | 786,629 | -1 | 61.3 |
| 13 | 786,630 | 0 | 48.6 |
| 14 | 786,630 | 0 | 53.2 |
| 15 | 786,630 | 0 | 53.7 |

Article 19, Section 1(C)(3)(a) states that a map shall not unduly favor or disfavor a party or its

incumbents. No sporting event should ever favor or disfavor a team by some predetermined final score before either team walks on the field. A congressional map should not be judged to favor or disfavor either party that way either. Rather, it should be judged based upon how many districts are going to be determined by the various important issues and candidates in that election. This map embodies that belief by ensuring a plurality of the districts will be competitive in any given cycle. Its seven competitive districts are two more than any House or Senate Democrat proposal and five more than the map passed in 2011. Further, this map neither favors nor disfavors either party's incumbents. It accomplishes this by only combining two incumbents, who are required to be combined through the prohibition against splitting Cincinnati.

The map before you complies with the requirements placed upon the General Assembly under the Ohio Constitution. It is the product of a deliberate effort to draw compact districts, minimize county splits, keep Ohio's largest cities whole and ensure a plurality of Ohio's congressional districts will be competitive. Thank you Chairwoman Gavarone, Vice-Chair O'Brien, Ranking Member Maharath and members of the Local Government and Elections Committee for allowing me to present testimony on Substitute Senate Bill 258 and the proposed congressional district map contained therein. I would be happy to take any questions.

POLICY MEMO FOR:
“CONGRESSIONAL REDISTRICTING”

S.B. 258

Updated November 16, 2021 to reflect the bill’s latest status:

AS REPORTED BY SENATE LOCAL GOVERNMENT AND ELECTIONS COMMITTEE

Sponsor(s)

McColley

Cosponsor(s)

What to Know

- Article 19 of the Ohio Constitution, approved by the voters in 2018, dictates the process by which congressional redistricting shall occur in Ohio.
- Under Article 19, the Ohio General Assembly is tasked with passing a bill to draw new congressional maps by November 30 if a map has not previously been approved by the General Assembly (by September 30) or the Ohio Redistricting Commission (by October 31).
- Senate Bill 258 seeks to fulfill the Ohio Legislature’s constitutional responsibility to enact congressional maps.

The Bottom Line

- Senate Bill 258 establishes new congressional districts, fulfilling the legislature’s constitutional responsibility.

Bill History

- 10/27/21 – Introduced in Senate
- 11/16/21 – Reported by Senate Local Gov Committee (5-2)

Substitute Senate Bill 258: A Congressional Redistricting Plan

Highlights and Key Facts

For at least the next decade, Ohio will have fifteen Representatives to Congress, down from sixteen over the past decade. Ohio's population is 11,799,448 and when divided by fifteen equals 786,629.8. To achieve the lowest deviation from 786,629.8, the plan consists of thirteen congressional districts with a population of 786,630 and two congressional districts (Congressional District 6 and Congressional District 12) with a population of 786,629.

The Ohio Constitution clarifies county subdivision boundaries that perforate multiple counties are considered to be separate subdivisions and are not split. Example: Dublin City exists in three counties -- Franklin, Delaware and Union. All three portions of Dublin can be in three different congressional districts and is not considered to be split. The same applies to any noncontiguous portions of a subdivision.

It is important to note that the language referencing statewide partisan elections over the last decade in Article XI, section 6, (B), part of the rules for drawing a legislative redistricting plan does not exist in Article XIX or apply to drawing congressional district plans. Substitute Senate Bill 258 complies with all mandatory requirements of Article XIX of the Ohio Constitution and the Voting Rights Act. The plan also achieves certain aspirational sections of Article XIX.

Article XIX requirements for drawing Congressional Districts

- Article XIX, section 2, (B)(4)(a), specifies a congressional district plan shall attempt to include a "significant" portion of any municipal corporation or township in a single congressional district that qualifies with the criteria in that section, which today only applies to Columbus.
- In determining the population of Columbus, this section specifies that county subdivisions circumscribed by the jurisdiction are to be included in the population count.
- Article XIX, section 2 (B)(4)(b), which today applies to Cleveland and Cincinnati, specifies that neither city may be split into more than one congressional district.
- Article XIX, section 2 (B)(5) requires 65 counties be wholly contained in a congressional district and permits eighteen counties to be split once (meaning a portion of the county boundary is included in two congressional districts) and five counties may be split twice (meaning a portion of the county boundary is included in three congressional districts).
- Congressional districts shall be contiguous and compactness shall be attempted.
- If a congressional district contains territory within a split county, the territory within that county must be contiguous.
- No two congressional districts can share territory of more than one county, except for counties with population over 400,000. This rule does not apply to the following counties -- Franklin, Cuyahoga, Hamilton, Summit, Montgomery and Lucas.
- The authority drawing congressional districts shall attempt to include at least one whole county in each congressional district, except for congressional districts wholly contained within one county or that cannot be drawn in that manner while complying with federal law.
- If passed with a simple majority vote, the plan shall not unduly favor or disfavor a political party or its incumbents.
- The plan shall not unduly split governmental units, giving preference to counties, and then townships and municipal corporations.

County and Political Subdivision Splits

- Three counties - Franklin, Cuyahoga and Hamilton - all of which have a population greater than one ratio of representation - must be split due to population requirements.
- Sub. Senate Bill 258 includes 76 whole counties and 12 split counties, with two counties split between three congressional districts (Cuyahoga and Hamilton).
- The map approved in 2011 split 23 counties total, with 2 counties split between four congressional districts and 5 counties split between three congressional districts.
- Each congressional district that is not wholly contained in a single county includes at least one whole county within the congressional district boundary.
- Sub. Senate Bill 258 splits less counties than the House Democrat proposal, Senate Democrat proposal and the contest winner map.
- Sub. Senate Bill 258 splits 14 subdivisions – the House Democrat plan split 21 subdivisions.
- Sub. Senate Bill 258 splits the below counties and subdivisions
 - *Clark County: Mad River Township*
 - *Cuyahoga County: Rocky River and Oakwood*
 - *Fairfield County: Columbus (counts as a split because the city boundary within the county is split between two congressional districts)*
 - *Franklin County: Columbus*
 - *Hamilton County: Glendale and Sycamore Township*
 - *Holmes County: Berlin Township*
 - *Lorain County: Columbia Township*
 - *Ross County: Union Township*
 - *Shelby County: Green Township*
 - *Summit County: Cuyahoga Falls*
 - *Washington County: Belpre Township*
 - *Wood County: Perrysburg Township*

Urban Cities

- *Columbus*: Approximately 70 percent of Columbus and the subdivisions circumscribed by Columbus, is within Congressional District 3, with a small portion within Congressional District 15. Columbus is larger than one ratio of representation and must be split into at least two congressional districts.
 - A higher percentage than both democrat proposals.
- *Cleveland*: Wholly contained within Congressional District 11.
- *Cincinnati*: Wholly contained within Congressional District 1.
- *Akron*: Wholly contained within Congressional District 13.
- *Dayton*: Wholly contained within Congressional District 10.
- *Toledo*: Wholly contained within Congressional district 9.

Ten-year Election Results, Partisan Leanings and Incumbents

Ten-year Election Results

- The below statistics were developed using statewide federal election data over the last ten years.
 - Presidential races in 2012 (**Obama** vs Romney), 2016 (**Trump** vs Clinton) and 2020 (**Trump** vs Biden)
 - US Senate Races in 2012 (**Brown** vs Mandel), 2016 (**Portman** vs Strickland) and 2018 (**Brown** vs Renacci)

Note: Prior election results do not guarantee future election outcomes

Partisan Leanings

- Sub. Senate Bill 258 could create six republican leaning congressional districts, seven competitive congressional districts and two democrat leaning congressional districts.
- Congressional districts are considered competitive if the district leans politically toward one party by four percent or less.
- Congressional Districts 2, 4, 5, 7, 8 and 12 could lean republican by 54 percent or more.
- Congressional Districts 1, 6, 9, 10, 13, 14, and 15 could lean +/- four percent.
- Congressional Districts 3 and 11 could lean democrat by 54 percent or more.
- Sub. Senate Bill 258 would create more competitive congressional districts than any proposal introduced in the General Assembly.

Incumbents

- Cincinnati must be whole and two incumbents live within city limits. Each proposed congressional plan introduced pairs those two incumbents.
- Otherwise, Sub. Senate Bill 258 would not pair any republican or democrat incumbent (that is assumed to be running for reelection to Congress) into a single congressional district.

Chairman Wilkin, Vice-Chair White, Ranking Member Brown and members of the committee, thank you for the opportunity to present a substitute version of House Bill 479, a congressional redistricting plan. Provided with my testimony is an image of the full plan, close ups of urban counties with geographic boundaries of cities, townships and villages, and a block assignment file – which should be on your iPad and on the committee website.

As you know, Ohio voters and the General Assembly partnered to pass and approve constitutional reforms to Ohio's redistricting process and, ultimately, the makeup of future redistricting plans. I am happy to share with you today, a congressional redistricting plan that meets all mandatory requirements of Article XIX of the Ohio Constitution. The plan also achieves certain aspirational sections of Article XIX.

I'd like to share with you highlights of the proposal.

Congressional District Population

This past decade, Ohio's population grew at a slower pace compared to the rest of the country. For at least the next decade, Ohio will have fifteen Representatives to Congress, down from sixteen over the past decade. Ohio's population is 11,799,448 and when divided by fifteen equals 786,629.8. To achieve the lowest deviation from 786,629.8, the plan before you consists of thirteen districts with a population of 786,630 and two districts with a population of 786,629.

Columbus, Cleveland and Cincinnati

Article XIX, section 2, (B)(4)(a), specifies a congressional district plan shall attempt to include a “significant” portion of any municipal corporation or township in a single district that qualifies with the criteria in that section, which today only applies to Columbus. In determining the population of Columbus, this section specifies that county subdivisions circumscribed by the jurisdiction are to be included in the population count. I am proud to say approximately 70 percent of Columbus is within one congressional district, a percentage cited in public testimony before the Ohio Redistricting Commission.

Article XIX, section 2 (B)(4)(b), which today applies to Cleveland and Cincinnati, specifies that neither city may be split into more than one congressional district. The plan before you complies with this section. Cincinnati is wholly contained in Congressional District 1 and Cleveland is wholly contained in Congressional District 11.

County and County Subdivision Splits

Section 2, (B)(5) of Article XIX requires 65 counties be wholly contained in a congressional district and permits eighteen counties to be split once (meaning a portion of the county boundary is included in two districts) and five counties may be split twice (meaning a portion of the county boundary is included in three districts). The plan before you is constructed with 75 whole counties and thirteen split counties.

Three counties -- Franklin, Cuyahoga and Hamilton -- all of which have a population greater than one ratio -- must be split due to population requirements. Another aspect of this proposal that I am proud of is all fifteen congressional districts consist, in part, of a least one whole county. The congressional district plan in place today splits 23 counties, with two counties being split into four congressional districts.

Substitute House Bill 479 splits sixteen subdivisions, mainly due to the balancing of districts down to the person, which is about half the number of subdivision splits that exist in the current congressional map.

Split Counties and Subdivisions in this proposal include

| | |
|------------------|--|
| Ashtabula County | Sheffield Township |
| Clark County | Springfield Township |
| Cuyahoga County | Highland Heights Middleburg Heights |
| Darke County | Mississinawa Township |
| Fairfield County | Clearcreek Township |
| Franklin County | Columbus (required due to population being greater than one ratio) |
| Hamilton County | Evandale Whitewater Township |
| Hardin County | Blanchard Township |
| Lorain County | Huntington Township |
| Lucas County | Toledo |
| Stark County | Pike Township |
| Summit County | Akron |

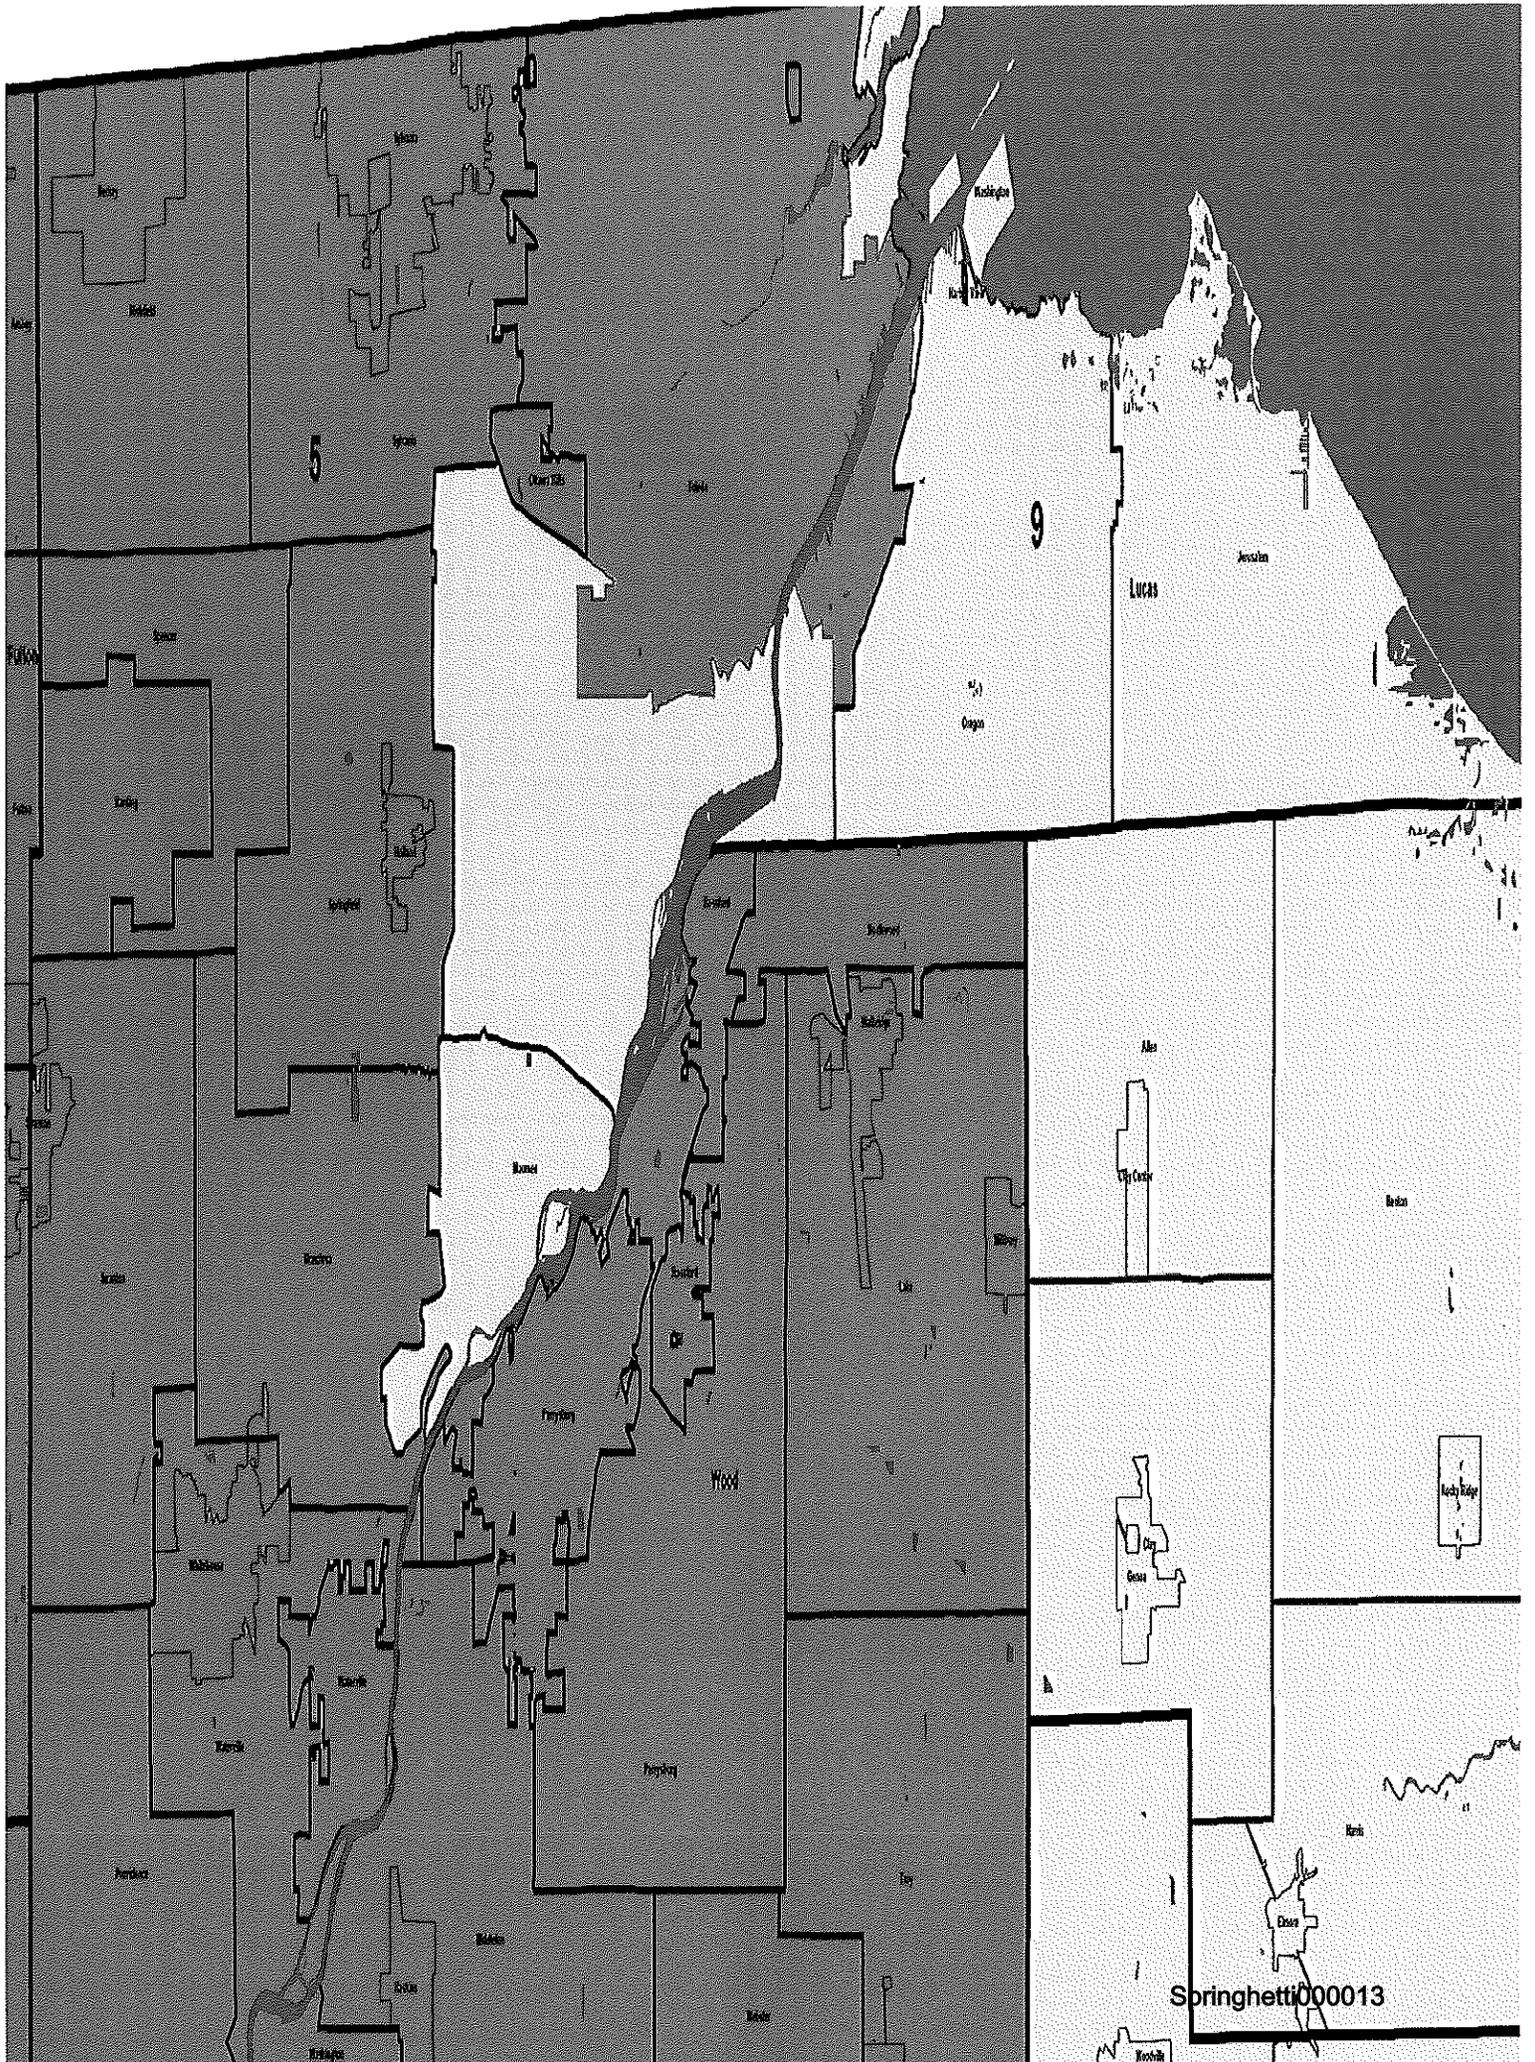

Trumbull County

Braceville Township

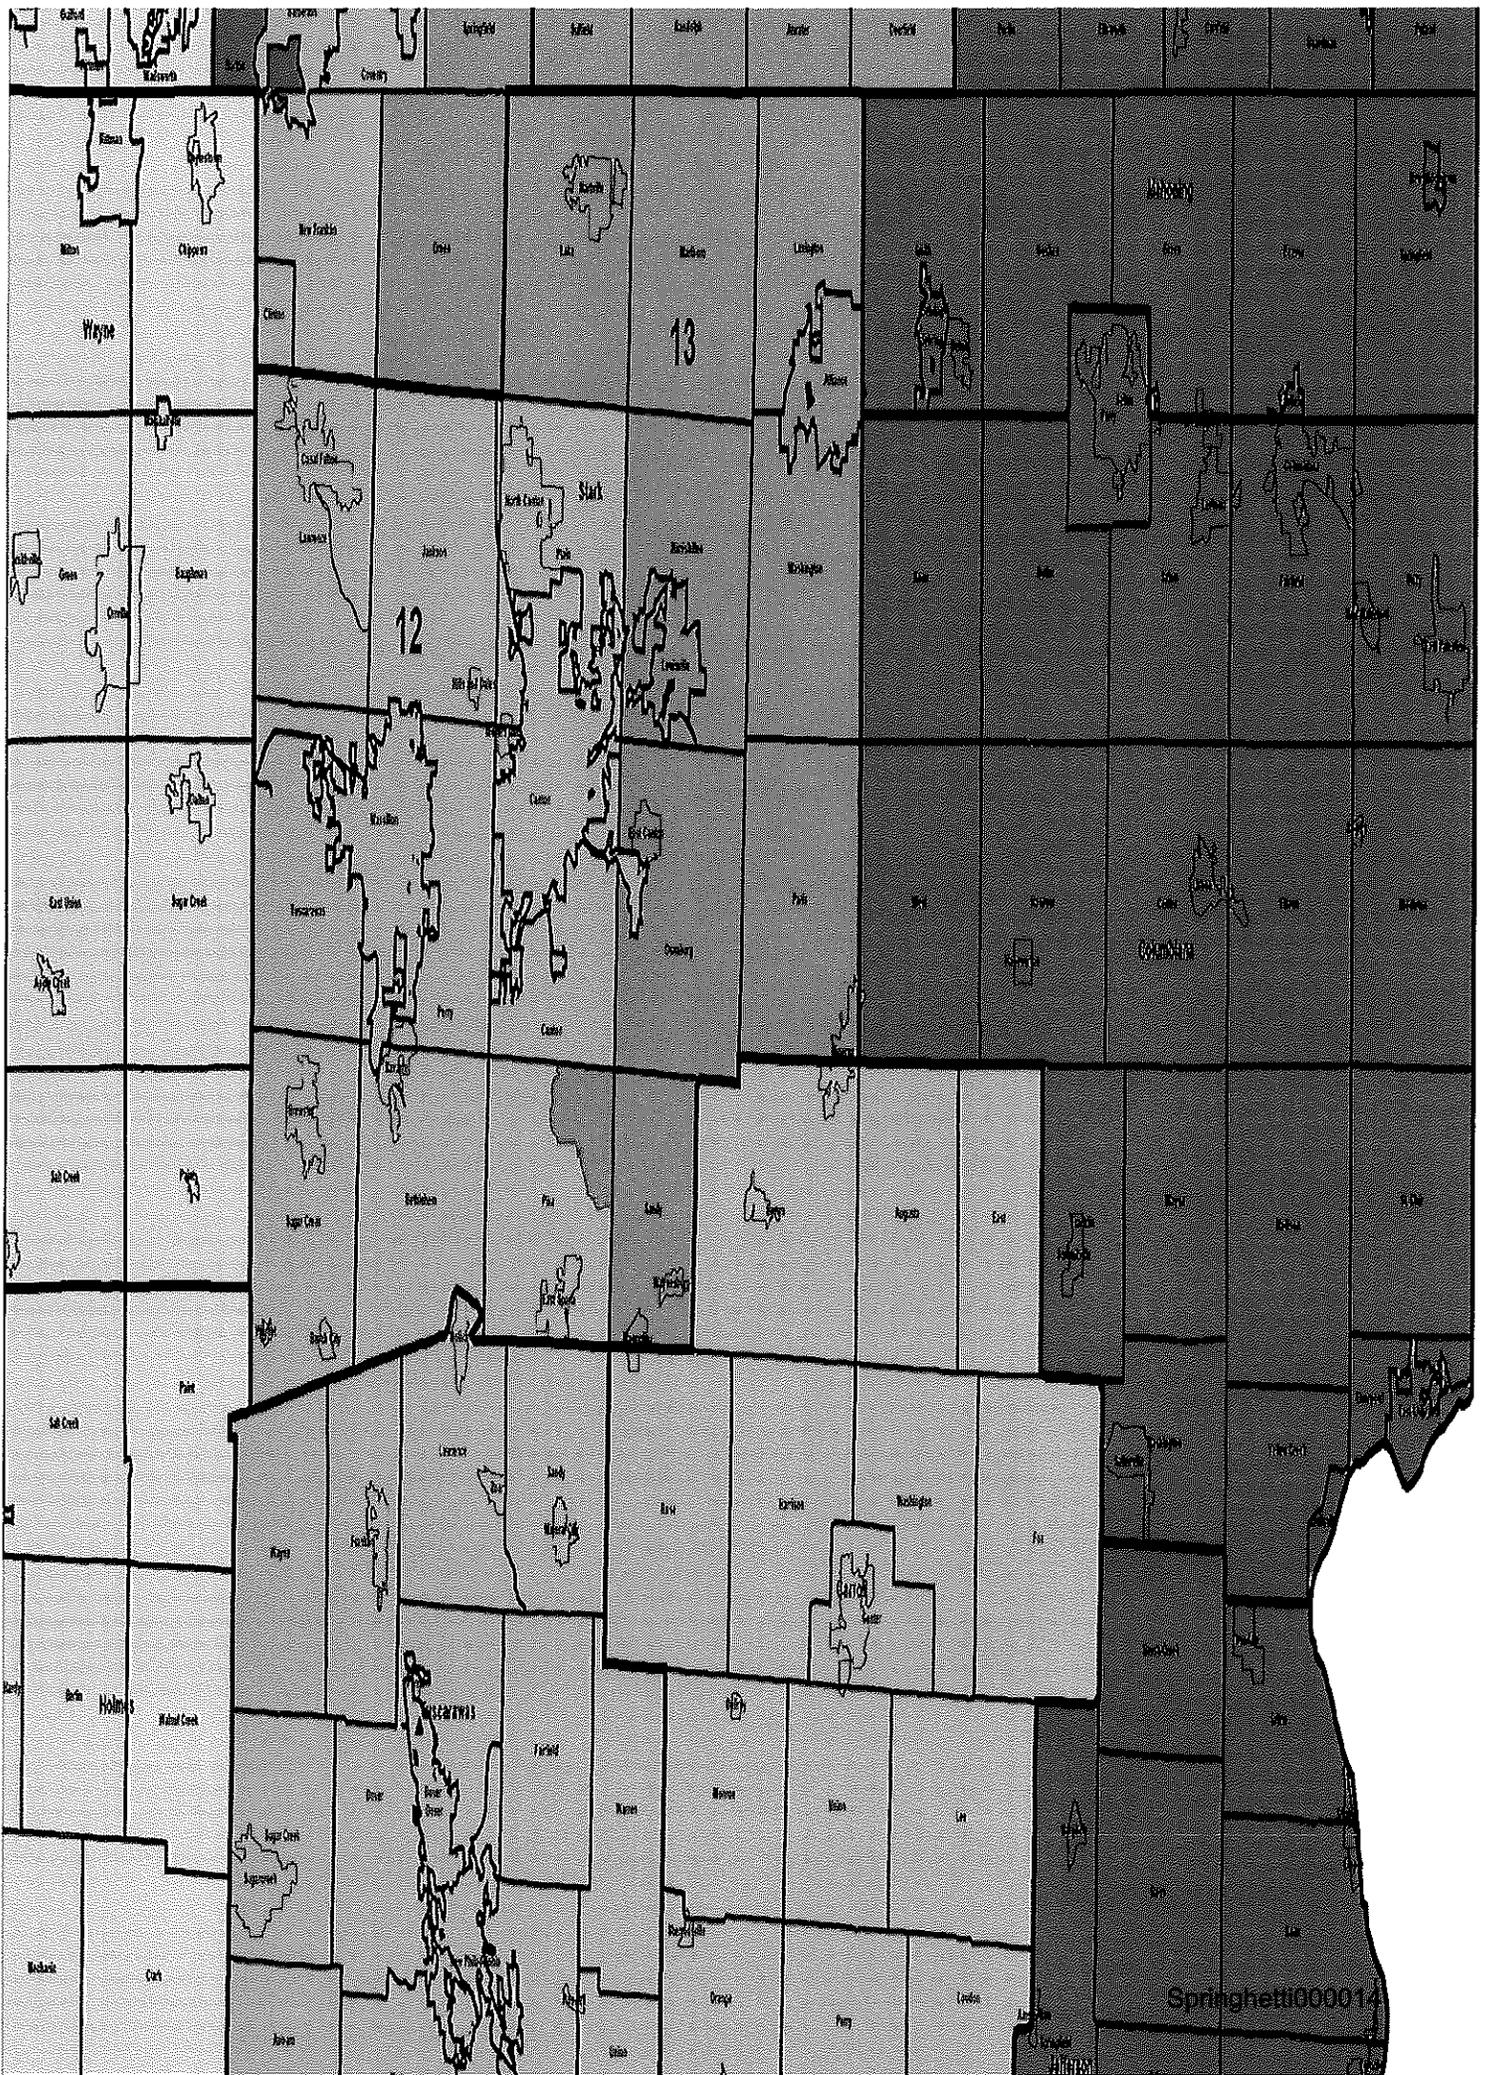

Niles

It is important to note, the Ohio Constitution clarifies subdivision boundaries that perforate multiple counties are considered to be separate subdivisions and are not split. The same applies to any noncontiguous portions of a subdivision.

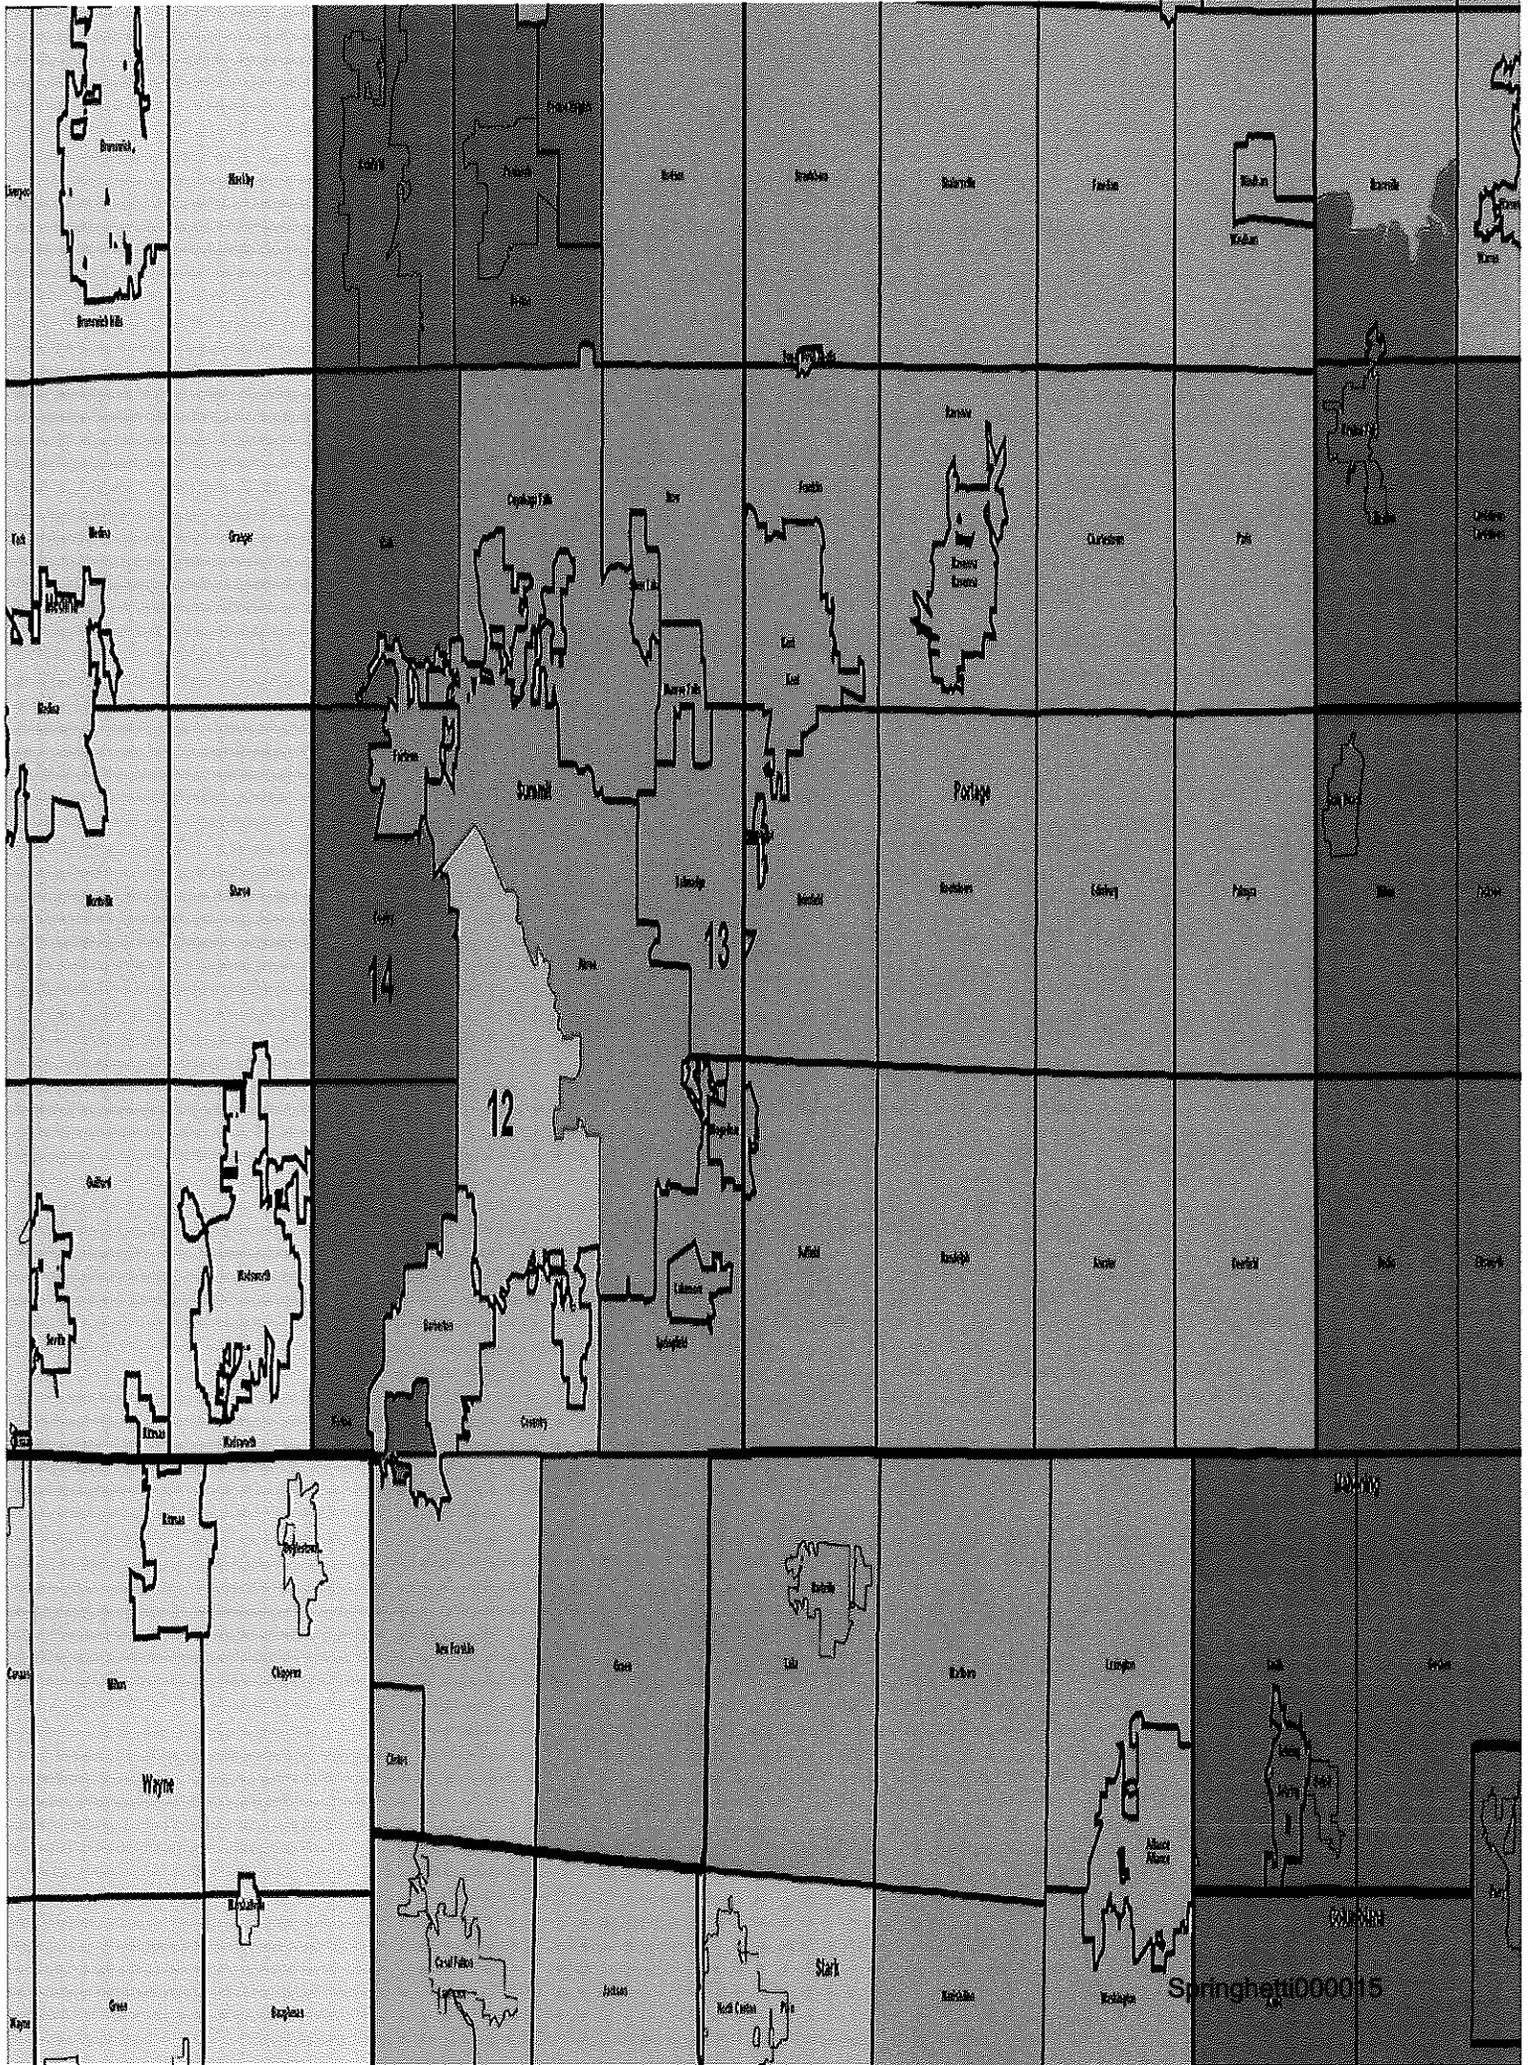

Substitute House Bill 479 is a constitutionally compliant congressional plan, which is always the primary factor, but also a plan that focuses on maintaining whole communities within congressional districts. Thank you for the opportunity to testify. I am happy to answer any questions.

Springhetti000013

Springhetti000014

Substitute Senate Bill 258: A Congressional Redistricting Plan

Highlights and Key Facts

For at least the next decade, Ohio will have fifteen Representatives to Congress, down from sixteen over the past decade. Ohio's population is 11,799,448 and when divided by fifteen equals 786,629.8. To achieve the lowest deviation from 786,629.8, the plan consists of thirteen congressional districts with a population of 786,630 and two congressional districts (Congressional District 6 and Congressional District 12) with a population of 786,629.

The Ohio Constitution clarifies county subdivision boundaries that perforate multiple counties are considered to be separate subdivisions and are not split. Example: Dublin City exists in three counties -- Franklin, Delaware and Union. All three portions of Dublin can be in three different congressional districts and is not considered to be split. The same applies to any noncontiguous portions of a subdivision.

It is important to note that the language referencing statewide partisan elections over the last decade in Article XI, section 6, (B), part of the rules for drawing a legislative redistricting plan does not exist in Article XIX or apply to drawing congressional district plans. Substitute Senate Bill 258 complies with all mandatory requirements of Article XIX of the Ohio Constitution and the Voting Rights Act. The plan also achieves certain aspirational sections of Article XIX.

Article XIX requirements for drawing Congressional Districts

- Article XIX, section 2, (B)(4)(a), specifies a congressional district plan shall attempt to include a "significant" portion of any municipal corporation or township in a single congressional district that qualifies with the criteria in that section, which today only applies to Columbus.
- In determining the population of Columbus, this section specifies that county subdivisions circumscribed by the jurisdiction are to be included in the population count.
- Article XIX, section 2 (B)(4)(b), which today applies to Cleveland and Cincinnati, specifies that neither city may be split into more than one congressional district.
- Article XIX, section 2 (B)(5) requires 65 counties be wholly contained in a congressional district and permits eighteen counties to be split once (meaning a portion of the county boundary is included in two congressional districts) and five counties may be split twice (meaning a portion of the county boundary is included in three congressional districts).
- Congressional districts shall be contiguous and compactness shall be attempted.
- If a congressional district contains territory within a split county, the territory within that county must be contiguous.
- No two congressional districts can share territory of more than one county, except for counties with population over 400,000. This rule does not apply to the following counties -- Franklin, Cuyahoga, Hamilton, Summit, Montgomery and Lucas.
- The authority drawing congressional districts shall attempt to include at least one whole county in each congressional district, except for congressional districts wholly contained within one county or that cannot be drawn in that manner while complying with federal law.
- If passed with a simple majority vote, the plan shall not unduly favor or disfavor a political party or its incumbents.
- The plan shall not unduly split governmental units, giving preference to counties, and then townships and municipal corporations.

County and Political Subdivision Splits

- Three counties - Franklin, Cuyahoga and Hamilton - all of which have a population greater than one ratio of representation - must be split due to population requirements.
- Sub. Senate Bill 258 includes 76 whole counties and 12 split counties, with two counties split between three congressional districts (Cuyahoga and Hamilton).
- The map approved in 2011 split 23 counties total, with 2 counties split between four congressional districts and 5 counties split between three congressional districts.
- Each congressional district that is not wholly contained in a single county includes at least one whole county within the congressional district boundary.
- Sub. Senate Bill 258 splits less counties than the House Democrat proposal, Senate Democrat proposal and the contest winner map.
- Sub. Senate Bill 258 splits 14 subdivisions – the House Democrat plan split 21 subdivisions.
- Sub. Senate Bill 258 splits the below counties and subdivisions
 - *Clark County: Mad River Township*
 - *Cuyahoga County: Rocky River and Oakwood*
 - *Fairfield County: Columbus (counts as a split because the city boundary within the county is split between two congressional districts)*
 - *Franklin County: Columbus*
 - *Hamilton County: Glendale and Sycamore Township*
 - *Holmes County: Berlin Township*
 - *Lorain County: Columbia Township*
 - *Ross County: Union Township*
 - *Shelby County: Green Township*
 - *Summit County: Cuyahoga Falls*
 - *Washington County: Belpre Township*
 - *Wood County: Perrysburg Township*

Urban Cities

- *Columbus*: Approximately 70 percent of Columbus and the subdivisions circumscribed by Columbus, is within Congressional District 3, with a small portion within Congressional District 15. Columbus is larger than one ratio of representation and must be split into at least two congressional districts.
 - A higher percentage than both democrat proposals.
- *Cleveland*: Wholly contained within Congressional District 11.
- *Cincinnati*: Wholly contained within Congressional District 1.
- *Akron*: Wholly contained within Congressional District 13.
- *Dayton*: Wholly contained within Congressional District 10.
- *Toledo*: Wholly contained within Congressional district 9.

Ten-year Election Results, Partisan Leanings and Incumbents

Ten-year Election Results

- The below statistics were developed using statewide federal election data over the last ten years.
 - Presidential races in 2012 (**Obama** vs Romney), 2016 (**Trump** vs Clinton) and 2020 (**Trump** vs Biden)
 - US Senate Races in 2012 (**Brown** vs Mandel), 2016 (**Portman** vs Strickland) and 2018 (**Brown** vs Renacci)

| District | Population | Deviation | FED Election Data |
|----------|------------|-----------|-------------------|
| 1 | 786,630 | 0 | 51.5 |
| 2 | 786,630 | 0 | 65.1 |
| 3 | 786,630 | 0 | 30.4 |
| 4 | 786,630 | 0 | 66.0 |
| 5 | 786,630 | 0 | 58.8 |
| 6 | 786,629 | -1 | 52.9 |
| 7 | 786,630 | 0 | 56.7 |
| 8 | 786,630 | 0 | 62.0 |
| 9 | 786,630 | 0 | 47.7 |
| 10 | 786,630 | 0 | 52.2 |
| 11 | 786,630 | 0 | 19.4 |
| 12 | 786,629 | -1 | 61.3 |
| 13 | 786,630 | 0 | 48.6 |
| 14 | 786,630 | 0 | 53.2 |
| 15 | 786,630 | 0 | 53.7 |

Note: Uses Federal election data from Presidential and U.S. Senate races between 2012 and 2020

Note: Prior election results do not guarantee future election outcomes

Partisan Leanings

- Sub. Senate Bill 258 could create six republican leaning congressional districts, seven competitive congressional districts and two democrat leaning congressional districts.
- Congressional districts are considered competitive if the district leans politically toward one party by four percent or less.
- Congressional Districts 2, 4, 5, 7, 8 and 12 could lean republican by 54 percent or more.
- Congressional Districts 1, 6, 9, 10, 13, 14, and 15 could lean +/- four percent.
- Congressional Districts 3 and 11 could lean democrat by 54 percent or more.
- Sub. Senate Bill 258 would create more competitive congressional districts than any proposal introduced in the General Assembly.

Incumbents

- Cincinnati must be whole and two incumbents live within city limits. Each proposed congressional plan introduced pairs those two incumbents.
- Otherwise, Sub. Senate Bill 258 would not pair any republican or democrat incumbent (that is assumed to be running for reelection to Congress) into a single congressional district.

Substitute Senate Bill 258: A Congressional Redistricting Plan

Highlights and Key Facts

County Splits

- Sub. Senate Bill 258 includes 76 whole counties, which is more whole counties than any Ohio congressional plan approved in over 50 years.
- Sub. Senate Bill 258 splits less counties than the House Democrat proposal and Senate Democrat proposal.
- The Ohio Constitution allows for 23 split counties, this plan splits only 12.
- The map approved in 2011 split 23 counties.
- Each congressional district that is not wholly contained in a single county includes at least one whole county within the congressional district boundary.

County Subdivisions Splits

- Sub. Senate Bill 258 splits 14 subdivisions – the House Democrat plan split 21 subdivisions.
- *Columbus*: Approximately 70 percent of Columbus and the subdivisions circumscribed by Columbus, is within Congressional District 3. Columbus is larger than one ratio of representation and must be split into at least two congressional districts.
 - *A higher percentage than both democrat proposals.*
- *Cleveland*: First split in congressional plans dating back to the late 1800s, Cleveland is wholly contained within Congressional District 11.
- *Cincinnati*: Wholly contained within one congressional district for the first time in over 100 years.
- *Akron*: Currently divided into two congressional districts, is wholly contained within Congressional District 13.
- *Dayton*: Wholly contained within Congressional District 10 and is paired with Wright-Patterson Air Force Base.
- *Toledo*: Currently divided into two congressional districts, is wholly contained within Congressional district 9.
- Only three of the top one-hundred most populous cities are split.

Partisan Leanings

- Sub. Senate Bill 258 could create six republican leaning congressional districts, seven competitive congressional districts and two democrat leaning congressional districts.
- Under this plan, in a good election year in which republicans recruit good candidates, republicans can win more than eleven of fifteen districts.
- Sub. Senate Bill 258 would create more competitive congressional districts than any proposal introduced in the General Assembly.
- In the House democrat proposal, eight of fifteen congressional districts would favor one political party by over 60 percent.

Incumbents

- The House democrat proposal paired seven of twelve republican incumbents, clearly unduly disfavoring republican incumbents.
- Cincinnati must be whole and two incumbents live within city limits. Each proposed congressional plan introduced pairs those two incumbents.
- Otherwise, Sub. Senate Bill 258 would *not* pair any republican or democrat incumbent (that is assumed to be running for reelection to Congress) into a single congressional district.

Proposed Congressional Redistricting Plan

Highlights and Key Facts

For at least the next decade, Ohio will have fifteen Representatives to Congress, down from sixteen over the past decade. Ohio's population is 11,799,448 and when divided by fifteen equals 786,629.8. To achieve the lowest deviation from 786,629.8, the plan consists of thirteen congressional districts with a population of 786,630 and two congressional districts (Congressional District 6 and Congressional District 12) with a population of 786,629.

The Ohio Constitution clarifies county subdivision boundaries that perforate multiple counties are considered to be separate subdivisions and are not split. Example: Dublin City exists in three counties – Franklin, Delaware and Union. All three portions of Dublin can be in three different congressional districts and is not considered to be split. The same applies to any noncontiguous portions of a subdivision.

It is important to note that the language referencing statewide partisan elections over the last decade in Article XI, section 6, (B), part of the rules for drawing a legislative redistricting plan, does not exist in Article XIX or apply to drawing congressional district plans. The proposed plan complies with all mandatory requirements of Article XIX of the Ohio Constitution and the Voting Rights Act. The plan also achieves certain aspirational sections of Article XIX.

Article XIX requirements for drawing Congressional Districts

- Article XIX, section 2, (B)(4)(a), specifies a congressional district plan shall attempt to include a “significant” portion of any municipal corporation or township in a single congressional district that qualifies with the criteria in that section, which today only applies to Columbus.
- In determining the population of Columbus, this section specifies that county subdivisions circumscribed by the jurisdiction are to be included in the population count.
- Article XIX, section 2 (B)(4)(b), which today applies to Cleveland and Cincinnati, specifies that neither city may be split into more than one congressional district.
- Article XIX, section 2 (B)(5) requires 65 counties be wholly contained in a congressional district and permits eighteen counties to be split once (meaning a portion of the county boundary is included in two congressional districts) and five counties may be split twice (meaning a portion of the county boundary is included in three congressional districts).
- Congressional districts shall be contiguous and compactness shall be attempted.
- If a congressional district contains territory within a split county, the territory within that county must be contiguous.
- No two congressional districts can share territory of more than one county, except for counties with population over 400,000. This rule does not apply to the following counties -- Franklin, Cuyahoga, Hamilton, Summit, Montgomery and Lucas.
- The authority drawing congressional districts shall attempt to include at least one whole county in each congressional district, except for congressional districts wholly contained within one county or that cannot be drawn in that manner while complying with federal law.
- If passed with a simple majority vote, the plan shall not unduly favor or disfavor a political party or its incumbents.
- The plan shall not unduly split governmental units, giving preference to counties, and then townships and municipal corporations.

County and Political Subdivision Splits

- Three counties - Franklin, Cuyahoga and Hamilton - all of which have a population greater than one ratio of representation - must be split due to population requirements.
- The plan includes 76 whole counties and 12 split counties, with two counties split between three congressional districts (Cuyahoga and Hamilton).
- The current map approved in 2011 split 23 counties total, with 2 counties split between four congressional districts and 5 counties split between three congressional districts.
- Each congressional district that is not wholly contained in a single county includes at least one whole county within the congressional district boundary.
- This plan splits less counties than the House and Senate Democrat proposal.
- The plan splits 14 subdivisions – the House Democrat plan split 21 subdivisions.
- The proposed congressional plan splits the below counties and subdivisions
 - *Clark County: Mad River Township*
 - *Cuyahoga County: Rocky River and Oakwood*
 - *Fairfield County: Columbus (counts as a split because the city boundary within the county is split between two congressional districts)*
 - *Franklin County: Columbus*
 - *Hamilton County: Glendale and Sycamore Township*
 - *Holmes County: Berlin Township*
 - *Lorain County: Columbia Township*
 - *Ross County: Union Township*
 - *Shelby County: Green Township*
 - *Summit County: Cuyahoga Falls*
 - *Washington County: Belpre Township*
 - *Wood County: Perrysburg Township*

Urban Cities

- *Columbus*: Approximately 70 percent of Columbus and the subdivisions circumscribed by Columbus, is within Congressional District 3, with a small portion within Congressional District 15. Columbus is larger than one ratio of representation and must be split into at least two congressional districts.
 - A higher percentage than both democrat proposals.
- *Cleveland*: Wholly contained within Congressional District 11.
- *Cincinnati*: Wholly contained within Congressional District 1.
- *Akron*: Wholly contained within Congressional District 13.
- *Dayton*: Wholly contained within Congressional District 10.
- *Toledo*: Wholly contained within Congressional district 9.

Ten-year Election Results, Partisan Leanings and Incumbents

Ten-year Election Results

- The below statistics were developed using statewide federal election data over the last ten years.
 - Presidential races in 2012 (**Obama** vs Romney), 2016 (**Trump** vs Clinton) and 2020 (**Trump** vs Biden)
 - US Senate Races in 2012 (**Brown** vs Mandel), 2016 (**Portman** vs Strickland) and 2018 (**Brown** vs Renacci)

| District | Population | Deviation | FED Election Data |
|----------|------------|-----------|-------------------|
| 1 | 786,630 | 0 | 51.5 |
| 2 | 786,630 | 0 | 65.1 |
| 3 | 786,630 | 0 | 30.4 |
| 4 | 786,630 | 0 | 66.0 |
| 5 | 786,630 | 0 | 58.8 |
| 6 | 786,629 | -1 | 52.9 |
| 7 | 786,630 | 0 | 56.7 |
| 8 | 786,630 | 0 | 62.0 |
| 9 | 786,630 | 0 | 47.7 |
| 10 | 786,630 | 0 | 52.2 |
| 11 | 786,630 | 0 | 19.4 |
| 12 | 786,629 | -1 | 61.3 |
| 13 | 786,630 | 0 | 48.6 |
| 14 | 786,630 | 0 | 53.2 |
| 15 | 786,630 | 0 | 53.7 |

Note: Uses Federal election data from Presidential and U.S. Senate races between 2012 and 2020

Note: Prior election results do not guarantee future election outcomes

Partisan Leanings

- The proposal could create six republican leaning congressional districts, seven competitive congressional districts and two democrat leaning congressional districts.
- Congressional districts are considered competitive if the district leans politically toward one party by four percent or less.
- Congressional Districts 2, 4, 5, 7, 8 and 12 could lean republican by 54 percent or more.
- Congressional Districts 1, 6, 9, 10, 13, 14, and 15 could lean +/- four percent.
- Congressional Districts 3 and 11 could lean democrat by 54 percent or more.
- The plan will create more competitive congressional districts than any proposal introduced in the General Assembly.

Incumbents

- Cincinnati must be whole and two incumbents live within city limits. Each proposed congressional plan introduced pairs those two incumbents. Otherwise, the proposal would not pair any republican or democrat incumbent (that is assumed to be running for reelection to Congress) into a single congressional district.

SUMMARY BEGINS ON NEXT PAGE

Count of Subdivisions Reviewed for Splits

```

+++++
88 1a. Number of records in file.
0 1b. Number of records skipped (water; code; n/a).
88 1c. Number of Subdivisions included in review.
76 1d. Number of Subdivisions not split.

```

Count of Subdivisions split overall

```

+++++
12 2a. Number of Subdivisions in which a split occurs.
26 2b. Number of split components.

```

Count of Subdivisions split due to zero population units

```

+++++
0 3a. Number of Subdivisions split only due to the inclusion of 0 population units.
0 3b. Number of total components in these subdivisions.
0 3c. Number of split components in OTHER subdivisions with NO population.

```

Count of Subdivisions excluding those due to zero population units

```

+++++
12 4a. Number of Subdivisions in which a split with population is included.
26 4b. Number of split components with population.

```

Count of Subdivisions by number of split components

```

+++++
10 Subdivisions split into 2 districts.
2 Subdivisions split into 3 districts.

```

Count of High-level Subdivisions in which any split subdivisions occur

```

+++++
12 6a. Number of counties, or equivalents, in which at least one split occurs.

```

SUMMARY BEGINS ON NEXT PAGE

Count of Subdivisions Reviewed for Splits

```

*****
8,941 1a. Number of records in file.
      8 1b. Number of records skipped (water; code; n/a).
8,933 1c. Number of Subdivisions included in review.
8,893 1d. Number of Subdivisions not split.
    
```

Count of Subdivisions split overall

```

*****
40 2a. Number of Subdivisions in which a split occurs.
80 2b. Number of split components.
    
```

Count of Subdivisions split due to zero population units

```

*****
9 3a. Number of Subdivisions split only due to the inclusion of 0 population units.
18 3b. Number of total components in these subdivisions.
0 3c. Number of split components in OTHER subdivisions with NO population.
    
```

Count of Subdivisions excluding those due to zero population units

```

*****
31 4a. Number of Subdivisions in which a split with population is included.
62 4b. Number of split components with population.
    
```

Count of Subdivisions by number of split components

```

*****
40 Subdivisions split into 2 districts.
    
```

Count of High-level Subdivisions in which any split subdivisions occur

```

*****
12 6a. Number of counties, or equivalents, in which at least one split occurs.
    
```

```

Kind regards,

Blake V. Springhetti

Majority Director of Finance

Ohio House of Representatives

77 S. High Street, 14th Floor | Columbus, OH 43215

Office: 614.728.5401 | Blake.Springhetti@ohiohouse.gov

Chairman Wilkin, Vice-Chair White, Ranking Member Brown and members of the committee, thank you for the opportunity to present a substitute version of House Bill 479, a congressional redistricting plan. Provided with my testimony is an image of the full plan, close ups of urban counties with geographic boundaries of cities, townships and villages, and a block assignment file – which should be on your iPad and on the committee website.

As you know, Ohio voters and the General Assembly partnered to pass and approve constitutional reforms to Ohio's redistricting process and, ultimately, the makeup of future redistricting plans. I am happy to share with you today, a congressional redistricting plan that meets all mandatory requirements of Article XIX of the Ohio Constitution. The plan also achieves certain aspirational sections of Article XIX.

I'd like to share with you highlights of the proposal.

Congressional District Population

This past decade, Ohio's population grew at a slower pace compared to the rest of the country. For at least the next decade, Ohio will have fifteen Representatives to Congress, down from sixteen over the past decade. Ohio's population is 11,799,448 and when divided by fifteen equals 786,629.8. To achieve the lowest deviation from 786,629.8, the plan before you consists of thirteen districts with a population of 786,630 and two districts with a population of 786,629.

Columbus, Cleveland and Cincinnati

Article XIX, section 2, (B)(4)(a), specifies a congressional district plan shall attempt to include a “significant” portion of any municipal corporation or township in a single district that qualifies with the criteria in that section, which today only applies to Columbus. In determining the population of Columbus, this section specifies that county subdivisions circumscribed by the jurisdiction are to be included in the population count. I am proud to say approximately 70 percent of Columbus is within one congressional district, a percentage cited in public testimony before the Ohio Redistricting Commission.

Article XIX, section 2 (B)(4)(b), which today applies to Cleveland and Cincinnati, specifies that neither city may be split into more than one congressional district. The plan before you complies with this section. Cincinnati is wholly contained in Congressional District 1 and Cleveland is wholly contained in Congressional District 11.

County and County Subdivision Splits

Section 2, (B)(5) of Article XIX requires 65 counties be wholly contained in a congressional district and permits eighteen counties to be split once (meaning a portion of the county boundary is included in two districts) and five counties may be split twice (meaning a portion of the county boundary is included in three districts). The plan before you is constructed with 75 whole counties and thirteen split counties.

Three counties -- Franklin, Cuyahoga and Hamilton -- all of which have a population greater than one ratio -- must be split due to population requirements. Another aspect of this proposal that I am proud of is all fifteen congressional districts consist, in part, of a least one whole county. The congressional district plan in place today splits 23 counties, with two counties being split into four congressional districts.

Substitute House Bill 479 splits sixteen subdivisions, mainly due to the balancing of districts down to the person, which is about half the number of subdivision splits that exist in the current congressional map.

Split Counties and Subdivisions in this proposal include

| | |
|------------------|--|
| Ashtabula County | Sheffield Township |
| Clark County | Springfield Township |
| Cuyahoga County | Highland Heights Middleburg Heights |
| Darke County | Mississinawa Township |
| Fairfield County | Clearcreek Township |
| Franklin County | Columbus (required due to population being greater than one ratio) |
| Hamilton County | Evandale Whitewater Township |
| Hardin County | Blanchard Township |
| Lorain County | Huntington Township |
| Lucas County | Toledo |
| Stark County | Pike Township |
| Summit County | Akron |

Trumbull County

Braceville Township

Niles

It is important to note, the Ohio Constitution clarifies subdivision boundaries that perforate multiple counties are considered to be separate subdivisions and are not split. The same applies to any noncontiguous portions of a subdivision.

Substitute House Bill 479 is a constitutionally compliant congressional plan, which is always the primary factor, but also a plan that focuses on maintaining whole communities within congressional districts. Thank you for the opportunity to testify. I am happy to answer any questions.

Subject: Government Oversight Follow-up Questions

Chairman Wilkin,

On behalf of Ranking Member Brown and the Democratic members of the House Government Oversight Committee, attached are questions that were asked during today's hearing that the members would like additional information on since the information was not available to Rep. Oelslager at the time.

Best,

Stephen M. Harris
Senior Policy Advisor
Ohio House of Representatives Democratic Caucus

TO: Chairman Shane Wilkin, House Government Oversight Committee

FROM: Ranking Member Richard Brown, House Government Oversight Committee

DATE: November 3, 2021

SUBJECT: Follow-up Questions to HB 479 Sponsor Testimony

- Will you provide Rep. Oelslager's sponsor testimony?
- How do Districts 6 and 9 meet the Constitutional compactness requirements?
- How are you measuring compactness: through a vision test or aesthetic measure or was an algorithm or measure of perimeter used? Could you provide the linear and square mileage for each district?
- How did you come up with the districts that include Toledo, Cincinnati, Columbus, and Cleveland? How does this comply with keeping political subdivisions whole? What was the deciding data? How do those particular districts minimize unnecessary splitting?
- Can you describe how your map complies with the Voting Rights Act?
- We were told Blake Springhetti developed the map in HB 479. Did anyone else assist him? And will Mr. Springhetti be testifying before the committee?
- How did you determine what like-communities remain together?
- How did you determine what deviation number to use for population?
- If you decide to pass a map without bipartisan support, you will be prohibited from unduly favoring or disfavoring a political party or its incumbents in the map. Does this map unduly favor or disfavor a political party? Why or why not and what is your definition of undue favoring or disfavoring of a political party? Do you have a 1(C)(3)(d) explanatory statement prepared?
- Can you identify the five so-called competitive districts in this map? What is their partisan index according to your map drawer?

Substitute Senate Bill 258

Highlights and Key Facts

For at least the next decade, Ohio will have fifteen Representatives to Congress, down from sixteen over the past decade. Ohio's population is 11,799,448 and when divided by fifteen equals 786,629.8. To achieve the lowest deviation from 786,629.8, the plan before you consists of thirteen districts with a population of 786,630 and two districts (district 6 and district 12) with a population of 786,629.

The Ohio Constitution clarifies subdivision boundaries that perforate multiple counties are considered to be separate subdivisions and are not split. Example: Dublin City exists in three counties – Franklin, Delaware and Union counties. All three pieces of Dublin can be in three different districts and is not considered to be split. The same applies to any noncontiguous portions of a subdivision.

Substitute Senate Bill 258 Complies with all mandatory requirements of Article XIX of the Ohio Constitution. The plan also achieves certain aspirational sections of Article XIX.

Requirements of Article XIX in drawing Congressional Districts

- Article XIX, section 2, (B)(4)(a), specifies a congressional district plan shall attempt to include a “significant” portion of any municipal corporation or township in a single district that qualifies with the criteria in that section, which today only applies to Columbus.
- In determining the population of Columbus, this section specifies that county subdivisions circumscribed by the jurisdiction are to be included in the population count.
- Approximately 70 percent of Columbus is within one congressional district, a percentage cited as significant in public testimony before the Ohio Redistricting Commission.
- Article XIX, section 2 (B)(4)(b), which today applies to Cleveland and Cincinnati, specifies that neither city may be split into more than one congressional district.
- Section 2, (B)(5) of Article XIX requires 65 counties be wholly contained in a congressional district and permits eighteen counties to be split once (meaning a portion of the county boundary is included in two districts) and five counties may be split twice (meaning a portion of the county boundary is included in three districts).
- Districts shall be compact and contiguous.
- If a district contains territory within a split county, any territory within that county must be contiguous.
- No two districts can share territory of more than one county, except for counties with population over 400,000. This rule does not apply to the following counties -- Franklin, Cuyahoga, Hamilton, Summit, Montgomery and Lucas.
- The authority drawing districts shall attempt to include at least one whole county in each congressional district, except for district wholly contained within one county or than cannot be drawn in that manner while complying with federal law.
- If passed with a simple majority vote, the plan shall not unduly favor or disfavor a political party or its incumbents.
- The plan shall not unduly split governmental units, giving preference to counties and then townships and municipal corporations.

County and Political Subdivision Splits

- Three counties -- Franklin, Cuyahoga and Hamilton -- all of which have a population greater than one ratio of representation -- must be split due to population requirements.
- Sub. Senate Bill 258 includes 76 whole counties and 12 split counties, with two counties split between three districts (Cuyahoga and Hamilton).
- The map approved in 2011 split 23 counties total, with 2 counties split between four districts and 5 counties split between three districts.
- Each congressional district that is not wholly contained in a single county, includes at least one whole county within the district boundary.
- Sub. Senate Bill 258 splits less counties than the House Democrat proposal, Senate Democrat proposal and the Fair Districts Ohio contest winner map.
- Sub. Senate Bill 258 splits 14 subdivisions -- the House Democrat plan split 21 subdivisions.
- Three of Ohio's 100 most populous cities are split (Columbus, Cuyahoga Falls and Rocky River)
- Sub. Senate Bill 258 splits the below counties and subdivisions
 - Clark County: Mad River Township
 - Cuyahoga County: Rocky River and Oakwood
 - Fairfield County: Columbus (counts as a split because the city boundary within the county is split between two districts)
 - Franklin County: Columbus
 - Hamilton County: Glendale and Sycamore Township
 - Holmes County: Berlin Township
 - Lorain County: Columbia Township
 - Ross County: Union Township
 - Shelby County: Green Township
 - Summit County: Cuyahoga Falls
 - Washington County: Belpre Township
 - Wood County: Perrysburg Township

Urban Cities

- A significant portion of Columbus is within Congressional District 3, with a small portion within Congressional District 15. Columbus is larger than one ratio of representation and must be split into at least two districts.
- Cleveland is wholly contained within Congressional District 11.
- Cincinnati is wholly contained within Congressional District 1.
- Akron is wholly contained within Congressional District 13.
- Dayton is wholly contained within Congressional District 10.
- Toledo is wholly contained within Congressional district 9.

10-year Election Results, Partisan Makeup and Incumbents

10 year Election Results

- The below statistics were developed using statewide federal election results and geography over the last ten years.
 - Presidential races in 2012 (**Obama** vs Romney), 2016 (**Trump** vs Clinton) and 2020 (**Trump** vs Biden)
 - US Senate Races in 2012 (**Brown** vs Mandel), 2016 (**Portman** vs Strickland) and 2018 (**Brown** vs Renacci)
- Include districts specific political measurements here?????

Partisan Makeup

- Sub. Senate Bill 258 could create six republican leaning districts, seven competitive districts and two democrat leaning districts.
- Congressional districts are considered competitive if the district could have favored or disfavored one political party by 3.75% or less.
- Congressional Districts 2, 4, 5, 7, 8 and 12 could lean republican by 53.75% or more.
- Congressional Districts 1, 6, 9, 10, 13, 14, and 15 could lean +/- 3.75%.
- Congressional Districts 3 and 11 could lean democrat by 53.75% or more.
- Sub. Senate Bill 258 would create more competitive districts than any proposal introduced in the General Assembly.
 - Eight of fifteen congressional districts in the House Democrat proposed map could favor one political party by over 60 percent.

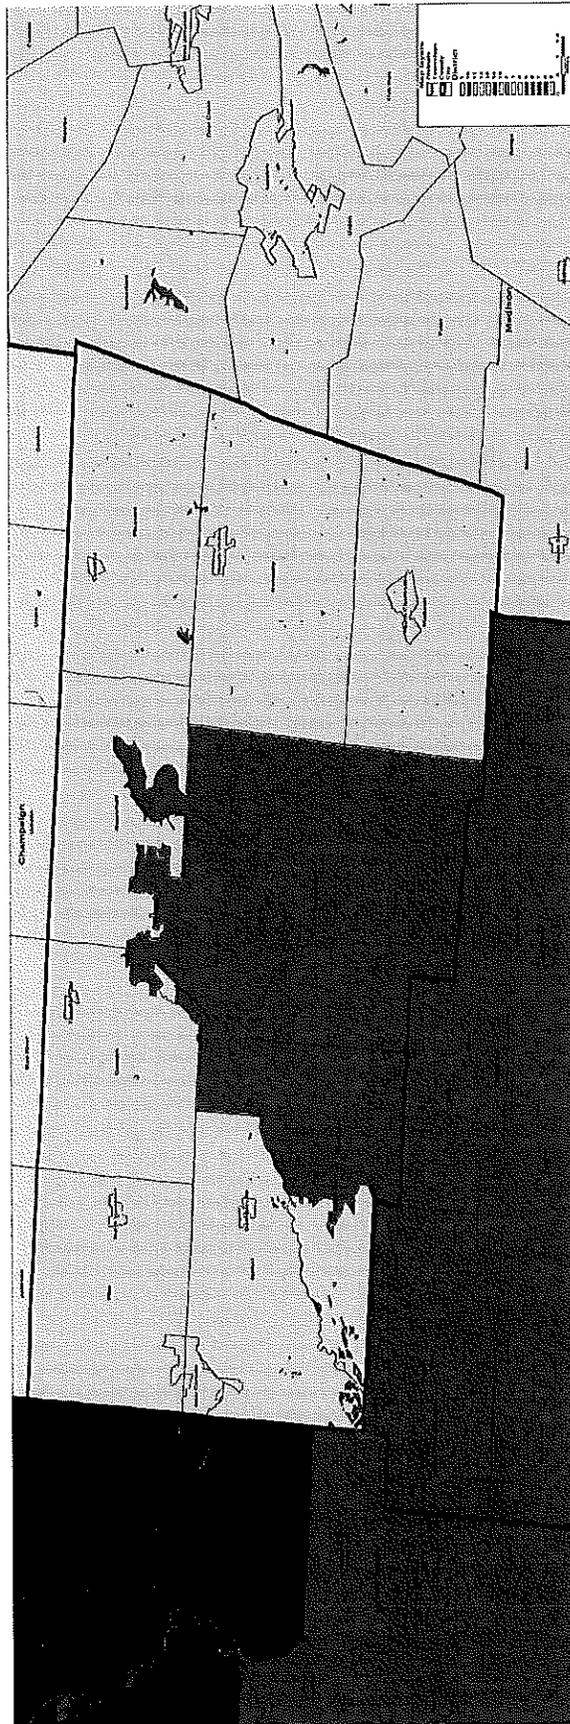

Incumbents

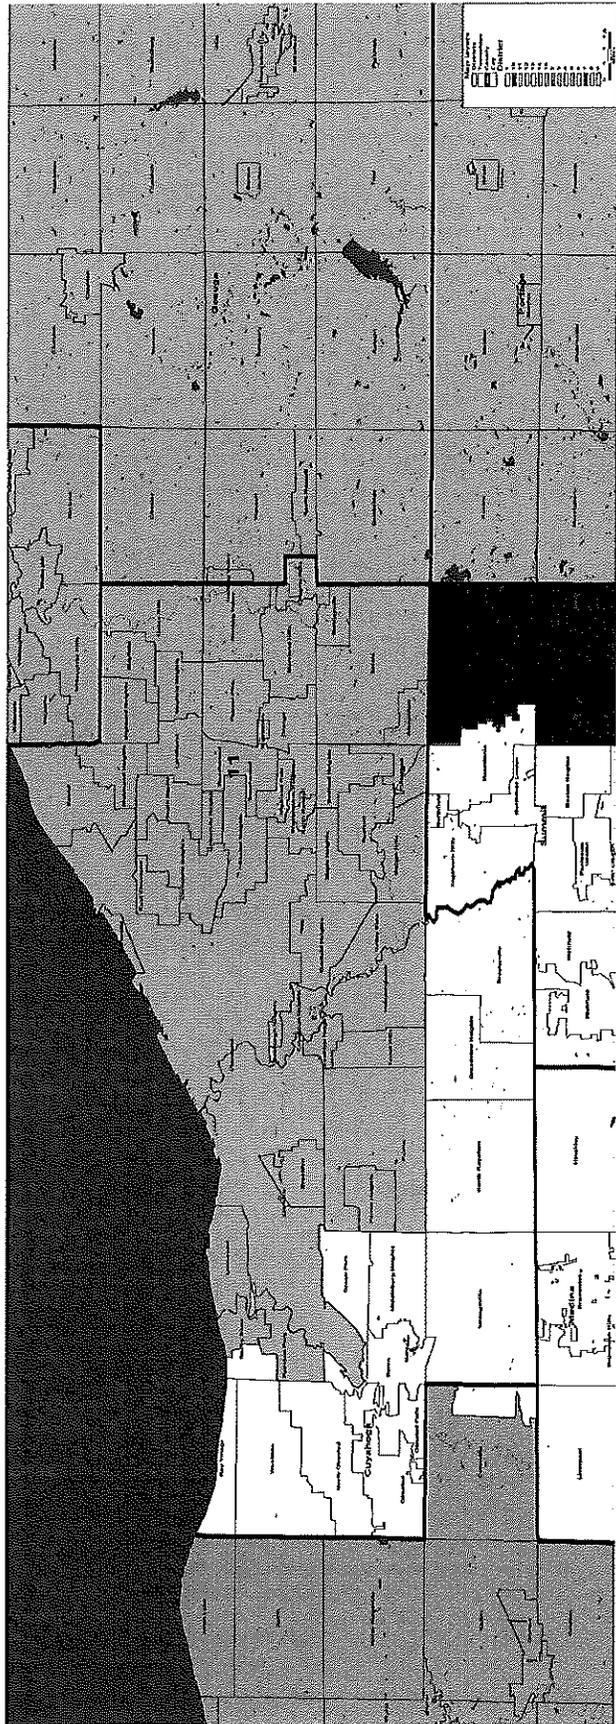

- Cincinnati must be whole and two incumbents live within city limits. Each proposed congressional plan introduced pairs those two incumbents.
- Otherwise, sub. Senate Bill 258 would not pair any returning democrat or republican incumbent into a single district.

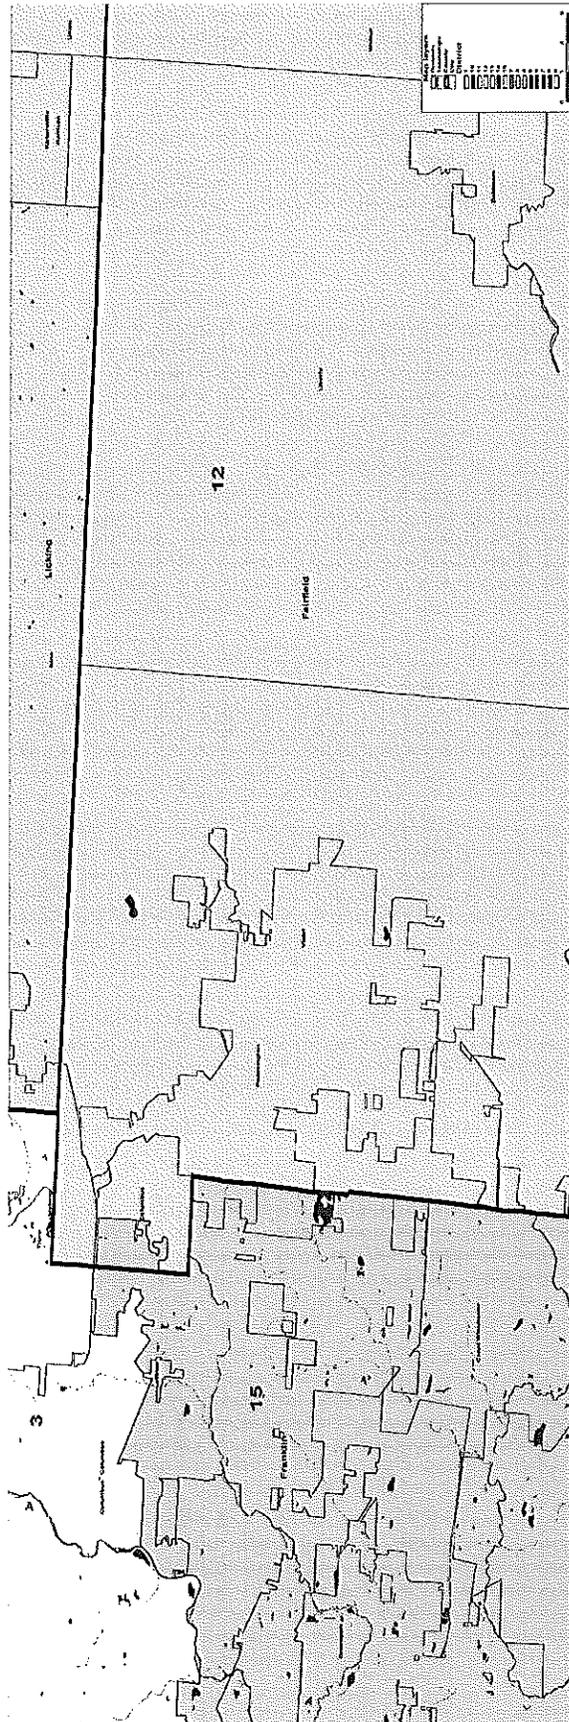

Other Facts

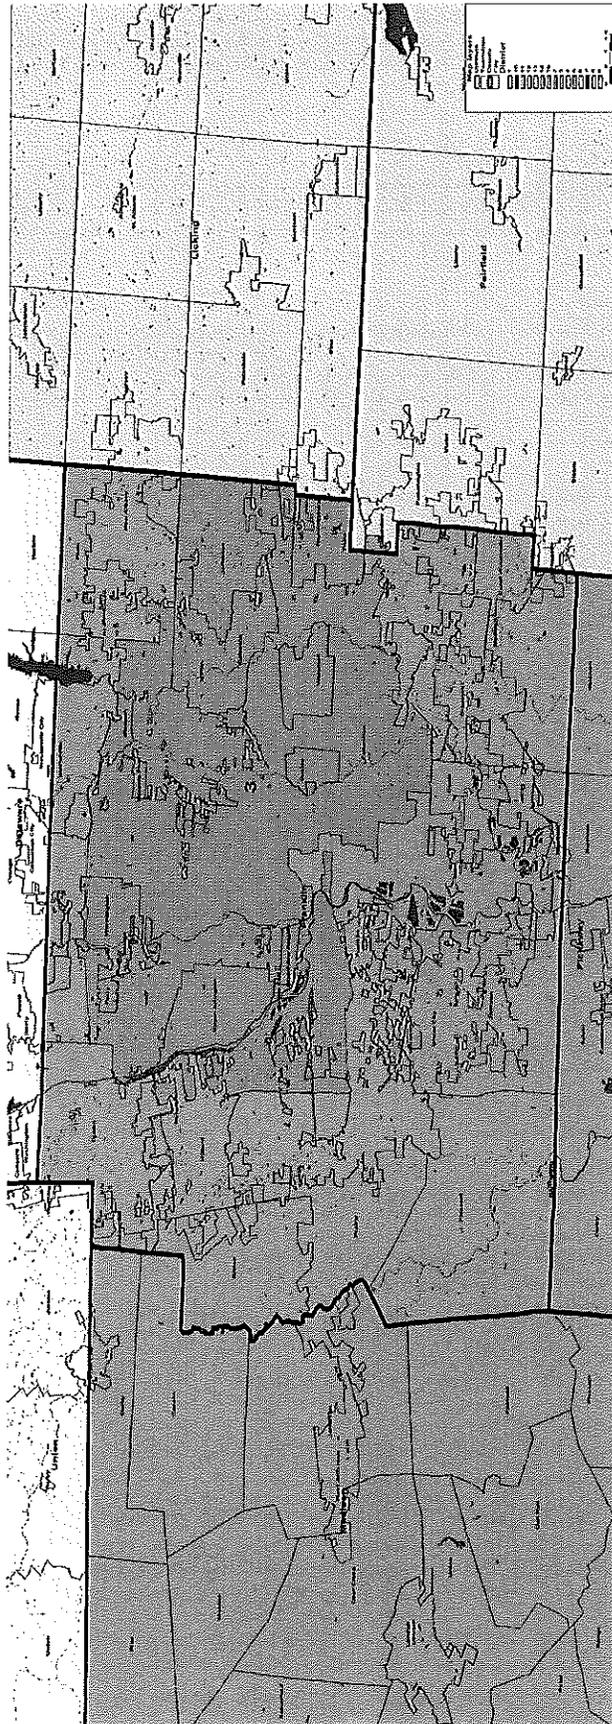

1. Over 53 percent of the districts favor a political party by over 60 percent
2. Maintains reminisce of the snake on the lake
3. Pairs seven of twelve republican incumbents into three districts
4. Balances to person
5. Splits 14 counties and 21 subdivisions

Substitute Senate Bill 258: A Congressional Redistricting Plan

Highlights and Key Facts

For at least the next decade, Ohio will have fifteen Representatives to Congress, down from sixteen over the past decade. Ohio's population is 11,799,448 and when divided by fifteen equals 786,629.8. To achieve the lowest deviation from 786,629.8, the plan consists of thirteen congressional districts with a population of 786,630 and two congressional districts (Congressional District 6 and Congressional District 12) with a population of 786,629.

The Ohio Constitution clarifies county subdivision boundaries that perforate multiple counties are considered to be separate subdivisions and are not split. Example: Dublin City exists in three counties – Franklin, Delaware and Union. All three portions of Dublin can be in three different congressional districts and is not considered to be split. The same applies to any noncontiguous portions of a subdivision.

It is important to note that the language referencing statewide partisan elections over the last decade in Article XI, section 6, (B), part of the rules for drawing a legislative redistricting plan does not exist in Article XIX or apply to drawing congressional district plans. Substitute Senate Bill 258 complies with all mandatory requirements of Article XIX of the Ohio Constitution and the Voting Rights Act. The plan also achieves certain aspirational sections of Article XIX.

Article XIX requirements for drawing Congressional Districts

- Article XIX, section 2, (B)(4)(a), specifies a congressional district plan shall attempt to include a “significant” portion of any municipal corporation or township in a single congressional district that qualifies with the criteria in that section, which today only applies to Columbus.
- In determining the population of Columbus, this section specifies that county subdivisions circumscribed by the jurisdiction are to be included in the population count.
- Article XIX, section 2 (B)(4)(b), which today applies to Cleveland and Cincinnati, specifies that neither city may be split into more than one congressional district.
- Article XIX, section 2 (B)(5) requires 65 counties be wholly contained in a congressional district and permits eighteen counties to be split once (meaning a portion of the county boundary is included in two congressional districts) and five counties may be split twice (meaning a portion of the county boundary is included in three congressional districts).
- Congressional districts shall be contiguous and compactness shall be attempted.
- If a congressional district contains territory within a split county, the territory within that county must be contiguous.
- No two congressional districts can share territory of more than one county, except for counties with population over 400,000. This rule does not apply to the following counties -- Franklin, Cuyahoga, Hamilton, Summit, Montgomery and Lucas.
- The authority drawing congressional districts shall attempt to include at least one whole county in each congressional district, except for congressional districts wholly contained within one county or that cannot be drawn in that manner while complying with federal law.
- If passed with a simple majority vote, the plan shall not unduly favor or disfavor a political party or its incumbents.
- The plan shall not unduly split governmental units, giving preference to counties, and then townships and municipal corporations.

County and Political Subdivision Splits

- Three counties - Franklin, Cuyahoga and Hamilton - all of which have a population greater than one ratio of representation - must be split due to population requirements.
- Sub. Senate Bill 258 includes 76 whole counties and 12 split counties, with two counties split between three congressional districts (Cuyahoga and Hamilton).
- The map approved in 2011 split 23 counties total, with 2 counties split between four congressional districts and 5 counties split between three congressional districts.
- Each congressional district that is not wholly contained in a single county includes at least one whole county within the congressional district boundary.
- Sub. Senate Bill 258 splits less counties than the House Democrat proposal, Senate Democrat proposal and the contest winner map.
- Sub. Senate Bill 258 splits 14 subdivisions – the House Democrat plan split 21 subdivisions.
- Sub. Senate Bill 258 splits the below counties and subdivisions
 - *Clark County: Mad River Township*
 - *Cuyahoga County: Rocky River and Oakwood*
 - *Fairfield County: Columbus (counts as a split because the city boundary within the county is split between two congressional districts)*
 - *Franklin County: Columbus*
 - *Hamilton County: Glendale and Sycamore Township*
 - *Holmes County: Berlin Township*
 - *Lorain County: Columbia Township*
 - *Ross County: Union Township*
 - *Shelby County: Green Township*
 - *Summit County: Cuyahoga Falls*
 - *Washington County: Belpre Township*
 - *Wood County: Perrysburg Township*

Urban Cities

- *Columbus*: Approximately 70 percent of Columbus and the subdivisions circumscribed by Columbus, is within Congressional District 3, with a small portion within Congressional District 15. Columbus is larger than one ratio of representation and must be split into at least two congressional districts.
 - A higher percentage than both democrat proposals.
- *Cleveland*: Wholly contained within Congressional District 11.
- *Cincinnati*: Wholly contained within Congressional District 1.
- *Akron*: Wholly contained within Congressional District 13.
- *Dayton*: Wholly contained within Congressional District 10.
- *Toledo*: Wholly contained within Congressional district 9.

Ten-year Election Results, Partisan Leanings and Incumbents

Ten- year Election Results

- The below statistics were developed using statewide federal election data over the last ten years.
 - Presidential races in 2012 (**Obama** vs Romney), 2016 (**Trump** vs Clinton) and 2020 (**Trump** vs Biden)
 - US Senate Races in 2012 (**Brown** vs Mandel), 2016 (**Portman** vs Strickland) and 2018 (**Brown** vs Renacci)

| District | Population | Deviation | FED Election Data |
|----------|------------|-----------|-------------------|
| 1 | 786,630 | 0 | 51.5 |
| 2 | 786,630 | 0 | 65.1 |
| 3 | 786,630 | 0 | 30.4 |
| 4 | 786,630 | 0 | 66.0 |
| 5 | 786,630 | 0 | 58.8 |
| 6 | 786,629 | -1 | 52.9 |
| 7 | 786,630 | 0 | 56.7 |
| 8 | 786,630 | 0 | 62.0 |
| 9 | 786,630 | 0 | 47.7 |
| 10 | 786,630 | 0 | 52.2 |
| 11 | 786,630 | 0 | 19.4 |
| 12 | 786,629 | -1 | 61.3 |
| 13 | 786,630 | 0 | 48.6 |
| 14 | 786,630 | 0 | 53.2 |
| 15 | 786,630 | 0 | 53.7 |

Note: Uses Federal election data from Presidential and U.S. Senate races between 2012 and 2020

Note: Prior election results do not guarantee future election outcomes

Partisan Leanings

- Sub. Senate Bill 258 could create six republican leaning congressional districts, seven competitive congressional districts and two democrat leaning congressional districts.
- Congressional districts are considered competitive if the district leans politically toward one party by four percent or less.
- Congressional Districts 2, 4, 5, 7, 8 and 12 could lean republican by 54 percent or more.
- Congressional Districts 1, 6, 9, 10, 13, 14, and 15 could lean +/- four percent.
- Congressional Districts 3 and 11 could lean democrat by 54 percent or more.
- Sub. Senate Bill 258 would create more competitive congressional districts than any proposal introduced in the General Assembly.

Incumbents

- Cincinnati must be whole and two incumbents live within city limits. Each proposed congressional plan introduced pairs those two incumbents.
- Otherwise, Sub. Senate Bill 258 would not pair any republican or democrat incumbent (that is assumed to be running for reelection to Congress) into a single congressional district.

The highlight brief is skimmed down with non-constitutional facts added. The memo is the same document I sent earlier that has a lot more information.

Blake

Substitute Senate Bill 258: A Congressional Redistricting Plan

Highlights and Key Facts

County Splits

- Sub. Senate Bill 258 includes 76 whole counties, which is more whole counties than any Ohio congressional plan approved in over 50 years.
- Sub. Senate Bill 258 splits less counties than the House Democrat proposal and Senate Democrat proposal.
- The Ohio Constitution allows for 23 split counties, this plan splits only 12.
- The map approved in 2011 split 23 counties.
- Each congressional district that is not wholly contained in a single county includes at least one whole county within the congressional district boundary.

County Subdivisions Splits

- Sub. Senate Bill 258 splits 14 subdivisions – the House Democrat plan split 21 subdivisions.
- *Columbus*: Approximately 70 percent of Columbus and the subdivisions circumscribed by Columbus, is within Congressional District 3. Columbus is larger than one ratio of representation and must be split into at least two congressional districts.
 - *A higher percentage than both democrat proposals.*
- *Cleveland*: First split in congressional plans dating back to the late 1800s, Cleveland is wholly contained within Congressional District 11.
- *Cincinnati*: Wholly contained within one congressional district for the first time in over 100 years.
- *Akron*: Currently divided into two congressional districts, is wholly contained within Congressional District 13.
- *Dayton*: Wholly contained within Congressional District 10 and is paired with Wright-Patterson Air Force Base.
- *Toledo*: Currently divided into two congressional districts, is wholly contained within Congressional district 9.
- Only three of the top one-hundred most populous cities are split.

Partisan Leanings

- Sub. Senate Bill 258 could create six republican leaning congressional districts, seven competitive congressional districts and two democrat leaning congressional districts.
- Under this plan, in a good election year in which republicans recruit good candidates, republicans can win more than eleven of fifteen districts.
- Sub. Senate Bill 258 would create more competitive congressional districts than any proposal introduced in the General Assembly.
- In the House democrat proposal, eight of fifteen congressional districts would favor one political party by over 60 percent.

Incumbents

- The House democrat proposal paired seven of twelve republican incumbents, clearly unduly disfavoring republican incumbents.
- Cincinnati must be whole and two incumbents live within city limits. Each proposed congressional plan introduced pairs those two incumbents.
- Otherwise, Sub. Senate Bill 258 would *not* pair any republican or democrat incumbent (that is assumed to be running for reelection to Congress) into a single congressional district.

Example: Dublin City exists in three counties – Franklin, Delaware and Union. All three portions of Dublin can be in three different congressional districts and is not considered to be split. The same applies to any noncontiguous portions of a subdivision.

It is important to note that the language referencing statewide partisan elections over the last decade in Article XI, section 6, (B), part of the rules for drawing a legislative redistricting plan does not exist in Article XIX or apply to drawing congressional district plans. Substitute Senate Bill 258 complies with all mandatory requirements of Article XIX of the Ohio Constitution and the Voting Rights Act. The plan also achieves certain aspirational sections of Article XIX.

Article XIX requirements for drawing Congressional Districts

- Article XIX, section 2, (B)(4)(a), specifies a congressional district plan shall attempt to include a “significant” portion of any municipal corporation or township in a single congressional district that qualifies with the criteria in that section, which today only applies to Columbus.
- In determining the population of Columbus, this section specifies that county subdivisions circumscribed by the jurisdiction are to be included in the population count.
- Article XIX, section 2 (B)(4)(b), which today applies to Cleveland and Cincinnati, specifies that neither city may be split into more than one congressional district.
- Article XIX, section 2 (B)(5) requires 65 counties be wholly contained in a congressional district and permits eighteen counties to be split once (meaning a portion of the county boundary is included in two congressional districts) and five counties may be split twice (meaning a portion of the county boundary is included in three congressional districts).
- Congressional districts shall be contiguous and compactness shall be attempted.
- If a congressional district contains territory within a split county, the territory within that county must be contiguous.
- No two congressional districts can share territory of more than one county, except for counties with population over 400,000. This rule does not apply to the following counties -- Franklin, Cuyahoga, Hamilton, Summit, Montgomery and Lucas.
- The authority drawing congressional districts shall attempt to include at least one whole county in each congressional district, except for congressional districts wholly contained within one county or that cannot be drawn in that manner while complying with federal law.
- If passed with a simple majority vote, the plan shall not unduly favor or disfavor a political party or its incumbents.
- The plan shall not unduly split governmental units, giving preference to counties, and then townships and municipal corporations.

County and Political Subdivision Splits

- Three counties - Franklin, Cuyahoga and Hamilton - all of which have a population greater than one ratio of representation - must be split due to population requirements.
- Sub. Senate Bill 258 includes 76 whole counties and 12 split counties, with two counties split between three congressional districts (Cuyahoga and Hamilton).
- The map approved in 2011 split 23 counties total, with 2 counties split between four congressional districts and 5 counties split between three congressional districts.
- Each congressional district that is not wholly contained in a single county includes at least one whole county within the congressional district boundary.
- Sub. Senate Bill 258 splits less counties than the House Democrat proposal, Senate Democrat proposal and the contest winner map.
- Sub. Senate Bill 258 splits 14 subdivisions – the House Democrat plan split 21 subdivisions.
- Sub. Senate Bill 258 splits the below counties and subdivisions
 - *Clark County: Mad River Township*
 - *Cuyahoga County: Rocky River and Oakwood*
 - *Fairfield County: Columbus (counts as a split because the city boundary within the county is split between two congressional districts)*
 - *Franklin County: Columbus*
 - *Hamilton County: Glendale and Sycamore Township*
 - *Holmes County: Berlin Township*
 - *Lorain County: Columbia Township*
 - *Ross County: Union Township*
 - *Shelby County: Green Township*
 - *Summit County: Cuyahoga Falls*
 - *Washington County: Belpre Township*
 - *Wood County: Perrysburg Township*

Urban Cities

- *Columbus*: Approximately 70 percent of Columbus and the subdivisions circumscribed by Columbus, is within Congressional District 3, with a small portion within Congressional District 15. Columbus is larger than one ratio of representation and must be split into at least two congressional districts.
 - A higher percentage than both democrat proposals.
- *Cleveland*: Wholly contained within Congressional District 11.
- *Cincinnati*: Wholly contained within Congressional District 1.
- *Akron*: Wholly contained within Congressional District 13.
- *Dayton*: Wholly contained within Congressional District 10.
- *Toledo*: Wholly contained within Congressional district 9.

Ten-year Election Results, Partisan Leanings and Incumbents

Ten- year Election Results

- The below statistics were developed using statewide federal election data over the last ten years.
 - Presidential races in 2012 (**Obama** vs Romney), 2016 (**Trump** vs Clinton) and 2020 (**Trump** vs Biden)
 - US Senate Races in 2012 (**Brown** vs Mandel), 2016 (**Portman** vs Strickland) and 2018 (**Brown** vs Renacci)

| District | Population | Deviation | FED Election Data |
|-----------------|-------------------|------------------|--------------------------|
| 1 | 786,630 | 0 | 51.5 |
| 2 | 786,630 | 0 | 65.1 |
| 3 | 786,630 | 0 | 30.4 |
| 4 | 786,630 | 0 | 66.0 |
| 5 | 786,630 | 0 | 58.8 |
| 6 | 786,629 | -1 | 52.9 |
| 7 | 786,630 | 0 | 56.7 |
| 8 | 786,630 | 0 | 62.0 |
| 9 | 786,630 | 0 | 47.7 |
| 10 | 786,630 | 0 | 52.2 |
| 11 | 786,630 | 0 | 19.4 |
| 12 | 786,629 | -1 | 61.3 |
| 13 | 786,630 | 0 | 48.6 |
| 14 | 786,630 | 0 | 53.2 |
| 15 | 786,630 | 0 | 53.7 |

Note: Uses Federal election data from Presidential and U.S. Senate races between 2012 and 2020
Note: Prior election results do not guarantee future election outcomes

Partisan Leanings

- Sub. Senate Bill 258 could create six republican leaning congressional districts, seven competitive congressional districts and two democrat leaning congressional districts.
- Congressional districts are considered competitive if the district leans politically toward one party by four percent or less.
- Congressional Districts 2, 4, 5, 7, 8 and 12 could lean republican by 54 percent or more.
- Congressional Districts 1, 6, 9, 10, 13, 14, and 15 could lean +/- four percent.
- Congressional Districts 3 and 11 could lean democrat by 54 percent or more.
- Sub. Senate Bill 258 would create more competitive congressional districts than any proposal introduced in the General Assembly.

Incumbents

- Cincinnati must be whole and two incumbents live within city limits. Each proposed congressional plan introduced pairs those two incumbents.
- Otherwise, Sub. Senate Bill 258 would not pair any republican or democrat incumbent (that is assumed to be running for reelection to Congress) into a single congressional district.

Substitute Senate Bill 258: A Congressional Redistricting Plan

Highlights and Key Facts

For at least the next decade, Ohio will have fifteen Representatives to Congress, down from sixteen over the past decade. Ohio's population is 11,799,448 and when divided by fifteen equals 786,629.8. To achieve the lowest deviation from 786,629.8, the plan consists of thirteen congressional districts with a population of 786,630 and two congressional districts (Congressional District 6 and Congressional District 12) with a population of 786,629.

The Ohio Constitution clarifies county subdivision boundaries that perforate multiple counties are considered to be separate subdivisions and are not split. Example: Dublin City exists in three counties – Franklin, Delaware and Union. All three portions of Dublin can be in three different congressional districts and is not considered to be split. The same applies to any noncontiguous portions of a subdivision.

It is important to note that the language referencing statewide partisan elections over the last decade in Article XI, section 6, (B), part of the rules for drawing a legislative redistricting plan does not exist in Article XIX or apply to drawing congressional district plans. Substitute Senate Bill 258 complies with all mandatory requirements of Article XIX of the Ohio Constitution and the Voting Rights Act. The plan also achieves certain aspirational sections of Article XIX.

Article XIX requirements for drawing Congressional Districts

- Article XIX, section 2, (B)(4)(a), specifies a congressional district plan shall attempt to include a “significant” portion of any municipal corporation or township in a single congressional district that qualifies with the criteria in that section, which today only applies to Columbus.
- In determining the population of Columbus, this section specifies that county subdivisions circumscribed by the jurisdiction are to be included in the population count.
- Article XIX, section 2 (B)(4)(b), which today applies to Cleveland and Cincinnati, specifies that neither city may be split into more than one congressional district.
- Article XIX, section 2 (B)(5) requires 65 counties be wholly contained in a congressional district and permits eighteen counties to be split once (meaning a portion of the county boundary is included in two congressional districts) and five counties may be split twice (meaning a portion of the county boundary is included in three congressional districts).
- Congressional districts shall be contiguous and compactness shall be attempted.
- If a congressional district contains territory within a split county, the territory within that county must be contiguous.
- No two congressional districts can share territory of more than one county, except for counties with population over 400,000. This rule does not apply to the following counties -- Franklin, Cuyahoga, Hamilton, Summit, Montgomery and Lucas.
- The authority drawing congressional districts shall attempt to include at least one whole county in each congressional district, except for congressional districts wholly contained within one county or that cannot be drawn in that manner while complying with federal law.
- If passed with a simple majority vote, the plan shall not unduly favor or disfavor a political party or its incumbents.
- The plan shall not unduly split governmental units, giving preference to counties, and then townships and municipal corporations.

County and Political Subdivision Splits

- Three counties - Franklin, Cuyahoga and Hamilton - all of which have a population greater than one ratio of representation - must be split due to population requirements.
- Sub. Senate Bill 258 includes 76 whole counties and 12 split counties, with two counties split between three congressional districts (Cuyahoga and Hamilton).
- The map approved in 2011 split 23 counties total, with 2 counties split between four congressional districts and 5 counties split between three congressional districts.
- Each congressional district that is not wholly contained in a single county includes at least one whole county within the congressional district boundary.
- Sub. Senate Bill 258 splits less counties than the House Democrat proposal, Senate Democrat proposal and the contest winner map.
- Sub. Senate Bill 258 splits 14 subdivisions – the House Democrat plan split 21 subdivisions.
- Sub. Senate Bill 258 splits the below counties and subdivisions
 - *Clark County: Mad River Township*
 - *Cuyahoga County: Rocky River and Oakwood*
 - *Fairfield County: Columbus (counts as a split because the city boundary within the county is split between two congressional districts)*
 - *Franklin County: Columbus*
 - *Hamilton County: Glendale and Sycamore Township*
 - *Holmes County: Berlin Township*
 - *Lorain County: Columbia Township*
 - *Ross County: Union Township*
 - *Shelby County: Green Township*
 - *Summit County: Cuyahoga Falls*
 - *Washington County: Belpre Township*
 - *Wood County: Perrysburg Township*

Urban Cities

- *Columbus*: Approximately 70 percent of Columbus and the subdivisions circumscribed by Columbus, is within Congressional District 3, with a small portion within Congressional District 15. Columbus is larger than one ratio of representation and must be split into at least two congressional districts.
 - A higher percentage than both democrat proposals.
- *Cleveland*: Wholly contained within Congressional District 11.
- *Cincinnati*: Wholly contained within Congressional District 1.
- *Akron*: Wholly contained within Congressional District 13.
- *Dayton*: Wholly contained within Congressional District 10.
- *Toledo*: Wholly contained within Congressional district 9.

Ten-year Election Results, Partisan Leanings and Incumbents

Ten- year Election Results

- The below statistics were developed using statewide federal election data over the last ten years.
 - Presidential races in 2012 (**Obama** vs Romney), 2016 (**Trump** vs Clinton) and 2020 (**Trump** vs Biden)
 - US Senate Races in 2012 (**Brown** vs Mandel), 2016 (**Portman** vs Strickland) and 2018 (**Brown** vs Renacci)

| District | Population | Deviation | FED Election Data |
|----------|------------|-----------|-------------------|
| 1 | 786,630 | 0 | 51.5 |
| 2 | 786,630 | 0 | 65.1 |
| 3 | 786,630 | 0 | 30.4 |
| 4 | 786,630 | 0 | 66.0 |
| 5 | 786,630 | 0 | 58.8 |
| 6 | 786,629 | -1 | 52.9 |
| 7 | 786,630 | 0 | 56.7 |
| 8 | 786,630 | 0 | 62.0 |
| 9 | 786,630 | 0 | 47.7 |
| 10 | 786,630 | 0 | 52.2 |
| 11 | 786,630 | 0 | 19.4 |
| 12 | 786,629 | -1 | 61.3 |
| 13 | 786,630 | 0 | 48.6 |
| 14 | 786,630 | 0 | 53.2 |
| 15 | 786,630 | 0 | 53.7 |

Note: Uses Federal election data from Presidential and U.S. Senate races between 2012 and 2020

Note: Prior election results do not guarantee future election outcomes

Partisan Leanings

- Sub. Senate Bill 258 could create six republican leaning congressional districts, seven competitive congressional districts and two democrat leaning congressional districts.
- Congressional districts are considered competitive if the district leans politically toward one party by four percent or less.
- Congressional Districts 2, 4, 5, 7, 8 and 12 could lean republican by 54 percent or more.
- Congressional Districts 1, 6, 9, 10, 13, 14, and 15 could lean +/- four percent.
- Congressional Districts 3 and 11 could lean democrat by 54 percent or more.
- Sub. Senate Bill 258 would create more competitive congressional districts than any proposal introduced in the General Assembly.

Incumbents

- Cincinnati must be whole and two incumbents live within city limits. Each proposed congressional plan introduced pairs those two incumbents.
- Otherwise, Sub. Senate Bill 258 would not pair any republican or democrat incumbent (that is assumed to be running for reelection to Congress) into a single congressional district.

Proposed Congressional Redistricting Plan

Highlights and Key Facts

For at least the next decade, Ohio will have fifteen Representatives to Congress, down from sixteen over the past decade. Ohio's population is 11,799,448 and when divided by fifteen equals 786,629.8. To achieve the lowest deviation from 786,629.8, the plan consists of thirteen congressional districts with a population of 786,630 and two congressional districts (Congressional District 6 and Congressional District 12) with a population of 786,629.

The Ohio Constitution clarifies county subdivision boundaries that perforate multiple counties are considered to be separate subdivisions and are not split. Example: Dublin City exists in three counties – Franklin, Delaware and Union. All three portions of Dublin can be in three different congressional districts and is not considered to be split. The same applies to any noncontiguous portions of a subdivision.

It is important to note that the language referencing statewide partisan elections over the last decade in Article XI, section 6, (B), part of the rules for drawing a legislative redistricting plan, does not exist in Article XIX or apply to drawing congressional district plans. The proposed plan complies with all mandatory requirements of Article XIX of the Ohio Constitution and the Voting Rights Act. The plan also achieves certain aspirational sections of Article XIX.

Article XIX requirements for drawing Congressional Districts

- Article XIX, section 2, (B)(4)(a), specifies a congressional district plan shall attempt to include a “significant” portion of any municipal corporation or township in a single congressional district that qualifies with the criteria in that section, which today only applies to Columbus.
- In determining the population of Columbus, this section specifies that county subdivisions circumscribed by the jurisdiction are to be included in the population count.
- Article XIX, section 2 (B)(4)(b), which today applies to Cleveland and Cincinnati, specifies that neither city may be split into more than one congressional district.
- Article XIX, section 2 (B)(5) requires 65 counties be wholly contained in a congressional district and permits eighteen counties to be split once (meaning a portion of the county boundary is included in two congressional districts) and five counties may be split twice (meaning a portion of the county boundary is included in three congressional districts).
- Congressional districts shall be contiguous and compactness shall be attempted.
- If a congressional district contains territory within a split county, the territory within that county must be contiguous.
- No two congressional districts can share territory of more than one county, except for counties with population over 400,000. This rule does not apply to the following counties -- Franklin, Cuyahoga, Hamilton, Summit, Montgomery and Lucas.
- The authority drawing congressional districts shall attempt to include at least one whole county in each congressional district, except for congressional districts wholly contained within one county or that cannot be drawn in that manner while complying with federal law.
- If passed with a simple majority vote, the plan shall not unduly favor or disfavor a political party or its incumbents.
- The plan shall not unduly split governmental units, giving preference to counties, and then townships and municipal corporations.

County and Political Subdivision Splits

- Three counties - Franklin, Cuyahoga and Hamilton - all of which have a population greater than one ratio of representation - must be split due to population requirements.
- The plan includes 76 whole counties and 12 split counties, with two counties split between three congressional districts (Cuyahoga and Hamilton).
- The current map approved in 2011 split 23 counties total, with 2 counties split between four congressional districts and 5 counties split between three congressional districts.
- Each congressional district that is not wholly contained in a single county includes at least one whole county within the congressional district boundary.
- This plan splits less counties than the House and Senate Democrat proposal.
- The plan splits 14 subdivisions – the House Democrat plan split 21 subdivisions.
- The proposed congressional plan splits the below counties and subdivisions
 - *Clark County: Mad River Township*
 - *Cuyahoga County: Rocky River and Oakwood*
 - *Fairfield County: Columbus (counts as a split because the city boundary within the county is split between two congressional districts)*
 - *Franklin County: Columbus*
 - *Hamilton County: Glendale and Sycamore Township*

Re: November 18, 2021 Session Calendar

Good evening,

Please find the following items that will be considered during the House voting session on Wednesday, November 17, 2021. Session will convene at 1:00p.m. I look forward to seeing all of you tomorrow and discussing these issues in greater detail at caucus.

Bills for Third Consideration

Sub. S. B. No. 258 McColley, et al. – To establish congressional district boundaries for the state based on the 2020 decennial census and to delay certain deadlines related to the 2022 congressional primary election.
[Senate Bill 258 | 134th General Assembly | Ohio House of Representatives](#)

Am. H. B. No. 292 Sobecki, Cutrona, et al. – To create a temporary sales tax exemption for electric vehicle production parts and to create the Electric Vehicle Commission.
[House Bill 292 | 134th General Assembly | Ohio House of Representatives](#)

H. B. No. 371 Schmidt, Denson, et al. – To revise the laws governing coverage of screening mammography and patient notice of dense breast tissue.
[House Bill 371 | 134th General Assembly | Ohio House of Representatives](#)

H. B. No. 218 Cutrona, et al. – To temporarily extend bar hours of operation, exempt bars from statewide curfews, and declare an emergency.
***Pending committee vote*
[House Bill 218 | 134th General Assembly | Ohio House of Representatives](#)

Sub. S. B. No. 58 Antonio, Brenner, et al. – To permit a resident of a long-term care facility to conduct electronic monitoring of the resident's room and to designate this act as Esther's Law.
[Senate Bill 58 | 134th General Assembly | Ohio House of Representatives](#)

S. B. No. 115 Schuring, et al. – To make changes to the Ohio Pooled Collateral Program.
[Senate Bill 115 | 134th General Assembly | Ohio House of Representatives](#)

Sub. S. B. No. 229 Blessing, et al. – Regarding blended or remote learning models for the 2021-2022 school year, the state report card, emergency management plans, withdrawal of untested students from internet- or computer-based schools, the Third Grade Reading Guarantee, high school financial literacy instruction,

Educational Choice and Cleveland Scholarship payments, operating subsidies for educational service centers, and to declare an emergency.

Senate Bill 229 | 134th General Assembly | Ohio House of Representatives

H. C. R. No. 36 Young, B., et al. – To urge that the federal proposal to require financial institutions and other financial service providers to report most customer net account inflows and outflows not be passed or implemented by government officials.

House Concurrent Resolution 36 | 134th General Assembly | Ohio House of Representatives

H. R. No. 147 Stoltzfus – To urge the United States Congress and President of the United States, with haste, to take action to bring home the missionaries who have been taken hostage in Haiti.

***Pending committee vote*

House Resolution 147 | 134th General Assembly | Ohio House of Representatives

H.B. 292 (CUTRONA, SOBECKI)
Regards telecommunications fraud

House Co-Sponsors: Bird, Carfagna, Creech, Cross, Crossman, Galonski, Jarrells, Lepore-Hagan, Lightbody, A. Miller, J. Miller, O'Brien, Russo, Sheehy, Smith, Stewart, Upchurch, Weinstein
Senate Co-Sponsors: n/a

Bill History

- 05/06/2021 – House Introduction
- 10/27/2021 – Reported by House Transportation 11-1 (McClain) (3 hearings)

Stakeholders

|--|---|---|
| <ul style="list-style-type: none"> • Ohio Manufacturers Association • Alliance for Automotive Innovation • IUAW • Stellantis | <ul style="list-style-type: none"> • N/A | <ul style="list-style-type: none"> • N/A |

Key Provisions (From LSC Analysis)

- Establishes the Electric Vehicle Commission within ODOT and sets its responsibilities
- States the purpose of the Commission is to study and make policy recommendations related to electric vehicle product manufacturing in Ohio. States the term “electric vehicle” also includes charging stations
- States the Commission shall include 2 members of the Senate appointed by the President, one from the President’s party and one from another party
- States the Commission shall include 2 members of the House appointed by the Speaker, one from the Speaker’s party and one from another party
- States that the Governor shall have 6 appointees including one representative from local governments, one from organized labor operating in the auto industry, one from the auto industry, one from the Ohio Automobile Dealers Association, one from the electric vehicle charging station manufacturing industry, and one from Clean Fuels Ohio
- Authorizes a temporary sales and use tax exemption for certain parts and components used in production of electric vehicles

Additional Information

- **Fiscal Note:** The bill provides temporary sales and use tax exemption for parts and components (such as engines, batteries, and brakes) that are specifically designed for use in and are unique to production of electric vehicle products. Codified law already provides 2 manufacturing sales tax exemptions so this provision is likely to have little fiscal effect. Members of the Commission receive no compensation but can receive travel reimbursement. Thus, ODOT may incur a small additional amount of expenses as a result of this bill.
- **Amendments accepted in committee:** Accepted 10/26/2021- Changed number of Governor’s appointees from 3 to 6, adding representative from Auto Dealers, electric vehicle charging station industry, and Clean Fuels Ohio.
- **Policy Advisor:** Josh Sabo (614.466.8118 – office, 330.697.4791- cell; josh.sabo@ohiohouse.gov)
- **Senate Companion Bill:** none

H.B. 371 (SCHMIDT, DENSON)

Regards screening mammography and dense breast tissue

House Co-Sponsors: Representatives Galonski, Troy, Weinstein, Miller, J., Ingram, Creech, Abrams, Pavliga, White, Miranda, O'Brien, Bird, Miller, K., Ghanbari, Young, T., Hoops, Lampton, John, Liston, Click, Edwards, Ginter, Grendell

Bill History

- 7/7/21 – Introduced
- 9/21/21 – Referred to House Families, Aging, and Human Services
- 11/1/21 – Reported out of House Families, Aging, and Human Services (3 hearings, unanimous)

Key Provisions

- Permits a long-term care facility resident or the resident's guardian or attorney in fact to authorize the installation and use of an electronic monitoring device in the resident's room under certain conditions.
- Requires a resident's roommate to fully or conditionally consent to electronic monitoring.
- Requires a long-term care facility to make a reasonable attempt to accommodate a resident wishing to use electronic monitoring when the resident's roommate refuses consent.
- Permits a long-term care facility to post a notice stating that an electronic monitoring device is in use in a particular room.
- Prohibits discrimination or retaliation against a resident who authorizes electronic monitoring and the intentional obstruction, tampering with, or destruction of a device or a recording made by it.

Key Provisions and Highlights

- Establishes new congressional district boundaries for Ohio based on the results of the 2020 federal census.
- Delays certain election deadlines for purposes of the congressional primary election to be held on May 3, 2022.
 - Moves the deadline for U.S. House candidates to file a declaration of candidacy and petition to appear on the ballot at the primary election from February 2, 2022 to March 4, 2022.
 - Moves the deadline for U.S. House candidates to file a declaration of intent to be a write-in candidate at the primary election from February 22, 2022 to March 4, 2022.
- The direct costs associated with Ohio's current decennial redistricting for both General Assembly and congressional districts are paid from two GRF line items under the Legislative Service Commission (LSC) budget group.

The bill states that, concerning the congressional district plan, the General Assembly finds as follows:

- The plan does not unduly favor or disfavor a political party or its incumbents. The plan contains six Republican-leaning districts, two Democratic-leaning districts, and seven competitive districts. The number of competitive districts in the plan significantly exceeds the number of competitive districts contained in Ohio's current plan. Two incumbents expected to seek office again, both Republican, are paired in one district in the bill. No other incumbent, either Republican or Democratic, expected to seek office again, is paired with another incumbent in a congressional district in this plan.
- The plan does not unduly split governmental units and gives preference to keeping whole, in the order named, counties, then townships and municipal corporations. The plan splits only 12 counties and only 14 townships and municipal corporations. Ohio's current plan splits 23 counties and over 30 townships and municipal corporations.
- A visual inspection of the plan demonstrates that it draws districts that are compact, particularly when visually compared to Ohio's current plan.

SUB. S.B. 229 (SEN. BLESSING)

Key Provisions

Blended learning for the 2021-2022 school year

- Permits a school district, other public school, or chartered nonpublic school to submit to the Department of Education a declaration to implement or discontinue use of a blended learning model during the 2021-2022 school year by April 30, 2022, rather than July 1, 2021, as under continuing permanent law.
- Requires the Department to post a list of districts and schools that have submitted a blended learning model declaration during the 2021-2022 school year on its website.
- Provides specific operating requirements for districts and schools that implement blended learning for any portion of the 2021-2022 school year.

Blended learning definition

- Revises the permanent law definition of blended learning to add “noncomputer-based learning opportunities.”

Remote learning for the 2021-2022 school year

- Permits a school district, other public school, or chartered nonpublic school to adopt a resolution to continue to provide instruction using the school's remote learning plan for the 2021-2022 school year.
- Requires a district or school that adopts a resolution to notify the Department of that decision by December 15, 2021.
- Requires a school or district that continues to offer remote instruction to update its remote learning plan with specific requirements.

COVID remediation plans

- Requires each school district and other public school to complete and submit to the Department a remediation plan to address the loss of learning students experienced during the COVID-19 pandemic and post the plan on its website unless the district or school previously submitted an Extended Learning Plan or Local Use of Funds Plan.
- Requires the Department to develop standards and a template for district and school remediation plans.
- Requires the Department to compile the submitted remediation plans and submit a report to the General Assembly.

Provisions related to state report cards

- Adds two school district superintendents, a school principal, and a community school representative, appointed by the Superintendent of Public Instruction, to the State Report Card Review Committee and requires majority party members appointed from the House of Representatives and the Senate to serve as committee co-chairpersons.
- Prohibits the Department from considering performance on the chronic absenteeism measure on the state report card for the 2021-2022 school year.
- Requires the Department to report without a rating the four-year adjusted cohort graduation rate on the state report card for students who were continuously enrolled in the same district or building for grades 9-12.
- Requires the Department, by September 15, 2022, to calculate and publish the four-year adjusted cohort graduation rate as described just above and the total number of students in each cohort for all districts and buildings for the 2016-2017, 2017-2018, 2018-2019, 2019-2020, and 2020-2021 school years as reported-only data on state report cards for the 2021-2022 school year.

Online services for special needs students

- Between July 1, 2021, and June 30, 2022, and upon the request of a parent or guardian, permits an individual who holds a valid license issued by a licensing board to provide services via electronic delivery method or telehealth communication to qualifying students.
- Prohibits a licensing board from taking any disciplinary action against a license holder who provides services to qualifying students as described just above.

Provisions related to quarantined students

- For the 2021-2022 school year only, permits a school or district operating an online learning school to allow a quarantined student to participate in the online learning school for the duration of the student's quarantine period.
- Requires that once a student is in quarantine that the district or school notify the student's parents or guardians of available learning options for the duration of the student's quarantine.
- For the 2021-2022 school year, requires districts and schools to report monthly to the Department of Education the number of students quarantined and the duration of the quarantine.

Withdrawal of certain students for failure to take assessments

- Revises the law on automatic withdrawal of students by internet- or computer-based community schools (e-schools) and district-operated internet- or computer-based schools for failure to take state assessments, so that that new starting point for considering two years of failure to take the tests is the 2021-2022 school year.

Financial literacy instruction

- Requires public and chartered nonpublic schools to integrate the study of economics and financial literacy into one or more existing social studies credits, or into the content of another class, for students who enter ninth grade for the first time on or after July 1, 2010, but prior to July 1, 2022 (Classes of 2014 through 2025).

Third Grade Reading Guarantee exemption

- For the 2021-2022 school year only, exempts public and chartered nonpublic schools from retaining a student under the Third Grade Reading Guarantee based solely on the student's academic performance.

Online learning school exemption from emergency management plan requirement

- Exempts an online learning school from the requirement that school administrators develop an emergency management plan for each building under their control, unless students participate in in-person instruction or assessments at a location that is not covered in a district's or school's existing emergency management plan.

Educational service center state operating subsidies

- Specifies that the "funding base" used to determine state payments to an educational service center (ESC) must equal the amount the ESC would have received for FY 2020 using the student counts of the school districts with which the ESC has service agreements for the fiscal year for which payments are being made.

Educational Choice and Pilot Project scholarship payments

- Specifies that, in the case of a student who is not living with the student's parent, the Department must make Educational Choice (Ed Choice) Scholarship and Pilot Project (Cleveland) Scholarship payments to the student's guardian, legal custodian, kinship caregiver, foster caregiver, or caretaker.

Emergency Clause

Floor Amendments

1. Third Grade Reading Guarantee
 - a. Clarifies that the decision by the building principal and reading teacher who agree that a third-grade student reading below grade level is prepared for promotion to the fourth grade must be made in consultation with the student's parent or guardian prior to promoting the student.
2. LSC Corrective Amendment
 - a. Makes a correction to specify that the 2021-2022 school year is the new starting point for automatic withdrawal for students enrolled in internet- or computer-based community schools.

FAIR DISTRICTS

Fair Districts Testimony

October 28, 2021

Catherine Turcer

Thank you co-chairs Speaker Cupp and Senator Sykes, and the rest of the members of the Ohio Redistricting Commission for the opportunity to give testimony on Ohio's next congressional district map. My name is Catherine Turcer and I am the Executive Director of Common Cause Ohio, a good government group located in Columbus Ohio, and also a member of the Fair Districts Ohio coalition.

I'm here today to present the three winning maps from the Fair Districts Congressional Mapping Competition. These maps not only comply with congressional district requirements set forth in both the US and Ohio Constitutions, they successfully create fair maps that keep communities together and prioritize regional interests. The result is three maps which are each vastly superior to Ohio's current congressional map on a number of specific criteria which will be detailed below.

In a word, these maps are not gerrymandered. If implemented, they would function to uplift the voices of all Ohioans, strengthen our democracy, and move our state forward. They represent not the wishes of one incumbent, political party, region, or interest group, but, the diverse voices of our state and our representational democracy.

I will now address several important issues regarding these maps, as follows:

1. The requirement for Equal population
2. The Voting Rights Act and opportunity for minority representation
3. The requirement to use Counties as building blocks, with few splits
4. The criteria used in Dave's Redistricting App to evaluate maps and using the efficiency gap to evaluate maps.

Equal population

To begin, the US Constitution and relevant case law holds that congressional districts must adhere to a population equality standard – commonly referred to as Equal Population. According to a Congressional Research Service brief on the legal framework for congressional redistricting, the US Supreme Court held in *Tennant v. Jefferson County Commission* (2012) that a congressional district population deviation of .79% is acceptable. Further, the Court emphasized that while states must strive for districts to have “as near as practicable” population, precise mathematical equality is not required.¹ 2021 census data shows Ohio's population is 11,799,448 with a congressional ratio of representation being 786,630 people. Using the .79% figure held in *Tennant*, Ohio's congressional districts have an allowable population deviation of

¹ <https://crsreports.congress.gov/product/pdf/LSB/LSB10639>

6,214 people². All three maps submitted by Fair Districts Ohio comply with this equal population standard.

Voting Rights Act & Minority Representation

Next, federal law and the Ohio Constitution require any congressional district map to comply with the Voting Rights Act, which in short, prohibits discriminatory voting practices or procedures, including minority vote dilution.³ Currently, no court has expressly required Ohio to create majority-minority congressional districts,⁴ however, Ohio has a history of taking racial data into consideration when developing new congressional districts. The three maps presented by the Fair Districts coalition protect the ability of minority voters to elect a candidate of their choice in parts of the state with a high density of minority voters, while simultaneously respecting municipal and county boundaries and equal population requirement Each of the winning maps include one majority-minority district and two opportunity districts.

Figure 1.

Minority Representation

| | MAJORITY-MINORITY* | OPPORTUNITY DISTRICTS** |
|-----------------------------------|--------------------|-------------------------|
| JOHN HAGNER | 1 | 2 |
| PAUL NIEVES | 1 | 2 |
| RILEY JONES | 1 | 2 |
| 2012-2020 OH CONGRESSIONAL | 1 | 1 |

* 50+% Minority voting age population

** between 35-50% Minority voting age population

Each of the winners of the Fair Districts Mapping Competition did some research in preparing their maps by reviewing community maps created by Ohioans using Districtr.org, free software created by Metric Geometry and Gerrymandering Group at Tufts University. This software enables citizen mapmakers to create maps describing their communities, sometimes called communities of interest. It is important to understand the most effective way to ensure representation is to hear from community members themselves.

² Important to note that this is the total number cut both ways – meaning an individual district cannot be more or less than 3,107 from the ratio of representation.

³ Ibid p.2

⁴<https://www.lsc.ohio.gov/documents/reference/current/membersonlybriefs/134%20Redistricting%20in%20Ohio.pdf>

Counties as building blocks

Further, the Fair Districts maps all comply with the new requirements for congressional districts set forth in Article XIX Section 2 of the Ohio Constitution. These requirements limit the total number of counties that can be split, and the number of times an individual county can be split.⁵ Counties are the building blocks for congressional mapmaking. Additional requirements prescribed in Section 2 require Ohio's largest cities to remain whole, or as whole as possible if the municipality's population exceeds the congressional ratio or representation, the number of times two districts can share borders within counties, for districts to be compact, and for the map drawing authority to attempt to include at least one whole county in each district, except for when a county's population exceeds the congressional ratio of representation.⁶ All three maps put forth by the Fair Districts coalition meet all of these requirements. Specifically, Article XIX Section 2(5) states, "of the eighty-eight counties in this state, sixty-five counties shall be contained entirely within a district, eighteen counties may be split not more than once, and five counties may be split not more than twice." Figure 2 shows the number of county splits included in each of the three Fair Districts maps, and also includes Ohio's current congressional map as a point of comparison. All three of the Fair Districts submitted maps utilize a minimal number of county splits. Additionally, the map submitted by Riley Jones is the only map submitted by Fair Districts to include a county that is split more than once.

Figure 2.

| <i>County Splits</i> | |
|-----------------------------------|--|
| Hagner | 14 county splits a total of 14 times |
| Nieves | 12 county splits a total of 12 times |
| Jones | 14 county splits a total of 15 times |
| 2012-2020 OH Congressional | 23 county splits a total of 32 times |

Analysis using Dave's Redistricting App

Finally, empirical evaluations of the three Fair Districts maps demonstrate they are objectively superior to Ohio's current congressional map. The following empirical evaluations were produced by the popular redistricting software tool Dave's Redistricting App; the evaluations show the Fair Districts submitted maps outperform Ohio's current congressional map on multiple metrics.

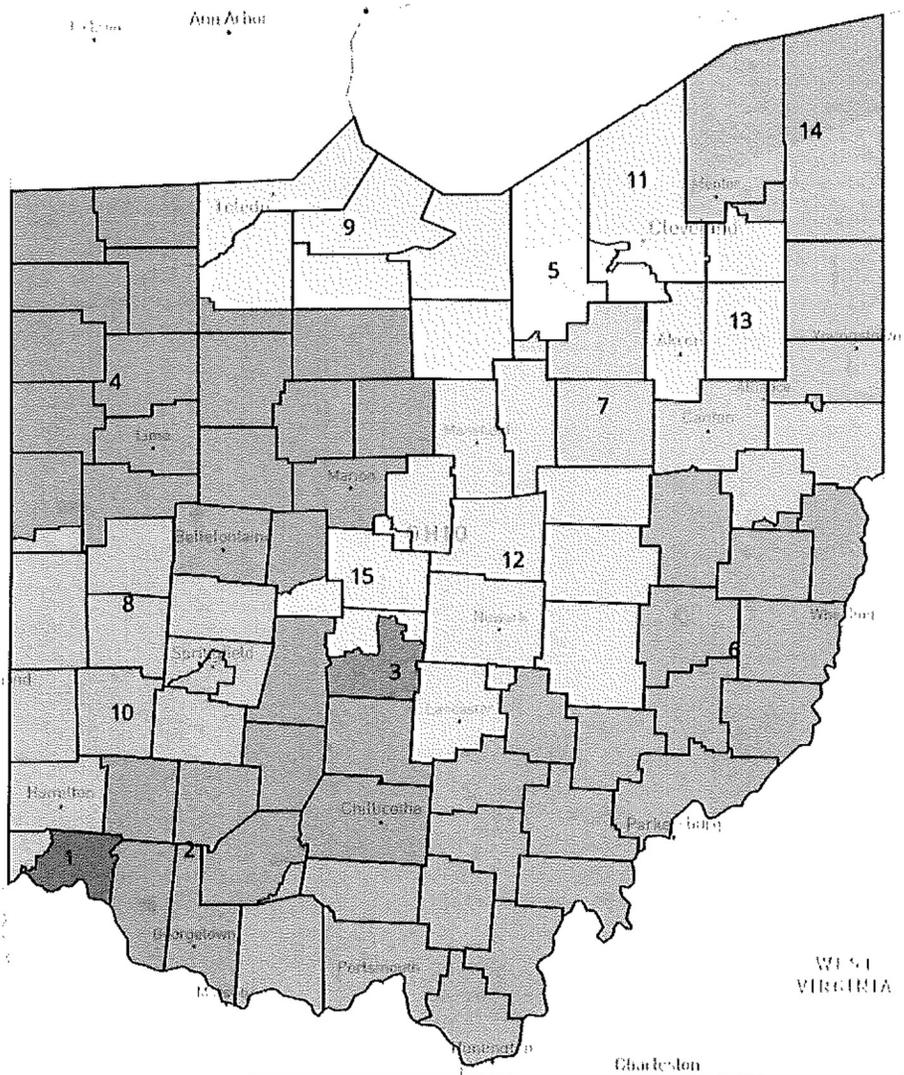

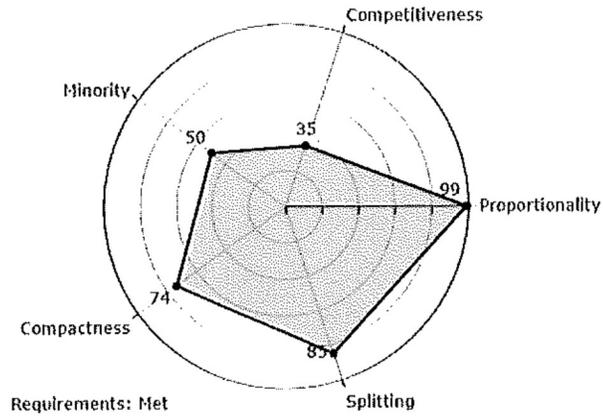

⁵ Ohio Constitution, Article XIX, Section 2(5)

⁶ Ohio Constitution, Article XIX Section 2

Dave's Redistricting App uses five metrics to evaluate legislative districts: proportionality, competitiveness, minority representation, compactness, and splitting. Each district map is scored along these criteria, earning a numerical value for each metric, with higher numbers meaning better scores. Below, we include evaluations of the three Fair Districts maps, and Ohio's current congressional district map for the Commission's consideration.

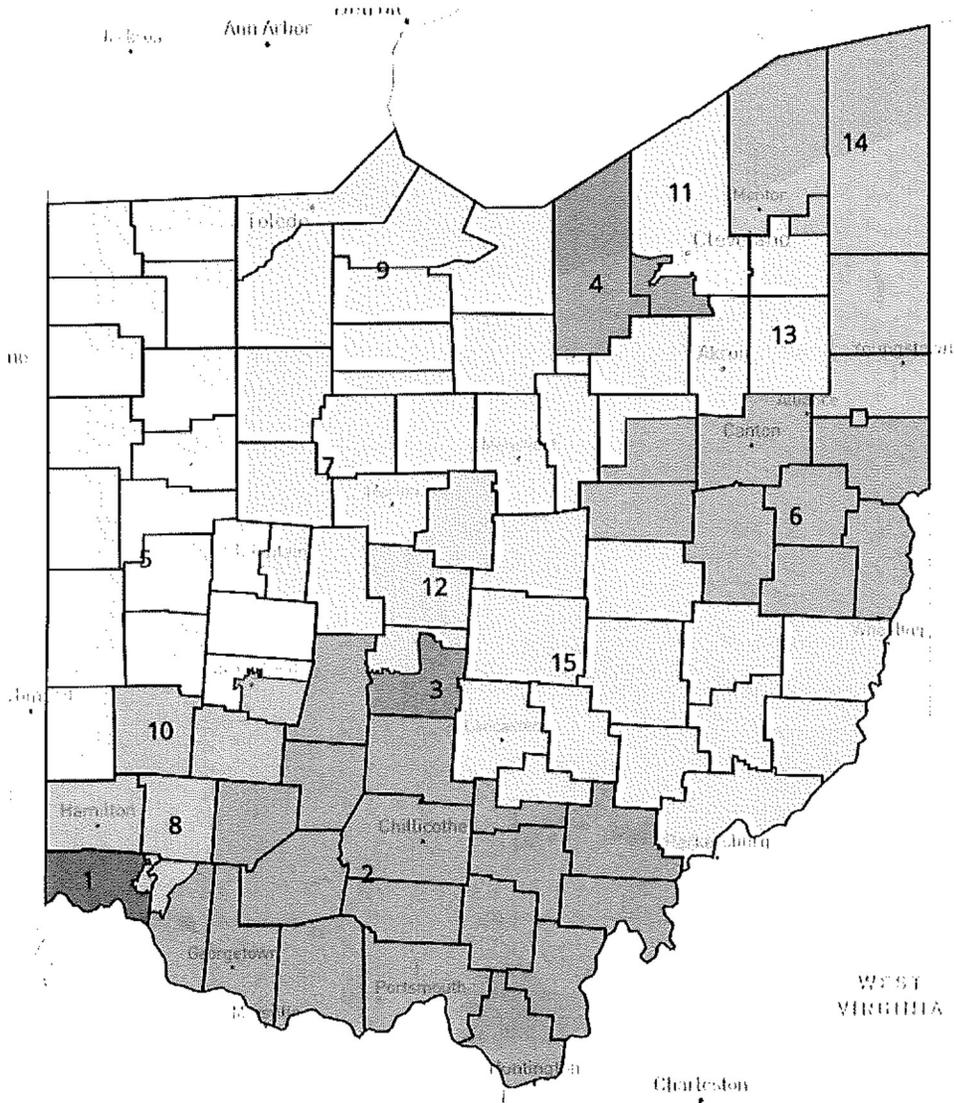

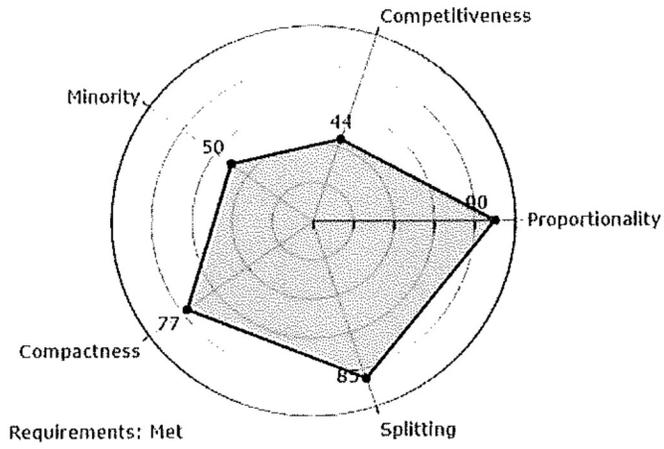

The Hagner Map: 346 Point Total

<https://davesredistricting.org/join/d0e96e3f-054c-42a0-9dbb-b14fbfdd2d40>

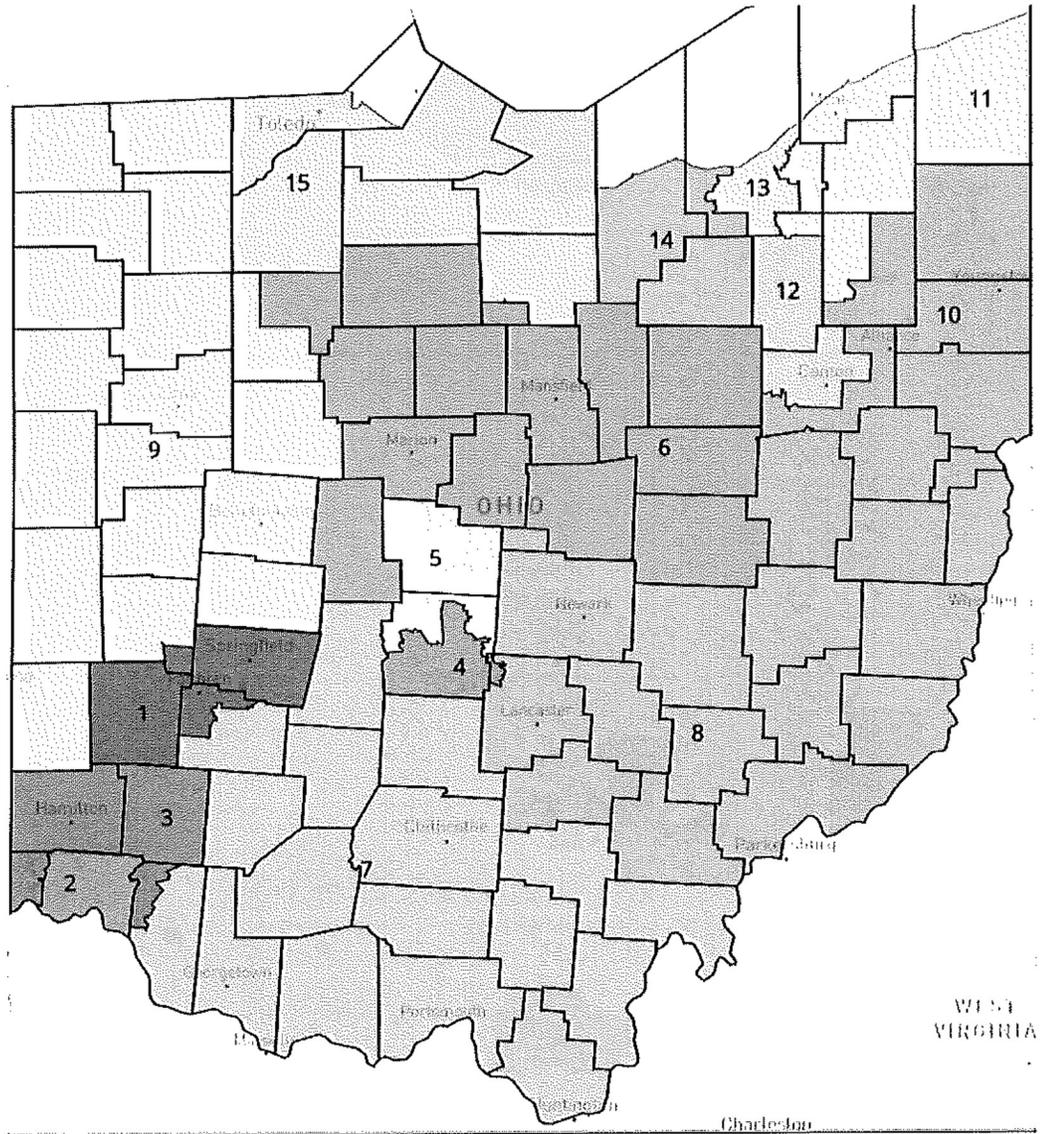

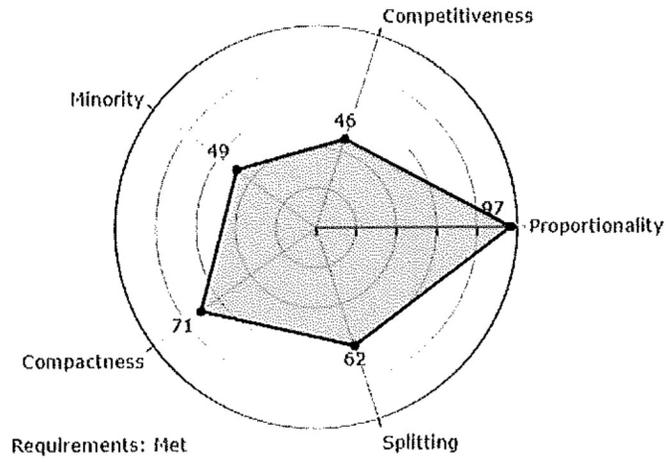

The Nieves Map: 346 Point Total

OH 2012 – 2020 Congressional: 121 Point Total

<https://davesredistricting.org/join/8e70e334-d954-4883-9bb5-2c778d0405ea>

Figures 3 and 4 show the maps submitted by the Fair Districts coalition include several more competitive and hypercompetitive congressional districts compared to Ohio’s current congressional map. For the purposes of these evaluations, competitive districts include a partisan index range between 55%-45%, and hyper-competitive districts have a partisan index of $\pm 3\%$. Though competitiveness is not an enumerated requirement for Ohio’s new congressional districts in the Ohio Constitution, one of the most important reasons millions of voters supported Issue 1 in 2018 was to create more competitive districts.

Figure 3.

| Congressional Districts | | | |
|-----------------------------------|-------------------|-------------------|---------------------|
| | Republican | Democratic | Competitive* |
| John Hagner | 6 | 3 | 6 |
| Paul Nieves | 6 | 4 | 5 |
| Riley Jones | 6 | 3 | 6 |
| 2012-2020 OH Congressional | 12 | 3 | 1 |

Figure 4.

| Congressional Districts | | | |
|-----------------------------------|-------------------|-------------------|---------------------------|
| | Republican | Democratic | Hyper-Competitive* |
| John Hagner | 7 | 7 | 1 |
| Paul Nieves | 8 | 6 | 1 |
| Riley Jones | 7 | 5 | 3 |
| 2012-2020 OH Congressional | 12 | 4 | 0 |

The three Fair Districts maps also improve upon Ohio’s current map in terms of minority representation. Currently, CD 11 is a majority-minority district stretching from Cleveland’s east side and adjacent suburbs down I-77 through Richfield and into central Akron. The current congressional map also includes one minority opportunity district in CD 3. Common themes and outcomes emerge when evaluating the minority representation of the three Fair Districts maps. Specifically, all three maps create a coalition majority-minority district based in Cuyahoga County and the city of Cleveland, meaning the districts do not contain >50% BVAP, but rather *all* minority populations in the district reach the >50% VAP threshold. The other two minority opportunity districts established in all three Fair Districts maps are based in

Columbus and Cincinnati. All three maps created two coalition opportunity districts with the minority voting age populations falling between the 35%-50% VAP. Figure 5 illustrates the minority representation figures for each of these three districts and Ohio's current congressional map.

Figure 5.

| Minority Representation | | | |
|--------------------------------|---------------------|--------------------|--------------------|
| | Cuyahoga County | Franklin County | Hamilton County |
| Hagner | 56.9% MVAP CD 11 | 47.2% MVAP CD 3 | 35% MVAP CD 1 |
| Nieves | 57.3% MVAP CD 11 | 46.9% MVAP CD 3 | 35% MVAP CD 1 |
| Jones | 51.3% MVAP CD 13 | 46.3% MVAP CD 4 | 35.4% MVAP CD 2 |
| 2012-2020 Congressional Map | 61.9% MVAP CD 11 | 48.6% MVAP CD 3 | N/A |

Finally, cracking and packing -- the building blocks of gerrymandering -- can be measured through *Efficiency Gap Analysis*. This analysis captures in a single number the extent to which district lines waste (crack and pack) one political party's voters more than the other party's voters. In other words, how many votes are "wasted" because one candidate gets excessively more votes than are needed for a simple victory (excess votes have been **packed** into the district) or "wasted" because a candidate has no chance of winning at all (the party's votes have been **cracked** across several districts so that none of the candidates have a chance of achieving a majority).⁷ **The lower the number of a district's efficiency score, the fewer "wasted" votes it contains and thus the less gerrymandered it is.** Figure 6 shows the efficiency gap scores for all three of the Fair Districts maps and Ohio's current congressional map.

Figure 6.

| Efficiency Gap Analysis | |
|----------------------------------|-------|
| Hagner's Map | 4.0% |
| Nieves' Map | 4.4% |
| Jones' Map | 3.3% |
| 2012-2020 Ohio Congressional Map | 14.1% |

⁷ <https://www.caliper.com/glossary/what-is-the-efficiency-gap-measure.htm>

It's clear that each of the maps presented today keep counties together. Districts are compact and the maps are proportional. Each of the mapmakers was thoughtful about the choices he made. In the submission of my written testimony, I included the narratives that accompanied the maps. These descriptions provide greater insight into the challenges of keeping communities together and highlight that while there are trade-offs, it is possible to create maps that keep counties together and do not unduly favor one political party over the other.

Notable Features of John Hagner's map:

- The map is purposeful in keeping the counties of the Appalachian region in a single congressional district as a community of interest (District 6)
- Creates District 3 (Columbus area) to maximize opportunity for minority representation, while respecting county boundaries and legal population parameters
- Shows truly impressive precision in population numeracy. All districts are +/- **3 people** of the target population of 786,630

Notable Features of Paul Nieves' map:

- Districts are visibly compact and certainly contrast with the existing congressional map
- No county is split more than a single time
- Fair Districts Ohio community maps were used to identify communities of interest in order to aid in creating meaningful congressional districts

Notable Features of Riley Jones' map:

- Does exceptionally well in following municipal boundaries, particularly those within Franklin County
- Unifies the Akron-Canton corridor by keeping them in a single district

Each of the winners participated in two webinars. In the first webinar on October 13, the mapmakers demonstrated their district lines and explained their choices. Members of the public provided suggestions to improve the maps. On October 20, the winners participated in a second webinar in which they made changes in response to the recommendations. This process highlighted the benefit of public participation in the mapmaking process and how maps can be significantly improved with public input.

Changes to maps – Demonstrating the process that the Ohio Redistricting Commission is supposed to follow.

- *John Hagner:*
 - In his original map, John elected to instead keep the Somali population whole – but that divided Westerville and Gahanna into two congressional districts. He made changes to keep Westerville and Gahanna whole.
- *Paul Nieves:*
 - Made edits so that fewer rural counties were split.

- *Riley Jones:*
 - Made changes so that the Cincinnati area district follows municipal lines entirely.
 - Eliminated a county split in the Dayton-Springfield district.
 - Made change so that Cuyahoga County is split only once.

Conclusion

With dedication and time, attention to detail, respect for all Ohio voters, and the necessary expertise, it is clearly possible to create fair, functional, constitutionally compliant congressional maps for Ohio. We hope our official mapmakers are inspired and encouraged by the work of these citizen mapmakers and will rise to the challenge ahead of them for the sake of all Ohio. We admonish you to step up and get started on this monumentally important and urgent task as soon as possible.

To: Mulvey, Aaron <Aaron.Mulvey@ohiohouse.gov>
Subject: Re: Analysis of SB258

Thanks Aaron,
I have a few follow up questions

- 1) Based on the note at the bottom, other statewide races such as the governor's race were not included in the analysis, right?
- 2) If other statewide races were not included, why?
- 3) What do the numbers under the FED Election Data category represent?
- 4) Depending on the answer to question #3, What's the breakdown of Republican voters to Democratic voters in each district?

It looks like the number under FED Election Data would be the percentage of people that voted for the Republican candidate.

Thanks,
Andy

Subject: Analysis of SB258

Hi Aaron,

Springhetti000370

On the House floor Thursday Rep. Swearingen referenced voter data to talk about which districts are competitive in SB258.

Gov. Mike DeWine's office also said they received that analysis from the Ohio House. Can you send me that information?

Whatever data was used to determine what the voter breakdown was in each districts.

Thanks,

Andy

SUMMARY BEGINS ON NEXT PAGE

Count of Subdivisions Reviewed for Splits

```

+++++
1,606  1a. Number of records in file.
      0  1b. Number of records skipped (water; code; n/a).
1,606  1c. Number of Subdivisions included in review.
1,575  1d. Number of Subdivisions not split.

```

Count of Subdivisions split overall

```

+++++
      31  2a. Number of Subdivisions in which a split occurs.
      62  2b. Number of split components.

```

Count of Subdivisions split due to zero population units

```

+++++
      2  3a. Number of Subdivisions split only due to the inclusion of 0 population units.
      6  3b. Number of total components in these subdivisions.
      0  3c. Number of split components in OTHER subdivisions with NO population.

```

Count of Subdivisions excluding those due to zero population units

```

+++++
      29  4a. Number of Subdivisions in which a split with population is included.
      56  4b. Number of split components with population.

```

Count of Subdivisions by number of split components

```

+++++
      31  Subdivisions split into 2 districts.

```

Count of High-level Subdivisions in which any split subdivisions occur

```

+++++
      12  6a. Number of counties, or equivalent, in which at least one split occurs.

```

SUMMARY BEGINS ON NEXT PAGE

Count of Subdivisions Reviewed for Splits

```

+++++
88  1a. Number of records in file.
0   1b. Number of records skipped (water; code; n/a).
88  1c. Number of Subdivisions included in review.
76  1d. Number of Subdivisions not split.

```

Count of Subdivisions split overall

```

+++++
12  2a. Number of Subdivisions in which a split occurs.
26  2b. Number of split components.

```

Count of Subdivisions split due to zero population units

```

+++++
0   3a. Number of Subdivisions split only due to the inclusion of 0 population units.
0   3b. Number of total components in these subdivisions.
0   3c. Number of split components in OTHER subdivisions with NO population.

```

Count of Subdivisions excluding those due to zero population units

```

+++++
12  4a. Number of Subdivisions in which a split with population is included.
26  4b. Number of split components with population.

```

Count of Subdivisions by number of split components

```

+++++
10  Subdivisions split into 2 districts.
2   Subdivisions split into 3 districts.

```

Count of High-level Subdivisions in which any split subdivisions occur

```

+++++
12  6a. Number of counties, or equivalents, in which at least one split occurs.

```

Count of Subdivisions Reviewed for Splits

```

+++++
1,266  1a. Number of records in file.
      1  1b. Number of records skipped (water; code; n/a).
1,265  1c. Number of Subdivisions included in review.
1,212  1d. Number of Subdivisions not split.

```

Count of Subdivisions split overall

```

+++++
      53  2a. Number of Subdivisions in which a split occurs.
     109  2b. Number of split components.

```

Count of Subdivisions split due to zero population units

```

+++++
      5  3a. Number of Subdivisions split only due to the inclusion of 0 population units.
     10  3b. Number of total components in these subdivisions.
      1  3c. Number of split components in OTHER subdivisions with NO population.

```

Count of Subdivisions excluding those due to zero population units

```

+++++
     48  4a. Number of Subdivisions in which a split with population is included.
     98  4b. Number of split components with population.

```

Count of Subdivisions by number of split components

```

+++++
     51  Subdivisions split into 2 districts.
      1  Subdivisions split into 3 districts.
      1  Subdivisions split into 4 districts.

```

SUMMARY BEGINS ON NEXT PAGE

Count of Subdivisions Reviewed for Splits

```

+++++
8,941  1a. Number of records in file.
      8  1b. Number of records skipped (water; code; n/a).
8,933  1c. Number of Subdivisions included in review.
8,893  1d. Number of Subdivisions not split.

```

Count of Subdivisions split overall

```

+++++
40    2a. Number of Subdivisions in which a split occurs.
80    2b. Number of split components.

```

Count of Subdivisions split due to zero population units

```

+++++
9     3a. Number of Subdivisions split only due to the inclusion of 0 population units.
18    3b. Number of total components in these subdivisions.
0     3c. Number of split components in OTHER subdivisions with NO population.

```

Count of Subdivisions excluding those due to zero population units

```

+++++
31    4a. Number of Subdivisions in which a split with population is included.
62    4b. Number of split components with population.

```

Count of Subdivisions by number of split components

```

+++++
40    Subdivisions split into 2 districts.

```

Count of High-level Subdivisions in which any split subdivisions occur

```

+++++
12    6a. Number of counties, or equivalent, in which at least one split occurs.

```

SUPPORT SUB S.B. 258

- Thank you speaker
- Chair of Government Oversight + Co-Chair of Joint Committee
- For our legislative districts—15 total hearing with 10 of those being held across the state for public input. The remaining 5 exceeded the constitutional requirement
- For the congressional maps—there have been a total of 17 hearings. Including:
 - The Redistricting Commission
 - The Joint Committee
 - The House Committee
 - The Senate Committee

~meeting and exceeding all constitutional requirements
- For the Government Oversight Committee, there was no time limit imposed on testimony, or questions. Many people testified multiple times through different committees.
- ~~Now we have heard many different times throughout the hours of testimony on this issue, and quite frankly, I am confident we will continue to agree to disagree as to meanings and intent.~~

OUR SPECIFIC DISTRICTS

- Fair is one of those terms, and fair, colleagues, is a relative term.
- Let's take for example, Appalachian Ohio. It runs from Clermont to Ashtabula County. ~~Counting~~ ³² counties exact. How many of those counties should be included in a congressional district?
- Now my good friend ^{REP. KRUM} from Hamilton County might speak as to her objection to some of Hamilton county being in the 2nd district.
- My question then is back to how big should the 2nd district be?
 - o 16-18-20 or more counties? Is that fair?
- Every county effects other counties-

12 full + partial

Each district ^{LINE} ~~life~~ effects other district ^{LINE} ~~lives~~.

Sub S.B 258

- Has the lowest amount of county splits
- Keeps all our ^{MS} city's whole and contains ⁱⁿ in one district
- And has the least amount of sub-division splits

Speaker--- my colleague Representative Swearingen will go into this ^{on} more detail.

I urge a yes vote on Sub SB 258

CERTIFICATE OF SERVICE

I, Freda J. Levenson, hereby certify that on this 10th day of December, 2021, I caused a true and correct copy of this appendix to be served by email upon the counsel listed below:

Bridget C. Coontz, bridget.coontz@ohioago.gov
Julie M. Pfeiffer, julie.pfeiffer@ohioago.gov
Michael Walton, michael.walton@ohioago.gov

Counsel for Respondent Ohio Secretary of State LaRose

Phillip J. Strach, phil.strach@nelsonmullins.com
Thomas A. Farr, tom.farr@nelsonmullins.com
John E. Branch, III, john.branch@nelsonmullins.com
Alyssa M. Riggins, alyssa.riggins@nelsonmullins.com

*Counsel for Respondents House Speaker Robert R. Cupp and Senate President
Matt Huffman*
