10/18/25 10:30 AM	Prof Patrick Conway	UNC	This proposal is shameful. I expect my representatives to have the good of the state at heart, and I see none of that in this brazen act. Please do not go forward.
10/18/25 10:31 AM	Christine Jacob		The redrawing of district maps is a blast at attempt by the Republican Party to skew voting blocks to their favor and to disenfranchise minority voters and non-Republicans. This is authoritarianism in action and has no place in our democratic republic and the state of NC. Shame on you.
10/18/25 10:32 AM	Tonya McGuire		I oppose the redistricting proposal. Gerrymandering must be stopped in NC. This is not democracy.
10/18/25 10:32 AM	Genevieve Swager		EVERY citizen of North Carolina has the right to have their voice heard and their vote count. Gerrymandering NC districts in such a way that results in suppression of the choice of ANY citizen is dishonest, un American, and unconstitutional. Please step away from this incorrect path that you are going down. Leave districts alone and let the ideals of America shine!
10/18/25 10:33 AM	Stacy McCoy		This is anti democratic. Instead of gerrymandering, create policies that actually win over the public. NC is a purple state and votes both blue and red on state wide elections. It is unnecessary to cheat. Moderate policies on both sides would win.
10/18/25 10:33 AM	Hayden Locklear		This is blatant gerrymandering! You are stealing the voices of North Carolinians if you vote yes to this. Stop stealing our votes.

10/18/25 10:33 AM	Mr Matthew Poston		The current proposed congressional district maps are a blatant power-grab. NC is one of the most diverse and balanced states with about 30% registered Republicans, 30% registered Democrats, and 38% unaffiliated. Why change them when this is unnecessary and the current NCGA cannot even pass a budget. But here we are, NCGA has time to unconstitutionally screw constituents over but not pass a budget that works for all. Imagine the headlines, "NCGA passes a gerrymandered congressional map but fails to pass a budget. Who are they working for?" This is not how our state government should work. Everyone should be represented by using fair districts. I will vote against any of my reps, regardless of party, and work to campaign for their opponents if the proposed map is adopted into law. People regardless of party are fed up with the bull hockey we are seeing in this state and nationally. Voting for this map to proceed to a vote just perpetuates the idea government is run by fascists, oligarchs, and those who do not have the morals to stand up to what is wrong. The people of this State are watching.
10/18/25 10:34 AM	Eric Martin		Gerrymandering of any kind by any party is wrong and amounts to cheating. Stop attempting to rig elections (something the Republican party has supposedly been loudly against) and let the will of the people actually decide their representatives.
10/18/25 10:35 AM	Gretchen Whipple		True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Redistricting should occur after a new census AND should be designed by a nonpartisan board.
10/18/25 10:35 AM	Ellen Welch		It,Äôs not acceptable for politicians to draw districts to help their own party win more seats by diluting opposition votes. I support the establishment of a bipartisan citizens commission to draw fair voting maps for North Carolina. Please end partisan gerrymandering in North Carolina.
10/18/25 10:36 AM	Jennifer Amann		You know good and well that the people don,Äôt want new maps, and that squeezing one more republican seat out of this 50/50 state is unfair and unjust. The maps are already ludicrously disproportionate and already run afoul of the state constitution, having been redrawn in excess of the once every 10 year mandate. Stop propping up the rancid policies of this administration and get the people of North Carolina a budget.
10/18/25 10:36 AM	Christina Kelly		The proposed map is ridiculous and will silence the voices of the people. Please don't do this. I don't want my kids to grow up in an autocracy.
10/18/25 10:37 AM	Ms Sarah Gilliam		Redrawing our maps to win favorable points from President Trump is unacceptable and insulting to the voters of North Carolina. You work for us, not Trump. We deserve fair and just elections so our voices are heard. Don,Äôt cheat because you know you will lose. Grow up.
10/18/25 10:37 AM	Marsha Carlton	RETIRED TEACHER	No to redistricting. Get to work on the budget and increase teacher pay. NC has the money!
10/18/25 10:38 AM	Ms. Lynne Kane	retired	It is indefensible and unconscionable that the NC General Assembly seeks to change our NC redistricting for a third time since the last US Census. NC is reliably reported to be equally divided between Democratic and Republican registered voters. A slightly larger portion of NC voters are registered Unaffiliated. NC currently has skewed districting so that Republicans can elect more than twice the number of Democrats. Republican-dominated NCGA, have you no shame? Please stop this effort to redistrict NC again now.
10/18/25 10:38 AM	Mrs Patricia Demilio		I am opposed to this redistricting, that is being done purely on partisan political basis . Legislators openly stated that they are doing it to help the President . No new census data has come out to make this necessary. Strongly in opposition.
10/18/25 10:39 AM	Erika Jordan	Concerned citizen	I vehemently oppose the plan to modify voting districts in North Carolina.
10/18/25 10:41 AM	Christy Bowman		Gerrymandering is disgusting. Stop trying to subvert the will of the people! Cheating the system to dilute the votes and thereby alter the representation of our citizens is morally reprehensible.
10/18/25 10:42 AM	Mrs. Lynn Foes		Stop the gerrymandering. If you can't win honestly, you shouldn't win. No where in the US Constitution is one sentence granting states the right to divide us into political parties.
10/18/25 10:42 AM	Sana Beg		I would love for the Republicans who are redrawing these districts to actually think for a minute how it feels to live in a state that isn,Äôt controlled by the will of the people. You have taken oaths to uphold the Constitution and yet, you are in the process of undermining it. You are disenfranchising thousands of people in the state that you represent. You should be ashamed of yourself taking away the voice and will of the people. If we are ever to heal our country, ALL voices need to count. You are causing further division and your actions will catch up with you when we break- because we will. Redraw fair maps where fair races can be run. Redraw maps that aren,Äôt guided by the fear that you can,Äôt get elected on principles.
10/18/25 10:42 AM	Chip Kennedy		I'm embarrassed to live in a state with such incredible partisan gerrymandering. I'm shocked that we are considering doubling down on what is one of our biggest state embarrassments. I want to be represented by a state legislature that is at least remotely interested in free and fair elections. This redistricting proves that is not the case.
10/18/25 10:43 AM	Cynthia McGrayne		This is a shameful abuse of power.
10/18/25 10:44 AM	Tina Norton		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.

10/18/25 10:45 AM	Ms. Peg Andrew	Non-affiliated	I don't know what or why this is being considered. As a citizen committed to our Democratic principles of this Republic, I will only support & vote to elect my fellow citizens who will uphold fair & free elections for all. I am disgusted by gerrymandering to manipulate election outcomes that negate 1 person 1 vote.
10/18/25 10:47 AM	Mrs. Nina Emanuel	Self	The proposed redistricting map dilutes American Indian voting influence by splitting the Lumbee State Designated Tribal Statistical Area (SDTSA) into three separate districts (proposed districts 7, 8, and 9), and it also splits the Coharie SDTSA into three separate districts (proposed districts 3, 7, and 13). I am an enrolled citizen of the Lumbee Tribe of North Carolina and ask for re-evaluation that would not dilute the influence of American Indians in the governmental affairs our home state.
10/18/25 10:48 AM	Mrs Margherita Somers		I find it dangerous and unethical for the legislature to even be considering redistricting before the next census count. Do the legislators lack a backbone?! They know what is right but are instead following President Trump's requests. This is nothing more than trying to create a rigged election. If my elected representatives can do this, why should they be trusted with other matters! In other words, where is the red line? How about working on a budget and other issues that affect the citizens of NC! You were voted in by NC citizens, NOT DONALD TRUMP!
10/18/25 10:48 AM	Diana Brandt		STOP mid-cycle redistricting now!
10/18/25 10:48 AM	Betty Kilby		Gerrymandering is not democratic as it does not allow all to vote with equal results. It ensures that one party will win over another. We don‚Äôt even have a budget for this year and you are planning to spend time redrawing districts? You were elected to represent ALL North Carolinians, but you are not. I was a lifelong Republican, having voted in my first election in 1972. However, no Republican has received my vote since 2016. I hope the party will return to its roots someday so I can return to mine. I am ashamed of the majority of my elected officials and would never support them in an election.
10/18/25 10:49 AM	Mr Leo Salzer	None	The proposed redistributing is harmful to North Carolina‚Äôs democracy by violating proportional representation in our congressional delegation. The 2024 presidential election result was 51% to 48% and the proposed US Congressional delegation result would be 86% Republican vs 14% Democrat. An overwhelming majority of Democrats, Independents, AND Republicans oppose gerrymandering in North Carolina. 78% of Republicans in an Opinion Diagnostics poll last month opposed gerrymandering.
10/18/25 10:50 AM	Yvette Richardson	Senior Survivor	Why is attempted redistricting happening now!? Theres been no descent reputation in years! Now with regindacation taking over older established community and raising prices to be unaffordable. It further seems as a means of discouraging voting in certain areas that may make everything more difficult
10/18/25 10:50 AM	Mrs. Julie Giljames		As a former registered Republican, I am beyond frustrated with the Republican‚Äôs desperate grasp for power by not only limiting our FAIRLY ELECTED governor from contesting the multiple redrawing of districts for voting purposes, but to bow to our current leader ignores the people and their wishes yet again. Since you cheat, let me be clear. To do this, while not approving a budget for this year is mind blowing. That is your job and you control everything- but THIS is your priority! Ridiculous - and sadly expected. Cheaters never win, and I look forward to the day when elections truly represent a fair winner and loser. How do we get there? I don‚Äôt know - and that is the most frustrating part.
10/18/25 10:50 AM	Clifton Johnson		I absolutely oppose redistricting in favor of one party over the other. These actions have gone on too long and should be independent and non-partisan. Do not redistrict our state again.
10/18/25 10:50 AM	Clare Kalina		This latest republican gerrymandering attempt is WRONG!
10/18/25 10:50 AM	Kelly Sheridan		I do not support the redistricting proposal. As a single woman, it gives me great trepidation that my government would change the rules to force an authoritarian result. If a dictator is the end goal, then just seize power. Don't gerrymandering the districts and claim it's the will of the people. We see the shady tactics, it's not fooling anyone, except maybe the people who for some reason still side with the president and think he's on theirs.
10/18/25 10:52 AM	John Justice		The best time to scrap this mid-decade redistricting idea was before it was announced. The next-best time is this instant. Every day the NCGA finds a new way to embarrass the Tarheel State. Let us not assassinate our repetition further in front of a stunned nation and world aghast. You have done enough. Have you no sense of decency?
10/18/25 10:52 AM	Marci Lew		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/18/25 10:53 AM	mr Matt Sadinsky	NCDPJC = NC Democratic Party Jewish Caucus	Just because you can do something is not a reason to do it. Bullies and those who oppose bullies know that. NC is pretty much split ~ 30% R -30% B-30% I-10% U. R-D-I-U (Republican - Democratic - Independent - Undecided) To assure equality in representation, one party should not gerrymander, pack and stack districts to steam roll the others. People elect their representatives not the other way around. Matt.Sadinsky@gmail.com 1st Past President - NC Dem Party Jewish Caucus Catawba Co Dems - Platforrm & Resolutions Committee Chair
10/18/25 10:53 AM	Ms Sandy Hall		I've had enough of the government abuse of power

10/18/25 10:53 AM	Forest Ensley		I write as a concerned North Carolina voter to urge you to oppose the proposed redistricting plan. This effort appears designed to expand partisan control in Congress at the expense of fair representation for the people of our state. As citizens, we have a constitutional right to choose our representatives through maps drawn fairly, not manipulated to entrench power for a single party or individual. Our state,Äôs founding principles protect citizens from concentrated authority and preserve government accountability to the people. Redistricting that prioritizes political advantage over the will of voters undermines those principles and weakens public trust in our democratic institutions. Your duty is to represent the interests of your constituents, not to protect the political fortunes of national leaders. I respectfully ask you to stand for fair maps that reflect North Carolina,Äôs communities and ensure every voter,Äôs voice carries weight. Please oppose any redistricting plan that sacrifices representative democracy for partisan gain. Thank you for your attention and for defending the rights of the people you serve.
10/18/25 10:53 AM	Elaine Hayes		Comment submitted. If someone is not sure what to say, here is what I wrote: I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/18/25 10:54 AM	Danielle Rider		I do not approve of the proposed redistricting
10/18/25 10:54 AM	Megan Lagueruela		The worst idea ever. You know what I love more than gerrymandering in my state? Even more gerrymandering! It makes SO MUCH SENSE to fix elections in a party,Äôs favor rather than listen to the will of the people. /sarcasm
10/18/25 10:54 AM	Dr. Jose Guevara		I am completely opposed to the new redistricting efforts proposed in North Carolina. I believe this will disenfranchise voters and does not represent myself or the will of the people of the state. Aside from previous maps proposing similar maps as illegal, this is not what I want or need my representatives to be focusing their time and energy on.
10/18/25 10:55 AM	Rev. Kathy B		Please halt the mid-decade redistricting. Gerrymandering should be illegal. It violates the ideas of fairness and transparency. Ideas should win on their own merit, not because someone manipulated the voting districts. The mass majority of all people in North Carolina, across party lines and those unaffiliated, do NOT want this kind of dishonest practice to destroy our democratic ideals. Honest, fair dialogue should be the influences, not manipulation and dishonesty. Votesr have a right to be represented.
10/18/25 10:55 AM	Christy Reynosa		How can yall sleep at night, knowing that you are doing wrong. This is totally keeping POC out, this is not a white mans world. America IS and always has been the Melting Pot, meaning all races, ethnicities, religions backgrounds of people. I am white, white as they come, but i am not your kind of white. I,Äôm not scared or intimidated by someone other than white to be smarter, richer, articulate or better than me. I love diversity in my America, diversity in food, religion, who you want to love, people etc. This is why the electoral system shouldn,Äôt even be a thing. Do the popular vote where you actually see people,Äôs votes. I am someone that can see and hear both sides of something, but things that are going on today i cannot, these things are morally not right. This administration and anyone supporting is on the wrong side of history, I,Äôm talking like yall are on the worst kind like the Nazi equivalent side of history. So let me remind you of the elementary school basics, put on your big girl/boy pants, your thinking caps and stand against this crap!
10/18/25 10:56 AM	Darlene Lear	health care	Please do not redraw the voting maps to cheat to get more Republican Congressional votes to continue "President Trumps agenda". The current path is hurting too many Americans. If the midterm elections disrupt the current "balance of power" so be it and realize that it is the will of the voters. "The voters pick the representatives, the representatives do not pick the voters" Gov. Josh Stein
10/18/25 10:57 AM	Michael Mallette		You know this is wrong. Stop it. You stupid fucking nazis fuck you. You,Äôre destroying our country and everything we,Äôre supposed to stand for. Fuck you.
10/18/25 10:57 AM	Rachel Fletcher		This is not in response to census changes but to force more seats to one party and disenfranchise more people. BE BETTER THAN THE REST, NC!!
10/18/25 10:57 AM	No Redistricting Mariana Rosales	NC Resident and U.S. Citizen	The state of North Carolina should not be redistricted just because a president has requested it. Elections should always be fair, voters should always be able to choose who represents them and their community. Gerrymandered maps undermine the wants of the people. The map drawings should be transparent and not based on political considerations.
10/18/25 10:58 AM	Unnecessarily Complicated Ross Strickland	Voter	The current proposal is unnecessarily complicated. District 13 is a particularly weird shape, with 2 large pieces of land connected only by a small corner of eastern Wake County. The map should be redrawn with a focus on simplicity and compactness.
10/18/25 10:58 AM	Ms Diana Hill		Public commentary should not only be allowed but heeded and implemented. NO PARTY officials should be afraid that their policy is so out of sync that they can't trust the voters to make the correct choices for their representation.

10/18/25 10:59 AM	Mrs Monica Delrosso		Interested in fighting gerrymandering
10/18/25 10:59 AM	Kara Hunter		My name is Kara Hunter, and I am a resident of Charlotte, NC in Mecklenburg County. I am here today representing the newly created Congressional district 14. I am writing both to express a deep concern for the process of public commenting, which needs to return to a widespread public forum and not extremely limited to online submissions, and is easily understood as to the criteria used, and also to express a strong conviction that these maps should have judicial oversight to be fair to avoid unnecessary geographic divisions, like what has happened in my own district. District 14 is a part of Mecklenburg County that has changed district lines, voting makeup, and representatives at least 3 times in the past five years and this new map would be a fourth. I felt the 2022 District 14 was a fairly drawn representation of this area of the county and surrounding areas, while the 2024 and 2025 maps have used our district like a cookie cutter to pull out Ballantyne, Pineville, Huntersville, Cornelius, Davidson, Mountain Island and Steele Creek out of the rest of Charlotte and lumped it in with Gaston, Burke, Cleveland, Polk and Rutherford counties, and these parts of Charlotte have little to no ‚Äúcommunity of interest‚Äù with these other counties. Because this has happened here in Charlotte, I am also concerned about other cities such as Winston-Salem and Greensboro, Wilmington, Raleigh, and many more where districts have been manipulated to create packing (as in the city of Charlotte proper) and cracking, in splitting our part of District 14 into these rural counties. Return to the court-drawn remedial map of 2022 and create more competitive districts instead of blatant partisan and undemocratic representation by the current NC legislature.
10/18/25 10:59 AM	Michael Mallette		Elected officials should represent all citizens, and not try to silence those that disagree with them. Winning less than 51% of the NC vote does not give a mandate to ignore the other 49%
10/18/25 10:59 AM	Kathleen Weeks		Mid-decade redistricting -GERRYMANDERING - just shows you to be Trump‚Äôs stooges. History and the ballot box won‚Äôt look kindly on you. I STRONGLY DISAGREE with this scheme.
10/18/25 11:00 AM	Mr Jerry Morgan	Retired	When your Family and Relatives (Children, Grandchildren) have no reason to bring up Your name due to your record of being thieves and Pawns, I‚Äôm sure the subject will be changed due to the embarrassing behavior you display today. The Legacy you leave behind will be nothing‚Ä¶ Wake up stop being just a face in the crowd!
10/18/25 11:00 AM	Dr. Cathy Brigham		I oppose attempts to redraw North Carolina‚Äôs congressional district maps before the 2026 midterms. This redistricting process is blantantly motivated by partisan interests and sets a dangerous precedent to rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around. Thank you for your time and consideration.
10/18/25 11:00 AM	Dolly Reaves		We should not being drawing maps where partisan parties choose their politicians. This is a waste of money and a shame to democracy.
10/18/25 11:00 AM	Tara Ragland		As a North Carolinian but most importantly as an American. I have the right to choose who I want to represent me and my concerns. Washington politics should not be in North Carolina. Representatives in the North Carolina Assembly should be putting the needs of the people of North Carolina and not making sure they are pleasing Trump.
10/18/25 11:00 AM	Anna Brown		We are a purple state, full of voters with differing beliefs and opinions, and that is beautiful. Redistricting to purposefully conceal that fact is shameful and shows blatant disrespect to North Carolina voters. North Carolinians deserve representatives that serve them, not their own party interests.
10/18/25 11:01 AM	Natalie Stiles	Retired EC teacher	Stop acting like kids on a playground choosing sides. We are All on the same team-our kids and our state. Get a budget and quit picking sides. We are all in this together and our schools only suffer. How embarrassing that elected officials act like two year olds.
10/18/25 11:02 AM	No More Gerrymandering Robert Williams	Simple American	No more gerrymandering. Why is it so hard for the two political powers to realize that if they just do there jobs and work for the people that put. ?? never mind this is the US of A. Folk working for the good of all AMERICANS has never existed. Why would I ever ever think power would be shared? But. Puck power, I just want to be treated fair with decent Healthcare coverage and the right to not be harassed by scary old white people because they live in fear of not being in power.
10/18/25 11:02 AM	Kathleen Clodfelter		When I moved to North Carolina thirteen years ago, I was proud. But the political antics of gerrymandering my vote to the point where it no longer matters is an embarrassment. Grow up and do your jobs. Represent all voters in our state, not just the ones you choose.
10/18/25 11:02 AM	Anti-humans JD Hatley	Humanity	Your proposed redistricting is pathetic. It‚Äôs almost like you know how trash your policies are so you have to cheat to win. Very typical of republicans to cheat. You represent white supremacy and Nazis, not the great people of North Carolina. You are anti-human, anti-life, anti-America, anti-free speech, and anti-science. You are pathetic. May god have mercy on your souls, though I firmly believe Satan is the one who owns them.
10/18/25 11:03 AM	Ms Joanne Kalp		You can‚Äôt get a budget passed and you are taking time and resources to do THIS???? You clearly have no shame whatsoever. This is undemocratic. You do nothing but cater to the wanna be king in DC.
10/18/25 11:03 AM	Catherine Upton		Absolutely disgusting power grab by the people who fear the most. This will backfire on you and NC voters will hold you accountable. As someone who has always voted Republican in the past, you‚Äôve turned me into a straight Democratic ticket over the last 6 years. And this move will not change that under any circumstance. And truthfully, I suspect their are many more like me - still registered R but voting D. Your gerrymander may not turn out how you hoped anyway.

10/18/25 11:03 AM	Ms Anna Watson		I am STRONGLY OPPOSED to these redistricting maps. Please be aware that I and other unaffiliated voters are extremely unhappy with the kowtowing to Donald Trump currently being displayed by Berger and other NC Republicans! Remember that you were elected to represent ALL people of NC - not just those of your own party. It,Äôs shameful that you are trying to silence thousands of votes, and the people of NC who are against this will NOT forget who is behind this.
10/18/25 11:04 AM	Tori Douglas		Do NOT redistrict NC.
10/18/25 11:05 AM	Ms Christi Ruffin		The GOP is attempting to steal a congressional district in order to shield themselves from accountability at the ballot box! You know you can't win fairly so you're attempting to rig the race & rules. Shameful. You are racially discriminating against Black voters by splitting or packing their voting blocs to help GOP candidates win. Gerrymandering undercuts accountability to the voters, the very essence of democracy. Do not redraw the districts.
10/18/25 11:05 AM	Rebecca Warner		I stand firmly against this undisguised partisan power grab. Fair elections belong to the people. This egregious gerrymandering will give much more power to the Republicans than they would otherwise have. Let the voters decide who they want to represent them.
10/18/25 11:05 AM	Sandra Kelberlau		I am extremely upset with your new redistricting plans. By doing this, you dilute the votes of some of us North Carolinians while amplifying the votes of others. It,Äôs so unfair and further erodes my confidence in this state,Äôs governance.
10/18/25 11:06 AM	Brother Michael Speciale	IBT71	Redistricting is to occur every ten (10) years with the census. Using Redistricting as a political weapon outside of established precedent (every ten (10) years) seems like a waist of government and tax payer resources. We elect or State Reps to do state business not the bidding of the Federal Government,Äôs Executive Branch.
10/18/25 11:06 AM	Jillian Anderson		Redistricting should protect democracy, not manipulate it. When political lines are redrawn to silence voters and protect power, it,Äôs corruption,Äîplain and simple. Gerrymandering steals fair representation and rigs the system against the people. We demand transparency, accountability, and maps that serve voters, not politicians.
10/18/25 11:07 AM	Susan Pochapsky	member of League of Women Voters of NC	The biggest problem with another redistricting is the long-term precedent. The precedent will be that every time a majority party gets a dip in its favorability rating, it simply changes the maps to make sure its own candidates hang on to power--against the will of the voters. The ultimate result is of course that those candidates have nobody to please but themselves and their biggest donors. This is the opposite of representative government. I urge you to compete to win elections the old-fashioned way: by winning votes fairly and keeping campaign promises.
10/18/25 11:08 AM	Ms Jenny Wallace	Paramedic, mental health counseling intern	Please reconsider your actions and think about what this actually does to our democracy. Please allow the will of the people in NC to be respected fairly and without manipulation. I hope for good judgment for the benefit of every single person no matter their political affiliation. With respect, a public servant from WNC.
10/18/25 11:10 AM	Emma Fleming		Redrawing the maps to favor the republicans is such a clear power grab. Everyone deserves for their voice to be heard. You are silencing us. And why do you have to cheat to win? Do you fear you couldn,Äôt win without playing fair?
10/18/25 11:12 AM	Laura Shearin-Feimster		You just did this two years ago and I'm pretty sure demographics haven't changed. The whole idea is just dumb.
10/18/25 11:12 AM	New District State Map Leah Flint		As a native North Carolinian I am completely appalled by the redrawing of the district maps. This is not the America I know. My husband served 27 years in the military and fought for EVERY PERSON no matter the party affiliation. As our state legislatures you are bound to do the same. You should t be working for just republicans. You should be working for all of us!
10/18/25 11:14 AM	Redistricting comments Ashley Jessen		I do not agree with the proposed redistricting map. This is a blatant waste of time and tax payer money.
10/18/25 11:15 AM	Ms Frances de Usabel		I am opposed to redistricting NC District 1 to further gerrymander this already thoroughly gerrymandered state. It is a blatant attempt to rig the 2026 midterms in favor of Republicans and it's anti-democratic. It makes a travesty of the voting process. A poll in September found that 78% of Republicans and 87% of Democrats oppose gerrymandering and yet on you go.... While you think it's worthwhile to return to Raleigh for this political gimmick, you don't think it's worthwhile to return to pass the budget and help millions of North Carolinians. No amount of gerrymandering will keep you in office, as the public gradually realizes that you have no interest in serving them.
10/18/25 11:15 AM	Candice Self		No. Do not redistricting. This is egregious!

10/18/25 11:15 AM	Mr. David Grinnell	Democrat	1) I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. 2) Gerrymandering violates core principles of fairness, accountability, and limited government. 3) Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. 4) While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. 5) Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. 6) True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. 7) Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 8) 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/18/25 11:16 AM	Absolutely not Anne Krishnan		I am strongly opposed to attempts to redraw North Carolina,Äôs Congressional districts. They are already unfair, biased, and partisan. To gerrymander them further would be a crime. Stand up to Trump and do what,Äôs right for your constituents, whose voices and votes you are taking away.
10/18/25 11:16 AM	Pamela Stephens		There is NO reason for redistricting now unless an impartial entity develops new maps that are competitive. Gerrymandering destroys the opportunity for the people participate in the governing of this state and the country. In this case it is especially egregious for Phil Berger to call for this redistricting (AGAIN) in order to earn the endorsement of Trump in the primary.
10/18/25 11:17 AM	Mrs. Donna O,ÂôRourke		No gerrymandering! You represent all people, black, brown & white and all of us are entitled to representation in Congress. This is NOT a one party nation. Do the right thing!
10/18/25 11:18 AM	redistricting Kailey wallace		This is disenfranchisement akin to taxation without representation. North Carolinians should stop paying their taxes if this plan goes through. We should have done it long ago. A curse upon Phil Berger.
10/18/25 11:18 AM	Susana Melendez		Do no redistrict. Let's get fair elections.
10/18/25 11:18 AM	Mandy OBrien		I can,Äôt believe this is up for consideration. The Trump administration is damaging NC farmers, universities, pulling funding from education and healthcare and you are seriously considering helping him perpetuate further damage? Do you honestly believe the people are with you. Shameful!
10/18/25 11:19 AM	ms Carolyn Porter		I oppose the proposed redistricting that will further erode the value of our votes in North Carolina. This partisan gerrymandering has to end.
10/18/25 11:21 AM	undemocratic and immoral Patrick Ewald		Gerrymandering is by nature minority rule. North Carolina represents a vast spectrum of opinions and priorities that reflect the individual needs of each community. Diluting the representation of these communities no matter their political leanings, is not only immoral but undemocratic. This will further drive division and discontent among us all. I strongly oppose the continued gerrymandering of our state. An apolitical redistricting committee is the moral and American way forward!
10/18/25 11:21 AM	Ms. Cynthia Schaub		Please, NO MORE GERRYMANDERING. Please remember that you serve the people - all the people of North Carolina - not the sitting president. Please do the decent thing and stop this gerrymandering process.

10/18/25 11:23 AM Anna Thomas		I am a registered unaffiliated voter who has voted Republican throughout my adult life. I am categorically opposed to any mid-decade legislation to change our congressional districts. This appears to be a partisan effort, driven by President Trump, to make it harder for many North Carolinians to have their voices heard, effectively removing representation from a large portion of your constituents. For years I have watched silently as the North Carolina legislature has stripped the governor‚Äôs office of power and redrawn congressional districts in ways that seemingly skew the balance of power in this purple state toward one party. This directly diminishes the voice of your constituents and is beneath the standards of fair government. Although I have historically voted Republican, I believe deeply that every North Carolinian‚Äîregardless of party‚Äîdeserves an equal voice in the government of our great state. If maintaining power requires redrawing districts mid-decade at the behest of a president who has shown disregard for ordinary Americans and especially for North Carolinians, then the problem lies not with the districts but with the message and the policies being advanced. We North Carolinians pride ourselves on being First in Freedom. Live up to that legacy. Do better.
10/18/25 11:24 AM Sara Van Asch		I know the decision has been made so it's unlikely any of these comments will change the GOP members' minds, so what I'd like to know is why they think this is a good idea. It's obvious the majority of NC residents (of both parties) don't support it, we're already one of the most gerrymandered states in the country, and nothing is being accomplished anyway - we don't even have a budget. Other than the obvious request from Trump, what's the purpose? He isn't going to be here forever and this type of blatant bootlicking is going to be your legacy. Is it worth it? Is it worth trading your soul, your decency, your morals to have this be what you're remembered for? Don't you want to be remembered for having the courage to do the right thing and working for the people that elected you, and not Trump? Power may seem attractive and the goal in the moment but history will not be kind. If redistricting is that important put it on the ballot and let the people decide.
10/18/25 11:25 AM Jennifer Hopson		I am writing to strongly oppose the proposal to redraw North Carolina‚Äôs district maps again at this time. By law, redistricting occurs once every ten years, following the census. The last census was in 2020. The last maps were drawn in 2023, and no legitimate reason has been presented for revisiting redrawing of them so soon. Redrawing districts outside of this lawful timeline undermines public trust, disrupts stability in representation, and gives the appearance that elected officials are choosing their voters rather than the voters choosing their representatives. This action is not only unnecessary, but deeply unjust, unethical, and contrary to the democratic principles that our state and nation were built upon. Every North Carolinian deserves fair representation and a voice that is not diluted for political gain. Elected officials are entrusted to serve all citizens, not just those who ensure their continued power. Manipulating district lines for advantage betrays that trust and damages the integrity of our electoral system. I urge you to honor both the letter and the spirit of the law - to uphold fairness, transparency, and respect for the voters you represent. Please reject any effort to redraw the district maps before the next census cycle. Sincerely, Jennifer Hopson Hudson, NC
10/18/25 11:27 AM Rebecca Bryant		I am extremely disappointed and bordering on furious over the proposed redistricting plan. NC is considered a "purple" state overall and to try to unethically redistrict NC to make it even more "red" is simply wrong. As a registered democrat, I already feel like I have very little voice in my state and in my country. Donald Trump is the opposite of everything I believe and think!!!! He is an embarrassment to me and to our country. I thought my legislators were elected to fairly represent the voices of the state I live in, not just the 1/3 of the state that is registered republican? Shame on the republican legislators who are yet again trying to make my voice even smaller than it currently is in NC!
10/18/25 11:27 AM Mrs. Lillian Wiggs		It is shameful that we cannot have fair elections with people trying to cheat. I will make sure people vote you out!
10/18/25 11:27 AM Calvin Locklear	Citizen	Gerrymandering to try to keep a party in power is wrong when either party does it. Districts should be determined by independent commissions.
10/18/25 11:27 AM Genevieve Rudock		Gerrymandering should be illegal
10/18/25 11:27 AM Ashleigh Jarrell		Please stop redrawing the districts! we deserve fair representation in every district. Redrawing districts based on political affiliation, income, race, gender, or any class goes against our rights to have fair elections

10/18/25 11:27 AM	Ma. Carol Evans		Stop trying to steal votes by redrawing the lines to benefit your party! Sad that you don,Äôt really want to allow the citizens to choose who their leaders are! What you,Äôre doing is gerrymandering and it,Äôs cheating! How about allowing your party to be chosen on their merits and platform! The reason is that your party wouldn,Äôt win if you did that!
10/18/25 11:28 AM	Christine Clarke		No redistricting
10/18/25 11:29 AM	Redistrict 4 Republicans Jalen Hollins	USA	Please, we need NC to be red, the democrats are crazy, wanting to fund illegals more than Americans. Also, the Democrat judges and ags need to be gone yesterday. A teen was arrested 111 times today in Charlotte.... In what world does that make sense. Please care for actual Americans and get rid of all Democrat policies and people in power. We need common sense and God back, not mentally ill peeps
10/18/25 11:29 AM	Abagayle Spolinek		You should be able to be elected on your own merits. If you have to cheat to win you,Äôre not really winning and not actually representing the values of the people you supposed to be representing.
10/18/25 11:29 AM	Bill Hines		No gerrymandering or cracking and packing. Fair districts so that all are represented.
10/18/25 11:32 AM	Donna Uguccioni		Please do not mess with the districts to try to favor one political party over another. Your job is to represent all North Carolians. Also olease spend your time to pass have ,Äú a budget, pay our teachers and law enforcement what they deserve, and fully fund Medicaid. Thank you. A concerned citizen who would like our country to get back working together and not being so far either side
10/18/25 11:32 AM	Mrs Shawna Murrie		North Carolina should not gerrymander or rewrite its districts because fair representation is the foundation of a healthy democracy. When district lines are manipulated for political gain, voters lose their voices, and election outcomes no longer reflect the true will of the people. Gerrymandering deepens divisions, weakens public trust in government, and undermines accountability by allowing politicians to choose their voters instead of voters choosing their leaders. Maintaining fair, balanced districts ensures that every community has equal representation and that all North Carolinians, regardless of political affiliation, have a genuine say in their future.
10/18/25 11:34 AM	MR Ben Murrie		North Carolina deserves fair and balanced districts that ensure equal representation for every voter. When politicians manipulate district lines for partisan advantage, it undermines democracy and silences communities. Gerrymandering allows leaders to secure power instead of earning it, weakening trust in government and distorting the voice of the people. By maintaining fair, balanced districts, North Carolina can protect the integrity of its elections, promote equal representation, and make sure every citizen,Äôs vote truly counts.
10/18/25 11:36 AM	Cheraton Love		Our state deserves fair, nonpartisan maps that represent our electorate. Listen to the voices of your constituents- we do not support this mid-cycle redistricting process and urge you to not continue.
10/18/25 11:36 AM	Tammy Feingertz		Stop Gerrymandering now! North Carolina is a 50-50 state, and the maps must reflect that. Nothing else is acceptable.
10/18/25 11:37 AM	Brendan Ward		I strongly disagree and condemn this endless power grab by the NC GOP in gerrymandering our state,Äôs districts into this Gordian knot of suppressing the will of NC citizens
10/18/25 11:37 AM	Dawn Martin		We don't want this redistricting to take place.
10/18/25 11:38 AM	Susannah ODonnell		Mid-cycle partisan gerrymandering is a manipulative tactic that silences voters, destabilizes elections and weakens democracy. Every American citizen it entitled to vote for fair representation by elected officials. This action of mid-cycle partisan gerrymandering will encourage future action by representatives with opposing views to redraw district lines again and again. This is not democratic behavior! I AM STRONGLY OPPOSED TO THE PROPOSED MID-CYCLE REDRAWING OF VOTING DISTRICTS IN NORTH CAROLINA.
10/18/25 11:38 AM	Ms Lou Grinnell		Gerrymandering of districts is a violation of the rights of the people to choose their representatives. Neither party should be using this underhanded tactic.
10/18/25 11:38 AM	Priscilla Awkard	Raleigh Alumnae Delta Sigma Theta	Redistricting is not right. Please do not allow this to happen.
10/18/25 11:38 AM	Priya Halvorsen		I oppose attempts to redraw North Carolina,Äôs congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights.
10/18/25 11:38 AM	Alisha Foster		I trust you. Maybe I am deluding myself, and everything is just too far gone at this point and there is no hope of return to sanity. But as our elected leaders, I hope you don,Äôt believe that. I hope to God there is something unbreakable in you, a loyalty to the ideals this country was formed on. Somehow in a country where no one trusts anybody, I trust this group of elected representatives to uphold the American value of democracy, and not gerrymander for a partisan outcome. I trust my leaders to care more about duty to ALL the American people, honor, and setting an example for the entire nation that we CAN live the founding fathers,Äô vision for one country, undivided. Signed, a person who hates labels and loves all my fellow Americans.
10/18/25 11:39 AM	Teka Cooper		I am not in favor of this Redistricting Plan
10/18/25 11:39 AM	Mrs. Cheryl Costin	Concerned Citizen	Please do not redistrict mid- decade.

10/18/25 11:39 AM	Mrs Daphne Carter Wright		I am NOT in favor of the redistricting map.
10/18/25 11:39 AM	Mrs Selene Brent		I am not in support of redrawing the maps that will prevent the minority voice from being heard. It is important for all North Carolinians to have an opportunity for representation.
10/18/25 11:40 AM	Mrs Angela Kuykendoll		I think if redistricting is the only way you can win, you have serious problems. I,Äôm against redistrictig in North Carolina!
10/18/25 11:41 AM	Ms Patricia Allen		Since 2000, I've only had one US Senator who I felt represented my views - Kay Hagan. Thom Tillis doesn't represent my views, but at least he tries to actually do his job and shows concern about the people in NC. I'm sorry he's not running again but I don't blame him. Valerie Foushee is the only Representative I've had in the US House who shares my views Unfortunately the lines changed for the 2024 election and I got stuck with Richard Hudson. I've looked at the map for the next election, and once again, unless Roy Cooper wins the Senate Race, I'll once again have no representation in Washington. As for Raleigh, the only one who I felt even cared about the people he represented was Ricky Hurtado. After looking at the map, I can see that that's not going to change any time soon. Once again, I'll have no representation in Raleigh.
10/18/25 11:41 AM	Shaquan Strothers		I disagree with the redistricting of congressional maps. These congressional maps are not being redrawn as a way to ensure that the constituents of North Carolina have fair representation. Instead, these maps are being drawn to satisfy a power-hungry president . A president who has openly stated that he hates people who do not vote for him and instead of ensuring that voters have a voice, this legislator is attempting to silence them. This legislator could be working on passing a budget, could be working on bolstering our education system, could be working on ensuring people have healthcare, orcould be working on the housing crisis. Please get your priorities together. Your priority is not to follow the president. Your priority is to serve the people of North Carolina.
10/18/25 11:42 AM	Mrs. Mary Garrison	no organization	Members of the Redistricting and Senate Elections Committee, I am an unaffiliated voter, and I vote on a regular basis. I oppose the plan to redistrict North Carolina. We live in a democratic republic, we have election laws and boards, and the elections belong to the citizens and registered voters. To suddenly and blantantly change the districts in an off year seems like a political maneuver instead of a genuine desire to improve the districts of NC . The people of North Carolina do not want this. Please vote no and abandon this idea. Kind regards, Mary
10/18/25 11:43 AM	Mrs. Lindsey Jenkjns		I disagree with the new redistricting. North Carolina is already one of the most gerrymandered states in the country and this only gets us further away from true representation of people in this state
10/18/25 11:43 AM	Dona Norwood		I think you need to stop redistricting to skew the narrative of individual voters. Stop carving out crazy areas and let the people,Äôs votes count equally without regard to party affiliations for state and national elections. The current elected representatives & senators appear to be more interested in power grabbing than in serving the people and working on real solutions for affordable healthcare, housing , food insecurity , and gun safety laws.
10/18/25 11:45 AM	Stephanie Tomblin		I do NOT approve of this proposal to redistrict NC. This is clearly an attempt to disenfranchise millions of voters in North Carolina and we will not stand for it. We should have independent redistricting committees that offer fair maps to all voters, not an attempt by one political party to seize power against the wishes of the people of this state. Do better.
10/18/25 11:45 AM	Mr Andre Edwards		Let the people vote without government intervention, which tries to skew an election toward any one party, elections should always be majority wins, end of story
10/18/25 11:47 AM	No More Gerrymandering L Hicks		This MUST stop! There are no good reasons to restriction. Our state is already heavily gerrymandered. Stop bowing to Trumps administration. If the policies of the admin were so popular, you wouldn,Äôt need to gerrymander, you wouldn,Äôt need more votes. Stop unnecessarily redistricting our state and let the voice of the people be heard. No more gerrymandering in NC!
10/18/25 11:47 AM	Mrs Susan LeDonne		Redistricting mid cycle is nothing but a power grab so Republicans can win more seats in the 2026 election and beyond. It,Äôs nothing but cheating and should be stopped!
10/18/25 11:48 AM	William Pirkey		It is shameful that legislators are deliberately manipulating the outcome of elections. The NC maps are already ridiculously skewed in Republicans favor. This takes away the legitimate voices of nearly half of the state.
10/18/25 11:49 AM	Jane L Davis	None	The whole point of voting in the USA is that the people choose their representatives. Imposed redistricting has already muzzled our right to choose our reps and imposes the will of one party upon us. Further redistricting is disgustingly greedy. Shame on the legislature for trying to impose even more inequality.
10/18/25 11:50 AM	James Mallette		Unprofessional bullshit
10/18/25 11:51 AM	emili g		No to gerrymandering. We need proportional representation and gerrymandering prevents constituents voices from being heard. Elected officials work for the people not a president
10/18/25 11:51 AM	Mr Henri Hicks		Please quit with the gerrymandering!
10/18/25 11:52 AM	B. Thomas		"No taxation without representation." Gerrymandering is anti-American and undemocratic. The people choose the politicians through just laws and fair play. Not through cheating and manipulation. Those who proposed such blatant disregard for a fair system does not deserve their job.

10/18/25 11:52 AM	Michelle Carter	To the Committee - thank you for at least pretending to take public feedback into consideration. I strongly oppose this plan to politically gerrymander North Carolina, which is already one of the most gerrymandered states in the country. This proposed redistricting map dilutes the votes of Black residents even further. I also take strong moral opposition to reducing North Carolina,Äôs political power as a favor to an administration that has rescinded billions of dollars of federal funds to our state. By bending the knee to an administration that does not care about North Carolinians, we are allowing federal government actions to ruin our state. Please do not pass these maps.
10/18/25 11:52 AM	Dr. Jill Slee	Best practices for redistricting focus on promoting fairness, transparency, and accountability to prevent partisan or racial gerrymandering and ensure equitable representation. The most effective methods include the use of independent commissions, clear and ranked mapping criteria, and extensive public engagement. This is nothing but a cynical attempt to undermine democracy itself. It,Äôs a slap in the face to voters. And it,Äôs a sign that Republicans know they can,Äôt win on their policies, so they have to cheat their way into power.
10/18/25 11:52 AM	Penny Miller	A recent poll conducted by a Republican-leaning firm shows how overwhelming the opposition to partisan redistricting is in North Carolina. 76% of NC voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. 84% of NC voters agree that ‚Äúit‚Äôs never acceptable for politicians to draw districts to help their own party win more seats.‚Äù And nearly all NC voters ‚Äì 94% ‚Äì say they want districts that fairly represent all communities and political viewpoints. More than a broad consensus‚Äî this is a near-universal belief. Bottom line: This is blatantly partisan and contemptuous of democratic values. The NCGA is supposed to work for NC citizens, not Donald Trump.
10/18/25 11:52 AM	The right way. William Campbell	The NC GOP should combat democratic gerrymandering the right way. By proposing national federal level legislation that prohibits it nationwide. If Trump wants to stop gerrymandering he should push his party to pass legislation, not to gerrymander harder. The democrats already attempted to pass anti-gerrymandering legislation nationwide and it was blocked by Senate Republican filibuster. If you are serious about combatting democratic gerrymandering, then propose legislation and push for it among your Republican colleagues. The worst that happens is that Democrats vote it down and you expose them and gain political willpower. Simply increasing an already extreme gerrymander by a tiny amount doesn't solve anything.
10/18/25 11:53 AM	Lillie Quinn	I am writing to express my frustration with the proposed redrawn district map for the U.S. House of Representatives elections. The proposed map redraws House District 1 to oust Representative Don Davis. Voters have the right to choose the politicians who we want in office, rather than the other way around. It could not be more obvious that the Republicans in the General Assembly care more about kissing up to President Trump than listening to the citizens of their state. You should be ashamed that you are changing the rules of the game because you're afraid of losing if you play fairly.
10/18/25 11:53 AM	Madeline Baker	I absolutely do not agree with the new congressional redistricting plans. You are taking away voices of North Carolinians with this plan which goes against democratic values. What happened to actually representing the people?? Not everyone in this state voted for Trump yet you are acting like they did. If you want to retain political power, do it by FAIRLY winning elections, not redrawing maps and cheating your way there.
10/18/25 11:54 AM	Amelia Martin Hannah	Changing the election map in favor of your own political party at the direction of a president in your political party is disgustingly unamerican. If you even have any understanding of what that means. You,Äôre not doing anything to beat the allegations that the Republican Party wants to be a dictatorship. You,Äôre turning this country into Russia and the president is a wannabe Putin, and you,Äôre contributing by suppressing the very people you are supposed to represent. I have faith in the state on North Carolina and very much love and care for my communities. I have dedicated my life to protecting and serving some of our most vulnerable community members. Maybe you should represent your people and not your party, and if you want people to support the Republican Party, how about you actually try doing things fairly. People would like you if you were fair and just. But you,Äôre not and you know it. That,Äôs why you have to change the map. This state has been historically gerrymandered by both parties, and ‚Äútwo wrongs don,Äôt make a right,Äù until the wrong is in your favor right? At least the Democratic Party seems to care about the quality of life of the people of North Carolina. Have fun on the wrong side of history, you know what you,Äôre doing.
10/18/25 11:54 AM	Against Redistricting Paul Garbe	Changing the district maps for partisan reasons dilutes fair representation of North Carolinians and will erode the integrity of the election. As someone who will be directly effected by this change, going from the 2nd to the 1st district, I am opposed to the current redrawing of these maps.
10/18/25 11:55 AM	George Francis	I would prefer to pick my own Representative rather than allow you to determine who it will be. That's how a democracy is supposed to work. Shame on you for stealing my vote.

10/18/25 11:56 AM	Kenneth Andrews		It's bad enough we have been in the public eye multiple times for how bad our maps have been Gerrymandered in the past, but this is corruption on a whole new level. Stop this redistricting.
10/18/25 11:57 AM	Lee Lumpkin		The current attempt to redraw NC Congressional districts is patently un-American. Our democracy is based on free and fair elections. Partisan politics is NOT public service or fealty to upholding our Constitution. Stop gerrymandering!
10/18/25 11:58 AM	MS Debra Dailey		No, no. no to mid decade re-districting in NC or anyplace. This is un-American and revolting. As you mother may say, if your friend (even in Texas) jumped off a bridge, should you do it too? Knock it off!
10/18/25 11:58 AM	Purposed Redistricting of Annie Garner	None	Annie V. Garner 144 Garner Road Garysburg, NC 27831 agarner939@halifaxcc.edu October 18, 2025 To the Members of the North Carolina General Assembly I am writing as a concerned citizen of Northampton County, North Carolina to strongly oppose the recent redistricting efforts that appear to be designed to favor partisan interests rather than uphold the principles of fair and equal representation. The deliberate manipulation of district boundaries to secure political advantage,Äîcommonly known as gerrymandering,Äîundermines the integrity of our democratic process. It silences the voices of communities, and erodes public trust in our institutions. North Carolinians deserve district maps that reflect genuine geographic and community boundaries, not ones engineered to entrench power. The redrawing of maps should be conducted transparently, guided by nonpartisan principles, and with meaningful public input. I urge the General Assembly to reject any redistricting proposals that prioritize party gain over voter fairness. Instead, I call on you to support the establishment of an independent redistricting commission to ensure that future maps are drawn fairly and equitably. Our democracy depends on the integrity of our elections. Please act in the best interest of all North Carolinians,Äînot just those aligned with a particular party. Sincerely, Annie Vincent Garner
10/18/25 11:59 AM	Edward Moreadith		As a North Carolina independent voter, I urge you to stop partisan gerrymandering. We are roughly a 50-50 state with a highly skewed legislature, that is not serving the state in a balanced way. Most people I know believe in fairness, regardless of their political beliefs. This must stop.
10/18/25 12:00 PM	Mrs Susan Moore		DO NOT DRAW NEW MAPS! It is bad news for the people of NC that redrawing maps (yet again) to ensure that candidates can pick their district rather than candidates needing to make their case to the electorate. The fact that so many statewide races were won by one party but district races favor the other minority party shows the imbalance.
10/18/25 12:01 PM	Be Rus		i absolutely want you to stop attemping amid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering is for cheaterse. It violates core principles of fairness, accountability, and limited government. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Instead - try passing a state budget!
10/18/25 12:01 PM	Mrs Stefany Jones		Do not redistrict. This is not want many North Carolinians want. This will only anger us to fight back for fair elections!!!

10/18/25 12:01 PM	Ms Nicole Newton		We the People. That was the founding principle of our great nation. We stand precariously on the precipice of the death of our great democracy. Our President is blatantly ignoring the Constitution and the Courts who find him in violation of the law. Bipartisanship has been replaced with following a mad man. It,Äôs time for the Congress of great state of North Carolina to listen to We the People. Don,Äôt move the goal posts and gerrymander to keep or gain seats. We elected you. Face the music when you don,Äôt do your job! What you are trying to do is silence your constituency. We have a right to be heard. The ballot box is the loudest way for us to do that. You care more about power than hearing the people you say you represent. If you truly care about your constituents, stop cowering to party lines and tyranny. Leave the maps as they are and face the voice of We the People at the ballot box. If you are re-elected or your party wins - so be it. It,Äôs time to put those you represent above power!
10/18/25 12:02 PM	Laura Murray	Delta Sigma Theta Sorority Ince - Raleigh Alumnae Chapter	I object to any consideration to further gerrymandering of North Carolina. This is done at the beginning of a census cycle; it makes no sense to consider this work before 2030. North Carolina is a 50/50 swing state. and should be represented as such. New 11-3 Congressional map would hand nearly 80% of North Carolina's U.S. House l delegation to Republicans. In that the Republican representation in Congress has demonstrated an inability to govern appropriately, there certainly is no need to send more representatives that will not work in good faith and measure with representatives of the Democratic party. Further, with new gerrymanders, I strongly assert that North Carolina politicians are putting political self-interest ahead of the needs of North Carolinians. Demonstrating a will and ability to do the job of legislating, rather than sitting dutifully by, waiting to be told what to do by a clearly corrupt and vindictive Executive branch of the government, is not okay. Making decisions based on the whims of lobbyists and corporations is not okay. Governing on behalf of the people of North Carolina, is the minimum expectation. Laur K Murray
10/18/25 12:03 PM	Elizabeth Whitley		I am so tired of Trump making everyone do what he wants. Our country is in a mess. Freedom of choice is for all citizens and not to be manipulated for one party. We no longer have the freedom and respect for our leaders. So much change and mostly for no good.
10/18/25 12:03 PM	Ms Kathryn Stanley		No redrawing voter districts with a census! Voters rights need to be protected!
10/18/25 12:04 PM	Barbara Ward		I think the NCGA should be spending its time working for the people by passing a budget instead of redrawing Congressional districts. The map should be drawn by a nonpartisan committee of knowledgeable people with fairness in mind, thus giving the NCGA time to do the work they were elected to do.
10/18/25 12:05 PM	Sarah Jayne	private citizen	I am vehemently opposed to the redistricting bill that is about to be voted on by the NCGA. This is nothing more than a power grab and Republicans know it! The law states that redistricting is to take place every 10 years. Yet, the NCGA changed them a few years ago. And now, the move is to redistrict again to give a partisan advantage to the Republicans. This is wrong. Shame on Republicans and Democrats for game-playing. This practice is going to have severe consequences in the future when it comes to holding on to our democracy.
10/18/25 12:05 PM	elise mueller		I oppose the partisan redistricting of our voter maps ahead of the 2026 elections. It disenfranchises too many voters.
10/18/25 12:08 PM	Mrs Joan Jobsis	Retired	I oppose the new republican voting district maps. They distort our North Carolina voting rights and should not be passed. retired
10/18/25 12:08 PM	PEOPLE > PRESIDENT Andrew Kane		Redistricting because 1 man sitting in the presidents office tells you to is weak and lets myself and every NC resident *know* you do not have the people's representation and concern in mind. This is downright unamerican. Capitulating to one man while everyone in your state doesn't want you to do that is cowardly!
10/18/25 12:09 PM	Louise Custodio		North Carolina is already gerrymandered. It is hard to believe you are still able to squeeze out more red Congressional districts. The result of this is the non- MAGA people of our state are losing their representation. Please reconsider your decision to change the maps. Please focus your energy on the state budget. The state House and Senate are both controlled by the Republicans. Passing a budget should be easy.
10/18/25 12:09 PM	Risa Lovitz		This is a blatant attempt to skew elections and completely undermines confidence in you.

10/18/25 12:10 PM	Ms Nora Monroe	You're all absolutely disgusting. This is so pathetic that you have to wrigg elections to get reelected. None of you have any balls. You all capitulate to that pussy in the White House You are all the worst that North Carolina has to offer. As a native North Carolinian I'm embarrassed to be represented by any of you. None of you deserve to breathe the same air as us.
10/18/25 12:12 PM	Thomas Reiland	Shameful beyond words. Anytime a Republican is elected the entire country is threatened.
10/18/25 12:12 PM	Rev. Melissa Bell	It is despicable to even consider redrawing these lines, further gerrymandering and pushing favor toward ANYONE. We want our representatives to represent us. Republican or Democrat or Independent or otherwise, districts need to be mindful and reflective of the reality of the People. I am firmly against this. We live in a country dependent upon accurate, fair, and just representation of the reality of the population, not a cock-eyed fantasy presentation that neglects to understand the needs of constituents. We all deserve accurate and fair representation based upon the needs of actual populations.
10/18/25 12:14 PM	Dr Karen Davis	I urge you to drop the plan to redistrict to ensure Republicans control the house. NC state legislatures are voted in to do what is right for all citizens of NC. By saying you are redistricting to ensure any President's agenda, is placing the President ahead of the citizens who elected you. Not all of Pres Trump's agenda items are good for the state and citizens of NC. An elected official should serve to provide the common good for all their constituents, not just the ones that voted for them. That is Democracy.
10/18/25 12:14 PM	Cris Oliver	With respect, The only fair redistributing would be by strict population and geography demographics. The purposeful gerrymandering with an effort--not to include more north Carolina's, but as a way to yet again, exclude. My deepest prayer is that even with your shameless efforts to appease the first dictator of the USA, Americans, North Carolina Americans, will break your gerrymandered boundaries and the maga GOP will be voted out regardless. You're oath to the constitution was fraud upon all of us.
10/18/25 12:14 PM	Connor Williams	Partisan gerrymandering is an unfortunate consequence of a modern political system that encourages victory through any means necessary. However, there is no need for the NC State Legislature to stoop to the same level as other municipalities. In the interest of a free and fair political system, I encourage the Committees to reconsider their redistricting plan (ideally, fully nix it) and allow the people of North Carolina to have a proper voice in the future.
10/18/25 12:15 PM	BRANDON MILLER	I think you guys forget that you work for the people who live in NC and not Donald Trump. Gerrymandering is not the way to go and I hope it backfires tremendously! We are struggling to make due with our basic needs and this legislature is worried about anything but and only cares about themselves.
10/18/25 12:16 PM	Mrs Julie Marciel-Rozzi	The gerrymandering has to stop. If the republican candidates can,Äôt win without cheating the system they don,Äôt deserve to win. The same goes for any gerrymandering shenanigans by any group. Draw fair district lines and let people choose. Every vote should count, every neighborhood/county/district constituents deserves to be heard by having their vote count. The proposed maps continue to devalue voters. People fought for the right to vote and have a say in who is elected to represent them. Let the people,Äôs voices matter.
10/18/25 12:17 PM	Dr. Jean Davison	It is wrong for any party to gerrymander our congressional maps again as our state needs balance and fair elections. Please put your efforts into coming up with the state budget that is long overdue
10/18/25 12:19 PM	JAMES HERNDON	Redistricting has been proposed to primarily (1) increase Republican over-representation within the North Carolina contingency of the House of Representative, and (2) decrease the representation of the non-white North Carolina population in that body. We need our congressional contingent to represent the thoughts / opinions of all North Carolinians,Ä¶.not just white male Republicans. Aren,Äôt all North Carolinians supposed to have their voice heard? Don,Äôt they all have equal rights for representation? Those who have proposed this change in representation should be ashamed of making this undemocratic proposal. Rather than gerrymandering further the division of North Carolina into congressional districts, I suggest the creation of congressional districts in a FAIR manner that does not favor one group over another. A few years back Duke researchers proposed a fair way of dividing North Carolina into districts where races were competitive. Please do not enact the current gerrymandering proposal. It is not good for our democracy.

10/18/25 12:20 PM Holly Clark		Voters should choose their representatives ,Äî not the other way around. Redrawing maps between census cycles manipulates district lines to entrench partisan power. Mid-cycle partisan gerrymandering has severe consequences: -It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. -It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. -It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all. North Carolina tax payers and voters deserve better than this. Our democracy depends on fair representation ,Äî not shifting lines for partisan convenience. I strongly oppose this gerrymandering tactic.
10/18/25 12:20 PM Mary Ann Driscoll	NC citizen	Members of the General Assembly, As you consider revisions to North Carolina,Äôs congressional map, I urge you to reaffirm your commitment to the constitutional principle of ,Äúone person, one vote.,Äù Fair representation depends on maps that reflect both population equality and the diverse character of our communities,Äînot the political advantage of any party. North Carolina has grown rapidly and unevenly, with notable demographic shifts in the Triangle, Charlotte Metro, and the Triad. These changes call for maps that ensure each vote carries equal weight and that no community,Äôs voice is diluted through partisan or racial gerrymandering. I encourage lawmakers to consider the following guiding principles: 1.Population Parity Each congressional district must remain as close as possible to equal in population, ensuring that urban, suburban, and rural residents alike have proportionate representation. 2.Racial Equity and Voting Rights Compliance District lines should be drawn with awareness of Voting Rights Act obligations and demographic realities. Communities of color,Äîparticularly Black, Latino, and Indigenous populations,Äîmust not have their voting strength fragmented. Where possible, districts should allow these communities the opportunity to elect candidates of their choice. 3.Preserve Communities of Interest and County Integrity Residents identify with their neighborhoods, cities, and counties, not with lines drawn for partisan gain. Keeping counties whole and maintaining municipal and neighborhood boundaries whenever possible fosters representation that is locally responsive and trusted. 4.Transparency and Public Input The map-drawing process must be open and data-driven, allowing citizens to understand and comment on proposed lines before votes are taken. The legitimacy of any redistricting plan depends on public confidence that maps are drawn for people, not politicians. 5.Alternative Models for Consideration oEstablish an independent or bipartisan redistricting commission with clear criteria prohibiting consideration of party data or incumbent addresses. oRequire that county-based clusters,Äîwhere a single county,Äôs population justifies one or more full legislative districts,Äîbe kept together to avoid unnecessary division of local constituencies
10/18/25 12:22 PM Gail Marsh		I am 1,000% against more gerrymandering! Regardless of it being in favor of either party. NC REALLY, REALLY needs to have a bipartisan, independent committee to draw and maintain voting districts ASAP. Revising maps based on whatever criteria (e.g. race) that a party believes will favor them is disingenuous at best and 100% goes against our founding principles and constitution. It,Äôs also flatly wrong and immoral. If a party needs to rig the system as the GOP is attempting to do, that means the GOP does NOT have a popular platform of policies and should really spend its time in retrospect and think about what the GOP is doing and should do for the betterment of NC citizens - not the betterment of the party. Please do the right thing and stop this gerrymandering nonsense.

10/18/25 12:22 PM	Kaye Fulcher		Voters across North Carolina ,Äî including a majority of Republicans ,Äî are tired of the partisan games that put politics over real people. Under the newest map, Congressional Districts 1 and 3 in Eastern North Carolina would be less representative and more racist, targeting voters in the most prominent and historic Black opportunity district in the state. This is clearly gerrymandering. If lawmakers want to build trust heading into 2026, you would be wise to focus on issues that directly affect North Carolinians,Äô everyday lives, instead of wasting precious time and taxpayer dollars to further gerrymander our congressional districts, which are already among the most gerrymandered in the country. North Carolinians deserve public hearings when it counts ,Äî throughout a redistricting process, BEFORE maps are drawn and before they are voted on. Instead, lawmakers will hold public comments after maps are released, at 10:00 a.m. on a Monday, when most voters are working, and those targeted live far from Raleigh. This is clear corruption and has to stop.
10/18/25 12:24 PM	James Spainhour		North Carolina does not need to be further gerrymandered through redistricting. We need fair representation, not what will give one party an edge over the other.
10/18/25 12:24 PM	This is fucking stupid. Aspen Ward	NC born and raised citizen. My family has lived here for 200 years.	Get some morality about you. Redistricting to gain fake seats is obviously corrupt. Do better.
10/18/25 12:24 PM	Brynn Freemyer		Y,Äôall are taking away the voting rights of your constituents because you,Äôre scared ,Äî you know you will lose, and your Herr Trump commands you to do anything to stay in power. It,Äôs disgraceful and disrespectful. No taxation without representation.
10/18/25 12:24 PM	Susan Curtis		Stop gerrymandering in NC! Everyone deserves a fair shake.
10/18/25 12:26 PM	Stop Gerrymandering Sara Farrell		Please stop gerrymandering. It,Äôs dishonest and disgusting. It only ever serves the Republican Party. Win something or lose something but do it fair and square.
10/18/25 12:26 PM	Ms Susan Longerbone		I am against the revision to districts. Once again our republican legislature is gerrymandering the districts. Last election I had NO choice but a republican candidate. If republicans feel confident that their policies are sound and what the people of NC want then they would have no reason to cheat.
10/18/25 12:26 PM	Sarah Godwin		To ACTUALLY and REALISTICALLY represent the voters of NC there should be NO GERRYMANDERING of districts to limit the voices of individual voters. Let every person vote count fairly.
10/18/25 12:27 PM	Josie S		This gerrymandering is disgusting. I feel ashamed to be a North Carolinian right now.
10/18/25 12:27 PM	Ann Dixon-Smith		This gerrymandering has got to stop. Neither Republicans nor Deme rats should be re-zoning districts, unless it,Äôs to correct any deficiency in representation for everybody. Shame on you.
10/18/25 12:28 PM	Michael Goodman	Retired	I encourage the legislature to not go forward with redistricting at this time. I feel that the proposal is unfair to the public since it does not reflect the divided nature of the voters. I do favor redistricting by non partisan commission. Maps should be redrawn to account for fair representation of all voters.
10/18/25 12:28 PM	Linda Cowart		Please work for all of the people of North Carolina. The mandate to redistrict did not come from the citizens of North Carolina, it came from a president who wants to limit the voices of North Carolinians. Again, please work for the people of North Carolina! It is also time to move forward with a budget. Not having a budget hurts people who put their trust in you!!!
10/18/25 12:29 PM	Dr Kerry Bullock-Ozkan		This is a blatant attempt to gerrymander and steal votes. We want to see fair, nonpartisan maps that reflect the population of North Carolina.
10/18/25 12:30 PM	Mark McCarthy	None	The proposed redistricting map is simply obscene. It is inherently unfair and in no way represents the will of the people in a ,Äúpurple,Äù state. This is a naked power grab by the GOP intended to disenfranchise thousands and pander to Trump.
10/18/25 12:30 PM	For whom it may concern; Nathaniel Ward		Redistricting for the soul purposes of gaining political majority, consequently decreasing actual representation, over historically disenfranchised groups of people is abhorrent and actively goes against the values we hold as Americans. Do better.
10/18/25 12:30 PM	Liam Lewis		I oppose partisan voting maps and redistricting in North Carolina, especially due to the fact it comes from the pressure from the President of the United Sates. No President should be attempting to hold this much sway and power over the individual states that make up our nation regardless of party affiliation.
10/18/25 12:31 PM	Travis Oberlin		This is blatant corruption. History will not look kindly on this. Do not enable fascism. Please do not take away my political voice.
10/18/25 12:31 PM	Mrs Nancy Bradley		I am disgusted that once again redistricting is on the agenda. How dare you silence voters by gerrymandering (rigging) the map to ensure Republicans get the edge. How about you all do the right thing and draw a map that benefits the people you supposedly serve. You are a shameful lot!

10/18/25 12:33 PM	Sunny Myers		As an enrolled citizen of both the Lumbee Tribe of North Carolina and the Sappony Tribe, I strongly oppose the proposed redistricting map, which fragments tribal communities and undermines the political voice of sovereign tribal nations across the state. The proposed map divides the Lumbee State Designated Tribal Statistical Area (SDTSA) into three separate districts (7, 8, and 9), splits the Coharie SDTSA into three separate districts (3, 7, and 13), and divides the Occaneechi Band of the Saponi Nation SDTSA. These actions disregard established tribal boundaries and fail to honor the sovereignty of tribal nations,Äîsovereign governments with distinct political, cultural, and historical identities recognized by the State of North Carolina. By carving through tribal areas, the proposed map dilutes Native voting power and further marginalizes Indigenous voices in state decision-making. Respecting tribal sovereignty means more than acknowledgment; it requires consultation, inclusion, and accountability. I therefore call for a transparent and detailed response that outlines: If and how SDTSAs, tribal territories, service areas, or population datasets were used to inform the proposed maps. The year and source of any tribally relevant datasets used. When during the redistricting process these datasets were reviewed or applied. Whether tribal governments were consulted, and if so, which tribes and at what stages of the process. If no such datasets or consultations were utilized, please explain why North Carolina,Äôs tribal governments were excluded from a process that so directly impacts their citizens and sovereign authority. Tribal nations are not stakeholder groups,Äîthey are sovereign governments whose citizens have the right to equitable representation. Any redistricting process that divides Indigenous populations without government-to-government consultation perpetuates a long history of erasure and political disenfranchisement. North Carolina must do better. Fair representation for Native peoples is not only a matter of
10/18/25 12:34 PM	Mrs. Charlene Gladney		The new maps are a false representation of our state. Everyone should have a chance for their voice to be heard. Also it is against our state constitution to redraw maps in between census years. Please focus on passing a stare budget. Our students need the funding for high dosage tutoring.
10/18/25 12:34 PM	Fair representation nathaniel wilcox	none	I believe by accepting this, north carolina will lose fair representation of both parties
10/18/25 12:35 PM	Eric Lund		The BS redistricting map undermines the fundamental principles of a representative democracy! Changing the rules just so you can cheat your way in is not winning. The founding fathers of this nation would be turning over in their graves if they knew the shit that the GOP are doing. You are elected by the people now do your job and represent the people not your own interests. Boo on the proposed redistricting maps. Do not allow this to happen, you are undermining democracy!
10/18/25 12:38 PM	Stop disrupting democrac! Karli Mikula		While gerrymandering for political purposes may not be illegal, it is unethical. Republicans need to stop rigging elections. Democracy in our nation is under attack and all of us must stand up against corruption and tyranny.
10/18/25 12:38 PM	Kathyrn Brandon		I urge you to focus on a state budget that provides fair raises for all state and public school employees, rather than spending time on redistricting efforts that appear aimed at securing a partisan advantage. True representation means all North Carolinians have a voice ,Äî not just one party.
10/18/25 12:38 PM	Retired Engineer Gilbert Cockfield	None	North Carolina Republicans need to stop trying to cheat to win elections. We all need to start acting like honest Americans and have honest elections for the voting people of North Carolina.
10/18/25 12:39 PM	Mrs Tonya Brown	New hope	I DO NOT APPROVE
10/18/25 12:41 PM	Roxanne Griffin		I didn,Äôt approve of gerrymandering when Democrats controlled the GA & I certainly don,Äôt approve of Republicans doing it. Our votes are our voice and should be protected. Gerrymander of any variety is legalized cheating & those who seek to silence their opposition instead of winning on merit should be ashamed. Please don,Äôt stoop any lower by taking away this most precous right from half our citizenry. Don,Äôt stack the deck even further. Prove you are better than this.
10/18/25 12:44 PM	Rick Blumer		Do not allow gerrymandering to again take place in North Carolina. This is destructive to the will of the people of North Carolina and further empowers a President who is violating the Constitution on a daily basis. Stop trying to take our votes and our voices away from us.
10/18/25 12:44 PM	Katherine Leahy		I am vehemently OPPOSED to redistricting and even further gerrymandering this state. STOP IT.
10/18/25 12:44 PM	Katie Muller		I oppose redistricting to further gerrymander this state. And redistricting that doesn,Äôt explicitly work to make MORE competitive districts that represent the purple nature of this state are bad. I will actively vote out and campaign for opponents of anyone who supports suppressing votes via gerrymandering.
10/18/25 12:45 PM	Angela Paje		I am very against this plan. As you are very aware, North Carolina is split almost down the middle politically. The districts have already been so heavily gerrymandered to make our great state appear majority Republican. This is not a fair representation of the people who live here. Redistricting this way is a form of cheating and is very dishonest and manipulative.

10/18/25 12:46 PM	Ms Lydian Altman	Please restore dignity and fairness to our electoral process and stop gerrymandering the election maps. I want to be proud of our state and this proposed change makes the state look like a lemming, not a leader.
10/18/25 12:48 PM	Mrs Barbara McDonald	How many times have you redistricted to tip the scales in Republicans favor. Maybe if you had a platform that worked for the citizens of North Carolina, you wouldn't have to cheat to win.
10/18/25 12:48 PM	Mrs. Hildegarade Polasky	NC redrew new voting districts just 5 years ago which gave the GOP a voting advantage. We do not need more GOP voting districts. We need fair voting districts that allow all voters an equal opportunity to make their voices heard. It seems very sad to me that the only way the GOP can win is to cheat. Please, the way the districts are drawn now already give the GOP an edge over Democratic and other party candidates, so no more changes.
10/18/25 12:49 PM	Robin Uhle	I am writing as your constituent to urge you to take a strong stand against partisan gerrymandering in North Carolina. Gerrymandering undermines the very foundation of our democracy by allowing politicians to choose their voters instead of allowing voters to choose their representatives. It distorts representation, entrenches political power, and leaves many North Carolinians,Äîespecially those in competitive or minority communities,Äîwithout a meaningful voice in government. The people of North Carolina deserve fair maps that accurately reflect our communities and our votes. I strongly encourage you to support legislation that creates an independent redistricting commission, ensures transparency in the map-drawing process, and prohibits the use of partisan or racial data when drawing district lines. Fair maps lead to fair elections, greater accountability, and a healthier democracy. Please stand with the citizens of North Carolina in putting people,Äînot politics,Äîfirst. Our democracy works best when every vote truly counts!
10/18/25 12:50 PM	Reece Appel	I never thought I would see a day when Americans so willingly discarded their most basic freedoms for shortsighted and conceited goals such as this. This egregious effort to nullify the vote of half the state is spineless and reeks of the GOP,Äôs realization that they cannot win elections based on their horrific and inhumane policies, and thus, they must resort to cheating. The GOP,Äôs affinity of kowtowing to one man (also a felon) will change the US in unforeseen and damaging ways for decades to come, and will only bring harm to the millions of people who are not in positions of power. The current electoral map accurately reflects the demographics of North Carolina, and any other map is disingenuous and illegal.
10/18/25 12:51 PM	Mr. James Zito	STOP gerrymandering our state! STOP cheating. Redistricting in the middle of the 10 year period just bc Trump tells you to is NOT how our democracy is supposed to work.
10/18/25 12:52 PM	Tom Brown	I am a resident of congressional district number one. I am strongly opposed to the proposed redistricting. I do not agree there is a need to adjust this congressional district. I believe that it will unfairly dilute the representation of the black citizens of North Carolina and district 1 in particular.
10/18/25 12:52 PM	Mrs Lisa Ward	NC voted almost 50/50 in the last presidential election and is a state inhabited by almost equal numbers of republicans and democrats. However, due to districting, the state is overwhelmingly represented by one party. Trying to draw and redraw maps specifically to ignore certain voters is blatantly wrong and not what real representation is. I wish those who choose to do such things felt shame and had difficulty sleeping at night but I'm sure the power and favors they receive are enough of a conscience balm for morally compromised individuals.
10/18/25 12:52 PM	K McMillan	I do not support redistricting. Instead, please use your time to pass the overdue biennial state budget. Thank you.
10/18/25 12:52 PM	No on Redistricting Steve Muller	I am AGAINST the redistricting plan. It takes away the power of my vote which is fundamental to a democracy. A residents,Äô right to vote is the only way we can express our satisfaction or dissatisfaction with the direction of the government. By voting for the proposed changes clearly don,Äôt care about protecting my rights and voice. In addition, voting for the changes is an admission by representatives that the nation is headed in the wrong direction and the only way they can stay in office is to cheat voters out of their say!
10/18/25 12:53 PM	Stop gerrymandering Eric Grunden	Districting for the purposes of arranging a party victory is the complete antithesis of the right to vote. This will disenfranchise legal voters in practice. It is abominable that supporters of this action even consider this legitimate, especially when so many of them decry alleged voter fraud and seem so aggressive about preserving the integrity of elections. Stop this nonsense and give voters actual power.
10/18/25 12:54 PM	Stephanie Fiedler	This is wrong. Shame on you for not fairly representing North Carolinians. Is this the only way you can win, by cheating?
10/18/25 12:54 PM	Bethany Turner	Incredibly disappointing that the GOP in my state wants to redraw maps to dilute the voices of voters. It,Äôs cheating and it will not be tolerated by constituents.
10/18/25 12:55 PM	Mrs. Barbara Pflugrad	I strongly oppose the redistributing being done by the GOP in NC. Please remember you are our representatives and the people of NC are tired of being redistributed by you. We vote and will be sure to vote anyone out who does this.

10/18/25 12:55 PM	Emily Uhle		I am writing as your constituent to urge you to take a strong stand against partisan gerrymandering in North Carolina. Gerrymandering undermines the very foundation of our democracy by allowing politicians to choose their voters instead of allowing voters to choose their representatives. It distorts representation, entrenches political power, and leaves many North Carolinians,Äîespecially those in competitive or minority communities,Äîwithout a meaningful voice in government. The people of North Carolina deserve fair maps that accurately reflect our communities and our votes. I strongly encourage you to support legislation that creates an independent redistricting commission, ensures transparency in the map-drawing process, and prohibits the use of partisan or racial data when drawing district lines. Fair maps lead to fair elections, greater accountability, and a healthier democracy. Please stand with the citizens of North Carolina in putting people,Äînot politics,Äîfirst. Our democracy works best when every vote truly counts!
10/18/25 12:56 PM	Kelly Sasser		Dear NC Legislators, The proposal for Congressional redistricting is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the "cracking" of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. This proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year's election before dropping big changes to next year's. Thank you for listening to these concerns.
10/18/25 12:58 PM	Ms Margie Storch	Citizen	Just because Trump issues an illegal order to rig congressional districts doesn,Äôt mean do it! Stand against authoritarian vote rigging and protect fair districts and elections. Citizens are watching and vote thieves will be voted out. Ask yourself: Are you committed to democracy or instead power-grabbing to benefit your political party? It,Äôs never too late to do what,Äôs right.
10/18/25 12:58 PM	Dr. Leonard Jarvis		When a group decides to change the voting maps mid -cycle one has the question the motives. It is obvious the redistricting is for that group and not for the good of the people. We are to be a people of one, that is, one nation under God allowing all people to participate in the democracy. This blatant act will only benefit the Republican Party and not the nation. It is a travesty when one group lusts for the power to make all the laws which are normally unjust and inhumane. This action is bound to hurt our nation in the long run and deprive our citizens of certain rights and benefits. The Republican Party is being selfish and self-serving. It acts as if those who do not cater to their views have no say so in our politics. All of us contribute to this nation,Äôs well being. Don,Äôt let a few dictate what America should look like.
10/18/25 1:00 PM	Jessica Edmonston		I am a resident of North Carolina and I strongly oppose the proposed changes to our congressional maps and the attempts to explicitly rig North Carolina elections. The House Committee on Redistricting and Senate Elections Committee have already disenfranchised North Carolina voters in 2024 by unfairly redrawing maps. North Carolinians are simply asking for a fair chance for constituents to vote for who they feel best represents them. Please listen to your constituents, and not President Donald Trumps call to interfere with elections. Please vote AGAINST changing the congressional district maps
10/18/25 1:01 PM	Mrs kara Aycock	Handpicked Gifts	Fair voting districts are the very heart of a functioning, healthy democracy. Any attempt to change district borders in order to benefit one party over another is inherently anti-American and in direct opposition to the constitution. I hope that everyone voting on this will remember their oath to uphold the constitution rather than prioritize their own desire for power
10/18/25 1:01 PM	Dorothy Bedard		76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/18/25 1:01 PM	Dr. Ralph Soney	Retired State of NC	The Constitution calls for a national count every ten years based upon the national Census. In honest times, men of gold will and good standing have abided by this principle and up held the law. Today it is a free for all with no basis in morality, political integrity, or thought about decorum. I am an independent and wish Congress could get its act together for ALL of us Americans.

10/18/25 1:01 PM	Mr. Thomas Ferguson	Partisan gerrymandering to give ANY party an advantage should never be allowed. It is wholly undemocratic, ignores the will of the people and is in direct conflict with the founding principals of this country. I should think the GOP would be ashamed to admit that they cannot win without cheating and stacking the deck in their favor. Further, they should be profoundly concerned that should another party seize power, they will disenfranchise Republican voters in the very same way the GOP has disenfranchised non-Republican voters.
10/18/25 1:01 PM	Joseph Edmonston	I am a resident of North Carolina and I strongly oppose the proposed changes to our congressional maps and the attempts to explicitly rig North Carolina elections. The House Committee on Redistricting and Senate Elections Committee have already disenfranchised North Carolina voters in 2024 by unfairly redrawing maps. North Carolinians are simply asking for a fair chance for constituents to vote for who they feel best represents them. Please listen to your constituents, and not President Donald Trumps call to interfere with elections. Please vote AGAINST changing the congressional district maps
10/18/25 1:02 PM	Mrs. Jennifer Lester	I vote NO to redistricting NC!
10/18/25 1:02 PM	No Gerrymandering, thank David Gibson	No Gerrymandering, thank you!
10/18/25 1:03 PM	Ms Maggie Shelton	No NC Senator or Representative has the right to interfere with the rights of NC Voters! We elected each of you to make fair and equitable legislation, uphold our State Constitution and make moral decisions. Gerrymandering is cheating and manipulating the NC voting citizens which is not moral, not upholding the state Constitution. If any of you participate in gerrymandering, do not expect to be reelected to our state government.
10/18/25 1:03 PM	Blatant Gerrymandering Chandra Uhle	I am strongly opposed to the plans to redraw districts for the purpose of ensuring a majority for the Republicans. This blatant attempt to take away the rights of voters is one of the most disgusting political maneuvers I have seen in my life time. I have never felt more willing or motivated to work for and support the Democratic party because of these actions by the Republicans. I urge you to reconsider such un-American activities. If you truly are the peoples' choice, there is no need to retain your seats through thievery.
10/18/25 1:05 PM	Kristen Hinchman	This is an abhorrent abuse of power. This should not pass.
10/18/25 1:07 PM	Elaine Edmonston	I am a resident of North Carolina and I strongly oppose the proposed changes to our congressional maps and the attempts to explicitly rig North Carolina elections. The House Committee on Redistricting and Senate Elections Committee have already disenfranchised North Carolina voters in 2024 by unfairly redrawing maps. North Carolinians are simply asking for a fair chance for constituents to vote for who they feel best represents them. Please listen to your constituents, and not President Donald Trumps call to interfere with elections. Please vote AGAINST changing the congressional district maps.
10/18/25 1:08 PM	Ms Eileen Prado	Minorities deserve representation in their communities. Do not redraw the lines to undeservedly win an election. Shame on you for cheating!!
10/18/25 1:09 PM	Matthew Hendley	Already this state has been unfairly gerrymandered to make my voice less then others, doing it more so will completely silence my voice
10/18/25 1:10 PM	Alex Little	I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/18/25 1:10 PM	Ann Percy	I am writing to express my deep concern about the proposed redrawing of district maps in North Carolina. These proposed changes threaten to undermine our democracy and silence the voices of the people you were elected to represent. The redistricting plan takes away our fundamental freedom to choose our own representatives. It does not reflect the will of the people and fails to uphold the fair and just principles that our state and nation were built upon. As your constituent, I urge you to listen to the people of North Carolina. Please do not take away our right to fair representation. Our democracy depends on ensuring that every vote counts and every voice matters. Protect Our Democracy ,Äì Do Not Silence North Carolina Voters Sincerely, Ann Percy
10/18/25 1:11 PM	jp parzino	Make our elections fair, secure and accessible to the polls. It's time to end the gerrymandering by making our USPS Zip Codes as our precincts for voting...

10/18/25 1:11 PM	Ms. Carol Conway	PACID: Parent Advocates for Adult Children with Intellectual Disability	I have over 350 families in my grassroots NC network, some of whom are in areas targeted for redistricting. We are fearful (and a bit angry) that redistricting will result in an unfair over-representation by Republican Congressional leaders who have shown little interest to date in helping the truly vulnerable. Our adult children WILL be harmed by President Trump's plans to cut so-called "waste, fraud, and abuse" from Medicaid, as well as the new restrictions on food stamps. Many of our adults live quasi-independently in the community, but they all rely on staff support (called Direct Support Professionals, or DSPs) who in turn rely heavily on Medicaid and food stamps to make ends meet. Absent these supports, DSPs will be unlikely to work at these difficult jobs. No DSPs, no life for our adult kids. So not only is gerrymandering terribly un-American and un-democratic REGARDLESS of who's "in power", the act of unfairly adding more Trump-adhering representatives to Congress will ruin many North Carolina families and their adult children with an intellectual disability. Put people first. One man, one vote.
10/18/25 1:11 PM	Mrs Barb Leddy		Please do not do gerrymandering in our state. Unfair maps will disenfranchise voters.
10/18/25 1:11 PM	Redistricting James Garrison		The purpose of elected officials is to fairly represent as much of the population as possible. This particular type of redistricting has quite the opposite effect by serving to benefit one political party rather than the majority of the citizens represented. While officials are elected by members of a particular party they should, in fact, represent all constituents in their district, not just their party. Cheating just to stay in power is wrong.
10/18/25 1:15 PM	Andrew Pardue		I am disgusted by the Republicans in this state taking away our voices. I will make it my life mission to unseat every single Republican for the rest of my life if you all try to gerrymander our maps to favor your Lord and Savior, Donald Trump. You are all cowards and hypocrites and pedophile protectors. Don‚Äôt do Nazi stuff if you don‚Äôt want to be called Nazis. The days of Republican rule are numbered. None of you have to moral clarity or the strength to lead the American people.
10/18/25 1:17 PM	Rev. Julie Peeples	United Church of Christ	Democracy can only thrive if voters are free to choose their elected officials, not the other way around. Custom designing districts to shut out fair representation is unAmerican and violates the Constitution. Our elections must be marked by integrity and transparency at every level. Do the right thing and reject any efforts to rig the outcomes and silence over half the population of NC.
10/18/25 1:18 PM	Ellen Pressley		Don‚Äôt do it, we need some level of balance to keep this government in check, at state and federal levels. The scale has already been heavily weighted to all our detriment. Poverty, healthcare and educational deficiencies will continue to hold NC back economically.
10/18/25 1:21 PM	Michelle Osborne		Redrawing districts because a president told you to or to blatantly increase power for your party while trampling on the rights of the people you are supposed to represent is morally reprehensible. If you all (in both parties) could do your actual jobs instead of focusing on petty power struggles maybe regular people could afford groceries and healthcare. Every single one of you should be ashamed of yourselves for even considering this disgusting power grab. If republicans were doing a good job of actually governing, you would not need to stack the deck on your favor. Respect for each other and a desire to improve the lives of your constituents should be your motivation for serving and both are sorely lacking from what I can see.
10/18/25 1:23 PM	Robert Lopez		I am opposed to the push to redistrict throughout the US and especially in North Carolina. Legislators should not be picking theirs voters. Allow the voters to pick their representatives!
10/18/25 1:24 PM	Kim Booher		Don‚Äôt rig the system any more than it‚Äôs already rigged. It‚Äôs dishonest and it‚Äôs depriving over half of the population of their right to representation.
10/18/25 1:25 PM	Mr Jeffrey Byrd	Individual	Please let democracy function and quit trying to steal every election! Obviously, NC is a Blue state and we want equal representation in Congress equal to our constituency across the state. What you are doing is wrong, immoral and highly inflammatory to those of us you are gerrymandering out of the picture. Shame on you! What would your mother say? Your pastor? Your conscience. Do not support a would-be dictator in your actions. We are the luckiest people on the planet to live in a once-thriving democracy. Don't screw it up.
10/18/25 1:25 PM	Mrs. Courtney Mullins		I oppose the proposed North Carolina redistricting maps. They clearly dilute voter influence and violate principles of fair representation. One-party rule is antithetical to everything the U.S. was founded on or ever stood for.
10/18/25 1:26 PM	Redistrictering Peggy MacDaid	Concerned citizen	The NC Legislature is supposed to work for ALL the people of this state, NOT for Trump and his attempts to take over America. Phil Berger is not concerned about this state, only pleasing the demigod in the White Hoise and the Trumpists who want to deny OUR citizens the right to vote for people who want the best for our state. Before you vote for redistricting, you need to take a long hard look in the mirror and decide why you are so afraid of Trump and his flunky Berger. Are you going to protect all the citizens of this great state which you took an oath to do or you going to do what‚Äôs best for you politically? Doesn‚Äôt seem like a hard choice to make , does it? Only cowards fail to do the right thing when they know they are morally wrong.
10/18/25 1:27 PM	Richard Willis		This plan to redistrict (I.e. further gerrymander) is a blank attempt to disenfranchise NC citizens, particularly people of color. We need to support the democratic process, not undermine it!
10/18/25 1:27 PM	Katie Blixt		This is absolutely a disgusting and unlawful power grab that does not represent NC or its constituents. You all should be ashamed.
10/18/25 1:28 PM	Cheryl Maxwell		I won‚Äôt vote for anyone who takes my vote and its importance away from me. It‚Äôs no difference than Putin‚Äôs Russia, to make voting useless through gerrymandering. What wrong with you people?
10/18/25 1:28 PM	Debbie MacDonald		Let our boats count!

10/18/25 1:29 PM	Holly Madison		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/18/25 1:33 PM	Elizabeth Paine		Why are we redistricting again? To add another republican seat? This is not the way a functioning democracy works. A party, in this case the republicans should not continually redistrict in order to maintain power. I strongly disagree with redistricting just to add another republican seat.
10/18/25 1:33 PM	Aaron Cameron		50/50 states do not need 80/20 representation. We fought for our freedom for less than this. Get your mess together NC. Quit with the underhanded, unamerican cons that are nothing more than power hands from desperate politicians. It makes us all weaker and honestly, it makes us a pathetic country. We can and will do better than this nonsense.
10/18/25 1:33 PM	Becky Martin		As a citizen of NC I strongly oppose Gerrymandering. It is wrong. What are the republicans scared of. We live in a democracy and should have our voices heard. It is very important to have representation on both sides not just one.
10/18/25 1:34 PM	Ms kayley taber	Citizen	Do not succumb to the siren song of redistricting to win elections. Win votes, don,Äôt pick voters. I oppose this plan to redistrict.
10/18/25 1:35 PM	Kristen Odell		As a resident inside the city limits of Charlotte, Mecklenburg County, i have already been gerrymandered out of representation. This state is already severely gerrymandered. Republicans know they will never win without illegally stripping representation from citizens with gerrymandering.
10/18/25 1:35 PM	Stop Save North Carolina NaTell Miller		Please stop the redistricting. There is no need to do this. I want my family to live in peace.
10/18/25 1:35 PM	Catharine Hellings		North Carolinians deserve fair representation and further redistricting will result in even more unfair representation
10/18/25 1:38 PM	M Frances/Curtis Wilbourn/Nolen	Citizens	We are writing to urge you to take meaningful action to abolish partisan gerrymandering and establish a fair, transparent, and nonpartisan redistricting process in North Carolina. I have been a proud resident of this state since 1976, and my husband, Curtis, is a native North Carolinian. Over the decades, we have witnessed the changes and challenges our state has faced, and we care deeply about preserving the integrity of our democracy for future generations. Gerrymandering ,Äî the manipulation of district lines for political gain ,Äî undermines the voices of citizens, weakens our democracy, and erodes trust in our elections. Every North Carolinian deserves fair representation and an equal say in our government. Establishing an independent redistricting commission ,Äî one free from political influence and accountable to the people ,Äî would be a vital step toward restoring fairness and integrity to our electoral system. We respectfully ask that you support legislation that will: Create an independent citizens,Äô redistricting commission. Ensure transparency and public participation in the map-drawing process. Prioritize fairness, compactness, and community integrity over partisan advantage. North Carolina has a proud history of civic engagement and resilience. Now is the time to uphold that legacy by ensuring that our elections truly represent the will of the people ,Äî not the interests of political parties. Thank you for your service and for your attention to this critical issue. Sincerely, Fran Wilbourn and Curtis Nolen Matthews, North Carolina
10/18/25 1:38 PM	Jane Cotter		This is a ridiculous attempt to force your own issue without the actual votes. Just try to get more Republican voters instead of taking the votes from the Democrats away. An independent body should oversee the districts in ALL states.
10/18/25 1:39 PM	Melinda Huss		I oppose this upcoming redistricting measure. It is a shortsighted, fiscally irresponsible, and unnecessary change. It highlights the weaknesses and inabilities of the legislature to create solid solutions. It is time for deal making to stop as governance is not a game.
10/18/25 1:39 PM	Great Worl Scott Yates		Thank you for doing the right thing and redrawing our Congressional map. This new map is great and continue to protect communities of interest. Proud of y'all for having the courage to stand up!
10/18/25 1:41 PM	Andrea Curcio		I am writing to express my concern on the redistricting proposed for North Carolina. I DO NOT support this redistricting. It will not fairly represent NC voters
10/18/25 1:41 PM	Kurt Theorin	Resident of North Carolina	I am very much against any partisan (Rep or Dem) redistricting. To do so will continue the marginalization and under representation of large segments of North Carolina,Äôs population.
10/18/25 1:44 PM	Heather Brown		Stop the gerrymandering now!!!!!!
10/18/25 1:45 PM	Ms. Bonnie Stewart		Making politically motivated redistricting changes in the legislature is taking away rights from the residents of North Carolina. You appear to seek to steal advantage in upcoming elections to avoid the will of the people. These efforts have been successfully challenged in the courts in the past.

10/18/25 1:46 PM	Alexis Cravetz		I am opposed to redistricting to gerrymander the state further than it is already. This is a horrible un-democratic (little d) idea. The last thing we need is further Republican representation in what is already an imbalanced level of representation in this state.
10/18/25 1:46 PM	Morgan Lojeski		Stop the gerrymandering! No redistricting to give Republicans more power. We want a fair democracy!
10/18/25 1:46 PM	Bailey Cole		Redistricting before a midterm and so recently after the last redistricting move shows that our state legislature is not interested in representing North Carolina. This move is purely party motivated and does not represent democracy and the America you pretend to love so much.
10/18/25 1:47 PM	Michelle Finn		This is not okay. As citizens of NC we have the right to say who represents us, and gerrymandering our districts takes our voices away. This is not what democracy looks like. Do better.
10/18/25 1:47 PM	Fair Redistricting Terry Nemargut	None	NC I,Äôd basically a 50/50 state. 2022 we had an even number of seats in the congress for Republican vs Democrat. Our partisan state legislators have drawn unfair lines to give Republicans a 10/4 majority. Now they want to make it 14/0 if it would be possible. Guilford County used to be mostly in district 6. Now it is divided into at least 3 or 4 districts mostly Republican. We have no equal voice as a city.
10/18/25 1:49 PM	Let the public decide Emily Soriano		Redistricting at the request of one person is wrong. I agree with independent redistricting at a regular, designated time, not to be gerrymandered. Democracy should not be rigging the system. If this president wants a majority in the house, let the party earn their votes in a democratic way.
10/18/25 1:49 PM	Deidre Setzer		To the Members of the North Carolina General Assembly, I write to you not as a partisan, but as a North Carolinian who believes deeply in the principles of representative democracy. The redrawing of district lines to guarantee another Republican seat,Äîparticularly in a state already burdened by extreme gerrymandering,Äîwould be an affront to fairness, transparency, and the very oath you swore to uphold. North Carolina is not a monolith. We are a tapestry of diverse voices, values, and visions for our future. To silence those who do not align with the Trump agenda by manipulating district boundaries is not only unjust,Äîit is undemocratic. It sends a message that power matters more than people, and that loyalty to a single figure outweighs duty to all constituents. This is not just about maps. It,Äôs about integrity. It,Äôs about whether you will choose to serve the people of North Carolina,Äîall of them,Äîor bend to the will of a self-proclaimed king. We are watching. History is watching. And your legacy will be defined not by party victories, but by whether you had the heart and spine to do what is right. Please, do not drown out our voices. Do not cheat the system. Do not betray the trust we placed in you. Stand for fairness. Stand for democracy. Stand for North Carolina. Respectfully, Deidre Setzer, Dallas, North Carolina
10/18/25 1:50 PM	Janet Hofstetter		The proposal for District 1 is just insane. How in the world can someone effectively do their job with such an expansive geographical spread? It is also troubling that this redistricting goes on the ASSumption that everyone loves Trump and wants to support him. No, sorry, I want my representative to support me and the other constituents! This all is just disgusting behavior.
10/18/25 1:50 PM	Mr. John Hall		DO NOT DO ANY MORE REDISTRICTING TO CREATE MORE UNEQUAL REPRESENTATION. THE VOTERS CHOOSE THE REPRESENTATIVES, NOT THE OTHER WAY AROUND!!!!!!!!!!!!!!!!
10/18/25 1:52 PM	LJ Wrenn	NC Resident and Voter for 30+ Years	Gerrymandering. Consider an independent, nonpartisan, commission for redistricting. Serve the people, not the party.
10/18/25 1:53 PM	STOP GERRYMANDERING US caroline Kernahan		Stop gerrymandering North Carolina. It's embarrassing on the world stage when judges have to keep overturning these decisions. It's a purple state, you're going to have to face that. Focus on more important things, like giving us health care.
10/18/25 1:54 PM	Ms. Lulu Bellamy		It is shameful that the NC general assembly is redistricting our maps yet again. Our county is apx 20k people and split into two districts. Utterly ridiculous. Let the voters decide who should represent them! If the republicans are such great leaders they should have no concerns. And hey how about that budget?!
10/18/25 1:54 PM	Carlyn Flemer		This proposal is unjust, unfair and unwarranted. Your job is to appropriately and accurately represent the people of North Carolina and this proposal to redistrict does no such thing. Please do the right thing and do not allow this to happen.
10/18/25 1:55 PM	Jamezetta Bedford		Gerrymandering is wrong. It is unfair. As elected officials you need to draw fair maps and uphold democracy.

10/18/25 1:56 PM	Ms Mohr		Stop eliminating our voting power by cheating and constantly redrawing the district.
10/18/25 1:57 PM	Nick Darnell		These maps are a blatant attempt to steal and waste votes of constituents. I,Äôm so sick of you politicians playing with our right to have our vote count for something. You have no right; You have the responsibility to enshrine non-political maps by an independent 3rd party based on the wasted vote calculations presented to the SCOTUS in Gill v. Whitefield. Stop trying to rule through cheating the system and level the playing field. If you fail to do this - know that at best you,Äôre no better than people that steal money from the bank in Monopoly while the bankers in The John. https://www.brennancenter.org/sites/default/files/legal-work/How_the_Efficiency_Gap_Standard_Works.pdf
10/18/25 1:59 PM	Elizabeth Lindsey		Gerrymandering is cheating. And if you have to cheat in order to win - ask yourself why! It is the people of North Carolina telling you we don't want your brand of BS. We don,Äôt want you pushing your agenda down our throats. We want COMMON SENSE districts and common sense government. Remember - North Carolina is supposed to be ,Äúof the people and by the people,Äù. And no matter how much you cheat - we will find a way to vote you out. Especially if you try this. .
10/18/25 2:00 PM	Margaret Vitolo		I am firmly against mid-census re-districting-drawing new voting districts before new 2030 census numbers
10/18/25 2:01 PM	Mrs Colleen Allen		NC is already one of the most gerrymandered states in the US. To do more really is a horrible look for our state and may negatively influence people and business from moving here.
10/18/25 2:02 PM	Nona Pryor		The only redistricting that needs to be done is to undue the last gerrymandering of N.C. districts to eliminate democratic voting areas and to split the Greensboro campuses. It is not a democracy if you only allow one select group of folks to vote. It is also not representative of our country when the GOP continues to disenfranchise blacks, Latinx, minorities , women and any one but the ,Äúnarrow minded good ole boys,Äù. Voting districts should be determined by an independent commission.
10/18/25 2:02 PM	Ms. Christine Doyle		Allow Americans to vote without cheating on redisticting which we know is Orange Mans specialty
10/18/25 2:03 PM	Jennifer Burkins		Our elected officials are in office to represent us - we the people. Drawing lines around districts to get the results you,Äôve been told to produce is immoral, unfair, and abhorrent. Stand up and do the right thing. Put this redistricting to bed and work to pass a budget.
10/18/25 2:03 PM	Ms. Karyl Buchanan		Please do not redraw NC,Äôs congressional district map. Redrawing the map to favor one party over another disenfranchises all voters. Drawing maps to favor a particular party says that NC voters cannot be trusted to elect the candidate they believe will best serve their community.
10/18/25 2:03 PM	Ms Kim Cathers	League of women voters	This is a shameful power grab of the people's rights to choose their representation by cherry picking voter geography and partisan info. SHAME on EVERY TRUMP LACKEY in the NC legislature who supports this!!!!
10/18/25 2:04 PM	Dr. Ann Mannie		I am writing as your constituent to urge you to take a strong stand against partisan gerrymandering in North Carolina. Gerrymandering undermines the very foundation of our democracy by allowing politicians to choose their voters instead of allowing voters to choose their representatives. It distorts representation, entrenches political power, and leaves many North Carolinians,Äîespecially those in competitive or minority communities,Äîwithout a meaningful voice in government. The people of North Carolina deserve fair maps that accurately reflect our communities and our votes. I strongly encourage you to support legislation that creates an independent redistricting commission, ensures transparency in the map-drawing process, and prohibits the use of partisan or racial data when drawing district lines. Fair maps lead to fair elections, greater accountability, and a healthier democracy. Please stand with the citizens of North Carolina in putting people,Äînot politics,Äîfirst. Our democracy works best when every vote truly counts

10/18/25 2:05 PM	Mr Wade Allen	a registered voter	I am a registered Republican voter. "Fair" districts would reflect the overall vote in the state. Statewide elections are very close - not quite 50/50 Republican/Democrat, but in that range. The only "fair," "reasonable" or "right" congressional district map would be one that roughly mimics that breakdown. So, it would be "right" to have a reasonable chance of a 7-7 split between Republican and Democratic Representatives from North Carolina to the House of Representatives. Obviously, voting might end up slanting to 8-6 either way, or something similar. Intentionally redrawing the districts to move from 10-4 to 11-3 is wrong. Utterly wrong. This is what you do if you do not believe in democracy, fair representation, or really, allowing the will of the people to matter. Stop. Now.
10/18/25 2:05 PM	Mrs. Patricia Thel		I am opposed to redistricting to favor one party. If you can't win by your argument, and have to segment the population into predictable voting patterns, it results in unfair representation. North Carolina is better than that.
10/18/25 2:06 PM	Mrs Chelsea Gray		I am writing as a North Carolina voter to express my strong opposition to redrawing our legislative maps. I cannot continue to support or vote for leaders who believe this process is fair or morally defensible. We are asking you ,Äî respectfully and sincerely ,Äî to listen to the people you represent. Constituents are the ones you serve, and we are watching to see whether our leaders choose integrity, transparency, and respect for voters. Please do the honorable thing and reject efforts to redraw maps for political gain.
10/18/25 2:08 PM	Ms Anita Redding	N/A	So You Have To Cheat To Win?
10/18/25 2:10 PM	Dr Robin Lively Summers	Evergreen Community	Under no circumstances should you change the voting maps. Unless you are going to make them fair! Gerrymandering to increase the GOP unfair advantage is a misrepresentation of the NC coalition. This is a purple state but the current maps make it solidly Red. To make it more so is absolutely criminal.
10/18/25 2:10 PM	Please Gawd NO Heather Stewart		Do not embarrass us and make national news by gerrymandering our state again. You are OUR representatives. You represent NC residents. You do not represent a president nor is your job description to further the political goals of your party,Äôs leadership. You are supposed to represent the goals of the people who voted you into office. When your political party asks for unethical actions, you are supposed to say no. SAY NO.
10/18/25 2:11 PM	Gary Marshburn		Do not further restrict the voting rights of us all by what the Republicans, from Trump down, are advocating. It is a pure power grab. NC should be about equally balanced as per the overall vote. Do ot further restrict the vote.
10/18/25 2:11 PM	Ashley Ezzell		NO. ABSOLUTELY NO more gerrymandering. It is undemocratic.
10/18/25 2:12 PM	Kasey Joiner		The way redistricting is being done is illegal and unacceptable. This is an attack on our democracy. Do not allow for this!
10/18/25 2:13 PM	Ms Lisa Laws		I am non affliated voter. I will never vote for a republican again and neither will my husband or sons if your body redistricting now, according to what Trump wants. NC should not redistrict at this time.
10/18/25 2:14 PM	Tired Independent		Authoritarianism is a failed ideology. Authoritarianism has failed every time it has been tried. It won,Äôt work this time. ,ÄúHey, what if we try this again?,Äù is what authoritarians have said before destroying their societies. Your majority party in the legislature is partaking in the greatest national scheme of treason in our contemporary history. We are losing our prestige, respect, and prosperity. The 21st century is on track to be communist, from the Chinese. Surveillance and authoritarian control are spilling over to America, and you are to blame. Republicans are traitors, and the Democrats sit by and watch. You will burn in hell for your association with freedom hating thieves like Peter Thiel, Stephen Miller, and Chuck Schumer.
10/18/25 2:18 PM	Ms Sarah Elliott		Redistricting dilutes the voice of minorities in NC. Doing this before midterm elections just adds insult to injury!
10/18/25 2:18 PM	Aaron Randall		As a white male and former diehard Republican of North Carolina, I have some things to say Redistricting for political gain is plain wrong and a sign of weakness. As a now independent, I am disgusted by what the party has become. I never thought I,Äôd be rooting for the left to bring balance back to the world. Have some balls and stand up to Trump and this bizzare movement of his followers. And whoever is reading this,Ä¶ if you a follower, please take a step back, breath, and take a look around you. Wake up.
10/18/25 2:18 PM	Voters > Politicians William Redd		Voters should pick politicians not the other way around. If you,Äôre scared of losing elections, get better messages, policies, and candidates; don,Äôt try to rig the game. It,Äôs un-American, anti-democratic, and anti-Freedom. Why are you people doing everything you can to destroy our state and country?
10/18/25 2:19 PM	Colleen Nicholas	Chowan County Democratic Party	We will work day and night to protest this terrible power grab.
10/18/25 2:21 PM	Ms. Hannah Palmer		I wholeheartedly disagree with redistricting to advantage one party over the other. You are cancelling out the voices of North Carolinians. Is that really how you want to govern?
10/18/25 2:21 PM	Kate Peeples		Redrawing maps in the middle of a decade instead of waiting for the next census undermines the fairness of our democratic process. North Carolina voters deserve districts that reflect the public will,Äînot engineered outcomes for one party. The moves this week by the Republicans in the NCGA are blatantly unconstitutional - not that they care. With the governor and AG (among others) hobbled, I fear that the deep voter disenfranchisement in North Carolina will only get worse.

10/18/25 2:21 PM	Sue Bean	League of Women Voters Piedmont Triad	Every person's vote should be counted! By gerrymandering, winner takes all and each individual vote is discounted. This discourages people going to the polls because they know their vote won't count. Trump and his Republican minions are trying to strangle democracy.
10/18/25 2:22 PM	The Rev. Susan Sherard		Gerrymandering is a political tool used both parties. As we approach yet another unapologetic attempt for one party to use its power to serve itself, I find myself wishing that our elected officials, as a body, would spend as much time and energy and money creating and passing legislation for the benefit of all us, rather than governing by doing whatever is necessary for one party or the other to maintain control. Thank you.
10/18/25 2:22 PM	Megan Alexander		NC is already far too gerrymandered. This new plan will make it worse and unfairly, unlawfully dilute the vote.
10/18/25 2:23 PM	Wanda Guokas		Gerrymandering in order to give your party more votes, is absolutely undemocratic and wrong! Please refrain from such practices that restrict the voice of some citizens! Every ten years, with people moving around, it makes sense to make the maps for fair. But to do this, when it is not normally done, ONLY to give your party more votes, is unconscionable! SHAME on you! Maybe the outcome of this frantic move by both parties (I support Democrats doing the same as Republican states in an effort to make the election more fair) - will be recognizing the absolute unfairness of redistricting and working to get rid of Gerrymandering - and make sure we have a more fair and equal system of ONE PERSON ONE VOTE!
10/18/25 2:23 PM	Ms. Pat Adams		Mid-cycle partisan gerrymandering has severe consequences: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all.
10/18/25 2:23 PM	Crystal P		This map is trash! If you can,Äôt win, I guess cheating is the next best option when you have zero integrity.
10/18/25 2:25 PM	Mrs. Leslie Konst	Commenting as an individual, who is also a member of the League of Women Voters	I oppose the mid-decade redistricting efforts being led by the NC GOP leadership. North Carolina is already one of the most gerrymandered states in the United States of America. Partisan redistricting is un-American and anti-democracy, regardless of the party in charge of the process. If you consider yourselves to be patriots who value our country over party and people over power, please reconsider this immoral power grab. Additionally, as noted by the NC League of Women Voters, mid-cycle partisan gerrymandering has severe consequences: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all. Please abandon this mid-cycle redistricting effort!
10/18/25 2:25 PM	I'm AGAINST redrawing map Laurie Degernes	Retired state employee	I am adamantly opposed to the NC State Republicans redrawing the voting maps for Districts 1 & 3. This action is morally, ethically, & legally reprehensible, and Republicans pushing this action should instead, spend their time & our tax payer dollars, working on passing a state budget. Come on folks, do the job you were elected to accomplish.
10/18/25 2:26 PM	Darrell Smith		The less Democrats the better. They are all lunatics. Now if we could only get rid of Stein...
10/18/25 2:27 PM	Harvey Price		So the republicans just want to stay in power. They don,Äôt care anything about the people who live in this state. They will do whatever it takes: lie, cheat, steal, and kiss the ring. They are pathetic examples of civic leaders.
10/18/25 2:28 PM	Wendy Gilliam		Stop trying to steal our voices. You were elected to prioritize the needs of North Carolinians not the president or a political party. Open your eyes before it's too late. If you must redistrict then at least do it fairly so that all North Carolinians feel that their voices are heard and respected.
10/18/25 2:29 PM	Mr Craig Stewart		I condemn your efforts to gerrymander our state further than you already have. North Carolina is a purple state and our representation should reflect that. Elections should be won based on merit, not because one party has no other way to win other than cheating. History is watching. And so are the People of the Great State of North Carolina.

10/18/25 2:30 PM	J Owen	Gerrymandering is unamerican! Put your county before your politics
10/18/25 2:31 PM	Whitney Smith	I do not believe it,Äôs ethical or right to redistrict voting maps when Census data has not been recently collected. This is a fraudulent way to ensure more GOP votes. It should be done after a Census and proposing to redistrict Maps after Trump called for NC GOP to do this, is incredibly disheartening. Let,Äôs show our children the correct way to follow rules and democracy.
10/18/25 2:32 PM	John Ohanian	No, do not sell out you morals and ethics to change the map. We vote for you! You do not vote for us! If you change the map most of you will be voted out because people think this is so wrong!
10/18/25 2:32 PM	Dr. Melissa Gonzalez	This is a blatant move by the GOP to acquire more power, not by better representing the will of the people, but by manipulating the system further to silence the will of some people. I am appalled and do not support this.
10/18/25 2:33 PM	Gerrymandering Chris Janes	Stop undermining democracy with heavy handed gerrymandering. We live in a 50/50 state and should be represented that way. I will never ever vote for any republican if this passes.
10/18/25 2:36 PM	JoAnn Daley	Stop this unlawful activity! Please do your real jobs and pass a state budget so state workers have raises and budget guidelines to do their jobs!
10/18/25 2:36 PM	Michelle Michalec	Stop this! Leave it alone. There is no reason for this and it is complete bullshit!!
10/18/25 2:37 PM	What are you afraid of? Jeffrey Zirker	Gerrymandering is today, no different than racial politics. You all know it. Never have I seen more corruption and lack of representation. Do the right thing, not the Trump thing, and refuse to endorse or vote on new, even more racist maps.
10/18/25 2:38 PM	Carla Zaio	Absolutely not.
10/18/25 2:39 PM	Dr. Jeff Smith	You should be deeply ashamed for proposing to gerrymander our state's districts further than you already have. Our districts according to our own state constitution should be set every 10 years and you have already done it twice. One time was found unconstitutional and the only reason that this most recent gerrymander was not found unconstitutional was because you have packed the court with people that are as corrupt as you. It seems like the GOP has forgotten that you are supposed to represent the people in your state. My entire family used to be republican but instead of listening to the opinions of the people you have decided to cheat so that you win without representing your constituents by gerrymandering the system. My immediate family has switched to the democrats and now we are working on all of our extended family and friends in the rural counties to recognize that you have given into corruption, authoritarianism, and fascism. You are betraying your country, and I hope history reflects what an absolute disgrace you and the GOP were during this very dark time. I would beg you to do the right thing, but I have lost faith that the GOP has any patriotism for the USA.
10/18/25 2:41 PM	Amanda Casto	I urge the NC House Committee to NOT CONSIDER redistricting the North Carolina congressional districts. This proposed redistricting plan is the very definition of gerrymandering and does not reflect the ideological makeup of the constituents statewide.
10/18/25 2:42 PM	Martin Duffy	The redistricting maps should always be as representative as possible. If 40% of voters vote Democrat and 50% vote Republican then the seat count should be as close as possible to this. The current proposals are undemocratic, unrepresentative and an insult to freedom. The proposals as they stand are simply partisan politicians choosing their voters. It is the voters who should always choose their representatives. Gerrymandering is wrong and it should be outlawed across the country, irrespective of which political party is benefitting. Return the government to one of, for, and by the people.
10/18/25 2:42 PM	Dr Candice Roberts	Gerrymandering disenfranchises. I disagree with this bill in all states, especially my own.
10/18/25 2:42 PM	Dr Kelli Dunn	When you have to work this hard to keep power, you aren,Äôt working for the people of this state. Redistricting NC is absolutely a shameless power grab. We need reform to draw neutral boundaries that don,Äôt benefit either party! No to gerrymandering.
10/18/25 2:45 PM	Chelsea Rose	I wonder if Heaven does redistricting too when God feels it,Äôs getting too diverse?
10/18/25 2:47 PM	Nicole Barnes	I strongly OPPOSE the current redistricting proposal. Congressional districts should be drawn fairly and not in an effort to favor any one political party. All citizens should be able to reasonably expect a fair opportunity to elect candidates who represent their interests, supported by maps that are not gerrymandered in an unfair and grossly partisan manner. The current proposal is a blatant partisan move to ensure Republican power in local and federal government. House leadership has openly admitted this and it is shameful for them to move forward with this proposal, particularly after stripping away the Governor's power to veto it (we are one of only two states whose Governor does not have this power - the result of another blatant and unethical power grab by Republicans). Some may believe the lies being told to justify this redistricting, but more and more people are understanding the true intent and do not agree with the direction in which our country is moving.
10/18/25 2:48 PM	Patricia Franklin	Mid-cycle partisan gerrymandering has severe consequences: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all.

10/18/25 2:48 PM	Mrs Laurie Basham	Laurie Basham Fine Art	I do not support this blatant power grab by redistricting in NC
10/18/25 2:48 PM	Benjamin Gayle		I am opposed to politically biased redistricting by either party. It undermines the democratic process. Put redistricting authority in the hands of an independent commission composed of ordinary North Carolinians.
10/18/25 2:49 PM	Dr. Kristen Smith		I am very scared where the republican party is taking our state and our country. All of these red and blue states gerrymandering their voting districts essentially take away the fair representation of the people in this country. You are actively doing away with the republic and making us a sham democracy. What is even the point of voting after you stack the deck so that the republicans win NC and the democrats win CA no matter how we vote? What you are doing is a betrayal of our country and what you were elected for. The republicans are in control. If you want to remain in control, then do a good job. Don't cheat to win! It will take away any motivation for the government to be responsive to its people and when that happens then you will have killed the republic. Please do not do this!
10/18/25 2:51 PM	No more gerrymandering! Timothy Davis		NC is already one of the most gerrymandered states in the Union. We don‚Äôt need to make it even worse and enable a one-party system. North Carolinians deserve fair and impartial districts and proper representation. Please do not go forward with this wildly undemocratic and unpopular redistricting proposal. If your policies are popular and truly what the people want, you wouldn‚Äôt need to do this.
10/18/25 2:51 PM	Matt Hernley		We must have fair elections. When North Carolina, which tends purple in the last 10 years, has a supermajority for Republicans, this is blatant abuse of power. North Carolinian Republican officials are crucifying freedom and driving stakes into the feet and hands of their citizens.
10/18/25 2:51 PM	Jenny Tilford		I don‚Äôt approve of redistricting or gerrymandering.
10/18/25 2:54 PM	Tom Smith		Please do not take this action. As a new voter, I have already become very disillusioned by the very corrupt actions of the Republican party. This redistricting will only further show how corrupt and fascist your party has become.
10/18/25 2:56 PM	Mrs Amanda Heidinger		Do Not redraw the maps to please Trump. He is a failed president and deeply unpopular. Good Christian leaders win fair and square; and this makes you look like a cheater and that you bend the knee to a would be dictator.
10/18/25 2:59 PM	Buck Loy		I am against these redistricting plans. Why jerrymand to remove power from any groups of voters. Unfair and unamerican!
10/18/25 2:59 PM	Sarah Dickert		Gerrymandering is cheating. Stop the GOP from redrawing the maps. Let the people decide who will lead and govern, not a cheating wanna be dictator. Every vote deserves to be heard, not buried under nonsensical partisan map drawing.
10/18/25 3:00 PM	Joyana McDiarmid		Please stop gerrymandering our state further. We need a bipartisan plan that follows governmental guidelines.
10/18/25 3:00 PM	Madalyn Smith		Do your actual job and vote on a budget and NOT for this redistricting!
10/18/25 3:00 PM	Nancy Mullinex		Hands off our maps. What gives you the right to take our representation away? Stop the gerrymandering. Enough with the corruption.
10/18/25 3:03 PM	Ms Connie Nicholson		Shame, shame. Shame. You have already gerrymandered our state to have a majority. But if you concede to a request by the president you are allowing tyranny to rule. The majority of North Carolinians do not want this. It is unethical.
10/18/25 3:03 PM	Ms Annie Caulkins		No Gerrymandering!!!!
10/18/25 3:05 PM	Mrs Donna Dowd	Citizen	Leave the maps alone.
10/18/25 3:08 PM	Mrs Melissa Schuler		HARD NO to the 2025 redistricting. The district maps in NC should represent the actual make up of the NC electorate not the wishes of any political party, Republican or Democrat. I‚Äôm against ‚Äúgerrymandering,‚Äù by any party for any reason.
10/18/25 3:10 PM	Alice Watson		Please vote against the proposal for a newly gerrymandered map that will give the republicans another seat. I 100% do not support further gerrymandering. I am an independent voter and am appalled that this state is not actually representing the will of the people, but is bending to the will of billionaires. DO BETTER.
10/18/25 3:10 PM	Mrs. Evelyn Coltman		I am so extremely disappointed in the Republican Party in NC - a state I am from and have resided in most of my 79 years. Why can't Republicans pass a budget? Why can't Republicans decide that fairness in the election process should be a top priority? Why are Republicans deciding that they should choose our representatives rather than the people choosing them? North Carolina has fewer Republicans than Democrats. Both parties have fewer members than do independent voters. So, how is it fair for the state to potentially be represented by 12 Republicans and two Democrats? I feel as if NC is turning into Russia instead of the U.S.A. Is the only way Republicans can win is to cheat?
10/18/25 3:12 PM	Lizzie Nunya		Are we for real with this? This is pathetic. It's sad that Republicans can't win without this obvious and blatant cheating. If this map goes through, you disenfranchise THOUSANDS of North Carolinians. This is some Jefferson Griffin level of whiny baby temper tantrum. Surely there's a way to chop up MORE districts so the widdle wepubwicans don't get their fee fees hurt by losing. Y'all are worse than babies. Actually care about the people of North Carolina and not your pockets or protecting pedophiles.
10/18/25 3:14 PM	Jonathan Miela		If you can publish district election maps you can pass the budget. Please pass the budget.
10/18/25 3:14 PM	Redistricting John Olley	Self	I have taught my children to be fair, but when they asked me about the fairness of the proposed redistricting by North Carolina Republicans, I could not give them an answer that did not involve political power over the vote of the ordinary citizen. Please make my children proud to live in North Carolina by keeping district lines fair and impartial.
10/18/25 3:15 PM	Ken Bollen		These redistricting maps are one more step in making North Carolina less democratic and less representative. Please reject this, and set up a nonpartisan commission to decide voting districts.

10/18/25 3:15 PM	Darcie Watson		I never feel more patriotic than when I'm in the long line at my precinct, waiting to vote with people of various ethnicities, ages & from all walks of life. I'm certain they don't all vote like I do, but that's the beauty of it. We all get to vote our consciences, and our votes count equally. It's our right, but what a privilege! How dare anyone disenfranchise NC voters. Gerrymandering is unpatriotic and anti-American. You were elected to serve the people of North Carolina. Do better!
10/18/25 3:16 PM	Concerned NC Voter		This will be the second redistricting in three years, despite the constitutional expectation that redistricting occur once every ten years. Frequent, politically motivated map changes erode public trust and undermine democratic stability. The proposed Congressional map appears to respond directly to partisan pressure from the executive branch, rather than reflecting the will of North Carolina voters. This is deeply alarming. Redistricting should be independent of political agendas and focused on fair representation. North Carolina,Äôs current maps already fail to reflect the state,Äôs popular vote. Further manipulation only deepens the disconnect between voters and their elected officials. If a party,Äôs policies truly resonate with the public, they should prevail through fair elections ,Äî not through engineered districts. I urge the legislature to reject this plan and commit to a transparent, nonpartisan redistricting process that respects the principles of representative democracy. Legislators should serve the people, not partisan interests.
10/18/25 3:16 PM	Nida Trigoboff		I am a Henderson County resident, and I am appalled that my Republican representatives, who can't be bothered to pass a budget, protect our healthcare, or secure hurricane relief funds, are now attempting to further gerrymander our already pretzeled state. This is voter suppression and an unconstitutional power grab designed to permanently ensconce Republicans as the ruling party and make them unaccountable to their voters. I demand that my representatives vote "No" to this redistricting attempt.
10/18/25 3:18 PM	Jacob Allen		There is no reason we should be redistricting in the year of 2025. This is specifically designed to be a process done every decade, not at the whim of the president. North Carolina republicans should be shameful.
10/18/25 3:18 PM	Heidi Breeden		I am a proud resident of Concord, NC, where my neighbors are a diverse community united in our desire to live peacefully and achieve our dreams. Everyone,Äôs perspective matters. Everyone adds something to the conversation, and everyone holds part of the solution to all of our challenges. The current presidential administration has called for silencing the voices of diverse voters across our state in favor of securing power for only one party, whose voice is certainly valuable, but will not serve the people alone. We need each other. It takes EVERYONE to effectively govern of, for, and by the people. Redistricting outside of the regularly scheduled time and at the behest of a leader who has openly stated repeatedly that their administration seeks to secure more seats and power for their party is inconsistent with the principles of democracy. I trust that my legislators in the great state of NC are above such manipulative disregard for our fellow North Carolinians. Our voice is our vote. Please do not silence citizens for power.
10/18/25 3:20 PM	Dr Judy Siguaw		I am against your effort to redistrict North Carolina as it will undermine fair elections by distorting representation, entrenching partisan power, and diminishing voter participation. Gerrymandering our state will mean that the majority of North Carolinians will not be represented by the majority of legislators, leading to laws that don't reflect the our will. Please create fair, rational districts
10/18/25 3:24 PM	barbara dennihy	Self	This ,Äú redistricting,Äù undermines fair representation.
10/18/25 3:25 PM	Chris Landers		This plan is offensive. To even consider doing this against the best interest of the residents of NC so that one man can receive the backing of the president in his re-election campaign is beyond the pale and should be rejected by anyone interested in democracy
10/18/25 3:25 PM	Mrs Jacquelyn Ash		Pass a budget instead of redrawing our maps AGAIN! There are more important things.
10/18/25 3:25 PM	Allen Shepard		Please protect democratic representation and invest toward nonpartisan fair redistricting approaches for the long term health of our state. The proposed current redistricting is obviously part of the top-down political mandate to create further short-term partisan representation at the expense of integrity and long-term public trust and accountability.
10/18/25 3:25 PM	Laurie Farley		Absolutely NOT! Republicans are destroying our state all in the name of the mighty dollar. Cheating should not be tolerated, but they keep upping the anti. I hate it!!!!
10/18/25 3:28 PM	Patricia Phillips		Redistributing is absolute ring, and everyone knows it. It is manipulation toward a desired outcome. But not fair.
10/18/25 3:28 PM	Mrs Neal Wilkins		My family lacks the chance at fair representation already. One member votes Republican and says he knows his vote doesn,Äôt count in Durham, a bastion of liberalism. Yet you may unintentionally push his dream of representation even further out of reach. Please don,Äôt change the maps.
10/18/25 3:29 PM	Jennifer Dodson	Homeschooling Parents	This is theft of our legitimate representation as voters. We are watching so I hope you are prepared to be voted out if you you continue to be sycophants of the Trump regime.
10/18/25 3:30 PM	Ms Nyani Dixon		I am requesting that NC does NOT redistrict/gerrymander our state!
10/18/25 3:31 PM	William Poteat		Against this proposal.
10/18/25 3:32 PM	Elizabeth Scarborough		I vehemently oppose the attempt to redraw the congressional district maps prior to the 2026 midterms. This is a blatantly partisan attempt to disenfranchise voters in North Carolina. If the Republican Party cannot win the election without stacking the deck then they need to take that as a sign that they need to do better as a party.
10/18/25 3:32 PM	Ray Buckmaster		I strongly oppose redrawing the redistricting effort that the Republican party has undertaken. I believe that North Carolina's lawmakers should instead focus their efforts on passing a state budget. I'm disappointed in the effort given towards the budget and at this point it seems intentional to avoid giving hardworking teachers and state employees a raise.

10/18/25 3:32 PM	Dr. Veronica Moriarty		This state is already excessively gerrymandered. A vote for this redistricting is a vote for suppression of the people,Äôs rights. It is heavyhanded and clearly shows favoritism rather than representation of the constituents. How you vote on this will long be remembered. Do you want to be remembered as a true US citizen, supportive of the constitution, or a fascist?
10/18/25 3:33 PM	Chris Scott		Our schools are underfunded and y,Äôall haven,Äôt even passed a budget. Yet, you have time for this redistricting nonsense to benefit federal politicians?!? Take care of NC; do your jobs.
10/18/25 3:33 PM	Thomas blanford		It is now out in the open that your concern is mostly about DT,Äôs interests and not about NC citizens. These proposed maps are actions of autocracy not democracy. I pledge to commit maximum time and treasure to removing Republican opponents of democracy from office.
10/18/25 3:33 PM	Patricia Kurt		I am an Independant voter living in WNC. I am strongly opposed to any new gerrymandering of the NC voting districts. A free and fair election is the right of every NC resident. Any attempts to subvert the 2026 election should result in criminal charges and incarceration.
10/18/25 3:34 PM	Mrs Heather Edly		If you can,Äôt have a fair, honest fight an have to resort to redistricting votes to ensure your win, you are on the absolute wrong side of history and I will make it my mission to see you all voted out of office. North Carolina and all its constituents deserve better than to be forced to bend the knee to the garbage in the White House.
10/18/25 3:35 PM	Mrs Jeri Ramsey	None	NC has been my home for 59 years. I don't understand how our state is a true purple state with almost equal amounts of registered Republicans and Democrats yet our Congressional districts do NOT represent those voters. Democrats started gerrymandering in NC. Republicans have taken that and not only skewed the voting districts with unproportional voting representation but also uneven judicial appointments. The Fair Voting Act needs to be passed by our NC legislatures and all NC voting maps need to go back to being a fair and REAL representation of the registered voters in our state.
10/18/25 3:36 PM	Mrs Sydney Havrilchak		?I am writing to express my profound opposition to the newly proposed congressional maps. This is not a routine, court-ordered, or census-mandated redraw; it is a blatant partisan power grab in the middle of a decade. ?My objections are as follows: ?It Defies the "Purple" Nature of Our State: North Carolina is one of the most politically competitive states in the nation. Statewide elections for Governor, Attorney General, and President are routinely decided by razor-thin margins. A map intentionally drawn to create an 11-3 (78.5%) partisan advantage for one party is an extreme distortion of our state's electorate and an insult to millions of voters. ?It is an Anti-Democratic Power Grab: This mid-decade redistricting is not being done to comply with a court order or to reflect population changes. Its publicly stated goal is to eliminate the state's only competitive "swing" district (NC-01) and predetermine the outcome of future elections. This is the definition of gerrymandering. ?It Prioritizes Partisanship Over People: These maps are not drawn to respect communities of interest, keep counties whole, or create compact districts. They are drawn with one goal: to "pack" Democratic voters into three districts and "crack" them across the other eleven. This intentional manipulation, specifically targeting voters in the 1st District, dilutes the voting power of citizens for partisan gain. ?It Destroys Accountability: When politicians draw "safe" districts for themselves, they no longer have to answer to the general electorate. They are only accountable to the most extreme voices in their primary. This leads to gridlock, polarization, and a legislature that does not reflect the will of the people. ?Voters should choose their politicians, not the other way around. I urge you to reject this cynical and self-serving map. We need fair maps that lead to competitive elections and a congressional delegation that truly represents the people of North Carolina.
10/18/25 3:36 PM	Dr Julie Brown	Retired	Gerrymandering is wrong no matter who does it. It deprives voters of fair representation. Redistricting more than once a decade after the census is counterproductive. Please stop this madness and go get your constituents a BUDGET.
10/18/25 3:37 PM	Mrs CHERYL COBB		You are rigging an election. What is worse is you are doing itbto keep in power a president whose vision for democracy is a dictatorship. Shame on you. Shame on all of you. You are harming ... real harm ... the people you are supposed to represent.
10/18/25 3:38 PM	Michele Rund		No taxation without representation! We are over being gerrymandered by Republicans who can only win if they cheat.
10/18/25 3:38 PM	Sarah Hennis		I,Äôm against unfair maps. Please don,Äôt rig the system even more than it already is.
10/18/25 3:39 PM	Kristie Potwat		I do not agree with this proposal. Thank you.
10/18/25 3:40 PM	Bethany Bonnemere		Prioritize passing a budget over rigging an election
10/18/25 3:40 PM	Linda Gorham		I,Äôm writing to protest another redistricting plan. The current gerrymandering system is already bad enough.
10/18/25 3:43 PM	Audrey Atanasov		I am 100% in favor of this.
10/18/25 3:44 PM	Mx. Emily Everhart		If you can't win votes by doing the right thing, you certainly don't deserve them by redistricting. Work on making NC a better state to live in for ALL its residents, or get out of politics.
10/18/25 3:45 PM	Lary Custodio		It is nothing but an abuse of power for our legislature to attempt to redistrict our state in order to manipulate the next election. You were elected to represent all of your constituents , not to undermine the democratic process. The voters will remember.

10/18/25 3:45 PM	Ms Wanda Maddox		NC had perfect representation before the last redistricting which was 7 DEMOCRATS & 7 REPUBLICANS; you redraw the maps & the DEMOCRATS lose 2 seats. Now, less than 2 years later, you want to redraw again at the request of the president to give the republicans another seat which would put the total number of seats for republicans at 10. Remember that you represent the people! We have co- equal branches of government & redrawing the maps at this time would be a travesty of justice. Stop the CAPITULATION! ‚ÄúWE THE PEOPLE‚Äù!!
10/18/25 3:45 PM	Ms. Jill Gulliksen		The planned redistricting is 100% unconscionable and only further gerrymanders districts in our state (as Trump requested) by the Republicans in the majority (elected due to previous gerrymandering). We are SUPPOSED to live in a democracy. SHAME ON YOU! You were elected to defend and uphold the constitution of the United States of America. Where is your conscience? You took an oath, remember?
10/18/25 3:47 PM	Mr. Peyam Barghassa		This is NOT a democracy if you have to cheat to stay in power. Representation means ALL of us.
10/18/25 3:47 PM	patricia hunt		STOP the unfair proposed plan!!
10/18/25 3:48 PM	Mrs. Ashley Levitan		Stop the gerrymandering!!
10/18/25 3:52 PM	Vanessa Hackett		This proposed mapping is not a true representation of the North Carolina people and therefore, should not pass. Please REJECT this proposal
10/18/25 3:53 PM	Kelsey Picatello		I am a concerned resident Raleigh, Wake County. I am speaking out today because I am deeply troubled by the latest attempt by the General Assembly to rig our state's congressional maps through mid-decade gerrymandering! Let's not allow politicians to rig our elections. Let's demand fair maps and a government that truly represents the people of North Carolina, not one that appeases the President!!
10/18/25 3:54 PM	Sandra Colyer	NC Resident and Taxpayer	I am writing to express my opposition to the newly proposed Congressional map. Keep in mind that mid-term redistricting could come back to bite the Republican Party in the future. You should think long and hard about the long term - instead of responding to the short term goals of a lame duck president.
10/18/25 3:54 PM	Abigail Elfman		I am strongly against the proposed redistricting plans that heavily favor Republicans in a state that deserves fair representation across its districts. Courts have repeatedly ruled against maps like this one because they are not fair to the voters. The general Assembly should seek unbiased, non-political maps drawn for true democracy.
10/18/25 3:55 PM	Brett Frost		I think that the idea of redistricting essentially negates the very idea that every vote counts and that is a very depressing and unfair thing to think about. I certainly think that in our current times with such a heated environment that this would be an awful mistake for the state of NC and for our country at large. If I had the power to make decisions about such topics I would also do away with the electoral college completely as I also feel that it removes the power of individual votes from this nations individual voters. Above all else, I currently fear for our nations future more than at any other point in my life and I know that I am not alone there. We are losing respect and credibility in the world, becoming more hostile with each other as citizens and the divide of inequality between rich and poor has never been as extreme as it now is. Please don't sell tomorrow for today, leave some shred of hope for the idea of the American dream.
10/18/25 3:55 PM	Tonica Smith-Koonce		Every North Carolinian deserves fair representation in congress. No more gerrymandering. Win fair and square.. cowards!
10/18/25 3:56 PM	Dr Cem Saydam		As a registered republican I am totally opposed to yet again gerrymandering to favor republicans. Unless gerrymandering is reversed, during the upcoming elections I will vote for democrats.
10/18/25 3:56 PM	Ms Stephanie Baron	NC citizen	I cannot believe our NC government would participate in gerrymandering. How low can you go,Ä¶You obviously have no confidence in yourselves so you stoop to Donald Trumps level. I hope it backfires in that Republicans like me vote again their own party. And when you are up for reelection,? Dont think we will forget. This makes me sick.
10/18/25 4:00 PM	Charlotte Morgan		I understand our state legislature is convening, not to pass a yearly budget (which it still hasn't passed), not to pressure the Trump administration to release desperately needed hurricane relief funds, but to gerrymander our already pretzeled state. This is voter suppression and meant to leave one party totally unaccountable to voters. Please know I strongly disagree with this gerrymandering effort! C Morgan
10/18/25 4:00 PM	Martha Todd	na	I oppose the new map drawn to simply provide a larger majority to the Republican Party.
10/18/25 4:01 PM	Ms Marcy Kwiatkowski	None	NC is a split state politically, and there should be true representation. An 80/20 split is NOT that. Please do not gerrymander yet another seat.
10/18/25 4:01 PM	Abby Bowman		I have to wonder why you feel like you have to cheat to keep republicans in power? Is it because your policies are deeply unpopular and have done nothing to improve the lives of North Carolinians? It‚Äôs October and a state budget has not been passed, but our state reps have time to pass gerrymandered maps, AGAIN. Please do better.

10/18/25 4:02 PM	Justice Mansour		I strongly oppose the proposed congressional map. North Carolina is a 50/50 state, yet this plan would hand one party 11 out of 14 congressional seats ,Äî nearly 80% of our representation. That,Äôs not democracy; it,Äôs taxation without representation. Every North Carolinian pays taxes, contributes to our communities, and deserves a fair voice in Washington. Our state has a long and troubling history with gerrymandering. From Shaw v. Reno in the 1990s to Rucho v. Common Cause in 2019, courts have repeatedly found that North Carolina,Äôs maps have been drawn to favor those in power, not the people. The result has been decades of litigation, wasted taxpayer dollars, and communities ,Äî like Greensboro and North Carolina A&T ,Äî deliberately divided to dilute their voice. It,Äôs unacceptable that lawmakers are spending time redrawing districts now, outside the normal post-census process. This is a clear misuse of power and a distraction from real governing. Instead of manipulating maps, the General Assembly should focus on passing a fair and timely budget that addresses the needs of North Carolinians. We deserve fair representation, not political gamesmanship. Please reject this proposal and respect both the democratic process and the priorities of the people you serve.
10/18/25 4:03 PM	Lauren McFaul		Stop illegal gerrymandering!
10/18/25 4:04 PM	Mr Laval Choiniere		If one reflects upon the amendments to the constitution that secured voting rights for minorities and women, it would seem reasonable to extend that the right to vote should also mean that the weight of the votes are at parity. Unfortunately, that is not the way some people intend to implement the vote. They prefer to slant the vote or filter it so that a minority can rule over the majority. This is not a fair, balanced or sustainable system and will fail over time. Stacking votes against your ,Äúfoe,Äù may result in unintended consequences.
10/18/25 4:04 PM	Matthew Miller		Listen, I love the President, but keep in mind this is how the Democrats lost their majority in the Assembly in 2010. If you stretch the lines too far we could have a major flip. We have a majority now, If we get greedy it could all flip. I,Äôm begging you to consider that the President is not going to be on the ballot and I,Äôm seeing a lot of my neighbors on the left very excited to vote. I know you have to support the President and I love you for it but this could end in disaster.
10/18/25 4:04 PM	Rollin Kibbe		I,Äôm a voter here in NC and I don,Äôt approve of yet another redistricting between censuses, and particularly not so that the NCGA can gain favor in the eyes of someone who is NOT a North Carolina voter. Our state is an embarrassment because of the NCGA,Äôs actions.
10/18/25 4:05 PM	Josephine Harrison		Redistricting mid 10 year cycle is not a good idea in my opinion. Voters like consistency and stability and this is a new gimmick to put politicians above voters. Gerrymandering has been done by both parties but maps have been changed every 10 years after the census. If this precedent changes it creates chaos with no justification and will come back to haunt the party currently in power.
10/18/25 4:05 PM	Ms. Sari Teplin	U.S. citizen and resident of N.C.	I am opposed to mid-cycle partisan gerrymandering: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all.
10/18/25 4:08 PM	Helen Hiser		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/18/25 4:08 PM	Alana Sharps		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and our votes should count equally, regardless of political affiliation, race, or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal
10/18/25 4:11 PM	Ms Sandy Lewis	Self Employed	allow open and fair voting!
10/18/25 4:11 PM	Sarah Barton		As a constituent, I disagree with the proposed Congressional distract plan.
10/18/25 4:12 PM	Stacie Harrison		Thank you so much for redistricting!!!
10/18/25 4:13 PM	Mrs. Jana Williams	NA -	Do you believe in Democracy, or not? If you do, then make sure you do the right thing & keep districting fair.

10/18/25 4:13 PM	Mr. David Johnson		I am opposed to mid-cycle redistricting except in cases where population shifts have caused a decrease below the constitutional minimum. I am particularly against mid-cycle partisan gerrymandering designed to subvert people reaction to unpopular policies. Government by the people and for the people should mean just that.
10/18/25 4:14 PM	Ida Wixson		Trump and his regime is trying to suppress our votes and We the People won't have it.
10/18/25 4:15 PM	Stacie Villella		I am writing to express my profound opposition to the newly proposed congressional maps. This is not a routine, court-ordered, or census-mandated redraw; it is a blatant partisan power grab in the middle of a decade. ?My objections are as follows: ?It Defies the "Purple" Nature of Our State: North Carolina is one of the most politically competitive states in the nation. Statewide elections for Governor, Attorney General, and President are routinely decided by razor-thin margins. A map intentionally drawn to create an 11-3 (78.5%) partisan advantage for one party is an extreme distortion of our state's electorate and an insult to millions of voters. ?It is an Anti-Democratic Power Grab: This mid-decade redistricting is not being done to comply with a court order or to reflect population changes. Its publicly stated goal is to eliminate the state's only competitive "swing" district (NC-01) and predetermine the outcome of future elections. This is the definition of gerrymandering. ?It Prioritizes Partisanship Over People: These maps are not drawn to respect communities of interest, keep counties whole, or create compact districts. They are drawn with one goal: to "pack" Democratic voters into three districts and "crack" them across the other eleven. This intentional manipulation, specifically targeting voters in the 1st District, dilutes the voting power of citizens for partisan gain. ?It Destroys Accountability: When politicians draw "safe" districts for themselves, they no longer have to answer to the general electorate. They are only accountable to the most extreme voices in their primary. This leads to gridlock, polarization, and a legislature that does not reflect the will of the people. ?Voters should choose their politicians, not the other way around. I urge you to reject this cynical and self-serving map. We need fair maps that lead to competitive elections and a congressional delegation that truly represents the people of North Carolina.
10/18/25 4:15 PM	Redistricting Mary Tunstall	Retired	This is a disgrace to our democracy and for you to even consider doing this. I,Äôm proud to be an American but you are making decisions that are not of the highest and best for all people.
10/18/25 4:18 PM	Jody Zinn		I think this is a disgusting power grab from the republicans. This does not reflect the will of the people they have sworn to serve. The only people they are serving is themselves and Donald Trump.
10/18/25 4:21 PM	Robert Gwiazdzinski		Love the look of the new maps. I 100% support this change. Keep up the good work
10/18/25 4:22 PM	Dr Sarah Iler		This is a shameless attempt by the NCGOP to select their own voters, avoid accountability, and disenfranchise citizens with whom they disagree.
10/18/25 4:23 PM	Amie Gwiazdzinski		Great job on the new map. I support it 100%
10/18/25 4:25 PM	Mrs. Patti Rogers	League of Women Voters	Mid-cycle partisan gerrymandering has severe consequences: Silencing voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability, destabilizing elections. plus constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. Finally, it weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all.
10/18/25 4:25 PM	Mrs. Valeria Gist		1. This proposal is unnecessary and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. 2. This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the "cracking" of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. 3. This proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year's election before dropping big changes to next year's.
10/18/25 4:28 PM	Andrea Green	Retired	Your shameless gerrymandering is unconstitutional.

10/18/25 4:28 PM	Sanida Sabanija		As a believer of Christ, I believe in truth, justice, and integrity ,Äî not just in personal life but in how we govern and serve one another. Gerrymandering, the deliberate manipulation of district lines to benefit one political party over another, stands in direct opposition to these principles. Scripture teaches that ,ÄúThe Lord detests dishonest scales, but accurate weights find favor with Him,Äù (Proverbs 11:1). When politicians draw maps to predetermine outcomes rather than reflect the will of the people, it becomes a modern form of dishonesty ,Äî tipping the scales of democracy for personal or partisan gain. The Bible also reminds us to ,Äúact justly, love mercy, and walk humbly with God,Äù (Micah 6:8). Justice cannot exist when power is preserved through manipulation. Mercy cannot flourish when some voices are silenced. And humility disappears when leaders place political advantage above moral responsibility. As a Christian, I cannot support any act that intentionally weakens fairness or divides communities for political control. Every person, regardless of party, race, or background, deserves equal representation. Gerrymandering breaks that sacred trust ,Äî it undermines the idea that all are created equal and all have a voice. I pray for leaders to seek wisdom, to remember that authority is a stewardship, not a weapon, and to draw districts that reflect honesty, equity, and respect for the people they serve.
10/18/25 4:28 PM	Dr. Dana Brantley-Sieders		Gerrymandering is anti-democratic. Voting districts should represent the people, not disenfranchise them. No gerrymandering!
10/18/25 4:31 PM	Joseph Prince		It,Äôs very sad that you are basically cheating to protect pedophiles. I use to be a Republican but you make me ashamed of it.
10/18/25 4:32 PM	Kortney Trevino		Everyone,Äôs voice deserves to be in a place where it,Äôs reasonably heard. If one party can do this it opens the door to the other doing it too. It,Äôs a bad idea for everyone.
10/18/25 4:32 PM	Ann Wilson		The mid-cycle partisan gerrymandering that is being considered is absolutely absurd. It has severe consequences, not to mention it is a waste of time and taxpayer money. And it was just done one year ago!! There should be a law establishing how often redistricting can be done - otherwise every time a different party gains power the lines will be redrawn! So watch out what you wish for! Frequent redistricting silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. Frequent redistricting destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. Frequent redistricting weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all. Frequently changing the districts to increase a particular parties chances of winning is also known as cheating. It isn,Äôt democracy elections are rigged. DO NOT REDISTRICT AGAIN!
10/18/25 4:32 PM	Saari Gardner		This is an abuse of power. If you feel so strongly it,Äôs the right thing to do- put it to a vote and let North Carolina decide.
10/18/25 4:33 PM	Mrs. Valeria Gist	League of Women Voters	The proposed redistricting in NC is unnecessary for many reasons. A few are discussed below. 1. Destabilizes representation: Redrawing maps mid-decade confuses voters and disrupts communities,Äô relationships with their elected officials. 2. Invites partisan abuse: Mid-cycle redistricting is often used by those in power to manipulate district lines for political gain rather than public interest. 3. Violates the principle of equal representation: Redistricting should be based on new census data. Changing maps mid-cycle uses outdated population information and weakens fair representation. 4. Wastes taxpayer money: Constantly redrawing maps drains public funds and resources that could be better utilized to serve voters. 5. Erodes trust in democracy: Frequent and politically motivated redistricting leads voters to believe the system is rigged, lowering confidence and participation. Voters should choose their representatives, not the other way around.
10/18/25 4:33 PM	Mr. Rahn Adams	Private citizen	A nonpartisan commission should be used to redraw congressional districts in a manner that does not give one political party undue advantage, and that wherever possible follows existing county or municipal boundary lines.

10/18/25 4:33 PM	Joshua Harrold		Do not do this. Rather, remove all gerrymandering and use contiguous districts that match existing localities. This map is a farce and indicates just how far Republican policies are divorced from the desires of the people.
10/18/25 4:34 PM	Mr. Mark Smith		DON'T DO IT! What a sad comment on the strength of your ideas that if they can't stand on their changes are made to the system rather than the ideas! Be a patriot. Support democracy. DON'T DO IT!
10/18/25 4:36 PM	Autumn Woodward		Stop gerrymandering, it's undemocratic and anti-American and folks are real tired of it.
10/18/25 4:36 PM	Mrs. Gwendolyn Russell	South Granville Senior Center	I am asking our NC Legislators to do their jobs and concentrate on passing a budget for this year instead of spending time and resources to redraw our states congressional districts so that their party will be favored. It's the 3 rd time in 3 years that this manipulation has once again been tried. It' s not right .
10/18/25 4:39 PM	Josie Buckley		Don't gerrymander the map!!!
10/18/25 4:40 PM	Is this a joke? Blair Henry		The gerrymandering is out of control. So you are admitting you have to cheat to win? Pathetic.
10/18/25 4:41 PM	Ms Alexis Rudolph		Please dont change congressional maps.
10/18/25 4:41 PM	Laura C		As a resident of NC, I strongly oppose the proposal to redraw NC,Äôs electoral maps. It is your duty to keep elections fair for all citizens - do not bend to the will of a biased and unjust request.
10/18/25 4:41 PM	steve hester	personal	Any redistricting (gerrymandering) for political reasons is wrong - by either party. The voting public has a right to make it's choices and for those choices to be fair. The Republican party in particular - especially at the urging of Mr. Trump - has made gerrymandering a disgraced political tool that has gotten out of hand. The sad thing is - Republicans freely admit the unfair (often illegal) process is simply a tool to win (rig) elections - and they accept that is ok for them. Yet they whine when Democrats do it in response. How about this - congressional representatives band together to make gerrymandering a bad word and a bad policy. Enact laws that state that any redistricting is done by an impartial, non political committee whose purpose is to ensure a fair vote based on the makeup of the population - not the political whim of those in power. This is the process in about a dozen states - all Democratic leaning - by the way. That is the only fair solution to this ridiculous fighting.
10/18/25 4:42 PM	Craig Swecker		NC is roughly a 50/50 state. 70%+ of our US reps are Republican. This is already an aberration that needs to be corrected, not exacerbated. Please allow me the representation that is earned. A representative should be just that and you are failing at what should be fundamental.
10/18/25 4:43 PM	Opposing Redistricting Hannah Scott	UNCW School of Social Work	I am a Master of Social Work student at the University of North Carolina Wilmington. I work with city council members, the unsheltered population, and older adults in my community. I am also president of the Political Social Work Club at UNCW. I am writing to oppose the redistricting to favor a specific political party. The power lies within the people. Our voices must be heard. By further gerrymandering our already butchered map, more voices, that will feel the brunt of the impact from harmful bills, are being left out of important conversations. I ask you to please consider the rights of the people when voting on this bill. We must prioritize democracy during this fraught political climate. Embodying American ideals means voting to ensure everyone,Äôs voices are heard and valued. I beg you- think of your constituents.
10/18/25 4:43 PM	Jason Botwick		Math don,Äôt lie. Stop rigging our elections!
10/18/25 4:44 PM	Mary Leonard	Citizen	Your Majesties, I hope you're prepared for what's likely to happen next. Should be very entertaining.
10/18/25 4:45 PM	Dr Eileen Sales	None	I oppose any further redistricting in NC. This has already been done twice since 2020, & is a not even thinly veiled attempt to reduce the voting power of NC,Äôs black voters. STOP THE GERRYMANDERING!!!
10/18/25 4:46 PM	Rebecca Stubbs		North Carolina has already been redistricted twice since 2020. Redistricting should align with timing of updated census data to reevaluate population density and demographics. With frequent redistricting that has occurred over the last couple of years, the public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/18/25 4:47 PM	Ms Maria Cooe		Shameful and disgusting
10/18/25 4:48 PM	Linda Bell		Allowing boundaries to change changes elections. Unfair!
10/18/25 4:50 PM	Ms Beverly Foster		I'm totally and unapologetically opposed to this planned redistricting. I'm fool enough to believe that this citizen's values are worth true and honest consideration. It's incomprehensible that in our so-called democracy something like this can happen. We've known full well what Project 2025 is about, who profits, who loses. It's amoral, but that seems to be of little difference to the sycophants who care only about themselves and the portion of their constituency that clings to their master, with minds trained to believe the things that are happening are actually good for the country and themselves. And now redistricting, without any qualms, is intended to allow this autocracy to continue its total shunning of ethics and morality. And that's what this all comes down to: rigging the system.
10/18/25 4:50 PM	Dr. and Mrs William Deskin		Dear NCGA, You seem to be treating as though we are simpletons. This is further eroding the black vote in our State and makes this process - the politicians choosing the voters rather than the voters choosing the politician. If your policies and values are so popular, why do you have to cheat to win? Respect the people of North Carolina and abandon redistricting in the middle of the decade. This is dishonorable and likely illegal under what is left of the Voting Rights Act.

10/18/25 4:51 PM	Mrs Alice Powe	Redistricting mid cycle is a sycophantic reaction to a NC republican legislature's failure to understand the fact that NC/ the USA's beautiful diversity. Creating a white man's world is undemocratic and immoral.
10/18/25 4:51 PM	Ms. Gail Weeks	We want free and fair elections! No gerrymandering by crooked GOP!
10/18/25 4:53 PM	Jane Fox Long	I am totally against the redistricting plans that are underway by the Republicans. Redrawing lines to intentionally favor Republicans is wrong. You're attempting to take away power from the voters. You're putting the demands of politicians ahead of the will of the voters which is where it belongs and should stay. The frequent moving of lines to create an unfair advantage has got to stop. Voters have a right to equal representation. Redistricting steals that right from the voters. Manipulating voting maps undermines people,Äôs ability to choose representatives of their choice. It doesn't matter which party tries to do it, it's wrong! Silencing the voice of voters should never be allowed. Redrawing lines to stack the deck in the favor of one political party does just that. We are long overdue for redistricting reforms that put people and voters ahead of the ambitions of politicians.
10/18/25 4:53 PM	Dr Kim Talikoff	NO! Are you guys kidding,Ä¶? Again?? You just did this. How could this possibly be necessary,Ä¶?
10/18/25 4:53 PM	Beth Carmichael	As a lifelong Republican and committed constitutional conservative, I strongly oppose the proposed congressional redistricting plan in North Carolina. One of the foundational principles of conservatism is a government that is limited, accountable, and rooted in the consent of the governed. Gerrymandering, regardless of which party benefits, violates that principle by allowing politicians to pick their voters instead of voters choosing their representatives. True conservatives believe in free and fair elections, not political gamesmanship. This current push to redistrict undermines public trust in our institutions and weakens the legitimacy of our electoral process. When district lines are drawn with blatant partisan intent, it sends the message that power matters more than principle. Conservative governance should respect local communities and geographic integrity, not divide counties, towns, and neighborhoods to serve short-term political goals. This kind of manipulation distorts representation and silences voices even within the Republican Party, where diverse viewpoints exist across urban, suburban, and rural areas. If we want to preserve the long-term health of our republic, we must reject efforts that entrench power through artificial boundaries. I urge you to use a redistricting process that values transparency, fairness, and constitutional integrity. Let,Äôs honor the conservative values of fair play, rule of law, and representative government. Sincerely, Beth Carmichael Raleigh, NC Registered Republican
10/18/25 4:55 PM	Carol Clarke	You (the Republicans) are abusing your power to take away the people's power, the voters' power, because you are trying to decide for the voters who our Congress person is. We are a democracy and the people should be able to choose their representative. Don't use the excuse that Democrats do it too. Do what is right and give people the power they deserve and require in a democracy.
10/18/25 4:55 PM	Charles Tipton	I am amazed at the blatant attacks by the GOP on voting rights. Apparently the GOP has decided that they are far enough along in their mission to destroy our democracy that they can do anything they want with no apologies. Instead of stepping up and assuring "We the people" that every vote will count they are rigging the elections so that only there party can win. OBTW, please spare me the "Democrats have done the same." You had the chance to change the system for the better for everyone. You blew it! Now we the voters will suffer the consequences as you line your pockets and destroy a great nation.
10/18/25 4:59 PM	Ann Marie Celotto	Under no circumstances do I want our to go with a redistricting. I did not vote for this. I oppose it completely. I live in Trent Woods, NC - Craven County- and again I will vote and I will help mobilize my fellow voters to stop the politicians responsible.
10/18/25 4:59 PM	Barb Hill	It is sad day when you have to gerrymander districts to hope to win an election. Shame on you.
10/18/25 5:00 PM	Annabelle Campbell	Please do not redistrict North Carolina. It is not democratic. It will result in the passing of legislature that is not the will of the voters, who you are supposed to work for.
10/18/25 5:00 PM	Jim Hendley	I,Äôm all for redistricting. It,Äôs clear to me the previous lines were gerrymandering to favor democrats. Republicans are the majority of NC and we deserve to have representation

10/18/25 5:00 PM	Heather Corby	To the Members of the North Carolina General Assembly, I am writing to express my deep concern and disappointment regarding the recent redrawing of North Carolina‚Äôs congressional map, which has been gerrymandered at the request or behest of President Donald Trump. The integrity of our democratic process is fundamentally undermined when political boundaries are manipulated for partisan gain, especially at the direction of a single individual or group. Gerrymandering erodes public trust in our institutions and disenfranchises voters by diluting the power of their voices. North Carolina‚Äôs proud tradition of civic engagement and representative government should not be tarnished by maps that prioritize partisan advantage over fairness and the will of the people. The manipulation of district lines to favor one party does not reflect the diversity or interests of our state and undermines the foundational principle of one person, one vote. Furthermore, the fact that these maps were drawn at the request of a president sets a dangerous precedent, suggesting that our state‚Äôs legislative process can be influenced by outside interests rather than guided by the needs and preferences of North Carolinians. This undermines the independence and credibility of the General Assembly and the democratic ideals we are sworn to uphold. It is important to note that Republicans cannot credibly blame Governor Gavin Newsom or Democrats for the need to do this, as the recent wave of aggressive gerrymandering actually began in the Republican-led Texas General Assembly. This fact underscores that the issue transcends simple partisan accusations and highlights the need for genuine reform regardless of party affiliation. I urge you to vote no on the newly proposed congressional map and commit to a transparent, nonpartisan redistricting process that puts the interests of the people first. North Carolina deserves maps that are fair, competitive, and representative,‚Äînot ones that serve the ambitions of a single politician or party. Please put an end to aggressive gerrymandering in our state and restore public confidence in our democracy.
10/18/25 5:01 PM	On Treason Joshua Estrada	As someone who is fairly new to the great state of North Carolina, I was frankly very excited to have the opportunity of moving to a swing state. This present redistricting effort by the legislature is clearly politically-motivated and not done out of the best interest of North Carolina or her citizens. Every action the legislature takes in order to advance the interest of Republican organizations residing outside of North Carolina's boundries is, in essence, providing aid to an out-of-state enemy. In North Carolina, while treason against the state is defined, it's punishment is often left up to the federal standard, which ranges from imprisonment for no less than 5 years with a fine of $10,000 to capital punishment. With these facts in mind, it is easy to surmise that, should any member of the legislature or the legislature as a whole commit an act constituting state treason, Governor Stein would be well within his rights to mobilize the national guard and send them to detain the lawbreakers. For the sake of North Carolina and its future, I respectfully ask that any member of the old guard of conservatives abstain from any vote on this matter and simply wait for the hardliners who represent out-of-state radicals to make their own bed.
10/18/25 5:01 PM	Richard Superfine	Redistricing will severely damage democracy and fair representation. I strongly oppose gerrymandering and favor fair apportionment of districts that is non partisan and maximizes the power of all voters.
10/18/25 5:02 PM	Mary Weber	I'm strongly opposed to this mid-decade redistricting which is a thinly disguised partisan effort to gain another Republican seat. Voters should choose their representatives, not the other way around. If you were confident in your policies, you would need to cheat to stay in power
10/18/25 5:04 PM	Ms. Rose Lane	Gerrymandering fundamentally undermines the principles of democracy. Please do not allow further radical gerrymandering in NC. In fact, please redraw the districts to support fair elections where the people have a choice. The most patriotic thing you can do is to strengthen our American democracy by rejecting partisan gerrymandering. Thank you.
10/18/25 5:04 PM	John Dean	I am against redistricting and gerrymandering.
10/18/25 5:06 PM	Democracy extinguished Anne Harper	Latest politics feels like playing monopoly with a sociopathic narcissist! Making up rules as you go, squandering the "monopoly money", redrawing the district lines to suit the already predominant party in NC. Redrawing maps is fishy and not a good look for NC.
10/18/25 5:07 PM	BE FAIR!!! Allison Hardin	Don‚Äôt do something that‚Äôs so obviously unpopular and unfair. North Carolina should not jump into this partisan fray. We need to be better than that. Leave our Congressional map alone. There is an appropriate time to do this and it is not right now. Listen to the people of North Carolina who you serve. Thank you.
10/18/25 5:07 PM	Adreonna Bennett	This redistricting plan is terrible. Why lump almost all of Eastern NC into one district? It isn‚Äôt fair to the people that live there when the needs across counties are VASTLY different. District 1 was already too big and if anything that district should be cut in half not added to.

10/18/25 5:07 PM Karen Hunnings		The redistricting map proposed by the GOP is anti-American. EVERY American should have someone who they elect to represent their district, but the way it is drawn up, some will lose their seats (all DEMOCRATS, of course). I have never, ever, in the history of this country, seen a more partisan effort to cheat and control elections such as this blatant attempt. You need to listen to US, the PEOPLE. You are SUPPOSED to be working for us!!!
10/18/25 5:10 PM Dr Kristen Greeson	League of Women Voters	Redistricting NC further is wrong on so many levels. It silences the voices of many of your constituents, divides communities and reduces politician‚Äôs accountability to their districts. It diminishes voter turnout by constantly changing the communities understanding of where to even vote and wastes taxpayers‚Äô dollars. The overall effect is weakening democracy. When the General Assembly cannot even get a budget passed or fix the disaster of underfunding Medicaid in N.C., why is the GA wasting time and money trying to further gerrymander N.C.? Only reason I can think of is that the Republicans are such cowards that they are afraid of actually having to go thru a fair election. The are too afraid to listen to their constituents and be held accountable. What a bunch of selfish individuals!!!!
10/18/25 5:10 PM Dr. Autum Kirgan		I dissent this move. We do not need new gerrymandered maps. We need a State Budget! You work for the people of this state, not the president.
10/18/25 5:16 PM Clara Wolfe		My name is Clara Wolfe, and I‚Äôm a high school senior from Chapel Hill. I‚Äôm writing to strongly oppose the proposed redistricting maps currently being discussed in the General Assembly. These maps threaten to undermine fair representation in North Carolina by allowing politicians to choose their voters instead of letting voters choose their representatives. That‚Äôs not democracy ‚Äî it‚Äôs manipulation of political power for partisan gain. The proposed redistricting would: - Dilute the voices of communities of color and young voters - Reduce competition in elections, leading to less accountability, and - Deepen division and distrust in our government. North Carolina has a long history of legal challenges over unfair maps. We deserve a transparent, nonpartisan process that draws districts based on communities and fairness, not political advantage. I urge you to reject any gerrymandered maps and support an independent redistricting commission to ensure that every North Carolinian‚Äôs vote counts equally. Our state‚Äôs democracy and reputation depend on it. Thank you for your time and for standing up for fair representation. Sincerely, Clara Wolfe Chapel Hill, 27514 Email: cjwolfe512@gmail.com
10/18/25 5:16 PM John Long	None	I am completely opposed to the gerrymandering of the NC congressional districts by the Republicans. The are denying NC citizens their right to choose their representatives in a fair and honest manner. They are cheating to increase their power. It silences voters by drawing districts to ensure predetermined outcomes, thereby reducing competition and accountability. It weakens democracy. But the Republicans do not support democracy. They only support their own power-grabs. I stand firmly opposed to these manipulative, unfair, and dishonest tactics.
10/18/25 5:17 PM Jennifer Ellerbe-Rodgers		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.

10/18/25 5:18 PM	Mrs. Catherine Carter	All categories	I oppose the projected redistricting of North Carolina in an effort to hand more votes to Republicans in more races and retrieve a Republican supermajority in the NC Legislature. I know that in their day, Democrats also resorted to gerrymandering, and I opposed and oppose that as well: this is not okay no matter who is doing it. There are many reasons why I oppose it, from the basic unfairness, to the throat-punches that gerrymandering delivers to North Carolinians' trust in our legislature (right now, I have basically zero), to the fact that IF LEGISLATURE REPUBLICANS WERE DOING THE WILL OF THE PEOPLE, YOU WOULDN'T HAVE TO GERRYMANDER. Insisting on gerrymandering anyway is tantamount to an admission not only that you know very well you're not doing the will of the people, but that you have no intention of EVER doing the will of the people. And what is the will of the people? I could give many examples and statistics as to how many North Carolinians oppose abortion bans (which the legislature keeps trying to ram through anyway), support the Medicaid expansion (now gone the way of the dodo), support aid for victims of natural disasters (umm...Helene? far too many are still waiting for aid out here in WNC), support raising teacher pay and public school--not charter school--funding (I gather that one must sound just ludicrous to you all, given the eff-all that you've done about it), and so on. But I'll stick with just one set of stats, the set that's most germane to this comment: 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. So if any of you still have any intention of actually doing the will of the people? DON'T FOLLOW THROUGH ON THIS MIDTERM REDISTRICTING GERRYMANDER. Just don't. Thanks for considering my input, if in fact you do consider it. However, I was there for the last round of redistricting; I stood up in a public hearing, along with a whole lot of other North Carolinians, to oppose it; and the men listening rolled their eyes as if our perfectly valid objections to having our votes undermined were the most ridiculous thing they'd ever heard. I'm not kidding; they rolled their eyes, and redistricting happened anyway. So if that's the outcome this time too, which seems all too likely, then thanks...for absolutely nothing. For selling the will of your constituents down the river and being rude about it while you do it. Because that's exactly what you're doing if you go through with this excrement of a male cow. And if you think we don't know it, you can think again.
10/18/25 5:19 PM	Jill Simons		Districts should be drawn by an independent commission. They should be drawn by population, not along party lines. They are not due for review until the end of the decade. Do it then and do it right!
10/18/25 5:19 PM	Marion Killoran		If you are interested in representing your constituents, you will allow free and fair elections. All votes should count. If you think you need to gerrymander your way to your preferred result, you show that you can,Âôt win on the merits of your position or reputation. Where is your conscience? Did you swear to serve the people of NC, or take an oath of obedience? Let,Äôs preserve the right to vote,Ä¶and have each vote count!
10/18/25 5:20 PM	Ariel Adams		I find it utterly disheartening and disgusting that the NC legislature feels the need to take our voices away. This map is not reflective of our great state and the GOP blatant power grab isn't going unnoticed.
10/18/25 5:21 PM	Leigh Josey		I oppose redistributing the state of NC for the purpose of generating another republican seat. The voting districts are supposed to enable fair representation of the residents. Please respect the vote and voice of your constituents, and do so fairly.
10/18/25 5:22 PM	ExVicePresident(retired) Malcolm Burchett		I am opposed to redistricting. It,Äôs gerrymandering and it needs to stop. The North Carolina legislature needs to represent all North Carolinians.
10/18/25 5:23 PM	Dr Andrea Pascarella		As an unaffiliated voter in North Carolina, I am deeply concerned about the proposed redistricting plan that would replace a Democratic-leaning district with one favoring Republicans. While I understand that district lines must occasionally be redrawn, this proposal appears to prioritize partisan advantage rather than fair and effective representation for the people of North Carolina. Redistricting should reflect our shared democratic principles ,Äî ensuring that every voter,Äôs voice carries equal weight and that communities are represented based on geography, shared interests, and population balance, not political affiliation. When district maps are drawn to favor one party, it erodes public trust, discourages civic participation, and weakens the integrity of our elections. I urge the redistricting committee to adopt a map that upholds fairness, transparency, and competitiveness ,Äî one that allows voters to choose their representatives, not the other way around. North Carolina deserves a process that strengthens democracy, not one that manipulates it for short-term partisan gain.
10/18/25 5:24 PM	Mrs. Lakesha Roberts		I do not support the gerrymandering for North Carolina.
10/18/25 5:26 PM	Ms. Barbara Ellertson		We the people elect representatives to act in our interests. The proposed redistricting plans would distort the electoral process in ways contrary to our constitution and to the norms of our political system; it would only serve the Republican leaders, not the people of this state. Please do not let a would-be demagogue in Washington, D.C. dictate the actions of the North Carolina Legislature.
10/18/25 5:26 PM	Jane Wiley		I strongly believe that North Carolina,Äôs districts should be drawn by an independent, non-partisan body. Gerrymandering in either direction is wrong and has no place in our Democracy. The current push by some Republican lawmakers to cheat the system is unacceptable.

10/18/25 5:26 PM	Dana Freeman		In Northern Ireland, as in the rest of the United Kingdom, gerrymandering is illegal. Independent, non-partisan Boundary Commissions are responsible for redrawing electoral maps to prevent political manipulation, a significant change from the historic, discriminatory practices that took place prior to the 1970s. The legal protections against gerrymandering Independent bodies: The Boundary Commission for Northern Ireland is an independent body that draws constituency boundaries based on legal rules, not political outcomes. For example, when Sinn F√©in claimed gerrymandering over proposed boundary changes in 2018, the commission rejected the accusation, stating that the political result of an election "is none of our business". Abolition of discriminatory practices: Significant legal and voting reforms have been implemented in Northern Ireland to dismantle the historical methods of gerrymandering. These include: Ending unequal voting rights: The system of "plural voting," which allowed property and business owners to vote multiple times, was abolished. Proportional representation: While Westminster elections use a First Past the Post system, many local elections in Northern Ireland use a form of proportional representation, which is much harder to gerrymander. Legal challenges: The Electoral Commission, which oversees UK elections, and the courts provide avenues for challenging perceived boundary manipulation. Historical context of gerrymandering in Northern Ireland The user's question is particularly relevant because of Northern Ireland's history of using electoral manipulation to reinforce sectarian control. Unionist control: From 1922 to 1972, the Unionist government of Northern Ireland engaged in systematic gerrymandering, particularly at the local government level, to maintain Protestant dominance over Catholic and nationalist communities. Discrimination in Derry: One of the most infamous examples occurred in the city of Derry (Londonderry), which had a Catholic majority but was gerrymandered to remain under Unionist control for 50 years. Civil Rights Movement: These practices, combined with discrimination in housing and employment, were a major catalyst for the Northern Ireland Civil Rights Movement in the 1960s. Activists modeled their protests on the U.S. civil rights movement, demanding an end to systemic discrimination. Peace and reform: Acknowledgment of this historic discrimination by political leaders, including Nobel Peace Prize winner David Trimble
10/18/25 5:27 PM	Abigail Konyak		I do not want this map. This map does not accurately represent me or the people of North Carolina. We should not further disenfranchise hundreds of thousands of voters for the sake of one person and one party.
10/18/25 5:29 PM	Beth Kinstler		I oppose any attempt to redistrict if it is an attempt to gerrymander. Perhaps a better way to do this would be gridding NC by setting up an XY axis in the middle of the state and moving east and west from there based on population.
10/18/25 5:32 PM	Sara Emley		I oppose attempts to redraw North Carolina‚Äôs congressional district maps before the 2026 midterms. This redistricting effort is blatantly partisan and is intended to rob North Carolinians of their rights to representation.
10/18/25 5:32 PM	John Blondin		Stop gerrymandering!!!
10/18/25 5:33 PM	Mrs Diane Tilden	Citizen of North Carolina	Absolutely no way districts should be adjusted because a certain person is afraid he can‚Äôt hold his majority without doing so! Leave it where it is and let the chips fall as they may.
10/18/25 5:34 PM	Ms Julie Frey		CITIZENS MUST CHOOSE ELECTED OFFICIALS! NOT THE REVERSE! DISTRICTS MUST BE DECIDED BY INDEPENDENT, NON-PARTISAN COMMITTEES NOT GERRYMANDERED BY FASCIST REPUBLICANS. DO NOT SUCK UP TO p$tin-puppet t$ump TO DESTRPOY OUR DEMOCRACY!!
10/18/25 5:35 PM	Annie Taft		Our state already is too gerrymandered so that republicans get more representation in our general assembly relative to the percentage of republicans in this state. There are more registered democrats. We do NOT want the GA republicans to further gerrymander in order to cheat and get an additional seat. This cheating has to stop.
10/18/25 5:35 PM	Dr Geetanjali Soni		The proposed plan disenfranchises voters. Politicians should not decide whose voice should be heard.
10/18/25 5:36 PM	No Redistrcting Darrin Johnson		Iam against redistricting
10/18/25 5:36 PM	Natalie Grant		As a registered voter in NC, I oppose any redistricting by the NCGA. Elections should be fair and districts should not be manipulated to give one party favor over another.
10/18/25 5:38 PM	Joey Stanley		Sending this cause it is so unfair. I oppose attempts to redraw North Carolina‚Äôs congressional district maps before the 2026 midterms. This redistricting effort is blatantly partisan and is intended to rob North Carolinians of their rights to representation.
10/18/25 5:38 PM	Manoj Chari		Please stop gerrymandering. You are cowards trying to subvert democracy because you are afraid to lose.
10/18/25 5:40 PM	Ms Karen Langley		Republican gerrymandering is just another was to tip the scales when they know they can't win in a fair election. It must NOT be allowed! Have an independent panel draw up lines for fairness.
10/18/25 5:42 PM	Chelsea Mellon		Independent voter- would like to see a budget passed, teachers paid and healthcare costs addressed (our premiums will go up too).
10/18/25 5:43 PM	Ms Ellen Saunders	Retired	Redistricting at this time seems very unfair to the population diversity we have in NC. We should aim to be balanced and inclusive and strive to truly be fair to both political parties. Now is not the time to redistrict. The process deserves a lot of thought and research and should have all parties involved . Each time we redistrict our goal ought to be fairness and balance. Now is not the time to redistrict in NC.

10/18/25 5:45 PM	Cherylin Matos		Stop the redistricting of our maps!
10/18/25 5:46 PM	Melissa McNeilly		As a concerned resident of North Carolina, I ask that our state,Äôs redistricting process be guided by fairness, transparency, and respect for every voter. District maps should be drawn to reflect real communities ,Âî not Republican political interests ,Âî and must comply with the Voting Rights Act to ensure that no racial, ethnic, or geographic group has its voice diminished. When maps are drawn fairly, voters choose their representatives; when they are not, representatives choose their voters. Please protect the integrity of our elections by adopting a process that values equal representation for all North Carolinians.
10/18/25 5:48 PM	Judith Bonner	UU	This proposal is unnecessary, rushed and costly. It will dilute the political power of Black North Carolinians. It is a poorly timed anti-democratic distraction. Concentrate on health and education and get reelected because you are doing positive things for NC
10/18/25 5:49 PM	Dr Nichole Arkfeld		This blatant gerrymandering is undermining the entire premise of democracy- stop cheating the people you supposedly represent.
10/18/25 5:52 PM	Alex Jackson		Please don,Äôt do this. It WILL backfire. These majorities are razor thin.
10/18/25 5:53 PM	Ms. Mary Cox		,Â¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. I am opposed to mid-cycle redistricting! Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. Obviously partisan redistricting destroys confidence in the fairness of elections, and many voters stop believing their vote matters. Democracy depends on fair elections, and if any one party draws the district lines, we risk our ability to make choices as "we, the people."
10/18/25 5:54 PM	Lara McKinnon		Creating a political monopoly does not serve our country or our state. We have a government shut down and our GOP controlled NCGA can,Äôt even pass a budget! Extreme partisanship leads to poor governance because collaboration does raise campaign funds. And trying to out MAGA DT takes a lot of money. I mean you can,Äôt even negotiate among yourselves to pass a budget for our state, why is bowing down to Trump for one more seat the priority?
10/18/25 5:55 PM	Nell Ingalls		Redistricting other than that mandated by the Constitution following a decennial census to count ALL PERSONS is a blatant political power grab. It is wrong, and you all know it. Voters overwhelmingly oppose it.
10/18/25 5:55 PM	Listen to your real bosse Annm Wells		Trump is not your boss. The citizens of North Carina in the district you represent are your bosses, and we don't want redistricting. Especially not partisan redistricting, which is what y'all are absolutely trying to do. And especially not when your bosses need you to get a budget passed. You have more important things to do than draw new lines on maps. These silly partisan stunts are why I changed my party affiliation from Republican to unaffiliated and why I have been voting Democrat more and more lately. Listen to your bosses.
10/18/25 5:55 PM	Samantha D'Andria		This redistricting proposal is a spit in the face to North Carolinians and an incredibly transparent, desperate powergrab by a party scrambling to hold on to the power they have because public opinion is turning against them. You work for us, your constituents, not the president. It's beyond the pale that you would disregard the rights of the people in your state to appease a wannabe dictator. Shame on you.
10/18/25 5:56 PM	Danielle Mohlhenrich-Thompson		I do not agree with this. The fact that this is being proposed in rages me. The maps should not change, it,Äôs unjust. The timing of this seems wrong and unethical. Shame on you.
10/18/25 5:56 PM	Lisa Lancaster		Our state is a 50/50 state. You already redrew the maps to gain a 10/4 advantage from a 7/7 correct representation. It is wrong to redraw the maps again mid census to try and take another seat.
10/18/25 5:57 PM	On Treason Joshua Estrada		As someone who is fairly new to the great state of North Carolina, I was frankly very excited to have the opportunity of moving to a swing state. This present redistricting effort by the legislature is clearly politically-motivated and not done out of the best interest of North Carolina or her citizens. Every action the legislature takes in order to advance the interest of Republican organizations residing outside of North Carolina's boundries is, in essence, providing aid to an out-of-state enemy. In North Carolina, while treason against the state is defined, it's punishment is often left up to the federal standard, which ranges from imprisonment for no less than 5 years with a fine of $10,000 to capital punishment. With these facts in mind, it is easy to surmise that, should any member of the legislature or the legislature as a whole commit an act constituting state treason, Governor Stein would be well within his rights to mobilize the national guard and send them to detain the lawbreakers. For the sake of North Carolina and its future, I respectfully ask that any member of the old guard of conservatives abstain from any vote on this matter and simply wait for the hardliners who represent out-of-state radicals to make their own bed.

10/18/25 5:58 PM	Katherine Regan		I was ashamed to hear that the North Carolina General Assembly is caving to the president,Äôs demand for extra seats in the US House of Representatives. NC is famously gerrymandered, but I thought that our status as a purple state with a bipartisan government reflected our friendly, independent spirit. Why would the NCGA even entertain the idea of suppressing the voices of North Carolinians like me? Because the president thinks Republicans won,Äôt be able to win in the midterms without nullifying the votes of certain Americans. He wants as many Republican supermajorities as possible so he can continue to concentrate power in the Executive Branch without challenge from Congress. We all know it. Republicans running for reelection are afraid that they will be bullied out of the government like one of my congressmen, Sen Thom Tillis. This isn,Äôt who we are. The next time Democrats have a majority, assuming redistricting won,Äôt make it impossible for them to do so again, I am certain that they will use this new mid-decade redistricting power to suppress conservative voices. I don,Äôt want that to happen either. I urge Republicans in Raleigh to decline the president,Äôs demands for mid-decade redistricting. This is undemocratic and sets a dangerous precedent for all North Carolinians, regardless of their preferred party.
10/18/25 5:58 PM	Ms Lovay WallaceSingleton		I don,Äôt think that we need more redistricting in this state more to the fact we need less. We need an independent entity to review the districts that are currently in place. Trying to ensure that one party stays in power will only lead to more corruption. Be careful what you do and make sure that it is in the search for fairness and justice not political power.
10/18/25 6:00 PM	Adrienne Hollifield		To redistrict AGAIN, specifically to gerrymander the election maps to benefit one party over another, is a heinous act. I could not believe I was hearing those words come out of Phil Berger's mouth! Representation of the ALL the people of this state is a sacred trust of the legislature. Without that representation, this state will have no high ideals to back it. Do you really want to be the ones who turn us back into the hatreds we all thought were long gone? Please, listen to your consciences, and DO WHAT IS RIGHT! Do not fix the elections to be a fraud in this state.
10/18/25 6:06 PM	Kailyn McGavin		I am opposed to the new map. This is a blatant power grab, and is completely unnecessary. The maps have been redrawn too much recently as is.
10/18/25 6:07 PM	Ellen Stark Ceely		I'm deeply disappointed that the state legislature is so blatantly trying to redistrict for no other reason than to win President Donald Trump more seats in Congress. This is shameless gerrymandering and I am appalled by these actions. I am against this redistricting and gerrymandering. Please focus on passing a state budget and stop playing games. This has made me lose all faith in my state reps. I am beyond disappointed. I have not yet voted in our state election and I will be paying close attention to how this is decided.
10/18/25 6:07 PM	John Manna	Retired Finance Executive	NC lawmakers showing who they actually represent which is not NC citizens but DT and his billionaire buddies. Eventually they will reap what they sow.
10/18/25 6:08 PM	Naomi Howie		The proposed redistricting map for North Carolina's district mapping is a blatant and unconscionable act of gerrymandering. This map does not reflect the will of the people; it serves only the narrow, partisan interests of those who drew it. The map utilizes classic gerrymandering techniques, such as 'cracking' and 'packing.' This process deliberately draws district lines to predetermine election outcomes, effectively eliminating competitive races and silencing the voices of thousands of voters across the state. The result is a political system where politicians choose their voters, rather than voters choosing their politicians. You all have forgotten who you work for, and it shows more by the day. If this is the only way for you to ,Äúwin,Äù then you don,Äôt deserve the job. Stop with this partisan, anti-democracy madness.
10/18/25 6:08 PM	Ms. Jessie Cockrell		Hello, my name is Jessie. I,Äôm 27, I went to Wake Christian Academy in Raleigh/Garner for high school and East Carolina University in Greenville for college. I worked in a Covid unit out of college for about a year and an half and then as a teacher for four years, now I work in the tech/marketing space. I believe voters should choose their representatives, not the other way around. Gerrymandering, where politicians draw district lines to benefit their own party, undermines fair representation and distorts the will of voters. Unfair maps contribute to political polarization and a lack of accountability from our elected officials. It is shameful that many of my state,Äôs representatives work for Donald Trump instead of their own constituents. You are supposed to be for the people, no matter how much money or power may tempt you. I implore you to do what is right. This is a democracy, act like it. Do not silence your constituents for personal or political gain. The country,Äôs current administration will not be remembered fondly in the history books years from now. Remember why it is you do what you do. Rise above the aspiring dictator asking that of you which would sell your political soul and strip the voices of so many. Be someone worthy of respect, please. Be worthy of the position you hold, please. Thank you for listening.

10/18/25 6:09 PM	Bryan Allen		Just another attempt where the Republican Party is reducing the rights of the people to vote for the candidate of their choice. Leave the maps alone and run on your ethics and morals and see who wins. Don't bow down to Trump's request to redistrict the maps.
10/18/25 6:12 PM	Karen Vaughn		This is an atrocity and completely unconstitutional. If the only way you can win is by cheating, are you winning?
10/18/25 6:13 PM	Mrs Jacqueline Drake		Please do not redistrict our state again. In a democracy the government should reflect the people and their rights. It,Äôs absolutely shameful your continued efforts to take away our voice. I urge you not to do this!
10/18/25 6:13 PM	John Luther		Gerrymandering at its worst. GOP comes off looking weak. You apparently have to stack the deck in order to win. That is not proper representation of the People
10/18/25 6:15 PM	Ms Marilyn K Coats	N/A	Attempting to make certain people,Äôs vote not count by redrawing district lines is by any measure ANTI-DEMOCRACY. THE USA WAS CREATED TO BE A DEMOCRACY WHERE EVERYONE,ÄôS VOTE IS OF EQUAL VALUE. THE MAJORITY VIEW DETER- MINES THE COUNTRY,ÄôS POLICIES. IF THAT SOUNDS UNDESIRABLE TO YOU, GO FIND YOUR FAVORITE ALTERNATIVE METHOD OF GOVERNMENT TO LIVE UNDER, BE HAPPY THERE AND STOP SCREWING UP THE MOST ENLIGHTENED METHOD OF SELF GOVERNANCE IN EXISTENCE, AMERICA.
10/18/25 6:18 PM	Stephanie Garrett		The new redistricting map is a blatant attempt to silent voters in North Carolina. I hope you are listening to your constituents, myself included, who are calling you out for using gerrymandering to take away their voice. If this is what the GOP has to offer, it is no wonder that you must resort to cheating to get your way. What a shameful way to run a government.
10/18/25 6:19 PM	Mr Bobby Padgett		The redistricting maps proposed by Phil Berger are complete bullshit. Voters should chose their reps not the other way around. The GOP was for nonpartisan redistricting until you gained power. Instead, you have used computer data to slice districts down to the neighborhood level. Bunch of hacks and hypocrites
10/18/25 6:19 PM	Brian Greenawalt		Please do not redistrict. First of all, wait until the next census. Secondly, I believe this will come back to haunt the Republican Party. We all know things will change and the Republicans will be shoved out of power. The state is close to 50% and this is just wrong.
10/18/25 6:21 PM	Ms. Joan Baker		This is wrong. We have more Independents and Democrats registered than Republicans by 70%. Only 30% of NC voters are registered Republican. Do the right thing. Shame!
10/18/25 6:23 PM	kimberly oberhammer		you should be ashamed of yourselves, on so many levels.
10/18/25 6:24 PM	David Harper		This is a terrible idea. We voters should be picking our representatives in Congress, not the other way around. North Carolina is a purple state, but you wouldn,Äôt know it to look at our representatives, and this proposal will only make it less proportional. Try winning by having better ideas. This is just lazy.
10/18/25 6:24 PM	Ms. Elizabeth Arnold		I would like to be on record for disagreeing with efforts to re-district North Carolina in response to Donald Trump's request to gain another House seat. This further disenfranchises voters and will most certainly result in backlash toward the Republican Party. As a registered unaffiliated voter I don't base voting decisions purely on party, but vote for those candidates that reflect my values and concerns. If this measure is passed I will take into account that the North Carolina Republican Party is further eroding voter rights and the will of the people during the next election.
10/18/25 6:24 PM	Logan Casper		This is an outrageous usurpation of the rights of voters to decide who should lead this state or their voting district. This change represents everything that is wrong with you and this country. You should be ashamed of yourselves for the destruction of what makes our country good.
10/18/25 6:25 PM	Dr Terri DeWees		If redirecting needs to be completed then in must be done in a fair, nonpartisan way. This map is NOT it. You cannot cheat to remain in power.
10/18/25 6:27 PM	Vote No to redistricting Adam Stephenson		Please Vote NO on redistricting plan. Our state should not redraw districts until a new census is held. Republicans must not cheat their way into power in 2026. Let the people decide. Stand up for democracy. Just because Trump won our state in 2024 does not mean republicans get an unfair advantage moving forward. Do what is right. Protect the voices of millions of NC voters. Where is the state budget? That should be your top priority right now.
10/18/25 6:27 PM	West Caudle		This make a mockery out of North Carolina and the United States. That our State Government is bending the knee to a President is telling of how far from the separation of powers has fallen.
10/18/25 6:27 PM	Cameron Chambers		Yee
10/18/25 6:32 PM	Mary Snyder		Redistricting political maps is a form of gerrymandering . Historically it is a form of voter suppression and discrimination, something North Carolina is used to and sadly cannot say it has proudly grown from. We count on our state legislature to protect us from redrawing/redistricting lines to manipulate votes for one party, the republican. Cheating is something that we teach children is wrong, so why be an adult who cheats just to try and win. That's disgusting. Disappointing. What would your mother say. Did you attend college, become a politician and take an oath not to be a cheater just to be an actual cheater. Also, how many religious reps assist and fund you? What does the Bible say about cheating?
10/18/25 6:33 PM	Ms. Samantha Harris		I am strongly against redistributing for the purpose of bipartisan political gains and believe redistricting should only take place after a census. Anything else is gerrymandering. This should be common sense.

10/18/25 6:34 PM	Constituent Michael Cruthirds		NO MORE GERRYMANDERING!!! Stop redrawing these maps, and let the voters have a voice! Your redrawing the maps is rigging future elections out of fear of losing. STOP THIS!
10/18/25 6:38 PM	Nicole Serwinowski		As a constituent, I urge your NOT to redistrict. Your responsibility is to the people, not the president and this redistricting is in obvious conflict with your duties to fairly represent the people.
10/18/25 6:40 PM	Kyla Quinn		I am against the redistrict Please leave it as it is
10/18/25 6:42 PM	Laura M		NORTH CAROLINA DOES NOT WANT THIS!!!!! This is cheating in plain sight. Absolutely disgusting that you are bending the knee to a pedophile felon.
10/18/25 6:43 PM	Kathryn Thiel		We in North Carolina deserve fair representation. Please do not redistrict our state in order to give one party a stronger advantage over another. This is a priority issue.
10/18/25 6:43 PM	Ms Kathleen Harris-Valente	Self	84% of North Carolina does not support gerrymandering. Pretty sure if the Republicans go through with his it will backfire. Today,Äôs protests in 27 NC locations across the state should confirm where we stand. Let an impartial third party draw the maps. Keep whatever integrity you have.
10/18/25 6:47 PM	Ms Rebecca Montaldo		I am against the addition gerrymandering in NC. It seems the Republicans want to have a one party government- just like China. Stop the gerrymandering- stop the cheating. Are you a cheater or do you uphold democracy?
10/18/25 6:50 PM	Elizabeth Upchurch		The maps should provide districts that fairly represent the general population. Gerrymandering in NC is one of the worst in the nation. If you are.going to redraw maps by any measure Republicans should lose some seats not gain them.
10/18/25 6:51 PM	Dr. Mary Kelly	Self	It is wrong when politicians pick their voters instead of the ither way around. I oppose this NC redistricting. No taxation w/ out were presentation.
10/18/25 6:51 PM	Dr. Christine Hunt	Duke University Medical Center	Redistricting North Carolina should not be pursued as it destroys our democracy. The NC legislature should address the budget and needs of our state rather than gerrymander districts. The large majority of NC citizens are eager for the budget to be finalized and do NOT WANT gerrymandered districts.
10/18/25 6:54 PM	Dr Vibrina Coronado		As an enrolled member of the Lumbee Tribe of North Carolina and a Native North Carolinian, I am concerned that the planned redistricting separating the traditional tribal land base and the area our tribe and other NC tribes serve into separate districts. The Lumbee traditional land base is separated into three different districts. Other NC tribes have similar configurations. What due diligence did the committee do contact and speak with tribal representatives and include this input in their decision making process. From all appearances it looks as if the committee is purposely attempting to dilute the Native vote by dividing Native voters.
10/18/25 6:55 PM	Ms Paula Threatt		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/18/25 6:55 PM	Ms Kathleen Huber		Please do not disenfranchise the voters of NC. I ask that you don,Äôt follow the redistricting
10/18/25 6:56 PM	Vr Long		No gerrymandering! Every vote should count.
10/18/25 6:57 PM	Susan Benitez		NC deserves fair representation. please do not vote to redistrict our state!
10/18/25 7:01 PM	Bari Hart		We must support fairness and equality, the goals this country has long supported
10/18/25 7:02 PM	Christopher Russell		I,Äôm writing as a concerned North Carolina voter to urge you not to change our district maps in a way that gives one political party an unfair advantage. Every North Carolinian deserves to have their vote count equally, no matter where they live or who they vote for. Partisan gerrymandering weakens public trust in our democracy and silences the voices of thousands of voters. I believe that fair, nonpartisan maps are essential for true representation and accountability in government. Please stand up for fair maps and protect the integrity of our elections. Our democracy works best when voters choose their representatives,Äînot the other way around. Thank you for your time and service to our state.
10/18/25 7:03 PM	Do your job Audrey Ryan		Stop pandering to the presidents whims and worry about what is best for the people of NC. Vote NO on this map. Then PASS A BUDGET
10/18/25 7:03 PM	Redistricting Christopher Hickok	The people	Don't cheat!!!!!!!!!!!! Don't discriminate!!!!!!!! Are you really this evil?
10/18/25 7:06 PM	Jen Collins		Gerrymandering violates core principles of fairness, accountability, and limited government.
10/18/25 7:06 PM	Dorrian Wilmoth		The MAGA cult needs to work for US! We the taxpayers pay their salaries,Ä¶..and there is nowhere near a legitimate representation in the legislature that reflects the beliefs of North Carolinians,Ä¶.we are a 50/50 state at worse,Ä¶..and most likely a 55/45 state with democrats leading,Ä¶,Ä¶no way in hell that we should have 12 Trump asskissers in office,Ä¶..

10/18/25 7:07 PM	Mae Lee		GERRYMANDERING HAS BECOME YOUR ONLY WAY TO STAY IN CONTROL OF OUR STATE. YOU ARE NOT ALLOWING TRUE REPRESENTATION OF THE CITIZENS OF NC. THIS IS NOT A DEMOCRACY - IT IS THE KILLING OFF OF OUR RIGHTS. STATE WIDE VOTING HAS SHOWN YOU THAT WE WANT FAIRNESS AND PUT DEMOCRATS IN KEY POSITIONS TO STOP THE NC STATE LEGISLATURE FROM TAKING US DOWN TO THIS ROAD TOWARD FASCISM. NC USED TO BE A PLACE WHERE WE SMILED AND SAID HELLO TO OUR NEIGHBORS AND OFFERED EACH OTHER A HELPING HAND- WE CAN DISAGREE AND LIVE THE TENETS OF DEMOCRACY. YOU KNOW WHAT IS RIGHT AND YOU KNOW THIS IS JUST ANOTHER WAY TO DESTROY THE VESTIGES OF OUR DEMOCRACY
10/18/25 7:08 PM	Heather Propsom		Diluting the votes of black and brown voters is un-American. When you get a supermajority by cheating you are not a majority. Despicable.
10/18/25 7:08 PM	Sherri van der Wege		Any redistricting efforts should make the state of NC represent the people, which is essentially equally split between the two major parties, instead of 10-4 in favor of Republicans that the current map has. Redistricting to create a less representative set of districts to fulfill Trump's demands is WRONG and disenfranchises North Carolinians!
10/18/25 7:09 PM	Victoria Reynolds		Dear General Assembly Members, The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. The ongoing effort to undo the history of discrimination in this state needs to be ongoing, vigilant, principled and dictated by the rule of law. This proposal will dilute the political power of Black North Carolinians by dividing the northeastern Black Belt of NC into two districts. I am firmly against this action. We are still a state governed by the rule of law. Please follow the law of the Voting Rights Act. We all voted in good faith for North Carolina to be a state that participates and has an impact in the democratic process of this country. Please consider your responsibilities to North Carolinians of all backgrounds. Sincerely, Victoria Reynolds
10/18/25 7:09 PM	Katherine Horvath		I am very concerned about the proposed redistricting map. This is a blatant attempt to enforce minority rule over the people by reducing the impact of an individual‚Äôs vote.
10/18/25 7:11 PM	Lillian Burleyguion		Stop trying to steal votes
10/18/25 7:11 PM	Rebekah Wilson		This new sectioning does not reflect the will of the people but instead is a shameless act of gerrymandering to make sure only one party will always come out on top. It isn‚Äôt reflective of the people but instead the corruption that is leeching into the system and erasing the communities. If this is the route you choose to go down, history will remember the names of every person who voted for this that furthered the fascist agenda destroying our nation currently. This is despicable, and I truly hope this redistributing is thrown out to make one that actually makes sense.
10/18/25 7:14 PM	Abigail Konyak		I do not want this map. This map does not accurately represent me or the people of North Carolina. We should not further disenfranchise hundreds of thousands of voters for the sake of one person and one party.
10/18/25 7:14 PM	Ms Terri Garretson		Stop gerrymandering our voting districts. What‚Äôre you afraid of? A government elected by the people and civil discourse. We are all Americans and deserve better.
10/18/25 7:20 PM	Ms Jayse Sessi	Self - North Carolina resident	I am strongly against this mid-decade redistricting. Redistricting should only be done when a census has been completed, or when ordered by the court to correct illegal / discriminatory maps. This mid-decade redistricting takes away the voter‚Äôs right to elect their representative. I‚Äôm sick and tired of North Carolina gerrymandering of districts. When the state had fair maps, the districts were evenly split 7-7 between the parties. That‚Äôs how it should be. Where the voters freely choose their representatives. Cracking and packing the districts so that specific parties outnumber the other, needs to stop. This plan to redo the maps should not move forward. I am totally against this mid-decade redistricting plan.
10/18/25 7:20 PM	Felicia Winters		The new redistricting map is unconscionable. The fact that Republicans have to cheat to win is absolutely deplorable and a slap in the face to every single NC voter. You are sending a clear message...our voices don't matter if they don't echo your opinions. Serve the people...ALL of the people of North Carolina.
10/18/25 7:21 PM	Dr. Mary Curry	none	Speaker Burger: Your gerrymandering plan violates the spirit of fairness in which our forefathers created the United States of America. It essentially disenfranchises thousands of North Carolina voters. It is even Anti-Christian. Your gerrymandering "redistricting" plan violates the bedrock principle of majority rule withh consideration for the rights of the minority. It is yet another millionaire/billionaire plot. My Republican senior English government and economics teacher at all-white, segregated Parrish High School, Selma, Alabama, of the 1960s would be sickened at what her party has degenerated into. Given the already Republican-skewed districts, it is unconscionable that you have decided to carry your cheating even further. Sincerely, Mary Curry Haywood County

10/18/25 7:28 PM	Mrs. Emily McCoy		It is unbelievable that any party would redistrict the voting maps to suit their party. If redistricting is needed, then it should be done in a completely nonpartisan way. Do not do this in a way that completely disregards people of color. My hope for the US is to have more of these folks in areas of leadership.
10/18/25 7:28 PM	Ms Valerie Nieman		End partisan redistricting! Nonpartisan board to fairly divide up districts so people are represented, not suppressed.
10/18/25 7:30 PM	Charles Grant	Charles Grant	Citizens should decide redistricting, not politicians. This is used as a weapon by both parties. The fair way to handle this issue is a bipartisan committee of citizens reflecting the voting populace. Stop spewing things so you can win and let the people decide. If your governing and ideas were good enough you would be elected on merit not gerrymandering
10/18/25 7:33 PM	Brenda Porter		Traditionally, districts are drawn every 10 years following the census and this proposal is purely intended for an audience of one, not for the benefit of NC voters. My husband and I vigorously oppose this effort.
10/18/25 7:33 PM	Kay Wesson		we shouldn,Âôt have more gerrymandering and redistricting in North Carolina. Votes should be a simple majority. If they can,Âôt win fairly, they shouldn,Âôt have power.
10/18/25 7:34 PM	Fair districting only Debbie Daugherty		Districts are already skewed to give Republicans an advantage. If Republicans want votes, get them through good policies not cheating. The GA can,Âôt agree on a budget but are willing to work on redistricting. Shame on you. The only change needed to district maps is for fair and competitive districts.
10/18/25 7:35 PM	Jameel Brenneman		Don,Âôt do it.
10/18/25 7:35 PM	brittney Gelvin		Absolutely not! This is not necessary ! We need bipartisanship !
10/18/25 7:36 PM	Van Childress		Gerrymandering is wildly unethical and prevents the people from having representatives that ACTUALLY represent them.
10/18/25 7:36 PM	Ms Rebecca Garland		It is shameful that the GOP which already holds a majority in the General Assembly and in Congress have to bend the knee to a traitorous felon by rigging maps to ensure you get voted in again. Do the right things by the people of NC and you would never have to worry about an election outcome. But you would rather rig it and deny citizens of the State a free and fair election. It is purely self serving and shameful.
10/18/25 7:36 PM	Do NOT redraw the distric Sayer VanDyke	N/A	We do not want a redistricting that puts power into the hands of fascists and racists and political vultures. Get the fuck out of here.
10/18/25 7:37 PM	Mr Jorin Hood	Self	North Carolinians deserve FAIR legislative representation. Please do not bend to the request of the person in the white house.
10/18/25 7:39 PM	Linda Vanderbosch		I sent my other comments to soon and wanted to include these consequences of mid-cycle gerrymandering: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all. Please do what is in the best interest of all voters. So many rights and protections have been lost since January. So many rules and laws have been blatantly challenged and ignored without consequence. We can't keep chipping away at democracy. Thank you.
10/18/25 7:40 PM	John Robinson		I vehemently oppose redistricting maps. The gerrymandering that has occurred and apparently continues, is just another cowardly attempt to silence the majority of North Carolina voters. It,Äôs absolutely shameful that our politicians are abusing their power to support the un-American and sinful policies solely for the purpose of bowing down to the pressures in Washington.
10/18/25 7:40 PM	Mr David Baker		Registered independent. Do not Jerrymander North Carolina. By supporting tRump, you support a dictatorship. You are complicit in destroying our democracy by supporting redistricting to try and elect republicans to vote lock-step with tRump. Do not do this. My vote will matter.
10/18/25 7:42 PM	Mrs. Margaret Fretwell		Redistricting should only be done every ten years and never to give one political party an edge or take away the rights of others. Shame on the Republicans who think this is a good idea. Rest assured, you won,Âôt get my vote.
10/18/25 7:42 PM	Celest Christensen		We see that you are afraid of a fair fight, but what happens when no matter how you draw your lines we all turn against what you are doing? I am a spouse of a retired Veteran. I used to vote different parties based on how I viewed the candidates but since we moved to NC in 2014 I have not been able to do that because I won't support candidates who are ok cheating, and the republican party has lost all of my respect. This map? one more way you show you do not care about what we want as the people.
10/18/25 7:43 PM	Ms Lisa Gwyther		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/18/25 7:43 PM	Mr James Lee		The Republican majority will not be satisfied until their party uses there currently gerrymandered districts to cement their power. This is a dangerous game that will result in more extreme primary candidates and general election winners leading us back to the cruel policies of 100 years ago. Fifty percent of North Carolina voters vote Democratic and deserve to have their views heard in Raleigh and Washington.

10/18/25 7:43 PM	Concern citizen Carriedelle Fusco		I am horrified that this is even being considered. Please honor the constitution and our values as North Carolinians and use your time back in Raleigh to pass a budget . This is the job of our elected officials. The fact that we still don,Äôt have a budget passed is an excusable. Time should not be spent on redistricting until a budget is passed and all the other work that needs to be done is done. Signed a native North Carolinian who remembers the North Carolina State motto. Do you?
10/18/25 7:44 PM	Erin Hanehan		NC Congressional maps must be drawn in a way that protects fairness in our democracy. The newly redrawn maps are a clear response to President Trump's request for Republican led state governments to shift power away from voters and gerrymander their way into mid-term wins. Shame, shame, shame. Maps would not need to be withdrawn if this administration felt confident in their continued success at the ballot box.
10/18/25 7:44 PM	Mr Louis Hilger	Voter	Don't gerrymander my vote. Run on your policies not stacking the deck!
10/18/25 7:44 PM	Mrs Leigh Brown		The new map is great!!! Thank you for listening to the people!
10/18/25 7:45 PM	Chris Clemmons		I strongly oppose both the existing and the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal. The fact that you have clearly stated that this is your intent, in a state that has repeatedly elected Democratic governors while the House and Senate are still majority Republican, makes you the ones who hate America.
10/18/25 7:45 PM	Sarah McDavid		You need to stop gerrymandering! Every citizen deserves to be heard.
10/18/25 7:46 PM	Kristen Wise		This proposed redistricting map is a travesty. It aims to subvert the will of the majority of the voters of this state. It is a craven, dishonorable plan for Republicans to choose their voters rather than allow the voters to fairly choose their elected officials. Any one with even a shred of decency would readily and soundly reject this gerrymandering proposal. This is also coming from a non partisan standpoint as an independent - we should have NC not gerrymandered further republican or democratically - it should represent the people and their ideals!
10/18/25 7:47 PM	Lisa Barbee		To continue to redraw congressional lines to even further Gerrymander the great state of North Carolina is unethical and undemocratic. Stop serving the whims of a President and take care of the citizens of NC. Shame on you all.
10/18/25 7:49 PM	Toni Willis		This is ridiculous. If Republicans cannot gain seats without gerrymandering then they should revisit their policies not the districting.
10/18/25 7:50 PM	Joseph Schwabauer		This is not democracy. Gerrymandering will cost Republicans politically. Hands off!
10/18/25 7:51 PM	Ms Aileen Soper		No gerrymandering - GOP hands off our local, state, and federal elections in NC. If you are cheating then you don,Äôt deserve to respresent us. Fully fund our public schools. Give teachers raises. I am an unaffiliated voter but I will help vote you out if you support this sneak attack to steal our elections.
10/18/25 7:52 PM	Dr Ranee Chatterjee Montgomery	Duke university	Please do not redistrict and gerrymander further which would erode even more of semblance of a democratic election
10/18/25 7:53 PM	Jeff Janssen		SHAME, SHAME, SHAME! There is no need to redistrict unless you want to illegally misrepresent the voters of NC. We should be able to pick our representatives - not biased politicians picking their voters to gain an illegal and unethical advantage.
10/18/25 7:55 PM	Miranda Raines		This is completely wrong! Finish the budget and work on important matters. We don't want more Republicans in office. You are a plague on this state!
10/18/25 7:56 PM	No Gerrymandering! Renee Hedstrom		I am writing to voice my displeasure that you are given even a moment,Äôs consideration to redistricting. This is a serious misuse of the trust that we place in you. I,Äôve watched you misplace the trust for years - Leandro was one of the first cases and the abuse continues with school vouchers. But I digress,Ä¶ your priorities as representatives of the people of this state are: Passing state budget Fully funding Medicaid Increasing law enforcement pay Giving teachers a pay raise Giving Donald Trump anything that would allow him to continue to abusing the powers of his office, is NOT part of your duties to the people of this state. The turnout of the No Kings rallies across the state should show you just how much people love this country, this state and how seriously they hold the truths of the Constitution. Thank you for your consideration.

10/18/25 7:56 PM	Marilyn Grubbs		I am opposed to the proposal to redistrict a portion of northeastern North Carolina. Redistricting is supposed to be done every 10 years, and tied to the census, to create districts that give all types of voters a fair chance of being represented as they choose. This proposal intentionally splits a majority-black district, which is prohibited by the Voting Rights act. The NC legislature has already redistricted twice since 2020, for the sole purpose of benefiting the majority party. Such actions disregard the rights and well-being of the citizens of our state.
10/18/25 7:58 PM	Darlene Lear	health care	Second comment. I saw a picture of the proposed redistricting congressional map on the news tonight. The entire state was red for Republicans. Is that because Republicans are that afraid of losing their "power" because they know the American people are not happy with the way the Republicans want to run the country? To not lose, your party will cheat?
10/18/25 7:58 PM	Kelly Riek		I oppose any attempt to redraw North Carolina‚Äôs congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around.
10/18/25 8:00 PM	Mr Miles Davis	concerned Citizen	I strongly oppose the new maps. Being from Bertie County the maps separate us from our communities. We do not have the same concerns as the coastal counties do. Those counties and Bertie deserve representation that benefits our needs
10/18/25 8:02 PM	Gloria Dragonette		Gerrymandering is a form of voter suppression, and continues the assault on Civil Rights legislation. Fair maps equate with fair representation of the actual constituents. Do the right thing and be on the right side of history.
10/18/25 8:07 PM	Mr David Jones	Democratic Party	Leave District 1 alone.
10/18/25 8:12 PM	Ms Sarah Mcintyre		I do not approve of redrawing our district maps. Redrawing district maps right now would be a blatant attempt to manipulate elections instead of letting voters choose their leaders fairly. Constantly changing the maps erodes public trust, wastes taxpayer money, and silences communities by diluting their voices. North Carolina deserves stability and fair representation ,Äî not another round of political gerrymandering.
10/18/25 8:14 PM	Debra Harrison		I agree. The law was never intended to be forever
10/18/25 8:14 PM	Sr Pam Washington		It,Äôs not going matter what you do or say, People are SICK -N- TRIED being SICK-N-TRIED what,Äôs going on in the USA and around this WORLD under this LEADERSHIP. ALL Laws are broken. So you can rewrite the law with this map. All it going to do is KEEP PEOPLE AWAY FROM THE VOTING POLL. AND they can say, ,ÄúONE THING ABOUT, I DIDN,ÄôT VOTED THEM IN,Äù. SOoooooooo!!! STOP, JUST STOP Because HEAVEN is not on YOUR side. Remember, What GOD got for me , It,Äôs for me. What you DO to Others, They will do it back to you. ????
10/18/25 8:15 PM	Mr Jack Johnson	Retired educator	This is circumventing our constitution and making mockery of our democratic process. I am a long-time Republican who is ashamed to admit it
10/18/25 8:18 PM	Stephen Scott	NC citizen	All I have to say is , it's a pretty sad day when the NC legislature ignores it's constitutional duty and it's constituents, and follows the direction of a convicted felon in the oval office who doesn't give a damn about the citizens of the United States. Leave it alone !
10/18/25 8:18 PM	Stop the redistricting! Judy Chandler		There is no news to change any of the districts in NC. All you are doing is trying to ensure a republican win in the next election. If you want to change the formation of districts it should be done by a bipartisan commission not by one party or the other,Äôn
10/18/25 8:19 PM	Matthew Finney		The newly enacted redistricting map for North Carolina's district mapping is a blatant and unconscionable act of gerrymandering. This map does not reflect the will of the people; it serves only the narrow, partisan interests of those who drew it. The map utilizes classic gerrymandering techniques, such as 'cracking' and 'packing.' This process deliberately draws district lines to predetermine election outcomes, effectively eliminating competitive races and silencing the voices of thousands of voters across the state. The result is a political system where politicians choose their voters, rather than voters choosing their politicians. You all have forgotten who you work for, and it shows more by the day.
10/18/25 8:20 PM	Barbara Rumer	self	Please do not redistrict in haste at this point in time. There is an appropriate time for redistricting--every 10 years--and the last redistricting was done within the last five years. The driving force behind this plan to redistrict this time is a directive from Donald Trump that the Republican legislature find more Republican votes by gerrymandering several districts to provide another likely Republican majority district. One flaw in this plan is that our legislature should be answerable to the citizens of NC rather than to the US President. The wishes of NC citizens are nearly disregarded as this plan is rushed through with very little time for citizen review and comment. In addition, while unfairly strengthening Republican power in this state, this plan dilutes Black voting power in the affected districts. This goes against the national Voting Rights Act. While legislators try to push through this poorly thought-out power grab, they are losing focus on other important tasks like passing a budget and considering critical issues like Medicaid and SNAP . Please don't do this!
10/18/25 8:24 PM	Emily Faulkner		Redrawing the NC district maps (again) is extreme gerrymandering and corrupt. I oppose redrawing the maps of NC.
10/18/25 8:25 PM	Louise McKay		No Redistricting. Keep the red claw away from the purple state.
10/18/25 8:26 PM	Russell Kominski		North Carolina's districts are already created in a way that doesn't promote unity. We don't need to be followers of other states. North Carolinians are leaders - lets show the country that we can be leaders of unity. We can keep the districts as they are until the next census and then work to make all the districts competitive.

10/18/25 8:26 PM	Ms Vickie Long		DO NOT redistrict!! Everyone deserves to have their vote count in NC. NO party gerrymandering! LEAVE the districts ALONE!!
10/18/25 8:27 PM	Ms. Irene Strickland		This is not Constitutional! This administration plans to cheat on upcoming elections so that they can stay in office. 5 years early!!! Such an obvious power grab!
10/18/25 8:28 PM	CD1 Viola Figueroa	Democrat	There is absolutely nothing wrong with the current CD1 map. God & Karma is very real!!!!
10/18/25 8:31 PM	Michael Sileno		If lawmakers want to build trust heading into 2026, they,Äôd be wise to focus on issues that directly affect North Carolinians,Äô everyday lives, instead of wasting precious time and taxpayer dollars to further gerrymander our congressional districts, which are already among the most gerrymandered in the country. Instead of cheating and rigging elections, how about actually serve us and let us vote fairly for those who will actually represent us instead of corporations and power hungry billionaire con artists robbing us to death.
10/18/25 8:33 PM	Lindsey Monek		As a North Carolina resident and advocate for fair representation, I urge the legislature to reject the proposed congressional map. Redrawing district boundaries outside the normal decennial census cycle,Äîespecially when driven by partisan motives,Äîundermines the integrity of our democratic process and destabilizes voter trust. Redistricting is meant to reflect population shifts, not political strategy. When maps are redrawn mid-cycle, communities are reshuffled, representation is disrupted, and voters are left questioning whether their voices truly matter. This practice erodes the foundational principle of equal representation and risks turning our elections into exercises in manipulation rather than democracy. The proposed changes to the 1st Congressional District appear designed to dilute the voting power of historically marginalized communities. This is not just a technical adjustment,Äîit,Äôs a deliberate move that could silence voices and skew outcomes. I call on the legislature to respect the spirit of representative democracy. Let maps be drawn in response to people,Äînot power. Let redistricting serve the public,Äînot partisan interests. Thank you for your time.
10/18/25 8:34 PM	Mrs. Lee Ann Christy	retired	It is very unfair and an attempt to silence the voice of citizens who do not agree with you. Until the GOP represents all NC citizens, I will not vote for another Republican. (I am unaffiliated).
10/18/25 8:36 PM	Melissa Temple-Agosta		THE PROPOSED MAP HURTS VOTERS AND FURTHER GERRYMANDERS NC Under this newest gerrymandered map, Congressional Districts 1 and 3 in Eastern North Carolina would be less representative and more racist, targeting voters in the most prominent and historic Black opportunity district in the state. Congressional District 1 has been dismantled and designed to elect a Republican, eliminating the only truly competitive congressional district in North Carolina. Districts outside of Districts 1 and 3 are still extreme gerrymanders, making North Carolina,Äôs congressional map one of the least competitive in the country. Regardless of where you live ,Äì this gerrymander impacts you. Even though Congressional Districts 1 and 3 are targeted in this new extreme gerrymander, because of gerrymandering legislative leaders and the courts that capitulated to them, we will all be voting in distorted districts, which become even less representative with these new maps. North Carolinians deserve public hearings when it counts ,Äî throughout a redistricting process, before maps are drawn and before they are voted on. Instead, lawmakers will hold public comments after maps are released, at 10:00 a.m. on a Monday, when most voters are working, and those targeted live far from Raleigh. Voters across North Carolina ,Äî including a majority of Republicans ,Äî are tired of these types of partisan games that put politics over real people. If lawmakers want to build trust heading into 2026, they,Äôd be wise to focus on issues that directly affect North Carolinians,Äô everyday lives, instead of wasting precious time and taxpayer dollars to further gerrymander our congressional districts, which are already among the most gerrymandered in the country.
10/18/25 8:37 PM	Mrs. Catherine McHugh		No redistricting, please. Thank you.
10/18/25 8:38 PM	Ashleigh Donaldson		Redistricting is only supposed to happen every ten years following the census. This is unnecessary and costly. It also appears to be racially targeted, particularly the proposed redistricting of Greene, Lenoir, Wayne, Wilson, Beaufort, Carteret, Craven, Dare, Hyde, and Pamlico counties. . Electoral maps should be representative of the people.

10/18/25 8:38 PM	Ms. Elizabeth Even		I oppose redistricting the NC Congressional District maps. I was just moved from one CD to another in 2024 -- and I am tired of this constant partisan redistricting. Enough already! Districts should be drawn so voters of similar interests/needs/geography can be represented (such as urban/rural/coast/mountains.) Voters should choosing their representatives -- not those in power choosing their voters. I am offended that you are spending time on this nonsense instead of passing a budget and dealing with the actual needs of North Carolinians.
10/18/25 8:39 PM	Carla Monroe		I oppose gerrymandering efforts that are designed to turn a Democratic district Republican.
10/18/25 8:41 PM	Sarah Wells		I oppose opposition the newly proposed Congressional map. Here,Äôs why: Mid-cycle partisan gerrymandering has severe consequences: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all.
10/18/25 8:42 PM	K Oneill		This is a ploy to keep voters / residents from being represented in congress. Absolutely should not happen/ should be illegal.
10/18/25 8:44 PM	Jennifer Park		I am appalled that any state legislatures, let alone my own, are considering breaking the guidelines and redirecting mid-decade. It,Äôs obviously a power grab. Why can,Äôt you win fair and square???I could not oppose it more!!!!
10/18/25 8:47 PM	Cheryl Brownd		This redistricting seat grab is offensive and dangerous. I think it is flagrant enough to shock typically less-engaged citizens into a new awareness of the cynicism of the GOP, reengineering systems to retain power since its ideas and leadership are too weak to persuade voters to join them. Voters will be motivated to organize, educate and mobilize against this move, which mocks democracy.
10/18/25 8:47 PM	Patrick Noble		The more you disenfranchise diminish suppress and hold down people the worse you make it in the long run. Together we can make our country strong - divided we will fail
10/18/25 8:47 PM	Mrs. Shannon Kelly	Self	As a proud North Carolina resident, I love this state and its people and I strongly dissent against the redistricting of NC. Please do not do this.
10/18/25 8:48 PM	Shira Samaniego		Please vote against the new maps. They are drawn based on political goals and do not reflect accurate districts.
10/18/25 8:48 PM	Ms Wendy Bennett		North Carolinians,Äîregardless of party,ÄîOPPOSE gerrymandering. You work for the people of North Carolina. And we overwhelmingly want fair voting districts.
10/18/25 8:49 PM	Alexis Decosimo		As a voter I oppose the redrawings. It is highly partisan and takes away our rights as voters
10/18/25 8:50 PM	Claudia C Prose		I oppose any effort to redistrict AGAIN in order to give Republicans even more advantage in Congressional districts. There is no legitimate basis for redistricting for a third time before 2030. It is tantamount to stealing votes and stealing elections by making some people's votes virtually worthless. This is not democracy and is not good governance. Does this matter to the legislators pushing through such disenfranchisement? Are they fine with being written into history as undemocratic bosses taking orders from Washington rather than listening to the people they are supposed to serve?
10/18/25 8:52 PM	Melissa Hamilton		This is undemocratic. North Carolina should be looking to fix their gerrymandered maps, but instead you are trying to make them worse. If you do not think you can win fair elections, you should look inward and figure out how to be a better person and better representative for your constituents.
10/18/25 8:52 PM	Mr. Andrew Novinski	Self	Gerrymandering should not be allowed! Yes, teachers and civil servants deserve a raise but we cannot have other things in this budget to redistrict to favor your schemes. This needs to be redone!
10/18/25 8:54 PM	Helen Compton		The plan to redistrict the congressional map is not representing the desire of the citizens of North Carolina. It is the desire of the President who is not a North Carolinian. This is unconstitutional.
10/18/25 8:55 PM	Alice Sebrell		I am opposed to the redistricting plan. I am opposed to gerrymandering.
10/18/25 8:58 PM	Nancy Patterson		As a registered unaffiliated voter of many years, I am SO over the partisanship in politics, especially when it is at the expense of "We the people". What happened to actual bi-partisan GOVERNANCE? Stop gerrymandering, pass a bill that will appoint a non-partisan board to draw districts already! The R and D parties need to remember that registered unaffiliated voters now significantly outnumber their registered party voters and we are sick of you placing partisanship over the good of the State and the Nation. Gerrymandering will be rightly viewed as an attempt to disenfranchise the citizens of NC and will be punished in the voting booth.
10/18/25 8:58 PM	Mrs Virginia Albing		You have tried to do this before. Stop corrupting fair elections. This is a waste of my tax dollars.
10/18/25 9:02 PM	Dr Boyd Harris	Citizen	Do not redistrict NC. It is not a Census year and this is nothing but the Executive Branch over exerting power on the independent state of NC. We do not answer to Trump. You answer to the People.
10/18/25 9:03 PM	Mr. Everette Dean		Redistricting for the 5th time in 6 years is completely unnecessary. By doing this, you are taking our voices away. This state is a 50/50 state and we should be represented as such. I implore you to do the right thing and let our collective voices be heard.

10/18/25 9:03 PM	Andy miller		Please stop the gerrymandering war that has played our country for too long. It is absolutely undemocratic and North Carolina ranks among the most terribly gerrymandered states in the union. Reflect the voter demographic and political party demographic in our state by allowing people to choose their representatives rather than representatives choosing their voters. It is absolutely absurd For our state to attempt to draw district maps in the middle of the decade. Stop with the absolute power and begin to govern by seeking bipartisan support for common sense measures that both political parties can agree on. It is utterly embarrassing that the legislature is eroding decades of development for program such as public education, public health, and many other important institutions. The Republican Party is absolutely destroying the state and needs to recognize that they are dysfunctional and must allow for both parties to govern to get things done for North Carolina.
10/18/25 9:04 PM	Do not redistrict! Tabitha Boswell		I am a tax paying citizen who deserves to have representation that is districted fairly! You have drawn these maps to force desent from the republican party to be mute. This is not how democracy works! We choose our leaders, leaders don't choose us!
10/18/25 9:05 PM	Kelly Wainaina		Show some respect for the democracy that we've built and keep it going rather than killing it. We still have to respect one another despite differences in political views. If you can't do that, you don't deserve to be in power. Don't kill such an important part of what it means to be American. We desperately need fair maps so that every vote truly counts.
10/18/25 9:05 PM	Ms Emily Keel		I oppose attempts to redistrict once again as the Republican Party's push to support trump's idea of winning again despite his totally dishonorable changes of the operation of government agencies, etc. He knows he will not win this time so this is an essential part of making it a certainty for him. Fairness to most citizens is far from his goal making his position authoritarian. His support of many NC voters will be dumped once their eyes are opened but it will be too late for all of us.
10/18/25 9:06 PM	Mrs Jen Kopack		I am against redistricting the entire state based on the wishes of the President. This is an unfair advantage to conservatives who frankly, are more interested in power and making money then the interests of the average Americans. This NC senate can't be bothered to pass a budget that's months over due! Do your jobs and take care of the people of NC, not what Washington politicians want you to do. This is blatant pandering and frankly, cheating. If you can't win based on your own merits then cheating is your only option. That's un-American! Pass the budget. Make a fair voting map! Thank you.
10/18/25 9:06 PM	Lisa Starnes		I am not in favor of gerrymandering AT ALL in NC. It is undemocratic and should be against the NC constitution. We should have maps drawn by the independent panel other states use. Gerrymandering should be against the law period!
10/18/25 9:06 PM	April Gatling		Please stop the unnecessary redistricting. Our districts are suppose to represent the residents, not to be used for a political party,Äôs agenda. If you have popular policies, you do not need to cheat. Remember you represent all of your constituents. Remember your oath!
10/18/25 9:07 PM	Mary Swann		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and our votes should count equally, regardless of political affiliation, race, or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and is illegal. You have to cheat to win. Even Repubs are getting fed up with the low life despicable things Repub Reps are doing. The majority of North Carolinians are actually Dems and Independents (Unaffiliated voters: 38%, Democrats: 32%, Republicans: 30%, Other parties: <1%). Older voters tend to be Repub and before long those voters will be gone. It won't be long before the party collapses due to their own policies that shaft the majority of Americans for the good of the wealthy. More and more people are seeing the light and opening their eyes to the destruction caused by Repubs and the orange buffoon in the White House. The blaming of immigrants for the woes of the country is no longer working. People are realizing we are being shafted due to the greed of the wealthy, not because of immigrants. This is why Repubs have to cheat, because they know they can not win based on their policies. I hope this map is struck down by the courts. Change is coming, just look at the No Kings marches all across the country, including in NC. We the people are fed up. If you can't win on policy and can only win by cheating, then change your freaking policies!!!
10/18/25 9:07 PM	Dr jacqueline vidrine	Legacy Foundation	Please do the right thing. Your decision will revibrate throughout the next decade. Be fair
10/18/25 9:07 PM	Dr Reed Altman	Universal Life Church	A waste of my taxes! Isn't this supposed to only happen once every decade!?!?
10/18/25 9:08 PM	Marlene Allen		I strongly oppose the newly proposed redistricting maps in North Carolina. As is, my district is heavily gerrymandered, combining communities with vastly different needs. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.

10/18/25 9:08 PM	rebecca langham		Stop gerrymandering! You are a sheep. Shame on you.
10/18/25 9:09 PM	Teresa Martin		I demand that you do NOT redraw congressional district before the 2026 election. Gerrymandering is highly immoral and absolutely cheating. You are not representing the majority of Americans in your district. You must fight to eliminate this insane CULT MAGA movement and retire the American that we love!
10/18/25 9:10 PM	Kathryn Miller		The redistricting plan is anti democratic. I am against your plan to gerrymander our state. Shame on you. If you go through with this plan you, the Republican party, will find yourselves on the wrong side of history. You will be sorry. The people will not forget your taking away our votes by stacking and cracking.
10/18/25 9:11 PM	Ms Katrina Palmer		I do not support this partisan gerrymander. If you came up with policies more people supported you wouldn't need to cheat to stay in power.
10/18/25 9:12 PM	Michele Leedom		Redistricting now is a blatant attempt to steal additional congressional seats for the Republican Party who has no plan to improve the lives of North Carolinians. NC Republicans have no shame and just when I think they can,Äôt get any lower they prove that they can and do. There is no lawful reason for redistricting and I do not support it.
10/18/25 9:13 PM	D C		No redistricting!!!!! We deserve fair elections!!
10/18/25 9:15 PM	Marcia Atymore		This is just wrong. You are pandering to a man who will not be here in the long run and does not care about us. Don,Äôt pass this redistricting bill. It is very shortsighted thinking. Pass the budget!
10/18/25 9:18 PM	Margaret McDade		I do not approve of the proposed redistricting plan!!! Representation should reflect the actual makeup of the state.
10/18/25 9:18 PM	Lee Allen		I strongly oppose the newly proposed redistricting maps in North Carolina. My district is already heavily gerrymandered, combining counties with vastly different needs. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/18/25 9:18 PM	neepa patel		I strongly oppose the newly proposed redistricting maps in North Carolina. My district is already heavily gerrymandered, combining counties with vastly different needs. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/18/25 9:19 PM	Mr. Philip Keel		If trump had confidence that he had won our support thru his policies, he would let the current redistricting status remain. He is not confident and should not be, so manipulating the voters to ensure a victory is a move he considers totally deserved. He is an authoritarian now and soon to be dictator with the help of our state's republican leaders. This change should not be allowed but will be. They should not be allowed to do this.
10/18/25 9:19 PM	Meghan Dinneen		Redistricting like this is cheating. It is being done to cheat Americans out of the worth of their votes. It is done by a party that knows if they were forced to do things fair and square they would lose. This is not democracy. I am opposed to this redistricting and every patriotic American should be too.
10/18/25 9:19 PM	Mrs. Gabrielle LaMonte-Weeks		Redistricting out of sync with the standard schedule at the behest of political pressure is undemocratic at best and voter suppression at worst
10/18/25 9:21 PM	Terry Williams		As a life long NC resident, I'm ashamed of the gerrymandering robbing my neighbors of their right to vote in fair elections. You're all traitorous fascists for politically gerrymandering the state of NC
10/18/25 9:21 PM	Beth Stamper		Be ethical. NC is already in school textbooks as an example of gerrymandered districts. You represent NC citizens. When you follow Mr. Trump with no discretion you are a puppet. Use your free will to keep America,Äôs checks and balances.
10/18/25 9:21 PM	Cynthia Liston		Redistricting in the middle of the decade is a Republican power grab. Extreme gerrymandering hurts the North Carolina citizens you are elected to serve by diluting their voting power. We should have more competitive districts, not fewer, in order for a robust democracy to flourish. This is wrong for North Carolina.
10/18/25 9:22 PM	Colleen Nicholas	Chowan Democratic Party	The Republican General Assembly tried to gerrymander Representative Don Davis once before. It didn,Äôt work in 2024. So, they are trying again in 2026 by redistricting him out of District 1. This is a power grab direct by Donald Trump to Phil Berger. Republicans can,Äôt run an honest race so they need to play dirty. Republicans are thieves and despicable. You all need to understand that majority of voters in North Carolina are against gerrymandering, including Republicans. In the end you will lose bigger than you can imagine. Vote it down.

10/18/25 9:22 PM	Carolyn Alps-Truby	Registered Voter	I am a registered independent from Roxboro NC and I think this is being done AGAINST voters' consent and rights for a FAIR and FREE election process. We The People of NC see you. We just showed up by the thousands today to show our dissent for a president who wants to be king and is demanding that you do this to gain favor with him. I believe that if you go through with this the independent voters in NC will show you how much we dissent at the ballot box next year. Cheating is not a guaranteed win and all we need to do is have a few more protest like we had today to focus NC voters on this issue and how it will hurt them and their families.
10/18/25 9:24 PM	Mrs Victoria Partridge		I strongly disagree with the redrawing of congressional districts. Let elections be representative of the constituents, not the whims of the party in power. Thank you.
10/18/25 9:27 PM	Ms Leslie Rhyner	Black Mountain Dems	Redistricting is just another power ploy to rig election outcomes by the party in power. Our maps were recently redrawn to benefit Republicans.....now you want to do it again? Either do it fairly with a bipartisan committee or don't do it at all. While we are on that subject, get rid of the electoral college. Elections should be won by popular vote. PERIOD
10/18/25 9:29 PM	Katrina Jones		When do we stop this insanity. I as a Notth Carolinian need to be represented and I am already gerrymandered out of that representation, as one of the most gerrymandered states in the country. Do not do this! If you have to cheat to cling to power, it says more about you than you realize. EVERYONES voice needs to be represented, even if you don,Äôt agree with it.
10/18/25 9:30 PM	Do NOT redistrict the map Katherine McGuire		Redistricting the map to gift the president another republican seat is disgusting, deplorable, illegal, and unconstitutional. Politicians and the government work FOR the people NOT the other way around!!! And we the people have had enough of the illegal gerrymandering and demand that you do NOT touch the fucking map! How about yall work on releasing the Epstien files or impeaching the felon we call a president? How the hell does a whole state successfully get a restraining order against the whole trump administration and that isnt automatically an impeachment????
10/18/25 9:31 PM	Reevaluate Your Prioritie Kaitlynn Farmer		Instead of redistricting, we should focus on passing a biennium budget for 2025-2027. This was due months ago. As an educator in this state, I,Äôm expected to meet my deadlines and due dates, and so are my state legislators. Redistricting needs to be prioritized in time for the 2030 census.
10/18/25 9:34 PM	April Phillips		Please! This isn't fair. NC isn't a 95% republican state. Please don't try mid decade redistricting here. Why can't the parties win by convincing voters rather than cheating?
10/18/25 9:34 PM	Mary Macaluso		I am writing to express my profound opposition to the newly proposed congressional maps. This is not a routine, court-ordered, or census-mandated redraw; it is a blatant partisan power grab in the middle of a decade. ?My objections are as follows: ?It Defies the "Purple" Nature of Our State: North Carolina is one of the most politically competitive states in the nation. Statewide elections for Governor, Attorney General, and President are routinely decided by razor-thin margins. A map intentionally drawn to create an 11-3 (78.5%) partisan advantage for one party is an extreme distortion of our state's electorate and an insult to millions of voters. ?It is an Anti-Democratic Power Grab: This mid-decade redistricting is not being done to comply with a court order or to reflect population changes. Its publicly stated goal is to eliminate the state's only competitive "swing" district (NC-01) and predetermine the outcome of future elections. This is the definition of gerrymandering. ?It Prioritizes Partisanship Over People: These maps are not drawn to respect communities of interest, keep counties whole, or create compact districts. They are drawn with one goal: to "pack" Democratic voters into three districts and "crack" them across the other eleven. This intentional manipulation, specifically targeting voters in the 1st District, dilutes the voting power of citizens for partisan gain. ?It Destroys Accountability: When politicians draw "safe" districts for themselves, they no longer have to answer to the general electorate. They are only accountable to the most extreme voices in their primary. This leads to gridlock, polarization, and a legislature that does not reflect the will of the people. ?Voters should choose their politicians, not the other way around. I urge you to reject this cynical and self-serving map. We need fair maps that lead to competitive elections and a congressional delegation that truly represents the people of North Carolina.
10/18/25 9:34 PM	District Plan Emily Bendzinski		Don't fall under the regime's control. Eventually people will be so poor that they can't afford to buy anything. Think about what happened in 1929. Don't be so weak to obey a wanna be dictator (he said that himself).
10/18/25 9:35 PM	James Rothschild		The attempt to further distort the districts in North Carolina is UNpatriotic and cowardly. Republicans are afraid to let the people speak fairly and without rigging the elections. Ultimately it is a disgustingly self-centered power grab to place personal benefit over what is best for the citizens of the State and Country. Shame on you!!!
10/18/25 9:37 PM	A. Cole		DO NOT REDISTRICT
10/18/25 9:38 PM	Katie Spece		This is completely unjust. Don,Äôt do this to your people.

10/18/25 9:38 PM	Mr. Morris Roberson	NC Citizen	Republicans know their track record of ripping health care away from hundreds of thousands of North Carolinians, rising prices fueled by chaotic tariffs, and tax cuts for billionaires at the expense of the working class is a losing message. Now, instead of listening to the people of North Carolina, they have decided to rig the game by changing the maps and attempting to dilute Black voting power. This is nothing short of a blatant attack on fair representation and North Carolinians‚Äô voting rights because they know they can‚Äôt win fair and square. This would be the 4th time North Carolina has redistricted in 5 years, all in an effort to insulate themselves from the will of the voters Republicans‚Äô landmark legislation is broadly unpopular with over 60% of Americans opposed to the Big, Ugly Law. It‚Äôs no wonder. Their bill ¬¶ Will rip health care away from hundreds of thousands North Carolina residents and puts 5 rural hospitals in the state at risk of closure ¬¶ Families already struggling with rising costs will see their utility bills increase by nearly $500 per year ¬¶ Threatens hundreds of thousands of families‚Äô ability to put food on the table and rips billions of dollars out of the wallets of farmers and food producers ¬¶ All to pay for tax cuts for the richest people in the country ? Now, instead of fighting for North Carolina‚Äôs working families, they want to further rig the game and ensure they‚Äôre not accountable to the voters ‚Äì this map is already an egregious gerrymander ? Voters should choose their representatives, not the other way around. ? If Republicans wanted to win, they should focus less on targeting me and more on doing the real work ? They‚Äôre changing the rules of the game and sabotaging the will of the voters because they‚Äôre desperate ? Attacks on Black representation ? This proposed map was drawn almost entirely as an attack on Black North Carolinians and is an attempt to remove Black representation from eastern North Carolina. ? They don‚Äôt like the way we vote so they want to make it so our votes don‚Äôt count
10/18/25 9:42 PM	Albert Edwards		This plan to redistrict is unacceptable. It is such a shame that politicians can‚Äôt do what is right for the whole state. I have never been real involved in politics but if you go through with this I will get very involved and do what I can to help all of you get voted out.
10/18/25 9:44 PM	Don‚Äôt redisirict Ana Washington		I don‚Äôt think the state of NC should redistirct. That would put other political parties at an unfair disadvantage, and anger the populace. Think about the good of everyone before deciding to redistirct, you represent the whole of NC not just a small part of it.
10/18/25 9:44 PM	Mrs Helen Struve		You sat on our disaster funds, Budget & NC school-funds. Now you want to pull another fast one with our votes. Add two voters who oppose this proposed redistricting. Infuriating.
10/18/25 9:44 PM	Dorothy Gale		Stop the redistricting. The people are fed up, and whether or not you can find an excuse, it's a shame it'a not flagrantly illegal. Winning by cheating makes our state look awful both to the rest of the country and the people who live here.
10/18/25 9:46 PM	Karen McGhee		Stop gerrymandering our state. If 48% of the state is Democratic, the at a minimum 6 of the 14 districts should weighted for Democratic. I want to choose who represents me not the other way around.
10/18/25 9:48 PM	Shameful! Steven McCallister		This is a shameful, brazen power grab and it flies in the face of our core democratic principles. And mid-decade?!! The people should pick their representatives, not the other way around. We deserve better than this; history will judge you harshly.
10/18/25 9:48 PM	Janet Kostello		Please do not gerrymander through redistricting for any party's benefit
10/18/25 9:50 PM	Cathy Sorensen		This is unconstitutional. Leave the district maps alone.
10/18/25 9:50 PM	Dr Helen Sandven	private citizen	I am hoping that you will do the right thing. I'm pretty sure you know that gerrymandering isn't it.
10/18/25 9:51 PM	Ms Beth McLean		Stop gerrymandering our state please.
10/18/25 9:53 PM	Ms. Chadaya Hicks		I am writing to alert the lawmakers in Raleigh of my concerns and request. NC districts are drawn unfairly and limit the states upward mobility. Further gerrymandering will continue to limit the states progress and financial stability. Stop the crap and let the people vote for their representatives. YOU ALL DO NOT GET TO PICK YOUR VOTERS! Leave me in congressional district 1!
10/18/25 9:54 PM	Corruption Halley Neese		Stop cheating. You all know the only way your party can win votes is by redrawing the maps and not on merit alone.
10/18/25 9:55 PM	Megan Abraham		As a constituent in the triangle area, I am outraged that certain members of this Congress would prefer to bend the knee to a power hungry oligarch, continue an effort to strip your state's citizens of their constitutional right to fair and free elections, and express the mere gaul to decide who will win an election before a single vote has been cast. Shame on every single one of you in favor of this redistricting. Our state is already one of the most gerrymandered in the country! Enough is enough. Every North Carolinian deserves to have a fair and equal say in the democratic process of this country. Please, do not do this. For every single one of you who has the strength, and the courage to say enough is enough, we must not do this, I commend you. Please be as loud and proud in your fight for what is right and fair, as those who are trying to strip this country of the hope of equality and freedom that made it great to begin with.

10/18/25 9:56 PM	Carol Murphy	Private citizen	Dismantling of the 1965 Voting Act is a violation of every citizen,Äôs right. To use California as rationale when you know Texas initiated this gerrymandering violation, is a bold lie. Citizens are not ignorant. Practice honesty in the practice of legislating.
10/18/25 9:56 PM	Ms. Nancy Delia		Gerrymandering to give our state more Republican districts is wrong., especially in an effort to garner attention from Mr. Trump. Our country is in real trouble in his hands. I am totally against this latest redistricting plan.
10/18/25 9:57 PM	John Koehler		Redistricting with an intention to control the outcome of an election is undemocratic and un-American. Anyone suggesting it should be ashamed and is unfit for office. The proposed plan intentionally puts more power into fewer hands and is against both the North Carolina and US constitution. All reasonable plans must result in a party representation that closely matches the interests of the citizens, not the interests of the representitives.
10/18/25 9:58 PM	Lauren Kaufmann		Your redistricting plan is horrible. Do not do it. You are going against the will of the people. This is anti-constititional. We need more Democrat districts, not less. Stop gerrymandering.
10/18/25 10:00 PM	Mr. James Scarborough		I write as a parent and small-business owner in Apex. Gerrymandered maps have created a legislature insulated from accountability, where policy failures persist because elections no longer change incentives. My wife is a certified teacher, but when we had two children in day care, her 60-hour-a-week, ten-month job would have netted about $10,000. That math doesn,Äôt work. The legislature,Äôs refusal to fund competitive teacher pay and affordable child care has made it impossible for many qualified educators to stay in the classroom. Teachers today are mostly under 30 or over 50; those in between often remain childless because teaching and parenting in North Carolina are economically incompatible. Medicaid expansion belatedly and reluctantly passed the GA after more than a decade of spite in 2023 (HB 76), yet new bills like SB 403 would erode those gains through work requirements and funding cuts. In 2023 the legislature also restricted gender-affirming care for minors and limited schools,Äô ability to support transgender students,Äîoverriding medical consensus and harming families statewide. When districts are engineered to be safe for one party, lawmakers face no consequence for these failures. Please reject any map that reduces competitiveness, extend public input, and adopt criteria emphasizing compactness, contiguity, and community integrity. Fair maps make accountability,Äîand progress,Äîpossible.
10/18/25 10:02 PM	Mrs Dawn MacLaren		I strongly oppose the newly proposed redistricting maps in North Carolina. My district is already heavily gerrymandered, combining counties with vastly different needs. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/18/25 10:02 PM	Ms Cheryl Hicks		Against redistricting for creating a republican seat
10/18/25 10:03 PM	Katherine Benson		Redrawing the maps due to pressure from the national governing party is disgraceful and disrespectful to the citizens in this state and disrespectful to the democratic process.
10/18/25 10:03 PM	Debbie Whittington		I strongly oppose this redistricting plot. Wait until after the next census. This is gerrymandering and it is wrong. Very Trumpian.
10/18/25 10:03 PM	Brandi Hernandez		This bill will likely disenfranchise many voters, as it prioritizes partisan interests over the voices of the people. Redistricting should empower citizens, not diminish their influence in the electoral process. I urge legislators to consider forming an independent redistricting commission. This approach can ensure that district lines are drawn fairly, respecting community boundaries and promoting competitiveness in elections.
10/18/25 10:03 PM	Ervin Kelman		Does the Republican majority have no remaining scruples? You ostensibly work for the people who elect you, yet you insist upon continuing to cheat and by flouting the people's intent. You are not kings with divine patriarchal powers, but rather scared little bullies. Stop the cheating!
10/18/25 10:04 PM	Morgan Gyger		I do not want to be gerrymandered. North Carolinians deserve clear and fair redistricting. Support an independent redistricting coalition.
10/18/25 10:04 PM	Audra Killingsworth		The idea that you will disenfranchise hundreds of thousands of North Carolinians is severely disturbing. You are bowing to a self-perceived king and North Carolina has no kings. At least I thought we didn't. Stand up for North Carolina, not Donald Trump. We are the ones you represent. I ask that you discard this redistricting and properly represent all of North Carolina.
10/18/25 10:07 PM	Disappointed New Resident Connie Frazier		I have only been in North Carolina for two years, and it is an absolute disappointment that this would even be a consideration. I would've given the state more credit than to ever entertain such a petty and distasteful manipulation of what is supposed to be a fair and balanced voting process. There is no integrity in this proposal.
10/18/25 10:10 PM	Don,Äôt do it Henasyy Smith	Me	Don,Äôt do it. Y,Äôall are cheating. For people that are against gay rights, y,Äôall sure as hell like having a man tell y,Äôall what to do.
10/18/25 10:13 PM	Darice Witherspoon		This redistricting is shameful - rigging the election to appease the whims of a lawless president. If we cannot win, then cheat. This redistricting effort in NC does not serve the needs of its citizens and is being done with bad intentions. Do better, elected officials.

10/18/25 10:14 PM	AMERICA HATES YOU Kevin Budrawich	The founding fathers	Imagine being so anti American that you would participate in the gross display of gerrymandering. You would have to be a craven, pathetic, worthless pile of meat.. compiled together only for the pathetic purpose of pretending they aren't utterly worthless in mind, body, and spirit. To call such fatious beings material is to only confirm the vileness of their actions so that other beings may understand what it means to be utterly and completely evil.
10/18/25 10:17 PM	Melanie Conover		We are gerrymandered too much already. What are you afraid of? Your policies are so unpopular that you have to cheat to win.
10/18/25 10:18 PM	Mr David G Bolen		There is no need to redraw the map, it already has been gerrymandered enough in the republican's favor.
10/18/25 10:20 PM	Farrah Khan		It is shameful that Nirth Carolina is the poster child for cheating, gerrymandering, insecure positions who are schoolyard bullies. When they can't win fair and square on merit, they cheat and change the rules. Stop unfair political games, redrawing maps to your advantage. How will you explain your actions when you meet Jesus peace be upon him?
10/18/25 10:22 PM	Riva Duncan		I implore you not to change the district lines. The proposal us blatantly racist. Your jobs are on the line.
10/18/25 10:33 PM	Ms Janine Shapiro		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/18/25 10:37 PM	Caitlin Nightingale		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/18/25 10:37 PM	Mr Leo Salzer	None	The proposed redistributing is harmful to North Carolina‚Äôs democracy by violating proportional representation in our congressional delegation. The 2024 presidential election result was 51% to 48% and the proposed US Congressional delegation result would be 86% Republican vs 14% Democrat. An overwhelming majority of Democrats, Independents, AND Republicans oppose gerrymandering in North Carolina. 78% of Republicans
10/18/25 10:44 PM	Mrs Linda Levy	League of Womwn Voters of Charlotte Mecklenburg	I urge you to vote AGAINST any midterm redistricting. This is an unfair tactic. It's already 11 R-4D. Isn't that sufficient?
10/18/25 10:44 PM	Wow Hunter Saunders		An attempt to further gerrymander a state which is nearly 50/50 already, and has an active history with gerrymandering. Sad, as I grew up in north Carolina I know it well and this isn't it. Its a sad attempt to win the houses when republican politics are clearly unpopular and unwanted. Try to win real votes next time instead of rewriting the rules when you lose.
10/18/25 10:45 PM	Meredith W.		As a NC resident I am respectfully asking you to not allow a redistricting in a seemingly partisan way that would further give one party in this state an advantage, over another. Show this country that NC can play by fair and lawful rules to ensure candidates win or their merit, not based on map manipulations.
10/18/25 10:47 PM	Ms Harriet Solomon		As a North Carolina voter, I oppose redistricting between decennial census counts. It is designed purely to rig the next elections for Republican candidates. It will be based on population by race which is supposedly against the law. Do not do this.
10/18/25 10:47 PM	Mrs Shirley Sell		Gerrymandering is NEVER required or necessary.¬† You know our state is a purple state that is roughly evenly divided.¬† Our elected representatives should come close to reflecting that 50-50 division.¬† Everyone knows our current representation is heavily represented by the current majority party because of the already computer aided gerrymandered districts.¬† If fairness does not rule the current majority party, I can promise you it will soon not be the majority party.¬† Saying well it was done in the past by the other party (before more data & computer aided gerrymandering) will soon be a very weak excuse.¬† In the interest of fairness & democracy you should certainly not attempt to redraw districts to squeeze more unfairness out of an already unfair system.¬† If you do, you are only providing more reason for your majority to be overturned.
10/18/25 10:48 PM	Susan Shure		This is not what your constituents want. Please listen to the people you are there to serve instead of your own interests
10/18/25 10:52 PM	K. Dunston		I am a private citizen who would like to express deep concern about the proposed Congressional map redistricting. If you proceed, North Carolina will be seen as merely submitting to the demands of a leader who wants to maintain control on his side by any means necessary, instead of trusting the will and decisions of the people of this wonderful state. We are at a crossroads in our democracy, and you have a chance to ensure we meet this moment head on with courage and commitment to ensuring our votes are not manipulated to satisfy someone else's appetite for power, especially someone who doesn't seem to have our collective interest at heart. Please reject the proposed map immediately so North Carolina's views are accurately reflected across the state.
10/18/25 10:53 PM	Ms Ruthi Joyner		Every North Carolinian deserves the right to vote and for their vote to count equally. Stop gerrymandering our districts now.

10/18/25 10:53 PM	Alexander Byers	It is hard to understand the need for this redistricting. It seems like a clear attempt to affect the upcoming midterm elections in 2026(and beyond) in ways that will negatively impact one party over the other. Our state is pretty evenly politically divided, and yet Republicans have held an unrepresentative majority in the legislature for years. Please don't try to further change the rules because you are afraid that you can't win a fair game.
10/18/25 10:56 PM	Michele Gustavsson	The redistricting proposed right now is absolutely wrong and against the principles of a free and fair election as outlined in our Constitution- I do NOT approve.
10/18/25 11:01 PM	De Huang	This proposed redistricting map is a travesty. It aims to subvert the will of the majority of the voters of this state. It is a craven, dishonorable plan for Republicans to choose their voters rather than allow the voters to fairly choose their elected officials. Anyone with even a shred of decency would readily and soundly reject this gerrymandering proposal.
10/18/25 11:01 PM	Louisa Dang	I am against any redistricting plan that disenfranchises voters. The Republican-proposed map is clearly gerrymandered and will result in many voters not being able to have their votes carry the same weight as it would if the maps were drawn fairly.
10/18/25 11:02 PM	Andrew Ullom	In the least representative state in the country - NC - conservative politicians are blatantly disregarding the votes of NC citizens in order to protect the president,Äôs agenda. It,Äôs absolute bullshit and I hope that there,Äôs a shred of guilt inside everyone that votes to change the map for the FIFTH TIME IN SIX YEARS that never leaves them. You,Äôre giving in to a cult leader and a con man.
10/18/25 11:09 PM	Stop Gerrymandering Finn Zwemer	Do not go through with this heinous Gerrymandering plan. Do you want North Carolinians,Äô votes to matter? Or is it just another tactic to get a Republican super majority?
10/18/25 11:12 PM	Ms. Suellen Ahlstrom	So, it looks like North Carolina lawmakers are joining the Gerrymandering Old Party in an obvious and politically motivated attempt to redistrict mid-cycle. This is not supposed to happen and they know it. Without question, they are doing this at the request of the Trump administration with a goal of securing a partisan advantage ahead of the 2026 elections. This move is not about representation. It's about wielding power regardless of the will of the people. Mid-cycle partisan gerrymandering has severe consequences: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all. My vote DOES matter, I WILL be heard, and I WILL NOT be dissuaded from casting my vote. It most certainly will never be for anyone attempting to circumvent the will of the American people. If you have the will of the people, YOU DON,ÄôT NEED TO CHEAT! NO MID-CYCLE REDISTRICTING! NOW, OR EVER!
10/18/25 11:15 PM	Riley Carr	I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage! Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal. The focus needs to be on passing the NC budget, not on redistricting areas so one party can have a superficial and undemocratic lead over the other party. You were elected to do a job for the people of this state, so focus on that and not on trying to unethically put voter maps in your favor.
10/18/25 11:18 PM	A Dale	Im wildly opposed to any congressional map that prioritizes partisan advantage over fair representation. North Carolinians deserve districts that keep communities together and reflect our shared interests ,Äî not maps drawn to protect political power. I urge the House and Senate Committees to ensure the redistricting process is transparent, data-driven, and representative of all voters. Please reject any proposal that undermines competitive elections or dilutes the voices of diverse communities across our state.

10/18/25 11:20 PM	Ms Kelly VanHorn	AFT	The House needs to show up and work on education funding, healthcare, and housing. Redistricting right now should not be the priority in already gerrrymandered districts. It is time to put out children and welfare of our citizens and rights before political party. People can barely afford groceries and housing while Leandro funding is withheld from our Public Schools. Again, geeeymandered districts should not be a priority.
10/18/25 11:22 PM	Julie Hodson		Redistricting is a power grab and should be stopped.
10/18/25 11:23 PM	2025 Redistricting Maria Chavez		The amount of disrespect the GOP has for North Carolinians is ridiculous. Thank you for further gerrymandering an already treacherous map. Why not focus on our public schools, child care than disaster-hit areas than further your political agenda?
10/18/25 11:24 PM	Melanie Aitken		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/18/25 11:26 PM	Renee Stroud		I don't support a seventh seat for the Republican party.
10/18/25 11:27 PM	Susan McConnell		Vote NO to redistricting!!!
10/18/25 11:29 PM	No Redistricting! Courtney Denney		There is no reason to redraw district maps other than to try and manipulate the outcome of important elections. Please vote no -Equal representation for all North Carolinians!
10/18/25 11:30 PM	Mrs Samantha Ostendorf		Please do not further gerrymander NC! Respect the voters!
10/18/25 11:34 PM	Alex DeHaven		This proposal for redistricting will be detrimental to the equal representation of all North Carolinians, further eroding the democratic bedrock of this great nation.
10/18/25 11:34 PM	Mr Chad Newton		The proposed redistricting is illegal and totally unacceptable. We are already one of the most gerrymandered state in the country. We need to form a non partisan group to design districts that fairly represent the people of North Carolina.
10/18/25 11:35 PM	Jacquelyn Stewart		The plan to redistrict North Carolina at the request of the president is wrong. The state maps are already drawn unfairly, leaving half of its citizens under represented. This attempt by the president to thwart the will of voters in the upcoming midterm elections reeks of authoritarianism. Mr. Putin must be so proud of his protege. If Joe Biden or Barack Obama had tried to do this it would have been wrong and it‚Äôs no less wrong for the current president. I hope we have enough representatives who are courageous enough to defend our democracy.
10/18/25 11:38 PM	Dr. Keely Godwin		This is clearly an attempt to bend the knee to Trump. NC is a divided state, not patently blue or red. We all deserve for our voices to be heard, every citizen and every community. Maybe instead of rigging elections to reflect a fantasy of a single party mandate, the legislature should focus on passing a budget. This does not represent who we are, it's a shameless attempt to silence North carolina citizens to please a would-be despot. We're better than this. |
10/18/25 11:38 PM	Sandra Newton		I am totally against the plan to redraw the North Carolina election maps. The Republican Party has already drawn maps that overly favor them, instead of maps that actually represent the people of our state. This is nothing more than another corrupt power grab that is hurting this state and the people of this state.
10/18/25 11:38 PM	Emily McCollum		I strongly oppose the proposed redistricting plan. This map is clearly designed to entrench political power rather than ensure fair and representative elections. By redrawing districts to favor one party and dismantling competitive seats, the plan undermines the principle that voters should choose their representatives ‚Äî not the other way around. In particular, shifting the boundaries of the 1st Congressional District strips many Black and rural communities of their collective voice, diluting representation that has been hard-won over generations. North Carolina deserves fair maps that reflect our diverse communities, keep counties and regions intact where possible, and promote genuine competition, not predetermined outcomes. This kind of mid-decade redistricting erodes public trust in the democratic process. I urge the General Assembly to reject this proposal and adopt a transparent, nonpartisan redistricting approach that puts people before politics.
10/18/25 11:48 PM	NC Constituent Anne Cerrano		We need independent, neutral maps drawn by a non-political organization. Changing the maps every election has to stop. If one political party can't win without making gerrymandered maps, they aren't representing the people of NC. Neither Democrats or Republicans in any state should be able to choose their own maps for their own elections. It is a conflict of interest.
10/18/25 11:50 PM	Mr. Alan Goldenstein	US citizen, NC homeowner, NC small business owner	Gerrymandering hurts everyone. We need more competition in our politics, not less. We need to find ways to work together, not tip the scales just because we can get away with it. Do the right thing for all North Carolinians.

10/18/25 11:51 PM	Ms Mary Trujillo		I can't believe we as the voters and citizens have to ask you, our leadership, to have ethics and morals and let us all have fair elections. Morals don't shift with party affiliation. The right and wrong we teach our kids doesn't come with an end date once they become adults and end up in the General Assembly and realize they have the power to cheat and no one can stop them so decency and being a good citizen be darned. I am not eloquent. I am no politician but I am a proud American and a voting North Carolinian and I am ashamed that my state is seriously considering gerrymandering for the advantage of one group of politicians right out in the open for all to see. It's shameful, undemocratic, unrepublican and un-American. Redistrict after the next census to make the election process even more fair, not less. Fight for our founding principals and the rights of all citizens to be represented. No redistricting in 2025. No gerrymandering by either party, EVER, please. Thank you.
10/18/25 11:51 PM	Fucking Cheaters! Vincent Hennessy	Citizenry of America	Dirty mother fuckers. You think your power will last, but it will not. And then, we will undo all the destruction you have fomented on what used to be a great, progressive state.
10/18/25 11:52 PM	Dr. Chris Richards		The purpose of redistricting is to fairly represent The People, which is why redistricting occurs after the Census. Since the last census was in 2020, you have no new information to apply to redistricting. It therefore appears you are only attempting to unfairly weight the votes for your side, the Republicans. As a registered Independent, and as a retired physician with morals, I am therefore completely against redistricting at this time.
10/19/25 12:03 AM	Kimberly Nelson		Do not redraw maps. History has its eyes on you.
10/19/25 12:07 AM	Sherry Peacock		I disagree with efforts because it has an agenda to cheat to win seat. Fair representation matters.
10/19/25 12:14 AM	Shannon Couse		This is an abuse of power and an attempt to silence minorities and those who have differing political opinions than the current majority. If you can't maintain your power without rigging the elections you don't deserve to be in power. Stop working for the FELON we currently have as a president and start working for the people of North Carolina.
10/19/25 12:17 AM	Kacie Damme		I condemn the heavily gerrymandered maps that Republicans are attempting to pass in NC! We the people should be properly represented by our government, not pushed out of the way for unchecked and unbalanced power.
10/19/25 12:17 AM	Dr John Bainbirdge		This redistricting effort is clearly an effort by the so called 'Republicans' (who sure are behaving like neo-fascists, and are completely disgracing the party and memory of Abraham Lincoln) to suppress the will of the people by giving disproportional representation, both significantly more and significantly less, to different demographic and political groups. I have heard some so-called republicans saying the demonstrations against the ascendence of neo-fascism is anti-American. As someone whose family helped found our nation and served in its defense over the centuries, I can only say that it is an extremely sad day that these pitiful excuses for political representatives, who carry the name but not values nor the decency of the abolitionists, spew such fetid dreck. I think the states districts should simply be randomly selected groups of census blocks where the random sample is constrained by: each district having the same number of residents, contiguousness of the set of census blocks, and minimizing the squared distance of the blocks to the population weighted center of the district across all districts. The process should be developed and its implementation overseen by a panel of doctoral level statisticians from North Carolina public universities (NCSU, UNC, etc.) and should be selected by each of the (bio)statistics departments faculty members as a group. The current process is a travesty.
10/19/25 12:18 AM	Ms Cheri Nipper		Do not gerrymander our state please
10/19/25 12:20 AM	L O		So sad you have to rig maps to try and stay in power. How corrupt.
10/19/25 12:22 AM	Ms. Tatum Weaver		The only redistricting that should occur in North Carolina is by an independent third party to make the map as fair as possible. The government of any state should reflect the demographics of the people. We are one of the most gerrymandered states in the U.S. Do the right thing and actually represent your constituents, not your political party. There are so many decisions being made that are not in the best interest of the people that you serve. Do the right thing - make a fair and balanced map.
10/19/25 12:29 AM	Mr. Jason Tarlton		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will result in more costly litigation.
10/19/25 12:33 AM	Karen Light		Mid-cycle partisan gerrymandering has severe consequences: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all.

10/19/25 12:50 AM	Dr Maura Jones Pullins		I strongly oppose the proposed redistricting maps in North Carolina because they dilute the political power of Black communities and undermine the principles of fair representation. For decades, Black voters in this state have fought to have their voices heard ,Äî and time and again, courts have found that North Carolina,Äôs maps were drawn to intentionally weaken those voices. The current proposal continues that pattern by splitting majority-Black communities in places like Charlotte, Greensboro, Durham, and Fayetteville across multiple districts. This is not a neutral act ,Äî it,Äôs a deliberate strategy that makes it harder for Black voters to elect leaders who reflect their communities and priorities. This isn,Äôt about partisan advantage. It,Äôs about the fundamental right of every North Carolinian to fair representation. Black residents make up more than 20% of our state,Äôs population, and they deserve the same opportunity as anyone else to shape the policies that affect their lives. Weakening Black representation through gerrymandering isn,Äôt just unjust ,Äî it,Äôs dangerous. It chips away at democracy itself.
10/19/25 12:57 AM	Joseph Burkett		You cowards should be ashamed of yourselves. If you have to cheat to win then you shouldn,Äôt be in power. Drawing electoral maps to insure your desired outcome is not how democracy is supposed to work. Rigging elections not only the disenfranchises the citizens of North Carolina it also pushes republican politics toward the extreme right. Voters deserve to have a real choice. Voters deserve to have options.
10/19/25 1:00 AM	Redistricting Heather Chapin		This is an obvious powergrab to try to support an authoritarian administration. Absolutely do not stoop so low.
10/19/25 1:02 AM	Mrs Maia Novello		As a resident of NC, this makes me sick. Manipulating the voting districts to serve any one party is cheating. Stop cheating the NC residents, stop taking away our rights and remember you are supposed to work for us and do it honestly.
10/19/25 1:16 AM	Lenny Murphy		I'm all for the redistricting. Minds well get it done now and not wait for the Supreme court to nullify the Voting Rights Act that should of never passed.
10/19/25 1:20 AM	Ms Shonni Wiggins		As a constituent in district 1, I'm upset about the constant gerrymandering of my congressional district. Stop the disenfranchisement and suppression of voters in this district.
10/19/25 1:29 AM	Max Pulitzer		North Carolina's new redistricting map represents a profound subversion of democratic principles. This political maneuver, a textbook example of gerrymandering, deliberately distorts the will of the people to benefit narrow, partisan agendas. By "cracking" and "packing" voter populations, the architects of the map have manipulated district lines to manufacture predetermined outcomes. This structural disenfranchisement effectively silences the electorate, replacing a system of voter-chosen representation with one where politicians select their constituents.
10/19/25 1:32 AM	Devin Richard	N/A	I am frankly disgusted by this blatant show of hyper-partisan politics, and the clear motive to disenfranchise voters of this state to an appalling degree. As someone who was born in this state, works in this state, and loves this state, I CANNOT believe that anyone in the legislature truly thinks this is a positive change that will benefit ALL of the residents of North Carolina. Something that legislatures across the country seem to have conveniently forgotten is that you, as a governing body, do not represent only the individuals who voted for you. You represent us ALL. Every single one, not just the convenient groups that align with your political agendas/motives. All legislation should be put forward with the sole notion that it will improve the lives of every individual in North Carolina. This effort of redistricting shows only one thing: that the legislature of North Carolina is capitulating to the requests of a federal government that does not care about the overall well-being of the populace as a whole. Grow a spine, and remember that your true calling as legislators is to represent everyone in this state. Not just the ones that share your belief systems.
10/19/25 1:41 AM	Deirdre Franklin		We do not want redistricting! Win fairly or step away.
10/19/25 1:44 AM	No more gerrymandering Kaileigh Vangritis		In an attempt to please a fascist dictator you are willing to strip voting power away from NC constituents. This is a gross misuse of power. We will show up in the primaries and do everything in our power to remove those who are trying to rig the maps to gain more power. Do not do this. You have a conscious. You know this is not right.
10/19/25 2:26 AM	Rebecca Wilson		If the House and Senate are supposed to represent and listen to me, then I would like to comment these map lines are trash.
10/19/25 3:57 AM	Ms Martha Walters		Take note of which way the wind is blowing, watch the videos from Saturday's No Kings peaceful protests. Listen to the people of this great nation and know that if you continue to kowtow to a deranged rapist cult leader that your name will go down in the history books as being on the wrong side. Trump is the current epitome of evil, tanking the economy, hurting farmers and businesses and everyone who isn't a billionaire. This is how your political career will end. Think hard about your legacy and what your name will mean to your children and your grandchildren. And also even your relationship with them in this lifetime. Do you want to be remembered with respect and love or as a shameful part of your family's history? I want to continue being proud of my home state of North Carolina and gerrymandering is not a thing to be proud of.
10/19/25 4:23 AM	Mr. Peter van Dorsten		In 1898 the party in power used violence to remove black politicians from elected office in Wilmington NC. Racial gerrymandering is today's high tech method of disenfranchising black voters in NC. Politicians should not be drawing the borders of their own districts. They have proven over and over that they can't be trusted to do this fairly. NC needs an independent commission, as other states have done, drawing electoral districts that adhere to rules of fair play.

10/19/25 4:23 AM Cassandra Campbell	I vehemently oppose the newly proposed redistricting maps in North Carolina. This is supposed to be a country and a state where the people choose who we want to represent us. Redistricting SHOULD ensure fair representation and not just be a partisan tool used for political advantage. Stop this gerrymandering and let North Carolina be a national example of functional democracy at its best.
10/19/25 4:27 AM Mrs Rebecca Cade	I can,Äôt believe you are threatening to gerrymander our fair State once more to ensure ‚Äúminority‚Äù rule. Are you so afraid of the people of this State that you can,Äôt allow us to decide who should govern? History will not reflect kindly on your cowardice.
10/19/25 4:28 AM Stacy Evans	No. Just no. You know this isn,Äôt right.
10/19/25 4:57 AM Moni Bates	Strongly disagree about gerrymandering which is the cause of extremism of political leaders and does not represent the majorities of voters. End it!
10/19/25 5:14 AM Blatant corruption Cara Nguyen	This map violates NC State constitution requirements of compactness (so no weird shapes) and county split (so no splitting 1 county to parts). Remapping is only legal if done once ever 10 years, not EVERY year. This map this year is not logically justified based on NC State constitution. This map is a blantant cheat to win seats because you know you cannot win fairly. This map is a declaration of your corruption.
10/19/25 5:33 AM Michael Whitford	To the Honorable Members of the North Carolina General Assembly's Redistricting Committee, Thank you for allowing me to submit this public comment regarding the proposed congressional district plan. I am a resident of Charlotte, North Carolina. My interest in this process is focused on ensuring the integrity and accountability of our state's democratic institutions. The fundamental objective of redistricting is to create maps that guarantee fair and effective representation. A process where the map is drawn solely by elected officials risks the appearance and reality of self-serving outcomes, where representatives choose their voters. I respectfully request that the General Assembly establish a fully independent, non-partisan redistricting commission to draw future electoral maps. This reform would ensure the process prioritizes neutral, widely accepted criteria,Äîsuch as population equality, compactness, and community cohesion,Äîover any political considerations. This change would serve to restore public trust in the final outcome. It is noted with concern that the General Assembly is dedicating immediate resources to redrawing district lines,Äîa process traditionally reserved for the post-Census period,Äîwhile critical state business, specifically passing a comprehensive state budget, remains incomplete. I urge the legislature to focus its attention on fulfilling the immediate financial and policy needs of the state, particularly those impacting essential services like public education and healthcare funding, before undertaking this mid-cycle redistricting effort. The districts enacted today will define our representation for years to come. I respectfully request a process and a result that reflects the public interest, not political advantage. Thank you for your consideration.
10/19/25 5:38 AM Gabe Eveland	This proposal follows a disturbing national trend, explicitly aligned with President Trump,Äôs call for Republican legislatures to ‚Äúnullify Democrat redistricting efforts,Äù. Such language and intent violate the spirit of representative democracy and the constitutional mandate for equal protection under the law. I urge the General Assembly to reject this proposal and recommit to a transparent, nonpartisan redistricting process. North Carolinians deserve maps that reflect communities,Äînot partisan ambitions. Gerrymandering erodes trust, silences voters, and weakens the foundation of our republic.
10/19/25 5:41 AM A D	I have yet to see one non-partisan justification for this mid-decade change. YOU work for us, and representatives in congress work for us. Your blatant effort to stack the deck in ways that disenfranchise and misrepresent us is what makes it clear that you know you,Äôre unpopular. Consider moderating your positions so that you can actually be duly elected instead of carving your way to the top. And a reminder - this administration doesn,Äôt care about you either. It,Äôs trampling on yours and congress,Äô power just as much as on ours. And it will turn on you the second it,Äôs convenient. Do your job to enable North Carolinians to thrive and stop with this ridiculous power grab.
10/19/25 5:44 AM No redistricting maps Melinda Fodrie	I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal. Democracy is hanging by a thread.

10/19/25 5:49 AM	Private citizen Elizabeth Wilde		I oppose gerrymandering in any form because it takes the rights of American citizens away in order to give power to a political party. Stand up for what is right for the American people! I refuse to support any candidate who is proposing this. You work for US not for your party!
10/19/25 5:51 AM	BethAnn Haddican		This should be illegal, this does not represent the wishes of North Carolinians. Instead fixing the elections so republicans cannot lose, fix our budget!
10/19/25 6:02 AM	Dr Zachary Van Hart		This is yet another shameless attempt by Republican legislators to tilt the congressional map further in their favor despite numerous previous attempts being halted by the judiciary. Please focus on governing instead of consolidating power.
10/19/25 6:07 AM	Upholding democracy AXEL HINRICHS		Please do not further redistrict (gerrymander) our voting maps. In the contrary, please reverse the already unfair districting. Our founding fathers have chosen the electoral college to protect minorities, not the opposite. Redistricting for political gain is undemocratic and undermines our constitution. Let's find a way back to respect our American values.
10/19/25 6:18 AM	Mary Mount		I oppose the current plan for further redistricting in NC as it effectively and unfairly restricts residents of NC from electing representatives that reflect their local interests and values. The plan skews votes into districts designed to retain and increase only certain types of representatives that do not reflect the diverse population of NC. The plan effectively rigs the election in favor of GOP and denies representation for others.
10/19/25 6:18 AM	No to Redistricting Joe Hawk		North Carolina does not need districting!
10/19/25 6:24 AM	Dr Mary Kolek		The proposed redistricting rationale and outboard anathema to the principles of free and fair elections. I am opposed and will vote accordingly to ensure candidates who are anti democratic are ousted or never get elected.
10/19/25 6:25 AM	Laura Smith		Cheaters,Ä¶gotta gerrymander to win.. we see you!
10/19/25 6:34 AM	JD Sovern		Our state has been gerrymandered long enough; It is time for the GOP to take their fingers off the scale. trump will be gone one day and your actions to appease him will not be forgotten by the populace. Don't you want to do something for which your descendants wont be embarrassed to read when your name appears in the history books?!? Asking for 11MM+ friends.
10/19/25 6:34 AM	Mrs Beth Loeb		Surely the display on No Kings Day should show that 7 million of us are opposed to the current regime. Redistricting to give an unbalanced representation in favor of said regime is unacceptable.
10/19/25 6:38 AM	Camille Thornton		Stop cheating us out of having representatives that actually represent our values. No to more and worse gerrymandering than you already have done. We are a purple state not a red one. Stop cheating, stop trying to grab power and control and let the people decide who they want to represent them. So ashamed of you all.
10/19/25 6:43 AM	Louise Skillman	self	I have to ask, "Why redistrict to unfairly increase one party's representation" in government? Is this right? What if the tables were turned? I appeal to legislators to please consider fairness, respect, and democracy vs purely a power play in your decision. Thank you!
10/19/25 6:55 AM	Mrs. Morgan Stephenson		This is SHAMEFUL. If you have to gerrymander to stay in power, then you shouldn,Äôt be in power. Please spend your time working to pass a budget that fully funds public schools and other essential services. This is a major abuse of power and you are no longer serving the people of North Carolina.. only yourselves.
10/19/25 6:55 AM	Vera Batchelor	Retired	I find it totally abhorrent that Republicans would stoop this low to get votes! This party is no longer the Lincoln party,Ä¶ It's the Trump party,Ä¶.shame, shame on all of you! I'm against gerrymandering regardless of which party controls the legislature! Notice the word control, the average American is NOT represented anymore, and the defranchised certainly is not!??
10/19/25 7:01 AM	Elizabeth Sampson		Comment submitted. If someone is not sure what to say, here is what I wrote: I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 7:01 AM	Ms Diane Hove		I,Äôm about sick of yall down there. We are gerrymandered to death. I expect a fair map like you were told, and now you come with this bullshit just to kiss Trumps ass. Remember, the karma wheel always turns
10/19/25 7:10 AM	Mrs Lucy Squeo		This idea is simply tragic. You cannot not kowtow to this unlawful administration. You are elected officials and should do what the people want.
10/19/25 7:11 AM	MS Ruth Whitsel	.....	Stop all gerrymandering. What happened to our country, where all citizens had the right to have their vote counted? Is there any morality left?
10/19/25 7:12 AM	Carolyn Pennington		I have heard it said that the reason for this redistricting is that the voters of NC overwhelmingly voted for Trump. In reality 2,876,398 people voted for Trump and 2,684,549 people voted for Harris. That is not a mandate for Trump. Why are you only governing for Trump voters? Stop stealing the voices and votes of the rest of us. Allow a fair election where everyone,Äôs votes count, not just the ones that agree with you.

10/19/25 7:15 AM	Megan Clark		I am voicing my strong opposition to the republican effort to redraw congressional maps ahead of 2026 ,Äî trying to lock in their majority through another round of gerrymandering as Democrats gain momentum with voters. Let the people of NC speak!
10/19/25 7:16 AM	Melanie Cannon		Stop it! It's just wrong! If he can win legally, he sure as he shouldn't be allowed to gerrymander and win this way. Just stop it!
10/19/25 7:18 AM	Alexis Rosamilia		I am a resident of Charlotte, North Carolina. My interest in this process is focused on ensuring the integrity and accountability of our state's democratic institutions. The fundamental objective of redistricting is to create maps that guarantee fair and effective representation. A process where the map is drawn solely by elected officials risks the appearance and reality of self-serving outcomes, where representatives choose their voters. I respectfully request that the General Assembly establish a fully independent, non-partisan redistricting commission to draw future electoral maps. This reform would ensure the process prioritizes neutral, widely accepted criteria,Äîsuch as population equality, compactness, and community cohesion,Äîover any political considerations. This change would serve to restore public trust in the final outcome. It is noted with concern that the General Assembly is dedicating immediate resources to redrawing district lines,Äîa process traditionally reserved for the post-Census period,Äîwhile critical state business, specifically passing a comprehensive state budget, remains incomplete. I urge the legislature to focus its attention on fulfilling the immediate financial and policy needs of the state, particularly those impacting essential services like public education and healthcare funding, before undertaking this mid-cycle redistricting effort. The districts enacted today will define our representation for years to come. I respectfully request a process and a result that reflects the public interest, not political advantage. Thank you for your consideration.
10/19/25 7:19 AM	Stop Gerrymandering Victoria Robb Creech	Not Applicable	Please refrain from mid-decade redistricting that would erode our power to elect candidates of our choice. Gerrymandering disrupts local control and only serves to divide natural communities. Our government needs to remain accountable to us, the people. It's the American way. Thank you.
10/19/25 7:20 AM	Ms Anna Babbitt		Do not redraw the maps. There is no need to since they were just drawn in 2023. You work for the people of NC, NOT Trump. You should be focusing on a budget, expanding Medicaid, paying teachers and public servants. If there are any changes to how votes are cast, it should be to move a rank and file voting process over the two party system which would require you all to actually work for your vote and work for us, the people of NC. I,Äôm tired of having one of the most corrupt legislations in the country.
10/19/25 7:25 AM	Karen Reese		Stop this madness please. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. How about working for the people of our state instead of creating more division and inequality.
10/19/25 7:26 AM	Patti Waltz		ABSOLUTELY NOT! This is a brazen abuse of power! This is disregarding the will of the people and putting party above country! On the eve of our 250 year anniversary of the Declaration of Independence the GOP is driving us into a monarchy. Redistricting is to be done once every 10 years and the Republican Party's intention to break the law is usurping power away from the people. If you do this, I hope the public retaliates and you suffer great political loss for your anti-American unpatriotic thievery.
10/19/25 7:28 AM	Aubrey Straub		I fundamentally disagree with this redistricting. The proposed map violates North Carolinians ability for their votes to actually represent our stances, which in turn denies us our votes. When our voices cannot actually be heard, we are being governed without representation. NORTH CAROLINA REPUBLICANS ARE A THREAT TO DEMOCRACY IN OUR STATE!
10/19/25 7:28 AM	Gerrymandered to Hell Jared Sande		This is by far the worst example of a grab for power I've ever seen in the state I've called home for my entire life. It should be a federal offense to change our district map as often as our local government has, and everyone responsible should be sent to prison. You are stealing the voices of your constituents to benefit a party that is bought and paid for by the most corrupt people that our country has the misfortune to call its citizens. Do NOT vote yes to redistrict NC again, or history will remember you as the foul villains you are. You have disillusioned so many young voters because you have shown them that their voice does not matter nearly as much as the approval of your party leaders. You are OUR employees, we are not your vassals.
10/19/25 7:28 AM	Dr. Anne Akers	American citizen and NC resident	The map that the NC House Committee on redistricting proposes is quite obviously not about NC citizens - the people who elected you, the members of this committee, to serve. It will essentially disenfranchise Democratic and Independent voters. I am an Independent and I will be disenfranchised! What are you hiding about your plans for our state if you feel it necessary to take this extreme action to retain power and to silence those who don,Äôt agree with your beliefs for governing our state? This is not what a democracy is about. This is not how you serve ALL North Carolina citizens.

10/19/25 7:29 AM	Joanna BlissThe redistricting plan is a blatant attempt to deny representation to groups of NC citizens		The redistricting plan is a blatant attempt to dent representation to groups of NC citizens. It must be stopped.
10/19/25 7:30 AM	David Simmons		Once again, the GOP-led NC Legislature attempts to disenfranchise millions of voters by silencing their voices. Congressional and other electoral districts should be drawn fairly and equitably to ensure that all North Carolinians are fairly represented. Furthermore, redrawing congressional districts midway through a census period is a blatantly political act meant only to further maintain the power of a corrupt president. I,Âôd say you should be ashamed of yourselves, but you,Âôve proven time after time that you have no shame and will do literally anything to retain power over representing the will of the people.
10/19/25 7:30 AM	Redistricting comment Bethany Brehm		Please reconsider the redistricting efforts that are being proposed here in NC. Take notice of the sheer volume of people who attended the No Kings protests here in NC and around the world and realize that Trump and his demands are not going to be tolerated. Don,Âôt be on the wrong side of this. Free and fair elections without discrimination should be the standard.
10/19/25 7:31 AM	Lynda Costagliola		I strongly oppose the newly proposed redistricting maps in North Carolina. My district is already heavily gerrymandered, combining counties with vastly different needs. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 7:32 AM	Tonya Stewart		NO REDISTRICTING! Stop trying to disenfranchise marginalized voters in North Carolina!
10/19/25 7:34 AM	Ms Kathleen Hughes Langfield		I urge you to work on other priorities of the state rather than restricting midway through the customary period. There are so many other issues that demand your attention that will serve the citizens of North Carolina. In the past North Carolina has not taken direct dictation from the executive branch. Priorities should be set by the needs of the residents including recovery from Helene and at this point helping those hurt by the government shutdown.
10/19/25 7:37 AM	Jane Burns	NAACP	Do NOT play into the hands of this facist regime!!! Free and fair elections are what AMERICA is about. If you want to do anything,ÄïOUTLAW gerrymandering altogether
10/19/25 7:37 AM	Wes Davis		Redrawing electoral maps while a state budget remains unfinished undermines the government,Äôs responsibility to prioritize essential public needs. The budget determines funding for education, infrastructure, and public services,Äîcore functions that directly impact residents,Äô daily lives. Shifting focus to redistricting during a budget impasse signals misplaced priorities and politicizes governance at the expense of fiscal stability. Elected officials owe their constituents a functioning government. You,Äôre embarrassing yourselves.
10/19/25 7:37 AM	Mr Dennis Sheehan		A basic tenet of a democracy is the fair representation of the people by the government that is elected to serve it in a fair and balanced election. These abhorrent redistricting actions are in direct opposition to that tenet. This is getting worse rather than better and we are losing our democracy. Stop his horror.
10/19/25 7:38 AM	Susan N		We need fair map with fair representing from the parties. What you are doing is voter suppression. It is unconstitutional. Sounds like you want a no kings protest in your office.
10/19/25 7:38 AM	Ms. Sue-Anne Solem		1. This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. We are not being given enough time to consider the proposal and discuss the impact with our representatives. 2. You should focus on passing a state budget instead! 3. This proposal will dilute the political power of Black North Carolinians. 4. This proposal is a poorly timed distraction. We should focus on finishing this year's election before dropping big changes to next year's. We should NOT be redistricting!
10/19/25 7:40 AM	Elissa Wagner		Gerrymandering undermines representative democracy by allowing politicians to choose their voters. It rigs elections and creates legislative bodies that are biased toward one party. It undermines the will of the voters and erodes trust in government. Do republicans really need to cheat the system to win?
10/19/25 7:40 AM	Jessica Wallace		Stop gerrymandering. This is unfair representation of the citizens of NC.
10/19/25 7:41 AM	Cindy Goodspeed		I am a voter in North Carolina. The effort to redistrict (gerrymander) my vote out of existence is both unAmerican and unconstitutional. Governmental power comes from fair elections. Cheating leads to tyranny. Reassess your self serving plans.
10/19/25 7:43 AM	Ms. Davida Horwitz		This redistricting is purely for partisan gain. To do this now, for the sole purpose to create a supermajority for one party, while the will of the actual people in this state is 50/50 is an affront to democracy. This will not serve the people of NC. It will disenfranchise more voters than it serves.
10/19/25 7:45 AM	Lisa Salmon		Republicans are cheating NC voters once again, and it is outrageous! They can,Äôt convince voters with their position on the issues, so instead they steal seats by rigging election districts. Shameful!

10/19/25 7:45 AM	Katherine Laveck		The proposed Congressional district plan will not result in a representative democracy. It seems to be intended as a massive power grab by the party that currently represents the majority. When a party or candidate wants to garner votes from NC citizens, they should propose policies that would actually help NC citizens (all of us), not just the wealthy corporate leaders. The policies of the current GOP are harmful to children, to families, to communities, to the healthcare infrastructure, to small businesses. The proposed Congressional district plan should be struck down!
10/19/25 7:45 AM	Ive Bjork	Citizen	I am writing to urge you to vote against any proposed redistricting map that is an illegal partisan gerrymander. Gerrymandering is an affront to our democratic values and undermines the will of North Carolina voters. The people should choose their representatives, not the other way around. Instead of focusing on power grabs, our elected officials should be prioritizing the needs of North Carolinians, like passing a state budget. Gerrymandering is a clear signal that politicians are more focused on protecting their own positions than serving the people who elected them. This practice damages our democracy. North Carolina has a long history of litigation over unconstitutional voting maps, costing taxpayers millions of dollars. Approving another gerrymandered map will only lead to further lawsuits. Polling shows that the vast majority of North Carolinians, including a significant number of Republicans, are tired of these partisan games and want fair, independent redistricting. Passing a rigged map would be an insult to the voters you were elected to serve and a betrayal of the trust we placed in you. We deserve a transparent redistricting process with meaningful public input, not rushed decisions designed to benefit one party over another. Please stand with your constituents and reject any map that undermines fair representation. Sincerely concerned citizen, Ive Bjork Sanford NC
10/19/25 7:46 AM	MR Terry Butler Jr		This is an absolute outrage. Make a fair map. If you can't win fairly, maybe that's a sign the people have spoken?
10/19/25 7:46 AM	Ms Nanette Peddicord		I am adamantly opposed to redrawing district lines or gerrymandering the system to illegally grab another seat for the republicans. How many times must you rig the elections? You wouldn,Äôt need to do this if your policies were popular or based in good for your constituents. Stop bending the knee and do your job. Oh, and pass a State budget.
10/19/25 7:47 AM	Erik Santana		I oppose partisan gerrymandering. North Carolina deserves fair maps that represent all citizens ,Äî not political agendas. Keep the process fair, or voters like me will work hard to bring change at the ballot box.
10/19/25 7:47 AM	Mr. Anthony Marshall	Noble Sites LLC	I oppose any redistricting plan that does not reflect a true representation of all voters in the state. Gerrymandering of ANY type should be banned. Gerrymandering along racial and party lines should be illegal.
10/19/25 7:47 AM	Ive Bjork	Citizen	I am writing to urge you to vote against any proposed redistricting map that is an illegal partisan gerrymander. Gerrymandering is an affront to our democratic values and undermines the will of North Carolina voters. The people should choose their representatives, not the other way around. Instead of focusing on power grabs, our elected officials should be prioritizing the needs of North Carolinians, like passing a state budget. Gerrymandering is a clear signal that politicians are more focused on protecting their own positions than serving the people who elected them. This practice damages our democracy. North Carolina has a long history of litigation over unconstitutional voting maps, costing taxpayers millions of dollars. Approving another gerrymandered map will only lead to further lawsuits. Polling shows that the vast majority of North Carolinians, including a significant number of Republicans, are tired of these partisan games and want fair, independent redistricting. Passing a rigged map would be an insult to the voters you were elected to serve and a betrayal of the trust we placed in you. Sincerely concerned citizen Ive Bjork Sanford NC
10/19/25 7:48 AM	Mrs. Valerie Valladares		I very strongly oppose the newly proposed redistricting maps in North Carolina. This is clear and obvious Gerrymandering meant to silence and oppress the voices of the people by making sure their votes matter less. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal. Besides: if you can't win without cheating, are you really winning?
10/19/25 7:48 AM	Carrie Archer		Once again power is being put ahead of the interest of people. This blatant gerrymandering is wrong no matter which party initiates it. The only acceptable redistributing should be the acceptance of maps created by non partisan and independent groups because the spirit of democracy is for the people to choose their representatives, not for the representatives to choose their electorate. I beg of you, do the right thing

10/19/25 7:49 AM	Educator Wanda Hanley	NCAE	Mid-cycle partisan gerrymandering has severe consequences: ‚Äì It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ‚Äì It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ‚Äì It weakens democracy. When maps are drawn to entrench one party‚Äôs power, voters lose confidence in the fairness of the system ‚Äî and many stop believing their vote matters I will continue to advocate for independent, transparent redistricting processes that protect the voice of every voter ‚Äî regardless of their political affiliation.
10/19/25 7:49 AM	Diane Malin	Diana Malin	redistricting in the middle of term is another form of cheating and denying voters a real choice. Country knows Trump is a liar, felon and a cheat but I didn‚Äôt believe North Carolina would act the same. Take a poll, republicans and democrats are against this. When Republicans can‚Äôt win they cheat. Our democracy and our constitution are on the line. Thousands and thousands of patriotic families protested these policies yesterday. Do not act with impunity, you have not earned it and do not deserve to do this. We the people wholly disagree with your actions!
10/19/25 7:50 AM	No redistricting Alicia Williams		Do not redraw district lines to favor one party. There should be one person, one vote, but specially drawn district lines erases each person's right to vote by taking away their voice. Why should I vote if people in power are the only ones that get to determine the result anyway? You are abusing power and breaking the democratic system by choosing how to redistrict to favor one party.
10/19/25 7:51 AM	Lois Bohnsack		Approximately half the population in North Carolina are Democrats. The maps should reflect this fact. This proposed map does not. The state and country need a two party system.
10/19/25 7:52 AM	Patricia Anderson		I APPOSE this! Let the people vote! All of them! Stop bowing to the dictator wanna-be.
10/19/25 7:55 AM	Kristi Oglesby	Distribution	If you feel like cheating to win is acceptable, I question you‚Äôre being a parent. Trump‚Äòs politics is not normal. I would like to think it‚Äôs not normal for the GOP either but it seems to be that they‚Äôre perfectly complicit and capitulating to what he what he wants. I love the state of North Carolina. I do not like the legislative branch of this state because they have to cheat for their gains because of their fear of not being able to get their next guaranteed vote. I‚Äôm tired of the Democrats just playing nice and just playing by the rules. If the North Carolina GOP are not going play by the rules, then neither should the Democrats. I do NOT agree with the redistricting of the North Carolina map in order to cheat to gain more Republican seats. I do not want to be controlled any more than you do.
10/19/25 7:55 AM	Nicole Matzerath		I am deeply concerned about the proposed Congressional maps. Redistricting should reflect the will of the people, not the interests of a political party. Gerrymandering undermines public trust and weakens our democracy by silencing communities. I urge you to support fair, transparent maps that ensure every vote carries equal weight.
10/19/25 7:56 AM	Mrs Ann Robinette		I STRONGLY OPPOSE this redistricting. It is once again the republicans trying to limit my representation because their policies are so unpopular it‚Äôs the only way they can win- by cheating. Vote NO!
10/19/25 8:00 AM	NO Redistricting Debra Esposito		I oppose redistricting that automatically gives one group majority over another and further undermines our democratic process which would misrepresent the wishes of the people of the United States. I love this country and what we have formerly stood for and appeal to your honor and integrity.
10/19/25 8:00 AM	Robin Hirsch		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 8:01 AM	Mr peter sword		congressional maps should not be changed until census. Data indicates the need for change. it is inappropriate to change congressional maps for political purposes. I support independent commissions for redistricting election jurisdiction.
10/19/25 8:02 AM	Brian Adamson		Blatant gerrymandering, anyone with any respect for its people would reject this map.
10/19/25 8:04 AM	Avolish electoral college Alicia Williams		Rather than redrawing lines unfairly to manipulate the democratic system, why don't you just eliminate the electoral college to that voting is actually fair? Why isn't that being talked about instead of gerrymandering?
10/19/25 8:05 AM	Mrs. Betsy Hester		The population in North Carolina is basically 50/50. The Governor is a democrat, the senators are republicans, and therefore, the house should be evenly divided. To do otherwise is "power politics" and un-American. Gerrymandering will destroy this country and it must stop. I have always been opposed to it, regardless of the party in power. It is tool of oppression and a deliberate and intentional way for one party to guarantee they remain in power. If you are a member of the "other" party in a gerrymandered district, your vote is simply erased. What is a democracy if one person's vote is disenfranchised because they are a member of another party. One person - one vote! Period!

10/19/25 8:05 AM	Ms Marquita Rodriguez		We should be allowed to have a voice about who represents us. Redistricting AGAIN before the census is insane. Please do now bow to the will of the Trump administration. Listen to the will of the people of North Carolina.
10/19/25 8:06 AM	Jane Yokoyama	private citizen	In the ten years that I have been living in North Carolina, I have gone to three public hearings on redistricting. In every instance, I drove at least an hour to reach the closest public hearing and they were held at times that were inconvenient for people who work. The overwhelming number of people who spoke gave passionate reasons for making these districts fair and balanced. What is happening now is an outrage. Legislators will be deciding new districts for the fourth time since reapportionment from the 2020 census. I am an unaffiliated voter who is sick and tired of how the legislature chooses to set the borders for the districts. According to the University of North Carolina at Chapel Hill as of Sept. 2024 there were 7.6 million registered voters in North Carolina. Specifically, 38% were registered unaffiliated, 32% were registered Democrat, and 30% were registered Republican. For the 2022 congressional midterm elections our districts came close to matching this distribution and resulted in 7 Democratic leaning districts and 7 Republican leaning districts. Today, we have 10 districts with a Republican representative and 4 with a Democratic representative. These new maps that are proposed will make it easier to have a 11 to 3 split. How is this fair? And the legislature is doing this in a non-census year with no in-person public hearings! This is clearly a case where those in power choose their voters and instead of voters choosing who should be in power. Although I may not be in a district targeted for new borders, the legislature,Äôs blatant gerrymandering allows decisions to be made that affect my district, although it has no bearing in theirs. Gerrymandering affects ALL North Carolina voters. I implore you to do the right thing and at least keep the maps what they are until the next census.
10/19/25 8:10 AM	Me. STEPHENIE KOEHN		I am firmly opposed to further Republican changes to the electoral map in North Carolina that would result in another Republican seat in Congress. I will back up my stance at the ballot box.
10/19/25 8:10 AM	Mrs Melinda Beavers		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public should be focused on local elections. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. Any redistricting should focus on actual voter data, not further partisan division.
10/19/25 8:10 AM	Joy Guy		Stop gerrymandering NOW! Stop the proposed redistricting!
10/19/25 8:10 AM	Party Line Gerrymandering Jasmine Gaston		Red or Blue, party line gerrymandering undermines our democratic processes and the will of the people.
10/19/25 8:13 AM	Jaimee Buccola		If there is any redistricting at all, it should be completed by a non-partisan group. It should NOT be completed at the whim of trump loyalists. The current federal regime has proven again and again that they are anti-democracy.
10/19/25 8:15 AM	Enough Gerrymandering Jessa Muller	N/A	I do not wish to see my state be further redistricted. It should be done by an independent 3rd party after a census or a significant even to warrant the change. Not just because someone has suggested or requested it before an election. Please do not do this
10/19/25 8:17 AM	Ms Rosalyn Marhatta	None	Stop the gerrymandering You serve the people NC not Trump the incompetent would be king.. Republicans are destroying this country and it,Äôs your job to stop that. You know what checks and balances are. Do not allow him to destroy everything we worked for. Do not allow him to take away healthcare which will kill millions of Americans.
10/19/25 8:17 AM	Ashley McIntyre		I am a lifelong NC native, born and raised in Caldwell county, raising a family in Guilford County. My family has been in NC since the mid 1700s and I love calling NC home. But I cannot, in good conscience, continue to raise children where they have no say in their government. This state is beautiful, filled with some of the most diverse ecosystems and cultures and people. Please DO NOT redistrict and continue to gerrymander away the voice of this great state.

10/19/25 8:18 AM	Adam Covati		What we,Äôre looking at is not representation, it,Äôs entrenchment. This map is a calculated, surgical rewrite of democracy in North Carolina. In a state that consistently votes close to 50/50, this plan converts balance into near-total partisan control. It silences millions of voters by design. Districts aren,Äôt drawn to reflect communities,Äîthey,Äôre drawn to eliminate competition. You can see it plainly: Raleigh and Durham, the economic and cultural heart of the state, are carved up to dilute their voice. Mecklenburg,Äôs diverse urban core is sliced away from its neighbors. The goal isn,Äôt balance, it,Äôs insurance,Äîinsurance that one party can lose the popular vote and still win the vast majority of seats. This is not just unfair, it,Äôs unconstitutional. Courts have repeatedly ruled against maps like this for violating basic principles of equal representation. This body knows that, and yet here we are again, being forced to fight for something that should be automatic: that every North Carolinian,Äôs vote counts the same. If this map stands, our elections will be predetermined. Voters won,Äôt be choosing representatives; politicians will be choosing their voters. That is the definition of corruption. I urge you,Äîdraw fair maps that reflect the will of the people, not the will of a party.
10/19/25 8:18 AM	Teri Padgett		No gerrymandering! Leave the districts alone!
10/19/25 8:18 AM	Jane Kaylor		Stop the gerrymandering. This is anti-American and not what the Founders intended. We should have fair and free elections and what you are planning is just taking away the will of the people. History will judge you for this and your reputations will be ruined forever. Helping a tyrant will not go well for you in the end. Have the courage to do the right thing for once!
10/19/25 8:19 AM	Elizabeth Griswold		North Carolinians deserve representation that reflects the state,Äôs diverse viewpoints. Gerrymandering like this undermines our democracy and strips voters of fair representation.
10/19/25 8:22 AM	Sarah Morison		Please do not redistrict NC. It took a lot to get to the current maps.
10/19/25 8:22 AM	William Carrigan		District 5 should be either rural or suburban/urban, and should not extend from Greensboro to Boone and beyond. Make congressional districts reflect b geographic closeness.
10/19/25 8:22 AM	Andrew Brannon		Gerrymandering is wrong and should be banned in all states. People of the state should be fairly represented without drawing district lines to favor one party or the other. This is just a way of rigging elections and lets stop pretending that it isnt and call it what it is - cheating.
10/19/25 8:22 AM	Ms. Maryland Ousley		I am submitting this comment to express my deep opposition to the proposed congressional map that moves my community from District 1 into District 3. It,Äôs clear this redrawing has nothing to do with fair representation and everything to do with partisan control. My community has long shared political, economic, and cultural ties with the rest of District 1. Removing us and placing us into a district drawn to favor one party strips away the voice we,Äôve worked hard to build. I know the decision may already be made, but that doesn,Äôt make it right. People are tired of being treated like political pawns. We deserve districts that protect voter equality, not ones that silence us for someone else,Äôs gain. Please know that even if this map passes, the record will show that we opposed it ,Äî and that we saw exactly what was being done. Respectfully, Maryland Ousley Wilson County Voter NC Congressional District 1
10/19/25 8:24 AM	Ms Sally Gewalt	none	It is clear this sudden redistricting effort furthers voter suppression. It is already clear from the numbers that NC's districts are already unfair. People's vote should count. It is not even time to redistrict again. NO to this.
10/19/25 8:24 AM	John Ruemker		I strongly oppose redrawing of North Carolina's congressional district map outside of the standard 10 year census cycle unless ordered to do so by a court to correct past gerrymandering. Our state's citizens have suffered losses in the power of our votes for decades due to unconstitutional and anti-democratic gerrymandering by members of both political parties, and it needs to end NOW. We deserve independent and fair districts, and the current plan to draw districts to strengthen one political party's power is a violation of these principles of fairness. I urge the NC General Assembly to reject gerrymandering and begin work to rebuild a fair election system in this state through independent, non partisan districting processes.

10/19/25 8:24 AM	Alexandria Slaughter		No redistricting! District #1, currently the only competitive district at R+1, elected a Democrat in 2024. The only other districts that elected Democrats to the U.S. House in 2024 are rated D+17, D+23, and D+24. The 10 districts that elected Republicans are rated R+8-10. How is this fair in a state where voters by political party are 32% Democrats, 30% Republicans, and 38% Unaffiliated? It isn't. That is clear. If Republican policies are not sufficient to keep Republicans in office without extreme partisan gerrymandering, you need to change those policies, not rig elections in your favor. You are supposed to work for the Great State of North Carolina, not the current POTUS. The strong-arm tactics of the Republican Party make me sick.
10/19/25 8:24 AM	Stop Gerrymandering Natasha Braswell	Self	North Carolinians deserve fair representation. We are already one of the most gerrymandered states in the country. This isn‚Äôt right, and it‚Äôs a disservice to your constituents. Stop.
10/19/25 8:25 AM	Emily Pearce		You still have not passed a state budget but instead of doing your job you‚Äôre trying to illegally manipulate districts to take choice away from NC voters. This is ridiculous and an act of cowardice.
10/19/25 8:25 AM	Julie Cutcliff		This is a shameful ploy to gain seats to throw what NC really looks like. It‚Äôs like a school yard bully on the playground changing the rules so they can win. It is anything but fair representation. This should be thrown out and REAL lines drawn.
10/19/25 8:26 AM	Dr Thomas Wade Waidsutte		I am strongly against the proposal to redraw congressional maps in the middle of the decade. Redistricting should happen once every ten years, after the census, not whenever one political party wants to gain an advantage. Changing the maps now would damage public trust and weaken the foundation of our democracy. This plan does not reflect population changes or community needs. It is a political move meant to protect those already in power. Mid-cycle redistricting would take away fair competition, drown out independent and minority voices, and make voters feel like their votes no longer matter. North Carolina has spent years trying to move past gerrymandering and build fairer elections. Doing this now would undo that progress and send the wrong message that the rules can be changed when they no longer favor those in charge. We deserve fair maps drawn in the open, with input from citizens, not politicians trying to secure their own seats. Please reject this proposal and commit to keeping elections fair and representative for everyone in North Carolina.
10/19/25 8:26 AM	Mr. Joseph Gilleran		Under the current congressional district boundaries, Congressman Don Davis represents a district that voted for President Donald Trump by three percentage points. Under the proposed lines, that district becomes Trump+11 for him, while Congressman Greg Murphy's district goes from being Trump+21 to Trump+13. In President Trump's first midterm in 2018, Democrats won several Trump+13 districts, including Oklahoma's 5th congressional district and South Carolina's 1st congressional district, winning 235 House seats overall and providing a cushion that gave President Joe Biden a governing trifecta when he entered office in 2021. That 2018 midterm was a D+8 year. Currently, AtlasIntel, which statistician and political analyst Nate Silver ranks as the most accurate pollster in American politics, is also predicting a D+8 year for 2026. AtlasIntel successfully predicted the national popular vote for both the 2020 and 2024 presidential elections. If the proposed map passes, and AtlasIntel is correct that Democrats have a D+8 popular vote advantage, not only would Congressman Davis keep his seat, but Congressman Murphy would risk losing his, as would Congressman David Rouzer and Congressman Chuck Edwards. It would be a classic "dummymander." The General Assembly would have deprived North Carolinians of consistent representation for the fourth election cycle in a row while not even protecting a political advantage for themselves. My recommendation is to leave the districts as they are, focus on protecting incumbents, and do what's right for North Carolinians without getting involved in squabbling between Texas and California.
10/19/25 8:27 AM	Redistricting Rosa Basi		This plan is utterly ridiculous!
10/19/25 8:27 AM	Dayna Ferguson		This is a horrible abuse of the power that this body holds. Our state deserves the right to have independently drawn maps. Rather then drawing new seats, to "support President Trump's agenda" we should have maps that allow us to have appropriate representation for our citizens. If Trump's agenda was actually popular you would not be doing this. Maybe try to do things that benefit North Carolinians like passing a State Budget, funding affordable healthcare, and supporting our public schools. That is how you get votes. These maps are making a mockery of our democratic process. You should be ashamed to present them to NC voters.
10/19/25 8:27 AM	Elizabeth Stover		Please vote "NO" on 2025 Redistricting. North Carolina was just redistricted in 2023 and already gives a large advantage to Republicans, which is not representative of our 50/50 state. The House should represent the people, and the proposed changes will further dilute Democrat votes, especially the Black vote. All parties should strive to have a House that accurately represents voters. Otherwise, the laws will not accurately represent the will of North Carolina citizens. Resources: https://gerrymander.princeton.edu/redistricting-report-card/?planId=recfKJhzcbV8tf8vW&fbclid=IwY2xjawNhtv5leHRuA2FlbQIxMABicmlkETFLNjhSTTVWSzJYcTI4cHRBAR4EFUukBeUQkxHWfuKGrPlHK2YTAI1vpdEFzXblIKzXUcGPTJCuJ0JMwn22Mg_aem_1rkAuUkyGczbfe6X8XOJ0A

10/19/25 8:28 AM	A Stain on our State Jean Beck	The NC Republican-led legislature is ignoring the people, taking away our basic voting rights, and destroying our great state with this partisan, fascist power grab. No one buys the claim that it is in response to California - California is putting the redistricting measure to a vote by its citizens. Berger and his Republican cronies are acting in deference to a fascist regime in order to garner favors and appease a would-be autocrat. This is not leadership. This is cowardice. Stop the gerrymandering now.
10/19/25 8:28 AM	Jeanne Allen	It is wrong to gerrymander one party or another out of adequate representation- nothing kills democracy more than the parties picking their voters, not the voters picking their reps- Dens & Reps voter registration AND actual votes cast prove NC to be a much more evenly divided state than the proposed districts - these proposed changes make it look like Republicans can,Äôt win on their ideas, so they want to win by changing the voting rules
10/19/25 8:30 AM	Elizabeth Caldwell	North Carolinians need transparent, nonpartisan district maps that reflect communities. The repeated redistricting (gerrymandering by the GOP) undermines the will of the people.
10/19/25 8:30 AM	Gerrymandering is rigging Bryan Cromer	For a party who promotes themselves as one who holds family values high and is about giving the people and states more power, your actions show your true motivation is one that promotes power being given to those who are white and of a certain economic status over voting power being representative of all of the people they represent. Gerrymandering has no place in politics today. You should be fighting to remove it rather than promote it. This action just proves that you,Äôre not strong you,Äôre scared and you,Äôve got to rig the game in order to have any chance of retaining what little credibility you have over the shrinking support.
10/19/25 8:31 AM	Jacob Moore	Let us continue to help President Trump with his MAKE AMERICA GREAT AGAIN mandate by passing this new congressional map! For too long has the Democrat Party held a stranglehold over the voters of North Carolina with THEIR racial and economical Gerrymandering! Let us help to carry on the legacy of our leaders of the past like Senator Jesse Helms, Lauch Faircloth, Gov Holhouser, and more by establishing this state once again as a true democracy built by ,ÄòWe the People,Äô. Help us to live up to and encapsulate our state motto, ,ÄúTo be rather than to seem,Äù.
10/19/25 8:32 AM	Fair Representation William Griswold	As a staunch independent I'm disheartened to see an already clearly partisan gerrymandered supermajority Republican state gov seek to further entrench itself in what's obviously not a fair or good faith effort to represent the state's voters. It does not pass the 'common sense' legislation test and it clearly does not fairly or accurately represent voters (see presidential and gubernatorial election voter results). Senator Berger's comments that this proposal is a direct result of trying to "protect the president's agenda" appears to be the only explanation for this proposal. This is a bad precedent to set for our state, period. A more fair approach to the difficult but necessary task of gerrymandering is to appoint a bipartisan districting committee. This proposal further damages the already statistically demonstrable and deeply unfair partisan gerrymandering that NC has experienced in recent years.
10/19/25 8:33 AM	Ms Linda North	We don't need or want new maps. Free and fair elections are the goal not rigged maps to make either side cheat to win,
10/19/25 8:35 AM	Lisa Mathes	Your efforts are not only illegal but unconscionable and morally wrong. The republicans,Äô continued vilification of democrats undermines our democracy and you are contributing to that by supporting this redistricting effort. This is exactly why the voting rights act was enacted - to prevent this blatant power grab. You would be beyond furious if this was happening to your party. Donald trump and his minions-yes, that includes you, are by far the worse thing to happen to this country since the civil war and one may happen again if the republicans continue their blind allegiance to that self Indulgent narcissist.
10/19/25 8:36 AM	Grace McLain	This is stealing a seat. Our population in NC is much more evenly split among Democrats, Republicans, and Unaffiliated voters. Voters should be choosing our elected officials without gerrymandering to allow one party to elect more of their candidates, especially when that party hasn,Äôt passed a budget and is trying to deny many of us healthcare and a sound public education. Do your job!
10/19/25 8:36 AM	John Petranka	People have no faith in government anymore, and "redistricting" to give a clearly purple state an 11 to 3 Republican advantage is one reason why. This is anti-democratic voter suppression at its worse. The pendulum will eventually swing.
10/19/25 8:37 AM	Ms. Julie Oliver	This plan to redistrict in a way that takes away the voice of so many North Carolinians is wrong. Let the people be heard in numbers that accurately reflect who lives here.
10/19/25 8:37 AM	Jeanine Ripp	I oppose further redistributing efforts. North Carolinians deserve fair, stable maps drawn through a TRANSPARENT, NONPARTISAN process- not constant political manipulation of district lines.
10/19/25 8:37 AM	Courtney Fanflik	VOTE NO!! The proposed maps would dilute the political power of Black North Carolinians, ,Äúcracking,Äù the northeastern Black Belt into two districts. This is in direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color.

10/19/25 8:38 AM	Ms Rosemary McGee	American Citizen	I thought all votes mattered equally. But under this mandate delivered by Trump, it's now to be decided by presidential edict and abdication of local representatives Hall and Berger. NC is a swing state which is pretty much equally divided across Blue, Red and Purple. It will now be further mandated that only GOP VOTES count. Quite the irony as Trump constantly proclaims that the 2020 election was a fraud ! And, here he is mandating this ACT and Hall and Berger comply, Because this is the only way Republicans can win. "President Trump earned a clear mandate from the voters of North Carolina and the rest of the country, and we intend to defend it by drawing an additional Republican Congressional seat,,Äù Hall said in a statement Monday. THIS IS NOT HOW IT'S INTENDED TO WORK. EVERY VOTE SHOULD COUNT EQUALLY. The mandate was delivered on an extremely manipulated base which is now going to be further enhanced . Let's see how the voting goes when people have lost or can't afford insurance/healthcare and the other real life impacts from the BBB and giving $1T to the top 1,% .
10/19/25 8:38 AM	David Walsh		I am appalled by the current gerrymandering in our state and urge our state legislature refrain from further abuse of power to disenfranchise voters in our state. The 2024 map resulted in a 10-4 Republican advantage even though there are currently slightly more registered Democrats in North Carolina than Republicans. Republicans can't win without cheating, and you should be ashamed of your actions.
10/19/25 8:38 AM	Margaret McAlister		Your proposed map is unfair and you must know this. Do not vote for this. Sincerely, A Constituent
10/19/25 8:38 AM	Mrs Caitlin Chicoli		This redistricting of the NC maps is a blatant attempt to take voting rights away from the people of NC. Instead of "protecting President Trump's agenda" as Phil Berger said, you should be looking out for the people of your state. In case anyone forgot, you were elected to serve the people, not the president.
10/19/25 8:39 AM	Ariana Olivieri		Sure ,Äî here,Äôs a polished, more impactful version of your message while keeping your original passion and intent: ? Redistricting should be illegal. Our counties deserve fair representation. Republicans know they can,Äôt win without rigging the system, and that,Äôs exactly what gerrymandering does. Representation should serve everyone in a district ,Äî not just a select few. Democracy belongs to all of us, not just to Trump or his administration. Shame on those who took his call to manipulate districts and steal seats from the community. Fairness and integrity should never be partisan issues
10/19/25 8:39 AM	Rollin Lind		Redistricting doesn't address topics affecting your constituents. Cost of living, healthcare and the budget are issues you should be addressing. Redistricting is not a policy solution.
10/19/25 8:39 AM	Just DON'T Sean Costello		Just DON'T! At least not BEFORE passing the "required" legislation, namely a state fiscal budget. You work for North Carolinians, not Trump. WE come first!
10/19/25 8:39 AM	Robert Shaffer		VOTE NO!! Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Äô ability to hold our leaders accountable.
10/19/25 8:41 AM	Mary Kircher		North Carolinas population is nearly 50-50 republican and democrats. The districts should reflect that split. I ask that you represent the entire state electorate and not approve this map.

10/19/25 8:43 AM	Marnie Holland	Concerned Cutizen	I am concerned that the reason for this redistricting is to ensure that the Republican party gets elected. NC is known as being one of the most gerrymandered states in the United Stated. These are Arguments against the current redistricting proposal. -Creates unfair representation. Manipulating district lines, a practice known as gerrymandering, allows the political party in power to choose their voters rather than voters choosing their representatives. This can result in a mismatch between the statewide popular vote and the number of seats a party wins. Reduces competition. Gerrymandering often creates "safe" seats for incumbents, leading to fewer competitive elections. This can decrease accountability, since elected officials may feel more beholden to their party or political base than to the broader electorate. Causes political polarization. When districts are drawn to concentrate like-minded voters, it can create an "echo chamber" effect. Representatives primarily accountable to their base may become more extreme in their views, making bipartisan cooperation more difficult. Empowers politicians over the public. In many states, the legislature has unilateral control over drawing the maps, leading to a process that lacks transparency and is motivated by partisan gain. Disadvantages minority voters. While the Voting Rights Act is intended to protect minority voters, partisan map drawers can still engage in racial gerrymandering to dilute the political strength of communities of color. Here are some proposed solutions of reform to address the negative aspects of redistricting: Independent commissions: Transferring the power of redistricting from state legislatures to independent or non-partisan commissions is a solution adopted by some states, such as California. These commissions, made up of citizens rather than politicians, are designed to create fairer maps
10/19/25 8:43 AM	Ms Robin Newman	NC citizen	I oppose this attempt to further dilute the power of citizens so that Republicans can manipulate state elections to their advantage. Shameful and unacceptable.
10/19/25 8:43 AM	Jennifer Dorton	Resident of NC	NC is already gerrymandered. The legislature does not need to make the situation even worse. The only thing the state needs is non-partisan redistricting so that elections can be fair.
10/19/25 8:44 AM	Jill Skinner		Request from Governor I strongly oppose the newly proposed redistricting maps in North Carolina. My district is already heavily gerrymandered, combining counties with vastly different needs. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 8:44 AM	Joslyn Brown		I vehemently oppose redistricting for the purposes of favoring republican seats. We must not use racist tactics to gain power. Use your power for good- pass a budget to pay teachers
10/19/25 8:46 AM	Jane Flieg	None	This is just another attempt to disenfranchise voters. Voters should be choosing their representatives, not the other way around. This will be the 5th set of maps in 5 years. Gerrymandering is wrong, regardless of which party is trying to do it.
10/19/25 8:48 AM	Frank Southecorvo		Stop the partisan gerrymanders!! If you really hate democracy so much, move to China or Russia. If you're going to stay in NC, LET O U R VOT E S C OU N T!
10/19/25 8:48 AM	Mrs Susan Faulkner		I am against redistricting. You are making sure the votes of some people do not count. Don Davis is my representative, elected by the people of my district and you are trying to make sure he does not get re-elected. Shame on you
10/19/25 8:48 AM	J. Andersen		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 8:51 AM	Meredith Holland		Voters should choose representatives. NOT YOU!!! No gerrymandering!!!!!

10/19/25 8:53 AM	Non Partisan drawing Megan Moore		To the Honorable Members of the North Carolina General Assembly's Redistricting Committee, Thank you for allowing me to submit this public comment regarding the proposed congressional district plan. My name is Megan, and I am a resident of Matthews, North Carolina (Mecklenburg County). My interest in this process is focused on ensuring the integrity and accountability of our state's democratic institutions. The fundamental objective of redistricting is to create maps that guarantee fair and effective representation. A process where the map is drawn solely by elected officials risks the appearance and reality of self-serving outcomes, where representatives choose their voters. I respectfully request that the General Assembly establish a fully independent, non-partisan redistricting commission to draw future electoral maps. This reform would ensure the process prioritizes neutral, widely accepted criteria,Äïsuch as population equality, compactness, and community cohesion,Äîover any political considerations. This change would serve to restore public trust in the final outcome. It is noted with concern that the General Assembly is dedicating immediate resources to redrawing district lines,Äïa process traditionally reserved for the post-Census period,Äîwhile critical state business, specifically passing a comprehensive state budget, remains incomplete. I urge the legislature to focus its attention on fulfilling the immediate financial and policy needs of the state, particularly those impacting essential services like public education and healthcare funding, before undertaking this mid-cycle redistricting effort. The districts enacted today will define our representation for years to come. I respectfully request a process and a result that reflects the public interest, not political advantage. Thank you for your consideration.
10/19/25 8:53 AM	Kathryn Sabo		The republican,Äôs plans to redistrict cannot happen as it creates an unfair map and gives them more power, which goes against the constitution of this nation. We cannot allow them to do whatever they see fit in order to stay in office as they know the public does not want that to happen. Do whatever is necessary to keep the map as is.
10/19/25 8:53 AM	Robin Southecorvo		Do not redistricting!!!! It's un-American. Let all people be counted We are already gerrymandered enough ! If anything, change the already areas of gerrymandering.
10/19/25 8:53 AM	Chastin Kornegay		This is racist.
10/19/25 8:56 AM	Mrs Emily Kiral		Do not give the republicans more seats. The current administration does not represent the state of NC! Only 30% of all NC residents are republicans!!
10/19/25 8:56 AM	TIFFANY STRALEY		Redistricting would mean selling democracy for dictatorship, proving that politicians are not here to represent constituents, but rather, to represent greed and racism. As an elected official, you have a duty to the public, not the president.
10/19/25 8:58 AM	Beth Lange		This proposed redrawing amounts to a power grab at the expense of voters and fairness. Instead of protecting the democratic principle that voters choose their representatives, it flips the script so that representatives choose their voters. For all of these reasons, this map should be opposed.
10/19/25 8:58 AM	Brooke Smaltz		DO NOT redistrict, North Carolinians deserve fair representation in congress!
10/19/25 9:00 AM	Ann Culler		Please focus on passing budget and stop redistricting.
10/19/25 9:00 AM	Paula Decker		I do not approve of racial gerrymandering. Please keep the election process fair for all citizens. Every vote should count.
10/19/25 9:00 AM	Ms. Virginia Edler		I do not support redrawing the district maps. If the people want to elect a democrat they should be allowed to do so. Redistricting is the same as denying the people their vote.
10/19/25 9:01 AM	Mrs. Lindsay Sappington		I do not in any way support redistricting without accurate census data. I absolutely do not support redistricting because Trump asked you to do it. That is inappropriate and not a representation of the voters in the state. North Carolina is a purple state. It is not a red state. This redistricting is trying to make North Carolina a red state. We need to continue to hold competitive elections in the state and not fall into gerrymandering even further.
10/19/25 9:01 AM	Linda Tribble		Any redistricting based on party affiliation is an obvious attempt to cheat in order to win elections,Ä¶how ,Äúhonorable,Äù
10/19/25 9:05 AM	No to redistricting! Susan Van Atta	Self	NC is gerrymandered like crazy already- that,Äôs not right and now you want to do it even more for a purely shameful power grab. No to moving forward with this- the people deserve to be FAIRLY represented!
10/19/25 9:07 AM	Natalie Micale		I care about democracy and the people,Äôs votes. Every vote. No gerrymandering.

10/19/25 9:08 AM	LINDA EKMAN	none	Please do not redistrict our state. We are purple now, which is great, as it gives all of our residents a say. We need open discussion and bi-partisan effort to make this state work for everyone. Creating a super-majority would stifle an important tool of our democracy. Say "no" to gerrymandering
10/19/25 9:08 AM	Margaret Yelverton		Do not gerrymandering. If a candidate's ideas are not good enough to be chosen honestly by the electorate in free and fair elections, they do NOT deserve to be in office.
10/19/25 9:09 AM	Amanda Apony-Moriarty		The practice of gerrymandering is inherently undemocratic. Elected officials should represent their community as a whole. not a segment of their community and a few neighborhoods 20 miles away.
10/19/25 9:09 AM	Dr. Donald Van Atta		This proposal is a terrible, extremely partisan, unsustainable idea. Voters should fairly choose their representatives. Our current electoral map is heavily weighted to favor one party. This proposal will make it worse. Disenfranchising half our state,Äôs population is neither just nor sustainable. Please don,Äôt make it worse.
10/19/25 9:10 AM	Mr Larry Tilson	None	Mid-decade redistricting is nothing more than an attempt to disenfranchise certain voters. It should be illegal; it's certainly objectionable. Registered voters in North Carolina are split 50/50. Congressional representation should be in proportion.
10/19/25 9:10 AM	Rev Joshua Watts		Please stop selling your soul to Trump. Do you not realize that everything you do will come back on you twice as hard. You claim to be Christian, but every public actions appears to be more in line with Hell. Draw a fair map that represents all of NC. Not everyone loves to punish poor people and celebrate the rich. I know Jesus didn,Äôt.
10/19/25 9:13 AM	Redistricting Sara Pierson	Unaffiliated	Respectfully, I oppose redistricting.
10/19/25 9:14 AM	Kristen Smith		I am tired of the NC GOP doing everything except effectively governing for ALL North Carolinians. You should not need to gerrymander yet AGAIN if you have sound policies. Have you considered that instead of rigging the system?
10/19/25 9:15 AM	Mrs Carly Noorani		Electoral maps should be representative of the people. Do not change the electoral map to change the congressional districts. The people you represent do not want this change and please work hard to protect our democracy.
10/19/25 9:15 AM	Russell Glissmann		This is the most absurd plan ever! Draw up a new redistricting plan just to appease Donald Trump? Just to attempt to ensure Congress is entirely Republican? Are you really that naive to think that just by redistricting, you are going to remain in power? Or maybe this will cement your position with Donald Trump and get you a new position with more power and more money? You don't care about what happens to North Carolina so long as the Republicans stay in power? This is the most self-serving act anyone in Congress has to offer! What about working towards a budget for North Carolina? What about working to help out people affected by Helene that got screwed by Donald Trump's charity? I can think of a thousand other things that are MUCH MORE IMPORTANT than redistricting. Oh well, I'm sure this comment will get me and North Carolina nothing! Thanks for helping Donald Trump become the first dictator for what used to be called the United States of America!
10/19/25 9:17 AM	3362606584 Deshawn Dickerson	UNC Hospital	Please stop the madness
10/19/25 9:19 AM	Against Redistricting Cynthia Bost		I am against any further redistricting in our state because we are already gerrymandered enough! If any redistricting is done, it should be done fairly, and not to appease a corrupt president!
10/19/25 9:20 AM	Jill Bercovitch-Blake		Do NOT do this! It,Äôs shameful and an affront to voters! Pass the budget instead!
10/19/25 9:20 AM	Mrs Lisa Rufo		Any unfairly drawn redistricting plan that gives political party power over another is wrong. Our maps need to be fair and the Republicans idea to redistrict according to Trump,Äòs plan is cheating, plain and simple, and the public won,Äôt have this.! they were protests recently all around North Carolina against this administrationso if you think people are in agreement with this, you,Äôre very wrong. Lisa Rufo
10/19/25 9:20 AM	Do the right thing! Michelle Minor		You represent are supposed to do best by North Carolinians. We have had enough of sycophants! Manipulating district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Äô ability to hold our leaders accountable. Enough is enough do the right thing!
10/19/25 9:20 AM	Jill Skinner		Request from Governor Stein I strongly oppose the newly proposed redistricting maps in North Carolina. My district is already heavily gerrymandered, combining counties with vastly different needs. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 9:21 AM	Patrick Holbrook		I am a North Carolina resident. Donald Trump won 51% of the vote in the 2024 North Carolina general election, and we voted for an entirely Democratic executive state branch. That does not give the state house a mandate to gerrymander. It stands to reason that the congressional district maps should fairly represent the people approximately 50/50, as they are now. It would truly be a twisted abomination to change the maps to a 70/30 situation. Please keep the map as-is to fairly represent the people of North Carolina.

10/19/25 9:21 AM	Carolyn Bowman		I am sick of the Republicans stealing and suppressing votes of North Carolinians. When they know that they can,Äôt win, they cheat. NO redistricting.
10/19/25 9:22 AM	Mrs Lucille Griffin	Griffins Great Getaways LLC	I oppose further redistricting in North Carolinians deserve fair, stable maps drawn through a transparent, nonpartisan process,Äînot constant political manipulation of district lines.
10/19/25 9:22 AM	Mrs Courtney Stewart	Non	This redistricting is unnecessary, unfair, and poorly timed. It undermines public trust by disrupting representation outside of the regular redistricting cycle and appears driven by political motives, not population shifts or public interest. Please reject these changes and support a fair, transparent process that protects voters,Äô voices and the integrity of our elections. I am a registered NC independent voter.
10/19/25 9:22 AM	Linda Cole		I,Äôve never been very vocal as far as politics but what I see happening with Gerrymandering and redistricting to give one party an advantage in our elections is not conducive to democracy and fair elections. I am an independent and until Trump generally voted Republican but with what I see happening with Trump and the MAGA group there is serious question whether I,ÄôIl be voting republican in the next elections. Especially if there is redistricting. If this happens there is no option but to vote these republicans OUT!!!!! Please remember this when you vote for this.
10/19/25 9:23 AM	Dawn Morriston		Dear GOP, did you see the No Kings rallies? America is not with you. Everything you do backfires, so stop doing it.
10/19/25 9:26 AM	Ms Lila Rosa	Engaged Durhamites for Democracy	This proposal is unnecessary, rushed, and costly. North Carolina has been redistricted twice since 2020. That's already too much. Instead, legislators should focus on passing a state budget instead of enacting a redistricting plan that will likely result in costly litigation. Plus, this current proposal will dilute the political power of Black North Carolinians ~ which I am strongly against! The national Voting Rights Act requires the legislature to proactively consider race in redistricting to *protect* against illegal vote dilution for Black and Brown voters, not to disenfranchise their vote deliberately. This proposal is a poorly timed distraction. Let us focus on finishing this year's election before dropping big changes into next year's. Thank you in advance for taking the moral action to support ALL North Carolinians, not just white North Carolinians who vote Republican, by defeating this proposal.
10/19/25 9:27 AM	Dr. TJ Jamison		This change seems unnecessary and disrupts fair representation outside the usual cycle. Voters deserve a process that is impartial and transparent ,Äî not one that appears to serve political interests over the public good. I respectfully urge you to oppose this redistricting plan and to protect the integrity of our electoral system.
10/19/25 9:27 AM	Juliana Rodriguez		A free and fair election is what we should be about, this move to redraw the maps undermines and unfairly takes away the voice of the people. Pass a budget and leave the maps alone.
10/19/25 9:28 AM	The electoral college Karen Romo		The electoral college needs to go. I would drag myself off my death bed to vote for the first person to run on that agenda.
10/19/25 9:31 AM	Susan Lee		Please do not allow this gerrymandering to continue. NC legislature needs to be representative of the population.
10/19/25 9:31 AM	Maria Zaharatos		North Carolina deserves fair representation. I reject the redistricting proposal and urge our legislators to do the same and ensure that we do not cave to partisan pressures and authoritarian requests from President Trump to influence elections in his favor, and that further divide our country. We are already the most gerrymandered state and this proposal would disenfranchise thousands of rightful voters.
10/19/25 9:33 AM	Rev Nola Knouse		I object strongly to the attempt to redraw congressional district lines apart from a new census, especially when it is being done for the stated purpose of supporting the current president's agenda. It is up to the PEOPLE to vote in our representatives, and this should be done in accordance with fairly established districts. If you cannot trust that your agenda will pass muster without this redistricting, then you have little faith in the justice or rightness of your agenda.
10/19/25 9:33 AM	Karmen Best		Shame on you for trying to further disenfranchise the people of the state you,Äôre supposed to serve because the president told you to. We need fair maps, You work for us!
10/19/25 9:37 AM	Logan Wray	NC Taxpayers	This is a disgrace and an attempt to rig free and fair elections through gerrymandering. If the president is so popular and has a mandate, why do you need to fix elections for him? I didn,Äôt vote for this, and we citizens don,Äôt pay taxes to fund your salaries so you can restrict our rights and weaken the power of other people,Äôs votes. So why doesn,Äôt the NC legislature do something productive and NOT controversial with their time instead? Like fixing the NCDMV.

10/19/25 9:37 AM	NC Assembly Redistricting Michelle Truesdell	Thank you for allowing me to submit this public comment regarding the proposed congressional district plan. My name is Michelle Truesdell and I am a resident of Waxhaw, Union County, North Carolina. My interest in this process is focused on ensuring the integrity and accountability of our state's democratic institutions. The fundamental objective of redistricting is to create maps that guarantee fair and effective representation. A process where the map is drawn solely by elected officials risks the appearance and reality of self-serving outcomes, where representatives choose their voters. I respectfully request that the General Assembly establish a fully independent, non-partisan redistricting commission to draw future electoral maps. This reform would ensure the process prioritizes neutral, widely accepted criteria,Äîsuch as population equality, compactness, and community cohesion,Äîover any political considerations. This change would serve to restore public trust in the final outcome. It is noted with concern that the General Assembly is dedicating immediate resources to redrawing district lines,Äîa process traditionally reserved for the post-Census period,Äîwhile critical state business, specifically passing a comprehensive state budget, remains incomplete. I urge the legislature to focus its attention on fulfilling the immediate financial and policy needs of the state, particularly those impacting essential services like public education and healthcare funding, before undertaking this mid-cycle redistricting effort. The districts enacted today will define our representation for years to come. I respectfully request a process and a result that reflects the public interest, not political advantage. Thank you for your consideration. An Underpaid, Under appreciated, NC Teacher
10/19/25 9:38 AM	Laurel Harry	NC is a purple state that just elected a democratic governor. We already have districting that favors the GOP. redistricting now (at Trump,Äôs request) to disenfranchise even more democratic voters is a blatant power grab that constituents see and disapprove of.
10/19/25 9:41 AM	Darla Wiedeman	This mid cycle partisan gerrymandering has severe consequences, it silences voters, as districts are drawn to ensure predetermined outcomes. It destabilizes elections at a time when many voters are already not trusting the elections. It waste tax payers money. It weakens democracy. Is a power grab, that was requested by the president. It's not fair to the voters as the voters do not have a say, at least in California voters are being asked if its's ok. It needs to be transparent and independent that protect the voice of EVERY voter regardless of political affiliation.
10/19/25 9:43 AM	Sherry Grissom	What is happening to our democracy? As one who doesn,Äôt prescribe to labels, I have always been grateful to live in a purple state. Where my vote truly counts in matters of local, state and national elections of importance. To take that ,Äúvalue,Äù away from MY vote, to draw lines not through equal value of your citizens thoughts and concerns, and to not even HIDE that you are doing it to cheat the system into getting more seats of one party (or another, I don,Äôt care which is which), is out right despicable. When you bend the knee to the national leaders, as this assembly has outright said they are doing (,Äúanswering the call,Äù of POTUS), you are leaving the state,Äôs rights argument in the dirt. You are stomping on EVERYTHING this party and this state has been proud to demonstrate over many years - that it is the will of the people, and not the will of a SINGLE party that matters. Ensure legitimacy of our votes as North Carolinians, take care of your entire electorate. Don,Äôt cheat your way to leadership and try to claim legitimacy through disenfranchisement.
10/19/25 9:45 AM	Dr Cathy Hallenbeck	Please- NO Redistricting in NC! Stop playing around with The People's votes!!

10/19/25 9:45 AM	Bryon Feth		I write to express my strong opposition to the state government's plan to redistrict our Congressional map. While the Supreme Court has ruled that redistricting based on political affiliation is not unconstitutional, legality does not equate to fairness, and it certainly does not absolve the state of its responsibility to uphold the core principles of representative democracy. Redistricting that entrenches partisan advantage, especially when building upon already gerrymandered maps, undermines the foundational democratic right of every citizen to have an equal voice in their government. Gerrymandering manipulates district lines in a way that dilutes votes, suppresses competition, and protects incumbents, effectively allowing politicians to choose their voters rather than voters choosing their representatives. This form of redistricting erodes free speech by rendering entire communities politically invisible. When a person,Äôs vote is systematically weakened because of where they live or how their district is drawn, their ability to participate meaningfully in the democratic process is diminished. This is not just a political concern, it,Äôs a constitutional one. The First Amendment guarantees not just the right to speak, but the right to be heard, especially through the ballot box. Furthermore, continuing to draw maps that prioritize partisan gain over fair representation deepens public distrust in government. It sends a clear message that political advantage outweighs public interest, and that elected officials are more concerned with preserving power than with reflecting the will of the people. This is not how democracy should function. Redistricting should aim to reflect communities of interest, encourage competition, and ensure that every voter,Äôs ballot carries equal weight, regardless of party affiliation. I urge the state to reject any plan that furthers partisan gerrymandering and instead adopt a redistricting approach that prioritizes transparency, accountability, and above all, fairness. The health of our democracy depends on it. Respectfully,
10/19/25 9:46 AM	Jane Geraghty		No to changing the maps again. It was just done a couple of years ago. Stop trying to change the peoples voice. You work for the people. History will not be kind to those sticking up for a government who is not working for the people. You know this is wildly unpopular. Even with the base. Listen to the people. Say NO!!! One man will not be able to save you from getting reelected.
10/19/25 9:48 AM	Teres Blane		I am against the proposed redistrixring plan which is not representative of the true make-up of NC voters and will deliberately disenfranchise thousands of voters.
10/19/25 9:48 AM	Mr Enrique Baloyra		A September 2025 survey of North Carolina voters conducted by a Republican polling firm found 84% of NC voters oppose gerrymandering under any circumstances, including 78% of Republicans, including your home district. Please ensure to represent all North Carolinians and¬†refrain from further gerrymandering our voting maps.
10/19/25 9:49 AM	Ms Carol Ann Lowe	None	A non political commission should be in charge of redistricting, NOT State Legislatures.
10/19/25 9:50 AM	Mr Stephen Garrity	none	I strongly oppose this scheme. Totally unfair and undemocratic. If you haven't gotten the message of the people's discontent from the massive number of citizens demonstrating this weekend, you certainly will at the ballot box if this type of shennanagin goes forward.
10/19/25 9:52 AM	Cindy Finan		I am happy to provide my comment on the plan to further disenfranchise more North Carolina voters. I think that mid-cycle partisan gerrymandering has severe consequences: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all. We all know what you are doing and we will remember when it comes time to vote.

10/19/25 9:54 AM	Mr. Richard Dansky	Concerned Citizen Who Votes And Cheerfully Pays His Taxes	Berger talks about delivering the state to Donald Trump. Let us consider what exactly Donald Trump has done for North Carolina. He lied about Federal aid being withheld after Hurricane Helene, to the point where relief workers were in physical danger because of the anger Trump stirred up. He then refused to give further aid to the state after being sworn in. He has slashed funding for medical research, a disaster in a state whose economy and higher education system is built in large part on that foundation. He has devastated the agricultural sector by eliminating programs to help farmers, going after farm labor for deportation, and losing traditionally safe markets for our state's farm products. He has devastated support for veterans. He has overseen the degradation of our military and defenses, a huge concern in a state with such a strong military presence. The list goes on. Berger's desire to continue this pattern of behavior that is actively and aggressively bad for North Carolina and North Carolinians is partisan, corrupt, and dangerous.
10/19/25 9:54 AM	Lauren James		I oppose the redistricting of NC according to the proposed congressional district planning.
10/19/25 9:55 AM	Dr Mindy Oshrain		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.
10/19/25 9:55 AM	Sarita Pennoh		Redistricting for the benefit of Donald Trump but at the expense of the Black vote is absurd. This is a harmful act that will have consequences for years to come. If you actually believed in Donald Trump and his power, you wouldn't have to redraw the map at all, but you fear change so much that you're willing to put fundamental rights on the line. Please reconsider your stance on redistricting.
10/19/25 9:57 AM	Terry Scholl	No organization. NC voter	Please do not redistrict NC mid census. State redistricting should only occur every 10 years. Please support keeping that standard model and do not change voting districts this year.
10/19/25 9:58 AM	Jenna Benjamin		Not that you are listening to your constituency at all, but as an independent voter and donor I oppose this plan. Instead of changing the rules to win,Äîwhich is un-American and un-democratc,Äîperhaps you should look at the Trump agenda that is so unpopular your seats are vulnerable. You work for the people of North Carolina (allegedly); if they want what you are offering you don,Äôt have to cheat.
10/19/25 9:59 AM	Ms Mary Farmer	Retired Healthcare Professional	I,Äôm sick to death of this nonsense. North Carolina voters should decide who represents their areas. Republicans can,Äôt win without cheating. Form a nonpartisan committee for redistributing now. Neither party has been fair. STOP Gerrymandering NC! NOW!!!
10/19/25 10:03 AM	Kathryn Tinkelenberg		I am opposed to any redistricting that is being done for the sole purpose of making it more difficult for true representation of the will of the people. Government is to serve the people not itself.
10/19/25 10:06 AM	Mary Storms		To all the republican and MAGA members of the NCGA: I hope you realize that the majority of North Carolina,Äôs citizens disagree with your redistricting plan. The majority want open and free elections and the opportunity to vote for the candidates who best represent them and their communities. That,Äôs what democracy is. But Trump doesn,Äôt believe in democracy and he has mandated that all republican-led states redistrict in order to gain more congressional seats. Trump doesn,Äôt know the first thing about our beautiful state and what the majority of law-abiding, hardworking, compassionate, educated and tax paying citizens of North Carolina want or need. But all of you do. That,Äôs your job. Please stop playing these petty partisan games and concentrate on more important things like passing a budget! Leave the electoral maps alone!
10/19/25 10:06 AM	Mrs Rosemary West	Retired	There is so much political unrest that maybe we should ALL be Independent and eliminate ALL political parties and just vote for whom ever wants to do what is good for the people AND OUR Country and not just what a politician wants to do to maintain their status and their particular PARTY'S agenda!! Afterall, we are ALL a member of the UNITED States of AMERICA.! NOTHING ever gets accomplished without working TOGETHER!! WE ARE ALL ONE BODY!! STOP running in circles chasing a bone and GET TO WORK making our country better for it's citizens!! STOP hating each other!!
10/19/25 10:07 AM	Jeffery Bergenthal		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and our votes should count equally, regardless of political affiliation, race, or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal
10/19/25 10:09 AM	Voters Elect Andrew Smith		In a representative form of government, the people vote on their representatives instead of the politicians picking their voters. Draw fair maps.

10/19/25 10:11 AM	Mrs Jamie Allen	As a registered Independent voter and Social Worker, I strongly oppose the redistricting of maps in North Carolina. The proposed redrawing of maps represents clear partisan gerrymandering, which undermines the fundamental principles of fair representation. Every North Carolinian deserves to have their voice heard and their vote counted equally, regardless of political affiliation or geographic location. This proposal silences marginalized communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, through a bipartisan council and not a Republican controlled House and Senate, with the goal of ensuring equal representation. Redistricting before an upcoming midterm election is obviously an act of gerrymandering and an attempt by Republicans to maintain the majority. You were elected to represent the best interests and well being of all North Carolinians. Please uphold your oath of office and ensure every vote counts. Let the voice of all people be heard. Thank you for your time.
10/19/25 10:12 AM	Syd Pennell	Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. When will you play fair? Let the votes speak for themselves? Why must you cheat to ensure your success? As a progressive, if I were in your position, I would seek to represent ALL North Carolinians regardless of political affiliation. Do the same. Stop the gerrymandering. May you be happy, may you be peaceful, and may you be free from suffering.
10/19/25 10:13 AM	Gerrymandering Madison Walicki	If you have to cheat to continue to push your values, maybe you should reevaluate what exactly you are doing for the people as an elected official. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Âô ability to hold our leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Âîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! Redistricting now is unnecessary, rushed, and costly. The public is not being given enough time to consider the proposal and discuss it with their representatives. Legislators should focus on passing a state budget instead of rushing through an unfair redistricting plan that will likely result in costly litigation. North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps.
10/19/25 10:13 AM	Andrea Cash	NC Republicans are planning to rig our congressional maps YET AGAIN. The stated purpose is to "help Republicans secure Congress and move @realDonaldTrump,Âôs agenda forward!,Âù (Those are NC Republicans,Âô words, not mine.) This is not how it's supposed to work. Voters are supposed to choose their representatives, not the other way around. Legislators, why don,Äôt you work on passing a budget? We are one of two states in the U.S. that hasn,Äôt passed a budget. Shameful! Do your jobs!
10/19/25 10:14 AM	Samantha Haspel	It is unacceptable to redistrict to enable any party to dominate. We are a country of democracy, which entails at least two parties with equal chance of representation. We are a purple state.
10/19/25 10:16 AM	Meredith Diaz	Our maps are already gerrymandered to high heaven because of the NCGOP and your fear of your constituents voices being truly represented. If they were, you fascists pigs would be out of a job. White men do not represent all of the people of NC and you have rigged the maps in your favor for years because if you didn,Äôt, you would LOSE. Stop being sore losers and let the peoples voice be heard! NO TO GERRYMANDERING.

10/19/25 10:17 AM	Rural judicial influence Phillip Bowden		I am writing as a private citizen of Clay County, North Carolina, to raise a concern regarding representation and accountability in rural districts during the redistricting process. While redistricting is often viewed in terms of political boundaries, it must also consider regions where concentrated institutional power,Äîparticularly within the local judiciary and courthouse administration,Äîcan limit the fair voice and protection of ordinary residents. In Cherokee County, a small number of interconnected courthouse officials hold simultaneous influence across judicial, administrative, and procedural functions. When judicial authority and clerk positions overlap through family or internal institutional ties, citizens may face barriers to due process, fear of retaliation, or diminished confidence that grievances will be heard fairly. In such environments, seeking recourse or transparency can carry perceived personal risk, discouraging public participation and leaving serious issues unreported. This concentration of power creates a unique form of underrepresentation. Even when legislative districts appear balanced on paper, the lived reality is that certain rural counties operate without meaningful checks, external oversight, or neutral avenues for citizens to address misuse of authority. These conditions do not reflect the democratic standards that North Carolina strives to uphold. I respectfully urge the General Assembly to recognize that redistricting should account not only for population shifts, but also for regions where entrenched institutional control impedes equitable representation. If left unaddressed, such concentrations of power threaten public trust and fair governance in rural North Carolina. ,Äî Phillip Bowden, Clay County resident impacted by Cherokee County judicial authority
10/19/25 10:18 AM	Ms. Sarah Rubin	NA	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps. A recent poll shows that the vast majority of North Carolinians disapprove of gerrymandering, which violates core principles of fairness and accountability. Our voting districts already give Republicans more than their fair share of seats in Congress. Please do not bow to the demands of a president who only cares about retaining power and regularly shows disrespect for the Constitution and laws of the land.
10/19/25 10:18 AM	Alison Hester		I,Äôm writing as a concerned North Carolinian who values fair representation. I understand that your party already holds a strong majority in our state government, but the continued gerrymandering of district maps undermines public trust and weakens our democracy. We deserve districts that reflect communities ,Äî not political advantage. Fair maps give every voter confidence that their voice matters, regardless of party. North Carolina is stronger when elections are competitive, transparent, and representative of all its people. Please consider leading with fairness and integrity by supporting balanced, nonpartisan redistricting. This would show true respect for the will of the people and strengthen faith in our democratic process.
10/19/25 10:18 AM	Stop Rigging Elections Ryan Stowe		I strongly oppose the proposed congressional map that would give one political party control of 11 out of 14 seats in a state that consistently votes nearly 50/50. This plan is not a reflection of the will of the people. It creates an outcome that silences millions of voices. North Carolinians deserve competitive districts that encourage accountability, representation, and trust in our democratic process. Gerrymandering erodes confidence in elections and discourages participation from voters who already feel unheard. I urge the General Assembly to draw fair maps that reflect our state,Äôs true political balance and protect every citizen,Äôs right to equal representation. Democracy works only when every voice counts, not just the ones chosen by those in power.
10/19/25 10:18 AM	Aya Wallace		North Carolinians deserve fair representation. Gerrymandering is not a fair representation, and the purpose of this redistricting is not ,Äúby the People.,Äù All parties suffer.
10/19/25 10:19 AM	Mr Alan Ivey	Very Mad Citizens	What did trump promised Berger if he does redistrict. I'm a former Republican but Actions like this are Crooked and shady! We won't forget what you have done.
10/19/25 10:21 AM	Nancy Casey		I,Äôm writing to urge the committee to reject any plan to redraw the electoral map in North Carolina before the 2026 midterm elections. To do so is blatantly partisan and robs citizens of their rights to pick their own representatives. Please reject politically motivated redistricting. Thank you for your consideration.
10/19/25 10:21 AM	Elizabeth Adams		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.

10/19/25 10:22 AM	Attorney Caroline Jones		This is a shameless and blatant attempt at a grab of power under the direction of a would be authoritarian President. The Republican Party should step back from this attempt to placate and should stand for the people who put them in office. That does not mean redistricting and attempting to claim more seats, it means listening to the voices of North Carolinians, meeting with the House and Senate, and actually passing a working State Budget. That needs to be the priority, not stop-gap measures and redistricting.
10/19/25 10:23 AM	Blatantly Evil Savannah Swiggard		Abusing your power to take away the voices of North Carolinians is vile beyond words. The fact that you aren't ashamed should keep you awake at night. You, house member, are evil. You betray your citizens for power and influence and you know you're doing it. And you don't care. You will not read this, because you don't care. You will not care about who you hurt. You will not care about how God views your selfishness and abuse of power. I hope Hell is at least comfy when you end up where you belong.
10/19/25 10:24 AM	Kris Lewis		This is appalling, un-American cheating. Stop licking Trump's boots, cowards.
10/19/25 10:25 AM	Annabelle Stein		I'm writing to oppose attempts to redraw North Carolina‚Äôs congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around.
10/19/25 10:25 AM	Ms Erin Lambert		This ploy to redistribute is a blatant attempt at a power grab in NC. The last time you Republicans tried this is was shot down by every court that it was taken to. What are you so afraid of in a fair and lawful election that you must try to cheat your way there again. Wasn‚Äôt it embarrassing enough when the Republicans Party in NC backed Griffith‚Äôs attempt to steal state Supreme Court seat in the 2024 election. That failed attempt at a power grab made the NC republicans party a nationwide laughingstock. Asher to the rule of law and the voting rights act. Anything else is an attempt to disenfranchise and remove votes from the NC citizens.
10/19/25 10:26 AM	mrs monique fisscher		OPPOSE CONGRESSIONAL REDISTRICTING in response to presidential or party political desparation to hold on to power when Americans from all parties oppose their policies.
10/19/25 10:26 AM	R P		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters‚Äô ability to hold our leaders accountable. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition‚Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps.
10/19/25 10:27 AM	Mrs Krista Fox		76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Gerrymanding violates core principles of fairness, accountability, and undermines free and fair elections.
10/19/25 10:27 AM	Dr. Timothy Merrick	Member, Board of Education, New Hanover County.	Voters choose their representatives. Your redistricting is a way to cheat voters of their voices. You want representatives to choose their voters. That‚Äôs backward and it‚Äôs cheating. If you knew you had good candidates, and you were confident people supported your party, you would never ever do this. It‚Äôs clear you know that voters do not support you and so you will cheat to win. You should be ashamed to stoop so low.
10/19/25 10:27 AM	Sandra Hutchinson		Native North Carolinian here. I am opposed to what you are doing. The purpose of redistricting is to adjust areas of representation based on changes in population as evidenced by the result of the census every 10 yeas. What you are doing has no justification beyond the majority party being drunk on power and their desire to show fealty to Trump. Neither reason is honorable or beneficial to the people of NC. You should be working on a state budget.
10/19/25 10:27 AM	Nancy Gray		Redistricting to guarantee votes - by any party - is a scourge on our democracy. It takes away our ability to have a say in who makes decisions affecting us. Doing it to please the President and ignoring the desires of constituents is despicable. I live in Watauga County and am an involved citizen who votes and I want my vote to count. The NC Legislature with the efforts of Representative Hise has basically taken away my ability to have a say for School Board members and County Commissioners. This is despite a local referendum that past last year where 71% of voters voted for locally drawn fair maps. It's wrong in Watauga County and it's wrong for all of North Carolina. If legislators have to redistrict to win, they are not even trying to the needs of all North Carolinians.

10/19/25 10:28 AM	Dr Kirsten Firminger		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 10:28 AM	No redisricting Orland Carra		I urge you to refrain from redrawing the map to benefit republican voters.
10/19/25 10:28 AM	Donna Deal		Gerrymandering in order to win an election is immoral. You already know that. The more power you give to Trump, the farther we get from democracy. Stand up for what is right. Your actions matter.
10/19/25 10:29 AM	Gabrielle Smaltz		DO NOT REDISTRICT
10/19/25 10:30 AM	Ms Miriam Herman		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. North Carolina has already been redistricted twice since 2020 in ways that do not fairly represent all North Carolinians. NO MORE GERRYMANDERED MAPS.
10/19/25 10:30 AM	Janice Little		Our Democracy depends on voters selecting their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. Perhaps you care more about protecting billionaires than caring for the citizens of North Carolina? NO MORE GERRYMANDERED MAPS.
10/19/25 10:30 AM	Virginia Bristol		I am opposed to redistricting at this time. There has been almost no time for public comment and I fear this is just another way Republicans will disenfranchise Black North Carolinians from having their votes counted in a meaningful way.
10/19/25 10:30 AM	Stop redistricting Frances Low		If you,Âôre going to redistrict, put it back the way it was to more fairly represent the state of NC. It is a purple state and should be represented that way in Congress. Respect EVERYONE,ÄôS opinion. Make NC a true democracy that reflects the citizens of this great state.
10/19/25 10:31 AM	Caroline Lentz		North Carolina is a true purple State. We need equal representation for both parties. A delegation of 7 Republicans and 7 Democrats is the only free and fair way to represent the interests of ALL North Carolinians. Do your jobs with honesty and integrity. The 2024 swing for Trump did not give you a mandate to cheat the citizens of NC out of fair representation in Congress.
10/19/25 10:32 AM	Mr. Michael Weiss		Republicans: Shame on you. Your policies are so terrible and unpopular that you cannot win elections without cheating. And then you lie about your actions. You are traitors to the constitutions you have sworn to uphold.
10/19/25 10:33 AM	Mr Jason Moore		I am a resident of Carteret County. I am a registered voter in the proposed 1st Congressional District and I stand against this proposed redistricting map. The proposed 1st Congressional District will create a congressional district too large and unrepresentative of the voters in the proposed district. The proposed 1st Congressional district includes coastal counties and inland counties far into the northern Piedmont region of North Carolina. Carteret County,Äôs coastal economy is entirely different than the economies of counties in the northern Piedmont of North Carolina. I ask that Carteret County,Äôs state representatives vote against this proposed congressional map.
10/19/25 10:33 AM	Sangeetha Shivaji		Gerrymandering is a shameful practice. There is no legitimate reason to redraw these districts. This is corruption.
10/19/25 10:33 AM	Do not redistrict. Justin Lee	Citizens	I,Âôm requesting, as a tax paying voter and NC resident, to not redistrict. It is not right and if I have to I will actively campaign and vote for the opponents of whomever votes to redistrict. Thank you
10/19/25 10:33 AM	Katharine Cannon		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS
10/19/25 10:33 AM	Dennis Harrison		Just wait until the next census to redraw the maps. Gerrymandering once a decade is enough.
10/19/25 10:33 AM	Michael Traylor		Redistricting in North Carolina has repeatedly undermined the fundamental principle of representative democracy: that voters should choose their leaders, not the other way around. When district lines are drawn to entrench power rather than to reflect communities, we dilute the voices of citizens and erode public trust in government. True representation depends on competitive elections that encourage accountability, dialogue, and moderation. Instead, partisan redistricting fractures communities of interest, discourages voter participation, and deepens division. It allows politicians to treat entire neighborhoods as pawns in a political strategy rather than as people with shared needs, hopes, and values. Opposing redistricting in its current form is not about protecting one party or another,Äîit,Âôs about protecting democracy itself. North Carolinians deserve fair maps created through transparent, nonpartisan processes that put citizens first. Until redistricting is removed from the hands of those who stand to benefit from it, our state will continue to suffer from distorted representation and a weakened public voice.
10/19/25 10:34 AM	Caroline Sherman		I am strongly opposed to the idea of redrawing district maps at this point in time as it seems extraordinarily manipulative in our purple state to undermine the power of each individuals vote.
10/19/25 10:34 AM	Tasha Paul		Do not redistrict.

10/19/25 10:34 AM	Alice Carlton		I strongly oppose the planned partisan gerrymandering! Let the voters choose their elected officials not vice versa!
10/19/25 10:34 AM	Michele Tidd		i am a registered voter and I want you to VOTE AGAINST GERRYMANDERING OF CONGRESSIONAL DISTRICTS!!
10/19/25 10:35 AM	Joseph Amorello		The plan to redistrict North Carolina,Äîagain,Äîis utterly despicable. It is blatant fraud, it is blatant corruption, and it is un-American at its very foundation. The GOP,Âôs newest attempt to gerrymander North Carolina even further is yet another obvious ploy for them to tighten their stranglehold on the power in this state that they have already seized. The members of the committees pushing for this redistricting have no interest in representing all of the constituents of their state, only the ones that agree with them. Simply put, this is a case of politicians choosing their voters, instead of voters choosing their politicians. I,Âód tell you to be ashamed of yourselves, but it,Âós clear you have no shame. What other explanation is there for such gross disenfranchisement of millions of voters?
10/19/25 10:35 AM	The gerrymandering of NC Matthew Brown	Private citizen	I,Âôm a strong believer in the democratic process. Proposing this change sends a message to the people of North Carolina that the officials we,Âôve elected no longer value our rights as Americans. As someone who has voted Republican in the past two elections, I find this deeply troubling. It feels as though we,Âôre heading down a path that will divide Americans and undermine democracy ,Äî a path where elections become systems designed to ensure that only one party can win. What happens when Democrats regain power? Won,Âôt they be tempted to use the same tactics? And when that happens, we,Âôll have no one to blame but the party that set the precedent. If this bill is passed, I fear the last election will have been my final one as a Republican.
10/19/25 10:36 AM	Stephanie Brown		Democracy depends on voters choosing their elected officials, not the other way around. North Carolina is roughly 50% Democratic-leaning voters and roughly 50% Republican-leaning voters. Our congressional maps should reflect our state. Redistricting should not occur outside of the constitutionally-mandated decennial census (per Article I, Section 2 of the U.S. Constitution). NO MORE GERRYMANDERED MAPS.
10/19/25 10:38 AM	2025 Redistricting R. L. Watson		No. This bill is probably unconstitutional. If you pass it, you are treating Mr. Trump as though he were a king.
10/19/25 10:39 AM	Debra Monnin		I oppose attempts to redraw NC congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. Both sides of the aisle agree that voters should choose their representatives not the other way around.
10/19/25 10:39 AM	Maureen K Conklin		NO GERRYMANDERING! Any redistribution of seats from one party to another more than an historical rebalancing would predict proves manipulation and anti-democratic intent. Those proposing it should be charged with treason against the people of North Carolina, regardless of which party they represent or even if they represent no party at all, or are unelected officials or private citizens.
10/19/25 10:41 AM	Susan Lander		you do not need to do this. You have much more important work to do, don't you? LIKE TEACHER RAISES and STATE EMPLOYEE RAISES generally? Why don't you give a rip about the working people of NC?
10/19/25 10:41 AM	Susan Arshack	na	Biased redistricting deprives NC citizens of a basic right: the right to choose their elected officials. Please do not redraw the maps. Gerrymandering is anti-democratic. It is not the way we should do things in the United States.
10/19/25 10:41 AM	April Sherrill		This is shameful! You can,Äôt win without cheating??
10/19/25 10:41 AM	Ms Carol McCullen		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 10:45 AM	Eowyn Turner		This is wrong and should not be done. Maps need to be drawn to fairly represent the people, not silence voices that deserve to be heard.
10/19/25 10:45 AM	Jessica Cramer		Stop gerrymandering. If your party cannot win without hacking districting to death, then deal with it. You are here to serve the people. If we don't vote for you then you need to rethink your policies not push people out that will vote against you.
10/19/25 10:46 AM	Suzanne Cavanaugh		Gerrymandered districts are an abuse of power and do not allow the will of the people to be heard. The people of North Carolina are not served by these proposed changes to the districts.
10/19/25 10:47 AM	Laura Heyneman		Dear members of the House Select Committee on Redistricting and the Senate Elections Committee, I am writing in strong opposition to the plan to redraw district maps. Maos are supposed to be redrawn every 10 years to reflect the population of the state, and should not be redrawn simply to follow the wishes of a President who is increasingly unpopular in North Carolina. Furthermore, it,Âós clear that implementation of these maps will result in legal challenges that will require public money to defend. And this is all being done while the legislature hasn,Âôt even passed a state budget! Instead of passing an unnecessary and costly restricting plan, NC legislators should focus on passing a state budget.

10/19/25 10:48 AM	Ethan Ethan Chirico	Citizen	Redistricting NC for the sake of gaining more seats is a poison pill. If the Republican party wants more seats, they need to create policy outcomes that make them more popular. Texas and other states changing their districts for short term wins will hurt the party and democracy in the long run.
10/19/25 10:48 AM	Bette Meyer		Stop! Stop! Stop! You are CHEATING! It is cheating to not have our Congressional districts represent the voting public.
10/19/25 10:49 AM	Jon Shain		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 10:49 AM	Dr. Julie Johnson		Gerrymandering is a corrupt exercise that has effects beyond election results. It undermines our confidence in the fairness of institutions, causes cynicism in both winners and losers, and is fundamentally destabilizing. Why should people who are excluded from meaningful participation in our democracy respect anything our public institutions offer? Gerrymandering isn't just bad for Democrats or Republicans--it is corrosive to democracy.
10/19/25 10:50 AM	Jeremy Barker		We get it... politics are politics.. and most of us would love if our "elected" representatives represented "us." It makes absolutely no sense to redraw lines, especially when we all know it is for political gain. We get it. This helps you! It does not help us! And it does not restore our faith in our elected officials.
10/19/25 10:52 AM	Jenni Franz		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It‚Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.
10/19/25 10:53 AM	Xana Mills		We deserve fair representation in congress. It‚Äôs ridiculous that redistricting is even being considered right now when we are still years away from the next census. People should have equal representation across political parties and it‚Äôs already skewed enough as it is. Stop pandering to others and actually focus on the people in this state.
10/19/25 10:54 AM	Mr Jim Schott		This redistricting is totally unnecessary and costly. Besides, it just plain cheating. Is this the way Republicans do democracy? Do you really have to cheat to win? Why not just come up with policies that help your constituents. You know,Äî-governing.
10/19/25 10:54 AM	Virginia Madorin		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal. NO TO THIS!
10/19/25 10:58 AM	Dustin Abele		?To the House Select Committee on Redistricting and Senate Elections Committee: ?I am submitting this comment to express my unequivocal opposition to the current proposed Congressional redistricting plan. Given North Carolina's established history as a politically competitive state, with a near 50/50 split between major party voters, this map is clearly an extreme partisan gerrymander. ?The proposed districts violate the spirit of fair representation by unnecessarily fracturing communities and creating a disproportionate number of safe partisan seats. This manipulation of the electoral process is an abuse of power and undermines the integrity of our democracy. ?I urge the Committees to halt the advancement of this plan and instead adopt criteria and a map that prioritizes: ?Compactness and Contiguity ?Respect for Counties and Municipalities ?Partisan Neutrality to accurately reflect the state's political balance. ?The citizens of North Carolina deserve fair maps, not maps drawn to predetermine election outcomes.

10/19/25 10:58 AM	No redistricting Cassidy Chester		Gerrymandering and manipulation of district lines is a direct attempt to weaken the voters of the state. It silences voters, divides communities, and undermines the constitution. You should be focusing on helping the people of your state through passing funding, helping recovery efforts, and addressing the poorest who are suffering in your state due to the inhumane actions of so many people in power in this country. Instead you are trying to re-draw a map that has no reason to be adjusted except to cheat the system and the people. I am firmly against this proposal and I do not think it should be passed.
10/19/25 10:58 AM	Christin Austin		It is a shameful and blatant grab for power that should be stopped immediately. If they can do it, so can Democrats and then you just have a constant flipping of districts and power grabbing va working for the people.
10/19/25 10:59 AM	Deborah Johnson		I'm probably wasting my breath commenting as I'm assuming this is all theater and you'll do as you please regardless of public comment but ... knock it the f--- off with the gerrymandering. We need two functioning parties to have even a prayer of a decent democracy and that means that each voter deserves an equal voice. Fix your policies if you want to win elections, don't change voting maps to do so. Trump is insane but I know damn well there is SOMEONE in the GOP with a modicum of a moral compass that can take a pause and consider, hey, it would be atrocious if the other party behaved this way. I was raised Republican - I am not anymore. Please give me a reason to come back to your party.
10/19/25 10:59 AM	Adrienne Lallo		It is brazen disrespect for citizens to have elected officials choose their voters ,Äî rather than the other way around ,Äî by cracking and packing district maps before every election cycle. The time our General Assembly wastes in political activity is nauseating. Get your act in gear and come to rational solutions for the people of this state.
10/19/25 11:01 AM	Aimee Hollis		Do not gerrymander this state. We have already thrown away millions of taxpayer dollars with the Supreme Court cases on how gerrymandered the lines are. It is a breach of your fiduciary duty to further waste tax payer money. For a party of small government, this is beyond overreach. This is pandering and a flagrant attempt to turn democracy into an inverted totalitarian regime.
10/19/25 11:02 AM	Kelsey Bredice		The proposed redistricting plan presented by republicans is despicable. The ,Äúvalues,Àù of the GOP are no longer the values of the average American, and certainly do not reflect those of us in NC. By further gerrymandering our state, you are spitting in the faces of every single tax payer/property owner/business owner who contributes to this beautiful state. The GOP has shown time and again that they only value themselves and absolutely no one else. We, the people, will not stand for this! You are pushing people toward desperation, and unfortunately we all know that will not end well for any of us. As a citizen of this state, a property owner, manager of a small family business, and someone who grew up loving this state and country, I beg of you to consider the severe implications of what is being proposed and understand that it is absolutely UNFAIR. Having GOP propaganda shoved down our throats is not going to suddenly make everyone in this state a white Christian nationalist (which is what the GOP wants). We will boycott state taxes if this is allowed to proceed. We will, as a state and as a united people, absolutely refuse taxation without representation. If you think our budgets are screwed now, go ahead and pull this mess and find out how bad it can get. Every republican or democrat who votes in favor of this will NEVER work in politics again. If you value your career, or care AT ALL about our state, you will not allow this obscene gerrymandering to occur here.
10/19/25 11:03 AM	GERRYMANDERING REJECTED BreeAnna Johnson	Lumbee Tribe of NC	I am an enrolled member of the Lumbee Tribe as well as a homeowner. I want to denounce new maps as this is not only against the time frame that new maps are allowed to be drawn, but a clear intention for republicans to stay in power. DO NOT TOUCH TRIBAL DISTRICTS AND LAND. Leave the maps how they are, they are gerrymandered enough!
10/19/25 11:04 AM	julia burr		no. no. no. no. these redistricting proposals are way out of line. it is like a team that is afraid of losing: they keep trying to change the rules in order to not lose. i have been living and voting in north carolina for 25 years and have watched both political parties win and lose in a fairly proportionate matter. instead of changing the lines in districts, perhaps its time to truly listen to what the people are asking for and get elected on merit and integrity.
10/19/25 11:04 AM	Lorie Lowans-Wells		North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. We need our leaders to focus on education and the needs of the people!!
10/19/25 11:06 AM	Margaret Callahan		I object to redistricting and gerrymandering.
10/19/25 11:07 AM	Mary Hely		Mid-cycle partisan gerrymandering has severe consequences: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all. Protect voters NS let us choose our politicians instead of letting politicians choose their voters!

10/19/25 11:08 AM	James Morrow	None - Individual Citizen	My name is James Morrow, a resident and registered voter in North Carolina. I oppose your efforts to redraw the election districts in favor of Republicans. You have already cheated many residents of this state by your similar redistricting efforts of just three years ago. Gerrymandering is wrong on both sides of the aisle, but Republicans seem to take it to an extreme in North Carolina. If you insist on redistricting, then roll the maps back to the ones used in elections before 2023, when North Carolina had a seven/seven split of House Representatives, which is much more aligned with the nearly even electorate split within our state. Your time should be spent on crafting a state budget, aiding the victims of catastrophic storm damage, and adequately funding education. Your proposed redistricting helps none of those needs. DO YOUR JOB by addressing our infrastructure, our jobs, our healthcare, and our children. I invite you to contact me anytime to discuss this further. James Morrow
10/19/25 11:09 AM	Mrs Michele Carter		This is absolutely atrocious. I am an Independant and am fully and totally against unfair mid district gerry mandering, ordered by Trump, who seems to be committed to winning at whatever the cost to principles, the law, the constitution or anything remotely fair to the people of this country. It is absolutely atrocious and it makes me cry and fear for this country and its future. Their was no wide-scale cheating in the 2020 elections but this mid cycle unprecedented merry mandering in order to circumvent the will of the people is cheating; and not only is it cheating, circumventing the will of the people is undemocratic and I will never forgive the Republicans in their current form for these assaults on our democracy. Where have the normal, fairly principled Republicans gone. They are called Rhinos now and are blacklisted leaving behind a band of thugs, cowards, liars and people thst the founding fathers would be ashamed of .
10/19/25 11:10 AM	Debra Lawrence		Voters have the right to choose their representatives, not one party or the State. This mid-term Republican driven Redistricting for power is wrong and voters know it ,Äî,Äî and so does every member of the legislature. 85% of North Carolinians are opposed to this mid-term redistricting.
10/19/25 11:11 AM	Jackie Bruno		Leave it up to the PEOPLE to choose who runs their districts. By redrawing the map, you all are cheating the system and cheating the own citizens of NC who YOU need to vote for you to stay in office.
10/19/25 11:12 AM	Melissa Blake		Redistricting to favor any political party is unethical and gerrymandering. When district lines are drawn to favor or disadvantage a political party, meaningful representation is compromised and community interests are sacrificed to the partisan goals of political parties.
10/19/25 11:13 AM	Alicia Torres		This is unacceptable and unamerican, democracy is built on fair voting - moving the goal posts in your favor is wrong. Do not redraw the lines!
10/19/25 11:14 AM	OVER IT Candace Bell		It,Äôs exhausting being represented by people who clearly do not have the best interest of their citizens in mind. Only their own pocketbooks. You can,Äôt even pass a budget and you want to do this? How about we focus on what the people in this state need. A STATE BUDGET. HEALTHCARE. MENTAL HEALTH PROGRAMS. DISASTER RECOVERY RELIEF. SO MANY THINGS NEED ATTENTION. We don,Äôt need more people elected who don,Äôt accurately represent people and in turn don,Äôt acknowledge the NEEDS of the people. Please end the madness.
10/19/25 11:14 AM	Maura O'Hagan		North Carolina has a long history of standing up for individual rights and representation, from the Halifax resolves to our history as a swing state. Redistricting along party lines goes against the spirit of the people of North Carolina who have long fought for our voices to be heard, from colonial times to modern day. Redistricting should take into consideration the voices of all north Carolinians. Voting rights are not a partisan issue one party does not decide what is best for the people of the state nor the country. America was founded on collaboration, disagreements will be had, but that does not mean silencing those we disagree with. The only redistricting that should happen in our already incredibly gerrymandered state is by a neutral independent third party to ensure all North Carolinians voices are heard. We cannot continue this tense, divisive, partisan governing. Sincerely a lifelong resident of North Carolina.
10/19/25 11:14 AM	Stewart Johnson	November	Who thought we live in a democracy? This is a completely anti-democratic bill.
10/19/25 11:15 AM	Mrs. Susan Sherron	Retired NC teacher	The NC constitution says redistricting is revised every ten years after the census. That is not now. Why are you going against our own constitution? If you ,Äúwin,Äù, is it even ,Äúwinning,Äù if all you did was cheat to do it? Have more self-respect than that, please.

10/19/25 11:16 AM	Redistricting Shayna Stillman		I am deeply concerned that the proposed districts appear drawn primarily to protect partisan interests rather than to fairly represent the people of North Carolina. Gerrymandering - by any party -undermines the integrity of our democracy. It allows politicians to choose their voters instead of voters choosing their representatives. The result is predictable: less competition, lower voter turnout, and a legislature that does not reflect the true political and geographic diversity of our state. This erodes public trust and discourages meaningful civic engagement. Our state deserves districts that promote accountability, transparency, and genuine representation. Fair maps should prioritize compactness, respect for county and municipal boundaries, and the preservation of communities of interest,Äînot political advantage. As a constituent of a small, rural county (*), I want a government that listens to and represents all of us, not just those who happen to live in politically engineered districts. I urge you to adopt a nonpartisan, transparent redistricting process that puts the interests of voters first. Thank you.
10/19/25 11:16 AM	Resident Garrett C		This is a direct attack on the voices of North Carolinians and is supporting the dictatorship that is developing in our country.
10/19/25 11:16 AM	Fair elections Linda Newman	Self, and other places	We need fair elections to honor the will of the voters. Stop cheating!
10/19/25 11:18 AM	Ms Pauline Angelakis		North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps.
10/19/25 11:19 AM	Ms Kirsten Roos		Stop destroying voters rights by your blatant gerrymandering!
10/19/25 11:19 AM	Redistricting Elizabeth Wruck		It is wrong and unamerican to redistrict at this time, this is gerrymandering.
10/19/25 11:19 AM	Mr . James Willis		Gerrymandering violates core principles of fairness, accountability, and limited government.
10/19/25 11:19 AM	Cindy Elmore	none	Why are you putting a desperate plea by Donald Trump ahead of North Carolinians and doing his bidding? You certainly haven't asked if NC constituents and voters want this very odd years-away-from-the-Census decision to disenfranchise much of the state yet again. YOU are not kings! Represent us -- all North Carolinians -- not just SOME! Have ideas that get Republicans elected -- not just force-and-only-force. This is shameful. And when you consider your actions at the end of your life, this won't be what you look on with pride.
10/19/25 11:23 AM	Cheryl Maxwell		Gerrymander more. Take away my voice. You may win, but you lose in the game of life. Shame on you
10/19/25 11:24 AM	Mr William Maloney		Don,Äôt do it
10/19/25 11:24 AM	Anna M Mantey		Opposed
10/19/25 11:24 AM	Mark Roberson		How many times do you need to redistrict to assure yourselves of a win? Stop cheating! We need a non-partisan committee to draw our voting district boundaries, not the legislature. Don't let the President control our state politics!
10/19/25 11:24 AM	Ms. Mirra Price		North Carolina has already been gerrymandered enough! We don't need further gerrymandering in this state! In fact, we need to undo the previous illegal gerrymandering spearheaded by Republicans in the legislature.
10/19/25 11:25 AM	John Thomas		I am opposed to partisan gerrymandered electoral districts. The districts are already unfair. Don't make them worse.
10/19/25 11:25 AM	Ms Raye Chennault	N/A	Everyone should have equal representation and without gerrymandering.
10/19/25 11:26 AM	Joanne Stewart		As a 25 year voter in every election, National, State, Local, and primary, I wish to state my strong opinion on gerrymandering. It's is wrong when either party is involved and it makes election results that do not express the will of the people.
10/19/25 11:27 AM	A A		This is blatant gerrymandering. It isn,Äôt okay and it,Äôs not acceptable. Greed and dishonesty are perverting everything about a system that was established to benefit the masses, not the few. Please, hold yourselves to your oaths and the constitution. Separately, for those who call themselves Christian yet participate, justify, and/or are complacent in these actions, remember who you are actually accountable to and what is required of you. ,ÄúThese people honor me with their lips, but their hearts are far from me.,Äù Mt 15:8 Care for everyone. 25:31-46 Love others. Plpp 2:3, Mt 22:36-39 Practice what you preach. 1 Jn 3 Have a conscience. 1 Tim 1:5
10/19/25 11:27 AM	Carin Vigil		I want to go on record that I am against redistricting to disenfranchise North Carolinians even further than they have already been. Watching the erosion of democratic norms in North Carolina over the past 10 years and now seeing it happening at the federal level is disheartening as an American. We were founded on principles against tyranny, but the last year has been a slide into removing the freedoms and rights so many in our country have fought for. I uge the General Assembly to drop the efforts to redistrict to pick up a seat for Republicans in the House of Representatives at midterms as this is anti-democracy and shreds the meaning of what it is to be American.

10/19/25 11:29 AM	Martha Marshall		Drawing districts that favor one political party over another is one more step in making UNCA less of a democracy. Districts should be drawn to enocurage more people to vote their choices. Elections are about doing what is best for ALL the people, not what is best for just a portion of the people. The US House of Representatives and the US Senate are there to represent the people, not to rubber stamp what the US President wants. I call for districts drawn based on where people live, not what political party they are a member of. The United States was founded on Democratic plinciples and one party rule is in direct violation of those principles.
10/19/25 11:29 AM	Michael OBrien	Citizen	You must be terribly afraid... of what? maybe you are not that good at representing all North Carolinians?.... it's not your way or my way... it's our way... Compromise built this country... consolidated power is never good... so draws your little maps... but just remember.... karma is a bitch
10/19/25 11:31 AM	Dr Elizabeth Conroy	Durham County Senior Democrats	Please do not redistrict before the 2030 census. Please do not redistrict so there is one more Republican seat in North Carolina. When legislators know they will be elected no matter what, they do not have to be responsive to the citizens of the state. North Carolina is called a purple state because we have citizens with differing opinions. All should be represented in the state legislature.
10/19/25 11:31 AM	John Barton		NOW you ask for comments? If you can,Äôt win (or lose) a fair election, you have no business holding yourself out as a representative of the voters. Fencing off districts by party is cowardly and immoral, and the fake ‚Äúmandates‚Äù that result represent no one. Asking for comments after the deal is done is pathetic. Maybe the electorate will vote against your manipulation and, as a consequence, against you.
10/19/25 11:31 AM	Aaniyah Garner		This is unfair and ANOTHER step in the WRONG direction for our democracy. The people of North Carolina are actively being silenced under this redistricting plan and the repercussions of the plan will be felt tenfold.
10/19/25 11:32 AM	Robert McLean		As an independent voter I am not happy with what I am seeing this year from republicans. I don,Äôt support redistricting . This is clearly cheating let the voters decide .
10/19/25 11:35 AM	Ms Gina Burns		This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. This proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year,Äôs election before dropping big changes to next year,Äôs. We all know this is being pushed through because the GOP cannot win elections on their policy. My GOD they do not even show up to work! NO TAXATION WITHOUT REPRESENTATION! All of you who bow down to a felon in our White House are illegally claiming to represent your "constituents". The only person you all report to is a FELON IN OUR WHITE HOUSE! Shame on all of you. I hope your days are spent repenting your illegal taking of taxpayer money.
10/19/25 11:36 AM	Redistricting Rebecca Schoenecker		This redistricting is a blatant attempt to manipulate future elections. Republicans know their policies and spending cuts are becoming more and more unpopular with the American people. By redistricting, you are attempting to silence dissent against these policies. Is the only way to win by cheating now? What a cowardly action.
10/19/25 11:37 AM	lynn shapiro	TAX PAYING US & NC CITIZEN	Please rethink the unfair action you would be doing by redistributing our map. It should be done by an independent agency rather than a partisan general assembly. Are you so afraid that you can,Äôt win that you have to rig things? Gavin Newsom, and California would not be doing what it,Äôs doing if Texas had not started this stupid tit for tat. Have some soul, sleep better at night or just plain get out of the way of Democracy..
10/19/25 11:38 AM	Mrs Cara Bolton		North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 11:39 AM	Cheryl Bunce		I demand you refrain from gerrymandering North Carolina,Äôs voting districts. Fair maps strengthen democracy, ensure every voter,Äôs voice matters, and build trust in the system. Bias-skewed districts undermine elections and disenfranchise communities. Please commit to transparent, impartial districting that represents all North Carolinians. Stop your partisan tactics and LET THE PEOPLE OF NC,Äôs VOICES BE HEARD THROUGH FAIR VOTING PROCESSES!!!
10/19/25 11:39 AM	Ms Linda Houseman		Your rush to redraw the map of NC congressional districts is an assault on our democracy. If this district redrawing is not an emergency, which it is not, it should not be taken up until after the results of the next 10-year census are in. This seems to be an issue now because it is the wish of President Trump so that Republican majority in the legislature will be assured. The most important reason why this should not be taken up now is that it is political gerrymandering that will, in essence, RIG FUTURE ELECTIONS to achieve a result desired by our current Republican president. The result of this action is to deprive North Carolina citizens of free and fair elections, which is our right. When election results are preordained by a districting map, that means that the elections are not free and fair. They will be rigged -- even before the first voter marks a ballot. This is not what America is or should be.
10/19/25 11:42 AM	Mollie Flowe		This effort is shameful cheating, and you all know it. Imagine what this country could be if we held to our principles and the Constitution instead of bending to the whims of King Trxxp. You should try to win voters through your ideas and actions, and by making it easier for more people to vote, not pick and choose the voters you want through map magic. Shame.

10/19/25 11:42 AM	Kori Hennessey		Not only is this to be a proven way to limit the voices of NC community members, this is also a huge waste of time and money. These attempts to "redistrict" are a blatant abuse of power and an attempt to further disenfranchise historically excluded communities. Read between the lines and ask yourself why this is being considered and why at such a rushed rate?
10/19/25 11:43 AM	K Gabriel		I disapprove of redistricting plan.
10/19/25 11:44 AM	DO NOT REDISTRICT Kristina Mcguire		This redistricting is just an attempt to turn our purple state into a pure red state. Not by losing voters but by manipulating how the votes are counted and applied. Stop gerrymandering our districts and stop manipulating our votes.
10/19/25 11:45 AM	Cathy Cooper		Gerrymandering is harmful because it undermines democracy. We should never allow politicians to choose their voters. Shame on you for thinking this is a good idea.
10/19/25 11:45 AM	2025 redistricting Natalie Standifer	New Bern Alumnae Chapter Delta Sigma Theta Sorority	There is no need to redistrict. They are trying to stop the Black and Brown Vote!
10/19/25 11:45 AM	Mrs. Rebecca Palumbo		This is an absolutely shameful power grab attempt, and is an unconstitutional way to cut valid representation. I wholeheartedly disagree with the proposal to redraw voting districts to rig election results, and I ask that my state representatives stand up for what is right and lawful.
10/19/25 11:50 AM	James Lewis		North Carolina has been redistricted enough. I wish Republicans would behave like they had some backbone instead of cowardly bending over to submit to the president's wishes. Every Republican legislator is complicit due to their cowardice
10/19/25 11:52 AM	Ms Krissy Weeks		Comment submitted. If someone is not sure what to say, here is what I wrote: I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 11:53 AM	Annelise Chilton		This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters.
10/19/25 11:54 AM	STOP THIS REDISTRICTING Gabriel Alleyne		This redistricting plan is an absolutely heinous power grab, and we citizens of NC won‚Äôt stand for our voices being stifled in favor of any agendas on EITHER side of the political spectrum.
10/19/25 11:54 AM	Mrs Alida Woods	League of Women Voters	The current districting plan is unnecessary and unfairly dilutes minority votes. It is being rushed with little thought or public comment. Stop!
10/19/25 11:55 AM	Jennifer Stanton		Please stop gerrymandering for the purpose of gaining political party advantage. Please consider using zip code boundaries to create congressional districts when the time to change districts is least disruptive to citizens. Zip codes areas are an objective no biased area that reflect the natural and drive distance boundaries of neighborhoods. Wouldn't that be fair?
10/19/25 11:55 AM	Emily Cowley		North Carolina is already one of if not the most gerrymandered state in this country. If you have any backbone left at all you will stand up against the pressure from the federal level to protect North Carlinians right to a fair election. What is done in the dark will be brought to the light, you are public servants, it's time to remember that and act accordingly. NONE OF US WANT THIS DO NOT REDISTRICT.
10/19/25 11:55 AM	Carole Korupp		I strongly oppose the redistricting plan!
10/19/25 11:58 AM	LaJuan Pringle		This blatant attempt to rig the electorate is horrible and sure to backfire on you when you least expect. You can win voters with your ideas, so you set up voting districts to favor your party. Your reliable districts will turn on you. What will you do then?
10/19/25 11:58 AM	Shawna Hampton	@lifeinfullviz	Stop illegal gerrymandering, Christians In Name Only. And don‚Äôt protect pedophiles either. Believe victims. Also, hands off my body. Become human while you‚Äôre at it. Thanks.
10/19/25 11:58 AM	Anne Calef		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 11:59 AM	Marian Garrett	Constitute	Redistricting should take place every 10 years after a decennial census. The proposed maps would dilute the political power of Black North Carolinians by "cracking" the northeastern Black Belt into two districts. Greene, Lenoir, Wayne and Wilson counties will be moved from district 1 to district 3. Beaufort, Carteret, Craven, Dare, Hyde, and Pamlico counties will move from district 3 to district 1. As a citizen of the state of North Carolina, I believe electoral maps should be fully representative of the people. Unfair maps lead to unequal representation in Congress. I am strongly opposed to redistricting at this point and will vote accordingly.

10/19/25 12:00 PM	Pam Craig		Our representatives, public servants should reflect the will of the people. Let us be a shining example for the rest of this divided nation what a true bipartisan, forward thinking, progressive purple state looks like. I love our state. This is unnecessary and shuts down the will of the people you serve. Please , this will only diminish the reputation of our state. In 2022 when our state elected 7 Republican representative and 7 Democratic to the US House, I felt peace, clarity, and that the will of North Carolinians had been achieved. Let,Äôs work together with transparency, wisdom, kindness, and forward thinking. Thank you.
10/19/25 12:01 PM	Mrs Dolores Marriott		The proposed redistricting bill that is trying to eliminate the seat held by Congressmen Don Davis is grossly unfair. We must stop this Republican power grab and adhere to fairness. Please protect our right to choose our leaders that is protected by the Constitution. North Carolina is better than this .
10/19/25 12:01 PM	Michael Vance		Partisan gerrymandering is immoral, unethical, and should be illegal. Districts should follow geographical, both natural and manmade, boundaries, not made to disenfranchise voters.
10/19/25 12:02 PM	Redistricting Mary Kulinski		This is not what your constituents want. Leave the districts as is.
10/19/25 12:07 PM	Mr Ronald Sawyer jr	Non affiliated	What you are trying to do is pretty shady if not illegal! Have a backbone and stand up for your constituents! Please don't take our health care away! Show some compassion instead of trying to score points or do your master's bidding. We need action now and not a few old crusty men making decisions for every person in the state. If you are so confident that you are in the right,then put it to a vote and let the people who put you in that seat! PLEASE don't do this. As a n independent I think some of the policies are working but this is not the right path. Unless you just want to to hurt people. I really hope you at least give it serious thoughts and considerations.
10/19/25 12:07 PM	Joanna Haymore		AS IS KNOWN: Three Democrats represent North Carolinians to eleven Republicans NOW. Under this new plan, two Democrats would survive this new Republican plan to gerrymander districts to disempower people of color's right to fair representation. It's an outage to the democratic process specifically designed to keep Republicans in control of the US House of Representatives in 2026. Take NOTE: Seven Million plus, many folks from NC's cities, towns, and communities said NO to this kind of authoritarian gerrymandering yesterday. And they will VOTE.
10/19/25 12:07 PM	Kim Ray		Do not redraw voting districts. Your policies are betraying the working people of NC. You should not be diluting votes of less affluent and those who disagree with the republican agenda of dismantling of our democratic republic.
10/19/25 12:07 PM	Mr Ash Vangal		This redistrcting is a political act to create more seats and has no rationale whatsoever for its need. This is not the first time redistricting is being used to gerrymander. The current party in power in NC senate needs to be held accountable to create free and fair elections. Stop this! NOW!
10/19/25 12:09 PM	Jessica Spencer		This is the worst type of abuse of powers. You are taking away our voting rights by making our votes meaningless. STOP.
10/19/25 12:10 PM	Carol bova		Say NO to redistricting and gerrymandering the great state of NC! All people should be represented in our state. SAY NO, SAY NO, SAY NO to the republican legislature attempt to bow to trumps wishes! Keep North Carolina districts as they are. As a matter of fact they are already gerrymandered!
10/19/25 12:11 PM	Gloria Matthews		Redistricting is supposed to happen after a new census, not when a criminal president tells states to find more votes. Stand up to Trump and do what you know is right.
10/19/25 12:12 PM	Mr Robert Hoeckele		Just another example of the slow demise of Democracy at the hands of power hungry republicans who don,Äôt actually govern FOR THE PEOPLE.
10/19/25 12:13 PM	BJ Sharp	Citizen	The redistricting of District 1 is unnecessary and I am very much against doing it!
10/19/25 12:14 PM	Mr Neil Mitchell	Self	Democracy relies on voters choosing their elected officials, not the other way around. We must end gerrymandered maps. This can only end up with disenfranchised citizens that help no one. You are supposed to be representing us not playing political games to rig the system. Enough is enough. This is going too far!
10/19/25 12:15 PM	Marybeth Smith		Please do not gerrymander the districts in an effort to skew the vote and deny equal and fair representation. We need all of our elected officials to uphold the integrity of our elections and our votes. Thank you.
10/19/25 12:15 PM	Roxanne Chesnes		Absolutely NO, NO, NO to redrawing district maps. Play the Cards you were dealt without CHEATING!!!
10/19/25 12:15 PM	Laura Spencer		We voted for you to represent us ,Äî the people ,Äî your constituents, not serve Donald Trump (or any president,Äôs) agenda. Our voices should be heard, and our votes fairly counted and represented. What happened to election integrity? This will surely backfire eventually!
10/19/25 12:17 PM	Ms Bobbie Rockwell	Independent voter	It is my belief that voting districts should reflect a balance throughout the state is to diversity and to shape. Ideally, a computer should do this. Please do not skew the will of the voters. Everyone's vote should count equally.
10/19/25 12:17 PM	Ms Robin Summers		I am a constituent from Weaverville. I am writing to urge you to oppose the attempts to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around.
10/19/25 12:19 PM	ABSOLUTELY NOT NC NC NATIVE		ABSOLUTELY NOT!!! NO! THIS STATE IS ALREADY GERRYMANDERED TO CROOKED PEDOPHILE PROTECTING REPUBLICANS!! THIS IS A SWING STATE. WE THE PEOPLE HAVE HAD ENOUGH! YOU WORK FOR US, NOT THE OTHER WAY AROUND. WE THE PEOPLE WILL NOT TOLERATE YOU CAPITULATING TO A DICTATOR. WE WILL VOTE YOU ALL OUT AND TAKE OUR STATE BACK. WHAT YOU ARE DOING IS A CRIME AND UNCONSTITUTIONAL . WE WILL HOLD YOU ACCOUNTABLE WITH THE FULLEST EXTENT OF THE LAW.

10/19/25 12:20 PM	Mrs. Sally Bowles	I do not approve of the purposed redistricting plan which is being pushed by Trump and Berger. You are supposed to representing and serving all of the people of NC...NOT grabbing power! Shame on all of you.
10/19/25 12:22 PM	Dana Rosotano	I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation and elections in this great state. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy and elections. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy in the state of North Carolina and should be deemed illegal. The people of this state voted for leadership to do the will of the PEOPLE, NOT the will of those elected officials.
10/19/25 12:22 PM	Dr. Havely Carsky	As an Independent NC voter, I urge you to reject mid-decade congressional redistricting that would further gerrymander North Carolina,Äôs voting maps. Partisan gerrymandering violates core constitutional principles by undermining equal representation, weakening voter accountability, and concentrating power among political insiders rather than the people. True conservative values demand transparent competition,Äîvictory through ideas, not electoral manipulation. This is not partisan overreach: 76% of North Carolina voters oppose using gerrymandering to discriminate based on political party, with strong bipartisan support from 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters. Protecting fair maps upholds both the Constitution and government,Äôs moral duty to serve all North Carolinians equally.
10/19/25 12:23 PM	Disgusting Leslie Jespersen	I am disgusted by the actions of my government, in the state I love. Sucking DT,Äôs dick does nothing but stroke his ego. If the Dems had gerrymandered when they had the majority like you are going to, you all would,Äôve had a conniption! You would,Äôve raised hell and it would,Äôve been a headline on every local channel. I am ashamed my fellow North Carolinians have voted for corrupt gays, who love to smell Donald Trumps taint.
10/19/25 12:25 PM	Ms Hope Warshaw	House Select Committee on Redistricting and Senate Elections Committee Subject: Proposed Congressional District Plan Thanks for taking comments on this critical, time sensitive topic that really doesn't have to be so as you all know. As a NC resident it's clear to me the only reason for republicans to take up this redistricting fight is to bow, as acolytes, to Trump. You know this is true! You also know that redistricting violates core principles of fairness, accountability, and limited government. Manipulating district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Äô ability to hold our leaders accountable. Redistricting as Rs propose disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! And I expect better of our elected representatives. How about you pass a budget first! Thanks for your consideration. Hope Warshaw 703-216-4709
10/19/25 12:26 PM	A bunch of gays Alyssa Ellison	It,Äôs really gay of the republicans, who clearly like to suck Donald Trumps weiner so much, they,Äôre willing to risk their reelection to gerrymander for him. I hope it,Äôs worth it during the midterms when you lose your majority!
10/19/25 12:28 PM	Tamara Harrington	I urgently implore NC,Äôs representatives to avoid redistricting our state,Äôs voting districts. Gerrymandering does longterm harm and ultimately weakens our democracy by depriving voters of a voice.

10/19/25 12:29 PM Ms Sharon McIntosh	Retired	Dear Members of the North Carolina House Select Committee on Redistricting and Senate Elections Committee, Thank you for the opportunity to provide feedback on the proposed Congressional district plan. As a North Carolina resident, I strongly believe that our state,Äôs Congressional map should fairly represent the people of North Carolina,Äînot favor one political party or dilute the voices of particular communities. The current proposal closely resembles the 2023 map that created ten Republican-leaning districts and four Democratic-leaning ones, despite North Carolina,Äôs electorate being nearly evenly divided between the two major parties. This imbalance raises serious concerns about partisan gerrymandering and whether voters are choosing their representatives,Äîor representatives are choosing their voters. The proposed map divides several major counties, including Wake, Mecklenburg, and Guilford, in ways that fracture natural communities of interest. These divisions weaken representation for urban, suburban, and minority communities and reduce accountability by creating safe seats rather than competitive ones. A less-gerrymandered map would: ,Ä¢ Keep counties and municipalities intact whenever possible; ,Ä¢ Draw compact, contiguous districts that reflect geographic and community boundaries; ,Ä¢ Avoid unnecessary splitting of metropolitan areas; and ,Ä¢ Produce a congressional delegation that mirrors the overall partisan balance of North Carolina,Äôs population (roughly 50/50). I urge the Committee to revise the proposal using these principles, prioritizing fairness, competitiveness, and transparency. Every North Carolinian,Äîregardless of political affiliation,Äîdeserves an equal voice in choosing their representatives. Thank you for your consideration and for your commitment to a fair and representative redistricting process.
10/19/25 12:29 PM Tracy Weatherford		We do not need to redraw congressional districts. This is not in the interests of NC residents. This is only to gain favor with a president. We need a NC budget. That should be your focus.
10/19/25 12:30 PM Richard Kotermanski		?The proposed map appears to be a severe partisan gerrymander, an exercise in political self-preservation rather than a good-faith effort to ensure fair representation for the people of this state. The proposed districts seem intentionally drawn to dilute the voting power of specific communities and predetermine electoral outcomes for the coming decade. This approach serves to muffle democracy, creating a system where politicians choose their voters, rather than voters choosing their representatives. ?Such a map stands in stark opposition to the foundational principles of our republic. The freedoms our nation,Äôs founders envisioned were built upon a government accountable to the people and deriving its power from the consent of the governed. A map that systematically insulates incumbents from accountability and makes a citizen,Äôs vote less meaningful is an affront to that vision. It is difficult to imagine that the architects of our democracy would agree with a process that prioritizes partisan advantage over the collective will of the people. ? Frankly, it is fundamentally Un-American to reject solutions that benefit and serve the most people in North Carolina in favor of a plan that solidifies the power of one party. The duty of a public servant is to the public, not to a political party. Crafting a map that disenfranchises voters and engineers election results is a betrayal of that public trust. ? Therefore, we ask that you justify to the people of North Carolina why this plan is not what it so clearly appears to be. We formally request a detailed public comment from the General Assembly that directly answers the following questions: ? How does this map ensure that every North Carolinian,Äôs vote carries equal weight in determining the composition of our congressional delegation? ? What specific, non-partisan criteria were prioritized in the drawing of these districts, and how does the final map reflect a commitment to

10/19/25 12:31 PM	It's Cheating. Lou Pucci	AMERICANS	Dear sir or madam, no matter how you try to color it, spin it or outright lie about it, this "redistricting" is cheating. Redrawing the maps to isolate voters essentially neutralizing their vote in order to skew elections in favor of one side over another. If you do this, you will win but NORTH CAROLINA will lose because the people of NC, ALL the people will not be counted and will not be fairly represented. This cheating is UN AMERICAN. Stop this nonsense and lets make the ONE VOTE tgat every AMERICAN is entitled to by the US CONSTITUTION, count.
10/19/25 12:32 PM	Miss Rae Dawson		You know you can't win a fair election so you choose to gerrymander our state. You are choosing to cheat rather than face the fact that your draconian policies are unpopular because they are unchristian. I strongly oppose new redistricting at this time.
10/19/25 12:32 PM	EMILY McMillan		Please don't silence the people! Keep democracy alive... the people vote for our representatives. Not the other way around.
10/19/25 12:33 PM	Lorin Crowley		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.
10/19/25 12:33 PM	Laura Gallagher		I'm an American citizen and I,Äôve been voting for years. This proposal would make voting harder for millions of eligible citizens like me in the South and across the country. It would require us to show a passport to register, even though half of Americans don,Äôt have a passport. In fact, in North Carolina where I live, 57% of citizens DO NOT have a passport. This proposal would block millions of Americans from voting, especially in the South. Please don,Äôt go through with this.
10/19/25 12:34 PM	Richard Haynes		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 12:34 PM	Citizen of the USA Kelly Duncan		As a North Carolina resident who actively participates in protecting our right to free and fair elections, I,Äôm appalled that our overtly gerrymandered state map is being threatened yet again to reflect the very narrow views of NC State Republicans. Have they NO shame? We are a purple state and given the chance, we can blend our voices to reflect the greatest good for ALL. Please STOP this Trumpian directed abuse of power in our sovereign state!
10/19/25 12:35 PM	Barbara H Anderson		You won't pass a budget, you won't fund Medicaid, public schools, or provide a cost of living amount for retired educators, but you seem to be able to find time to limit voting access to millions of NC citizens by creating a more restrictive gerrymandered voting districts. You are wasting our time and our money. You clearly DO NOT care about NC citizens. You only care about keeping your power so you can fleece us.
10/19/25 12:35 PM	Robert Rietz	retired	This blatant attempt to gerrymander North Carolina voters into packets so as to ensure Republicans stay in power forever regardless of our state's "toss-up" nature reminds me of the McCarthy Hearings. Joseph Welch said it best when he rebuked Senator Joseph McCarthy."Until this moment, Senator, I think I never really gauged your cruelty or your recklessness. ...Have you no sense of decency?" That was Senator McCarthy's legacy. Will this attempt to silence your opposition be your legacy?
10/19/25 12:40 PM	Mrs Linda Duda		North Carolina has already been redistricted TWICE since 2020. We, the residents and registered voters of North Carolina, are not being given enough time to consider the proposal and discuss the impact with our representatives. Instead of focusing on redistricting, our legislature should be focused on passing a state budget! This is what we elected our representatives to do. Get to work NOW!
10/19/25 12:40 PM	Gerald Bommelje		Redistricting, just to benefit, one political party, should not be allowed.
10/19/25 12:41 PM	Ms Billie Stratford		Mid-cycle partisan gerrymandering has severe consequences: It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all. Our democracy depends on fair representation ,Äî which is not possible when legislators manipulate district lines for partisan advantage.
10/19/25 12:41 PM	Ms Vivian Davis		You know your motives are wrong. You,Äôre trying to rig election results by gerrymandering lines. It,Äôs wrong when Dems do it. It,Äôs wrong when Republicans do it. We need an independent commission to do this .. and on schedule-every 10 yrs-not in between elections. Pathetic.
10/19/25 12:43 PM	Burt Mackey		Please stop the blatant election rigging. Clearly you fear losing at the midterms. Take the loss, do better, and earn the seats back. Also, shame to the entire house for rigging an election vs. passing a budget. Shame on all of you.
10/19/25 12:44 PM	Dr Sharron St John	NA	I am utterly opposed to the proposed redistricting plan. It would limit my choice of a varied slate from which to choose.
10/19/25 12:45 PM	Laura Gallagher		I wrote an earlier comment on this intended for another site.. As far as redistricting, I oppose this scheme and believe we should have fair maps. As the governors said, the GA works for North Carolina, not Donald Trump!!

10/19/25 12:46 PM	Redistricting Lauren Smith	Unaffiliated	Another Republican seat should not be granted until we can trust a President who will make sound decisions for the greater good of the American people.
10/19/25 12:46 PM	Deborah Gray		Dear Committee Members: Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still neither passed a budget nor funded education. This proposal is unnecessary, rushed, and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. If you follow through with this plan, it will demonstrate that you care more about protecting billionaires than caring for the citizens/voters of North Carolina. NO MORE GERRYMANDERED MAPS, PLEASE.,Äù
10/19/25 12:46 PM	Racist Gerrymandering Emily Yelton		I am appalled at the news that Republicans are pushing to re-district the congressional map in order to ensure their party wins the 2026 midterm elections. This is blatantly undemocratic, and takes away the power from the people. If the people decide to vote out the party in power, then that‚Äôs what the people decide. One political party in the state legislature should not get to decide that. Furthermore, the proposed map is attempting to take away votes from a district with the highest percentage of Black voters, which is extremely racist and reminiscent of the harm our state inflicted upon Black Americans during slavery and the Jim Crow Era. We should not further that harm and take away their voice. Republicans tried to do this in 2023 and were unsuccessful, making the people‚Äôs mandate for Davis clear. Sen. Berger has said, ‚Äúwe are doing everything we can to protect President Trump‚Äôs agenda.‚Äù But that should not be his agenda. His agenda should be to better the lives of all North Carolinians.
10/19/25 12:48 PM	Don Icenhower		I am not in favor of redistricting NC. When I began working as a state employee 45 years ago, the democrats totally controlled the state. As a young republican, I felt very underrepresented. Since then, republicans have gained considerable ground because they worked to ‚Äúearn‚Äù the votes from the people. The last thing I want to see is the reverse of what we had 45 years ago. Our state and nation was built upon the idea of having debate from individuals and selecting the best candidate from at least two parties. I like the idea of candidates from both parties having to tune in to the desires of the people and figuring out what the ‚Äúpeople‚Äù want. If one party redraws lines to heavily favor one party, it weakens the need for candidates to listen to the people. Not too long ago, WNC had a congressional race that could favor either party depending on the positions of the candidates. Unfortunately, those days no longer exist because of redrawing district lines. I am seriously concerned for our country and feel our two party system is in jeopardy. It is my hope that our state and America will realize that we need both parties to be strong in order for us to maintain our democracy.
10/19/25 12:51 PM	Melissa Sempowski		Gerrymandering takes the vote away from the people and lets the party choose their own representatives. There is nothing more undemocratic! PLEASE PUT A STOP TO THIS. 2 wrongs don‚Äôt make a right.
10/19/25 12:51 PM	Paula Rieck		This blatant grab to steal seats for Republicans is unconstitutional and should not be allowed. We want fair elections and democracy.
10/19/25 12:52 PM	Ms Mary Robinette		I oppose the proposed redistricting. No new maps this year and going forward how about maps that fairly represent the varied opinions of NC residents? You work for the citizens of this state, not DJT.
10/19/25 12:53 PM	Ms. Julia Borbely-Brown		Redistricting in North Carolina is costly and unnecessary at this time. Our state needs more representative government, not less, and the plan to configure maps to reduce the voting strength of active and dedicated voters is not in the best interest of our democracy. There are other more pressing issues to which the legislature must turn its attention. Thank you.
10/19/25 12:53 PM	Not justified Ben Poston		I am NOT in favor of this change. No change in maps should be done just to placate a sitting president regardless of party. This is not leadership. This is not a legitimate process and it sets a very bad precedent. It comes about as close to rigging an election as possible without legal repercussions. This is totally unacceptable, wrong and immoral behavior. This map should not be changed. Shame on all of you who support this anti-democratic move just to hold onto power while sowing division and without any care or concern for the voters in our state.

10/19/25 12:53 PM	Charlotte Caplan		I urge all members of the NC Assembly to reject the congressional redistricting proposal released only a few days ago, which moves four counties from District 1 to District 3, and seven counties from District 3 to District 1. The clear and sole intention is to turn both Districts into relatively "safe" Republican seats in Congress, which will then likely increase from 10 to 11. Democratic representation would then be confined to three tightly drawn urban districts each with a very large Democratic majority. To pretend that this in any way reflects the will of the people of North Carolina is taking hypocrisy to an extreme. When maps are drawn to entrench one party,Âôs power, communities are divided, competition and accountability are reduced, and voters lose confidence in the fairness of the system ,Äî many stop believing their vote matters at all. Constantly changing district lines also creates confusion, suppresses participation, and wastes taxpayer dollars. Gerrymandering on this scale dangerously weakens democracy. It was wrong when practiced by the Democratic majority before 2010 and remains wrong when practiced by the Republican majority now. The results of elections for the presidency and for statewide office show that North Carolina is neither a red state nor a blue state. Our congressional representation should reflect this and be prepared to work together in the interests of the entire state. Redistricting now is unnecessary, rushed, and costly. For Republican party lawmakers to release this plan and take it to vote within a period of 5 days signals disdain for the citizens of this state, who have almost no time to understand its implications and make their voices heard. I urge you to reject this plan and, instead, consider creating a non-partisan body to develop electoral maps for our federal and state representation that are based on objective, non-partisan standards.
10/19/25 12:54 PM	Registered Voter		This GOP power grab is disgusting. They do not represent that many people in NC.
10/19/25 12:56 PM	Dr Barbara reynolds		I think any redistricting based on political party is un-American.
10/19/25 12:57 PM	Zechariah Houser		I am opposed to this redistricting. It is a constant cycle of attempting to remove the power and voice of people that desperately need and deserve it. This redistricting is a blatant power grab by a desperate movement that cannot maintain itself through any other means. Y'all should be ashamed.
10/19/25 12:57 PM	Ms Anita Redding		So Cheat To Win?
10/19/25 12:58 PM	Danielle Bragdon		These maps do not accurately represent the people who live in NC. Taxation without representation is theft. Do not allow these new maps to be approved.
10/19/25 12:59 PM	Lori Hill		Democracy depends on voters choosing their elected officials, not the other way around. North Carolina is roughly 50% Democratic-leaning voters and roughly 50% Republican-leaning voters. Our congressional maps should reflect our state. Redistricting should not occur outside of the constitutionally-mandated decennial census (per Article I, Section 2 of the U.S. Constitution). NO MORE GERRYMANDERED MAPS.
10/19/25 1:00 PM	Rev. Jen Houser		The maps are gerrymandered enough, give it a rest. I oppose this new redistricting plan because this is a sad attempt to gain unrepresented power by people who are tired of the GOP supporting a dictator who just wants to take our money. Stop embarrassing yourselves.
10/19/25 1:01 PM	Jane Ramsey	Red Wine and Blue	My plea for you would be to consider what your opponents would do if they were in charge. Do we want this kind of political posturing to take over for fairness and integrity? From the time that Mitch McConnell forbid the nomination of a Supreme Court Justice after Ruth Bader Ginsberg died, I have detested what the GOP is doing just because they can. I am an Independent who believes in following the rule of law, and that law does NOT allow for gerrymandering districts to the benefit of those in power. Just remember you all will be held accountable in the near future, and I would hope that whether or not you are a Republican or a Democrat you would not unjustly skew the electorate. Let the chips fall where they may. Our eyes are on you and we will remember if you were unjustly partisan.
10/19/25 1:02 PM	Martha Cook		Representatives should be chosen by the people, not by the politicians. Redistricting in this way and at this time, is an effort to intentionally silence voters in this state out of fear that the current policies are unpopular. This allows legislators to no longer be beholden to the voters and subverts the very essence of democracy.
10/19/25 1:02 PM	Ryan Wolfe		This is not in the spirit of statesmanship. Regardless of party, rigging the system to ensure your remain in power is shameful and dirty.
10/19/25 1:03 PM	Ms. Nancy Gamble		I strongly do NOT support the current proposal by the NC General Assembly for redistricting Congressional District 1. This blatant attempt to eliminate a Democratic incumbent in Congress is shockingly unfair to the citizens of North Carolina! Who gives you the right to dilute Black and Brown voters,Âô voices, thereby pushing congressional numbers towards favoring Republican representation? You need to DO YOUR JOBS to represent the wishes of ALL NC citizens. Put aside your political aspirations, and do THE RIGHT THING by voting NO on this blatantly self-serving redistricting plan.

10/19/25 1:04 PM	Randi Dufault		This new, even more gerrymandered, map is unacceptable. North Carolinans deserve to be fairly represented and this map does not accomplish that. If a party has to cheat to win, it is clearly not the right representation for the people and it doesn't make our state better. Considering the record breaking turnout for the protests this weekend, it's clear that the people are not happy with our representatives. Instead of cheating and pretending the tide isn't turning, it's time to listen to your constituents, work for the the betterment of our state, and truly earn your seats.
10/19/25 1:04 PM	Thomas Fitzgerald	Attorney at Law	My opinion is that it is entirely out of the ordinary ten year redistricting plan to once again move the needle to favor Republican politicians in their goal to boost the power of an american president at the expense of the citizens of North Carolina. It will not have any significant benefit to our citizens, who statewide are almost equally registered Democrats to Republicans. A district was just recently modified to change this district from a competitive district to a Republican district. If this continues, what is to stop a future legislature from further changes that give a particular political party the effective ability to win all statewide and national candidates from public office. This move, if allowed, could move the needle in that direction.
10/19/25 1:05 PM	Ms. Robin Barefoot	None	North Carolina's voting maps are currently indefensible and every action, past and present, to falsely favor one party over another is a strategy of fascist and authoritarian regimes. All those representatives who participate will be called to accountability one day. DO NOT APPROVE FURTHER GERRYMANDERED MAPS.
10/19/25 1:06 PM	Debora Wood		Dear General Assembly, Thank you for asking for our comments on this plan. Very simply it seems to be a rushed and unscheduled redistricting plan violates core principles of fairness, accountability, and limited government. North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps. Please your your time to pass a state budget. Respectfully, Debbie Wood
10/19/25 1:06 PM	Ellen Douglas		This is so very wrong. It is a blatant attempt to make sure that Republicans stay in power permanently, even though they do not have a majority in the number of registered voters. It is clearly an attempt to steal votes from people of color. Not to mention that redistributing is normally done after the census count, which won,Äôt happen for several more years.
10/19/25 1:06 PM	Susan Feinblatt		House Select Committee on Redistricting and Senate Elections Committee Subject: Proposed Congressional District Plan I am disappointed and alarmed that you are proposing this redistricting plan. As a NC resident there is no question to me that the only reason Republicans are taking up this redistricting fight is because Trump is pushing this. Redistricting violates the core principles of fairness, accountability, and limited government and manipulating district lines for partisan advantage undermines the constitutional promise of equal representation. It also weakens voters,Äô voice and our ability to hold our leaders accountable. Redistricting as Republicans propose disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. Manipulating district lines for partisan advantage is cheating, and it's wrong. North Carolinians deserve better and I expect better of our elected representatives. Thanks for your consideration.
10/19/25 1:06 PM	DO NOT DO THIS Grace Pitts		Please do not do this. This is not democracy, this is gerrymandering. Trying to guarantee a republican win when NC is already a red state. No, this is wrong and congress knows it!
10/19/25 1:07 PM	Ms Barbara Pressman	Citizen	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice
10/19/25 1:09 PM	Wanda Taylor		Republicans need to start caring for their constituants more than they care about maintaining thwir power!
10/19/25 1:09 PM	Ms Hilary Dirlam		I strongly oppose this redistricting plan. It is so obviously skewed towards one party that it defeats the idea of a fair election.
10/19/25 1:09 PM	Mark Mulhern		I urge you to not adopt the proposed new maps The citizens of NC do not want you changing these maps so often without reasonable catalysts Trump asking for it is not adequate support for a change Stop pandering to this pressure WE DO NOT WANT THIS CHANGE

10/19/25 1:12 PM	Commissioner Gwendolyn Wilkins		Where is your decency? Where is your self-respect? When you won your Election, you took an Oath to serve the citizens of NC...not just those in your District, but ALL of NC. Did that Oath mean nothing to you? Did "so help me God" mean nothing? Because you have the power to redraw our maps to favor a particular Party or person, does not mean you have to. Stand up for the people of District 1.¬† Let say we turn the tables here...supposed it was your Congressional Representative in office and the other Party was going to redraw the lines to support their candidate? You all would raise Holy you-know-what! Do you even remember, "Do unto others as you would have them do unto you"? You go to church on Sunday yet when you are in the Legislature, you perform as if the "good book" doesn't exist. Lastly, are you telling the citizens of District 1 the Republican Party's candidate cannot win the election UNLESS you redraw the District lines? Orove what I say is wrong. Ket him run without redrawing the lines!¬† "For what should it matter if you gain the whole world but lose your soul"...please do the right thing...don't redraw our lines. Show North Carolinians we have elected officials (all of them) we can believe in to do the right thing and not resort to unscrupulous methods.
10/19/25 1:13 PM	Louis Pitts		We should have people in our legislature who can have a platform popular enough to get the votes they need. The unpopular ideas get less votes. That,Äôs how democracy works. It seems we have forgotten that now in NC. We should not be gerrymandering our state to oblivion.
10/19/25 1:14 PM	Maria Nucci		Redistricting now is an affront to free and fair elections. You already control the legislature despite NC being a purple state. Just to possibly pick up one seat to please dear leader is dumb. After millions of protestors voiced their opinions yesterday, you may get bitten by your very own gop base.
10/19/25 1:16 PM	Charlotte Pedigo		1. Redistricting is not historically done at this time in NC or other states. 2. This map is specifically partisan; this action, then, oppresses the democratic vision of a multi- party system of government and our Constitution. 3. Relocation of voting districts, which affect voters' candidates, and voting sites are confusing often misunderstood or unknown to voters; therefore do not reflect democratic equal voting opportunities in a free country of voting right, adhering to our Constitution. 4. We will use our voices and our votes to disagree with all NC representatives who support this.
10/19/25 1:16 PM	Becky Harper		We deserve FAIR maps so that the wishes of the voters translate to seats that can be won in fair elections!! You should go back to the maps that elected 7 democrats and 7 republicans, correctly representing our purple state. I urge you to reject any further efforts to gerrymander our districts!!
10/19/25 1:17 PM	Julia Welch		I oppose this redistricting plan. NC has already redistricted repeatedly. The reasons are blatantly political to enhance gerrymandering not for the purpose of improving voter representation. I support leaving the current districts in place.
10/19/25 1:18 PM	Maureen Lucas	private citizen of NC	Please let the public vote in an honest and straightforward way to support the candidates and ideas they choose. Win elections with honest and clarity based on our population, not on cleverly designed maps that are not representative of our citizenry. One person/one vote should be how democracy works.
10/19/25 1:18 PM	Ms Amanda Herbert		Dear Members of the North Carolina General Assembly, I am writing to express my strong opposition to the proposed redistricting plans currently under consideration. It is vital that our electoral maps reflect fair representation for all citizens, rather than serving partisan interests. The proposed maps appear to prioritize political gain over the fair representation of North Carolinians. Congressional maps are typically drawn once every ten years but if Republican lawmakers approve this new map it will be the fifth change in just six years. 94% of all North Carolina voters (nearly all) say that they want districts that fairly represent all communities and political viewpoints. This is a universal belief and desire and if the decision to redistrict is taken it is ignoring the desires of the citizens of North Carolina. This process has lacked transparency and public engagement. As a citizen I feel excluded from discussions that directly affect my representation. Communities should be preserved rather than fragmented. Once they are fragmented it is harder for residents to have their needs and concerns addressed. I feel very strongly about this issue and hope my sentiments will be taken into consideration. I feel that communities should be preserved rather than fragmented. Once they are fragmented it is harder for residents to have their needs and concerns addressed. I feel very strongly about this issue and hope my sentiments will be taken into consideration. I am not the only one to feel this way - nearly all North Carolina voters (94%) say they want districts that fairly represent all communities and political viewpoints. This is more than a broad consensus,Äì it,Äôs a near-universal belief and must be listened to. Our electoral districts should reflect the diverse voices of North Carolina, not the interests of a select few. Sincerely, Amanda Herbert Asheville, NC

10/19/25 1:19 PM	David Norris		I'm very much against this biased and unfair attempt to tighten the gerrymandering of North Carolina's congressional districts. The Republican Party has already put its thumb on the scale, grabbing 10/14 of the states' seats, when the electorate is about evenly divided between Republicans and Democrats. The voters should choose their representatives; instead, we have the Republican Party choosing the voters for each district. And, while the Republican Party has overwhelming control of both houses of the General Assembly, it has not managed to pass a comprehensive state budget. Finalizing the budget should be the priority, rather than fiddling with district lines again.
10/19/25 1:20 PM	Don,Äôt do it Dottie Corning		Stop the shenanigans!
10/19/25 1:21 PM	Dottie Corning		My submitted comment: The purpose of redistricting is to fairly represent The People, which is why redistricting occurs after the Census. Since the last census was in 2020, you have no new information to apply to redistricting. It therefore appears you are only attempting to unfairly weight the votes for your side, the Republicans. As a registered Independent, and as a retired physician with morals, I am therefore completely against redistricting at this time.
10/19/25 1:22 PM	Libby Thomas		Any redistricting done should be towards making both U.S. and State districts fairer and more competitive so that republicans will have to win their voters with their ideas, not continue to anoint themselves as representatives by drawing boundaries in racial and political gerrymanders that limit competition with Democrats and even with more moderate republicans.
10/19/25 1:22 PM	Ms Peggy Eagan		Do not redistrict to disenfranchise voters in this state! Shame on you for even considering it.
10/19/25 1:24 PM	Ms Grace Sweeney		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.
10/19/25 1:24 PM	John Griffin		I like that many counties are kept whole: I don't like the districts (2,3,6,7,9,12,13) that split counties. I really don't like the splits that give candidates that meet a particular demographic (race, religion, party affiliation) an unfair advantage.
10/19/25 1:25 PM	Jeanne Sawyer		The proposed plan is UnAmerican! I was brought up to believe in free and fair elections. Elected officials, if they are true Americans would support this. No matter our color, background, or zip code, voters should choose their elected officials, not the other way around. Mapmakers should draw district lines that give our votes equal weight, not power lines that guarantee their reelection.
10/19/25 1:25 PM	Ms Janet Tice		I am deeply saddened and outraged at the manipulations of the Republican party. They know the only way they can win is to cheat, steal, and bully. Who wants leaders like that? Not America! Gerrymandering is illegal and has been going on too long. We want honest districting and honest elections!
10/19/25 1:26 PM	Elizabeth Marascio		Redistricting violates core principles of fairness, accountability, and limited government. Manipulating district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Äô ability to hold our leaders accountable. Redistricting as Rs propose disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! I expect better of my elected representatives. There is no reason for you to bow to Trump's wishes. Stand up and do what is right for your state, your family, and your conscience so you can look yourself in the mirror at night and be at peace with your Maker when that time comes.
10/19/25 1:27 PM	Miss Julia Ubertini		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.
10/19/25 1:27 PM	Kathleen Klesh	Retired	No need to wait for a census and a fair map design. Just whenever the king says "Jump", y'all ask "How high?" Disenfranchising voters this way will soon lead to the same results seen in such democracies as Egypt and Russia with 90% and 88% percent wins by those already in power. FAIR maps, please, not totally distorted ones.
10/19/25 1:27 PM	Miss Julia Ubertini		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. This proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year,Äôs election before dropping big changes to next year,Äôs.
10/19/25 1:29 PM	Ms Jan Williams		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.

10/19/25 1:29 PM	Mr Tracy Williams		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 1:30 PM	Ms Jenna Horgan		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 1:30 PM	Mr Chris Horgan		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 1:31 PM	Kelly Rosky		I am writing to state my adamant opposition to the proposed congressional redistricting plan. This proposal is a transparent attempt to secure yet another Republican seat rather than to protect fair representation for North Carolina‚Äôs voters. The deliberate manipulation of district lines is not governance; it is political engineering at the expense of democracy. Independent analyses, including those from the Brennan Center for Justice and the Princeton Gerrymandering Project, have already classified North Carolina‚Äôs maps as among the most extreme partisan gerrymanders in the nation. Under the most recent redraw, Republicans captured 10 of 14 congressional seats while receiving only about 53 percent of the statewide vote, securing more than 70 percent of the representation with barely half the votes. This gross imbalance is not an accident; it is the direct result of deliberate map manipulation designed to predetermine outcomes. To pursue yet another partisan advantage under these circumstances is not representative democracy; it is a calculated effort to entrench political power and silence the will of the voters. Our democracy depends on voters choosing their representatives, not representatives choosing their voters. Redistricting should be conducted with transparency, public input, and adherence to constitutional principles of fairness, contiguity, and respect for communities of interest. The people of North Carolina are not pawns to be shifted on a political chessboard. The General Assembly has a constitutional and moral duty to uphold the principle that every citizen, regardless of party, race, or region, deserves a vote that carries equal weight. Continuing to manipulate districts for partisan gain erodes public trust, violates that foundational right, and shows open disregard for both court precedent and democratic legitimacy. Our state deserves leaders who remember that they exist to serve the voters of North Carolina. You must reject the proposed maps that manipulate districts for partisan gain and restore integrity to this process. Draw fair, competitive districts that reflect the true diversity and political balance of our state. Anything less is a betrayal of the people you were elected to represent.
10/19/25 1:31 PM	Jack Unruh		Please let me state my EXTREME opposition to the NC GOP's latest gerrymandered maps. North Carolina is a purple state. We elected a Democratic governor and Attorney General in 2024. With fair maps we sent 7 Republicans and 7 Democrats to the House of Representatives in 2022. After gerrymandering in 2024, we sent 10 Republicans and 4 Democrats. Let's be clear, gerrymandering is cheating. Those who partake in it, regardless of party, are cheaters and are not confident of winning on fair terms. Most Americans, regardless of party, value fairness and an even playing field. Gerrymandering is un-American and would have our Founding Fathers rolling in their graves. NC citizens want free and FAIR elections, not this mockery of fairness that is now being proposed.
10/19/25 1:31 PM	Adam Spiel		No!! We don‚Äôt want this! Stop! This gerrymandering has to stop! Someone has to stand up to Trump and not bend to his dictatorship. We do not want this in North Carolina! Let the people be represented fairly - we should have a bipartisan independent Redistricting committee so that this kind of corruption won‚Äôt skew our free and fair elections
10/19/25 1:32 PM	Matt Halvorsen		I oppose attempts to redraw North Carolina‚Äôs congressional district maps before the 2026 midterms. The redistricting process occurs every ten years. As you well know, the last redistricting occurred only two years ago. You have initiated this process for blatantly partisan reasons. You mean to further disenfranchise North Carolinians in order to retain control of the US House of Representatives.
10/19/25 1:32 PM	Rita Frederick	xxx-xx-xxxx	I am writing to indicate my opposition to any gerrymandering efforts to redraw districts. According to the Constitution, redistricting can only take place every ten years after the census, so the next redrawing of districts would be after the 2030 census. Your actions are in clear violation of this provision. You have also acted to redistrict in 2023, so the transparency of what you are doing is apparent - to insulate Donald Trump (and Republicans nationwide) for accountability for his unpopular agendas. The entire purpose of elections is to provide for that very accountability, so your actions are in direct contravention of the very purpose of elections. Voters are opposed to gerrymandering. Voters are also opposed to Trump's agenda, as evidenced by his negative approval ratings in every poll. You are attempting to disenfranchise the voice of North Carolina voters in violation of the letter and intent of the law. Your actions show your contempt for the sanctity and choice of North Carolina voters. Stop this gerrymandering campaign. Allow free and fair elections to take place. If your family and faith did not teach you not to cheat, the voice of NC voters will.

10/19/25 1:33 PM	Mala Lapp		I oppose the new legislation to redistrict Congressional districts in North Carolina. Republicans have already gerrymandered too many districts to favor their party. It is very disconcerting that you aren,Äôt able to let the voters decide who they want. Obviously, if people voted the way they want the Republicans would be out of office. Shame on you!!!
10/19/25 1:34 PM	Dr Patricia Mashburn		I am writing to express my strong opposition to any redistricting effort designed to manipulate district boundaries for partisan gain. Congressional maps should reflect the will of North Carolinians, not the political interests of any one party or outside pressure, including from the President. Our democracy depends on fair representation. Voters should choose their representatives, not the other way around. North Carolina,Äôs communities deserve district lines that keep counties and municipalities intact where possible, represent our diverse population fairly, and ensure that every citizen,Äôs vote carries equal weight. I urge the General Assembly to reject any plan that prioritizes partisan advantage over fairness, transparency, and public trust. Please uphold the principles of equal representation and respect for the people of North Carolina by adopting a map that reflects our state,Äôs true communities and not political agendas. Respectfully, Trish Mashburn, PharmD Franklin, NC
10/19/25 1:35 PM	Vernon Daugherty	Life-Long NC Resident and Voter	As an independent voter, I find it deeply disturbing that rather than choosing to make districts more competitive so that representatives have to represent their citizens, you are striving to make them less competitive so that representatives can ignore the desires and wishes of citizens.
10/19/25 1:36 PM	Anne Dachowski	Select...	Our state is one of the most gerrymandered in the union. This is dishonest and unethical. We do not need a redistricting that makes the gerrymandering even worse.
10/19/25 1:36 PM	Rachel Reese	None	I have always felt that gerrymandering, let's not fool ourselves and call it what it is, is wrong no matter what party is behind it. Follow your moral compass and reject this plan. You have been elected to serve the people of this state and no one else.
10/19/25 1:36 PM	Brandon Brown		North Carolina has the potential to become a major leader for progress on the East Coast. Constantly redistricting to support one party over another holds us back and places politicians who would vote for illogical laws that do not represent the people they we're voted in for. Cowards who do not believe they can win the popular vote and would instead redistrict our already gerrymandered lines, have no place in North Carolina's government. Therefore I would like to put it on the record that I do not support redistricting this state at this time.
10/19/25 1:36 PM	Mr Eric Lapp	Retired teacher	Please do not make North Carolina even more undemocratic by gerrymandering AGAIN! Our founders wanted each citizen,Äôs vote to count equally. When Democrats get approximately half of the votes in North Carolina they should get approximately half of the Congressional seats. What you are considering is wrong and I hope you will realize that and stand up for what is right.
10/19/25 1:37 PM	Katherine Heister		I am completely against this anti democratic gerrymandering that Phil Berger and Destin Hall are doing to gain "points" with Trump. Our state is already so badly gerrymandered, that our truly purple state is not represented at all. It is unacceptable that they are redistricting without the will of the voters, majority of whom are completely against this and that crosses party lines. Even their own party, Republicans, do not agree with gerrymandering. Furthermore, this is complete corruption from the Berger family that is already known to be corrupt with Phil Berger's son on the state supreme court that never recuses himself from matters that involve his dad. Now his other son right away made a website that he is running for congress. They are selling out our state and ALL of its residents to just to stay in power and pass bad bills that help NO ONE in our state. We need FAIR representation, not more gerrymandering and voter suppression. STOP GERRYMANDERING OUR STATE. STOP CHEATING. If you just passed bills that helped residents, you would not need to cheat.
10/19/25 1:38 PM	Dr Ellen Weiss		Please do not continue with redistricting. This proposal is unnecessary and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Therefore, it is un-democratic. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 1:39 PM	Dr. Karen Geiger		This is an obvious way to subvert the democratic process and making winning the only goal, not representing your constituents across the state. Where is your commitment to democracy?
10/19/25 1:41 PM	Say NO to gerrymandering Kasey Vann		Gerrymandering is a violation of the people's voice, votes, and should be illegal. Im sick of politicians redrawing the maps to get themselves more votes. If your policies or you aren't popular enough to win an election without gerrymandering, YOU SHOULDNT BE IN OFFICE!!!
10/19/25 1:42 PM	Urging to NOT Redistrict Bessther Euceda-Alvarado		I urge the state to not redistrict North Carolina.
10/19/25 1:42 PM	Gerrymandering should be	Dustin Carpenter	Gerrymandering should be illegal. It is NOT a fair representation of people's votes. Enough is enough.

10/19/25 1:43 PM	Beth Chamblin	Myself	The people of NC deserve to be able to choose their representatives instead of the representatives in power using that power to choose their own voters to ensure they retain their power. More votes were cast for democratic candidates in 2024 yet due to the gerrymandering of the state a super majority was retained. Singular party rule invites corruption as we have seen here in NC with the outside lobbying exploding since the republican party has assumed control of the state legislature. Mid session redistricting is unwarranted and called for and is yet another betrayal of the state legislators of their constituents in the name of power. Fair maps ensure greater voices are heard, decisions are made that best serve ALL the people of the state not only those that vote one way. By creating disparate districts the unique needs of communities go unserved. Please consider the true needs of the people you were elected to serve not the endless call for power and vote no to this out of cycle redistricting power grab.
10/19/25 1:44 PM	Julie Owen		Do not do it. Why on earth would this be done other than to game the system for a certain party? And why would anyone want to take away the people,Äôs power to choose? This bipartisan system has taken on a life of its own that has nothing to do with the people, but is just a stupid competition of R vs. D. Wait until the 2030 census. The fact that this even a conversation blows my mind.
10/19/25 1:45 PM	Dr. Elissa Brown	Retired	Thanks for taking comments on this critical, time sensitive topic that really doesn't have to be so as you all know. As a NC resident it's clear to me the only reason for republicans to take up this redistricting fight is to bow as acolytes to Trump. You are not putting the voter first! You also know that redistricting violates core principles of fairness, accountability, and limited government. Manipulating district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Äô ability to hold our leaders accountable. Redistricting as Rs propose disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! And I expect better of our elected representatives. How about you pass a budget first! Thanks for your consideration. Elissa (757) 593-2224
10/19/25 1:47 PM	Mary Sakowski		Gerrymandering is dirty politics. It attempts to control the outcome of the will of the people. Your oath of office is to protect the democracy and the people of NC. I did not vote for Trump to be in either houses of the state of NC. I fully expected our NC politicians to execute their duties of office with integrity, honesty, and independent thought. That is the way the system is designed. What does it say when a political party bends a knee to one person? What does it say when a political party is complacent in trying to rig the results? What does it say when our politicians are more loyal to the will of the president than to the will of their constituents? What are NC politicians for? To represent the people of NC or to be a minion of an out of state politician? I OPPOSE GERRYMANDERING IN NC or anywhere
10/19/25 1:47 PM	Deborah Johnson	Clergy	I cannot express how disappointed I am with this legislative body. You know you are going to lose some seats so you're trying to set the system up to favor you. That is wrong in so many levels. And don't dare say the Democrats do the same thing. Nothing compares to this lawlessness.
10/19/25 1:47 PM	Lawrel Banks		Stop capitulating to the president. Stop drawing crazy district lines. What happened to districts being drawn by county lines. I mean we don,Äôt redraw state lines like that to win elections. If you are too afraid of losing then you should be listening to the voters and change your position. Gerrymandering is for losers!
10/19/25 1:48 PM	Mr Peter Godfrey		It,Äôs sickening. Stop fighting for your party and do something to help citizens.
10/19/25 1:49 PM	Lisa Matthews		Stop the gerrymandering. Let the voters decide who they want in office. Listen to your voters needs not your personal desires.
10/19/25 1:50 PM	Alison Henley		Please do not cave to Trumps request to redistrict. I moved to this state one year ago. To redistrict in the middle of a decade appears as gerrymandering. Please do the right thing for NC and do not bow to Republican (Trumplican) party.
10/19/25 1:51 PM	Michelle Lievsay		This redistricting is unnecessary, unpopular, and distracting. Please focus on the important issues affecting North Carolinians (budget, education funding for our kids) instead of helping our president cheat his way to increased power. No more gerrymandered maps.

10/19/25 1:52 PM	Do your job!! Deanne Shannon	I am furious that the NCGA is discussing redistricting and the budget still isn,Äôt finished. My family is paying almost DOUBLE for insurance and it will cause a PAY CUT for me. I am a teacher with over 27 years experience and I am pushed into the higher salary bracket to pay more (even though I am not scheduled for another pay raise for the rest of my career). I am tired the NCGA not doing their job they were elected to do. I am tired of the CHEATING both parties have done and the gerrymandering that doesn,Äôt give a chance for all voices to be heard. If you must redistrict (during a time that census data isn,Äôt being used), divide the state equally ,Äî-AFTER YOU HAVE SIGNED THE BUDGET!
10/19/25 1:52 PM	Dr. Brooke Burrows	As an educator who works in the field of intergroup conflict and conflict resolution, I am deeply saddened by the direction our NC leadership is taking us with decisions like these redistricting efforts - a direction that not only sponsors greater polarization and disagreement, but that is also fundamentally unfair and minimizes the voices of many Americans. I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. I am proud to be a North Carolinian, proud to be from Western North Carolina, and proud of the unity and care that I have seen my community members show for each other, especially in this past year following Hurricane Helene. I hope to see this same sense of unity and care illustrated by the elected officials that represent me.
10/19/25 1:52 PM	Katie Verna	he map that the NC House Committee on redistricting proposes is quite obviously not about NC citizens - the people who elected you, the members of this committee, to serve. It will essentially disenfranchise Democratic and Independent voters. I am a Democrat and I will be disenfranchised! What are you hiding about your plans for our state if you feel it necessary to take this extreme action to retain power and to silence those who don,Äôt agree with your beliefs for governing our state? This is not what a democracy is about. This is not how you serve ALL North Carolina citizens.
10/19/25 1:53 PM	Ms. Elisabeth Garner	I am not in favor of redrawing district maps for the state of North Carolina. This started with Texas. This is yet another attempt by members of our GA to gerrymander the map and limit true representation for voters in our state.
10/19/25 1:53 PM	Olivia Vernot	I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 1:53 PM	LeeAnn Petropoulos	Thanks for taking comments on this critical, time sensitive topic that really doesn't have to be so as you all know. As a NC resident it's clear to me the only reason for republicans to take up this redistricting fight is to bow as acolytes to Trump. You know this is true. You also know that redistricting violates core principles of fairness, accountability, and limited government. Manipulating district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Äô ability to hold our leaders accountable. Redistricting as Rs propose disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! And I expect better of our elected representatives. How about you pass a budget first!
10/19/25 1:55 PM	Mrs Melvina Ray-Davis	Number 1: No, I do not agree with you redrawing the voting map AGAIN unless you are actually going to be fair to ALL of the voters in NC! Why? Are you afraid of the results? If you are so confident in your position and ability to win with FAIR voting why do you have to be mean, selfish, hateful and disloyal to ALL NC voters and "YOUR (LOL) constituents" to have our voices and votes heard. I wish I knew how it felt to be really free! What"s Trump holding over you other than his endorsement and your collecting your soul? Have you really read the read the bible lately? Not his version of it? Melvina Ray-Davis
10/19/25 1:56 PM	Cheryl Oliver	The proposed maps are not representative of the population of our state and need to be redrawn in a nonpartisan manner.
10/19/25 1:57 PM	Resident Mckenna Cawman	Please do not further gerrymander our state. Let our votes accurately be reflected by our government.

10/19/25 1:59 PM	Hazel Robinson		I oppose further redistricting efforts. Keep our elections fair and representative of all!!!
10/19/25 2:01 PM	Mr. Richard Hough	USAID Foreign Service Officer, Retired	Even Elbridge Gerry is rolling in his grave over the extreme, self-serving and anti-democratic redistricting proposals by an NC Republic Party that has sworn allegiance to a wanna-be king posing as a president rather than to the Constitution and the people of the State of North Carolina and the United States of America!!! Stop this callous attempt NOW before it haunts your political and personal lives the rest of your days!
10/19/25 2:01 PM	Annette Jones	Retired	Attempting to redistrict before the next census in an attempt to add another REP seat,Äîwhen there are already seven and 3 DEM. comes across as political manipulation rather than fair representation. It may end up backfiring.
10/19/25 2:01 PM	Dr. Claudia Kozinetz		Mid-cycle partisan gerrymandering has severe consequences: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all.
10/19/25 2:02 PM	Richard Harkrader		All recent statewide elections show that NC is a 50-50 purple state. Congressional elections and state legislative elections should have the same results. No redistricting until 2030.
10/19/25 2:03 PM	Gabriel Nucci		The NCGA has blazed trails in the shameful history of gerrymandering. Now, at the behest of the GOP's lord and savior Donald J Trump, you are proposing to detonate a nuclear gerrymander that will disenfranchise 70% of NC's registered voters. This is shameful, cynical, and undemocratic. The legislators behind this FILTHY proposal should think recall the Civics lessons from their childhood and try to square their behavior with what it means to be Americans. I am registered Independant - the largest block of voters in NC - and my cohort locks arms with Democrats and sensible Republicans (if any remain) to demand that the 2025 Redistricting Proposal be shut down. We must STRENGTHEN DEMOCRACY, not allow it to be crushed under the jackboot of would-be totaltarian regimes. Our great nation will eventually rid itself of the cancer that DJT has unleashed on us. North Carolina has an opportunity to be lead that charge. This obscenely undemocratic redistricting plan MUST NOT BE ALLOWED TO PASS.
10/19/25 2:03 PM	Ms. Renee Kerns		It is extremely appalling that NC continues to redraw these maps in favor of one party over the other. What is more appalling is that it is again being done, but this time at the request of the president's administration. When will enough be enough? I see absolute no integrity, no truth, or concern for the citizens of NC going on here. Those with the power intend to keep to keep it, no matter who gets hurt in the process.
10/19/25 2:04 PM	Susan Riley		Fair elections are key to democracy.
10/19/25 2:04 PM	Mrs. Diane Tyndall		The proposed US House map is unfair to both the residents of proposed CD 1 AND the person who will occupy the seat. There are too many counties in the region!
10/19/25 2:07 PM	Gina Gilgo		I do not agree with this redistributing plan. Such plan should only be prepared by non partisan committees and should fairly represent the state,Äôs political, racial, and socioeconomic makeup.
10/19/25 2:07 PM	Kenwyn Caranna		I am opposed to this unnecessary redistricting. And I vote.
10/19/25 2:08 PM	Mrs. Kira Parris-Moore	Wite Collar	What Republican legislators are trying to do is very distasteful. They can't win so they cheat and change the rules mid-decade. Stop being pansies and bootlickers to Trump. North Carolinians won't stand for it!
10/19/25 2:08 PM	Mr. Harlow Snyder	State of North Carolina; citizen thereof	The midterm redrawing of districts, simply to ensure Trump's endorsement of Sen. Phil Berger, is a travesty. There is no other reason for this to happen in a state that is already grotesquely gerrymandered. Much better to put energy into finalizing a budget and trying to safeguard healthcare for 600,000 North Carolinians.
10/19/25 2:09 PM	Mrs. Andrea Smith	Democratic Women of Iredell County	Do not change the already hugely gerrymandered districts! It is a blatant power grab by our Republican representatives. People need to be fairly represented. Stop the shenanigans. We know what you are doing and why. This will misrepresent the will of the voters.
10/19/25 2:12 PM	Sylvia Andrews		I ask all representatives to stand with the people.
10/19/25 2:12 PM	Redistricting Lisa Baucom		This is clearly unconstitutional. Public officials who disregard our constitutional right to fair representation will be voted out of office!
10/19/25 2:12 PM	Glennette Papovich		I oppose redrawing congressional maps because it can undermine fair representation, weaken community voices, and allow for political gerrymandering that prioritizes party power over voters,Äô interests
10/19/25 2:13 PM	Dr. Deborah O'Brien		Representative government is key to a functioning democracy. Gerrymandering for political, racial or any other reason is wrong. Legislators should focus on issues that improve the lives of all North Carolinians rather than an extremely partisan redistricting plan that will likely result in costly litigation. Stand up for the free and fair elections that we all deserve.
10/19/25 2:13 PM	Ron Wood		Gerrymandering in North Carolina is not needed. We need equal representation in our government.

10/19/25 2:14 PM	Sarah Baesmith		Distinguished Committee, I please record my comment against state redistricting at the moment. We have been redistricted twice in the past 5 years, and another one is unnecessary, nonsensical, and very much appears to be politically motivated to create maps that significantly favor political conservatives. Additionally, the proposal would dilute the power of Black North Carolinians, which would certainly be challenged in court, given that the national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. Finally, we are in the middle of local elections, and this proposal comes off as a significant distraction.
10/19/25 2:16 PM	The Rev. Julie Murdoch		The proposed redistricting is a shameful naked attempt to ensure that our legislature does NOT actually represent the people of our state. Gerrymandering is bad regardless of which party does it, but race-based redistricting is an added level of despicable. I firmly oppose this action.
10/19/25 2:16 PM	Lisa Falconer	Mecklenburg County	Engage an independent commission without political ties to establish the voting map. Enough of this theater. Every eligible voter deserves to have their voice heard and not silenced by a gerrymandered map.
10/19/25 2:16 PM	Ms jane lucas	citizen	You might ‚Äúwin‚Äù in the eyes of Trump but God sees the truth. Cheating to win is hollow when God measures honesty and integrity. People pick our representatives-our representatives should not pick their favored people. Review the constitution please.
10/19/25 2:18 PM	Ms Kelly Ward		An independent commission needs to redraw the maps. How about you guys do your LITERAL job and PASS A BUDGET, instead of bending the knee to a wannabe dictator and making our state a national embarrassment??
10/19/25 2:18 PM	Matt McGarry		Leave our districts alone
10/19/25 2:19 PM	Bridget Roxanne Taylor		STOP the STEAL of our 1st Congressional District. We are tired of being pawns in the GOP's 5th redistricting plan in 6 years. GOP leaders are playing with our votes by arranging the districts to elect officials they choose. Citizens are supposed to select their representatives- not representatives select the voters to get them over the top. That is UN-constitutional & UN-American. That is election fraud. Census results did not prompt this plan. Any desire to subvert the will of the citizens in this district is illegal, immoral & unethical. Your job as legislators is to serve the constituents of this great state- not suppress their voices. Anyone's desire to appease a dictator by throwing North Carolinians away is shameful. I recommend a course for you all in how to serve in a government of the people, by the people & for the people. As public servants, you are to work for us rather than us work for you.
10/19/25 2:19 PM	Jordan Spector	None	Partisan redistricting erodes public trust, silences communities, and undermines the very foundation of democracy. Every citizen, including Republican, Democrat, and Independent alike, deserves an equal voice in choosing their leaders. Manipulating district lines for political gain is not leadership; it‚Äôs corruption by another name. Countless thousands of North Carolinians stood up on 10/18/25 to declare that this state OPPOSES dictatorship and the intent to horde power. We are all watching this vote closely, and any vote in favor of this motion will label that legislator as an enemy of North Carolina's democracy and its people; we will not forget.
10/19/25 2:20 PM	Joseph Papovich	None	I oppose redrawing congressional maps because it undermines fair representation, weakens community voices, and allows for political gerrymandering that prioritizes party power over voters‚Äô interests.

10/19/25 2:20 PM Representative Rodney Pierce	NC General Assembly (House of Representatives)	The New Congressional Map Is Designed to Weaken the Black Vote North Carolina,Äôs First Congressional District has long been at the center of the Black political experience in this state. Encompassing much of eastern North Carolina, it includes counties where Black residents fought for the right to vote, to work with dignity, and to be represented. Now, that legacy is once again under threat. The General Assembly aims to redraw the district in a way that would significantly reshape its boundaries to include counties that have very different political and demographic makeups. This would not only change who represents the region ,Äì it will dilute the voting strength of Black North Carolinians who have fought for generations to have a seat at the table. As the state representative for House District 27 ,Äì which includes Halifax, Northampton, and Warren counties ,Äì I know how deep this struggle runs. Halifax and Northampton were among the 40 NC counties that were subject to federal ,Äúpreclearance,Äù under Section 5 of the Voting Rights Act. Halifax was the only county in the state that, because of its record of discrimination, was barred from relief from federal literacy imperatives (Alston v. Butts, 1964). These discriminatory laws and practices kept citizens from voting, holding office, and controlling their own destinies. They turned to the courts ,Äì and won. In Johnson v. Halifax County (1984) and Ellis v. Vance County (1987), lawsuits filed under Section 2 of the Voting Rights Act forced changes in election methods that finally allowed Black candidates to be elected to county commissions. Lassiter v. Northampton County Board of Elections (1959) and Bazemore v. Bertie County Board of Elections (1961) challenged the use of literacy tests to disenfranchise Black voters. Other lawsuits across the region ,Äì including NAACP v. Roanoke Rapids, Hines v. Mayor and Town Council of Ahoskie, and Wilkins v. Washington County Commissioners ,Äì successfully challenged similar discriminatory practices.
10/19/25 2:22 PM Leslie Kausch		This is an outrageous waste of time and resources! We need to pass a budget, not redistrict AGAIN so that you can alienate and disenfranchise even more voters! Wait until the next census to redistrict and do your job please!
10/19/25 2:22 PM Martha Roblee		Mid-cycle partisan gerrymandering is anti-democratic - it silences voters by ensuring predetermined outcomes; destabilizes elections by creating confusion with constantly changing district lines and weakens our democracy by entrenching one party's power. The result is that voters lose confidence in the fairness of the system and many stop believing their vote matters at all. I stand firmly opposed to these tactics - regardless of which political party does it.
10/19/25 2:24 PM William Jirles		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ,Äúcracking,Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. This proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year,Äôs election before dropping big changes to next year,Äôs.
10/19/25 2:24 PM Mrs. Susan Freeman		I've recently moved to NC from Florida, and am learning about how heavily gerrmandered NC truly is, and i find this appalling. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. North Carolinians deserve fairness and accountability and government that reflects the people and their values. Gerrymandering violates core principles of fairness, accountability, and limited government.
10/19/25 2:24 PM Carolyn Ferrell		Our democracy depends on fair representation. It's undemocratic and clearly un-American to attempt to shift voting map lines for partisan advantage. Just because you "have the votes" to redraw the voting maps doesn't mean you should. It doesn't mean it's the right thing to do. It means you're deciding to be cheaters. Remember during the Presidential debate with Hillary Clinton when Donald Trump said not paying the taxes he owes our country makes him smart? Why do you want to emulate him by following this unethical directive? You can choose a different path. You can stand up for justice. History is watching.

10/19/25 2:27 PM	Abigail Gifford		Do not change the election maps. I am a North Carolina resident and I think the reason for this redistricting effort is transparent and does not serve me. I'd prefer the legislature gets back to focusing on business that supports North Carolinians and our daily lives.
10/19/25 2:27 PM	End Gerrymandering Mariano Chacon	Private Citizen	I,Äôm writing as a North Carolinian who believes our state deserves fair representation. Gerrymandering, drawing districts to favor one party, undermines democracy by allowing politicians to choose their voters instead of the other way around. It silences communities, discourages competition, and breeds distrust in government. I align with Republican ideals in general more but I,Äôm not happy to see seats forced or manipulated. This feels more like bullying then fair representation.
10/19/25 2:28 PM	Ms May Sigmon		I am writing from the western part of our beautiful state. I am dismayed to hear that a restricting is being considered once again. Drawing the districts should be a very rare, very thoughtful decision that is based not on political parties but population changes in a district. I understand that the republicans might be feeling nervous about future votes, but the solution to the nervousness is changing your political platform so that people will vote for you. Not redrawing maps in awkwardly shaped districts that are solely formed to get you votes. Gerrymandering is the wrong way to get votes. Please don,Äôt do it. May
10/19/25 2:28 PM	Rev. Toni Ruth Smith		I am deeply concerned that the redistricting as currently drawn disenfranchises some North Carolinians. We are a purple state, regularly electing Republicans to the state legislature and Democrats for governor. This map heavily outweighs the votes of Republicans and unfairly stacks the deck against Democrats by watering down our diversity. Such maps should not be partisan but rather drawn by independent third parties to accurately reflect the true makeup of our state. If Democrats presented something this heavily one sided, the Republicans would (rightly) be enraged. We cannot do to others what we would not want done to us. It is time for our governments to do right by all their citizens and quit this political gamesmanship. It does not serve the public good. Please do better and reject this unfair redistricting map.
10/19/25 2:29 PM	Dr. Sarah Barton		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. Please stop gerrymandering maps! This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 2:30 PM	Ms Donna Somers		To All Members of our North Carolina Legislature: I implore you to return North Carolina to fair and balanced elections, with every eligible voter being able and allowed to cast their votes. Gerrymandering is wrong, no matter which party does it. It has to stop, so take the high road and get it done. As our elections stand now, it strongly appears that you do NOT want us to vote and that you are doing everything in your power to stop people from voting. Rather than (1) cutting the number of early voting days and hours, (2) stopping people who may have to wait in line for hours to vote from being given food or water, (3) trying to stop people from mailing in their completed ballots, and just making everything about voting more difficult, why are you not, instead, doing everything you possibly can to encourage eligible voters to vote? The fairest way to have elections in NC is what was done in 2022, which had to be done by court order. We are a purple state and our representation in Congress should be just about equal, no matter what. The court-ordered nonpartisan committee drew 7-7 maps, which accurately reflected our voting population. The 10-4 results from the 2024 election do not come close to fairly representing North Carolinians political beliefs. And now, the Senate and House leadership want to change our maps again, 5 years early, to steal another Legislative seat, 11-3. This is totally unacceptable! It is NOT our Legislators' responsibility to make sure the president's agenda is followed. It is your job to represent us, your constituents, NOT the president or his agenda. And, right now your focus should be on negotiating a budget so our state can resume normal governmental operations. Your priorities are out of line with our state,Äôs needs. Start paying attention to your constituents and their needs. I do believe that people should make sure they mail their ballots at least 4 days prior to an election since we cannot depend on our US Postal Service to deliver mail in a timely manner. The date/time stamp should be used as the date of acceptance of an election. Thank you for reading this. Donna J Somers Greensboro, NC 27410
10/19/25 2:30 PM	MICHAEL BRUBAKER		This proposal by North Carolina Republicans to redraw our congressional districts breaks the trust of voters and disregards all established rules for fair elections and honest government. I strongly reject this brazen attempt to manipulate district borders for partisan advantage. It will overturn decades of effort to give North Carolinians equal representation and weaken the ability of all voters to hold leaders accountable. This blatant gerrymandering divides communities along artificial lines unrelated to shared geographic interests. I consider this a direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color. It will concentrates power in the hands of one political party by cheating people of their rights. It is morally and wrong on many levels. It is an injustice to all North Carolinians that should not be allowed to pass.

10/19/25 2:31 PM	Valerie Scott		Partisan districts mean less discussion, no negotiation, and entire groups of voters being excluded from real representation. Historically, NC has been a state parks independent of political demands. Rather, common sense and moral fortitude prevailed. Let us not lose that sense that representatives will do the right thing. NC needs a budget, not political ploys.
10/19/25 2:31 PM	Dr Shannon Leahy		I am strongly opposed to this assault on our democracy. The Republican party should work harder for their people, rather than redrawing maps to rig our elections and bypass accountability. This is an assault on free and fair elections, as if NC needs any more assaults on free and fair elections - I was already concerned after our state Supreme Court elections outcomes were denied and attempt d to be overturned by the GOP candidate last November. Gerrymandering an already unfair map does not serve our democracy, and denied many North Carolinians a chance to be heard and fairly represented.
10/19/25 2:31 PM	Dr. Barbara Guise		Do not redistrict NC in order to curry favor with Trump. Drawing district lines should be done by a non-partisan (or bi-partisan) independent committee to ensure that districts are fair. What the GOP is doing is blatantly political and wrong. Redrawing district lines to give one party an unfair advantage is not democratic. It is not right for the GOP to try to gain more power through illegal districting efforts rather than run on policies that actually benefit all citizens, not just their donors. Do the right thing and do not be Trump‚Äôs errand boys.
10/19/25 2:31 PM	Sybil Calder		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and our votes should count equally, regardless of political affiliation, race, or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal
10/19/25 2:32 PM	Allison Megahey		I am against the drawing of these new congressional maps. NC maps are already unfairly gerrymandered. According to the nonpartisan Gerrymandering Project, NC already gets the lowest grade (D/F). Maps should fairly represent voters and should not change for the purpose of overly representing or protecting one party or those already in power.
10/19/25 2:33 PM	Mrs Shelly Kiker	None	Every North Carolinian deserves representation. There is no explanation for gerrymandering beyond "cheating". Flipping seats is unfair and leaves our citizen unrepresented. Why cheat? If one's policies are best for and most popular with the people, you will be duly elected.
10/19/25 2:33 PM	Rabbi Geoffrey Brown	Retired	Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters‚Äô ability to hold our leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,‚Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! Redistricting now is unnecessary, rushed, and costly. The public is not being given enough time to consider the proposal and discuss it with their representatives. Legislators should focus on passing a state budget instead of rushing through an unfair redistricting plan that will likely result in costly litigation. North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps. The proposed maps would dilute the political power of Black North Carolinians, ‚Äúcracking,‚Äù the northeastern Black Belt into two districts. This is in direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color.
10/19/25 2:34 PM	Ms Sheryl Fortune		I am adamantly opposed to the proposed redistricting plan. It is unfair and totally unnecessary!

10/19/25 2:35 PM	Zebulon Fry		As a concerned resident of North Carolina, I am expressing my strong opposition to the newly proposed congressional redistricting map. Adopting this map is an intentional and partisan gerrymander that designed to silence the voices of North Carolinians and undermine the principles of fair representation. This proposed map is an abuse of power by the legislature. Instead of addressing the critical issues facing our state, lawmakers are again prioritizing gaining political power over the needs of their constituents. Having a healthy democracy means voters choose their representatives, not the other way around. Specifically, I am concerned that: 1) The map is deliberately drawn to create a political advantage for one party. This manipulates district lines to dilute the voting strength of communities and diminishes the integrity of our elections. 2) It further marginalizes the voices of voters of color, whose ability to elect candidates of their choice has already been challenged by previous maps. 3) This mid-decade redistricting is a bad-faith effort to subvert the will of the people and consolidate power, and it will weaken the accountability of our elected officials. The North Carolina General Assembly should reject this partisan gerrymander. I urge you to instead prioritize a fair and transparent redistricting process that serves all the people of North Carolina, not just one political party.
10/19/25 2:35 PM	Eric Zechman		No to gerrymandering! If you think you can win, run on your ideas to turn this economy in a positive direction, not on how well you can draw lines around communities. Right now, the only thing protecting the Trump administration is good for is assuredly running us further into debt and unprotected from another pandemic.
10/19/25 2:35 PM	Mr Scott Nolan		No further gerrymandering. No Kings.
10/19/25 2:35 PM	Robin M		I do not approve of your redistricting efforts that take aim at voters choice. It is not appropriate to redraw the districts in order to win an election.. This is the result of your fear of losing. You know you are going against what the people really want, or you would not be doing this. Shame on you all.
10/19/25 2:36 PM	Ruth Hull		North Carolina,Äôs GOP plan to disenfranchise voters simply because of their race and likelihood to vote democratic is just one more shameful, racist attack on black voters, in our beautiful state that has such a troubled history of mistreatment and subjugation of people of color. There used to be at least an attempt to pretend to care about justice and equality, but this latest move makes this shame obvious for all to see.
10/19/25 2:37 PM	Dr Katherine Jones		I openly dissent to the continued gerrymandering and redistricting. I love this state, and I,Äôve been so happy to live here but it feels as though the state wants to push us out by gerrymandering our voices away. It,Äôs unfortunate, and feels vastly unfair.
10/19/25 2:37 PM	Jody Ellis	Private citizen	This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. I oppose this proposal.
10/19/25 2:37 PM	Sandra Golden		Any redistricting plan is unnecessary with the aim to eliminate a Democratic incumbent and to reduce the voices of black and brown voters. This is unfair and undemocratic.
10/19/25 2:37 PM	Dr. Merritt Moseley		The Republican insistence on producing an unrepresentative group of Congressional members from this state, where 3/4 of our representatives are already GOP despite near equality in the vote for Congress because of previous gerrymandering, is unconscionable. Why does this party fear fair votes? And now redistributing in halfway between censuses? Because Texas did it? Because Trump wants it? I add my voice in the strongest terms: let the people decide, as democracy requires, and stop trying to fix the odds.

10/19/25 2:38 PM Mr Jared Pace		I hope this message finds you well. I am writing to you as a constituent of Raleigh, NC with serious concerns regarding the attempt by the Republican leadership in the North Carolina General Assembly to redraw the state,Äôs U.S. House district maps ahead of the 2026 mid-term elections. This redistricting effort is taking place out-of-cycle, ahead of the decennial census update, in order to tilt the playing field this coming election. Specifically, GOP leaders openly stated they intend to craft additional safe Republican seats in Congress. By engineering districts to favor one party, the process undermines the foundational democratic principle that the party with the most votes should have the opportunity to win seats proportionally. The think-tank Brennan Center for Justice long ago described North Carolina,Äôs last map as one of the ‚Äúmost extreme,Äù partisan gerrymanders. I ask you to oppose any attempt to enact a congressional map that is clearly drawn for partisan advantage rather than fair representation, demand full transparency in the redistricting process, support criteria in any map-drawing process, and avoid maps that pre-determine partisan outcomes. As someone who is engaged in our community and who watches closely how policy and leadership impact everyday civic life, I believe strongly that the integrity of our election maps is fundamental to fair governance. When maps are drawn to ‚Äústeal,Äù seats rather than reflect voters,Äô preferences, then the very essence of representative democracy is at risk. I appreciate your leadership and your willingness to stand up for fair maps and equal representation. Thank you for your time and attention to this vital matter. I would welcome any updates on how you plan to act or any steps I may take to support fair redistricting in our state. Sincerely, Jared Pace
10/19/25 2:39 PM Jake Severn		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 2:39 PM Carol Rosenblum		Gerrymandering violates core principals of fairness and accountability to everyone. It disrupts local control by dividing natural communities and concentrating power in the hands of a few people.
10/19/25 2:40 PM Esther Hammond	Private Citizen	A recent newspaper published in that Senator Don Davis was "kicked out"(exact words). Senator Davis is respected by many. Redistricting is not supported by many of the constituents in North Carolina. I do not agree with redistricting that only benefit a select few. North Carolina General Assembly have to consider subjecting its citizens to nationwide debates we currently should avoid . The general assembly is sending the wrong message to the citizens. I do not want to live in a state that resembles Texas. Never in a million years, that I ever would that we would resort to participate in plots, and ploys for votes. Every constituent should be sounding the alarm on what's to come. Have we began to lose sight of what is happening to our country? We are better than the rest of the country. We are sending the wrong message. This will hurt many and help only a few.
10/19/25 2:40 PM Heather Cummings		North Carolinian native and a constituent of Bradley and Cotham here. No more gerrymandering or redistricting! This is making our state less representative of its actual population, rather than more representative. Not only is it highly unethical but it is also highly unpopular. If the GOP thinks rigging the system even more won't come back to bite it in the behind, I would say think carefully about that first. I read this will be five times in six years that the state has been redistricted/gerrymandered. That is pure corruption!
10/19/25 2:41 PM Martha Clark		How much gerrymandering do you think is fair? Only a weak party, afraid of competition would do what you are proposing. SHAME on you!!
10/19/25 2:43 PM Anne Van Benschoten	resident of and registered voter in District 1	NC voters want FAIR elections, not RIGGED election! I am OPPOSED to the new redistricting maps and ANY gerrymandering for the purpose of influencing the outcome of elections. Such actions strip voters of their vote and their voice. It IS possible to draw non-biased electoral maps if you hire an independent, outside group. Why is this not on the table??

10/19/25 2:44 PM	Mr Alexander Kast		To whom in concerns, I am an unaffiliated voter who has voted for Democrats and Republicans alike. I believe in the freedoms of ideas and the promotion of clever and out of the box thinking in regards to policy. I lean towards strong borders, enforcement of our laws (albeit compassionately not brutal), fiscal conservatism, environmental conservatism, job growth and many other conservative thoughts. I believe we are stronger if we have more competitive congressional seats and that the extremism on both sides would be subdued if we would lead a more centrist government. I do not agree with gerrymandering any state and would encourage you to reinstate the fair maps of 2020. Thank you for your time, Alexander Kast Pittsboro, NC
10/19/25 2:44 PM	Malaysia Woullard		Redlining and Gerrymandering is the main reason behind segregation and systemic racism. Voting to separate districts into intricate tedious districts and huge more funding to white/republican areas is the only and main goal of redlining. It,Äôs outdated and unnecessary. Do not be those people
10/19/25 2:45 PM	Lynn Tovar		As a resident of North Carolina, I am against this redistricting. It undercuts important representation of our diverse state. I urge the honorable members of the General Assembly not to adopt this new Congressional map that has been proposed.
10/19/25 2:45 PM	Laura Smythe		How disgusting. Proves the GOP is afraid to let the public actually pick their preferred candidate. Hope this attempt to rig the midterms backfires massively
10/19/25 2:45 PM	Ms Erika Ripley		I respectfully ask that the Committees not initiate partisan redistricting. North Carolina,Äôs representational government should not be used as a piece on the national chess board. We deserve an elected government that acts in the state,Äôs and the citizens,Âô interests. Thank you.
10/19/25 2:46 PM	Ms Joanne Friedman	Indivisible	Why do you have to cheat to win? Not fair,Ä¶.just leave districts alone and let the people decide. Trump started this not Gavin.
10/19/25 2:46 PM	Maggie Dees		It is embarrassing to see my state, which I am extremely proud to be from and live in, is bending so easily to the whims and outlandish demands of the sitting president. I live in a gerrymandered red district, and every year I am still proud and excited to vote for democratic candidates. I deserve to have a say in the politics of this state, as does every other resident regardless of political party. Splitting Mecklenburg County into 3 separate districts is an insult to the people living there. I strongly oppose the proposed congressional map that would give one political party control of 11 out of 14 seats in a state that consistently votes nearly 50/50. This plan is not a reflection of the will of the people. It creates an outcome that silences millions of voices. North Carolinians deserve competitive districts that encourage accountability, representation, and trust in our democratic process. Gerrymandering erodes confidence in elections and discourages participation from voters who already feel unheard. I urge the General Assembly to draw fair maps that reflect our state,Äôs true political balance and protect every citizen,Äôs right to equal representation. Democracy works only when every voice counts, not just the ones chosen by those in power.
10/19/25 2:46 PM	Laura Teel		I strongly oppose the proposed redistricting plan. It silences fair representation and undermines democracy. Please reject any gerrymandering that manipulates voting power and disenfranchises voters.
10/19/25 2:47 PM	John Van Benschoten		I am OPPOSED to the new redistricting maps. Gerrymandering to influence the outcome of elections is unethical. NC voters want fair elections!
10/19/25 2:47 PM	Ms. Henrietta Jenrette	None	We North Carolinians need a non partisan commission to establish our election districts.
10/19/25 2:47 PM	Christy Randall		The proposed district does not represent our constituency. The plan represents a direct attack on the principles of a democratic republic. Fair representation makes a stronger state for all citizens; this plan makes North Carolina weaker.
10/19/25 2:47 PM	Evan Harrison	N/A	The proposed redistricting plan further gerrymanders our state to favor Republicans; it should be rejected. I support transparent and independent redistricting aimed at a congressional makeup that accurately reflects the politics of NC residents.
10/19/25 2:49 PM	Karen Holbert		Why do none of you see this for what it is : "stealing"? You are trying to steal from some of us , our right to a fairer voting process. Where are your consciences? Where are your religious and social ethics? Who are you really "serving"?
10/19/25 2:49 PM	Ms Geraldine Clark		I marched in 60's,n NC in DC and Texas for rights again in 70 and 80 jn DC but we will never stop bc we the people rise Keep rising God be with us
10/19/25 2:49 PM	Dr Christie Neill McLeod	Retired	See my comments already provide.

10/19/25 2:51 PM	Sarah Perkinson	NC citizen	I am opposed to gerrymandered voting districts as well as any redistricting conducted by our current legislature. We need to find a way to draw districts that is fair to all citizens and is non-partisan.
10/19/25 2:52 PM	Katie DeGraff		As a parent, a voter and a devoted citizen of our wonderful state, I am so ashamed by your behavior. This is a blatant attempt to silence voices and is deplorable. You know better, and I hope your conscience holds you accountable.
10/19/25 2:52 PM	Mary Ellen Poe		I do not support the redistricting efforts that would deprive North Carolinians across the state and across the ideological spectrum of true competition in the electoral process. Stop silencing our votes and start doing you work to legislate for matters that could actually improve the lives of people in NC.
10/19/25 2:52 PM	Reverend Kessiah Young		Stop allowing Republicans to cheat and steal votes and voices from North Carolinians!
10/19/25 2:54 PM	Ms Johanna Bernhardt	Durham County Democratic Party	You know this is wrong for our citizens if you have to push this proposal. It is unnecessary, rushed and costly. What gives you the right to redistrict North Carolina for a third time since 2020? The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 2:55 PM	Rebecca Elkin		Taxation without representation started a war before our great country was formed. The political manipulation of voting maps is simply a return to those same tactics. We are a purple state and our representation should fairly reflect that, regardless of which party is in power. My father gave his life in the Korean War to ensure that our democracy would survive attacks outside and within our borders. You tarnish his memory with this blatantly dishonest proposal.
10/19/25 2:56 PM	Ms Frances Dellinger		I am totally opposed to redistricting the NC congressional maps!! The maps are already gerrymandered far beyond anything fair for North Carolinians. Do not gerrymander our maps further! Please do the right thing for North Carolina. Sincerely yours, Frances Dellinger
10/19/25 2:56 PM	Sharon Williams		There was a time when elected state officials equally represented both parties. People had a fair chance to be heard and policies were fair because parties had to work together to benefit all constituents. Gerrymandering districts with the specific intent to favor one party over another is undemocratic. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 2:57 PM	Robin Grandl		This proposal is unnecessary and costly. Please focus on passing the state budget.
10/19/25 3:00 PM	Ms Barbara Campbell		Let‚Äôs stop rigging our elections through political gerrymandering. The maps are already gerrymandered! We do not want to be another Texas who succumbed to Trump demands. Please leave the maps where they stand.
10/19/25 3:01 PM	Mr John Principe	Self	Independent non partisan commission should be in charge of distracting and it should not be happening mid decade just because.
10/19/25 3:03 PM	Mr Royce Wolfe		The proposed NC redistricting plan undermines fair representation by allowing partisan manipulation and gerrymandering. This plan dilutes the power of voters, prioritizing political gain over democratic principles. We must ensure that district lines are drawn to reflect communities,Âô interests, not partisan objectives. I urge the committees to reject this plan and adopt one that promotes fairness, transparency, and equal representation for all North Carolinians.
10/19/25 3:03 PM	Mr. James Maddox		Although not illegal, this should be. Gerrymandering is the politicians,Âô attempt at choosing their voters rather than the voters choosing them - on both sides. This is an ultimate power grab, and I am ashamed our legislators are going this route, although they technically can. Where are your morals? Why is this not conducted by an independent third party. Your attempt at keeping power will one day backfire when the other party does the same. Stop interfering with ‚Äùdemocracy,Âù while you still can.
10/19/25 3:04 PM	Ms. Eva Morgan		Redistricting should be done every ten years and only after a complete census of the entire district's population. Redistricting now for the 4th time since 2020 is clearly partisan and an abuse of power.
10/19/25 3:04 PM	John Welton		I do NOT support redistricting at this time.
10/19/25 3:07 PM	Martin Stankus		Do not continue to create lopsided voting districts to win elections. Work towards addressing NC residents needs and legislation to win votes! And work on approving a budget!

10/19/25 3:07 PM	Laura Heflin		I,Äôm deeply concerned that legislative leaders are spending time on new congressional maps instead of finalizing the long-overdue state budget. 84% of NC voters, including me, believe that partisan gerrymandering is wrong and undermines fair representation. Stop wasting time manipulating district lines for political gain. North Carolinians deserve fair, competitive maps,Äînot another partisan power grab. Voters should choose their representatives, not the other way around. Do not support redrawing the voting maps yet again.
10/19/25 3:09 PM	Joyce Odom		Oppose efforts to redraw congressional districts in North Carolina. Will only support candidates in next election who oppose efforts to change the congressional districts.
10/19/25 3:12 PM	Jane Willig		Absolutely NOT in favor of this gerrymandering. Every voter is entitled to having their vote respected and responsibly counted.
10/19/25 3:15 PM	Amanda Maynard		Do not gerrymander the map. Do what is fair for all North Carolinians. Changing the map to lean republican is cheating. Do not cheat.
10/19/25 3:15 PM	Dr. David Rabiner	Dept. of Psychology & Neuroscience, Duke University	Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS. Please allow for free and fair elections and end efforts to rig them - that will ultimately destroy the democratic process which will take our state and country down as well. This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. This proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year,Äôs election before dropping big changes to next year,Äôs.
10/19/25 3:15 PM	Dr John Miller		I am adamantly against redistricting voter boundaries in our state to artificially increase one political party,Äôs, any party,Äôs, outcome in elections. Our local, state, and federal governing bodies have become more akin to dictatorships and banana republics than to a democracy, which I never thought could happen until a few years ago. Perhaps many of you legislators in favor of political redistricting think you will have more power, which may be the case for a few years, but your opposition will inevitably be in power in the future. If you have any decency, courage, and ethical responsibility, you will vote against gerrymandering now or in the future, I will vote for you in a heartbeat. If you choose the banana republic route, you will never have my approval nor my vote.
10/19/25 3:16 PM	Voter Durham-Anonymous	N/A	Democracy depends on voters choosing their elected officials ,Äî not politicians choosing their voters. North Carolina does not need another rushed, unnecessary, and costly redistricting process. Our state has already been redistricted twice since 2020. This constant redrawing of maps wastes taxpayer money, confuses voters, and undermines public trust. Legislators should be focused on passing a state budget and funding our public schools and public servants ,Äî not protecting political power. This new proposal would weaken the voice of everyday North Carolinians, especially Black voters by splitting their communities and diluting their voting power. That,Äôs not fair representation ,Äî it,Äôs voter manipulation and injustice. North Carolinians deserve stability, transparency, and fairness in our elections. No more gerrymandered maps.
10/19/25 3:16 PM	Mrs Kasha Gauthier		Don't no redistribute our state.
10/19/25 3:17 PM	Ashley Cole		I do not think NC should be redistricted. It,Äôs is unfair to all North Carolinians. We should be represented fairly regardless of party.
10/19/25 3:19 PM	Mr Redus Brooks		There is no need to go through another round of redistricting. This costs taxpayers money and only results in unfair elections. We need fair elections that do not involve gerrymandered maps solely for political gain.
10/19/25 3:21 PM	Ashley Reber		By redrawing the maps you are essentially destroying any chance that CD1 will be represented by someone that understands the challenges that the African community have. But, it,Äôs clear to me the Caucasians in the GA don,Äôt give a damn about the poor and minorities in this state.
10/19/25 3:22 PM	Janet Seper		The Republican gerrymandered map clearly does not allow for representation of the people of North Carolina. It,Äôs cheating, dictated by Donald Trump. I strongly object!
10/19/25 3:22 PM	Dr Megan Joyner	National Guard	Maps should be drawn fairly and reflect ALL voters in NC. NC is a "purple" state and the idea to appease one political group, in an already gerrymandered state, is appalling. That data for voters doesn't lie. Why should politicians be allowed to redraw maps to benefit their own party? Maps should be drawn by independent groups, during normal census years.
10/19/25 3:22 PM	Fairness, not politics Erik Prince		Redistricting should not be done for political purposes, to disenfranchise voters. Redistricting should not be done, except after a census to adjust for population, as directed by law. Redistricting now only to disenfranchise some voters is wrong and should not occur.

10/19/25 3:25 PM	Brooks Morris		I am writing in opposition to the proposed redistricting plan. Only two years ago, redistricting turned a map that was fair, a map drawn by the Supreme Court that resulted in seven U.S. congressional seats each for Democrats and Republicans, into a travesty that gave us the current delegation of two Democrats and 12 Republicans. They now wish to disenfranchise NC voters further. The Constitution provides that districts can only be redrawn once every ten years after the census. This is a clear move to insulate Donald Trump from accountability for his agenda. Phil Berger, the senate leader, has given voice to that goal. The very purpose of elections is accountability. Why are you considering a move that is unconstitutional as well as violative of the very purpose of elections? Redistricting to help Donald Trump is both against the law and against the values that our coutry is founded on. Please oppose this undemocratic push.
10/19/25 3:25 PM	Lizzy Hoffman		I am writing in opposition to the proposed redistricting plan. Only two years ago, redistricting turned a map that was fair, a map drawn by the Supreme Court that resulted in seven U.S. congressional seats each for Democrats and Republicans, into a travesty that gave us the current delegation of two Democrats and 12 Republicans. They now wish to disenfranchise NC voters further. The Constitution provides that districts can only be redrawn once every ten years after the census. This is a clear move to insulate Donald Trump from accountability for his agenda. Phil Berger, the senate leader, has given voice to that goal. The very purpose of elections is accountability. Why are you considering a move that is unconstitutional as well as violative of the very purpose of elections? Redistricting to help Donald Trump is both against the law and against the values that our coutry is founded on. Please oppose this undemocratic push.
10/19/25 3:26 PM	US Citizen Norma J Eubanks		Stop the redistricting in Robeson County NC
10/19/25 3:26 PM	Against early redistrict Andrea Rosal		I live in Asheville. NC voters are 38% Unaffiliated, 32% Democrats, and 30% Republican. It's challenging enough to maintain a feeling of free and fair competition when partisanship in our country is at an all time high. Altering the state election traditions to redistrict in favor of the majority in the assembly at the request of the federal government to lean on the scales of the next election cycle is not helping our country heal what's pulling it apart -- it's further alienating the 70% of NC registered voters who deserve a more fair shot at electoral choice. I urge you to put the vanishing integrity of our democratic processes above the pressures to quash competition at all costs. That is not the picture of a healthy society. Please do what's right, for all of us. Thank you.
10/19/25 3:27 PM	Rev. Alexandra Lusak		I am an informed senior citizen and an ongoing active voter in local, state, and national elections. I have lived in western North Carolina since late November 2019 and am deeply concerned by the news that the NC legislature plans to debate and vote on mid-decade redistricting with particular focus on redrawing District 1. In the congregation where I worship, we are working hard to dismantle and detoxify from the deleterious effects of white supremacy and white nationalism. I am vehemently opposed to legislative action that will further erode and dilute the voting strength of NC;s Black residents, whose access to appropriate representation at every level of government has for far too long been minimized. This state needs to do justice, not engage in political gamesmanship.
10/19/25 3:28 PM	Mr Michael Jones		The NCGA has no business addressing redistricting at this time. House and Senate Republicans have failed to complete their most basic legislative responsibility of passing a state budget. Until they can do the jobs they were elected to do, they should not dedicate even a minute of legislative time to their plan to insulate Republicans congressional representatives and the president from accountability from the rejection of their failed policies by the American voters. Mid-decade redistricting for partisan purposes is irresponsible, wasteful, and unAmerican. Legislative leaders should let voters be heard on the current performance of national Republicans by rejecting plans to unfairly partisan redistrict mid-decade.
10/19/25 3:29 PM	Riley Murphy		This plan is undemocratic in every sense. Districts in NC were gerrymandered two years ago. Now the Republicans want to gerrymander them again to protect Trump in the midterm elections and the 2028 election. The NC House and Senate should be focusing on issues relevant to NC voters, such as passing a budget, protecting Medicaid, etc., and not engaging in actions that harm NC residents. The NC legislature should not be an agent for Trump. Act on behalf of the voters and put this redistricting initiative aside.
10/19/25 3:30 PM	Deborah Gartman		Please, no redistricting at this time. Remember that you work for us and not the president. I would prefer that you put your efforts towards finishing the state budget.
10/19/25 3:30 PM	Ms Michelle Tyson	None	Please do not engage in any redistricting activities in my beloved state! It is not only completely unnecessary, but also scandalous to try to dilute the votes of citizens of this state who have every right to representation. Please do not count yourselves with the others in this once great nation who have compromised their integrity!
10/19/25 3:30 PM	Michelle Welborn		I strongly urge you to oppose any efforts to further gerrymander the state of North Carolina. Public servants should be serving the public interests. Simply put, I refuse to vote for any candidate that votes to gerrymander the state, regardless of party affiliation.
10/19/25 3:33 PM	Jacob Welborn		I don't support changing the districts to make it easier for Republicans to win additional seats. This is wrong, illegal and goes against fair policies.
10/19/25 3:34 PM	Shirley Keel	private citizen	Why can you not figure out a plan where everyone's vote counts that is non-partisan? There are some states that have been able to do this. I have always looked at North Carolina as being a state where our votes at least count toward who is elected. I no longer feel that way because of the people in power in our legislature now who hunger for nothing but their own power. The majority of people in this state do not like gerrymandering and yet our legislature continues to deprive people of their right to be heard and to count. Please do not make this worse!
10/19/25 3:34 PM	Cheryl Hendrickson		Registering my opposition to letting electeds choose their voters by redistricting. I am a registered voter and this is not what I want.

10/19/25 3:35 PM	Tessa Snow		I do NOT support gerrymandering the state. Vote against this change.
10/19/25 3:36 PM	Ms. Patricia McClellan	Retired	Ironic that the GOP, whose leaders talk so much about "people should be hired and receive awards based on merit" must realize that they would lose if they were to be elected based only on merit, i.e. working to pass laws and policies to benefit the citizens of NC. These people who were so afraid of DEI programs are apparently okay with their changing the rules and cheating in order to win. Shame on you.
10/19/25 3:36 PM	Hannah Snow		I don't support redistricting. Elections should be fair. What happened to by the people and for the people?
10/19/25 3:37 PM	Thomas Carbone		NO to the prposed redistricting plan!!!
10/19/25 3:38 PM	Barbara Hearne		I do not support redistricting. I don't even recognize this country any longer.
10/19/25 3:39 PM	Mr. David Hearne		I am a life long Republican and I do not support redistricting. This isn't the American way.
10/19/25 3:39 PM	Susan Maxon		As a voting citizen of North Carolina, I strongly oppose the newly proposed redistricting maps in North Carolina. We already live under unfair voting maps. I urge you not to make them even more skewed with this mid-term redistricting. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard, and our votes should count equally, regardless of political affiliation, race, or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy. According to a recent poll, more than 3/4 of North Carolinians of all political persuasions oppose gerrymandering, because we learned at an early age that two wrongs (or 3 or 5 or more) don't make a right! Can I count on you to represent all North Carolinians and¬†refrain from further gerrymandering our voting maps?
10/19/25 3:40 PM	Dot Sulock		More gerrymandering of NC to increase control by one party is in direct opposition to democratic principles. It means Government will be for only part of America--not ALL Americans. Millions of Americans will no longer matter. I support district lines being drawn by an independent committee without extra benefit to either party. One party rule is not a democracy.
10/19/25 3:40 PM	Julia Tafoya		Stop it. You know it's wrong to redraw the already gerrymandered districts in NC! You know it's wrong. You will be making it so that even more North Carolinians will be without real representation in Congress. Is that fair? All to further President Trump's agenda?! Look in your hearts and ask yourself if history will look kindly on you for doing this. Let's go back to the days of decent discourse and debate among moral human beings who actually care about the welfare of this country. Stop your evil plan to redraw the lines just to win favor with Trump.
10/19/25 3:40 PM	Amanda Locklair		I'm against redistricting. As a mother of three, I beg you to consider the future of our children.
10/19/25 3:41 PM	Dr Margaret Conrads		Please DO NOT further gerrymander North Carolina! Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Âô ability to hold our leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! The new gerrymander initiative will harm the people of North Carolina and serve only a small group of power hungry politicians. Do the right thing!
10/19/25 3:41 PM	Ms Carol Hoppe		Gerrymandering voting district at this time to increase GOP congressmen and women is a shameful, undemocratic idea. I have little trust in the NC legislature's decisions these days, but this would hammer the nail into the coffin. Stand up against this idea, which plays into the hands of the increasingly autocratic federal government, if you have any backbone at all.
10/19/25 3:42 PM	Mr. Joel Anderson	Former GOP	Your job is to protect and vote in the best interest of your constuants. Your present actions are in violation of your oath, and a total disregard of your constuants. If this continues, you will be voted out of office. DO THE RIGHT THINGS
10/19/25 3:42 PM	Mrs. Sherry Welborn		I do not support the redistricting of our state.

10/19/25 3:42 PM	Robert Weeks		As a voting citizen of North Carolina, I strongly oppose the newly proposed redistricting maps in North Carolina. We already live under unfair voting maps. I urge you not to make them even more skewed with this mid-term redistricting. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard, and our votes should count equally, regardless of political affiliation, race, or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy. According to a recent poll, more than 3/4 of North Carolinians of all political persuasions oppose gerrymandering, because we learned at an early age that two wrongs (or 3 or 5 or more) don't make a right! Can I count on you to represent all North Carolinians and¬†refrain from further gerrymandering our voting maps?
10/19/25 3:42 PM	Michelle Schott		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. Worse, this proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters.
10/19/25 3:43 PM	Melvin Burnette		Of course I OPPOSE the Congressional redistricting plan. The objective of this plan is to gerrymander the state so that the voices of one party's constituents are disproportionately represented while others are marginalized. It is an abhorrent, undemocratic practice that should be illegal. One of this country's most basic principles is that government derives its powers from the consent of the governed. The proposed redistricting, and the redistricting efforts that have proceeded it have been undertaken specifically to undermine that principle.
10/19/25 3:43 PM	David Conrads		Thanks for taking comments on this critical, time sensitive topic that really doesn't have to be so as you all know. As a NC resident it's clear to me the only reason for republicans to take up this redistricting fight is to bow as acolytes to Trump. You know this is true. You also know that redistricting violates core principles of fairness, accountability, and limited government. Manipulating district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters‚Äô ability to hold our leaders accountable. Redistricting as Rs propose disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! And I expect better of our elected representatives. How about you pass a budget first! Thanks for your consideration and your service. David Conrads
10/19/25 3:44 PM	Emily Wexler		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. Redistricting should be a non-partisan process that happens after the national census, not when a political party wants to grab more power. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 3:44 PM	Ms Jennifer Rubin	League of Women Voters of North Carolina	The League of Women Voters has long opposed mid-decade redistricting unless required by court order, because it undermines stability, confuses voters, and erodes trust in our elections. This process is a clear indication that political advantage outweighs fairness, and that power,‚Äînot people,‚Äîdrives this process. Eighty-four percent of North Carolinians, who are Republicans, Democrats, and independents, believe that it is unacceptable for politicians to draw districts to help their own party win more seats, no matter what the circumstances. What‚Äôs equally troubling is what this process says about priorities. Too many lawmakers are serving their party‚Äôs interests rather than the people‚Äôs needs. Voters deserve leaders who solve problems, not manipulate maps for political gain. I urge this body to restore integrity to our state legislature and focus on the needs of your constituents. The people of North Carolina have spoken clearly: partisan gerrymandering is unacceptable at any time. It‚Äôs time their representatives listened.
10/19/25 3:45 PM	Ms Carol Young	N/A	Pass a budget and leave redistricting until the next census. Appoint a nonpartisan committee to oversee the process and stop the gerrymandering.
10/19/25 3:45 PM	Dr. Annette Broadwell		Please oppose gerrymandering our districts.

10/19/25 3:45 PM	Mr Douglas Fisher		We fought a revolutionary war over the idea of taxation without representation. This further gerrymandering is a violation of the Casus Belli. In a true representative democracy, districts would be designed to include an equal amount of democrats, republicans and independents. But, we don't live in a democracy thanks to you fucking kkklowns.
10/19/25 3:46 PM	Ms Maureen Jablinske	Self	I,Âôm writing to oppose Republican ‚Äúleaders‚Äù in NC,Âôs general assembly who are yet again trying to rush through a redistricting plan that favors Republicans and disenfranchises people of color. This is yet another unabashed power-grab to keep the Republican majority in the house and Senate. In so doing, they may very well be setting our nation up for an autocracy, which is already well underway. Do they truly believe that Power at any cost is right? Their actions are flagrantly un-American, unjust, and un-Christian. They will be on the wrong side of history when the United States becomes a dictatorship.
10/19/25 3:47 PM	Ms Anne Feuer		We do not need more racist rigging of our district boundaries - we have been gerrymandered enough!!! NC citizens need to be able to vote!!!
10/19/25 3:47 PM	Ms Claudette wren	None	Dear Committee Members, please stop playing partisan politics with MY VOTE Stop the gerrymandering and do the job you were elected to do by WE THE PEOPLE. What you are attempting to do is nothing less than stealing votes and thievery. You should ALL be ashamed of yourselves.!!
10/19/25 3:48 PM	Susan Faggart		I disapprove of the plan to redistrict NC. I am a lifetime N.C. resident and I am ashamed of how our republican leaders are invalidating the votes of so many residents. Neither party should be able to do this.
10/19/25 3:48 PM	Comment on Redistricting Ellen Canavan	Democracy out Loud	I am aware that you are only doing this because the President told you to. You do NOT work for the President. You work for us, the people of NC. So don,Âôt do this. It,Âôs cheating!!
10/19/25 3:49 PM	Deborah Johnson		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Âôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.
10/19/25 3:49 PM	Ms Janet Black	Health from Janet & Bruce	Districting in NC is already gerrymandered and now you want to make it worse? This is wrong!
10/19/25 3:50 PM	Dr Caprice Deaton	Retired	Stop cheating and going along with the pathetic idiot currently occupying the White House. You,Âôre embarrassing yourself and the country. Citizens deserve better than this and so do our children!
10/19/25 3:50 PM	Natalie Scott		District maps should be reasonable related to population and geographic location. District maps should NOT be based on the voting habits or personal characteristics of the people, such as race. If your ideas are representative of the people, then you will win the election. You should not need to gerrymander districts to win elections - if you do, then you cannot win on the merits of your ideas, and you do NOT represent the people.
10/19/25 3:51 PM	mrs Ann Torok		I was shocked to learn that there is a proposed new electoral map for NC. By law, our electoral maps must be changed every 10 years after the census to account for changes in the population. (And yes, our current electoral maps are badly flawed. We will need a careful, bipartisan new map based on population, and contiguity and fairness, in the future.) We do not need a new election map now, only to impress the powers-that-be in Washington. Each voter deserves equal representation for their vote to count. Maps drawn for partisan reasons deny that right. Drawing a new map now, is not in the public interest. Please scrap the proposed new electoral map before the Midterm vote. Thank you. Ann Torok, Southern Pines
10/19/25 3:51 PM	Ms Lynn Richardson		As a lifelong North Carolinian, I am appalled at the condition of state government, grabbing power and supporting a president who is leading us to a loss of much of our democratic system. Please do not further erode democracy in my beloved state by redistricting at this time.
10/19/25 3:51 PM	Mrs Alison Dugo		The constituents of this beautiful state are a beautiful mix of Ind/unaffiliated, Republican, and Democrat. Redrawing already gerrymandered district maps in an ill-gotten attempt to steal federal and state representation from any of our population is despicable in itself. But even considering do it before you pass our state budget- which is over 100 days overdue- is reprehensible. It,Âôs disappointing this even a discussion. Shame on the Republican led General Assembly for walking away from the jobs they were elected to do. Shame on House Speaker Destin Hall and Senate Leader Phil Berger for playing dirty politics instead of working for the betterment of NC citizens. Please do better, do the job you swore an oath to do- uphold the US and State Constitutions, and remember that your political power is derived from the people you represent and that our government is founded upon OUR will for the good of the whole.
10/19/25 3:52 PM	Ms. Mary Crawford		NC is already a gerrymandered state. This has stifled representation in both the NC and US legislatures. The government is supposed to be for the people,Äîinadequate representation subverts this. No one should support this.
10/19/25 3:53 PM	Dr Laura Block	None	I don,Âôt think we should be redistricting unless it,Âôs pursuant to the changes found in the census completed every 10 years. I am not a fan of gerrymandering, regardless of who might be behind it. Everyone deserves for their vote to count, please leave it alone until after the next census!
10/19/25 3:53 PM	Kim Preish		If you were doing your job with integrity, honesty and making the needs of your constituents a priority, you wouldn,Äôt feel the need to redistrict. Do what is right for the people you are supposed to serve. Voting should be fair. Our voices should be heard. Do your job!
10/19/25 3:54 PM	Jennae Bulat		NO REDISTRICTING!! Stop trying to take away our full rights to vote and to have our voices fairly and fully heard!

10/19/25 3:54 PM	Ms Annie Foster		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 3:55 PM	Vote no Alicia Burns		Please do not pass this redistricting plan. This is unfair and goes against the principles of our democracy.
10/19/25 3:56 PM	Mrs Greer Suggs		Gerrymandering is wrong no matter who does it. Via public comments, NCGA leadership has admitted that this gerrymandered map is meant to provide an advantage to a specific political group. This is anti-democratic. Please put these actions aside and get back to the important work of passing a budget that is good for all North Carolinians regardless of their political affiliation.
10/19/25 3:57 PM	Dr. Heather Sallade		I strongly oppose not only the current map, but any further changes that pander to the current administration and further alienate the true demographic of current North Carolina.
10/19/25 3:57 PM	Kathryn McCullen		I disagree with the early redistricting of North Carolina. It is a being done in a rushed process, without time for public discussion. The majority of Democrats AND Republicans don't agree with gerrymandering and this move will further gerrymander NC and dilute the voice of Black North Carolinians in NE North Carolina. Voters should pick their elected officials. Elected officials should not select their voters.
10/19/25 3:58 PM	Teresa Haynes		Redistricting is cheating. I don't support cheaters.
10/19/25 3:58 PM	Debora Horning		I totally oppose further gerrymandering and desire nonpartisan redistributing instead.
10/19/25 3:59 PM	Mr Anthony Quartararo	Citizen	The proposed change is an abhorrent proposal for 2 reasons: The timing is outside the established norms and undermines the public's belief in fair and impartial elections. Secondly, the manipulation of this voting district, in the middle of North Carolina's "Black Belt", is purely racial disenfranchisement depriving people who have historically been stepped on by white domination of their chance to be heard. It is shameful, undemocratic and immoral; there are no other words to describe it.
10/19/25 3:59 PM	Carrie Madden		I am strongly against the mid-cycle redistricting of NC. The redrawn map is blatantly gerrymandering and does not represent the citizens of NC! I urge you to not redrawn the map.
10/19/25 3:59 PM	Meko McCarthy	Barringer Drive Initiative	We need to stop the relining again as the current one has compromised district currently
10/19/25 3:59 PM	Nicholas Freeman		I don't support redistricting. This is wrong on all levels.
10/19/25 4:00 PM	Marcene McGuire		Do not redistrict as Trump is asking. We are already gerrymandered disproportionately in this state.
10/19/25 4:00 PM	Haley McGavin		I am fully against this idea of just obvious retaliation for political gain. We have redrawn the maps PLENTY already just leave it be. An eye for an eye leaves everyone blind, Stop being children. I FULLY oppose this redistricting
10/19/25 4:00 PM	Mr brandon Rodriguez	Resident of NC	The state of North Carolina has been cited in specific research regarding gerrymandering district. Republicans are loosing and as any loser would do. They result to cheating and trick in order to win seats. I am strongly oppose to the redistricting of N.C.

10/19/25 4:00 PM	Michael Burge	Citizens Standing Up for the Constitution	To: Phil Berger and the NC General Assembly I will turn 76 this year. I grew up saying the Pledge of Allegiance to the Flag and the Republic for Which it Stands. When my third grade class did not have a flag because we were poor, I made one from my mother's bed sheet and took it to class. I got in trouble, but I beamed with pride when the teacher hung it where the flag was supposed to be and the whole class said the pledge of allegiance. Fast forward 67 years later, I silently pledge my allegiance to the Constitution of the United States and the Democracy and our Civil Rights it strives to protect. That is the same Constitution that you, and all of those state legislators who join with you, swore to protect. In so swearing, you swore an oath to also protect those civil rights. Over the past two decades you and your colleagues have treated that Constitution with contemptuous disregard. Your latest gambit to strangle fair and equal protection under the law through radical redistricting is treasonous. You are neither making America Great Again nor making North Carolina Great Again. You have brought shame and mockery upon both. I pray that you will all suddenly wake up from your stupor of lust, greed, and self interest and find the will to uphold your oath to the Constitution of the United States and the formerly great state of North Carolina. You won't be able to hide from history. There will be a reckoning one day. It's time to get right with the people you swore to serve.
10/19/25 4:01 PM	4087725342 Karen Milnes	X	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 4:02 PM	Mrs. Jayne Eannarino		No redistricting to gain ANOTHER Republican seat-ESPECIALLY since Trump asked Berger to. Republicans are cheating their way into controlling our country for at least another generation. Republicans May play dirty now, but someday, the tides will turn and the retribution from the Democrats will be dire. But I suppose today's legislatures only care about today, so they can keep their jobs. Disgusted with NC Republicans & won't vote for another again, until they stop rigging the system and letting the MAGA's roll over them. Grow a spine!!!
10/19/25 4:02 PM	Sharon Wingert		This proposal is rushed, unnecessary and costly. It is unfair and will dilute the political power of black voters. Please allow for ‚Äúfair‚Äù elections. Take a chance and let our real votes count!
10/19/25 4:03 PM	Cathie Carpenter		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 4:05 PM	Marci Curtis		I want my vote to count the same as the people in every county in North Carolina. In a state that is evenly divided between Republicans, Democrats, and unaffiliated voters, our numbers in congress should be roughly even. Gerrymandering once again to keep a corrupt president in power goes against the oath you have taken to represent the people of NC. I believe re-districting our maps goes against our foundational value of one person one vote.
10/19/25 4:05 PM	Andrea Shilkoff		STOP ALL GERRYMANDERING!!
10/19/25 4:05 PM	Dr. Deborah Gallagher		This action is undemocratic, as it restricts the representational rights of millions of North Carolinians. I strongly oppose this action
10/19/25 4:06 PM	Cecilia Basham		As a resident of North Carolina I am appalled by the idea of redistricting congressional maps. The corruption showed by the republican party representatives is disturbing and will reflect how we vote in the upcoming elections. Meanwhile, where is the state budget? Is anyone working on passing a budget? This whole thing is leaving a bitter taste in your constituents mouth and we will vote accordingly when your time for re election is up.

10/19/25 4:06 PM	David Holliday		Dear Senate Committee, I am writing to urge you to vote against Senate Bill 249. While it may aim to ease campaign finance reporting burdens for certain political party groups, this bill fundamentally undermines the transparency essential to our democracy. By exempting some political party sales from being reported as contributions, SB 249 creates a loophole that allows donations to be hidden from public view. Transparency about who funds political campaigns is critical to maintaining voter trust and ensuring accountability. This bill,Äôs provisions, such as permitting sales to avoid detailed contribution reporting and allowing lower thresholds for disclosure, weaken the public,Äôs ability to see the true sources of campaign funding. Such secrecy fosters an environment ripe for special interest influence and corrupt practices. I urge you to reject SB 249 and instead support measures that strengthen, rather than weaken, campaign finance transparency. Voters deserve to know who is spending money to influence elections and public policy. Thank you for your consideration. Sincerely, David Holliday 12853 Spirit Bound Way Charlotte, NC 28273 dholliday66@gmail.com (704) 877-8478
10/19/25 4:06 PM	Gordon Box		I am opposed to partisan redistricting.
10/19/25 4:06 PM	Mr Gordon Vlark	Voter	This plan is unethical pure and simple. A power play to dilute the voting power of a select group of voters SHAME ON YOU!
10/19/25 4:06 PM	Hanna Mixon		I am vehemently against any further redistricting of North Carolinian counties. NO MORE GERRYMANDERING IN NC.
10/19/25 4:08 PM	Mrs. Pamela Hill		I oppose the upcoming plan to redraw the redistricting maps prior to our census results in 2030. As a registered independent, these unsportsmanlike efforts to harness more votes will only disappoint me and others; you will notice the results in the 2026 election, and it may not be what you hoped for, as you are angering thousands of us.
10/19/25 4:08 PM	Ms. Leandra Bedini		Committee - I have watched a lot of the shenanigans by politicians to lobby for more power over the years. It saddens me that anyone - Republican or Democrat - would resort to manipulation and gerrymandering to gain more power, rather than uphold the Constitution to allow each and every citizen in NC have a voice and a vote. This new proposal is simple voter suppression - without rationale, without reason, without evidence - rather, it is nothing more than power play to eliminate opposing opinions and votes from Republican interests. And sadly, these interests do not represent the citizens of NC. Even Republican citizens will be harmed in time. Each time this happens, history witnesses (and records) the attempts of weak and fearful legislators who cannot win an election fairly and thus have to change the rules of the game to suit them (not unlike 9 year olds on the playground). History is watching and no amount of scrubbing will erase the negative impact it will have on the citizens of NC. In summary, I am wholly opposed to the redistricting proposal.
10/19/25 4:09 PM	Pavel Nitchovski		I oppose strongly oppose the legislature,Äôs attempts to redraw North Carolina,Äôs congressional district maps before the 2026 midterms. This redistricting effort is blatantly partisan and is intended to rob North Carolinians of their rights to representation.
10/19/25 4:10 PM	Melissa Morris		As a concerned citizen and voter in North Carolina, I am writing to express my strong disapproval of the proposed Congressional district plan. I am deeply troubled by what appears to be clear partisan gerrymandering in the way these districts have been drawn. Elections should be fair and competitive, giving every voter an equal voice in choosing their representatives. This proposal, however, seems designed to predetermine outcomes by favoring one political party over another. When district lines are manipulated for political gain, it silences communities, weakens accountability, and damages faith in our democracy. Redistricting should be about representation,Äînot power. The people of North Carolina deserve maps that reflect genuine communities of interest, not partisan advantage. Our state,Äôs history with unfair maps should have taught us that when citizens feel their voices don,Äôt matter, trust in government erodes and participation declines. I urge you to reject this plan and instead work toward a transparent, nonpartisan redistricting process that puts voters first. Fair maps benefit everyone, regardless of party affiliation, and strengthen confidence in our elections.
10/19/25 4:11 PM	Mr Daniel Shuford		Gerrymandering is not fair! We should pick our representatives not you picking us. If you have good policies, runs on them not cheating!

10/19/25 4:11 PM	Steven Lympany	Self	I strongly oppose the current redistricting efforts in North Carolina. These maps appear to be drawn with the intent to favor one political party at the expense of fair representation. Gerrymandering undermines the core principles of democracy by allowing politicians to choose their voters, rather than voters choosing their representatives. North Carolinians deserve competitive districts that reflect the true diversity and political balance of our state. Fair maps lead to better governance, greater accountability, and a healthier democracy. I urge lawmakers to prioritize transparency and public input, and to reject any redistricting plans that dilute the voices of voters for partisan gain. Let,Äôs put people over politics.
10/19/25 4:11 PM	Jakira Wilson		No to redistricting
10/19/25 4:12 PM	Tiffany McBride		I strongly oppose any attempt to redraw North Carolina,Äôs voting maps for partisan advantage. Voters should choose their representatives, not the other way around. Redistricting should be fair, transparent, and based on accurate population data, not political gain. Gerrymandering undermines public trust, weakens accountability, and silences the voices of many North Carolinians. I urge you to prioritize democracy over partisanship and commit to fair maps that truly reflect the will of the people.
10/19/25 4:14 PM	Helena Redman		Don,Äôt take away our voices. Don,Äôt take away people,Äôs voices. Stop cheating on the elections, you,Äôve already stolen enough seats in this state. Trump is hugely unpopular and you will go down with him by doing his bidding. The re-districting, stealing of votes will backfire. The citizens of NC server a fair and honest election. You represent us, not Donald Trump.
10/19/25 4:15 PM	Tara Arbitter		Taking power away from voters will never land you on the right side of history. Gerrymandering is why we are so divided as a country, it pushes us towards the polarized ends of our two party system and EVERYONE loses. People should pick their representatives, not the other way around.
10/19/25 4:16 PM	Ms Jessica Parker		I strongly oppose the Redistricting of Congressional Distsrict 1.
10/19/25 4:17 PM	Mrs Cornelia Maxted		I urge my representatives to NOT redistrict mid-cycle. It destabilizes elections and wastes taxpayer dollars while doing so.
10/19/25 4:17 PM	Jason Butler		I oppose partisan redistricting in North Carolina because it undermines democracy by allowing politicians to choose their voters instead of the reverse. This practice, known as gerrymandering, results in safe, uncompetitive districts that dilute the voting power of communities, particularly minority groups, and make representatives less accountable to the actual population. Fair elections require maps drawn by an independent commission, not by legislators focused on entrenching their own party's power, to ensure every vote carries equal weight and reflects the will of the people statewide.
10/19/25 4:17 PM	Please Vote No! Kristin Heidkamp		The disgraceful partisan power grab is an embarrassment to our state and a disservice to our people. As the state has a crumbling public education system, rural communities that aren,Äôt thriving and citizens without basic access to healthcare, creating a one sided political system that benefits your cronies and the President seems misguided. Instead of rigging the system for yourselves why don,Äôt you take up popular policies that resonate across the aisles to improve the lives of North Carolinians??
10/19/25 4:18 PM	Loretta Bosserman		No one in America wants this sort of racist gerrymandering to return. And in most of the states where it is occurring suchas the proposed NC plan it is racist. All of you need to ask yourself if this is what you want to go down in public record as your legacy.
10/19/25 4:19 PM	Margaret Schubert		Now is not the time to redistrict. We are in the middle of an election and the State budget has not been passed. This is an unnecessary distraction keeping legislators from completing more important business. There is not enough time to complete redistricting in a way that allows for meaningful public comment and input. Any redistricting must be completed in a thoughtful and careful way, making districts fair and representative of the actual composition of all voters in our state, with time for review and revision. Every North Carolinian deserves to have their vote count in a meaningful way, not just be cast for a predetermined outcome. No redistricting at this time, no unfair redistricted maps!
10/19/25 4:20 PM	Donna Warrick		I strongly urge to NOT resistrict. Your focus should be in passing a budget and working for North Carolina's, not appeasing the president of the United States. I am well aware that other states are doing this but we should be better and so better. Gerrymandering is wrong regardless of which party is engaged in the act.
10/19/25 4:21 PM	Rebecca Butler		I am against partisan redistricting in North Carolina because it is fundamentally undemocratic! Gerrymandering allows politicians to choose their voters by drawing rigged maps that guarantee their party's victory, regardless of the statewide popular vote. This practice creates uncompetitive districts and reduces accountability. True conservative values demand transparency, integrity, and competition. Manipulating district lines for partisan advantage is cheating. North Carolinians deserve better!

10/19/25 4:21 PM	Mr Matthew Kuhn		I am writing as a concerned citizen of North?Carolina to voice my opposition to the redistricting plan currently being advanced under presidential direction. While I recognize that redistricting is a normal part of our democratic process, the manner in which this proposal has been crafted raises several serious issues that deserve careful reconsideration. 1. Commitment to Equal Representation The Constitution guarantees that each citizen,Äôs vote carries roughly equal weight. The Supreme Court has repeatedly affirmed the ‚Äúone-person, one-vote,Äù principle as essential to representative democracy. The draft map creates districts with markedly unequal populations, which could dilute the voting power of many North?Carolina residents. 2. Protection Against Partisan Gerrymandering Partisan gerrymandering,Äîdrawing district lines to favor one party,Äîhas been shown to erode public confidence in elections and diminish accountability. Independent analyses of the proposed map indicate a partisan bias far beyond what is typical in competitive states. A fair redistricting process should reflect the genuine political diversity of North?Carolina rather than entrench a single party,Äôs advantage. 3. Respect for Communities of Interest Effective representation depends on keeping cohesive communities together,Äîwhether those communities are defined by geography, culture, or shared economic concerns. Several proposed districts split municipalities, school districts, and minority neighborhoods, making it harder for residents to advocate collectively for their needs. 4. Transparency and Public Participation A legitimate redistricting effort requires open dialogue, access to data, and meaningful opportunities for public input. The current timeline and limited outreach do not provide sufficient chance for stakeholders to review the maps, submit evidence, or propose alternatives. Greater transparency would strengthen public trust and improve the quality of the final plan. 5. Long-Term Stability Redistricting should produce maps that stand the test of time, minimizing the need for frequent legal challenges and revisions. By adopting a
10/19/25 4:21 PM	Lucy Lewis		As a native North Carolinian, growing up in the Jim Crow era, I have seen the fight for voting rights unfold over every decade of my 74 years. Although there has always been gerrymandering by both parties, I have never seen anything like what we first saw in 2011. The subsequent court cases, challenges, and appeals have left us with a current map that in no way reflects the makeup of North Carolina voters. Now, to be asked to conduct a mid-census redistricting at the behest of the Trump administration, is truly shameful and further undermines our democracy. I vehemently oppose this proposed bill and the attempt to further suppress the voice and votes of millions of my fellow Tar Heels.
10/19/25 4:22 PM	ms A J SMITH		North Carolinians deserve public hearings when it counts ‚Äî throughout a redistricting process, before maps are drawn and before they are voted on. We are tired of these types of partisan games that put politics over real people. Under this newest gerrymandered map, Congressional Districts 1 and 3 in Eastern North Carolina would be less representative and more racist, targeting voters in the most prominent and historic Black opportunity district in the state. If lawmakers want to build trust heading into 2026, you,Äôd be wise to focus on issues that directly affect North Carolinians,Äô everyday lives, instead of wasting precious time and taxpayer dollars to further gerrymander our congressional districts, which are already among the most gerrymandered in the country.
10/19/25 4:23 PM	Redistricting. Cody Solesbee		The proposed redistricting plan for North Carolina should be opposed because it undermines the fundamental principle of fair representation. Instead of ensuring that all voters have an equal voice, the new map appears to manipulate district boundaries to favor one political party, effectively allowing politicians to choose their voters rather than the other way around. This kind of gerrymandering dilutes the power of communities, splits natural regions of interest, and deepens political polarization. It also damages public trust in the democratic process by sending the message that electoral outcomes can be engineered rather than earned. North Carolinians deserve fair, transparent, and nonpartisan district maps that reflect the will of the people,Äînot the interests of those in power.
10/19/25 4:23 PM	Mrs Susan Grimes		I cannot express my disgust enough over the North Carolina General Assembly's decision to engage in illegal redistricting. This isn't just a political strategy,Äîit's a betrayal of the constituents they are supposed to represent. We must stand against this abuse of power! It's sickening to witness such a blatant act of gerrymandering by our elected officials. They have crossed a line, prioritizing their political agendas over the rights and needs of the people. We need to demand accountability and restore integrity to our voting system!
10/19/25 4:24 PM	Stop gerrymandering Dorothy Bertoncin	N/A	Donald Trump does not live in NC, so he does not get to influence our representatives this way. Your job is to check HIM, not to support him at the cost of your constituents. Do not pass ANOTHER new district map. 2023 was bad enough. The Republican Party is losing all credibility with moves like this.
10/19/25 4:24 PM	Mr. Matt Williams		I am opposed to another redistricting effort. Redistricting is supposed to be done every ten years in response to the Census. And while we have had plans more frequently (due to the fact the General Assembly keeps interjecting radical partisanship into our maps), this change is not for legal reasons. Please stop placing party interests ahead of voter interests, and just let the maps stay as they are,Ä¶they are already gerrymandered enough for this decade. Thank you for any consideration of this request.

10/19/25 4:24 PM	Kaili Johnson		Disenfranchisement of voters is a deeply undemocratic action. Gerrymandering is a duplicitous way to try and skew votes in favor of your party. We the people want fair elections and fair representation. Listen to your constituents.
10/19/25 4:25 PM	Isabelle Grimes		The actions of the North Carolina General Assembly in redrawing voting maps are reprehensible! This kind of gerrymandering isn't just illegal; it erodes the public's trust in the electoral process. We need leaders who prioritize the voices of the people, not their own interests.
10/19/25 4:25 PM	Dr. John L. Godwin		Dear Committee Member: It has become evident that today's Republican leadership has repudiated the conservative principles that have long been the mainstay of that party. We are not deceived by U.S. Supreme Court Chief John Roberts, who wrongfully invoked the founders of the U.S. to defend his abandonment of the Constitution in favor of the Donald Trump autocracy and conspiracy to steal the election by fraud, theft, and the violent assault on the nation's capital in 2020. Today we know very well that this is the Republican Party as it stands in North Carolina. Extolling outright racism and scorn for the rights of women while installing electoral trick laws designed to shear off broad segments of the electorate, provide additional proof of the perfidious and corrupt nature of today's Republican leadership. The furtherance of gerrymandering is perfectly consistent with all of this. Splitting up the natural constituencies that flow from actual communities in order to construct new districts of prevailing interest and ignorance, in furtherance of the Trump autocracy and its North Carolina backwater, will only hasten the downfall the U.S. as a leader in world affairs, and discredit our state in the eyes of the world. The Republican leadership, sadly has set the state of North Carolina on a backward course into oblivion, ruin, educational, and technological backwardness that this proof of the incompetence of its approach to governance overall. Further gerrymandering in this state will be a disgraceful indication of the repudiation of democracy and the principles upon which the United State was founded by the Republican leadership. It may not be too late for you to pull back from this course, and I urge you to do so for the sake of North Carolina and the USA. John L. Godwin Carrboro, N.C.
10/19/25 4:25 PM	Ms Peggy Hawkins	Church	Please do all you can to stop this from happening.
10/19/25 4:26 PM	Mr. Andrew Thompson		No Gerrymandering! Districts should represent county or municipal boundaries. Period.
10/19/25 4:27 PM	Dr. John Schendel	Citizen of Buncombe County, North Carolina	I am strongly opposed to the proposed redistricting plan for several reasons. First, NC state Republicans are mounting the bandwagon to do this, as other states are, in an attempt to prevent loss of control of the U.S. House of Representatives in the mid-term elections. That is cheating the NC public from exercising their vote in a fair and competitive election process. This is undemocratic. The only way we will emerge from the divisiveness gripping the country is for our representatives to act fairly and not impede ALL people from having a fair say through their ballot. This plan to redistrict also unfairly disenfranchises Black North Carolinians; this makes the redistricting plan a cynical, racist power grab. I expect better from my representatives than this shameful plan. Whether you are Republicans or Democrat, you represent me and every one of your constituents. Thus, act with integrity and reject this redistricting plan. Thank you. John Schendel
10/19/25 4:27 PM	Karen Bolton		This seems like just a power grab. When did the fairness of every vote counts come to be a thing of the past? I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy.
10/19/25 4:27 PM	Alicia Gonzalez		I am a Durham resident and I oppose the midterm redistributing plan. This is only being done because Trump asked republican state legislators to do so in order to not lose the House. You know NC is a purple state. Allow fair elections.
10/19/25 4:27 PM	Christyn Grant		Please don,Äôt be a peon in the president,Äôs game. You know this is wrong. Stand up for your State!
10/19/25 4:29 PM	Ms. Betty Gunz	Individual citizen	I urge you not to gerrymander any more than you already have. History will not look kindly on your attacks on our democracy and citizens now won,Äôt either. What you,Äôre planning is called rigging elections and it will not serve you well.
10/19/25 4:31 PM	Stephanie Grossman		I want to share how displeased I am to hear how the NC legislature is considering gerrymandering our state even more than it already is. We do not have a state budget or pay our teachers but we have time to re-district? Voters choose our leaders in a democracy. Please pass a budget and find public education instead of more gerrymandering which no one in NC wants.
10/19/25 4:31 PM	Jen Greene		I do NOT agree with redistricting.
10/19/25 4:32 PM	Jen Daleu		Further gerrymandering is going to harm the citizens of NC and place yet another lasting stain on our state,Äôs reputation. Using your political power to remain in place when the public clearly wants different representation is dishonest and anti-democratic - and you all know it. Voters should be choosing representatives, not the other way around. Shameful.
10/19/25 4:32 PM	Idelle Davids		This appears to be an unfair powe grab. Lets keep the voting process fair and democratic. People need to feel engaged and hopeful that their coices will be heard. Politics should be about helping constituents and nor about a power and money grab. Lets keep the dialog up open between candidates and get new people engaged to serve and make a difference.

10/19/25 4:33 PM	Bradley Griffith		Do not give in to white house pressure to change our congressional districts.
10/19/25 4:33 PM	Ms Mary Donnan	Concerned citizens who values honest and acts with integrity	Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Âô ability to hold our leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! Redistricting now is unnecessary, rushed, and costly. The public is not being given enough time to consider the proposal and discuss it with their representatives. Legislators should focus on passing a state budget instead of rushing through an unfair redistricting plan that will likely result in costly litigation. North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps. The proposed maps would dilute the political power of Black North Carolinians, ,Äúcracking,Äù the northeastern Black Belt into two districts. This is in direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color.
10/19/25 4:33 PM	No redistricting Sharon Benton		I,Äôm deeply concerned that legislative leaders are spending time on new congressional maps instead of finalizing the long-overdue state budget. 84% of NC voters, including me, believe that partisan gerrymandering is wrong and undermines fair representation. Stop wasting time manipulating district lines for political gain. North Carolinians deserve fair, competitive maps,Äînot another partisan power grab. Voters should choose their representatives, not the other way around. Do not support redrawing the voting maps yet again.
10/19/25 4:35 PM	Gerrymandering Patrice DeMay		North Carolina Republicans are considering another blatantly partisan attempt at gerrymandering the state's congressional districts. States typically draw their congressional district maps once every decade, after a US Census. Republican-led NC is attempting to redistrict to fulfill Donald Trump's desire to gain Republican control of the House of Representatives after the 2026 elections. Instead of passing an overdue budget, the General Assembly is focused on gerrymandering, which an overwhelming, bipartisan majority of North Carolinians oppose. Republican legislators are trying for the second time since 2020 to unseat Representative Don Davis, who represents most of Eastern North Carolina. Unfair maps disenfranchise voters and lead to long-lasting political problems. Drawing districts to strongly favor one party leads to severe polarization, legislative gridlock, and a weaker Congress. Congress can act by banning mid-decade redistricting and mandating independent, non-partisan The NCGA's gerrymandering attempts cheapen the political power of North Carolinians and all Americans. I demand that state senators and representatives oppose any redistricting bills.
10/19/25 4:35 PM	Liz White		I am not in favor of redistricting.
10/19/25 4:35 PM	No to Redistricting Bethany Guckert		Respectfully, this is not an appropriate time to redistrict nor does it faithfully represent the will of North Carolinians in the areas impacted. These actions are in direct conflict with the intent of our electoral process. Without fair representation in our elections, how can we have fair elections?
10/19/25 4:36 PM	Ms Molly Leatherland		I strongly object to North Carolina voting to redistrict this Congressional district. This further dilutes the strength of minority voters and could result in a state where the minority (Republican voters) represents (and mis-represents) the state. This completely takes away the voices of millions of voters. If Republicans can win elections based on their actions and values that is respectable; winning only because you have gerrymandered the districts for that outcome is unfair and undemocratic. Please represent ALL citizens of the state and vote no on redistricting!!!
10/19/25 4:36 PM	Dr. Andrea Coffey		DO NOT GIVE INTO WHITE HOUSE PRESSURE TO CHANGE CONGRESSIONAL DISTRICTS!!!
10/19/25 4:37 PM	Ms Margsret Graff		This blatant attempt to redraw maps which should only be redrawn after a census is suspect and despicable. As a resident of North Caroline I strongly object and call upon our Legislators to denounce this attempt to illegally change the current maps at the behest of this criminal President and his Republican minions.

10/19/25 4:38 PM	Lawrence Teatum, RN		I strongly oppose the newly proposed redistricting maps in North Carolina. My district is already heavily gerrymandered, combining counties with vastly different needs. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 4:38 PM	Do not redistrict Emily Carrigan		This is a blatant attempt at a power grab and is absolutely despicable on the part of the republican majorities in the state house and senate. Shame on you!
10/19/25 4:39 PM	Mr Jeffrey Reisberg		Please don't redraw these lines. Please don't. I beg you, don't do it. I'll do anything, I'll do the chicken dance. I'll make you chicken soup. I'll buy chickens from your big campaign donors. Just don't redraw these, win with policy, not with screwing over the people who depend on you to represent.
10/19/25 4:40 PM	Gerrymandering Veronica Moschetti-Reich	Citizen	Vote No gerrymandering because it devides us more than brings us together to the one person representation that we are aiming for.
10/19/25 4:41 PM	Diane Villwock		This new map is a power grab. Leave the old boundaries and put up your best candidates, and let the voters choose what they want.
10/19/25 4:41 PM	John Williams		The GOP proposal for re-districting is unconstitutional and an unpatriotic power grab. It stems from your willingness to demonize people simply for being Democrats. That is outrageous, immoral, lacking common sense and decency. It will one day come back to bite you. I am a patriotic, tax-paying lifelong Democrat and my voice and vote deserve to be counted without this raw political power grab that is transparently aimed at diluting my party's votes. SHAME ON YOU, NC GOP! Look yourselves in the mirror and tell me you like what you see. Where are your principles and morals.?SHAMELESS.
10/19/25 4:43 PM	Melanie Skinner		Quit gerrymandering. Not that you give a crap what the people say.
10/19/25 4:44 PM	Mr. John Bennett		Well, once again, the Republican General Assembly has shown its true colors with another gerrymandered redistricting plan. So what is you break a few federal voting laws and destroy democracy in the process. Allowing politicians to gerrymander district lines for partisan advantage destroys the constitutional promise of equal representation. But then if you treat black and brown voters with equal representation, they just start to expect to be treated like white folk and we can,Äôt have that. Really, The Voting Rights Act - we don,Äôt need that anymore. There,Äôs no discrimination anymore anyway. Legislators should focus on passing a state budget instead of rushing through an unfair redistricting plan that will likely result in costly litigation. With all of the natural disasters that have happened in North Carolina the last few years, there are far more important and pressing issues to be addressed the giving into Trump,Äôs power play. All he cares about is Money, Power and Revenge. Evidently that has also become the Republican General Assemblies,Äô mantra also. This move is not only illegal, but also immoral and underhanded. I strongly urge the General Assembly to do the right thing and put this redistricting plan where it belongs - in the trash.

10/19/25 4:45 PM	Mr Ed Ober	I write to register my strong and unequivocal opposition to the newly proposed congressional district map released by the General Assembly. This map represents a blatant and unacceptable effort at partisan entrenchment, and stands as an affront to the principles of representative democracy, fairness, transparency and equal citizenship. The people of North Carolina will not acquiesce to such a grab for power,Äîand we are prepared to pursue all legal and civic remedies to safeguard our rights. Key Objections Below are the principal reasons why this map should be rejected. 1. Disproportionality and absence of fair representation The map appears designed not to reflect the will of majorities, but to insulate one party from meaningful electoral competition. That is, although a significant portion of voters will support the minority party, the map virtually guarantees dominance by the majority party. While our system does not guarantee ‚Äúparty-proportional‚Äù seats, undue skew undermines meaningful representation. The proposed map, coming on the heels of the 2023 map and a yet-further redrawing in what appears to be mid-decade (rather than following the decennial Census), gives the appearance of opportunistic partisan manipulation. Indeed, observers report the state GOP intends to gain an extra seat ahead of the 2026 cycle. The process appears rushed, lacking full transparency or robust public input, which further undermines public trust. Additionally, it sidesteps the principle that maps should reflect citizens‚Äô electoral voice rather than entrench power. 2. Procedural and transparency deficiencies The Committee‚Äôs creation was announced only recently (October 2025), and the timeline appears compressed.
10/19/25 4:48 PM	Charlotte Fuselier	To whom it may concern, my name is Charlotte Fuselier and I am a Junior Chancellor's Scholar at Appalachian State. With one of my three majors being Political Science, I am extremely concerned about the fair representation of North Carolina residents. With the decennial redistricting as precedent, I think it is too costly, timely, and misrepresentative of the citizens of North Carolina to be redistricted, as it neither serves the best interest nor the needs of the NC constituency. It would be disrespectful to the will of the people and undemocratic in the fair representation of the constituencies to gerrymander the votes of NC residents. This is especially a disservice for minority voters, who pay taxes and deserve representation in the same manner as their neighbors. Both committees need to serve the best interest of the people, ALL people, who uphold the government and these federal and/or state positions.
10/19/25 4:48 PM	Colleen Murphy	I am a proud North Carolinian and I demand a stop to shameful gerrymandering of our voting maps. NC voters, including me, are tired of these types of partisan games that put politics over real people. The newest gerrymandered map is extraordinarily less representative of North Carolinians and overtly racist. If you want to build trust heading into 2026, NC legislators should focus on issues that directly affect North Carolinians‚Äô everyday lives, instead of wasting precious time and taxpayer dollars to further gerrymander our congressional districts, which are already among the most gerrymandered in the country. North Carolinians deserve better! North Carolina deserves public hearings throughout a redistricting process, before maps are drawn and before they are voted on.
10/19/25 4:49 PM	Alison Hannon	I am very opposed to any attempts to redraw North Carolina‚Äôs congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around. Please oppose the measure to redraw the district map!
10/19/25 4:51 PM	Martha Larson	I find it totally unfair to draw congressional maps that serve to disadvantage one party over another. There must be a more fair way.
10/19/25 4:51 PM	Mrs. Mary Clark	I'm writing to oppose the egregious redistricting scheme proposed by the Elections committee and legislators. This process is designed to favor one party and weaken the power of voters throughout North Carolina! This does not reflect equal representation for your constituency and is not acceptable.
10/19/25 4:52 PM	Melissa Stein	North Carolina is not a ‚Äúred‚Äù state. I demand that elected representatives work to create maps that allow me to be represented fairly. No to the proposed gerrymandered map.
10/19/25 4:53 PM	Dr. Justin Little	It's is absolutely insane, the proposal to redistrict North Carolina. It's a power grab and unconstitutional. Do not bow to Trump's wishes. He is a fool who is destroying the country.
10/19/25 4:55 PM	Michelle Cronquist	The proposed redistricting is nakedly political and being done only to benefit Donald Trump and his allies. It is also being rushed through without adequate time for public comment. North Carolina has already been redistricted after the 2020 census and it is clearly unnecessary to do so again. The legislature has other important work it should be focusing on instead, such as passing a budget.

10/19/25 4:59 PM	Andrew Mudgett		Redistricting should be done by an independent, non-partisan organization - not the legislature. It is despicable for the majority party in our legislature to redraw districts with the express purpose of favoring their party. I have always tried to vote for individuals in each election, regardless of party, and have voted for a mix of Republicans, Democrats, and Libertarians, but if the NC GOP moves forward with this plan then that will disqualify any future Republican candidate from my vote in future elections. Regardless of what's happening in California or Texas, we should not emulate that kind of underhanded electoral stratagem here in North Carolina.
10/19/25 5:00 PM	Mrs Mary Fortunato		I am opposed to any more gerrymandering in NC! Please let ALL of your constituents have their votes matter.Gerrymandering is CHEATING!! No more gerrymandering!!!
10/19/25 5:01 PM	Dr Sondra Stein	You Can Vote	I am a strong supporter of fair maps that enable all voters to choose representatives who will listen to them and represent their concerns and issues. This proposal decreases fair representation. It will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. I urge the legislature to cease this effort to undermine even further already gerrymandered Congressional maps, and instead concentrate your efforts on passing a budget that will address North Carolinian needs for health care and public education. Thank you.
10/19/25 5:01 PM	M Wagner		Mid cycle gerrymandering weakens democracy, costs money, destabilizes elections, and silences voters. Only losers change the rules,Ä¶
10/19/25 5:01 PM	Ms. Jane Hardwick		I am totally opposed to this redistricting plan. Just let the people speak without rigging elections to favor one party or the other.
10/19/25 5:04 PM	mrs Melissa Holmberg		I believe there is no need to redistrict in North Carolina again. We all ready redistricted twice since 2020. Also if there is going to be redistricting it needs to be done at a slower pace so more voters can learn about it and have their voices heard on the matter. As members of the general assembly you should be working toward the fairest maps possible and truly represent the people of our great state.
10/19/25 5:04 PM	Ms. Lisa Gunter		Please do not further gerrymander the state, I deserve fair representation in Congress.
10/19/25 5:05 PM	Cindy Layman		This redistricting is nothing more than a knee bend to Trump. NC does not need more gerrymandering. Stand up, do the right thing, be an American and follow the constitution. Sick and tired of representatives with no backbone.
10/19/25 5:05 PM	Dr Ellen Colodney		As an independent voter, am strongly opposed to any redistricting that allows one political party to gain an unfair advantage by disenfranchising people on the basis of the color of their skin. Including this one.
10/19/25 5:05 PM	Carolyn Guckert		I am disgusted by the GA's latest attempt to cheat in order to win. Bad enough that they just did it two years ago, but now it's just to appease Trump. Why do my taxpayer dollars pay for this rubbish? Over 80% of N Carolinians do not want gerrymandering, but these jerks who are ELECTED to represent us do it, anyway, in the middle of the decade, which has never been done before arbitrarily. Guess if you can't win, you have to cheat. What are you afraid of? That you might lose according to the will of the people? Hmm, aren't the voters supposed to be selecting the representatives, not the other way around? What sycophants on top of being cheats! What happened to integrity in the GOP? There was some in the distant past, but it's nowhere to be found now.
10/19/25 5:06 PM	Mr Robert Northcott		Redistricting in this particular case is a transparent attempt to affect election outcomes by unfairly disenfranchising specific voters. This is clearly unethical and is a practice that should be unacceptable to honest and ethical public servants.
10/19/25 5:06 PM	Susan McBennett	voter	A party only needs to gerrymander when they know the voters don't like their policies. So rather than gerrymander, how about listen to the VOTERS and provide the policies that we want.
10/19/25 5:07 PM	Dr. Barry MacKichan	retired	Do NOT do any mid-decade redistricting. Gerrymandering is a primary cause of rampant partisanship since politicians in a gerrymandered district have no motivation to reach out to ll voters since the only election they have to win is a partisan primary. Shame on you if you carry through on this destructive plan!
10/19/25 5:08 PM	Marcia Mandel		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. Democracy depends on voters choosing their elected officials, not the other way around. It‚Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina.
10/19/25 5:08 PM	Elizabeth Crouse		Please do not gerrymander our state! Representation of the actual population should be occurring and NOT stacking the deck based upon party affiliation. Fair is fair!
10/19/25 5:09 PM	Robert Deaton		Please stop the redistricting efforts.
10/19/25 5:10 PM	Mr Melvin Scholl		Please reconsider your redistricting as North Carolina is roughly a 50/50 state and you already have 10 out of 14 and now I want to make it 11 out of 14. Just because you can, doesn't make it ethical or moral. Please reconsider your redistricting now and wait till 2030 to do it. The state is already badly. Gerrymandered please don't make it worse
10/19/25 5:11 PM	Mr. Ryan Lucas		Run on the strength of your ideas and not the corruption of your leaders. If you have to cheat to win, then you do not deserve the victory. Use a basic test - would I be proud of my children cheating their way to victory,Ä¶we all know the answer.
10/19/25 5:12 PM	Ms Karen Philpot	Independent Voter	I do not agree with additional Gerrymandering in north carolina! VOTE NO

10/19/25 5:12 PM	Mrs Tracy Bitsue		Do not shamefully redistribute to try to win more seats. That will lead to the Democrats doing the same thing when they have control. This needs to end. Draw fair districts!
10/19/25 5:13 PM	Melanie Osorio		In North Carolina, we have 14 Congressional seats. We gained a seat after the last census. 16 Electoral votes (14 House + 2 Senate= Electoral Count). The voter makeup for North Carolina is roughly- Unaffiliated: 2,934,001, Democrat: 2,311,181, Republican: 2,303,264, Libertarian: 46,282, and Green: 4,184. We have a Democrat Governor, Lt. Governor, and Attorney General. We also had 73.73% voter turn out in the last election. Gubernatorial split- 54.90% Josh Stein 40.08% Mark Robinson (which is a surprise, actually) 2,898,423 votes went to Trump, 2,715,375 went to Harris. 51% to 47.8% respectively. Of our Representatives to Congress, 10 are Republican, 4 are Democrat... that's saying that 29% of the state is represented by Democrats in Congress. That isn't remotely accurate. By a long shot. And that's because the Republicans have continuously gerrymandered. I think that's obvious. Now, the NCGOP want to redraw districts to guarantee one more additional seat as a Republican. 11 Republicans to 3 Democrats when it is done. The Republicans aren't even the dominant party in the state. Not even the second largest. Granted, I understand that people won't necessarily vote along party lines, especially "unaffiliated", of which I'm one. But to gerrymander a perceived 79% Congressional majority for a state that does not remotely swing that far right? Now, if you were Republican, and Democrats were doing this, how would you feel? If you feel it would be justified, then I know you're lying. This is nothing but a political lie. Nobody- nobody- that can claim to be pro-American, pro-Democracy, pro-values can think this is anything than outright suppression of democracy in this state. And for what reason? To impress a President who was convicted on 34 counts of fraud.
10/19/25 5:13 PM	Mark Mathison		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It‚Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.
10/19/25 5:13 PM	Ms Ellen Feingold	Citizen	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government.
10/19/25 5:14 PM	Stephanie Loflin		I‚Äôm deeply concerned that legislative leaders are spending time on new congressional maps instead of finalizing the long-overdue state budget. 84% of NC voters, including me, believe that partisan gerrymandering is wrong and undermines fair representation. Stop wasting time manipulating district lines for political gain. North Carolinians deserve fair, competitive maps,‚Äînot another partisan power grab. Voters should choose their representatives, not the other way around. Do not support redrawing the voting maps yet again. North Carolinians are watching.
10/19/25 5:14 PM	Bonnie Wheeler		Gerrymandering ignores principles of fair representation and silences voters. Drawing district lines that cheat voters out of a voice and dilutes minorities must not happen. We need to restore fair maps.

10/19/25 5:16 PM	Dakota Williams	Citizen of North Carolina	Dear Members of the North Carolina General Assembly, I write to urge you not to pass the proposed redistricting plan. Gerrymandering stands in direct opposition to the principles of fairness, accountability, and limited government that form the foundation of our democracy. When politicians manipulate district lines for partisan advantage, they violate the constitutional promise of equal representation and erode the public‚Äôs ability to hold their leaders accountable. While we understand that elections are partisan, representation itself must not be. Once elected, lawmakers are entrusted to serve all North Carolinians, not just those who share their political affiliation. Gerrymandering also undermines local control by dividing natural communities and consolidating power among political insiders rather than the people. True conservative values,Äîintegrity, transparency, and fair competition,Äîdemand that victory be earned through ideas and persuasion, not manipulation. Redrawing district lines for partisan gain is not leadership; it is a betrayal of trust. North Carolinians deserve better. Moreover, this redistricting process is unnecessary, rushed, and expensive. The public has not been given adequate time to review or respond to these maps, which threatens confidence in the process. Lawmakers‚Äô time would be better spent completing the state budget rather than advancing an unfair plan that will almost certainly lead to costly litigation. North Carolina already ranks among the most heavily gerrymandered states in the nation. There is no justification for worsening this problem. We should be working to restore fair maps, not entrench partisan ones. Finally, the proposed maps would dilute the political power of Black North Carolinians, dividing the northeastern Black Belt into separate districts. This would be a direct violation of the Voting Rights Act, which prohibits weakening the electoral influence of communities of color. The integrity of our democratic process depends on fair representation. I respectfully ask you to reject this plan and instead commit to a redistricting process that honors the Constitution, the law, and the people you serve.
10/19/25 5:17 PM	Sharon Westall		Mid-cycle partisan gerrymandering has severe consequences: ‚Äì It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ‚Äì It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ‚Äì It weakens democracy. When maps are drawn to entrench one party‚Äôs power, voters lose confidence in the fairness of the system ‚Äî and many stop believing their vote matters at all.
10/19/25 5:17 PM	Margaret Dorfman		Since you very recently redistricted and haven't finalized a budget yet, I strongly believe that you should focus on the budget and work on that rather than redistricting again. Redistricting again will just serve to confuse voters and make additional work for the Board of Elections.
10/19/25 5:18 PM	Victoria Malmer		I am opposed to redistricting in 2025. It should wait until we have legitimate new Census numbers. This is a naked power grab by Republicans.
10/19/25 5:22 PM	Mr Steven White		This redistricting is a blatant power grab. It is being done instead of passing a budget but at the behest of a corrupt president. Our districts should reflect a divided state with equal representation for NC citizens.
10/19/25 5:22 PM	Mrs. Jane Doe		North Carolinians deserve fair districts to account for their votes. It is an embarrassment of the state to be redistricting during a time when the budget hasn't even been decided yet. Gerrymandering causes nothing but problems for future generations. No wonder no one wants to have children. It is an absolute shame on our people, and especially our state, to be so easily swayed by a person who will remain in office for less than 8 years. Do better for the people you serve.
10/19/25 5:24 PM	Howard Fertig		I am incredibly disappointed that the Republican led state legislature is proactively trying to destroy our democracy by enhancing your own power rather than providing governanace for ALL of the constituents in our state. If any of you have any morals and guts you still have the ability to keep this obscene gerrymandering from becoming law. If you don‚Äôt your legacy will be in aiding the turning of the United States into an apartheid state. History will not look kindly upon you. Also, karma is a bitch.
10/19/25 5:25 PM	Dr. John Johns		Republican legislators should be ashamed of themselves for trying to disenfranchise voters through their redistricting plans. If you have a family or friends, don't be upset with them if they try to bend the rules to take advantage of you. Set a GOOD, MORAL EXAMPLE. WWJD?

10/19/25 5:25 PM	Deb Chirico		Gerrymandering/redistricting for political purposes is a blatant abuse of our constitutional rights to equal representation of the people, by the people! All the people. Never should maps be allowed to be drawn by partisan political parties, never by the whims of the parties as elections approach to gain absolute control by having a majority in our congress. This should be absolutely illegal. Further when maps are redrawn they should be redrawn by nonpartisan parties, held up to scrutiny by more than one body ensuring states are fairly representing every citizen regardless of political affiliation.
10/19/25 5:26 PM	Ms Carmela Finelli	retired public school teacher and retired UAL flt attendant	Dear NC Republicans, Please stop your attempts at gerrymandering, and stop doing the bidding of the malignant narcissist who is our president. Mr. Trump is an unqualified Fascist with mental health issues. He is a cruel person who is putting forth unconstitutional policies. History will not look kindly upon you cowards. Stop being toadies. Be a hero; be the Joseph Welch of your generation. Have you not studied history? Mr. Trump is dangerous.
10/19/25 5:26 PM	Ms Colleen McGloughlin		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires and your Republican seats than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS. Do your real job and stop playing games with people,Äôs lives.
10/19/25 5:27 PM	Christy Ihlo		Redistricting mid-cycle to dilute the voting power of North Carolinian people of color is abhorrent. North Carolina is not a one party state and our representation in Congress should depict a true representation of the people of this state.
10/19/25 5:27 PM	Mrs HEather Stevenson	None	This is not right. Every North Carolinian should have representation based on where they live, and these lines should not be changed except for when we have the census. Changing district lines to try and gain votes is wrong. If it is wrong for one side of the aisle, it is wrong for ALL sides.
10/19/25 5:28 PM	Redistricting Pam Matthews		What is the legitimate reason for redistricting? Is the current districting not representative? I say No to the proposal because appears to be purely for political reasons.
10/19/25 5:29 PM	Christyn Klinck		The proposed plan to redistrict, creating an even more gerrymandered map than NC currently has, is a cowardly and anti-democratic. The United States, and each state in this great country, are supposed to be run by a representative government. Forcing the representation to be heavily weighted toward one party or the other, when the actual population is nearly 50-50, is unjust. The voices of most of the Democrats in the state have become irrelevant. The Republicans are in ruling only by cheating their way into power, and as such are not actually representing the will of the people of this beautiful state. Furthermore, their submissiveness to the US President is spineless. Represent the people, all of the people. Play fair. Act with wisdom and justice. Stand up for what is right.
10/19/25 5:30 PM	Mary Susan Cox		Is there no end to this? Has democracy and fair representation died in NC? I am a registered Independent and I am appalled that you are once again gerrymandering to rig results. I want our districts and representatives to ACTUALLY represent the people-ALL of the people-in this state. That SHOULD look like a close to 50/50 split. Are you so terrified of ceding any power balance that the will of the people is irrelevant?
10/19/25 5:30 PM	Julia Gallant		To Whom It May Concern , 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. If 66% of Republicans are against gerrymandering, why would you want to shoot yourselves in the feet? And aren,Äôt you interested in winning back some the voters you,Äôre losing due to the failed economics of Trump 2.0 and the losses your constituents are enduring? The pendulum will swing as it always does. Get on the right side of history before it,Äôs too late. Sincerely, Julia Gallant
10/19/25 5:30 PM	Todd Hoke		I urge legislators to *oppose *attempts to redraw North Carolina,Äôs congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around. Thank you for your time and consideration.
10/19/25 5:33 PM	Susan Book		There is no logical reason to change the maps. Our state legislature should focus on a budget.
10/19/25 5:34 PM	Opposition Dino Valentini		I am against any elected official picking its voters instead of voters picked their elected reps. Your policies are deeply unpopular. Are you afraid of your voters? If so, get to work helping them out instead of redrawing maps for an authoritarian billionaire who has never been held accountable for anything he has ever done.
10/19/25 5:36 PM	Poor Republicans Linda Look	They	They're afraid of losing, so they have to make it easier to win..... I don't think it will work..,..too many people on both sides are disgusted by what's happening in our country.They don't care if it's not right, but if Democrats did that.....????

10/19/25 5:37 PM	Mrs. Linda Harris	individual	So Phil Berger has stated this is to continue President Trump's agenda. Not a valid reason, IMO. Not for population changes, but simply to please the President. So you are not representing the residents of the state. Additionally, you're setting a precedent that may backlash in the future. We need leadership that looks out for our people and their wellbeing, instead of wasting time with political nonsense.
10/19/25 5:37 PM	Tara Puma		I am against redistricting North Carolina to give Republicans another seat in Congress. This is cheating & shameful!!!!
10/19/25 5:37 PM	Rachel Eldridge		Please do not perpetuate gerrymandering. It was not right when Democrats did it years ago and it is not right now. Districts should created that are logical.
10/19/25 5:40 PM	Mr. James Davidson		No one likes a cheater. People of all parties are tired of these partisan manipulations. This "redistricting" is thinly disguised cheating, plain and simple. District representation should reflect North Carolina as a whole. Right now it's already lopsided in favor of Republicans, and the new plan makes it even worse. If you want to regain public trust, you need to come up with a fair system that a majority of people of all parties can support.
10/19/25 5:40 PM	Dr. David Smith	none	It is disgusting to me that the Legislature is trying so hard to force a particular partisan election result by gerrymandering the districts. In the past three elections, North Carolina voters have voted for a Republican for president and a Democrat for governor all three times. That would seem to indicate that voter preference for parties is split fairly evenly. But you (the Legislature) have, through manipulated maps, forced the voters into 10 safe Republican districts out of 14, and now you're aiming for 11. This only intensifies the prevalence of extremism and voter disillusionment and distrust. I urge you to stop the hyper-partisan games and to establish competitive districts in which the voters can elect the candidates they prefer. Let the voters decide!
10/19/25 5:40 PM	Kaitlin Strauss		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 5:41 PM	Thomas Matthews		This proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year,Äôs election before dropping big changes to next year,Äôs.
10/19/25 5:41 PM	Doctor Lisa Farnham		I am thoroughly appalled that this is even being considered. We already have shamefully gerrymandered districts that do not allow for fair and accurate representation of the voters of NC. My district is ABSURD as it stands. Now, you wish to make them even more non-representatives to basically disenfranchise even more North Carolinians? It,Äôs unAmerican. This cannot be allowed to happen. Is fair representation of the voters will unimportant to the NC General Assembly? It,Äôs despicable.
10/19/25 5:41 PM	Paula Miller		Stop trying to cheat to win elections. Redistricting should be done every 10 years according to census data, not when the felon in the White House tells you when to do it.
10/19/25 5:42 PM	Linda Brown		I oppose the effort to redistrict areas of our state for the third time since 2020. This reeks of a blatant attempt to make elections unfair and will dilute the ability to elect the candidates that the voters actually need and trust. No state grows or changes enough to warrant redistricting 3 times in 5 years. It is shameful and expensive behavior that reveals a weak, power hungry legislature. This effort violates the requirements of the Voting Rights Act and is a desperate attempt to devise electoral maps that are not representative of the people.
10/19/25 5:42 PM	Alison Rieber		I strongly oppose mid decade redistricting and all political gerrymandering. People should choose their representatives not representatives their voters.
10/19/25 5:45 PM	Mrs. Jessica Osburn		Gerrymandering should be illegal. What is happening is thoroughly unethical, immoral, and unconstitutional. It makes me sick.
10/19/25 5:46 PM	Clarissa Stewart		No more Gerrymandering!
10/19/25 5:47 PM	Donna M Christian		Do not allow Republicans to redistricting the voting maps. Win fairly.
10/19/25 5:47 PM	Mr Cory Casanave		As a resident of NC, Burke County I strongly object to this redirecting. It is clearly a power grab that does not reflect the population. NC should lead the way to truly fair districts, not further the partisan divide.
10/19/25 5:49 PM	Grace Johnson		How sad and pathetic that you can only ,Äúwin,Äù by cheating. You should be ashamed of yourselves. Where is your integrity? Your allegiance to NC, the US and democracy? You,Äôre throwing it all away for a petty dictator and criminal. Shame on you!!!
10/19/25 5:53 PM	Mrs Martha Munn	Methodist church	Born in N.C. over 70 yr ago, I,Äôve taken great pride in its leadership, until now. To redistrict NC solely to give one party an advantage over another seems right out of the playbook for the mafia. Please keep the Down Home State an honorable, ethical place to live.
10/19/25 5:53 PM	Nancy Milio		If you believe in fair elections. please do not redistrict our state now. If you believe in the right of each state to do what is fair for its citizens, do not succumb to either the example of Texas or the wishes of the President. Thank you for hearing my voice
10/19/25 5:53 PM	Mrs Anne Backer	N/A	This proposal is unneccary,costly, unfair to people of color and unfair to to everyone!!!
10/19/25 5:53 PM	Amy Keefer		It is unacceptable for the redrawing of districts to benefit only the Republican party. everyone deserves to be represented and doing this erases democratic voices and votes. Please do better.
10/19/25 5:54 PM	Rev. Al Cooper	Warren County Commissioner	Gerrymandering at its worst. I could say because of our current President but most of you are adult men and some Christian and you know better than to use these tactics to cheat the system.

10/19/25 5:55 PM	Kevin Moorhead	Redistricting for the sake of gaining an additional republican seat for the midterm elections is morally wrong. You are suppose to be serving the people of the state, not a political party.
10/19/25 5:55 PM	Meredith Martin	The only way republicans can maintain or gain control is through cheating and scaring people. Y'all know you won't win on policy, so you have to redraw the lines so you get to keep control. Y'all are despicable.
10/19/25 5:56 PM	C. Klein	To be fair this map should only be done by an independent group. Are you afraid you can,Äôt win on your own merits? It,Äôs unfair, and racist.
10/19/25 5:56 PM	Stop the Gerrymandering Katie Martin	You are not allowed to redistrict because the President cannot earn votes. If the GOP can,Äôt earn votes, that,Äôs a sign the GOP is not properly representing the people of their districts. Representatives work FOR THE PEOPLE, not the other way around. I vote to make my voice heard - redistricting will silence it.
10/19/25 5:57 PM	Karin Kreutzer	I'm writing to urging you NOT to redistrict. North Carolinians deserve fair and equal representation in Congress. Please do the right thing.
10/19/25 5:58 PM	Renee Wray	Redistricting should only be done when necessary - ideally every 10 years to coincide with the census. It should be done by a nonpartisan independent group based on population and NOT by party. This off year redo is ridiculous - a selfish pursuit of power - and is not allowing true representation for the people.
10/19/25 5:58 PM	Karl Klinck	Micah 6:8 says "What does the Lord require of you but to do justice, to love kindness, and to walk humbly with your God?" I oppose the redistricting plan because it is unjust. The ratio of Democrats to Republicans in NC is nearly 50%/50%, yet gerrymandered maps give Republicans a controlling majority of seats, and they wasted no time to nullify the political will of nearly a third of Democrats living in this state. The current redistricting plan seeks to steal even more seats from Democrats. That is the specific, explicitly stated goal of the redistricting plan. This is brazen abuse of political power, and literally everyone I know, regardless of political party, vehemently oppose it. Everyone knows that Republican policies are so unpopular that Republicans would lose a fair election, and that is why the NC GOP is cheating to keep themselves from being driven out of office by moral, decent people who are disgusted and furious at the illegal and unconstitutional actions of a felon, rapist, pedophile who is turning this great country into a dictatorship. What the NC Republicans are planning to do on Tuesday is the powerful taking advantage of the powerless, the strong taking advantage of the weak, and the rich taking advantage of the poor -- ALL of which is the opposite of what Christ taught, and each of which is behavior that God explicitly condemns as evil throughout the old and new testaments. The Lord requires us to do justice. The Republicans in the NC statehouse are planning to do injustice. That is un-Christian, un-American, and just plain wrong. The old testament is very clear that these types of actions led to the destruction of Israel and Judah. The same types of actions by Republicans will lead, are leading, to the destruction of America.
10/19/25 5:59 PM	Arleme Kuchenbecker	Gerrymandering is so wrong. And you know it! But you are about to do it anyway. Because wrong seems to be your mission. Support for corruption, cruelty and the unlawful. We are Americans. Liberty and justice for ALL! Why do you support blindly a convicted felon, insurrectionist, pedophile. You may have left your conscience in church this morning. C,Äômon back to America. Land of the free. I pray for your children.
10/19/25 5:59 PM	Ms DENISE MARTIN	Stop gerrymandering for every election! Earn the votes, don't move around the voters. If voters move again, they will vote you all out.
10/19/25 6:00 PM	Re-districting Nate Osburn	We do not want the districting re-drawn just for Republicans to gain seats using gerrymandering which is unethical and takes away voices from NC residents. Everyone in NC deserves to have their voices heard.
10/19/25 6:01 PM	Christina Horton	This attempt to rush the rezoning of district 1 to gain republican majority is embarrassing and appears as an obvious power grab. Of course, democrats of the GA will likely roll over and let it happen; however, if you are a congressional member of either party in support of this, please provide 3 reasons for supporting that are in direct best interest of your state's constituents, or even just that districts constituents, and the answer CAN NOT include the goal of the GOP holding their majority in the state? Essentially, how does this help people / what is the point of doing this other than to ensure the right continues to hold the majority in NC? If you're not serving us, you're just serving yourselves....

10/19/25 6:02 PM	Susan Tayloe		NCGA Please stop the Redistricting plans for NC. It is unacceptable and illegal. Work on the budget for the North Carolina citizens that all of you work for- Please remember that.
10/19/25 6:03 PM	TD		There is no reason to redistrict. If you think the people want you to do this, put it up for a vote and let them decide like they are doing in CA. What do you have to be afraid of?
10/19/25 6:03 PM	Mrs. Jo Ferguson	Concerned North Carolinian	Please go back to the 2022 Interim map that was drawn by independent parties to be more fair and balanced. No one in NC supports gerrymandering. Even Republicans don't want to win by cheating. Please don't take away the voice of any group of North Carolina voters. Voters should choose their Representative, not the other way around.
10/19/25 6:04 PM	Stephanie Chandler		I think this will be the 5th redistricting in 6 years ,Ä¶4 of which were completely uncalled for. Cow-towing to Trump is no way to govern. Grow a backbone, stand up to him, and get busy serving your constituents. Completing a budget should be at the top of your list! NO GERRYMANDER!
10/19/25 6:04 PM	Joelle Weeks		I am a native to the state of North Carolina. I do not agree with the republican's plans to redraw the NC maps to lean more in their favor. Senate leader Phil Berger wrote Thursday on X that the General Assembly ,Äúis ready to help Republicans secure Congress and move @realDonaldTrump,Äôs agenda forward!,Äù The statement above shows that the Republican's aren't trying to help North Carolinians, but they are pushing an agenda to further their social status and put more wealth into their own pockets. Also, their efforts could potentially end elections as we know it for our state by taking away Democratic seats. These law makers have forgotten that they work for the people, and their jobs is to help us as a community. The main goal should be to increase jobs and workers' pay, we should have better healthcare, and it shouldn't be expensive. We should focus on safety for all people that live in NC and focus on bringing more prosperity within the everyday working citizens life. We should work together but they want to be divisive and manipulative.
10/19/25 6:05 PM	Dr. Lisa Ferrari		As a registered Republican voter, I plead with you to do what is right and do NOT redistrict our state. All voters should have a voice. Redistricting does not lead to a better outcome for the people of North Carolina.
10/19/25 6:05 PM	Mrs. Janet Price		To whom it concerns; I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 6:07 PM	Dr. Robert Ferber		Partisan gerrymandering by both parties is horrible enough. The latest efforts in NC and elsewhere will take this mess even further, so that we will have gerrymandering at least every two years as voters get moved from district to district - to benefit who?? Certainly not the voters. This effort is just one more blow to having a democracy that actually functions by the people and for the people. Do not vote for this travesty!
10/19/25 6:07 PM	Melanie Wilson		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. As a resident of Guilford County and the town of Stokesdale, we,Âôve been moved into a district that doesn't represent the actual residents of our place in the county. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 6:08 PM	Thomas Ellis		How can we justify more gerrymandering when we have a pretty purple state already. Please be fair and use an independent map drawer. It only makes sense long term.
10/19/25 6:09 PM	Michael Philpot		Why would you people be bending the knee to Trump. How about no sales tax on food, power bills , etc. You do not care about the average citizen, Just your rich cronies.
10/19/25 6:09 PM	Marcia Deal		You should be ashamed of yourselves displaying such a blatant power grab in the new redistricting map. You could spend your time figuring out how to fund reconstruction in western NC and funding for public schools.
10/19/25 6:09 PM	Tammie Clark		I do not agree with the Republican's plans to redraw North Carolina maps. This is taking away our rights to choose our state representatives. By redrawing the map, they'll remove majority of the Democratic seats. They are supposed to work with the people and for the people, but they are currently working against us.
10/19/25 6:09 PM	Dr. Robert Ferber		This is a travesty. "Regular" partisan gerrymandering by both parties is already an abomination. This new effort will result in gerrymandering every two years as voters are moved from district to district without any real input. This will be another nail in the coffin of our democracy.
10/19/25 6:09 PM	Rev. Roberr Cissman		This map looks perfect, Fininal a map that makes sense. It's time for all the voter of NC to be repersented.
10/19/25 6:09 PM	Mr. Robbin Flowers		Cheats, liars, and Thieves (i.e. Republicans) should not get another seat! They should get prison terms!

10/19/25 6:10 PM	Ms Kristin McGee		I would like to register my opposition to the proposed voting redistricting. When voting maps are gerrymandered, all voters suffer. Our districts belong to the people of North Carolina and our state politicians should be serving the interests of the people, not the interests of the party. A recent survey found that 84% of North Carolina voters say it‚Äôs never acceptable for politicians to draw districts to help their own party win more seats, no matter the circumstances. Heading into 2026, that opposition holds across party lines, including 78% of Republicans, 87% of Democrats. Please stand against the gerrymandering of our state voting districts.
10/19/25 6:12 PM	Sean Sullivan		So much of the polarization in our country comes from gerrymandering as it forces politicians in 'safely partisan' districts to take ever more extreme stances to avoid getting primaried. Redistricting to create districts that are more competitive across parties by fighting against gerrymandering will force politicians to adopt more moderate positions that have more appeal across the political spectrum.
10/19/25 6:13 PM	Jordan Hart-White		True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better!
10/19/25 6:14 PM	Marie Pasquale		I strongly oppose this redistricting and any attempts to further gerrymander North Carolina.
10/19/25 6:14 PM	Mr Philip Garriss		I very much am opposed to the latest proposed Congressional maps. The traditional timing of looking at redistricting every 10 years after census results is what we should do. The insane gerrymandering to try to get a benefit is about as anti democracy as it can get. I would support an independent commission to draw maps every 10 years. I am so frustrated that I have decided that I will not donate to any that vote for this newest map, and will advocate for others to do the same.
10/19/25 6:15 PM	Gerald Gibson		I am embarrassed for the state of North Carolina by this power grab effort. Have you no shame? Have you no honor?
10/19/25 6:15 PM	Mr. Brian Crawford		I am opposed to all gerrymandering of congressional maps and especially the proposed anti-American plan by North Carolina GOP. This move effectively disenfranchises millions of North Carolinians and should not go forward. I support congressional maps free of all gerrymandering by any party or organization. Instead of disenfranchising voters, the General Assembly should immediately stop this effort and begin an effort to make gerrymandering illegal in the state of North Carolina.
10/19/25 6:16 PM	Ms. Sarah Peterson		Please stop continuing to gerrymander North Carolina's congressional districts even more than they already are. We already have some of the least competitive districts in the country. If you don't think you can win a district on your own merits, you shouldn't be running for election. Please spend your time working on solutions to issues that affect North Carolinians every day.
10/19/25 6:16 PM	Mrs. Karen Collins		It is shameful that congresspeople who are supposed to care about what happens here are resorting to gerrymandering to try to win an electon. This state needs representatives who care about our state and country, and who don‚Äôt just follow Trump‚Äôs wishes to eliminate thoughtful alternative ideas. Politicians have no right to manipulate elections.
10/19/25 6:16 PM	Mrs K Or.		As our country is being sadly taken over by people that do not believe all persons should be treated equally, I strongly object to what you‚Äôre doing. You‚Äôve literally been asked to change the voting districts so that you can get another republican representative in the US . All of this gerrymandering so that you can vote for rich Americans and yourselves to get more and for lower economic groups suffer as they won‚Äôt be able to afford healthcare. And cutting Medicaid that helps children,‚Äôs medical programs and disabled and older people who need help. You must not have a heart to treat poorer people so they won‚Äôt have any healthcare or food assistance. To give more of the American pie to rich people who have all they need and more looks like greed and hate. This is not the America I thought I lived in! Be ashamed of your greed and dishonesty, and please do what you know is right!
10/19/25 6:16 PM	Jessica Sapaugh		Sorry that Republicans can't win elections without cheating but I will remind you that elected officials actually are meant to represent their ENTIRE community, not just those who subscribe to their extreme ideology. NC wants fair maps that represent the people who live here. Do your job, cowards.
10/19/25 6:17 PM	Vicky Piper	Citizen	I am opposed to all gerrymandering in the state of North Carolina. It is anti-American and stands to disenfranchise millions of North Carolinians desperate for fair representation in Raleigh and Washington. It is a form of legalized cheating on elections that should be stopped.
10/19/25 6:17 PM	Sarah Chesser		Redistricting will harm NC and take away voters rights and wishes.
10/19/25 6:17 PM	Joe Pasquale		I strongly oppose further gerrymandering of this state. This is a 50/50 state and should be represented as one.
10/19/25 6:17 PM	Ann Kernahan		Stop redistricting! Making the playing field yield to your wishes is no way to lead!

10/19/25 6:18 PM	Ms Elizabeth Coulter		Dear members of the House Select Committee and the Senate Elections Committee, I am writing this evening to let you know that I am vehemently opposed to your efforts to gerrymander our Congressional maps, AGAIN! If the Republicans in our General Assembly could actually use their brain power to have a good idea or two, it would not even be thinkable to manipulate the electoral maps of NC. Voters would flock to your good ideas. This effort simply shows you are not good faith actors nor do you have any ideas that regular voters can get behind. Funny thing is, the Trump regime is so very unpopular and his Maga Murder Budget so deadly that I do believe that this time you will be the dog that caught the car. Good luck recovering from that.
10/19/25 6:19 PM	William Janzen		I would like to register my displeasure with the proposed plan for redrawing North Carolina‚Äôs house districts. Districts should represent the local population, not be artificially drawn to support a political agenda.
10/19/25 6:19 PM	David White		Good Afternoon, Gerrymandering is not a form of equal vote or winning elections by persuasion and good faith. Instead it allows the minority to project as the majority. This is not equatable. It is also disheartening that the public is starting to feel regret and displeasure for how the government is being run, and due to that the current administration has requested redistricting to counter and suppress the people. There are many more pressing issues that need attention instead of trying to secure and hold votes or gain representation because the public does not agree with their message. Also it is illegal and not common to have redistricting outside of a census. Additionally, minority communities deserve a voice and the proposal of splitting the eastern NC would minimize their votes and representation. Politicians need to act fairly and not try and cheat to stay in positions they hold. Our country is for the people not a select few to do as they wish or disregard a whole group of people just because they feel a certain.
10/19/25 6:21 PM	Margie Stewart		I‚Äôm tired of hearing news reports which begin, ‚ÄúNorth Carolina, with a long history of gerrymandered voting maps,‚Äù‚Äù! Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It‚Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.
10/19/25 6:21 PM	Debra DeTreville	voter in NC	This redistricting proposal is wrong on so many levels. Legislators are meant to Serve the people who elected them, not a power-grabbing president. You are setting a precedent that can be used against you in the future. You are showing the Independent voters (such as myself who was for years a registered Republican!) that you cannot be trusted in office! Stop this travesty!
10/19/25 6:21 PM	Rep. Diamond StatonWilliams		Hello former colleagues, I am disappointed in this Congressional Redistricting Plan. It is vitally important that people are represented fairly and justly. This is a disservice to the people you were elected to represent. Reconsider this plan and do right by the people of our great state.
10/19/25 6:21 PM	Redistricting Gambit Kim Shoffner		How about working on the budget? We have already been gerrymandered out of true fair representation (demographically we are purple), so what the Republican delegation are trying to do now is repugnant and unconscionable. We, the voters, are supposed to choose who represents us, but it looks like some politicians want it to be the other way around. It's gross and everyone involved knows better. If it was on the up-and-up, things would go through the regular process and there would not be this attempt to jam things through at the last minute. I don't know if the NC R's saw/read/heard about what happened in the streets yesterday, but maybe they should look into that before undertaking this blatantly partisan attempt to rig the system as a means of appeasing one wildly unpopular person, because he and his party do not have enough popular policies (or, honestly, any policies at all) to win things fair and square.
10/19/25 6:23 PM	Shannon Auman		Absolutely disgusting what Republicans are trying to do to us NC voters... I hope this completely backfires on them. They are going to redistrict no matter what we say or do but I hope it backfires on the spineless cowards the Republican party has become. I'll never vote for a Republican EVER!

10/19/25 6:23 PM	Ms. Janice Robinson	Red Wine & Blue	I am the NC Director of Red Wine & Blue. We are a community of nearly 40K women in all 100 counties here in North Carolina. As a nonpartisan organization, we span the partisan divide and many of us are registered as Unaffiliated voters as well. Redrawing NC maps to protect Trump‚Äôs agenda according to Phil Berger, is an offense to the women in our network. No elected official should be manipulating political maps to draw safe seats for himself nor his party. This is the proverbial elected officials choosing voters vs voters choosing their elected representatives! The women in our community will be mobilizing their friends, family and acquaintances to the polls to help vote out any candidate who continues to try and take away our rights in this state; regardless of whatever district he or she lives in because we ARE in all 100 counties! Do not redraw NC maps!
10/19/25 6:24 PM	Oppose Redistricting Wendy Perrigo		I strongly oppose the timing of this process to alter our current districts. It needs to continue to be completed after census, every 10 years and with INDEPENDENT agents driving this process. At this particular time, this move only looks politically motivated.
10/19/25 6:25 PM	Sarah White		True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better!
10/19/25 6:25 PM	Unnecessary Carol Whitham		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 6:26 PM	NO to gerrymandering Barbara Kenny		Gerrymandering violates the core principles of fairness, accountability, and limited government. When politicians manipulate district lines for partisan advantage, they undermine equal representation and weaken voters‚Äô ability to hold leaders accountable. Elected officials must represent all North Carolinians,Äînot just their party,Äîand protect every vote equally. Dividing natural communities for political gain disrupts local control and concentrates power in the hands of insiders rather than the people. Redistricting now is unnecessary, rushed, and costly. Legislators should prioritize passing the overdue state budget, not an unfair plan that will invite litigation and deepen distrust. North Carolina is already among the most heavily gerrymandered states in the nation; making that worse serves no one. The proposed maps would further dilute the political power of Black North Carolinians, violating the Voting Rights Act. We deserve fair maps, transparent processes, and leaders who win through ideas,Äînot manipulation.
10/19/25 6:26 PM	Ms. Jessie Smoot	none	I am an unaffiliated, active, and educated voter. I do not live in Texas or California. I live in Tarboro, NC. I was born in Goldsboro, NC. My entire set of ancestors are North Carrollian. So, when my elected officials purposely eliminates my choice for representation I am not happy. I am unaffiliated because I want some one who puts their constituents first not party. Don Davis has earned my vote by living in, meeting, and supporting his district. He has crossed the political divide to do what is best for our rural district. His commitment to trying to maintain rural hospitals is not new. I can say any republican running in the future has a huge trust gap with me. And be sure I do vote by the person. I have never voted a straight ticket in my 62 years. The NC GOP has shown their allegiance is entirely to the president and not local citizens.
10/19/25 6:27 PM	Redistricting plan is wro Alissa Redmond		Please stop disenfranchising minority voices.
10/19/25 6:28 PM	Molly Barnhardt		Do NOT redraw our districts in NC! We are already the most Gerry mandered state ! If you do this the Democrats will keep doing it too and then where does it end? The VOTERS should pick their LEADERS not the other way around ! We have something rare and precious - a purple state where people have to actually compete on their ideas and pitch to voters ! Please OPPOSE any and all further Gerry mandering !!
10/19/25 6:29 PM	Sarah Manwaring		Please consider keeping our districts fair. Drawing them to favor GoP is so unfair.
10/19/25 6:30 PM	Heather Rushing		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 6:30 PM	Ronan Barnhardt		NO ON GERRYMANDERING! In North Carolina we believe in election integrity and not playing games or stealing elections! Things like this often backfire and are not constitutional! All voting districts should be chosen by a non partisan committee every 10 years based on census and this is not that ! Please vote NO on any further Gerry Mandering for NC!
10/19/25 6:30 PM	D Green		NO MORE GERRYMANDERED MAPS! Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It‚Äôs clear they care more about protecting billionaires than caring for the citizens of North Carolina. This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 6:31 PM	Cindy Steiner		You are trying to steal my voice. I‚Äôm an independent who votes for the best candidate, but you are trying to drown out my voice. I have already been disappointed at the responsiveness of my legislators and now you want to make it so that I have even less input. Redistricting is unnecessary and is undemocratic.

10/19/25 6:31 PM	7196515758 Jody Alyn		I AM OPPOSED TO YOUR NEW REDISTRICTING MAP. DO NOT ADOPT IT. You already know: gerrymandering violates core principles of fairness, accountability, and limited government. You already know: manipulating district lines for partisan advantage undermines the constitutional promise of equal representation and disenfranchises Black North Carolinians. You already know: North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create worse ones. You were elected to represent us all, not to ensure your own preservation of power by cheating. Shame on you. STOP IT.
10/19/25 6:32 PM	Ms Kieta Osteen-Cochrane		Manipulating districts to benefit the party in power is despicable and an affront to freedom & fairness no matter which side does it. Stop this practice.
10/19/25 6:32 PM	Lisa Vitalis		This is absolutely terrible. No public vote? Do not do this. North Carolina people do not want this. We want fair and lawful elections.
10/19/25 6:33 PM	Vanessa Mathews		Please stop and do not redraw the congressional district 1 maps. As residents and citizens of North Carolina, we are demanding that the legislature in Raleigh meet our needs and honor our requests, as you REPRESENT our voices and our needs. This needs to stop on America. Please stop taking away our rights. And stop doing things unfairly.
10/19/25 6:33 PM	Dr. Jennifer Bremer	Retired	This move to redraw the Congressional and legislative districts yet again is a shameful attack on the integrity of North Carolina's electoral processes. It undermines whatever confidence the voters have left that the legislature is acting in a logical and justifiable manner consistent with the interests of the voters and the state at large, rather than simply pursuing crass self-interest. The proposed dismembering of the longstanding Black-majority district in the Northeast is particularly egregious and harmful. I strongly urge you to set this scandalous redrawing scheme aside and focus on the many actual challenges faced by North Carolina's citizens, businesspeople, and government.
10/19/25 6:34 PM	Amy Swope	Constituent	This redistricting attempt is unacceptable and disenfranchises countless North Carolinians. Maybe try brainstorming better policy so you don,Äôt have to cheat to win?
10/19/25 6:34 PM	Sharon Freeman		I am a veteran, Returned Peace Corps Volunteer, Retired Federal Employee, and a registerd Independent voter. If my representatives were planning to redistrict our state, I would expect at least some level of improvement in fairness. Instead, I see a bizarre takeover of one party - not because that party represents the majority, but becuase the party can evidently only win if they conduct dirty, underhanded actions that work to further divide. Stop trying to win for your SELF and start working together for ALL of us. Like it or not, we are ALL Americans and all voices deserve representatioin and leadership with integrity.
10/19/25 6:34 PM	Eleanor Thomas-Allen		It,Äôs a terrible thing that you cannot be honest about redistricting in North Carolina. People elect you not the other way around. No wonder kids act the way they do with terrible Republican role models. I do not agree that this is fair for the people of North Carolina. No integrity for Republicans in this state.
10/19/25 6:34 PM	We Don,Äôt Want Gerrymander Jessica Guptill		I am a constituent and I don,Äôt want this. This gerrymandering is ridiculous and unfair. If you have to cheat to win, you know you wouldn,Äôt win. I am disgusted by this and embarrassed as a North Carolinian. Do not pass this map. I was affected when you gerrymandered Jeff Jackson out of his seat and am unhappy that I can no longer trust that who is elected will duly and fairly reflect the demographics of myself and my neighbors.
10/19/25 6:34 PM	Carol Fertig		It would be nice to see you govern and legislate instead of trying to figure how to manipulate election results. Spend that energy in our direction,Äînot yours. You are supposed to be legislating for everyone!..not just to retain power.
10/19/25 6:35 PM	Gerrymandering Joshua Penosky		If you can't hold your power without cheating and disenfranchisement, you don't deserve the power #nokings #bringbacktheguillotine
10/19/25 6:35 PM	Karen Sault		Stop with the gerrymandering! NC is a wonderful State, bending the knee and redrawing the maps to appease a pretender to the Presidency who is a want-to-be king is the opposite of standing up for American values. Be better than the current administration.
10/19/25 6:35 PM	Lynn Jones-Hoats		Please can we just stop doing this man's bidding! Enough is enough. Voting was put in place in order to be able to have a person represent an area but doing this over and over again is ridiculous. Stop it there's no reason to be following a dictator he's eventually going to go down and all the rest of the people connected to him will go down as well. That's just the way it's going to go. It's not sustainable the way that man is or the way this party has become. Causing everybody to leave. I'm urging you to stop it don't listen to him say no.
10/19/25 6:37 PM	FAIR representation Jamie Regan		We want and deserve FAIR representation, NOT gerrymandered maps!
10/19/25 6:38 PM	Ms Deborah Burns	NC Voter	Do not redraw our voting districts. I am NOT happy with the continued gerrymandering. Shame on you!!
10/19/25 6:39 PM	Dr Greg Kerr		This is shameful. I have voted Republican for decades and I am ashamed of this undemocratic tactic to hand power to the wannabe dictator Trump. Preserve democracy. Don,Äôt do this.
10/19/25 6:39 PM	Becky Barger		Do not gerrymander our maps just to try and get another republican elected! The republicans, especially Trump,Äôs platform is so unpopular that you feel like you have to cheat to have a chance! That is awful! We want fair maps!

10/19/25 6:39 PM	Ms. Eliza Ferguson		Do not re-gerrymander our congressional districts! Do not dilute the votes of Democratic voters! I grew up in NC, and I am old enough to remember when Republicans and Democrats worked together to improve education and economic opportunities in this state. But those days are long gone. Republicans have consolidated their power, AND YET they are proving every day that they are unable to govern. Maybe focus on passing the overdue budget and *not* destroying our health care instead of trying in amass even more power. If you are afraid to compete fairly, consider that you are unworthy to win.
10/19/25 6:40 PM	Hala Helm		You should be ashamed of yourselves. You work for us, not Trump. The majority of voters in North Carolina are registered as unaffiliated, including myself, and I have voted for candidates of both parties. Why don,Äôt you try letting the people decide, rather than constantly looking for ways to game the system. I do not approve of this redistricting plan, and anyone who votes for it will not earn my vote.
10/19/25 6:40 PM	Ms. Lynne Walter, MSW		As a North Carolinian, a social worker, and a long-time North Carolina voter, I'm tired of the constant politically motivated redistricting and gerrymandering. If this latest partisan attempt is allowed to happen--mid-decade mind you, 5 years away from the next U.S. Census--it will be the SIXTH time in FIVE years. No North Carolina voters asked for this. In fact, according to a recent poll conducted by a Republican-leaning polling firm, they found that 84% of North Carolina voters said gerrymandering is NEVER acceptable. And that includes 78% of North Carolina Republican voters, 85% of North Carolina unaffiliated voters, and 87% of North Carolina Democratic voters. Please vote ,ÄúNO,Äù on redistricting these two congressional districts and do what is right and fair by North Carolina voters. We don't need more gerrymandering; what we DO need is for you all in the NCGA to pass a state budget, fully fund our public schools, and fully fund the North Carolina Medicaid Program.
10/19/25 6:41 PM	Ms. Merrill Oka		We do not need to gerrymander the districts! Do not bend a knee to the tyrant!
10/19/25 6:41 PM	Mrs Joanne Loktu		Election maps are only supported to be altered after a census. Redrawing maps this year would clearly indicate that you are attempting to rig the upcoming elections. Let,Äôs play fair or are you afraid to let your constituents speak?
10/19/25 6:41 PM	Dr. Gerald Postema	UNC-CH Professor emeritus	Democracy is rule of the people. The people rule by electing officials. When representatives select voters, they destroy their claim to rule. NO MORE PARTISAN REDISTRICTING.
10/19/25 6:43 PM	Dr. Kristen Cain		It is shameful and undemocratic to draw maps that don't allow the will of the people to be heard. It's unAmerican. It undermines our most basic rights.
10/19/25 6:43 PM	John Cotterman		No, no no! This is a blatant power grab. Just because the childish maga king wants this to happen, does not mean the NC Republicans need to jump (or kneel). You well know that the NC districts currently do not represent the truth and reality of the populations in the districts and you only want to made it worth.
10/19/25 6:44 PM	Geneva Walata		North Carolina citizens deserve representation based on the state population. The state is already one of the worst examples of partisan gerrymandering, and it,Äôs not easily forgotten the state tried to gerrymander based on race before. Changing the maps is wrong, shameful, and further erodes the rights of North Carolinians. Take your duty to your constituents seriously and stop the map redistricting; North Carolina citizens are the priority, not Donald trump.
10/19/25 6:44 PM	Mary Louise Creed		,ÄúDemocracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.,Äù
10/19/25 6:45 PM	Kelly Thomas		I have serious concerns about this proposed midcycle redistricting plan. It is highly unusual to change Congressional districts in the middle of a census cycle. This proposed redistricting is just a blatantly partisan power grab; this has nothing to do with representation of NC citizens but instead is being done at the request of the Trump regime, to ensure Republican control of the US House of Representatives in the 2026 mid-terms. Instead of focusing on passing an overdue budget which is important to the citizens of NC, the Republican Leadership of the NC Legislature is focused on gerrymandering to appease Donald Trump. A poll of NC voters conducted in September found that large majorities in both parties oppose gerrymandering (87% of Democrats and 78% of Republicans). Gerrymandering also potentially destabilizes elections (changing district lines can be confusing to the electorate) and weakens democracy--when maps are drawn to entrench one party's power, voters lose confidence in the fairness of the system.
10/19/25 6:45 PM	Elizabeth Hengen		I am writing to submit my strong opinion against the current North Carolina redistricting maps. These maps are drawn in partisan, unconstitutional, and illegal efforts to disempower North Carolinians from being represented. These maps do not serve the people of North Carolina. There is no possible reason to justify that North Carolina would become so polarized in one direction of elections.
10/19/25 6:45 PM	V F		Your constituents have been consistently and adamantly vocal about our outrage at the redistricting of our counties to appease Trump. We are entitled to know when this meeting will occur in an appropriately timely manner so that everyone who wants to be there can make plans. We are watching you, clocking each move and motive, and we will hold you accountable for the oaths you took to represent the whole of the people.
10/19/25 6:46 PM	Mrs. Lisa Loftus		Integrity and character is being chipped away in larger and larger chunks as many of you chase power and money. What legacy are you leaving behind? Leave the damned maps as is.

10/19/25 6:46 PM	Kelly Creagh		I strongly oppose the proposed redistricting of maps in North Carolina. These maps appear to be drawn with partisan intent, undermining fair representation and weakening the power of voters. Gerrymandering erodes public trust in our democratic process and silences the voices of entire communities. North Carolina deserves fair, transparent, and nonpartisan district maps that reflect the true makeup of our state,Äînot maps drawn to favor one political party. I urge lawmakers to reject any map that prioritizes political advantage over the will of the people. Thank you for your time and attention to this matter.
10/19/25 6:47 PM	Cheryl Harrell	self	Your plans to redistrict are unfair and blatantly racist. Do you fear not being able to win on your own if there are free and fair elections? The map should be done by an independent group. Definitely neither party should be in charge of drawing up voting districts.
10/19/25 6:47 PM	Mrs Margaret Anne Parlier		As a lifetime citizen of North Carolina, who has voted in every state and federal election since 1972, I deplore another redistricting. Redistricting now is spitting in the faces of the citizens of this state and is admitting that one party cannot win election on its own merits.
10/19/25 6:47 PM	Corey Boone		True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better!
10/19/25 6:48 PM	Norma Hall		Please vote NO on redistricting. The proposed plan disenfranchises voters and denies constituents the ability to select their representatives- it is representatives selecting their voters.
10/19/25 6:48 PM	Mrs Julie Zuch	Independent	I don't understand how this is happening, what happened to actually having fair elections and not rigged elections. It's embarrassing and shameful that this is where we are at in this time and age.
10/19/25 6:49 PM	Melissa Wickham		Gerrymandering is bad for democracy and NC
10/19/25 6:49 PM	Jim Sliwa		What you are doing is destroying the democratic republic we live in. The founding fathers compromised to find solutions for all Americans. What you are doing is clearly bowing to trump and his wishes. I remember in the 1970,Äôs when NC Republicans stood up to the illegal actions of Nixon. You continue to redistrict to keep power versus providing proper representation of NC residents. Let an AI program draw the lines without any information beyond population and the fact NC has 14 districts. NC Residents want free and fair elections!!
10/19/25 6:50 PM	Ms Tondra Bowers		You are not upholding your duties by gerrymandering our districts. This undemocratic practice MUST stop! It feels like Natzi Germany all over again. Stop representing big money and get back to representing the everyday person.
10/19/25 6:50 PM	Rachel Rosner		Stop politicizing the voting process. You see what you,Äôre trying to do, and it,Äôs not right.Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. Stop these efforts to illegally gerrymander our state.
10/19/25 6:51 PM	Do what is right Michelle Sever		You were elected to represent the interests of the people of North Carolina, not to deliver on a president,Äôs priorities. The latest voter data in North Carolina shows that nearly 38% of registered voters are unaffiliated, which is 7% more than those registered as republicans. Pushing through gerrymandering will not encourage those of us that are unaffiliated to vote for you next time. We, the unaffiliated electorate, are not aligned with either party and have no allegiance to vote for you because of your affiliation or because of an endorsement from the president. If you make the rich richer and the poor poorer, know that we, along with the Lord Jesus, are watching. One day you will have to account for your choices. I pray you will have the courage to stand up and do what is right for your constituents, even if you face political backlash in Washington.
10/19/25 6:52 PM	B E		I am a NC constituent and this is not democratic at all. This redistricting is not only unjust but unequal. This is only to appease higher political officers and not your constituents. North Carolinians want fair representation, not gerrymandered ones who will never listen to their constituents! My representatives do not currently listen to their constituents and this will make it much worse!
10/19/25 6:52 PM	Lisa Robinette		I am a NC voter in New Hanover County. I am saddened and dismayed to learn about the proposed redirecting efforts. I am asking all of our elected officials to have integrity and transparency in their positions and stop dismantling the democratic process. You still have a chance to do the right thing.
10/19/25 6:52 PM	Ms. Laura Cotterman		I write to express my severe opposition to the redistricting plan you will vote on this week. To revise the map so the Republican party can get one more district (I.e., one more representative to Congress) when the map is already biased to Republican seats is a travesty. Instead, please pass a bill to create a nonpartisan committee that will draw new maps based on real census data.!
10/19/25 6:52 PM	Mr McLaurin Gilliam		Let the voters decide their candidates not the other way around
10/19/25 6:52 PM	Lora Lanier		Enough redistricting! Please leave it alone! Please listen to your constituents!
10/19/25 6:53 PM	Mrs. Jennifer Eacret		This gerrymandering is unfair and unnecessary. You represent the people of NC not Donald Trump! You should be supporting equal and fair elections for every voter in NC. Pass the budget!!!! That should be your priority. We need higher pay for teachers, more funding for public schools, and affordable health care. No more gerrymandering in NC!
10/19/25 6:53 PM	Jason Ewart		You all should be ashamed of yourselves for how you are planning to redistrict North Carolina. The people need a voice and redistricting to give the voice to only a certain party is abhorrent. Do fucking better. Fascists.
10/19/25 6:54 PM	Robert Gibson		I am extremely opposed to NC further gerrymandering the state. How about you pass a budget, pay our teachers and cops, and stop bending the knee to fascists.

10/19/25 6:55 PM	Tina Fisher		I am very concerned that this legislature is attempting to suppress the will of North Carolinians through this costly and unnecessary redistricting plan. This is not in the best interest of the people of North Carolina.
10/19/25 6:55 PM	David Cook		3 wrongs don't make a right. Texas should not have redistricted, California shouldn't consider it. I oppose any further redistricting of congressional districts in NC . End gerrymandering and create an apolitical redistricting commission.
10/19/25 6:56 PM	Dr Brenda Lazarus	Retired	This move seems like a waste of legislative time and resources. The NC map is already heavily gerrymandered. Aren,Äôt 12-4 seats enough? Get to work on passing a budget and serve the people who voted for you.
10/19/25 6:56 PM	Mr. Peter Rawitsch		I am outraged that the NC Republicans would redistrict to add another representative in Congress. And at the request of a tyrant in the White House! We are quickly losing democracy. The disregard of our Constitution is shameful and dangerous. Sadly, if the Democrats ever get the power, they will probably redistrict as well. A neutral, unaffiliated party needs to oversee any redistricting. I grieve for the world my grandson will inherit. Stop the redistricting plan now.
10/19/25 6:56 PM	Congressional District Kimberly White		Please Do NOT Redraw district lines. Gerrymandering is not ‚ÚúThe American Way‚Äù.
10/19/25 6:56 PM	Valora Hanko		I currently reside at 32 Iris Street in Asheville, and I oppose any redistricting bills. Unfair maps disenfranchise voters and lead to long-lasting political problems. Drawing districts to favor one party leads to severe polarization, legislative gridlock, and a weaker congress. The NCGA's redistricting attempts cheapen the political power of North Carolinians, and all Americans. Please pass an overdue budget, and don't focus on this nonsense. Thank you for your consideration.
10/19/25 6:56 PM	Mrs Kathryn Pettigrew		Are you really going to let a felon tell you how to vote? Are you more loyal to felon 45/47 than to your constituents????? Shame on you for further rigging the system!
10/19/25 6:56 PM	Mariora Texier		Our representatives should not change voting lines based on a whim. This is premature abd unethical!
10/19/25 6:57 PM	Mr William Cloninger	Patriot voter	Get a life minus the lies of your Make believe President and allow a fair, unbiased election to proceed without stacking the voting deck as the voters demand!!
10/19/25 6:57 PM	Celeste Collins		Do not dilute Black and Brown voters voice in elections by redistricting NC. NC voters consistently vote 50/50 for Democrat and Republican statewide candidates. The districts should provide balanced representation for all communities and interests.
10/19/25 6:57 PM	Angela Foster		We don't need any new maps drawn unless it is by a non-partisan party. Gerrymandering is against the constitution. I won't ever vote Republican again if this is done like you have proposed.
10/19/25 6:58 PM	Carrie Pinnow		The fact that is being done with zero transparency and with no announced schedule makes it blatantly clear that this is being done to satisfy Trump and prevent the population of NC from having fair representation. This is beyond despicable. The NC legislature has failed to pass a budget, as required, but instead will spend time and resources on gerrymandering to secure an additional republican seat. The policies enacted by the Trump administration and the GOP controlled Congress are harming hard working Americans. The Republicans who support this so they can cling to power will find out how the voters feel about what they are doing.
10/19/25 6:58 PM	Stop gerrymandering Jennifer Leoncini		Just stop. Do not redraw any congressional maps as a favor to Trump. Have some integrity. The people of North Carolina do not want this. You represent us not a wanna be dictator. Enough is enough.
10/19/25 6:58 PM	Ms. Marsha Wackerly		Please stop drawing new district maps designed to give one political party an advantage. Redistricting should be fair, transparent, and handled by a nonpartisan team. The people of North Carolina deserve representation that reflects communities, not political strategy. Thank you for your attention to this matter.
10/19/25 6:58 PM	Mrs. Karen Bessey	Karen Bessey	I strongly oppose creating a new district plan between years of the Census. This plan is only done in response to Trump's request because he's afraid Congress will lose Republican seats in 2026. This notion of removing the voice of black and Democratic citizens in order to preserve Republicans in Congress is so un-American. Let the people speak! I want districts that are fair and that allow a person's vote to actually count. We already have a terribly gerrymandered map; don't make it even worse. You are picking the voters instead of letting the voters pick you. Besides, do you really think NC voters voted for state legislators to just do whatever Trump demands? Did you notice the huge record-breaking crowds lining the streets of NC cities and towns for No Kings rallies? Citizens are worried about the slide to authoritarianism in which Trump usurps more and more power. Don't just bow down to him just to keep the GOP in power to rubber-stamp Trump's brazen, dangerous plans. Do NOT do a gerrymander redistricting; my district is #1, with Don Davis. Do not mess with it. You are NOT Trump's puppets - or at least, you shouldn't be. Do what's good for NC - not corrupt Trump. Vote NO!!!!!!!!!!!!! on a redistricting now. I am shocked and horrified that you would even think of doing this. Stand up for NC, not Trump! Trump's agenda is damaging to NC: he slashed Fed jobs; he slashed funding to colleges; he slashed funding for important medical and science research; his tariffs are straining our business owners; etc. etc. In closing, I'm glad you're asking for opinions and I hope you consider my concerns carefully. Thank you.
10/19/25 6:59 PM	Opposed Emily Grdic		The people of NC deserve fair elections, not ones rigged for the party in power by gerrymandering. Grow up, do your jobs and stop trying to steal elections.
10/19/25 6:59 PM	Melissa Harrell		Strongly oppose the changing the districts as this an undemocratic power grab to create a one party state.
10/19/25 6:59 PM	No to redistricting Kristy Yule		I absolutely do not want any redistricting to occur until the regular time. I,Âôm watching and I vote

10/19/25 6:59 PM	Mary Holland		What a disappointment, not unexpected, by the great state of North Carolina,Äôs current legislature. With no budget, no Medicaid/affordable health care decisions, and on-going battles with their Democrat colleagues, the current lawmakers have decided to enact a re-districting effort that none of their NC constituents asked for, nor were advised. As an independent voter in every election since 1972, I have seen wins and losses, good presidents/legislators and bad. I have however, never seen such a blatant and scripted abuse of power as this current re-districting ploy. Such an effort ignores the will of the people in selecting their representation and undermines the basic principles of democracy. There is no fair or impartial decision making here, just blind loyalty to party and power. For shame!
10/19/25 7:00 PM	Caroline Stayer		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. This proposal will dilute the political power of Black North Carolinians.¬†The biggest impact of this proposal will be the "cracking" of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. This proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year's election before dropping big changes to next year's.
10/19/25 7:00 PM	Oppose Redistricting Mike P		Dear Members if the NC General Assembly, I am writing as a concerned citizen to express my deep opposition to the proposed redistricting of North Carolina,Äôs congressional maps. These efforts appear to serve partisan interests rather than the people of our state. Redistricting should ensure fair representation for all citizens, not entrench the power of one political party. Our nation,Äôs first president, George Washington, warned us of exactly this danger in his Farewell Address when he cautioned against ,Äúthe baneful effects of the spirit of party.,Äù He recognized that excessive partisanship divides citizens, weakens government, and places the interests of factions above the common good. Sadly, that is what partisan redistricting does today,Äîit prioritizes political advantage over the unity and representation of the people. I urge you to reject these partisan redistricting efforts and instead support an independent, transparent process that honors the will of the people of North Carolina. Our democracy is strongest when every voter,Äôs voice counts equally. Sincerely, A Concerned North Carolinian
10/19/25 7:01 PM	No Gerrymandering Travis Bridges		Partisan gerrymandering is fundamentally anti-democratic. Conservative politicians plan to redistric with the primary goal of ensuring that they can continue to ignore the will of the people that it is their dusty to represent is absolutely shameful and goes against everything that this great country is suppose to represent. I hope you will see reason and realize that the trend of hyper partisan gerrymandering undermines the functioning of government and will ultimately harm all citizens across the political spectrum. Thank you for your time, Concerned citizen
10/19/25 7:01 PM	Mrs Harriet Bartnick	Citizen	Stop this redistricting, this needs to be out of the hands of politicians altogether.
10/19/25 7:02 PM	David Thompson		This is wrong and all of you know it. Stop being bootlickers and stand up for your constituents and not the president. He is not in charge and if you choose this path then you will learn you are on the wrong side of history. Only cowards bend to the will of a dictator and we will know who you are tomorrow after you cheat and gerrymander our state even more than you already have. You are all disgusting cowards
10/19/25 7:02 PM	Gerrymandering Isaac White		The time has come for NON PARTISAN Districting Commissions. Stand up for fair elections. Do NOT redraw the lines!
10/19/25 7:02 PM	Cynthia Wallace	New Rural Project	I am calling to ask all NC House and Senate representatives to vote against the bill gerrymandering our congressional districts because of a request from the president of the United States. NC is roughly a 50/50 state based on how people voted in 2024. After the 2022 election, we had 7 Democrats and 7 Republicans representing us in congress before the recent gerrymandering which turned this into a 10 Republican and 4 Republican delegation. The new maps are drawn specifically to reduce the voting strength of African Americans in Northeast NC simply by changing which counties will now represent NC01. I urge everyone regardless of party to vote NO.
10/19/25 7:04 PM	Mrs Beverly Carroll		I am in favor of redistricting in NC.

10/19/25 7:05 PM	Courtney McGuire		This proposal is unnecessary, rushed and costly. It should not be completed. North Carolina has already been redistricted twice since 2020. North Carolinians should be given a proper opportunity to consider the proposal and share their perspectives with their legislators before this is moved through. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 7:05 PM	Carol Hett	Voting citizen	Do not redistrict at this time! Redistricting plan must be completed by a nonpartisan committee and then approved after all have had time to review the plan.
10/19/25 7:05 PM	Dr. Lauren Wagstaff		I am opposed to the motion and condone it in the strongest of terms. You do not have the right to take our votes, our voices, away, by this illegal gerrymander.
10/19/25 7:05 PM	Ms Virginiap Mattern		I do not support the redistricting plan. Sadly, I,Äôve been fighting gerrymandering since I was in my 20s and now I,Äôm 69. It is sad when we can no longer have real representation because the election outcomes have been so extremely predetermined.
10/19/25 7:06 PM	Mrs Margaret Landreth		I am opposed to the 2025 redirecting plan, because I believe it unfairly favors voters in the Republican Party over voters in the Democratic Party. I,Äôm for FAIR ELECTIONS!
10/19/25 7:07 PM	Terry Callahan		It is despicable that you, who pretend to want free and fair elections should want to gerrymander at the request of the President (or anyone else, for that's matter). Redistricting should only be done based on population numbers, not political gain. How about putting that forward. No political party should redistrict for political gain.
10/19/25 7:07 PM	Redistricting Kimberly White		Gerrymandering Is Not the American Way. Do NOT Redraw Congressional Lines. Make Elections Fair!
10/19/25 7:07 PM	Ms Elizabeth Olson		This is absurd. I am absolutely against you redistributing. You are attempting to steal elections by doing this, and as a voter in this state I will vote against ANY person who is a part of this attempt.
10/19/25 7:07 PM	Stephanie Turner		We live in a democracy. The people should decide who the politicians are. If Republicans are worried about holding onto their power without cheating, maybe reconsider your policies. Maybe consider why your policies aren't resonating with most of the state. With most of the country. Those who support redistricting just to stay in power will inevitably fail and will continue to face backlash. Stop being cowards and start putting country over party.
10/19/25 7:07 PM	Martha Curie		Democracy does not work with a one party system, which is what you are endeavoring to do by gerrymandering. Fair and equal representation,Ä¶. Thank you for reconsidering your maps.
10/19/25 7:08 PM	Activist Octavia Rainey	College. Park	I am against this Redistricting This is a Power Grab and a Power Play You should be a shame of your Party
10/19/25 7:08 PM	Redistricting unnecessary Lea Chiquito		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. This proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year,Äôs election before dropping big changes to next year,Äôs.
10/19/25 7:08 PM	Elaine Nell		This is yet another power grab by the GOP! Stop trying to silence the people of our state! I am strongly against this redistricting. It,Äôs gerrymandering again!
10/19/25 7:08 PM	Mr Willey Broaddus	citizen	I am still appalled at the last redistricting, which resulted in me, a resident of downtown Greensboro, being represented by a lady who lives in the mountains next to Tennessee. So imagine my hatred of this further political stunt y'all are doing. History will not be kind to you.
10/19/25 7:08 PM	Democracy,Äôs death James Simpson		It,Äôs reprehensible that republicans are literally stealing the government. Your policies have failed the state and the country. You know that your policies are unpopular with your constituents and rather than face the voters, you are now stealing seats and the voices of the people in the state. If this vote to redistribute goes through, the government no longer has any legitimacy. The people should vote for their representatives not the other way around. There is no mandate that the people voted for last election, the vast majority oppose the policies of trump and his administration, the theft of our healthcare to fund millionaires. The harm that it,Äôs doing to the special needs children and adults in our state. You should all feel shame, I know that I am ashamed of our representatives and now this country.
10/19/25 7:08 PM	Timothy Richards	Concerned citizen	Please think about this slippery slope, we should be able to chose our representatives as written in the constitution. You choosing your voters is not what the founding fathers had in mind. Please, please respect the institution.

10/19/25 7:09 PM	Meghan Guiney		This proposal for redistricting is not only unconstitutional but a gross misrepresentation of the voters and constituents within the state of North Carolina. The North Carolina constitution states that redistricting is to occur AFTER the return of census data and only at that time, I do not believe that the 4 previous redistricts coincident with census data either. Forcing the wishes of ONE political party to appease an individual that is not one of your voters to gain an advantage just to stay in power is not the principals of democracy. This map is a forced, faked, and a gross misrepresentation of the true voters of North Carolina who you claim to ‚Äúrepresent‚Äù.
10/19/25 7:09 PM	George Spaeth		I oppose this redistricting effort in the strongest possible terms. It is a blatant attempt to rig the election in favor of Republicans - an election that otherwise cannot be won on the merits of their actions which are opposed by a vast majority of North Carolina voters. Vote no!
10/19/25 7:09 PM	2025 Redistricting James Fortunato		We are opposing any and all planned redistricting (Gerrymandering)when the NC State Legislature reconvenes.
10/19/25 7:10 PM	Jessica Hart		I am vehemently opposed to any redistricting to give Trump's GOP and advantage in the 2026 elections. Save any updates for 2030.
10/19/25 7:10 PM	April Lee		When you have to create a map that gets your party a win because you can't win otherwise, it is a sad day for democracy. NC, a purple state, has gone from a 7-7 map, to an 10-4 map, and now a proposed 11-3 map, you are intentionally silencing the voice of the people. Your duty is to your constituents all over the state and to the US and NC, not to a political party scrambling to keep power it hasn't really earned.
10/19/25 7:10 PM	Joshua Spector		Partisan redistricting erodes public trust, silences communities, and undermines the very foundation of democracy. Every citizen, including Republican, Democrat, and Independent alike, deserves an equal voice in choosing their leaders. Manipulating district lines for political gain is not leadership; it‚Äôs corruption by another name. Countless thousands of North Carolinians stood up on 10/18/25 to declare that this state OPPOSES dictatorship and the intent to horde power. We are all watching this vote closely, and any vote in favor of this motion will label that legislator as an enemy of North Carolina's democracy and its people; we will not forget.
10/19/25 7:11 PM	Karen Searle	Retired, Constituent, zip 28787	Please do not take new actions to restrict our current access to voting. Under no circumstances do I , a resident and constituent, approve of enhancing our already horrible Republican-favored gerrymandering of districts in the State of North Carolina. I am already sufficiently underrepresented.
10/19/25 7:12 PM	Redistricting harms us Auguie Henry		Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters‚Äô ability to hold our leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition‚Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! Redistricting now is unnecessary, rushed, and costly. The public is not being given enough time to consider the proposal and discuss it with their representatives. Legislators should focus on passing a state budget instead of rushing through an unfair redistricting plan that will likely result in costly litigation. North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps. The proposed maps would dilute the political power of Black North Carolinians, ‚Äúcracking‚Äù the northeastern Black Belt into two districts. This is in direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color.
10/19/25 7:12 PM	Mr. David O'Connor	Individual	Please do NOT redistrict. It is not necessary. David O'Connor
10/19/25 7:12 PM	Ms Leanna Murphy		Dear House Select Committee -- I was flabbergasted to learn that the Republican controlled NC General Assembly is taking up re-districting in the middle of an election cycle (Early Voting is under way) and mid-decade. Democracy depends on voters choosing their elected officials, not the other way around. Republicans have STILL not passed a budget nor funded education for the current fiscal year. It‚Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS FOR NORTH CAROLINA and CERTAINLY NOT at the behest of (or to curry favor with) Donald Trump and the RNC. I respectfully ask that you immediately cease all activity on re-redistricting and focus on a budget.

10/19/25 7:13 PM	Benjamin Son		The proposed plan seeks to disenfranchise POC voters by gerrymandering the northeastern black belt. this is a blatant abuse of the districting system. it is undemocratic and dishonorable
10/19/25 7:14 PM	Shoshana Morrow		This redistricting scam is just **wrong**. Gerrymandering has always been an effort for those who want power over people !! It is essential to remain a democracy rather than a dictatorship to vote *AGAINST* this gerrymandering/redistricting!
10/19/25 7:14 PM	LTC (Ret) C G "Grey" Welborn JR	Retired	I am concerned that the proposed gerrymandering restrictions fair and equitable representation for all North Carolinians. Every citizen of our great state deserves fair and equatable representation. The slender majority of ultra conservative members in our state government must be stopped.
10/19/25 7:14 PM	Allison Wykoff		I am disgusted and disappointed that this above all things is a priority for the NCGOP. Do better. Pass a budget for the state. Stop trying to cheat your way to a win.
10/19/25 7:15 PM	Keaven Pollard		No Gerrymandering in NC!!!!!!!
10/19/25 7:15 PM	Keai Tilly		DO NOT DRAW NEW LINES!! There is zero moral reason to redraw lines. Unless you like a country ruled by a Dictator!
10/19/25 7:15 PM	Ms. Karen Hall		New maps were just updated in 2023. There has not been a huge population shift or any other legitimate reason to do this again 2 years later. Shame on those who want to jury-rig future elections in their favor. A 10 to 4 majority isn,Äôt enough for you already?
10/19/25 7:15 PM	Kyle Palacios		Dear members of the House Select Committee on Redistricting and Senate Elections Committee, Please do not jeopardize the sanctity of democracy with base desires for control and power. Recognize the fluidity of perceived mandates, especially in these trying times, and trust North Carolinians over special interests and bullies. The claim to be ‚Äúfirst in freedom,Äù does not permit the sacrifice of liberty; in your hearts, you must know this. Also, please pass a state budget rather than gerrymander. Thank you for reading. Kyle P., Wake County
10/19/25 7:16 PM	Dr. Holly McNeill		Your Gerry mandering redistricting is anathema to our constitution! Your redrawing is not reflective of the people,Äôs wants or needs. Stop trying to cheat your way in.
10/19/25 7:16 PM	Mrs. Debra Efird		The plan to squeeze the Democrats out of a Congressional seat so that the Republicans can have 11 instead of 10 is so dishonorable that it's almost laughable. If you bother to look at the numbers, there are more registered Democrats than Republicans in this state. So, in an ideal world, maps should be devised in our state so that there are an approximately equal number of Congressional seats for each of those parties, and let the Unaffiliateds fall where they may. How absurd that our legislature would even consider further unbalancing the scales! Surely the man in the White House hasn't destroyed the integrity of every single person on the House Select Committee on Redistricting and Senate Elections Committee. Please do not proceed with this plan.
10/19/25 7:17 PM	Jody Soules		You have no rights to redistrict again. You are going against the will of the people. Protect our voting rights.
10/19/25 7:17 PM	Kathryn Marsh	Retired	Do NOT follow the anti democratic step of redistricting in NC. It will only lead to more extreme politics in our future which will profoundly harm our democracy.
10/19/25 7:17 PM	Joan Higginbotham		I am writing as a concerned North Carolina resident. While our state still lacks an approved budget, time and taxpayer resources are being diverted to redraw Congressional District 1. The citizens of this state elected you to conduct the people,Äôs business; to pass a responsible budget, fund schools, address infrastructure needs, and ensure that all North Carolinians have access to the services and opportunities they deserve. Political maneuvering over district lines erodes public trust and undermines the democratic principles you swore to uphold. I urge you to concentrate on the real work, and the critical work of passing a budget and governing on behalf of ALL North Carolinians.
10/19/25 7:17 PM	Patty McIntosh		Please do your job and let the redistricting alone. I guess that,Äôs the only way you think you can win again. Do you think you cannot fairly win without it?
10/19/25 7:17 PM	No Redrawing Voting Lines Heidi Watkins		Stop complying to Trumps requests, the NC government works for the people of NC not Trump! We want fair elections & that means fair lines! By redrawing lines shows the people of NC that you no longer care about NC, you only care about staying in power, which we can vote you out of! As a lifelong NC native & resident I,Äôm embarrassed to live in a state that is trying to cheat to win. NC deserves better! NC deserves fair election districts!
10/19/25 7:17 PM	Luis Sanjuan-Cruz		Genuinely what the heck is going on with that map. This is pathetic, Republicans are going to lose the midterms and are cheating to keep that from happening
10/19/25 7:18 PM	Undemocratic Claire Fiette		The suggested redrawing of districts is a blatant undemocratic and corrupt power grab. If a party needs to gerrymander and cheat to secure a winning majority, they should rethink their policies, not move the goal posts.
10/19/25 7:18 PM	Clifford Christian	IntelligentDesignPrize.org	You are attempting to deprive us of free and fair elections and abetting the slide toward totalitarian government. Resist the pressure from Trump.
10/19/25 7:18 PM	Dallas Carpenter		This is unnecessary. Pass the state budget and make the changes for pari mutuel wagering and live horse racing.
10/19/25 7:19 PM	Donna Mccloud		I do not agree and do not support the redistricting!

10/19/25 7:19 PM	Vera Norton		This is nothing short of a brazen attack on North Carolina's voters. The GOP is trying to silence the voice of the masses
10/19/25 7:19 PM	Leisa Vincelette		I strongly oppose the plan to redistribute NC congressional maps. Redistricting should only happen after a census, not mid-decade. And certainly not to appease the president. NC voters deserve to have their votes matter. We should be choosing our representatives, rather than politicians choosing their voters. Our maps should be fair, not further gerrymandered.
10/19/25 7:19 PM	Kathryn Hertel		Stop Manipulating District Maps ,Äì Let Fair Elections Decide Dear Members of the North Carolina Senate, I am writing as a concerned citizen who believes deeply in the foundational principles of democracy ,Äî especially the right to free, fair, and competitive elections. The current redistricting efforts do not appear to reflect the will of the people, but rather to entrench partisan power. Manipulating district lines to predetermine election outcomes undermines the democratic process you were elected to uphold. It is not only a disservice to your constituents ,Äî it is beneath the dignity of your office. If your leadership and policies truly resonate with voters, then you should have nothing to fear from fair competition. Gerrymandering districts to favor one party over another sends a clear message: you fear losing, and are willing to undermine democracy to hold onto power. That,Äôs not courage ,Äî it,Äôs cowardice. I urge you to end this manipulation and commit to fair, transparent redistricting. Let North Carolina,Äôs elections reflect the will of the people ,Äî not the interests of politicians trying to protect their seats. Sincerely, Kathryn Hertel 8812 Gotherstone Court Raleigh, NC 27615
10/19/25 7:20 PM	mrs Suzanne wheatcraft	league of women voters	Do not engage in redistricting at this time. It is not fair to the voters who you serve.
10/19/25 7:20 PM	Kathleen Swinson		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 7:20 PM	Christopher Bristol		When is this session happening? And why do we need an emergency session to redraw the election map? And why has the minority party not been informed of when this will happen? Remember, voters choose their representatives, not the other way around. This session is clearly not in good faith and is undemocratic in nature. We need to be better than this. You need to be better than this.
10/19/25 7:21 PM	Laura Murray		you all are cowards, bowing to Trump if you even consider gerrymandering this state even more. You can,Äôt win fairly so you change the rules, what a disgrace.
10/19/25 7:22 PM	Jennie Rook		You are not redistricting for any other reason than to appease Donald Trump and hang on to seats you know you will likely lose. Stop trying to silence voters. Stop destabilizing democracy. You are all basically lying cheaters. How is it that the GOP has totally lost ethics, a moral compass, and basic decency?
10/19/25 7:22 PM	Theresa Mcaskill		Please do Not redraw the voting maps. This is gerrymandering and unfair.
10/19/25 7:22 PM	Armstrong Hart Pillow	individual	I am against the redistricting plan that Republicans in the State House are considering. My reasoning is that this is illegal because it prevents people who have the legal right to vote from making their vote count. This is an anti-democratice action that both parties have participated in the past in North Carolina.
10/19/25 7:24 PM	Melinda Hefner		Gerrymandering should be illegal. If politicians can't when without gerrymandering, then they have no business in politics. Make our districts fair!!
10/19/25 7:24 PM	Prof. Barbara Walls	Democratic Women of Gaston County	NC is already listed in most intro American Politics class both internationally and domestically as most extreme example of using gerrymandering to subvert Americandemocracy. With this bill you link your actions to Trump's attempted coup to halt legitimate elections. You are on the wrong side of history. Look at every attempt to deny the will of the people since the1930s. History judges those who rig elections harshly.
10/19/25 7:24 PM	Alfred Rinkerman		I am against redistricting. Gerrymandering to deny equal representation is racist and must be stopped.

10/19/25 7:25 PM	Sarah Lydon		This plan is an attempt to steal votes and undermine the entire voting system. The people should select their officials, not the other way around. Instead of cheating to get votes, look out for the interests of your voters so they will want to vote for you. This plan can't be passed.
10/19/25 7:25 PM	Standra Patterson	None	We need to leave the districts the way they are and the the way we fought for them to be. No unfair redistricting
10/19/25 7:25 PM	Dr. Danielle Koonce		If you are willing to do anything to win, then cheating is an option and this is the option that the NCGA is obviously chosen-cheating. We have real issues in NC, and redistricting is not the solution to solving some of these issues. The current legislature is capable of passing the budget, funding and uplifting public schools, expanding Medicaid, providing for our veterans, improving our mental health resources and expanding public facilities, and passing a budget. Please stop disrespecting North Carolinians by taking cues from Texas and the POTUS. North Carolina should have its own voice and own goals and missions, politically. Whatever the POTUS has touched, has backfired. Do your math and check his history. If you want to send NC on a continuing down spiral, keep following POTUS and Texas. If you want to actually restore NC, do your job and think for yourself.
10/19/25 7:26 PM	Linda Graham		The newly-proposed Congressional district plan is shameful. Your ever-increasing gerrymandering of North Carolina is wrong! When you made your oath of office, you pledged to, "Be faithful and bear true allegiance to the State of North Carolina," and to "Endeavor to support, maintain and defend the Constitution of said State." You should be centering the PEOPLE of this state, not chasing power and bowing to corruption. If you want to win another district, how about listening to the people who live there and working for what they want and need? Through democracy? Please do not vote for this new, unfair map and the continued decay of democracy which it would represent.
10/19/25 7:26 PM	Miss Bernadette Balderston		This cannot happen as it is not fair to all parties in elections
10/19/25 7:27 PM	STOP GERRYMANDERING Danielle Michael		NC is gerrymandered enough! We don‚Äôt need or want this redistricting. Stop trying to silence the voice of the people. Stop trying to cheat and steal your way into power. We ALL deserve equal representation. We are moving backwards as a country by treating only one party with favor. Let the candidates win based on merit and their ability to lead for all the people they represent fairly. Do not become spineless drones that allow power to corrupt you to your core. Do not denigrate the foundations by which our great country was founded. We are better than this!
10/19/25 7:27 PM	Nancy Sampson		I do not want continual, unfair, election redistricting. The current proposal takes more power out of the hands of voters in Eastern NC. We the People deserve a fair map that truly represents the residents and party break-downs in each district. This is an obvious powet-grab and I do not support it.
10/19/25 7:28 PM	Mr Jim Clarke	Pepperwood Stable	Voting districts should follow already established municipal and county boundaries, which would make it much clearer who an elected official is representing and anyone could easily tell who are their elected officials. Clear identity and accountability between elected officials and their constituents works both ways. Gerrymander renders many voters powerless because it creates election districts that are not representative.
10/19/25 7:28 PM	Ms Latashia Moore		There is no need to redistrict unless the lines are equal and fair. Anything else is unconstitutional and not in the best interest of North Carolina.
10/19/25 7:28 PM	Don‚Äôt bow to wannabe king Christopher Varner		Trump snaps his fingers and you republicans come running to gerrymander our election maps. You are convening tomorrow to disenfranchise your own constituents because daddy Trump told you to. Are you really going to let Trump tell you how to vote? Are you really more loyal to Trump that the people who elected you?
10/19/25 7:28 PM	M Green	Citizen	This redistricting attempt marginalized voters, effectively removes representation from impacted voters, and is a despicable power grab. This Legislature should be ashamed! THIS is not how our legislature should be spending its time when we have schools without enough funding, regions in need of rebuilding after weather devastation, citizens about to lose critical Healthcare, job losses in rural areas, and other important issues. There is history that shows what happens when those who are supposed to represent and protect their citizens abdicate that responsible out of fear, or pursuit of power. We have a civil war and two world wars to prove it. Stand for the oaths you swore and do not let North Carolina's legacy be that we were, yet again, on the wrong side of right.
10/19/25 7:29 PM	Mrs Valerie Linn		I am opposed to redrawing maps of our beloved state North Carolina at the whim of one party. It is unfair no matter which party does it. Stop gerrymandering. Win an election based on the strength of your values and how you serve the people of our state. Be ethical.
10/19/25 7:29 PM	Doug Edwards		I would urge you remove this legislation and not pursue redistricting. NC is already overly gerrymandered. The people of this state deserve fair elections and representation that reflects our citizens. Instead, this topic should be handled through an independent non-partisan organization.
10/19/25 7:30 PM	Linda Gregory		Quit drinking the orange koolaid and work for the constituents,Ä¶also do your job and pass a dangState budget!!

10/19/25 7:30 PM	Stop blatantly cheating. Carol Bonds		What a completely see through power grab. If you care about voting rights and actual fair democratic elections you will NOT redraw these maps again. Giving the GOP more seats purely based on demographic geography is a pathetic and transparent power grab that does not represent the people of North Carolina.
10/19/25 7:31 PM	Pam Bloom		NC is a purple state and the current majority is pulling a fast one with the announcement last week to bend a knee to Trump and steal another Republican seat through Gerrymandering rather than doing the work of the people, such as passing a budget. This public comment section is too little, too late IF they really want to hear the voice of their constituents. Gerrymandering isn't really a red or blue issue in the minds of most NC voters. They just think it is wrong and recent polls once again demonstrate where the people stand. If only we had real Republicans willing to do the work they were elected to do - to serve ALL their constituents!
10/19/25 7:31 PM	Mrs. Fern Cotton	Private Citizen	I am strongly against the proposed Congressional district plan. This is the fourth time since 2020 that NC legislature has redrawn the congressional districts. This is an attempt to deny the likelihood that some citizens will be able to elect candidates that represent their interests. The redrawing of these districts is a blatant plan for one political party to remain in power without being responsive to opposing interests. This is not what democracy looks like. Thank you for the opportunity to express my opinion,
10/19/25 7:32 PM	Isabelle Reddy		You were elected to serve and represent the people of North Carolina, not serve at the pleasure of the president. History will remember your crimes and you will face judgement for them. It‚Äôs not too late for you to resign, it‚Äôs not too late for you to represent your constituents and do the right thing by saying no to redrawing the lines. Stand up for your people and country. Because your party will bail on you as soon as the tides turn.
10/19/25 7:32 PM	Cheryl Williams	N/A	I am strongly opposed to redrawing the voting district maps. They were just redrawn on October 25, 2023. This is being done to gerrymander the vote to guarantee more Republicans in Congress. If the districts were fair in 2023, they're fair now. Leave them alone.
10/19/25 7:32 PM	Mrs Lonnie Sliger	Private citizen	To my NC Republican representatives: Gentlemen, you‚Äôre really pushing it. I am so tired of the state of North Carolina and its multiple gerrymandering of districts and this one because of a presidential ask. Please stand up for the people that you represent and vote NO ON REDISTRICTING.
10/19/25 7:32 PM	Mrs Debra Miller	wake county citizen and small business owner	Go back to the 2022 Interim map drawn by a mixture of professional parties to be more fair and balanced.
10/19/25 7:32 PM	Lisa Garrison		I vehemently oppose the Republicans are planning to gerrymander our state congressional map yet once again for the mere purpose to please Trump. It appears they are so scared of what the voters will do in upcoming elections they feel they have to cheat to keep their seats. As the majority on the General Assembly, if they truly cared about the citizens of NC and not just about themselves, they would spend their time coming up with a budget. This is a reprehensible move.
10/19/25 7:32 PM	Ms. Ellen Sigmon		If you are going to redraw the maps, then you need to do it so that the parties are fairly represented, because in this state there is an almost equal distribution of people registered Democrat as are registered Republican, and there are far more unaffiliated voters than either party shows. We should not be adding to the "Republican" districts.
10/19/25 7:33 PM	Elizabeth Arnold		Good evening, I am appalled that the Republican Party (of which I was a member for many years) is planning to gerrymander through redistricting to keep the majority in the hands of Republicans. It is essential to leave the districts intact so that constituents may speak up for their choices. Let's play this game fairly and without questionable methods. I am 100% against redistricting - let the voters speak for themselves - after all, aren't we a democracy? Think about it and your constituents' rights. I implore you to do the right thing for the 2025 voting process. Thank you for listening and considering who you represent. Best, Elizabeth Slee Arnold
10/19/25 7:34 PM	Jody Sherman		Changing the NC voting maps is un-American and despicable. Slanting the voting map to favor Republicans is unacceptable. Please do what's right and work with Democrats to be just and fair.
10/19/25 7:34 PM	Leslie Dillon		NO , Redistricting is only every 10 years when the Census is taken.
10/19/25 7:35 PM	Tina Insco		For the love of God please stop trying to rig elections! Cheaters never prosper!

10/19/25 7:35 PM	Raymond Helm	Individual Constituent	Major reasons not to gerrymander include ensuring fair elections, promoting political competition, and maintaining the democratic principle that voters should choose their representatives. The practice, which involves manipulating district boundaries to favor a specific political party or group, undermines public trust in the political process. Negative effects on democracy Undermines representative democracy: Gerrymandering allows elected officials to choose their voters rather than the voters choosing their representatives. This subverts the will of the people by engineering electoral outcomes that do not accurately reflect the overall vote. Discourages voter participation: When districts are drawn to be "safe" for one party, elections become less competitive, and voters may feel their vote does not matter. This can lead to lower voter turnout and a sense of disempowerment. Fuels political polarization: With less competition, primary elections can become the most important contest, pushing candidates to the ideological extremes to appeal to their party's most motivated voters. This reduces the incentive for bipartisan cooperation and compromise in government. Enables disproportionate representation: Manipulating district lines can allow a party to win a majority of legislative seats with a minority of the statewide vote. For example, in the 2012 election, Republican House candidates won a majority of seats in several states despite receiving a minority of the total votes. Reduces government accountability: In non-competitive districts, incumbents face little threat of losing their seats. This can make them less responsive to the needs of their constituents, as they are more beholden to their party's interests than to the voters they represent. Harmful impact on communities Dilutes minority voting power: Racial gerrymandering is a technique used to suppress the voting power of minority communities. By either "packing" minority voters into a few districts or "cracking" them across many districts, their ability to elect their preferred candidates is diminished. Disrupts communities of interest: District lines should, where possible, preserve "communities of interest",Äïgroups of people with shared social, cultural, or economic attributes. Gerrymandering often splits these communities into separate districts, leaving them without cohesive representation. Results in inequitable resource allocation: Redistricting can deprive certain communities of fair resource distribution by drawing boundaries based on data unrelated to community needs. Studies have shown correlations between partisan gerrymandering and inequities in areas such as healthcare access and environmental justice.
10/19/25 7:35 PM	Dr. Daniel Stancil		The vast majority of North Carolinians,Âîboth republicans and democrats,Âîoppose gerrymandering. Please act in the best interest of North Carolina and vote down the new gerrymandered maps.
10/19/25 7:36 PM	Ms Jeanne Martin	American citizen of North Carolina	I would think that the heavy turnout in this state at the No Kings protest would make it clear to you the growing opposition that Americans everywhere have to abuse of power. To further disenfranchise Democratic voters by rigging the districts in a state that everyone recognizes is already one of the worst gerrymandered, will not be soon forgotten or forgiven. Voters should choose their elected officials, not the reverse. There should be a heavy political price to pay for such cynical and undemocratic efforts to rig elections.
10/19/25 7:36 PM	Ms. Wanda Jane Burlinson		If you can't win without cheating, Republicans, you don't represent the people. God forgive me, i used to be a republican. Never more.
10/19/25 7:36 PM	Mrs Karen Davis		We need to have fair elections and voting maps. Rigged and gerrymandered maps are not fair to our voters and will end up in chaos.
10/19/25 7:36 PM	Nancy Carter		Why are you redistricting? Is it only because Trump told you to? Do you feel the Republicans can,Âôt win elections with the current maps?
10/19/25 7:36 PM	. Jessica Buck		I do not support this redistricting. I suggest focusing on completing the state budget.
10/19/25 7:36 PM	Mr Bob Kellogg	None	Precision gerrymandering is a slap in the face of a representative democracy. I would like to see North Carolina counties form district boundaries because county lines are not likely to be ‚Äúadjusted‚Äù to suit any political party. Districts could be multiple counties but they must be composed of contiguous counties. This may mean that a populous liberal county would dominate a less populous conservative county (and vice versa) if they are in the same district but this reflects who we are and where we live. We are free to move to where we want to live but politicians should not be free to change our districts to suit an ideology. No system is perfect and there may be problems with my suggestion, but it will be better than what we have now and voters and politicians alike will always know that there are stricter and obvious limitations to district boundaries. For example: NC has a population of about 11,000,000 and with 14 districts that is about 786,000 people in a district and since populous counties (Mecklenburg, Wake) already have over 1,000,000. This would be a problem with my suggestion but if politicians and the public really want to get rid of gerrymandering we can find a solution.
10/19/25 7:37 PM	Re Redistricting proposal Ray Phinney	Personal	We do not want this proposed redistricting plan passed! It will marginalize voters who need to be heard.
10/19/25 7:37 PM	Karen Allred		The GOP really needs to get their act together and stop this sycophantic bowing to the whims of their leader in the White House. We the People are beyond sick and tired of the gerrymandering and voter suppression. It's clear that Republicans can't win in fair elections so you're essentially cheating. We're already gerrymandered to death in this state! Stop the BS!
10/19/25 7:38 PM	Angela Atkins		Districts should be drawn based on geography, not manipulated based on party affiliation or race to ensure to ensure partisan results that don't truly represent the will of the people. Only independent, nonpartisan committees should draw up districts. I am sick of my home being redistricted repeatedly to dilute majority will.

10/19/25 7:39 PM	Mr Bruce Baden		I am very much against the plan to remap districts again . The current legislative mapping is very unfair to the voting population given the comparatively close difference in total republican voters vs democrats. The maps have become completely rigged and the balance of legislative seats in Raleigh is not reflective of the voting population. I am in complete disagreement with this latest redistributing plan.
10/19/25 7:40 PM	Wendi Brant		Gerrymandering is wrong. What you are doing is wrong. Playing into Trump,Äôs demands is evil. Stand up for the NC citizen, those who are going to be without healthcare or food benefits very shortly. And for Pete,Äôs sake, tell all the freakin,Âô representatives when you,Äôre holding session. You guys are being children. Can,Äôt wait to vote you out.
10/19/25 7:41 PM	Ms Sharane Sherman		I implore you to not redistrict outside of the normal timeline. You have a duty to all citizens and we will remember.
10/19/25 7:41 PM	Sarah Mir		I oppose the redrawing of our district maps. Thank you.
10/19/25 7:41 PM	Ms. Blandy Fisher		NC is already ridiculously gerrymandered. A vast majority of North Carolinians, Republican and Democrat, disapprove. This corrupt legislature is kowtowing to a president who is performing illegal and unconstitutional acts at every turn. We will do everything we can to vote all of you out in the next primaries if you do this. I am a Democrat, but I will go to the rural counties and encourage Republicans who are not beholden to this corruption to run for office as Republicans.
10/19/25 7:42 PM	Redistricting Micah Bailey		Elections should be decided by the people, not politicians who manipulate voting maps. This is nothing more than an attempt by the GOP to silence North Carolinians. If they want to win elections, run on issues that matter to us.
10/19/25 7:43 PM	Maryjane Conti		North Carolina is a purple state, and our representatives in Congress should reflect that. This mid-cycle redistricting is blatant gerrymandering and is antithetical to representative government. The NCLEG should be passing a budget and working for the people of North Carolina, not bowing to the whims of President Trump, a convicted felon.
10/19/25 7:44 PM	Sabrina Sales		Redistricting our maps is stealing votes!! Every persons vote should count and Redistricting infringes on our democratic rights!!!! Stand up for your citizens instead of bowing down to billionaire who doesn,Äôt give 2 shits about any of us!!!!
10/19/25 7:45 PM	Mary Rutherford	I am a private citizen in North Carolina	I am a North Carolina voter. Please act with integrity concerning the redrawing of congressional maps in North Carolina. Voters deserve transparency and a voice. I am one small, hardworking citizen but nevertheless deserve to be fairly represented. Please take our state motto, "Esse quam videri" - "to be rather than to seem", to heart by emphasizing authenticity and integrity over the mere appearance of serving the citizens of our state.
10/19/25 7:46 PM	Dr. Amy Fowler		This is outrageous dereliction of duty to serve North Carolinians rather than your selves and your political party.
10/19/25 7:47 PM	Debra Ireland		It's telling that politicians have no faith that their policies are popular if they feel the need to rig voting maps for a guaranteed outcome in their favor. North Carolinians across the political spectrum oppose gerrymandering, and yet North Carolina Republican legislators think they can't win without it. At some point, North Carolinians will be fed up enough to vote for candidates who oppose gerrymandering if you push them far enough. This latest capitulation to an insecure and unpopular president goes to show that North Carolina Republicans are simply puppets who are more interested in appeasing the figurehead of the party than they are in heeding the will of the people they're supposed to represent. Shame on any North Carolina legislator who votes for the proposed redistricting.
10/19/25 7:49 PM	R. Anderson		It,Äôs amazing that our legislators have failed to pass a budget, but move at light speed when Trump demands a gerrymandered map. Does the GOP have any integrity? Have you all sold your souls to worship at the altar of Trump? Remember, all will have to give an account to God for your actions. T
10/19/25 7:49 PM	Voters should choose reps Kerry Bettenhausen		It is shameful that the GOP of NC is trying to steal seats through an unrepresentative gerrymandered map! Voters should pick their reps, not the other way around. This is a 50:50 state and we should have a split representation and not a GOP supermajority. This is truly abhorrent.
10/19/25 7:50 PM	Laura Blythe-Goodman		I,Äôm deeply concerned that legislative leaders are spending time on new congressional maps instead of finalizing the long-overdue state budget. 84% of NC voters, including me, believe that partisan gerrymandering is wrong and undermines fair representation. Stop wasting time manipulating district lines for political gain. North Carolinians deserve fair, competitive maps,Äînot another partisan power grab. Voters should choose their representatives, not the other way around. Do not support redrawing the voting maps yet again.
10/19/25 7:50 PM	Mrs Lacy Stone		Do not allow this administration to tell you how to vote. Announce the scheduling and do this the right way. History has it,Äôs eyes on you.
10/19/25 7:50 PM	Matthew Haskell		The gerrymandering efforts you,Äôre undergoing are undemocratic and anti-American. Reducing representation while maintaining taxation is EXACTLY why we threw the tea into the Boston harbor. If you have to cheat to win, you,Äôre just a loser. Be better.
10/19/25 7:50 PM	Trump,Äôs gerrymandering Kerri Shiflett		I am outraged. This situation is unprecedented; redistricting takes place every 10 years after a census. Trump is trying to get Republicans to pull out all the stops to keep control of the house. If this was legitimate the public would have been given more information in advance. NC Democratic reps should be informed regarding this matter. If you want my vote in the future it,Äôs time to stand up and uphold the U.S. Constitution and the rights it gives Americans. No sneaky redistricting when Trump thinks no one is looking. Do it correctly, or don,Äôt do it at all.

10/19/25 7:51 PM	NO REDISTRICTING Rosamaria Rosa		Trump snaps his fingers, and NC Republicans come running - even while withholding FEDERAL MONEY from people needing help from natural disasters. Now youre allowing Trump to force yall to redraw congressional maps because he told you to. HOW IS THIS FAIR? WHAT HAPPENED TO MERIT? HONESTLY? TRANSPARENCY???? Then to be told that senate Democrats still haven,Äôt even been told when the session starts..... YALL ARE SHADYYYYYY AND COWARDS IF THIS IS HOW YOU SECURE A WIN FOR THE GOP
10/19/25 7:51 PM	Ms Beth Pensiero	Self	The plan to redistrict NC is horrible. This is a dishonest ploy to rig our elections and to silence the voices of the citizens of this state. You should be ashamed to think of it.
10/19/25 7:51 PM	Rachel Anthony		I am very concerned that redistricting will not accurately reflect the population and views of the residents of North Carolina. Do not redistribute the voting lines to meet the demands of the president. Meet with your constituents and make sure you represent the views and rights of all those you are elected to represent. To do otherwise is cowardly action.
10/19/25 7:51 PM	Judy Carter		This redistricting is a sign that the Republican legislators in our state are corrupt/scared. They are dragging themselves i n tomorrow to redraw district maps per Trumps mandate so that they can rig the election. Trump says jump and they ask how high What they are doing is the lowest form of corruption. I respectfully demand that this be stopped. Millions of us marched yesterday; it was our collective civil voices that demanded our state and federal Republican legislators STOP kissing the backside of the MAGA Monster in the White House and serve we the people like they were elected to do. DO NOT GERRYMANDER OUR DISTRICT MAPS!!!!!!!
10/19/25 7:52 PM	Ms. Lynne Kane	retired	It is outrageous that NC would even consider another non-decade redistricting. Avoid unfair discriminatory actions and leave well enough alone.
10/19/25 7:53 PM	Stephanie McGuire	none	This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020 and another is not indicated at this time. The public is not being given enough time to consider the proposal much less to discuss the impact with their representatives. More timely would be for the legislators to focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. Democracy depends on voters choosing their legislators rather than legislators fixing boundaries to insure their desired results.
10/19/25 7:53 PM	Carly Borchelt		Republicans redrawing congressional maps to entrench their political power isn,Äôt just a breach of democratic norms ,Äî it,Äôs an ethical disgrace and a constitutional perversion. When a party manipulates district lines to effectively choose their voters, rather than allowing voters to choose their representatives, they undermine the very foundation of representative democracy. This is more than politics-as-usual; it,Äôs a cynical power grab that corrodes public trust and suppresses fair competition. Ethically, this practice disenfranchises entire communities, especially those of color or with opposing political views, silencing voices through surgical precision. It,Äôs a calculated assault on pluralism and political equality ,Äî principles that are supposed to be sacred in a democratic republic. Constitutionally, extreme partisan gerrymandering clashes with the Equal Protection Clause of the 14th Amendment. The Supreme Court has dodged the issue in recent years, but that doesn,Äôt make it right. Voting rights should not depend on zip codes carved to protect incumbents or a party's dominance. If Republicans ,Äî or any party ,Äî are so afraid of a fair vote that they have to rig the maps to win, they,Äôre not governing like Americans. They,Äôre governing like authoritarians. Frankly, turning the United States into a one-party system through manipulation and repression isn,Äôt clever strategy ,Äî it,Äôs a pathetic imitation of North Korea, minus the honesty about the dictatorship.
10/19/25 7:53 PM	Jeremy Hume	Personal	As a citizen of NC for over 25 years, I do NOT support the redistricting of NC. This should not have been allowed to happen in other states and I cannot stand behind my state taking actions in the direction of supporting the efforts of a president that does not hold up the constitution of the United States. The actions of our president and the existing administration are not acceptable. The seeming acceptance of speaking lies and bullying people will effect my vote and the vote of everyone I currently know in my life, the administration of the fine state of NC would do well to keep this in mind in matters that continue to support the untrustworthy actions of the GOP in DC these days.
10/19/25 7:53 PM	Ms Katherine Welch		I sincerely and vehemently ask that you NOT SUPPORT this redistricting plan. Please do not allow this unnecessary change to further limit voters and reduce the already precarious belief that voting is valid and the very fabric of democracy.
10/19/25 7:53 PM	Ms Bari Lawhorn		Leave the election maps alone.
10/19/25 7:54 PM	Mr David Starnes	N/A	Gerrymandering rewards extreme politicians from both sides by creating districts won in a primary, not the general election, That inhibits competition, which has been one of the pillars of this country,Äôs greatness. It encourages corruption by insulating elected officials from accountability. I firmly oppose gerrymandering as a corrupt and dangerous political practice. Gerrymandering abandons our country,Äôs core values in the name of political expediency. Don,Äôt do this.

10/19/25 7:54 PM	Ms. Grace Meeks		I am a registered Republican and very disappointed that my ‚ÄúTeam‚Äù is trying to do such redistricting at the last minute for political gain only. This is not the fair and equal type of districting that our state needs. This is not going to bring unity to our state or lessen the reality of how political greed and grandstanding is ruining our beautiful state. Please do not change the districts and cause any delay in the upcoming election that is less than a month away! Thank you, and please return my confidence in the Republican party platform as it is stated because it is not being practiced currently.
10/19/25 7:54 PM	Ms, Cheri Elliott		Pursuant to the North Carolina State Constitution, Article I, Declaration of Rights, Section 2, Sovereignty of the People, ‚ÄúAllpolitical power is vested in and derived from the people; all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole.‚Äù The NC Republican scheme to perform a mid-census redistricting of District 1 is a naked attempt to steal another congressional seat at the request of President Trump.He fears that in a fair election, a nationwide backlash to his unpopular policies will cede control of the House to the Democrats. Therefore,he plans to cheat, and the NCGARepublicans are willing co-conspirators. Every member of the NCGA has sworn to uphold and defend the NC State Constitution. This deceitful bill violates Article I, Section 2 of our state constitution; that is,itis not for the good of the whole.
10/19/25 7:54 PM	Martha Svoboda	Retired Attorney	STATISTICS: Republican Donald Trump won NC in the 2024 Presidential race by less than 200,000 votes (less than 3%), yet Democrat Josh Stein won the NC Governor‚Äôs race in a landslide. Although the original 2020 Congressional maps were split 50/50 between the parties (prior to the 2023 maps that were suspiciously allowed to take effect once Senate Leader Berger‚Äôs son took a seat on the NC Supreme Court), this new map will result in a possible 79% representation of NC by Republican US House members,√Ïfar more than the 31% Republican registration rate among NC voters. Additionally, the latest Reuter‚Äôs poll revealed that 87% of registered NC Democrats and 78% of registered NC Republican OPPOSE gerrymandering. A key tenet of representative democracy is that voters get to choose their representatives, rather than representatives cherry-picking their voters. Such gaming of the system results in: governing principles that are unpopular with and detrimental to the best interests of constituents (resulting in a nanny-state perspective that is imposed by the representative,√Ïsomething Republicans traditionally oppose); silencing voters to ensure a predetermined outcome, and A WASTE OF TAXPAYER DOLLARS to redraw and then implement ever-changing boundary lines as voter registrations shift within the state. Furthermore, an enumerated principle of our nation‚Äôs founding is ‚Äúno taxation without representation.‚Äù I already feel like I should sue for a refund of my taxes, given my newly gerrymandered district in 2024 that leaves me completely without a say in the US House of Representatives. If the turnout and enthusiasm of yesterday‚Äôs No Kings rallies in NC,√Ïincluding those in traditionally ruby-red areas of the state,√Ïindicates anything, it‚Äôs that North Carolinians prefer democracy over dictatorship. Furthermore, the fact that the sole impetus for this vote is because King Donald promised Senate Leader Berger quid-pro-quo assistance in his highly contested upcoming race, is extremely troubling to those of us who have been disgusted by Trump‚Äôs recent AI-generated video of his Kingship dumping shite on US citizens participating in the most elemental form of democracy, which was then followed by VP Vance‚Äôs AI music video of Trump wearing a crown and royal robe, and then pulling out a sword to wield over his subjects while they bowed at his feet. Such is the behavior of a middle school bully, not the proper decorum for the supposed leader of the free world. To acquiesce to a quid pro quo request from Bully King Trump paints NC Republicans in the worst possible light and makes me ashamed of my state‚Äôs political leadership.
10/19/25 7:54 PM	Elizabeth Kostova	Author	The new redistricting ‚Äúplan‚Äù is un-democratic and just plain un-American. Please VOTE AGAINST this violation of our country‚Äôs proud democracy!
10/19/25 7:55 PM	Kathryn Seel		I am wholeheartedly opposed to the current Congressional redistricting plan to be voted on tomorrow. It is my firm opinion that, first of all, it should not be done outside of the normal every 10 years following the census. Secondly, any redistricting should be done by an independent entity, rather than by one political party, for the purpose of creating an advantage for themselves. NC voters need to know that their votes will be counted fairly.
10/19/25 7:58 PM	Rigging future elections Trudi Tuinstra		For a party that has screamed from the rafters about a 2020 rigged election it is abhorrent that you plan to cheat the citizens of North Carolina of a free and fair election in 2026 and more elections moving forward. Gerrymandering should be forbidden full stop. The citizens of US deserve to be fairly heard and to have representation that reflects the true will of the people.
10/19/25 7:58 PM	LJ Stewart		I ask you not to redistrict We The People Fir The People
10/19/25 7:59 PM	Michelle deLaurentis		Do NOT touch our districts!!!
10/19/25 7:59 PM	Dr hendey hostetter		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It‚Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.‚Äù

10/19/25 8:00 PM	Kimberly Lamm		As a proud citizen of North Carolina, I am dismayed that the NC legislature is once again gerrymandering the state's maps. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters.
10/19/25 8:00 PM	Ms. Melissa Jordan		Dear Republicans in Congress, Please stop spending valuable resources on gerrymandering and pass a state budget that provides state employees with a cost of living increase for this FY. State employees are currently being left in the dark without as much as a nod by state government. In a period of steep inflation, state employees are losing every day that passes. This proposal is shameful in that it is attempting to steal future elections and doing so at a time when there is other serious work to be done.
10/19/25 8:00 PM	Ms. Erika Bowman		All NC voters deserve for their vote to matter. If the parties were reversed, would you really think this map was fair? I am opposed to redistricting at this time and with these lines.
10/19/25 8:00 PM	Barbara Stalzer		I find it hard to believe that anyone with any sense or values would do the bidding of Donald Trump. He instigated an assault on the capitol on January 6 2021; he is now using his office to profit himself and his family; he is a convicted felon; a racist; an abuser of women; and he wants to destroy democracy and everything that is good about this country. He wants to enlarge his power and deprive citizens of their right to vote. The NC legislature at the very least needs to pass on redistricting- otherwise we will be heading for another War Between the States.
10/19/25 8:00 PM	Judith Thornton	Self	Once again the Republican legislators are subverting the will of the people and ignoring the Constitution of NC! We will see you in Court or at the ballot box in 11/26!
10/19/25 8:00 PM	Frances Walton		I‚Äôm writing to oppose attempts to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around.
10/19/25 8:01 PM	Kathleen Sloan		I am deeply concerned about the possibility of more redistricting at this time. The effort appears to be extremely partisan. It would impact fair representation. I am in a district in Greensboro which was recently gerrymandered and I no longer feel it is possible to be represented. Voters, not politicians, should choose their representatives.
10/19/25 8:01 PM	Justin Starnes		I do not support gerrymandering in NC or anywhere else in the country I think it is UNDEMOCRATIC & suppresses voting. It encourages CORRUPTION & is absolute UNACCEPTABLE for our state. Thank you for your attention to this matter.
10/19/25 8:02 PM	Gena Thomas		You are trying to rig our maps and silence our voices. NO!!!!!!!
10/19/25 8:02 PM	Joseph Beamon		North Carolina is already one of the most Gerrymandered states in the US to benefit Republicans. The Supreme Court has already thrown out the previous maps utilized, and this map will only be more polarizing. This is bending the knee to a false king, and we are a Republic.
10/19/25 8:02 PM	Cathy Birmingham		Please stop gerrymandering. Let people pick their representatives, not vice versa. Please create districts that make geographical sense. Maybe democrats started it, but that doesn‚Äôt make it right to continue with republicans making it worse. Two wrongs do not fix the political divide.
10/19/25 8:02 PM	Teresa Gay		I am speaking up about the redrawing of our congressional districts. People need to be able to vote confidentially. These changes will make it more difficult for people, especially people of color.
10/19/25 8:03 PM	Mr. Richard Vanderveen	New Hope Presbyterian Church	Dear North Carolina Legislator: I hear that on Monday October 20 at 10 am you will be meeting with other North Carolina legislators to redraw the election map for our great state to benefit the Republican Party and President Trump. As a matter of conscience and fair treatment, I urge you not to do this. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,‚Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better!
10/19/25 8:03 PM	Jamie Smitheran		No way! We are paying attention and will not allow our votes to be stolen by your shady tactics!
10/19/25 8:03 PM	Kelly Edwards		Absolutely against this! You represent the people of this state. Not the president!
10/19/25 8:03 PM	Roger Seel	NGFM Friends-in-Action	Reassignment of US House districts should be done only after the US census determines a change in the number of House districts that will be allotted to our state, and then only by a non-partisan commission charged with drawing boundaries for efficient coverage by our elected Congresspersons.

10/19/25 8:04 PM	Ms Deanna Thompson		I am appalled that you are redistricting at this time to ensure another Republican seat at the behest of Donald Trump. We the people deserve better. How can you take away my and my fellow North Carolinians,Äô rights to a fair election in this way? I implore you to stop this travesty.
10/19/25 8:04 PM	Jill Cozzi		I am writing in opposition to the NCGA's plan for mid-cycle redistricting. There is absolutely no reason to redistrict in the middle of the cycle other than that it is what President Trump wants. Do our representatives represent the people, or the president? What other reason do you have for doing this? Those of us who are not Republican have a right to have our voices heard. I was born in this state. I live here, I pay taxes, and while I recognize that the opposition is the minority currently (largely due to the LAST gerrymander), that does not mean we have no right to be heard. You have refused to even tell the opposition what time the session is taking place. Why do you fear honest representation? Are you afraid that people don't favor your agenda and that you can't win in a fairly-districtged election? You were elected to represent the people of North Carolina, not to blindly do the bidding of a 34-count convicted felon that this country was foolish enough to give a second term.
10/19/25 8:04 PM	Mrs. Tracy Harper		I have lost all faith in the Republican party due to this and changed my voter registration. I will NEVER vote Republican again. This isn't political leadership. This is bending the knee to Trump. Our democracy is gone. MAGA killed it. This is not the Republican party anymore. It's yes men who know that Trump's policies are so unpopular he can't win the midterms. By redistricting, you are suppressing the voice of your constituents. Disctricts lines should be chosen by a nonpartisan committee to truly reflect North Carolina values. No party should have control over it. This is a dangerous path.
10/19/25 8:04 PM	Noah Spencer		Please have some integrity and do not follow through with this plan. If you are a patriot, you will not even consider undermining our system like this. If you believe in your policies, you would want them tested in the fairest process possible. Please do not read this as naive. Patriotism is, by its nature, naive, but this does not make it obsolete. Please be better than this corrupt plan.
10/19/25 8:04 PM	Sarah Duval	Private citizen	NC is a purple state and as such it doesn't need your red claws shredding communities into districts that make no sense other than to take away the power of citizens votes.
10/19/25 8:05 PM	Toby Ives		This is highly unethical and goes against the will of the people. Have you forgotten who you work for? Hint: It is not donald trump.
10/19/25 8:05 PM	Ms Melissa Tuttle		I am writing to let you know that I oppose this Redistricting. Redistricting is the wrong word for what you're doing. You are stealing the will of the people from them and giving it to Trump. You are eliminating democracy. Don't do it.
10/19/25 8:06 PM	Redistricting Roger Wilson		just another way to create an unfair and rigged election.
10/19/25 8:06 PM	Ms Kathleen Novak		Dear Legislators, The proposed Congressional district plan for NC is an abomination since NC was already redistricted twice since 2020. Redistricting is done every 10 years. This is blatant discrimination promoting the racism that is inherent in the Republican Party. The dilution of the political power of Black North Carolinians is the obvious goal here. We know what is happening and it is abhorrent. Pass a state budget instead of messing with the 2026 mid-term elections, especially since we are in the midst of local elections now. Please do the right thing and promote fair electoral maps. Sincerely, Kathleen Grib Novak 2929 Pullen Dr Leland, NC 28451
10/19/25 8:06 PM	Sarah Friedman		You shameful cowardly weasels! Every last one of you are a disgrace. Where the hell is a state budget? That's the ACTUAL work that needs doing. Not licking Trump's boots. How dare you fail your Oaths to North Carolinians. Gerrymandering has to end. Period. If you actually did a good job you would have nothing to fear.
10/19/25 8:06 PM	Billie Wells		This redistricting is a horrible precedent. In the distant past, Democrats have also gerrymandered. Now Republicans are proposing to gerrymander to ensure a seat. Whether it's done by a Democrat or Republican, any redistricting must be done by a nonpartisan panel. This equates to stealing our voice and our future. We need fair elections, and whether a Democrat or Republican wins an election, it needs to be fair. Do Not redistrict. As proposed, it is unfair and un-American.
10/19/25 8:06 PM	No to GOP redistricting Katrina Henderson	NC resident and registered voter	The fact that NC GOP leadership has scheduled a session to vote on redistricting according to Diaper Don,Âôs demands, and NOT TELLING Democratic Party legislators where the session will be held or what time it starts is an OUTRAGE. This kind of sneaky business is utterly amoral. NC GOP: YOU WORK FOR THE RESIDENTS OF NORTH CAROLINA, NOT DONALD TRUMP. North Carolina is a demonstrably ,Äúpurple,Äù state. Our representation at all levels of government should reflect that. Voters should not be gerrymandered into districts that will miraculously vote Republican when that is not a true representation of the will of the people. NC GOP: you should be ASHAMED of yourselves. The people of NC are sick of your shenanigans.

10/19/25 8:07 PM	Diane Hutt	Dear NC lawmakers As a native of WNC, I oppose the redistricting proposal. It is unlawful and an unconstitutional misrepresentation of the sentiments of North Carolinians as a whole. This is gerrymandering at its absolute worst. We must put a stop to this. Thank you Diane Hutt
10/19/25 8:07 PM	Lynne Trussell	North Carolina Republicans are reprehensible. You have consistently maneuvered your way to power. The state is mostly an even split but you have managed an unfair advantage in the courts and state and national legislatures. We are one of the two most gerrymandered states in our country. It is embarrassing to admit that I live in North Carolina. to power
10/19/25 8:07 PM	Tracy Hixson	Against redrawing maps to illegally win elections!!!
10/19/25 8:08 PM	Rebecca Falls	Dear Committee Members, I‚Äôm writing to oppose attempts to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around. Legislators should focus on passing a state budget instead of rushing through an unfair redistricting plan that will likely result in costly litigation. North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps. The proposed maps would dilute the political power of Black North Carolinians, ‚Äúcracking‚Äù the northeastern Black Belt into two districts. This is in direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color. Thank you for taking my comments into consideration on this extremely important matter. Rebecca Falls
10/19/25 8:08 PM	Denise Ceneviva	This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. It will also dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the "cracking" of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and brown voters.
10/19/25 8:08 PM	Barbara Dunn	Not in favor of redistricting. Obviously a part of Trumps plan to take over all our rights & choices. We have to stop him.
10/19/25 8:08 PM	Miss Anne Zengerle	Please support us in crushing the GOP 's redistricting plan . This show favoritism and not fairness. Thank you for your dedication in keeping the great state of North Carolina in giving a voice to all!
10/19/25 8:08 PM	Shelly Peterson	Any redistricting done to the state of North Carolina should only be done by a nonpartisan, independent redistricting commission in an effort to not unfairly represent the people. The people should choose their representatives not the other way around. If you‚Äôre so great, then win on a fair map. People will have more faith in you if things are done as fairly as possible, otherwise you are viewed as a bunch of cowards.
10/19/25 8:09 PM	Ms. Robin Hammond	Republicans, quit cheating to keep your legislative seats. We need free and fair elections in North Carolina. When we get them you will be out of power.
10/19/25 8:09 PM	Travis Tolka	Stop the steal. We know that you are trying to steal the state for Trump. We will not stand for this action.
10/19/25 8:09 PM	Independent Redistricting Jessica Caldwell	If you truly believe your ideas are what NC wants, you won't be afraid of establishing a nonpartisan redistricting commission. If you don't support an independent commission, you must realize you're not very popular to begin with.
10/19/25 8:09 PM	Alexandra Fert	North Carolina‚Äôs maps are already severely gerrymandered to favor republicans. You are not adequately representing the people who live here in NC and it‚Äôs a shameful power grab to reach for another seat just because Trump demanded it. Who do you work for? Trump or your constituents? Represent us,¶all of us!
10/19/25 8:10 PM	No on Redistricting Plan Holland Youngman	Please do not carry out this redistricting proposal, as it serves to disenfranchise voters and erode the democratic process. Such schemes undermine the foundational principle of representation in our country and weaken our governmental and social system.
10/19/25 8:10 PM	Teresa C.	All Americans deserve a voice in their government. The Republican Party is taking our voice away from us in their redistricting plans to favor Republican candidates. This also amounts to taxation without representation, since the US Congress and the NC legislature controls the purse.

10/19/25 8:11 PM	Ms. Betsy Finger		I hear that you legislators plan to meet Monday Oct. 20 at 10 am. I conscientiously oppose re-districting for the following reasons. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation Redistricting now is unnecessary, rushed, and costly. The public is not being given enough time to consider the proposal and discuss it with their representatives. Legislators should focus on passing a state budget instead of rushing through an unfair redistricting plan that will likely result in costly litigation. North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps. The proposed maps would dilute the political power of Black North Carolinians, ‚Äúcracking‚Äù the northeastern Black Belt into two districts. This is in direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color.
10/19/25 8:13 PM	Kathleen Stinehelfer		I vehemently oppose another redistricting!! I was very surprised to find out that I had been assigned to a different district in 2024. The only reason for redistricting NOW is for you to restore the former districts that truly represents all voters in North Carolina. The voters are to select our representatives, not the representatives selecting their voters!!
10/19/25 8:13 PM	K. Tully		As a NC citizen, I do not agree with any redistricting. I do not agree with rushed votes, secrecy amongst any party, or any member of my state legislature putting directives from shady politicians in DC ahead of the wellbeing of NC citizens. We demand that you prioritize transparency to all members of the NC house and senate and allow for public input in this matter. We must maintain our integrity and protect our Democracy from those who would destroy it.
10/19/25 8:13 PM	Marcy Bauer		NC is already almost criminally gerrymandered, and now you‚Äôre looking to make it even worse, for the sole and stated purpose of further disenfranchising huge swaths of voters to shore up power for one party over another, the will of the actual voters be dammed. It‚Äôs completely un-American what you‚Äôre trying to do here. Veterans like me signed up to protect and defend the Constitution, and you trample on it and our service with moves like this. You should be ashamed of yourselves for even conceiving of this idea much less executing on it. Find your morals and knock this stuff off.
10/19/25 8:13 PM	Jessica Spencer		The proposed North Carolina Congressional Redistricting plans deeply concern me not only as a citizen, but as someone who values the principles of fair representation and genuine democracy. Gerrymandering, which is evident in these new maps, undermines the very foundation of public trust in our electoral system. It isn‚Äôt just a technical or partisan issue...it‚Äôs about whether every neighbor in our community feels their voice matters. These plans divide natural communities, split cities and even neighborhoods, and dilute the voting power of entire groups. This isn‚Äôt an abstract harm. It means families with common concerns (e.g., access to good schools, safe roads, clean water, and local jobs) can find themselves represented by officials from outside their communities, who may not understand or fight for their needs. The real-life impact is that people feel more distant from their government and more frustrated by the ‚Äúsystem.‚Äù That‚Äôs how cynicism sets in and people disengage. We can see that happening already. Democracy should be about neighbors having an equal say in deciding who speaks for them. Instead, these maps seem designed to entrench power by manipulating boundaries, which feels unfair no matter your political beliefs. If the process is transparent and genuinely non-partisan, then confidence in our institutions can be restored, and faith in electoral outcomes can be rebuilt. All of us want to believe that elections are fair and that our vote truly counts, not that lines are drawn to predetermine an outcome. We all deserve a process that puts voters first, not politicians. It‚Äôs time to adopt independent, community-driven redistricting that reflects the true makeup and spirit of North Carolina. Reject these proposed maps. Start over, with public trust and fairness as your guiding priorities. That‚Äôs the kind of democracy North Carolina deserves.
10/19/25 8:13 PM	Ms Marisa Munoz		Gerrymandering another district in North Carolina is outrageous, and an absolute disgrace. You can't even agree on a budget for our state, which you are Legally Obligated to do, and yet you're voting on this nonsense. Enough of your bowing to that Orange Felon and do your job for the people of North Carolina.
10/19/25 8:15 PM	Kimberly Hill		Any necessary redistricting should be done by an impartial 3rd party, not by the political party that happens to be in the majority at the time.
10/19/25 8:15 PM	Mr. Terrence McCormick	n/a	We are TIRED of your cheating via gerrymandering. If it was fair and 'one man, one vote', the house seats would be split EVENLY. Now you want to CHEAT HALF OF NORTH CAROLINA'S CITIZENS of representation? OUT of the standard 10yr cycle? A pox upon your house!

10/19/25 8:15 PM	Sonya Armistead		I do not approve of the NCGA redrawing maps yet again to favor one party over another. Constantly changing maps not only causes confusion, but disenfranchises citizens as well. As a life-long North Carolinian I believe that voters should elect their legislators, not the other way around.
10/19/25 8:16 PM	Ms Ashley Johnson		We need a budget. Do not further gerrymander our districts. Government works best when there is a more equal balance of party representation. And PASS A BUDGET.
10/19/25 8:16 PM	Karla SCHMIDT		I do not want any attempt made at redistricting. This is totally unacceptable and I will vote every representative out who votes to approve this.
10/19/25 8:17 PM	Ms Margaret Villani		I live in Guilford Count where people identifying as white are the minority. The General Assembly has divided Guilford County into three districts each of which is representative by a white person. The dominance of a minority population over the majority will continue under the proposed map. Voter suppression of people of color has a long history in this country. Under this map people of color will not have enough representation in Congress to press for legislation that will protect their civil rights. And that is the purpose of this gerrymander. African Americans have led the way on civil rights legislation that has benefited people of all backgrounds. The press has reported that President Trump requested that North Carolina redraw its congressional legislation so that his agenda may continue, an agenda which up to now has been a horrendous exercise of xenophobia. Polls show that most people do not want to turn this country into a white supremist national Christian theocracy. President Trump now acknowledges Project 2025. Pres. Trump,Äôs implementation of Project 2025 recommendations has left agencies without the capacity to fulfill their functions. The Trump Administration has implemented measures such as reducing clean air and water regulations, decreasing funding for scientific research, and limiting meat plant inspections and consumer protection initiatives. These actions have affected the government's ability to serve its citizens effectively. We have ICE agents, masked and heavily armed, terrorizing the people by their use of excessive force. We are facing the prospect of the President deploying the National Guard to attack the enemy, defined as persons or organizations that oppose fascism. As a niece of a US soldier who died in 1942 while fighting fascism in France, I find this shocking. The decision you make about these maps will decide whether we remain a country where people of diverse backgrounds can come together to find solutions that promote the common welfare and provide for the common defense or we turn the country into an authoritarian state complete with secret police.
10/19/25 8:17 PM	Maria Winn		These maps are outrageously gerrymandered, even by NC standards. They are a disgusting attempt to take away the will of the voters in a purple state. Gerrymandering should be illegal no matter who is attempting it, but this is clearly a GOP effort to silence the anti-MAGA voices of over half of North Carolinians. Every one of you already knows this though. So my comment is merely to say we see what you are attempting, we are paying attention, and we will fight for the democracy Republicans are trying to dismantle in plain sight.
10/19/25 8:18 PM	Tyese Gabriel		I do not agree with redistricting. There are other concerns that are far greater than this. Please do not redistrict North Carolina.
10/19/25 8:18 PM	Mr Vincent Costanzo	n/a	Donald Trump won our state 50.9% to Harris' 47.6. Our President's 3.3% margin of victory is not a mandate to further gerrymander NC house districts beyond the 10 seats the GOP already holds of 14 total (71% R to 29% D). If anything, it suggests the current gerrymander is too extreme. Redistricting now - midway between censuses - is totally wrong headed. Why is our state legislature not wholly focused on passing a state budget bill? Why should the NC GOP seek more responsibility when it is unable to execute its current responsibilities?
10/19/25 8:18 PM	Mr. Ronald Joyce		You know as well as I do that the re-redistricting efforts taking Republican leaning and controlled states are a travesty, and if allowed to proceed with any measure of success will only result in the further unraveling of everything the country and its founders stood for. Shame on any member of the NC General Assembly who thinks they should be allowed to escape unscathed from such ill conceived support of the most unqualified person ever to hold office in the White House. You are no better than the oligarchs, billionaires and filthy never satisfied uncaring clods whose actions will disenfranchise the very class of people who once made this country great. The idea of MAGA is nauseating. Project 2025 may as well be the design for the fall of the Roman Republic all those centuries again. Find a conscience and oppose further Gerrymandering efforts. You will be the death of our state.
10/19/25 8:19 PM	Mr Nathan Johnson		This seems like egregious gerrymandering and does not look good or serve the greater good. Let the people pick their votes, not the votes pick the people.
10/19/25 8:19 PM	Katie Leiva		I fervently oppose the proposed redistricting that favors the GOP. Any redistricting should be done in a fair, non-partisan way, with nonpartisan oversight. The fact that the GOP isn,Äôt even letting the Dems know when the vote may come is rude, disrespectful, and cowardly. To try this now, during early voting, is a distraction from the election at hand. Don,Äôt do it. You know better.
10/19/25 8:21 PM	Nicholas Lehman		Please do not move forward with redistricting. It is ridiculous and unnecessary to change maps in the middle of the decade. You are not representing the people of North Carolina by doing this. The people of North Carolina are not asking for this. This is nothing more than a partisan power-grab. Please spend more time listening to the people of North Carolina rather than taking orders from Washington.

10/19/25 8:21 PM	Mrs Renee Hayes		I am completely opposed to the redistributing being proposed in advance of the 2026 midterm elections. I am fully against gerrymandering of voting maps at anytime in NC. Each legislator pledged to uphold the NC Constitution when he/she were sworn into office. Failing to do so betrays the civic duty they owe to the constituents they were elected to represent.
10/19/25 8:21 PM	Alissa Pacchioli		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 8:21 PM	Ms. Rachel Campbell	Citizen	You are taking away My Freedom of Speech and Voting Rights by Redistricting to Favor the Republican Party. This is Unconstitutional to say the least and beaten dishonesty on your part to let this happen again. Enough already. What about My Rights to Freedom.
10/19/25 8:22 PM	Jamie Wescott		This a blatant attempt to suppress the voice of urban and suburban voters and grab power for Republicans. The district map should reflect the population you have sworn to represent. It's also just a bad idea - someday, the pendulum will swing and you are setting yourself to be a victim of partisan gerrymandering in the future. This should be an INDEPENDENT and balanced process
10/19/25 8:22 PM	Doug McCubbins		I am strongly opposed to gerrymandering by either party particularly when it is a naked power grab that dilutes the votes of so many citizens. Any representative who votes for the upcoming redistricting is no friend of democracy and should be ashamed. We are extremely fortunate to live in a democratic society and those who would subvert democracy for personal power do not deserve to live here.
10/19/25 8:22 PM	Ms Annmarie Rosas		No redistricting without putting it to a ballot vote from constituents! Legislators can,Äôt do this alone. How dare there be redistricting without representation from the voters.
10/19/25 8:22 PM	Opposition to gerrymander Gabrielle Shepard		I currently reside at 72 Unaka Ave in Asheville, and I oppose any redistricting bills. Unfair maps disenfranchise voters and lead to long-lasting political problems. Drawing districts to favor one party leads to severe polarization, legislative gridlock, and a weaker congress. The NCGA's redistricting attempts cheapen the political power of North Carolinians, and all Americans. Please pass an overdue budget, and don't focus on this nonsense. Thank you for your consideration.
10/19/25 8:23 PM	Betty and Paul Allegrone		I strongly oppose the newly proposed redistricting maps. We need an independent commission, free from party politics, to take over districting. The majority of North Carolinians from both sides of the aisle disapprove of gerrymandering. Instead of letting politicians choose the voters, let the voters choose who they want to represent them.
10/19/25 8:23 PM	Redistricting Stacy Shouse		In no way shape or form to I support this attempt to further erode public trust in our elections and fair representation. This proposed map will rob me of my voice and is not what our founding fathers intended. It particularly targets minority voters who have a right to representation. These new districts are gerrymandering plain and simple and are not in the spirit of our Fair Voting Laws. Stop putting party over country and obey the will of the people. This is especially harmful to rural communities such as mine.
10/19/25 8:23 PM	Greg Gbur	University of North Carolina at Charlotte	I am vehemently opposed to further redrawing the maps for this state, which already represent one of the worst gerrymandered maps in the country. Voters should choose candidates, not the other way around, and any politician who does not recognize this clearly does not care about the people of North Carolina.
10/19/25 8:23 PM	Leslie Myers		Please vote to oppose the midterm redistricting of voting maps to unlawfully award additional GOP seats that are NOT the duly elected will of the people. Out few and fair elections matter- cheating for power is unconstitutional, immoral, and un American. The people,Äôs voices matter- you are elected by us to represent our interests.
10/19/25 8:23 PM	Ryan McLynn		Shameful. This is the sort of behavior that children in grade school know is fundamentally wrong when they are coming up with rules or picking teams for a game. Young children can recognize and call out cheating. The fact that North Carolina is led by people with fewer scruples than a fourth grade class is deeply disappointing.
10/19/25 8:24 PM	Mrs Sarah Meade		Strongly disagree with the proposal for redistricting. This will cause a loss of true representation of North Carolinians and will infringe on our rights.
10/19/25 8:24 PM	Suzanne Myers		How shameful, you really are "bending the knee" to Trump. Please stop this nonsense! It's time for bipartisan selection of districts in NC.
10/19/25 8:25 PM	Dr Jeffrey Crane	citizen of Wake Co	I urge all NC lawmakers to resist the short sighted and immoral grab for more political power by further gerrymandering of NC citizens voting access.
10/19/25 8:25 PM	Sarah Smith		Please listen to your people and not Trump when making this decision.
10/19/25 8:25 PM	Ms Sharon Anderson		North Carolina,Äôs Republican led Congress,Äôs decision to follow the President,Äôs directive versus working across party lines to establish a state budget should is reckless and irresponsible . As a former State employee, I can attest to how hard it is to properly function under these circumstances. State Republican,Äôs decision to follow the directive of the president is short-sighted and irresponsible and does not reflect the wishes of North Carolinians, who are not favorable toward the president,Äôs unpopular policies and illegal practices. Choosing to dilute voter participation does not benefit our state. A house divided cannot stand!

10/19/25 8:25 PM	Mrs. Dawn Fiette	WCDP Precinct 01-39 Vice- Chair	Redistricting prior to the 2026 elections in order to "gain" one more House Seat for President Trump, is not serving the people who elected you to represent them. Three months without a state budget for 2026, but time to redistrict less than 3 years since the last redistricting? Unconscionable. Do your job to help the citizens of North Carolina, not your personal political career interests and the unprecedented attempt to hold onto to all the power of the sitting President
10/19/25 8:26 PM	TERESA PHILLIPS		I am opposed to the redrawing of the congressional map as drawn by Phil Berger.
10/19/25 8:27 PM	Jessica Filip		Please do not redraw the maps before the 2026 midterm elections.
10/19/25 8:28 PM	Mrs Khem Irby		by redrawing maps to favor a political party then it is clear that some citizens in NC do not matter. It also shows that you believe in the practice of gerrymandering to keep unrighteous power that continues to hurt America. The world is looking at our model of democracy. North Carolina can be better. The president is one man while we are many. Do not give away our power to one man.
10/19/25 8:28 PM	Mrs Gwendolyn Jackson		we deserve free and fair elections without redistricting to meet the needs of one party over another. This has already been litigated .
10/19/25 8:29 PM	Linda Caulfield Lewis	Taxpayer	I believe in our constitution and fair elections. I don,Äôt want the votes of minorities to be diluted by redistricting. Liberty and justice for all.
10/19/25 8:29 PM	Dr. Elizabeth Smith		I strongly disagree with the proposed gerrymander of an already-gerrymandered district map. This is a despicable abuse of power. Elected leaders should not chose their voters, nor should they have the ability to disenfranchise groups of people based on race or economic characteristics, or most importantly, perceived politics or cultural values. This action is clearly being done only to court favor with the most immoral, corrupt, bigoted, and lawless President this country has ever seen and should be called out and condemned as such. Republicans once again cheat to attempt to secure ever more control and power with no evidence of any remaining integrity or character. You really should be ashamed of yourselves. Rather than catering to his every wish, you should be doing your patriotic duty and figuring out how to stop him before he ruins this entire country. Damn fools.
10/19/25 8:29 PM	Jessica Davis		gerrymandering is bad for democracy and NC
10/19/25 8:30 PM	Mrs. Claire Tiernan		The proposed redistricting plan is not fair or balanced in how it would represent North Carolinians. It is politically designed by Republicans to give them more legislative seats than they need. An imbalance already exists with Republicans holding 10 of the 14 House seats. This plan is nothing more than a power grab and genuflecting to Trump. NC Republicans should be representing their constituents not the president.
10/19/25 8:30 PM	Mrs Nicolle Vogler		There is absolutely no good reason for a redistricting now. We have been redistricted 3 times since 2020 and some of these have been direct attempts to remove someone in office. The maps should be redrawn every 10 years, based on shifts in the US census. Doing it today is totally a seat grab on the part of the Republican party and is absolutely wrong.
10/19/25 8:30 PM	Audra Holden		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps.
10/19/25 8:30 PM	Ms Merissa Lawson	Citizen	Do not rig our elections by redistricting. This is unacceptable!
10/19/25 8:30 PM	Ms Hiawatha Jones	M:A	Please consider these concerns My concerns center on representation, fairness, and the potential harm . District lines should respect communities with common economic, cultural, or social ties . Voter confusion and turnout
10/19/25 8:31 PM	Evelyn Shaw		I respectfully ask that this proposed redistricting not be submitted introduced nor voted on. It is unnecessary to redraw the voting maps at this time nor do I agree that a President of the United States should request that a state redraw their voting map I order to secure a party maintain control of the US Congress. We are a democracy but this is not in alignment with our democratic principles.
10/19/25 8:31 PM	Rob Axtell		Dear NCGOP, I know you are corrupt and could care less what people think because all you want is power. I know you do not care about ALL people in NC. I know you do not care that African-Americans will be harmed by your corrupt maps. I know you do not care that NC is a purple state with more people Unaffiliated, Democrat or another party than Republican. You have already gerrymandered our state to the almost maximum and it doesn't even truly represent our great cities of Raleigh, Durham, Chapel Hill, Charlotte, Greensboro, Winston-Salem, Asheville, Wilmington and more. Land does NOT vote - people do. Again, I know you won't even read this and do not care. But, for what it is worth, STOP. Stop gerrymandering our state to harm African-Americans. It is disgusting.
10/19/25 8:32 PM	Mrs Amy James		I don't understand why these redistricting lines have to be moved. Why aren't there any townhalls explaining it.
10/19/25 8:33 PM	Donna Mounce		Don,Äôt embarrass our state by taking part in this unethical rigging of our voting districts. There is already a higher % of Republican NC congressmen than the % of Republicans in NC. Don,Äôt do this!
10/19/25 8:34 PM	Mrs Rosemary Seidelmann	None	Why in the name that is holy are you doing this redistricting now. By law, it is supposed to be done every 10 years. The last redistricting for NC was done in 2023. Are you following trump's playback and trying to pull the wool over our eyes. The No Kings march should have spoken volumes to all of you, especially to you Mr.Berger. If necessary incandescent be replicated here. We will not be silent.
10/19/25 8:34 PM	Mrs Rosemary Seidelmann	None	Why in the name that is holy are you doing this redistricting now. By law, it is supposed to be done every 10 years. The last redistricting for NC was done in 2023. Are you following trump's playback and trying to pull the wool over our eyes. The No Kings march should have spoken volumes to all of you, especially to you Mr.Berger. If necessary incandescent be replicated here. We will not be silent.

10/19/25 8:35 PM	Allyson Stanley		We want fair districts - not the gerrymandered crap that the Republicans have been putting on us. Fair representation, not illegal /immoral district fabrications!
10/19/25 8:35 PM	Paul Kranze		As a North Carolina citizen who supports fair voting maps, I am deeply upset that Republican lawmakers plan to redraw the NC congressional map in an effort to expand one party,Äôs control of the U.S. House of Representatives. I believe that the NCGA should be focused on passing a budget and fully funding Medicaid, not further gerrymandering our state,Äôs congressional map. To me, this is a blatant attempt to rig the system and it,Äôs not right. Everyone in our state deserves to be fairly represented no matter their party or how they vote. Please refrain from further gerrymandering our voting maps!
10/19/25 8:35 PM	Mrs. Natalie Bullock Brown		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts for the fourth time in 5 years. The GOP is engaging in a naked power grab, and it is unacceptable. Vote NO.
10/19/25 8:36 PM	Charlotte McGee		DO NOT DO THIS! Because: This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. This proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year,Äôs election before dropping big changes to next year,Äôs.
10/19/25 8:36 PM	Jennifer Credle		I,Äôm not sure why I,Äôm bothering to write this as the nc legislature does not care about the opinions of its constituents. Glad you can listen to the directives of the president though. Nc was just redistributed 2 years ago. There are 38 percent registered unaffiliated. 32 registered democrats and 30 percent registered republicans. Shouldn,Äôt our delegation to us house represent this statistic. Guess not. Hey maybe pass a budget so we as therapists serving the public can keep making the same rate we have been for the last 20 years instead of making less than we did 20 years ago. Did you take a pay cut because you didn,Äôt pass a budget? That,Äôs a no .
10/19/25 8:36 PM	Mr Tob Harrell	Citizen	The attempt by the NC Legislature to redistrict House districts in NC is terrible. Voters in various districts around the state deserve the option to elect local representatives who will serve their district, not be represented by a person from far away and unknown locally. NC has sent two Republican senators to Washington, so why is it the Republican Party doesn't think it can win on a local level? The leadership of the NC Republican Party is about to abandon any sense of honesty and integrity at the whim of the current president. A good party, with good legislation for citizens, should be able to win on its own merits. It should not have to change the rules to win. This is likely to be a racial gerrymander and a totally dishonest and shameful act by the majority party in the NC Legislature. Shame on you.
10/19/25 8:37 PM	Ms. Kristen Wallingford		I am strongly against the redistricting. It is in democratic. I am a registered voter in NC and I am firmly against this.
10/19/25 8:37 PM	Joan Baker		I am vehemently against the plans to gerrymander the voting districts in NC. This has to stop. Republican voter registrations represent only 30% of this state. You are not doing your job as representatives by redrawing lines to serve Republicans only.
10/19/25 8:38 PM	Mr. James Cameron	Citizen	Regarding the artificial and unwarranted plan to redistrict North Carolina,Äôs voting districts 5 ahead of schedule - I am opposed. Gerrymandering our districts so that the Republicans party can rig the midterm elections in 2026 will be a huge mistake for the party moving forward. The pendulum swings both ways.
10/19/25 8:38 PM	Nick Mason		Stop trying to rig elections for one party. You have no right to override the rights of the people of North Carolina.
10/19/25 8:38 PM	No Redistricting Veronica Campos-Hallstrom		A democracy does not allow for critical changes to be made behind closed doors. Republican Representatives: are you more loyal to him than you are to the people that elected you? Our voices matter! Not allowing a power grab is strength and a demand for not stealing our voices in changing the maps. I am in favor of you doing what is right for the state and those who elected you.
10/19/25 8:38 PM	Louis Lanwermeyer	US Taxpayer and Army veteran	The emerging practice of redistricting outside of the normal US census data is a grave error on the part of participatory democracy. To swing people,Äôs influence from one level to another, simply on the basis of smaller transitory changes in address is not good governance and should not be the basis for Election decisions. Put some backbone in our participator process and hold firm to the values and procedures that reflect them and that have served us so well in the last 250 years. Do not let the fear mongering and disregard for our participatory democracy overtake the good judgment and steady hand that is the basis for proper governance.
10/19/25 8:39 PM	Cherie Jones		This gerrymandering, pain and simple, which is used to suppress the will of the people. If your policies are so good on their own, why do you have to cheat to win elections?

10/19/25 8:40 PM	Katy Kranze		As a North Carolina citizen who supports fair voting maps, I am upset over the plans to redraw the NC congressional maps. I believe that the NCGA should instead be focused on priorities like passing a budget and fully funding Medicaid.
10/19/25 8:40 PM	Mrs Rebecca Kaye		I do not support this redistricting grab of power. Redistricting should be done after the next census. This is ridiculous.
10/19/25 8:40 PM	This is Wrong! Leah Killette		I strongly and absolutely oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/19/25 8:41 PM	Mrs Kelly Ruta		I am a registered independent living in Wake County and am absolutely appalled that the Republicans are attempting to expand their gerrymandering efforts following pressure by Trump. Until you can find your spines, some integrity and recall the fact that you are PUBLIC servants I will continue to vote blue top to bottom of every ticket vs consider any Republican candidate locally or federally.
10/19/25 8:41 PM	Lori Henderson		Enough. Stop allowing the regime to redistrict so that they can write in their wanted outcome. We the people demand democracy.
10/19/25 8:42 PM	Kim Winz		This mid-decade redistricting proposal is outrageous. North Carolina is a purple state, with the parties nearly even in voter preference. Our voting maps should reflect that fairly. Stop rigging the maps to enact minority rule!
10/19/25 8:42 PM	Chelsey Brooks		Vote NO on this redistricting as this is purely gerrymandering at the order of a wannabe tyrant! WE WILL HAVE NO THRONES, NO CROWNS, NO KINGS! NO TYRANTS! VOTE NO!
10/19/25 8:42 PM	Jennifer Royall		There is no need to redistrict NC. Don‚Äôt fall for Trump‚Äôs threats and whining about the need to redistrict. Stand up to the bully and do your job. That‚Äôs why we elected you
10/19/25 8:44 PM	Carol Rogers		I am opposed to attempts to redraw North Carolina‚Äôs congressional district map before the 2026 midterms. This is a blatantly partisan redistricting process that would set a dangerous political precedent. I believe it would rob me of my voting rights. I would like to see our state use nonpartisan committee be in charge of voting districts. Gerrymandering needs to be eliminated as soon as possible. Thank you for your time.
10/19/25 8:44 PM	Nan Pope		I am 100% opposed to the NC GOP's plan for redistricting in 2025! And over 70% of all North Carolinians oppose gerrymandering as well! So WHY, WHY, WHY are you racing to push this through legislature? it is WRONG on all levels, it is mining voting data to RIG elections just for Donald Trump brownie points. This is NOT being done for NC citizens. WHY should anyone thinking of becoming a candidate for serving our state run for election just to see their district redrawn because of pressure from a non-North Carolinian? Will I and others continue to have our constitutional right to a free election? Will you just please do your job and pass a budget and drop this unethical redistricting. Let the candidates all campaign fairly with fair districts!
10/19/25 8:45 PM	Dr. Eric Henley	Self	The proposed redistricting plan will discriminate against Black voters in Eastern NC. The legislature should only consider redistricting every 10 years when the new census is released. The proposed redistricting at this time is purely partisan effort first started by Republicans in Texas. NC is already sufficiently subject to a sufficiently partisan gerrymander and any additional gerrymandering is not fair to voters.
10/19/25 8:46 PM	Mr David Biesack		I strongly oppose any political gerrymandering or changes to NC's election rules that strengthen one party's power. Instead, I demand a fair, impartial bi-partisan election redistricting plan which yields districts which fairly represent NC citizens.
10/19/25 8:46 PM	Sophie Longo		The redistricting is clear and outrageous tactic to rig upcoming and future elections. I am a resident of North Carolina and absolutely opposed to this.
10/19/25 8:46 PM	Dr. Kara Schenk	college professor	This is not democracy. This is gerrymandering. This is cheating. This is shameful.
10/19/25 8:46 PM	Ann Taft		This is another OUTRAGEOUS power grab by the republicans and a completely unnecessary redrawing of district maps. ALL North Carolinians deserve to be represented not just those who identify as republican. Stop trying to undermine the democratic process. We will not take any attempt at redistricting in order to gerrymander yet another district in the state lightly. Those republicans who are coming up for reelection be aware that this will not help you get reelected.
10/19/25 8:46 PM	Ms Tracey Armstrong		You are cheating the public by making changes to the districts to favor the Republican Party. I am against the TRUMP Agenda. Stop trying to rig our voting. Our country is being destroyed by the our current administration. Did you see the protests this weekend? We the people want the tearing away of our democracy to stop. Please do what is right. That means do not cheat and further degrade our government. Thank you for serving ALL citizens
10/19/25 8:47 PM	Claire Schmidt		Stop the gendermandering!
10/19/25 8:48 PM	Mrs susan henley		This should not be done because it disadvantages black voters in North Carolina. It is not in keeping with the spirit of our democracy.
10/19/25 8:49 PM	Natasha Maidoff		I support fair voting maps and I ask that you refrain from introducing any mid-decade redistricting in 2025 that would further distort North Carolina‚Äôs federal voting maps and erode North Carolinians‚Äô power to elect candidates of their choice. Thank you --

10/19/25 8:49 PM	Lillian Mindich	RESULTS/ NC Triangle	Our state is much closer to evenly split between Democrats and Republicans than is evidenced in our maps. The maps are already drawn to favor Republicans in a vast majority of the races, it is time to stop partisan gerrymandering. The maps must remain the same, or be redrawn by a non partisan committee which seeks a fair split, representative of the state.
10/19/25 8:49 PM	Wendy Testerman		This blatant and transparent gerrymandering power grab to usurp the will of NC voters in fealty to a wannabe fascist dictator is unacceptable. Independent voters that make up the majority of voters here see you clearly and will respond by voting accordingly if this moves forward.
10/19/25 8:50 PM	Not over my dead body Amy Clark	Registered nurse	Do not bow to this fascist dictator. You have a duty to protect your constituents right to a fair election.
10/19/25 8:51 PM	Abigail Lorber		I oppose the partisan efforts on redistricting, which are designed to put more Republicans in power rather than actually letting people decide who should represent their communities. Vote no on redistricting.
10/19/25 8:51 PM	Courtney Simpson		Redistricting should serve the public good and not political interests. Constantly changing district boundaries undermines community stability, confuses voters, and weakens public trust in our democratic process. Our communities deserve consistent, fair representation that reflects genuine geographic and community ties, not lines drawn for short-term advantage. Frequent or politically motivated redistricting disrupts how neighbors advocate for shared needs like education, transportation, and safety. Instead of dividing communities, we should strengthen them by keeping established districts intact and prioritizing transparency and fairness. I urge decision-makers to reject this redistricting proposal and protect the integrity of our local democracy.
10/19/25 8:52 PM	Lisa Bartholomew		Please stand on your own and stop being at Trump,Äôs beck and call. Represent North Carolina in an honorable way. You haven,Äôt even passed a budget and you,Äôre on to this. Do your jobs please.
10/19/25 8:52 PM	Bryan Pauquette		Please review the information at https://gerrymander.princeton.edu/ I would like our state to get at least an A grade for fairness. This is a simple math problem that can easily be solved by an AI. Gerrymandering is un American. Stop it!
10/19/25 8:52 PM	Redistricting Susan Finn	Democratic Women of New Bern	No Redistricting!! NO Gerrymandering!!
10/19/25 8:52 PM	Derek DeVos		Transparency is the backbone of democracy and what,Äôs happening right now in Raleigh spits directly in its face. Dragging citizens, veterans, and working families through last-minute sessions with no public notice isn,Äôt leadership it,Äôs cowardice. If you,Äôre proud of your plan, you do it in the daylight, not behind locked doors. This isn,Äôt about party; it,Äôs about power. And every time you hide from the people you serve, you prove you don,Äôt deserve that power. North Carolina deserves better than backroom politics and silenced voices. We,Äôre paying attention. This is pathetic and embarrassing.
10/19/25 8:52 PM	Lost your damn mind Kristin Toruno		How about you pass a budget before you destroy democracy in NC for generations? Your state has noticed. And we,Äôre watching.
10/19/25 8:53 PM	Dr. Lindsay Totten		Wholeheartedly AGAINST. Voters should be able to choose their representatives, representatives should NOT be able to choose their voters. It removes all accountability to the people when the races are not fair and competitive. Complete disappointment on behalf of the Republican Party of NC. I grew up voting a mixed ticket, but will no longer support GOP candidates due to all of these games. If you can,Äôt win fairly, step back and ask yourself why.

10/19/25 8:53 PM	Janie Mac	Individual Citizen	Redistricting AGAIN on a whim prompted by President Trump,Äôs mission to suppress Democratic voters & our equal opportunity to elect legislators who truly REPRESENT us is a power grab, an APPALLING move by the GOP dominated NCGA. The fact that those redistricted maps appeared SO QUICKLY says to me that this has been in the works for a while, then sprung on NC voters AND a legislative vote scheduled so promptly that most folk are unaware of the SHORT comment period. I am disgusted with the closed door strategies of the GOP in finding more ways to SUPPRESS voters in NC. His about spending time on REAL NEEDS OF THE PEOPLE FOR HEALTHCARE SUPPORT, FUNDING FOR PUBLIC SCHOOLS, SALARY RAISES FOR TEACHERS & OTHER STATE EMPLOYEES, FUNDING GREEN ENERGY INSTEAD OF GIVING DUKE ENERGY YET ANOTHER PASS, on & on, & on. We do NOT NEED redistricting & all of the costs associated with this! Thank you for your most serious attention to my comments.
10/19/25 8:53 PM	Grace Wormwood		As a resident of North Carolina, I ask that you DO NOT participate with the Republican redistricting plan. Instead of gerrymandering, please keep focusing your attention on the overdue budget. You, as a member of the General Assembly, have the sacred responsibility to represent the will of the people, not the political party of your choice. The WILL OF THE PEOPLE is your foremost duty. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! Thank you for respecting and representing the true choices of the people of North Carolina. Blessings, Grace Wormwood
10/19/25 8:54 PM	Susan Cameron		I am opposed to this redistricting plan and against gerrymandering to benefit either party. I believe in the constitutional promise of equal representation and you took an oath to the constitution. You should be working to pass a state budget and not trying to rig the system--an effort that is clearly cheating and that has the potential to get the state bogged down in costly litigation. Please do your job and work to improve the lives of the citizens you serve and stop spending time and taxpayer money trying to manipulate district lines.
10/19/25 8:54 PM	Mrs Joyce Burroughs		By redistricting these areas you are going against what the founders wanted for the House of Representativess. The intent was to democratically represent the population, not a political party. There is no reason to do this at this time except for the General Assembly's leadership ceding North Carolina's sovereignty yo the executive branch of the federal government. This is no longer a case of this political party did it so we get to do it (We will call this the middle school defense). Please consider who you made your oath of office to -- the people of North Carolina or the Republican party.
10/19/25 8:54 PM	Mr Kristopher Koeller		I live in Raleigh, 27603 and this makes me so ashamed to be in NC. Trump snaps his fingers and you all just throw the law and constitution out the window. We voted you in to uphold the constitution - now bow down to a king wanna be. Please be better than this.
10/19/25 8:55 PM	Dr. Kristen Valus		I am NOT interested in you "furthuring Trump's agenda in NC" by gerrymandering our state elections even further. I want you to pass a damn budget, deal with the health care crisis upon us thanks to cuts in Medicaid, and work to protect and improve our natural resources and infrastructure. We are a nearly evenly divided purple state and you all are supposed to be representing ALL of NC residents. As such, we should have competitive elections and a near 50/50 split representing us, not 11 of 14 districts permanently skewed to GOP. This is just another ugly power grab. Do Better, Be Better and stop playing games with NC.
10/19/25 8:55 PM	Susanne Desruisseaux		I am a constituent of Onslow County NC and condemn the corruption of the Republican redistricting efforts to gerrymander,or cheat, to disenfranchise black voters which violated the law.
10/19/25 8:55 PM	Trish Leachman		No redistricting!
10/19/25 8:55 PM	Leave it Alone Kimberly Lancaster		Don,Äôt start gerrymandering again. If you can,Äôt win fairly then you shouldn,Äôt win.
10/19/25 8:56 PM	Mary Flick		The job of the general assembly of the state of North Carolina is to serve the citizens of North Carolina. Your constitutional duty is not to serve the President at the expense of the citizens of North Carolina. If you gerrymander the districts, you give in to your fear of the President instead of doing the right thing for the entire populous of North Carolina. Do the right thing for the right reason.
10/19/25 8:56 PM	Adrienne Cromwell		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/19/25 8:56 PM	Eddie Stokes	Sales	Redistricting should only be done after a census. This should be illegal to draw lines with the purpose that more of one party can win.
10/19/25 8:57 PM	Jennifer Pearsall		Stop redistricting. Enough! They already did in few year ago,Ä¶ why other one again. Don,Äôt need do redistricting until 2030. Reason they do this is because of Trump! That big reason why they redistricting.
10/19/25 8:57 PM	Bradley Schultz		Please do not gerrymander the voting districts. Let everyone have an equal vote.
10/19/25 8:58 PM	Mr Clifton Alexander	Retired	Opposed to GOP Redistricting

10/19/25 8:58 PM	Mr Robert Lamb	retired	Republicans continue to sacrifice their dignity at Trump's altar without regard for the harm that it is causing the people and the integrity of our once proud 250 year old nation.
10/19/25 8:59 PM	Margaret Roper		I do not support redistricting in North Carolina to support Trump,Äôs agenda. Districts should represent their population, not the politics of the day.
10/19/25 8:59 PM	Dr. Linda Winikoff		I strongly oppose the proposed 2025 congressional redistricting plan and the claim that it is justified by a ‚ÄúTrump mandate.‚Äù The facts show there was no such mandate. In the 2024 presidential election, Donald Trump received about 48.9% of the national vote, Vice President Kamala Harris about 48.3%, and the rest, 1.85%, went to third-party candidates. More than half of all voters did not choose Trump! In North Carolina, Trump,Äôs share was only 50.8%, with Harris at 47.5%,Äîa narrow margin, not overwhelming support. In Forsyth County, where I live, the presidential vote reflected a true mandate: Harris (55.7) vs. Trump (42.6%), yet as a Democrat, I have no local representation in Congress. A close election result cannot justify reshaping districts mid-decade for partisan gain. Redistricting should protect voter fairness, competition, and representation, not entrench one party,Äôs control, which Speaker Hall admits he is doing. He's too smart for that, and clearly is being pressured into such bad faith actions. Using the ‚Äúmandate,‚Äù argument as cover for gerrymandering undermines public trust and weakens democracy. North Carolina is politically diverse and is clearly a 'purple' state. It deserves maps that reflect that diversity. Fair maps ensure every voice counts,Äîurban, rural, Black, Brown, and White; Republican, Democrat, and Independent alike. I urge the General Assembly to: Reject partisan map-drawing justified by a false narrative of a mandate. Adopt transparent, nonpartisan standards that protect communities of interest. Comply fully with the Voting Rights Act to ensure equitable representation. Please put voters before politics.
10/19/25 9:00 PM	Stop Gerrymandering Isabelle Legan		I,Äôm writing to strongly oppose the rushed mid-decade redistricting plan. This effort to redraw congressional maps for partisan advantage ‚Äîespecially targeting a sitting representative,Äôs district ‚Äîundermines fair representation and erodes public trust. Redistricting should serve the people, not political interests. North Carolinians deserve transparent, impartial maps that reflect our communities, not calculated power grabs.
10/19/25 9:01 PM	Laura Moretz		Power-grabbing redistricting has no place in a democracy.
10/19/25 9:02 PM	Ms S Brown		Dear Redistricting Authority/Commission/Committee, ?I am writing to express my strong opposition to the proposed redistricting plan/map (or the process of partisan redistricting in general) being considered. I urge you to vote against this measure and to instead prioritize fair, non-partisan, and transparent map-drawing that truly serves the voters. ?My main concerns are: ?Undermining Democracy and Voter Power (Gerrymandering): This plan appears to be a case of partisan gerrymandering, where politicians are choosing their voters rather than the other way around. By "packing" opposing voters into a few districts or "cracking" them across many, the proposal seeks to manufacture a predetermined electoral outcome, making elections uncompetitive and rendering many votes meaningless. This subverts the very principle of representative democracy. ?Lack of Accountability: When districts are drawn as "safe seats" for one party, elected officials become less accountable to the actual needs of the people. They are primarily incentivized to cater to the extreme fringes of their own party in primary elections, leading to greater political polarization and legislative dysfunction. ?Splitting Communities of Interest: The proposed lines unnecessarily divide my community (or specific local communities), splitting groups that share social, cultural, or economic interests (e.g., specific neighborhoods, municipalities, or school districts). Districts should keep communities whole to ensure they can elect representatives who will effectively advocate for their collective needs. ?I strongly believe that a fair map must adhere to universally accepted criteria such as compactness, contiguity, and the preservation of communities of interest, without prioritizing partisan advantage or incumbent protection. ?I respectfully request that you reject this plan and commit to a redistricting process that prioritizes fair representation for all citizens. ?Sincerely, S. Brown Wilmington, NC
10/19/25 9:02 PM	Ms Nancy Gardner		Do not redraw these maps. You,Äôre splitting communities, halting progress, and attempting a power move purely for political gain. You have other work to do for the citizens of NC!
10/19/25 9:02 PM	Ms Angela Humphrey		I do not support using NC voters as political pawns. Focus on passing a budget, paying teachers, securing health care, housing and food for our vulnerable Carolinians.

10/19/25 9:02 PM	Miss Ashly Spannbauer	Carolina Federation	76% of North Carolinians agree that this gerrymandering is wrong. You were elected to represent those people, not just the ones who keep you rich as you yearn for power. This is America, respect our democracy.
10/19/25 9:03 PM	Mrs Barbara Lauro		I strongly oppose this redistricting being done on Trump's orders. I insist this be brought to your constituents for a vote. If the people you represent agree, then by all means implement it.
10/19/25 9:03 PM	Keiran Laim		I am against "redististricting" a.k.a. gerrymandering.! But rest assured that you will lose either way because your policies suck!
10/19/25 9:04 PM	Gerrymandering is Wrong! Zed Seventh		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 9:04 PM	Robin Dycus		I don't agree with redistricting at this time. There is no need as we have a state with where we already can elect a majority state legislature and a Democrat Governor, and varing federal representatives which more accurately reflects our diverse population. Instead if looking at this, the focus needs to be on passing a state budget.
10/19/25 9:04 PM	Marie Nelson		Rushing redistricting is unnecessary, and would waste time and funds that NEED to be going towards things that are important to the MAJORITY of North Carolinians, like passing the overdue budget. It is beyond disheartening to see cheap and despicable tactics like gerrymandering becoming a possibility for our state. If you can‚Äôt win representation fairly, you don‚Äôt deserve to be in office. Think about the people you are supposed to be representing- all of the citizens, not just benefiting yourself, your families, your circles. The world is bigger than that and we must come together. At least, in the eyes of fairness and what is right and lawful, upholding what we‚Äôve learned from past mistakes. I implore you, do the right thing. Do right by your constituents.
10/19/25 9:04 PM	Julie Letz		Gerrymandering is bad for ALL OF US. It‚Äôs basically election fraud and doesn‚Äôt honestly represent all voters. It‚Äôs way past time to stop the corruption for power and greed, and start representing We the People. Go back to the 2022 Interim map drawn by independent parties. Man up & do your job!
10/19/25 9:04 PM	Michael Eng		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It‚Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.
10/19/25 9:04 PM	Tim Thielke		76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 9:04 PM	Janet Link		This level of political gamesmanship is a perversion of the principles that this country was founded on. Legislators who support this redistricting plan are forfeiting any assumption that they are acting in good faith to serve a morally bankrupt president with anti democratic, authoritarian ambitions. This plan is a nail in the coffin of what makes America great. It cares more about power than the survival of our country. This redistricting plan subverts the integrity of the vote that Republicans profess to care so much about, and any legislator that supports it should be ashamed. Those who care about NC and the survival of the USA will vote no on the redistricting plan.
10/19/25 9:05 PM	Mz. Mary Guarino		Can you, for the love of God, stop gerrymandering? If you can't win by merit, take a look at your policies and figure out what's actually best for the people, not the rich.
10/19/25 9:05 PM	Susanne Therien	Therien	Trying to silence people who are against the current regime is authoritarianism. Everyone should have a fair voice in the elections. The GOP proposal is a way to eliminate the voice in voting of minorities and and anyone who doesn't vote the way they want.
10/19/25 9:05 PM	Liv Pierce		Redistributing or gerrymandering does not need to be done. It is an unfair way for Republicans to ensure they win seats.
10/19/25 9:05 PM	Deborah Compton		Stop gerrymadering. Leave the state alone. You've done enough damage in our state. Hypocrites.
10/19/25 9:05 PM	Harvi Cooper		I am against this proposed Congressional district plan. Republicans supporting this plan should be ashamed.

10/19/25 9:05 PM	Mr Benjamin Barber		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Âô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Âôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally.
10/19/25 9:06 PM	Christine Lane		This effort to gerrymander maps for partisan advantage is despicable. Shame on you, Republicans, for not putting the people of North Carolina first, the people who want fair elections not politicians who rig the system for their own personal gain.
10/19/25 9:06 PM	NO GERRYMANDERING Maureen Williamson		You have been elected to serve the people NOT A WANNABE DICTATOR. There is no reason for your illegal actions to attempt to steal the midterm elections. History will not be kind to you.
10/19/25 9:06 PM	Dr. Jennifer Pennell	private citizen	I hear that Republicans are planning on redrawing the Congressional districts tomorrow without notifying Senate Democrats of the time. I am infuriated by this lack of transparency and tactical maneuvering. It is absurd and, in my opinion, unethical. By not telling Senate Democrats the time, you are disenfranchising everyone who voted for them by not allowing these elected officials to take part in legislative work. I am opposed to the gerrymandering that goes on in this state because it seems that it is being done to rig the system in favor of Republicans for years to come. Why else would largely Democratic districts be broken up?
10/19/25 9:06 PM	Mrs Brooke Johnson Suiter	Retired teacher	Voting rights are the heart and soul of democracy. One person, one vote. So many have died for this dream. Make freedom ring.
10/19/25 9:06 PM	Shannon Norland		This dishonest power grab further reveals how little the NC GOP cares about the actual residents of their state. Instead of focusing on safe water, funded schools, rural internet access, rural hospital access, disaster relief, or any issue that would improve the lives for North Carolinians, they are concerned with unfairly wrestling more power for themselves.
10/19/25 9:06 PM	Anne-Marie Young		We need FAIR representation so ALL voices of north Carolinians can be heard. Selling us out to Trump is both IMMORAL and UNJUST. I OPPOSE any re-districting at this time.
10/19/25 9:06 PM	Ms. Janet Flowers		Given that our state's political division is roughly equal between Republicans, Democrats, and Independents, it is grossly unfair to gerrymander a district to gain even more seats for the Republicans. It is unfair and UnAmerican to seize an unfair representation of the residents. Shame on the Republican party to be so greedy as to want ALL the votes.
10/19/25 9:06 PM	the RevDr Judith Gooch	UCC	You know the legal arguments against and for redistributing. But today, after millions of Americans demonstrated their disapproval of MAGA and the present Republicans party, you know what we want and what our beloved country needs. Do what is right and be on the right side of history.
10/19/25 9:06 PM	Don Nicholson		This is simply re-drawing voting districts to ensure more districts are filled with Republican voters. By doing so, equal representation for all voters is destroyed. This is unconstitutional. It is also low-down, unethical and immoral action.
10/19/25 9:07 PM	Deb McConnell		Please do not redistrict North Carolina!! Gerrymandering for the benefit of one party should never be allowed. It is high time you stand up to Donald Trump,Âôs constant demands and do the right thing. Stand up for the people!! America has had enough of the lying, underhanded behavior of the president!!
10/19/25 9:07 PM	mr brooke greenhouse		I am writing in opposition to the proposed redistricting. It is not acceptable to redraw maps regularly just to keep one party in power. This process is a waste of resources, lacks transparency, and perhaps most important in my mind, takes away any incentives for elected officials to get to know their districts and SERVE THE PUBLIC. Leave it alone and let the incumbents show us they deserve our vote and challengers have an opportunity to get to know us and learn our needs and EARN our votes. Thank you
10/19/25 9:07 PM	Kristi Webb		What a disgraceful idea: if you cannot win on the merits, cheat. This is a glaringly partisan attempt to redraw congressional districts in advance of the midterms. It would set a dangerous precedent, robbing NC citizens of their right to choose their MOC. North Carolinians on both sides of the aisle agree that voters should get to choose their representatives on the merits - they should not have any representative forced down their throat because Republicans are too acared of the will of the people.
10/19/25 9:07 PM	Mr. Connor Lanasa		ILLEGAL. YOU ARE SUPPOSE TO REPRESENT ALL NORTH CAROLINAS. FOCUS ON OUR SCHOOLS AND TEACHERS! On the children! Our first responders and healthcare. This is a distraction and a disgrace and we the CITIZENS will not forget the ones who sit back and do nothing.
10/19/25 9:07 PM	Kara Bumgardner		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and our votes should count equally, regardless of political affiliation, race, or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.

10/19/25 9:08 PM	Maddi Abrams		You are here to represent NC citizens and serve as a mouthpiece for your constituents. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Please reconsider this redistricting plan
10/19/25 9:08 PM	Mr Eduardo Bonilla		Undemocratic.
10/19/25 9:08 PM	Pamela Byrd		I am strongly opposed to further redistricting. The current maps don,Äôt even reflect our population correctly. WE the people should be allowed to select our legislators. Please do not enable our corrupt president. We need voices of reason to reign in the current chaos and destruction.
10/19/25 9:08 PM	Miss Lauren King	Myself	Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Âô ability to hold our leaders accountable. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps.
10/19/25 9:08 PM	Kathleen Bokeno		No redisticting and please pass ona budget! Do your job all ready! This is what you were elected to do!
10/19/25 9:09 PM	Peggy Palmer		I oppose partisan gerrymandering. North Carolina voters deserve fair maps that reflect communities, not protect politicians. Redistricting should serve voters, not power. We,Äôve redrawn maps too many times since the last census,Äîthis erodes trust in democracy. Please stop the manipulation and adopt nonpartisan, transparent maps that give every voter an equal voice.
10/19/25 9:09 PM	Mr David Baynham		I am submitting a comment, because this redistricting is disgusting and immoral, besides being patently racist. The numbers from our state are perfectly clear, and I want to highlight them. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Please stop this power grab, instigated by a racist, weak White House that cares nothing for us in NC, and has already done us so much harm.
10/19/25 9:09 PM	Dr. Elizabeth Barnum		True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps.
10/19/25 9:09 PM	Gerrymandering is wrong! Wendy Dale		Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves.
10/19/25 9:10 PM	Dr Deborah Eaker-Rich	Retired UNC CHAPEL HILL	I vehemently oppose the proposed redistricting maps in North Carolina. These maps clearly represent partisan gerrymandering and undermine the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote counted equally, regardless of political party or geographic location. This map will silence communities and weaken our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering should be illegal.
10/19/25 9:10 PM	Cynthia Creighton-Jones		This is an illegal maneuver. Redistricting is not due at this time. Doing this is going to negatively affect voting. This is not playing fair.
10/19/25 9:10 PM	Ms Elizabeth Bleich		Our voices are being stolen. We demand transparency!
10/19/25 9:10 PM	Vernie Davis		I am very disappointed that the idea of redrawing district lines to gerrymander more seats for one party is even being considered. Democracy is too precious to squander in this way by undermining the very concept that our representatives are chosen by the voters not the other way around.
10/19/25 9:10 PM	Wendy Ranadive		Stop gerrymandering NC! Your political opinions are not popular or you wouldn,Äôt have to manipulate the vote. Every person in NC should have a voice!
10/19/25 9:10 PM	Ms Sue Thompson		The gerrymandering evident in this redistricting proposal is a shameful, blatant attempt to steal the votes of constituents registered as democrats and award them to those registered as republicans. Why bother even holding elections if you don,Äôt want to represent your people? It would be more honest and no more despicable to just declare the gop representatives the winners. It,Äôs obvious that you are doing this at the urging of Trump so he can maintain his grip on the government, as even he thinks that he,Äôs losing the support of We the People. How about growing some balls and standing on the right side of history for a change. PLEASE DO NOT VOTE FOR THIS UNETHICAL REDISTRIBUTION!

10/19/25 9:11 PM	Ms Rebecca Gummere		To the NCGOP who think playing fast and loose with redistricting in yet another power grab has anything at all to do with democracy or good governance, pro tip, it does not. As a NC resident I urge you to get back to work for the people of this great state, pass a budget, tend to the business that will make our lives better. Being on the current president's leash is a really terrible look. As Liz Cheney said, when we are well past this debacle of an administration, "Your dishonor will remain." You may find your constituents have remarkably long memories. Stop the gerrymandering.
10/19/25 9:11 PM	Linda Brooks		Cheating is not consistent with American values. Where are your scruples?
10/19/25 9:12 PM	Karla Thurston		This process needs full transparency and accountability to the voters of North Carolina. This obvious ploy by NC Republican legislators to bow to President Trump,Äôs demands to skew the 2026 elections with rigged redistricring is unacceptable, the people of NC deserve better representation. Any plan for redefining voting districts needs to be researched, taking time to ensure that every voter, no matter their political party or color, is guaranteed to be heard without a biased districting plan. Our state legislators work for the people of this state and we demand proper representation.
10/19/25 9:12 PM	Ms Linda Rohret	Durham 27707	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 9:12 PM	Uli Schempp		There is no democracy in this country as long as parties are able to skew the outcome of elections in their favor through gerrymandering. The fact that for many years Republicans had a veto-proof majority in the legislature in NC despite the electorate being evenly split is clearly undemocratic
10/19/25 9:12 PM	Dr. Todd Woerner		This blatantly partisan redistricting effort will set a dangerous precedent and will disenfranchise NC citizens even more than we already are. In a 50/50 state it is disgusting that the maps already skew 10:4 toward one political party. This plan is to make it even more biased. When neutral maps were prepared not long ago we suddenly had roughly equal representation. Apparently that was unacceptable to the party in power. I would say this no matter which party is trying to rob representation from their opponent through cooking the maps. Gerrymandering is the political equivalent of inbreeding. And it has the same effect on those who get into office, not by having to compete, but rather because there is no way they can lose. Having to win on the merits is critical to our democracy and Constitutional system of governance. If you cannot win on the merits you deserve to lose. Gerrymandering is cheating. It may be legal, and soon even easier. But it is still cheating and is a curse on our election process.
10/19/25 9:12 PM	Kathleen Putnam		Elections need to be fair, just and representatives. Redistricting has already skewed this process; any more redistricting will make fair elections impossible! Our founding fathers and mothers would be repulsed by any further blatantly political action.

10/19/25 9:14 PM	Karen Fichter	I,Äôm deeply concerned that, instead of focusing on the urgent needs of our state, the General Assembly is devoting its time and taxpayer resources to yet another round of partisan redistricting. It has now been more than one hundred days since the state budget deadline, and North Carolina still does not have a budget in place. Public employees and families across the state continue to wait for the raises, resources, and investments they were promised. Meanwhile, legislative attention is being diverted toward redrawing congressional maps designed to secure partisan advantage rather than strengthen representation or serve the people of North Carolina. This misplaced focus undermines confidence in government and damages the credibility of the legislative process. When those in power prioritize political self-preservation over good governance, it sends a clear message that serving constituents has taken a back seat to serving party interests. Redistricting should be about fairness, transparency, and respect for voters ,Äî not about protecting political power. Every time district lines are redrawn for partisan gain, public trust erodes a little more. Our citizens deserve competitive elections and accountable representation, not predetermined outcomes. I urge legislative leaders to demonstrate true stewardship of the public good by setting aside partisan calculations and returning focus to the responsibilities of governance. North Carolina,Äôs strength has always come from its people ,Äîthey deserve a legislature that works for them, not against them.
10/19/25 9:14 PM	NO REDISTRICTING!!! Nicholas Longo	I am writing to firmly oppose the reckless and politically motivated mid-decade redistricting plan. Redrawing congressional maps for partisan gain ,Äî particularly to target a sitting representative ,Äî is an abuse of power that undermines fair representation and damages public trust. Redistricting must serve the people, not politicians. North Carolinians demand transparency, accountability, and maps that reflect our communities ,Äî not another blatant power grab.
10/19/25 9:14 PM	Robin Griffin	I am against the proposed redistricting being proposed by Republicans in the General Assembly. This continues devious actions of gerrymandering meant to significantly alter votes in North Carolina. Let the people of NC speak through their votes. It is our right to have a free and fair election. This proposed redistricting and several of the approved redistricting over the past several years does not allow that. It is a shame that the democracy and rights our nation was founded on no longer matter because certain groups and parties want to remain in power and fear the voters ability to change that. Let the people of NC speak for themselves, let them vote for who they want in an election that is not tampered by others. You don't respect North Carolinians and you don't respect voters by going to these extremes.
10/19/25 9:15 PM	Amy Steinmetz	No! Stop gerrymandering and follow the NC constitution that calls for redrawing after the decenniel census - not every year a party wants to silence voters rights.
10/19/25 9:15 PM	Dr Barbara Kamholz	Please do not do this! It will accentuate the toxic red/blue divide when we should be working together.
10/19/25 9:15 PM	Mr Stephen Jaffe	I want to amend my previously submitted comment to add that what the GOP legislators are proposing breaks the compact between the legislature and the governed. The redistricting legislation is unscheduled in being considered off ten year schedule, and obviously being created with the sole intent to consolidate GOP power in Congress,Äîat the request of the current President. It is corrupt, just like ,Äú I need you to find 11,000 votes,Ä¶,Äù was corrupt. The compact between the legislature and the voters rests on trust and respect for law. This undermines both.
10/19/25 9:15 PM	Mrs Natalie Woempner	please stop gerrymandering. Listen to the NC citizens. Over 80% think it,Äôs wrong and do not want redistricting. So you are only following Trumps orders? Why don,Äôt you do your jobs and what the citizens put you there for? Pass a budget. Fund Medicaid. Save healthcare.

10/19/25 9:15 PM	the GOP can,Äôt win fairly Desiree Shupe		Y,Äôall can,Äôt get a budget passed for our state but you,Äôve got time to fuss around with gerrymandering, is that how it goes? Too afraid you,Äôll be out of your jobs next year so y,Äôall,Äôre tryin,Äô to rig it so y,Äôall can stay in power? Worried you won,Äôt be able to win in a fair contest? Have you considered actually doing things that might _benefit_ the people of North Carolina instead of harming us by allowing billionaires and AI datacenters to run rampant, by allowing big corporations to poison our drinking water, by removing our paths to affordable healthcare, by refusing to help the hungry and less fortunate, by kicking our seniors and disabled folks off Medicare/Medicaid, or by ensuring those who are impacted by storms and natural disasters receive the aid that WE pay taxes for? And that,Äôs just a short list of the garbage y,Äôall are pushing on us, never mind that we,Äôre all sat here with you elected officials just smiling and sitting on your hands like there,Äôs nothing you can do, were you not elected as representatives for the people of this state? You,Äôve done nothing but act smug and proud of yourselves while the people of NC are set to suffer. This,Äôll make it the third time we,Äôve seen our districts re-mapped in less than ten years when it,Äôs supposed to happen only once every ten. Did none of y,Äôall take civics in high school where we all learned how gerrymandering is wrong? Why do y,Äôall jump to kiss the ring of a man who has shown time and time again that he cares nothing for our state or the people who live here? We deserve to have our voices heard, not to have our districts pared away until our voices are rendered meaningless, all in favor of a daggone pedophile and convicted rapist who for whatever reason y,Äôall are falling over yourselves to protect by silencing the people of the (once-)Great State of North Carolina. What you,Äôre trying to do here is not right and it needs to end. Do not gerrymander us any further than you,Äôve already done. Let us cast our votes and be heard fairly.
10/19/25 9:16 PM	John Sempeles		As a resident of North Carolina, I am strongly against gerrymandering of the state and congressional maps, especially in a mid census time frame where it is especially unwarranted. Gerrymandering distorts the fair representation of citizens and dilutes the voting power of citizens. This state has a well documented history of unfair gerrymandering to benefit one party, and citizens are frankly tired of it. It is taking our voice away and is counter to the entire democratic concept of one person, one vote. We see this for what it is, cheating and a wanton power grab by a party that knows it,Äôs ideas, policies, and legislation are unpopular, but do not have the courage of its convictions to be willing to lose in the public square. You are wrong to pursue this and it will be remembered by the electorate in future elections. Do the right thing and stop your gerrymandering plans.
10/19/25 9:16 PM	Ms Virginia Minichiello		The proposed redistricting plan does nothing to assure fair elections in NC, it is a partisan move to control elections and suppress the rights of people in districts comprised of minorities . I do not support voter suppression and attempts to eliminate the voices of others.
10/19/25 9:16 PM	Kelley Cox		I am fiercely opposed to North Carolina,Äôs redistricting plan. I find it reprehensible that the state agreed to such a ridiculous and clearly unconstitutional request. This type of gerrymandering for political gain is disgusting.
10/19/25 9:16 PM	Rachael Barker		Your blatant disregard for equal representation for all North Carolina voters by creating gerrymandered maps and rushing through without review or time to respond is appalling. If you are convinced that you are doing the right thing for the people, then let all the people speak. We ask for our officials to help the state, fund education, protect healthcare, and run a government that functions in the interest of all. We are opposed to gerrymandering and demand accountability, transparency, and equal treatment.
10/19/25 9:16 PM	Amy Chang		Please, please stop the gerrymandering. Any party that wins by this strategy isn,Äôt actually representing the citizens of North Carolina. Remember? Us. The citizens that you SERVE. Not your political party. US.
10/19/25 9:16 PM	T Sears		Do not redustrict/redraw the maps yet again. Keep elections open, fair and accessible. Only those afraid of losing try and unjustly tip the balance in their favor. Focus on the budget and other things more important to North Carolinians- who are your constituents-and not the White House.
10/19/25 9:16 PM	Karen Segal		I,Äôm against gerrymandering by both parties. Please don,Äôt do this. It,Äôs not right and takes power away from voters. I,Äôm going to work hard to get out voters in the midterms and I,Äôm also going to financially support the people I support.
10/19/25 9:17 PM	Mr. Caleb Pusey		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice.
10/19/25 9:17 PM	Mr Barr Huefner	Self Employed	NO MORE GERRYMANDERING!! Pass a budget, focus on teacher pay! Represent North Carolina! Speaker Hall and ML Berger are failing NC. There is NO need for districts to be redrawn right now - mid decade. Only special interests want this.
10/19/25 9:17 PM	Thomas Crichlow		Voting maps that are intentionally gerrymandered to favor one political party over another will only harm people of both parties across all counties in North Carolina by removing accountability, encouraging corruption by politicians, and falsely dividing the people of North Carolina. Nothing good can ever come from a gerrymandered voting map. It is time to just say NO to gerrymandered maps.
10/19/25 9:17 PM	Heather Martin		Voters should choose their representatives; politicians should not select their voters. This is supposed to be a democracy, not a single-party regime with worshippers doing whatever their lord and master wants. Instead of gerrymandering, how about doing any of the following: passing a state budget, convincing the Trump regime to release the money Congress budgeted for healthcare, especially Medicaid; helping farmers and school children by returning funding for farm subsidies that support school lunch programs. Gerrymandering removes choice from the voters and must stop.
10/19/25 9:18 PM	Mrs Betty Dendy		The continued abuse of power to gerrymander our great state even further is despicable. Grow up, win an election fairly, and be decent humans.

10/19/25 9:18 PM	Stephen Emineth		Let,Äôs not accept gerrymandering as a way of legislation and by changing voting districts just to elect a certain party is against our constitution. Are we not a democracy? Districts were redrawn in the past only when a census was done. Let us get away from corruption in our political system in North Carolina.
10/19/25 9:18 PM	Michael Melugin	Army - Chief Warrant Officer - 4 (ret.)	This tortured redistricting is nothing less than an un-American attempt to put a foot on the scale reflecting a lack of integrity. Color me a former Republican.
10/19/25 9:18 PM	Angela Kornhauser		I am vehemently opposed the gerrymandered redistricting of the state of North Carolina. This tactic is a form of voter suppression that dilutes the voting rights on the people of North Carolina. The vast majority of voters disapprove of gerrymandering. North Carolinians deserve fair voting maps that ensure their vote counts.
10/19/25 9:19 PM	Jeri Bates		This is absolutely not the way to represent constituents, it simply guarantees that we use our VOTES to make it right,Ä¶Ä¶it,Äôs time for radical change! Women have had enough - we are primary breadwinners, leaders of organizations and companies and hold the majority of the buying power in the US.
10/19/25 9:19 PM	Ms Elizabeth Wellborn	None	Stop this insanity. Y'all redraw gerrymandered maps and just got them approved by the very partisan NC court. Fair maps for fair representation
10/19/25 9:19 PM	Michele Davis		Why would he want to change North Carolina when he won here? We don,Äôt want you to change anything right before an election anyway.! Please we need to get him out of the White House.
10/19/25 9:19 PM	Mrs Esther Greenhouse		Please do not do this. This appears to be a means of manipulating control rather than earning legislative power by meeting the needs of your constituents. Redistricting to further the administration's agenda will exacerbate financial struggle due to loss of jobs and the impacts of tariffs and skyrocketing health insurance. Enact policies to improve our lives in order to earn support.
10/19/25 9:19 PM	Mrs Jean Stein		I am against redrawing of the congressional maps.
10/19/25 9:19 PM	Dan Taylor		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 9:20 PM	Alicia Washington		This new attempt at redistricting does not reflect what the residents of NC want, and the committee should not consider these, let alone complete them. This intentionally disenfranchises residents throughout the state and directly counters the intended purpose of elected officials: to protect the rights and interests of the citizens they represent.
10/19/25 9:20 PM	Susan Friedman		I urge you to refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. It is unnecessary at this time and could lead to more frequent partisan redistricting in the future. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competitio. Victory is earned through ideas and persuasion, not through the manipulation of electoral maps. Have confidence in your positions and values, don,Äôt resort to gerrymandering. Also, there is strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 9:23 PM	Nancy Quinn		I want my vote to count. Misrepresenting the people of NC doesn't do us justice. It's a coward who can't win on their own merits.
10/19/25 9:23 PM	Jacqueline Cure		Redistricting now is unnecessary, rushed, and costly. The public is not being given enough time to consider the proposal and discuss it with their representatives.
10/19/25 9:24 PM	Corinne Russell		Gerrymandering is wrong. Voters should choose their representatives. Drawing maps to reduce the power of voters who should decide those representatives is cruel and immoral.
10/19/25 9:24 PM	9193677993 Cyndi Kirchhoff		Absolutely not! This is unethical and should be illegal. Your constituents will be watching and voting, so choose your actions wisely. This has to stop now. What does he have on you to blackmail you into doing something so against what your position stands for? Remember, you work for the American people, not for Trump.
10/19/25 9:25 PM	Ms Myra Johansen		Redrawing districts to benefit one political party over another is WRONG!!! Every citizen of North Carolina deserves FAIR and EQUAL representation!!! If you have to CHEAT (by redrawing the maps) to win you DON,ÄôT DESERVE to win!!!
10/19/25 9:26 PM	Dr Jo Cloniger	Citizen	These maps are illegal. They are gerrymandered to cut out the voices of many. Shame on you!

10/19/25 9:26 PM	Ms. Stephanie Bittle	Two Steps Forward Psychotherapy	I am opposed to redistricting. I support the Voting Rights Act of 1965 which ensures that everyone's voice is heard no matter what there color or religion or creed is.
10/19/25 9:26 PM	Rhonda Thomas		While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves.
10/19/25 9:26 PM	Todd Fields		Gerrymandering of any sort is antithetical to democracy. To redraw maps in the middle of a cycle for political gain is not acceptable. Please refrain from the temptation to do this.
10/19/25 9:27 PM	Eileen Williams		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 9:27 PM	Donna Charneskie		The voters are supposed to choose their representatives, the politicians aren‚Äôt supposed to choose their voters. Gerrymandering violates core principles of fairness, accountability, and limited government. No to redistricting.
10/19/25 9:27 PM	Dr. Joyce Compton Brown		This is not supporting democracy but power-grabbing in the Trump tradition. No wonder many of my friends have dropped their Republican designation in favor of unaffiliated.
10/19/25 9:27 PM	Dr Laura Grillo		Gerrymandering violates core principles of fairness, accountability, and limited government. Do not allow this manipulation of elections.
10/19/25 9:28 PM	Ms. Gail Weeks		We don't want racist GOP gerrymandering that takes away voting power of blacks. STOP IT NOW!
10/19/25 9:28 PM	Alexandra Puppelo		The proposed redistricting is outrageous. Listen to your constituents and stand up for their voices! This is a democracy, and stifling anyone who disagrees with you isn't what we do in a democracy. All of the constituents of NC matter, and many of them are terrified of losing their healthcare, their rights, and even their lives. We cannot allow this obvious and abhorrent gerrymandering attempt to pass
10/19/25 9:29 PM	Ms Gayle Anderson	Citizen	We just re-districted in a highly partisan way. It is irresponsible to re-district again between censuses, just to gain a bigger partisan advantage. The voters will remember those who sought to unfairly influence elections, basically taking away our vote.
10/19/25 9:29 PM	My vote should matter Brigette Sullivan		My vote should matter. When you gerrymander districts, you silence voters and rig democracy. Who are you really loyal to,‚ÄîTrump, or the people you swore to represent?
10/19/25 9:29 PM	No to gerrymandering Debbie Sawyer		How dare you try to steal our election and votes. Are you gerrymandering because you know you can‚Äôt win without cheating? You threaten our democracy so you can stay in power? Did NoKings scare you into realizing we‚Äôre sick of this? When did you become traitors to your own country?

10/19/25 9:30 PM	Kristen Howard		Thank you for this opportunity to share my opinion as a North Carolina resident. I ask that you reconsider mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. With 10 of the 14 representatives already Republican, we currently don,Äôt have a fair representation for democrats. This is a blatant, greedy power grab, and is a form of CHEATING. Are you that insecure that you are not willing to set up and run in fair elections? True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. Please reconsider this cowardly act, Kristen Howard
10/19/25 9:30 PM	Mrs Amanda Harrison		The proposal to redistrict undermines the notion of ,Äúfair representation,Äù.
10/19/25 9:30 PM	CB ALEXANDER		More than. half of the voters in NC are registered as Democrats. Any attempt to strip these voters of representation according to their numbers is blatantly anti-democratic. The GOP members of the state legislature are engaging in a cynical attempt to eliminate from this country the principle that once, at least in theory, made citizenship equal: one-person-one-vote. Let's call it what it is: an attempt to silent more than half of NC's registered voters. No jurisdiction can call itself democratic when it chooses this representational theft. It is no exaggeration that this is an act of voter suppression indicative of an authoritarian regime.
10/19/25 9:30 PM	Connie Wallace		The maps should not be redrawn again yet. That shouldn,Äôt be done until after the census. Doing it now is clearly just a way to try to win by cheating. If candidates can,Äôt win without further gerrymandering, they shouldn,Äôt win. They should be out there telling us their stance on policies and what they will legally fight for, not being lazy and cheating. I am and have always been registered as unaffiliated. I believe in people, not parties. The number one most important American value is the right to have your voice heard and your vote count. I promise that I will not vote for any candidate that supports redrawing the maps before the next census results.
10/19/25 9:30 PM	Gretchen Henn		I ask that you refrain from the mid-decade congressional redistricting that is being considered. As you well know, Gerrymandering violates core principles of fairness, accountability, and limited government. It disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. Regardless of partisan politics, once elected you represent all North Carolinians and are morally and ethically called to protect their votes equally. A full 3/4 of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. I call on you to honor and respect the wishes of your constituents to end gerrymandering and ensure that government remains accountable to the people it serves.
10/19/25 9:30 PM	NA Jay W	Independent	I believe this is unconstitutional to redistrict only to create a partisan advantage. What will it take for government leaders to stand up to this intimation by a corrupt administration. Listen to Thom Tillis.
10/19/25 9:31 PM	Henry Kirse		The N.C. districting map should be adjusted to remove gerrymandering. What is happening to squeeze another Republican seat without a census to support it, is operating against the will of the people. Redrawing the map right now should be stopped. It is clearly to appeal to a single person who doesn,Äôt care at all about anybody but himself. He certainly doesn,Äôt care about North Carolina, so why are republicans here trying to help him?
10/19/25 9:31 PM	Kathryn Mueller		Please do not engage in mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps. A super majority for any party - which is the goal and almost certain result of this redistricting scheme - destroys fair representation of NC voters who are 38% Unaffiliated, 32% Democratic, and 30% Republican. As our elected officials, it is your moral duty to ensure government remains accountable to the people it serves.
10/19/25 9:31 PM	David Kingsley		Hands off our elections!
10/19/25 9:32 PM	Congressional Districts Andrew Mara-Williams		I am extremely disappointed in this blatant gerrymandering of NC congressional maps. Voters choose their representatives, not the other way around. I urge the state legislative to drop this issue and focus on issues impacting NC residents.
10/19/25 9:32 PM	Sarah Gulley		Do not redistrict. Redistricting mid-decade violates both long-established norms and the will of the voters. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. I am among those North Carolinians, and clearly I am not alone. This is an issue of loyalty to country over party.
10/19/25 9:32 PM	ms Martha Crotty	person	this is so sneaky and wrong. we are not your pawns to be moved around for your benefit. you are supposed to be serving US. let our votes count fairly.

10/19/25 9:32 PM	Redistricting Susan Shaddock		Didn‚Äôt redistricting just occur in 2023? What‚Äôs the reason for doing it again so quickly? Why hasn‚Äôt the session time been announced? Public input MUST be allowed. Are you Republicans really going to let Trump tell you how to vote? Are you more loyal to him than to the constituents who elected you? Think about what you are doing!
10/19/25 9:32 PM	Mrs. Carolyn Bazemore	Retired State Employee Education Admin	As a retired state employee, we do not need new district maps, but the legislators need to do their jobs and pass! a State Budget that will look out for the hard working people here in North Carolina!
10/19/25 9:33 PM	How Dare You? Caitlin Gilbert		This is an egregious power grab. How dare you coe-tow to the president and redistrict for political gain and favors? Your constituents did not support you in order for this to happen. For shame.
10/19/25 9:33 PM	Kathryne McKissock		I do not want to see my state buckle to Trump's pressure to corruptly gerrymander the state to interfere with fair elections. This partisan corruption has to stop.
10/19/25 9:33 PM	Rev Amaretta Onstad	ELCA pastor	Please do not engage in mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps. In a state that is approximately 50/50 between Republicans and Democrats, our districts are already lopsided. Do not make them more lopsided. All citizens deserve the right to choose their representatives.
10/19/25 9:33 PM	Mrs Terry Wooding	None	I am deeply concerned about this plan to redraw Congressional districts, and urge you to reconsider what you are doing. Gerrymandering of districts results in predetermining election outcomes and this process does not allow voters to choose their representatives. This is not how our country‚Äôs forefathers envisioned government of the people, for the people, and by the people. Please let us have our voice, and do not take our right of self- determination away from us!
10/19/25 9:33 PM	Mrs Christina Premeaux		I am writing today to urge you in the most emphatic terms to vote no on the proposed redistricting plan for our state. Redrawing congressional districts specifically to ensure that only one party ever has a chance of winning any given election is unequivocally wrong. Gerrymandering is just plain wrong. Do not stoop to that level. As your constituent, I ask you to vote no.
10/19/25 9:33 PM	Ms Cherie Marcus		This country is as great as it is because we work hard to maintain a democratic process, especially after the hard-one voting rights act. Just because you can legally redraw district lines, it's unconscionable for you to even consider doing so in order to leave viable voters without a voice. That's what your reprehensible action would cause. The world is watching while state legislatures across the country are invalidating voter rights, something that our country was admired for. This an embarrassment.
10/19/25 9:34 PM	Nicole Clinchard		I think it is sad how no one seems to have morals any more. Redistricting takes power away from the people and the vote. Be a true representative of your state and the people. Vote against redistricting!
10/19/25 9:34 PM	Mrs Maureen A BLAIS-GESTRICH		The only reason to gerrymander, at this point is to unfairly gain seats to benefit one party, namely, the GOP. The only reason this gerrymandering is necessary is because the GOP understands that it can't win elections fairly, as their policies are extremely unpopular, as evidenced by the no king's protests, this past weekend. North carolina has been balanced.It is this balance between the right and the left that makes a healthy state. I come from Florida and the republican party has pretty much destroyed that state. I hope that you do not allow that to happen here. Texas and Florida are both great examples of what happens when one party takes over unfairly, and puts forth policies that are detrimental to its citizens.

10/19/25 9:34 PM	Ms Joan DuVal		This should not be permitted 1. It violates the principle of fair representation When district lines are drawn to favour one party (or to dilute another,Äôs voting strength), the maps can distort what voters actually prefer. For example, in North Carolina, even when statewide vote totals were close, the congressional delegation was skewed heavily toward one party because of how districts were drawn. Democracy Docket +2 Charlotte Magazine +2 The effect: voters may cast ballots, but the system is rigged so their preferred candidate has little realistic chance, which undermines the core democratic principle of ‚Äúone person, one vote,Äù. 2. It weakens accountability of elected officials When districts are engineered to be very safe for a particular party, incumbents face little risk of losing. As the League of Women Voters of NC puts it: ‚ÄúGerrymandering greatly reduces office-holders‚Äô accountability to the voters because they are in safe districts.‚Äù MyLO +1 This creates a situation where elected representatives may feel less obligated to respond to constituents broadly, and more to their party or narrow interests. 3. It fosters polarization, gridlock and extremism Safe seats often mean that primaries become the only real contest, pushing candidates further toward the ideological extremes of their party rather than toward the center or toward compromise. According to reporting in NC, gerrymandering ‚Äúpolarises,Äù the legislature by creating fewer competitive districts. Charlotte Magazine +1
10/19/25 9:34 PM	Claudia Kaplan		Please stop this unethical and unfair plan. Republicans already have a map that does NOT reflect the number of Democratic & Republican voters in the State. Plus, redistricting should only occur once every 10 years. This is just a sad ploy to try to stymy the will of the people and try to keep the Trump administration's agenda from being thwarted. Very unethical.!
10/19/25 9:34 PM	Amanda Unruh		The maps were last redrawn on October 25, 2023. How can they possibly have changed that much in two years? By law, redrawing should occur every 10 years, after the US Census Data is released. Leave the maps alone.
10/19/25 9:35 PM	James McGee		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It‚Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS
10/19/25 9:35 PM	Bette Meyer		No Gerrymandering. Democracy = everyone,Äôs vote counts equally.
10/19/25 9:35 PM	Heather Lee		No gerrymandering, please. We need independently drawn districts in our state.
10/19/25 9:35 PM	Tami Gray		No redistricting!
10/19/25 9:35 PM	Cheminne Taylor-Smith	Just a NC citizen	Taxation without representation. Do you remember where that saying came from? More gerrymandering is not offering us the representation we deserve in this state. And I would say that no matter which political party was proposing these ridiculous maps. Are you that scared of what the real results would be if you quit cheating?? Leave well enough alone or we will see you in court AGAIN.
10/19/25 9:35 PM	Deirdre Sheehan-Gosselin		Are you really attempting to pass this redistricting knowing that your constituents turned out 24hrs ago to voice significant dissent for Trump's agenda? Shame on you for assuming we are ignorant...I will protest yet again tomorrow at the Legislative Bldg. To voice my continued dissent for such a racist and manipulative strategy to silence our votes.
10/19/25 9:35 PM	Renee Johnson		While we elect lawmakers under partisan banners, North Carolinians expect every official to uphold fairness and protect the equal value of every vote. Across the political spectrum,ÄîRepublicans, Democrats, and Unaffiliated voters alike,Äî76% agree it should be illegal to draw maps that discriminate by party. This consensus reflects a shared commitment to fairness, transparency, and trust in our democracy. I urge you to honor that trust by rejecting partisan gerrymandering and ensuring that every North Carolinian,Äôs voice is heard and represented equally.

10/19/25 9:36 PM	Pamela Smalley		You are cheating the majority of NC voters of our right to choose our candidates. Your spineless groveling to a convicted felon and treasonous thug is reprehensible.
10/19/25 9:36 PM	Ms Jean Hedges		Uphold our democracy and constitution! Stop with the deceitful gerrymandering! Karma is a bitch!
10/19/25 9:37 PM	Deborah McGovern		Gerrymandering is undemocratic. I believe in one person one vote and packing/cracking the NC population dilutes my vote. As a state that votes pretty regularly for a Democratic Governor means we are a 50/50 state yet the US congressional NC delegation is currently 10 Republicans and 4 Democrats. You want to make it 11 Republicans and 3 Democrats or better and you want to regain your super majority in the NCGA. This is not how a democracy should work.
10/19/25 9:37 PM	Ms Victoria Lamberti		Gerrymandering is bad for democracy & North Carolina.
10/19/25 9:38 PM	Dr Cheryl Swofford	Retired clinical researcher	Redistricting should not be done in a way that deliberately gives one party or another a political advantage. Gerrymandering such as was done to prevent Jeff Jackson from being re-elected to Congress, for example, was disgraceful. It is a dirty, dastardly practice that no party should perform. I hate how Hillary got about 3 million more popular votes in 2016, but Trump won the electoral college. And how Al Gore got about 500,000 more popular votes than Bush in 2000 but lost by 5! electoral votes. Gerrymandering helped defeat the people's choices. A constitutional amendment should get rid of the electoral college. And common human decency and legislation should get rid of gerrymandering.
10/19/25 9:38 PM	Cynthia Flynt	Venture Rehab Group	Dear North Carolina Legislators, I am writing as a concerned citizen to urge you to halt any further efforts to redraw district maps in ways that unfairly favor one political party. North Carolinians deserve fair and equal representation ,Äî not maps that are engineered to entrench power or silence voices. Partisan gerrymandering undermines the very foundation of democracy. It manipulates district boundaries to predetermine outcomes, discourages voter participation, and erodes trust in our electoral system. I urge you to stand for transparency, fairness, and accountability in the redistricting process. Please do not allow our state,Äôs political future to be dictated by national partisan agendas or by allegiance to any individual political figure. North Carolinians deserve to choose their representatives ,Äî not the other way around. Let,Äôs commit to protecting the integrity of our democracy and ensuring that every vote counts equally. Thank you for your time and your service to the people of North
10/19/25 9:38 PM	Leslie Dickerson		I think gerrymandering of voting districts in our state should be illegal. It takes away the power of the people of North Carolina, and contributes to the growing distrust of our government officials.
10/19/25 9:39 PM	Tracie Hickman		My name is Tracie Hickman and I live in Statesville, Iredell County, North Carolina. I'm writing to voice my opposition to the redistricting effort Republicans are trying to pass in North Carolina this week. It is deeply concerning that the state legislators would prioritize partisan power grabs instead of the people of North Carolina. Teachers and state employees have waited 107 days without a raise and school systems are operating on last year's budget because the Republican-led legislature is refusing to do its job. Do the work of the people of North Carolina, not the work of a political party.
10/19/25 9:39 PM	Ms. Sandra Block		Redistricting is supposed to be done based on population after a Census (every 10 years). It was not meant to be used as a political tool. This is the 4th time in 5 years and a ridiculous plan. How about you do something that will actually help the citizens of North Carolina, like pass a budget and assure that public schools are property funded and that your constituents have adequate and affordable healthcare.
10/19/25 9:39 PM	Ms. Anne LeMay		This redistricting absolutely does not represent the will of the people, serve the good of the people, and is a direct attempt to overthrow our democratic process. Those supporting this will be remembered as the elected representatives who actively chose greed for money and power over representing the people who trusted them with the duty to serve democracy. North Carolina deserves better.
10/19/25 9:40 PM	Redistricting Comments Dorothy McIntyre, Ed.D	Retiree	As a Rotarian for almost forty years and a retired College educator, I implore you to please do the right thing for our country. Do not cheat to win. Be fair to all concerned. Do not participate in gerrymandering. You know right from wrong. Represent our state by being above anything that takes away from doing good in our country. Thank you!

10/19/25 9:41 PM	Susan Kendall		1. I ask that you refrain from mid-decade congressional redistricting. 2. Gerrymandering violates the principles of fairness, accountability, and limited government. Gerrymandering does NOT uphold conservative values! 3. True conservative values demand transparency, integrity, and competition,Äîelections won through ideas and persuasion, not through the manipulation of electoral maps. 4. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 9:41 PM	Mr Blake Barrington		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education, Medicaid and more essential to North Carolinians. It,Äôs clear you care more about coveting power, protecting billionaires, and appeasing Donald J. Trump than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS. You already STOLE three districts in 2023, and you meant for it to have been four. If you feel the ground and agenda you stand on is so firm and desired by voters, then run on it without having to pick your voters and diluting the votes of anyone else. Otherwise you are pathetic, weak cowards who show yourselves to be anti-democratic and un-American. The NC GOP must stop this corrupt behavior now! This is shameful,Ä¶ if you all had any shame left. We will vote you out one way or another. STOP GERRYMANDERING AND DISTRICT STEALING NOW!
10/19/25 9:41 PM	Ms Julie Frey		If you can't win fair and square, then cheat. I guess that is the r$publican motto. R$publicans, aka traitors.
10/19/25 9:41 PM	MS Barbara Gibson		The Republican Party cannot win anything without cheating, and that is so clear and evident now with their gerrymandering to win 1 extra seat in the House. We see you and remember, Republicans will not be in control forever. You are digging your political grave by cheating and obeying what Trump and Miller dictate.
10/19/25 9:41 PM	Mr Donald Mott	Donald Mott	I am against redistributing that will make the Republican majority larger due to gerrymandering. This is diminishing the value of each person,Äôs vote, and is inherently unfair.
10/19/25 9:41 PM	Ms Lisa Lengowicz	Lake Orange Sunrises	I oppose any redistricting plan that gerrymanders districts for partisan gain. North Carolina voters deserve fair maps that reflect real communities,Äînot lines drawn to steal representation or silence voices. Please prioritize fairness and transparency in this process.
10/19/25 9:42 PM	Claudia Wilson		Republicans are worried they can,Äôt win on their record so they will cheat to win.
10/19/25 9:42 PM	Sherman Sprague		Gerrymandering is not an option. Leave redistricting alone!
10/19/25 9:42 PM	Mr. Richard Ransom	Retired government worker	Please do not redistrict in NC at this time. As a lifelong republican, I feel that this action is unnecessary and a waste of legislative time and money. Please deal with more important matters such as hurricane recovery and health care.
10/19/25 9:42 PM	Districting unAmerican Autumn Campbell		This is a deliberate act to silence and dilute the voices of NC voters and there is nothing more unAmerican than that. It,Äôs an assault on our democratic ideals regardless of what those voices stand for. Leave the map alone!
10/19/25 9:42 PM	Patricia Clawson		I urge you not to move forward with redistricting at this point. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. At a time when people want to renew faith in free and fair elections, our state should not be changing the rules in a partisan way.
10/19/25 9:42 PM	Dr. Dawn Moore		The meeting tomorrow to essentially fix the maps in favor of the Republicans lacks of transparency, a rushed timeline, and inadequate public notice. The Democrats and PUBLIC should have been informed of this meeting well ahead of time. And the Democrats still do not know the time? Why? The late scheduling of committee meetings, in particular, suggests a lack of commitment to public input and EXTREME disrespect to your colleagues. You keep forgetting that you are supposed to serve your constituents, not your political party or Trump. Gerrymandering weakens accountability by creating "safe seats" where representatives only have to answer to their party's base because you can't answer to Democrats? Your party base is turning against you too. This isn't going to help.
10/19/25 9:43 PM	Dr Makunda Abdul-Mbacke		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable.

10/19/25 9:43 PM	Dr. Cassandra Conover	Nash County Democratic Party	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 9:43 PM	Corey Ritchie		This redistricting is completely unnecessary. The maps were last redrawn in 2023. Gerrymandering is voter suppression. This is a blatant power grab to retain control over the government. If republican,Äôs ideals are so popular and true, why can,Äôt they defend them in public? Why can,Äôt they fight fair with fair elections? Those who claim to swear by the constitution and freedom sneak around behind close doors scheming to fortify their grip on power. They claim to love America but bow before a wanna-be king. Cowards, traitors, fearful little men who care nothing for people or democracy.
10/19/25 9:44 PM	Teddy Burriss		A bipartisan redistricting commission is important because it removes map-drawing from self-interested politicians, forces cross-party agreement under transparent, neutral rules, and yields fairer, more trusted districts forever. Do this the right way as a final answer to how to perform redistricting: Create an independent, citizen-led commission, not politicians, to draw election maps using ranked, neutral rules (equal population, VRA, contiguity, compactness, fewer splits, communities of interest, optional competitiveness), with open meetings, public map submissions, a nonpartisan mapping staff, supermajority cross-party approval, no mid-decade do-overs, full data transparency, and swift court review if anything goes wrong. Again, do this right, finally, with a forever system.
10/19/25 9:44 PM	Ms Jennifer Zervakis		I would like a non partisan, independent committee that is shown to be impartial drawing up district maps. I would like our reps to vote for such "we the people" law nationwide. This will ensure that representative truly reflect the will of the people. Thank you.
10/19/25 9:44 PM	Courtenay Morgan		Gerrymandering is bad for democracy and NC.
10/19/25 9:44 PM	Mrs. Carolyn Bazemore	Retired State Educator Administrator	We do not need new district maps. Please do your job and pass a state budget that will help the hard working people of North Carolina. Do your job that you were elected to do!
10/19/25 9:45 PM	David Curtin		Redistricting at this time should not be done. This is just an attempt to placate the president, and try to grab power.
10/19/25 9:45 PM	Mrs. Martha Melugin	N.C. voter	Any redistricting needs to be done with ALL ELECTED PARTIES INFORMED of meeting times & PRESENT to represent the citizens who voted them into office. PLEASE be just and fair in your decisions. Many citizens are hurting because of the government shut down and desperately need assistance.
10/19/25 9:45 PM	Elizabeth Clerkin		As a citizen of this state, I live by the laws and regulations. To change the rules now, without an existing crisis that would necessitate this change, defies reasonable explanation. You are not above the law of our state. You work for us and serve us, per your oath. There are so many actions you could take to serve us. Please remember why you are elected, why you decided to run for office. I cannot believe you ran to deny citizens equal representation under the law.
10/19/25 9:45 PM	Sherra L.		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/19/25 9:46 PM	Dr. Andrea Sherk		Redrawing the congressional map in order to take a Congressional seat from a Black Congressman and dilute Black people,Äôs voting power in his district is racist and wrong.
10/19/25 9:46 PM	Shawna Schnorr		We should be reducing gerrymandering, instead of increasing it. All people deserve to have their voice count, and gerrymandering undermines the voices and degrades our democracy.

10/19/25 9:46 PM	Stop gerrymandering	Jennifer Stone	Representatives. Your role as elected officials is to represent all of your constituents, not just the ones who vote with the current majority. Continuing to gerrymander voting districts to favor one party is a misrepresentation of half of the NC population. I object and insist that you do the job you were elected to do instead of capitulating to the president,Äôs pressure.
10/19/25 9:47 PM	Dr. Carolyn Stuart		I am highly opposed to the redistricting being considered. It is imperative that all North Carolina citizens' voices be heard. I urge you to vote against redistricting.
10/19/25 9:47 PM	Mrs Sarah Potter	Meet the Need	Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. Please do not try to redraw the maps again to rig the elections. That is not what Democracy is about. We need citizens to trust our institutions. Our elections should be about true citizen representation and not holding onto power by changing the rules.
10/19/25 9:47 PM	Dr Monica Horvath		I have lived in Cary NC since 2005. I highly oppose the redistricting efforts- it is a twisted power grab for one party to choose their voters. We don,Äôt even have a state budget- does the GOP have any shame at all? This is assault on our right to be fairly represented as a purple state.
10/19/25 9:48 PM	Mrs. Maureen Hayes		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable.
10/19/25 9:48 PM	Marva Short	CMS County Schools	Please vote NO on the proposed redistricting. Redistricting typically happens once a decade. There have already been three changes to districts- a fourth time is suspect!
10/19/25 9:49 PM	Lauren Jennings		Please explain why redistricting AGAIN is even a consideration. Gerrymandering is illegal and what you are doing with redrawing these maps is exactly that. The only reason I can see, is so republicans can keep control. If republicans would actually care about their constituents, then maybe they wouldn't have to worry about redrawing the maps each time they know they're losing power. Please consider the welfare of your communities, and do what is right. Not what you want so you can stay in power.
10/19/25 9:49 PM	Virginia McKinley		No more gerrymandering between census years! Excessive gerrymandering is already bad for voters, bad for North Carolina, and bad for democracy in the entire United States. Voters need to select (vote for) their representatives and senators; candidates should not be selecting the voters they wish to have in their districts. Once elected, those who win their elections are responsible for serving ALL those they represent in their districts and states, not just a chosen few from a single political party or a narrow interest group.
10/19/25 9:49 PM	Ms. Marlena Byrne		This proposal is not needed, rushed and will cost taxpayer money. North Carolina has already been redistricted twice since 2020,Äiit,Äôs ridiculous to do it again now. The public is not being given enough time to consider this proposal. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. This is unnecessary, expensive, and unfair.
10/19/25 9:49 PM	Steph Enders		This is SHAMEFUL to redistrict in this hyperpartisan way! You are AFRAID of your constituents!
10/19/25 9:50 PM	Linda Abrams		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolinians' power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of NC voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Thank you.
10/19/25 9:50 PM	Catherine Franklin		As a voting resident of Wake County North Carolina, I am against the republican attempt to redistricting my state!
10/19/25 9:50 PM	Lois Tajlili		Our representatives priorities should be to draw fair maps that serve the people of NC , not greedy politicians. Stop the extreme gerrymandering!
10/19/25 9:50 PM	Stacy N		This is not ok. This is cheating. Do NOT redistrict!

10/19/25 9:50 PM	Michael Christofferson		I am writing to express my strong opposition to the recently proposed redistricting maps. These maps do not reflect the fair and equal representation that North Carolinians deserve. Instead, they appear to be drawn to serve political interests rather than the interests of our communities. Redistricting should be about ensuring that every vote carries equal weight and that communities are kept together, not divided for partisan gain. The proposed boundaries dilute the voices of many voters,Äîespecially those in diverse and growing areas,Äîand undermine public trust in our democratic process. North Carolina citizens have repeatedly called for transparency, fairness, and accountability in how our districts are drawn. Yet, this process has once again taken place behind closed doors, ignoring the input of the very people it affects. This is unacceptable. I urge you to reject these maps and return to the drawing board with a genuine commitment to fair representation. Our democracy works best when voters choose their representatives,Äînot the other way around.
10/19/25 9:51 PM	Mr michael Dermody		I am a republican from Brevard. I am truly ashamed that my party is doing this. Is it because you lack the courage to say ,ÄúNO,Äù. I just can,Äôt believe you guys would do this. There has not been that much of a change,Ä¶ or maybe I missed a census that would make redistricting ok,Ä¶. Wow! You guys are really shameless,Ä¶ or just plain have no balls to do the right thing.
10/19/25 9:51 PM	Cara Ross	MomsRising	Fair congressional maps should be standard. By creating gerrymandered maps you are warping the will of the people into the will of the legislature, Elected officials are supposed to serve their constituents not just President Trump or a single party. I urge you to not adopt the proposed changes to district maps.
10/19/25 9:51 PM	Jim Harrell		So Trump doesn't give us any FEMA money or help rebuild a goddamn thing and freezes out our public schools and yall do nothing but lick his boots. We deserve fair maps. Then you could maybe try and win on ideas instead of cheating like the trash you are. Y'all can't even pass a budget you're pathetic
10/19/25 9:51 PM	Ms. Aviva Starr		Mid-decade congressional redistricting would increase the inaccuracies in North Carolina,Äôs federal voting maps reducing North Carolinians,Äô power to elect candidates of their choice. Gerrymandering disrupts local control by dividing natural communities.
10/19/25 9:52 PM	Ms. Amy Marschall	private citizen	Dear GOP, Are you trying to hold on to power forever? You know that never works. No one has ever stayed in power forever. And what comes around goes around. It would make a lot of sense right now, right in the middle of the decade, to pass a law outlawing gerrymandering rather than increasing it. Please consider moving away from gerrymandering rather than increasing it.
10/19/25 9:52 PM	Dr. Marlene Cohen		Do not redistrict.
10/19/25 9:52 PM	Denise Trujillo		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable.
10/19/25 9:53 PM	Rev Nanette de Andrade		Please do not further distort the imbalance of representation in North Carolina. In a state which is pretty evenly split between D, R, U voters, it is important to fairness and to our constitution ,Äòs mandate to have equal representation. A strong majority of all North Carolinians agree that partisan gerrymandering, especially at this time, is harmful to the democratic process. To maintain the peace and stability of our state and nation, and the accountability of our representatives, please only work toward NC having non-partisan, sensible and community-building districting.
10/19/25 9:53 PM	Myra Walsburger		Please support a national district plan that is non partisan. I understand democrats started this practice but please do the right thing for NC citizens. Gerrymandering is unfair and unlawful and the majority of the state is against it.
10/19/25 9:53 PM	Krista Laforest		There is strong, bipartisan evidence, with 76% of North Carolina voters in agreement- it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. In 2023, new congressional district maps were drawn in North Carolina, heavily favoring the Republican Party. This proposed plan to once again redraw maps will help the Republican party secure a super majority in the NC House and Senate in the 2026 election. This skews fair representation of NC voters who are 38% Unaffiliated, 32% Democratic, and 30% Republican. I strongly oppose this plan and urge these committees to end gerrymandering and do their duty to ensure government remains accountable to all the people it serves.
10/19/25 9:53 PM	James Mitchell		I find it appalling the Republicans continue to use gerrymandering in this country to steal seats and make minorities votes not matter. This country is suppose to be built on the facts that everyone votes count and Retrumpikins (MAGA Republicans) know they can't win in a fair election. So resorting to changing maps to flood districts with their constituents is an obvious power grab and should not be allowed. Please do not allow Republicans to continue to cheat in elections and ensure everyone votes matters. Thank you!

10/19/25 9:53 PM	Daniyar Ray	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 9:54 PM	Mary Miller	Let,Äôs have fair elections. No redistributing.
10/19/25 9:54 PM	Dr. Jennifer Lucitti	North Carolina is a "classic" "purple" state electing Democrats as Governors and Republicans as state representatives in Congress. An 11-3 map would have Republicans winning nearly 80% of the U.S. House seats when North Carolina is not by any stretch 80% Republican. This unfair mid-census gerrymandering was started by Texas governor Abbott at Trump's request and North Carolina Republicans are throwing North Carolina under the bus if they vote to gerrymander and already gerrymandered map to try to steal power from the *actual people of NC*. You represent *US*, not yourselves.
10/19/25 9:54 PM	Sharon Moore	I find it appalling that you plan to present another set of gerrymandered election maps. Where are you when it comes to producing a budget that protects the most vulnerable North Carolinians? You were elected to serve all your North Carolina constituency and not Donald Trump.
10/19/25 9:54 PM	Pam Piper	This manipulation and division of our state has to stop! There is no true representation of the people anymore- true conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps! 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law Show some backbone and actually REPRESENT the will of the people you were elected by. Enough is enough .
10/19/25 9:54 PM	Julie Evans	I strongly oppose the proposed redistricting plan that would eliminate the congressional seat currently held by Rep. Don Davis. This move appears to be a blatant partisan power grab that undermines fair representation and the democratic process. Redistricting should reflect population changes and community interests ,Äî not political manipulation. The current proposal threatens to silence the voices of thousands of constituents who deserve equitable representation in Congress. I urge the legislature to reject this plan. This action does not respect the will of the voters.
10/19/25 9:55 PM	Mr. Bill Webster	Leave it alone!!!
10/19/25 9:55 PM	Mr Wiliam Todd	Why is still being done out of cycle if not to illegally and blatantly gerrymander NC disenfranchising thousands of voters. The fact that the political affiliation of our US House Representatives is not even close to matching the breakdown of party affiliation of registrated voters in this state is sad enough. Now you are attempting to redraw districts out of cycle to attempt at making it even more obvious you are doing the week-kneed bidding of the POTUS.
10/19/25 9:56 PM	Mrs. Charmaine Hardison	Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. We will fight to stop the steal! And we will hold all politicians who participate in this blatant act of autocracy accountable.

10/19/25 9:56 PM	Lynda Carlisle		As a North Carolinian, I ask that you REFRAIN from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode North Carolinians,Äô power to elect candidates of their choice. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure that our government remains accountable to the people it serves. Again, I ask you to REJECT any new congressional maps at this time.
10/19/25 9:56 PM	Dr Carter Heyward	Retired clergy	Partisan gerrymandering is outrageous. Period. This attempt to manipulate our representation should be rejected, hands down.
10/19/25 9:57 PM	Melinda Abrams		I am writing to express my disappointment in the General Assembly taking time to draw unfair redistricting maps. I am concerned about the current redistricting process. The people of North Carolina deserve fair and transparent district maps that accurately represent our communities and ensure that every vote carries equal weight. Partisan-driven redistricting undermines public trust and weakens the democratic process. I urge you to adopt a fair and open approach that prioritizes the interests of voters rather than political advantage.
10/19/25 9:57 PM	Dr. Sheryl Caplan		The redistricting was last done in 2023 and should be done only after the census every 10 years. There is zero reason to do this except trying to suppress Democratic votes so the NC Republicans can be even more overrepresented in Congress! This is unethical, immoral at a minimum and likely illegal! Also - I understand (at 9:45 pm on Sunday evening) that the democratic representatives of the NC legislature have not been told when the legislature is convening to vote on this. Stop trying to do shady things under the cover of darkness. If you think what you,Äôre doing is right why not do it correctly by asking for a reasonable period of public commenting and discussion in the legislature from ALL of the members. The majority party says they are Christian and then actively defy what God and Jesus direct Christians to do - Love their neighbors as themselves. The manipulation (setting things up to steal seats in 2026) that the Republican leaders are doing right now would have Jesus flipping tables! Best of luck to you all on judgement day and also in the next election.
10/19/25 9:57 PM	Redistriciting NC statee Judith Adams	pleasure	Redisricting NC maps will result in reducing the possibility for Many NC residents to ?ave an equal chance to legally have their votes counted in elections by depriving them the opportunity to vote.
10/19/25 9:57 PM	Ms Katherine Barron		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable.
10/19/25 9:58 PM	Beth Lehman		I strongly oppose redistricting NC. It cheapens the political power of North Carolinians and all Americans. Do not disenfranchise voters, we are gerrymandered enough.
10/19/25 9:58 PM	Stephanie Luther		There should not be any redistricting. Redrawing lines for political gain is a misuse of power and abuses the public trust in the system.
10/19/25 9:58 PM	MaryKay Davis		With God as your witness, draw the maps fairly and representing NC constituents.
10/19/25 9:58 PM	Mr. WILLIAM HOLLAR	N/A	Don't do it. Even entertaining the notion of further redistricting in the middle of the decade is a disgusting behavior. To act upon it is antithetical to democracy, morals, and civilized ethics. To use it for increased aggrandizement of partisan power and the relative disenfranchisement of North Carolinians and Americans would be an obscene, unforgivable abuse of power. To be, rather than to seem. The act is antithetical to reality.
10/19/25 9:59 PM	Nancy Dixon		I object to the proposed redistricting map because it gives Republicans an unfair advantage and does not give equal and fair representation of all NC voters. You are undermining our constitution and free and fair elections!
10/19/25 9:59 PM	Julie Jackson		We do not need a new election map in NC. When the time comes, a new election map should be drawn by a bipartisan committee, not gerrymandered by one party. Our democracy depends on free and fair elections for everyone. Everyone deserves for their vote to count and for their voices to be heard. If you don't think your party can win fairly then you need to reconsider your party's policies, not rig the system in your favor. Instead of spending time on gerrymandering, you need to pass a budget and pay teachers what they deserve.
10/19/25 9:59 PM	Debbie Kirkbride		Gerrymandering, no matter which party does it, disrupts local control of our communities by dividing their natural boundaries. This only serves further empower political insiders and disenfranchise voters
10/19/25 9:59 PM	Robert McGee		North Carolina is about evenly distributed between republican, democrat and unaffiliated voters. Due to the partisan gerrymandering we have overwhelming representation by republicans, and now you want to go even further. If you would support the needs of your constituents and put up viable candidates, you would be able to compete on an equal playing field. But you would rather cheat, and suppress votes rather than doing the right thing.....sad.
10/19/25 9:59 PM	Linton Phillips		I support the initiative of redistricting Congressional seats in NC.

10/19/25 10:00 PM	Mrs Carrie Nelson	It is shameful to watch Republicans engage in bold-faced partisan efforts to change NC maps mid-decade just to please President Trump, rather than putting the needs of North Carolinians first. Changing the first and third districts so that they are solidly Republican districts is not fair, right or just. Our state maps are already gerrymandered such that they do not accurately represent how North Carolinians vote and it is embarrassing that our State Legislature is using precious time to cheat in elections instead of passing a budget that funds essential state services like Medicaid. This new map is shameful!
10/19/25 10:00 PM	Dionne Sills Busio	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government.
10/19/25 10:00 PM	Mr William Hamilton	I was asked to comment on the proposal to engage in mid-decade redistricting. I must, therefore, express my strong opposition to such a course of action. I was offered talking points in support of my opposition, but they were so effectively stated that I did not think I could do better than to quote them here: * (M)id-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. *Gerrymandering violates core principles of fairness, accountability, and limited government. *Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. *While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. *Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. *True conservative values demand transparency, integrity, and competition,‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. *Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. I find these points absolutely persuasive, and so, I believe, should every member of the North Carolina legislature.
10/19/25 10:00 PM	Patricia Johnson	I urge you to refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. We must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Please do not attempt mid-decade congressional redistricting for all the reasons llisted above. Thank you for your consideration. Sincerely, Patricia M. Johnson, Candler, NC 28715
10/19/25 10:00 PM	Melissa OConnor	Let the voters pick their representative, not the candidate picking their voters.

10/19/25 10:00 PM	Mrs. Harriet Altman		This is outrageous that you are redrawing the lines to rob us of a fair election. And in the process, you,Äôre not getting things done for your constituents such as passing the budget! This is wrong!!! we,Äôve never had a president make such demands!
10/19/25 10:01 PM	Kris Stringreaber		For a democracy to work, we need honest systems - one person - one vote. Gerrymandering districts to affect this outcome, are undemocratic. No to restricting to create unfairness.
10/19/25 10:01 PM	Strange map changes Barbara Creighton		There should be public hearings around the state about the proposed map. Redistricting needs extensive public input unless, of course, the object is to disenfranchise anyone the current politicians don,Äôt believe will vote for them. Shame on you if that is the intent!
10/19/25 10:01 PM	Ms. Deborah Norton	Member of a Baptist Church h	I am very frustrated that the ability of many North Carolinians to have their votes matter is being gerrymandered away. A basic sense of fairness and decency is essential for good governance. How can you bear to disregard it? Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally.
10/19/25 10:01 PM	Dawne Cornelius		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. I am appalled that Republicans are continuing this method of trying to control the way people are being elected.
10/19/25 10:01 PM	Fair district plans Kristin Ferriter		Do not tamper, or rig plans to benefit one political party over another. All Candidates, regardless of political affiliation should be given equal chance to win. Never is it okay to to ,Äòrig,Äô or cheat. It,Äôs not really a ,Äòwin,Äô if it isn,Äôt fair; it,Äôs deceitful and unethical.
10/19/25 10:01 PM	Ms. Edwina Beavers		Greetings House Select Committee on Redistricting and Senate Elections Committee, As a resident of North Carolina,Äôs Congressional District 1, I respectfully urge you to reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is an unconstitutional, illegal and unethical attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/19/25 10:01 PM	Heather Brose		Maybe pass a budget and actually finish the original business you have been tasked with before starting new business please.
10/19/25 10:01 PM	Elizabeth Blackmore	Retired	I will not support any more redistricting in our great state of North Carolina. Please desist any more work on this issue.
10/19/25 10:01 PM	Gina Dowd		I pray that you will demonstrate courage, good leadership, and integrity by REJECTING the attempt at gerrymandering/cheating the democratic system. Period. No excuses, finger-pointing or blame-shifting. Just courage, so rare these days. It may be hard in some ways (I recognize only the brave and courageous can do this), but think how good it will feel when you look in the mirror.
10/19/25 10:02 PM	Sarah Hollar	Citizen you serve	True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. You were elected to represent all people in NC not just us who voted first you. We want you to do the ethical thing
10/19/25 10:02 PM	Mr. and Mrs. Robert Ford		We strongly disapprove of mid-decade redistricting for no reason other than to gain a political advantage. Efforts like this seek to deprive us voters from adequate representation and render our votes meaningless and worthless. Indeed, if you assure your victory by manipulating districts, you guarantee that a huge number of voters receive no representation at all. Clearly, our state has many Democrats; otherwise, we would not have elected a Democrat for governor for the last several terms. You should seek to fairly represent the electorate. If you have good policies, you will succeed. Cheating undermines our trust. Do the right thing. Wait until the next census to re-evaluate our districts. When that time comes, support a fair, representative apportionment of districts. Voters deserve honest representation.
10/19/25 10:02 PM	Ms Jennifer Wichman		Please refrain from mid-decade congressional redistricting. It would further distort North Carolina,Äôs federal voting maps ,Äï and erode North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates what should be core principles: fairness and accountability. Allowing elected representatives to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation. Further, it weakens voters,Äô ability to hold leaders accountable.

10/19/25 10:03 PM	Rev Laura Fine Ledford		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 10:03 PM	Deyna Hardison		True conservative values demand transparency, integrity, and competition,‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Please do not redraw the maps.
10/19/25 10:03 PM	Dr. Elizabeth Rollins		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 10:03 PM	Kay Goldfarb	Private citizen	I am a NC resident and am opposed to the plan to redistrict Congressional District 1. Voters are supposed to pick their politicians. Politicians are not supposed to pick their voters. If one party isn‚Äôt able to win a fairly designated district, they should propose policies that are attractive to their voters rather than cheat the maps to win. That is not representative government.
10/19/25 10:03 PM	Ms Cathy Chapman		Voters should choose their representatives, fairness means representatives do not choose their voters.
10/19/25 10:04 PM	Joan Toptine		I ask you to stop the lying and cheating from Republicans. We are tired, frustrated and feel completely lied to. Your constituents rely on you to represent us, not an idol. Do not continue to hurt innocent lives for a convicted, lying, cheating sexual predator. Shame on you for your idol worship!

10/19/25 10:04 PM	Morgan Hinch-Wood		I am writing to express my strong opposition to the proposed redrawing of our state,Äôs voting maps. Fair representation is a cornerstone of democracy, and continually changing district boundaries undermines public trust and weakens our voice as citizens. Constant redistricting often serves political interests rather than community ones. It divides neighborhoods, dilutes local representation, and makes voters feel that outcomes are predetermined rather than earned. North Carolinians deserve maps that reflect real communities,Äînot partisan strategies. Stable, transparent, and impartial district maps help ensure that every vote carries equal weight. Instead of repeatedly reshaping boundaries, our leaders should focus on protecting fair elections, expanding voter participation, and restoring confidence in the democratic process. I urge you to keep the current maps and commit to nonpartisan redistricting practices moving forward. Sincerely, Morgan from 27623
10/19/25 10:04 PM	Randy Norris	Citizen, Retired public school counselor	The currently gerrymandered districts already give our representatives a 10-4 advantage in congress, when we are technically a purple state. To further artificially manipulate the districts to steal another seat is a blatant effort to ignore a good faith goal of fair representation. The huge numbers of us who are distraught over the Trump administration,Äôs trajectory deserve to have our voices heard in proportion to our prevalence in our communities. Please show us that politicians can legislate with integrity.
10/19/25 10:05 PM	Marcie Thompson		I,Äôm writing as a constituent of district 9. I am deeply concerned about the congressional district map proposed by the committees. I oppose the plan, because it appears to favour partisan advantage over fair representation. When district lines are drawn in a way that splits communities, packs or cracks voters, or otherwise manipulates maps for political gain, it undermines the basic promise of democracy: that voters choose their representatives, not the other way around. Specifically: ,Ä¢The proposed lines cut through neighborhoods and communities in a way that dilutes our voice and splits our shared interests. ,Ä¢The map seems to rely heavily on partisan data and ,Äúsafe seats,Äù rather than on keeping communities together or following logical, compact, contiguous boundaries. I respectfully request that the committee revise the plan to: 1.Use transparent criteria that prioritise communities of interest, natural and existing boundaries (counties, cities, neighborhoods), compactness, and contiguity. 2.Avoid manipulating lines to favour incumbents or one party over another. 3.Allow adequate public comment and adopt maps only after meaningful input from everyday residents, not just party operatives. In short: fair maps mean our elected officials are accountable to all the people in their district, not just the ones drawn in to protect them. Thank you for the opportunity to voice my concerns
10/19/25 10:05 PM	Redistricting Egan O'Hara	Myself	Please for the love of God, STOP TRYING TO REDRAW THE DISTRICTS! Never seen a more obvious power play, completely shameless.
10/19/25 10:05 PM	Nora Roehm		I am writing to voice my concern with the proposed mid decade gerrymandering. I am against this move and would request a non partisan commission be used after each census to redraw congressional & legislative maps. It should be illegal for gerrymandering to be used to discriminate against voters based on their political party!
10/19/25 10:05 PM	Unfair Gerrymandering Stephen Friedman		I would humbly ask that as a group who claims to be Christian is this what Jesus would do. Would he think what you are doing is right and living by his words? Please consider your role of representing all people and not just the ones you identify as supportive of you. Your job as a public servant is to represent all North Carolinians.
10/19/25 10:05 PM	Ms Ginny Dudek		I am opposed to redistricting maps again. It will cost taxpayers excessive money and end up in the courts again.
10/19/25 10:06 PM	Linda Stiebris		I am speaking out strongly against redistricting in an attempt to get more gerrymandered seats for the state GOP. You represent the people of this state and you work for the people of this state. You need to stop taking away our representation by artificially drawing districts with gerrymandering so you suppress our votes. It is not how representation in America should work, and you know it. I don't care if the president wants more seats. You took an oath to the people of NC and the Constitution, not the president. Do the right thing. Do your job with some decency and stop the shameless gerrymandering. The ends do not justify the means. You work for us so start acting like it!
10/19/25 10:06 PM	Mr Alessandro Busio		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government.

10/19/25 10:06 PM	Tracey Powell		I am against this registering effort by the NCGA Republicans. North Carolina registered voters are already misrepresented. We have approximately. 38% Unaffiliated voters, roughly 32% registered Democrats and 30% Republicans. North Carolinians deserve to be represented with fair maps. Voters are supposed to choose their representatives; the representatives instead are choosing which people can vote for them and get them into office. Please tally my comments as being against this redistricting effort. Thank you .
10/19/25 10:06 PM	Mrs Lucille Cardelle		Gerrymandering should be illegal because it discriminates against voters.
10/19/25 10:06 PM	Brittany Morhac		We want fair maps and this isn't one. Voters should pick our politicians, politicians shouldn't pick their voters. You work for us not the other way around. If you wouldn't draw this map for the opposing party it's not a fair map.
10/19/25 10:06 PM	Erin Zielenski		This is nothing but a cog in the fascist takeover of our country! Phil Berger is so unscrupulous; his office once tried to bully me into hiring his weird son-in-law. Both of these things speak volumes about his lack of ethics.
10/19/25 10:07 PM	Brooke Miller		Redrawing NC congressional district maps is blatantly partisan and will set a dangerous political precedent and rob North Carolinians of our rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around. Also, perhaps determining the state budget would be a better use of your time.
10/19/25 10:07 PM	Theresa Wengel		There should be absolutely NO redistricting. None. I repeat,Ä¶DO NOT REDISTRICT.
10/19/25 10:07 PM	Mrs Heather Ritchie		Bringing the legislature back to rig congressional maps without passing a budget all whilst creating proposed huge deficits for NC hospitals shows the priorities of the general assembly majority. It is clear to me that the priorities of the elected individuals that serve our state lie solely with pleasing Mr. Trump rather than protecting constituents and the residents of our great state. Shame on you.
10/19/25 10:08 PM	Dr. Cheryl Posner-Cahill	NC Voter	I am against your redistricting plan to gain maximum partisan advantage. The voters of North Carolina should be able to choose their politicians instead of politicians choosing their voters.
10/19/25 10:08 PM	Ms Christina Stillwell		Please stop the gerrymandering. NC is already notoriously one of the worst cases of gerrymandering in the country. Stop the unfair redistricting
10/19/25 10:08 PM	Marya Ilgen-Lieth		This redistricting proposal, aimed at the northeastern Black Belt, will reduce the political power of Black North Carolinians. The proposal is too rushed. It's being pushed through during the municipal elections. Also, no one has had enough time to consider the impact, especially the voters. And this proposal will very likely result in costly litigation. The top priority for legislators right now should be passing a sorely-needed state budget.
10/19/25 10:09 PM	Andy Nuzzolese		Desperation is a stinky cologne and the stink of gerrymandering district borders to placate a petty little man in the hopes of getting a pat on the head does a disservice to us, your constituents, and yourselves. Stand tall and vote in a way to make us, our families, your families, and those that have held your position in the past proud. Do not sully your noble office.
10/19/25 10:09 PM	Mrs Mary Hardvall	LWVNC	Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable.
10/19/25 10:09 PM	Vote No!!! Amy Crowe		As a lifelong native North Carolinian, I'm asking our legislature to vote against redistricting. It goes against The Constitution, Supreme Court rulings and common decency to redistrict outside the Census and to sway an election toward one political party gaining seats. North Carolina deserves and wants free and fair elections!
10/19/25 10:09 PM	Bonnie Shew		Please do not further gerrymander our state to satisfy Donald Trump,Äôs attempts to ,Äúfix,Äù the 2026 elections. We need fair maps, in fact, more fair than we have now. This attempt makes you look like you want to disenfranchise even more black voters. Please don,Äôt do it! Thank you.
10/19/25 10:10 PM	Johanna Albrecht		North Carolina does not need this re-districting. North Carolinians deserve free and fair elections and this map does not serve that. We need our legislators to vote on a State budget and fully fund Medicaid, not waste time on unnecessary and harmful redistricting. It is despicable for legislators to manipulate our maps solely to appease the president and gain an endorsement for their next election; your constituents deserve better.
10/19/25 10:10 PM	Deborah Hage		Republican GOP: please do not cheat your way into office. Instead, come up with policies the people will vote for! NO GERRYMANDERING!!!!
10/19/25 10:11 PM	Ms Lori Farrington		From my understanding, this will be yet another attempt to redraw maps before the decade has ended since the last redistricting. This is an affront to our legal democratic process.
10/19/25 10:11 PM	Mrs Susan Goldstein		I,Äôm fearful if we continue on this path our democracy will be at stake. Please do not change .
10/19/25 10:12 PM	Tebecca Maccaroni		Do NOT change the maps. You work for your constituents and the citizens of NC. Do your jobs and stop playing political power games.
10/19/25 10:12 PM	Dr Sheila Nance		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their vote heard and their vote count equally, regardless of political affiliation or geographic location. This king of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal. I will never vote Republican again if you continue on the path you are currently following, and will donate to your opposition every chance I get.

10/19/25 10:12 PM	Ethan Burch		Do not do this. This is blatantly rigging elections against the will of the people.
10/19/25 10:12 PM	Carolyn Ikenberry	None	Partisan gerrymandering undermines fair governing no matter which party does it. Please stand up for fair elections.
10/19/25 10:13 PM	Dawn Swanson		As a North Carolinian, I ask that you STOP the mid-decade congressional redistricting that would further distort our federal voting maps and erode North Carolinians,Äô power to elect candidates of our choice. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure that our government remains accountable to the people it serves. I ask you to REJECT any new congressional maps at this time.
10/19/25 10:13 PM	Darcee Brunson		if you weren,Äôt all afraid of losing the next republican elections you wouldn,Äôt need to play dirty! shame on you all! transparency is what we demand from this administration.
10/19/25 10:13 PM	Ian Jackson		I am writing to express my strong opposition to the proposed redistricting plans currently under consideration. Gerrymandering that deliberately dilutes the voting power of Black communities and Democratic voters is fundamentally at odds with the principles of fair representation that our democracy depends upon. Every citizen of North Carolina deserves equal voice in our government, regardless of race or political affiliation. Manipulating district boundaries to predetermine electoral outcomes undermines the very foundation of representative government and disenfranchises thousands of North Carolinians. Furthermore, the current legislative priorities reflect a troubling disconnect between our state government and the needs of North Carolina families. Our teachers remain among the lowest paid in the nation, and our schools continue to struggle with inadequate funding while our children's education hangs in the balance. These are not partisan issues,Äîthey are fundamental investments in our state's future. I urge you to reject any redistricting plans that prioritize partisan advantage over fair representation, and to refocus your efforts on the real challenges facing North Carolina communities. Our state deserves leadership that serves all its citizens, not just those in power. Thank you for your time.
10/19/25 10:13 PM	Kelly De La Cruz		I strongly disagree with this the redistricting of these Maps. It is unconstitutional. It is unfair to the constituents in those districts. Just come up with better policies, so you don,Äôt have to cheat.
10/19/25 10:14 PM	Stop unfair maps Rita Anderson		Stop unnecessary redistricting plan
10/19/25 10:14 PM	Ms. Stephanie Ladd		Please do not redistrict North Carolina and effectively rig this election for one party and disenfranchise so many voters. I'm ashamed that our state is considering this
10/19/25 10:14 PM	Eric Livengood		If you have to gerrymander districts to keep in offices do you deserve those offices? It,Äôs your job to hold fair elections and it,Äôs the people,Äôs job to elect those they want as their representatives! By helping one party over another you are part of the defying the will of the people you supposedly represent!
10/19/25 10:15 PM	Anastasia Trueman		NC is a state with a representation of almost 50/50 split of Republican and Democrats. And yet, 10 of 14 seats are already gerrymandered to give Republicans an unfair advantage and now this new redistricting will add to this unfair advantage. More people voted for other people than for Trump so he does NOT have a mandate. If you disenfranchise your constituents and your oath to the constitution, then you,Äôre breaking the rule of law.
10/19/25 10:15 PM	Mrs. Beth Wells	Private citizen	Congressional districts should only be established after a Census taken every ten years. This is obviously a more egregious gerrymandering proposal and does not benefit North Carolina or its residents in any way. North Carolina has as many Democratic as Republican voters so our Congressional delegation should be more evenly divided. Leadership in our legislative body should not take orders from the federal government but do what is best for our state. As a registered independent voter, I am very disappointed in the leaders of our General Assembly who have failed to produce a budget for the year even though it should be one of their top priorities. More gerrymandering should not be a top priority. Do the job you were elected to do.
10/19/25 10:15 PM	Gavin OHara		Gerrymandering hurts us all. Democrats shouldn't do it and Republicans shouldn't do it either. Don't do it! Plain and simple. Thank you.
10/19/25 10:15 PM	Reverend Pam Strader	Individual voter	I oppose the NC Legislature's proposal to redraw district maps. My district was gerrymandered and I do not feel represented by a congressperson from another city. What was done to Greensboro is absurd. Our legislature should not take directives from Washington, DC to break with the will of the people of NC. Over 84% of people surveyed in NC, by a Republican leaning polling group oppose politicians gerrymandering districts to their party's advantage. NO MORE GERRYMANDERING IN NORTH CAROLINA!!
10/19/25 10:16 PM	Dian Hloros		I strongly disagree with the attempt to redraw the maps prior to 2030. We already have districts where our elected officials no longer listen to constituents who are concerned about legislation. It,Äôs time for you to earn our vote, not gerrymander votes.
10/19/25 10:17 PM	Teresa Leeman		There is no need to redraw the congressional district maps in NC. This was done two years ago and the GOP picked up additional seats then. This is an attempt to give Trump more power than he already has. Do what you have been hired to do - protect the Constitutional rights of citizens in this state and in this country. I respectfully ask that you refrain from making any more changes to what is already an unfair advantage for the GOP in NC.

10/19/25 10:17 PM	Stop gerrymandering Derya Onaran		The power of redistricting should not belong to politicians in Raleigh. It should be entrusted with an independent commission of everyday North Carolinians. The commission would have an equal number of Republicans, Democrats and unaffiliated voters drawing fair maps that protect communities and are free from discrimination or political influence.
10/19/25 10:17 PM	Christine Barboriak	none	Don't you dare! No one asked for this but we did ask for a budget. Y'all are criminals! Do your job.
10/19/25 10:17 PM	Ms Laurie Baker	Private Cutizen	I OPPOSE this redistricting because it does not accurately reflect the citizens of North Carolina. I DEMAND transparency in the efforts to redraw districts in my state.
10/19/25 10:17 PM	Melissa Lewis		I am writing in fervent opposition to the proposed redistricting. This gerrymandering is against what more than 8 in 10 North Carolinians want (including Republicans). ,ÄúA survey of North Carolina voters released Thursday found that 84% of all voters, including strong majorities in both parties, say redrawing voting maps for partisan advantage is ,Äúnever acceptable,Äù and districts should be drawn neutrally.,Äù (https://ncnewsline.com/2025/10/02/as-redistricting-fight-looms-north-carolina-poll-shows-voters-of-all-parties-oppose-gerrymandering/)
10/19/25 10:17 PM	Laurel Vincenty		By redrawing congressional district maps without even notifying the minority party of when this will be happening is unethical and unprofessional and not what we elected you to do. It also gives the appearance that you are trying to sneak things by us North Carolinians to rig the maps. That's plain out cheating. I demand that you notify the minority party of the time you will be doing this and also invite public input . We North Carolinians are of this game playing and using North Carolinians as pawns when the president of the United States decides to interfere in state matters.
10/19/25 10:17 PM	Stop Redistricting Bill Katie Czaja		Vehemently. Oppose.
10/19/25 10:18 PM	No - Keep This State Free Andrew Dagnan		I strongly oppose any Congressional redistricting plan that creates and unfair imbalance of power. North Carolinians deserve fair, competitive districts drawn through a transparent, nonpartisan process ,Äî not lines engineered for partisan advantage. This proposal risks silencing communities, wasting taxpayer money on legal challenges, and further eroding public trust in our elections. Please reject this plan and commit to fair maps that reflect real communities and ensure every vote counts equally.
10/19/25 10:18 PM	Danielle Payton		Do not keep your constituents unheard! Transparency is our birthright, and redistricting is unfair.
10/19/25 10:18 PM	Joanne Nuzzolese		I,Âôm writing as a concerned citizen to urge you to ensure that our state,Âôs district maps remain as they currently are, fair and without political bias. Gerrymandering undermines the voices of voters and weakens public trust in our democracy. Every North Carolinian deserves equal representation, no matter where they live or who they vote for. Please put fairness and accountability first by keeping the districts as they are, reflecting real communities ,Äî not partisan interests. Thank you for your time and your service to our state.
10/19/25 10:18 PM	Rebecca Wilson		Don't do this. North Carolina's citizens deserve FAIR maps. Our state is already unfairly gerrymandered and this will disenfranchise even more of us. This redistricting does not follow the will of the citizens of the state. To quote Senate leader Phil Berger: ,ÄúWe are doing everything we can to protect President Trump,Âôs agenda.,Äù Per The Economist, Donald Trump's approval rating is -15%. Overall, 55% of the country disapproves of his agenda. Why would you support something that is so obviously a failure? Redistrict according to what is actually fair.

10/19/25 10:18 PM Mrs. Shannon Greene	I,Äôm writing in strong opposition to the proposed congressional redistricting map. It,Äôs deeply disheartening to see yet another map that prioritizes partisan gain over the people of North Carolina. This map appears to be engineered to lock in political advantage, particularly by redrawing the 1st Congressional District and shifting boundaries in a way that undermines competitive elections. That,Äôs not democracy,Äîit,Äôs manipulation. Voters should choose their representatives, not the other way around. Fair maps mean fair representation. That means keeping communities intact, ensuring compactness, and protecting communities of interest,Äîespecially those historically marginalized or underrepresented. This proposed plan does the opposite. It divides communities, dilutes voices, and deepens public distrust. I urge the committee to reject this map and return to the drawing board with transparency, integrity, and genuine public input. North Carolinians deserve districts that encourage accountability and reflect our state,Äôs diversity and shared future,Äînot ones that entrench power for a few. As a resident of Durham and someone who believes deeply in community, inclusivity, and fairness, I,Äôm asking you to do what,Äôs right: draw maps that serve the people of North Carolina,Äînot politicians. Sincerely, Shannon Greene Durham, North Carolina
10/19/25 10:18 PM Mr. Joseph Wood	Of the 7.5 million registered voters, 38.6% are unaffiliated, 30.4% are Democrats, and 30.3% are Republicans. If the unaffiliated voters lean somewhat conservative, this should give the Republican party a slight advantage in our representation in Washington. However, thanks to the 2023 gerrymandering of districts, Republicans hold 10 of the 14 seats in the US House of Representatives. Senator Berger is calling for yet another round of gerrymandering to offset California's gerrymandering, which is being done to offset Texas's gerrymandering actions. Berger wants to add one more seat to "protect President Trump's agenda". I would like to remind all state legislatures that Trump won 50.86% of the popular vote in NC. This percentage indicates to me that NC is a purple state, one where its constituents values a conservative approach to government while also meeting the needs of its citizens. Thus, Trump's win in NC was not a clear mandate, but, instead, was more of a suggestion. This second mid-cycle redistricting initiative is not what a majority of the citizens of NC want. According to a recent poll, 84% of NC voters, including 78% of Republicans, oppose politicians redrawing districts to give their party a political advantage. We , as the great state of NC, are growing weary of Trump's chaos and corruption. Please vote against Berger's attempt to find favor with President Trump, and remember you, as a state governing body, work for the citizens of NC and not for President Trump.
10/19/25 10:18 PM Vote NO on redistricting Annie Doran	Redistricting NC does nothing to serve the voters of NC, it only serves to represent the interests of President Trump and the Republican Party. NC citizens have not been given adequate time to comment and learn about this process that will affect so deeply the way they are represented. Redistricting in response to the president,Äôs demands rather than the demands of the people residing in those districts is a travesty of how democracy is supposed to work. Please vote against redistricting NC.
10/19/25 10:18 PM Margaret Thompson	I am a constituent in Durham, NC asking the NCGA to reject the plans to redraw congressional maps for our state. To live in a democracy means that the voters pick who will represent them, not the other way around. This is not the standard time for redrawing maps, it is FIVE years premature. The maps were already redrawn by Republican officials to gerrymander NC voting districts in 2024 to favor Republicans. This next premature gerrymander would eliminate the last competitive district in NC, diluting Black representation in our state and rigging future elections in a state that is split equally along party lines. We the people of NC must have a voice in who represents us, instead of having representatives who wildly misrepresent the makeup of our state.
10/19/25 10:19 PM Hilary Edwards	I,Äôm against this redistricting proposal. It would be amazing if you would focus on passing a state budget so we can pay our teachers and law enforcement, provide Helene disaster relief and Medicaid funding. Instead, you are prioritizing the desires of Donald Trump instead of helping the people of NC. Shame on you.
10/19/25 10:19 PM Amanda Shroder	I am writing to express my opposition to the newly proposed Congressional map. The new maps constitute racially discriminatory gerrymandering and should not be permitted.
10/19/25 10:19 PM Sara Buxton	Don't do this. North Carolina's citizens deserve FAIR maps. Our state is already unfairly gerrymandered and this will disenfranchise even more of us. This redistricting does not follow the will of the citizens of the state. To quote Senate leader Phil Berger: ,ÄúWe are doing everything we can to protect President Trump,Äôs agenda.,Äù Per The Economist, Donald Trump's approval rating is -15%. Overall, 55% of the country disapproves of his agenda. Why would you support something that is so obviously a failure? Redistrict according to what is actually fair.

10/19/25 10:19 PM	Rev. Dr. Sarah Blackwell		As an independent voter, I oppose the re-districting of the state of North Carolina in an attempt by the president and other Republican leaders to secure more seats to try to prop up an unpopular and, frankly, failing regime. Representatives to our national offices should represent all the people of NC which is much more balanced politically than our national representation shows due to years of gerrymandering by Republicans. Do your jobs and represent the people of North Carolina and not a political ideology. Our government works best when both parties must come together to reach compromise and consensus,Äînot when one bullies the other and refuses general civility and sound moral judgement.
10/19/25 10:20 PM	CHARLES SHEW		Please do not do any mid cycle gerrymandering. Doing so will weaken democracy, destabilize elections, and silences voters by dividing communities.
10/19/25 10:20 PM	Mrs Penny Morgan	USAA	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government.
10/19/25 10:21 PM	Charles Morrison		This is a proposal that will subvert democracy in North Carolina and will further weaken the black vote. This redistricting effort should not be allowed to go through.
10/19/25 10:21 PM	Sean Farres		Pass a budget. Don‚Äôt hurt NC with a mid decade gerrymander!
10/19/25 10:22 PM	Reverend William Clayton	St James Missionary Baptist Church-Henderson	North Carolina stands once again at the intersection of history and hypocrisy. The proposed redistricting plan before the General Assembly is not merely a rearrangement of lines on a map; it is a moral referendum on who belongs within the borders of democracy itself. It represents a willful regression, a recapitulation of the same political pathology that gripped this state after Reconstruction: the fear of an empowered Black electorate. My family has walked the red clay roads of this state for generations, contributing not as spectators but as stewards of its moral conscience. My aunt, Congresswoman Eva M. Clayton, broke barriers when she was elected to represent North Carolina‚Äôs 1st Congressional District, the very district now targeted for erasure, a century after Reconstruction. Her election was not an act of symbolism but of substance. It fulfilled, even if briefly, the state‚Äôs motto: ‚Äúesse quam videri,‚Äù‚Äîto be rather than to seem.‚Äù To ‚Äúbe,‚Äù just, rather than to ‚Äúseem,‚Äù democratic. To ‚Äúbe,‚Äù representative, rather than to ‚Äúseem,‚Äù inclusive. And yet, what we see now is not governance, it is theater. A political liturgy of fear disguised as legislative order. This decision to disenfranchise and divide, to redraw the contours of belonging along racial and partisan lines, betrays not only the Constitution but the conscience of this state. The architects of this map have chosen power over principle, erasure over equity. They have allowed the malady of supremacy, a sickness older than the state itself, to metastasize once more under the guise of procedure. What hardens the hearts of legislators to this degree? It is not ignorance, it is calculation. It is the belief that democracy is expendable when it threatens dominance. It is the psychology of fear masquerading as governance, a pathology that demands control over community. And make no mistake: what they seek to remove is not a district but a legacy, a century-long witness that Black political agency is not a gift from the state but a birthright endowed by God and affirmed through blood, ballots, and persistence. I write not merely as a scholar or pastor, but as a son of this soil. As one whose family has tilled its land, taught its children, and legislated its hope. I stand in a lineage that knows the cost of silence. From Halifax to Henderson, from Warren County to Wilson, our communities have borne the weight of disenfranchisement before, and we will resist it again, not through despair but through disciplined hope. North Carolina must decide once more who it wants to be. The crossroads are clear: justice or gerrymandering, integrity or illusion
10/19/25 10:22 PM	Disenfranchising Sam Kome		Stop trying to disenfranchise me. Draw fair maps, based on decennial census as prescribed by law.
10/19/25 10:22 PM	Mrs Delphine Sellars	Delphine Sellars	Why would you do something so blatant to manipulate district lines for partisan advantage. Do you not realize, no, why don't you care if it undermines the constitutional promise of equal representation and weakens our, the citizens, ability to hold our/OUR leaders accountable. You are wrong to distroy this country just so the rich can continue to control you with promises. Promises that have been repeatly shown never be fulfilled: There's a short term wndow. You turn your head to the prnicpals of the constitution, rules of order, DEMORACY. Its hard to believe that so many have no shame in saying I won by cheating. Great story to tell your grandchildren and their children... If you do this, gerrmander districts, you do more harm than good!
10/19/25 10:22 PM	BG Friedman		Democracy depends on voters choosing their elected officials, not the other way around. North Carolina is roughly 50% Democratic-leaning voters and roughly 50% Republican-leaning voters. Our congressional maps should reflect our state. Redistricting should not occur outside of the constitutionally-mandated decennial census (per Article I, Section 2 of the U.S. Constitution). NO MORE GERRYMANDERED MAPS!
10/19/25 10:22 PM	Charles Weber		76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.

10/19/25 10:22 PM	Shianne Buie		What in the heck are y'all doing? Please dear God instead of trying to get a pat on the butt from your deddy Trump please just pass an actual state budget!! Also stop banning books so that kids can actually have a chance at learning how to read.
10/19/25 10:23 PM	GOP Map Cheating Jeremy Holden		Phil Berger and the State GOP again show their unceasing Corruption by this undemocratic redistricting power-grab scam. Voters should be able to pick their Representatives. Not the other way around.
10/19/25 10:23 PM	Elizabeth James		I am a North Carolina resident and my voice has been taken away from me for decades due to unconstitutional gerrymanders. I have lived in the same place in Durham for 20 years and have had my rep changed at least three times when the GOP cracked, coed, or hikacked my city to meet their political aims to protect their own seats. I want to be able to choose my own representatives, not have them packed into safe districts. And now you want to do it again in a shameless power grab for a president who has abandoned Western North Carolina? While you still haven,Äôt passed a budget? Please get to work on issues that actually matter to North Carolinians.
10/19/25 10:23 PM	Angela Floyd		I am opposed to any legislation redrawing our maps to unfairly favor one party. We must have fair maps that represent the will of the people not politicians who rig maps to force their will on the people. Please vote against this bill.
10/19/25 10:24 PM	K Rhodes		Please do not redistrict. Please stop gerrymandering. We the people of North Carolina expect and deserve better.
10/19/25 10:24 PM	Dr Susanne Shine		78% of North Carolinians believe it should be illegal to gerrymander districts unfairly. The current plan is outrageous in its unfairness . I am registered unaffiliated but I strongly oppose the use of redistricting to circumvent the will of the people. It is not in the spirit of democracy and deprives voters of the opportunity to choose their preferred candidates. At some point the tables will turn, and the public will be fed up with this partisan manipulation. Their eyes will be opened and you will be retired.
10/19/25 10:24 PM	Dr. Robert Nance		The Republicans,Äô proposed redistricting plan is a blatant and shameful attempt to tilt votes unfairly in their favor. The method by which they plan to discuss and decide on it,Äïessentially in secret,Äïis even worse. If you feel this change is so important, why not provide an opportunity for both sites to debate its merits? Why the sneakiness?
10/19/25 10:24 PM	Laura Thompson		Do not change the districts. Pass a budget and do the job you were elected to do instead of doing Trumps bidding. You work for us.
10/19/25 10:24 PM	Barbara Klein		North Carolina deserves fair maps and actual representation. Any attempts to further gerrymander our voting maps goes against the best interests of our state and leaves a majority of our citizens without representation.
10/19/25 10:25 PM	Dr Doyle Graham	Dean Emeritus of Medical Education, Duke University School of Medicine	True conservative values demand transparency, integrity, and competition,Äïvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves.
10/19/25 10:25 PM	Dr. David Kwee		Redistricting along partisan lines, while technically legal, is immoral, regardless of which side it favors. Districting is a complex conundrum that should be left to statisticians, not elected officials who stand to benefit from it. Politicians should not be allowed to pick which voters,Äô votes count. All they,Äôre going to do is pick the ones that benefit them.
10/19/25 10:26 PM	Michelle Walsh		Absolutely not. They are not due to be redraw and do this because Trump is telling them what to do! Do you want to appease him or help the people that actually put you all in office? What are you doing?!!??!! Handing over our democracy and giving away our fair vote. This is not legal. This is desperation.
10/19/25 10:26 PM	Kay Richey		I live in Stokes County. Over the past several redistrictings we have bounced from district to district-the 5th, the 6th, the 10th, back to the 5th. I am aware of how these changes of district lines damage the relationship each person has with their representative. Changes in district lines are properly made only if needed after census data has been collected. It is harmful to our whole electoral process to change ditrict lines at other times. It undermines representatives ability to truly know and understand the needs of their constituents. I would ask that you not make yet another change to district lines. This move is only to increase a GOP partisan advantage and makes the accountability of representatives difficult to measure and enforce.
10/19/25 10:26 PM	Chenoa Davis		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and our votes should count equally, regardless of political affiliation, race, or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal

10/19/25 10:26 PM	Lydia Kwee	I am writing as a native North Carolinian, an unaffiliated voter, and someone who loves this state deeply. I oppose gerrymandering on the grounds that it is anti-democratic - how can we pretend that everyone's vote matters if we live with maps designed such that it would take a tidal wave to shift seats from one party to the other? We all know that we get better government when our representatives have motivation to work together and focus on earning votes from across the political spectrum, rather than racing to the extreme left or right. Our state, which is truly and deeply purple, was much better served when we had 7-7 maps. That reflected the will of the voters, and was moral. These shenanigans - removing all responsiveness from the maps, and especially redistricting mid-cycle because Trump asked for it from Sen Berger, who's afraid of being primaried - are shamelessly cynical and cannot be justified in any way other than to keep the same people in power. There is, in fact, a moral component to redistricting, and I pray you'll consider it. People only draw maps like this when they think they'll lose with fair maps. A better choice would be to govern in such a way that North Carolina *wants* to vote for you, and to allow us to choose the representatives that we think would do the best job, with fair and honest races run during elections. Please, let's not give up on democracy entirely.
10/19/25 10:27 PM	Lisa Morrell	Please reject this unfair effort to further gerrymander North Carolina. We as NC citizens want and deserve maps that fairly represent all North Carolinians.
10/19/25 10:27 PM	Kristen Dearmin	Redistricting is a process designed to respond to population shifts identified by the US Census. As such, redistricting should happen every decade. North Carolina has been redistricted 3 times since 2020. There are MORE registered Democrats than registered Republicans in NC. However, Republicans hold the majority representation due to gerrymandering. It has become clear that Republicans intend to stay in power indefinitely and violate their oaths, claim fealty to the president, and intentionally disenfranchise North Carolina Democrats. Otherwise, they would engage in decade-only redistricting and create districts that reflect the demographic, economic, and geographic makeup of the state. In other words, Republicans know their policies are so extreme and unpopular, they must cheat in order to win. Any NC elected official who supports this redistricting plan, at this juncture, is a desperate coward who has lost their moral compass. Shame on you! What the GA should be doing is working tirelessly to craft a state budget. Then, work to pass said budget. Next, it should get on with conducting the governance of this great state and finding actionable ways to improve the quality of life for every North Carolinian, regardless of their party affiliation.
10/19/25 10:27 PM	Kate Hensler	Keeping elected officials in the dark on vote times for the purpose of cheating the system is reason enough to never vote for a Republican again.
10/19/25 10:28 PM	Do Not Support Redistrict Shirley Bavonese	I am not in support of redistricting of North Carolina to give the Republicans an advantage in congress. Please as a voter and full participant in the Democratic process I urge you not to support the redistricting.
10/19/25 10:28 PM	Corey Mutter	Keep in mind that the political situation is pretty chaotic - trying to predict what voting patterns will be in late 2026 and 2028 could backfire spectacularly.
10/19/25 10:28 PM	Terry Smith	I write in opposition of the Republican Party gross abuse of power in redrawing congressional district maps at mid term presidential. You do this at the behest of a wannabe dictator whose policies are hurting all citizens but especially those in eastern NC. Have you know decency Sen Berger and Rep Hall?
10/19/25 10:28 PM	Mrs. Mary Brennan	Please vote no on any redistricting maps for North Carolina. To redraw voting districts mid decade is a power grab that will cause citizens to lose faith in fair and free elections. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Âô ability to hold their leaders accountable. Sincerely, Mary J. Brennan
10/19/25 10:29 PM	Joan Toepfer	Redistricting now is completely unlawful. This is a process that should only be done with the next census. To redistrict in order to obtain more Republican districts ignores the principle of fair representation. This is an illegal power grab to please Donald Trump and ignore the opinions for your constituents!
10/19/25 10:29 PM	Sheila Amir	Our representative democracy is founded on the core principle that people choose their politicians not the other way around. Y,Äôall can,Äôt win fair elections so your rig them. You got time for this but still haven,Äôt passed a budget. Further gerrymandering of our already unconstitutionally gerrymandered maps is horrific and a slap in the face to the people of North Carolina. No to redistricting. Yes to the GOP passing budget, getting therapy, resigning, and having the life they deserve. All of this nonsense and wasted taxpayer money so Burger can,Äôt try to get Trump,Äôs endorsement. Out here acting like Burger King when you,Äôre overcooked.

10/19/25 10:30 PM	Dianr Wyant	North Carolina,Äôs residents deserve to have their votes count in free and fair elections. Carving up the state based solely on increasing representation for one party should never be allowed. It is time for NC legislators to display a stronger set of morals and ethics than either a president who would ask lawmakers to ‚Äúthumb the scale‚Ù in his favor or a legislator who would seek to do the bidding of a corrupt president to gain his endorsement. The people are tired of self-serving, corrupt politicians who are so consumed with ‚Äúplaying the game of politics‚Ù that they have forgotten their job is to represent their constituents and work for the best interests of their people.
10/19/25 10:30 PM	Christa Riker-Sheets	I strongly oppose the proposed Congressional redistricting plan. This is an obvious desperate power grab by Republicans to appease Trump and to serve their own self-interests. There is no legitimate reason for changing the maps in this way at this time. The voters of North Carolina deserve FAIR MAPS and deserve to have elected officials who are focused on the actual business of the state.
10/19/25 10:30 PM	Lucas Coleman	To the Members of the North Carolina General Assembly: I am writing to express my profound disappointment and unequivocal opposition to Senator Phil Berger's shameful plan to redraw North Carolina's congressional districts for the seventh time since 2016. This is not governance. This is a betrayal of democratic principles and a cowardly capitulation to authoritarian demands. Senator Berger has stated plainly that he intends to "protect President Trump's agenda" by manipulating district boundaries to manufacture an eleventh Republican seat. Let me be clear: the North Carolina General Assembly does not work for Donald Trump. You work for the people of North Carolina. Your duty is to represent our interests, not to serve as enforcers for a president who views electoral maps as tools of personal power rather than reflections of the people's will. You already redrew these maps in 2023, converting a 7-7 delegation into a 10-4 Republican advantage. That gerrymandered map gave you three additional seats just two years ago. Now, unable to win through persuasion or superior ideas, you return to the well of manipulation once more, targeting Representative Don Davis's 1st District,Äîthe only competitive district remaining in our entire state. You are not earning votes. You are stealing them. This redistricting marks the seventh time you have redrawn our congressional boundaries in less than a decade. Seven times. Each redrawing erodes public trust. Each manipulation tells North Carolina voters that their voices matter less than your grip on power. You claim to defend democracy while systematically dismantling its most fundamental principle: that voters should choose their representatives, not the reverse. Senator Berger's justification,Äîthat California Governor Gavin Newsom's actions somehow necessitate this response,Äîis intellectually dishonest and morally bankrupt. Two wrongs have never made a right, and North Carolina should not debase itself by racing to the bottom alongside other states engaged in this destructive arms race. We should be better than this. You should be better than this. The people of North Carolina deserve a legislature focused on passing a responsible budget, adequately funding Medicaid, paying teachers
10/19/25 10:30 PM	Mr William Martin	GOP, members, please stop being patsies to your 'dear leader' trump. Pass fair redistricting by legitimate means. If you are not popular enough to win elections by honorable and normal means, then maybe you're not cut out to lead the people of NC. Thank you from a concerned constituent; Who used to believe in and have faith in the Republican party before it became a patsy and laid down before the current administration.
10/19/25 10:31 PM	Christopher Schulte	I am firmly against this redistricting effort. The NCGA is only supposed to redistrict once after the census every ten years. The NCGA has redistricted multiple times in a gerrymandering effort to draw out Democrats in a partisan power grab since 2020. Republicans are not even trying to hide it anymore. They are blatantly saying they are redrawing NC-01 and NC-03 to defeat Don Davis and give NC one more Republican Congressional seat. This is unacceptable and should not be passed. Politicians should be chosen by the voters, not politicians choosing their voters.

10/19/25 10:31 PM	Lucas Coleman		To the Members of the North Carolina General Assembly: I am writing to express my profound disappointment and unequivocal opposition to Senator Phil Berger's shameful plan to redraw North Carolina's congressional districts for the seventh time since 2016. This is not governance. This is a betrayal of democratic principles and a cowardly capitulation to authoritarian demands. Senator Berger has stated plainly that he intends to "protect President Trump's agenda" by manipulating district boundaries to manufacture an eleventh Republican seat. Let me be clear: the North Carolina General Assembly does not work for Donald Trump. You work for the people of North Carolina. Your duty is to represent our interests, not to serve as enforcers for a president who views electoral maps as tools of personal power rather than reflections of the people's will. You already redrew these maps in 2023, converting a 7-7 delegation into a 10-4 Republican advantage. That gerrymandered map gave you three additional seats just two years ago. Now, unable to win through persuasion or superior ideas, you return to the well of manipulation once more, targeting Representative Don Davis's 1st District,Âîthe only competitive district remaining in our entire state. You are not earning votes. You are stealing them. This redistricting marks the seventh time you have redrawn our congressional boundaries in less than a decade. Seven times. Each redrawing erodes public trust. Each manipulation tells North Carolina voters that their voices matter less than your grip on power. You claim to defend democracy while systematically dismantling its most fundamental principle: that voters should choose their representatives, not the reverse. Senator Berger's justification,Âîthat California Governor Gavin Newsom's actions somehow necessitate this response,Äïis intellectually dishonest and morally bankrupt. Two wrongs have never made a right, and North Carolina should not debase itself by racing to the bottom alongside other states engaged in this destructive arms race. We should be better than this. You should be better than this. The people of North Carolina deserve a legislature focused on passing a responsible budget, adequately funding Medicaid, paying teachers
10/19/25 10:31 PM	Cara Harrison		You,Äôre only redrawing voting maps because you know the electorate-your BOSS- is unhappy with what,Äôs going on & wants to vote certain politicians out of office. Youre resorting to stealing the vote! I demand you stop it now!
10/19/25 10:31 PM	Patricia Smar		I am OPPOSED to these redistricted maps! They are an unconstitutional power grab and cannot be allowed to pass.
10/19/25 10:31 PM	Siobhan Mobley		We don,Äôt want your maps; we want FAIR maps.
10/19/25 10:31 PM	Rebecca Fowler		I oppose the redistricting plans by the NC Republicans. Voters should select their representatives. Representatives should not select their voters.
10/19/25 10:31 PM	Reverend Clyde Denny	Barnardsville United Methodist Church	76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Redistricting skews the election away from true competition of ideals and toward dishonest majority power.
10/19/25 10:32 PM	Paula Lempart		I am 100% against the proposed redistricting in NC. This gerrymandering is an effort to squash the will of the people of this state and should not be allowed!
10/19/25 10:32 PM	Geoffrey Trullinger		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 10:32 PM	Thanh Tran		You all are clearly rigging the elections and not caring what the people want. This is pure selfishness.
10/19/25 10:32 PM	Katrina Vacca		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice.
10/19/25 10:32 PM	Robert Gale		Leaders of the NCGA should focus on good governance of the state of North Carolina, such as passing a budget. There is no reason for the NCGA to get involved in stupid Washington politics. Please leave our districts alone.
10/19/25 10:32 PM	Ms. Claire Hermann		Congressional districts should reflect the political will of the people of North Carolina. We are a deep purple state, with citizens on both sides of the aisle. Our districts should reflect this balance. Redistricting to disproportionately empower one party over another is a precedent that helps no one in the long run. It is deeply undemocratic and weakens our state and our nation.
10/19/25 10:33 PM	Edward Raleigh		This redistricting is not normal and unusual, not being after a census. Plus it,Äôs only for partisan gain, with racial bias. Let the people decide who gets elected, not fake boundaries decided in a hasty manner. As North Carolinians we need to say to the rest of the country that we are above partisan politics. If someone believes they have a mandate, they shouldn,Äôt be scared to keep district boundaries as is. Instead, what is needed are district boundaries that create the most competitive races possible, are divided by natural geography as much as possible, and do not favor one political party or the other. Doing so will enrich our government because districts that are secure for either R or D means that they will not represent North Carolinians as well as if a district were competitive and actual debating, meeting with constituents, and talking about issues would occur. Vote No on this redistricting map.

10/19/25 10:33 PM	What the heck yall Kelly Sykes	There,Äôs absolutely no way that y,Äôall don,Äôt realize that these maps are gerrymandered. Maybe this is insanely naive but I have to believe that at least a couple of yall are decent enough to want to do the moral thing here. You cannot beg, borrow or steal votes just because you don,Äôt like them. North Carolinians deserve FAIR maps. We all deserve for our voices to be heard and our ballots to hold as much weight as our neighbors. North Carolina is a deeply purple state by every metric EXCEPT congressional maps, that,Äôs unacceptable.
10/19/25 10:33 PM	Mrs. Karalyn Colopy	This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. NO MORE GERRYMANDERING!!
10/19/25 10:33 PM	Mrs. Loretta Faheem	There is absolutely NO need for our district s to be touched. Maybe consider this following the next census. But, certainly not now!!!
10/19/25 10:34 PM	Paul Prestifilippo	As a life-long Republican, I am against the NC legislature's plan to redraw congressional districts. ALL elections need to be fair regardless of which political party you belong to. Gerrymandering is wrong on all levels.
10/19/25 10:34 PM	Ms Morrow Van horne	I think the efforts to redistrict voters is another Republican attempted power grab and gerrymandering. It will not work in their favor. Shame on them!!!
10/19/25 10:34 PM	Elizabeth Blachman	Please don't gerrymander our districts. It undermines public faith in government, and my seven year old says it's cheating.
10/19/25 10:34 PM	Mrs Mildred Rothrock	This needs to be stopped. To change the maps because the president asked for it is totally unacceptable. Equitable voting privileges should be for all citizens and not rigged for outcomes that a select few desire.
10/19/25 10:35 PM	Kirah Daniels	Do not gerrymander our state. This is an absurd power grab. We all deserve equal representation. Redrawing lines to quiet the voices of thousands is an insult to the powerful history of North Carolina's diversity.
10/19/25 10:35 PM	Stephanie Hall	As a Medicaid provider whose private practice and clients (disabled children) are suffering because of the cuts to our rates (with no increase in over 2 decades), why in the world is further gerrymandering our state map your priority?!? Why can,Äôt you allow a nonpartisan group draw a fair map?? Stop cheating, stop gerrymandering, AND DO YOUR JOB. You are literally taking away our voice. The people of North Carolina are watching you and are not happy with what we see. Do what you were elected to do: Improve the lives of your constituents. Not worsen our healthcare and dilute certain North Carolinian votes.
10/19/25 10:35 PM	Kara Garrett	I am against political gerrymandering in our state. If you have to cheat to win you are doing something wrong and you are not representing the people of the state
10/19/25 10:36 PM	Oppose Gerrymandering Paige Thompson	I,Äôm a lifelong North Carolinian, and I love this state, even attended college in this state and never plan to leave this state! But changing these maps just to keep power isn,Äôt right. It,Äôs cheating, and it silences the very people you,Äôre supposed to serve. You are called to lead with honesty and fairness ,Ä¶..not fear or control. That,Äôs not just politics, that,Äôs basic Christian truth. Please do what,Äôs right in the eyes of God and the people. Let every vote count the same.
10/19/25 10:36 PM	Jessica Merry	I,Äôm writing to expression my opposition to redistricting NC voting lines. Bring it to the voters to decide!
10/19/25 10:36 PM	Sarah Kramer	Redistricting should be handled by a neutral third party to make sure the process is fair and unbiased. Gerrymandering undermines the democratic process and results in a waste of time and energy in courts. BTW, y'all still haven't passed a budget! Focus on the basics, please.
10/19/25 10:36 PM	Ms. Leigh Ann McDonald	I am opposed to the North Carolina legislature redistricting in order to create more favorable districts for Republicans. This is absolutely unnecessary and a waste of time when there are so many other issues. Please refrain from this blatant power grab and get back to more serious work.
10/19/25 10:37 PM	Stop the Gerrymandering! Dorian Parkhurst	If the Republicans can do this, so can Democrats. Do not set this precedent in North Carolina! I don't want either party to be unfairly over represented. I am an unaffiliated voter, and choice is extremely important to me when it comes to voting. I have voted for good Republican candidates in the past, but if the NC GOP decides to pass these new maps, I will have no other choice but to stop voting republicans into office. The NC GOP is manufacturing a power struggle that was never necessary and forces unaffiliated votes like me to "choose a side". DO NOT PASS THESE MAPS.
10/19/25 10:37 PM	Richard Ellis	NC does not want this. I do not want this. Stop sucking Trump's balls and actually work for the people of NC. NC is a purple state. Once again, please stop licking Trump's boot and do right by the citizens of this state. No taxation without representation. THANK YOU FOR YOUR ATTENTION TO THIS MATTER!!! YOUR EMPLOYER, RE

10/19/25 10:37 PM	Protect our Voices Chakula Wolfe		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally.
10/19/25 10:38 PM	Selina Kelly		I currently reside at 117 Rough Bark Trail in Asheville, and I oppose any redistricting bills. Unfair maps disenfranchise voters and lead to long-lasting political problems. Drawing districts to favor one party leads to severe polarization, legislative gridlock, and a weaker congress. The NCGA's redistricting attempts cheapen the political power of North Carolinians, and all Americans. Please pass an overdue budget, and don't focus on this nonsense. Thank you for your consideration.
10/19/25 10:38 PM	Brenda VanLunen		Absolutely not. We are already severely gerrymandered.
10/19/25 10:38 PM	Ms Megan Brevard		Please stop trying to manipulate elections with gerrymandering districts . Republican legislators are trying for the second time since 2020 to manipulate North Carolina voters. Unfair maps disenfranchise voters and lead to long-lasting political problems. Drawing districts to strongly favor one party is not democracy. Protecting elections and ensuring democratic elections means leaving districts the way they are. I am concerned for NC children and families who deserve a fair election.
10/19/25 10:38 PM	Mrs. Michelle Allison		Everyone of you should be ashamed of yourselves for doing Trumps bidding. You work for the people of North Carolina and we will remember this for years. Dirty politics are getting old and we are tired of all this shit!
10/19/25 10:40 PM	Joshua Nixon	NC Poor People's Campaign	I am extremely concerned with the prospect of Republican politicians redistricting to gain more in the legislature. They already have a majority, and their supermajority was defeated by an election by the people. Redistricting needs to be left to a politically-independent commission. The representatives of North Carolina should take their marching orders from the people, not the President of the United States.
10/19/25 10:40 PM	Brittany Bryan		As a North Carolina voter I ask that you refrain from introducing any mid-decade redistricting in 2025 that would further distort North Carolina‚Äôs federal voting maps and erode North Carolinians‚Äô power to elect candidates of their choice. A September 2025 survey of North Carolina voters conducted by a Republican polling firm found 84% of NC voters oppose gerrymandering under any circumstances, including 78% of Republicans. Just because you think you can redraw North Carolinians‚Äô congressional voting maps to manipulate the upcoming 2026 elections, doesn‚Äôt mean you should. Please represent all North Carolinians and¬†refrain from further gerrymandering our voting maps.
10/19/25 10:40 PM	Carolyn Beery		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It‚Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.‚Äù
10/19/25 10:40 PM	Heather Worrell		Do not redistrict in a fashion that favors one parties constituents over another‚Äôs. The borders shouldn‚Äôt be utilized to favor a certain party. Make every vote count.
10/19/25 10:40 PM	Aleta McClenney		This redistricting is wrong. It is an undemocratic power grab that serves the president but not NC voters. If Republican policies are so popular, there's no need to gerrymander them into being. Let the voters decide through a fair election.
10/19/25 10:41 PM	Christopher Liu-Beers		I am opposed to the 2025 Redistricting plan. At a time when the state of North Carolina is operating without an approved budget, legislators should be concerned with doing the people's business, not keeping themselves entrenched in power. Following Texas‚Äô extreme partisan playbook, this brazen mid-decade gerrymander seeks to give Republicans even more control of the state‚Äôs Congressional delegation and further diminish the voting power of North Carolinians. We are a purple state, and we deserve nonpartisan maps that create competitive districts statewide. This is a deeply unethical power grab and should be rejected by elected officials from both parties.
10/19/25 10:41 PM	Karie Seykora		This is illegal and a power grab by Republicans! You did this last year and again this year since you are scared puppets of Donald Trump and know you couldn‚Äôt win on merit and your record. I dissent and you will, eventually, face the music.
10/19/25 10:41 PM	Bruce Beery		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/19/25 10:41 PM	Anthony Spivey		I am 100% in favor of the proposed plan.

10/19/25 10:42 PM	Lara Dagnan	I strongly oppose the proposed Congressional redistricting plan. North Carolinians deserve fair, competitive districts drawn through a transparent, nonpartisan process ,Äî not lines engineered for partisan advantage. This proposal risks silencing communities, wasting taxpayer money on legal challenges, and further eroding public trust in our elections. Please reject this plan and commit to fair maps that reflect real communities and ensure every vote counts equally.
10/19/25 10:42 PM	Jennifer Blazing	I respectfully urge you to reject any mid-decade congressional redistricting that would further distort North Carolina,Äôs voting maps and weaken citizens,Äô ability to elect representatives of their choice. Gerrymandering violates core democratic principles of fairness and accountability, and it erodes public trust in government. North Carolina voters are 38% Unaffiliated, 32% Democratic, and 30% Republican. Any map that guarantees one party disproportionate control, regardless of voter preference, undermines equal representation and damages confidence in our elections. Recent polling shows that 76% of North Carolina voters agree that partisan gerrymandering should be illegal, including majorities of Republicans, Democrats, and Unaffiliated voters. The people of our state are clearly asking for fairness. True conservative and constitutional values call for transparency, integrity, and competition, with victory earned through ideas and persuasion rather than by manipulating district lines. Gerrymandering divides natural communities, concentrates power in the hands of political insiders, and diminishes voters,Äô ability to hold elected leaders accountable. I ask that you protect the voice and vote of every North Carolinian by rejecting partisan map drawing and committing to fair districts that reflect the true will of the people.
10/19/25 10:42 PM	Anne Griffis Wilson	Gerrymandering to gain or maintain power and control is diabolically wrong. It is antithetical to free and fair elections - one person, one vote. Both parties have historically gerrymandered, but that doesn't justify its continued usage. Without a doubt it shows a basic weakness, fear, and inability to win honestly and fairly, and most importantly gerrymandering is a power grab plus major lack of integrity and basic disrespect of other voters. I respectfully request that our NCGA take the high moral road and set an example of equal representation!
10/19/25 10:42 PM	Mrs. Amanda Whalen	Please make our maps fair and redraw them to be un-gerrymandered. The people of North Carolina deserve to live in a state with proper representation which listens to and is aligned with the constituents.
10/19/25 10:42 PM	Corey Cavalier	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 10:42 PM	We want fair maps Julie Maloney	This repeated gerrymandering is blatant cheating. It is a disgrace to the democratic process. I,Äôm ashamed of our Republican lawmakers. Attempts to blame democrats for doing so are ridiculous and everyone knows it. Votes should all have equal weight. Shame on anyone who supports this power grab. Your legacy deserves the tarnish gerrymandering gives it.
10/19/25 10:43 PM	Jennifer Martin	I will be there in person protesting this nonsense! And I will remember who all of the supporters of this power grab were when it comes time to vote!
10/19/25 10:43 PM	mr silas barber	Writing in OPPOSITION to this bill. Thank you

10/19/25 10:43 PM	Richard Finger		Redistricting should not be done any time a political party in charge wants. It should be done based on the census that happens every 10 years. Clear rules for how redistricting should be done and codified so no party has a say. Only the population and agreed upon rules should be used. The politicizing of the basic right to vote and making others votes less valuable is not what our founding fathers would have wanted and any fair person would want. Let,Äôs have fair elections all around.
10/19/25 10:44 PM	Mr Francis O'Neill	Citizen	What is the matter with you people, ethics, honesty, fairness all traded for a lust for power. Doing the bidding of a man who couldn't give a damn about you.
10/19/25 10:44 PM	Dr. Carolyn Stadier		Democracy has died in our country. You must tell evetyone involved when meetings are, we are living in the worst political times with a despicable mentally ill ego maniac. Narcissistic behavior, lies he cannot remember. How did our beloved country get here.. do you know. It has bevome embarrassing to say i am an ametican citizen. How dare he try to steal seats from anyone.
10/19/25 10:45 PM	Denise Bricker		I sunset how many of you call yourselves Christian as you try and make irrelevant more than 1/2 the population of this state. Probably a dumb question but, have you no shame? It's not your job to pick voters, it's our job to pick legislators and I promise you, we will remember this.
10/19/25 10:45 PM	Ms Madison Dierdorf		The intentions for this map have been highly publicized and made public. The intention to create a new map for an easier election for a certain party is literally the definition of gerrymandering. It is unconstitutional and goes against everything our Founding Fathers stood for. Equal representation is a founding principle of America. Everyone,Äôs voice and opinions matter, and when a certain geographic location starts to change their opinion, they are allowed to. You cannot continuously draw new maps to ignore the changing opinions of geographic locations. Additionally, once this becomes the new norm, every party in power will do this. This is an expansive reach into holding onto more power than should be allowed.
10/19/25 10:45 PM	Irene Caldwell	Retired senior ciitizen	Trump ordered Texas to find him 5 more Republican seats, so the gov. Knelt before him and did it. In California, the News on asked his constituents if they would approve redestricting to counter Texas illegal move.
10/19/25 10:46 PM	Threatening democracy Emily Richards		By allowing this to happen, you are diluting the will of the people you represent. We all know that North Carolina is a purple state, nearly 50/50 Dem/Republican. This redistricting does not represent the political makeup of the state and is intentionally stealing the power of voting from many many people. This is the kind of action that will lead to the end of democracy in the United States.
10/19/25 10:46 PM	Jon Trullinger		As a North Carolina resident, I strongly oppose this proposed congressional map. Redistricting should protect fair representation, not manipulate election outcomes. This map eliminates competition and silences the voices of entire communities for political gain. I urge our legislators to put voters before parties ,Äî to maintain the current districts for now and commit to drawing fair, transparent maps in the future that truly reflect the will of the people.
10/19/25 10:46 PM	Bad decision Eric Gestrich	Private Citizen	Gerrymandering is a despicable way to disenfranchise voters and neutralize votes of the minority. Despite uneven distribution of parties, they now wish to further tilt the playing field in their favor. I would recommend the candidates concentrate on their policies in order to win voters rather than wasting time redistricting.
10/19/25 10:47 PM	Ms. Anne Gregory	Concerned Citizen	76% of North Carolina voters believe IT SOULD BE ILLEGAL FOR GERRYMANDERING TO BE USED TO DISCRIMINATE AGAINST VOTERS BASED ON POLITICAL PARTY The following breakdown of NC Voters say gerrymandering SHOULD BE AGAINST THE LAW: 66% of Republican voters 79% of Democrat voters 82% of Unaffiliated voters DO NOT MESS WITH DISTRICT 1! DO NOT TOUCH IT! FOLLOW THE LAW AND WAIT UNTIL THE 2030 CENSUS!
10/19/25 10:47 PM	Kimberly Gibson		If you are representing all the people and you are so certain that your policy is what the masses want, then why the change? I find this absolutely a grab for power and NOT for the good of the people. Each of you wanting to redraw the maps should be ashamed! As a constituent, I am disgusted by your actions. Here,Äôs to all of you being fired as soon as possible.
10/19/25 10:47 PM	Against Redistricting Christina Churchill		I,Äôm against the use of redistricting to silence NC voters! We want fair maps, fair elections, and politicians who actually represent the interests of the people.
10/19/25 10:47 PM	Kristen Golden		Does anybody even read this comments? Does anybody even care what their constituents think? You do? Good, because if you actually care, you would want your constituents' votes to be fairly counted and accurately representative of their wishes--all of which goes against this gerrymandering!
10/19/25 10:47 PM	Mrs. Blair Robertson		Please do not allow this redistricting to take place. Continue to make our votes COUNT. Remember our Constitution.

10/19/25 10:47 PM	Mr Jesse DeConto	Songs for Humans	‚ÄúWe are doing everything we can to protect President Trump‚Äôs agenda,,‚Äù North Carolina Senate leader Phil Berger said when he announced the legislature would redraw the map. THAT IS NOT YOUR JOB! Congress is supposed to be a check on presidential power. Our Congresspeople are charged with legislating the people‚Äôs agenda, not that of a term-limited President. Gerrymandering is an embarrassment to rational, patriotic people. President Trump‚Äôs demand to control our state‚Äôs representation and Senate Leader Berger‚Äôs acquiescence are dual assaults on our democracy and our state‚Äôs right. There is no good reason to gerrymander a new set of district boundaries ahead of the 10-year schedule. NC and our congresspeople belong to us, not to President Trump. Do the right thing, the ethical and moral thing. Let every vote count and don‚Äôt dilute our voting power with irrational boundaries that reflect Machiavellian maneuvering rather than public service. You work for us.
10/19/25 10:49 PM	This is not ok! Amanda Kile		It‚Äôs absolutely not okay that you are ONCE AGAIN redrawing maps to benefit republicans and push trump‚Äôs agenda. You are meant to represent every single North Carolinian. I thought republicans were all about state‚Äôs rights? I thought republicans wanted smaller federal government? This is antithetical to those ideas. Furthermore if you really think that you‚Äôre effective leaders there should be no reason you need to cheat to win.
10/19/25 10:49 PM	Lori Hyde		Don't do this. North Carolina's citizens deserve FAIR maps. Our state is already unfairly gerrymandered and this will disenfranchise even more of us. This redistricting does not follow the will of the citizens of the state. To quote Senate leader Phil Berger: ‚ÄúWe are doing everything we can to protect President Trump‚Äôs agenda.,‚Äù Per The Economist, Donald Trump's approval rating is -15%. Overall, 55% of the country disapproves of his agenda. Why would you support something that is so obviously a failure? Redistrict according to what is actually fair.
10/19/25 10:49 PM	Natalie B		I don‚Äôt think the state should be gerrymandered more than it already is. Please do not redraw the congressional maps. We do not need to ‚Äúgift the president with another republican.,‚Äù Again, I urge you to not redistrict. North Carolinians deserve fair representation in congress.
10/19/25 10:50 PM	Barbara Acosta Hong		Here‚Äôs a concise and effective public comment opposing the North Carolina redistricting plan: --- Public Comment: I oppose the proposed North Carolina redistricting plan because it undermines fair representation and weakens voters‚Äô ability to choose their leaders. Districts should be drawn to reflect communities ‚Äî not to protect political power. Gerrymandered maps divide neighborhoods, silence voices, and erode public trust in our democracy. I urge the legislature to adopt a transparent, nonpartisan process that puts people over politics and ensures every vote truly matters
10/19/25 10:50 PM	Khalil Utate		I am writing to express my strong opposition to the proposed redistricting plan. It is essential that the redistricting process be fair and just, ensuring that all communities are represented equally. I urge the committee to prioritize fairness in this process and consider alternatives that uphold the integrity of our electoral system.
10/19/25 10:50 PM	Mrs Shannan Younger		North Carolinians deserve fair maps that reflect the will of the people,‚Äînot the will of any one politician or political party. The people of North Carolina matter, and their voices should not be manipulated or silenced for partisan gain. The President should not bully the people of this state or pressure legislators into drawing districts that serve his personal political interests. The outcome of the last election was not a sweeping mandate to undermine democratic norms or ignore the diversity of political perspectives in our state. A narrow win does not give license to reshape our democracy in one person‚Äôs image or to erode the power of voters. Gerrymandering harms trust in government, weakens accountability, and denies citizens fair representation. I urge you to place the people of North Carolina above political pressure and ensure that every vote counts equally. Protect our democracy by adopting maps that reflect the true population and voting patterns of our state.
10/19/25 10:51 PM	Karen Manship		I am firmly opposed to more gerrymandering! Play fair or get out of the game.
10/19/25 10:51 PM	James Briley	Myself	Unfair gerrymandering is stealing North Carolinians right to fair representation. And those wishing to do so know it,¬ that‚Äôs why there‚Äôs a need for the secrecy, speed, and underhandedness. If only you could be so urgent and responsive in responding to REAL North Carolinians needs like healthcare, childcare, better schools, jobs, ¬.. shame on you!

10/19/25 10:51 PM	Mrs. Sherry Aldridge	Retired Educator	76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Stop this illegal gerrymandering! Cheating is not good politics. Fair is fair and gerrymandering is not fair.
10/19/25 10:51 PM	Emily Rhode		This is a blatant power grab by the North Carolina GOP because they are afraid to face the consequences of their actions in the upcoming elections. Gerrymandering like this undermines our right to free and fair elections and proves what absolute cowards Republicans are. This is not the will of the people, and North Carolinians will not stand for our rights being stolen from us by a corrupt legislature.
10/19/25 10:51 PM	Anna Coyne	Citizen	As a NC resident I oppose this redistricting. Do not pass this plan.
10/19/25 10:52 PM	Mr Samuel Todd	na	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government.
10/19/25 10:52 PM	SANDY MASSY		Without a census, there is no valid reason for redistricting. This is a brazen gerrymandering attempt aimed at changing the outcome of the mid-terms. It undermines fairness in elections and therefore undermines our democracy.
10/19/25 10:52 PM	Cynthia Carter		I am against redrawing of maps. This is gerrymandering plain and simple. I am SO tired of the cheating and the corruption of our general assembly!
10/19/25 10:52 PM	Ms. Giulietta Speziani		Representatives need to fix their policies instead of fixing the election.
10/19/25 10:53 PM	Caitlin Bunch		I am against gerrymandering and ask you please not to redraw NC congressional maps. I live in a gerrymandered district and am tired of noncompetitive districts. It is unacceptable to redraw these districts explicitly to gain a Republican seat. NC residents are not asking for this; we want fair maps.
10/19/25 10:53 PM	STOP VOTER SUPPRESSION Brittany F		Don't you dare try to cheat and rob people of their votes AGAIN. Jefferson Griffin is an embarrassment and so are you. Voters pick the representatives NOT the other way around.
10/19/25 10:53 PM	Tracey Willetts		Do not redistrict our state. The Republican Party realizes how unpopular they are. If you cannot win without cheating, go home.
10/19/25 10:53 PM	kiki barnett		NO TO GERRYMANDERING
10/19/25 10:53 PM	Hallie Shinn		I am vehemently opposed to this subversion of democracy. Our great state is almost evenly divided between Republican and Democrat affiliation. It is un-American to attempt to rig elections by gerrymandering. This should be illegal. Every state should have non-partisan electoral maps so the will of the people can be expressed.
10/19/25 10:53 PM	Elise Chang		I am appalled that my legislature is trying to unfairly redraw maps. As a young person, I had hoped for better from the people elected to represent me and my future. Do not think that young people are not tapped into this, because we are. We ask and urge you to oppose these terrible redistricting measures. If the people want you in office, you will be elected with fair maps.
10/19/25 10:54 PM	Kelly Walton		Every vote should matter. Please stop drawing maps that result in disenfranchising voters. It,Äôs un-American and against the founding principles of our country. We are better together and need to start cooperating with one another again for the sake of our children and future generations.
10/19/25 10:55 PM	Do Not Redisctrict! Stephanie McKenzie		Do not redistrict - we deserve equal and fair representation in congress.
10/19/25 10:55 PM	Rev Laura Wagoner	Eno Presbyterian Church	Mid-cycle redistricting negatively impacts voters. This is not fair representation. In a democracy, all voices should have fair and accurate representation. It's a blatant power grab. And we, the people, see what you are doing. Instead of partisan politics, embrace real representation.
10/19/25 10:55 PM	Mrs. Julie Terry		Do not redistrict. This is gerrymandering. Hands off my votes!!
10/19/25 10:55 PM	keep Democratic districts Amy Athavale		Please do not further gerrymander NC districts. They are already gerrymandered so much.
10/19/25 10:56 PM	Emily Regan		This redistricting plan is blatant gerrymandering and should NOT be done. Voters should be able to choose their politicians, not the other way around.
10/19/25 10:56 PM	Sarah Kunath		No matter our color, background, or zip code, voters should choose their elected officials, not the other way around. Please ensure that district lines are drawn in a way that gives our votes equal weight. Ideally, you all would do robust outreach in the communities you represent to hear our interests and perspectives, and take those into account when drawing lines, but we know this doesn,Äôt happen. North Carolinians have had to fight to be heard by mapmakers who would rather gerrymander themselves into power. Please listen to your constituents and draw fair maps.
10/19/25 10:56 PM	elizabeth civils		These new maps are incredibly disappointing. They are not representative of North Carolina and should be reconsidered.
10/19/25 10:57 PM	Way to ruin a fair fight Michael Maloney		We live in a state where elections are likely going to be close,Ä¶it,Äôs a purple state. And that,Äôs OK, because the prevailing party should have to win a fair fight. This garbage maneuver will take it out of the voter,Äôs hands. You want to win elections? Be the best candidate. Don,Äôt change the rules so you don,Äôt have to be.

10/19/25 10:57 PM	Alicia Young		This is a corrupt power grab by the President and GOP. Voters should be able to choose their representatives in a fair election. This is move is not in line with American values and is a clear abuse of power.
10/19/25 10:59 PM	Mrs Emily Malpass		Your job is to pass a budget that funds the things NC needs, not rewrite the rules of the next election so you can,Äôt lose. Do your job.
10/19/25 10:59 PM	Richard Koerber		Any attempt to manipulate NC voting district maps should be met with shame and prayers that those supporting such aggressive disbonesty find themselves in God,Äôs headlights of seeing their hearts. This is a gesture of disrespect and betrayal of our democracy and living an upright life. Please do the obvious thing and do no muck in such underhanded ways. If you want a change, bring it to a vote by your constituents.
10/19/25 11:00 PM	Ms. Candice Davies	None. Citizen.	Good evening. I am writing regarding the redistricting campaign that you are so shamelessly championing. At 70 years of age and as the daughter of a USMC fighter pilot, I never thought I'd live to feel shame and such a deep concern for the state of our once great nation. Greedy, unpatriotic and unethical corruption is chipping away at democracy. Relative to THIS particular 'chipping', I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 11:00 PM	Heidi Witmer		This is unlawful and wrong, and I,Äôm pretty sure you all know it! I will never trust the Republican Party again.
10/19/25 11:00 PM	J S		NEGATIVE. Do not past go! Do not collect $200. Get real and stop the nonsense.

10/19/25 11:01 PM	Ms. Patricia Walker	Individual Citizen	Since appearing on the political scene in 2015, President Trump has repeatedly insisted that our elections are ‚Äúrigged.‚Äù And he is right. The partisan gerrymandering, which has taken place in the State of North Carolina over the last few years, has rendered voting maps discriminatory and unfair. Citizens do not have the opportunity to express their will, and are, in fact, being denied their constitutional rights to representation. Now, Republicans around the country, are attempting to rig the 2026 elections by engaging in mid-decade redistricting. This may not be strictly illegal, but it is unfair, unsportsmanlike and detrimental to our democracy. It also tells us how little Republicans respect both voters and our democracy. Wide majorities of all voters ‚Äì Republicans (66%), Democrats (79%) and Independents (82%) ‚Äì oppose gerrymandering and recognize that it is unfair and undemocratic. Every party should have the self-respect, decency, confidence, and commitment to our Constitution to be willing to compete on a level playing field. Win, lose or draw. Leave the maps alone! Patricia M. Walker 984-255-3360 auntmatilda@nc.rr.com
10/19/25 11:01 PM	Alexandra Fitzgerald		I oppose the redistricting! This is manipulative and we have suffered enough under the current leadership that doesn't serve or protect average hard working American or human rights. This is not what democracy looks like. We are supposed to be a government of the people, for the people. Please don't embarrass the state of NC with this gerrymandering tactic. Let the votes be fair and representative of the population.
10/19/25 11:01 PM	Jessica Tenenbaum		Is NCGOP not even pretending to care about democracy anymore? It's not democracy if it's rigged for one side to always win. Shame on you.
10/19/25 11:01 PM	Luisa C		Democracy isn‚Äôt won by silencing voices. Gerrymandering to secure a win, isn‚Äôt a win, nor is it democratic at all. NC deserves to have their voices heard.
10/19/25 11:01 PM	Erin O‚ÄôReilly		Fair maps matter to us all. When NC has had fair maps in the past - we sent equal numbers of republicans and democrats to the house of reps (and fewer extreme members). Return our maps to being fair again. Do not proceed with this further gerrymander of our state. You are cheating enough as it is!
10/19/25 11:03 PM	Redistricting Kelly Keating	Citizen	Trying to make it harder for our votes to count is the quickest way for constituents from both sides to work together to remove you from office. Do not take away the votes of the people. Pay fair.
10/19/25 11:03 PM	Jill Wright		Gerrymandering maps to steal seats is unconscionable! Doing it so that someone can please the current President and get his endorsement is infuriating! If you have to cheat because you believe you‚Äôll lose should have you listening to constituents to see what you need to do to win their vote legally. Please do something useful for the state you purport to serve and pass a budget.
10/19/25 11:03 PM	Nancy Plante		Redrawing the voter districting map was last done 2 years ago. Doing so again so soon after the last time is absurd and unethical. I don't support this measure at all and find attempts to redraw voting districts at this time as an affront to democracy, promoting decisiveness, and abuse of office.
10/19/25 11:03 PM	Mrs Charlene Malin		I would like to formally express my displeasure with the redrawing of maps to gain more congressional seats for the GOP. You all were elected to represent the will of your constituents, not the cater to the whims of the President and it‚Äôs about time you all started acting like it.
10/19/25 11:04 PM	Republicans are fraudster Stop Maga		It's crazy that republicans think the world is so dumb that we don't see what they're doing . Rigging elections, changing maps, it's not free speech when Americans speak out unless it's against minorities or the poor. YOU ASSHOLES ARE SICK, this isn't about democrat or republican. We don't support this as Americans smh
10/19/25 11:04 PM	Dr Francene Black		Robbing people from the Opposing party of the ability for their vote to be meaningful is cheating and unamerican.
10/19/25 11:04 PM	Melanie Bruce		I do NOT support redistricting that expands gerrymandering for Republicans! This is nothing more than a cheating power grab. No further gerrymandering! NO!
10/19/25 11:05 PM	Heather Wright		I‚Äôm writing to oppose attempts to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around.

10/19/25 11:05 PM	Anna Cone		PLEASE do not go along with the immoral power grab being proposed with this mid decade redistricting. NC needs more representative governance not less. Voters have a right to choose their representatives not the other way around! Our state is around 50/50 Democrat/Republican and our leaders should reflect that.
10/19/25 11:05 PM	Ms Marty Adams		I wish to go on record that I am opposed to yet another costly and unnecessary gerrymandering of our voting districts. This is the Republican party attempting to assure their voting victories by cheating.
10/19/25 11:05 PM	Meghan Croll		I currently live in the 1st district and I am objecting to the planned redistricting. It's a craven and corrupt move by the NC GOP who have already manipultated our state politics in blatant power grabs. I'm a red-blooded white American woman and y'all make me sick. Too afraid to stand on your merits, y'all have to pull all sorts of dirty tricks to win because you haven't done anything worth people actually voting for you. Fuck you, if we're in the 3rd or 1st, you'll still lose
10/19/25 11:06 PM	Beth Ellen		Gerrymandering is bad for NC
10/19/25 11:06 PM	Mr Austin M		Push the redistricting
10/19/25 11:06 PM	Tess Kursel		We want fair voting in North Carolina. We the people have the right to represent our elected officials fairly. Gerrymandering is fundamentally undemocratic, and is an insult to the voters of our state. I firmly oppose any attempt to redistrict voting maps.
10/19/25 11:07 PM	A C		This is an embarrassing vote. Instead of focusing on real issues for North Carolinians, this a sham pandering to partisan control. The blatant attempt of the NC GOP to control diminish voting for marginalized communities is shameful.
10/19/25 11:07 PM	Mr. Brian Hatrick		Please stop being lackeys to fascist tyranny. This nation was once decent before this shit storm with tyrannical despot. The amount of laws being broken just to enrich yourselves while throwing rocks in a glass house. This is nuts and im fully aware you all know this. The people will remember this and claiming I was just following orders didn't work back then either.
10/19/25 11:07 PM	Mrs Dori Mikszta		I am writing to document my disgust that the Republican leadership in the NC General Assembly is once again redistricting the legislative maps in order to secure seats solely based on party affiliation. The voters of North Carolina deserve representation based on FAIRNESS , not the whim of the president. Y‚Äôall should be ashamed of yourselves. It disgusts me that you would deny voters representation.
10/19/25 11:07 PM	Leigh Matthews		My concerns are primarily the following: - The lack of voter participation in this process - Please consider initiating a ballot referendum that prohibits gerrymandering & establishes a nonpartisan redistricting commission - The brazen effort to allow elected officials to choose their voters ‚Äì Voters should be able to choose their representatives ‚Äî not the other way around - Gerrymandering suppressing voter turnout ‚Äì Voters know when their voice no longer matters ‚Äî we should be making it easier for folks to use their votes - Voters aren‚Äôt represented by elected officials from their own communities 85% of North Carolinians oppose gerrymandering in NC ‚Äî including me. Please support fair elections in NC & speak out against the current redistricting plan in your upcoming meeting.
10/19/25 11:07 PM	Ms Lois Henrickson	Citizen	This blatant hypocrisy has to stop! The maps are already badly gerrymandered. There is NO LEGITIMATE - or legal - REASON to change them further.
10/19/25 11:07 PM	Sarah Harrison		The redrawing of districts is ILLEGAL according to the constitution. We will remember! Demonstrate some integrity and respect for the rule of law. Do NOT waste time on cheating; get the budget done!
10/19/25 11:07 PM	Stephen Willetts		NO, to gerrymandering!
10/19/25 11:08 PM	2025 redistrcting Julea Harless		Hi. I believe the proposed redistricting should be allowed and approved. No matter your political Party, the proposal is good.

10/19/25 11:08 PM Mr Joseph Compton	Americans for Democracy & Free Elections	Repeating the words of Senator Michael Garrett. I agree with him 100%. To our GOP legislators, I urge you to act with fairness and reason. Please put our ideals of a fair Democracy above all partisan goals. Please pay attention to the millions of Americans (I was one) gathered across our country a couple of days ago. Like many other Americans, I fear that the ideals and goals of a representative government are under more threat than any time since the Civil War. - Senator Garrett,Äôs words- HAPPENING TOMORROW: Trump,Äôs Election Rigging Comes to Raleigh Donald Trump snapped his fingers, and North Carolina Republicans came running. They,Äôre dragging the legislature back into session TOMORROW to rig our congressional maps because Trump demanded it. And here,Äôs the part that should terrify every North Carolinian: As of right now, less than 24 hours before this session, Senate Democrats STILL haven,Äôt been told when it will begin. No notice. No schedule. Nothing. Read that again. They,Äôre reconvening the legislature to redraw our democracy, and they won,Äôt even tell the minority party when they,Äôre doing it. This isn,Äôt incompetence. It,Äôs a deliberate tactic. They,Äôre trying to keep us in the dark so they can ram through a gerrymandered map before anyone has time to react. They want to keep YOU from showing up. They want to silence opposition. They want to do this quietly, behind closed doors, before North Carolina wakes up to what,Äôs being stolen. This is what desperation looks like. This is what happens when politicians know their ideas can,Äôt win in fair competition, so they rig the game instead. If they were proud of what they Äôre doing, they Äôd do it in broad daylight. They Äôd give notice. They Äôd invite public input. They Äôd
10/19/25 11:09 PM Lynda Mauney		NC does not need redistricting to favor one party over the other. It is our constitutional right to vote for politicians we want - not what Republicans in NC want. Our rights and democracy has been trampled on enough this year!
10/19/25 11:09 PM Jennifer Allen		Please reject the redistricting proposal. This plan is a ploy by the current far right extremists in the executive branch further centralize power by disenfranchising millions of honest, hard working Americans. We deserve better from our representatives. America was founded as a protest against authoritarian tyranny by people who knew the rule of law must ensure liberty and justice for all. Let the people speak and have their voices heard.
10/19/25 11:09 PM Dr Cheryl Lester		Shame on you for redrawing congressional districts. Voters should choose their politicians, not the other way around!
10/19/25 11:10 PM Ms. Susan Lang	None	Somehow this just sounds fishy. Why would you decide to redistrict before the midterms? Could it be? Are you really trying to cheat your way to more power? It,Äôs called damn filthy. Recognize that the path you,Äôre taking is doomed. Time goes forward and we are tied to that forward direction. To go backwards to the ‚Äò50s makes us oldsters sigh and start pushing ahead. I,Äôm sorry you,Äôre so frightened of change. I am not and I,Äôm due sooner or later to face that biggest change.
10/19/25 11:11 PM Mallory Foster		Dear Legislators, Changing our congressional district maps is an offensive, blatantly partisan plan. Our maps are not truly representative and the current maps move toward less representation of our increasingly diverse voting population in North Carolina. Additionally, these map changes may backfire as states like California choose to gerrymander their maps to protect our democracy. If candidates cannot win in the area they are running, perhaps instead of changing the maps, they should listen to their constituents and change their platforms or step out of the running. Thank you, Mallory Foster
10/19/25 11:11 PM Elizabeth Carlin		Please do not vote for the redistricting plan put forward this week. It would reflect very poorly on North Carolina as an attempt to rig elections.

10/19/25 11:11 PM	Fredda Mangel		Thanks for taking comments on this critical, time sensitive topic that really doesn't have to be so as you all know. As a NC resident it's clear to me the only reason for republicans to take up this redistricting fight is to bow as acolytes to Trump. You know this is true. You also know that redistricting violates core principles of fairness, accountability, and limited government. Manipulating district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Äô ability to hold our leaders accountable. Redistricting as Rs propose disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! The proposed maps would dilute the political power of Black North Carolinians, ‚Äúcracking‚Äù the northeastern Black Belt into two districts. This is in direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color. And I expect better of our elected representatives. Thanks for your consideration - Fredda Mangel (#802-345-0778).
10/19/25 11:11 PM	Amy Miller		This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters.
10/19/25 11:11 PM	Mrs. Katherine Hegemann	Home	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 11:11 PM	Republicans must lose Josh Fields		Republicans can‚Äôt win with fair maps, and must be defeated at all costs to ensure a stable democracy and habitable planet. Republicans are quite literally a threat to the future of civilization. Fair maps now!
10/19/25 11:13 PM	Durham resident Karen Soskin	Indivisible	I‚Äôm very opposed to redistricting because this permits politicians to choose their voters rather than voters selecting who will represent them.
10/19/25 11:13 PM	Angela Giddings		I respectfully request that you do not advance the proposed congressional map. Approving the proposed map would be I‚Äôll-advised for the following reasons: 1) Too many of the districts cover regions that are so wide and with such diverse needs that it would be extremely difficult for one person to represent it effectively. 2) The maps are based on population data that is five years out of date and thus the districts may not meet requirements and be open to endless legal challenges. 3) Your duty is to the people of North Carolina first and foremost and this proposed map does not serve the interests of this state.
10/19/25 11:14 PM	Mr Max Mauney	NA	The map should not be redrawn to favor one party. Politicians should not pick the voters it should only be up to the voters to choose.
10/19/25 11:14 PM	Mrs Sandra Trotter		As a North Carolinian that loves her state, I am confounded by yet another blatant ploy to bypass the will of the voter and lay waste to the principles NC holds dear.
10/19/25 11:15 PM	Carol Miller	Binkley Baptist Church	Manipulating districts to satisfy political gain goes against our founding principles of democracy and voting rights legislation. Please refrain from this dangerous path. We are NOT Texas!

10/19/25 11:15 PM	Cyra Lowery		The proposed redistricting map dilutes American Indian voting influence by splitting the Lumbee State Designated Tribal Statistical Area (SDTSA) into three separate districts (proposed districts 7, 8, and 9), and it also splits the Coharie SDTSA into three separate districts (proposed districts 3, 7, and 13). In doing so, the map raises questions about the extent to which legislators considered SDTSAs (or tribal populations more generally) when drawing the proposed districts. Please respond to this comment with an explanation of whether and how SDTSAs or other datasets about tribal territories, tribal service areas, or tribal populations were used or otherwise referenced in the redistricting process. In your response, please include details about (1) the year and source of tribally-relevant datasets used in redistricting, (2) when during the redistricting process these datasets were considered, and (3) consultations with tribal leaders related to use of these datasets. If no such datasets were used, please explain why. I am an enrolled citizen of the Lumbee Tribe of North Carolina, and I am of Coharie descent.
10/19/25 11:15 PM	John Quattlebaum		I oppose the proposed changes to the voter district maps. We are all neighbors. We are all North Carolinians. I would like to see less division.
10/19/25 11:16 PM	Mrs. Carol Turner	None	Redistricting AGAIN at the President,Äôs request to protect his policies is clearly disenfranchising the NC voters who are supposed to be represented by their state Senator and Representative-- in my case, Sen. Mark Hollo and Rep. Jay Adam's. I am angry that that this new map for Congressional districts, drawn before the next census, is being seriously considered.
10/19/25 11:16 PM	Alden Morrison		The proposed redistricting map dilutes American Indian voting influence by splitting the Lumbee State Designated Tribal Statistical Area (SDTSA) into three separate districts (proposed districts 7, 8, and 9), and it also splits the Coharie SDTSA into three separate districts (proposed districts 3, 7, and 13). In doing so, the map raises questions about the extent to which legislators considered SDTSAs (or tribal populations more generally) when drawing the proposed districts. Please respond to this comment with an explanation of whether and how SDTSAs or other datasets about tribal territories, tribal service areas, or tribal populations were used or otherwise referenced in the redistricting process. In your response, please include details about (1) the year and source of tribally-relevant datasets used in redistricting, (2) when during the redistricting process these datasets were considered, and (3) consultations with tribal leaders related to use of these datasets. If no such datasets were used, please explain why. I am an enrolled citizen of the Lumbee Tribe of North Carolina, and I am of Coharie descent.
10/19/25 11:16 PM	MS. Pandora Frazier		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is attempt to seize power for the GOP and it is unacceptable. Vote NO. This is an outrage to gerrymander a district based on race, trying to steal the next election to favor one party over the other and taking the voice away from NC voters. It is wrong that Texas started this redistricting scheme, which forced California to do the same, and now it is on our doorstep. Wrong is wrong on both sides. Stop gerrymandering to select YOUR voters and let us voters select YOU our representatives.
10/19/25 11:17 PM	Dee Caufield		Maps get redrawn every ten years after census. It's only been two years. Gerrymandering; what are you afraid of?
10/19/25 11:17 PM	Jim Goode	Self	Just today I looked at the 2024 election results and saw that President Trump defeated Kamala Harris by only three points. I also saw that Governor Stein defeated Mark Robinson by fourteen points. Clearly, North Carolinians do not give overwhelming support to either the Democrats or the Republicans. This is a closely divided state, and yet in Washington and in Raleigh, Republicans hold a shameful disproportionate number of seats due to political gerrymandering. This is not representative democracy; this is theft of our right for true representation. In Washington, NC Republicans now hold a ten-to-four advantage in Congressional seats. Yet, they now want another seat to further disenfranchise North Carolinian voters. All North Carolina voters deserve fair districts. Rather than continuing to game the system to benefit themselves, I urge our legislators to mandate a non-partisan method to create voting districts that truly reflect the political balance that is evident in the vote tabulations from the most recent elections. Quit playing power games with our lives to further your hunger for more power.
10/19/25 11:17 PM	Traci Curtis		You should not be redistricting North Carolina at this time. If this is the only way you win, you are no winner at all. Your secrecy will be exposed and you will be voted out. The people of North Carolina will not stand for this deception. Remember that you work for us, not the other way around.
10/19/25 11:17 PM	Sally Jernigan-Smith		I oppose this redistricting plan. It will further the gerrymandering of North Carolina in a way that does not accurately or adequately represent the state's population. This proposed redistricting will be harmful to local and federal representation. 85% of North Carolinians oppose gerrymandering. We are a purple state, and our elected officials should represent that accurately. Individual votes should matter, and artificially drawn distracts with nonsensical borders should not dictate how those votes count.
10/19/25 11:18 PM	Lori King		You were not hired to do what Trump wants. You should be more concerned about the citizens of NC. Quit trying to rig the system. If you want to be certain to get elected again, then do your job.
10/19/25 11:18 PM	Maureen Galvin		I am vehemently opposed to the proposed mid-cycle redistricting. Powerful politicians should not be using their positions to cheat.

10/19/25 11:18 PM	Ms. Rebecca Heskamp		Greetings. I live in Madison County where I am a constituent of District 11, and I strongly oppose partisan gerrymandering. This new redistricting plan smells particularly suspect. In a state where Trump beat Harris by a mere 3 points, and Stein topped Robinson by 14 points I would expect the governing bodies to reflect the closeness of those races. Gerrymandering has already contributed to a skewed picture in NC, where the House GOP has a 10/4 advantage. The maps have been drawn; why, other than political greed, would a new district be carved out in a very obvious move? Our state government should reflect the true divide in our state which is close to 50/50. Thank you for your time.
10/19/25 11:18 PM	Ms Roseanne LaValle		NO Redistricting
10/19/25 11:18 PM	Mary Beedle	None	I am against redistricting at this time I feel very bad that this leaves some districts and people disenfranchised.
10/19/25 11:18 PM	Rachel Pickens		North Carolina is already an incredibly gerrymandered state, literally the reason the word gerrymander exists - further gerrymandering NC to give Republicans another seat just to appease President Trump is taking away the voices of North Carolinians. We all deserve fair representation, if the General Assembly really cared to do what is right they would have redistricting completed by an independent council - or maybe finally pass an overdue budget.
10/19/25 11:19 PM	Opposition to redistrict Alfonzia Perry		While this cannot be stopped, NC republicans are extremely corrupt for trying to squeeze another seat for President Trump out of our state by redistricting our electoral maps. Gerrymandering disproportionately affects communities of color and means that their vote will quite literally matter less, it's plain and simple corruption.
10/19/25 11:19 PM	Lorna Edling		Redistricting and Gerrymandering should absolutely not be allowed by this or any state at the behest of any one party or another. To do so alters the power of the constituents voting. Especially mid decade. This is a deliberate attempt to swing votes unfairly. It is time to put a stop to this outdated and foolish practice.
10/19/25 11:19 PM	Sarah Greenberg		I am writing to express my deep concern and anger about the 2025 proposed Congressional district plan. This plan is dangerous and embarrassing for three reasons: 1. It ignores the interests of both Democrat and Republican voters. A recent survey of NC voters found that 84% of ALL voters believe that the redrawing of voter maps to favor partisanship is never acceptable. 87% of Democrats and 78% of Republicans believe that voting maps should be drawn neutrally (Source: https://www.commoncause.org/north-carolina/wp-content/uploads/2025/10/2025-NC-Redistricting-Poll.pdf) 2. It reveals the cowardice of many of our state representatives. The NC court's reversal of their decision on partisan gerrymandering shows that they don't care about their own constituents. They care only about being reelected and will do whatever our federal administration wants them to do. They are not acting in the best interest of North Carolinians by agreeing with this decision to redraw voting maps so unfairly. 3. It undermines and mocks democracy. In a democracy, voters choose their representatives. Under this plan, our representatives are basically choosing the voters they want in their districts, and which ones to exclude, so they,Äôre almost guaranteed to win. Case in point: Representative Davis won NC-01 fairly. This plan proposes to draw Rep Davis out of his own seat by shifting his voters out of the 1st District in NC. For these reasons, I do not support the proposed Congressional district plan. I support North Carolina representatives creating policies that actually benefit their constituents so that they don't have to cheat to win seats and keep their jobs. Thank you.
10/19/25 11:21 PM	Opposed to Redistricting Alexander Zirkle		Every North Carolinian deserves to have their voice and vote represented fairly. The redistricting plans proposed by the NC GOP disenfranchises dozens of communities and hundreds of voters. I grew up in Charlotte and went to college in Greensboro. I know this state, and I know it,Äôs people are tired of being the butt of our politicians joke they call service. North Carolina overwhelmingly showed our support for anti-MAGA politicians and policies in the 2024 elections and that scares the Trump loyalist inside our states government, and so they hope to steal as many votes as possible if they can,Äôt earn them. As a proud North Carolinian and American I am strongly opposed to these redistricting plans that seek to strip my neighbors of their voice and votes.
10/19/25 11:22 PM	Ms. Lucy McMorris		Gerrymandering should be anathema to all who value democracy and equal representation. Making voting districts in order to get a particular election result may be a historical fact (and failure), but it should not be our present and future. Political representation should be a reflection of the will of the people, not the will of a few political insiders. Gerrymandering degrades people's trust in our political system and is counterproductive to the work of building a strong and thriving democracy.
10/19/25 11:22 PM	Dr. Carole Kimmel		I oppose redistricting mid-cycle. It's a purely political move and a way to exclude people from being fairly represented. It discourages voting when the situation is stacked against certain groups of people - mostly the poor and underserved. Why can't our government serve all the people of our country, rather than stacking the deck in favor of political parties?

10/19/25 11:22 PM	Terry Lopez	I wish to express my disappointment in the current redistricting proposal. By law, that exercise should be done only once each decade and therefore, has been completed. I see no sense in wasting the people's time and money when there are so many other concerns of more importance. Please drop this matter from your agenda and move on to those that can positively impact your constituents and our great state. Thank- you!
10/19/25 11:23 PM	Henry Thomas	Shame on you You are making our GOP look weak, as if we can only win by rigging the election. We need fair voting to prove we are the better party. No more gerrymandering
10/19/25 11:23 PM	Stop Gerrymandering NC! Bonnie Toney	Shame on you, Republicans in the NC House and Senate! Is there no end to your appetite for corruption and self-dealing? Not only does this attempt to sneak another redistricting through out-of-cycle smack of dishonesty and dishonor, it shows the world that you are cowards. Too cowardly to stand up to the Trump regime, too cowardly to face your own constituents. It shows that you realize that your policies are too corrupt and harmful to the people of NC for you to win a fair election, so you resort to cheating instead. Even if you succeed in pushing this gerrymandering through, you,Äôre only weakening your own positions - you,Äôve already packed and cracked us as much as possible, and to create any more ‚ÄúRepublican districts‚Äù you,Äôre going to make your own people,Äôs current seats more precarious. Plus, even Republican voters are fed up with you. You voted to let Duke Energy raise rates on us here in NC to clean up their own mistakes, and that hits us all where it hurts. Plus, even the average Republican voter doesn,Äôt like cheaters, and they don,Äôt like this redistricting any more than Democrats do. Cordially, I hope this whole scheme of yours backfires on you, and that not only do each one of you lose your seats in the next election, but that your billionaire backers turn on you for being such incompetent criminals. History will not look kindly on your devotion to fascism, and your own kids will probably despise you for it, too. Grow some spines and actually serve the people of NC. You were elected by the people to work for us and for the good of our state in general. You weren,Äôt elected to line your own pockets at our expense, nor to serve large corporate interests or billionaires. I realize many of you are beyond shame, but I would think that enlightened self-interest would tell you that the tide in this country is turning *away* from fascism. You,Äôre like rats running ONTO that sinking ship with this redistricting nonsense. Elected officials who choose to stand up for the people against this regime will be hailed as heroes. Those who stand with the fascist regime will wind up on the dustbin of history.
10/19/25 11:23 PM	Amanda Foy	In brief, expressing my opposition to the new redistricting maps being voted on this week from here in Orange County
10/19/25 11:23 PM	Ms. Jean Estrada	Our maps were just redrawn 2 years ago. Why are we doing this again so soon? To get more Republican districts over any competing party, like the Democrats or Independents? It is unconstitutional to silence your constituents in this manner and should not be done, just to cave in to a President who thinks he can bully our legislators into doing what he wants. You should better than this and look after ALL the people in North Carolina!
10/19/25 11:24 PM	Oppose redistricting Andrea Hoff	I vehemently oppose the current district maps as well as the current attempts to redistrict even more skewed voter maps. NC votes nearly 50/50 Republican to Democrat and yet currently the gerrymandered districts have 10 drawn to get Republicans and 3 drawn to get a democrat with one being more competitive. They should be drawn to reflect the voter base to represent the entire state and not only the party in power. They should be balanced to give all voters a voice.
10/19/25 11:24 PM	Cristina Perez-Simmons	I,Äôm appalled at attempts to redistrict in such a partisan way. This process should be handled by a nonpartisan committee and accurately and proportionately represent its constituents. I call on you to do what,Äôs best for the state of N.C. and conduct a fair and nonpartisan redistricting process.
10/19/25 11:25 PM	Kate Brown	Our NCGA should be working to make NC a better place to live and work. Focusing on real issues that affect North Carolinians. Not wasting time redirecting maps.
10/19/25 11:25 PM	Alyssa Emerick	I so strongly oppose this redistricting effort. Not only should it be illegal, but you are harming the Republican party at the same time. My neighbors in my small, extremely red town are seeing the deep layers of corruption by dangerous and disgusting efforts such as this redistricting. It's obvious to the dumbest of dumb people that this redistricting effort is pure corruption and that there a reason the Republican party is concerned about losing. My neighbors and myself are asking more and more questions as we see what's going on and the Republican leaders' shocking efforts. Do the right thing and allow a free and fair election in NC. The only redistricting that should be happening should be removing the gerrymandering that has already corrupted NC. And do your damn job and pass a budget then waste more of our money with this corruption.

10/19/25 11:25 PM	Theodore Figura		‚Ä¢I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. ‚Ä¢Gerrymandering violates core principles of fairness, accountability, and limited government. ‚Ä¢Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. ‚Ä¢While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. ‚Ä¢Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. ‚Ä¢True conservative values demand transparency, integrity, and competition‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. ‚Ä¢Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. ‚Ä¢76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/19/25 11:26 PM	Paola Davila	N/A	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice.
10/19/25 11:26 PM	Miss Mary Olson		You take an OATH of office when you serve and represent the People of NC. The partisan power-grab that is political and racial and clas-based gerrymandering proposed here not only violates your oath of office, it violates your immoral soul. Shame on you. You know better . Don‚Äôt tell me you won‚Äôt be tearing at your own ability to face your children and grandchildren. Stand up. Be counted. Our nation needs heroes, not bigots. Come home to true Christian and Family values. Hate is an illness, not a value. Let‚Äôs all work together in fairness, liberty and justice for all.
10/19/25 11:28 PM	Alexander Hernandez		As a citizen and voter in this state, I find it unnecessary and a waste of the state's time to redistrict, and even think that it is a malicious attempt by some in the Republican party to gerrymander our state, please do not take this proposal up and leave the districts as is.
10/19/25 11:29 PM	Redistricting CHARLES NORTON		I am disgusted at your redistricting proposal at the behest of your apparent master, Donald Trump. Republicans are showing they care only about their own power and cannot govern with fairness or integrity. Totally disgusted.
10/19/25 11:29 PM	Mrs Lili Raymond		Please do not redistrict our maps yet again! Focus on passing a budget for the people of NC!
10/19/25 11:29 PM	Rachel Keeler		These maps are, very obviously, drawn to disenfranchise a huge proportion of NC voters! It's easy to see: when you look at % of the state that votes for democrats for their state reps & congresspeople, it's about half; when you look at the % of representatives that would be democrats if this map is passed, it's way less than half. It's a despicable, naked, un-American attempt to stop votes from mattering. Do not pass them.
10/19/25 11:29 PM	Emily Gray		As a resident of the state of Noth Carolina I'd like to go on record with my disapproval of this redistricting plan. We know what you're doing and why you're doing it. Our representatives are supposed to serve us and be our voice. You are Redrawing the districts to serve yourselves and silence our voices. You are not working for the people and you do not have our confidence. Shame on you.
10/19/25 11:30 PM	Stephanie Braddy		Phil Berger‚Äôs remarks about redrawing congressional maps to secure Republican control and advance Donald Trump‚Äôs agenda represent blatant partisanship and a direct insult to the people of North Carolina. Manipulating district lines to guarantee political power is not only unethical ‚Äî it undermines the foundation of our democracy. We, the citizens of this state, deserve fair representation ‚Äî not maps designed to predetermine outcomes and silence opposing voices. Redistricting should serve the people, not a political party. I urge you to vote NO on this redistricting effort. This is government overreach, and it sets a dangerous precedent for our state and our country.
10/19/25 11:31 PM	Dale Herman		Gerrymandering for political advantage is opposed by the vast majority of the citizens of North Carolina. By gerrymandering the district lines you are denying the right of the voters to choose their representatives and instead you are controlling the outcome of elections--equivalent to stuffing the ballot box. No one has given the General Assembly the right to essentially dictate who gets to serve in the General Assembly. Gerrymandering takes away that right from the voters.
10/19/25 11:31 PM	Hannah Surace		I am against redistricting as I believe it is cheating and a clear power grab! Voters should pick their politicians, not the other way around!
10/19/25 11:31 PM	Deborah Hammack		Any redistricting should be done by an independent agency with no political agenda behind. Do not pass this proposed Congressional district plan. It is simply a way to cheat the voters.

10/19/25 11:32 PM	Krissy Garcia		It is unacceptable and illegal to rig the districts in your favor. Our state deserves better. You are supposed to serve the public, not yourselves!! Stop the gerrymandering!! Serve the People!!
10/19/25 11:33 PM	Mr. Dan Faris	Retired NC public school teacher	You must refrain from mid-term congressional redistricting. It would further distort North Carolina,Äôs federal voting maps and erode any North Carolinian,Äôs power to elect candidates of their choice. True conservative values demand transparency, integrity and competition, not gerrymandering by partisan politicians!
10/19/25 11:35 PM	Mary Caudle	Concerned North Carolinian	Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. Stop GERRYMANDERING MAPS AND DILUTING THE POLITICAL POWER OF BLACK NORTH CAROLINIANS.
10/19/25 11:35 PM	Tamara Weaver		Do not gerrymander our districts again. This is unconstitutional and racist. We want to choose our representatives in fair unbiased elections. Furthermore when the next census is reported the maps should be drawn so that out citizens are fairly represented.
10/19/25 11:35 PM	Jamie Coppedge		NC GOP should be absolutely ashamed for further gerrymandering our state. You only cheat when you can't win on your policies. It's disgusting. The people choose their elected officials not the other way around.
10/19/25 11:35 PM	Richard Smith		No gerrymandered politically or racially biased redistricting!
10/19/25 11:35 PM	Melissa Truesdale		Do what is smart. Ignore gerrymandering and pandering. Instead pay attentiontorgosewhohired you, The PEOPLE
10/19/25 11:36 PM	Andrea Parkhurst		Voters pick their politicians. Politicians do not pick their voters! We do not want your maps, we want fair maps.
10/19/25 11:36 PM	Wanda Duncan		NO MORE GERRYMANDERING! This is cheating, it is not democracy.
10/19/25 11:37 PM	NC deserves fair maps Rachel Schipull		As a voter in North Carolina, I am disheartened by the work of our elected officials to denigrate the balance of power in our state so the voice of the people is no longer heard. This smacks of career politicians bending like weeds to the will of their corporate and partisan masters. When will NC republicans stop putting their own interests before their constituents,Äô needs? I am deeply disappointed as a long time resident of this great state that we are seeing these practices taking place. Redraw the lines to represent the true make up of North Caroline. Allow our state representation to be seen on the national level as we really are. Thank you for your consideration.
10/19/25 11:37 PM	Opposed!! Pamela Wyman		I am absolutely in opposition to this. I am appalled that Republicans would stoop this slow and try to gerrymander the state into oblivion more than it already is. I am a voter and a taxpayer and a citizen of this great state and I oppose this vehemently.
10/19/25 11:38 PM	No redistricting Jordaan VAN romburgh		I absolutely oppose this legislation.
10/19/25 11:39 PM	Julia Regent		As a proud North Carolinian, I will not let you steal our elections!
10/19/25 11:40 PM	Jillian Kuhn		I oppose yet another redistricting. The state government works for us, the people of North Carolina, not the president. Our legislators should be focused on our priorities and well-being instead of playing partisan games to consolidate power and diminish the voice of the people. If maps absolutely must be redrawn, it should be by an independent organization and the process must give equal consideration to all our elected leaders regardless of party affiliation.
10/19/25 11:40 PM	Patricia Homa		We don't need any more redistricting. Why is this even an issue? I'd like to know. There's been too much redistricting already.
10/19/25 11:40 PM	Laurie Elian		I oppose this redistricting. Your job is to represent ALL the citizens of North Carolina, not to do the bidding of Donald Trump. By keeping the Democrats from attending this meeting, you are refusing to hear our voices and are trying to rig the maps so that only Republicans can win the elections-this is anti democratic. The maps have already been redrawn to cut Democrats out, and this has got to stop. If you want to hold a meeting, you must allow everyone at the table and give them enough notice for them to be there.
10/19/25 11:40 PM	Richard Wasch	Ethical Humanist Society of Asheville	About the worst thing the Congress can do is to predetermine the outcome of elections. The legislators should not be picking their voters. Our Democracy cannot work with partisan districts where there is no incentive for legislators to compromise. We need independent redistricting commissions. Even better, we need rank choice voting for the primary process with another rank choice voting from 3-4 candidates in the final election. Another option is to design districts that have 2-3 representatives based on rank choice voting. Social unrest is just around the corner. Excluded voters will revolt in peaceful ways - but ways that tear us apart as a nation. It is shameful to allow partisan gerrymandering. The excuse that "it has always been done . . . we just have more sophisticated technology to do it better" is no excuse. It is wrong. There is no ethical justification. Rich
10/19/25 11:40 PM	Mark Radin	Individual	This plan is anti-democratic. If our elected officials wanted to see our opinions they should submit this to a public vote.
10/19/25 11:40 PM	Dr Elizabeth Watters		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina's federal voting maps and erode any North Carolinians' power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters' ability to hold their leaders accountable.

10/19/25 11:41 PM	John Puppelo		Redistricting was done only 2 years ago. Doing another so soon is appalling with no new data to support such a move like a census. Working to push the agenda of a single individual in government is absurd. The one at the top may have immunity but anyone else following unlawful orders can still be held responsible. Stay true to your constituents and do not bow to an obviously ill informed individuals trying to distort this country.
10/19/25 11:41 PM	Kimberly Hunt		I am completely against the redistricting that is taking place in North Carolina. The new map is unfair, it does not properly represent the people in our state. I am extremely disappointed in the actions of the Republican Party to basically steal more control of the state.
10/19/25 11:44 PM	Mr. Steve Burnett		Redistricting to further push the NC representation in Congress even further towards the majority party than it has already been, with no notice and no schedule presented for Monday's session to the minority party less than 24 hours before the day, is wrong.
10/19/25 11:44 PM	Ms. Emily Baucom		I,Äôm deeply concerned about the legislature,Äôs plan to redraw North Carolina,Äôs congressional maps again in 2025. This move is unnecessary, unethical, and clearly designed to entrench political power rather than represent the people of this state. Redistricting should serve voters, not politicians. Mid decade changes, especially ones crafted behind closed doors, erode public confidence and send a message that our votes only matter when they,Äôre convenient for those currently in power. North Carolinians have made it clear time and time again that we want fair maps, not partisan manipulation disguised as redistricting. If lawmakers truly care about democracy, they,Äôll stop this process immediately and support independent, transparent reforms. Anything less is a total betrayal of the voters you're meant to serve. Please do the right thing: reject this gerrymandering effort and stand for fair, accountable elections. Sincerely, Ms. Emily Baucom Garner, NC
10/19/25 11:44 PM	Karen Wing		I am adamantly opposed to the newly proposed redistricting maps and urge you not to pass these.what you are doing is unconstitutional to try to rig future elections , eliminating your constituents,Äô rights to fair elections and to have their voices heard. North Carolina is a battleground state for a reason, because roughly half of the people vote Democratic and half Republican. Please do the right thing and let that continue fair and square. The fact that this is even being considered is disgraceful and illegal.
10/19/25 11:44 PM	Unfair maps Amanda Peoples		This is a clear abuse of power by the Republican Party of nc and a disgrace to all North Carolinians.
10/19/25 11:45 PM	Ms. Marjorie Polk	Brunswick Voters 4 Democracy	This should not be happening unless we are in a census year which is not the case in 2025. Do not change our congressional maps. Try passing a budget!
10/19/25 11:46 PM	Geri Solomon	- Select -	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Thank you for honoring this crucial request on behalf of my numerous professional colleagues, friends and family. Geri
10/19/25 11:46 PM	Redistricting Max Greenhalgh		I oppose this redistricting. Statements put out by Republican leadership in the state legislature indicates that this redistricting comes explicitly to benefit the current President. This comes as this president posts about dumping fecal matter on protestors, declares the leader of a sovereign state a drug dealer, and threatens to invoke the Insurrection Act, which he appears to think stops all court cases, civil society activity, and elections. By following through on this redistricting in this manner, the legislature endorses all of these presidential actions and more.
10/19/25 11:46 PM	Ms Britta Starke		North Carolina has the ability and the balance to not engage in an Gerry mandering or manipulation of the congressional seats. North Carolina has the ability to swing to purple or blue at any time and the decision to do this will probably swing voters. We won't tolerate this state participating in the manipulation of our rights that the administration is engaging in. We don't want any part of it. The number of people that showed up in the "No Kings" protest around NC, should be a clear indication to you that the Republican Party is on the line and if you want to hold your party together , you will withhold a vote to manipulate districts.
10/19/25 11:46 PM	Ms. Karen Hill		I do not support this effort to "steal" a district for the NC GOP. This is yet another distortion of redistricting that is as unjust as the previous map! No. I dissent on these redistricting changes!
10/19/25 11:46 PM	Riley Walden		We deserve fair representation in congress and your push to redistrict is taking away those voices.
10/19/25 11:48 PM	Mrs. Carol Nelson		I would like to think that my elected government officials represent me and all of the citizens of North Carolina. Redrawing voting maps at the request of the president to rig elections is an egregious misuse of power, especially following a weekend in which that very president posted an AI video of himself in a crown, flying a fighter jet, dropping sh*t on American citizens. I am appalled that our NC government is even considering abdicating all sense of democracy and fairness. Your children and grandchildren are watching. Be sure you are modeling the type of leadership you want for them in the future. Cheaters never really win. If your message is good, you will be elected without the cheating.

10/19/25 11:50 PM	Pamela Johnson		This is illegal gerrymandering! You are a bunch of crooks for trying to push this through!
10/19/25 11:50 PM	Kyah Creekmore		Mr. Berger, You know you,Äôre a terrible politician. And you know your party is too weak to win honestly. You know the platform you run on is wildly unpopular with working people. So instead of earning support, you,Äôre back here trying to steal another congressional seat. Let,Äôs call it what it is. You,Äôre afraid. Afraid that voters are finally catching on to what you,Äôve done. Afraid that the Big Disgusting Bill you helped pass, you know, the one that stripped food, healthcare, and aid from struggling families ? It will cost your party everything. And it should. You gave billionaires a tax gift. You sold our social safety net for political clout. You,Äôre feeding the rich while our people starve, go bankrupt, and die from treatable diseases. You disrespected every soul scraping by in this economy. And now you,Äôre scrambling to rig the map because the votes won,Äôt save you. The American people will remember you. History will remember you. And I will make sure that the written record remembers you exactly as you are. A spineless man in a stolen seat, sabotaging democracy for your billionaire donors. Your name will not be forgotten. Not by me.
10/19/25 11:51 PM	Keith Bonin		Gerrymandering violates the core idea upon which this nation was founded. The Revolutionary War was fought to create a nation where the people got to decide who will represent them in government. The revolutionary cry of ‚Äúno taxation without representation,Äù was a direct way of stating that no government is legitimate, i.e., can tax its citizens, if those citizens are not entitled to choose their representatives. Gerrymandering is an attempt of the few to undermine the whole revolutionary cause and outcome ‚Äì its direct purpose is to totally bypass the will of the people and, instead, enable a few people to decide who will be allowed to represent the people. I strongly oppose the NC legislature,Äôs plan to further gerrymander our state, which will further rip away the rights of NC citizens that so many Americans have fought over the past two and a half centuries to establish and preserve.
10/19/25 11:51 PM	STOP redistricting Henry King		This redistricting plan would dilute minority votes and eliminate a Democratic incumbent in Congress. It,Äôs dishonest, wouldn,Äôt reflect the actual voters in the population and would amount to gerrymandering to get more Republicans in the house. STOP advancing this plan. The people don,Äôt want this, and you know it.
10/19/25 11:51 PM	Lexie Maese		Please do not redistrict.
10/19/25 11:52 PM	MR GEORGE CAHILL	NC VOTER FOR 55 YEARS	I oppose redistricting only to gain maximum partisan advantage. NC voters should be able to choose their politicians, the politicians shouldn't be able to choose their voters.
10/19/25 11:52 PM	Lindsay Wineka		Please do not redraw the lines. Leave them in place. Blatant changes are wrong
10/19/25 11:53 PM	Ms. Anna Viverette		Stop changing the rules (redrawing the lines) because you don,Äôt think you can win any other way. Use your time and power for good to create policies that help your constituents.
10/19/25 11:53 PM	Kate Axelrod		This is a clear attempt at further gerrymandering our great state in the interest of a few. Your should be ashamed of yourselves for having to rig things in your favor. Let people have fair elections! Also, do your actual jobs and pass a state budget!!!!
10/19/25 11:55 PM	Jane Lambert		I am strongly opposed to yet another redistrcting to keep 50% of your constituents from having a say. Is this the only way the GOP can stay in power- rigging elections? Get back to what we elected you to do. Pass a budget. Take care of the citizens of NC - we are your constituents.
10/19/25 11:55 PM	Heather Sprague		I strongly oppose the mid-decade redistricting proposed by the NCGA. 50.86% of voters endorsed Donald Trump in 2024. If these maps are enacted, Republicans will be given 78% of the representation in Congress for barely over half the votes in our state. North Carolina state law entitles citizens to free elections. These maps impede North Carolinians ability to be fairly represented in Congress. If Republicans would like to have more representatives, they should have more popular policies. I disagree with the redrawing of our congressional maps in the strongest possible terms.
10/19/25 11:55 PM	Sarah Ficke		I am against the legislature redrawing any district boundaries in between census cycles like this. You should be working on a state budget, not messing around with this unconstitutional business.

10/19/25 11:58 PM	Richard Nelson		I really do not know what to say any more. Either you realize how wrong this is and don‚Äôt care or you don‚Äôt and don‚Äôt want to know. Sins of commission or sins of omission. It doesn‚Äôt really matter which anymore. It seems that any semblance of decency, morality, ethics, and the basic idea of fairness is dead. At this point, I guess you have either been bought or are just morally bankrupt. May our future children and god have mercy and forgiveness for you for your actions. There is none here from me.
10/19/25 11:59 PM	Anna Pearson		A recent survey of North Carolina voters released Thursday found that about 84% of voters, including 87% of Democrats and 78% of Republicans, said redrawing voting maps for partisan advantage is ‚Äúnever acceptable‚Äù and districts should be drawn neutrally.
10/19/25 11:59 PM	Laurie Schultz	Dog groomer	This is wrong and you know it. The last change to the map was in 2023. Now you want to redo it again because you are afraid of election results at midterms. Know that we the voters see exactly what you are doing and know why. I encourage my State Representatives and Senators to vote against a new redistributing initiative.
10/20/25 12:00 AM	Me Currie Mixon		This state should be represented by the people‚Äôs desires, not the legislators‚Äô. We are tired of this kind of partisan junk. The system needs to be updated to reflect the fact that digital data has evolved to a ridiculous extent, and half of NC is not being heard, and the other is being primaried by the most unreasonable voices.
10/20/25 12:02 AM	Nicole Domenech		Voters should pick their politicians, politicians should not pick their voters. You‚Äôve lost the plot if you‚Äôre picking voters to appease the President. Do not redistrict yet again and fall in line with states like Texas that drown out the voices of a large portion of their constituency. You already did this to us just a couple of years ago. Have some honor.
10/20/25 12:03 AM	Michelle Temple		Please reject the redistricting proposal. This plan takes away the voice of honest, hard working Americans and we deserve better from our representatives. Let the people speak and have their voices heard. That is what America was founded on.
10/20/25 12:03 AM	Tiffany Pankey		The statement regarding our (the state of North Carolina‚Äôs) efforts to support President Trump‚Äôs agenda currently appears tone-deaf and divisive. As a non-affiliated voter, I am deeply concerned by many of the positions this administration has taken, particularly regarding the reduction of support for equal opportunities for minorities, whether based on race, economic status, intellectual abilities, age, or other factors that can be used to divide groups. As an educator, I am distressed for my colleagues who have been dismissed without cause, simply because the state determined the number of employees it would fund at the school level. I believe the NCGA can and should do better,‚Äùit's important to prioritize policies that promote unity and equity. We should avoid supporting initiatives that undermine the future of our nation‚Äôs leaders, professionals, and citizens, and instead work toward a more informed, connected, and equitable society. Supporting the initiatives of the current administration do the opposite.
10/20/25 12:04 AM	Stephanie Crosby		As residents of NC for over 25 years, my husband and I are strongly against redistricting at this point in time. It should be done once every decade, and not at the whim of the current president of the US or anyone else. Please keep our districts as they are currently so our voices can be heard in the next election.
10/20/25 12:04 AM	Margaret Powelson		The proposed map does not accurately represent the voters of North Carolina. If this map is approved, there will never been a fair election in the state of North Carolina until changed.
10/20/25 12:06 AM	Mr. William Baker		VOTE NO REDISTRICTING unless it is for equal representation. I strongly oppose the redistricting plans of the GOP. The only acceptable change is redistricting which results in equal representation through proportional representation. We want an Independent Redistricting Commission, Non-Partisan Redistricting Criteria, ranked choice voting and to be represented equally and equitably. The NC-GOP is treading upon the very foundations of the US Constitution and the North Carolina State Constitution. The voices of over half of the citizens of this state are being silenced by this Gerrymandering and there are going to be prosecutorial consequences for violating both the State and US Constitutions. VOTE NO REDISTRICTING unless it is for equal representation.
10/20/25 12:06 AM	Oppose Redistricting Elise Mudd		I am writing to express my strongest opposition to this Committee‚Äôs ‚Äúplan‚Äù to redistrict North Carolina‚Äôs electoral maps. This blatant power grab is an affront to democracy and the rights of North Carolina‚Äôs citizens. That this is even being considered during a time of such turmoil in our country is outrageous and the Members who have put this motion forward have brought shame on our great state and their own names. Any Member who supports this plan will be derelict in their duty to uphold and defend the constitution and the rights of our citizens. It is not your job to redraw lines to try to hold on to power. It is, however, your job to pass a state budget. It is my strong suggestion that you leave these district lines alone and get back your actual work of passing a budget so our state government can get on with doing its work. If you aren‚Äôt capable of doing that, then you don‚Äôt deserve to be a member of this legislature.
10/20/25 12:07 AM	Sol Baker		VOTE NO REDISTRICTING, unless it is for Proportional Representation.
10/20/25 12:08 AM	Eric Baker		Redistricting is a violation of the NC State Constitution. We want PROPORTIONAL REPRESENTATION NOW!

10/20/25 12:08 AM	Ann Fitzgerald		This is not what democracy looks like. Redistricting before a census is the norm. An OVERWHELMING BIPARTISAN MAJORITY OF NORTH CAROLINIANS OPPOSE THIS. Unfair maps lead to long lasting political problems - legislative gridlock and a weaker Congress! STOP THIS NOW.
10/20/25 12:10 AM	Sabine Kowal		Please do not redistrict the voting districts in North Carolina to further gerrymander the state to favor one political party over another. This is not the way to keep a democracy working. And if you do not believe in our democracy, what do you believe in?
10/20/25 12:11 AM	Robin Paraskevas		Please don‚Äôt redistribute yet again. It‚Äôs unfair and unjust. The people have a right to fair and equal representation.
10/20/25 12:12 AM	Georgia Baker		No redistricting unless it is for proportional representation. NO redistricting mid-decade. Depriving us of our voice and representation is a violation of the NC State Constitution. Gerrymandering does not qualify as a free election, and is a violation of our State Constitution!!!! WE WANT PROPORTIONAL REPRESENTATION!!!!
10/20/25 12:12 AM	No To Redistricting Heather Martin	NC Citizen and Business Owner	Stop this blatant election fraud to further gerrymander our state in hopes of solidifying one party rule in this country! We the people see this for what it is. You are on the wrong side of history siding with the MAGA radicals, much like the Confederacy. The South Won‚Äôt Rise Again. Get y‚Äôall‚Äôs act together.
10/20/25 12:13 AM	William Tucker		Gerrymandering violates core principles of fairness, accountability, and limited government. Are the GOP representatives so unpopular that they have to cheat to win an election?
10/20/25 12:13 AM	Cheryl Strother		This Redistricting is gerrymanderIng . And gerrymandering is cheating. Simply cheating.
10/20/25 12:14 AM	Ms. Bobbi Hague	Greater Bethel AME Church	Gerrymandering is wrong and should no be allowed to happen especially if it is being done to fix votes in favor of the Republicans.
10/20/25 12:15 AM	Katie Martin-Browne		Democracy only works when people's participation matters and politicians can be held accountable. The proposed map does precisely the opposite, further eroding public trust in government and extending the racist legacies of this country's past into the present. Those who have introduced and support this map have proven themselves to be anti-democratic and thus deeply anti-American. For shame.
10/20/25 12:15 AM	Ms Linda Chappel	N/A	You were elected to represent the people in fair and balanced ways. This power grab is not just. Do not do this to rig the elections.
10/20/25 12:21 AM	Ray Reyes		Stop changing our maps to reflect who you want to be elected. Gutting your constituents‚Äô ability to use our votes to let you hear our voices for who we want in congress muzzles the good people you were elected to represent. You have the opportunity to do what is right. Choose to fight on behalf of your state. Now is your chance.
10/20/25 12:24 AM	Mrs Shelli Denington		Stop the gerrymandering. Just because trump says that the districts should change, doesn't mean they should. Thousands of people across NC protested on Saturday making it known that we don't agree with trump's authoritarian rule. Listen to the people you represent! Do not allow a vote on redistricting!
10/20/25 12:27 AM	Ms C Chapell	LLC	Do Not Redistrict nor g Gerrymander to remove our RIGHTS
10/20/25 12:28 AM	Charlene Higgins		I write to you as a proud North Carolina resident and voter to ask you to refrain from mid-decade congressional redistricting. Ending gerrymandering upholds both the Constitution and our democratic duty to ensure the government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. I appreciate your consideration for this important matter.
10/20/25 12:28 AM	Megan Deluca		As a homeowner in Wake County NC, I do not agree with redistricting of our state. Please vote no on this.

10/20/25 12:29 AM	Jackie Gottlieb	It,Äôs simple NO MEANS NO,Ä¶ do NOT gerrymander NC any further! --You keep making choices to cheat. --Cheaters cannot be trusted. --Anyone who votes to gerrymander NC will never be trusted. You are a fool to think you will be rewarded by doing so. You saw the video of Trump dropping shit onto America. You really think you would be safe from that? Fool,Äîhe doesn,Äôt distinguish. He only cares about one person. What will it take for you to understand that you have decided to give up your freedom of mind, your autonomy. Of course, you don,Äôt think so. Trump tells you to do something and you are blindly appeasing. YOU ARE HIS SLAVE. Where is your threshold for saying no? If/when Trump tells you to jump off a bridge, will you do it? He asks you to kill someone, you would do it? He asks you to give him all your money, you would do it? Common Sense is to choose your constituents and not disenfranchise us anymore -- it is ethical, smart, and fair to go back to our voting maps being equally split between Republican and Democrat parties. Anything else is wrong. It is so disappointing that messages like this have to written. You are supposed to be adults, but instead, you have decided to revert to your insecure little boy and girl selves handing your lunch money to the bully and cowering in fear of being punished.
10/20/25 12:31 AM	No to redistricting Charlotte Smith	Fair competition and respecting NC voters,Äô preferences would mean having districts set by non-partisan commissions, not blatantly gerrymandered for partisan outcomes as the NC legislature is preparing to do. Do not move ahead with this plan. NC voters deserve the opportunity to elect representatives of their choice, not the ones you,Äôve skewed the system to elect. Cheaters never prosper, as I learned as a child. Do not do this.
10/20/25 12:32 AM	Mrs Anne Renihan	This is an outrageous violation of voting rights. It's a clear political move by Berger to curry favor from trump. Representative Davis consistently works to provide services to the constituents of district 1. There is no valid reason to change district 1 at this time.
10/20/25 12:32 AM	Caroline Armijo	I am vehemently opposed to redistricting the maps so that it forces the Eastern NC representative out of his district. I am still very upset about the last round of maps and having Virginia Foxx represent me when I live in the center of Greensboro. I want the maps redrawn by a neutral third party that does not allow for a swing of more than 5% of one party in either district. The NCGA and our House members only represents their own interests and not the interests of the citizens of our state.
10/20/25 12:38 AM	Tracy Rupp	Democracy depends on voters choosing their elected officials, not the other way around. North Carolinians deserve public hearings when it counts ,Äî throughout a redistricting process, before maps are drawn and before they are voted on. Voters across North Carolina are tired of these types of partisan games that put politics over real people. Please focus on issues that directly affect North Carolinians,Äô everyday lives, instead of wasting precious time and taxpayer dollars to further gerrymander our congressional districts, which are already among the most gerrymandered in the country. NO MORE GERRYMANDERING!
10/20/25 12:39 AM	Subverting the electorate Erin Dickens	As a lifelong NC resident who has lived, worked, and voted in different districts over the years, it is overwhelmingly apparent that the court-ordered fair maps of 2022 reflect the most accurate and sensible composition of legislative districts for the citizens of North Carolina. Our state briefly stood as a true contributor towards bipartisan democracy, exemplifying what can be achieved when voters choose their representatives and not the other way around. I can only imagine what the country might be on track to achieve if NC was still able to send a truly representative cohort of officials to Congress. Instead we face wasteful, regressive policy changes from greedy sycophants who have not done a single thing to improve the lives of their constituency. Instead of trusted, homegrown advocates with both passion and expertise(!) speaking on NC,Äôs behalf at the federal level, the courts and dark money interests prefer using the citizens of our state as pawns in their gaming and scheming. The intentional further Gerrymandering of NC in response to actions taken by states hundreds of miles away,Äî which should not be a factor here,Äî is both undemocratic in spirit and unnecessarily spiteful. More than anything, it both disregards and underestimates the will of the people of our wonderful state,Äî who daily, incrementally, are waking up to this manipulation and are determined to end it.
10/20/25 12:42 AM	Jennifer Baker	Voting districts should be determined fairly in a way that makes sense to a non-politician. Districts should not resemble a Chinese dragon or a dropped bowl of popcorn! Citizens should have the ability to choose their own legislators!
10/20/25 12:42 AM	Sarah Chong	NC deserves fair voting maps. Stop rigging our maps. This is unconscionable.
10/20/25 12:42 AM	Lydia Watkins	I OPPOSE REDISTRICTING

10/20/25 12:46 AM	Mrs Ruth Palka		Gerrymandering violates core principles of fairness, accountability, and limited government. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,ÄÎvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! Redistricting now is unnecessary, rushed, and costly. The public is not being given enough time to consider the proposal and discuss it with their representatives. North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps. The proposed maps would dilute the political power of Black North Carolinians, ‚Äúcracking‚Äù the northeastern Black Belt into two districts. This is in direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color.
10/20/25 12:46 AM	Steph W.		I urge NC state senators and representatives to oppose attempts to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around. Thank you for your time and consideration.
10/20/25 12:48 AM	Karin Schudel		This is an obvious power grab by Republicans and attempt to further dilute the voices of minority voters.
10/20/25 12:49 AM	H Diaz		Why so shady? Announce when this is happening in advance. Redrawing lines to save your President, not mine, is cowardly and undemocratic.
10/20/25 12:50 AM	Faye Sarner		I am strongly opposed to the proposed redistricting. This is a blatant attempt to gerrymander our state and does not accurately reflect the majority of our people.
10/20/25 12:51 AM	Mrs Heather Weidner		I do not want the Congressional District Map redrawn mid-decade. Our state is roughly 50/50, Republicans/Democrats, and yet the last set of maps was gerrymandered to give the Republican Party a 10-4 advantage over Democrats. The newly proposed map - demanded by President Trump - will unfairly increase that advantage, disenfranchising thousands of North Carolinians. Rigging the maps to keep Republicans in power shows that you feel you cannot win a free & fair election without cheating. This is NOT the American way.
10/20/25 12:53 AM	Mt. Davis Hinkle	voter	Mr. Berger has shown he is another to bow to Mr. Trump's command and disregard an effort to be fair and allow fair, accurate and timely represntative elections.
10/20/25 12:53 AM	Mrs Lethia Lee	Harrells Community Center	We as blacks should have representation on all levels local and state. it is not right to favor one party over another. That's cheating. and nobody wins when the party in power cheats. so think about the consequences of cheating first of all it is not right and it is not fair.
10/20/25 12:53 AM	Ms Rosemary McGee	Resident of NC	2025 Redistricting Public Comments Racist Rigged Maps make Racist Rigged Elections You're supposed to be representing the people of North Carolina, NOT following the edict of a president intending to influence free and fair elections . Simply ABHORRENT! Obviously, the only way Republicans know how to win is to CHEAT!
10/20/25 12:55 AM	Md Tobi Wolf		This mid decade redistrixting is unusual and potentially unlawful. Doing it at the request of a president is wrong. If you can‚Äôt win without cheating, you don‚Äôt deserve to win. I am firmly against redistricting and urge you not to attempt to create this situation in our state.
10/20/25 12:57 AM	Do not do it. John Wallace		North Carolina is nearly 50/50 divided Democrats vs Republicans, so fair redistricting should yield something near 50/50 representation. Anything beyond 8/6 is wrong and you know it. To argue that the Democrats used to do it, doesn‚Äôt excuse doing it now. The Democratic Party should never have done it, and the Republican Party should not do it now. We should be fighting for laws requiring statistical tests to ensure districts are not gerrymandered. Even better, we could divide NC into two multi-member districts, with 7 seats each, and go to ranked choice voting with no primaries.
10/20/25 12:58 AM	Citizen Angelena Dunlap	Warren County	OPPOSES REDISTRICING: You are deliberately weaking minority representation, creating diminished representation, redrawn district does not reflect socio-economic trends, creates disruption of community cohesion, and creating political bias.
10/20/25 12:59 AM	Ms Eileen Pruette		Gerrymandering is ruining our political process. Please put integrity back into elections by drawing maps which make common sense.

10/20/25 12:59 AM	Ms Beth Ballmann		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. o Gerrymandering violates core principles of fairness, accountability, and limited government. o Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. o While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. o Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. o True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. o Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. o 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. o There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 1:00 AM	Mr Geoff Dunkak		The political parties should not be allowed to pick their own voters. The end. Your corruption is obvious.
10/20/25 1:05 AM	Mr. Joe Bearden		This plan is terrible and un-American. Why do the leadership of the NCGA hate Democracy and America? Please think back on the reason for this country and let all voters choose their representatives, not the other way around.
10/20/25 1:07 AM	Tara Willis		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice.
10/20/25 1:10 AM	Donna Bolls		The proposed redistricting is playing dirty pool. How is this not election interference? I am opposed to the current plan to gerrymander districts to add more Republican representatives.
10/20/25 1:15 AM	Susan Hester	Self	Please stop this partisan and discriminatory attempt to prohibit fair voting in NC. This unethical action is unlawful and a shame on every legislator promoting it. Do not discredit the legal process with these attempts to create a state and national dictatorship.
10/20/25 1:15 AM	Chelsea Bartlett		I do not agree with redistricting.
10/20/25 1:16 AM	Ms. Margaret Beal	Citizen	No, I don,Äôt think there should be any redistricting done at the whim of Donald Trump. This is done every ten years after the census is taken. There is already plenty of gerrymandering as things now stand. I want my vote to count and I will be voting Democratic until the cows come home because what we have now in the U.S. is a complete sham. I am so disappointed in what our country has become. The rest of the world is laughing at us.
10/20/25 1:25 AM	Mrs Susan Kelly		How embarrassing for North Carolina. Weasels in a back room that know they can,Äôt win. So they rig the vote. This is not democracy. This is weakness and cowardice and an admission of a failed government. I am embarrassed by the republicans in North Carolina.
10/20/25 1:30 AM	Alexander Bryant		If the NCGA truly wants to represent the will of North Carolina voters, then it should be making sure they are represented fairly and accurately instead of willfully and openly playing political games and letting representatives of the dominant party hand-select their voters in order to maintain control. I am against this redistricting plan.
10/20/25 1:34 AM	Merry Block		@Bohogirl8457??:well, a color legend would be helpful because you don't say what yellow, purple, green etc stand for. 2nd, NC isn't supposed to redistrict their maps but every 10 years according to the law and yet it's been rigged 4 times in the last 6 years. That's a violation of the law!! THATS A CRIME!!!
10/20/25 1:34 AM	Joseph English		Please in this moment stand up to tyranny being brought upon America and simply do not proceed with any further redistricting plans. I live in Durham and my heart weeps at how much hate and corruption is involved in this process to illegally break up the fairly won House district by Rep Don Davis. Have you no shame Senator Berger and Speaker Hall? Sincerely, Joseph English, Durham, NC
10/20/25 1:35 AM	Marcee Silver		I am absolutely against redistricting maps for the self-serving purpose of keeping yourselves in power, and sucking up to a president who is trying to do the same.

10/20/25 1:39 AM	Jackie Gottlieb	Democracy depends on voters choosing their elected officials, not the other way around. This proposal is intentional rigging and a distraction from what is truly important -- oh, like passing the budget and funding education (only 2 of many many more). It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS. This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. VOTE NO to the redistricting/gerrymandering.
10/20/25 1:40 AM	Edwina Beavers	Greetings House Select Committee on Redistricting and Senate Elections Committee, As a concerned voter in Congressional District 1, wonderfully represented by U. S. Congressman Don Davis, I implore you to fight for North Carolina,Äôs working families by focusing your attention on improving access to affordable healthcare, decreasing the rise of food costs and decreasing the cost of utilities. With more than three weeks into a government shutdown, helping working families, children and retired seniors on fixed incomes and reopening the government should be the focus, not redistricting NC Congressional Districts 1 and 3 to benefit the GOP to the detriment of voters. Gerrymandering is unacceptable, illegal, unethical and an act of sabotage to the will of the voters. Voters should choose their representatives, not the other way around. Please get back to work, do the right thing and reject the proposed 2025 maps, which are an illegal attempt to racially gerrymander NC congressional districts.
10/20/25 1:40 AM	Mrs. Rachel Levett	As a North Carolina resident who supports fair voting maps and who already lives in a gerrymandered congressional district, I ask that you refrain from introducing any mid-decade redistricting in 2025 that would further distort North Carolina,Äôs federal voting maps and erode North Carolinians,Äô power to elect candidates of their choice. Our state is accustomed to you gerrymandering their districts. We are also tired of it. A September 2025 survey of North Carolina voters conducted by a Republican polling firm found 84% of NC voters oppose gerrymandering under any circumstances, including 78% of Republicans. While we elect state and federal lawmakers under a partisan banner, you took an oath to carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Just because you think you can redraw North Carolinians,Äô congressional voting maps to manipulate the upcoming 2026 elections, doesn,Äôt mean you should..
10/20/25 1:42 AM	Christina Ward	Redistricting should be able enabling representation of our state, and gerrymandering to give extra seats to your own party and to ‚Äúgift,Äù a seat to any president is morally and ethically wrong. Please do what,Äôs right for our state and the people who live here. All of us.
10/20/25 1:43 AM	Holly Hoerst	I am against this map. This map further gerrymanders our state and denies and dilutes the power of each vote.
10/20/25 1:43 AM	Do Not Redisctrict! James McKenzie	Do not redistrict - we deserve equal and fair representation in congress.
10/20/25 1:44 AM	M B	@Bohogirl8457??:well, a color legend would be helpful because you don't say what yellow, purple, green etc stand for. 2nd, NC isn't supposed to redistrict their maps but every 10 years according to the law and yet it's been rigged 4 times in the last 6 years. That's a violation of the law!! THATS A CRIME!!!
10/20/25 1:44 AM	Dr Maria Palmer	Do NOT redistrict! What is being proposed is a shameful anti-democratic power grab.

10/20/25 1:46 AM Gailya Paliga	NC National Organization for Women	The NC General Assembly should be doing its own job - passing the very late state budget - rather than doing the bidding of a president to game the system to keep control of Congress. The NCGA also needs to address shortfalls in health insurance and the ability of rural hospitals and rural residents to survive as fallout from the Big Brutal Bill passed by Congress. North Carolina has plenty of money - stop giving it away to rich people in tax cuts, money they don't need for private schools, and to non-medical anti-abortion clinics, which by the way, generally can't diagnose real medical problems like ectopic pregnancies (which can kill women and girls). The shrinking number of competitive seats in North Carolina and nationwide is harming political discourse ,Äî as well as the ability of Congress to accomplish much of anything. The NCGA leadership is treating their Democratic members very rudely - in this case not bothering to tell them in advance of meeting plans and keeping most if not all out of meaningful discussions on maps and other important issues. Terrible behavior with no excuses. The NC General Assembly should be doing its own job - passing the very late state budget - rather than doing the bidding of a president to game the system to keep control of Congress. The NCGA also needs to address shortfalls in health insurance and the ability of rural hospitals and rural residents to survive as fallout from the Big Brutal Bill passed by Congress. North Carolina has plenty of money - stop giving it away to rich people in tax cuts, money they don't need for private schools, and to non-medical anti-abortion clinics, which by the way, generally can't diagnose real medical problems like ectopic pregnancies (which can kill women and girls). The shrinking number of competitive seats in North Carolina and nationwide is harming political discourse ,Äî as well as the ability of Congress to accomplish much of anything. The NCGA leadership is treating their Democratic members very rudely - in this case not bothering to tell them in advance of meeting plans and keeping most if not all Democratic representatives out of meaningful discussions on maps and other important issues. Terrible behavior of the Republican leadership with no excuses. Another reason the NCGA needs to do its own job and pass a complete state budget - is that Educators and other state employees have gone months without pay increases while health care premiums and the cost of living have risen. The NCGA continues to harm public education and chase good teachers out of teaching. Pay our educators fairly! The children in public schools will grow up to be the parents and workers of the future. We want them educated, healthy and productive!
10/20/25 1:46 AM Ms. Catherine Sherrill		In drawing congressional maps, the goal should be to accurately reflect the voices of all citizens within the state. Members of Congress are elected to represent the people. They are elected to serve the needs and concerns of their constituents, not those of a party or president. Their commitment is to service, not power. In the most recent elections, votes in North Carolina have been divided nearly equally between Democrats and Republicans. In 2024, over 50% of votes went to candidates Democratic. Our current congressional maps are already drawn to disproportionally favor the Republican Party. The proposed new maps will alter the balance even further, giving roughly 75% of the representation to the Republican Party and 25% to the Democratic Party. This is clearly disenfranchising the voices of a quarter of North Carolinians. According to polls, 84% of NC voters oppose gerrymandering, which includes 78% of Republican voters. Elections should be won by earning constituents votes, not by redrawing maps. Gerrymandering is not in service of the people, it is in the service of power. This is undemocratic, un-American, and completely unethical. It suggests that the Republican Party does not believe it will earn voters,Âô confidence by doing what is right and meeting their needs. North Carolinians deserve better. We deserve fair maps. We deserve the respect of our representatives in Congress. We deserve to have our voices counted.
10/20/25 1:49 AM Daniel McIlmoyle		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.

10/20/25 1:50 AM	Ms. Linda Kastleman		Please refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode our power to elect candidates of our choice. Gerrymandering violates core principles of fairness and accountability. While we elect lawmakers under a partisan banner, we must carefully guard North Carolinians' confidence that, once elected, they will represent all voters in the state and protect their votes equally. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 1:54 AM	Ms Mary Prentis Jones		Our state is now fairly evenly divided between Democrat, Republican and Independent,Ä¶ a purple state. We already have quite a lopsided map. It makes no sense to make it even more so. It doesn,Äôt honestly reflect our citizens. We also shouldn,Äôt be doing this in an off year clearly as a power grab and to please our president.
10/20/25 1:54 AM	Rebecca Williams		It is past time to end partisan gerrymandering. Voters should choose their politicians. What we have now is politicians choosing their voters so they can seize and hold on to power. This is not democracy; this is one-party rule. It doesn't matter which party has a majority; districts should not be divvied up with the aim of consolidating power in the hands of one party or the other. This is blatant cheating and it is time to put a stop to it. Designating districts, both local and federal, should be handled by independent commissions comprised of voters from across the political spectrum.
10/20/25 1:56 AM	Ramon Fernandez		All Republicans and Democrats want are fair maps. We all want of our votes to count equally. I feel like you are stealing my most fundamental right as a citizen by gerrymandering these maps. As a Representative of this great State there is no greater injustice than stealing your constituents votes. Countless great Americans died for our sacred right to vote and it be counted fairly. Does that not matter to you? You can look in the mirror after knowingly voting unethically, just because a convicted felon told you to? Where are your morals? Your courage? Win my vote by having the courage to do what is right. Stealing votes, which is exactly what you are doing by gerrymandering, will tarnish your reputation forever...we will not forget!
10/20/25 1:58 AM	No Gerrymandering Aakshay Kumar		Hello, I am a registered voter who will not stand for this exacerbated gerrymandering. It is pathetic, cowardly and despicable. As if the nonsense committed by your colleague Jefferson Griffin wasn't enough, this is just as pathetic and disgusting. It is an insult to democracy and anyone who supports this is an AINO ("American in Name Only"). Voters deserve to have their voices heard and not diluted. Perhaps republicans would not need to fear losing their elections if they simply focused on representing their constituents instead of ruling them. Out of curiosity, why are republicans controlling Congress taking another week off and allowing the government to stay shut down? Are we ever going to see the Epstein files?
10/20/25 2:01 AM	Edwina Beavers		Good evening, House Select Committee on Redistricting and Senate Elections Committee, I urge you to reject the 2025 proposed maps which are an illegal, unconstitutional and unethical attempt to racially gerrymander the NC congressional districts. This is clearly an act of sabotage designed to seize power for the GOP, and it is unacceptable. Vote NO.
10/20/25 2:02 AM	Lee Ann Brown		This plan for redistricting prevents our voices from being heard!
10/20/25 2:03 AM	Retired Pastor Bescye P Burnett	Ths Beloved Community	Voting is a right of all citizens not dictated by a few because of privilege and power. Fixing the district to the advantage of one over the other is not justice the way this country was founded. Let,Äôs stop the fixing and get back to what this country was and is supposed to be if it is still hard,Ä¶a democracy,Ä¶we can do it if we close our eyes long enough to see where we have been,Ä¶where we are and just a glimpse of where we need to be!
10/20/25 2:09 AM	Ms. Bea Cot√©		Please pass the budget and DO NOT redistrict! Follow the law, the constitution, and the wishes of the many thousands who showed up Saturday to send you the message that North Carolina wants free and fair elections!!!

10/20/25 2:13 AM	Partisan Gerrymandering	Aaron Lane	To the Members of the North Carolina General Assembly: I am writing to express strong opposition to the proposed congressional redistricting legislation currently under consideration. The people of North Carolina deserve fair representation ,Äî not maps engineered for partisan gain. This legislation fails that basic democratic test for several key reasons: 1.Partisan Gerrymandering The proposed map is designed to predetermine electoral outcomes, not reflect the will of voters. North Carolina is a closely divided state, yet these new lines would all but guarantee one party control of nearly every seat. Elections should be competitive, not scripted. 2.Dilution of Minority Voting Power By removing or fragmenting majority-Black and Democratic-leaning counties, the proposal weakens the voice of minority voters. Such tactics violate both the spirit and likely the letter of the Voting Rights Act, and erode confidence that every North Carolinian,Äôs vote carries equal weight. 3.Lack of Transparency and Public Input This process has unfolded largely behind closed doors, with limited opportunities for meaningful public review or comment. Rushing maps through without community consultation or clear data justification undermines trust in government and the legitimacy of the outcome. 4.Mid-Decade Redrawing Without Census Data Redistricting mid-cycle ,Äî without any new population data or court mandate ,Äî signals a purely political motivation. Redrawing maps should respond to demographic reality, not shifting political advantage. 5.No Checks or Balances Because North Carolina,Äôs governor cannot veto redistricting bills, the legislature bears an even greater responsibility to act with fairness and restraint. Pushing through a partisan map under these conditions disregards that duty and leaves voters without a meaningful check on legislative power. 6.Erosion of Public Trust and Democratic Norms Every time maps are manipulated for partisan benefit, citizens lose more faith that their voices matter. Fair maps are essential to restoring integrity to our elections and ensuring that representatives are accountable to the people ,Äî not to the party drawing the lines.
10/20/25 2:15 AM	Carol	Hewitt	I respectfully request that you refuse to cooperate with the latest gerrymandering attempt by NC Republicans. It undermines the very reason we have fair elections in our country. Thank you.
10/20/25 2:19 AM	Ms.	Nisha Watson	Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. When politicians manipulate district lines to protect their own power, voters lose their voice and communities are divided for political gain. Across North Carolina, the message is clear ,Äî 76% of voters say it,Äôs time to end partisan gerrymandering and guarantee that elections are fair, competitive, and transparent. Fair maps = Fair democracy. Let,Äôs draw the line ,Äî for justice, accountability, and the future of North Carolina.
10/20/25 2:31 AM	Mr	Gregory Cranford	Redistrict so we have 7 Dems and 7 Reps.
10/20/25 2:31 AM	Ms.	Libby Brown	I do not approve of these maps. No party is entitled to congressional seats and politicians should not choose their voters.
10/20/25 2:33 AM	Mrs	Julie Harrison	As a registered voter in the state of North Carolina, I am appalled and ashamed of this Republican Party leadership bending over for this corrupt president. Obviously you have no moral character or integrity.
10/20/25 2:34 AM	Jules	James	I,Äôd like to say I am shocked that the NCGA leadership would be so nakedly partisan but having experienced gerrymandering after gerrymandering in this state for over a decade now nothing surprises only sickens me as yet again millions of North Carolinians are told who will represent us vs. being allowed to choose for ourselves. This grotesques misuse of already manipulated political power shows just how much the Republicans know their unpopularity. It isnt winning when you,Äôve eliminated any challenge; that,Äôs textbook one-party rule of all those dictatorships we teach our kids that the US has stood in contrast to. . Though I fear this comment (as so many other protests we citizens make against the actions of this body) won,Äôt matter at all, I say NO to this proposed restricting.
10/20/25 2:39 AM	7046037681	Mary Walker	Women for Community Justice Rowan County NC	While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally.
10/20/25 2:42 AM	Julie	Hall	We deserve fair maps and fair elections. This proposed map is a disgrace to every principle our nation was founded on and y,Äôall know it. Please cut the party over country crap.
10/20/25 2:44 AM	Jamie	Miller	Stop redistricting! You keep making it unfair!

10/20/25 2:52 AM	John Hall		This redistricting undermines the very foundation of a representative democracy. When district lines are drawn to favor one political party over another, we voters lose our voice. North Carolinian elected officials will become more beholden to national party agendas than to the people they were elected to serve. We deserve better. We are a dynamic state with a unique set of priorities. Creating competitive districts means that candidates have engage with all constituents, not just their base and ensures that elected officials reflect the full spectrum of North Carolina,Äôs values. We should not bend to the will of national parties or outside interests. Our districts should empower voters not politicians.
10/20/25 2:52 AM	Jennifer Schmidt		We the People decide who represents us, not those currently in position. History shows that cheating fails every time. Which side of history are you on? The world is watching. The country is watching. NC voters are watching what you're doing. We won't forget. Do the right thing. LET DEMOCRACY WORK
10/20/25 2:52 AM	Mr. Michael Baker		No more gerrymandering. Suppressing votes of thousands of North Carolina people is wrong, and makes democracy impossible.
10/20/25 2:55 AM	Marybeth Dugan		To the NC legislature, No to redistricting! We already have a rigged map that takes away true representation from a large block of citizens of NC. Intentionally alter the map now will further that disenfranchisement. To support this effort is to be on the losing side of democracy, freedom, and against the constitution of this country .
10/20/25 3:09 AM	Ms Rebecca Ganzhorn		I vehemently oppose redistricting. It is expensive, disruptive, and ultimately politicized for a party rather than the citizenry. In NC, we are watching and organizing. Please focus on what we need, rather than what certain legislators want. Perhaps a budget? That is the legislators,Äô job.
10/20/25 3:09 AM	Ms Stacy Williams		I recently moved to North Carolina after living most of my life in Louisiana ,Äî where I felt my vote rarely counted because district boundaries seemed locked in by partisan lines. I urge the NC General Assembly to **reject any new map that appears designed to eliminate or weaken the district currently held by Don Davis in eastern North Carolina solely for partisan gain. Having seen what gerrymandering looks like,Äîwhere voters are packed or cracked to favor one party,ÄîI believe strongly that North Carolina deserves maps that reflect real communities, not political convenience. I ask the committee to: Preserve communities of interest in District 1 (including its rural and coastal constituents) instead of slicing them to dilute one party,Äôs vote. Ensure transparency in how the map is drawn, and allow for public review so that citizens can trust the process. Avoid mid-decade redraws unless there is a compelling, non-partisan reason (like court order or major population shift). Using redistricting as a tool to lock in power only deepens the belief that ,Äúmy vote doesn,Ât matter.,Äù Fair maps strengthen democracy. Unfair maps weaken it. Please draw with voters in mind, not party advantage. Thank you for your consideration.
10/20/25 3:13 AM	Ms Sarah Bickley	none - retired	I demand you all stop rigging our maps even more. I love America and I revere democracy. I am furious and disgusted that you are letting the elected officials choose their voters instead of voters choosing their representatives.
10/20/25 3:13 AM	Marnie Cooper Priest		Partisan gerrymandering is an attempt to cheat. It should be illegal and shame on those who are involved.
10/20/25 3:15 AM	Mr Edwyn Saunders	Personal	Fair districts for all, Stop wiping out peoples voices.
10/20/25 3:17 AM	Donna Davis		Please uphold our election integrity by NOT ALLOWING districts to be redrawn.
10/20/25 3:20 AM	Melissa Peavey		Redistricting will disenfranchise the votes of our fellow North Carolinians. Protect the voices and the votes of our most vulnerable voters whose voices are trying to be silenced. I urge you to focus on reinstating programs that will supplement the needs of the citizens as they relate to affordable healthcare coverage for all, Medicare, Medicaid, SNAP, Meals on Wheels, Special Education, affordable college education, medical research, student loan forgiveness, women,Äôs health, and civil and human rights. Also, there are still many displaced families, damaged roads and bridges, and shuttered businesses in WNC a year after Hurricane Helene. Focus your efforts on protecting the citizens of NC. We have a very important mid-term election next year- listen to the needs of your constituents or you will be voted out of office- period.
10/20/25 3:30 AM	Mary San Filipo	Private citizen	I am very much against the redistricting of congressional maps at this time. This is supposed to happen every 10 years , not now. How about passing a state budget instead.

10/20/25 3:32 AM	Sarah Heath Williams		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS. ¬†This proposal is unnecessary, rushed and costly.¬†North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/20/25 3:34 AM	Mrs Bennett Cotten		I oppose redistricting more than once every 10 years following the census. I do not think it is fair to have boundaries drawn to favor any political party. And we need to have an impartial group draw the boundaries of NC Congressional districts as well as Legislative districts,
10/20/25 3:45 AM	Oppose redictricting Kristin Hanselmann		I strongly oppose the proposed redistricting plan that would add another Republican seat through partisan line-drawing. Redrawing maps mid-cycle for partisan gain undermines public trust, weakens fair representation, and tells voters that outcomes are decided before ballots are cast. North Carolinians deserve competitive districts where every vote counts equally. Our state,Äôs constitution promises that all elections shall be free. Gerrymandering violates that promise. I urge the legislature to reject or postpone any map that favors one party and instead adopt a transparent, nonpartisan process that keeps communities together and restores faith in fair elections. Please stand for democracy, not political manipulation. Respectfully, Kristin Hanselmann Wilmington, 28411
10/20/25 3:50 AM	2025 redistricting Andrea Sorey	Constituant	Do not redistrict. It is unfair and unconstitutional.
10/20/25 3:58 AM	Melissa Goldberg		This attempt at redirect the map is a shameful power grab and does not reflect Democratic values for the will of the people of North Carolina. I strongly object to changing these districts as currently out out currently proposed. I want my maps to reflect Fair, reasonable, logical districts that give equal power to every North Carolinians vote.
10/20/25 4:06 AM	Sarah Moon		This is shameful! This action is a national embarrassment. SHAME.
10/20/25 4:07 AM	Nancy Peacock		I oppose this effort at redistricting. Gerrymandering manipulates district lines for partisan purposes and undermines the constitutional promise of equal representation. It violates core principles of fairness, accountability, and limited government. True conservative values demand transparency, integrity, and competition - victory earned through ideas and persuasion, not through manipulation of electoral maps. This is wrong. It does not serve the people. It does not serve democracy.
10/20/25 4:09 AM	Mr Kevin McCarthy		This is an outrage. You damn GOP are trying to make the elections unfair and just, so you can help your party and NOT the people of North Carolina. You are putting your party first and not the residents of North Carolina. You're trying to make it unfair for African- Americans to vote. All of you GOP members should be stripped of your power and let politicians who actually care about the people of North Carolina run this state. What you're doing is illegal, unconstitutional and simply just ethically wrong. You should be impeached and possibly investigated for criminal acts against the American people. Your support for a President who is committing crimes against the American people and crimes against government people is disgusting, and all of you should be fired for treason.
10/20/25 4:19 AM	Mary Whitby		The majority of North Carolinians oppose gerry mandering and this is a deliberate attempt to further do that here in NC. The people want a nonpartisan committee to draw the maps - not the legislature.
10/20/25 4:25 AM	Lisa Kaminski Shortt		Gerrymandering is absolutely unfair and is against the principle of a fair and equal government. North Carolina should be a bulwark against actions that erode core principles of fairness, accountability, and limited government.
10/20/25 4:31 AM	Ms. Nancy Addison	none	76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 4:32 AM	Amelia Shaw		I oppose the attempt to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around.. Voters should pick their politicians; politicians shouldn,Äôt pick their voters. It,Äôs time for FAIR MAPs, not THEIR maps.

10/20/25 4:33 AM	Sheri Masters		Redistricting is an activity that is meant to serve the people of North Carolina, to give us a voice in our government. It is meant to be done once a decade, and it is meant to create contiguous districts that hold together as communities. Nothing in your proposed plan does this. Our state is evenly split between conservative and progressive voices. Our state representation should reflect us, not whatever party happens to hold a majority at this moment. Gerrymandering to allow politicians to choose their voters is wrong. This is a shortsighted plan and does not serve the people. We need to go back to the 2020 maps that more correctly reflected us as a state. You took an oath to serve the people of North Carolina. You did not take an oath to serve a man. Serve us, not a hunger for power. That hunger serves no one well. Not us, not you.
10/20/25 4:34 AM	Rev. William Kearney		Please do not approve the proposed redistricting map/maps because of the negative impacts on our ability to elect true representation for our communities. Counties and communities still suffering from the cumulative effects of years enslavement, Jim Crow laws, disinvestment, extraction, and other exploitations.
10/20/25 4:37 AM	Tabitha Whitley		This is disgusting. Your party is losing relevance so the only way to try to keep votes, is for you to steal them. Diluting the voices of people you don't agree with or accept, doesn't make those people disappear. You were elected to represent ALL of your constituents. Do your job correctly, or you will not have that job anymore.
10/20/25 4:37 AM	No Redistricting Marieta Wessels	American Citizen	Redistricting affects ordinary people, the people that elected you, the people that you have sworn to represent. Do the right thing for YOUR people in North Carolina, not big Washington politicians. Please, we depend on you.
10/20/25 4:39 AM	Deb Mulder		This state has already been unfairly gerrymandered for years. The maps have disparaged minority voters, and continue to do so. If the GOP policies are so beneficial and popular, why must you infringe on voters rights in order to win. This is NOT what elections are about. This is NOT what democracy is about. Do not pass the proposed redistricting maps. They are already fraudulent as they are. This is disgusting. Everyone's vote should count. If you keep trying to crush voters under your shoe, they will rise up against you. The GOP should be ashamed of themselves. The founding fathers certainly would be.
10/20/25 4:42 AM	Mike McCauley		I am writing to ask that you refrain from congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode North Carolinians,Äô power to elect candidates of their choice. The proposed redistricting plan is partisan gerrymandering that undermines accurate representation of the voting population of North Carolina. Furthermore, most voters in the state are opposed to redistricting for political advantage.
10/20/25 4:44 AM	Kathryn Puttkammer		Please do not continue to rig the electoral maps in NC. People need to be represented by people in their community in a fair manner. This is not the way our forefathers intended on having this country represented. Please do not gerrymander NC.
10/20/25 4:44 AM	Tara Leibert		Voting districts should be competitive and compact. We want all politicians to *work* for their jobs and be responsive to *all* of their constituents. Your proposal will create safe seats for people who will then feel like they don,Äôt have to listen to the needs of all North Carolinians. Please don,Äôt gerrymander our state!
10/20/25 4:48 AM	MJ Foley		This redistricting is about power. Republicans know they cannot win all these seats fairly so they rig the maps instead. NC is pretty much 50:50 between democrats and republicans, yet, republicans keep gerrymandering the maps to steal more and more districts. In 3023 they stole enough seats so that 10 of 14 districts became republican and now want to steal another district. In fact, it is the only NC seat held by a minority. So, not only is this gerrymandering theft, it is also racist! I hope all the republicans that play along with this game lose their seats in the next election! It is a horrible group and is not what the GOP was intended to be. I am so disgusted by the whole Republican Party at this point.
10/20/25 4:49 AM	Courtney Morrissey		Redistricting maps are supposed to ensure fair representation by adjusting voting district boundaries based on population changes. However, when gerrymandering occurs, these maps are drawn to favor certain political parties or groups rather than the people who live in those communities. This practice does not represent me or my family because it minimizes the impact of our votes and weakens our voice in government decisions. Instead of reflecting our community,Äôs real needs and values, gerrymandered districts divide neighborhoods and silence the voices of families like ours.
10/20/25 4:51 AM	Chris Kostopoulos		I am against redistricting.
10/20/25 4:52 AM	Mrs. Ashley Reilly	The people	Any assistance of someone attempting to erase the sanctity of our county,Äôs most sacred document will be noted, recorded and called upon in proceedings that follow that individuals inevitable fall from power. Please do not gerrymander our map in an attempt minimize the importance of our key right of voting for our chosen representatives and our consequential voting on laws that shape the future of our communities and potentially the shape of the country itself.
10/20/25 4:55 AM	Shade Adu		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/20/25 5:03 AM	William Phifer		To back Donald Trump,Äôs frequent illegal desires is weak and cowardly. If you cannot stand up to a senile old man, then you should not be a representative of the good people of North Carolina. To gerrymandering this state even further for the sake of Donald Trump is to show your lack of moral backbone and your lack of integrity. Western North Carolina still waits for federal aid that has yet to be given. Why should North Carolina want to help that fascist and his regime of cruel little men? Why are you jumping to work his shaft? Grow a spine.

10/20/25 5:03 AM	NO To the congressional m Nicole Nolen		I,Äôm writing to condemn your brazen attempt to rig the 2026 midterms. I want to remind you that a recent survey of voters here in NC revealed that 84% of North Carolina voters find it ‚Äúnever acceptable‚Äù for politicians to draw districts to help their own party win more seats, *no matter the circumstances.* That opposition holds across party lines, including 78% of Republicans, 87% of Democrats and 85% of unaffiliated voters. A vote for this congressional map is a vote that is in contradiction with your constituents wishes. We want representation that is accurate and truly representative of the diverse viewpoints of North Carolinians. Anything else is distinctly un-American.
10/20/25 5:04 AM	Mrs Emily Farr		I live in candler NC. I,Äôm not going to write a long post because I,Äôm sure you don,Äôt care anyway. In case I,Äôm wrong, I oppose gerrymandering in all states. It is criminal and you will loose high income residents. I,Äôm sure taxable income is of importance at the state level due to federal funding cuts for literally everything. Maybe that explanation will grab your attention. NC is a swing state after all
10/20/25 5:05 AM	NCGOP, you genuinely suck Victoria Curcio		Fair warning, strong language incoming. The fact that you sycophants on the right relentlessly contort yourselves into pretzels just to appease Ol‚Äô Yam Tits is insane. Breaking news: the NCGOP can‚Äôt win without cheating, because their policies are so deeply unpopular that they‚Äôre guaranteed to lose, so they have to rig the upcoming midterms by gerrymandering the shit out of the state ‚Äî shocker. Listen up, dipshits: you swore an oath to the constitution. You are PUBLIC SERVANTS. You work for us, your constituents ‚Äî not that massive piece of dog shit sitting his fat ass in the Oval Office, and his team of equally unqualified incompetent shithead loyalists that make up his cabinet. Dislodge your heads from your useless ass holes and do your goddamned jobs properly. We‚Äôre one of two states in the entire country that still doesn‚Äôt have a fucking budget for the upcoming fiscal year. Get your shit together and be productive, for once in your miserable, bleak lives.
10/20/25 5:05 AM	Carmen Eckard	Foothills Digest	There are 31% Democrats in this state and 30% Republicans and that's what our maps should reflect. I don‚Äôt appreciate this attempt to disenfranchise me.
10/20/25 5:06 AM	Voters choose politicians Victor Hoerst		It is the voters who should get to choose their politicians not the other way around. Redrawing districts for blatant partisan advantage is an abuse of power.
10/20/25 5:06 AM	Ms Katherine Jones		Please do not do this. We are a state that already does it have balanced representation. We have a population with diverse views and because of current districts those views are not represented. This will make it worse and is also not the will of the people who you represent.
10/20/25 5:08 AM	Carolyn Faucher		Public comment period on the new redistricting maps for North Carolina is open. You can tell the legislators directly what you think right now. If anyone is not sure what to say, I shamelessly copied and pasted from a few sources online and a few comments below, so feel free to copy and paste from me: I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and our votes should count equally, regardless of political affiliation, race, or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal
10/20/25 5:12 AM	OPPOSED Julie Shissler		Comment submitted. If someone is not sure what to say, here is what I wrote: I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.

10/20/25 5:13 AM	Dr Suzanne Botts	Citizen	We demand fair maps so that eligible voters can vote for candidates who represent their views. Contorting the districts to elect only one party,Äôs candidate to maintain control of the legislature is wrong. It is especially wrong when done as a partisan power grab. The legislators I sted should be working to pass a state budget protect our citizens from the cuts they put in place by the federal big beautiful bill to fund tax breaks for the wealthiest people and corporations which will severely hurt North Carolinians. They need to open the federal government from the shutdown they put into prevent releasing the Epstein files by swearing in the new representative from Arizona.
10/20/25 5:14 AM	Dr. PAUL KIM		Redistricting now is ridiculous and would exacterbate the problem. No fair maps, no fair and free representation of the people of North Carolina. Republicans are too weak and spineless to oppose anything that Trump says. They will bend the knee for anything to appease the conman Trump. Grow up, Republicans!!!
10/20/25 5:19 AM	Ms. Brandon Patton		As someone born and raised in North Carolina, I am appalled by what partisan politics has done to this once great state. The proposed Congressional redistricting plan will disenfranchise voters and manipulates district lines for partisan advantage, which undermines the constitutional promise of equal representation. This weakens voters,Äô ability to hold their leaders accountable, which I have come to believe is the only goal of the politicians who are pushing this forward. You serve the people of North Carolina, not whomever occupies the White House. I ask that you refrain from this redistricting. The people must be able to elect candidates of their choice - not people in Raleigh and Washington who seem to care more about power than the people they are supposed to represent and serve.
10/20/25 5:19 AM	Mrs Virginia Chambers		I strongly oppose the NCGA plan to gerrymander the congressional districts. Districts should be drawn by a nonpartisan group of experts in a logical and fair process. If Republicans have to cheat to win, then they should be thrown out of office.
10/20/25 5:20 AM	Sheila Johnston		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government.
10/20/25 5:21 AM	David Heath		Redrawing voting districts to serve one party,Äôs political interests is wrong and against the principals of democracy. The majority of citizens are against this blatant power grab.
10/20/25 5:22 AM	Mrs Karen Daniel		I want my vote to count in 2026 and 2028. Lease do NOT redistrict purposefully so that Democrats do not have a chance to win. We still live in a democracy and we have a right to have our voices heard.
10/20/25 5:22 AM	Tammy Jones		We the people should choose our leaders, not the other way around. I support non-gerrymandered voting districts. I oppose the unfair maps put forward by this NC legislature to rig our elections. In a state that is almost equally blue as red, our representation should reflect this. If you can't win fairly, you should not win.
10/20/25 5:22 AM	Marguerite Most		Thank you for the opportunity to submit public comments. I write as a North Carolinian who grew up in eastern North Carolina in what is now District 3. My family has a home in District 1. For over 40 years we have paid county and city taxes in Carteret County. I oppose the proposed redistricting. The most recent redrawing already gives Republicans an oversized majority of voters. Redrawing the maps for the fifth time in 4 years is a waste of money and time when the legislature should be working on passing a budget and ensuring that North Carolinians have affordable health care. In addition, small famers and small business owners are struggling to get by. Grocery prices are up, schools are underfunded, energy and health care costs are rising. The legislature should be taking care of North Carolinians, not redrawing maps. Redrawing voting maps for partisan advantage is not okay.
10/20/25 5:23 AM	Mrs. Ren√©e Hayes	United Women in Faith	76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 5:26 AM	Ms. Teresa Ray	Cotswold Professional Counseling Services PLLC	If you can,Äôt win fair and square, or if you,Äôre afraid you can,Äôt, cheat! Do whatever it takes. Is this what you teach your sports-loving kids and grandkids? Good sportsmanship over controlling the outcome!
10/20/25 5:27 AM	Mr. Richard Greathouse	Myself	Totally opposed to this redistricting. A total miscarriage of fairness.
10/20/25 5:27 AM	Ms Barbara Pequet		Please do not participate in helping disrupt, tear into our democracy,Äôs structures. Do not participate in a mid decade alteration of federal voting districts and allocations ,Äî the results of which tear representation away from NC citizens. Gerrymandering is a torturing of our constitutional intentions and structures to give citizens representation. Three out of four voters are watching and opposed to theses power grabs ,Äî do not succumb to disenfranchising voters because of their views, their parties, because you,Äôve found a way to get what you want at the expense of others whose voices you,Äôre eradicating. Do not do this.
10/20/25 5:27 AM	Mrs Beth Cooper		This is a blatant unconstitutional and despicable power grab because Republicans are well aware that there is no legitimate way for them to win an election without gerrymandering maps. If they did what they were elected to do and pass policies supporting their constituents they wouldn,Äôt need to resort to these measures. Vote no on gerrymandering and kissing the ring of the wannabe dictator, Trump.
10/20/25 5:30 AM	Dr Wanda Margolin		Redistricting now will undermine public trust in elections and interfere with the equal representation rights of North Carolina citizens. Please show the courage to resist this effort.

10/20/25 5:33 AM	Samantha Turner		Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Âô ability to hold their leaders accountable.
10/20/25 5:35 AM	Ms Teresa Hart		Don't do this. North Carolina's citizens deserve FAIR maps. Our state is already unfairly gerrymandered and this will disenfranchise even more of us. This redistricting does not follow the will of the citizens of the state. To quote Senate leader Phil Berger: ,ÄúWe are doing everything we can to protect President Trump,Âôs agenda.,Äù Per The Economist, Donald Trump's approval rating is -15%. Overall, 55% of the country disapproves of his agenda. Why would you support something that is so obviously a failure? Redistrict according to what is actually fair.
10/20/25 5:36 AM	Gerrymander unneeded Jim Bob	America	This is absolutely ridiculous and not worth actually explaining in text WHY we dont need to give another seat to the already overpowered president and republicans. I, a normal american citizen with no degree in law, do not need to tell lawmakers the legal reasons and ethical reasons this is wrong. Dont give another seat
10/20/25 5:37 AM	Mrs Debra Hudson		If you are of voting age this message is for you. I hope you act on it: Please take a moment to comment on the NC plan to redistrict. I copy and pasted the following comment: ¬† I ask¬†that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Âôs federal voting maps and erode any North Carolinians,Âô power to elect candidates of their choice.Gerrymandering violates core principles of fairness, accountability, and limited government.¬† ¬†
10/20/25 5:39 AM	Ms. Kathryn Ball		I vehemently oppose this politically-driven redistricting whose sole goal is to strip people of their voices. Do what is right for North Carolina -- ensure representation for all by leaving our districts alone.
10/20/25 5:41 AM	Dr. Leah Rutchick	None	As a NC, Durham Cty resident it is my duty to deliver my opinion and concern about precinct redistricting at this time in mid decade. This is an unprecedented procedure and damages the fair representation of of NC citizens. You must not allow this legislation to come into law. Vote against further gerrymandering of precinct boundaries.
10/20/25 5:42 AM	M. Murphy		I am opposed to a mid-decade redistricting effort that will make our partisan gerrymandering more extreme. We need our legislators to return to session to pass the budget, not to redraw maps for political gain. The majority of North Carolinians are opposed to partisan gerrymandering. Please do not further distort our maps to silence the voices of the voters in our state.
10/20/25 5:43 AM	Dr Mark McClure		Gerrymandering violates core principles of fairness, accountability, and limited government. True conservative values demand transparency, integrity, and competition,Âîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Âô ability to hold their leaders accountable. Every legislator has taken a solemn oath to uphold and defend our state constitution. Gerrymandering violates Article I, Section 2 of our state constitution. Vote NO for gerrymandering.
10/20/25 5:44 AM	T Sears		Do not redustrict/redraw the maps yet again. Keep elections open, fair and accessible. Only those afraid of losing try and unjustly tip the balance in their favor. Focus on the budget and other things more important to North Carolinians.
10/20/25 5:44 AM	Mrs Noelle Khare		I want to vote republican, I,Äôve often voted republican but I don,Âôt recognize my party. You all have lost your minds. This is unlawful and unconstitutional.
10/20/25 5:46 AM	James Tuite		While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Âôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle.

10/20/25 5:46 AM	Ms Stacey Devine		House Select Committee on Redistricting and Senate Elections Committee Subject: Proposed Congressional District Plan Thanks for taking comments on this critical, time sensitive topic that really doesn't have to be so as you all know. I am a NC resident. It's abundantly clear to me that the only reason for republicans to take up this redistricting fight, is to bow as acolytes to Trump. You know this is true. You also know that redistricting violates the core principles of fairness, accountability, and limited government. Manipulating district lines for partisan advantage undermines our constitutional promise of equal representation, and it weakens voters,Äô ability to hold our leaders accountable. Redistricting as Rs are proposing disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! I expect better of our elected representatives. Thanks for your consideration. Stacey Devine
10/20/25 5:48 AM	Dr Regina Dancy		There is absolutely no reason for the NC legislators to be considering redrawing maps mid-decade of the census. It is beyond preposterous. The only reason for doing so is to please Donald Trump. The people should be able to select who represents them and not the only way around. For once, it would be great to see the NC legislators show their constituents that they are willing to stand up against authoritarianism and stand tall and proud for DEMOCRACY. We the people of NC ask you to do what is just and right and good.
10/20/25 5:50 AM	Catie Hodsdon		Vote no on redistricting. This is disenfranchisement of North Carolina voters. Republicans should earn their votes by promoting policies that address the needs of our communities, not by gerrymandering maps to limit the voices of the people.
10/20/25 5:50 AM	Lynne Katz		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters it serves say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. As a voter I expect honest, integrity and fair decision making in my elected officials.
10/20/25 5:51 AM	Ms Elaine Bauman	US CITIZEN	Do NOT destroy representative government in NC
10/20/25 5:52 AM	Mr Henry Lewis		As a NC native and current resident of NC's 10th district, I say NO to further gerrymandering of NC's Congressional voting maps.
10/20/25 5:53 AM	Kim Duckett		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/20/25 5:57 AM	Ms. Jennifer Lohmann		76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Gerrymandering undermines people's confidence in their government. As our representatives, you should be working to maintain fair and responsive government with an eye on keeping faith in our democracy.
10/20/25 6:00 AM	Rachel Woods		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. Please do not for for the recently gerrymandered maps.
10/20/25 6:00 AM	Jacqueline Sills		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice.Gerrymandering violates core principles of fairness, accountability, and limited government.
10/20/25 6:00 AM	Mo Murrie		Please do not redistrict. Voters should pick their reps, not politicians. Fair maps please.
10/20/25 6:01 AM	Rev Amanda Hayes-Bowman		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable.

10/20/25 6:01 AM	Jennifer snyder		I am 100% against redrawing NC maps. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around.
10/20/25 6:02 AM	Ms. Barbara Landers		You want to redistrict in order for Republicans to secure more votes. Why don't you want citizens to vote for the people to represent them instead of you gerrymandering the state to get the result you want. We the People have rights and you are abusing them.
10/20/25 6:03 AM	Amee Stewart		NC is a 50-50 state, yet, the Congressional map doesn,Äôt represent that. This leaves roughly half of the people of NC without representation. What happpened to ,Äúone person , one vote? This isn,Äôt fair and it will NOT stand. The current Redistricting is nothing more than a power grab by Trump,Ä¶who currently has the lowest poll rating of any President at this juncture in the presidency. Nothing more than a power grab and we,Äôre sick and tired of it and not going to take it anymore!!!!!
10/20/25 6:03 AM	Gerrymandering is wrong Elaine Phelps		Please do not take away citizens,Äô rights to choose their leaders. This country was founded on a 2-party system. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Healthy governing means working with those who have differing ideas and opinions, not silencing them. What would Jesus do?
10/20/25 6:04 AM	Rene Katkowski		Please return NC state voting to reflect our organic voice, not a manufactured one. The currently planned redistricting is an abuse of power serving something other than your constituents. Please do better.
10/20/25 6:05 AM	Lucy Hertz		I do not support redistricting. I will not support legislators voting to redistrict in future elections. This is an unconstitutional power grab. North Carolina is better than this.
10/20/25 6:05 AM	Dr Sheri Grace	Camel City United Indivisible	This redistricting to ensure Democratic representation is reduced is wrong, especially now that the administration is abandoning Democracy and violating the rule of law.
10/20/25 6:06 AM	Carol Stratton	Prefix *	Vote "NO" on redistricting. Rushing through an early redistricting is a blatant attempt to manipulate the outcome of elections. In a democracy, we need fair and free elections which includes no gerrymandering.
10/20/25 6:06 AM	Rev. LaCount Anderson		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.

10/20/25 6:06 AM	Susan Caron	As a concerned North Carolina resident, I firmly oppose the proposed mid-decade redrawing of the state's congressional map and any further attempts to entrench partisan gerrymandering in our electoral system. This move, made outside of the constitutionally mandated post-census timeline and without a court order, blatantly disregards the fundamental principles of representative democracy. The current 10-4 Republican congressional delegation, which already arose from a heavily gerrymandered map enacted in 2023, does not accurately reflect North Carolina,Äôs status as a closely divided swing state. The proposal to redraw this map solely to secure an 11th Republican seat is an extreme power grab aimed not at serving the people, but at silencing the political opposition and rigging the outcome of the 2026 election (Source 1.2, 1.4). This action runs directly counter to the clear and overwhelming will of North Carolina,Äôs voters. Recent nonpartisan polling indicates that 84% of North Carolina voters oppose gerrymandering under any circumstances, and a strong majority across all party affiliations wants a nonpartisan citizens commission,Äînot legislators,Äîto draw the voting maps (Source 1.1). Voters recognize that electoral maps should fairly represent all communities and political viewpoints. By proceeding with this plan, the General Assembly is deliberately choosing to ignore its constituents and prioritize partisan advantage over fair representation. Furthermore, the constant, mid-decade disruption to our electoral landscape creates instability and confusion. North Carolina voters are being repeatedly shuffled between districts, undermining the crucial relationship between a representative and their constituents (Source 2.3). This instability is a hallmark of a political system prioritizing power retention over stable governance. I would like you to stop all proceedings related to the proposed congressional map redraw immediately. Instead of seeking to further abuse your redistricting power, I demand that the General Assembly heed the public's call to: 1. Stop all efforts to gerrymander the congressional map for partisan gain further. 2. Support legislation that would create a truly independent, non-partisan citizens commission to draw fair maps in the future.
10/20/25 6:07 AM	Somchai Stuckey	I am writing as a concerned and engaged resident of North Carolina to express my deep opposition to the continued use of gerrymandering in the redistricting process of our state. This practice undermines the democratic foundations of our government and compromises the integrity of our elections. Gerrymandering,Äîregardless of which party employs it,Äîallows legislators to manipulate district boundaries for political gain. Instead of voters choosing their representatives, gerrymandering enables representatives to choose their voters. This results in unfair advantages, reduced electoral competition, and distorted representation that does not reflect the true will of the people of North Carolina. In our state, gerrymandered maps have led to districts that are often geographically absurd and demographically unbalanced, weakening the voices of many communities, especially minorities and those in rural or urban centers. This is not representative democracy,Äîit is a violation of it. North Carolinians deserve free, fair, and competitive elections. I urge this Assembly to take meaningful steps toward creating an independent, nonpartisan redistricting commission that prioritizes transparency, community integrity, and equal representation for all citizens. I,Äîand thousands of other North Carolinians,Äîexpect our legislators to uphold democratic values over partisan interests. End gerrymandering now and give our state the fair electoral system it deserves.
10/20/25 6:08 AM	Linda Kinney	Do not redistricting. I oppose redistricting because it undermines our democracy. Let the people speak and vote fairly.
10/20/25 6:10 AM	Ms Patricia Winslow	I strongly oppose redistricting efforts by the NCGA. This is being considered at the request of a corrupt individual for the purposes of rigging elections. If you truly believe this is necessary put the proposition on the ballot. Make your case and let NC voters decide if redistricting is needed. Please spend the time you would have spent on this passing a budget. NC citizens elected you to work for them, not to placate DJT.
10/20/25 6:10 AM	Ms Karen Rodenhizer	Each citizen deserves a fair chance for their candidate to win. Rigging districts to unfairly weight the scale is unethical and immoral. Voting districts need to be drawn up by independent commissions to fairly represent all citizens of the state.
10/20/25 6:10 AM	Ruthie Zaleon	Please stop this redistricting, which appears to be at President Trump,Äòs direction and is another attempt to disenfranchise voters from being heard. It appears that the North Carolina legislature like several others is attempting to choose their voters in order to achieve electoral victories that are not deserved, but that are unfairly created.

10/20/25 6:11 AM	Jennifer Bowers		Voters should pick their representatives, not the other way around. We need fair maps in North Carolina, and we are tired of our votes and representation being stolen from us. We need a state budget. We need funding for Medicaid. Why are you meeting just to vote on these maps? How can you justify that while you neglect all your other responsibilities? Real people are harmed by your actions and inaction.
10/20/25 6:11 AM	Do not redraw the maps Will Baker		I am a Republican voter from Buncombe County. I think redrawing the congressional maps right now would be unfair. There was no census triggering this redraw, only the request of the President. Allow the voters to choose their legislators, not the legislators to choose their voters. What are we going to do if the Democrats regain power and cite this incident as precedent for redrawing in non-census years? Please reconsider this decision.
10/20/25 6:11 AM	Dr. Suzann Cornell		I am a Jackson County resident. Our state already has, as a judge put it, a ‚Äúsurgically‚Äù redistricted plan. We already have severe gerrymandering. It‚Äôs cheating. Why do you want to take power from the people? We deserve to have the people we vote for elected. If you can‚Äôt run honestly, you shouldn‚Äôt be running. STOP the redistricting. You should have seen by the No Kings rallies, that we will fight back. Stop being a sycophant and do your damn jobs, you know, like passing a budget that helps all NC citizens.
10/20/25 6:11 AM	Patricia Ashe		I strongly oppose this redistricting proposal. This is not a move to better meet voter needs, but a blatant attempt to further the stated plans of the Administration to increase Republican representation in Congress. Do what is right and leave the current district as it stands today
10/20/25 6:11 AM	Robin Baird		I write in opposition of redistricting at this time. My hope in our democracy is for fair maps across the state.
10/20/25 6:11 AM	The Reverend Dr. Stephanie Nagley		True conservative values demand transparency, integrity, and competition,‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 6:14 AM	Mrs Stephanie Underwood		We oppose the blatant gerrymandering. It is abhorrent that it is being voted on to give Trump more seats. Voters pick politicians not the other way around.
10/20/25 6:16 AM	Mrs Brooke Haughey		I strongly oppose the proposed redistricting plan currently under consideration. Fair district maps are fundamental to the integrity of our democracy. District lines should reflect communities ‚Äî not partisan interests ‚Äî ensuring that every voter‚Äôs voice carries equal weight. It is especially troubling that these maps were just redrawn two years ago. There has been no meaningful population shift or civic need to justify another round of redistricting. This strongly suggests that the motivation behind this effort is political, not civic ‚Äî and that undermines public trust in the process. Constantly redrawing district lines for political gain weakens faith in our democratic institutions, divides communities, and dilutes representation. North Carolinians deserve stable, fair maps drawn through a transparent and nonpartisan process. I urge the legislature to reject this proposal and respect the principle that voters should choose their representatives ‚Äî not the other way around.
10/20/25 6:16 AM	Fair Elections Claudia Harsh		I believe in the power of voting so long as everyone has a voice. NC is an evenly divided state and our districts should reflect that!
10/20/25 6:18 AM	Cheating isn‚Äôt winning Kathryn Lane		Redrawing maps to rig elections is cheating. I work with children and we play games together. One of the lessons they learn is that you can‚Äôt cheat. The other person doesn‚Äôt want to play with cheaters. I guess some of you haven‚Äôt learned that lesson. Redrawing these maps goes against what your voters want. We are tired of people with zero integrity running our state. If you are one of these people who allow this to happen, shame on you. We, as voters, are paying attention to who is going against what North Carolinians want and will be voting and giving our money accordingly.
10/20/25 6:18 AM	Stop the Gerrymander Alena Callahan	None	I demand fair maps by an impartial committee-outside of the general assembly. Another redistricting map created by those that directly benefit and are elected by them is gerrymandering. A majority of North Carolinians-Democrat, Republican and Independent-believe that gerrymandering is wrong and unethical. Stop stealing your seats. I demand fair representation.

10/20/25 6:19 AM	Carissa Trotta		It is reprehensible that our elected leaders are choosing to put themselves ahead of the people they represent. As President James Madison stated, ‚ÄúThe people are the only legitimate fountain of power, and it is from them that the constitutional charter, under which the several branches of government hold their power, is derived.‚Äù (Federalist No. 48). And in Federalist No. 46 Madison proclaimed, ‚ÄúThe accumulation of all powers, Legislative, Executive, and Judiciary, in the same hands, whether of one, a few, or many, and whether hereditary, self-appointed, or elective, may justly be pronounced the very definition of tyranny.‚Äù The Republican party‚Äôs initiative to gerrymander North Carolina‚Äôs maps by removing the only competitive seat left is tyranny. It is not representative of our state, but rather a power grab to ensure the unpopular initiatives of scared legislators who are worried about being voted out in the midterms. As I‚Äôm sure you re aware, 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. I am one of your constituents who believe this to be true and that by voting yes, violates your sworn oath to protect the constitution. For those members who understand their role and the preservation of democracy, I thank you for your vote against the recently proposed map. For those members who planned to vote yes, there is still time to change your mind and pledge to do what our founding fathers built this nation to be and oppose a voting structure that destroys democracy in North Carolina and supports tyranny.
10/20/25 6:19 AM	Victoria Watson		I oppose the redistricting. It does not reflect the state accurately.
10/20/25 6:19 AM	TSgt, U.S.A.F. (Ret) Miguel Garcia	None	Its no secret why this is happening. Republicans across the country have submitted their oaths to Donald Trump, their villainous dear leader. They know that without "rigging the odds" they will not win in the next round of elections. They know if they lose, the people will regain control of our country, and immediately move to invoke Article II. It's not a secret, everyone knows. Everyone knows that what they are doing is Un-American, its anti-trust and it screams corruption. So basically another day in Trump USA. We all know, and were watching!
10/20/25 6:20 AM	Mrs Lori Pearce		I strongly oppose redistributing. This is a power grab by republicans who fear loosing with their districts because of their decisive policies.
10/20/25 6:20 AM	LeAngela Baker	Educator	I‚Äôve been in public education for many years, and one of the lessons we emphasize with our students is that they have the power to make a difference. Elections are one of those critical places in our society where people have the power to make a difference. If you pass these maps - mid-decade just to secure a party advantage - the message to students is that they can‚Äôt make a difference. It makes the jobs of educators around the state that much harder, when the students see and hear about efforts like these. Please do not pass this new proposed redistricting plan.
10/20/25 6:20 AM	Julia Strickland		We are already gerrymandering to hell! NC is known for a few things, our fantastic UNC v Duke rivalry, BBQ, and being one of the most gerrymandered states in the Union. All this does is deprive voters more of their right.
10/20/25 6:21 AM	Leslie Bryan		I am against redrawing our district maps at this time. It is wholly inappropriate for such an action in the middle of a decade. Wait until we have updated census data so that it doesn‚Äôt appear you are doing the bidding of the president who should have no say over our state districts. This effort makes it seem like you are cheating or are afraid you cannot win with the current district maps.
10/20/25 6:21 AM	Anne Atkns		You have already gerrymandered this state in an unacceptable way, and you‚Äôre going Phil Berger‚Äôs bidding to help him win Trump‚Äôs approval and help him keep his seat. I do not support this move. You know that the Republicans can‚Äôt maintain their control of the legislature in a fair fight, so you keep making it less and less fair. STOP GERRYMANDERING!????
10/20/25 6:22 AM	Kelly Suttles		We still don‚Äôt have a state budget. Do your jobs and get a budget passed before you go messing with our maps! Our election maps are already unfairly gerrymandered and the last time we spent 10 years in litigation. Stop trying to pick your constituents to maintain your power. We want fair maps and fair representation!
10/20/25 6:22 AM	Joanna Parker		Stop the gerrymandering. Let the elections be the voice of the people. What you're doing feels like cheating. You have yet to pass a budget, but you come back into session to play racist, partisan politics - and pander to Donald Trump. Grow up! Do the job you were elected to do! Remember that you represent all your constituents- not just republicans.
10/20/25 6:22 AM	Sherrie Smith		I stand opposed to the redistricting changes being proposed.
10/20/25 6:22 AM	Judith Kincaid		This plan does not accurately represent the will of the people in NC. The Republicans in power in NC don‚Äôt seem to care. But the people of NC are watching.

10/20/25 6:22 AM	Dr. Susan Blalock		Have you no shame? The Republican majority drew the current maps in 2023. The only reason for redrawing the Congressional map at this point is to reduce the likelihood that Trump will lose the Republican majority in the House. Republicans who vote for this new map might as well say "Heil Trump!" Since Inauguration Day, Trump has done all he can possibly do to destroy this country and the institutions it has taken generations of Americans to build. He has destroyed the careers of people who have devoted their careers to public service, at agencies like USAID, CDC, the Justice Department, and I could go on. If Republicans in the General Assembly honestly believe you will somehow be rewarded for voting for the Trump-ordered new map, you are in for a rude awakening. Just ask John Bolton and many other former friends who dared to cross him. Before you vote, please ask yourself: "Who do I serve? Do I serve the People of North Carolina or do I serve Donald Trump?" I hope that you will remember that you serve the People of North Carolina. Only 50.86% of the people who voted in 2024, voted for Trump. And, many who voted for him, now realize that they were conned. We deserve a voice. If you disagree and believe Trump is doing a great job, he shouldn't need your help to stack the deck in his favor. Let the current maps stand. Then, the People of North Carolina can express their opinion at the ballot box.
10/20/25 6:23 AM	Dr. Stephanie Alvarez		I oppose The redistricting of the legislative maps. This attempts to take away voice of voters, work only in favor of one party versus having equal representation.
10/20/25 6:23 AM	Dr. Virginia Bishop		Gerrymandering by either party counters the principles upon which America was founded. This action to redistrict for Trump, when the General Assembly has failed to submit a budget, speaks volumes about the legislators' disdain for North Carolinians, their values, their rights, and their welfare.
10/20/25 6:23 AM	Mary Ross		I write to ask you to protect the rights of North Carolinians to free and fair elections. According to the North Carolina State Constitution, Article I, Declaration of Rights, Section 2, Sovereignty of the People, ‚ÄúAll political power is vested in and derived from the people; all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole.‚Äù There is now a proposal before the NCGA to perform a mid-census redistricting in North Carolina. The sole purpose of this plan is to cheat and find a way to further gerrymander districts to protect Republican seats. In a free and fair election, they that a nationwide backlash to this administration,Äôs unpopular policies will cede control of the House to the Democrats. Every member of the NCGA has sworn to uphold and defend the NC State Constitution. This deceitful bill violates Article I, Section 2 of our state constitution; that is, it is not for the good of the whole. Accordingly, I ask the committee members to honor their oath and dispense with this bill.
10/20/25 6:24 AM	Ms Angela Murphy		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/20/25 6:24 AM	Ms Diana Gray	citizen of North Carolina, volunteer with Democracy NC	Redistricting the Congressional district plan ad hoc for political exigency is clearly counter to the democratic conduct of elections. It is motivated only by partisan motives. Stop this illegal, anti democratic action. Assure all citizens are able to vote for their selected candidates.
10/20/25 6:24 AM	Jessica Fahey		By NC allowing continual manipulating of voting maps through gerrymandering is wrong and unfair. Doing this undermines democratic principles, dilutes the power of voters, specifically communities of color, Allowing this to occur allows politicians to entrench power for themselves. This does NOT represent the PEOPLE of NC!
10/20/25 6:25 AM	Kate Launer		As an independent voter, I do not support this redistricting and will closely watch who does. The legislature should be addressing the real daily life issues of their constituents- like passing a budget.
10/20/25 6:25 AM	Elaine Shobert		A path to fair maps is through the NC Supreme Court.
10/20/25 6:26 AM	Ms Laurie Lindsay		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/20/25 6:26 AM	Cynthia van Duin		North Carolinians are sick of not be represented as a result of gerrymandered maps. The idea of further gerrymandering with the explicit intent to rig the 2026 midterms is a disgrace. We want fair elections. We want fair maps. The only redistricting I want to see is fair nonpartisan redistricting that give ALL North Carolinians representation in the General Assembly and in Congress.

10/20/25 6:27 AM	Jackie Adams		Don't do this. North Carolina's citizens deserve FAIR maps. Our state is already unfairly gerrymandered and this will disenfranchise even more of us. This redistricting does not follow the will of the citizens of the state. To quote Senate leader Phil Berger: ‚ÄúWe are doing everything we can to protect President Trump‚Äôs agenda.‚Äù Per The Economist, Donald Trump's approval rating is -15%. Overall, 55% of the country disapproves of his agenda. Why would you support something that is so obviously a failure? Redistrict according to what is actually fair.
10/20/25 6:27 AM	Julie Summers		76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 6:28 AM	Kara Acree		The decision to try to redistrict to allow for partisan gain with the express purpose of helping the Trump White House is shameful and violates years of principle and precedent.
10/20/25 6:29 AM	Katherine Gannon		Upholding President Donald Trump's agenda is not a constitutional reason to change the state voting districts.
10/20/25 6:29 AM	Melvania Williams		76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 6:29 AM	Heather Langan	1705 Wallace Street	Voting maps must be FAIR and representative of the population. Manipulating maps to give advantage to any particular party, or any type of person, is - by definition - cheating. Do you really want to win by cheating??? In reality, that is losing. Losing the battle for doing the right thing. We The People of this state see what is happening. Do the right thing. As people who are elected to be leaders, be LEADERS. Be fair. Be ethical. Be right-minded. Thank you.
10/20/25 6:30 AM	Valerie Sauer		NC deserves fair representation! Politicians shouldn‚Äôt be in charge of writing the rules of their own game. We need nonpartisan oversight now!
10/20/25 6:30 AM	Judith Campbell		Redistricting will take away my vote. You saw the weekend protests. We are watching and are not happy. We want a voice in decisions being made about our rights, the budget etc. We want and deserve honest representation. GOP is 50% of voters but has. 10/12 districts due to gerrymandering. If you were confident in your policies you wouldnt need to steal our seats/ votes. Remember what comes around goes around. If you were truly Christian you would know God does not approve. You will pay for your actions if not on Earth then at the Pearly Gates!
10/20/25 6:31 AM	Carole MacLellan		Instead of re redistricting to win more seats, how about offering what your constituents want? We want a budget! We want you to continue to offer medicaid to those who need it! As a healthcare provider for 30 years (APRN), I have seen NO ONE who has medicaid committing fraud. And when you take away medicare, ALL of our healthcare will costs go up. If medicaid is not funded, people's basic health needs will go unmet except in the emergency departments (THE most expensive place to receive it), more rural hospitals will close and our economy will be greatly impacted! We want you to support continuation of the funds. Redistricting is wrong to win more seats regardless of which party is doing it (YOU KNOW IT). I appreciate that we may differ on many issues, but weren't you elected to represent all North Carolinian's, not only the rich ones or just the Republicans?
10/20/25 6:31 AM	Katherine Ruiz		True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. This blatant power grab erodes your principles and the trust of your constituents. It might have short term pay offs for you but the people won‚Äôt forget this.
10/20/25 6:31 AM	Anne Harvey		This type of deliberate political gerrymandering is the antithesis of democracy: rather than ensuring that constituents can elect a representative government that embodies their policy preferences, this effort instead acts to subvert the will of voters and cement the personal and party power of the legislature's Republican members. It is reprehensible to undertake this effort to make the general assembly of this state LESS representative of the will of its people. I cannot understand how this general assembly justifies its anti-democratic tactics, and I urge anyone in the GA who remains true to our constitutional principles to vote against this measure. Remaining in power is not worth the soul of our state and country.
10/20/25 6:31 AM	Susan Lang		Trump won‚Äôt be around forever, but your voters will. Trump can‚Äôt vote for you, but your voters can. You‚Äôre pandering to the wrong people.

10/20/25 6:33 AM	Kailey Alf	As a North Carolina resident and a law student studying constitutional structure and administrative law, I am deeply concerned that the proposed congressional map violates the foundational principles our state and federal constitutions were designed to protect. Senate Leader Phil Berger recently stated that the new map was drawn to ‚Äúprotect President Trump‚Äôs agenda‚Äù and to ‚Äúsafeguard Republican control of Congress.‚Äù When the legislature itself openly admits that redistricting is being used to entrench one faction in power, that is no longer a policy preference‚Äîit is government retaliation against voters based on political viewpoint. With explicit language that pushes the decision into animus increasing the level of scrutiny in which protection is to be afforded. Our Constitution demands that government remain dependent on the people alone‚Äînot on entrenched parties or factions. Using political affiliation as a map-drawing criterion undermines the core republican form of government guaranteed by Article IV, ¬ß 4, and violates the First Amendment‚Äôs prohibition on viewpoint discrimination. Voting is not only a right; it is a form of political expression. Manipulating representation to suppress certain viewpoints is a direct assault on that freedom. I urge the General Assembly to reject any redistricting plan that uses partisan allegiance as a sorting criterion. Representation should serve the people, not protect the power of a single party or politician. Every voter‚Äîregardless of affiliation‚Äîdeserves an equal voice in choosing their representatives. That is not a partisan ideal; it is the essence of our constitutional republic. Respectfully, Kailey Alf Campbell University School of Law
10/20/25 6:33 AM	Jamie C	Please don't take the voices away from the voters.
10/20/25 6:34 AM	Ms Jacquelynn Parker	Please lets us go back to being decent human beings and give everyone an opportunity to vote. We have gotten way too partisan and are not willing to listen to each other. Our best laws/governance have come from compromise. Please stop taking away the voices of our fellow voters. I'm a registered Republican.
10/20/25 6:35 AM	Corrupt gerrymandering Kelli Davis	NC does not want redrawn corrupt maps to do the bidding for Trump! Pass a budget before you take our state even further into corruption! We want fair and equitable maps!!
10/20/25 6:36 AM	Mrs Peggy White	Do not give any advantage to any political party that would jeopardize any individual vote. In other words, no gerrymandering or redistricting.
10/20/25 6:36 AM	Jessica LaPointe	As a North Carolina voter, I am deeply dismayed by this attempt to rig future elections and further disenfranchise voters in this state. For the love of democracy, do not move forward with this Congressional district plan.
10/20/25 6:37 AM	Dr. Donna Padgett	Hello. I‚Äôm an educator, scholar, and writer who lives in the 1st Congressional district. I grew up on Rocky Mount‚Äôs Edgecombe County side and, after a career in higher education, resettled on the city's Nash County side later in life. According to the news, the General Assembly is interested in redrawing Congressional district boundaries, drastically altering them. Please consider the following concerns. 1. Please refrain from mid-decade redistricting. There‚Äôs no imperative as far as equitable distribution of population among districts to necessitate redistricting at this time. Remember the myth of Pandora? She opened a box she‚Äôd been warned to keep closed and let loose all the evils in the world. So too may redistricting at this time unleash perils. Keep in mind also the law of unintended consequences. Actions, especially governmental ones, tend to produce unintended and unanticipated consequences. One wouldn‚Äôt want said of legislators that ‚Äúthey know not what they do‚Äù (Luke 23:34). 2. If you proceed with redistricting, a) keep nearby counties with comparable interests in the same district, and b) sustain the ability of existing populations within these counties to vote in a Congressman who represents these populations. Fair is fair. The reason to have a Congressman is to have a voice in what concerns the populace. Only related counties and representative districts can achieve this end. 3. If you proceed with redistricting, group Nash County with others with these concerns: economic development, employment, strong public support of pre-kindergarten through higher education, affordable housing, available and affordable health care, public safety, a thriving agricultural sector, and harmony among all the people, Native Americans, African Americans, Latinos, and white Americans. If counties with other concerns are placed in the same district, the needs of this area may receive less attention when our area‚Äôs concerns need to be our representative‚Äôs priority. It‚Äôs the American way to advocate for what‚Äôs in one‚Äôs interests, and I hope there‚Äôs enough good will left in this state that the General Assembly will note citizen‚Äôs concerns and act to reflect these as much as possible. Thank you for considering those of this Nash County resident. Sincerely, Donna M. Padgett, Ph.D.

10/20/25 6:37 AM	John Wheeler		How in good conscience does a public servant agree to this when you know a majority of people on both sides are vehemently opposed to this action? Best of luck getting re-elected by ppl you refused to represent. NC deserves strong leadership that will not just bow down to the Trump administration.
10/20/25 6:37 AM	No gerrymandering! Kathleen Barnes		Let democracy stand. Please stop manipulating the maps. Instead pass laws and budgets you are proud of and get elected the right way. Support teachers salaries! Give them a living wage!
10/20/25 6:37 AM	Rebecca Heidenreich		I moved to NC from Florida, hoping to get away from the extreme republican corruption and power mongering. This redistricting is so concerning, that we bend over backwards to appease the ‚Äúking‚Äù. No benefit to our own state, money and time wasted, while also NOT doing the job you‚Äôre supposed to do - pass a budget, discuss bills, and make NC an even lovelier state. Do your jobs. Do not bend to Trump‚Äôs crony mindset and manipulation. Remember, history is watching. My husband and I are watching, our children are watching.¬
10/20/25 6:38 AM	Ms Diana Gray	voting citizen	Do not redistrict.
10/20/25 6:39 AM	Cindy Cash		Gerrymandering is wrong. At least that‚Äôs what we learned in Civics class. Shame on NC Republicans- for not passing a budget - but working to disenfranchise NC voters by caring more about partisan politics than doing their jobs.
10/20/25 6:40 AM	Bonnie Law-Nickel		In this Republic, politicians do not choose voters, voters choose politicians. Your job is govern, not preserve power, manipulate elections and ignore voters. North Carolina requires an independent redistricting commission to remove self-interested politicians from the process and put citizens and independent commissioners in charge. Anything less is craven power mongering and the people won't stand for it.
10/20/25 6:40 AM	Murrie Susanna Murrie		Politicians shouldn't pick their voters!!!!
10/20/25 6:41 AM	Ms Nancy Jacobs	Indivisible Chatham	I am opposed to gerrymandering. It is wrong, I cannot respect the folks doing it.
10/20/25 6:41 AM	Mrs. Sara Loeppert		Stealing votes from our citizens is wrong. We all deserve to have a say in our government. Politicians are elected to serve the people not take office for personal gain. Our right to vote needs to be protected.
10/20/25 6:44 AM	Donna Pleasants		Passing a state budget should be your only priority. I‚Äôve worked in public education for 27 years. I‚Äôve never seen staff so overwhelmed. They deserve a raise to offset rising costs and insurance increases.
10/20/25 6:44 AM	Mrs Coranna Adams		Redistricting state maps to gerrymander then for the Republican Party is unethical and should be illegal. Our state should be led by people who represent the makeup of our state. Trying to subvert democracy to pursue political gains for a single party funded by corporate and billionaire greed is not acceptable to my family, the Western North Carolina community.
10/20/25 6:45 AM	Laura Rauen		I want fairness in our districts. The people of North Carolina deserve to be properly represented. We need to strive to end gerrymandering across the country and this is a good place to start. Thank you.
10/20/25 6:45 AM	Ron Osborne		The redistricting actions proposed by the legislature hurt all of North Carolina, and all voters: Voters end up with less choice as the resulting seats are less competitive. Political parties end up with extremist candidates because the redistricted representation is so skewed. The perpetrators of this action clearly demonstrate that they are no friends of democracy. They are no friends of fairness. They are no friends of their constituents. They are no friends of our State.
10/20/25 6:46 AM	Josh Wells		This redistricting effort is an insult to the democratic process and anyone who supports it should be voted out of office. The people are paying attention to wants to blindly follow a wannabe dictator and who wants to support a true voter-based democracy.
10/20/25 6:47 AM	Jennifer Franklin		We have had repeated redistricting in NC resulting in more favorable electoral conditions for the Republican party. Since when is it okay for one party to redistrict to ensure it maintains power while reducing the power of the people each district represents? I'm 100% opposed to the redistricting happening in NC. Please vote no on any redistricting bills until the research supports bipartisan fairness of such changes. (My friend was heavily involved in this research some years ago and was crystal clear on the unfairness of the recent redistricting bills in NC.)
10/20/25 6:49 AM	Dr. Rachel Renbarger		This is a clear ploy for gerrymandering, one that reduces representation and contributes to the harmful polarization in our community. Lawmakers should be focusing on working on actual solutions and policies than trying to cheat their way into power.
10/20/25 6:49 AM	Vote No to new map Kendrah Kidd		The announcement comes weeks after a poll Poll commissioned by Common Cause North Carolina found 84% of voters in the state oppose gerrymandering, including 78% of Republicans. The last map was redrawn in 2023. We have not had a census or new data since then . There is no need for this redraw except to silence voters. Stop gerrymandering. If your policies are lawful and for the good of NC, let every vote be equally represented. The vast majority of NC agrees with this sentiment.

10/20/25 6:49 AM	Amie Backstrom		This out of schedule redistricting is unnecessary, politically motivated, and most likely illegal. It does not serve the people of this state, in fact, it disenfranchises many of them. This will create an unnecessary financial burden when there is no state budget passed to pay for it. I am disappointed in the actions of my legislature because there are so many unresolved issues and your time is best spent serving your constituents. Not bowing to the commands of those in Washington desperate to stay in power.
10/20/25 6:49 AM	Laura Bayzle		I understand that voting on redistricted maps is happening, but no maps have been submitted for review. The reason for the districting is corruption, pure and simple. The fact that N.C. constituents aren,Äôt able to see what is being voted on and being kept in the dark is tyrannical. Delay the vote, share the maps, do the right thing.
10/20/25 6:50 AM	No to redistricting! Moira Benton		This redistricting is wrong! You are doing this to gain more Republican control, not to better represent the people. Do Not redistrict our state!!
10/20/25 6:50 AM	Paula Appel		You are hurting lots of people for political gain. Shame on all of you.
10/20/25 6:50 AM	Michael Phelps		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable.
10/20/25 6:50 AM	Gina Jordan		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/20/25 6:51 AM	Tracy Dailey		This is a shameful attempt to disenfranchise voters in North Carolina. My husband did not serve 21 years in the Marine Corps so that the GOP could oppress dissent. Why don't you pass a budget before you work on this skullduggery for the tyrant in chief? SHAME!!!!
10/20/25 6:51 AM	Voter Ron Schulze	Christian	I,Äôm tired of NC legislators knuckling under to political pressure from national political parties that don,Äôt serve the needs and desires of North Carolinians. Minimizing voters,Äô voice by manipulating districts is a blatant attempt to undermine the most basic right of citizens to decide how we are governed. This is just another example of an authoritarian regime taking choice and freedom away from the people. VOTE NO to robbing us of our rights or it,Äôs time to start voting no to the republican party.
10/20/25 6:51 AM	Peggy Musgrove		I object to this blatant manipulation of our democratic processeses!
10/20/25 6:52 AM	Katherine Horn		I think it is absolutely disgraceful that the NCGA is planning to redistrict the state in an attempt to skew the results of the next election. Districts should be drawn by nonpartisan groups and be representative of the voters. Just STOP!
10/20/25 6:52 AM	Kristen Hoyt		We do not need to redraw maps in the middle of the 10 year cycle. Doing this will just disenfranchise more voters. Please start working for the people you represent (Republicans, Democrats and Independents). Please consider ranked choice voting as other states have done. Both political parties have become too powerful and are neglecting their constituents.
10/20/25 6:52 AM	Lisa Zamieroski		I strongly disagree with redistricting. Stop stealing voices!
10/20/25 6:53 AM	Peter Holsapple		That the NC GOP is "doing everything we can to protect President Trump,Äôs agenda,Äù (in Phil Berger's own words) says they are in effect admitting that they are not doing the will of the people of the state and are merely the puppets and bad actors in the name of the new autocracy Trump and his lackeys are trying to install in place of the US government. The idea of a free and fair election has become insignificant to the Bergers and Destin Halls who are clinging to the coattails of a corrupt crime organization so they can continue to scapegoat Democrats and anyone who doesn't agree with them. And redistricting before mid-term elections is maybe the most obvious attack they could make. I'd say "shame" but the GOP doesn't seem to feel any shame, just the kind of delight that bullies derive from hurting everyone around them.
10/20/25 6:53 AM	Anne Drees		Once again, the people of North Carolina are facing a redistricting process designed not to represent us fairly, but to preserve political power. The latest Republican-drawn maps distort the will of the voters and give one party an artificial advantage ,Äî even when the majority of North Carolinians vote differently. Redistricting should be about ensuring that every person,Äôs vote carries equal weight, not about protecting incumbents or manipulating outcomes. When politicians choose their voters instead of voters choosing their representatives, democracy suffers. This isn,Äôt about Republicans or Democrats ,Äî it,Äôs about fairness, accountability, and trust in the democratic process. Every North Carolinian, regardless of party, deserves a legislature that reflects the true will of the people. It,Äôs time to demand independent redistricting reform and transparent mapmaking that puts voters first. Our democracy only works when our elections are fair, our voices are equal, and our leaders are chosen by the people ,Äî not by partisan lines drawn behind closed doors.

10/20/25 6:54 AM	Emily Tucker		No redistricting! District #1, currently the only competitive district at R+1, elected a Democrat in 2024. The only other districts that elected Democrats to the U.S. House in 2024 are rated D+17, D+23, and D+24. The 10 districts that elected Republicans are rated R+8-10. How is this fair in a state where voters by political party are 32% Democrats, 30% Republicans, and 38% Unaffiliated? It isn't. That is clear. If Republican policies are not sufficient to keep Republicans in office without extreme partisan gerrymandering, you need to change those policies, not rig elections in your favor. You are supposed to work for the Great State of North Carolina, not the current POTUS. The strong-arm tactics of the Republican Party make me sick.
10/20/25 6:54 AM	John Felton		I,Äôm sick and tired of your disgraceful, immoral and illegal voting maps. Manufacturing power you didn,Äôt earn and don,Äôt deserve. There is nothing patriotic about this. You have become a pathetic bunch.
10/20/25 6:54 AM	Mr Ed Sanderford	Citizen	Please do NOT go forward with the redistricting. Over 75% of ALL voters believe that gerrymandering should be illegal. This is not the way to run a democratic government. The will not support official, candidate, or party that engages in underhanded tactics, such as gerrymandering. I would hope you would represent the will of the people, and not be consumed in grabbing power.
10/20/25 6:55 AM	Mes Patricia Sale		True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps.
10/20/25 6:56 AM	Redistricting objection Stephanie Tucker	NC resident	As a NC resident, I am deeply disheartened by the continued manipulation of our state's congressional maps. Elections should be about fairness, not about rigging the system for political gain. STRONG opposition from this constituent.
10/20/25 6:56 AM	joanie krug		76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 6:57 AM	Melissa miner		I am absolutely appalled that this is the route N.C. Republicans are choosing to take in an effort to please the president and to gain one more seat. The party should stop and take a look at what North Carolinians really want. After this weekend you can see what republicans want. They showed up to protest what our president is doing. What gives you the idea that constituents want this redistricting. What we want are to be represented. No gerrymandering. We want a budget. We want Medicaid coverage. We want the cost of living in the state to go down. We live in a great state and I feel this party is ruining it. Any steps forward that republicans make are erased with gerrymandering. The midterms are not going to end well when this state bows and does only what the president wants and NOT what actual North Carolinians want.
10/20/25 6:58 AM	Michael Cline		No gerrymandering , be transparent! Work for the people!
10/20/25 6:58 AM	Ms Kathleen Weiss		NO to this blatant gerrymandering move!!
10/20/25 6:59 AM	Eric Guendner		It is shady and underhanded to redistrict NC yet again. Do your jobs for all NC residents and stop being shortsighted petty individuals. As a retired Marine, I am embarrassed by your lack of dignity and moral courage.
10/20/25 6:59 AM	State Constitution Christelle Kinnier		It is against the state constitution to proceed as you are proceeding without a census. The state is already in appropriately skewed with under representation of the population of Democrats in popular vote. This is not the design of "we the people".
10/20/25 6:59 AM	Dr. Lisa Dulli		The redistricting proposed would further skew NC representation away from the will of the people to serve the interests of a powerful few. This is antithetical to the fundamental principles of democracy. This state is split nearly evenly between the two major political parties, yet Republicans have rigged the system to ensure nearly half of the state,Äôs voters are rendered powerless. This MUST STOP. District lines should be drawn by a disinterested third party to allow for equal representation by all NC citizens. If you (Republicans) can,Äôt win fairly, then you should probs change your policy, not squash millions of the citizens you purport to represent.
10/20/25 6:59 AM	Redistricting Patrick Hefferan		I am very curious how you think that an all ready very gerrymandered state will benefit from redistricting and create any spirit of unity and decrease the further threat of political unrest that endangers our democracy?
10/20/25 7:00 AM	william dahm	retired	Your party has shut down the federal government to protect a pedophile. Said pedophile has tasked you with demolishing representative democracy in North Carolina. There will be a reckoning.
10/20/25 7:00 AM	Emily Silverman		Fair maps matter. Let the voters decide who represents us. I object to this redistricting plan.
10/20/25 7:00 AM	Marilyn Butler		Please do not add to the hyperpartisan actions encouraged by the president. He knows the only way to win is through voter suppression and manipulation, and it is sad to see the NC GOP follow blindly and undemocratically along. Please reconsider! Represent ALL of the people of North Carolina!

10/20/25 7:00 AM John McDonald		The power grab that the NCGA is attempting through an unnecessary mid-decade redistricting is shameful, though not surprising. And, as usual, the premise that NCGOP leadership is using to justify this step is based on lies and flawed logic. Moreover, it is disgusting that this body is capable of moving heaven and earth to come to such a rapid response to this redistricting plan while still not seeming to care about passing a budget for our state. I've read comments from the leaders of both chambers of the NCGA that this move was necessary because of the redistricting efforts in California. Of course, if you really wanted to tell the truth about this unprecedented mid-decade redistricting battle, you'd certainly have to mention that this whole thing started in Texas. Because the Republican Party can't defend its unpopular policies, it has to rely on changing its electoral maps to try to win the midterm elections. California's efforts were a direct response to minimize the effects of the redistricting in Texas. There's no reason to bring NC into this. Let's not forget that California's measure was put to the ballot - and all citizens of that state have an opportunity to vote on this issue. That's a key element for two reasons. One, that measure hasn't passed yet. And if you're planning on holding a vote (today? this week?) before the measure passes, then the entire premise that you're doing this to counter California is deceitful. Because if it really was about that, you'd wait until the results of the California ballot measure came in. Secondly, you all know that what you're doing in NC is deeply unpopular. If you were really trying to emulate California, you'd give the voters of OUR state the opportunity to weigh in on your actions. Add your redistricting plans to a ballot measure and allow the citizens of NC to vote on it. But we all know you won't do that, because the last thing that the NCGA ever cares about is the voice of the people of the state. Once again, by even considering this vote, the NCGA is proving that it is an illegitimate body wielding illegitimate power, gained only through math and maps and never the voice of the people of this state. Do your real jobs and pass a damn budget instead.
10/20/25 7:01 AM Chris Smoot		The General Assembly is entirely within its rights to redraw district lines within the law. That being said, there are much more pressing matters, like passing a budget. And mandating COLA for LEGRS retirees who have not had a raise in almost 20 years!!!
10/20/25 7:01 AM Ms Sara Sousa		Packing and cracking districts is a sign of fear and weakness, not strength. Every single American deserves nonpartisan voting maps. Show true strength and leadership by ensuring that voting maps are not driving by political party, by not packing and cracking. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. We are better than proposed changes to the maps. https://gerrymander.princeton.edu/redistricting-report-card/
10/20/25 7:01 AM Helena Redman		I am a constituent from Cary, NC and I,Äôm urging all representatives in the NCGA to OPPOSE any attempts at redrawing NC congressional district maps before the 2026 midterms. This blatant power grab will silence even more voices of the voters, and is hugely unpopular with constituents on both sides of the isle. It,Äôs not what the people want. Most people agree that the people of NC should get to choose their leaders, not the other way around. Further Gerrymandering is blatant cheating. You can,Äôt change the rules of the game mid-game. It,Äôs un-American and shows a huge lack in integrity. Don,Äôt do it!! Thank you for your time, A concerned voter, Helena
10/20/25 7:01 AM Jaime Young	NC Resident	Fair and Equitable elections are important to me and essential for our state and nation. The new redistricting map is neither, it is even worse than the current one. Please remember you have been elected to represent, serve, and work for the best interests of all NC residents and and not a political party or the Federal Administration.

10/20/25 7:02 AM	John Golden		Dear Chair and Committee Members, Thank you for the opportunity to share my public comment. My name is John Golden, and I live in Pfafftown, Forsyth County, in State House District 75 and State Senate District 31. I am writing as a lifelong North Carolinian who cares deeply about fair and representative government. Why this matters When district lines are drawn to give one political party an advantage, we all lose. It weakens accountability, discourages participation, and leaves communities like mine feeling that our votes carry less meaning. I want representatives who feel compelled to listen to all their constituents ,Äî not just those in a district drawn to ensure their victory. Here in Forsyth County, we share common challenges: improving public schools, strengthening small businesses, expanding broadband to rural areas, supporting agriculture, and maintaining infrastructure that connects us to the rest of the Triad. These are not partisan concerns ,Äî they are community concerns. But when maps are designed to favor one party, that shared voice is diluted, and our collective progress suffers. The larger issue in North Carolina North Carolina,Äôs maps have repeatedly been called among the most extreme partisan gerrymanders in the country. Independent analysts and courts have said that this manipulation of district lines undermines our constitution,Äôs promise of free elections. The intent of redistricting should be to ensure fair representation ,Äî not to lock in political power. Unfortunately, recent proposals appear to be aimed at the latter. Forsyth County deserves coherent representation
10/20/25 7:02 AM	Ms Melissa Reese		STOP GERRYMANDERING OUR DISTRICTS! STOP MESSING WITH OUR ELECTION PROCESS! NOW!
10/20/25 7:03 AM	Ms Jennie Davis	Personal	Do the right thing and stop gerrymandering in NC. We need fair and free elections where there is fair representation. Do not vote yes on this Congressional district plan that redraws our maps which are admittedly so that Republicans can win. How is that fair and just. Do not do this. Your constituents are watching.
10/20/25 7:03 AM	Amber Soto		Gerrymandering is illegal and this is unacceptable. Slowly taking the rights away from the people, thinking we won,Äôt notice or fight back!
10/20/25 7:03 AM	Mr. Ray Owens	Citizen	It is shameful to witness the divisive gerrymandering that is being done by the N.C, Republican party. It was shameful when the Democratic party did it and it remains so. Please stop the political alienation and mistrust that gerrymandering has sown in our state. The ends do not justify the means, Like a family feud, it simply adds more and more casualties for our citizens. Thank you.
10/20/25 7:03 AM	Sarah Lancaster		This proposal for mid-cycle redistricting is wrong. It weakens democracy and silences voters. Maps should be drawn by an independent, non-partisan commission in a transparent manner at designated times, not at the request of the president. Your job is to represent the people of North Carolina and insure each citizen's voice is heard and represented, regardless of their political affiliation. Mid-cycle redistricting is a waste of taxpayers' money and resources. There are plenty of other issues the General Assembly should be addressing without wasting time on redistricting.
10/20/25 7:04 AM	August Preschle		Being Fair when redistricting will strengthen our trust in government which is at an all time low. Think about it. Gerrymandering will weaken it further.
10/20/25 7:04 AM	Ms Cynthia Bristol-Kerr	Retiref	Do Not Do It. This is wrong on so many levels and will not benefit NC.
10/20/25 7:04 AM	Sarah Carr		Voters should choose their representatives not representatives choosing their voters. If this passes, NC will no longer be a representative democracy.
10/20/25 7:04 AM	H M		Please carefully consider the impact of redistricting; you will undermine democracy and skew results. Do not soil party names by forcing results through gerrymandering. Think of NC and the people you serve and ensuring all their voices are heard.
10/20/25 7:04 AM	Jeff Gilleland	Concerned Citizen	Please support our democracy by avoiding gerrymandering tactics to engineer biased election results that favor the Republican Party. Restore public trust by supporting open and fair elections that represent the will of all voters.
10/20/25 7:05 AM	Jane Allen		I oppose mid-cycle redistricting of voter maps. Democracy in the United States and in North Carolina depends on fair representation. Stop gerrymandering and serve ALL citizens of this State.
10/20/25 7:05 AM	Peter McKinney		Redistricting at the request of a corrupt executive branch is an affront to the very values that this country was founded on. If you follow through, against the values and opinions of your constituents, you are failing your job as an elected representative of the people.

10/20/25 7:06 AM	Karen Surratt	I absolutely disapprove of the gerrymandered map up for a vote. It is against all I feel for democracy, honesty, honor and what this country was founded on. Can,Äôt NC state government show more honor in governance than those in national office? PLEASE do not pass this bill.
10/20/25 7:06 AM	Terry Swope	This attempt at redistricting for the sole purpose of silencing opposition (Democrat) voices is shameless, and if not illegal, certainly should be. Redistricting is necessary occasionally (traditionally every 10 yrs) to reflect immigration and emigration within the districts, but this time it is strictly being used to muffle (eliminate) a Democrat seat and create a Republican seat, it's very stated purpose. I am a registered Republican, I had every expectation of voting for my truly excellent Senator Bobby Hanig to replace representative Don Davis in the US Congress, but should he vote for this redistricting, I could not possibly vote for Bobby as it would truly call into question his beliefs of what a representative democracy is vs my own. To willfully, mid-census cycle, purposely wipe sweep away the representative power of the opposition is nothing less than vote manipulation. This is a purple state - on a state wide basis, we only win half of the seats, yet the legislature is considering chipping away at the existing voters representation of the people of North Carolina on the request of the President of the USA because he wants the US congress under his thumb? Really??? Willing to suppress NC voters intent to appease the President? Shame, shame, shame, and woe to the party that wields the power today but ignores the consequences of the future. I urge you to drop this idea immediately. NC voters deserve to be fairly represented in Congress, is that not what the foundations of our nation are all about? Excuses such as "Massachusetts does ..." are NOT valid excuses for failing NC voters and their voices in congress! Please drop this idea!
10/20/25 7:06 AM	Mr Kevin Kerr	No redistricting! It was just done and is out of control! Get to work on important things like what will benefit the people of NC ,Äî not the political parties.
10/20/25 7:07 AM	Janet Kolkebeck	The people of NC deserve fair voting maps. I am against redistricting.
10/20/25 7:07 AM	Joanna Haymore	Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Poor People's Message to You.
10/20/25 7:07 AM	Dr Lee Nackman	Partisan gerrymandering deprives most citizens of representation because their votes don,Äôt matter. We are a purple state but we act like a red state solely because of extreme partisan gerrymandering. If you support partisan gerrymandering you lied when you took your oath of office. Your parents no doubt taught you not to lie. Don,Äôt lie: defeat partisan gerrymandering bills.
10/20/25 7:07 AM	Nicole Guernsey	Redistricting our state was done only 2 years ago, so there,Äôs no need to do it again. Stop trying to bend the law in favor of one party. We,Äôre in a bipartisan system for a reason.
10/20/25 7:08 AM	Cynthia Edwards	This country was founded on the principal, a free and fair elections. The concept that we the people choose our representatives. This travesty of redistricting undermine those fundamental principles of our democracy. Vote NO. We are better than this.
10/20/25 7:08 AM	Linda Cooper	I had not planned on submitting comments because I felt that as one person I could not do very much to change your minds on this topic. After the rallys this weekend I hope that you realize that president Trump does not have a mandate to bend this country to his will. I am disappointed and embarrassed by our legislature trying to guarantee votes for a man who thinks it is OK to share an AI video in which he drops excrement on America. A reckoning is coming for our government and I am afraid that by following these actions to gerrymander additional districts that NC will be on the wrong side of history. Remember that polling shows that a majority of voters, both democrats and republicans believe that gerrymandering is bad for our democracy. Redistricting apart from the 10 year cycle is blatant partisanship and will continue to erode proper representation of your constituents. I love my country and I do not want to see it slide into authoritarianism. Consider me to be a very concerned voter.
10/20/25 7:08 AM	Ms Melinda Walker	Our distrumicts should reflect the population. Our state is 50% Dem and 50% Rep. Our representation in the legislature branch should reflect this. Instead we are gerrymandered to keep one party in power rather than representing NC as a whole body. This is disgusting. Stop partisan gerrymandering now
10/20/25 7:09 AM	Raquel Thomas	Your actions are unconscionable and we will not forget. You are cowering, but this moment calls for bravery. You all know better; you still have time to rediscover your humanity and your integrity and DO WHAT,ÄôS RIGHT!
10/20/25 7:09 AM	Ms Donna Bravo	We need fair maps for voting districts and anything else is taxation without representation. Legislators who vote for unfair maps will be shamed by their grandchildren, great grandchildren, etc.
10/20/25 7:09 AM	Ms Beth Howard	none I feel that democracy is being perilously eroded in my home state of North Carolina. Re-drawing the maps yet again to favor Republicans is a corrupt and dangerous business. Please do not take this step. It denies people their voice in government and is a violation of the Constitution.

10/20/25 7:09 AM	Emily Hooks		I am writing to express my deep concern and outrage regarding the prospect of redrawing North Carolina,Äôs legislative and congressional maps under the influence of partisan interests, particularly at the behest of President Trump and other political figures. As a lifelong North Carolinian and unaffiliated voter, I believe that the integrity of our electoral process is fundamental to the democratic values we hold dear. North Carolina has a long history of standing up for democratic principles, and we must continue that tradition by prioritizing the interests of voters, not political parties. Allowing maps to be redrawn under partisan influence sets a dangerous precedent and sends a message that our elections are for sale to the highest bidder. The people of North Carolina deserve better than a system that allows special interests to control the outcomes of our elections.
10/20/25 7:10 AM	Redistricting Julie Chavez		I do not agree with the redistricting of North Carolina. I would like to ask that you do not vote for these changes and keep our election fair to allow for all voices to be heard.
10/20/25 7:10 AM	Jean Hansman		Please do not continue to do this. Do your real jobs and pass a budget. Try governing instead of bending the knee. If you can,Äôt get elected fairly perhaps you should let someone else have your job.
10/20/25 7:10 AM	Ms Betty Gunz	Individual citizen	I urge you to reconsider your intent to further gerrymander voting districts in NC. Rigging the votes to achieve your own win is not illegal but it should be and it is very destructive to our democracy. Use your efforts to stop giving away taxpayers,Äô money to the wealthy people and companies in our state and spend it on needed public education and healthcare. History will not look kindly on what you,Äôre doing now. Listen to your conscience and change course. Thank you.
10/20/25 7:10 AM	Susan Harper		Do not vote for this gerrymandering redistricting plan. We are best served by competitive elections.
10/20/25 7:10 AM	Robin Stern		Please do NOT change the maps until after the next census. Aren't there better ways to spend the money I've paid in taxes? Thanks for keeping us in an honest, law abiding state.
10/20/25 7:10 AM	Richard Edwards		Districts should be drawn by a non-partisan commission. If you cannot win on the issues and your record of service to your constituents, you do not deserve to win. Simple as that.
10/20/25 7:11 AM	Katherine Warren		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.
10/20/25 7:11 AM	Kirk Shearin		I do not agree with the plan to redistrict for political gain. Texas and California shouldn't be doing it either. It is a waste of taxpayer money for you all to be spending time on this.
10/20/25 7:11 AM	Anthony Carroll	n/a	I am a resident of Chatham County. I strongly oppose any further redistricting of our state at the behest of an authoritarian president. At a time when our state legislature has failed to fulfill its elementary duty of adopting a budget (stemming in part from the cuts in federal funding required to give tax breaks to billionaires), and our national House of Representatives has been kept out of session by a speaker apparently trying to prevent the swearing in of a no-longer-newly elected congresswoman in order to prevent the full release of the Epstein files, it is outrageous that our legislators would make a priority out of further gerrymandering our purple state. Please, look in the mirror and ask yourselves whether you were elected to serve the people of this state, or a national leadership that posts images of itself wearing crowns and dropping excrement on its fellow citizens who happen to disagree with it.
10/20/25 7:11 AM	Anthony Santucci		Show courage and stand up for the people who elected you to office. The people want free and fair elections. We the people are not asking for this. Redistricting at time time is purely a political move. Is the GA that weak and intimidated? Our founders stood up to tyrants. It's your turn to do the same. VOTE NO on redistricting.
10/20/25 7:12 AM	Jessica Long		I strongly oppose the proposed redistricting maps the General Assembly is voting on today. These maps undermine the fundamental democratic principle that voters should choose their representatives ,Äî not the other way around. The fact that this is a mid-cycle redraw aimed at flipping a long-held Democratic seat and giving one party an 11-to-3 advantage in a state that remains closely divided is deeply troubling. ? Moreover, North Carolina stands almost alone among states in allowing such a map to go into law without a governor,Äôs veto. ? Democracy depends on fair maps, transparency, and public trust ,Äî this process checks none of those boxes. I urge my representatives to demand meaningful public hearings, unbiased criteria, and maps that reflect communities not political advantage.
10/20/25 7:12 AM	Dr. Iheoma Iruka Thompson		Dear Committee Members, I urge you to please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. Everyone deserves adequate representation and this continued racial gerrymandering of NC congressional district is illegal and minimizes my vote and voice. This continued attempt to seize power for the GOP is unacceptable. Vote NO.
10/20/25 7:13 AM	Fair maps matter Brooke Hassett		Congressional maps are already extremely gerrymandered and the only reason the legislature is proposing to do this is because Trump told Phil Berger to get another republican seat. Voters should be choosing their representatives, not the other way around. When we have fair maps the voters get to choose the candidate they prefer based on who has the best ideas. This leads to laws and policy that the voters prefer. We need fair maps in NC.
10/20/25 7:13 AM	natalie bontrager		cheating is not what NC voters want! We want representation by our choices and votes!

10/20/25 7:13 AM	History will remember Lisa Deck	Please have a conscience and a bigger vision for American democracy. We can,Äôt keep redrawing maps to try to keep our party in power. We have to trust the founding principles and let the people make their voices heard and represented. If NC submits to the directives of an authoritarian, history will judge us harshly.
10/20/25 7:13 AM	Marci Rollins-Smart	Our district lines were just redrawn two years ago. They don't need to be redrawn again!! This is only a ploy to try to gain more Republican seats!! Stop playing political games and stop trying to disenfranchise people in our state!
10/20/25 7:13 AM	Plan Sarah Jenkins	Absolutely not. This is the worst kind of partisan politics and you,Äôre supposed to represent your constituents. NO REDISTRICTING.
10/20/25 7:13 AM	Dr. Robin Exum-Calhoun	It is shameful that the Republicans in the General Assembly are planning to redistrict districts in NC so that they will create more Republican seats in Congress! We, the citizens of North Carolina, are watching and will hold you accountable when we vote. Please do what is right and reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is an attempt to seize power for the GOP and it is unacceptable. Vote NO!
10/20/25 7:13 AM	Madeline Grawey	To the Members of the North Carolina General Assembly and Redistricting Committees: I am writing to express my strong opposition to the proposed redistricting maps currently under consideration. These maps appear to be drawn for partisan gain rather than to ensure fair and equal representation for all North Carolinians. By dividing communities and manipulating district boundaries, this proposal silences voters and undermines the fundamental democratic principle that every person,Äôs vote should carry equal weight. Redistricting in North Carolina should reflect our shared values of fairness, transparency, and accountability. When district lines are drawn to protect incumbents or favor one political party, the result is a government that no longer truly represents the people. This harms every constituent,ÃîRepublican, Democrat, and Independent alike,Ãîby weakening public trust and reducing the responsiveness of elected officials to their communities. I urge the legislature to reject this unfair map and instead commit to a transparent, nonpartisan redistricting process that prioritizes keeping communities together and ensuring equal representation. North Carolina deserves districts that reflect the people,Ãînot political power plays. Respectfully, Madeline Grawey Raleigh, North Carolina, wake county
10/20/25 7:13 AM	D green	DON,ÄôT DO IT!!!! I strongly oppose the NC Republicans,Äô efforts to redraw NC,Äôs congressional districts in advance of the 2026 midterms. This is a blatantly partisan move that would set a dangerous precedent and would rob many North Carolinians of their rights. We,Äôre getting sick and tired of NC Republicans trying to game the system. Shame on you.
10/20/25 7:14 AM	Rose Proud	I am not supportive of the redistricting.
10/20/25 7:14 AM	Caroline Pitts	A democracy is technically a representative government, that ideally represents all of its inhabitants. If this body chooses to redistrict any square inch of the great state of North Carolina, it will be pandering to the basest power grabbers in the history of the world. Keep NC a democracy. NO GERRYMANDERING. Stop it now.

10/20/25 7:14 AM	Ashley Shinn		Ashley Shinn Rutherfordton, North Carolina 10/20/2025 Subject: Public Comment on the Proposed Mid-Decade Redistricting of North Carolina‚Äôs Congressional Map To the members of the legislature (or relevant committee) and other stakeholders: Thank you for the opportunity to submit a public comment on the proposed redrawing of the congressional district map in North Carolina. From the public trust perspective, the deviation from norm (the decennial census) raises concerns about stability, predictability, and fairness. I am also very surprised that the General Assembly is making this a priority, when we do not have a current budget passed for our state. This is alarming. Mid-cycle redistricting, particularly when tied to short-term electoral gains, raises serious questions about the health of our representative system. I urge the legislature to approach this process with caution, integrity, and a commitment to strengthening,Äînot shrinking,Äîvoters,Äô voice. Thank you for considering my comments. Sincerely, Ashley Shinn
10/20/25 7:15 AM	William Keelan		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 7:15 AM	Alexander Lafond		This is absolutely a shameful act by our elected representatives. The party of small government doing things for the big government in order to keep themselves in charge and to restrict the will of the people.
10/20/25 7:16 AM	Candice Lyna		This is blatant gerrymandering and voter suppression. Do not allow the Trump admin to tell you how to vote ,Äî listen to your constituents when we say we don‚Äôt want this!
10/20/25 7:16 AM	Ms Carol Davis		Instead of redrawing maps to ensure republican seats, try actually representing the people in the current districts so they will want to elect you. I oppose this continued cheating.
10/20/25 7:16 AM	Amy Rafalow	Private citizen of NC	Stop gerrymandering. Blatant attempt to disenfranchise voters by redrawing lines based on race. Stop this now! Any restricting needs to be done by independent, nonpartisan group- not by republican majority at the behest of the present administration. Shame. We see you.
10/20/25 7:16 AM	Natalie Glaus		No, thank you. The maps have had enough redistricting over the last 4 years. We see what you're doing.
10/20/25 7:17 AM	Sari Weston		This blatantly partisan redistricting sets a dangerous political precedent and will rob North Carolinians of their rights. North Carolinian voters should choose their representatives, not the other way around. You work for US. Not for Donald Trump!
10/20/25 7:17 AM	MARY-ELLEN GOFORTH		Your constituents are watching you make these power grabs. You may think you are ‚Äúrigging‚Äù districts so you will never lose. But the tides WILL turn eventually. And you are setting a dangerous precedent. An INDEPENDENT REDISTRICTING COMMITTEE is needed now.

10/20/25 7:17 AM	Claire Plunkett		I am against further entrenching unfair districts with the new maps. A lot of work has been done to demonstrate that the 2022 maps were more fair to the majority of people in North Carolina than the 2024 maps, and this is even worse. This new map suppresses the ability of the people to hold their representatives accountable, and what is the point of electing a representative if not to be accountable? Please reference Duke professor Dr. Jonathan Mattingly,Äòs work on rigorously quantifying gerrymandering for a mathematical analysis on why these new maps are corrupt.
10/20/25 7:18 AM	Tim Stallmann		This redistricting at this time strikes me as completely unnecessary, arbitrary and politically motivated. For the preservation of our democracy I'm strongly in favor of maintaining the 1st congressional district in its current form.
10/20/25 7:18 AM	Mrs. Rebecca Felton		As an educator, Senior citizen, Christian and life time North Carolinian, I am strongly opposed to the proposed redistricting. This proposal is inappropriate and unlawful as it violated the national Voting Rights Act. Let all of the citizens of our state, regardless of color or status, have an equal voice in our elections.
10/20/25 7:18 AM	Mary Katz		Besides the fact the gerrymandering undermines democracy, it is a bad long term strategy for any political party. It undermines voter trust in the party that pushes it, and the NCGOP (and broader) is already incredibly unpopular with the electorate. Appealing to the ideological extreme is paying off in some short term wins for the party, but it will not in the long term. It also further contributes to a system where politicians with little opposition face higher corruption temptation. We are currently experiencing a massive political shift nationwide (and in many ways, globally). Our population in NC shifts too, and the combination of those two factors means using future voting metrics to design these districts can also backfire. Strategically, it,Äôs the wrong move. But more importantly, it corrodes the long term health of our democracy.
10/20/25 7:19 AM	DIANNA DAVIS		I demand that Republicans do NOT redraw NC district maps. Gerrymandering must end.
10/20/25 7:19 AM	Martin Ericson	Individual voter	Though there is a reason to redistrict Congressional Districts to equalize based on voting age population after a decennial census, redistricting for partisan advantage erodes voter choice and democracy. Voters should choose their legislators rather than legislators choosing their voters.
10/20/25 7:19 AM	Isabel Valls		I strongly oppose the redistricting efforts in North Carolina, which will result in unfair and inaccurate representation of voters.
10/20/25 7:19 AM	Ms Alissa Bambach		The moral compass of the current administration has people believing up is down, left is right. But here, in North Carolina, I've always felt we've been able to stay the course of what was best for our people by choosing fairness, progress and integrity. Until now. Choosing to gerrymander North Carolina undermines our democracy when districts are drawn to guarantee one party's dominance. Elections lose their meaning and citizens lose faith in the democratic process. It discourages people from voting because they feel like their voice no longer matters. It makes North Carolinians distrust our representatives by taking away their vote. It shows you are willing to bend the knee to a negligent, polarizing president instead of looking at what is best for our state and the people who live here. The representatives of this state should be leading us with morals. Not fear of retaliation. Not ego. Cheating to gain seats does not equal integrity or fairness. Right is right, even if no one is doing it. Wrong is wrong, even if everyone is doing it.
10/20/25 7:20 AM	Mrs Jennie Sealey		Representatives, please refrain from the additional redistricting demanded by the current administration. While both parties are known for gerrymandering to a degree, what is being proposed is beyond norms. This is rigging the game. NC Voters are moving away from your party & becoming more non affiliated by the day. Actions like these are not in your political favor. Thank you for your time.
10/20/25 7:20 AM	Mrs. Katelyn Langer		The proposed redistricting map is absurd and this attempt to gerrymander our state is shameful. If Republican policies were as popular as some claim, rigging the game wouldn,Äôt be necessary. The fact of the matter is, Republican policies have and continue to hurt a middle class that barely exists anymore and you all know it, which is why you have to cheat to win. You all need to listen to your constituencies for a change as this is massively unpopular. Regardless, any supporters of this effort in the Assembly deserve to be primaried.
10/20/25 7:20 AM	Mrs Destin Perrin		We want fair elections based on voting districts that truly represent the people of North Carolina. New districts drawn by Republicans are designed to ensure more Republican victories, not to be more representative of North Carolinians. The people are watching.
10/20/25 7:20 AM	Seth Peoples		Gerrymandered redistricting is immoral and bigoted. Give everyone fair representation!!!!
10/20/25 7:22 AM	taylor de la pena		no to gerrymandering

10/20/25 7:22 AM	Ms Martha Shearburn		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 7:22 AM	Ms Laura Williams		I strongly object to the redrawing of our congressional districts in an attempt to disenfranchise my fellow North Carolinians. Enough! It,Äôs time to govern with integrity.
10/20/25 7:23 AM	Gerrymandering Rashon Lewis	N/A	I don,Äôt get why the HELL the Republican Party is trying to gerrymander the state! This has NOTHING to do with helping North Carolinians but instead the N.C. GOP wants to be a puppet to Donald Trump and that will be why you won,Äôt get reelected come 2026.
10/20/25 7:24 AM	Stop the insanity Brad Barron		I urge you to STOP redistributing. Partisan redistricting is wrong and disenfranchises Americans. As a North Carolina voter, I see this as the lowest form of manipulation, regardless of the party behind it.
10/20/25 7:24 AM	Emma Battle		Please don,Äôt follow through with your plan to redistrict and continue to steal more representation than the voters want you to have. This is anti-American and against everything our founding fathers envisioned for our democratic republic. It takes our state and our country down a road where the people,Äôs preferences are trampled on in favor of political power grabbing. Continuing on this path will destroy our democracy and we will no longer be a beacon of hope, the envy of the world, nor an example of once admired American exceptionalism. Instead, we will become just another example of corrupt government controlled by a small group of people who accumulate power and impose their viewpoints and preferences on the majority against the wishes of the majority. In other words, we will have lost our democracy.
10/20/25 7:24 AM	Carolyn Baxter		Please do not redistrict our state. We already live in a very gerrymandered state and it sucks! Please do not make it suck more.
10/20/25 7:24 AM	Alison Bory		These maps are a terrible and terribly anti democratic. Our voices deserve to be heard. Voting in fair districts is our right.
10/20/25 7:24 AM	No Name		I from NC but using a vpn to avoid harassment. Gerrymandering NC is incredibly unamerican and wrong. You should be ashamed, but you aren,Äôt. You will never earn our votes, so you are cheating. You can,Äôt hold onto power forever
10/20/25 7:24 AM	Katherine Bon		I strongly oppose this bill redraw the congressional map.
10/20/25 7:25 AM	Sheila Silner		This vote will hurt so many. Vote No to redistricting. Is this the only way Republicans Maga can win. I am a concerned citizen and I worry about the future for our children. Also pass The budget.
10/20/25 7:25 AM	Dr John Curnes		76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 7:25 AM	Rev John Petry		I don,Äôt agree with the Redistricting on the proposed Congressional district plan.
10/20/25 7:26 AM	Mrs Janet Lipman		I am very upset that the current majority of this legislature is under the thumb of the president. I am originally from a part of NY state that was gerrymandered making my district look like a crazy L shape just to please Republicans. I am a registered independent and have voted for various Republican candidates in the past but this kind of nonsense and disrespect for the tradition of redistricting every 10 years means I will definitely not be voting for GOP candidates in the 2026.election.
10/20/25 7:26 AM	Kelly Jarrett		I am opposed to gerrymandering. North Carolina is already the most unfairly gerrymandered state in the country. Do not make it worse. In America the people are supposed to pick their representatives in fair elections. Representatives are not supposed to pick their voters through gerrymandering. What the illegitimate gerrymandered GOP majority is proposing is Un-American, a violation of basic democratic principles and an insult to North Carolina voters.
10/20/25 7:27 AM	Gerrymandering Dan Campbell		I strongly object to districts being redrawn to favor one political party over another. All legislation should favor fairness and the rights of all Americans. Cheating the system should never be the strategic decision of our NC state leadership!
10/20/25 7:27 AM	Martha Levick		Redistricting needs to only be done by unbiased outside party. I oppose the redistricting proposed at this time.
10/20/25 7:27 AM	Randi Smith		Gerrymandering is undemocratic. If 50% of voters vote for a particular party, then 50% of the representatives should be from that party. When we play gerrymandering games, then a situation of taxation without representation occurs. This is literally what the founding fathers were fighting against. Anybody that supports gerrymandering is an anti-American radical.

10/20/25 7:27 AM	Amy Corneli		The new districts are not fair representation for Black and Democratic voters. The GOP is purposefully giving their party an advantage in future elections. Redistricting must be politically neutral. Political parties must win votes by creating policies and programs that resonate and benefit all Americans, rather than creating alternative, unfair systems to win.
10/20/25 7:28 AM	Samantha Zelin		I strongly disapprove of efforts to redistrict the state legislature. There is no political or rational justification for this action. Redistricting without updated census information provides ample opportunities to prevent citizens of North Carolina from being properly represented in their state government. You work for us.
10/20/25 7:28 AM	Tony DeLuca		This redistricting attempt by the GOP is disgusting. There is no need for it, and it is not even time for this to be considered. It shows how corrupt the GOP are, and they know this is the only way they hold onto power. How about having policies that people can agree with? Do not attempt this blatant cheating scheme. This is just another thing the GOP are doing to make NC worse under their majority. We the people see right through this charade of false patriotism. We will remember at the ballot box!!
10/20/25 7:28 AM	Beth Russo		Im very minor against rigging elections. Our state is already highly gerrymandered. The legislature needs to focus on passing a budget, not changing rules so one party can cheat to win
10/20/25 7:28 AM	Connor Edson		This redistricting plan is a cynical attempt to gain political power for a political party. The only reason this is not unconstitutional is because the founders did not envision that politicians would ever place party loyalty above their actual job of serving the people who elect them. This plan should not pass. Instead there should be a bill written to determine NC congressional districts by independent committee to fairly represent the people. This is a farce.
10/20/25 7:29 AM	Arthur Holland		I am against this!
10/20/25 7:29 AM	Aaron Weinbaum		NC elections should be fair and free, with voting district maps drawn by a independent, nonpartisan system to prevent gerrymandering.
10/20/25 7:29 AM	Redistricting Donovan Fansler		This is an absolute waste of time and energy to assure an agenda is pushed your way. We the People would prefer for our representative to be chosen by us whether white or black, Republican or Democrat, male or female. You can't change the rules of the he game just because you're afraid of losing
10/20/25 7:29 AM	Katie Leslie		Shame on the NC legislature for even considering this. No more gerrymandering in our state.
10/20/25 7:29 AM	Katherine Saunders		Shame on you for simply following the orders of Trump. Represent our state fairly and with integrity. You are doing this ONLY because this man told you to do so. Let elections be FAIR - whoever can win wins.
10/20/25 7:30 AM	Jim Saintsing		I oppose the new gerrymandering proposal to give the Republicans House District 1. I oppose the existing gerrymandering, because it,Äôs fundamentally anti-representative democracy, but the new one is even more insidious. Berger acknowledges, proudly, that he wants another seat to give Trump another rubber stamp vote. This is not only anti-representative democracy, it,Äôs anti the whole concept of equal branches of government. We will keep having No Kings protests until Trump,Äôs enablers in the legislative branches of the state and federal governments stop giving him royal powers.
10/20/25 7:30 AM	Bethany Hunter		Please stop this! You work for the people, not DJT. You haven,Äôt passed a budget yet. It,Äôs a terrible look that you are more interested in the power of your party than the well-being of your constituents. And whether you like it or not, democrats make up a good deal of this state. Our districting should reflect that. Please stop this!
10/20/25 7:30 AM	Paulette Keffas-Chassin	None	We, the people, should elect our government officials. YOU don,Äôt elect US. Un-American. Can,Äôt Republicans win on their policies? There should be 7 Democrats in Congress and 7 Republican. It,Äôs a 50/50 state! Be honest!
10/20/25 7:30 AM	Dr Cheryl Viglione		I , humbly request that you refrain from mid-decade redistricting which would erode North Carolinians power to elect candidates of their choice. There is strong , bipartisan agreement on this issue among voters, with 66% of Republicans, 79% of Democrats and 82% of unaffiliated saying this type of partisan gerrymandering should be illegal. Our democracy demands that We the People have the power to choose the candidates of our choice , not predetermined choices by those in power.
10/20/25 7:30 AM	Fair maps for NC Shalom Cherian		Do not redistribute district 1 and 3. I strongly oppose a move. This indicates Legislative Republicans are afraid yall cannot win on your ideologies alone. This sets a precedent of the opposing party to do the same in the future.
10/20/25 7:31 AM	Katie Dettelbach		We want fair maps. The public should be choosing our politicians, not the other way around.

10/20/25 7:31 AM	Bernadette Chasteen	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law."
10/20/25 7:31 AM	carol hovey	True conservative values demand transparency, integrity, and competition,‚Äî victory earned through ideas and persuasion, not through the manipulation of electoral maps.
10/20/25 7:32 AM	Jason Bereza	If you play, say, a game of Monopoly and things don't go your way, typically you don't get to change the rules of the game in the middle. Why should the same be for congressional districts? Why deprive your constituents a voice? Notice that when the Democrats were in charge they weren't wanting to switch the maps every time they faced even the slightest bit of adversity. All this does is turn more people against the other side and I clearly know that non-Republicans are more in tune to what Republicans are doing than actual Republicans are. I also seem to remember the time when Republicans wanted nonpartisan districts which few also remember. This will only create more anti-Republican sentiment and resentment and will make things worse in the long run for everyone involved and I don't know if there will be something in 2030 to bail Republicans out like COVID did. Remember, your constituents are who send you to office, not the other way around.
10/20/25 7:32 AM	No Gerrymandering Colin Tapp	The Republican Party does not have any substantive policies for the American people. They know that they do not have the support of the majority of Americans. The only way they can win elections is by redrawing the maps. If you cant win elections by following the rules then they need to reevaluate their policies. The NC Democratic Party is run by weak leaders who are either incapable of standing up for their consituents or complicit in the policies that are driving our state and nation into fascist conservatism. At the very least, stand up against partisan redistricting.
10/20/25 7:32 AM	Courtnie Coughlin	I am writing to express my strong opposition to the practice of gerrymandering in North Carolina. Manipulating district boundaries to favor one party undermines the core principles of democracy and silences the voices of countless voters. Fair representation should never be a partisan issue, it is a fundamental right. I urge you to support legislation that ensures impartial redistricting and protects the integrity of our elections.
10/20/25 7:33 AM	Tom Hughes	This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/20/25 7:33 AM	Karma Warren	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable.
10/20/25 7:33 AM	Jennifer Jackson	Absolutely not! Congressional maps should be fair and nonpartisan, not rigged to protect the power of Republicans with an unpopular, losing agenda. Give us fair maps.
10/20/25 7:33 AM	Rachel Miracle	Voters should choose their representatives, not the other way around. This is blatant cheating.

10/20/25 7:33 AM	Weston Crawmer		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. ¬†¬†¬†¬†,Ä¢¬†¬†¬†¬†¬†Gerrymandering violates core principles of fairness, accountability, and limited government. ¬†¬†¬†¬†,Ä¢¬†¬†¬†¬†¬†Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders ¬†¬†¬†¬†,Ä¢¬†¬†¬†¬†¬†Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. ¬†¬†¬†¬†,Ä¢¬†¬†¬†¬†¬†True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral ¬†¬†¬†¬†,Ä¢¬†¬†¬†¬†¬†76% of North Carolina voters say it should be¬†illegal¬†for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 7:33 AM	Ms Ellen Peric	Citizen	Redistricting for partisan political reasons deprives citizens of representation. NC should not do this to curry favor with the President of the United States.
10/20/25 7:33 AM	April Schultz		Vote No on the redistricting proposal. I strongly feel that the proposed NC congressional district map does not reflect the communities of North Carolina citizens. Also, there has been no census data since the last maps drawn in 2023 to indicate a population shift in need of new districts. Although I believe the current map to be flawed, the new map is even more so and does not serve any community fairly.
10/20/25 7:34 AM	Eileen Reynolds		I am strongly opposed to the proposed congressional redistricting plan that concentrates power among Republicans while diluting the voices of Independents and Democrats. North Carolina is a politically diverse state, yet this map would leave many voters with little to no meaningful representation in Congress. This kind of partisan power grab undermines the very foundation of our democracy. Fair congressional district maps matter because: ,Ä¢They allow voters to hold their leaders accountable. ,Ä¢They ensure leaders listen to constituents, not corporations or party insiders. ,Ä¢They help prevent the passage of extreme laws that do not reflect the will of the people. ,Ä¢They strengthen public trust by assuring voters that every vote truly counts. Please stand up for fair representation and reject these extreme, gerrymandered maps. North Carolinians deserve a democracy where voters choose their leaders, not the other way around.
10/20/25 7:34 AM	Mr. Michael Beadle	self-employed	I am a concerned voting citizen in Raleigh, and I do not want the NC General Assembly to redraw Congressional maps for our state. There is no serious need to do this mid-decade other than to consolidate power and gerrymander districts to distort voter choices. Gerrymandering -- whether it be in favor of Republican or Democratic parties -- is wrong. It goes against the constitutional value of equal representation and weakens voters' ability to hold their elected leaders accountable. Why not earn the respect of voters by having fairly drawn districts and earning a political victory through persuasion and laying out ideas for the public rather than manipulating the electoral maps? More than 3/4's of NC voters agree it should be illegal for gerrymandering to be used to discriminate against voters based on party affiliation -- that includes 66% of Republicans, 79% of Democrats and 82% of unaffiliated voters. Please DO NOT change these Congressional Districts. Vote against the legislation to gerrymander our future state.
10/20/25 7:34 AM	Mrs Allison Smith		By re-drawing the districts, you will be effectively taking away marginalized communities voices in elections. I am ashamed that this is what you want to do to hang on to power. Not surprised though, and I will be voting accordingly.
10/20/25 7:35 AM	Susannah Ravenswing		I am writing to express my profound opposition to the proposed redistricting of North Carolina, which is so blatantly designed to further and benefit the Republican party rather than to fairly and equally represent the people of this wonderful state. Such manipulation is grossly self-serving and unworthy of anyone seeking to represent North Carolina's people.
10/20/25 7:35 AM	Oppose redistricting plan Jessica Pritchard		The proposed plan prioritizes political parties winning seats over North Carolinians' fair representation. It is a means of voter suppression, which I firmly oppose, along with most of this great state's voters. A survey last month by Opinion Diagnostics, a Republican-leaning polling firm, showed 84% of voters, including 87% of Democrats and 78% of Republicans, said they oppose partisan voting maps. The same survey reported that 64% support a citizens,Äô redistricting commission by a large majority, taking the map drawing process out of the hands of lawmakers. Not only do these maps undercut the principles of democracy, they are causing electors to lose confidence in their representatives. This plan is bad for our state and it's people.

10/20/25 7:35 AM	Carrie Makambi		The GA should be ashamed of its efforts to disenfranchise NC voters. These actions are an effort to take votes away from citizens and maintain power for a group of politicians who know they are becoming increasingly unpopular. Instead of drawing maps to stay in power they should listen to their votes and earn those votes instead of stealing them.
10/20/25 7:35 AM	Kathleen Yoo		Since redistricting maps were drawn only 2 years ago, it is unconstitutional to redraw maps again to manipulate voter outcome. This is an outrageous ploy to manipulate and steal votes. If Republicans continue to break laws and protocols to lie, cheat, and manipulate, and secretly attempt to pass bills, their party will continue to lose credibility with the public. Do not pass this bill!
10/20/25 7:36 AM	Sarah Bebder		I strongly oppose redistricting for the explicit purpose of increasing the number of house seats for one party over another. The people of NC deserve fair maps that allow for accurate representation of ALL people regardless of the political party in power.
10/20/25 7:36 AM	Karen Taggart		I oppose this mid-decade redistricting plan on principle. Redrawing maps for the fifth time since 2020 to target a specific seat is wrong, regardless of party. This sets a dangerous precedent. If we normalize redrawing districts whenever one party wants an advantage, what happens when power shifts? Today's majority could become tomorrow's victim of the same tactics. No party should want a system where maps change with every political wind,Äîthat instability undermines everyone's representation. Survey data shows 84% of North Carolinians believe partisan redistricting is never acceptable. When legislators openly state they're redrawing lines to "help President Trump," they're admitting this isn't about fair representation,Äîit's about short-term political gain that will haunt us long-term. North Carolina deserves stable, neutral districts where voters choose their representatives. With a budget still unpassed and critical funding needs unmet, this effort misuses legislative time and erodes public trust in our democratic process. I urge you to reject this plan and uphold principles of fair representation that protect all North Carolinians, regardless of party.
10/20/25 7:36 AM	Jennifer Prucha		I oppose the redrawing of voting maps to benefit one political party because it undermines fair representation and weakens democracy. When districts are manipulated to secure partisan advantage, voters lose their power to hold leaders accountable. The people should choose their representatives, not the other way around so that every vote carries equal weight. Gerrymandering discourages competition, deepens polarization, and erodes trust in government. Fair maps ensure that elected officials truly reflect the will of the people, not political strategy.
10/20/25 7:36 AM	Beth Schmitt		This is wrong and a clear power grab for trump! Trying to steal votes instead of letting the people fairly decide at the ballot box.
10/20/25 7:36 AM	Donna R. Dinkin		Please stop the gerrymandering. It is undermining my faith in how the NC General Assembly is doing its job. I see it as very deceitful.
10/20/25 7:36 AM	Rev. Beth McKee-Huger	Episcopal Diocese of North Carolina	Effective governance depends on fair opportunities to elect representatives to serve the whole district, state, and nation. Changing lines based on partisan affiliation means that the majority party in General Assembly is choosing the so-called representatives rather than our communities selecting true representation. Constantly redrawing district lines results in confusion and distrust in government. Voters know that the so-called representatives do not have to listen to them. The next redistricting should be after the 2030 census is established. Please listen to voters!
10/20/25 7:36 AM	Stop redistricting Elizabeth OConnor		Please stop redistricting for politician gain. It erodes the trust we have in our elected officials.
10/20/25 7:37 AM	E Stanton		Please do not redistrict NC this NOT what the voters and citizens of NC want
10/20/25 7:37 AM	Mrs Sherri Adams		The map was just redone 3 years ago and by law it is to be every 10 years . What happened to bring the party of law . Leave the map alone . Enough already
10/20/25 7:37 AM	Mrs. Mary Moore		Our country is based on a system where the majority vote wins. In NC, the wide majority of voters are either Democrats or unaffiliated. Since the proposed redistricting plan blatantly favors the Republicans, this is unfair on its face. I believe redistricting decisions should be made by an independent group that does not favor any party, but if a party gets to draw the plans, they should not be allowed to be this partisan.
10/20/25 7:37 AM	Warren Hartwell		No to re-drawing of maps to gerrymander district lines. Attempting to minimize any group,Äôs influence in an election is un-American, and if it is done to restrict black voter choices it is racism at its core. We need districts drawn without regard to party affiliation. America (Congress) doesn,Äôt ,Äúwork,Äù with most representatives coming from safe districts who only have to worry about a challenge from the extreme wing of their own party. Everyone knows this, yet we still have this attempt to further channel power to those who support restricting the will of the people. It is un-American, and supports the authoritarian dreams of those who fear losing control in a changing America.
10/20/25 7:37 AM	Megan Fries		I strongly oppose this anti-democratic power grab by the NCGOP. In a healthy democracy the voters choose their representatives, not the other way around. This is blatant gerrymandering and abuse of power.
10/20/25 7:37 AM	Against gerrymandering Caitlin Biddell		I am strongly against the proposed redistricting plans. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. This threatens the ability of NC lawmakers to represent all North Carolinians equally.
10/20/25 7:37 AM	Mr Erik Reavely	Custom Home Finishing	Stop gerrymandering and make bipartisan maps. If you have to cheat to win, you're already wrong.
10/20/25 7:37 AM	Elsa Desrochers		NO to another blatant redistricting to increase the number of Republican House members! We voters know what you are doing. Shame on you.

10/20/25 7:37 AM	Jonathan Jones		This redistricting proposal is a disgrace to democracy. Voters should choose their legislators. Legislators should not vhoose their voters for partisan gain.
10/20/25 7:37 AM	No on redistricting Nicole Connelly		I strongly oppose redistricting for the purpose of increasing Republican seats in our state. We are vastly gerrymandered as it stands and need to correct this in the other direction to properly represent the population of our state. The current legislature does not represent the needs of the people of North Carolina in state or at the Federal level and is a vast departure of what our governmental structure is meant to achieve. This is an egregious misuse of power and I oppose this redistricting in the strongest possible terms.
10/20/25 7:38 AM	K Stanton		Do NOT redistrict NC! We the voters and citizens of NC DO NOT WANT this!
10/20/25 7:38 AM	Amberly Dyer		I am an Independent (Unaffiliated) voter, and I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. Any party that requires machinations of voter districts to obtain or maintain power shows its weakness and its loss of the mission to serve the people of North Carolina. There is bipartisan agreement among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. I am asking you to follow the Constitution. I am demanding you to serve North Carolina in a fair, equitable and just manner that places the people,Äôs needs above any party or political affiliation.
10/20/25 7:38 AM	Deborah Chay		I write to add my voice to those of the 84% of North Carolinians for whom partisan redistricting is NEVER acceptable (https://www.commoncause.org/north-carolina/wp-content/uploads/2025/10/2025-NC-Redistricting-Poll.pdf) and to exhort each member of the North Carolina House of Representatives and Senate to repudiate the current and any future redistricting proposal as an urgent matter of principle and accountability to ALL voters and residents of our state, and of our nation. Thank you.
10/20/25 7:38 AM	Anna O,ÄôNeill		Gerrymandering our maps (even further!) is shameful. Republicans can,Äôt win so they cheat. Stop cheating and do something positive for the people of NC instead.
10/20/25 7:38 AM	D Stanton		DO NOT redistrict NC!
10/20/25 7:38 AM	Kristina King		Mid-cycle partisan gerrymandering has severe consequences: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party's power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all. I am firmly opposed to these manipulative tactics. I will continue to advocate for independent, transparent redistricting processes that protect the voice of every voter ,Äî regardless of their political affiliation.
10/20/25 7:38 AM	Lorain Mendleson		I am opposed to further gerrymandering. Let's have FAIR maps, that represent the people.
10/20/25 7:39 AM	Mrs Sheryl Tennant		Dear legislators, Please do not redraw the maps for President Trump. Please stand for North Carolina citizens instead. If the President is as popular as he says he is, the people of NC will elect republicans even in blue areas. Also, please pass a budget! Thank you Sheryl Tennant NC Voter Orange County NC
10/20/25 7:39 AM	9842556077 Elissa Brody		Gerrymandering is not the right thing to do- not fair representation.
10/20/25 7:39 AM	Kathryn Jackson	Individual	Stop this action!

10/20/25 7:39 AM	Mr. Bruce Simel	A Voter Who Cares	Dear Members of the Redistricting Committee, I know both parties have played games with district maps over the years. That‚Äôs not new. But what‚Äôs happening now feels very different ‚Äî and dangerous. It‚Äôs no longer about fair representation or community interests. It‚Äôs about locking in power, no matter the cost. That's not fair to any voter in NC. I see this same pattern playing out across the country. The Trump era didn‚Äôt invent gerrymandering, but has unleashed something darker ‚Äî the idea that holding onto power is more important than protecting democracy itself. Courts that used to act as a check have been politicized, and that‚Äôs opened the door for state legislatures to redraw maps however they please. When districts are designed to guarantee a party‚Äôs control instead of voters choosing their representatives, we‚Äôve lost something fundamental. It‚Äôs not just unfair ‚Äî it‚Äôs un-American. You know how democracy is supposed to work. I urge you not to further unravel our trust in the system. The people of North Carolina deserve better than this! The voters in my county, and all counties in NC, deserve to be treated with respect, and not played like pawns. We are not pawns!!! There is a bigger picture here, and I hope that you got into politics to represent people and not play games. Put yourself in my shoes...how would you feel? Sincerely, Bruce Simel Craven County, NC
10/20/25 7:39 AM	S Stanton		We do NOT want districting in NC !
10/20/25 7:40 AM	Holly Markovich		This appears to be another cheap power grab orchestrated by Trump. We have NC voters who are not represented now and you want more power. You don‚Äôt even have a budget yet and you are capitulating and bowing down to an authoritarian. Disgusting. You should be ashamed! One day Trump will be gone and hopefully you will never be back in office either. Do you ever take a minute to think about how cowardly you appear? You definitely do not represent the North Carolinians that you propose to. Shame!!
10/20/25 7:40 AM	Sarah Unks		It is unfortunate, disappointing, and disgusting that the NCGA is rushing to redraw our states maps rather than pass a budget that would help our teachers, students, and public workers. If there was concern over the way the current district plan was representing North Carolinians, it should be given to North Carolinians for their vote.
10/20/25 7:40 AM	Ms Cynthia Morrison		Dear Members of the North Carolina General Assembly, My name is Cynthia Morrison, and I have lived in North Carolina for 56 years. I am a lifelong taxpayer, a voter, and most of my family also lives in this state. I care deeply about the future of North Carolina and the integrity of our elections. I am writing to strongly oppose any effort to gerrymander our congressional or legislative maps. This is not a partisan issue. It is a fundamental matter of voter rights and representative government. A recent statewide poll shows large majorities of voters from both major parties oppose gerrymandering: including 87% of Democrats and 78% of Republicans. North Carolinians overwhelmingly believe that election outcomes should reflect the will of the people, not be predetermined by politicians drawing maps to secure power. Gerrymandering undermines public trust, discourages voter participation, and weakens the accountability that is essential to a free and representative government. Fair maps ensure that elections are competitive, that elected officials are responsive to their constituents, and that every voter‚Äôs voice carries equal weight, regardless of political affiliation. I urge you to act in the interest of all North Carolinians by supporting fair maps and a transparent process with full public input. The legitimacy of our elections and the confidence of the people you serve depends on it. Please put country over party and protect the foundational principle that voters should choose their representatives, not the other way around.

10/20/25 7:40 AM	TL Lockamy		PSTOP this partsan gerrymandering mess NOW! It feels like a faction of MY government is working hard to eliminate my voice. I'm frustrated the people WE elected are unwilling or unable to collaborate to represent the will of ALL North Carolinians. I want you ALL to do better: - Be accountable to ALL NC voters, not just those in your political party or big donors. - Collaborate across the aisle to generate solutions to real problems we face everday, i.e. the economy. - Stop trying to disenfranchise voters, and instead innovate maps to better represent ALL North Carolinians. You must do better!
10/20/25 7:40 AM	Marlene Sharak		Preventing free and fair elections is as un-American as you can get. All people deserve representation of their views to keep America strong. Radical partisan gerrymandering is just plain wrong. Stop the power grab.
10/20/25 7:40 AM	Elizabeth Cottingham		Please do not make new voting districts at this time, for purely political reasons. Gerrymandering should not be used to discriminate against voters based on their political party. Give North Carolinians fair representation.
10/20/25 7:40 AM	Sharon Pitstick		The people of North Carolina do NOT want redistricting to favor Republicans. Do NOT redistrict our state to favor any one party or group.
10/20/25 7:40 AM	Ms Jane Benbow		Please preserve the right to have a voice in our government by preserving fair and equitable voting maps. This redistricting effort is totally undemocratic and an act against our republic.
10/20/25 7:41 AM	Lawana Schulze		‚Äúl‚Äôm tired of NC legislators knuckling under to political pressure from national political parties that don‚Äôt serve the needs and desires of North Carolinians. Minimizing voters‚Äô voice by manipulating districts is a blatant attempt to undermine the most basic right of citizens to decide how we are governed. This is just another example of an authoritarian regime taking choice and freedom away from the people. VOTE NO to robbing us of our rights or it‚Äôs time to start voting no to the republican party. ‚Äú
10/20/25 7:41 AM	S Sterling		Do NOT redistrict NC
10/20/25 7:41 AM	Erin McClain		I strongly disapprove the plan to redraw the NC Congressional maps to favor the Republicans. Voters should be able to choose their legislators, not politicians and party bosses. In 2022 when NC had maps that actually reflected the NC population, we had an even divide in Republican and Democratic Representatives, as befits a truly purple state like NC. Republican congressional candidates should be able to stand on their record and/or policy positions in front of the voters, not have districts handed to them by other politicians.
10/20/25 7:42 AM	Ayla Ficken	NC resident	This continued gerrymandering does not in any way serve the needs or will of your constituents. It is all about cheating to stay in power. Why don‚Äôt you spend your time developing policies that help your constituents in education healthcare and Helene recovery. We will vote for you if you do.
10/20/25 7:42 AM	Ms. Liz Wildermann		We North Carolinians do NOT want these endless attempts to re-district our state maps. We have our eyes on you and we have no doubt why this is happening. We know that you are re-drawing these areas so that Republicans will always be represented but so that Democrats will lose. This is egregious and does not reflect the true will of the people. What we DO want are maps that reflect the true will of North Carolinians - maps that absolutely represent the population of the areas we live in. STOP trying to further gerrymander our state even more than you have consistently done time and time again. This is theft of our votes, pure and simple.
10/20/25 7:42 AM	Vanessa Ayarza		Let the people choose our leaders not the leaders pick our electorate. Republicans are cheating and the people are watching. This may be a move that backfires on the republicans. Let your constituents have a fair election.
10/20/25 7:43 AM	Susan Adams		I strongly oppose the proposed Congressional redistricting plan. The new district lines divide cohesive communities and weaken fair representation. Districts should keep towns and neighborhoods together,‚Äînot serve political interests. I urge you to reject this plan and adopt a fair, transparent map that ensures every voter has an equal voice.
10/20/25 7:43 AM	Say NO to Gerrymandering! Lois Brennan		My name is Daniel Yaussy and I am a resident in North¬†Carolina. I adamantly¬†oppose the efforts that you are leading to redraw¬†the state's congressional maps. These maps were recently redrawn in 2023 and severely¬†gerrymandered in a way that intentionally misrepresents the political views of NC residents. There is already precedent in our state, where congressional maps have been redrawn to deliberately discriminate against certain groups of voters to dilute electoral votes. These efforts in¬†NC have been challenged in court on numerous occasions and now you intend to push these efforts even¬†further!¬† Recent polling in North Carolina shows overwhelming bipartisan opposition to gerrymandering¬†and the redrawing of district¬†lines in our state.This initiative that you are proposing is not only highly unpopular with NC residents, but undermines the democratic principles of our nation and the ability to hold free and fair elections.¬† I am disgusted and outraged by the actions that you have taken today and strongly request that you cease these efforts to redraw district maps.¬† Thank you,

10/20/25 7:43 AM	Brenda Swearingin		This is not an appropriate use of majority power. This will undermine our electoral process and turn more republicans away from the party. Please see that the tide is turning on this administration. I have left the Republican Party and this is more of the same reason for that departure.
10/20/25 7:43 AM	John Morgan		The lroposed redistricting violates botb kegal and ethical principles. It must not be allowed to stand.
10/20/25 7:44 AM	Listen to NC Citizens! Allison A		Stop denying North Carolinians the democracy we deserve that is outlined in the US constitution. This power grab is not only anti-democratic and disenfranchising North Carolinians across the board, but is a cowardly submission to a wannabe dictator. Where is your integrity? This is disgraceful behavior.
10/20/25 7:44 AM	Ms. Henrietta Barksdale		Please refrain from redistricting. Those efforts dilute the multi-party system our democracy relies on.
10/20/25 7:45 AM	Melissa Faulkner		Voters should pick their politicians, not politicians picking their voters. We want fair maps. Vote NO to redistricting. I do not support the redrawing of NC,Äôs congressional maps. Thank you.
10/20/25 7:45 AM	Stephan Meyers	Concerned voter	It,Äôs about ‚Äúwe the people,Äù and rather then win us over with policy you,Äôd rather steal our voice. Shame on you for redrawing the maps to try and silence communities and people, who deserve to have their voices heard.
10/20/25 7:45 AM	Steve Solbakken		1. Our legislators are elected to represent all the citizenry, not to ensure their majority in order to maintain power. Redistricting - or gerrymandering- violates that basic premise. It,Äôs self serving rather than citizen serving. Represent your constituents, not yourselves or your political party power structure. 2. There are more important issues that need attention in the state than shoring up a political power base. Legislators need to be focused on the job they were elected to do. Period. 3. Beware of enacting legislation that might have short term benefits but long term unintended consequences that could come back to bite you and the people you represent.
10/20/25 7:45 AM	Mrs. Stephanie McKenna		I,Äôm deeply concerned that, instead of focusing on the urgent needs of our state, the General Assembly is devoting its time and taxpayer resources to yet another round of partisan redistricting. It has now been more than one hundred days since the state budget deadline, and North Carolina still does not have a budget in place. Educators, public employees, and families across the state continue to wait for the raises, resources, and investments they were promised. Meanwhile, legislative attention is being diverted toward redrawing congressional maps designed to secure partisan advantage rather than strengthen representation or serve the people of North Carolina. This misplaced focus undermines confidence in government and damages the credibility of the legislative process. When those in power prioritize political self-preservation over good governance, it sends a clear message that serving constituents has taken a back seat to serving party interests. Redistricting should be about fairness, transparency, and respect for voters ‚Äî not about protecting political power. Every time district lines are redrawn for partisan gain, public trust erodes a little more. Our citizens deserve competitive elections and accountable representation, not predetermined outcomes. I urge legislative leaders to demonstrate true stewardship of the public good by setting aside partisan calculations and returning focus to the responsibilities of governance. North Carolina,Äôs strength has always come from its people ‚Äî from those who teach our children, build our communities, and care for our neighbors. They deserve a legislature that works for them, not against them.
10/20/25 7:45 AM	Miss Rebekah White	Academia	Tyranny and tyrants. And lawlessness are challenging issues Poverty, inflation, over-inflated prices and stagflation are challenging issues. Peacemaking and economics - community revitalization and ecponomic devvelopment are needed please
10/20/25 7:45 AM	Hunter Michael		The census is supposed to be a guide to redrawing lines, so why are you proposing it right now? The lines should be based on population information from Census data, not because you want to control future elections. I want leaders who play by the rules and have the courage to stand up for what is right.
10/20/25 7:46 AM	Amy Hill		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/20/25 7:46 AM	Rebekah Lassiter		I am vehemently opposed to the redrawing and redistricting of our Congressional maps.

10/20/25 7:46 AM	Hendree Lensch		Are these redistricting efforts truly designed to represent the people, or are they engineered to benefit those already in power? To date, it appears the answer is to benefit those in power. Thus, I strongly oppose this redistricting effort in North Carolina. Every time district lines are redrawn, we increase confusion among voters and erode public trust in our electoral system. North Carolinians see these changes as partisan power grabs, not efforts to improve representation. Redistricting also disrupts communities. Residents who have built relationships with their elected officials are suddenly severed from their continuity of representation. Such action weakens elected officials' accountability and leaves voters feeling disconnected from the democratic process. Stop the legal chaos that repeated redistricting causes. Litigation over unconstitutional maps costs North Carolina taxpayers time and money, and drags the courts into what should be a fair and functional process. Voting districts should not be political footballs. North Carolina citizens deserve an independent and transparent redistricting process that removes partisan bias and puts the interests of voters first.
10/20/25 7:47 AM	I oppose this plan Lisa Adams		I oppose this proposed Congressional district plan as it is clearly gerrymandering. This action is illegal and unconscionable.
10/20/25 7:47 AM	Ms. Lisa Lippiner		I have never been more embarrassed to be a NC resident. I,Äôve also never been angrier. The lack of integrity shown by the NC GOP is staggering. The willfulness to destroy our democracy. You want to tax without fair representation. You can,Äôt do your jobs,Äîpass a budget,Äîbut you can and do actively work to undermine democracy. Is there not a moral bone in your body? Do you take the call of representation to mean a ticket for corruption? Is your goal authoritarian government? Future generations, whether or not they exist in a United States of America, will look upon you as complicit in the destruction of democracy and fair representation by the people.
10/20/25 7:47 AM	Claudya Muller		Please do not change existing districts. Keep voting free!!!
10/20/25 7:47 AM	Miss Rebekah White	Academia	Economic development and community revitalization are needed please
10/20/25 7:47 AM	Ms. C. Brown		Continued gerrymandering and redistricting at the request of a 34 count convicted felon, to dilute the voting power of Black and minority voters in NC is a cowardly move. You were elected by the people and for the people, to serve the people of North Carolina. You took an oath to to North Carolinians, not Donald Trump. For once in your lives do the right thing, the moral thing and stand up for all of NC.
10/20/25 7:48 AM	Martha McCormick	I'm a NC citizen & voter	This is an outrage. Redistricting should be conducted ONLY by a nonpartisan committee. What is going on now, a mid-decade redistricting scam, is clearly designed to cheat every voter in North Carolina of the power of their vote. WE should be electing our representatives. Our representatives SHOULD NOT be selecting us. Stop this now.
10/20/25 7:48 AM	Mr Otis Moore	Retired American	This Gerrymandering is wrong. People are people . Let each one,Äôs voice be heard . We all deserve FAIR election and fair treatment. This selective voting is not it . Please form equal lines for each amount of people . Shameful actions will cause despair and unrest !
10/20/25 7:49 AM	Alisa Webb		NO!!! Stop the cheating. The people of NC need to be represented fairly. People need to run and try to get elected on your ideas, not by cheating!!! Do your job and pass a budget for the state before you bend the knee on Trump,Äôs orders to help him stay in power. Do your job and protect the people of NC from federal overreach! This is shameful and disgusting and anyone supporting this blatant cheating attempt needs to take a hard look in the mirror and see if they can still see their soul. Shame.
10/20/25 7:49 AM	Casey Roe		Stop this pathetic attempt to further rig the NC maps. The people of North Carolina are opposed to your policies, which is why you have to cheat to win. How about creating policies that actually benefit the majority people so they would WANT to vote for you? We see what is happening and we will vote you out. We want true representation, not your political games.
10/20/25 7:49 AM	Stop trying to cheat Michael Rowe		If you want to keep your power try doing things that people want, not redrawing districts to make up for your unpopularity.
10/20/25 7:50 AM	Jeffrey Varnam		This biased redistricting process sets a dangerous precedent and denies North Carolinians fair representation. Voters,Äînot politicians,Äîshould choose their leaders.

10/20/25 7:50 AM	Dr Crystal Cavalier	Citizen of the Occaneechi Band of Saponi Nation	To Members of the North Carolina General Assembly, I am writing to strongly oppose the proposed congressional redistricting plan that will be introduced next week. The plan,Äôs decision to split the Occaneechi Band of the Saponi Nation ,Äî a state-recognized tribal nation whose ancestral homelands span Alamance, Orange, and Caswell Counties ,Äî into three separate congressional districts is not only harmful, but it fundamentally undermines the democratic rights and political representation of Indigenous peoples in North Carolina. Fragmenting our community in this way is a classic example of gerrymandering through ,Äúcracking,,Äù a tactic designed to weaken the political power of a cohesive cultural and political group. For Indigenous nations like ours, whose population is already small and historically marginalized, this division will dilute our collective voice, limit our ability to advocate for policies that affect our land, water, cultural heritage, and sovereignty, and further marginalize us in a political system that has long excluded Native voices. This decision also runs contrary to the very purpose and statutory obligations of the State of North Carolina as outlined in the Executive Organization Act of 1973, specifically G.S. 143B-405 and G.S. 143B-406, which established the North Carolina State Commission of Indian Affairs. These laws charge the State with the responsibility: ,ÄúTo deal fairly and effectively with Indian affairs.,Äù ,ÄúTo bring local, State, and federal resources into focus for programs for Indian citizens.,Äù ,ÄúTo provide aid and protection for Indians and prevent undue hardships.,Äù ,ÄúTo hold land in trust for the benefit of State-recognized Indian tribes.,Äù ,ÄúTo assist Indian communities in social and economic development.,Äù
10/20/25 7:50 AM	Nancy Wisniewski		NC Citizens do not condone cheating OR racism. Racist rigged maps make racist rigged elections. STOP THE REDISTRICTING.
10/20/25 7:50 AM	Nita Webb		Redrawing Congressional lines in this political climate is one of the worse things that could happen in our state. It seems as if the voting rights of specific cultural and racial groups are being targeted to lose the level of power they have. It seems to be a move that is made out of fear and an attempt to keep our state and our country in nostalgic memories from the past rather than moving forward as a more united group of people who can make positive change in our world. Fear is never good as a driving force for any thing. There are greater possibilities for prosperity and growth if we move forward rather than backward.
10/20/25 7:51 AM	Mrs Rebecca felton		I am strongly opposed to the proposed redistricting that is inappropriate, unfair and unlawful.
10/20/25 7:51 AM	Dr Allison Wattenbarger		I am strongly opposed to the new, gerrymandered redistricting plan. As a democracy committed to equal representation, our maps should accurately, fairly represent our voices. These do not.
10/20/25 7:51 AM	Emily Namey		This is a shameless power grab by the Republicans. There is no justifiable reason for redistricting as proposed. Shame on these legislators for taking the power to elect politicians away from the people. This bill rigs districts for the Republicans, which is completely anti-democratic and against the Constitution they purport to uphold.
10/20/25 7:51 AM	No more gerrymander Chris Markovich		Please stop the capitulation to trump. This is a vote to try to destroy real American values, and what our country stands for. You have power in the state legislature now. Use it for the good of ALL North Carolinians, not just MAGA republicans. You will be remembered for what you do now. This vote to gerrymander is further undermining our representative democracy and your own moral standing before God, and your integrity. You are destroying your soul.
10/20/25 7:52 AM	Martha Legere	Good trouble Transylvania	No redistricting, please!!
10/20/25 7:52 AM	Ms Kathleen Gaskill		Let voters listen to issues and candidates stands and then vote. This is the second example of Senator Berger attempting to go behind the scenes and rig things. The first being the shrimp ban. Enough already,Ä¶.stop interfering with election integrity. Looks like NC and it,Äôs Congressional districts have already been unfairly drawn, Do not disenfranchise mire folks. I live in Hyde County and we are already unable to have a voice. Stop now.
10/20/25 7:52 AM	Ms Joye Hearn	Retired	outraged by the Republican power grab. Stop these gerrymandering tactics. We will hold you accountble
10/20/25 7:52 AM	Marian Saffer		The Republican-led NC General Assembly has already imposed minority-rule in our state with past redistricting, Do you really need to take it further just because Donald J Trump asks you to do this? You are collaborating in the destruction of the nation,Äôs democracy. Stop.
10/20/25 7:52 AM	Ms Mary Fargen		This redistricting is cheating clear and simple. It should be illegal and I hope this type of behavior is thrown out in court. ALL the people of NC deserve to choose their representatives by fair voting. These maps are allowing representatives to pick their voters and that is simply not fair. I am disgusted.

10/20/25 7:52 AM	This is illegal Nicole Kubacki	Do not do his dirty work, stand up for your constituents, walk away from today with a modicum of self respect and respect for those that your serve. Because you serve the people of this state. Do you truly believe your political opponents should all be punished by this president... Do we truly believe he needs more power and more false support?!? This will be a moment we all look back on and know it was when it was getting out of control.. these maps were made two years ago .. they are still valid. It's time to align with the constitution and what is right!! I hope you still believe in democracy
10/20/25 7:52 AM	Ruth Tull	The districts vary too much in size, to the point that rural North Carolinians are not well represented. The 1st district covers 20 counties!! 1/5 of the entire state. The priorities and needs of residents in Wilson Co vary greatly from those in Warren Co, Lenoir Co, and Currituck Co! A beach county has almost nothing in common with the Piedmont and Coastal Plain! Just one person cannot deeply understand and advocate for the unique problems residents face in 20 different counties. The new maps are diluting the representation of rural communities by concentrating on the cities and metro areas.
10/20/25 7:53 AM	Lawrence McManus Jr	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice.
10/20/25 7:53 AM	Dr. Amy Springfield	Democracy is what makes our country great. Having people in power that accurately represent you and your community is important. Having your concerns heard and listened to because your representative accurately represents you is central to our democracy. Redrawing the maps to favor a specific party will destroy this. You are taking away our rights as a state to make decisions about who represents us. Think about your state, your constituents, your democracy and do not redraw maps just for the presidents backing. Put your people and the people of this state before your party.
10/20/25 7:53 AM	Mr. Gregory Carter	True conservative values demand transparency, integrity, and competition,‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 7:53 AM	Mrs. Laura Zug	To the Members of the North Carolina General Assembly: I‚Äôm writing as a mother, independent voter, and lifelong North Carolinian who is deeply troubled by yet another round of redistricting. We just held elections under the 2023 map,‚Äîthe third version in recent years,‚Äîand now the lines are being redrawn again. Rather than adjusting for population changes, this new effort appears aimed at maintaining power. It‚Äôs confusing for voters and erodes trust in the system. North Carolina is a genuinely competitive state. Roughly a third of voters are Democrats, a third Republican, and a third unaffiliated. Yet the last map gave Republicans 10 of 14 seats with only about 53% of the statewide vote. The new proposal could tilt that even further, turning balanced regions into guaranteed outcomes. When nearly half of voters end up with barely a fifth of the representation, something‚Äôs off. I‚Äôm especially concerned about the 1st District. It‚Äôs being reshaped in a way that flips it from narrowly favoring Biden in 2020 to clearly favoring Trump,‚Äîmainly by trading more moderate counties for heavily Republican ones. That kind of precision doesn‚Äôt happen by accident; it‚Äôs deliberate. And it sends the message that some communities,‚Äô voices matter less than others. Republican leaders have even described the map as one meant to ‚Äúdefend President Trump‚Äôs agenda,‚Äù and add ‚Äúanother Republican congressional seat.‚Äù That makes the partisan intent unmistakable. I‚Äôm not writing this as a partisan. I‚Äôm an independent voter who‚Äôs equally opposed to either party manipulating the system. As a parent raising kids here, I want them to grow up believing their votes count and that fairness still matters. Please reject this map and commit to a process that reflects the people of this state,‚Äînot just the politics of the moment.
10/20/25 7:54 AM	David Graber	The state of North Carolina elected a Democratic governor and a Democratic attorney general. The Republican plan to engage in redistricting for the purpose of diluting Democratic representation is a violation of our rights and of basic principles of democracy.
10/20/25 7:54 AM	Pamela Morgenstern	I strongly oppose these gerrymandered maps that discriminate against underserved communities. This strategy from the Trump administration cuts off fair representation for all citizens of North Carolina.
10/20/25 7:54 AM	Hector Jeyakaran	Gerrymandering violates the core principles of Representative Government, and unethically suppresses portions of our community. Rather than proceeding with this destructive initiative, please consider making gerrymandering illegal in NC, as well as codifying core principles of ethical districting.

10/20/25 7:54 AM	Mrs. Karen Padgett	Citizen of North Carolina	You know, folks, we don't tolerate cheating in sports--not in hockey, basketball, football or soccer. Why would we tolerate cheating by the people who were elected to represent ALL North Carolinians, not just Republicans?
10/20/25 7:55 AM	Dr Barbara Cook		I am writing to oppose the proposed redistricting for the upcoming election. I ask all members of the North Carolina state congress to reconsider this plan and continue to focus on following both the U.S. and State constitution. I moved to NC because of the state and local government efforts designed to continue to make NC a state that promotes a great quality of life for all of its residents. I surely hope my trust in all of our lawmakers was well grounded and that there will minimally be a pause on this action that appears to be a mandate by the national government rather than initiated by our local and state government. Thank you for considering the input from your constituents. Warmest regards Barbara
10/20/25 7:55 AM	Mrs Janet Betke		This is an absolute outrage in a state that is a purple state to be rigging the maps even worse against Democrats. This is criminal stealing the NC elections. When we have fair elections, you can see that Democrats win the state house. This cheating is a sin against God! Stop Now! Draw fair maps! Maps should not even be drawn this year! Evil against God cheating the people of NC!
10/20/25 7:55 AM	Cynthia Nabut		The maps need to be fairly drawn and I am opposed to any bill that does not support that they are fairly drawn.
10/20/25 7:55 AM	Mrs. Bethany Gallagher		This proposal is absolutely absurd. Our state is being gerrymandered and it is unacceptable. This will make our state (which has almost equal representation on both sides of the aisle) into a solely red state. It is not the way that our government is supposed to work and it is capitulating to the whims of the president instead of meeting the needs of the people of North Carolina. This should not pass if you listen to your constituents, which is where your loyalty should lie.
10/20/25 7:55 AM	Mrs Erica Campion		As a registered Republican, I am outraged at the blatant power grab by the GOP with respect to redistricting in the state of NC. The job of elected officials is to represent the voice of ALL constituents and enact the will of the majority of voters. I will remember this blatant disregard for democracy at the polls.
10/20/25 7:55 AM	Erika Guy		This action is shameful and so very wrong. How can you live with yourselves as you attempt to silence the voice of the people? I guess fairness and representation REALLY don't matter to you. SHAME on you deceitful folks for trying to unfairly rig the elections in your favor!!!
10/20/25 7:55 AM	Mrs Shelley Beason		Please stop the effort to redistrict and essentially disenfranchise voters. I think that there are more important issues that need the attention of the legislature. PLEASE STOP!
10/20/25 7:56 AM	Annabel Levinsohn		This is a blatant attempt to rob North Carolina citizens of their right to political representation and an attack on our American democracy. The citizens of this state have repeatedly stated they are against this kind of partisan gerrymandering. Listen to the citizens and do not pass this shameful legislation.
10/20/25 7:56 AM	Alex Lepp		I strongly oppose this redistricting plan.
10/20/25 7:57 AM	6786132533 Chris Lahowitch		Please NO further gerrymandering
10/20/25 7:57 AM	Sheri Cutler		Stop cheating! No gerrymandering. Republicans, you are going to destroy your party. STOP IT.
10/20/25 7:58 AM	Elizabeth Locke		Do not cheat the NC constituents by redrawing maps that are not fair. Keep the districts as is, or make them more fair.
10/20/25 7:58 AM	Ms Stephanie Finn		Hi, I oppose this redistricting effort to reduce the number of Democratic Congress people from 3 to 2. NC is not a "red" state and these continued artificial gerrymandering efforts are disenfranchising many voters. Voters should choose their reps! Reps should not choose their voters. Please support Democracy and stop this anti-Democratic redistricting. Best regards.
10/20/25 7:58 AM	Car Delaney		Don,Äôt do it. No redistricting.
10/20/25 7:58 AM	Gerrymandering Marianne LeVigne		While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. I am an unaffiliated voter that believes in transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps.
10/20/25 7:58 AM	Tami Radzai		As a NC constituent, I vehemently oppose the redistricting of Congressional maps at this time. With the recent redraw just 2 years ago, there is absolutely zero justification for this action.
10/20/25 7:58 AM	Anne Grawey		Voting rights are a core tenet of democracy. Please do not interfere with voting by gerrymandering our rights away. Respectfully, Anne Grawey Cary, NC
10/20/25 7:58 AM	Gerrymandering Outrage Peter Barcus		It's an outrage. What other democracy in the world let's legislators pick their own voters? But of course, burger will do Trump's bidding.
10/20/25 7:58 AM	Tammy Fuller		I feel it,Äôs time all our representatives work on behalf of all North Carolinians. It is immoral to draws voting lines in order to silence some voices and give more weight to other voices. Please work for our democracy.

10/20/25 7:59 AM	Mrs Laura Ballance		I am very much opposed to this redistricting. This is a move to thwaet the process of democracy and checks and balances that have always been a part of the political process as long as i have been alive. What you are proposing is criminal and you are pushing us further down the road toward authoritarianism. Phil Berger, you and every who votes for this should be ashamed. History will remember you in the context of the damage you have down to our great country.
10/20/25 7:59 AM	Ms Astrid Haugen	Retired	I am writing to express deep concern about the current redistricting proposal. While redistricting is a necessary process to reflect population changes, this mid-decade effort is driven not by demographic shifts or community representation, but by partisan ambition. The proposed map seems designed to convert a competitive or Democratic-held seat into a safe Republican one, raising serious questions about fairness, transparency, and respect for voters,Äô voices. When redistricting is used as a tool to entrench power rather than ensure equitable representation, it undermines the very foundation of our democracy. Voters should choose their representatives. Representatives should not choose their voters. I urge the General Assembly to reconsider this approach and prioritize maps that reflect communities of interest, racial equity, and political balance, NOT partisan gain. North Carolinians deserve a process that is above reproach, not one that feels like a rigged game. We are a purple state, and we must all live here together.
10/20/25 7:59 AM	Dr Cris Henage		This is gaming a system that must be fundamentally equal. I object
10/20/25 7:59 AM	Elizabeth D	One of the citizens of North CArolina	The point of this and fair maps is equality for everyone and having us choose who represents us vs someone else choosing it! I will NOT vote for anyone who is involved in this travesty
10/20/25 7:59 AM	Dr Michelle Karaffa		To my knowledge, Redistricting may occur after new census numbers. This appears to be a blatant power grab unsubstantiated by updated census data.
10/20/25 8:00 AM	Holly Lloyd		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 8:00 AM	Adrienne Tegreeny		We want fair maps! If you can't win without cheating, maybe it's time to actually listen to what the public wants. We want fair maps for accurate election results.
10/20/25 8:00 AM	Colleen Kelly		Please don,Äôt rig our map. Stand up for what you and I know is the right thing to do for this country and this state. It,Äôs so discouraging to see our elected officials doing what Trump tells them to do and not what is the RIGHT thing to do. Please.
10/20/25 8:00 AM	Vote No To Gerrymandering Tayler Mariner		I am a Raleigh resident and I do not want gerrymandered district lines favoring either side of the aisle. It is already out of balance. Stop it.
10/20/25 8:00 AM	Do not silence voters Anne Swaim		I am disappointed and dismayed at the attempt to redraw voter maps in order to gain power. The purpose of government is to represent all the people. Silencing some of those people is against the principles of the USA and North Carolina. I urge you to to give in to this gerrymandering power grab. Thank you for your time and attention.
10/20/25 8:00 AM	Mr. Robert Barker	CITIZEN	Gerrymandering is wrong. You know it is wrong regardless of who it benefits. Deliberate attempts to control power are un-American. Make moral decisions, not partisan power grabs. Leave the maps alone until a non-partisan effort can be used to create fair districts.
10/20/25 8:00 AM	Diana Lys		The people of NC elected NCGA to serve us first, not President Trump. By pursuing redistricting now, NCGA is giving away its power to President Trump before using it to support the people of NC by passing a state budget. Honor your commitment to your constituents, the many who elected you as our representatives, and not the one who demands your loyalty.
10/20/25 8:01 AM	Dr Lynn Sutton	General Public	Please do not do this. It is embarrassing to the state of North Carolina. Enough is enough.
10/20/25 8:01 AM	Karen Trahey		Please create fair voting maps in NC. All citizens deserve the right to be represented. Our founding fathers designed the Constitution to create a country that represents all the people. Therefore, our voting maps need to reflect all of our citizens not just those in power so all voices are heard.

10/20/25 8:01 AM	Linda Huff		I don,Äôt know how you Republicans can live with yourselves. The only purpose of this redistricting is to cheat people out of their vote. Because the policies you support don,Äôt benefit the majority, you have to cheat to hold power. You understand the redistricting change you propose isn,Äôt positive; you understand it,Äôs destructive to the wellbeing of the people of North Carolina, the people you are supposed to serve. I hope you decide to reverse course and keep the present districts. Thank you.
10/20/25 8:01 AM	Absolutely Not Concerned Citizen	North Carolinans	This is absolutely unacceptable. These maps were redrawn 2 years ago. The maps proposed recently are inherently looking to disenfranchise voters and to continue to put a thumb on the balance of power. This is unacceptable. It seems as though this legislature is largely comprised of people who feel they cannot hold power without cheating. Gerrymandering (which is what is proposed here) is not only OVERWHELMINGLY unpopular with YOUR constituents, but is also incredibly unethical. This is conduct unbecoming of leadership and is more like a group of drowning rats scrambling for a rope on a sinking ship. It is very clear what you're doing here is unpopular and you know it. Grow a spine and do what's right for once.
10/20/25 8:02 AM	Ms sara lachenman		I am strongly opposed to the continued gerrymandering of our NC districts. The polarization of our politics is only exaggerated when our public officials don,Äôt need to speak to the other side even in their elections. If any changes are made to our current maps, it should be making the maps a more accurate representation of our state,Äôs distribution, not less.
10/20/25 8:02 AM	Against Redistricting Carol Hamilton		Do not proceed with these redistricting plans! This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. Also, this proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year,Äôs election before dropping big changes to next year,Äôs.
10/20/25 8:02 AM	Dr. Rachel Keever		Representation of constituents by actual communities, by geography, is the bedrock of democracy. Redrawing the lines again and again to get a political outcome is reverse engineering the system and does not value the voice of voters. Governing by force or by manipulation-driving division while designing less representation of opinion- will not make for a better, modern North Carolina. I ask NCGA for no redistricting action without a new, paired census data set and agreed upon bipartisan maps.
10/20/25 8:02 AM	Ms. Suzanne Quinn		This gerrymandering needs to end. Leveling the field is what Democracy is about, not doing everything you can to guarantee your side wins. Lorry the people decide and stay out of our elections.
10/20/25 8:03 AM	Your Conscience		Are you really going to bend over backwards for this corrupt administration? Don't forget once you give them what they want, they won't need you anymore, and you will also have to answer to God for using unbalanced measurements. You know this is wrong, draw a FAIR map!!
10/20/25 8:03 AM	Dr. Adam Rosenblatt		North Carolinians on all sides of the political spectrum say they are against this mid-decade partisan redistricting. A gerrymandering war between the parties undermines democracy for all of us. The vast majority of Americans value a functioning democracy over the political party they voted for, and you betray that trust if you vote for gerrymandering. I urge you to put democracy, and this state, above your political party. Show that North Carolina can do better than the partisan destruction of democratic norms happening around this country. Lead by example. Show a better way forward then disenfranchising the voters of this state.
10/20/25 8:03 AM	Kendall Kirk		This redistricting plan is shameful. I vehemently oppose this Republican move to redraw maps to stack the deck in their favor.
10/20/25 8:03 AM	Ms. Felicia Smith		I am wholeheartedly against the use of gerrymandering to redistrict an outstanding representative that was chosen by his constituents. Please be mindful of things that you are doing against the wishes of the people. I am certain that you want to do what is right for masses.
10/20/25 8:04 AM	Stop the gerrymandering!! Michelle Swart		It,Äôs disgusting that you are working to gerrymander the state even worse than you already have. Stop it! We should have an independent commission. Of course I know you won,Äôt listen. So my greatest hope is that you make mistakes in your redistricting that will backfire on you. You should resign if you can,Äôt represent all the people of NC.
10/20/25 8:04 AM	Nora Miller	Tax paying citizen.	DONALD TRUMP IS NOT WORTHY . HE IS NOT A KING. EVERYTHING HE DOES IS HURTING ALL THE CITIZENS OF NC. THE VOTING MAPS ARE ALREADY DISHONEST. DRAW NEW HONEST MAPS. DEMS ARE THE LARGEST POLITICAL GROUP. MAKE IT REFLECT THAT.

10/20/25 8:05 AM	2025 Redistricting Angela Smith		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/20/25 8:05 AM	Elizabeth Allen		All North Carolinians deserve a vote that counts and resdistricting severely threatens this. In a time when confidence in democracy is remarkably low, why would NC law makers further this by engaging in mid-cycle redistricting?
10/20/25 8:05 AM	Joanna Hedrick	retired teacher	Gerrymandering needs to stop. Neither party should do it. Do not bend to the whims of Trump. We need FAIR representation in government based on true communities. Stop taking power away from the people. STOP CHEATING. NC is already a RIDICULOUSLY gerrymandered. Democracy is supposed to give ordinary people a voice. If you vote for this, you will be sending an even clearer message that you do not believe in democracy.
10/20/25 8:05 AM	Janet ONeal		I oppose redistricting congressional district 1 in mid decade. Districting for political gain by one party is unfair and takes control away from the people in the communities they live in. I believe that the majority of voters in all parties are against this action. Please let moral ethics and the good for the people guide your decisions. It,Äôs time that we restore honesty and fairness to our political process and individual motivations. Gerrymandering is neither fair nor honest.
10/20/25 8:06 AM	Heather Taylor		Everyone deserves to have their votes count. The scales are already tipped too far for one party in our 50/50 state. Tipping them further takes us even farther away from democracy.
10/20/25 8:06 AM	Frankie Hedrick		What a waste of our tax dollars! If the maga party feels that their policies are so wonderful, why not trust your constituents to agree. NO one party should rule!! Progress is made by listening to opposing ideas not by pushing one sided ideas down our throats! PASS. A BUDGET!!!!! And accept that NC chose a democrat for Governor because he was the better candidate. We deserve for him to have the authority granted to all of our Governors! Stop playing games and do your jobs.
10/20/25 8:06 AM	Ruth Bromer	Retired	This is a despicable show of power grabbing, not for the good of the people, but for the GOP to keep control against the will of the people. Around 75% of the citizens of North Carolina are opposed to Gerrymandering, but the GOP only cares about their power. Redistricting is supposed to be once every 10 years, after a census is done, not every other year to grab more power. This is truly shameful. This is stealing representation from the people, especially the Black Belt in Northeast North Carolina. We are a 50-50 state and the Republicans have already stolen people's rights by Gerrymandering our state to 10-4 Congressional seats. Now they want to steal one more, all to suck up to their power hungry leader, who wants to be a dictator. The Republicans are not doing their job of taking care of their constituents They are doing everything they can to appease Trump, who threatens to primary them if they don't do his bidding.
10/20/25 8:06 AM	Anna Wilson		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS
10/20/25 8:06 AM	No Gerrymandering Ellen E Beasley		Really? Redrawing a district to carve out a black guy who won his district- twice?!? Play fair.
10/20/25 8:06 AM	Christine Page		Please do not allow redistricting along racial lines in District 1. It is an unfair practice. Thank you.
10/20/25 8:06 AM	Karin Perzold		Redrawing the congressional map to favor a political party or candidate is wrong. Citizens should have congressional representation that is proportional to their votes, not a forced distortion. Votes should be earned by building platforms that reflect the majority of voters opinions, not by manipulation of congressional district boundaries. This should be about representing the people, not securing your job and self interest.
10/20/25 8:07 AM	Ms Mary Hart	Retired	Please do not redistrict to give an unfair advantage to Republicans. The people of NC deserve to choose their own representatives who reflect their own concerns and values. Manipulating outcomes is unjust.
10/20/25 8:07 AM	Elliott Hicks		I,Äôm almost 17 so I,Äôm not old enough to vote, however I know for a fact Gerrymandering is wrong and we have no need to redistrict and should not go through with this.
10/20/25 8:07 AM	Ms. Holly Ivel	NA	I am strongly against redistricting efforts that are not lead by independent experts committed to using fair and transparent methodologies that put democratic principles of fair representation first. From what I understand this is an attempt to further gerrymander this state in favor of one party which is anti democratic.
10/20/25 8:08 AM	Ruth Toth		I wholeheartedly disagree with the new redistricting plan. It,Äôs timing screams partisanship and I think most North Carolinians want our state legislators to stop the political games and get back to governing our state in the best interest of ALL of North Carolina.
10/20/25 8:08 AM	Alisha Benner		I,Äôm extremely concerned about the extension of politically motivated gerrymandered maps in order to prevent free and fair elections that represent the will of the voters. Stop cheating and let the voters select their representatives through free and fair elections rather than the politicians selecting their voters!

10/20/25 8:08 AM	Laura Christel		Please act today! Charlie Miller State Rep NC 919-733-5830 Hi, my name is [NAME] and I'm a constituent from [.Ä¶] I vehemently oppose the attempts to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinian voters should choose their representatives, not the other way around.
10/20/25 8:08 AM	Dr Elizabeth Williams		I am opposed to partisan redistricting.
10/20/25 8:08 AM	Stacey Traviglia		Please do not use gerrymandering to suppress NC democrats voices. Please do not draw maps that favor republicans in NC. Please maintain a fair election process. Let the people vote on this.
10/20/25 8:09 AM	Mary Halloran	Voter	I OPPOSE this redistricting proposal. Please vote NO
10/20/25 8:09 AM	Brooke Davis		As a constituent of North Carolina, I find it criminal for the state legislature to gerrymander its congressional maps to ensure vote for a particular party. As a people, we want fair maps,Äînot altered maps. We want to vote for our representatives,Äînot have representatives ensure particular votes. It is unconstitutional and a misuse of our legislators time, especially given that we still do not have a state budget. Let us remember, the U.S. Supreme Court rulings on racial gerrymandering that say states like North Carolina, with a history of state-sponsored racial discrimination, must create districts that will elect Black representatives. The shrinking number of competitive seats in North Carolina is a great concern for our state. I am against gerrymandering our state,Äôs congressional maps.
10/20/25 8:09 AM	Ms Sally Bassett		Please stop with this constant redistricting for your own obvious political gains . This is not fair representation.
10/20/25 8:10 AM	Jill McAllister		If the only way you can stay in power is to maneuver yourself there through underhanded moves like gerrymandering, you have to know that your policies are unpopular and unjust. You will not pay teachers; you will not fund Medicaid and law enforcement is at an all-time low. If you can only win by cheating, you are not winning. You are stealing. And from a party that claims Christian values, you should probably take a look at your bible on the "rules" regarding that. The president,Äôs social media account posted an AI-generated video showing Trump in a fighter jet with ,ÄúKING TRUMP,Äù painted on the side. Once in the air, the plane drops excrement on American cities. Trump literally posted a video showing him dumping feces on America. This is who you want to fight to give an extra seat to?
10/20/25 8:10 AM	Sally Barnes		I oppose redistricting to gain maximum partisan advantage. NC voters should be able to choose their politicians, the politicians shouldn't be able to choose their voters.
10/20/25 8:10 AM	Mrs Flossie Hickland	NC reside	I am registering a complaint against any gerrymandering to our voting districts. All NC residents deserve a fair vote!
10/20/25 8:10 AM	Do your job Christopher Peterson		Should I be surprised that our legislature is more interested in redrawing the state maps to disenfranchise voters and keep themselves in power in perpetuity instead of actually helping people in this state by working out a deal on a state budget. Horrendous abuse of power and abdication of responsibility. You all should be ashamed of yourselves.
10/20/25 8:10 AM	Summa Martin Grier		STOP THE GERRYMANDERING NOW!! The introduction of redrawn maps only seek to weaken the political power of certain voters in particular communities. Why are you so afraid to have free and fair elections for all? If you truly cared about our communities and all of the people in our state as a whole, there would be no need to try to rig the elections to favor one party over another.
10/20/25 8:10 AM	James Wahlberg		I strenously oppose the proposed redistricting. If one can't win an election by the power of his ideas but resorts to manipulating the election process to gain an advantage then one doesn't deserve to win. Said simply: that's cheating, no matter who does it. True conservative values demand transparency, integrity, and competition,Äïvictory earned through ideas and persuasion, not through the manipulation of electoral maps. My father fought in Korea to preserve and expand the notion of representative democracy. This proposal dishonors my father and all those who honorably served in our military to protect sacred Amiercan values. Shame on the NC representatives who are seeking to further rig our state's politics in their favor. Have some integrity and courage and stand for an honest election. If you win, you win. If you lose, you lose. Either way, the people have spoken.

10/20/25 8:10 AM	Ms Lorraine Beal	I am deeply disturbed by the illegal power grab taking place by our republican leaders in North Carolina. They have already gerrymandered the state during the last redstricting and adding in an unplanned, illegal redistricting now just proves that they would not win the state if we had districts that represented voter registrations. Even worse, they are pandering to our current President instead of representing the people who elected them. They should listen to these public comments and not redistrict now.
10/20/25 8:10 AM	Elizabeth Marks	Gerrymandering is a violation of both state and federal law, and it erodes public trust in our elections. North Carolina must commit to fair and legal district maps that represent all communities equally. Please reject any plan that gives one party an unfair advantage.
10/20/25 8:11 AM	Catherine Landi	As a voting citizen of NC since I was 18, I am saddened to see the state I love being manipulated by the president to further gerrymander our districts. Just because you can doesn,Äôt mean you should. We are a purple state and we should look like one in congress.
10/20/25 8:11 AM	Beth Williams	Good morning, I am writing to ask that you NOT allow the redrawing of NC district maps that would result in gerrymandering a House west in Republican favor. Here are some reasons why. And, yes, they were "copy-pasted" from others' suggestions; that does not make them any less valid. ,Ä¢ mid-decade congressional redistricting would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. ,Ä¢ Gerrymandering violates core principles of fairness, accountability, and limited government. ,Ä¢ Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. ,Ä¢ Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. ,Ä¢ True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. ,Ä¢ 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Thank you for your objective consideration of the long-term consequences of this action. Kind regards, Beth Williams Constituent, Southwest Raleigh
10/20/25 8:11 AM	Gerrymandering John Mancini	The North Carolina GOP should be ashamed of its efforts to further gerrymander our state and take away our votes for a purple state like NC to be this imbalanced politically at the district level is an embarrassment and reflects a willful desire to corrupt the system in the service of Donald Trump.
10/20/25 8:11 AM	Mrs D Margalotti	Your job is to representatives THE PEOPLE of this state not the whims of a wannabe dictator. Cheating doesn't mean you win. Forcing your opinions on your constituents is not representative of a democratic or true republican process. Do your job.
10/20/25 8:11 AM	Dr. Joel Gallagher	I respectfully submit my public comment in opposition to the proposed redistricting plan. I was raised to believe that every vote counts ,Äî that democracy only works when all voices are heard and represented fairly. Fair maps are essential to fair elections, and this principle is under threat when gerrymandering allows politicians to choose their voters instead of the other way around. Gerrymandered districts don,Äôt just distort representation; they discourage participation, tamping down voter turnout and eroding public trust in the process. This rushed redrawing of boundaries risks silencing communities that have already fought so hard to be heard. I urge the NCGA to halt the current map proposals, hold a transparent and inclusive process, and prioritize maps that keep communities together, promote competitiveness, and ensure equal representation. Our democracy depends on fair maps ,Äî and on keeping the promise that every vote truly counts.
10/20/25 8:11 AM	Devon Rose	If you look at the statistics, most North Carolinians (all parties included) do NOT want redistricting. Our elected officials work for us North Carolinians, not President Trump. Listen to those that voted to put you in office. NO GERRYMANDERING!!!!
10/20/25 8:11 AM	Ms Carole Trewin	I am opposed to redistricting, especially done to give one party an advantage over another, and oppress certain individuals
10/20/25 8:12 AM	Remember democracy Jacqueline Katz	If you are so convinced of the rightness of conservative arguments, why is this redistricting so important. To show President Trump you have signed on to his vision of the US? To be united with the national Replicant Party? Please consider how history will look back on these days. The majority of your constituents are not in favor of this peculiar moment to start redistricting. This is giving in to forces outside our state, instead of representing your people. North Carolina has always stood for common sense and practicality. Please get on with the important governing you need to do-find money to get western Carolina fixed, get 40 open completely-build more roads . Get back to business of the State. Let Washington politics take care of itself.

10/20/25 8:12 AM	Mrs Linda Sande	none	Do not redistrict our state.
10/20/25 8:13 AM	Stephanie Palm		I do not support redistricting. This feels unnecessary, rushed, and unclear what the intentions are. If candidates are good for the citizens of NC, then they will win elections. It feels embarrassing to have to redraw the maps to try to win elections, doesn't it? Politicians work for us and we decide who gets to represent us. Redistricting is rigging this fair election process.
10/20/25 8:13 AM	Ms Diana Campton		I ask that you refrain from mid-decade I congressional redistricting that would further distort North Carolina,Âôs federal voting maps and erode any North Carolinians,Âô power to elect candidates of their choice.
10/20/25 8:13 AM	Diane Amato		When you redraw the maps you create an unfair advantage to the party you want rather than representing people who live in the district. The maps are already been redrawn and doing it again is continuing to increase the divide in this state. Leave the maps alone and let the people be represented the way they want to be not the way the Republicans wanted to be. It's completely unfair.
10/20/25 8:13 AM	Redistricting Tanja Rieck		Hi, my name is Tanja Rieck and I'm a constituent from Leland, Brunswick County NC I'm calling to urge Rep. Miller to oppose attempts to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around.
10/20/25 8:13 AM	Christina Sanderford		I am a voting citizen of NC and the U.S. I am asking that you represent the people of NC and vote NO on this redistricting scheme. If you vote yes, you are abusing the power given to you by the PEOPLE you are supposed to represent. It would be a deep violation and a covenant broken. Your time is better spent passing a budget. Please do your job and do no harm.
10/20/25 8:13 AM	Dr. Constance Neely	NC voter and Indivisible Highlands	I want to register that it is profoundly disturbing that you are once again rigging the maps in a partisan way. We are a purple state. We are allowed to have our votes counted. We do not agree with your redrawing of maps to exclude populations of voters. This country is founded on the people deciding who their political representation is and you are now choosing to take that away. You are violating the constitution in a state that is 38% unaffiliated, 32% Democrat and 30% Republican. How on earth do you feel justified in having 11 of our districts being biased Republican? You intend to win every election going further by cheating? You are doing this at the behest of a President that has violated multiple amendments of Constitution and intends to illegally stay a third term. We disagree with your decision making, your actions and we deserve a say in ensuring our voters have rights. Thank you. Dr. Constance L Neely
10/20/25 8:13 AM	Patricia Burton		I have voted in every election since 1972. I am against any gerrymandering, by Republicans or Democrats. Our congressional representatives must run on the merits of their policies. Accountability matters. Especially in these times when many members of our Congress appears to have cowered to the anti-Constitutional whims of the Administration. Listen to your informed constituents who expect fair, accurately represented elections.
10/20/25 8:14 AM	Chris Kaman		North Carolina is already too gerrymandered! Please do not put partisan politics above democracy. Vote "no" on this bill, please!
10/20/25 8:14 AM	Emily Oldenburg		Please do not redraw election lines again. It was done 2 years ago. Thank you for your service.
10/20/25 8:14 AM	Citizen Greer Ball		Gerrymandering is a heinous misuse of government power. It is a tool to rig elections in favor of one party; to ignore the wishes of the people, and to errode democracy until it is nothing but a platitude. Supporting this move to BLATANTLY cut communities apart to benefit the Republican fear of fair elections would be shameful and cowardly. Someone has to stand in the way of the Trump administration's wish for a dictatorship. You are an elected official. It is your job to represent the people, not despots. Be brave. Be responsible. Be the champion of the people your constituents deserve.
10/20/25 8:14 AM	Jheri Hardaway	MJWW Ventures Ltd	76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 8:14 AM	Ms Margie Reinitz	NC voter	Republicans are out to keep power for the party of evil and they don't mind cheating to do it. Jefferson Griffin is a perfect example of cheating by republicans. NC doesn't need more gerrymandering to cheat voters. We need districts that show true voter diversity and easier access to vote, not restrictions. This legislature is on a voter suppression Jim Crow mission.
10/20/25 8:14 AM	Jerry Washington		As a citizen of NC, I am opposed to the redistricting of our congressional seats. Why the rush? This is not occurring based on a new census. This is partisan gerrymandering to support Trump. We do need a nonpartisan group to decide our congressional maps after the next census. This cheating and dishonest activity by the Republican party. We need a state budget instead of this insanity.
10/20/25 8:14 AM	Mrs. Julie Terry		What Republican are doing is shameful and unethical. We will vote them out at every opportunity. An election that is not set up so that either candidate could viably win is not truly an election.
10/20/25 8:14 AM	Ms. Paula Wolf		I oppose this mid-decade redistricting scheme that removes an historical Black district from the map.
10/20/25 8:15 AM	Ashley Fox		North Carolina is a diverse state with diverse people. Please don,Âôt redraw lines in this way- it will just divide our people further and create more anger and distrust. We need to be coming together for the good of all of us now. And we need balance in our political system. Please stand up with the integrity that defines so many of our people and opt not to do this.

10/20/25 8:15 AM	Redistricting Thomas Rieck		Hi, my name is Thomas Rieck and I'm a constituent from Leland, Brunswick County NC I'm calling to urge Rep. Miller to oppose attempts to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around.
10/20/25 8:15 AM	Lucinda Lechleider		The continued willingness of the NC GOP to disenfranchise NC voters through suppressive gerrymandering has already led to the current direct attacks on US Constitutional rights - first among them, due process for citizens and non-citizens alike, the suppression of free speech, and wrong headed use of our military and National Guard. The unprecedented protests throughout the State this past weekend are not directed solely at the Administration, but also against the increasingly anti-democratic measures, like this one in the State Legislature.
10/20/25 8:15 AM	Ralph Shigley		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice.
10/20/25 8:16 AM	Monica Cox		"Both sides are doing it. There's no reason not to back up President Trump in a state that he won three times in order for him to keep delivering on his agenda," said communications director Matt Mercer. If this is the reasoning, I beg the Republicans and the Committee to rethink this exercise. "He hit me first" is never going to get my kids out of consequences for hitting. "Everyone was doing it," is never the get out of jail free card that my teenager thinks it is. If the state voted for Trump three times already, why do you need to redraw maps to support him now? Wouldn't it stand to reason that you're doing fine? There is a time and a place for redistricting lines due to population growth or other legitimate shifts. Trying to gerrymander districts to stay in power only indicates that the party thinks they can't win on the merits of their policies and candidates. How does that represent the state of North Carolina? The great people who live here? The ones who are currently struggling to find jobs or healthcare or educate their kids? I remember when politics used to be debate to get to the best idea, not shouting over the masses to push a president's agenda through at the expense of a state's residents. Stop trying to rig the system. Esse Quam Videri -- TO BE RATHER THAN TO SEEM. Please, let's start living up to our motto.
10/20/25 8:16 AM	Ji Ray	Concerned Citizen and Teacher	As a human, I can understand wanting everything to go as I, alone, have planned. To get what I want. It‚Äôs not always possible, nor is it even always right. As a citizen, I understand how wrong it is to try and force an agenda by skewing the data. In this case, the data is trying to create a population pocket to stay in power. It has nothing to do with really hearing what the people want, as it has become increasingly clear that the Republican Party in NC has its own agenda, and does not wish to actually hear the people, or even work across the aisle. As a teacher, this kind of gerrymandering has directly affected my students, and yes, my job. As a librarian that teaches research, you have to know that my students are keenly watching the adults, and honestly, behave with more integrity, honesty, and collaborative effort than you ever have. They get it. They just don‚Äôt understand why you don‚Äôt. You know it‚Äôs wrong. You know that a lot of what happens behind closed doors, in secret, and with bullying methods, is wrong because you do it in secrecy. This course of action can‚Äôt stand. Please behave better. Do better. Lose with grace. Or hey, here‚Äôs a concept,¬¶compromise!!
10/20/25 8:16 AM	Mrs Sandra Hemphill		I am strongly opposed to any plan to reorganize voting districts. The people of this state deserve to choose their representatives in fair elections.
10/20/25 8:16 AM	Allison Garde		What was meant for representation of the people is now being manipulated for power by the few. Political redistricting,Âîapart from the census redistricting that happens every ten years, which is intended to ensure representation,Âîis a cheap political tactic that is un-American at its core. Ironically, I write this knowing that it will have no impact on your decisions, and knowing that the consequence will further diminish my voice and the voices in NC as the redistricting effectively attempts to eliminate competitive seats. This even further discourages honest public discourse, one of the American values that I wish we could still celebrate. I can only hope that my children can grow up in a country that more accurately reflects proper representation, and that their voices can be heard instead of silenced by a political party.
10/20/25 8:16 AM	Eliza Robertson		Please think for yourselves and remember that North Carolina has long not only tolerated people of all political stripes. Why do you have to gerrymander for yet more seats when you have a clear majority? Please give us all a chance to be represented. ‚ÄúAll things in moderation,‚Äù has been a successful guideline for a long time. I am a white woman, 78 years old.
10/20/25 8:17 AM	Deborah Bell		Former Republican here: The capitulation to the fall of democracy must stop! Gerrymandering another seat is wrong! If your platform is so bad and not able to win, perhaps you start changing there! Let the people of NC decide this issue!
10/20/25 8:17 AM	Barbara Maclay Cameron		I vehemently oppose the current redirecting plan.
10/20/25 8:17 AM	Patricia Levitin		Please do NOT redistrict NC voting maps. You have already gerrymandered NC from 7-7 to 10-4 favoring Republicans. It is horrific if you add another Republican seat. Enough is enough. Please!!! Mid ten year redistricting is totally uncalled for just because the President wants more R seats.

10/20/25 8:17 AM	Stop redistricting! Lucy Wimmer		Redistricting wastes money on something the people of NC DON,ÄôT WANT. As a NC citizen and voter, I expect the financial decisions of the government to reflect my needs. Do not redistrict!
10/20/25 8:18 AM	gerrynander toadies susan bewconee	retired sexpert bureaucrat	so, if the orange on suggsted that you dance naked in front of him, would you do it?? yet you intend to do a not only stupid but also illegal thing with this "redistricting" without current census data. DO NOT DO IT
10/20/25 8:18 AM	Tim Nelson		Any Congressional district anywhere in America should only use the population of an area, not voter affiliation as a district is considered. Also, the area for a Congressional district should be the same geographic area and include whole counties and cities where possible.
10/20/25 8:18 AM	Mrs. Vivian Cruz-O'Doherty		I am a constituent from Durham. I am urging you to oppose the attempts to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a danger political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives not the other way around.
10/20/25 8:18 AM	Dr Dalia Trullinger		As a North Carolina resident, I strongly oppose this rushed and costly proposed congressional map. Redistricting should protect fair representation, not manipulate election outcomes. This map eliminates competition and silences the voices of entire communities for political gain. I strongly urge our legislators to put voters before parties ,Äî to maintain the current districts for now and commit to drawing fair, transparent maps in the future that truly reflect the will of the people.
10/20/25 8:18 AM	Kristen Pagan		This map is an obvious ploy to hand Republicans more power and subvert the will of NC voters.
10/20/25 8:18 AM	Mr. Kyle Pearce		I am opposed to redrawing the congressional district maps of North Carolina. The reason for redrawing the maps given by Rep. Burger are clearly against the will of the people of our great state.
10/20/25 8:18 AM	Kirsten Lora		All constituents in NC deserve a fair map that allows representation that we desire. The proposed maps do not represent your communities and should not be adopted.
10/20/25 8:18 AM	Ms Gloria Weissman		This power grab by North Carolina Republicans is absolutely outrageous and completely undemocratic. This is already one of the most gerrymandered states in the US. I'm 77 years old and have lived through a lot--this is enough!
10/20/25 8:18 AM	Olga Ramon		I disapprove of NC government gerrymandering efforts. Let the citizens be fairly represented!
10/20/25 8:19 AM	CDR (ret) MaryK Buranosky		This is wrong. Gerrymandering states to influence elections hurts us all. Every person deserves a voice not a weakened voice
10/20/25 8:19 AM	Pamela Petry	Self Employed	I strongly reject the redistricting plan that has been proposed . We need to bring an end to gerrymandering. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves.
10/20/25 8:19 AM	Lesley Pasman		We ask that you please respect the voice of the people, and let voters choose their representatives in place of the legislature choosing their voters. Please do not continue to gerrymander districts and in place adopt nonpartisan independent districting that accurately reflects the political makeup of the state. The voters will remember your actions in the future, even if you bar us from fair representation in the present.
10/20/25 8:19 AM	Ms Joan Parks		Stop gerrymandering NC! This is the only way the GOP can win ,Äî-by cheating and not allowing all NC citizen,Äôs votes count!
10/20/25 8:20 AM	Christine I.		I strongly disagree with attempts to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. I believe that people on both sides of the aisle agree that voters should choose their representatives, not the other way around. Why are you bothering with this when you have not even passed a state budget yet? Stop failing the citizens of North Carolina!
10/20/25 8:20 AM	Peter Levitin		You already have 10-4 favoring Republicans. It would be horrific if you re-gerrymander an already gerrymandered Map for NC. Please do the right thing and leave our Maps alone. The people in NC are literally 7-7 yet you gerrymandered to 10-4. Enough is enough.
10/20/25 8:21 AM	Renee Boughman		I object to the proposed redistricting . Please be fair and allow voters the rights provided by sane governance
10/20/25 8:21 AM	Ms Lee Berger	Retired educator, president Macon Co. Retired School Personnel; treasurer Read2Me; president Homeowners Assoc; All Saints Vestry Clerk	I know that the Democrats did redistricting before, so now the Republicans can do the same. I keep hoping that our legislators will one day think about the people you are representing, draw the lines according to (maybe county) lines, stop having someone make decisions for you and represent those who put you in office. Why not let AI draw the lines and see what happens? And I realize that I'm probably wasting my time asking all adults to be adults.
10/20/25 8:21 AM	DO NOT REDISTRICT!! Vickie Jones		Please, please do not redistrict according to a plan that sways power to the Republican Party. It,Äôs more than democracy at stake at this point!
10/20/25 8:21 AM	Myra Powell		Stop the unfair gerrymandering of our voting districts. It is a disgraceful power-grabbing attempt to disenfranchise our citizens.
10/20/25 8:21 AM	Deanna Wolfe		I,Äôm speaking out against any further gerrymandering of North Carolina,Äôs voting maps. It,Äôs time to put an end to politicians rigging the system to protect their own power. Our votes should actually count, and our communities deserve fair representation ,Äî not lines drawn to silence them. Let voters choose their leaders, not the other way around. YOU WORK FOR US!!!
10/20/25 8:21 AM	Mary Anderson		You have not been able to pass a budget or fully fund the Medicaid re-base but you are able to pass blatantly partisan redistricting. That act will let the voters know your priorities. This process would set a dangerous precedent and rob Carolinians of their rights. Voters should be confident that their vote matters.
10/20/25 8:21 AM	End gerrymandering Liam Hooper	None	Gerrymandering violates core principles of fairness, accountability, and limited government. It demonstrates your primary interest in gaining/maintaing power over your charge to serve the people, while limiting our ability to fairly and decidedly elect persons we choose. The proposed redistricting is unacceptable.

10/20/25 8:21 AM	President Cramer Vaughan	DWNC	The proposed redistricting map in North Carolina is yet another blatant attempt at gerrymandering,Äîillegally manipulating district lines to protect power rather than represent the people. When this issue was brought before the Supreme Court in the past, they stated clearly that these matters should be decided by the voters. The voters,Äînot politicians,Äîshould choose their representatives. Not the other way around. North Carolinians deserve fair maps and a fair voice in their democracy. Anything less is a direct attack on the integrity of our elections and the will of the people.
10/20/25 8:21 AM	Mrs. Dawn Streets		As a retired middle school social studies teacher, I am burdened every time I hear about and see efforts to undermine our democratic institutions. PLEASE use integrity and honor the values that have preserved and promoted our Constitutional Republic for over 250 years. Once we start down the path of dishonesty and corruption - redrawing districts that undermine the voice of the people - it is difficult if not impossible to recover. I know the Republicans feel that this is the only way to preserve their power. I urge you to put the American people, justice, and our long standing democratic values first! Push aside greed and selfishness. Develop a message and an agenda that works for the PEOPLE, not politicians. Practice the values that we all honor and respect. Then, American and humanity can move forward in a positive and sustainable manner. PLEASE do the right thing.
10/20/25 8:21 AM	Mrs. Sara Pley		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 8:21 AM	Gerda Stein		I beg you not to redraw our congressional districts yet again. This state is politically diverse and deserves politically diverse representation. We are straying far from the founding principles of this country.
10/20/25 8:22 AM	Kayne Darrell		Nothing g is less democratic than redistricting to give one party an advantage over the other. Have you no morals or ethics? It,Äôs called CHEATING. Is this really the way you want to win? You all should be ashamed. There is no justification for this no matter how hard you try to explain it away.
10/20/25 8:22 AM	Mr Peter Thorwarth	Asheville Voter Coalition	The courts should stop this immediately. The NC Constitution clearly says, "When established, the senate districts and the apportionment of Senators shall remain unaltered until the return of another decennial census of population taken by order of Congress." Republicans - your reputation now is that of constant cheaters. Stop it, and simply try to win votes in honest ways.
10/20/25 8:22 AM	Ronald Sinclair	Retired Minister	Stop the power grab, and keep it from happening in the future. Turn redistricting over to an independent redistricting commission. Voters should be able to elect our candidates instead of candidates selecting their voters. What you are doing should be considered illegal,l and certainly not of a democratic spirit.
10/20/25 8:22 AM	Dr Leslie Boyce		Gerrymandering is wrong!!
10/20/25 8:22 AM	Dudley Wilson		No more gerrymandered maps!
10/20/25 8:22 AM	Mrs. Kathryn Tilford		I urge you to NOT redraw congressional districts mid-decade. I, along with a large majority of North Carolina voters, say drawing congressional districts for partisan advantage is discriminatory and destroys equal representation as promised in the state constitution.

10/20/25 8:22 AM	David Swan		In the words of Joseph Welch, ,ÄúHave you no decency,Ä¶?,Äù Democracy necessitates public discourse and securing the interests of the public. Back room dealing and shifting the goal posts to preserve power for those who were granted that power by ,ÄúWe the People,Äù is abhorrent to the tenets of this state and country. Please re-think why you were chosen to represent us. Do not redistrict our representation Remember why this country was founded and what your role is to preserve it. Thank you for your attention to this matter.
10/20/25 8:22 AM	Cheryl Pletcher		Vote NO to redistricting so Republicans can capture another seat. The NC maps are extremely partisan already. Let the citizens of North Carolina vote in who THEY want to represent them in their districts.
10/20/25 8:22 AM	Hilary Sheaves		Absolutely oppose. We want our voices to be equally heard, not for a representative to pick and choose who they want to represent. Disgusting.
10/20/25 8:22 AM	Ms Kim CARAGANIS		Stop redistricting efforts to gain another Republican house seat. Its not fair its stealing!
10/20/25 8:22 AM	Karla Diener		I am begging you to refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. AND it leads to the kind of gridlock we are now witnessing in Washington DC. The vast majority of Americans want our elected officials to negotiate and debate the merits of proposed legislation. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps.
10/20/25 8:23 AM	Lindsay Carbonell		This is a gross attempt to effectively disenfranchise voters across North Carolina. Republican legislators clearly understand that their party is losing power and instead of working harder to represent the needs of their constituents, they are acting cowardly by stacking the deck in their favor. If Republicans think we can,Äôt tell that they have turned away from their constituents, are even refusing to show up at their own town halls, are making decisions in favor of billionaires at the expense of literally everyone else, they are deeply mistaken. Even if Republicans get away with gerrymandering, I promise they will not get away with flouting their voters for long. I do not support this plan and neither do any of my friends or anyone living on my street or anyone in my family.
10/20/25 8:23 AM	Ms Jeanne Frazer		Are you so afraid to get voted out, you,Äôre trying to rig the results? This is America. Do it right and let the vote fall where it may.
10/20/25 8:23 AM	No to gerrymandering Sherry Holder	Private Citizen	As a constituent, I strongly oppose the redistricting proposed. The purpose of our elections is so that the people are fairly represented and included in the important decisions of our country. Gerrymandering maps is the opposite of this. Frankly, it,Äôs cheating and NC has had enough of it. We deserve to be represented fairly.
10/20/25 8:23 AM	Stop redrawing the maps Chris Gardner		Stop redrawing the maps, you bunch of cowards. We know you only do this because you know you can't win only on your ideas and policies.
10/20/25 8:23 AM	Amy Pletcher		I am vehemently OPPOSED to this completely unnecessary, partisan gerrymander. If you can,Äôt win fair and square and have to rig a district so you can win it, it obviously means that your policies are unpopular and you are not doing the bidding of the constituents who elect you. 78% of North Carolinians oppose this power grab. Perhaps you should listen to them.
10/20/25 8:24 AM	Dr Ann Barrick		Stop the steal! Concentrate on passing a budget now rather than redistricting. This is costly, untimely and a violation of the people,Äôs rights.
10/20/25 8:24 AM	Jessica Breazeale		Vote NO to this plan. Our district maps were just updated recently and legally should not be redrawn between each 10-yr census. This plan takes the voice away from North Carolinians. You were elected to represent people of our state, not a president who breaks every law he can.
10/20/25 8:24 AM	Rachel Jacobson		I,Äôm in strong opposition to gerrymandering NCs maps. Unless you plan to make the maps more neutral or go to a direct election system, I think it,Äôs wildly unethical to redraw our maps. The 2 party systems purpose is to provide balance not domination and if our government officials want to maintain their purpose/jobs we should feel there is balanced representation and that is not the case currently in NC. If this gerrymandering continues the people,Äôs voices will have outgrown their representatives and their purpose will be null and void. Make maps more fair!!
10/20/25 8:24 AM	Doctor carla riffel		Please keep our maps fair. Fair maps allow voters to hold their leaders, responsible and to be more involved in their communities.
10/20/25 8:25 AM	ms. danna mclintock	hands off haywood indivisible	we see what you,Äôre doing ,Ä¶ we do NOT approve! ,Ä¶ and we vote!
10/20/25 8:25 AM	Anne Hopp		STOP THE GERRYMANDERING!!! This power grab is unAmerican, against the principles of Democracy, immoral, and at least SHOULD be illegal.
10/20/25 8:25 AM	Annette Porter		Can we just do the right thing here and let the voters actually speak through fair districts? This proposed redistributing is a subversion of the intent of democracy. I am sickened by this abuse of power.

10/20/25 8:25 AM Mr James Fountain	I am writing to express my strong objection to the proposed mid-decade redistricting of North Carolina's congressional maps. Redistricting is a critical function of the General Assembly, but this action,Äîwhich is not based on new decennial census data or required by a court order,Äîcreates unnecessary instability in our electoral process. North Carolina voters and election officials require stable, clear districts. Considering a fourth congressional map since 2020, just a year after the last map was adopted, introduces widespread confusion and erodes public confidence in the durability and fairness of our electoral system. Furthermore, pursuing a politically motivated redraw now diverts critical legislative time and state resources away from other pressing public policy issues. A mid-decade, voluntary redrawing of boundaries undermines the principle that elected officials should serve the stability of the state, not the short-term political aims of any single party. I urge the North Carolina General Assembly to cease this mid-decade redistricting process immediately and maintain the current congressional map to ensure stability and focus legislative efforts on the substantive needs of North Carolinians.
10/20/25 8:25 AM Kaleigh Del Greco	This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/20/25 8:26 AM Thomas Honeycutt	Do not redraw our voting maps. At this point that,Âôs just being greedy.
10/20/25 8:26 AM Dr Bryan Wagoner	This myopic, shameful power-grab undermines representational democracy. North Carolina rejects this cynicism. Please use your power to benefit, not mock, the people of the state.
10/20/25 8:26 AM Raven Boykin	Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Âôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS. This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will only result in costly litigation. This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters.

10/20/25 8:26 AM	Emily Teixeira		Dear GOP legislators, Since our GOP representatives and Senators are no longer listening to us individually, I,Äôm submitting this here in hopes a few brave souls will see this for what it is: a chance to show your integrity is still intact. I,Äôm writing as a constituent who,Äôs tired of watching our legislature skip its homework while grading everyone else,Äôs. The state budget was due June 30th. It,Äôs now mid-October. That,Äôs not a minor oversight,Äîit,Äôs a constitutional failure. Schools are running on fumes, agencies are improvising with last year,Äôs funding, and public servants,Äîfrom teachers to law enforcement to road crews,Äîare working without clarity or stability. Counties can,Äôt plan. Families can,Äôt plan. But somehow, there,Äôs time on the calendar next week to rush through another round of gerrymandering? How can the legislature justify redrawing the lines of power when it can,Äôt even draw up a budget? That,Äôs not governance,Äîit,Äôs gamesmanship. And it,Äôs exactly the kind of political maneuvering that erodes faith in democracy and deepens the divide between Raleigh and the people it,Äôs meant to serve. I understand you may not be the one holding the gavel, but your voice still matters. You can speak out against this,Äîboth the delay and the distraction. You can remind your colleagues that your first duty is to the people of North Carolina, not to the whims of a president or a party. Most of us here don,Äôt have undiluted votes anymore,Äîour representation,Äôs been sliced up and sorted out by mapmakers who think power is a zero-sum game. But you still do. Use it. Call for the legislature to do its actual job before it indulges in power grabs disguised as ‚Äúredistricting.‚Äù North Carolina deserves a budget before it gets another gerrymander. We deserve a government that governs. With respect,Äîand a healthy dose of exasperation,Äî
10/20/25 8:26 AM	Debra DeTreville		Serve the people of NC! Not the one in the White House. Do your duty to the people of North Carolina who are your constituents. Voters are watching!
10/20/25 8:26 AM	Ellenore Holbrook		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 8:26 AM	Maribeth Hockey	None	Stop trying to win elections by gerrymandering districts. If you can,Äôt win based on your policies and ideas, you deserve to lose.
10/20/25 8:27 AM	REBECCA ROMAINE		Please stop gerrymandering NC. It's all ready bad enough. No honor in cheating.
10/20/25 8:27 AM	Ms Joyce Hollifield		Stop the geremanding. It is against my will as a citzen of the state you represent.
10/20/25 8:27 AM	Jack Novator		Republicans can return to common sense and decency the way Raegen and Bush operated. Stand against tyranny. Stop implementing the agenda of a facist grifter.
10/20/25 8:27 AM	Lynn Hurley	Citizen	To redraw our NC voting maps at the request of a US President is not only blatantly partisan and illegal, it demonstrates that the party in power is aware their policies are unpopular with voters, and they are afraid of being voted out of power. The legislature's job is to represent all citizens of our state, not just the ones that agree with you. It is my fervent hope that the NC legislature will take the time to create a bipartisan committee to review our state's population with the reults of the next census, and draw properly balanced maps at that time. The current Republican disrespect for the law and for the voters is both illuminating and embarrassing.

10/20/25 8:27 AM	Anne Anthony		Stop this nonsense! The type of partisan gerrymandering being considered by Senate leadership should be against the law. Did you witness the No Kings Day protests from this past weekend? Millions of US citizens want an end to splitting this country in two. Redistricting in our beloved state of North Carolina will do just that. Just stop.
10/20/25 8:27 AM	elisa wolper		Redistricting mid decade is a a dangerous precedent and ruins basic principles of representing the people at all levels of government; representation needs to be nonpartisan!
10/20/25 8:28 AM	Susan Lindsay		I disagree with changing congressional district unless there are changes in population - as indicated on a census. Changing maps for political reason by request of the federal government undermines North Carolina,Äôs independence and the will of the voters.
10/20/25 8:28 AM	Fair Maps Jacob Forrest		I urge the House Select Committee on Redistricting and the Senate Elections Committee to reject the 2025 redistricting plan. It is a blatant and gross attempt to circumvent the democratic process that we hold dear in North Carolina. These committee members' time would be much better spent working to pass the overdue state budget, rather than use redistricting and gerrymandering to gain an underhanded political edge.
10/20/25 8:28 AM	Mrs Pat Kreiselman		Democracy depends on voters choosing their elected officials, not the other way around. North Carolina is roughly 50% Democratic-leaning voters and roughly 50% Republican-leaning voters. Our congressional maps should reflect our state. Redistricting should not occur outside of the constitutionally-mandated decennial census (per Article I, Section 2 of the U.S. Constitution). NO MORE GERRYMANDERED MAPS.
10/20/25 8:28 AM	Kristina McClain		I,Äôm an independent voter and I find what you,Äôre doing to be completely unethical and unnecessary. It appears as if you,Äôre cheating in order to win. You can,Äôt pass a budget, but you can spend time redrawing maps to make the President happy.
10/20/25 8:28 AM	Please Stop the Rigging Mary Mckeller		Please do not redistrict in the middle of the decade. I know that NC has a history of being the most gerrymandered state in the country, but it doesn,Äôt have to be that way. In a purple state, we should have FAIR representation in congress, not a rigged system that puts one party ahead of another. Please stand up for North Carolina and tell Trump NO, he doesn,Äôt get to push us around. The cowardice from the NC republicans is an embarrassment to our great state; PLEASE STAND UP FOR FAIR DISTRICTS, FAIR ELECTIONS!
10/20/25 8:29 AM	Matt Smotg		Do you have a soul? If so, you won,Äôt redistrict. Do it for Democracy. Thanks.
10/20/25 8:29 AM	Rev. Ryan Poag	Faithful Patriotic American	Please stop with the redistricting efforts and voter suppression tactics. Supporting redistricting is a rejection of civil rights, voting rights, human rights, and the constitution.
10/20/25 8:29 AM	Mary Mendoza		As an independent voter in North Carolina, the redrawing of district maps to favor one party over another that does not represent the people of the state is incredibly disturbing. Every citizen, regardless of voter registration, should have a voice. If the state population is a 50/50 split, its representatives should reflect that. I am extremely discouraged by what the republicans are doing and makes me lean away from them as an independent voter who has always had a split party ticket.
10/20/25 8:29 AM	Ms Cathie Long	retired American Red Cross	ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 8:29 AM	Mrs. Laura Fischer		While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Thank you for doing what is fair and just for the people you represent.

10/20/25 8:30 AM	John DeLuca	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people.
10/20/25 8:30 AM	Mrs. Anne Bias	Please echo the voice of your constituents by not allowing the redrawing of district lines. Our current government is overreaching in every possible segment of our lives. Please protect all voters rights in the state of North Carolina.
10/20/25 8:30 AM	Fair Congressional Maps Lorelie Bingham	I wish to express my opposition to gerrymandering. Fair maps are the foundation of democracy. Creating maps should be done by a non-partisan judicial committee. Sincerely Lorelie Bingham
10/20/25 8:31 AM	Mrs Shannon Caviness	To whom it may concern: please stop gerrymandering. First of all this is being done without notice to your constituents-this alone is a warning that someone is trying to pull strings and push something through that is not supported by the public who this will affect. Please do not redraw the lines which will disproportionately represent the wealthy and further oppress those of lower economic status. Your job as lawmakers, policy makers and politicians is to represent ALL your constituents. This move is not supported by the majority of constituents of EITHER party. Please ensure fair representation of all constituents. Thank you.
10/20/25 8:31 AM	Mrs Erin Petmezas	Gerrymandering should be illegal, regardless of which political party does it. Political candidates should win elections based on their ideas and what they will or have done for the people of North Carolina. The NC GOP is very open about their gerrymandering and it‚Äôs purpose, which is to give the GOP and President Trump more power. The vast majority of the people of North Carolina do not want gerrymandering. We want fair maps so that our representatives actually represent the people of North Carolina. Please do not take away the only competitive race that we have in this state. I am an unaffiliated voter and would be sending a message just like this even if the Democrats were doing this.
10/20/25 8:31 AM	Natalie Rodriguez	As a proud North Carolina resident, I am writing to express my strong opposition to redistricting in North Carolina. The proposal favors partisan interests rather than fair representation. This undermines the democratic process and dilutes the votes of many citizens. Redistricting can also fragment communities, breaking up neighborhoods and local ties. It is vital that electoral districts reflect community interests and identities. Lastly, the redistricting process has been opaque, with insufficient public input. Citizens deserve a voice in how their electoral districts are defined. I urge decision-makers to reconsider this redistricting proposal and engage in a process that prioritizes fairness, transparency, and community representation.
10/20/25 8:31 AM	Marilyn Cain	I apose this legislation. Maps should be drawn by a nonpartisan method. This is overreach by the party in power.
10/20/25 8:31 AM	Adrianne Pittman	Reject the 2025 proposed maps, which are an illegal attempt to gerrymander the NC congressional districts. North Carolina does not need to create new maps. North Carolina has other needs to address and it is a shame that this is what the legislative body is focused on. This is attempt to seize power and remove the checks and balances that keep our government fair and impartial. This move is unacceptable. Vote NO. Any legislator who votes for these maps does not deserve to hold office.

10/20/25 8:32 AM	Tonia Poteat		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must ensure that you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. A recent poll found that 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. This number includes 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters. Again, I ask that you listen to the voters and DO NOT redistrict maps before the next census.
10/20/25 8:32 AM	Mrs. Paige Greene		I oppose the newly proposed redistricting map. You are taking the people,Äôs vote away from them and it is wrong
10/20/25 8:32 AM	Ms. Diane Nilan		Why, with all the other business that the NC General Assembly has before it, does redistricting become a priority? My belief--it's part of the Republicans' determination to solidify their grip, and expand it, by cheating their way to victory. Manipulating the electoral maps to discriminate against voters based on political party is cheating. So much for the former conservative values of transparency, integrity, and competition. Our maps have already been over-gerrymandered. I absolutely oppose this move for redistricting. Get back to work and figure out how to better serve the majority of people in NC.
10/20/25 8:32 AM	Jamie Tuohy		I strongly oppose the new redistricting plan. I oppose gerrymandering. You are manipulating the vote of the people for your own benefit.
10/20/25 8:33 AM	Maria Bernhard		Opposed to any redistricting unless fairly from an independent, non-political committee for the entire state.
10/20/25 8:33 AM	Pam Cochran		Don't redraw the lines again!! Stop cheating!
10/20/25 8:34 AM	No to gerrymandering! Chris Tollison		I think that this is the duty to our democratic way of holding elections that these lines not be redrawn to what is not only a clear act of favoritism twards the republican party, but is also a clear tactic to try and control the north carolina government by making it unfair. You all are elected officials chosen to represent US, the people of not only this state but the country as a whole. While this authoritarian regime is in power all I see are elected officials failing to stand up to tyranny and failing to stand up for the people's rights that you have been chosen to not only uphold but to fight for. This isn't a red or blue or democrat or republican issue anymore. Its a people issue and as such, you elected officials need to uphold your oaths to the constitution and the people you represent.
10/20/25 8:34 AM	Mr. Bruce Simel	A Voter Who Wants Their Voice to Matter	I,Äôve lived and worked in Eastern North Carolina for more than 30 years. This region is far too diverse for anyone to honestly claim the new maps are about ‚Äúbetter representation.‚Äù Onslow County is military, Carteret and Dare rely on tourism and coastal management, Pitt revolves around education, healthcare, growing businesses and has a large Black population (as do Lenoir and Wayne.) Craven is generally older, and most of our rural counties rely on farming and struggle somewhat economically. These areas have completely different priorities, and no amount of redrawing can make them one community with shared concerns. Frankly, the old maps made about as much sense as these new ones. Which leads me to conclude that what,Äôs happening now isn,Äôt about fairness or balance ‚Äî it,Äôs about power. Redistricting has become camouflage for political manipulation, and people can see through it. Voters here care about jobs, schools, healthcare, and safe communities ‚Äî not political games. Every time the lines get redrawn to benefit one party, public trust in government erodes even more. That,Äôs not healthy for democracy, and it,Äôs not what North Carolinians deserve. Please stop treating maps like chessboards and us as pawns. We are not pawns. Protect our voice, not your seat. If you do the right thing, you will always know that you stood up for Democracy and represented the people, and not a specific person or party. That should matter to you.

10/20/25 8:34 AM	This is wrong Nathan Griffiths		Mr. Berger, I am writing to express my utter disappointment in your representation of the people of North Carolina with your proposed redistricting of our state. Simply put, I ask that you remember that you work for North Carolina, not Donald Trump. Commoncause.org reports that a majority of surveyed NC voters disapprove of the proposed redistricting that you have recently presented to the state legislative body. (https://www.commoncause.org/north-carolina/wp-content/uploads/2025/10/2025-NC-Redistricting-Poll.pdf) This is merely one survey. There are others with similar results. The Republican party is being held hostage by someone who is displaying increasing disregard for our country's Constitution and citizens in general. I ask that instead of trying to rig a map for our current President in his final term, please refocus your efforts on helping the people that you represent, and work with your colleagues and constituents to come up with ways to address inflation, insurance premiums, and the ever-increasing cost of living for the vast majority of people in our lovely state. Thank you for your time. Sincerely, Nathan Griffiths Born-and-Bred North Carolinian District 10
10/20/25 8:34 AM	Donna Dyer		Please vote no on this redistricting map. If you were actually beholden to the constitution, you,Äôd stop this gerrymandering. It,Äôs bad enough that we are already disproportionately represented by Republicans, and now you want to make it worse.
10/20/25 8:34 AM	Against Gerrymandering Jackie Bacon		We want N.C. to have fair elections. The current districts are already unrepresentative of the true choice of N.C. voters. Further gerrymandering will make fair elections impossible. It is cheating and a gross display of abuse of powers. This is an attack on democracy.
10/20/25 8:34 AM	Mrs Julie Hofmann		This is wrong. The people of NC have a right to be represented by someone of their choosing.
10/20/25 8:34 AM	Sheryl Owens	Retired	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice.
10/20/25 8:34 AM	Dr. Pam HAley	INdivisible	This behavior is NOT what democracy looks like. Stop the steal!!
10/20/25 8:35 AM	Renee Maslikhov		Gerrymandering should be illegal. It,Äôs taxation without representation! If a political party cannot win without cheating and being unlawful, it should not be a political party. North Carolina, amongst other southern states, is not a Red state. It is gerrymandered as one!
10/20/25 8:35 AM	Allison Worsley		I strongly oppose the proposed redistricting maps. Redrawing district lines with the clear intention of benefiting one political party undermines the foundational principle of fair representation. Our districts should reflect communities, not partisan interests. Manipulating boundaries to engineer electoral outcomes erodes public trust and damages the legitimacy of our democratic process. Free elections require that voters choose their representatives, not that representatives choose their voters. Every citizen deserves an equal voice, and any map that dilutes that voice for partisan gain is a direct violation of that democratic promise. I urge this body to reject gerrymandered maps. The integrity of our elections, and the trust of the public, depends on it.
10/20/25 8:35 AM	Ms Shirley Simpson	Retired Educator	True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 8:35 AM	Mr Stephen Fischer		Protect our democracy. You should win elections by the strength of your policies, not by disenfranchising minority voters.
10/20/25 8:35 AM	Kelli Servello		I am strongly opposed to your thoughts on redistricting our state. If you all are so great, then why would you possibly need to redraw the maps. NC is a purple state. Allow everyone to have their representation here.
10/20/25 8:35 AM	Mrs Esther Cartwright		Changing district lines for partisan advantage is overreach and unconstitutional.
10/20/25 8:35 AM	Jackie Jircitano		Thus plan will further disenfranchise the millions of Democrats in this state. NC Republicans are eroding the American republic and the very principles our nation was founded on,Äîand for what?

10/20/25 8:35 AM	KELLY ROBERTS		True conservative values demand transparency, integrity, and competition. I do not support redistricting. Thank you for your attention to this issue.
10/20/25 8:36 AM	Ms. Jo Smith		Republicans can't win on policy,so they cheat. You are supposed to represent US and over half this state overwhelmingly rejects gerrymandering. Your GOP is a hollow husk of overprivileged idiots who cheat to win the ultimate "participation trophy". DO NOT GERRYMANDER OUR STATE ANY MORE THAN YOU ALREADY HAVE! THIS IS TAXATION WITHOUT REPRESENTATION.
10/20/25 8:36 AM	Karen Johnson		We need an independent organization to look at re-distric Ting not pollution,Äôs looking for a power grab. Where is your morality?
10/20/25 8:36 AM	Hugh Law		I am opposed to the proposed redistricting plan. Please vote against these maps. Gerrymandering by either party is a shameful power grab and as elected officials you should vote against these maps. They do not serve the people of NC. They simply serve those in power. Please do the right thing and vote against these maps.
10/20/25 8:36 AM	No Partisan Gerrymanderin Elizabeth Lees		Please draw districts that represent the people of our state and avoid districts that distort the will and vote of NC voters. The people of NC deserve representatives that represent them, not party politics. Our local and federal delegations should reflect the total share of the vote each party got, anything else distorts and undermines our democracy.
10/20/25 8:36 AM	Gerrymandering A. H.		North Carolina is a purple state and should be reflected as such. Gerrymandering is not only a power grab for Republicans but also suppressing votes from POC.
10/20/25 8:36 AM	Richard Segal		The success of most legitimate organizations in the United States and internationally, are based on developing common visions and missions. This requires discussion across multiple aspects of an issue. What is happening in the United States is a suppression of the discussion that helps come up with the best solutions due to gerrymandering The gerrymandering of voting districts may doom the United States to being a lesser and lesser country.
10/20/25 8:36 AM	Dr. Tom Daniels		I urge you to end any partisan initiative for mid-decade redistricting now. This kind gerrymander jiggering is tantamount to election rigging, and it is a particularly disconcerting anomaly when it occurs mid-decade. We should not have this happening in our state .
10/20/25 8:36 AM	No Gerrymandering! Steven Schnurrer		Stop manipulating our rights to vote. The redistricting is motivated by selfish desires for power. Shame.
10/20/25 8:36 AM	Jessica Stoner		STOP redistricting to rig elections - cheating is wrong - do your jobs for the people of NC and stop benefiting from them.
10/20/25 8:36 AM	Laura Fenn		A path to fair election maps is through the NC Supreme Court
10/20/25 8:36 AM	Margaret Newell		I am so disappointed that NCGA is jumping on this bandwagon to gerrymander the districts to make sure Republicans win. It,Äôs wrong. This is not the time for this. Please stop.
10/20/25 8:37 AM	Kaylie Huver		I strongly oppose the planned redistricting for the state of North Carolina. These maps will do nothing more than make our government represent the people even less and are a shameful example of kowtowing to Donald Trump.
10/20/25 8:37 AM	Judith Meece		I am against another redrawing of the Congressional district maps. The district plan was approved before the 2024 election. It is a partisan gerrymander.
10/20/25 8:38 AM	Terri Fairley		Concerning the redrawing of districts currently underway in the legislature, while it is true "gerrymandering" is illegal, the exception would be for racial purposes. Since the district as currently drawn has an African American member of congress, this would appear to be for racial purposes.
10/20/25 8:38 AM	mrs Ann Lindberg		Gerrymandering violates core principles of fairness, accountability, and limited government.
10/20/25 8:39 AM	Laura Arena		Calling our house reps and senators back to vote on a gerrymandered Congressional map is beyond disgraceful, especially when a majority of voters from all parties want fair maps and the state has yet to pass a budget. Our democracy is at stake and we need house reps and senators who will follow through with their promise to protect our constitutional rights and honor fair maps that uphold our nation's democracy.
10/20/25 8:39 AM	Stop gerrymandering Jane Dornemann		This is wrong, no matter what political party does it. It systematically undoes true democracy. Please don't redraw the maps.
10/20/25 8:39 AM	Mr. Jewell Reynolds Smith	self-employed	I vigorously oppose the further gerrymandering of voting districts in our state! This is a state that has been widely and accurately recognized as a "purple" state, fairly evenly divided between Democrats and Republicans. Falsifying this reality is a dishonest and despicable action by a weak legislature desperate to retain power as it current policies and leadership collapse in popularity. Further gerrymandering by Republicans may win it a temporary victory, but the stench of this action will wreak throughout history in the reputations of all those who supported this cheating strategy.
10/20/25 8:39 AM	David Knierim		I oppose the current gerrymandered districts in North Carolina. Changing the maps to create one more safe Republican seat in the US House is a step too far. Don't do it.
10/20/25 8:39 AM	Robert Cotten		The idea of gerrymandering is anti democracy and unfair in every sense. The love of America demands that everyone has a voice and participates. I oppose this bill.

10/20/25 8:40 AM	Theresa Blackinton		I write to express my opposition to the further gerrymandering of our election maps. The maps are already not at all representative of the political will of this state,Äôs voters. Politicians should win people,Äôs votes with their platforms; they should not be handed a seat by maps that do not reflect what we as a state want. This purposeful destruction of democracy is shameful. It is beyond hypocritical that the party always shouting about the vote being stolen is the one silencing the voice of the people at the ballot box. We deserve better. Do the right thing and leave our maps alone ... or better yet, redraw the maps to reflect the true political representation of this state.
10/20/25 8:40 AM	Ms Felicia Mundy		If the GOP votes to go forward with their redistricting plan, how can this be looked at as anything other than a power grab. If you have to work so hard to protect Trump,Äôs agenda perhaps his agenda isn,Äôt so popular with North Carolina voters. What you are doing is not democratic nor is it in the best interests of the people of our state. Look at the numbers that marched for No Kings this past Saturday. Stop cowering to a president who wants to be a Dictator!
10/20/25 8:40 AM	Corinne Russell		Please do not take any steps to help continue Trump's destruction of our country.
10/20/25 8:40 AM	Dr. Rebeca Olmedo	Watts Street Baptist Durham, NC	North Carolinians have a constitutional right to fair representation. Stop dismantling democracy by gerrymandering North Carolina district maps.
10/20/25 8:40 AM	Phillip Stafford		This is BS. We don,Äôt have a real democracy in NC as long as these gerrymanders exist. Vote these bums out.
10/20/25 8:40 AM	David Allen		Destin Hall said that the president "earned a clear mandate from the voters of North Carolina and the rest of the country, and we intend to defend it by drawing an additional Republican Congressional seat." If the mandate is clear and representative of North Carolina voters, then why redistrict? Should the government not be responsible for continuing to "earn" mandate from the people? "[D]rawing an additional Republican Congressional seat" removes the people's choice. Ask yourselves, shouldn't congressional seats represent the voice of the people? Is this right? Is this just? If you pause or feel the need to justify, I urge you to reconsider your actions.
10/20/25 8:41 AM	Elaine Tricoli		NO. This is nothing but a power grab by a party that knows it cannot win elections fairly based on its ideas and policies. This is taxation without representation at its finest, the exact thing we broke away from England for. For once in your pathetic lives, do what,Äôs best for the people you swore in a bible to represent and stop this now.
10/20/25 8:41 AM	Kristi Benedict		Everyone involved understands that gerrymandering does not allow for fair elections. This is not right or moral.
10/20/25 8:41 AM	Margaret Stringer		The proposed redistricting does NOT serve the people of North Carolina, but rather the political agendas of those who know they could never get their way if the field was level. It,Äôs both cowardly and embarrassing to see our state officials sink so low as to publicly rig the game in such an absolutely cartoonish manner, seemingly with no fear of consequences.
10/20/25 8:41 AM	Carol Steckbeck		The fact that the NCGOP is prioritizing redrawing an already highly gerrymandered state electoral map over passing a state budget to fund schools, healthcare for Medicaid recipients, government services and the salaries of state workers shows just how out of touch they are with the citizens of this state. I strongly object to this highly unusual action that is being done solely because the President is worried about losing the U.S. House GOP majority in the 2026 midterms.
10/20/25 8:41 AM	Fabienne Sterckx		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voter,Äôs ability to hold their leaders accountable. You work for the PEOPLE. NC voting demographics is as follows Undecided: 38% Democrats:32% Republicans:30%. We need HONEST representation
10/20/25 8:41 AM	JoLynn Bryant		Why do Republicans always have to cheat? You're not representing all North Carolinians or democracy and you know that. This is not democracy and it will be remembered.
10/20/25 8:42 AM	Pamela Hathaway		The Republican majority should not force through yet an other redistricting plan. This plan has nothing to do with the census and is just to allow the Republicans to gain control of congress that they would not during the midterm election disenfranchising many North Carolina voters. This is not about equalization it is about taking powder and bowing to a would be king. It is time for our district maps to be drawn by a non partisan group.
10/20/25 8:42 AM	Helen Tack	Citizen and Voter	If No Kings across the country (including across NC) tells you one thing, it's that DEMOCRACY MATTERS to us! Democracy requires free and fair elections. Fair elections should result in an elected body that is representative of the citizens. Gerrymandering prevents that and skews the will of the people. I oppose the current gerrymanders districts and definitely oppose further gerrymandering to appease the tyrant in the White House. Know that we do care and we are watching.

10/20/25 8:42 AM	Ms Brianna Schiavoni	Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,ÄÎvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better!
10/20/25 8:43 AM	Tyler Barker	I struggle to understand how the party that claims to honor the Constitution, law and order, and even family values, somehow believes that they should rig the deck so far in their favor to prevent an election process that actually reflects the diversity of people and ideas across this state. Founding fathers must be rolling over in their grave watching craven men destroy NC and USA rather than empower a government of the people, by the people, for the people.
10/20/25 8:43 AM	Dr Theresa Sevilis	Redistricting with the sole intent of favoring one party without a census change to support it is not only unethical but in-American. This SHOULD not happen. All Americans are equals, please do not vote to silence American voices.
10/20/25 8:43 AM	Ms Amy Kidd	With all of the challenges that hardworking North Carolinians face every day, the fact that you are choosing to focus your time and efforts on a power grab is shameful. Remember, you represent all of your constituents, not just those who voted for you. Please, do the right thing and ensure that voters' voices are heard and that we get to choose our politicians -- not the other way around.
10/20/25 8:43 AM	Erin Stonehawk-Hearn	We should stand firm against this redistricting. Drawing district maps serve self-interest and undermines the democratic process. Fair, nonpartisan maps are essential to creating a healthy democracy. Taking these steps moves us away from accountability.
10/20/25 8:43 AM	Ms Cheryl Johnson	76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Will you silence the majority of the people of North Carolina or will their vote be their voice? I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice.
10/20/25 8:44 AM	Sophie Loeb	This is a deeply unfair and racist proposed map. Please do better, North Carolina and actually represent the will of the people and accurately represent the districts you serve. We have had enough with the blatant power grabs!
10/20/25 8:44 AM	LaToya Winslow	Mid-decade redistricting, which is veryy unusual, will splinter long-standing communities, weaken rural service coordination, and invite costly lawsuits, diverting taxpayer dollars from roads and schools. Safer seats mean fewer competitive elections and less accountability to constituents, including veterans, farmers, and small-business owners. Keeping stable, compact districts protects local ties, market certainty, and public trust outcomes NC families depend on. This redistricting will drown out Black voices, further sideline women who already juggle caring roles and unstable labor, and squeeze the poor into districts where their needs, access to health care, public transit, and job training, won,Äôt be represented. But, these outcomes and impacts are what our elected public servants want and I am ashamed of that fact. This will continue to erode public trust, which is already waning due to the ineptitude, greed, and selfishness of our elected public servants. I, as a resident of North Carolina, want to clearly state my descent of what my elected officials are doing in my name. I do not agree and they are making the wrong choice.
10/20/25 8:44 AM	Jeff Harrison	The number of Democrats, Republicans and independents in North Carolina are essentially the same and those are numbers that should be represented in our congressional delegation. Gerrymandering is unAmerican and, one way or the other, the people will be heard. Be fair, be honest and be diligent.
10/20/25 8:44 AM	Anna Wirth	I am opposed to the mid-decade congressional redistricting that will skew fair representation of NC voters of Congressional District One. NC voters are 38% unaffiliated, 32% democratic, and 30% republican, and yet my state is predominantly represented by extremely conservative republicans who don,Äôt seem to be supporting the needs of their constituents. I live in a congressional district that is underserved and poorly led and our school system is lacking critical funds, our housing stock is deteriorating and will not be able to meet resiliency goals for the future, quality healthcare is hard to find and impossible to afford, and food pantry,Äôs are running empty. My representatives are too interested in passing gun laws and easing public funding and regulations for large corporate firms that are currently, as we speak, polluting our drinking water. My representatives do NOT represent my community. They represent the goals of the wealthy. Futher erosion of fair and accountable representation is NOT the way our state government should work to create a truly collaborative system of governing. It will adversely affect local control of our shared resources by dividing established communities and concentrating power in the hands of political insiders and the wealthy rather than in the people who have created and cared for our cities and towns.
10/20/25 8:44 AM	Stefanie Finegan	I am against any re-drawing of districts before the 2026 election. This is a very intentional concentration of power for one party while disenfranchising hundreds of thousands of NC voters.

10/20/25 8:45 AM	Ms Perilloux David	Anyone who cares about the Constitution and fair voting - and attended No Kings Rallies - millions of folks.	North Carolina already has a reputation of having 'surgical precision' Gerrymandering. We should fix that - not make it worse. If you do more of the same, you are showing yourselves to be more greedy than caring about democracy. It's that simple. Don't. Make voting easier and more fair, not restricted and unbalanced. Please, it is what NC voters want. Rise to the occasion! It appears each town and city in NC had a No Kings rally Saturday, please keep that in mind. We are watching.
10/20/25 8:45 AM	Nicholas Roth		A mid-decade redistricting for political gain only serves to deepen divisions in our state and in our country. Our leaders should aspire to bring people together instead of seeking cheap victories that aim to block out the voices of their fellow Americans.
10/20/25 8:45 AM	Gerrymandering Shacana Mertson		Hello North Carolina Representatives, What exactly are y'all doing trying sneak around and redistrict our congressional maps? You should be ashamed of yourselves. Your constitutes voted you in to be a voice for them, you work for US, not for the White House. If you're voting for this, you might just be voting yourself out of a job. Reconsider and think of YOUR people. Your neighbors, the people you see every day, the future of our state when you are no longer here. You know it's wrong because you're sneaking around to do it. Do better. Be better. North Carolinians deserve it. Thank you for your time.
10/20/25 8:45 AM	mr sam rankin		every republican that votes to take away our vote by this shameful move will go down in history as a fascist who opposed democratic ideals to appease a wanna be dictator named donald trump. their name, and that of their families, will forever be shamed.
10/20/25 8:45 AM	NO on redistricting Sara Emery		I am deeply opposed to re-drawing congressional maps in 2025.
10/20/25 8:45 AM	Jordan Lassiter		I am absolutely against the redrawing of our congressional map.
10/20/25 8:45 AM	Jonathan Smith		I am 100% opposed to this redistricting plan. It is raw gerrymandering and anti-democratic. Please vote against redistricting.
10/20/25 8:45 AM	Mrs Frances Hayes	Not applicable	Please do not vote on changes to our district amounting to gerrymandering which will further deteriorate voices and choices of all North Carolinians ,Ä¶ vote against any policies pushed by Berger .
10/20/25 8:45 AM	Katherine Heller		Americans are losing trust in the fairness of their elections. Partisan gerrymandering, in fact any sort of gerrymandering, only raises our suspicions. I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness and accountability. Grouping voters to maximize one party's advantage and keep that party in power is a travesty. It disrupts local control, divides communities, and concentrates power in the hands of political insiders. It shows total disregard for the Constitution and the democratic principle that government be accountable to the people it serves. Ending gerrymandering of any kind is one of the few ideas that unites people of all parties. There is strong, bipartisan agreement on this point among voters, with polls showing 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Sadly, I have no doubt that you will continue with this disgrace because you can. I hope that at some time the courts or the electorate will hold you accountable.
10/20/25 8:45 AM	Mrs. Mary-Ann Palmieri		It is time to stop this policy of gerrymandering maps so that one party can send more representatives to congress than it deserves. It is a fact that North Carolina is a state with an almost equal representation of Democrats and Republicans. Our representatives to congress should represent this. The state may have voted for a Republican for president but it also voted for a Democrat for governor and lieutenant governor. This should make it clear how purple we are. Our representation in congress should represent that.
10/20/25 8:46 AM	Gerrymandering is wrong Anita McCauley		Partisan gerrymandering is immoral, unethical, and very anti-democratic. NC is a purple states and the maps should reflect that. It is shameful and spineless to submit to the bullying from the White House. Voting and all participation in democracy becomes meaningless when elected representatives rig elections and don,Äôt respect all the people they are supposed to represent.
10/20/25 8:46 AM	Jeanne Smith		I am dismayed that the NCGA is working on redistricting again. This is not the way that a democracy should work. In addition, this is being done at a time when legislators have not passed a state budget and not address critical issues such as public school funding and health benefits. Redistricting needs to be stopped.
10/20/25 8:46 AM	Frank Campion		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. A better, more balanced and impartial way to do this would be an important step. We live in a time in which winning elections has overtaken the focus on the greater good. This process is being weaponized by Trump, Abbott, Newsome, and now, in NC primarily by Phil Berger and his ilk. Redirecting was supposed to be a simple, non-partisan math problem. Let,Äôs get back to it instead of trying to tilt the playing field.
10/20/25 8:46 AM	Ms. Theresa Miller	self	Please stop this game. I am getting very tired of the redistricting game. We are suposed to have FREE and FAIR ELECTIONS. If you must continue this game, know that the voters can still vote for an opponet and stop this game of trying to maintain power. This is a power game for complete control . Remeber what goes up will come down eventually.

10/20/25 8:46 AM	Debra Burdick	Retired educator	Please be aware before making this move that 76% of North Carolina voters say gerrymandering should be illegal as it discriminates against voters based on their political party. This opinion is bipartisan, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Gerrymandering is wrong. It attempts to ignore the will of the people and exposes the self-serving attitude of those currently in office. Moreover, given the public outcry against the practice, it will likely only backfire against those who support it.
10/20/25 8:46 AM	Pls represent the people Jenny Heaton		Remember your oath. Do not sacrifice your ethics. Represent the people of the United States of America with pride in your hearts. Do what you believe your grandchildren will be proud of.
10/20/25 8:46 AM	Cora Woods		Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Âô ability to hold our leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Âôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Âîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! Redistricting now is unnecessary, rushed, and costly. The public is not being given enough time to consider the proposal and discuss it with their representatives. Legislators should focus on passing a state budget instead of rushing through an unfair redistricting plan that will likely result in costly litigation. North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps. The proposed maps would dilute the political power of Black North Carolinians, ‚Äúcracking‚Äù the northeastern Black Belt into two districts. This is in direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color.
10/20/25 8:46 AM	Erin Ratliff		Stop trying to manipulate the election results. Disgraceful behavior! Respect what the American people and the people of North Carolina actually want! This is a democracy. Honor the legacy that the Constitution laid forth. We want equality and integrity in our elections, and in our candidates.
10/20/25 8:47 AM	Shanon Turner		Shame on you. Picking your voters!
10/20/25 8:48 AM	Amy Townsend		Every North Carolinian deserves to have their vote and their voice represented equally. Instead Republicans are more interested in grabbing power for themselves and ramming through a Trump agenda that is deeply unpopular with the American public and only meant to enrich himself and his billionaire buddies. Shame on the North Carolina GOP who I know will do whatever they want despite majority disapproval for this partisan redistricting. This redrawn map is a sham and a direct affront to our democratic values.
10/20/25 8:48 AM	Mr. Alan Grovesteen		Please vote no on changing the congressional map. By changing the map before midterms to give one party an advantage over another, you are continuing to erode the confidence of the American people in our political system and you are undermining our very democracy. Please don't sacrifice democracy for your own short-term gain.
10/20/25 8:48 AM	Sarah Bradley		Redistricting to gain MORE Rep seats in our 50/50 state is as morally bankrupt and just plain WRONG as it can be. This is a blatant power grab by the NCGOP because they know their policies are hugely unpopular, thus they cannot win a majority without gaming the system. This is so wrong and unnecessary, and while I can believe that Berger et al would stoop THIS LOW, it is still hugely disappointing and an indicative of the level of contempt they hold for their constituents. Go back to fair maps!

10/20/25 8:48 AM	annie creasey	Hello! I am a social worker who lives in Durham. I vote every election and I ask you to refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 8:49 AM	Laura D,ÄôAngelo	As a mother therapist and community member, I generally oppose the gerrymandering and redistricting that is unfairly representing the constituents, public opinions, and ability to vote for who they want to. I,Äôm asking my representatives to have the courage to oppose this and all manipulative actions intended to create an oligarchy in our country
10/20/25 8:49 AM	Valerie Sayre	NC voters deserve to have our voices heard and gerrymandering assures that we aren't. It's time for a fair map that reflects the makeup of voters. Don't draw maps that silence non-Republican voices.
10/20/25 8:49 AM	Cornelia Barr	Raleigh legislators are opposing the people's voice with this redistricting push, ignoring its impact on the poor across North Carolina. Where is your humanity?
10/20/25 8:49 AM	Suzzette Jarman	76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 8:49 AM	Nichole Conigliaro	I am reaching out to let you know that the redistricting of North Carolina mid decade is wrong and would further create a state that taxes it's people with out fair representation. Also this feels like cheating and rigging the system of balance and fairness, which the federal and state constitutions should protect. If you have to change the system to win then maybe the problem is not where the lines are drawn but with the policies of the party doing the redistricting. The power should be with the people and not a select few. The people are speaking please listen.
10/20/25 8:50 AM	Rev Terry Moore-Painter	I strongly oppose the proposed redirecting for Congressional districts. There is no need for this action. It does nothing to improve voting access and representation. In fact, the proposed plan robs many of our citizens from true representation in Congress. It is a blatant attempt to construe districts to make votes other than Republican votes ineffective. I am ashamed that the state of North Carolina would willingly draw districts simply to dilute the impact of voters who vote for candidates other than Republican candidates. It is nothing but a continuing power grab.
10/20/25 8:50 AM	Mike D,ÄôAngelo	I oppose the redistricting for the following reasons- It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all. Our democracy depends on fair representation ,Äî which is not possible when legislators manipulate district lines for partisan advantage.
10/20/25 8:50 AM	Anne Lazarides	Redistricting at this time would be grossly inappropriate and would serve as an advertisement of the Republican party's willingness to support the federal executive's drive to undermine federal support for science and to throw large numbers of moderate and low income people off of their insurance. This effort needs to be aborted immediately.

10/20/25 8:50 AM	Jason Cone		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 8:50 AM	John Shannon		There should not be any redistricting done now.
10/20/25 8:50 AM	mr dan sundberg		We deserve the voting districts to be fair and honest. Nothing more, nothing less.
10/20/25 8:50 AM	F O		I'm a NC resident and voter who wants fair maps, something that should be a given in a representative democracy. GOP leaders said that they are redrawing maps, because Trump has a mandate in our state. Winning by three percent is hardly a mandate. If GOP leaders really believe in their policies and so-called mandate, they should prove it by ending their years long campaign of cheating to win elections. They should stand by their policies rather than rig elections in their favor.
10/20/25 8:50 AM	Mrs/ Jennifer Farrell		I am writing as a deeply concerned constituent regarding today‚Äôs meeting about redistricting the congressional map. I was disappointed to see the direction the process appears to be taking. The citizens of North Carolina deserve fair and competitive districts that ensure every vote counts equally‚Äîregardless of political affiliation. Redistricting should be about preserving the integrity of our democracy, not favoring one group over another. I urge you to prioritize transparency, fairness, and the best interests of the people you represent. Please stand up for a process that puts voters before politics and restores confidence in our electoral system. Thank you for your attention to this critical issue. I hope to see you take a public stand for fair representation in our state. Sincerely, Jen [Wilmington], North Carolina
10/20/25 8:51 AM	Emily Stokes		We don‚Äôt need redistricting so that the republicans can get more power. Over 80% of North Carolinians do not want gerrymandering. It‚Äôs unfair and undermines the right to vote. We need a budget passed instead and for Medicaid.
10/20/25 8:51 AM	Thomas Carson		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. Please choose to care for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.
10/20/25 8:52 AM	Mr. Larry Reed	Retired	As a Vietnam era US Army veteran, I am appalled by the North Carolina General Assembly moving to worsen the gerrymandering by the Republican party. This is a traitorous effort to further undercut our democracy. It allows the one fascist party, the misnomered Republicans, in smoke filled back rooms to exert power to attack the voices of the voters. Then they hide from the voters and rely only on the wealthy money contributers to destroy our health, our schools, our women's rights, and our lives. Shame on the once patriotic Republican party that is now a fascist power monopoly.
10/20/25 8:52 AM	Wendi Price		Enough nonsense! The GOP is openly admitted to go against rules and standards as POTUS requested to unethically take seats in our state house despite what citizens want. Legislators need to be representative of the people. This is still a democracy.
10/20/25 8:52 AM	Dorothy Coyle		Please remember, as a country, we stood up against taxation without representation. Your gerrymandering leaves many unrepresented. Do those without representation get to stop paying state and local taxes? Do Republicans believe they cannot win under their own merit, but instead have to cheat and ‚Äúrig‚Äù the playing board? In your own words, ‚ÄúStop the Steal.‚Äù
10/20/25 8:52 AM	Ms Carol Braswell		Elected officials are supposed to represent the people, not rig elections to put themselves in office. The Republican playbook is ¬´ if you can‚Äôt win by the rules, change the rules¬ª. You did that with the NC SC reversing the decision on gerrymandering and now you are going even further by trying to redraw the districts mid-term. All on Trump‚Äôs orders. There will come a day when you are held accountable, regardless of all of the actions you try to implement to avoid accountability to the people of NC. Respect the will of the people of NC, who want a representative electorate, not a rigged one.

10/20/25 8:52 AM	Waste of time and money Chelsea Berg	Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. This proposal will dilute the political power of Black North Carolinians. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. This proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year,Äôs election.
10/20/25 8:53 AM	Liz Matthews	I,Äôm not going to bother trying to talk you out of doing this. You don,Äôt listen to your constituents because you don,Äôt care about us. You only care about power and yourselves. So instead, I,Äôll give you a warning. Berger, you and the Republicans call yourselves Christians and yet you lie, cheat, steal and covet every waking second of the day. Trump is a mortal man, one day he will be gone. You will try to distance yourself from what you have done, claim you were just following orders. We the people of NC will not let you forget your shame and corruption. History doesn,Äôt take too kindly to cowards and criminals. Neither does the Lord. One day you will answer to Him and no amount of money or power will fix your soul.
10/20/25 8:53 AM	Ms. Susan McCormick	I,Äôm very concerned about this redistricting as it takes away so many voices that are needed in our state now. We have many issues that we are facing in the present and into the future, and the more diversitfied the voices, the better we will be able to handle them and to make our state into the best possible version of who we are. Denying voices is not the way to go.
10/20/25 8:53 AM	Dr. Katherine Whatley	Please stop this attempt to re-redistrict North Carolina. It is not in the best interests of the people of the state and is a direct response to the unlawful pressure from the President to influence upcoming elections. Focus your time and attention on disaster recovery and keeping your constituents safe and healthy.
10/20/25 8:53 AM	Karen Jones	It is completely unconscionable that the republicans would want to redistrict N.C. in this off-census year. The only reason they want to do this is to bend the knee to president trump because they are afraid of losing power. NC has already been badly gerrymandered and the representation in the US House already doesn,Äôt reflect the political population of our state, which is quite ,Äúpurple,Äù and at least a 50/50 split with republicans and democrats. Further gerrymandering would take away the voices and votes of thousands of North Carolinians and would yield a detrimental outcome. Trump,Äôs policies are wildly unpopular on a national level, but also locally here in North Carolina, and we should not change our political maps on the whim of a wholly unpopular president because he fears losing power. I am completely against redistricting at this point in time, on an off-census year.
10/20/25 8:53 AM	Derek Rutter	Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Äô ability to hold our leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! Redistricting now is unnecessary, rushed, and costly. The public is not being given enough time to consider the proposal and discuss it with their representatives. Legislators should focus on passing a state budget instead of rushing through an unfair redistricting plan that will likely result in costly litigation. North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps. The proposed maps would dilute the political power of Black North Carolinians, ,Äúcracking,Äù the northeastern Black Belt into two districts. This is in direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color.

10/20/25 8:53 AM	Ms. Rebecca Bramlett		-Redistricting to benefit one party over another (aka gerrymandering) is wrong, immoral, unfair to the voters of NC, and a gross abuse of power. -Redistricting outside of the regularly scheduled, legal timeframes for redistricting is highly suspicious and leads citizens to distrust our elected officials. -Redistricting, if and when it must be done, should be determined by an independent, nonpartisan committee ,Äî not by partisan groups of state representatives and senators behind closed doors with no transparency. -Redistricting should result in a balance of power in the state that is representative of the state's voters as a whole, and result in every citizen's vote holding equal power and representation.
10/20/25 8:53 AM	Mr Conley Evans		This redistricting is frustrating as it is only to appease Trump. Our state already has a republican majority. What about our budget? What about our farmers? Why are we wasting cycles on this redistricting. It does nothing to help North Carolinians. Please reconsider and get back to what you were all elected for, to support and take care of us. This is not what I voted for.
10/20/25 8:53 AM	Ms Bonnie Oulman		Please don,Äôt redraw the maps again, it already feels like my vote means almost nothing. Don,Äôt we live in a democracy and our vote counts?
10/20/25 8:53 AM	ms Marilyn Pearce		It is unconscionable that Republicans are further gerrymandering a state that is already very unbalanced with far more Republican seats than they should be entitled to in attempts to dilute democratic votes into oblivion. NC remains nearly 50/50 in individual political preferences and this is just plain vote rigging by Republicans. Disgusted.
10/20/25 8:53 AM	Zachary Bennett		Do not redefine our maps yet again! This is a naked power grab to put it charitably and being more honest about it is a racist measure to keep people of color from having a voice. How about make some real positive change in this state instead of merely jockeying for more power again and again.
10/20/25 8:53 AM	Mrs Wanda Elkins	Retired	Please, please fight and do your job, the one you swore to uphold. Our democracy is dependent on how you handle this war to end democracy, as we know it was created to be upheld. Our grandchildren,Äôs future depends on you! ??
10/20/25 8:53 AM	Janet Morgan		Redistricting every time your opponent gets into power is awful and can be done so often that a person doesn,Äôt know where they are voting or who they are voting for. Just remember if you do this now, it could happen to you in the near future.
10/20/25 8:53 AM	Judith Davagnino		Gerrymandering violates core principles of fairness and accountability. I strongly oppose gerrymandering or the manipulation of electoral maps. Do everything you can to stop this deeply unfair practice as it undermines the constitutional promise of equal representation.
10/20/25 8:54 AM	Ms Ennis Baker		NC deserves fair maps. Gerrymandering manipulates and disenfranchises voters. This redistricting is bad for NC.
10/20/25 8:54 AM	Mrs Hope Shand	citizen of NC	I urge you to refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable.
10/20/25 8:54 AM	Barbara Fifield Brandt	Retired	I vehemently oppose the egregious map redistricting in the General Assembly. North Carolina is an embarrassment to Democracy. DO SOMETHING TO ASSURE FAIR ELECTIONS.
10/20/25 8:54 AM	Rossie Izlar	N/A	Please don't further gerrymander our already gerrymandered state. This is why the public has no faith in government anymore.
10/20/25 8:54 AM	Sue Taube		No redistricting- listen to uour constituents - we elect you and you work for us, and only us. Free and fair elections matter
10/20/25 8:54 AM	Nicole Nolen		I am writing today to express my strong opposition to the recently proposed congressional redistricting map. I urge a no vote on any plan that is aimed at manipulating district lines for partisan gain. Instead of focusing on drawing maps that create an unfair political advantage, the legislature should prioritize issues that directly affect North Carolinians, such as passing a state budget. Voters should be choosing their representatives, not the other way around. I am asking you to stand up for a fair and transparent redistricting process that reflects the will of the people, not the agenda of a political party. I will be following this issue closely and expect you to represent North Carolinians accurately by opposing this proposed map. Thank you for listening to my concerns.

10/20/25 8:54 AM	Allison Vick		The proposed redistricting map dilutes American Indian voting influence by splitting the Lumbee State Designated Tribal Statistical Area (SDTSA) into three separate districts (proposed districts 7, 8, and 9), and it also splits the Coharie SDTSA into three separate districts (proposed districts 3, 7, and 13). In doing so, the map raises questions about the extent to which legislators considered SDTSAs (or tribal populations more generally) when drawing the proposed districts. Please respond to this comment with an explanation of whether and how SDTSAs or other datasets about tribal territories, tribal service areas, or tribal populations were used or otherwise referenced in the redistricting process. In your response, please include details about (1) the year and source of tribally-relevant datasets used in redistricting, (2) when during the redistricting process these datasets were considered, and (3) consultations with tribal leaders related to use of these datasets. If no such datasets were used, please explain why. I am an enrolled citizen of the Lumbee Tribe of North Carolina.
10/20/25 8:54 AM	Larry Diener	Self	I am begging you to refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. AND it leads to the kind of gridlock we are now witnessing in Washington DC. The vast majority of Americans want our elected officials to negotiate and debate the merits of proposed legislation. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps.
10/20/25 8:54 AM	Leslie Carpenter		When the majority party in power resorts to cheating to stay in power, it is very clear that the policies of the party are not popular with their constituents. When the majority party in power engages in gerrymandering districts on an annual or bi-annual basis, there is no other conclusion for NC citizens to make except that the party in power is absolutely corrupt. The NO KINGS protests held in more than 60 towns and cities across North Carolina on Saturday brought out a huge coalition of your constituents who are unhappy with the direction our country is headed. Your Republican efforts to characterize our peaceful protests as "hate America" rallies were cheap and unfounded attacks on the residents of North Carolina. Tens of thousands of NC citizens gathered to exercise our right to protest and petition our government leaders to alter their current path that seems dedicated to destroying the very fabric of the community of our state. You were elected to serve North Carolina and its residents. Fealty to a king does not serve our state. You must vote against another round of gerrymandering and preserve the voting rights of ALL NC citizens.
10/20/25 8:55 AM	Constituent Darlene Aldrich	Self	I urge our NC representatives of all titles to say NO! to gerrymandering our state map in order to elect one more GOP person! Rigging an election is not American!!!
10/20/25 8:55 AM	Tara Jeffries		Gerrymandering is unethical and unacceptable. As a resident, I am asking you to refuse this terrible practice.
10/20/25 8:55 AM	Opposition to Proposed Co Grace Scarbrough		I am writing to express my strong opposition to the proposed congressional map currently under consideration by the North Carolina General Assembly (NCGA). I stand with the League of Women Voters NC and others who believe this mid-cycle redistricting is an unwarranted abuse of legislative power. My opposition is based on the following concerns: Undermining Voter Confidence: Redrawing district lines between census years serves no purpose other than to secure partisan advantage. This maneuver undermines the public's confidence in the fairness and stability of our democratic processes. Partisan Gerrymandering: The proposed map appears to be a clear attempt at partisan gerrymandering. These changes will silence communities, dilute the voices of many voters, and lead to an unrepresentative government that does not accurately reflect the political makeup of North Carolina. Instability of Democracy: Mid-cycle changes inject unnecessary instability into our political system. Legislators should focus on governance, not on manipulating electoral boundaries for political gain. I urge the members of the NCGA to reject the proposed congressional map and to prioritize the creation of truly Fair Maps that serve the voters of North Carolina, not just one political party.
10/20/25 8:56 AM	Gerrymandering Kenneth Plott		Stop gerrymandering for political gains. Districts should be equal based on locations not based on what gives a single party an advantage to keep power. Stop corruption
10/20/25 8:56 AM	Pam Lesher		Strongly against redistributing. Listen to the people you are elected to represent
10/20/25 8:57 AM	Karen Forster		We should redistrict only after each census and in a way that does not give an unfair advantage to one political party over another. My own congressional district was horribly gerrymandered several years ago thereby diluting our power and causing the loss of an effective congresswoman in the process.

10/20/25 8:57 AM	Andy Chowdhury		North Carolinians of all parties deserve fair maps, not ones drawn to entrench power. Partisan gerrymandering weakens voter influence, reduces accountability, and lets politicians pick their voters instead of voters choosing their representatives. Polling shows broad bipartisan opposition in the state: a September 2025 poll commissioned by Common Cause North Carolina (Opinion Diagnostics) found 84% of NC voters ,Äî including 78% of Republicans and 87% of Democrats ,Äî say partisan gerrymandering is never acceptable. (Common Cause NC / Opinion Diagnostics poll, Sept. 2025) https://www.commoncause.org/north-carolina/wp-content/uploads/2025/10/2025-NC-Redistricting-Poll.pdf
10/20/25 8:57 AM	Penny Freeman		I vehemently oppose NC redistricting AGAIN to manipulate the voting district maps. This was already done in 2023 to ensure Republican favored districts. Redistricting should only be done every 10 years based on Census data. GERRYMANDERING MUST STOP,Äî-For Both Political Parties! And it,Äôs unconscionable that the Democratic Representatives were not fully informed about assembly times for your secretive plans today. How can your CONSCIENCE , MORALS & CHARACTER let you follow the mandates of a FEDERAl Administration that is CLEARLY intent on creating an AUTHORITARIAN GOVERNMENT?? Is that what you want for your children/grandchildren? Is that what you want for YOUR LEGACY? That YOU Supported The RISE of a DICTATOR ?!? North Carolina Residents Support The Constitution. YOU took an Oath To Represent NC & To Uphold The Constitution. There is a Rule of Law. The President does not have the power to Rule the Land! Stand Up! BE A LEADER! Speak Out! Protect America! Protect The Constitution! God Bless the USA!
10/20/25 8:57 AM	Lauren Deigh		I oppose this bill to redistrict again. NC has redistricted twice since 2020. The effect of this bill is to dilute the voting power of Black North Carolinians. The legislature should focus on passing a state budget instead of this effort to manipulate elections by redistricting.
10/20/25 8:57 AM	Lisa Lackmann	None	Please reconsider this redistricting plan. Our democracy is a precious thing that must be protected. This redistricting is a move that is in opposition of democracy.
10/20/25 8:57 AM	Lindsey Hart		I,Äôm 100% against gerrymandering North Carolina for republican gain. It,Äôs unconstitutional. Please allow fair elections in the upcoming midterms!
10/20/25 8:57 AM	Marilyn Ghezzi		I oppose this redistricting. The gerrymandering in N.C. is out of control!!
10/20/25 8:58 AM	Ms Rebecca Gibson		Gerrymandering districts to restrict black voting power is pathetic. As a middle aged, middle class, white lady voter, I am here to tell you that we all see it for what it is: old fashioned racist crap. Anyone in office who does not act with the most sincere respect for voters ,Äî all voters ,Äî is frankly un-American. Gerrymandering is just a small step from election tampering, and that is treasonous.
10/20/25 8:58 AM	Mrs. Kelly Deese	Constituent	As a native North Carolinian and a US citizen, I am deeply concerned about efforts to gerrymander votes in our state. I am a veteran 32 year teacher, and as someone who taught social studies and voting units, I believe strongly in the power of the vote. By skewing votes by district, our legislature limits the voice of people in our state, and this is against the principles of our founding fathers and our democracy. It runs contrary to everything I believe in and the laws I was charged with teaching our middle schoolers about when I taught social studies.
10/20/25 8:58 AM	Joan Toth		I disagree with the re-districting! Taking away the voices of the people will only exclude the voices of the people instead of finding ways to bring the people together to hear their voices.. It,Äôs a terrible idea for rural residents !

10/20/25 8:58 AM	Rev. Ann Harrington		‚Ä¢I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. ‚Ä¢Gerrymandering violates core principles of fairness, accountability, and limited government. ‚Ä¢Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. ‚Ä¢While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. ‚Ä¢Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. ‚Ä¢True conservative values demand transparency, integrity, and competition‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. ‚Ä¢Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. ‚Ä¢76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 8:58 AM	Mrs Joan Shiley		Gerrymandering the NC will take away more voting rights of the people. Before Texas changed their maps NC was already the most gerrymandered state in the country, Don‚Äôt change the maps again,
10/20/25 8:59 AM	Ted Pappas	Individual for the American Way	No redistricting now.
10/20/25 8:59 AM	Alea Rogowski		Instead of focusing on protecting the President‚Äôs agenda, I would like to see the legislature focus on protecting the votes and voices of the people who live in our state. Redrawing the maps because you want a certain political outcome is anti democratic. Let the people decide who they want to fill those seats.
10/20/25 8:59 AM	Rev. Marjorie MARSH		I urge you not to redistrict any Congressional districts in mid-decade. Our state has been gerrymandered enough! It's not fair to voters to be assigned to districts to favor the party in power. Please stop this practice now.
10/20/25 8:59 AM	Redistricting Rosemary Champion		NO TO REDISTRICTING CHANGING THE RULES, TO WIN?? THAT AIN'T RIGHT ??
10/20/25 8:59 AM	Mrs Virginia Preti Child		As a taxpayer and resident of North Carolina I am disgusted by any redistricting any changes! I moved back to NC, and to see our state become a state that I would never have chosen to come back to is disheartening at best We are (still) a Democracy and changing districts to help any party win is abhorrent I say any party because I am Unaffiliated for a reason I was going to vote for a Republican here in Leland but seeing what is going on at the state level has me questioning that decision Come on people, please represent ALL of your constituents, not just those who vote your way! North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around. Thank you Respectfully, Ginger
10/20/25 8:59 AM	Stacie Smith		I am writing to express my disgust with our legislature. You won‚Äôt get a budget together for the state but are willing to cheat for Trump. The GOP can‚Äôt win on the merits of their policies, so they are going to cheat? Neither party should be allowed to rig elections in this way. This is unethical and unworthy of North Carolina.
10/20/25 8:59 AM	Maria Frane		We are on to the republican efforts to rig elections in their favor. I am ashamed of the party I used to support
10/20/25 8:59 AM	Ms. Tiffany Foster		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/20/25 8:59 AM	Kelly Lane		Taxation without representation was the argument for declaring our independence as a country. Please do not suppress the voices of your constituents.
10/20/25 8:59 AM	Connie Liles		No need for this! Do NOT do this! Just because Texas does something does not mean NC should follow.

10/20/25 8:59 AM	Cynthia Toy		This country was founded on the premise that taxation without representation was wrong and that is exactly what gerrymandering creates. Please do not further erode the rights of the citizens of this once great state. At some point, & it will be soon, you will have to justify your actions and to further tyranny is really not a good reason.
10/20/25 8:59 AM	Mrs Katherine Pettiss		It is very disappointing that Republicans believe they have to change the rules to win. This redistricting is as immoral and as evil as you could get. You should all be ashamed. As one of the voters Griffin tried to disenfranchise, I find there is no way I can in good conscience ever support a Republican in NC. And I grew up in a staunchly Republican family. What happened to the party of small government and conservative fiscal policies?
10/20/25 8:59 AM	2025 Proposed Maps Juanita Rivera-Ortiz		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/20/25 9:00 AM	Speech Language Assistant Timothy Locklear		We need a budget passed for Medicaid, no gerrymandering as it is unfair and under mines the right to vote.
10/20/25 9:00 AM	David Mummy		NO MORE GERRYMANDERING IN NC. The voters should choose their elected representatives, not the other way around. We've already been redistricted twice since 2020 and this is clearly being rushed to avoid scrutiny because it's so obviously underhanded. Focus on the budget and funding education, not trying to hack and slice your way to an illegitimate supermajority in a purple state.
10/20/25 9:00 AM	Margaret McClellan		Heck no!!! Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Äô ability to hold our leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people.
10/20/25 9:00 AM	Mrs Betty Masiello		The state is already gerrymandered enough!
10/20/25 9:00 AM	Holt Farley		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS. NC citizens are paying attention to your actions.
10/20/25 9:01 AM	Ms. Shelley Brocksmith Toth		Stop bending the knee to a man who has never played fair in his life. All citizens in NC deserve an equal vote. We will all answer for our sins one day. Rigging the game is not the answer.
10/20/25 9:01 AM	Ms Lisa Berry		Absolutely no redistricting until after the next Census- your job is to represent your constituents not the National GOP or President.
10/20/25 9:01 AM	Dr. Sandra Cook		The controlling question should NOT be how can maps be drawn to lock in the party in power and minimize the number or eliminate districts that are likely to support the minority party? Instead the question should be: How can districts be drawn in ways that ensure fair representation of voters?
10/20/25 9:01 AM	Eric Hayes		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is attempt to seize power for the GOP and it is unacceptable. Vote NO. Please instead think of all of the NC constituents and work on a state budget that enhances the lives of all NC residents.
10/20/25 9:01 AM	Mrs. Darleen Tomayko		I would like to urge Rep. Miller to oppose attempts to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around.
10/20/25 9:01 AM	Caitlin Constantine		I'm writing to express my strong opposition to the plan to redistrict our congressional map ahead of the 2026 election. It will further disenfranchise non-Republican voters by diluting our representation in Congress. It's a waste of time and money that could be better spent elsewhere, such as passing a state budget. It will add to voter confusion, which is already significant. Finally, it's a very obvious attempt to put a lock on power on behalf of an increasingly unpopular president. The fact that it's being handled in a rushed, dishonest way further supports my belief that this is about locking in one-party rule out of fear of what's ahead in 2026. It is embarrassing that North Carolina's Republicans would rather engage in this sort of chicanery instead of actually trying to improve our lives. North Carolinians deserve to be able to elect officials who will represent us, not ones who serve for only one person in Washington D.C. For these reasons and many others, I strongly oppose this measure.
10/20/25 9:01 AM	Mr Robert Nelson		I am AGAINST this legislative action.
10/20/25 9:01 AM	Mr. Michael Silva	n/a	I am very STRONGLY opposed to this UNCONSTITUTIONAL redistricting plan, it is very illegal, I didnt serve my country for this. Your constituents are against this!
10/20/25 9:02 AM	Elizabeth Voiers		You know gerrymandering is wrong and undemocratic. It,Äôs embarrassing being one of the most gerrymandered states who also don,Äôt pay our teachers! If you,Äôre good at your job and work for the people of NC you,Äôll win anyway so you must not think you can win without cheating. Districts should be decided by an unbiased apolitical committee! Do the right thing

10/20/25 9:02 AM	Anne Stark		Our state constitution guarantees free elections. Gerrymandering and redrawing the lines to win more seats for your party isn‚Äôt a free election. Cheating and rigging the system aren‚Äôt a free election. Maps should be drawn by a nonpartisan group using census data on population, not at the whims of a political party for unchecked power. Voters should pick their politicians. Politicians shouldn‚Äôt pick their voters!!
10/20/25 9:02 AM	Tricia Tabelon		I do not condone the gerrymandering of NC's congressional districts to the advantage of the Republican Party. The GOP is CHEATING its way to a majority instead of fairly drawing the maps. The blatant manipulation of district lines undermines democracy, silences voters, and makes elections less competitive. Every North Carolinian deserves representation that reflects the true will of the people ‚Äî not maps engineered to guarantee one party‚Äôs dominance. Fair maps mean fair elections.
10/20/25 9:02 AM	Mauri Connors		NC isn't red, our maps are just rigged! It makes me really upset that my voice is curtailed because certain lawmakers think it is ok to gerrymander various districts in North Carolina. It's undemocratic, it's unfair, and it ultimately harms all of us. I think that those of us who vote Democratic and those of us who vote Republican have a lot more in common than we do that keeps us separated. We both want safe communities, with safety for individuals and families. We need accurate and fair maps so that we can pursue the goals we have in common. Fair maps matter because: Voters can hold their leaders accountable Leaders have to listen to voters, not corporations and party bosses They help prevent extreme laws that voters don't like Voters know their votes matter, so they show up In 2022, North Carolina had fair voting maps and sent 7 Democrats and 7 Republicans to the US House. In 2024, Republicans rigged our maps and send 4 Democrats and 10 Republicans to the US House. In 2026, Republicans will rig the maps even more to send 3 Democrats and 11 Republicans to the US House. Thank you for considering these thoughts, facts, and figures.
10/20/25 9:02 AM	Laurie McDowell		I oppose the blatantly partisan redistricting process that would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around.
10/20/25 9:02 AM	Mr. Skyler Jones		I am writing to express my strong opposition to the proposed congressional redistricting maps in North Carolina. These maps do not serve the people of this state. They serve entrenched political interests. The manipulation of district lines for partisan advantage undermines the core principles of our democracy and weakens public trust in the electoral process. North Carolina is a politically competitive and diverse state. Our districts should reflect that, not distort it. Packing and cracking voters to dilute their power is anti-democratic and unconstitutional. Voters deserve to have their voices heard and their communities represented fairly. I call on the legislature to reject these maps and instead pursue a transparent, citizen-led, nonpartisan redistricting process that puts voters first.
10/20/25 9:02 AM	Plan is unfair Tom Holt		I strongly disagree with plan to redistrict as it is clearly unfair to voters and to communities in our State
10/20/25 9:03 AM	Dr Laura Weisberg		Please resist the impulse to play party politics with this very important voting rights issue. I want to be proud of the NC legislature for their bucking the national zeitgeist and instead, being fair and party neutral when it comes to this critical vote. Please OPPOSE GERRYMANDERING!
10/20/25 9:03 AM	Shirley Werner		I urge you to resist mid-decade redistricting that would further distort North Carolina's voting maps. 76% of North Carolinian voters say it should be illegal for gerrymandering to be used to discriminate against voters because of their political party. There is strong bipartisan agreement on this issue. Please respect North Carolina's long tradition of diversity in viewpoint, one of the qualities that has made us a great state for education, which is now under severe threat. Do not destroy the freedom of thought and conscience which our great North Carolina educator Frank Porter Graham worked so hard to guarantee.
10/20/25 9:03 AM	Do not redistrict NC Caterina Phillips	Durham	Everyone deserves equal representation. Do not change the lines in North Carolina!
10/20/25 9:03 AM	No More CHEATING George Pickett	just me, a North Carolina Citizen	NOW HEAR THIS Sneaking around and trying to Gerrymander another corrupt Republican House district will reveal your contempt for us Citizens of North Carolina.
10/20/25 9:03 AM	Dr. Robin Ruth		Please do not redistrict north carolina unfairly.. and please treat your Democratic representatives with respect and being inclusive with them in all decisions of redistricting in North Carolina to be fair.

10/20/25 9:03 AM	Miss Cynthia Strain	NC voter	I am appalled that NC Republicans are going SO LOW as to redistrict the state to allow for more Republicans to win elections. Why would you choose to bow to the corrupt lying felon in the White House? Why do you want to be complicit in this crime against NC voters, who by the way , are 32% of the NC electorate. WE deserve representation equal to Republicans, who are 30% of the electorate. Cheating to win is unAmerican, and just plain wrong. Your job is to represent us and work for the best interests of the people in NC, NOT JUST REPUBLICANS!!
10/20/25 9:04 AM	Ann Smith		Free Speech is not a sometimes law -- it is every day in every way. Quit the bullying and law breaking!
10/20/25 9:04 AM	Michelle Oliver		As a North Carolina resident (and registered voter) it is beyond infuriating to have representatives at both the state and local level who could care less about the generational harm this is doing. Not just to essential services and representation, but to the confidence in our most sacred civic duty. It won,Äôt matter because the republicans seemed to have forgotten that they work for us, not Donald Trump. Voting democrat to get the republicans out!
10/20/25 9:04 AM	Susan Perry		I am strongly against re-drawing the voting districts to give the political party currently in power the advantage. The people of North Carolina, really all states, should have the right to have their vote count. Representatives who vote for this change will be complicit in supporting the corrupt national administration currently in DC. And when they fall, when they are held accountable for their illegal and immoral acts, you will be responsible.
10/20/25 9:04 AM	Cynthia Taylor		I am adamantly against the plan for redistricting our voting maps in order to dilute the votes of Congressional District 1. Please search your conscience so that you can look back as being on the more equitable side of history by voting NO to the unnecessary redistricting.
10/20/25 9:04 AM	Blaire McClanahan		Vote NO for gerrymandering.
10/20/25 9:05 AM	Jessica Hight		I am reaching out today to say I am against the attempt to redistrict two of North Carolina,Äôs congressional districts midway between U.S. Census taking. As a North Carolinian, I believe everyone,Äôs vote should count and that North Carolina voters should choose their elected officials. And I,Äôm not alone ,Äì a recent Republican-leaning polling firm found that 84% of North Carolina voters said gerrymandering is NEVER acceptable. And that includes 78% of North Carolina Republican voters, 85% of North Carolina unaffiliated voters, and 87% of North Carolina Democratic voters. Please vote ,ÄúNO,Äù on redistricting these two congressional districts and do what is right and fair by North Carolina voters. Thank you for voting ,ÄúNO.,Äù
10/20/25 9:05 AM	Grandma Mary O,ÄôConnor		Please stop with the unnecessary redistributing. We should represent all people in the beautiful state of NC. Thank you for your consideration. Vote responsibly for. All citizens of NC.
10/20/25 9:05 AM	Dr Kate Young		Please resist this corruption of our democracy by trying to rig fair elections.
10/20/25 9:05 AM	Tara Quinn		I am writing to voice my strong opposition to this blatant affront to democracy and everything this country was founded upon. If you are so confident in your ideas, if you truly believe that your policies are what the people want, then there is no need to steal the right to vote from North Carolinians. Instead you want power, and what you choose to do with it in furtherance of greed and hatred is harmful to not only our state but the nation. Democracy lives on the principle of one person, one vote. Redrawing maps to diminish hard-earned and righteous votes to portions of a whole so that you can maintain and gain seats is not only false power, which will ultimately crumble, but a stain on the American experiment that so many fought and died to protect. I hope and pray you all find your better angels, get right with your god, and see the undeniable truth that if you move forward with this abomination, you are a disgrace to the Constitution and the spirit therein you were sworn to uphold.
10/20/25 9:05 AM	Ms Marsha Coe	N/A	I am a retiree from the state of NC & do not want to see my beloved state redistricted yet again. Being a constituent I will remember who votes for and against it in the upcoming elections.
10/20/25 9:05 AM	Shanna King		Why are our tax dollars being spent on this rigging of congressional maps? NC needs a state budget and representation who actually works for us, taking our feedback to build better. Stop with the lies and propaganda and do something good for the people who live here for once.
10/20/25 9:05 AM	Steve Legeay		I do not support any effort, conducted at mid-decade, toward congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode North Carolinians,Äô power to elect candidates of their choice. Gerrymandering is a violation of core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. If you want to talk about true conservative values, how about transparency, integrity, and competition? Or victory earned through ideas and persuasion, not through the manipulation of electoral maps? It certainly is interesting that 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among all voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Steve Legeay

10/20/25 9:05 AM	Stephanie Walker		While the process of redrawing district lines is necessary to reflect population changes, partisan gerrymandering subverts this purpose to entrench one party's power or protect incumbents. Gerrymandering undermines democracy because its like politicians are choosing the voters instead of the voters choosing them. Therefore, it skews election results, reduces accountability, dilutes minority voting power, and empowers extreme canidates. More than ever its important for North Carolina to protect voter integrity. North Carolina needs to unite for its residents, we want a system we can trust.
10/20/25 9:05 AM	Michael Terwilliger		It's simple - our state's representatives in Congress should proportionately represent it's citizens. Sick of the constant power grabbing, do your job and represent your constituents in a fair and equal way. Gerrymandering is unconstitutional and un-American.
10/20/25 9:05 AM	No Gerrymandering Kelsey Brown		No Gerrymandering!!
10/20/25 9:05 AM	Alison Langley		Vote Against changing districts in NC at Trump's behest!
10/20/25 9:06 AM	Ashlyne Pitts		This is an abuse of power, we as citizens have no say in this redistricting and without even having finalize mapping detail it should be illegal to even vote on this matter. I want to vote against this bill or whatever you are trying to call this unfair, bias, change in the way our votes are counted. We the people are getting tired of being cheated behind closed doors.
10/20/25 9:06 AM	Tax paying citizen Michelle Strong		Redistricting would not only be harmful but hateful. The only goal of redistricting is to suppress the black vote! This would be taking us back to the Jim Crow era. I am a tax paying, voting citizen of this country and I am strongly against redistricting and strongly urge my representatives to vote against it!
10/20/25 9:06 AM	Diane Tompkins		North Carolina is truly a purple state per recent voting. If anything, you should be adding opportunities to balance our Representatives in Congress, not making the gerrymandering worse. I oppose this midterm registering.
10/20/25 9:06 AM	Kimberly Tierney		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Âô ability to hold our leaders accountable.
10/20/25 9:06 AM	Outraged Rhonda Petitte-Carsten	NCDW	We are heavily gerrymandered already!! Finding another Republican seat is not representing our state. You were elected by the people. Say no to more gerrymandering!!!
10/20/25 9:06 AM	Vicki Coleman		Mid-census redestricting at the demand of the President of the US is anti-democracy, un-American and diminishes the political process for all North Carolininans--right and left. Gerrymandered districts make representatives unresponsive because their re-election is guaranteed in every district. It pushes all candidates to the extremes. I and mine will remember a vote in favor of this for generations.
10/20/25 9:06 AM	Emily Schmitt Dennis		I am opposed to new maps that are unfairly political. Elections should represent the will of the people of North Carolina. Please draw fair maps.
10/20/25 9:06 AM	NO Sarah Abner		This is NOT supported by the majority of your constituents. Its also wildly unpopular with the entire country!
10/20/25 9:06 AM	No to redistricting Betty Thomas		Redistricting is unfair and an intentional way to hurt us by our government
10/20/25 9:06 AM	Joseph Bauer		I am strongly opposed to the republican attempt to redistrict NC congressional seats. We need a nonpartisan committee to fairly draw the congressional seats so that all the citizens of NC receive appropriate representation.
10/20/25 9:06 AM	Spenser Hallmark		Partisan, gerrymandering, silences voters, at destabilizes elections, and it weakens democracy. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage, undermine the constitutional promise of equal representation, and weekends voters ability to hold our leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the people,Äòs confidence that, once elected, you will represent all North Carolina ends and protect their vote equally. Gerrymandering violates this basic principle.
10/20/25 9:07 AM	Jennifer Lantz		I do not support redrawing our district maps between years of new census data. Republicans and democrats must stop cheating to stay in power. We must work together to maintain our democratic government. No gerrymandering now.
10/20/25 9:07 AM	Mr George McClanahan		Please do not gerrymander. Please do not gerrymander. Please do not gerrymander.
10/20/25 9:07 AM	Dr Susan Schmudt	Beaufort Writing Griup	The Koch bribes messed up our voting districts too much. Tell the NC Republicans to play fair. We need fair elections. Science fully funded. We need Public TV & Radio. clean air, clean water. Climate awareness. Good education. Thanks.
10/20/25 9:07 AM	Joyce Margulies		I strongly oppose the redistricting proposal that is before the legislature this week. No rationale other than politics and racial bias has been offered for this proposal. Let's support fair elections and passing a budget rather than wasting time with proposals such as this.
10/20/25 9:07 AM	Mr. Stephen Haskin		Redistricting or gerrymandering are the same thing. The pendulum swings both ways and perhaps the house and senate can gerrymander the districts now in 2025 to get more representatives, but it will swing back at some point in the future and the gerrymander will go the other way. Districts should be geographic or community, but never by party. It's never a solution for the long run. Ever.
10/20/25 9:07 AM	Nathan Sutton		NC is, unfortunately, a case study for bias and undemocratic gerrymandering. If we want to practice a more democratic form of republicanism, we must end the unfair practice and use a non-partisan, independent redistricting commission to accurately and justly distribute power to the citizens of our state.
10/20/25 9:07 AM	Laura Brandenburg		Since the lines were redrawn just 2 years ago, this is an unnecessary step and waste of our legislative time. It speaks to a politically motivated redistricting, rather than a necessary one.
10/20/25 9:08 AM	Lisa Hubbell		I do not agree that redistricting is needed. As a voter in North Carolina I do not support the effort to redistrict.
10/20/25 9:08 AM	M BRETT BEASON	Myself	No on redistricting. Redistricting should be illegal. Let natural process ensue. NO NO NO
10/20/25 9:08 AM	Ms. Barbara Kimbrell	N/A	Gerrymandering is not a concept that is synonymous with the constitution or democracy.

10/20/25 9:08 AM	Nathan Plott		Please remember that, for the sake of safeguarding our democracy, the electorate is supposed to choose their representatives - not the other way around. Whether or not you prefer one party or the other, codifying gerrymandering makes this country less free. I ask that you not be a part of that.
10/20/25 9:08 AM	Susannah Kirby		I am strongly opposed to this redistricting push. This initiative will take maps that are already unfairly drawn, and make them even more unfair. Gerrymandering is NOT the will of the people! You are rigging the system, and people will not stand for it! Bring back the fair maps that actually reflect the views of the voters of North Carolina.
10/20/25 9:09 AM	Emily Brassell		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves.
10/20/25 9:09 AM	ms LORRAINE MONTUORI		Do your job of running the State.. Stop the Power Grab. Serve the people who voted you in power by doing your job of running the state. This is the 5th time in 6 years! If you have to do the power grab so frequently you're not doing your job of serving the people. Maybe the people don't like what you're doing!
10/20/25 9:10 AM	Redistricting Fears Hannah Dykema		I am writing to express my deep concern over the redistricting plan. A lifelong NC resident, I feel that this plan is unconstitutional as it does not provide fair representation. A bipartisan state, we all deserve our voices heard by our representatives. Redrawing voting lines at the behest of the presidents request shows a clear deference to a branch of government that is not held accountable by checks and balances. Representatives should work for the people. Here in NC, it is clear that you are working under a different agenda.
10/20/25 9:10 AM	Ruth Hansen		Please do not redraw district lines.
10/20/25 9:10 AM	Mrs Sara Dickinson	NCPTA	My biggest concern with these plans for new maps is the further degradation to public school funding. As the federal government continues to dismantle the Dept of Education I am yet to see enough from NC,Äôs congressional delegation protecting our children. How will this impact my children who attend title 1 public schools? North Carolinians WANT strong public education but the state legislature is focused on something like redrawing maps again instead of helping my kids education.
10/20/25 9:10 AM	Anne M Smith		I oppose the current redistricting maps. I think communities/district maps should not divide communities with similar interests. Gerrymandering destroys the democratic process that we all value and some took an oath to protect. Gerrymandering causes voters to lose trust in their elected representatives. Elected officials should serve us all regardless of party. Thank you!
10/20/25 9:11 AM	Mr. Ronald Colonna		I am writing to express my deep concern and strong opposition to the rushed and opaque redistricting process currently underway in the North Carolina legislature. As a constituent, I am alarmed by reports that the legislature is being reconvened with little to no notice, no public schedule, and no transparency,Äîspecifically to redraw our congressional maps. This lack of openness, particularly the exclusion of Senate Democrats from basic procedural information, is not just undemocratic,Äîit,Äôs a deliberate attempt to silence opposition and circumvent public scrutiny. Redistricting should be a fair, transparent process that reflects the will of the people,Äînot a backroom maneuver driven by partisan loyalty or external pressure. The people of North Carolina deserve maps that ensure competitive elections, equitable representation, and respect for our communities,Äînot gerrymandered districts designed to entrench power. If this process were truly in the public interest, it would be conducted in broad daylight, with ample notice, public hearings, and bipartisan cooperation. Instead, it appears to be happening in the shadows, with the intent to rush through changes before voters can react. This is unacceptable. I urge you to: ,Ä¢ Demand full transparency in the redistricting process. ,Ä¢ Insist on public input and fair debate before any maps are approved. ,Ä¢ Reject any attempt to manipulate district boundaries for partisan gain. Our democracy depends on fair representation. What happens in this session will shape our elections for years to come,Äî2026, 2028, and beyond. I ask you to stand with the people of North Carolina, not with those who seek to rig the system. Thank you for your attention to this urgent matter. I will be watching closely and expect you to defend the integrity of our democratic process.
10/20/25 9:11 AM	Geoffrey Smith		This gerrymandering is unacceptable. It solves none of the problems for everyday Americans and only continues to divide us.
10/20/25 9:11 AM	Ms Sherry Ellis		I do not support this new Redistricting plan. The local electorate needs representation for their communities not simply to support the federal government that knows NOTHING about their needs.
10/20/25 9:11 AM	No more unfair redistrict Courtney O,ÄôKeefe		No more unfair redistricting!
10/20/25 9:11 AM	Suzanne Dollar		Stop gerrymandering! Let our votes count. We choose you, you don,Äôt choose us. This is vote stealing and you know Republicans can,Äôt win without stealing. Sad! Stand up for America, stand up to Trump.

10/20/25 9:11 AM	Debra McSorley		Voters should choose their politicians. Politicians should not choose their voters. 84% of NC voters say gerrymandering is never acceptable. Listen to the voters!
10/20/25 9:11 AM	Dr james faber	UNC	Please do not further degrade the "one man one vote" principle of democracy in our state. Please not take redistricting further. NC is already 10 R, 4 D, yet votes almost evenly in elections. Please help to bring our great people back together as the neighbors we want to be.
10/20/25 9:11 AM	Roshana Ariel	self	I am so sick of gerrymandering. Yes, both sides have done it, and it's horrible. Republicans are now taking it to a whole new level. It's got to stop. I'm an Independent. I am absolutely fed up by the way politics has gotten more and more obscenely rigged. Most of our politicians are rich lawyers seeking more and more power instead of regular people trying to work hard for the good of the people.
10/20/25 9:12 AM	Katherine Dennstaedt		Gerrymandering is wrong for ANY party. Stop redrawing maps to please the White House!!!!! We need a bipartisan citizen board to draw our voting maps. Win by getting the voters to choose you because you have the best ideas and solutions to the issues concerning North Carolina citizens!!
10/20/25 9:12 AM	April Conner		I am writing to express my strong opposition to the proposed congressional map currently under consideration by the North Carolina General Assembly (NCGA). This mid-cycle redistricting is an unwarranted abuse of legislative power. I urge you to reject the proposed congressional map and to prioritize the creation of truly Fair Maps that serve all the voters of North Carolina, not just one political party or another. We are a diversely beautiful purple state, which is not currently represented by our State and Federal legislature.
10/20/25 9:12 AM	Dr. Beverly Harrington Falls		DO NOT continue with this fourth redistricting since 2020. The people must choose their elected representatives; not have politicians select their voters. Begin with the premise each individual has the right to autonomy and a voice in any government which they then expect to work for the well-being of all. North Carolina is not being served by the partisan maps being drawn "with surgical precision" to disenfranchise eligible voters. The state is in FACT being HARMED by the unethical power grabs with resulting additional reverberations nationally and globally. The deliberate disregard of the needs of the population and their rights is obscene. STOP putting systems in place to RULE instead of to REPRESENT the population. Even more urgently, STAND UP AGAINST TYRANNY and the fascist authoritarian push currently replacing the state and national politics in 2025. DEMOCRACY OR DICTATORSHIP. History has its eyes on you.
10/20/25 9:12 AM	Beth Sumner-Wall	American citizen	Stop the gerrymandering. You wouldn't be cheating if you were actually representing the people.
10/20/25 9:12 AM	Franchesca Gatti		Gerrymandering is fundamentally unconstitutional because it weaponizes district boundaries to suppress voters based on race and political affiliation ,Âî violating the Equal Protection Clause and undermining the very foundation of representative democracy. The Constitution guarantees that every citizen,Äôs vote should carry equal weight, yet gerrymandering distorts that principle by allowing politicians to choose their voters instead of voters choosing their representatives. Land doesn,Äôt vote ,Âî people do. Cities shouldn,Äôt be penalized for having diverse populations or political leanings. Fair elections require districts that reflect communities, not manipulate them. Democracy only works when every voice is heard and counted equally.
10/20/25 9:12 AM	Dr Alexander Krohn		These partisan redistricting plans make a mockery of representative democracy. While partisan redistricting is legal, I am saddened that our state continually sinks to this level. In a state that regularly votes almost 50/50 for statewide elections, we should have representatives that reflect that number. I encourage you to not pass this plan, and instead find non-partisan, mathematical ways to designate representatives that reflect the will of North Carolinians.
10/20/25 9:12 AM	Mrs Cynthia Castevens	Women of Action	A balance of power is what makes our democracy work. When you gerrymander just so that one party dominates and all voices are not heard, where is the democracy? It no longer exists. That's why I'm against more gerrymandering. You've already gotten your party dominance...why can't you allow all voices to be represented? That is why people around the world look to America for its democratic ideals.
10/20/25 9:13 AM	Ms. Meta Coaxum	retired	The General Assembly's first mandated constitutional priority is to pass a State Budget. It has been more than 100 days and the citizens of NC are being affected with not having services funded to meet some basic livilable needs. Instead the General Assembly kneels to threats that are power grabbing partisan schemes that undermines the constitutional promise of equal representation and weakness voter's ability to hold leaders accountable. The unspoken factor of noting that "race" is not a factor in this desire to redistrict in nonsense. Data from NC Voter Registration of its citizens is public information. By cross referencing zip codes, street addresses, representatives from municipal, state and congressional districts know the racial breakdown. This data is used in "strategic planning" for any goal when it comes to determining the "community interest" in financing services/needs. WE are not stupid!!!! I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice.

10/20/25 9:13 AM	Chris McDonald		I am urging you to stop the rushed and undemocratic redistricting process currently underway in North Carolina. These gerrymandered maps are being drawn behind closed doors, with no transparency and no opportunity for voters to meaningfully respond ,Äî and yet you plan to force a vote as early as tomorrow. North Carolina voters deserve fair maps ,Äî not maps rigged to guarantee partisan power. Our elections should be determined by the will of the people, not politicians choosing their voters. This is not governing ,Äî it is political manipulation designed to entrench minority rule and silence entire communities. We do not yet have final draft maps. We do not even know what time the official vote will take place. That alone is unacceptable. If these maps were truly fair, there would be no need to rush them through without public scrutiny. I,Äôm asking you ,Äî on the record ,Äî to slow this process down, hold real public hearings, and draw maps that reflect the people of North Carolina ,Äî *not the interests of MAGA extremists in Washington*. We deserve a democracy ,Äî not a power grab
10/20/25 9:14 AM	Michele Remington	Private /Concerned NC Citizen	Do the job you were elected to do by the people of North Carolina to serve the people of North Carolina, not to serve the whims of President Trump. Three months with no state budget, but time to redistrict less than three years after the last redistricting? Unconscionable. Do the work to support the best interests of all the citizens of North Carolina, not your own personal political interests, or those of the current President.
10/20/25 9:14 AM	Terry Arellano		Donald Trump,Äôs call to Republicans across the country to eliminate Democratic seats wherever possible is a blatant attempt to maintain Republican control of the U.S. House in the 2026 midterms, disregarding the will of the American people AND IT IS WRONG for our country and I am disappointed in my state leaders who are supporting and promulgating this effort in North Carolina. NC voters were polled in September 2025 and this polling shows that large majorities in BOTH PARTIES oppose gerrymandering in our state ,Äì 87% of Democrats and 78% of Republicans. This is because the NC population knows and strongly agrees that voters should choose their representatives, not have maps drawn to force an election towards either party. Non-gerrymandered districts help ensure fair representation reflective of the will of voters and is the basis of the democratic foundation of the United States. Conversely, gerrymandering is simply pre-determining election outcomes, undermining the Voting Rights Act and eroding the representation for minority voters. The NC General Assembly is beholden to the citizens of our State to adopt a transparent and accessible nonpartisan process rather than pushing through the 2025 Redistricting plan. Any future redistricting efforts should follow due process, occurring after the decennial Census to right-size districts as a results of population changes, giving NC citizens a voice in the process through public hearings that allow commenting on proposed redrawn mapping. Future redistricting should be thoughtful and sensible ,Äì any needed new or revised districts should follow logical boundaries such as geographical, neighborhood, municipal or county boundaries ,Äì not randomly drawn boundaries intended to ensure representation merely by political party concentration. Again, I am highly disappointed in leaders like Phil Berger who are proposing this redistricting effort merely to ,Äúprotect President Trump,Äôs agenda.,Äù This is wrong for our Nation and especially wrong for North Carolina and it,Äôs citizens and I implore the NC General Assembly to halt it's attempts at this nonsensical power grab.
10/20/25 9:14 AM	Russell Irvin		Redistricting for any reason other than more equal representation for all constituents is unconstitutional at best, immoral and criminally Un-American at best. The GA would be wise to remember how effective of a rallying cry "no taxation without representation" has been in the past.
10/20/25 9:14 AM	Gerrymandering Jason Whitman		What you're trying to do, to rearrange the lines so that you gain power and nullify the votes of the people, is despicable. No matter how you draw it, you will be voted out.
10/20/25 9:14 AM	Dennis Sykes		Stop gerrymandering our districts. Politicians should not choose their voters. The voters should chose their representatives. A true conservative would be horrified at this misuse of government power.
10/20/25 9:14 AM	Dr Mary Lindsay-Barber		I want to ask that the state of NC not have redistricting occur at this time. Redistricting that doesn,Äôt reflect the true diversity of thought of the people of NC. We must have representation of all communities in a true democracy.
10/20/25 9:14 AM	Anne Mason		Please stop gerrymandering. Let us vote based on competence in districts that are representative of the populace.
10/20/25 9:14 AM	Julie Basile		Please protect and uphold the first amendment.
10/20/25 9:15 AM	No Gerrymandering Christopher Plott		No gerrymandering in NC!

10/20/25 9:15 AM	Ms Linda Poss		Please vote NO on the proposed Senate redistricting plan for the 2026 elections. Legislators have a moral duty to ensure all North Carolinians have equal representation in government and 76% agree it is wrong to discriminate based on political affiliation.
10/20/25 9:15 AM	Ms. Jill Tremlett		I,Äôm adamantly opposed to any further redistricting. This is a waste of time and money and an obvious, desperate grab for power. Representatives need to be elected on their own merit by a majority vote, not by redrawing maps. If you have to cheat to win you,Äôre basically a DEI hire. It reveals a deep lack of confidence in your abilities to govern well. I,Äôm embarrassed for you.
10/20/25 9:15 AM	Carlin Rosengarten		This is a terrible plan that will disenfranchise more than half the state. Please pass a budget instead!
10/20/25 9:15 AM	Mr Carmine Scavo		I live in Greenville and this will be the 4th time I,Äôve been redistricted since 2000. This is simply unacceptable. In a democracy the electorate is supposed to choose its representatives. You have made it do the representatives are choosing their electorate. I am a registered Independent but will not vote for any Republican running in NC because of your blatant disregard for our democracy.
10/20/25 9:15 AM	Emily Porter		I do not support redistricting- there is no reason that this would need to happen out of cycle other then a political power grab. Politicians should not be choosing their voters.
10/20/25 9:15 AM	Susan Pfannenschmidt		Stop the gerrymandering!
10/20/25 9:16 AM	Dr. Nick Ladd		Redistricting should only be done to more fully and fairly capture the voice of the people and not to provide more control for one political party or another. Politicians should earn the vote of the people through their principles and performance not by trying to manipulate the numbers in their favor.
10/20/25 9:16 AM	Kenneth Howard Jr		To Members of the North Carolina General Assembly: I am writing to express my strong opposition to the proposed congressional redistricting maps currently under consideration. Based on nonpartisan analysis and publicly available election data, these maps exhibit clear and extreme **partisan gerrymandering**, undermining the principle of fair and equal representation for all North Carolinians. **1. Partisan Skew Contrary to Statewide Voting Patterns** North Carolina is one of the most politically competitive states in the nation. In recent statewide elections: * In 2020, the presidential vote was 49.9% for Donald Trump and 48.6% for Joe Biden. * In 2022, the U.S. Senate race was similarly close, with Ted Budd receiving 50.5% of the vote and Cheri Beasley 47.3%. Despite this near-even partisan split, the proposed maps are projected to produce **at least 10 Republican-leaning congressional districts out of 14**,Äîa 71% advantage,Äîaccording to independent analyses by PlanScore and the Princeton Gerrymandering Project. This outcome is not a reflection of voter preferences, but a manufactured advantage created through the manipulation of district boundaries. Such skewed outcomes distort democratic accountability. **2. Suppression of Minority Voting Power** The proposed maps also raise serious concerns regarding the dilution of minority voting power, particularly in urban and suburban areas with high Black and Latino populations. For example:
10/20/25 9:16 AM	Mr. Edward Beroset	citizen	This unprecedented non-census year redistricting is a terrible precedent for and example of partisan abuse and is completely counter to the notion that every person has the right to representation. I am absolutely against this 2025 redistricting effort and would instead recommend that the legislature consider establishing a citizen's council for redistricting to ensure fairness and reduce the possibility of partisan gerrymandering.
10/20/25 9:16 AM	Fair elections Linda Bittner		Cheating districts is not free and fair elections. If you can't win without cheating you should be looking at your policies!
10/20/25 9:16 AM	Dr Charles Thompson	Self employed	I urge you to avoid partisan redistricting mid-decade. We cherish our democracy. Giving one party power in this anti democratic way flies in the face of our Constitution and all citizens who vote. We demand free and fair elections that represent all North Carolinians, not gerrymandered districts that steal power from voters. NC should lead democracy not hide from it! .

10/20/25 9:16 AM	Sean Mannion		North Carolina is a state fairly evenly divided between Republicans and Democrats. Donald Trump received about 51 percent of the vote while Kamala Harris received about 48 percent in the 2024 presidential election. In that same year, a Democrat, Josh Stein, received 54 percent of the vote to be elected governor. In 2022, our national congressional representation reflected this roughly even division, with 7 Democrats and 7 Republicans in the House of Representatives. After gerrymandering, this representation changed from 4 Democrats and 10 Republicans. I find it unconscionable that the General Assembly is taking the unprecedented step of gerrymandering further in between censuses to make the state's national congressional representation even more unrepresentative of its population. I find it unconscionable that they are doing so at the behest not of their voters but of the US president, who seems focused on ensuring that he does not have to face national congressional oversight. This move is undemocratic. The ideal would be that congressional districts are drawn impartially after each new census so that congressional representation matches a state's electorate as closely as possible. California is also proceeding with a midcensus redistricting, but at least they are allowing their voters the chance to approve or reject the change. Texas is also proceeding with midcensus redistricting, but at least there the move was initiated by their governor, who elected by the majority of Texas's voters. In North Carolina, redistricting is proceeding via a supermajority that is itself a result of undemocratic gerrymandering, and against the wishes of a governor who was elected by a majority of the state's voters. I strongly urge you to not proceed with this undemocratic redistricting.
10/20/25 9:16 AM	Richard Schaedler		Voters should pick their politicians. Politicians should NOT pick their voters. We want FAIR maps, not THEIR maps! I am opposed to redistricting!
10/20/25 9:17 AM	Stop redrawing maps Sarah Cover		Actual do work that will benefit North Carolinians rather than spending your time manipulating maps that ignore the true makeup of the state.
10/20/25 9:17 AM	Melissa Godwin	Citizen	Redistricting is not what North Carolinians need, and it is not being done with North Carolinians best interests in mind. Our democracy depends on the voters choosing who represent their interests, from education to safety issues. The time and energy spent to please and serve outside interests by gerrymandering, should actually be spent caring for the citizens of North Carolina, starting with passing a budget. Please do not fall for the siren song of big money and big greed, and sacrifice the vast amount of North Carolinians who are not 'big money' and are needing their elected officials to represent them.
10/20/25 9:17 AM	Alice Sharp		North Carolina is a purple state and our general assembly membership should reflect that. Taxation without representation is the principle that drove the founding fathers to declare independence. I oppose this redistricting measure.
10/20/25 9:17 AM	Gerrymandering Mark Catalano		Gerrymandering is evil, and should be completely illegal. Cheating is not ok, and it‚Äôs insane that I have to say that. You are supposed to be adults. Elections are supposed to be fair, and if you cannot win without rigging the districts, then you shouldn‚Äôt be representing us. Here is a poll that clearly backs up what I am saying, with bipartisan agreement! https://www.commoncause.org/north-carolina/wp-content/uploads/2025/10/2025-NC-Redistricting-Poll.pdf Do not misrepresent us. Degrading public confidence in our elections further is going to hurt everyone, and we won‚Äôt soon forget. Do your job of serving the people ethically, or we will take the job away from you.
10/20/25 9:18 AM	Hunter Moon		This is so undemocratic . This is a perversion of democracy. Our democracy is literally dying. Please stop this gerrymandering.

10/20/25 9:18 AM Virginia Wagoner		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 9:18 AM Patience Vanderbush		Drawing new maps mid-cycle is a blatant abuse by those in power in the NC state legislature. Partisan gerrymandering silences the voices of voters and reduces competition and accountability. I am among the vast majority of North Carolina voters who oppose partisan gerrymandering and want fair elections.
10/20/25 9:18 AM Elizabeth Combs		Thank you for the opportunity to comment on a proposed redistricting plan. I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. True conservative values demand transparency, integrity, and competition‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 9:18 AM Ms Angela Morrow		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/20/25 9:18 AM Mr Mark Swedan	Asheville, NC Resident	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.

10/20/25 9:18 AM	Dr. Scott Dennstaedt	I strongly oppose any attempts to redraw North Carolina's Congressional districts at this time. Redistricting outside of the standard 10-year census cycle undermines public trust and raises concerns about partisan gerrymandering. The current districts were already redrawn recently and have not yet been tested in a full election cycle under stable boundaries. Frequent redistricting creates confusion for voters, disrupts community representation, and weakens the integrity of our democratic process. North Carolina has a documented history of legal challenges related to unconstitutional racial and partisan gerrymanders. Continuing to alter district maps mid-decade only invites further litigation and public skepticism. I urge the committees to reject any redistricting proposals and prioritize transparency, stability, and fairness in the electoral process.
10/20/25 9:18 AM	Tina Carbone	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 9:18 AM	Twyla Peterson Wilson	You must stop redistributing efforts which unfairly target underrepresented groups. Leave things alone.
10/20/25 9:19 AM	Elizabeth Hensley	I strongly oppose the proposal to redraw the North Carolina congressional maps. Gerrymandering undermines the foundation of our democracy by allowing politicians to choose their voters instead of voters choosing their representatives. North Carolinians deserve fair maps that reflect our state‚Äôs diverse communities and ensure every vote carries equal weight. District lines should be drawn through a transparent process using nonpartisan criteria, respecting county boundaries, communities of interest, and the Voting Rights Act, rather than through closed-door partisan negotiations. I also think it's particularly gross and undemocratic to redraw the districts outside of the normal redistricting cycle and at the behest of the president with an extremely undisguised political agenda. I urge lawmakers to reject these unfair maps and adopt a redistricting process that prioritizes fairness, transparency, and genuine representation for ALL North Carolinians.
10/20/25 9:19 AM	Kevin Clayton	A mid-decade redistricting is a perverse attack on our democracy and our shared value of fairness. This redistricting maneuver is a slap in the face to our shared ideals of an open debates of ideas, voters ability to hold elected officials accountable, and fairness. This is a naked attempt to stack the deck and prevent the citizens of North Carolina from expressing their will and values at the ballot box. It prevents a government that is of the people, for the people and by the people. You should not be representing those obsessed with power who wish to remain in office. You should instead represent the citizens of our State, who overwhelmingly agree that this type of gerrymandering should be illegal. I think if you will look into your own heart, that you will find that you know that this redistricting attempt is not the right thing to do. It goes against all the things you were taught by your kindergarten teacher, your Sunday School teacher, and your Mamma. Make them proud and do the right thing.

10/20/25 9:19 AM	Kyra Denington		Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Äô ability to hold our leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! Redistricting now is unnecessary, rushed, and costly. The public is not being given enough time to consider the proposal and discuss it with their representatives. Legislators should focus on passing a state budget instead of rushing through an unfair redistricting plan that will likely result in costly litigation. North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps. The proposed maps would dilute the political power of Black North Carolinians, ‚Äúcracking‚Äù the northeastern Black Belt into two districts. This is in direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color. No more gerrymandering in NC!!
10/20/25 9:19 AM	Mrs Scarlett Hollingsworth	Precinct 231	There is no state budget but the NC legislature is coming back to conduct yet ANOTHER redistricting effort. This makes no sense and is not in the best interest of our state, our communities or our children. This is voter suppression via gerrymandering and is anti-democratic.
10/20/25 9:19 AM	Dr. Beverly Brown		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/20/25 9:19 AM	Michell Covey		I am an Independent voter from Beaufort County. It is my understanding that our state Congress is meeting today to redraw its district maps outside of the usual ten year schedule in an effort to further gerrymander our districts and secure additional US congressional seats for Republicans. As someone who has voted for both Republicans and Democrats at the state and federal level, I am appalled and embarrassed that our state is taking such a step. It takes away the voices of your constituents, and anyone who supports this endeavor can no longer purport to faithfully represent the voters of this state. In a time when the average voter is sick of the partisan vitriol, neither party can afford to alienate swing voters like myself. Rest assured, if this passes, I will no longer vote for a Republican in any office to represent the people of North Carolina. I will actively campaign against any Republican who supported this measure, and I will support to the full extent of my ability any Democrat who runs against them.
10/20/25 9:19 AM	Ms. Laura Stillman		NC is very much a 50-50 state! The Republican legislature used extreme gerrymandering, and then had the blessing of a partisan state Supreme Court, in redrawing the maps in 2023 to take away our 7-7 representation of R,Äôs and D,Äôs in Congress. Now we,Äôre already at 10-4. That is shameful. To do more only to please our tyrannical president is a political sin. It will also hurt black representation, which is always a goal of Republican gerrymandering. This additional trick will be un-American.
10/20/25 9:20 AM	Kathleen Nastiuk		I am a Mecklenburg county resident. I strongly oppose the gerrymandering efforts in North Carolina. Manipulating district boundaries to entrench political power undermines fair representation and violates the principles of democracy. I do not believe these practices are legal or ethical, especially when they dilute the voting power of communities and skew electoral outcomes. Redistricting should be transparent, impartial, and guided by the will of the people ,Äî not partisan agendas.
10/20/25 9:20 AM	Alice Mackay		I am opposed to the Republican redistricting plan! Cheating to win is disgraceful.
10/20/25 9:20 AM	Ms Ellie Richard	Education for Engaged Citizens	NO to more of your illegal redistricting. This is designed to silence voices of The People. Stop heeding the perverse pressure from your DC brethren. We are a democracy. Shame, shame, shame on you for lying, cheating and stealing.
10/20/25 9:20 AM	Dr. Dr. Dori Wagner		Over 70 percent of NC voters reject partisan gerrymanding. Please, finally, stand up against proposed plan. Your opposition to the will of the people will not make you more powerful; you, too, will eventually be turned up.
10/20/25 9:20 AM	Rev Deborah Suess	UCC/Quaker	Please please please vote against redistricting. If our vote doesn't count ... how does democracy even work?? Let's end gerrymandering for both parties. It is just wrong!
10/20/25 9:21 AM	Mr. Charles Hager		I vehemently OPPOSE redrawing North Carolina,Äôs congressional map to give Donald Trump an extra seat in Congress. This action is an obvious heinous attempt to limit the egalitarian concepts upon which our nation was founded.
10/20/25 9:21 AM	Barbara Roberman		I am NC resident and I am against this gerrymandering and redistricting. North Carolina voters deserve for their voices to be heard and votes to count!

10/20/25 9:21 AM	Robin Hamilton-Brooks	Election Integrity Activist	I am appalled and so disappointed at the Republican-led Legislative leaders who are bringing forward a bill to yet again rewrite the Congressional maps in North Carolina, and out of the regular redistricting schedule based on the census, no less. This is an assault on the Constitution's promise of equal representation. This is blatant gerrymandering and only promotes divisiveness among citizens in our state with the aim of concentrating power in the hands of partisan political insiders with self-serving agendas. Most North Carolinnans (76%) believe that gerrymandering is not just or fair for the voters of our state and SHOULD BE ILLEGAL. We need an independent board to draw electoral maps in North Carolina. Our legislative representatives should aim to protect the right to full representation and fair voting for all citizens. Please vote AGAINST this bill and protect fair representation. Robin Hamilton-Brooks
10/20/25 9:21 AM	Christopher Beal	Hutchison, PLLC	Gerrymandering is a terrible assault on our Democracy. These maps are absolutely ludicrous and should not be passed. What the legislature should pass is a budget. Please do your job and pass a budget before trying to win favors from a President who will go down as one of the worst in history. As a final note, it is a sad testament to the Republican platform that you would rather change maps than address fundamental issues within our State.
10/20/25 9:21 AM	No Gerrymandering Chris Plott		No Gerrymandering! Gerrymandering is a dangerous precedent that steals power from the people and puts in the hands of politicians. Both Republicans and Democrats will misuse gerrymandering if allowed and the people of NC lose.
10/20/25 9:21 AM	Zoe Rhine		Manipulating voting districts for partisan advantage is cheating, pure and simple. Don't do it! Win your votes the honest way, through good ideas and fair competition. Gerrymandering obstructs the will of voters and weakens democracy. The citizens of NC deserve better.
10/20/25 9:21 AM	Mr Terence Fuhrman		I am opposed to the new GOP plan for redistricting. It is absolutely pathetic that you can not pass a state budget despite GOP control of both chambers of the General Assembly, yet you quickly bounce to the beat of the drum of President Trump to grant his nearly unprecedented political wishes. Additionally, it is completely dishonest as both Speaker Hall and Majority Leader Berger assert that this is being done in ‚Äúresponse to Governor Newsom‚Äôs actions in California without mentioning either President Trump‚Äôs and Governor Abbott‚Äôs prior steps in redistricting necessitating Newsom‚Äôs. As Welch said to Senator McCarthy during the Army hearings, ‚Äúhave you no shame!.‚Äù
10/20/25 9:22 AM	Sarah James		I'm writing as a concerned constiuent in strong opposition of the newly proposed redistricting in NC. These maps are blatantly partisan and are extremely unfair and lack any sort of equal representation of the wide range of constituents in NC. We are a competitive state and these new maps guarantee a disproportinate number of seats to one specific party and denies voters a real choice. This undermines the democratic process, will lead to less voter turnout, and guarantees a lack of accountability for our elected officials who are meant to serve ALL their constituents. Please consider all North Carolinian voices when voting for this and protect our equal and fair elections.
10/20/25 9:22 AM	Dr. Richard Honeycutt		Gerrymandering is wrong, just plain WRONG! Stop it now. Our country's freedom and the survival of our republic are far more important than party loyalty, and you know it!
10/20/25 9:22 AM	MS REGI TROULLIER		76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 9:22 AM	Linda Cook		Voting should never be limited or manipulated by EITHER side. Let the total population have their freedom to choose based on the policies proposed. The unbalanced government in NC is not based on the actual population. It‚Äôs manipulated to advantage one side. When does this end? Play fair and we‚Äôll vote for the best candidate.
10/20/25 9:22 AM	mr. claus fey	none	I oppose your efforts to redistrict voting districts. We as a nation are on a path to loose our democracy. Voters are supposed to determine who is going to be representing them in the various houses. The planned redistricting turns this process on its head by allowing politicians to choose which voters they want to have in what district to further their political agenda. While apparently legal it flies in the face of democracy and will further discourage people to participate in the political process as this makes them feel powerless and their vote almost meaningless. No to politically or racially motivated redistricting.
10/20/25 9:22 AM	Dr Kathleen Michie Dew		I am horrified at the partisan gerrymandering proposal that is antithetical to democracy! Do the Republicans have no conscience or allegiance to democracy? Shame. This must be defeated and a bipartisan committee of citizens appointed to be in charge of districts!!!
10/20/25 9:22 AM	Nicholas Tillman		This is a shameful weaponizing of the redistricting process and calls into question the ethics of every individual involved in drafting this plan. It makes it clear that a free and fair election is not a priority for the NCGA and is a tacit acknowledgement of the weakness of the platform of the party driving this initiative. All serious Americans and North Carolinians should be disgusted at the blatant attempt to disenfranchise voters instead of convincing them that your ideas have merit. This is not leadership. This is not responsible. This is lily-livered cowardice plain and simple. We don't do cowardice in NC. If you can't show the value of your ideas then not only should I not vote for them but perhaps you should reevaluate advocating for them.
10/20/25 9:22 AM	Mr Mike Cutlip		DO NOT REDISTRICT! Partisan gerrymandering has got to stop. Redistricting plans like this one are destroying representative democracy in this country.

10/20/25 9:22 AM	Ms VIRGINIA SULLIVAN	Indivisible	NC's Representtives to the House of Representatives should include 7 Republians and 7 Democrats to reflect the population. Wnything else violates the intent of the U. S. Constitution.
10/20/25 9:22 AM	jayne grandes		You know what you,Äôre doing is wrong. I am embarrassed by the NC legislature,Äôs political redistricting. You are on the wrong side of history, please stop.
10/20/25 9:23 AM	Julie Strine		SHAME! The NC Republicans are behaving undemocratically by gerrymandering our districts. They are so afraid their policies will lose that they are cheating by redrawing voting districts. It,Äôs truly shameful. They clearly don,Äôt believe in democracy. We should have an independent body drawing our voting districts every 10 years as stated in the constitution.
10/20/25 9:23 AM	Dr laurie weiser		Doing non scheduled redistricting is literally stealing democracy! there should be valid representation of each citizen! This is destruction of America and I hope you find decency, ethics and morality when voting.
10/20/25 9:23 AM	Stop trying to rig electi Barry Smith		We will hold you to account in the voting booth if you continue trying to cheat us out of fair representation. I will spend my retirement fighting you if necessary.
10/20/25 9:23 AM	Mrs Marie Cox		It,Äôs absolutely disgusting to engage in any type of gerrymandering in our state. We have been fighting for Cleaner maps for a really long time and the fact that you are coming back to do this at the request of a criminal president is so brazen and undemocratic. The citizens of North Carolina deserve better.
10/20/25 9:23 AM	Beth Gonzalez		PLEASE,Ä¶ gerrymandering is bad for rural residents ,Ä¶ The first district covers 20 counties. That is 1/5 of the counties in North Carolina! The needs of residents in Warren county are very different than the needs of residents in currituck county. But they are both only represented by one person.
10/20/25 9:23 AM	Mrs. Paula Enscore		The bipartisan public does not support gerrymandering practices & we are watching. Many people ,Äúplay,Äù politics like a team sport when it,Äôs so much more than that, but in the spirit of that metaphor: Gerrymandering is cheating. It is rigging the game for a certain sect to benefit instead of the whole of society. The people who draft you (and pay your wages with their tax dollars) lose. I,Äôm a life long NC resident & USA citizen. I come from a staunch Republican background (though consider myself an Independent) and we all know what is happening to our voting rights is wrong wrong wrong. The timing of this latest move to silence public disapproval by citizens of the USA is beyond suspect. We aren,Äôt looking away, and we remember.
10/20/25 9:24 AM	Stephanie Hollembaek		I am against the redistricting being conducted in NC. This redistricting is not at the ask of the people residing in NC; it is at the ask of the President who has clearly shown he does not work for the people. Every politician who votes for the redistricting is voting against representing the people of NC. You do not work for DJT, you work for the people of NC. Do your job, pass a budget and remember the oath you took to represent the people of NC.
10/20/25 9:24 AM	Debra Prew-Delekto	Brunswick Voices For Democracy	This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the "cracking" of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters.
10/20/25 9:24 AM	STOP the Gerrymandering Brad Sevaldson	Points of View PhotoArt	This is like giving one football team more players than the other.... PLEASE stop PLAYING GAMES with our voting system!!
10/20/25 9:24 AM	Alice Barnes		I oppose another gerrymandering! Leave North Carolina alone - it,Äôs bad enough already.
10/20/25 9:24 AM	Ms. Barbara Mercer		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government.
10/20/25 9:24 AM	Stephen Baxter		This is outrageous. Stop redrawing maps to cheat the system in favor of one political party. We are the voters and we should be selecting our representatives, not our representatives selecting for us.
10/20/25 9:24 AM	Heath Campbell		This is gerrymandering at its core. The Republican Party does not care about what the American people want, only what the ,Äúpresident,Äù wants. This weakens the country,Äôs foundational principles and erodes democracy. Do not let this happen.
10/20/25 9:24 AM	Sarah Colonna		I am against the attempt to redistrict two of North Carolina,Äôs congressional districts midway between the U.S. Census taking. As a North Carolinian, I believe everyone,Äôs vote should count and that North Carolina voters should choose their elected officials. Gerrymandering is NEVER acceptable. I offer a resounding 'NO' on redistricting these two congressional districts and do what is right and fair by North Carolina voters. _____
10/20/25 9:24 AM	Daniel Brannock		It is imperative that Americans trust the voting system. Without that trust, we cannot long survive as a democracy. I do not want to be a cynic, but it is impossible to believe that this redistricting is motivated by anything other than securing more Republican seats. Everyone can recognize the reality of gerrymandering; it has been a thorn in American democracy since the 18th century. It is also fundamentally contrary to the core of American values. I do not support this redistricting effort. I disapprove of why it began, how it is being executed, and its intent. If you want to address redistricting, leave it to voters to decide how districts should be drawn,Äîl'm sure you will find that, though the electorate is more divided than in generations, we can agree that democracy is more important than party.

10/20/25 9:24 AM	Mandy Moore	self	76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 9:24 AM	Emily Herndon		The redistricting that is being voted on is absolutely not okay. You all should be ashamed of using cheating tactics to win elections. This is NOT what the people of North Carolina want. Pass your budget, invest in healthcare for the people of NC, DO YOUR JOBS!
10/20/25 9:24 AM	Stop Gerrymandering! Bill Griffin	N/A	Stop gerrymandering now. This deprives citizens of representation, and has gridlocked government. Our democracy hangs in the balance.
10/20/25 9:25 AM	Kristine Buckley		Please refrain from redistricting NC completely Republican. I don't know if you saw the news this weekend, but MILLIONS of people marched in this country to protest the destruction of our democracy, and the authoritarian dictatorship being forced in its place. We don't like it. I have a right to make my voice heard just like my Republican counterpart. Redistricting NC red, completely invalidates the entire process of voting. I know this is of course the objective - to take away the right of people to vote. But make no mistake; this redistricting is a Declaration of War On The People of North Carolina. That is your message to us. This is a purple state. And we will fight for our right to vote AND to give meaning to that vote. Why not try it the old fashion pre-trump way? Why not come up with policies and solutions to problems instead of cheating? Right now, that would actually be a novel concept. DO NOT REDISTRICT NC RED!!!
10/20/25 9:25 AM	Mr Jason Beverly	None	Elected representatives receive their power only through the will of the people, and if the will of the people is obscured then the government no longer represents the will of the people. Political gerrymandering replaces the will of the people with the will of those running for office. in light of this, I submit my protest against the continued use of politically gerrymandered maps.
10/20/25 9:25 AM	J Court		With very little notice of this meeting and request for comments, it almost seems as if there is not a desire by our elected officials to welcome public input into a process that will impact the people of North Carolina for years to come. Is that truly the legacy you want to leave, and how you want to be remembered by history? The redistricting process should be entrusted to a nonpartisan group to maintain balance and serve ALL North Carolinians, and to help rebuild trust in our government. Partisan gerrymandering should be relegated to the history books, not actively practiced in the 21st century. We need to be better than this.
10/20/25 9:26 AM	Ms Shelby Powell	NC citizen	I am writing to voice absolute opposition to the Republicans' mid-cycle redistricting plan. This is a stain on our democracy and I suggest all legislators revisit a middle school social studies class if they need a refresher on how our republic is supposed to work. I cannot think of anything more blatantly un-American than attempting to manipulate votes and voters in an attempt to hand our country over to a rising authoritarian regime. History will not look kindly on this.
10/20/25 9:26 AM	Carrie Tweeten		Both parties oppose gerrymandering in North Carolina, including 87% of Democrats and 78% of Republicans. The power of the people is GREATER THAN the people in power!
10/20/25 9:26 AM	Mr. Henry Christofferson		I am writing to express my strong opposition to the recently proposed redistricting maps. These maps do not reflect the fair and equal representation that North Carolinians deserve. Instead, they appear (actually intended) to be drawn to serve political interests rather than the interests of our communities. Redistricting should be about ensuring that every vote carries equal weight and that communities are kept together, not divided for partisan gain. The proposed boundaries dilute the voices of many voters,Äîespecially those in diverse and growing areas,Äîand undermine public trust in our democratic process. North Carolina citizens have repeatedly called for transparency, fairness, and accountability in how our districts are drawn. Yet, this process has once again taken place behind closed doors, ignoring the input of the very people it affects. This is unacceptable. I urge you to reject these maps and return to the drawing board with a genuine commitment to fair representation. Our democracy works best when voters choose their representatives,Äînot the other way around.
10/20/25 9:26 AM	Elena Jacobson		The people of North Carolina deserve proper and fair representation since we pay taxes for the state. Do not fail the people that elected you into office. Do not bow down to this administration because you think it,Äôs easier. Support the people of NC that support you; fight for them. Do not redistrict this state to make it more unfair.
10/20/25 9:26 AM	Christal Roberts		Stop cheating and accept voting results!
10/20/25 9:26 AM	Hendey Buckley		We deserve fair voting maps in our state, not maps designed to keep any one party in power or to diminish the votes and the voice of those already most marginalized in our state. North Carolinians demand and the Constitution requires fair process - not gerrymandering.
10/20/25 9:26 AM	Kenneth Plott		Extreme gerrymandering makes our legislature less representative in a state which is roughly 50/50 Democrat/Republican.

10/20/25 9:27 AM	Tin Wilson	Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Âô ability to hold our leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through cheating. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! Redistricting now is unnecessary, rushed, and costly. The public is not being given enough time to consider the proposal and discuss it with their representatives. Legislators should focus on passing a state budget instead of rushing through an unfair redistricting plan that will likely result in costly litigation. North Carolina is already one of the most heavily gerrymandered states in the country. There is no excuse whatsoever for making the situation worse. We need to restore fair maps, not create even more unfair maps. The proposed maps would dilute the political power of Black North Carolinians, ‚Äúcracking‚Äù the northeastern Black Belt into two districts. This is in direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color.
10/20/25 9:27 AM	Laura Yountz	Do not redistrict. Gerrymandering disenfranchises voters, is immoral and against everything this country stands for, and our local elected leaders should stand for. We select our representatives and lawmakers. They should not be selecting us.
10/20/25 9:27 AM	Mrs. Lisa Crozier	NC LEGISLATORS, ATTEMPTING TO REDISTRICT OUR STATE FOR THE MIDTERM ELECTION, AT THE BEHEST OF Mr. Trump IS WRONG! IT IS UNAMERICAN! I AM APPALLED THAT YOU ARE EVEN CONSIDERING THIS! YOU ARE HELPING THIS MAN(Trump) TURN US INTO A DICTATORSHIP. OBVIOUSLY, he-Trump, IS AFRAID OF THE MID TERM ELECTIONS AND THE PROBABLE RESULTS OF CONGRESS FLIPPING AND PUTTING A STOP TO HIS ILLEGAL ACTIVITIES AND UNLAWFUL ACTIONS AND BEHAVIORS!
10/20/25 9:27 AM	Shannon Whitt	I oppose the NC General Assembly attempts at gerrymandering! Citizens of NC deserve fair representation.
10/20/25 9:27 AM	Stop CHEATING Emily Graham	Please stop cheating so many people out of their votes in this state. This is NOT democracy ,Äî it's blatant subversion of the voters of this state. Just because you can do a thing does not make it moral or just or democratic. The current maps already do not accurately represent the people of North Carolina and seeking to make it worse is incredibly dishonest.
10/20/25 9:27 AM	Tim Jackson	It is beyond wrong to continue to gerrymander our votes away. Please vote no! In fact, get rid of redistricting for all political parties! lets find a way to make this nonpartisan and fair!
10/20/25 9:27 AM	Mark Rodin	Congressional redistricting should be done only following each census and NEVER to obey the requests of ANY US President
10/20/25 9:28 AM	Cynthia Hemminger	This redistricting plan is outrageous and un-American. We will hold the bill's supporters accountable.
10/20/25 9:28 AM	Mr Cole Saylor	Really republicans? You have to cheat? All for trump. Trump is the hill yall want to die on. Really. He is tanking the economy, giving 40 billion to Argentina, killing our farm industry, crashing the dollar ect. We all see it. You work for us. You are our employees. Do your job. No one wants new maps but your fascist orange dictator. Grow a spine or grow a pair and say no. You are actively hurting your own constituents. Health insurance is about to skyrocket, millions will lose coverage. Do something that helps us. Do better. Vote no.
10/20/25 9:28 AM	New Maps Hannah Imankulov	I would like to express my concern and outrage about the new proposed Congressional district Maps. They are designed to take votes away from the majority of the North Carolina voters and they are unfair.
10/20/25 9:28 AM	Jennifer Connerley	I am writing to oppose redistricting in North Carolina. Even my seven year old child knows that North Carolina is already one of the most gerrymandered states in the union, and she knows that cheating to win is wrong.

10/20/25 9:28 AM	Dyanna Clark	I am writing today as a concerned resident of North Carolina to express my strong opposition to the proposed congressional redistricting map. This plan represents a clear and harmful partisan gerrymander that undermines the democratic process and disenfranchises voters across our state. For years, North Carolinians have been forced to vote in districts that are manipulated for political gain rather than drawn to represent our communities fairly. It is disheartening to see our elected officials once again prioritizing partisan advantage over the will of the people. How can prioritize redistricting when we can't even pass a state budget to fund the schools? National polls have repeatedly shown that voters from all parties strongly reject partisan gerrymandering. The people of North Carolina want fair maps, transparency, and a system where every vote counts equally. You were elected to represent North Carolina, not to obey the whims of a president striving for more and more power. Do better.
10/20/25 9:28 AM	Bruno Estigarribia	Wow, such crass disregard for any form of representative democracy. Y'all have absolutely no shame. There is a place in hell for politicians like the ones who are backing this map.
10/20/25 9:28 AM	Mr Larry heyl	Do not, under any circumstances redistrict until the 2030 census. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable.
10/20/25 9:29 AM	Reject Redistricting Bennett Chapman	I ask that the NCGA reject this current redistricting proposal submitted October 2025. The previously drawn districts that were implemented by an independent judicial redistricting committee resulted in a representative Congressional delegation. People should choose their elected representatives in Congress, not members of the NCGA.
10/20/25 9:29 AM	Ms. Katherine Hofmann	Dear Representatives Addison, Jones, and Lambeth, As a resident of Forsyth County and a person of faith, I,ÄôÄôm writing to express my deep opposition to the current plan to redraw North Carolina,Äôs congressional districts mid-decade. This effort represents an unnecessary and wasteful misuse of taxpayer resources at a time when our state and nation face real challenges that demand your attention. Our state,Äôs voters are nearly evenly divided between Democrats, Republicans, and independents. Yet this proposed 11,Äì3 congressional map would give one party disproportionate power while silencing millions of voices. That is not representative democracy, it,Äôs manipulation of democracy for partisan gain. Redrawing districts again so soon after the last round wastes time, public money, and trust. These constant political games erode confidence in government and distract from issues that actually affect North Carolinians,Äô daily lives. As a Unitarian Universalist, I believe in the inherent worth and dignity of every person, and that includes the right of every citizen to fair representation. The plan to remove diverse, majority-Black communities from the 1st District is not just politically cynical, it is morally wrong. Gerrymandering that dilutes minority voices violates both the spirit of the Voting Rights Act and the ethical principle of equity that all just societies require. Instead of wasting legislative energy and taxpayer dollars on redistricting schemes, I urge you to focus on policies that improve life for all North Carolinians. That includes protecting and expanding Affordable Care Act tax credits and ensuring that healthcare remains accessible to those who need it most. A government that truly serves the people would strengthen the social safety net, invest in schools and infrastructure, and uphold democratic transparency, not undermine it through closed-door map drawing. Please open this process to the public, listen to voters across the spectrum, and reject any map that subverts the will of the people. North Carolina deserves leadership that values fairness, integrity, and compassion more than partisan advantage. I will be watching your vote closely and encouraging others in my congregation and community to do the same.
10/20/25 9:29 AM	Redistricting Delphine Peller	North Carolinians have a history of balanced polling choices. To use gerrymandering as a tactic to swing an election not only is bush league cheating, but it does a disservice to the people of NC. No longer is there talk of representation or fighting for progress in DC,Ä¶it,Äôs just winning. NC deserves to have representatives that care, that work with integrity and that speak for districts that make sense.
10/20/25 9:29 AM	Larry Seiger	As a registered independent I am opposed to this kind of mid-decade redistricting. I will oppose any politician who votes for this.
10/20/25 9:30 AM	Gavin Chase	Partisan redistricting erodes public trust, silences communities, and undermines the very foundation of democracy. Every citizen, including Republican, Democrat, and Independent alike, deserves an equal voice in choosing their leaders. Manipulating district lines for political gain is not leadership; it,Äôs corruption by another name. Countless thousands of North Carolinians stood up on 10/18/25 to declare that this state OPPOSES dictatorship and the intent to horde power. We are all watching this vote closely, and any vote in favor of this motion will label that legislator as an enemy of North Carolina's democracy and its people; we will not forget.

10/20/25 9:30 AM	Chelsea Hjalmarson		Vote NO on redistricting. This is gerrymandering and is cheating. Send our state voting districting to an independent committee. Congress people should NOT be in charge of drawing our voting maps.
10/20/25 9:30 AM	Ms Patricia Crissman	NC citizen	Please refrain from mid-census redistricting. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 9:30 AM	Elizabeth Arsenault		As an nc citizen and constituent, I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. NC's motto is to be rather than to seem and I am sick of seeming to be a place that values liberties and freedoms but in actuality does not. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 9:30 AM	Catherine Cohen		It is my sincere feeling that redistricting at this time is politically motivated, not driven by meaningful shifts in the population of North Carolina. Given North Carolina's history of resisting democratization (going back to the Jim Crow era: https://www.ncpedia.org/civil-rights-movement#:~:text=By%20the%20early%202000s,%20nevertheless,continue%20to%20the%20present%20day.) and recent controversies regarding blatant racially-motivated redistricting (https://www.brennancenter.org/our-work/analysis-opinion/north-carolinas-racially-discriminatory-maps-show-why-voting-rights-act), I feel that moving forward with the proposed maps is an attempt to undermine participation and representation in the democratic process. When voters believe their vote will not matter, participation in elections falls (https://www.journals.uchicago.edu/doi/10.1086/725767). Knowing this is the case, the current map revision appears to be a naked grab for congressional power at the behest of the president. It is incumbent upon the elected leaders of North Carolina to ensure that our congressional maps ensure competitive and representative districts exist so that political differences can be sorted at the ballot box. I implore the NC General Assembly to reconsider revision to the maps. It sets a precedent that the GOP in NC serves at the pleasure of the president, not out of obligation to their constituents. Setting aside differences of opinion on conservative policy, it must be acknowledged that any action that gives the impression that Washington controls or influences state-level decisions is dangerous and undemocratic.
10/20/25 9:30 AM	Fair voting Connie Freeman		This is a sad attempt to redraw congressional districts to increase the republican advantage. This is an abuse of power!
10/20/25 9:30 AM	Charles Robinson		I am strongly opposed to this blatantly partisan gerrymandering move. The citizens of North Carolina deserve a legislature that works for ALL of us, not only the party in majority power.
10/20/25 9:31 AM	Ms Elizabeth Rutledge	Citizen	To redistrict in North Carolina now, is a deliberate tactic to ram through a gerrymandered map. The Republicans are trying to rig the game in their favor. It's illegal. We deserve fair representation.

10/20/25 9:31 AM	Dr James Herrington		October 20, 2025 Dear Members of the Committees, I submit this comment to express my strong opposition to the proposed Congressional redistricting plan currently before the General Assembly. The plan, as drawn, not only undermines public confidence in our electoral system but also appears to violate both the letter and the spirit of state and federal law. The redistricting proposal advanced by the Republican majority is a clear example of partisan gerrymandering. It manipulates district boundaries in a way that entrenches partisan power and weakens the ability of North Carolinians to elect representatives who truly reflect their communities. Such practices thwart the will of the people and violate the constitutional principles of equal representation and free elections guaranteed under Article I, Sections 2 and 10 of the North Carolina Constitution. Further, the proposed map appears to diminish the voting strength of certain racial and political groups, raising serious concerns under the Equal Protection Clause of the Fourteenth Amendment and the Voting Rights Act of 1965. North Carolinians deserve congressional districts that are compact, contiguous, and community-based,Äînot engineered for partisan gain. Fair representation is the cornerstone of democracy. When district lines are manipulated for political advantage, citizens lose faith in government, and our democratic institutions are weakened. I therefore urge the Committees to reject this plan and instead pursue a transparent, bipartisan redistricting process that incorporates broad public participation and adheres strictly to constitutional and statutory requirements. Specifically, I ask that the General Assembly: 1.Draw congressional districts that ensure equal representation for all citizens regardless of race or political affiliation; 2.Preserve counties, municipalities, and communities of interest wherever feasible; 3.Publish proposed maps and data well in advance of any votes to allow for meaningful public review; and 4.Commit to a nonpartisan redistricting process that upholds the trust and integrity of North Carolina,Äôs democracy. Thank you for your time, attention, and service. The people of North Carolina deserve fair maps and fair representation. Please stand with the voters,Äînot the politicians,Äîand reject any redistricting plan that undermines our shared democratic values. Respectfully submitted, Dr. James Herrington
10/20/25 9:31 AM	Kasey Morris		This is wrong and against voters rights. This is an attempt to control who wins and it is unfair. Please vote no on redistricting!!
10/20/25 9:33 AM	valerie martin		I am a Forsyth County resident , life long NC resident. The Fourteenth Amendment: The Equal Protection Clause prohibits drawing districts in a way that dilutes minority voting strength. We know that this new redistricting attempt is a direct result of a request- implicit or explicit from President Trump to secure GOP votes in NC. This further further disenfranchises voters in NC that seek to have a more balanced representation. Also, outside of historical precedent that redistricting take place as a result of US census data. Please conform to voters in NC. ALSO- pass a budget- 4 months overdue!
10/20/25 9:33 AM	Mr Antone Rose	NC resident	I ama registered INDEPENDENT. I am totaly against the plan to redistrict the state in support of one political party over the other. This is a blatent attempt to give control of the political process to one party over the other. Why not take the efforts this action requires into more productive actions that will benefit the people of the state of NC? There are plenty of real problems/issues within the state that need the House's attention.
10/20/25 9:33 AM	Ms Cinthia Johnson		I object to any mid-decade redistricting. And I object to ANY redistricting that at its core purpose is to distort representation and undermine the voting power of people. A representative should be just that - a representative of the people of this state and their district - not a way to serve a dictator. This violates the constitutional intent of representation.
10/20/25 9:33 AM	Robin Astor	NC Resident	Do not support or pass the new redistricting legislation! Politicians should not be allowed to draw voting maps that benefit themselves. We need to create a fair system so that voters choose their politicians, not the other way around.
10/20/25 9:33 AM	Ann Sullivan		Partisan gerrymandering is in democratic and erodes the will of the people leading to less competitive elections and diminished accountability for elected officials.
10/20/25 9:33 AM	Mrs Katherine Lorenz		I am ready to let you know that I am strongly opposed to mid-cycle partisan gerrymandering. It silences voters divides communities , and reduces competition and accountability. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. Most importantly this type of gerrymandering weakens our democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of our system and people stop believing their vote matters at all.
10/20/25 9:34 AM	Ms Lynda Van Kuren		I oppose the redistricting/gerrymandering of North Carolina. You are depriving NC citizens of their voice in the electoral process.
10/20/25 9:34 AM	Dr. Robt Marotto		Redistricting is undesirable and undemocratic Please respect the varied opinions of the NC electorate rather than bending to MAGA mischief.

10/20/25 9:34 AM	Cynthia Crossen	I strongly object to the current proposal of redistricting being pushed through by NC Republicans. Our democracy can't function when elections are determined by partisan gerrymandering, as in the current proposed legislation. The only way to end these rigged maps for good is through real reform--with independent redistricting commissions to take that power out of politicians' hands, and proportional representation to ensure every voter's voice counts.
10/20/25 9:34 AM	Mrs Sharon Cole	It is amazing to me that the GOP has decided to steal another seat in the state! I used to be republican and feel ashamed of that fact now. Why don‚Äôt they try to win fair and square!!!
10/20/25 9:34 AM	Mrs Karen Finnegan Meyers	STOP THE STEAL!!! NC Republicans need to find integrity! Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It‚Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS.
10/20/25 9:34 AM	Kenneth Dalsheimer	I am writing to oppose efforts underway by the NC House Select Committee on Redistricting and Senate Elections Committee to further erode our democracy and elections in North Carolina with the GOP redistricting plan for Congressional District 1 in eastern NC. I plead that you abandon this mid-decade redistricting effort and further erode the voice and voting rights of North Carolinians. Gerrymandering is wrong in this case, in previous efforts by both parties here in NC and across the country. Gerrymandering like this effort underway is anti-democratic, has politicians picking their preferred candidates rather than the voters of NC, violates the core democratic principle of equal representation, and goes against core conservative values of transparency, integrity, and competition. Finally, the majority of North Carolinians from across parties and political affiliations, believe this kind of gerrymandering and voter manipulation should be illegal and that it undermines the need for government to remain accountable to the people it serves. I urge you to do the right thing here, look into your hearts, to help turn the tide of this kind of gerrymandering and antidemocratic manipulation FROM BOTH PARTIES and move our state toward a fair, just, pro-voter system of elections . Thank you for your consideration, Kenneth Dalsheimer
10/20/25 9:35 AM	Brenda Murphree	This rushed, mid-decade redistricting plan is unnecessary, illegal, and immoral. The proposed maps would illegally dilute the voting power of Black North Carolinians, in direct violation of the Voting Rights Act. Our Republican leaders in the General Assembly have already turned an evenly purple state into one of the most heavily gerrymandered states in the nation. Don't make it worse. We need and deserve FAIR maps here in NC, not yet more attempts to artificially manipulate voting districts for partisan gain.
10/20/25 9:35 AM	Gerrymandering Janny Wind	Stop Gerrymandering
10/20/25 9:35 AM	Grace Sweeney	depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It‚Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS
10/20/25 9:35 AM	Jamila Khabir	The residents of North Carolina want free and fair elections with resulting policies and leaders they can place their faith in. Recent polling shows NC residents are overwhelmingly AGAINST REDISTRICTING. I believe it's important that registered voters know their civic participation is actually meaningful. I believe it's important that future voters know it is worth participating in elections, downballot and up. That their civic engagement and concern will result (meaningfully) in fairer policies, solutions, and greater representation. I'm concerned that if congressional districts are gerrymandered further, people in this state and across the country will have a legitimate reason to feel demoralized and powerless. To disengage when we need everybody included, everybody invested, in the discussion and in the civic matters that touch every life. We need our voices. We need to be heard peacefully through the ballot box. We need fair democratic representation. We deserve good-faith solutions. Not stunts or distractions. Thank you for reading my comments. - Jamila Khabir

10/20/25 9:35 AM	Rodney Embler		Opposition to Proposed Congressional Map and Mid-Cycle Redistricting I am writing to express my strong opposition to the proposed congressional map currently under consideration by the North Carolina General Assembly (NCGA). I stand with the League of Women Voters NC and others who believe this mid-cycle redistricting is an unwarranted abuse of legislative power. My opposition is based on the following concerns: Undermining Voter Confidence: Redrawing district lines between census years serves no purpose other than to secure partisan advantage. This maneuver undermines the public's confidence in the fairness and stability of our democratic processes. Partisan Gerrymandering: The proposed map appears to be a clear attempt at partisan gerrymandering. These changes will silence communities, dilute the voices of many voters, and lead to an unrepresentative government that does not accurately reflect the political makeup of North Carolina. Instability of Democracy: Mid-cycle changes inject unnecessary instability into our political system. Legislators should focus on governance, not on manipulating electoral boundaries for political gain. I urge the members of the NCGA to reject the proposed congressional map and to prioritize the creation of truly Fair Maps that serve the voters of North Carolina, not just one political party. North Carolinians ,Äì Republicans, Democrats, and unaffiliated voters ,Äì are AGAINST gerrymandering.
10/20/25 9:35 AM	Beverly Wilson	Farming housewife	Currently NC has registered voters split between Democrats, Republicans, and Independents with about 1/3 each. As an Independent I find this power grab disgusting since Republicans already control 10 of 14 district seats. While redistricting may be ,Äúlawful,Äù it is not morally right. Republicans need to quit claiming to be Christians if they are more interested in power than being fair to all.
10/20/25 9:35 AM	marty benson		This plan, disenfranchises voters, weakens democracy, and stands against the foundational principles of our country.
10/20/25 9:35 AM	JP Doty		I am against redistricting to further restrict voting for people you dont like.
10/20/25 9:35 AM	Heather Swisher		Stop redistricting on basis of giving one or another political party a benefit. This is disgusting and stops the people from having a voice. The people's voice is the basis of our democracy!
10/20/25 9:35 AM	Candance Goins		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/20/25 9:36 AM	Crystal Baity		I do not support redistricting at this time and I do not agree with the new proposed congressional map. Here you go again messing with eastern North Carolina and trying to disenfranchise and take away majorities. It's only being done at the request of the president. Texas started this mess because the president asked Republican-led states to do it. California is responding back, so give up the argument that you're only doing this because of California's planned actions. The real reason you're doing this is because you're power-hungry and don't want to lose the next election. People should be able to choose their representatives - not the other way around. You want some examples of your other power grabs? Stripping the elected governor of NC what has been traditionally his legislative authority. Look no further than the Dave Boliek. Look no further than making local school boards partisan. How about working on things that are needed now, like a state budget, like health care, like jobs instead of jumping when the president tells you too.
10/20/25 9:36 AM	Emeritus Professor Steven Washburn		As a registered Republican in a purple state, it seems unrealistic and unethical to have 10:4 (or worse 11:3) ratio of R:D Congressional districts. Further, state legislative districts drawn to result consistently in super majorities in both houses is a form of voter fraud. We can do better than this. Regards, Steve Washburn
10/20/25 9:36 AM	Ms. Terri Buckner	Advocate for Democracy	I am 500% opposed to this redistricting plot. Please stop acting like MAGA advocates. We elected a Democratic governor and several other council of state positions last year. We are NOT a MAGA state. We are a moderate state and this misguided proposal does not represent this state. I believe in our Constitution. I believe in the people of North Carolina. I oppose all gerrymandering. Let the people speak for themselves, not through the Republican leadership's misguided partisanship.
10/20/25 9:37 AM	Sim Alst		This will not ensure good government by the state of NC. If you water down people,Âôs vote now you,Äôll never be able to blame the democrats for ruining America.

10/20/25 9:37 AM	Lynn Wagoner		Redistricting must be done in a bipartisan manner. To use it for political gain is disgraceful. There was a time when I voted for the best candidate regardless of party. The Republicans in power currently have made me no longer even consider voting for anyone from that party. I believe in a true democracy. Voting for this redistricting effort is wrong.
10/20/25 9:37 AM	Dan Shook		The citizens of North Carolina and especially District 11 are closely watching your actions. Redrawning districts five times in six years is not serving the people of NC, so who are you serving? Elections are coming and we will remember!
10/20/25 9:37 AM	Julia Cox		I oppose the proposed redistricting map because it does not meet federal requirements that districts represent nearly equal populations to ensure every vote counts and it violates the Voting Rights Act ban on the dilution of racial and ethnic minorities. This is clearly a partisan move at the behest of the President to create districts that favor Republicans.
10/20/25 9:37 AM	Bad for NC businesses Emerson Huitt		As an independent voter and a North Carolina business owner who creates high paying jobs in NC, I am appalled by current efforts to change NC legislative maps. These redistricting changes are bad for North Carolina and they are bad for business. They will hurt the state's economy. They will hurt NC businesses like mine. They will hurt NC families who expect you to represent their interests not the interests of Washington DC power grabs. My company works with venture funded startups and multinational companies with operations in our state. The startupswe work with depend on VC funding from other states where capital is confident that the state government will be functional, representative, and business friendly. Our multi-national customers see the risks inherent in continued investment in a state where the rule of law is discarded for naked power grabs. If you redraw these maps, that money will be invested in states where there is not a risk of the government changing because someone wants more seats.
10/20/25 9:38 AM	Kristi Mizen	Retired	You must stop the gerrymandering that NC is getting ready to implement. We are strongly opposed to this move. Do not approve this. Thank you.
10/20/25 9:38 AM	Redistricting David Woodward		Please reconsider your redistricting efforts. They only hurt our state and country. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. I am an unaffiliated voter and wish that I didn,Äôt have to be.
10/20/25 9:38 AM	Andrew Oliver		I am against the NC redistricting effort as an affront to fair representation among our statewide and local elections. Please recognize that this effort is against the will of the majority and serves no purpose to benefit our citizens.
10/20/25 9:38 AM	Alice Kexel		I am writing to let you know that I am strongly opposed to mid-cycle partisan gerrymandering. It silences voters divides communities , and reduces competition and accountability. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. Most importantly this type of gerrymandering weakens our democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of our system and people stop believing their vote matters at all.
10/20/25 9:38 AM	John Turner-McClelland		This redistricting plan is unnecessary and a complete waste of the Assembly's time. The districts were already redrawn a year ago to favor the GOP overwhelmingly. Making it favor the GOP even more so is unethical at best. Our state is middle of the road. It always has been. We didn't just vote for a Republican President and Democratic Governor because we are a "red state". That is untrue. The Assembly should be spending its time passing a budget and increasing teacher pay instead of placating to a radical fascist in Washington DC.
10/20/25 9:38 AM	Mrs Deborah Hawes		Dear Ones, Our Democracy is being destroyed when you gerrymander fake voter districts. If you can,Äôt win an election honestly, you don,Äôt belong in government.
10/20/25 9:39 AM	Kelly Work		Redistricting to favor any particular demographic is unethical and bad for North Carolinians. Our communities function best when who we are is represented in the state legislature. Say NO to redlining!
10/20/25 9:39 AM	Aundrea Roach		Please fight back against the redistricting of North Carolina. This move blatantly tips the scales of a fair election by favoring certain political parties.
10/20/25 9:39 AM	No gerrymandering! Mark Degan		No gerrymandering! Doing this is simply a bandaid for actually focusing on today,Äôs issues and problems. Gerrymandering will only delay productive conversations and us coming together to fix what is broken and not working.

10/20/25 9:39 AM	Mr. Mark Donnell		I am opposed to this redistricting plan and vote as there was no warning or publicity to allow the public to input. It seems to be occurring as the result of pressure from President Trump and does not allow us to weigh in and contact our NC Senators and representatives. We, your constituents deserve to be treated with respect so you know how to represent us in annhonest, open, and forthright fashion. Please cote to postpone this vote until we all have time to respond. Respectfully yours, Mark Donnell 177 Lynnewood Drive Mount Airy, NC
10/20/25 9:39 AM	NO REDISTRICTING Michael Toledo		There is no reason to redistrict again after TWO YEARS since the last redistricting, except to try to silence the majority of voters in North Carolina. Please. Republicans. Wake up. You are only serving a tyrannical administration that wants your constituents to be hungry, sick, uneducated, and poor. You will be a pawn in the grand scheme and no matter what your intentions are, you know this is headed for disaster. If you have to cheat to win, you,Äôre cheating the people you claim to represent. And I promise you, you will all be the ones to ultimately pay when this administration starts to force you to do other unconscionable things. America as our founding fathers built it is crumbling and you can help stop it. Please.
10/20/25 9:39 AM	Karen Lewis		STOP gerrymandering NOW. Voters should choose their representatives, not vice versa.
10/20/25 9:39 AM	Ronald Geary	Ronald F Geary, CPA	This proposal is simply undemocratic please do the right thing do not continue with this initiative
10/20/25 9:39 AM	J Soper	White US citizen who votes at every election	What has happened to the Republican Party that I respected? Stop the gerrymandering.
10/20/25 9:39 AM	Prof Liesbet Hooghe	UNC Chapel Hill	The American people want fair and democratic elections--and both Republicans and Democrats agree. In a large-scale national-representative survey I did, just 18% of Reps thought Gerrymandering was 'fair' and 22% said it was democratic. Solid absolute majorities judge it unfair and undemocratic. Similar numbers for democrats. Why tear down one of the few principles we still share?
10/20/25 9:40 AM	Kathleen Hofstadter		Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps.
10/20/25 9:40 AM	Cole Parke-West		As a North Carolinian, I believe everyone,Äôs vote should count and that North Carolina voters have the right to choose their elected officials ,Äî ideally people who will represent them and the needs and interests of their communities fairly and effectively. That's why I am against the undemocratic attempt to redistrict two of North Carolina,Äôs congressional districts midway between U.S. Census taking. Recent polls found that 84% of North Carolina voters said gerrymandering is NEVER acceptable, including 78% of North Carolina Republican voters, 85% of North Carolina unaffiliated voters, and 87% of North Carolina Democratic voters. Listen to the people, listen to your conscience, and do what is right and fair by North Carolina voters ,Äî please vote 'NO' on redistricting these two congressional districts.
10/20/25 9:41 AM	Elizabeth Norris	United Methodist Church	I ask that you vote against gerrymandering.
10/20/25 9:41 AM	Mary Jo Holmes		GOP NC House and Senate leaders are making the change to help President Donald Trump not for the good of their voters. Phil Berger is doing this for Donald Trump and he will profit from it somehow. Donald Trump is a criminal and a rapist-this who the NC GOP is helping, not the people of NC.
10/20/25 9:41 AM	Mrs Deborah Hawes		I am absolutely against destroying our Democracy with fake gerrymandering of voter districts. You Make America Great Again by keeping elections fair and honest.
10/20/25 9:41 AM	Joanna Green		I strongly object to the proposed redistricting plan! This is an un-American project, designed to thwart the will of the people, and you dang well know it. Stand up for the people now or be run out of office by us in 2026.

10/20/25 9:42 AM	Casey Hilliard	Citizen	Good morning. I am writing to express strong opposition to the 2025 Redistricting proposal. The proposed maps are anti-democratic and designed to deny to limit our voting rights. A core tenant of conservative and American values and democracy itself is a government for and by the people. The proposed maps are not about fair representation but keeping certain parties in power or growing their control of the government. They are anti-democratic and simply unfair. Sadly, when those in power no longer seek to represent the people we not only erode the very principles of democracy that we aspire to achieve we weaken our state. It is the differences that make us as a whole stronger, more innovative, more competitive. Please consider the people you represent, the majority of us do not support these redistricting maps, vote no on the moving the plan forward. Trust your citizens, when we are all given the opportunity to use our voice, when each and every vote counts, we all grow and we all benefit. Thanks, Casey Hilliard Pittsboro, NC
10/20/25 9:42 AM	Shame Melissa Banno	None	This is the first time I've ever submitted a public comment. I am so tired of feeling embarrassed to be an American. And now it looks like my state will also become an embarrassment, one more place where greed is king and democracy is dying. Even if this were "just a game" it would require that all teams agree on the rules. When one team decides the rules don't matter and they bribe or fire the referees who don't support them, it is no longer a game. It looks like the NC Republicans are following the President's leadership and are so hell bent on winning they don't see the destruction of our democracy and disenfranchisement of our voters. I'm begging you to please stop this madness and make me proud to be an American and North Carolinian again ??
10/20/25 9:42 AM	Mrs Amy Spears		It is wrong and you all know it is wrong. If you can't win FAIRLY, maybe you should address the reasons for that, instead of cheating.
10/20/25 9:42 AM	Fair maps Medb grace		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. This proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year‚Äôs election before dropping big changes to next year‚Äôs.
10/20/25 9:42 AM	Alona Pivovarevich	Patton Allen Real Estate	I strongly oppose mid-cycle partisan gerrymandering. It silences voters, divides communities, and wastes taxpayer money. Constantly changing district lines breeds confusion and discourages participation. Above all, drawing maps to entrench one party‚Äôs power erodes trust in our democracy and makes people feel their votes don‚Äôt matter.
10/20/25 9:42 AM	Julie Whittaker	I represent myself and my grandchildren	I strongly disagree with redistricting in 2025, especially since the Republicans are reacting to a request from Donald Trump to do so. It is simply wrong to redistrict this year, out of the legal sequence, to skew the state more out-of-balance. Please do. not vote for this ill timed, ill conceived move.
10/20/25 9:43 AM	Ms Cesarine Berry	Durham Friends Meeting	These new gerrymandered maps destroy our democracy! It's cleary a mandate for a one party system of Republicans. Trump does not have a mandate in our state or the country! Trump won the 2024 Presidential Election with 49.8% of votes nationwide and 50.9% in NC. I am a native North Carolinian and my ancestor Captain Benjamin Moore a proud Revolutionary Soldier. This kind of corruption to our precious democracy is not what he fought for and others died in battle for. Please step up Republicans and do what is right for our state!
10/20/25 9:43 AM	Carmen Mendoza		The proposed maps are a disgrace and do not reflect the voting population of NC. This new effort to redistrict is a blatant attempt to steal another House seat. You could not win on your unpopular policies so you cheat. This is unacceptable and history will not look kindly upon you.
10/20/25 9:43 AM	Mr Shawn Mitchell		To NC Republication representatives: You know what you ate doing. You know that it is racial gerrymandering. You know it will be challenged in the courts as an illegal map. You still don't care. By bowing to a ki g, you have shown your constituants who you are. Thank you, for giving the majority purpose for your removal and the fire needed to unseat you.
10/20/25 9:43 AM	Anthony Enrico		No

10/20/25 9:44 AM	Dr. Laura Wimbish Vanderbeck		"Representative" democracy means just what it says; a form of government where ALL of the people who live in and contribute to an area are fairly represented by elected leaders. Note the word "fairly". Gerrymandering is NOT fair and aims to obstruct the will of the people. You want us to pay taxes to support this state? Then stop playing these dishonest games and stand up for what we all know to be the real definition of Democracy! NO TO THIS DESPICBLE ATTEMPT AT GERRYMANDERING OUR STATE EVEN FARTHER THAN IT ALREADY IS. "THANK YOU FOR YOUR ATTENTION TO THIS MATTER" (yes, very sarcastic!)
10/20/25 9:44 AM	Jacinda Barton		This is a power grab by Republicans to cheat in elections and to disregard the will of the people!
10/20/25 9:44 AM	Elizabeth Sanford		The NC GOP proposed congressional redistricting plan is a blatant attempt to rig electoral outcomes in a state where voters are split nearly evenly between parties. By targeting the 1st Congressional District, Republicans are deliberately weakening the voting power of our fellow North Carolinians and shutting out anyone who disagrees with their power grab. This is even more ludicrous considering the GOP has already done this in the very near past. Drawing a map that hands Republicans nearly 80% of congressional seats in a competitive, near 50/50 state isn't governing, it's gaming the system to lock in wins you can't earn at the ballot box because your governing principles are highly unpopular and detrimental to the people of our state. North Carolina voters deserve to choose their representatives, not have election results decided ahead of time by maps designed to guarantee the Republicans stay in power no matter what people actually want. What the GOP and Phil Berger SPECIFICALLY are doing attacks the most basic democratic principle: that political power comes from the people's choice, not from rigged maps drawn only to favor corrupt Republican government officials. Handing favors to Donald Trump for personal gain should not be the way our state is governed. I vehemently protest the map changes that are under consideration. What's particularly troubling is how Phil Berger immediately thanked Trump and shared his endorsement after confirming that redistricting efforts were underway, making it crystal clear that Republicans and Phil in particular are taking marching orders from Trump to lock down a MAGA majority before the 2026 midterms against the will of the citizens of North Carolina.
10/20/25 9:44 AM	Ellen Beidler		Manipulating the electorate by extreme gerrymandering undermines the legitimacy of actions taken by a legislative body. Mid-decade reapportionment is an example of an extreme gerrymandering tactic. It demonstrates that those in power do not believe their policy choices are supported by the people they proport to serve. The North Carolina General Assembly has constructed a political system that meets the criteria for "competitive autocracy." Such systems tend to neglect the needs and values of the polity. The majority party apparently has given up on the responsibilities of actually governing to consolidate its power. However, might does not make right. North Carolinians need and deserve better.
10/20/25 9:44 AM	LORI Montalvo		I OPPOSE GERRYMANDERING!!
10/20/25 9:45 AM	Karen Zakeski	self	BY the people FOR the people, NOT gerrymandering of voting districts determined by partisan politicians. All citizens who are registered to vote deserve to have their vote counted fairly. The maps should not be redrawn outside of census years (1ce per decade) in an effort to benefit Trump in the mid-terms and future elections by falsely pushing the vote totals to one party. Shame on the Republican party who is trying to change the districting maps AGAIN even after wrongly doing so in 2023. North Carolinians deserve FAIR MAPS. Congressional representation needs to be equal. VOTE NO TO MAP CHANGES
10/20/25 9:45 AM	Gilbert Collins		10 Republicans 4 democrats represent nc voters in congress. The federal election saw about 50% voted for Trump 47% for Harris. Voter party affiliation is split evenly between Democrats and Republicans with democrats having a slight edge. Now you want to get the last 4 seats held by Democrats. Representation or power grab? Looks like a power grab to me. Not democracy. Republicans should be ashamed but they are not.
10/20/25 9:45 AM	Cynthia Shaw		Our state is already too gerrymandered. Stop it!
10/20/25 9:45 AM	Courtney Flaherty		Why do you insist on making your state suffer by Gerrymandering the districts so Democrats can never take seats? Please stop being incompetent and think about how you were hired to serve this state. You know better so please do better.
10/20/25 9:46 AM	Ms Antionette Gardner		This is just wrong. Let everyone have a choice. Stop trying to block our votes.
10/20/25 9:46 AM	Mr Lauren Yoder		Our legislators' obligation is to reflect the will of the people. The people's will is expressed by their votes. Therefore voting procedures should be protected. The proposed redistricting plan is an attempted power play, an attempt as Phil Berger admits, is doing whatever is possible to further the agenda of President Trump rather than the preferences of the people of our state.
10/20/25 9:46 AM	Amanda Yanushefski		I oppose
10/20/25 9:46 AM	TJ Richards		I am a constituent from Durham, NC and I‚Äôm urging all representatives in the NCGA to OPPOSE any attempts at redrawing NC congressional district maps before the 2026 midterms. This blatant power grab will silence even more voices of NC voter, and is hugely unpopular with voters on both sides of the isle. It‚Äôs absolutely NOT what the constituents want. Most voters agree that the people of NC should get to choose their leaders, not the other way around, so don‚Äôt do it. Thank you for your time, A concerned constituent, Thomas

10/20/25 9:46 AM	Dr. Sharon Kibbe		I am concerned about the potential effects of the proposed congressional redistricting plan on fair and equitable representation. The inclusion of Craven County in a newly drawn district appears to alter the balance of representation in a way that may not reflect the diversity of political perspectives within the community. Fair maps are essential to ensuring that all voters,Äîregardless of party affiliation, race, or background,Äîhave an equal opportunity for their voices to be heard in government. Redistricting should support competitive elections and protect the principle that elected officials represent the interests of their entire constituency. I respectfully ask that any changes to congressional districts be guided by transparency, public input, and a commitment to balanced representation rather than partisan advantage. The goal should always be to strengthen public confidence in our democracy and preserve the integrity of the electoral process.
10/20/25 9:46 AM	Medora Hix		I vehemently oppose gerrymandering by any political party in power. It is an affront to democracy and an insult to the voters. Instead of constantly redrawing voting districts to benefit one party or another, districts should be organized only with regard to population numbers and contingent geographical areas. The current Republican majority in North Carolina is shamelessly and arrogantly following a so-called 'mandate' notion from President Trump, a nonsensical interpretation of votes which only succeeded because of the Electoral College. Passing this redistricting bill is simply WRONG.
10/20/25 9:46 AM	Mr Matthew Leary	Americans for Rational Thought and Scientific Inquiry	The proposed redistricting plan is a travesty of justice and an afront to the idea of democratic rule. The Fox News Radicalized Republicans are throwing out all appearance of legality and bending the knee to the political whims of an orange-faced, dime-store dictator wannabe. From a legislature with a long history of gerrymandering, political marginalization, and outright racism comes a plan to further restrict the electoral power of the majority of people in this state to grab power for a deadbeat despot. If the Legislature has ever read the Constitution or take to heart their oath to defend it, they will not move forward with this terrible plan.
10/20/25 9:46 AM	Jennifer Talley		I know the Democrats gerrymandered the state years ago but that doesn,Äôt make it right for the Republicans to do it now. Have some integrity and make it fair for everyone.
10/20/25 9:47 AM	Sandra Torres		This is not democracy
10/20/25 9:47 AM	Debra Kay		It should be illegal for gerrymandering to be used to discriminate against voters based on their political party.
10/20/25 9:47 AM	Efiotu Jagun		I was born and raised in North Carolina. NC is split about evenly between Republicans and Democrats, but this map does not reflect that. On the contrary, it dilutes Black voters power to cater to a shrinking group of voters. Young voters such as myself are not ignorant, we can see what our elected officials are up to. Your actions will have an impact later down the road. You can mess with the maps now, but this is not a sustainable strategy.
10/20/25 9:47 AM	Kaitlyn Brasiskis		I am writing today to urge you in the most emphatic terms to vote no on the proposed redistricting plan for our state. Redrawing congressional districts specifically to ensure that only one party ever has a chance of winning any given election is unequivocally wrong. Gerrymandering is just plain wrong. Do not stoop to that level. As your constituent, I ask you to vote no.
10/20/25 9:47 AM	LaKiera Grimes		I am not in support of the proposed redistricting map and am highly concerned with the integrity of the draft map in question. The redrawn district appear to not follow traditional conventional or offer an adequate response to named changes in population without being bias to a racial group.
10/20/25 9:47 AM	Georgia Slatkin		I am a registered Republican, but I am disgusted by my party, and this is just one more reason. You are dishonest, and you are using redistricting to get your way in a dishonest manner. I still consider myself a Republican but I will no longer vote for y'all. My Republican family and friends do the same, so redistricting is not going to save y'all at the ballot box.
10/20/25 9:47 AM	Ellen Bonar		Pandering to the President is not representing the people you serve. Vote AGAINST the REDISTRICTING.
10/20/25 9:47 AM	Melissa Wooten		I am writing today to urge you to vote no for the redistricting. Gerrymandering is wrong, do not stoop to that level. Drawing lines so that only one party ever has a chance to win is not the way forward. We need to learn to come together as Americans and work through our differences to accomplish good. We can,Äôt do that if one party is given all of the power. As your constituent, I am asking that you vote no. Thank you for your time.

10/20/25 9:47 AM	Dr. Christine Fierro		Thank you for your work and for representing the people of North Carolina. I write to you about the proposed redistricting plan for Congressional District 1, in eastern NC. This proposal intentionally MISREPRESENTS the people of NC, and I urge you to not support such intentional representative manipulation. Super Majority: Please pay attention to the SUPER MAJORITY of North Carolinians - who ARE to be represented by the NCGA. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Thank you for considering ALL North Carolinians as you make proposals and decisions that affect all of us. The NCGA is employed by the people of NC. The people of NC are clear in what they expect and respect. Thank you, Christine Fierro
10/20/25 9:48 AM	Mr. Charles Bludsworth		Greetings- Please consider my strong opposition to the currently considered redistricting plan when you cast your votes. This idea leads down a slippery slope away from true representative government. In short, please vote no. Thank you for your time. Charles Bludsworth
10/20/25 9:48 AM	Dr. Timothy Lindeman	New Garden Friends Meeting	According to Carolina Demography currently North Carolina has the following registered voters: 2,886,573 or 38% were registered unaffiliated; 2,413,469 or 32% were registered Democrat; 2,285,377 or 30% were registered Republican; and 72,300 or 0.94% were registered to another party. Yet you are introducting a bill that would absolutely prevent the majority of voters in the state from having a say in the election of their representatives. Outrageous!
10/20/25 9:48 AM	Mrs. Cynthia Lodestro		It is outrageous that the proposed redistricting be permitted. It fixes the map in an unequal and unconstitutional way. It is the people that determine these voting districts and NOT THE POLITICIANS
10/20/25 9:49 AM	Mary Lee Brisotti		I am against redistricting or what we learned in school as Gerrymandering, because it should be illegal. If you can,Äôt win legitimately maybe you should change your platform. Be more inclusive, think about bettering our communities and our country, not twisting our maps into a pretzel for partisan gain.
10/20/25 9:49 AM	Mrs Annette Nickerson		This is a shameless abuse of power. All votes count. Re-doing voting districts to favor partisan divide is cheating and does not reflect the diversity of your constituents.
10/20/25 9:49 AM	Clayton Fielding		The proposed voting maps severely undermine fair representation by diluting the voices of Black and Brown communities across North Carolina. Every voter deserves an equal say in our democracy, yet these lines appear drawn to divide diverse neighborhoods and weaken their collective political influence. This isn,Äôt about partisan advantage,Äîit,Äôs about whether our state believes in equitable participation for all.North Carolina has a long history of communities coming together to expand access to the ballot. Let,Äôs continue that legacy by rejecting maps that silence minority voters and instead demand transparent, fair, and inclusive redistricting that honors every citizen,Äôs voice.
10/20/25 9:49 AM	Wendy McCall		I oppose the proposed redistricting plan. The new map does not reflect the voters of North Carolina.
10/20/25 9:49 AM	Drusilla Dykes		This is illegal and those who do this should be prosecuted to the full extent of the law.
10/20/25 9:49 AM	Hannah Gifford		Opposition to Proposed 2025 Congressional Map Dear Members of the Committee, As a concerned constituent in Fuquay-Varina, Wake County, I am writing to express my strong opposition to the recently proposed congressional redistricting map. These maps represent clear partisan gerrymandering that undermines the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. Manipulating district lines to achieve political advantage silences communities and weakens the integrity of our democracy. I urge you to abandon this politically-motivated map and adopt a plan that is fair, transparent, and representative of the will of North Carolina's voters.

10/20/25 9:49 AM	Ms. Norma Marti	Retired	It‚Äôs times like this that the voice of the people need to be addressed not just whitewashed over. In a democracy, which has taken centuries to address a ‚Äúmore perfect union‚Äù where ALL people can participate in a democratically elected representative government‚Äù WHY create a map that diminishes the voices of the people who‚Äôs ancestors helped FORGE the state and country we were founded to be! Stop! Think of our state‚Äôs legacy. Please do the right thing in creating voting districts that are UNBIASED and support the will of its people.
10/20/25 9:50 AM	Fair districts Adrienne Knowles		NC Republicans are about to pull off another power grab. No redistricting now!
10/20/25 9:50 AM	Mr Ashis Mohanty		I am thoroughly opposed to this redistricting effort. This is clearly undermining the voters of North Carolina in a partisan power grab to not reflect the true values of the state. You should oppose this bill in its entirety.
10/20/25 9:50 AM	Misty Murphy		Redrawing and approving new district maps this year falls well outside of the normal timeline put forth in the North Carolina State Constitution. The most recent redistricting happened only two years ago in 2023. That is eight years ahead of schedule. Even if you consider the original attempt at redistricting back in 2020, it is still very early to redraw a map that was approved and not rejected by a court. In my opinion, as a voter and proud North Carolinian, it is beyond time for North Carolina to enlist the services of a non-partisan group to redistrict the state rather than leaving it in the power of the state legislature. The maps should be about fairly representing the people of North Carolina in Congress, not for whichever party in power to redraw the maps just to keep themselves on top. That does not properly serve the people of this great state. I would also like to address Mr. Berger's comment about doing everything they (NC GOP) can to protect President Trump's agenda. I would like to remind him and the rest of the state legislature, that their job is not to protect the President's agenda, but to appropriately represent the people of North Carolina.
10/20/25 9:50 AM	Joanne Throne	Indivisible	Elections should be fair. If you think your side is right, then you should want each of your constituents to have a voice. It is your job to convince us that your policies work ,it's not your job to shut us up. You are hastening our fall into a dictatorship. A special message to our GOP-shame, shame, shame on you
10/20/25 9:50 AM	Rosalie Dominik		North Carolina Senate leader Phil Berger said the state could redraw its congressional districts to help Republicans hold the U.S. House of Representatives. However, the purpose of electing congressional representatives is to establish a legislative body that reflects the will of the people. In 2024, 51% of North Carolina voters selected Donald Trump. Redrawing congressional districts to ensure that 11 (79%) of our great state‚Äôs 14 representatives are members of the GOP is a blatant disregard for the will of the people. Furthermore, doing in mid-cycle would be an unprecedented violation of our civil rights.
10/20/25 9:50 AM	Lauren Halagarda		I‚Äôm writing to voice my strong opposition to the gerrymandered maps being pushed through by Senator Berger and legislative leaders. These maps are a blatant attempt to rig elections and silence voters. North Carolinians deserve fair representation, not political manipulation. When politicians draw districts to protect their own power, they take away the people‚Äôs right to choose their representatives. It is wrong, it is undemocratic, and it damages public trust in our government. This is about fairness, plain and simple. Every voter, no matter their party or community, deserves an equal voice. I urge the legislature to reject any map designed for partisan gain and to commit to a truly transparent and independent redistricting process that puts people first, not politicians. Enough with the power games. It is time to do what is right for North Carolina.
10/20/25 9:50 AM	Mrs Lorraine Rademacher		Redrawing maps for republican party voting success is despicable and should be not be passed. Fair elections are the cornerstone of America. Stop manipulating maps for Republican gain. We are onto you.
10/20/25 9:50 AM	Gloria Carney Shealey, Ph.D.		Our Democracy is embodied and emboldened by the US Constitution to represent All. Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is an attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/20/25 9:50 AM	Christopher Holston		Proud Native North Carolinian here! I am writing today to urge you in the most emphatic terms to vote no on the proposed redistricting plan for our state. Redrawing congressional districts specifically to ensure that only one party ever has a chance of winning any given election is unequivocally wrong. Gerrymandering is just plain wrong. Do not stoop to that level. As your constituent, I ask you to vote no.
10/20/25 9:51 AM	Mrs LeNoir Medlock		Please do the right thing for democracy and allow the population to have its say in an equal and fair manner. Do not manipulate the system to one side since we are not meant to be tribal. We are meant to share ideas, find the common ground, and live and let live.

10/20/25 9:51 AM	Please Rick Fisher		I am writing today to urge you in the most emphatic terms to vote no on the proposed redistricting plan for our state. Redrawing congressional districts specifically to ensure that only one party ever has a chance of winning any given election is unequivocally wrong. Gerrymandering is just plain wrong. Do not stoop to that level. As your constituent, I ask you to vote no.
10/20/25 9:51 AM	Stop gerrymandering Margaret Lillard		Please stop these unconstitutional rewrites of our electoral maps. You know these proposals are legally and morally wrong, and a betrayal of our long-cherished laws and values. I urge each of you to look in your hearts and ask yourselves, if you are a true good citizen and honest public servant, why would you agree to this scheming? Party loyalty must always come far, far behind the greater good of all the citizens who will be affected by your actions. Please do what you know in your heart is right, and reject these maps.
10/20/25 9:51 AM	Janet Sawyer		Gerymander is a blatant act of cowardice. If your policies are sound, you'll get support. Set an example.
10/20/25 9:51 AM	Kim Andreaus	SAS	This is a TERRIBLE idea and will negatively impact our state - NO!!
10/20/25 9:51 AM	Tracy Rosenthal-Newsom		I am outraged that you are redrawing districts maps AGAIN to silence voters, destabilize elections, and weaken Democracy. By previously packing districts, you have already limited representation of the voters in a state where we know that our policy preferences are split down the middle. NC has more unaffiliated voters than either party and frequently votes mixed parties because we want to vote for the best person to represent us in each race. Your new map removes the only competitive district that remains. You are removing the voice of the voters! You are taking away our rights! Do not vote for this new unfair map! We deserve fair maps in NC. Democracy is critical to this state and this country!
10/20/25 9:52 AM	Dr Nancy Walker		Gerrymandering does more than decide political outcomes,Äîit determines whose voices are heard in shaping public policy on education, healthcare, infrastructure, and justice. Do not ignore that when considering this current bill. Please remain committed to fair elections, transparent redistricting, and protecting our fundamental right to vote.
10/20/25 9:52 AM	Melanie Marino		Independent, non-partisan maps. Being fair to everyone in our state. The 2022 Interim maps were decent. Any partisan, extreme redistricting is doomed to fail.
10/20/25 9:52 AM	Jennifer D. Johnson		Please vote no on restricting. This is unlawful and not needed. By allowing this to move forward you are breaking down out governing institutions and NOT following the Constitution. Please do NOT redraw the maps. Thank you.
10/20/25 9:53 AM	Christopher Thrasher		Gerrymandering is unacceptable. District maps should be drawn to reflect the will of the people. The proposed map is a blatant attempt to steal power by the republicans.
10/20/25 9:53 AM	Samantha Weaver		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/20/25 9:53 AM	Angela Sanders	None	Please do not move forward with the unlawful gerrymandering of the NC districts in order to gain seats for President Trump. Each party should win votes based on their policies and vision for the country, not based on cheating. By redrawing these districts you are undermining the votes of NC citizens. A party that has to cheat does not deserve to win.
10/20/25 9:53 AM	Leanne Neace		I am a registered nurse US Army veteran and grandmother. The lengths that the Republicans are going to in order to subvert the will of the majority of the people is vile. The majority of the people do NOT want a Christian Nationalist Technocracy that is being implemented with Project 2025. It benefits a few at the great harm to the many. The redistricting is another piece of this agenda and will cause great harm to millions of people. You are servants of the people! Do what is right for the people NOT the few select rich and powerful interests. Do NOT steal the voices and rights of minorities by further rigging the district maps.
10/20/25 9:53 AM	Laura F		I am opposed to additional redistricting to gerrymander still further our state. Districts should be drawn to fairly represent all voters, so in NC approximately 6/7 in each party, and faculty at our universities have developed excellent systems for doing so neutrally.
10/20/25 9:53 AM	No to Redistricting Suzanne Blackstock		I,Äôm contacting the committee to urge you to not allow this partisan action. Redistricting does not need to be done at this time and when necessary, maps should be redrawn by an independent commission. Voters should choose their representatives, not the other way around.
10/20/25 9:53 AM	Kelly Wooten		North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. As a reminder, The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. I urge you to focus on the priorities and issues that are facing our state today, not continuing to participate in wasteful distractions.
10/20/25 9:54 AM	Mrs Joyce Brennan		I am opposed to redistributing in order to disenfranchise voters in N.C. Instead of more gerrymandering, N.C. needs to draw maps that sector the state,Äôs population fairly. This rush to change the lines seems to be a response to the unpopularity of the current regime in Washington - a horrible reason to do it.
10/20/25 9:54 AM	Jett WRENN		No redistricting!!!
10/20/25 9:54 AM	Shelley Peele		We do not need to redistrict our state until the next scheduled census. This is a clear Republican attempt to gerrymander.
10/20/25 9:54 AM	Tina Burgeron		You sycophants need to remove your lips from Trump's ass!

10/20/25 9:54 AM	Mrs. Mary Walker		At this time, I do not believe it necessary to redistrict North Carolina counties. We just redistricted last year. It costs taxpayers money every time the state is redistricted. Just because a political party is unhappy with the results of the most recent redistricting does not give the legislature cause to redistrict every year. I recommend redistricting every 4 to 8 years. There are many things other things in NC that money should be applied to other than redistricting counties.
10/20/25 9:55 AM	Redistricting plan Mark & Virginia Sills		We are all for redistricting to make sure that our state has the number of party representatives that reflect the actual number of registered voters, by party,. In short, an even number of Republican and Democratic representatives.
10/20/25 9:55 AM	mrs marianna whitson	Private citizen	I am incredibly concerned about the redistricting proposed. It is unnecessary, rushed and costly. We have already redistricted twice since 2020, and we as the public is not being given enough time to consider the proposal and discuss the impact with our representatives. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters, and the proposed redistricting will dilute the political power of Black North Carolinians. Please reconsider this redistricting proposal - both in timing and in the maps themselves. Sincerely, Marianna Whitson
10/20/25 9:55 AM	Josephine Webb		I don't agree with redistricting. Each person's vote should count. Politican's shouldn't cheat. Do what is right!
10/20/25 9:55 AM	Joseph Bostick	Mecklenburg	Say no to gerrymandering. Un-American to the core. More Democrats receive votes than Rs.
10/20/25 9:55 AM	Mrs. Tanya Lam		I am reading that the North Carolina voting maps will be redistricted and gerrymandered today by Republicans. I am absolutely disgusted. Redrawing maps in the favor of Republicans and negating the everyday citizens. Vote is disgusting and appalling.
10/20/25 9:55 AM	Sandra Vander Linde		That state of North Carolina benefits from hearing the voices from black North Carolinians. Purposefully redrawing maps to dilute their voices is unconscionable. Our state has made so much progress is bringing in diverse voices through fair representation. Vote No on these new maps. Vote No!!!
10/20/25 9:55 AM	Sharon Arscott-Mills		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law
10/20/25 9:55 AM	Angela Gustafson	--None--	Public surveys show overwhelming support for fair maps, with voters of all affiliations stating with overwhelming majority in a recent Opinion Diagnostic Survey that it is NEVER of for politicians to draw districts to hep their own parties win seats. I don't care which party did it in the past, as the saying goes, two wrongs do not make a right. This is not Red vs. Blue, this is Right vs. Wrong. We the People must ALL have an equal voice, and the candidates for office should have platforms and policies that help them win, not rigged districts. To each and every elected representative - step up, take a stand for fair elections, and know this - if you have policies that support your community, you shouldn't need to cheat in order to win.
10/20/25 9:55 AM	DO NOT ERASE THE BLACKS William Murrell	www.FayettevilleLicks.com	I do not want NC Black voter bases to disappear. Want to know what itbwill take for MAGA to stop work in NC on it. Will they?.
10/20/25 9:55 AM	Jacob Davis		Do the right thing and do not further partisan gerrymander this state. History will not remember cowards who bow to authoritarianism with reverence but rather with disdain. Look to your legacies if truth and decency does not motivate you.
10/20/25 9:55 AM	Donald Poole		I do not understand the Republican need to do yet another round of gerrymandering of our North Carolina voting districts. What are you Republicans afraid of? Are you afraid of our great American democracy? Afraid that unless you "cheat" you will lose? In the past (i.e., prior to the Republican takeover of the legislature) North Carolina was considered the "star of the South"... a great State with a great public education system, a welcoming business location, and especially a great place to live. Not so anymore! Sad to say.

10/20/25 9:55 AM	Bonnie Campbell		I urge you to NOT continue with the mid-decade congressional redistricting that will further skew the fair representation of North Carolina voters. Only 30% of the voters in North Carolina are Republican and manipulating district lines for Republican advantage undermines the constitutional promise of equal representation. Gerrymandering violates the core principles of fairness and accountability. It concentrates power in the hands of political insiders rather than the people. Do NOT continue with this redistricting.
10/20/25 9:55 AM	Jamie Nygaard		You are suppressing my vote and other North Carolinians votes by redistricting. You are only doing it to appease Trump, who is a criminal and a tyrant. You will not be on the right side of history.
10/20/25 9:56 AM	Mrs. Ashley Fox		North Carolinians do not condone this redistricting. We pride ourselves on integrity and if you have to cheat to win- that is not leading with integrity. History is watching for leaders who cower to authoritarian principles and corrupt plots. Do the right thing and do not redistrict an already offensively gerrymandered map.
10/20/25 9:56 AM	Mrs Deborah Kenyon		True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 9:56 AM	Maria Mauriello		I am furious that the NC GOP is using the state's narrow victory for Trump almost a year ago to justify disenfranchising even more voters than they already did a few years back. THAT action tipped the majority of the US House to Republicans. NC is a PURPLE state. We see this for what it is: a shameless power grab to lock in minority rule. STOP this anti-American and anti-democratic gerrymander.
10/20/25 9:56 AM	Alan Davisson	None	It is beyond pathetic and disgraceful that the Republicans in this government would even consider the further gerrymandering of Our State of North Carolina. This is not representation. This is Not upholding democracy for the people.
10/20/25 9:56 AM	Eleanor Ansback		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Âô ability to hold our leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people.
10/20/25 9:56 AM	David Yetter		This is embarrassing. I have lived in NC for 7 years and the maps have been gerrymandered several times over that period. The General Assembly should be actively helping NC, not catering to our President. These maps are being hastily pushed through and it,Äôs embarrassing. If the new maps pass, NC will forever be on the wrong side of history.
10/20/25 9:56 AM	Krista Jade		This is gerrymandering and unacceptable. Should not be passed. I will not vote for anyone who supports this bill.
10/20/25 9:56 AM	Mrs. Jacquelyn Simms		True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Democracy is a value I hold dear. Disenfranchising and gerrymandering to subvert the will of the citizens is reprehensible, unethical, amoral and should be condemned and unequivocally not allowed.
10/20/25 9:56 AM	Stop the madness Heather Schanzel		Gerrymandering is just legal election interference. 85% of the NC voters are against this practice that just further damages our trust in a crumbling electoral process
10/20/25 9:57 AM	Ana Novak		Representatives are elected based on the demographics of a district to ensure adequate representation of the people who live there in our government - thus it is based on accurate census data and so are usually redrawn only AFTER the census taken every 10 years. NC is already heavily gerrymandered. Redrawing lines to further ensure the voices of those who disagree with the current administration is not only despicable, it belies everything that makes our country great (free and fair elections) and stinks of corruption. Your were elected to represent the interests of your contituents. DO YOUR JOB!!! Follow the law!!
10/20/25 9:57 AM	Mr Peter Soper	Self	Please show some dignity and avoid being party to the distortion of fairness in our elections.
10/20/25 9:57 AM	Tyler Roach		This move to redistrict again and deepen the level of Republican gerrymandering is disgusting. One person, one vote. Instead of state politicians who know they are in the minority rigging the voting system to keep themselves in power, politicians at the state level should reflect the ideals of their constituents, not hide behind rigged maps. NO TAXATION WITHOUT REPRESENTATION! What you,Äôre trying to do is wrong, it,Äôs weak, and it,Äôs pathetic. Three times in five years already, and you want to do it again? You,Äôre obviously losers. You,Äôve lost the state, and you,Äôre clinging to it with your old, dead, racist hands. This will not stand. The people of North Carolina won,Äôt allow it. Remember, as you,Äôre sitting in your chambers plotting against the people of North Carolina, YOU WORK FOR US, and your continued wrongdoing WILL BE ANSWERED. SHAME ON NC REPUBLICAN LEADERSHIP.

10/20/25 9:57 AM	Marcie Graf		Do not cheat like this! You,Äôve already gerrymandered the state where it is not truly representative of the political leanings of the residents. Face the fact that Donald Trump,Äôs policies are unpopular and let the voice of the people be heard even with the gerrymandering that you,Äôve already done.
10/20/25 9:57 AM	Lisa Nelson		I am an embarassed Republican. What are you doing, trying to steal elections with this type of legislation? This is not what the Bible says we should do. Do you not understand the ten commandments?
10/20/25 9:57 AM	Mrs Barbara Cress		I'm emailing to urge Rep. Miller to oppose attempts to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around. We need to retain and maintain our rights for our voats.
10/20/25 9:57 AM	Joseph Schwab		Please vote no on redistricting. Redistricting should only be done every 10 years or if a court orders it.
10/20/25 9:57 AM	Ms Gail Barger		Any effort to keep certain people from voting is unamerican. Please protect our democracy by giving every one of us equal opportunity to participate. Do the right thing.
10/20/25 9:57 AM	Marissa Krey		I am 100% opposed to redistricting between the 10 year census. This would be true no matter which party is in charge. You are changing the rules of the game in the middle. It is unconscionable!!! Nothing about our current congressional map represents the voters of North Carolina. The largest party is Independents! We should have many competitive districts. To lean this heavily Republican is absolutely anti-democracy. Our own state constitution prohibits us from redrawing our state maps between 10 year marks. That should make it clear that this proposal is outrageous. Moving forward with this is 100% only about maintaining power. It is NOT the will of the people. Anyone who supports this should be ashamed of themselves.
10/20/25 9:58 AM	Ms Jeanne Robinson		I am opposed to the latest redistricting attempt. It is wrong and unfair to keep redrawing the maps to make them more favorable to any party. The maps should be drawn by an independent panel.
10/20/25 9:58 AM	Ms Cindy Deporter		It is a shame to the GA republicans are so scared of Trump. The majority of NCinians are sick of th Gerrymandering. Know that you will be voted out by your own party stop the mass was be like Indiana and stand up
10/20/25 9:58 AM	Malcom Adside	Concerned Citizen	In my opinion, state members of North Carolina should ask their constituents how they feel about this issue before moving forward. State members of government should not assume that they speak on behalf of their constituents. They should not assume that every voter in the state is in sync with further gerrymandering the state. State members of government should find out in advance, perhaps via a poll, if voters want to move forward with added gerrymandering. In theory, state members of North Carolina should represent the collective best interest of all of the people (republicans, democrats and independents) and not a subset of the people.
10/20/25 9:58 AM	Carole Breckinridge		Gerrymandering the legislative maps to gain another Republican seat in the U.S. House is cheating in my opinion. Trying to gain favor with an unpopular and incompetent U.S. president, who is trying to destroy our beloved Democracy by taking away our rights and creating an autocracy, is certainly not serving the people of North Carolina. 84% of NC voters believe that it is not acceptable for politicians to redraw districts to help their own party win more seats. Where's your integrity? Where's your backbone to stand up to Trump? Why won't you let voters choose their legislators rather than you choosing your voters with gerrymandered maps?
10/20/25 9:58 AM	Redistricting Ferry Lowder		allow public input please announce session times please save freedom of speech please don't let Trump tell you how to vote
10/20/25 9:59 AM	Mrs Anne Renihan		Since Republicans can't win, they cheat. Independent voters are not impressed. The gop already has 10 of 14 seats - this is NOT fair representation. Stop.
10/20/25 9:59 AM	Karen Still		It is embarrassing that weak Phil Berger is being kowtowed by a weak presidential administration to bend the knee to a king wannabe and illegally attempt to redraw district maps at this time. It is CHEATING because the NC GOP cannot win the popular vote legally in 2026, and they know it. Quit trying to rig the system mid cycle in order to suppress votes that you KNOW will lean blue in 2026 because of your bad behavior since January 2025. Quit being a Putin Puppet and leave the district maps the hell alone!
10/20/25 9:59 AM	Catherine Asselin		I am completely and utterly against gerrymandering.
10/20/25 9:59 AM	Mrs Molly Feichter		As a North Carolina native this additional effort to further gerrymander our state does not fairly represent the demographic makeup of North Carolina. It is a desperate attempt to further control the voters of NC and to swing our state to further Republican control. It is not a fair representation of NC residents and voter,Äôs choices.
10/20/25 9:59 AM	Jade Stanfield		Don,Äôt further gerrymander our state. You,Äôre supposed to work on behalf of us, your constituents, not Trump. You want to win? Be better at your job and win fairly; like Jesus would want.
10/20/25 9:59 AM	Mr. Art Waber		I request that you make public the entire text of the rationale and importance of the redistricting, from the perspective of enabling all North Carolina voters in the affected districts to continue voting their preferences without hindrance, regardless of party affiliation or political implications outside the state of North Carolina. Thank you.

10/20/25 10:00 AM	No on redistricting!!! Catherine Rigsby		Dear NC Legislature, Please do NOT go through with this redistricting. The proposal would actually prevent people from picking the representatives of their choice. This kind of severe gerrymandering subverts democracy. It is outrageous that our state legislatures would even considering bowing to this executive branch demand. Separate but equal is the law of the land. It is the foundation of our constitution. Do your job for your constituents. Do not give up the voters power! Sincerely, Catherine Rigsby
10/20/25 10:00 AM	Edward Medlock		I oppose the redistricting (aka gerrymandering) that is being attempted
10/20/25 10:00 AM	Ben Griffith Jr.		I am writing today to implore you in the most emphatic terms to vote NO on the proposed redistricting plan for our state. Redrawing congressional districts specifically to ensure that only one party ever has a chance of winning any given election is unequivocally wrong. Gerrymandering is just plain wrong. Do not stoop to that level. As your constituent, I ask you to vote no.
10/20/25 10:01 AM	Kathleen Kohler		I thought the Republic ensured that every vote mattered. Gerrymandering makes a lie of our constitution and must be ended.
10/20/25 10:01 AM	NC DISTRICT 1 Lynn Caverly		I am 68 year-old white female, well educated , registered unaffiliated. I have lived in this district since 1975. I vote in every election and am well connected to all sorts of folks in this district. I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 10:01 AM	Kathryn Hall		As a voter, I am very opposed to the NC congressional redistricting plan. EVERY citizen has the right for their vote to COUNT. In a democracy the voters, ALL voters, choose their representatives, rather than representatives choosing voters via redistricting. Representatives are elected by and paid by the people through our tax dollars. They work for the people and their time should be spent addressing the needs of the people, such as healthcare, teacher pay, and our state budget, rather than spending hours on partisan power grabs via repeated redistricting plans.
10/20/25 10:01 AM	Lynne Gilbert		I urge you to vote NO on redistricting to further gerrymander North Carolina,Ä¶stealing the rights of voters to elect their representatives. In this country voters are supposed to choose their elected officials, not the other way around. Redistricting is meant to happen once per decade, after the census. Maps should not be redrawn on a whim so that legislators can choose their voters and guarantee political outcomes, entrenching one party in power. To do so is to betray the people and principles that give legislators power in the first place. I ask you to vote against this egregious election steal. Please put the people,Äôs interest first. North Carolina deserves better. If you doubt it, look to the tens of thousands of North Carolinians who joined millions of people across the nation in deep opposition to President Trump,Äôs agenda.
10/20/25 10:01 AM	Karen Webbink	Myself	I think it,Äôs disgraceful that this legislature is even considering redistricting our state, it,Äôs nothing but a power grab!! Surely you,Äôre aware of how many people know you are rigging the system, to favor Republicans. Look at the polls, citizens are not in favor of this assault on democracy!!
10/20/25 10:01 AM	Mrs. Deborah Laurent	Private Citizen	The redistricting of the State of North Carolina to gerrymander in favor of any particular political party flies in the face of voters rights and Constitutional fairness. You have made the excuse of combatting the California redistricting effort but totally neglect to own up to the fact that the California redistricting was only done to stand up to the Texas gerrymandering. I urge you to forego this gerrymandering of our great state to assure fairness of representation of all NC voters.
10/20/25 10:01 AM	Michael Platarote		I vote NO on redistricting

10/20/25 10:02 AM	Scott Morrison		This is outrageous. There is absolutely no justification for this redistricting and these specific maps except to make Republicans even *more* disproportionately represented in our legislature. This is undemocratic and doesn't represent or further the needs of North Carolinians. Voters did not ask for this. You should be ashamed.
10/20/25 10:02 AM	Julie Lee		Americans are loosing faith in the processes of our democracy. We must work, together, to ensure that cannot happen - that is at the foundation of both parties principles . Gerrymandering violates this basic principle and creates results that do not reflect the true desires of the people.
10/20/25 10:02 AM	Elizabeth Bromberg		Our legislative representatives should represent the interests of all of the people of NC, not just one party or the other, or the federal administration,Äôs political agenda. Please look into your heart before you vote on redistricting. Do what is fair and right. Please vote to give ALL of our state,Äôs citizens a voice in our government. Vote for democracy ,Äî it is what makes our country great.
10/20/25 10:02 AM	Vote NO Jason King		I am writing today to urge you in the most emphatic terms to vote NO on the proposed redistricting plan for our state. Redrawing congressional districts specifically to ensure that only one party ever has a chance of winning any given election is unequivocally wrong. Gerrymandering is just plain wrong. As your constituent, I ask you to vote NO.
10/20/25 10:02 AM	Ms Amy Parker		I am against.
10/20/25 10:03 AM	susan maynor	Retired Teacher	No to gerrymandering. Why is it necessary? Where is the budget? Please pay attention to your jobs as representatives and stop trying to change everything you can. Let the people decide the next election, not republicans' gerrymandering.
10/20/25 10:03 AM	Mrs. Anne Wells		This plan should not be adopted. Voters should choose who represents them, not representatives making the choice for us, the voters. This is a political ploy and should not be adopted. This is another example of the Trump administration's power grab to reduce competition. This type of action makes voters believe that their votes don't count and causes them to lose confidence in the fairness of the system. This plan should be voted down and leave redistricting until the 2030 census.
10/20/25 10:03 AM	Ms. Elizabeth Potter	n/a	Shame on Republicans for proposing a map intended to thwart the will of the voters! We see you and know you to be cheaters. Be advised, cheaters may win in the short term but in the long run you have cheated yourselves.
10/20/25 10:03 AM	Donna Lowell		Stop using NC citizens as pawns in the White House,Äôs and NC State GA,Äôs power grab. Your priorities should be the safety, health and welfare of ALL citizens, not only supporters of Donald Trump and the GOP.
10/20/25 10:04 AM	Carolyn Scott		It is a sign of corruption and fear that Republicans in the NC General Assembly want to FURTHER gerrymander North Carolina's congressional districts and reduce the voting power of the largely poor and black citizens of northeastern North Carolina. Shame!
10/20/25 10:04 AM	Dr Nancy Barrineau		I'm dismayed by these attempts to gerrymander one party out of existence. What happened to the American ideal of equal representation and a strong two-party system? This smacks of a dictatorial takeover to me.
10/20/25 10:04 AM	Ms Betty Lawrence		Like the vast majority of Republican, Democratic, and especially Independent voters in NC, I am sick to death of gerrymandering. Coming back into session to redraw the boundaries of a Congressional District is appalling. You won't come back into session to pass a budget, which we really need to move forward. But you will for partisan redistricting. I do not believe you are working for your constituents. Please don't redistrict. Please do pass a budget. Thanks.
10/20/25 10:04 AM	louise barnum		Noooo. Not until the regular year to recount.
10/20/25 10:04 AM	Mrs. Mary M Jones	Retired	As a resident of the state of North Carolina, I am both disappointed and disgusted by your current actions. Why are you so bent on the disenfranchisement of so many of your constituents. Your actions speak louder than your words.
10/20/25 10:04 AM	Mr. Cory Skipper		No
10/20/25 10:05 AM	Ms. Jill Friedman	self	There is absolutely no NEED for redistricting at this point. A new map was created in 2022 and there hasn't been significant enough change in the population distribution in the state to warrant a change. Such an action can only be perceived as having political motivation and in no way reflects the political demographic of the state. Please vote against this proposal.
10/20/25 10:05 AM	Olivia Scarborough		If cheating is the only way you can win, it's obvious you're not listening to your constituents. A real democracy hears the voices of all. We're sick and tired of the ultra rich controlling everything in our government. If you go through with this redistricting they will gain even more power and the working class of NC will suffer more than they already are. Shame on you.
10/20/25 10:05 AM	Ms. Hannah Hall		I ask that you do not redraw the voting districts at this time. The sudden reconfiguration of voting districts to achieve political ends is undemocratic.
10/20/25 10:05 AM	Bernadette Fedziuk		We are a government by the people and for the people. WE pick our representatives through fair and transparent elections. The NCGOP is scared of the people and will resort to gerrymandered districts to maintain power and control. This is not how democracy works!
10/20/25 10:06 AM	Linsey Morrison		I,Äôve lived in North Carolina my whole life. In my advanced math class in high school we leaned about the definition of gerrymandering, with our literal textbook examples being districts in NC. It was the first time, and one of the few times ever, I remember feeling embarrassed by our beautiful state. We North Carolinians are better than trying to cheat any citizen of our state out of a fair and equal say in our governance. This redistricting plan gives unequal say to some groups of citizens by districting together entirely non-logical, non-geographical areas and is an embarrassment to North Carolina. I strongly oppose this redistricting plan, and hope our elected leaders will hear the public,Äôs concerns and do better for our state!
10/20/25 10:06 AM	Chaz Salomone		Vote NO please!!!
10/20/25 10:06 AM	Ms Karen Packard		I am opposed to mid decade gerrymandering. It is unfair and will further skew a right leaning map.

10/20/25 10:07 AM	Ann Farnham	I urge all Republicans to resist your party,Äôs attempt to eliminate the democratic seat currently held by Don Davis. The map has already been gerrymandered to favor one party and this further attempt is a betrayal to our country. Voters have the constitutional right to be represented fairly within a district that makes geographical sense. Further undermining voter rights in our state in hopes of affecting the midterm elections is treason.
10/20/25 10:07 AM	Ralph Verderamo	The plans for redistricting are completely undemocratic, unrepresentative, and frankly un-American. Continually gerrymandering to reduce the voice of half the population is wrong. We should embrace a non-partisan redistricting plan NOT acquiescing to the whims of a wannabe facist dictator.
10/20/25 10:07 AM	Emily Taylor	I am against the new redistricting proposal, the map is very skewed towards one party. We have had issues for years with the maps that have already been drawn, the only map I am for is one that is just drawn up by population amount with no thought to how it helps either party. You
10/20/25 10:07 AM	Antoinette Howard	Do not reredistrict
10/20/25 10:08 AM	Lori Downey	It's unconscionable that you are choosing to move forward with mid-decade congressional redistricting (at the shameful request of the President, no less) that would make North Carolina,Äôs voting maps even less fair and weaken people,Äôs ability to choose who represents them. Gerrymandering goes against basic principles of fairness and accountability by letting politicians draw district lines to benefit their own party. It undermines equal representation and makes it harder for voters to hold leaders responsible for their actions. Even though lawmakers run under party labels, once elected, they should represent all North Carolinians and protect everyone,Äôs vote equally. Gerrymandering also breaks up local communities and puts too much power in the hands of political insiders instead of the people. Real conservative values are about honesty, transparency, and fair competition,Äîwinning through better ideas, not by rigging the system. Ending gerrymandering isn,Äôt just the right thing to do morally; it,Äôs how we keep our government truly accountable to the people. Most North Carolinians agree,Äî76% of voters, including 66% of Republicans, 79% of Democrats, and 82% of Independents, say it should be illegal to draw maps that favor one political party. I beg you to grow both a spine and a conscience and abandon this re-districting effort.
10/20/25 10:08 AM	Ida Glasgow	The NC Legislature should be focused on doing what is best for all the citizens of NC, not what any President, Democrat or Republican, demands. Voters should be able to choose their representatives free from partisan political gerrymandering., not representatives choosing their voters.
10/20/25 10:08 AM	Michael Vaughan	I urge you to NOT continue with the mid-decade congressional redistricting that will further skew the fair representation of North Carolina voters. Only 30% of the voters in North Carolina are Republican and manipulating district lines for Republican advantage undermines the constitutional promise of equal representation. Gerrymandering violates the core principles of fairness and accountability. It concentrates power in the hands of political insiders rather than the people. Do NOT continue with this redistricting.
10/20/25 10:09 AM	Mr James Douglas	North Carolina's constitution guarantees free and fair elections. The Republican party's redistricting proposal of the congressional districts is neither free nor fair. Members of Congress should reflect the will of the people, not the will of the party bosses. I have a suggestion for you. If you're going to redraw the districts, make them all competitive districts. That way your ideas and voting record will determine if you win or lose. Your redistricting plan makes it a predetermined outcome who wins and loses. Not Fair! Just stop it.! You look like a bunch of spoiled brats. I usually vote a split ticket based on the candidate's qualifications and ideas. I'll be damned if I'll vote for a Republican again. You are an embarrassment to our great state!!!
10/20/25 10:09 AM	Deidre Gonzales	Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is an attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/20/25 10:09 AM	Kathleen OCraven	Please do not proceed with intentionally unfair redistricting. For democracy to function as the representative voice of the people, every vote should count. These proposed new districts not only preclude that, they do so maliciously and with the intent to cheat. Yes, I know that's been done before. It is wrong. It should not be allowed to happen. Ever. Not to benefit ANY party. Redistricting should be done by a nonpartisan organization without regard to geographic party distributions.
10/20/25 10:09 AM	Ms. Debbie WALKER	I am writing to ask that you stop the mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. I have essentially been without representation for 25 of my 33 years in NC, since the Republicans have gerrymandered so heavily. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. For the Republicans to be so afraid of the voters that they have to try to steal an election or supposedly "lawfully" change things means they don't trust their political stands. I believe that voting should be encouraged, not discouraged like the Republicans want, and that my vote should count just as much as anyone else's. If gerrymandering continues to be skewed so heavily, my vote will NEVER mean anything.

10/20/25 10:10 AM	Gerrymandering Laura Brown		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Âô ability to hold their leaders accountable. True conservative values demand transparency and integrity not manipulating electoral maps to ensure victory. Please refrain from redistricting that will further distort federal voting maps and diminish North Carolinian,Âôs power to elect candidates they choose.
10/20/25 10:10 AM	Cheryl Turney	NA	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Âôs federal voting maps and erode any North Carolinians,Âô power to elect candidates of their choice. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Âîvictory earned through ideas and persuasion, not through the manipulation of electoral maps.
10/20/25 10:10 AM	Amy Smith		Districts should be drawn by an independent nonpartisan group. This proposed redistricting is designed to ensure Republican control I Congress. Republicans have created maps that insure progressive voices are not represented. My vote does not count the same as my republican neighbor. This is not American! What is worse about this proposed redistricting is it is at the request of Trump! We need republicans to stand up to Trump and protect our democracy!
10/20/25 10:10 AM	Ms Catherine Bythewood	None	Keep NC true to it,Âôs legacy since 1776 in standing for the Constitution. Gerrymandering undermines conservative values of limited government & having representatives that speak for all its constituents. Please be the representatives that choose NC,Âôs citizens over self-serving gerrymandering.
10/20/25 10:10 AM	Dr. Anselmo Lastra		I see that you're voting to take away the voices of more citizens. Shame on you!
10/20/25 10:10 AM	Hannah Hayes		Hello, my name is Hannah Hayes and I live in Chapel Hill. I am reaching out today to say I am against the attempt to redistrict two of North Carolina,Âôs congressional districts midway between U.S. Census taking. As a North Carolinian, I believe everyone,Âôs vote should count and that North Carolina voters should choose their elected officials. And I,Äôm not alone ,Äì a recent Republican-leaning polling firm found that 84% of North Carolina voters said gerrymandering is NEVER acceptable. And that includes 78% of North Carolina Republican voters, 85% of North Carolina unaffiliated voters, and 87% of North Carolina Democratic voters. Please vote ,ÄúNO,Äù on redistricting these two congressional districts and do what is right and fair by North Carolina voters. Thank you for voting ,ÄúNO.,Äù
10/20/25 10:10 AM	Emma Cox		I wholeheartedly disagree with this initiative.
10/20/25 10:11 AM	Redistricting Jason Carey		I am writing today to urge you in the most emphatic terms to vote no on the proposed redistricting plan for our state. Redrawing congressional districts specifically to ensure that only one party ever has a chance of winning any given election is unequivocally wrong. Gerrymandering is just plain wrong. Do not stoop to that level. As your constituent, I ask you to vote no. Thank you for considering my comments and position.
10/20/25 10:11 AM	Ms. Margaret Toman	Amnesty International Chapter 213 (Raleigh, NC)	Gerrymandering is a prime reason why citizens view their elected representatives with suspicion. Forsaking honest persuasion for wily manipulation marinates our Democracy in the snake oils of mistrust and contempt. Gerrymandering is not clever; it is wrong.
10/20/25 10:11 AM	Hannah Randall		I am a lifelong North Carolina resident and an independent voter who still votes for and is friends with people from both parties. This redistricting is wrong, and it doesn,Âôt represent our state (which is overwhelmingly full of moderates like me). As a Christian, I am deeply concerned because the steps you are taking are the opposite of what Jesus would do and what he taught us to do. If you,Âôre so compromised that you have to bow to a force that is not what our state or country wants, resign.
10/20/25 10:11 AM	Frances Chetwynd		Please don,Âôt go ahead with a plan to steal votes by further distorting the electoral map.
10/20/25 10:11 AM	Dr. Elizabeth Bumgarner		I am opposed to the proposed redistributing plan. Redistricting should serve the people, not parties or politicians. I hope that as decisions are made, lawmakers will prioritize equal representation and the confidence of all North Carolinians in our democracy.
10/20/25 10:11 AM	Vote against redistrictin Mike Tompkins		Vote against any bill that would redistrict our state to give either party an unfair advantage.
10/20/25 10:11 AM	Mary Santiago		Please do not re-draw the already gerrymandered voting maps in North Carolina. I am a resident of North Carolina and my vote should carry the same weight as anyone else's. If you must cheat in order to win, you don't deserve to win.
10/20/25 10:11 AM	Dollie Garrett		76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 10:11 AM	Mr. Kelly Rubottom	Constituent	As a constituent, long time citizen of North Carolina, and lover of democracy no matter how flawed, I urge you to vote NO! on redistricting or our state,Âôs congressional seats. This is a blatant attempt to make all future elections meaningless by gerrymandering districts to ensure one party is always in control. This is fascism and it is wrong! It is wrong for republicans to do it, it is wrong for democrats to do it, North Carolina, and it is wrong for America. Do not continue down this road to destruction or the blood will be on your hands.
10/20/25 10:12 AM	Mrs Debra Hildebrand		This is wrong on every level. I object to what you are doing !
10/20/25 10:12 AM	Jon Brown		Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people.
10/20/25 10:12 AM	Mr David Visbisky		Please make the session time available to the public and be transparent about this vote for redistricting. Do not cater to the POTUS and take our voices away.

10/20/25 10:13 AM	pam powell		NO 2025 redistributing!! Are you really going to let Trump tell you how to vote? How to govern? NO. We are the proud state of North Carolina and we are better than that. You are there to represent the people of North Carolina - My family moved to NC 22 years ago because this is where we wanted to put down roots and raise our child. This sneaky move to redistrict at the president,Äôs whim threatens our democracy (and that of our children). NO
10/20/25 10:13 AM	Dr Carol Shively		Districts are formulated to best represent the voters. This redistricting attempt is entirely political oneupmanship without intent to best represent the people. Rather, the entire purpose is to garner more votes for one party. We are tired of your political oneupmanship. We want to be fairly represented and we want our representatives to govern - not quarrel and name call. We want our representatives to work on passing legislation that supports the people, not on gaming the system. We want our representatives to govern in a mature, thoughtful and ethical fashion. Examine your hearts - you know this is not in the people's best interest. Vote no to redistricting!!!!
10/20/25 10:13 AM	Pauline Johnson		This is an outrage. There is no way that mid-cycle redistricting should even happen, much less have you take away another Democratic seat in the House of Representatives. This is partisan gerrymandering that makes voting districts confusing and unfair. You should be ashamed of yourselves! I am 70 years old and I have never seen such dishonest behavior in what is supposed to be an elected assembly whose job it is to take care of constituents. This is pandering to one political party. Our state is made up of Republicans AND Democrats, roughly in even numbers. Our representation in Washington should represent that. Voters should choose their representatives. The General Assemble SHOULD NOT choose their voters!
10/20/25 10:13 AM	Rebecca Inglefield		We are starting to celebrate 250 years after the Halifax Resolves which allows North Carolina to boast First in Freedom. Our history has times of courage and times of cowardice, times of flourishing and times of poison. Your impending vote is about Freedom. Whose freedom? Freedom for what? Freedom for people in power to continue reckless destruction? Your vote can make a painful mockery of our First in Freedom, instead showing to the world our leadership of cowards. Shame on you. You are creating a legacy for yourselves of short-sighted selfish small-minded men. You are charting a future pushing North Carolina onto shoals of poverty, ignorance and violence . Shame on you.
10/20/25 10:13 AM	Fenra Nichols		This level of gerry mandering should be ILLEGAL! Don't make yourself a political pawn, vote with your constituents NO REDISTRICTING!
10/20/25 10:13 AM	Dana Black		Absolutely disgusting that the legislature cannot come together for things that benefit all citizens of NC, like a budget, and instead are handing over our votes to someone whose current motto over the weekend is ‚ÄúYes Kings‚Äù. A direct slap in the face for democracy and your constituents who you are supposed to represent.
10/20/25 10:14 AM	Heidi Dove		NO!!!!!
10/20/25 10:14 AM	Mike Reese		The Republican legislature obviously doesn't believe in fair elections. The rhetoric is pure gaslighting and it's obvious had Trump not won NC in the last election, there's no doubt they would have tried to overturn the results. The GOP is corrupt. They make every attempt to illegally strip democrats of their power and disenfranchise voters through absurd suppression tactics. This is an obvious GOP attempt to choose their voters and suppress the will of the American citizens living in NC. Pure scum.
10/20/25 10:14 AM	Ms Maria Hitt		The voting districts of North Carolina should be balanced and not gerrymandered. This issue has already been in our courts for years! Make NC elections fair by creating maps representing the people of our state not partisan bowing to president Trump.
10/20/25 10:14 AM	Fae Shaffer Fae Shaffer		Dear Members of the NCGSA, I am writing to you today with urgency and conviction to implore you to vote NO on the proposed redistricting plan for our state. This plan is a blatant attempt to manipulate electoral boundaries for partisan gain. Redrawing districts to guarantee outcomes for one political party undermines the very foundation of our democracy. It silences voices, erodes trust, and strips voters of fair representation. Gerrymandering is not governance,Äîit is manipulation. It is wrong, undemocratic, and beneath the standards we should uphold as public servants and citizens. I urge you: do not be complicit in this erosion of democratic integrity. Stand for fairness. Stand for transparency. Stand for the people you were elected to represent. As your constituent, I ask you,Äîvote NO on this redistricting plan.
10/20/25 10:14 AM	Ms Christa Jones		I am against redistricting in North Carolina!!! Please stop this craziness. This is not what our state and our country should be about!
10/20/25 10:15 AM	Jennifer Saylor	Home	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Please uphold both the Constitution and the moral duty to ensure government remains accountable to the people it serves - do not gerrymander in NC. 76% of North Carolina voters say it should be¬†illegal¬†for gerrymandering to be used to discriminate against voters based on their political party. There is strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 10:15 AM	Ms. Laura Aiken	Self	Your policies are devastating for North Carolinians and that is why you have to cheat by gerrymandering. You are eroding democracy and ruining our state. Stop gerrymandering and start doing your job to govern responsibly for your constituents.

10/20/25 10:16 AM	Amanda Stamison		This redistricting is a clear power grab by Republicans who feel that the only way they can win is by cheating. If you can't win your seats honestly, you don't deserve your position. Stop stealing power and work for the people. Redistricting should only happen after a census and should be done by a neutral party. There's no reason 1/3 of NC should have a single delegate while only a sliver goes to the Raleigh area. The NC GOP is a group of greedy cowards.
10/20/25 10:16 AM	Ms. Laura Woods		North Carolina's current congressional districts are not representing our state. This latest plan further erodes the peoples representation. Gerrymandering is taxation without representation!
10/20/25 10:16 AM	Kristi Stout		I am against the proposed redistricting, and so should every law abiding public servant be. "Gerrymandering violates core principles of fairness, accountability, and limited government."
10/20/25 10:16 AM	Mr Richard Maxted		Mid-cycle redistricting is upsetting and expensive for your constituents. Please vote against it.
10/20/25 10:16 AM	Mrs. Jennifer Sass	Nurse Practitioner	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 10:16 AM	Jo Ann Dalton		DJT started the illegal redrawing of district maps in Texas!! When I hear the NCGOP Director say they are making the change to help DJT, because California got in the fray. Really? The GOP already has 10 seats out of NC 's 14 seats, after the last redraw. This redraw would give the GOP 11 seats out of 14, leaving the Democrats with only 3. Let's be clear.....NOPE! This will be challenged at EVERY LEVEL. Any represenative that votes for this, even bigger power grab will be held accountable. STOP!
10/20/25 10:16 AM	Zack Cook		No
10/20/25 10:16 AM	Lindsey McCoy		Historically, redistricting happens once per decade after the census, changing maps between census cycles for political gain creates instability and confusion for voters. I have not heard any legal or logical reason for a map change at this point and doing so makes our state government look incredibly partisan, and as if it does not care for the will of its voters.
10/20/25 10:16 AM	The People say NO!!!!!!!! Stephanie Gray		85% of North Carolina Citizens say NO to GOP Redistricting!!! 85%+ of North Carolina Citizens say NO to GOP MAGA!! We,Äôve shown you who we are and how many of us oppose the MAGA/GOP at our rallies. We KNOW you are frightened of us. We KNOW you are stealing our money and disposing our voting power. We KNOW you are intentionally keeping the time of the legislative session secret from us because you are afraid. We will show up no matter what and no matter when - until you do your job and represent the people in your state. You have been exposed by investigations and shamed repeatedly. Do your job! You work for US! The people of North Carolina. Not the money barrons attached to the felon and huckster in the ,Äúwhite,Äù house. You represent US. We the people of North Carolina. We see you. You will see us. Publicize the time of the Legislative Session on Redistricting.
10/20/25 10:17 AM	Eva Kraus		I strongly oppose the Replican plan to redraw our districts. Redistricting should not be done behind closed doors and should only be done in consultation with current census information and a bi-partisan committee. Republicans are intentionally redistricting as most North Carolinians are moderate. The only way these power hungry radical Maga republicans can stay in office is to take away the rights of moderates across the state. Stop the Steal of our votes and return to bi-partisan collaboration.
10/20/25 10:17 AM	Mr. Sam Hudson	Blue Meadow Farm	A very bad idea for democracy and fairness. Let voters faily pick their representatives.
10/20/25 10:17 AM	Sara Chappell		North Carolina needs free and fair elections. Gerrymandering our maps even more silences voters in an unethical way. This blatantly partisan redistricting process would set a dangerous precedence and rob North Carolinians of their rights.

10/20/25 10:17 AM	Mrs Marilyn Ridgeway		Gerrymandering just causes more extreme right wing or left wing candidates and discourages moderates. It also inhibits voting. I hope voters react to this power grab and vote against the grabbers. Guess that is all Republicans can do is grab. Pass a budget, restore Medicaid cuts at the federal level. Help your citizens. No just grab with the small hands at the request of a wanna be dictator. We see you.
10/20/25 10:17 AM	Ms. Brigette Adamkiewicz	NC Resident	In my opinion rediscriting of North Carolina voting districts goes against the will of the people of North Carolina and the Republicans need to stop kowtowing (to kneel and touch the forehead to the ground in token of homage, worship, or deep respect) to Donald Trump. Donald Trump is tearing our country apart, he is a bully who does not respect anyone but himself. North Carolina Republicans must start thinking for themselves and for what is best for the people of North Carolina. If North Carolina Republicans want respect they should start by listening to all North Carolinians and compromise as needed to do what is best for the people and our state. A recent survey of North Carolina voters by Opinion Diagnostics (September 15-17, 2025) found overwhelming opposition to gerrymandering for any reason. The disfavor is abundant regardless of party affiliation. Gerrymandering was opposed by 78% of Republicans, 87% of Democrats and 85% of unaffiliated voters. https://www.commoncause.org/north-carolina/wp-content/uploads/2025/10/2025-NC-Redistricting-Poll.pdf
10/20/25 10:17 AM	Mr William Delamar		I am opposed to more gerrymandering in North Carolina that has already given disproportionate power to Republicans. We elect Democrats for governor and attorney general, but do not see that reflected in our legislators.
10/20/25 10:17 AM	Mr Gary COLEY		Vote NO. We are not going to be dictated by Trump Keep it like it is, remember you can be voted out of office too
10/20/25 10:18 AM	Ms Lyn Hawks		Enough with the gerrymandering. One person, one vote. This is not a one-party state. If you know you will lose, why do you think you deserve power? Our current Republican legislators are willing to steal votes. How breathtakingly unAmerican. Do the right thing.
10/20/25 10:18 AM	S L		This is a disgusting power grab. NC Republicans are an absolute disgrace.
10/20/25 10:18 AM	Tambria King		Capitulating to Donald Trump is not representing the citizens of NC. You continue to silence 50% of registered voters. The gerrymandering has to stop. White supremacy = terrorism.
10/20/25 10:18 AM	Catherine Tucker		Stop the gerrymandering. Either you run on a platform that people want or you get out of the way. This is cheating plain and simple. Stop it.
10/20/25 10:18 AM	Rob Roberts		Please do not abuse this strategy to create maps that will ensure the dominance of a party. If this is necessary to strengthen our state, please provide fair representation within districts. Allow the political process of democracy to play out and allow every vote to count. Any manipulation of the districts to favor a party undermines trust and participation within our republic.
10/20/25 10:18 AM	Terri Fleming	Self	District assignments must reflects the wishes of the voters irrespective of political party. Gerrymandering does not support one voter one voice. The purpose is to be fair and equitable to all persons of any race, gender, religion, political stance, identity. Equal Rights for all. Voters select candidates. Candidates must not select voters.
10/20/25 10:18 AM	Redistricting issue Ben Bernhard		This plan seeks to disenfranchise brown people and erodes the people's right to vote. Leave the districts as they are.
10/20/25 10:19 AM	Markell Lynch		You should be ashamed of yourselves. This goes against the very bedrock of our democratic republic and strips representation from the people of out state.
10/20/25 10:19 AM	No gerrymandering! Sarah Bellak		I am appalled that the NCGA is even considering redistricting the maps right now. Not only is this supposed to be done after the decade census (a full 5 years from now), but this should not take precedent over negotiating and passing a budget that is already 3.5 months overdue. Also, it is being done in such a blatantly partisan way that is inexcusable. We went to court about this very thing a few years ago, and the true motivations were exposed. You need to be working for your voters on real legislation and an actual budget, not slogging into this political stunt at the behest of a wildly unpopular President.
10/20/25 10:19 AM	Tina Mason		As a resident of Guilford County NC, I am dismayed that the Republicans are choosing to gerrymander our state yet again. There has been no vote put forth before the people to state how we feel and how we feel about your actions. We the people of NC deserve better representation than we currently have and the right to have state voting lines that truly represent us. Do the right thing and do not ram through new voting maps yet again without having the people vote on this. Help us . Do not continue to hurt us. Follow your oaths and represent the people in good faith. Allow us to have a vote in November and follow the results of that vote. We deserve fair elections. Thank you, Tina Mason
10/20/25 10:20 AM	Mrs Elizabeth Hayes		Please don‚Äôt let this happen. It‚Äôs plain and simply wrong and corrupt. This madness needs to stop.

10/20/25 10:20 AM	Amy Schneider		This is just another example of the Republicans not serving their constituents and trying to cheat to stay in power because their unpopularity makes it impossible to stay in office the legitimate way. I will continue to fight these actions with every cell in my being!!!!!!
10/20/25 10:20 AM	louise barnum		Ending gerrymandering upholds the constitution.
10/20/25 10:20 AM	Peggy Bledsoe		I strenuously object to the steadily worsening gerrymandering of districts, and I vote. At every single election. And I speak to others about voting. And I volunteer to drive voters to the polls. Any voter that wants a ride. I support Fair Re-districting, and you should, too
10/20/25 10:20 AM	Meredith Pysnik		As a resident of NC for 20 years, I am strongly opposed to this blatant display of gerrymandering in yet another unfair and unrepresentative restricting proposal from the NC GOP. The people are supposed to elect their representatives in a democracy. The representatives are absolutely not supposed to manipulate district lines to take away these rights from the people. This is a huge slap in the face to the people of NC and cannot be tolerated. Fair and sensible district maps are the only way for democracy to function and for the voices of the people to be heard. We demand better for North Carolina. Do your jobs, NCGA. Take care of the people of NC. While you,Äôre are it, pass a budget and protect Medicaid for us, too.
10/20/25 10:20 AM	Ms Beth Kemp		This needs to stop! Gerrymandering is a lopsided representation of our population and dilutes the true wishes of the voting population. No party should determine the districts and borders of those districts.
10/20/25 10:20 AM	Teresa Lineback		Redistricting will cause confusion for voters and lessen fair representation for these affected areas.
10/20/25 10:20 AM	Jeanne Boone		Please, for the love of our country and constitution, do not support the bill to gerrymander our state districts and deny NC voters the opportunity to make a difference in a democratic way. Bills like this help to destroy our confidence in our government.
10/20/25 10:20 AM	Sally Soneson		Could you be any further up Trump's ass?
10/20/25 10:20 AM	Mr Bill Ransome		I am opposed to further gerrymandering our congressional districts. So many in our state are disenfranchised and this will make it worse. Congressional districts should reflect our state and not be drawn for purely political outcomes.
10/20/25 10:21 AM	Ms Elizabeth Knollmeyer		If the only way you think you can win is by cheating the system, you,Äôre lower than low. I have lost all respect for the Republicans in the NC Legislature. Please do not redraw this map!! NC is already one of the most gerrymandered states in the US.
10/20/25 10:21 AM	James Goldsmith	None	Partisan gerrymandering undermines the democratic process and is an unconstitutional way for one political party to disenfranchise the voters of the other party to gain an unfair political power. It should be stopped immediately.
10/20/25 10:21 AM	Mrs Tammie Fiorella		Take two seconds leave a comment ask them to vote note ! No! If you wanna talk this up and make it your own feel free: I am writing today to urge you in the most emphatic terms to vote no on the proposed redistricting plan for our state. Redrawing congressional districts specifically to ensure that only one party ever has a chance of winning any given election is unequivocally wrong. Gerrymandering is just plain wrong. Do not stoop to that level. As your constituent, I ask you to vote no.
10/20/25 10:21 AM	Lynn Wilkie		Stop being Trump,Äôs pawns! Your party has already gerrymandered this state so that the other guys never have a chance at having a voice again. Take that and leave it alone. I am a registered republican and I will never vote for this party again. Cheating is not the American way. Grow some balls and listen to the people!
10/20/25 10:21 AM	David Johnson		Why y'all have to cheat to win elections? Maybe you should work on serving the people you represent rather than trying to slant the rules in your favor.
10/20/25 10:21 AM	Ms. Wanda Jane Burlinson		We don't need more of Donald Trump and his ilk. His assault on the Constitution should not b aided and abetted by the people of North Carolina.
10/20/25 10:21 AM	Debbie Griffith		I am writing today to urge you in the most emphatic terms to vote no on the proposed redistricting plan for our state. Redrawing congressional districts specifically to ensure that only one party ever has a chance of winning any given election is unequivocally wrong. Gerrymandering is just plain wrong. Do not stoop to that level. As your constituent, I ask you to vote no.
10/20/25 10:21 AM	Ms Elizabeth Krijgsman	none	What you are doing is disgusting, and you should be ashamed. You are thwarting the will of the people to elect the representatives of their choice. Several of your number have admitted as much, proudly. Are you a Christian? Do you believe in the principles of democracy as outlined in the US Constitution? Stop trying to disenfranchise those who don't agree with you. If you want to win voters on your own merits, rather than by cheating, start serving your constituents--ALL your constituents.
10/20/25 10:22 AM	Mr. Fred Godette	N/A	Do not redraw map.
10/20/25 10:22 AM	Dr Pat Roos		This is wrong! This is continued extreme gerrymandering and it,Äôs about robbing the voters of their basic rights to be heard and to have their votes count. Do NOT do this
10/20/25 10:23 AM	For our good? Priscilla Chappell		Redistricting in a non-census year is an undisguised power grab by one side of our NCGA. It is a gross overreach, and we the people will remember when it comes to voting. This is not for the good of the state or for the good of all North Carolinans.
10/20/25 10:23 AM	Claire Wait		Please do not enact new voting district lines proposed by Trump. Please fight to end gerrymandering in North Carolina.

10/20/25 10:23 AM	Tessa LeAnn Logue		I am strongly opposed to the proposed the Republican party's intent to redraw the U.S. House map again mid-cycle. North Carolinians deserve fair, competitive districts that reflect our communities,Äînot maps drawn to secure political advantage. Gerrymandering weakens accountability, discourages participation, and erodes trust in our democratic process. This feels like the only way they can retain power -- it's a form of cheating and it's wrong! Please commit to a transparent, nonpartisan redistricting process that upholds the principles of equal representation and ensures every voter,Âôs voice carries equal weight. The people of North Carolina are best served when our leaders are chosen by the voters,Äînot the other way around.
10/20/25 10:23 AM	Krista Mortensen		You keep cheating and keep trying to silence WE THE PEOPLE. Well, it is not working, because WE ARE PAYING ATTENTION AND WE WILL NOT LET YOUR POWER GRAPS GO UNCHECKED!!!!!
10/20/25 10:23 AM	Laura Sandvik		NC GOP knows exactly what this redistricting effort is: appeasing the national GOP party and creating districts that are even more lopsided than the existing ones. NC is a purple state, you elected folks in Raleigh should be doing you can to represent ALL your constituents, not just rigging the system to keep your seats. Please stop to consider the very serious oath you all have made to this state... not a single party. And certainly not allegiance to a single man. Please consider putting redistricting in the hands of the citizens directly with an ICC. The gold standard for nonpartisan redistricting is the Independent Citizens Commission, used in states like Arizona, California, and Michigan. An effective ICC includes the following elements: -Independent selection: The process for selecting commissioners should be independent and random, typically involving a large pool of qualified applicants who have no conflicts of interest, such as being a lobbyist. -Balanced composition: The commission should have 9,Äì15 members to ensure diverse representation. Ideally, it includes an even number of Democrats and Republicans and an appropriate number of independents to prevent one side from dominating. -Full authority: The commission must have the sole authority to draw and approve maps, without needing approval from the state legislature. This prevents politicians from undermining the commission's work.
10/20/25 10:24 AM	Wendy Sirota		I vehemently oppose the map changes being considered.
10/20/25 10:24 AM	Jessica Davis		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Âô ability to hold our leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering violates this basic principle.
10/20/25 10:24 AM	Dr. Erin Leidlein Hamilton		To redistrict for a fifth time in six years is a gross power grab and abuse of the people you are paid to represent. You took an oath to honor the constitution, not pander to the president. LET NORTH CAROLINIANS,Äô VOTED BE COUNTED AND THEIR VOICES HEARD.
10/20/25 10:25 AM	Dr. Shelly Nolin		In a democracy, the voters should select their representative, the representatives should not select their voters! There is strong, bipartisan agreement among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. NC has already gone through redistricting following the 2020 census, another redistricting this soon, and this partisan, erodes trust in the election process. North Carolina is not a one party state, and our representation should reflect the diverse electorate and serve all North Carolinians.
10/20/25 10:25 AM	Richard Schock		NCGA should be working to support voting rights. The idea of politicians choosing voters is un-American, but that is par for the course with gutless MAGAt sycophants.
10/20/25 10:25 AM	Gena Gesham		I am a republicon and I dont like what is hapening and what you are doing. Redistricking is not honest.
10/20/25 10:25 AM	Ms. Clare Reece-Glore		How about get rid of gerrymandering all together? Please leave the maps alone!!
10/20/25 10:25 AM	Mr Charlton Bradsher	art+design	Dear House Select Committee on Redistricting / Senate Elections Committee / NC General Assembly, I oppose the Redistricting plan to change current number of seats per party. This is nothing more than partisan gerrymandering and a power grab brought on by the Trump Administration. I demand that you represent ALL of your constituents, and not just those who vote Republican. As a registered Independent voter I try to see both sides, but this attempt is simply UN-American!
10/20/25 10:25 AM	Corri Buchanan		No
10/20/25 10:25 AM	Former Mayor Concord Scott Padgett	Former Mayor Concord	The members of the legislature know that this is unfair. I was hoping that North Carolina would be a state that would not participate in this madness.and please don,Äôt say you,Äôre reacting to California/ you know Texas was first. It doesn,Äôt matter who started it!!NC could be a leader based on on principle.

10/20/25 10:26 AM	Dawn Adkins-Hurley	FRC	This illegal redistricting plan should NOT even be voted on. The fact that NC is being forced by Trump to even attempt this unlawful act just shows how spineless our legislature is. You know this is illegal and if the only way you can stay in power is to gerrymander our state, then you have no right to represent us. Vote NO on this attempt to take away our right to fair representation.
10/20/25 10:26 AM	Mr. Jeremy Overman		Instead of fixing the elections against the wishes of North Carolinians why don,Äôt the republican,Äôs do their job and come up with a budget. This is a divisive, morally corrupt decision to enable the republicans to stay in power in the setting of the most corrupt administration in American history. Shame on you! If you want to win, win without cheating
10/20/25 10:26 AM	Janique Cantey		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/20/25 10:26 AM	Megan Myers		As a citizen of Raleigh, I,Äôm appalled by the blatant attempt by our GOP-led leadership to redistrict the congressional map of NC in a way that is unfair to the constituents of NC. It,Äôs embarrassing that we,Äôre so low in teacher pay and so high in Gerrymandering. It,Äôs shameful and racist to manipulate the maps to retain power.
10/20/25 10:26 AM	Elizabeth Delaney		The NC General Assembly is supposed to be governing our state, not looking for ways to rig the system to keep one federally elected person in power. Redistricting now, outside the lawful timeline, is a grave disservice and an insult to the people of this state. It also smacks of severe gerrymandering. The people are supposed to choose their leaders--not the other way around. Respect this country and our Constitution; play by the rules.
10/20/25 10:27 AM	Robbie Sherron		I am asking that you vote no on the Trump redistricting. You are suppose to be supporting the people of North Carolina not Dictator Trump.
10/20/25 10:27 AM	Ms Nancy Okane	self	Please stop the gerrymandering that's taking place. It deprives legitimate voters of their proper representation.
10/20/25 10:27 AM	mr Steve Christoffers		The attempts to redistrict NC to create more Republican seats and diminish the rights of black voters, are heinous.
10/20/25 10:27 AM	Emily Judge		Legislative districts should be drawn with principles centered on representing communities as cohesively as possible. The latest proposal carves up some communities to deny or reduce their representation. This isn,Äôt good for NC. Districting to influence election results in favor of the controlling Republican party is unfair, illegal and reduces the effectiveness of government. Representatives that have competitive districts are more accountable to their constituents, which is good for all North Carolinians!
10/20/25 10:28 AM	Charlotte Thomas		I am strongly against this redistricting effort. North Carolina districts should be fair and reflect the population. This redistricting effort would fail to accurately represent North Carolinians.
10/20/25 10:28 AM	Sheila King		This is just an attempt to rig elections in your favor. Y'all need to look at yourselves in the mirror. Where is your soul? Where is your integrity? Where did it go? Y'all need to leave politics and let people who actually care about their neighbors govern us.
10/20/25 10:28 AM	Katie McCarthy		North Carolina,Äôs legislature should be focused on their constituents, not redistributing again for political purposes. Stop redistricting.
10/20/25 10:28 AM	John Held		I am totally against gerrymandering since it is a form of controlling votes! We should all have an equal chance to vote without trying to determine outcomes unconstitutionally
10/20/25 10:28 AM	Jen Craig		I am against the plan to further redistrict the state. The population of North Carolina is already not properly represented. This plan would only further skew representation of our population at the national level. No matter one,Äôs political affiliation, one should favor proper representation.
10/20/25 10:29 AM	Rev. Dr. Duane Hix		I oppose the gerrymandering of districts by both parties, whether it happens in North Carolina, Texas and Florida or California, Maryland and Illinois. Such manipulation of districts demonstrates that those in power will try to keep power regardless of fairness to voters and the future of genuine representative democracy. Please refrain from disillusioning more voters with this power play. The more voters distrust politicians, the less likely they are to vote and involves themselves in the political process. The whole future of democracy is at stake.
10/20/25 10:29 AM	Dr. Nicole Oehmen		I strongly oppose the newly proposedredistricting maps in North Carolina, as they reflect partisan gerrymandering.
10/20/25 10:29 AM	Mr. Dennis Streets		I am so tired of efforts to undermine our Democracy. GOP'S planned gerrymandering to steal another Congressional seat is an cruel example of this. My Uncle George who earned his purple heart defending democracy at the Battle Bulge would be distraught to see this happening.
10/20/25 10:29 AM	Mrs Shelley Williams		ALL of us deserve fair elections, no matter which party or culture or race or economic group we may be part of. One person, one vote matters for free and clear elections. All citizens should feel secure in knowing that our vote matters. Keep our democracy strong and vibrant. Do not allow gerrymandering in Nirth Carolina to suit special interests or particular political parties. Thank you for listening to and heeding the voices of the people of this state.
10/20/25 10:29 AM	Cheryl Blaise		We don,Äôt need redistricting so that republicans can get more power. What we DO need is a budget passed, especially for Medicaid.
10/20/25 10:29 AM	Mrs Sarah Lynn	Taxpayer, Citizen	As a tax payer and citizen of North Carolina I am opposed to the legislature,Äôs plan to redistrict North Carolina yet again . Our representatives should work for the people and should be chosen by the people. By wasting time trying to rig the next ejection instead of doing the business of the State and passing a budget you are failing the people of North Carolina. A party that cannot win an election without resorting to trickery and cheating does not deserve to win.
10/20/25 10:29 AM	Rev J Gooch	UCC	Please resist the plan to redraw our maps. We need to stop the ongoing disdain of democracy and put citizens,Äô welfare first and foremost.

10/20/25 10:30 AM	Mrs. Elizabeth Haynie		I am opposed to congressional redistricting that would further distort North Carolina,Äôs federal voting maps. Gerrymandering violates core principles of fairness, accountability, and limited government.
10/20/25 10:30 AM	Ashley Brown		I am opposed to redrawing the map. Uphold democracy and have the seats actually reflect the views of the people.
10/20/25 10:30 AM	Ryan Hoskins		Hello! I have lived in North Carolina my entire life and have lived in a wide range of places within our state. I grew up in Craven county, lived in Pitt county, and currently reside in Wake county. Throughout my life, I've seen so many different types of people in our state of varying beliefs. Something I've always loved and appreciated about our state is that North Carolina often marches to its own drum. North Carolina offers so much and I've seen people here do great things. I've always respected that North Carolinians have nuanced beliefs and our state supported that. The map that is being proposed defies all of that which I respect about North Carolina. Instead of allowing citizens to have their voices heard or to even vote on the new map themselves, you are making that decision for them and robbing us of nuance. Instead of North Carolina marching to its own beat, it is falling in line with demands from the President to further gerrymander our map. North Carolina is such a great state with so many wonderful people. If you are set on proposing a new map, let the people vote on it. That's all I ask, is that you don't rob us of our ability to determine our elected officials. Thanks, Ryan
10/20/25 10:30 AM	Mrs Amalia Pinand		If you can't win an election based on your actions and accountability to the people you are supposed to be serving the.n you don't belong in office. Stop gerrymandering the voting maps.
10/20/25 10:30 AM	David Konig		Our democracy works best when EVERY VOICE COUNTS and unfair maps silence communities and protect POLITICIANS INSTEAD OF PEOPLE.
10/20/25 10:30 AM	Mr Matt May		I STRONGLY oppose the new gerrymandering proposal to give the Republicans House District 1. Shame on you, stop trying to cheat for the sake of a wanna-be dictator I oppose the existing gerrymandering, because it,Äôs fundamentally anti-representative democracy, but the new one is even more insidious. Berger acknowledges, proudly, that he wants another seat to give Trump another rubber stamp vote. This is not only anti-representative democracy, it,Äôs anti the whole concept of equal branches of government. We will keep having No Kings protests until Trump,Äôs enablers in the legislative branches of the state and federal governments stop giving him royal powers. The GOP is now the American Fascist Party. ALL of your grandpas who fought in WWII are ASHAMED of you cheating, unAmerican Republicans who are doing this. Your children and grandchildren will be ashamed of you. You will be known as the Benedict Arnold,Äôs of North Carolina!
10/20/25 10:30 AM	Mr George Wagoner		I am a registered independent voter. For years I have been proud of this state. I am EMBARRASSED by the redistricting in NC and oppose it.
10/20/25 10:31 AM	William Boyes	retired	Please stop this anti-democratic redistricting effort. It is an afront to the principal that everyone in the US is treated fairly and has a equal opportunity to have their voice heard and their vote matter. This is a simple power grab and you should be ashamed of yourselves for considering it. William K Boyes, Durham NC
10/20/25 10:31 AM	Amanda Casella		Redistricting like this is completely wrong. If the policies that the Republican Party want to implement are so wonderful- then leave the maps as they are and let them win based on what the voters decide. Don,Äôt decide for the people by gerrymandering the state. This is cheap.
10/20/25 10:31 AM	Outrageous gerrymandering Kiron Rakkar		Nc is so gerrymandered already that real voter representation for the state is unlikely. Further gerrymandering in order to lock in one party rule is an anathema to democracy. Districts should be set in a nonpartisan way no party should be able to do what is being done to NC.
10/20/25 10:31 AM	Xhenet Aliu		Redistricting that,Äôs designed to disenfranchise voters and privilege a specific political party is perhaps the most antidemocratic action legislators regularly enact on their constituents. Districts should be drawn by apolitical and/or bipartisan committees to ensure voting blocs are comprised of citizens with a vested interest in the issues specific to their region. My concerns as a urban voter will differ considerably from those in more rural areas of the state, and our elected ,Äúrepresentatives,Äù should be just that,Äïofficials who represent, not dictate, the will of their constituents.
10/20/25 10:31 AM	Tedistricting Terry Burke		We live in a democracy. Please leave the maps alone. Let the people choose. Stop choosing for them.

10/20/25 10:32 AM	Jeanette Bennett		I,Äôm a constituent from Durham. I oppose attempts to redraw North Carolina,Äôs congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around. Thank you, Jeanette Bennett
10/20/25 10:32 AM	Daysja Terry		North Carolina and deserve fair representation please do not vote to redistrict our state which will disenfranchise the voters of North Carolina. I am urging the North Carolina GOP to back down on this anti-democratic proposal.
10/20/25 10:32 AM	T. Giles		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is an attempt to seize power for the GOP, and it is unacceptable.
10/20/25 10:32 AM	Alex B		Gerrymandering is wrong. Do not redraw the maps, 85% of North Carolinians are against it! We need to focus on other things
10/20/25 10:32 AM	Rita Carey		I am writing today to urge you in the most emphatic terms to vote no on the proposed redistricting plan for our state. Redrawing congressional districts in a way that ensures that only one party ever has a chance of winning any given election is unequivocally wrong. As your constituent, I ask you to vote no.
10/20/25 10:32 AM	Clair Lorenz		I am writing to let you know that I am strongly opposed to mid-cycle partisan gerrymandering. It silences voters divides communities , and reduces competition and accountability. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. Most importantly this type of gerrymandering weakens our democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of our system and people stop believing their vote matters at all.
10/20/25 10:33 AM	Gerrymandering Heather Newby		Do not gerrymander NC districts! The people should decide who they elect and not by rigging the systems in republicans favor.
10/20/25 10:33 AM	Nona Fine		True conservative values demand transparency, integrity, and competition- victory EARNED through ideas and persuasion, not through manipulation of electoral maps
10/20/25 10:33 AM	Mrs Anna Berry		STOP this unprecidented step of overturning a prior decision
10/20/25 10:34 AM	Hannah McCarty		As a constituent of North Carolina and a proud democrat who believes in bi-partisan redistricting, I am FIRMLY OPPOSED to the maps the NCGOP is imposing against the will of the voters. I hope the NCGOP listens to the voters who put them in office and allows this to play out in the courts first and then consider the will of the voters. Republicans have made it obvious they intend to proceed with the fascist will of King Trump, showing constituents that democracy no longer exists in North Carolina.
10/20/25 10:34 AM	Dr Maria Fraser-Molina		I vehemently oppose this redistricting plan that would rob thousands of citizens of their voice. Just the fact that you,Äôd vote for this not to obfuscate D Trump and try to win with good policies instead of gimmicks, proves to me that the Republican Party has lost its moral compass. Shameful times in NC.
10/20/25 10:34 AM	Citizen Jacob Frost		This is unethical. Voters should choose their politicians,Äînot the other way around.
10/20/25 10:34 AM	Ms Rose Cnudde	Retired	Redistricting should only happen every 10 years, and should be conducted by a non partisan organization or committee representing the voting public. . Redistricting to gain more seats by splitting up certain constituencies to gain more votes for one party or another, is in my humble opinion, equal to fraud. It takes away the power from We The People, and basically gives that power to the politicians.
10/20/25 10:34 AM	Mrs. Joanie Strohm	United Women in Faith	Because 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party, this percentage makes it extremely important to pay attention to this. There is also strong, bipartisan agreement on this point, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by the Senate should be against the law.

10/20/25 10:34 AM	Bonnie Blackley	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition‚Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 10:35 AM	No Racist Redraw Alex Patterson	This is an affront to the constitution and the spirit of a republic.
10/20/25 10:35 AM	Mrs Selena Brigman	No gerrymandering.
10/20/25 10:35 AM	Craig Landwehr	This is blatantly unconstitutional! I am outraged.
10/20/25 10:35 AM	Dr. Chris McQuiston	Do not redistrict District 1. This district needs to remain as is to adequately reflect the population .
10/20/25 10:35 AM	Kay Wall	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice.
10/20/25 10:35 AM	Joseph Hester	Removing or minimizing district competitiveness provides a direct incentive for parties to tend toward extremism. The only solution to increasingly destabilizing levels of extremism is to moderate NC elections and ensure that broadly popular candidates are able to win primaries and general elections. We should also never redistrict at the behest of a President for partisan purposes. NC has sole authority over its own election processes, and we tread on dangerous ground when we open the flood gates for redistricting to become a weapon that helps predetermine federal election outcomes. No good will come from continuing to press and strain an already stressed electoral system, and dangerous levels of extremism, hate, and violence will result if no one is willing to throttle back on punitive partisanship. I do not support redistricting except after the decadal census, and I fully support independent, non-partisan redistricting and ranked choice voting.
10/20/25 10:35 AM	Redistricting William Allen	This is blatantly gerrymandering of the worst kind. You already redistricted with horrible gerrymandering and now want to redistrict just to eliminate black representation. This is illegal and unconstitutional and goes against the rule of law. Stop this madness!
10/20/25 10:35 AM	Karin Shank	This new redistricting is a shameless grab for power, when previous gerrymandering attempts have been shot down by the courts. This redistricting would further distort our federal voting maps and take away the power of North Carolinian people to elect the candidates of their choice. Those who are pushing this through know that, and they are doing it purposefully to take away the power of the electorate. North Carolina is well-known nationally and held up as a standard for gerrymandering that has an impact on elections - that is not how I want our great state to be known! True conservative values demand transparency, integrity, and competition - victory that is earned by having the best ideas and care for the people of this state and nation. Not earned by cheating and backroom deals. Over 3/4 of North Carolina voters say that gerrymandering should be illegal regardless of political party - and this includes a majority of Republican voters. Do not disappoint us again.
10/20/25 10:35 AM	Kenisha Johnson	As a lifelong North Carolinian, I have never witnessed such disregard for the citizens of this state. I used to be able to say that our state was for it's people regardless of political party. I was proud of that. Unfortunately, the GOP has lost it's grip on what really matters and is now just power hungry. Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/20/25 10:35 AM	b b	I am a NC voter and DO NOT want another gerrymandering attempt to simply strike eligible voters off the rolls!!! YOU CAN'T ALLOW THIS TO HAPPEN- FILIBUSTER ANY REPUBLICAN ATTEMPTS!!! There will be NO help from the NC SC if you're looking to sue- thank you!!!
10/20/25 10:35 AM	Mr William Johnson	I am writing to let you know that I am strongly opposed to mid-cycle partisan gerrymandering. It silences voters divides communities , and reduces competition and accountability. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. Most importantly this type of gerrymandering weakens our democracy. When maps are drawn to entrench one party‚Äôs power, voters lose confidence in the fairness of our system and people stop believing their vote matters at all.

10/20/25 10:36 AM	Christine Abernathy		Shame on all of you for continuing to steal votes and manipulate fair and free election process to your benefit. Every person's vote should count and the party in power should not have the ability to redraw maps. You have turned our proud state into a textbook case of gerrymandering at every possible turn.
10/20/25 10:36 AM	Kelsey Gibbons		An issue like this should be put to a vote by North Carolinians to decide.
10/20/25 10:36 AM	Tiara Richardson		It is imperative that you reject the 2025 proposed maps. They are an illegal attempt to racially gerrymander the NC congressional districts. This attempt to seize power for the GOP is unacceptable. Stand up for what's right for the people and Vote NO.
10/20/25 10:37 AM	Ms Sarah Willis		Vote NO on redistricting Vote NO because it is an attempt to make our state into a one party state!
10/20/25 10:37 AM	Rev. Kathryn Hunter		I am very concerned that gerrymandering of the NC Districts is extremely unfair to the citizens of NC. All citizens should have equal right for their votes to count and their voices to be heard.
10/20/25 10:37 AM	Mrs. Lisa Moore		I am opposed to the drawing of new maps and further gerrymandering of our State.
10/20/25 10:37 AM	Lynn Mathis		I find it unconscionable that NC legislators are willing to sell their souls to maga, and go against fair voting rights. I am embarrassed for our great state and will become an involved citizen to see participating legislators are voted out! Redistricting our state is gerrymandering. Show us you have a conscious and vote no.
10/20/25 10:37 AM	Maria Moore		Both sides have gerrymandered the voting lines for years. This is just another example. How about we completely start over?
10/20/25 10:37 AM	Suzanne Morgen		I am deeply concerned with the latest efforts to redraw North Carolina's districting maps to blatantly favor one party over another. As a registered independent, I try to keep an open mind about which individuals would best represent me and my community. However, it is clear that the Republican party does not share the belief that voters should be able to best choose who they want as their local representatives. By continually redrawing the maps to favor themselves, they are manipulating the system unfairly. When I learned about Elbridge Gerry as a kid in NC schools, I thought it was silly and kind of funny. I don,Äôt think it's funny now at all. Districts should be drawn fairly and based on agreed-upon principles, not the whim of the ruling party. Please stop redrawing districts in closed-door sessions like children hiding from their parents while misbehaving. Return the district lines to make sense based on geography, not to favor incumbents or the Republican party.
10/20/25 10:37 AM	Heather Lions		Y'all need to stop cheating and win elections the honest way.
10/20/25 10:38 AM	Tabetha Priest		This blatant power grab is unconscionable. The obvious disparity in the proposed balance of power among the constituents only serves to illustrate weakness - the message to the people is that the only way you can win is to rig the system in an attempt to guarantee the outcome. A review of registered voters has almost an even break between the three main parties (2.3 million republican, 2.3 million democrat, 2.9 million unaffiliated), with largest segment of voters identifying as unaffiliated. When the majority of voters don,Äôt belong to a particular party, this is all the more reason that constituents should be represented at a 50/50 ratio (7R/7D), and not 80/20 (11R/3D). This is logical and fair. REPRESENT THE PEOPLE, not your own party.
10/20/25 10:38 AM	Sian Kolozvary	Individual constituent	VOTE NO! I am writing today because I vehemently with the proposed redistricting plan for our state. Redrawing congressional districts specifically to ensure that only one party ever has a chance of winning any given election is unequivocally unethical. Gerrymandering is just plain wrong. As your constituent, I implore you to vote no.
10/20/25 10:38 AM	Dr. Shana Hartman		I urge the legislature to draw congressional and state legislative maps using fair, non-partisan criteria. Our maps should not be designed to give one political party an advantage, but rather to ensure every vote counts equally. When districts are manipulated for partisan gain, it disenfranchises voters. Do better! Listen to your citizens.
10/20/25 10:38 AM	Leslie Kreizman		Please don,Äôt spend your precious time pandering to Trump. You need to pass a budget and give raises to teachers and other state employees and worry more about the people of this state. Please remember that at some point this will come back to haunt you. Do not redistrict!
10/20/25 10:38 AM	Jessica Siemers		Please act with integrity. Do not redistrict our already gerrymandered state to further exacerbate the problem based on unprecedented, calculated, and partisan pressure from the White House.
10/20/25 10:38 AM	Mr Meredith Berry		Stop the redistricting in unprecedented manner!
10/20/25 10:38 AM	Alia Todd	NC AFL-CIO	Do not do this, it is disenfranchising black voters and yall are doing it just for trump. And in such a sneaky and hidden way. What a disgrace! and Erin Pare is my representative so she is directly responsible for this. Shame!!
10/20/25 10:38 AM	Laura Volk		I am writing to strongly weigh in against redistricting at this time. Our elected NC representatives need to keep in mind that their primary task is to represent the people of NORTH CAROLINA and to work to bring about a better life for us. It is not your role to reconfigure boundary lines to keep the current president in power. Know that I am paying attention to this issue and that I will not vote for any representative who does so. America is a diverse country and it is not legitimate to essentially cheat at the game so as to disenfranchise communities who are not in the camp of the current leadership. This is not America. Laura Volk

10/20/25 10:39 AM	Peter Lorenz	America	I am writing to let you know that I am strongly opposed to mid-cycle partisan gerrymandering. It silences voters divides communities , and reduces competition and accountability. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. Most importantly this type of gerrymandering weakens our democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of our system and people stop believing their vote matters at all.
10/20/25 10:39 AM	Gerrymandering Jaleesa Pittman		Vote against gerrymandering!
10/20/25 10:39 AM	Lindsay Okeefe		Gerrymandering is bad for NC
10/20/25 10:39 AM	Julie Barnes		I am greatly saddened to see our state representatives take this gerrymandering step. It feels like a tribute to the wannabe authoritarian president, rather than the action of a healthy, stable democracy. Our Republican state leaders are suppressing the voices of North Carolinians.
10/20/25 10:39 AM	MS Wanda Jenkins	N/A	I am truly disappointed in the way the Republican party representatives are continuing to coward to the politics of Washington, DC. You were voted in to do what is right for the state and in my opinion, you are failing in that effort. You must not realign districts to help the current president who is ruining this country. Stand up for what is best for our state's citizens and this is surely not it.
10/20/25 10:39 AM	Mary McEntire		Do NOT restrict NC again! You represent ALL North Carolinians.
10/20/25 10:39 AM	Danett Cantey		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is an attempt to seize power for the GOP and it is unacceptable. There are trying to get rid of Senator Don Davis who represents eastern NC where I was born and raised. Don Davis used to be the mayor of Snow Hill Green county which is my home town. We need senator Davis to continue being the voice of eastern NC. Vote NO!
10/20/25 10:39 AM	Mrs. Chelsie Fitzwater		Hello, my name is Chelsie and I am a constituent in Wake County. I urge the committee to approach the process with transparency, removed from political bias, and with focus on creating fair maps for the voters of NC. Thank you!
10/20/25 10:40 AM	Mr. Lewis Menanno		Article II section 5.4 of the NC Constitution states that: When established, the representative districts and the apportionment of Representatives shall remain unaltered until the return of another decennial census of population taken by the order of Congress. Redistricting has already taken place for the current census. I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolinians,Äô power to elect candidates of their choice. Any further redistricting would clearly be in violation of the State Constitution.
10/20/25 10:40 AM	Vote NO on gerrymandering Rosalie Petrone		I want you all to know that there is no going back from the choices that you make here today when it comes to voting rights in the state of NC with these redistricting maps effectively rigging future elections for republicans instead of having a platform that wins in its own right. Like it or not, the world is evolving into a place of more acceptance and empathy for all walks of life. Our empathy doesn,Äôt stop at border crossings or religion or sexuality or race or gender or disability. There is no reality where voting in favor of this turns out well for anyone but the billionaires you,Äôve chosen to bend the knee to. Every single representative in this house who votes to uphold these blatant violations of democratic process and representation for ALL people in this state is smart enough to read the room. You can see with your own eyes that what you,Äôre doing is not only unsustainable but will likely end with YOU being thrown under the bus during the fallout. You are not in the tax bracket to be safe from what,Äôs coming, and you know deep down that those who are will not lift a finger to save you when it comes to it. You are disposable like the rest of us. The Republican party,Äôs efforts to monopolize every element of government is lacking the thing that is required at every single layer of nature for a species or a system to thrive long term: balance and diversity. You,Äôve abandoned the natural order of things, your very humanity, to do what? Appease rich men in expensive suits who grew up crapping on golden toilets and pretend they care about the common man. People who are obviously miserable and hell bent on spreading that pain instead of getting help for it. People who,Äôve embarrassed this country,Äôs citizens both at home and on the global stage, making us the laughing stock of the world. If you do this, you are not only abandoning nature, but choosing to stifle the voices of the working class by redrawing these maps the way you,Äôve proposed would also make you class traitors. History has shown what happens to the poor people who sell out their own for the sake of proximity to power or money, and it will NOT go any differently for you when the dust settles if you choose to put this next nail in the coffin of our democracy by voting to further gerrymander our maps. Your mission to stifle the very existence of people who don,Äôt think or act or look like you is a non-starter, and you know it. This country and this state will not be bending the knee to the oligarchs and their minions who decided that they,Äôd rather watch the world burn than confront their own demons. People who,Äôd rather keep the government shut down and harm your constituents than release the Epstein files. THAT is who you Äôre serving when you redraw maps to silence our voices, and we won Äôt ever let you forget it. The military isn Äôt

10/20/25 10:40 AM	STOP GERRYMANDERING Andrew Slaughter		This latest redistricting plan is a disgraceful and blatantly self-serving blitz of corruption. For the 2nd time in the past 5 years alone, you are going to aggressively disenfranchise NC voters simply because they had the audacity to vote for Democrats. Have you just completely given up on winning NC voter support based on ideas and policy, rather than brute force? Try doing something helpful for a change and pass a state budget, or fund our public schools the amount they are due, or ensure that health insurance premiums don't spike as a result of federal cuts!
10/20/25 10:40 AM	Wilda Whitley	Retired public school teacher and long time resident of North Carolina	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally.
10/20/25 10:40 AM	Ms Denise Sebak	me, myself and I	I am writing this note to express my view as a NC constituent - NO REDISTRICTING OF MAPS before voting on our state budget (which is months overdue and everyday this state looses great state employees due to no raises or car by the House & Senate), solidifying Medicare protections and finish all the other business at hand. I am a veteran Pollworker, I take an oath every election to protecting voting rights. As an 8+ year veteran Chief Judge in NC I take on the task of making sure my team protects those rights and makes the voting process safe, smooth and honest for each and every voter. The redistricting you are considering will make a mockery of what I, and the thousands of pollworkers across this state stand for. In the last election I was screamed at and told to go to hell by voters who were upset because we were following the state election rules. I took the abuse because I believed in the system. DO NOT TAKE THE FAIR OUT OF OUR ELECTIONS by voting/passing the unfair map.
10/20/25 10:40 AM	Ms Margaret Henschel		am against the attempt to redistrict two of North Carolina‚Äôs congressional districts midway between U.S. Census taking. As a North Carolinian, I believe everyone‚Äôs vote should count and that North Carolina voters should choose their elected officials. And I‚Äôm not alone ‚Äì a recent Republican-leaning polling firm found that 84% of North Carolina voters said gerrymandering is NEVER acceptable. And that includes 78% of North Carolina Republican voters, 85% of North Carolina unaffiliated voters, and 87% of North Carolina Democratic voters. Please vote 'NO' on redistricting these two congressional districts and do what is right and fair by North Carolina voters. Thank you for voting 'NO.'"
10/20/25 10:40 AM	Dr. Patricia Tomsic		This is blatant gerrymandering and a misuse and abuse of power in an effort to maintain control. If political power and control is the goal, efforts should focus on winning the support and votes of constituents.
10/20/25 10:41 AM	Ms Mary Palmer		I think maps have to benefit Voters not politicians. These new maps will not result in voters putting their preferred candidates into office.
10/20/25 10:41 AM	Danny Wells	Estimator	Please start representing the people of NC and not Trump. The GOP has been in charge of both the House and Senate for nearly 16 years and have accomplished next to nothing. There will come a day when you are no longer the majority. Stop serving Trump. He will not be President for ever despite what you want. If you want to try to redraw the maps put it on the ballot in NC and let the people that you serve tell you what to do.
10/20/25 10:41 AM	Cindt Lundy	none	I do not think it is the role of the NC General Assembly to manipulate voting, again, by silencing the fair power of individual votes in at attempt to gerrymander the districts to insure the US House of Representatives maintains a Republican majority. That's not your job. Democracy has worked pretty well the last 250 years without this kind of action.
10/20/25 10:42 AM	Bobi Gallagher		Please don't change the voting districts now. We believe that once elected our representatives will act for the common good of their district residents - regardless of party affiliation. All voters have an equal voice. That's one of the reasons I love America. Let's keep it that way, best we can.
10/20/25 10:42 AM	Raymond Simms		Thank you for your time in reading my comment. I'm writing to inform that I'm opposed to the redistricting of the congressional map. The state of North Carolina is the most Gerrymandered state in the United States; we went from a 7-7 fair map in 2022 to a 10-4 Republican majority map in 2024. I get the reason for the 2024 maps, congrats on winning the legislature on both sides to get this done. However, when the President of the United States is asking for special treatment for one more seat to keep the US House in his favor, it's plain wrong! The fact that you are changing District one, which holds a majority black vote in that district and to silence their votes by piling red counties to make the seat is plain wrong! You are in the wrong side of history in doing this and I'm really disappointed in this state legislature for bending the knee to this President. He knows he's doing a bad job, the people in the legislature knows he's doing a bad job, yet let's give him an extra seat so we can make his job easier. I have a good feeling this will backfire and anybody that supports this will probably have a difficult time being re-elected. Do the right thing and leave the map as it. The majority got a fair map for them, leave it be! Thank you!
10/20/25 10:42 AM	Diane English		If we let this sail through we will be in a regressive horrid situation. We will have enabled a terrible kingship unaccountable to the American public. One of cruel intentions and subservience to a dictator. Vote NO.

10/20/25 10:42 AM	Mrs Eleonore Buet	I DO NOT agree with further redistricting, and it is a naked attempt to silence any dissenting voices and make elections further skewed towards republicans. Please stop. Please. This is not how democracy works. If you are worried about losing office during an election, you should consider it a reflection of your service. Not a cue to redraw maps and silence any critics, so you can stay in power. Do you believe everyone should have an equal voice? Have you completely lost sight of the Founding Father's vision? Democracy is a precious gift and you are throwing it away.
10/20/25 10:42 AM	Michael Maksymowski	Redistricting mid-census is a disregard for the voters of North Carolina and seeks to take away representation. A democratic government should seek to honor the voters and ensure proportional representation. This is a clear move made to appease one individual and not the 11 million individuals in North Carolina. Shame on the legislature for this clearly partisan effort.
10/20/25 10:42 AM	Isabelle Gallagher	I do not support the redistricting. There is no need for this, the maps have been redrawn FIVE times since 2021. Why don,Äôt y,Äôall figure out the state budget before worrying about maps and redistricting? You should have bigger priorities.
10/20/25 10:42 AM	Michael Rubes	In the last 20 years, Presidential and Gubernatorial races in NC have been decided by less than 4 percentage points. All the data points to NC being fairly equally divided between Democrats and Republicans. How can the Republican party convince itself that the current redistricting effort goes along with the facts about how voters are distributed across our state? How can the GOP members of the State Legislature say with a straight face that this redistricting plan best represents the state of NC? If passed, this plan would make NC one of the most gerrymandered states in the Union. I would encourage all members of the GOP to actually do what is best for all North Carolinians and support a redistricting map that accurately represents the makeup of voters in our state. I would ask current GOP legislature how their constituents would react if the current situation was reversed? Politics are cyclical and the day will come, maybe sooner than later, where the Democrats control the House and Senate in NC. If the GOP goes ahead with this biased and politically motivated redistricting plan, that will give a future government controlled by the Democrats permission to the do the same thing. The NC GOP should NOT be redistricting NC based on short term political gains, but rather working for all North Carolinians.
10/20/25 10:42 AM	Dr. Holly Whistler	This is a shameful map that creates an obvious advantage to the Republican party. The republican party is obviously fearful because their policies are so terrible that they can only win seats if they manipulate the voting districts. There is no Republican who supports this map who can call themselves a Christian. This is unethical and immoral, and each representative should be ashamed to bring this forward. This is what the no kings protest was about - The checks and balances that states rights provide that republicans obviously do not respect. SHAMEFUL
10/20/25 10:43 AM	Mrs. Ruth McKinney	I am against re-districting. We all know why the re-districting is being brought up is because Trump is scared that he will lose the majority. This is not in the best interest of your constituents. That is who you work for, not Trump. I will be watching and so will all your other constituents to see what you do. If you take the easy road and go along with Trump, I can promise you that I will campaign against my representatives in my area. Namely Hugh Blackwell and Warren McDaniel. We are watching. Show your constituents that you care.
10/20/25 10:43 AM	Russell D,ÄôAmico	Do not pursue redistricting again. This is only to be done once a decade with the census and has been recently done already. This is underhanded, dishonest, and against the values of North Carolina, the president does not dictate how our state works.
10/20/25 10:43 AM	Barbara Langrall	Please allow more time for public input. I feel I am not being heard. These new boundary designs need to represent all of your constituents!
10/20/25 10:43 AM	Ms Amy Dosser	Please refrain from mid-decade congressional redistricting. This would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Manipulating district lines for partisan advantage undermines the constitutional promise of EQUAL REPRESENTATION and weakens voters,Äô ability to hold their leaders accountable. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law. Please do the right thing and allow the people to speak. Thank you.

10/20/25 10:44 AM	Mr. James Kellermann	Citizen	I implore you to stop the gerrymandering of maps. This is not leadership. This is politicians picking their constituents, rather than constituents picking their representatives. For too long, this has been a practice by both parties, and both parties have been in the wrong, and it disenfranchises the voice of the people. Do better. James
10/20/25 10:44 AM	Rachel Jacobs		I want to let you know that I am not in favor of maps being redrawn. This is a power grab by the GOP and does not support the people and does not support those who are marginalized.
10/20/25 10:44 AM	Stop gerrymandering attem Suzanne Eller		We are already one of the most gerrymandered states in the nation, causing us constant national embarrassment. We know this is a purple state. To intentionally disenfranchise half the population may be legal, but it is still wrong. It is wrong. I know it. You know it. The people of NC know it. The people of America know it. The people of the world know it. It,Äôs wrong. Vote against this.
10/20/25 10:44 AM	Ms Chris Ekstedt		I am TIRED of politicians rigging our voting maps in North Carolina. Of 84% of North Carolina voters say it,Äôs never acceptable for politicians to draw districts to help their own party win more seats, no matter the circumstances and I'm ONE OF THEM. That opposition holds across party lines, including 78% of Republicans, 87% of Democrats and 85% of unaffiliated voters. THAT survey was conducted by Opinion Diagnostics, a polling firm that provides research for a variety of Republican politicians as well as non-political entities. The poll was commissioned by the nonpartisan voting rights group Common Cause North Carolina. The maps the GOP is proposing UNDERMINES FAIR REPRESENTATION AND WE KNOW IT SIMPLY AIMS TO INCREASE THE GOP POWER BY TRAGETING SPECIFIC VOTERS, PRIMARILY IN COMMUNITIES OF COLOR. . A strong majority of voters ,Äì 70% ,Äì support the establishment of a bipartisan citizens commission to draw fair voting maps for North Carolina, while 17% are unsure. Just 12% of voters prefer keeping the current system with legislators drawing the maps. The survey was conducted by Opinion Diagnostics, a polling firm that provides research for a variety of Republican politicians as well as non-political entities. The poll was commissioned by the nonpartisan voting rights group Common Cause North Carolina.
10/20/25 10:44 AM	A De la Cruz		Mid-cycle partisan gerrymandering has severe consequences: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party's power, voters lose confidence in the fairness of the system - and many stop believing their vote matters at all.
10/20/25 10:45 AM	Leah Sharp		In the words of Governor Stein, "In this representative democracy, the people choose their representatives - not the other way around." For those of you in the back, that means, stop this illegal and unethical power grab!!
10/20/25 10:45 AM	Professor miriam cooke	Duke University	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.

10/20/25 10:45 AM	Anne Cassebaum		Thank you for this opportunity to comment on redistricting plans that will likely affect voting outcomes. It is imperative that we let voters speak, even when we disagree with the majority opinion. We need to have impartial, reasonable voting districts that do not change so frequently that even the most conscientious voters get confused. Districts should not be decided by a particular party., even if it is my party. We should absolutely not engage in mid-decade congressional redistricting. This is gerrymandering and works against fairness and accountability. It undermines the constitutional promise of equal representation and weakens voters,Âô ability to hold their leaders accountable. Americans, across party lines, want transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps.
10/20/25 10:46 AM	Virginia S Moe		This redistricting is very undemocratic and unAmerican. Please vote against it.
10/20/25 10:46 AM	Mrs Jennifer Thompson		As a North Carolina citizen, I strongly oppose the current redistricting efforts. I believe these maps undermine my constitutional right to fair and equal representation. The manipulation of district lines for partisan gain dilutes the voices of many voters and erodes trust in our democratic process. I urge our leaders to support a nonpartisan redistricting commission,Äîone that uses transparent, data-driven criteria to draw maps reflecting the true communities and interests of all North Carolinians, not political parties. Every voter deserves to know that their vote counts equally and that their elected officials are chosen by the people, not by political mapmakers.
10/20/25 10:46 AM	Bellinda Carson		Put people over politics and STOP gerrymandering our districts!
10/20/25 10:46 AM	Ms valerie rabeler		I think further partisan gerrymandering in our already gerrymandered state is a terrible idea. North Carolina is a purple state and shutting out democratic representation is shameful.
10/20/25 10:46 AM	Dr. Jason Amsden		I do not support the redistricting plan.
10/20/25 10:46 AM	Terri Davis	NENC Alliance for Change	The only way I support redrawing maps as if they,Äôre drawn by an independent group. All we have learned by allowing partisans to do it is that partisans can,Äôt be trusted to do it, regardless of which party it is. I,Äôm disgusted that these new republicans think this is how governing works.
10/20/25 10:46 AM	Mary Mlock		please stop this silliness. do not redistrict at this time. the current districts are fine. we need predictability not fluid districts.
10/20/25 10:46 AM	Amanda Gilligan		The redistricting plan is designed to favor one political party over another, undermining the principle of fair representation. This plan would diminish the power of voters to choose their representatives and negatively impact minority communities. We need a fair, transparent process if redistricting is needed.
10/20/25 10:47 AM	Dr and Mrs Philip Klemmer		Just NO. Maps should be done after each US Census. NO GERRYMANDERING
10/20/25 10:47 AM	Cynetria Mason		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is an attempt to seize power for the GOP and it is unacceptable. Vote NO.
10/20/25 10:47 AM	Kay Day		I am very upset at Republicans for deciding to rig our congressional maps in their favor. This is an unconscionable act. To deny North Carolinians fair representation is unconstitutional. I never thought I'd see the "Grand Old Party" take such cowardly actions. There is simply no fairness in government anymore. Considering that the proportion of Republicans to Democrats in the State is fairly even, it is horrible that Republicans are wielding over 70% of the voting power. They should be winning on their policies instead of their ability to draw maps to give them votes that they don't deserve. This is why voters are so jaded about voting. They feel that they have been stripped of their constitutional power to effect change. Please do not allow this blatant abuse of power.
10/20/25 10:47 AM	Ms Renee Falkenberg		Please quit messing with redistricting! Please focus on the wellbeing of this state that is growing so fast! You were elected to represent our state, not to do the bidding of Donald Trump. I'm an independent voter and will remember these decisions going forward. This isn't about Republican vs Democrat! This is about properly representing our beautiful state fairly rather than trying to tilt the scales to favor one party over another.
10/20/25 10:47 AM	Charles Henage		The only way to have a truly representative government is to have voting districts that accurately reflect the communities of the voters. Sorting voters by any criterion that gives advantage to any party or ideology leads to an inability to have government by the consent of the governed. We already have that problem with the present government shutdown, and further partisan redistricting will only make this worse. We learned in school that this happened before the Civil War.
10/20/25 10:47 AM	Catherine Mooney		Gerrymandering is wrong. It undermines our election process and blocks the voice of the constituents. This new congressional map will hurt our communities and are unfair. Serve the people in the community. Not someone in the White House who can't be bothered to better our neighborhoods.
10/20/25 10:47 AM	Zachary DeBastiani		Gerrymandering again?

10/20/25 10:48 AM	Christina Vance		Please stop redrawing our districts! You were elected to represent the people of NC, not to do the bidding of the President. Who is listening to the people of NC? If not our state legislature, not our Congressional reps, then WHO?
10/20/25 10:48 AM	Donald Carson		Let me make sure i understand--we don't even have a state budget, but instead of addressing this problem you are moving full steam ahead on a plan to steal future elections???? You people should not be in office.
10/20/25 10:48 AM	Dr. Jennifer Schaal	self	The people of North Carolina deserve NONPARTISAN redistricting. This could be accomplished with a nonpartisan citizen commission. Please do not keep North Carlolina as the poster child for gerrymandering that it has become!!!
10/20/25 10:48 AM	Wesley Kolozvary		VOTE NO! I am writing today because I vehemently¬†disagree with the proposed redistricting plan for our state. Redrawing congressional districts specifically to ensure that only one party ever has a chance of winning any given election is unequivocally unethical. Gerrymandering is just plain wrong.¬†As your constituent, I implore¬†¬†you to vote no. Be a good little constitution follower and not some stuck up pricks who do it for money.
10/20/25 10:48 AM	Dr Barbara Coulter		I urge the NCGA to NOT move forward with this redistricting plan and instead, to preserve the democratic process in North Carolina, by motivating representatives to work across the aisle for the good of ALL North Carolinians regardless of their political affiliation.
10/20/25 10:48 AM	Sandra Wayt		This redistricting move shows total disregard for the citizens of our wonderful state. Shame on any elected official who supports this attempt. You deserve to be voted out of office and Norm Sanderson should resign now for his dui arrest
10/20/25 10:48 AM	Ma Rene Merwin		This is beyond absurd. There is a protocol for redistricting. You are trying to make free and unfair elections impossible. You should be ashamed!
10/20/25 10:48 AM	Stop Gerrymandering!!! Jeryl Moll	Retired concerned citizen	The redistricting of maps by the NC State Legislature is abhorrent. North Carolina is the highest gerrymandered state in the country. Its sole purpose is to disenfranchise voters,Äîthose who are Democrats and those who are marginalized. In short, it is the GOP who is rigging the future elections to their own advantage since it is the only way that they can win. EVERY VOTE SHOULD COUNT EQUALLY!!!
10/20/25 10:48 AM	Michael A. Clark		I am a registered Republican voter in Mecklenburg County who STRONGLY opposes this unconstitutional redistricting effort by the State Legislature. We need a MORE representative districting for North Carolina voters, not less.
10/20/25 10:49 AM	Effie McMillian		More gerrymandering to rig the election process and limit representation across the state. The proposed redistricting needs to be stopped as it will not create a fair election and shouldn't favor 1 party over another.
10/20/25 10:49 AM	Natasha Sell		This redistributing attempt is a gross negligence of the General Assembly,Äôs responsibilities to North Carolinians. Our state does not have a budget, mountain communities still need assistance for Helene relief, coastal communities need assistance for environmental concerns, our state infrastructure is woefully behind growth, state employees are seeing stagnant wages at the same time the state health plan is increasing costs, families will suffer due to healthcare and staff cuts on the federal level-but the priority is redistricting an already gerrymandered map? It is absolutely shameful behavior by General Assembly leadership and those who support it.
10/20/25 10:49 AM	Shana Zofran		Y'all need to stop licking Trump's boots and spend your time and energy on serving the people who elected you!
10/20/25 10:49 AM	Mrs Elizabeth Griffith	NC resident	Do not subvert fair emections by redistricting! It is anti-democratic and unfair.
10/20/25 10:49 AM	Sharon Jensen		Do not redistrict. By doing so, voters are disrespected, very poor examples of leadership are set and established, (our youth are watching and listening!), Republicans looks reprehensibly self-serving, and there is nothing good to come from these efforts but terribly bad mojo. Yes, MOJO! Don't curse us into our future. Do the correct thing and use your scruples. Stay way from redistricting!
10/20/25 10:49 AM	Mary Sugden		House Select Committee on Redistricting and Senate Elections Committee Subject: Proposed Congressional District Plan Thanks for taking comments on this critical, time sensitive topic that really doesn't have to be so as you all know. As a NC resident it's clear to me the only reason for republicans to take up this redistricting fight is to bow as acolytes to Trump. You know this is true. You also know that redistricting violates core principles of fairness, accountability, and limited government. Manipulating district lines for partisan advantage undermines the constitutional promise of equal representation, and it weakens voters,Äô ability to hold our leaders accountable. Redistricting as Rs propose disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. Manipulating district lines for partisan advantage is cheating, pure and simple. North Carolinians deserve better! And I expect better of our elected representatives. How about you pass a budget first!
10/20/25 10:50 AM	Mrs. Amber Cockman-Wood		I think it is appalling that Republicans want to re-district the state for Trump instead of working for North Carolinians and passing a budget. We are already one of the most gerrymandered states in the US. America is a country of free and fair elections. It's time for the Republican Party to do the right thing or get voted out.

10/20/25 10:50 AM	Mrs Anna Taylor		I strongly oppose the attempts to redraw North Carolina,Äôs congressional maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political president and rob North Carolinians of our rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around. Unfair, maps, disenfranchise, voters, and lead to long lasting political problems. Drawing districts to heavily favor, one party leads to severe polarization, legislative gridlock, and a weaker Congress.
10/20/25 10:50 AM	Anthony Gerou	The Deck Box	I'm going to admit, I'm not as familiar with parts of governance as I should be. A shame considering I have so much leadership/management experience in small business. But I can say, in all those years one thing that made me successful was hearing EVERY person's opinion and input on an issue/change. If the lines are changed to allow one party or group more of a voice or greater influence compared to others, then we have stepped away from a system that cares about the good of all. I've worked and lived in NC for going on 15 years, and I have seen a LOT of bad leaders make formerly good teams fall apart due to poor decisions and lack of direction. That was locally, please do not make that a more widespread thing in the state as a whole.
10/20/25 10:50 AM	Eileen Anderson		I am vehemently opposed to this proposal on redistricting. It is a blatant Republican power grab which disenfranchises voters. Do not approve.
10/20/25 10:50 AM	Carolyn Enloe	Carolyn Enloe	Please do not allow any further re-districting to give the Republicans another seat in Congress. The Republican party seems hell-bent on bending over for Donald Trump, and he does not deserve one more seat in Congress. It is unfair, although legal, to do so, but why suppress the will of the people of this state to make it easier for Trump to ruin our democracy? Please don't make it easier for him to strike down everything we hold dear about this country.
10/20/25 10:50 AM	Patricia Dale		Please do not pass this latest gerrymandering plan for redistricting! North Carolina is one of the gerrymandered states in the country and honestly the state is now the laughing stock of the nation for this. It is past time to STOP this gerrymandering and have fair maps in this state. These maps need to be decided by an non-partisan commission rather than partisan politicians.
10/20/25 10:51 AM	Eleanor Thomas-Allen		This is a sham!! How can anyone expect a person let alone a representative to cover so many counties unless there is skullduggery going on? This new map and the Republicans who created it are shameful examples of representation in this state and nation. You have no integrity! Only cheaters!
10/20/25 10:51 AM	Mrs Rebecca Slaughter		I am aware of the motives to redraw district lines. Stop re-drawing lines to eliminate seats you don,Äôt want represented. Stop using our tax dollars and your time to redraw districts to your liking. Start focusing on passing a budget and making our utility bills lower. My groceries, health care insurance, energy, and home insurance have all increased by at least 15% but you are taking up time redistricting. Work for the real needs of your constituents. Thank you.
10/20/25 10:51 AM	Karen Juntilla		Rep Berger does not have the welfare of the people of North Carolina when he attempts to add even more Republican gerrymandered districts than has already been put in place! He is trying to take away the voting power of the people, and take away legitimate representation for all voters. I vote to have a more fair, balanced redistricting, that really represents ALL North Carolinians.
10/20/25 10:51 AM	Amanda La		Gerrymandering our electoral districts is inappropriate for any political organization. District boundaries should be determined solely based on geographic location and population size, rather than tactics aimed at securing additional seats to overshadow the representation of others. All individuals deserve to be represented in a manner that accurately reflects their needs and interests.
10/20/25 10:51 AM	Ms Dorothy Narodny		What has ever happened to the notion of fair play among Republican politicians. Where are your concerns for ALL OF YOUR CONSTITUENTS, regardless of their politics, race, color, gender, age, and every other qualifier describing human beings that YOU are responsible for. Cheaters are among you. What benefit is it to have more Republican seats in government, other than to put more money in YOUR pockets. Money that could and should be available for those who need it, not the greedy politicians.
10/20/25 10:51 AM	Megan Harrison		Please refrain from mid-decade congressional redistricting. Redistricting now is not in the spirit of representing the voters of North Carolina and is not in the best interest of protecting NC's people or the resources of the people of North Carolina. A better use of time, resources, and political accountability is to work on passing a state budget.
10/20/25 10:51 AM	Rev Deacon GeoRene Jones	I write in my personal capacity as a citizen of NC.	I write to stridently oppose any effort to create districts based on political affiliation. Such practice does not provide collaboration, cooperation, and discourse among elected representatives. Without fairly elqual representation, the voices of voters are silenced in the public square, and is antithetical to the foundational principles of a democratic republic. The practice of drawing districts along party lines, while upheld by recent Supreme Court rulings, does not represent the will of the people in North Carolina. Please either return to the districts providing 14 districts, 7 of each party (Republican & Democrat) OR have new maps drawn by Independent Masters who have no political agenda to fulfill on their effort. Rev Deacon GeoRene Jones Salisbury, NC
10/20/25 10:51 AM	Mrs Candice Morabito		Mid cycle redistricting is upsetting and expensive for your constituents .PLEASE Vote NO

10/20/25 10:52 AM	Patrick Woods		As a citizen of Granville County, NC, and a faithful voter, I am watching the redistricting efforts by the NC Assembly. I am against unfair redistricting of current congressional districts. I believe my representatives need to be held accountable for the following: when districts are redrawn to favor one political party, electoral outcomes are often predetermined, rather than reflecting the will of the voters. When state legislatures control the map-drawing process, it frequently happens with inadequate public input. The lack of transparency allows partisan concerns to take priority over fair representation. Please vote to support voter rights in NC.
10/20/25 10:52 AM	Ms Janene Donovan		I am against the the the drawing of new maps for the North Carolina districts as this is a blatant power grab by the Republicans . It will cause confusion to the voters and it will discourage voting in general because people will think their vote doesn't matter.
10/20/25 10:52 AM	Sarah Keiger		I am opposed to the gerrymandering. I wish you would spend your time working for your constituents, not scheming for how to get more votes.
10/20/25 10:52 AM	Ms Molly Arnold		We need fair and safe voting. Stop the gerrymandering of districts. NC just had maps redrawn. Do no redraw Democrats out of elections.
10/20/25 10:52 AM	Kristen Pollock		On the playground, moving the goalposts to your advantage would be called cheating. You took an oath to serve your constituents and all residents of North Carolina and not the oligarchs propping up a corrupt administration. What you do today will not be forgotten tomorrow.
10/20/25 10:52 AM	Ms Cathy Lamb		Stop redrawing our lines!!!! My representative changes with every election! Democrats are citizens too and are entitled to representation.
10/20/25 10:52 AM	Stop the lying & cheating Jill Clark		North Carolina is better than this. Stop rigging the mapping in favor of one party. If you have to cheat to win, then you know your stance is wrong. My vote should count regardless of what county I am in. You should not be creating a way to discount my vote by making sure one party always wins. This is wrong and it makes me ashamed to say I live in NC. Do your job for ALL of us. Draw districts without using voter info as a way to manipulate the lines.
10/20/25 10:52 AM	Demarius King		You have underestimated the people of North Carolina. We see you. We are paying attention, and are disgusted by dishonest actions like this one. We will vote y'all out!
10/20/25 10:53 AM	ms. lorene Brands		redistricting is the Republicans' way of stealing votes for their Republican majority. it is a travesty to play more games to limit the Democrats' majority vote in NC
10/20/25 10:53 AM	Katherine Zinn	private citizen	The redistricting proposals for our state is very concerning to me, and seems UN -Democratic. Where is the promise of "one person - one Vote? DON'T Do This! Katherine A. Zinn, Pittsboro, NC
10/20/25 10:53 AM	Mrs Claudette Miller		No Democrats or Republicans should be able to redistrict Congressional plans!!! This is WRONG and I believe you know it is wrong and does not benefit the people of NC. This just hurts our state!
10/20/25 10:53 AM	Jennifer Harrison		Please oppose the new congressional map. Keep democracy strong. Thank you very much.
10/20/25 10:53 AM	Michael Crane		How our country came to accept gerrymandering of any kind is beyond me. It‚Äôs profoundly unfair,Äîand therefore profoundly un-American. I realize both parties have done it. And that an unprecedented ‚Äúredistricting war,Äù has broken out across the country. This ‚Äúwar,Äù is a direct result of the President‚Äôs call for it and of Texas rushing to meet his demand. Our state should not join this effort to disenfranchise voters. I read that North Carolina is pretty evenly divided. Our congressional representation should reflect that,Äîor close to that. Allowing either party to skew a fair representation of the voting population is unfair. And far worse, it makes it all but impossible to ever make it fair again. Let‚Äôs do the right,Äîthe fair,Äîthe American,Äîthing and reject this effort to make the wishes of a large part of the North Carolina electorate moot.
10/20/25 10:53 AM	Stephanie Powell	Retired	I strongly object to the redistricting plan currently proposed by the NCGA Elections Committee. The motivation is purely to please President Trump and gain a Republican seat. It is unnecessary and is not at all for the benefit of the people of North Carolina. I urge you to do your job and deny this proposal.
10/20/25 10:53 AM	Jennifer Dressler		If you have to cheat to win. Then your not winning and I promise if you vote to move forward with cheating you will pay for it in the voting booth.

10/20/25 10:54 AM	Ms. Jacqueline White	Delta Sigma Theta Sorority, Inc.	As a tax-paying citizen of North Carolina, I strongly oppose the North Carolina GOP,Äôs decision to once again redraw our legislative and congressional district maps. Redistricting should be a process rooted in fair representation and transparency, not one driven by partisan interests or political preservation. Every time these maps are redrawn behind closed doors, taxpayers like myself are forced to pay for the lawsuits, hearings, and confusion that follow. We deserve stability, fairness, and accountability,Äînot a political shell game that manipulates boundaries to dilute voices and divide communities. North Carolinians have made their stance clear: we want representatives who choose to serve the people, not politicians who choose their voters. This repeated manipulation of district lines erodes public trust, discourages civic participation, and undermines the very foundation of democracy in our state. As someone who contributes to this state,Äôs economy and community, I expect my tax dollars to support education, infrastructure, and healthcare,Äînot endless partisan power plays. The time and resources being spent on yet another redistricting effort could be far better used addressing the real issues that affect families, workers, and small business owners across North Carolina. In short, this process does not represent me, my values, or my investment in this state. I call for an independent, nonpartisan redistricting process that ensures every citizen,Äôs vote carries equal weight,Äîregardless of political affiliation or zip code.
10/20/25 10:54 AM	Mr William R. Scott		To Whom represents me and every other NC voter, As a US Army Veteran who put my life on the line for this country, I am writing to say I am opposed to attempts to redraw North Carolina's congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around. I fought for a country that believed in democracy, leaders who represented their constituents and not one that manipulated elections, didn't listen to every american and worked to take away ever right of the everyday person. Stop this redrawing, stop the leadership from trying to control the voters thoughts and votes!
10/20/25 10:54 AM	Dr Daphne Key		I am totally opposed to districting and gerrymandering. Each vote should count . Cheating to win is a bad look. It also says Republicans have no integrity or sense of fairness or decency.
10/20/25 10:54 AM	Dr. Larry King	Common Cause North Carolina	A recent poll by the Republican-leaning pollster Opinion Diagnostics showed that 78% of Republicans, 87% of Democrats, and 85% of unaffiliated voters say gerrymandering is never acceptable. Other findings were: ,Ä¶. 94% said that North Carolina,Äôs voting districts should fairly represent all communities and political viewpoints. ,Ä¶. 70% supported a redistricting commission that would be required to draw voting districts that don,Äôt discriminate based on race or political party. ,Ä¶. 82% said it,Äôs important that courts help guard against discrimination in the way North Carolina,Äôs voting district maps are drawn. ,Ä¶. 76 % said partisan gerrymandering should not be legal in North Carolina. ,Ä¶. 84% said districts should be drawn neutrally. Bottom line: North Carolinians are OPPOSED to gerrymandering. Therefore the General Assembly must not re-gerrymander our congressional districts (at the behest of Trump) to further disenfranchise Democratic and Democratic-leaning unaffiliated voters.
10/20/25 10:54 AM	Haley Lien		These maps are already gerrymandered in favor of Republicans. Please listen to your constituents and don't do this. Do not bow to Trump and cower in front of his demands. You all have to know this is not right. It is an off year, just leave it alone.
10/20/25 10:54 AM	Mrs MARGARET MILLER		I implore you to resist redrawing districts that would allow legislators to pick their voters rather than the other way around. Let's stand together to create fair unbiased election districts that don't favor one party or the other. That is true patriotism, and allegiance to the Constitution and Democracy, rather than putting party politics first. Representatives of North Carolina, I hold you to the highest standard - don't let us down! Most sincerely, Margaret Miller

10/20/25 10:54 AM	Elizabeth Irwin		I want to be on record as opposing the gerrymandering of North Carolina's congressional districts. North Carolina's registered voters are divided pretty evenly between Democrat and Republican. So why are our districts being redrawn to favor Republican candidates? Representatives are supposed to represent ALL the people, not just one party. Donald Trump is not our king. He should not be meddling in individual states' representation. I call upon the legislature to do right by the people of North Carolina and oppose extreme gerrymandering.
10/20/25 10:55 AM	Mrs Ebon√© Baker		Adopting the proposed map changes will disproportionately disenfranchise Black and Brown constituents in Easten NC. Additionally, doing so will weaken the entire state of North Carolina by continuing to prop up individuals who routinely vote and work against the best interests of the people of this state. We, the people, deserve better!
10/20/25 10:55 AM	Elizabeth Bailey		The job of representation is to represent the people of North Carolina,Ä¶all of them. Redistricting to eliminate representation for half of the state means you no longer care about representing your constituents,Ä¶you are only in it for your own personal gain. Please have the courage to do the right thing and stop our state from being even more gerrymandered than it already is. Please listen to the people of North Carolina!
10/20/25 10:55 AM	Martha Metzl		I am opposed to this plan because it gerrymanders our state in way that is increasingly not reflective of the demographics. Polling shows that a large majority of Americans, which includes me, do not want gerrymandered districts, which lead to groups of constituents without representation in our state government. Plus, the origin of this hasty, partisan move is suspect, and it's not in line with promoting democracy and fairness in our state. Focus on passing the budget instead.
10/20/25 10:55 AM	Christina Nuttle-Bumgardner		North Carolina is already one of the MOST gerrymandered states in the country. Further redistricting that favors the republicans is not only corrupt it completely undermines democracy. The people of NC deserve to have a state government that represents them, not one that is surgically carved out for one party to win. If you want to redistrict hire a non-partisan group that will draw fair and impartial maps. Don't cheat because you can't win fairly. Do the right thing for the people of NC!!!!
10/20/25 10:56 AM	Kelli Cordova		You are trying to silence voters, and this is just one more example of fascism here in the USA. You say you love freedom--well prove it! Actions speak louder than words! Let all people have a voice through free and fair elections that accurately represent the will of the people! Stop this attempt at gerrymandering!
10/20/25 10:56 AM	Mrs Anna Koloseike	NC citizen	Your redistricting plan is undemocratic. Please stop trying to manipulate our voting districts to advantage political aims.
10/20/25 10:56 AM	Kisha Summers		Redistricting maps in favor of one party over another is blatant and profoundly disrespectful to our Democratic process.
10/20/25 10:56 AM	Susan DuPree		This is not the time to redistrict. We,Âôre in the middle of attempting to keep the democracy so many lost their lives to secure. Creating districts that support the autocracy being attempted is, in my view, an act of treason. Please step back and consider what real courage looks like.
10/20/25 10:56 AM	Mrs. Terry Raley-Dennis	Poor Peoples Campaign	By manipulating the voting districts in North Carolina, the Republican members of the legislature have ensured that a fair representation of voters across the state will not be represented. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 10:57 AM	dr Jacob Paul		This state is too gerrymandered as it is. Don't make it worse.
10/20/25 10:57 AM	B. B.		It,Âôs disgraceful that Republicans are bowing to Trumps Gerrymandering Agenda. If they can only win by cheating, why does the public allow daylight robbery at all? Republicans ought to be ashamed, if you love your country or state at all, protect it from a clear fascist. ,ÄúHistory has its eyes on you,Äù. -Hamilton.
10/20/25 10:58 AM	Dr Karen Oles		Stop trying to change congressional representation to further support republicans through unprecedented mid-decade redistricting. Gerrymandeering means that the representatives are picking their voters. Gerrymandering violates the core principles of democracy. It produces unfair and unaccountable government. You republicans gerrymander because you cannot win through fair play and good ideas. 76% of North Carolinians say gerrymandering should be illegal. You do not respect the citizen voters of North Carolina.
10/20/25 10:58 AM	Ms Sarah Anderson		I am appalled that this has come up yet again. If Republicans can't carry a district on their ideas and merit they shouldn't be able to choose their voters in order to take the office. It is shameful and not little "d" democratic.
10/20/25 10:58 AM	Carl Foster		Refrain from this ,Äúredistricting,Äù effort. Its intent is to sway elections in a specific direction and the antithesis of fairness and integrity. It also sets precedent for other districts to do the same.

10/20/25 10:58 AM	Linda Dark	NC resident	I have been made aware of this very unusual 'middle of decade' redistricting. Since retiring here in 2007, all redistricting has been done after each census, 2010, 2020, as is appropriate and expected. I personally understand gerrymandering, as I have experienced this three times so far. I and my neighbors were taken out of the Triad and sent to the county nearing Tennessee, Ms. Foxx's district No 5. The Triad is a connected area, through educational facilities, through geography and business matters, not to mention social. I testified at a public hearing, as to the reason that gerrymander would not be fair to voters. But it was done by Republican officials anyway. We then were placed into the 8th and finally last year the Congressional 10th. Now my 'neighbors' are 75-80 miles from my house - not the 20 miles to Guilford County in the Triad. It is obvious to us and anyone paying attention, this was both a partisan and racial gerrymander so that Republican candidates could pick their voters. In a fair system, the Voters choose their candidates. I urge you not to redistrict again - although this may not affect me personally, it will affect Voters in District No 1 - they deserve to have their votes register and be counted, not diluted as mine is already. It is not fair, it is not sound, it is not ethical. It is certainly not American. Thank you for your consideration
10/20/25 10:59 AM	Dr. Rebecca Kirkland		Gerrymandering the legislative maps to gain another Republican seat in the U.S. House is cheating no matter which party does it. Trying to gain favor with an unpopular and incompetent U.S. president is certainly not serving the people of North Carolina. 84% of NC voters believe that it is not acceptable for politicians to redraw districts to help their own party win more seats. How can you trust election results with fake gerrymandering? The answer is that you cannot trust the results OR the elected officials . Where is your integrity?
10/20/25 10:59 AM	Gerald Dillashaw	Private citizen	DO NOT redraw the congressional lines again in North Carolina until after the next census. We are already unfairly partisan in the district boundaries. Don,Äôt make it worse. It is obvious that Republicans realize that their policies are not acceptable to citizens so Republicans have to resort to gaming the system to win. Such a sad commentary.
10/20/25 10:59 AM	Lifelong North Carolinian John Graham	Private citizen	I love my country, and I love my state and I abhor the current direction of my legislature. You have given in to a fascist, convicted felon, to tell you what you should do. Why don,Äôt you listen to your Citizens instead of a demagogue that just happens to have an R beside his name. Make no mistake, gerrymandering is wrong, no matter who does it! If you think this is a game, then you should not be in the legislature. This is about the most fundamental right in our country and you should be ashamed of the way you are portraying yourselves at this point.
10/20/25 10:59 AM	NO Gerrymandering! Rebecca Board		As a long time NC voter, I have been ashamed and angry about the partisan gerrymandering in our state for a long time , and now some of you have the gall to make it worse? Districts MUST be determined by a neutral party so that neither Republicans nor Democrats have unfair representation. Let the people of North Carolina, all of them, determine how we wish to be governed, not the unfairly biased legislature, and not the orange clown in Washington. Stand up for what is morally right. Stand up for all of North Carolina. Say NO to gerrymandering.
10/20/25 10:59 AM	Ms. Antoinette Mingo	Private Citizen	The US has been a desirable place to live for my entire almost 80 years. Not just desirable to me but to most citizens. We have people who represent us in our home states at and the national level. As history has shown, not having representation leads to disparate treatment. Is that the goal? I travel to different places and I will speak to a person who will not return the greeting. That rarely happens in NC. Greed is a sin before God and to grab up every district so that another person's voice is not heard is greedy and unkind. Let's be fair and kind. Don't engage in something you would not like turned on you.
10/20/25 10:59 AM	Redistricting Vincent Burke	N/A	Why are you working to undermine the will of voters just to please the convicted felon in the White House? How about passing a budget that pays teachers and gives retirees a cost of living increase instead of cutting taxes for big corporations!
10/20/25 11:00 AM	Ms. Billie Rosene		I am appaled that the state I chose to live in is taking such an outrageous POLITICAL act to protect and incompetent president.
10/20/25 11:00 AM	No Redistricting! Susan Fitzgerald		Stop attempts to steal the vote through redistricting! NC citizens want fair elections!
10/20/25 11:00 AM	Ms Carol DeWitt		Keep our votes from being gerrymandered. Power to the people!
10/20/25 11:00 AM	William Betke		You must refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. It,Äôs becoming increasingly clear to everyone that Republican policies are unpopular and un-American. 70% of people polled say Republicans are leading our country in the wrong direction. Rather than change with the poor policy choices, Republicans choose to: LIE ,Äì about Republican policies and their impact on your voters, CHEAT ,Äì by rigging congressional districts in NC to favor Republicans. STEAL ,Äì representation from the voters in NC. Do the right thing for a change ,Äì STOP THE REDISTRICTING.
10/20/25 11:00 AM	Belinda Yates		Stop the gerrymandering. We should be able to have equal representation.
10/20/25 11:00 AM	K Krimminger		Voting districts should not be controlled by either Democrats or Republicans. Neither can be trusted to be fair. This work should be done by a neutral third party or non-partisan committee. Otherwise the citizens of NC are not fairly represented.
10/20/25 11:01 AM	zachary atkinson		No more redistricting!!

10/20/25 11:01 AM	Barbara Silver		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice.
10/20/25 11:01 AM	MS. Lyric Kinard		It has felt like a long time since North Carolina was a true democracy with voters being able to choose their own representatives. This mid-decade redistricting would further distort our voting maps and erode the people's opportunity to elect candidates of their choice. Gerrymandering is for the weak instead of those who truly believe they can win the hearts and minds of the people with their policies, their actions, their wish to serve the people. This is wrong and you know it. Please don't. Sincerely, -Lyric Kinard
10/20/25 11:01 AM	Jenny Schofield		This is just another effort to yield to a dictator. But we in America do not bend the knee to authoritarians!
10/20/25 11:02 AM	Mrs Juliana Henderson		This is a flagrant grab of power. As a citizen of this country you should be ashamed of yourself. I certainly am
10/20/25 11:02 AM	Dr Tiffany Ellis		I am most disappointed that our elected leaders would consider altering voting maps that would give either republicans or democrats a voting advantage. If the government is for the people, and they truly want the voice of the people, maps should be drawn to create more competitive seats giving no party a clear advantage. Isn,Äôt that what a representative democracy is about?
10/20/25 11:02 AM	Joy Pompeo		I am writing to let you know that I am strongly opposed to mid-cycle partisan gerrymandering. It silences voters divides communities , and reduces competition and accountability. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. Most importantly this type of gerrymandering weakens our democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of our system and people stop believing their vote matters at all.
10/20/25 11:02 AM	Mrs. Alison Jones		I find the Congressional redistricting plan to be appalling. The only reason to do this is to give the Trump administration more power in Congress. How does this help the interests of North Carolinians? If the policies of the Trump administration are with merit, then reach across the aisle and work together. This will only serve to alienate N.C.'s voters. I vote in every single election. My voice and the voices of those on the opposite political side should not be silenced.
10/20/25 11:02 AM	Riley Beatty		This proposed redistricting is a huge loss for the people of NC. It will limit the voices of the people that our Congressional leaders are supposed to represent. I am personally disgusted that Republican leaders are choosing to ignore the will of their people and instead bend the knee to a president who is behaving in such an unconstitutional way.
10/20/25 11:02 AM	Azure Kimbrel		The hard working people of NC deserve a fair district map. Redistricting mid cycle is not appropriate. Send this proposal to the people, let us vote on it. Why does the assembly get to make this choice without voter approval? You work for the great people of NC not the federal government. Do what is best for us! Our voices should be heard and what matters most!
10/20/25 11:02 AM	Ms. Julia Simmons		This outrageous plan must end. I demand fair representation in my state, not gerrymandered theft. No. No. No. Republicans know their ideas are unfair and unpopular. Rather than fairly letting the people decide, rigging voting districts is what they propose. No. No. No. This state is already unfairly gerrymandered. No. More.
10/20/25 11:02 AM	Mrs. Lisa Andree		Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC congressional districts. This is attempt to seize power for the GOP and it is unacceptable. Vote NO
10/20/25 11:02 AM	Carol Cross		The NC General Assembly is supposed to serve the people of North Carolina--all the people--rather than jump to enact the orders of a President, who is supposed to serve ALL the people of the United States. Our state is gerrymandered enough as it is. If you plan to redistrict, it should be to restore some semblance of equity to recognize the millions of voices who are not being represented by our current unfairly drawn partisan maps. Voting maps should be developed by independent agencies like the League of Women Voters, NOT by politicians with a vested interest in creating maps that allow them to keep their jobs!
10/20/25 11:03 AM	Dan Holt		I object to blatant gerrymandering that is done simply to disadvantage the black vote in district one in NC. It harkens back to our sordid political climate that existed during Jim Crow. We all know Trump is a racist. NC should be better than this.
10/20/25 11:03 AM	Mr Kyle Shute		Non-independent redistricting is anti-democratic and disenfranchised voters of all kinds. Partisan redistricting is anti-American.
10/20/25 11:03 AM	Mary Linker		Please do not redo our congressional map at this point in time. This is an unfair and unjust way to suppress the voters in North Carolina. The gerrymandered maps in North Carolina do not make for a free and fair election as is proven by the political breakdown of our state not matching the breakdown of those in elected office.
10/20/25 11:03 AM	Nicol Trejo	high school student	I don't like this district map because the map doesn't represent the voters in North Carolina, how some districts are formed makes the other party have less votes, and less advantage than the other one
10/20/25 11:04 AM	vivienne mistor	high school student	The map is unjust because NC is 50/50 between democratic and republican but on the map it is mapingnc 11 to 3 and its not giving NC its correct representation

10/20/25 11:05 AM	Mr. Dorsey Ward	NA	Please do not further distort our district maps in NC. They were sufficiently partisan gerrymandered before the last election giving our state a lop-sided Republican representation in Congress. I ask that you refrain from mid-decade congressional redistricting our federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Thank you.
10/20/25 11:05 AM	Ms Donna Durfee	League of Women Voters, ACLU	,Ä¢ This silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ This destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party,Äôs power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all. I have worked at our local Board of Elections and believe that recent actions of the NC Legislature are taken to weaken democracy and silence voters .We need to increase voter participation and decrease the dependency on parties. Seats should not be guaranteed based on party affiliation.
10/20/25 11:05 AM	Mr Gary Zeller		This is ridiculous. 2 wrongs do not make it right. Do not play politics with the voters of NC. Stay out of this game. Enough is enough. Also, any redistricting should be done by an independent group, not by our elected officials. In future elections, I cannot vote for anyone who supports this plan.
10/20/25 11:05 AM	Mary Rowley		NO to redistricting in NC! Are you going to be loyal to Trump than to the people that elected you? We don't accept election rigging, we don't give up on our democracy. We love our country, NO KINGS!!!!!!
10/20/25 11:05 AM	Scott Brock		I am not in favor of redrawing the districts
10/20/25 11:05 AM	Jeremy Sprinkle		Shame on this General Assembly for moving heaven and earth to rig congressional district maps under orders from Donald Trump, desperate to evade accountability to voters for his costly, cruel, corrupt, and chaotic agenda! Meanwhile we don't have a state budget, no funding fix for healthcare or food assistance for workers, seniors, or kids, and no raises for state employees who provide essential services to the people of North Carolina.
10/20/25 11:05 AM	Ann Schoonover		Hello to Raleigh! You might remember that 84% of N.C. citizens are opposed to "Politicians" redrawing "districts" to help their own party win more seats therefore "power". Can you spell corruption? Or can you spell cheating? Where is your moral compass?...oh yeah...right...you are a politician. Whatever political party one belongs to..... redistricting should NOT be allowed to gerrymander votes. Our democracy crumbles further when political parties LIE, CHEAT and STEAL.....
10/20/25 11:05 AM	Cindy Davidson		The general assembly should stop trying to suppress the vote by more gerrymandering. Do your job and pass a budget! Rescind private school vouchers and fully fund our public schools!
10/20/25 11:05 AM	Ms Dale Miller	Independent	Leave the voting maps alone. It is anti-American. Republican please stop trying to control the vote.
10/20/25 11:05 AM	Gale Kinney		Our state has many important issues that our lawmakers should be addressing. Calling them in to draw a map to ensure one party has dominance is not on the list. This is a power grab and an attempt to disenfranchise voters. Did you see the number of people who protested on Saturday? Listen to your constituents and keep a fairly drawn map.
10/20/25 11:05 AM	Mrs Jennifer Raye Alpsu		I oppose the NC State Legislative efforts on redistricting the state. We don,Äôt even have a budget. Why should our elected officials work on something that,Äôs not a basic need? Redistricting JUST happened in 2023 and it can,Äôt possibly be needed again. When the census occurs and redistricting is necessary, this must be the work of an independent body and not a party. Priorities must be addressed. Redistricting serves the legislature and not the people. Get a budget passed!! This should be easy since one party controls.
10/20/25 11:06 AM	Gwen Seyfried		Stop gerrymandering our state and allow us to be represented fairly and justly! Furthering an agenda instead of serving your constituents is corrupt and disgusting. You should be ashamed of yourselves every day for being boot licking sellouts with no courage or ethics. Your momma did your wrong raising you to believe this was okay.
10/20/25 11:06 AM	Mr. Steven Pearsall		I'm opposed to redistricting in off years. Every 10 years is appropriate.
10/20/25 11:06 AM	Patricia Zeabart		Do not redistrict NC at this time. It will be viewed as totally a political move to gerrymander NC for the benefit of the Republican Party. If my representatives vote yes on redistricting at this time, I will work against their future elections.
10/20/25 11:06 AM	Mrs MARY WILLIAMS		I am very much against the proposed redrawing of the Congressional District 1 (CD1). Instead of passing a budget, the Republican House Speaker and Senate President are more interested in kow-towing to Trump. Our state elected officials are not representing NC citizens. They are only concerned in being in "lock-step" and in good graces with Mr. Trump. They need to remember their oath of office which was a promise (so help their God) that they would support the Constitution of the United States and the Constitution of North Carolina, as well as to faithfully execute the duties of their office.

10/20/25 11:06 AM	Sarah Wolf		These attempts to redraw congressional district maps before the 2026 midterms are blatantly partisan and would set a dangerous political precedent and rob North Carolinians of their rights. Both sides of the aisle agree that voters should choose their representatives, not the other way around.
10/20/25 11:06 AM	Mrs. Katheyn Reilly		We need to implement a non-partisan election committee which includes redistricting map formulation that is representative of the population of our state. No party should be allowed to rig election districts to insure that only their party's candidates can be elected. The gerrymandering of our voting maps and districts is as unamerican and undemocratic an action that can be taken, essentially taking away the power of a citizens vote. Disgusted that this gerrymandering is seen as essential to get your candidates elected.....I prefer that people be elected based on the policies and beliefs they support, not on the crooked rigging of the election process. And while you are at it, demand Congress pass a bill for true election campaign reform that Overturns Citizens United ruling.
10/20/25 11:07 AM	Elizabeth Wintermute		Please do not adopt the new redistricting maps. They will not allow for the voices of the people of NC to be represented fairly.
10/20/25 11:07 AM	Melody Rose Morton		Stop cheating
10/20/25 11:07 AM	Ms Deborah M Genz		I oppose the redistricting plan, which would further limit voters' ability to chose representation that reflects their interests and values. Already, here in Asheville, I feel like my vote never has any clout, because of previous redistricting. But at least that hapi in the normal 10 year cycle...this is outrageous!
10/20/25 11:07 AM	Abby Wright	Highschool Student	I loath these redistricting maps because it suppresses the opinion of a lot of citizens in North Carolina. We can see that in the 2020 election the districts were not as cracked and packed which reveals the result that North Carolina citizens were split 50/50. Now in the 2024 election these district lines were set up in place from the republican to win the district votes by a lot (10:4), but the overall vote was only separated by 100,000 votes. Showing that there is not equal representation due to these redistricting and gerrymandering.
10/20/25 11:07 AM	Susanne Saunders		I STRONGLY OBJECT to the current proposal for redistricting being pushed through by NC Republicans. Our democracy is a sham and can‚Äôt function when elections are the results of partisan gerrymandering.
10/20/25 11:07 AM	Kristen Knight		You are telling us that you are redrawing maps to help the GOP and Trump gain power. NC Districts should represent the citizens, not the politicians. Do better for NC!
10/20/25 11:07 AM	Michelle Michael		Please put partisan politics aside and do what is best for our state and ALL your constituents. Open and fair elections and voting districts ensure that our citizens are fairly represented.
10/20/25 11:07 AM	Mrs. Shawnna Munna		This should not be done! I do not agree with this! Further research is needed.
10/20/25 11:08 AM	Spring Harkins	None	Please stop being led by the nose from The White House. My family has been in NC politics for over 60 years and what is happening now is antithetical to fair representation. Do not redraw districts again to kowtow to the powers that be. Remember who you work for!!
10/20/25 11:08 AM	Joseph Smith		As the Canes remind us "Cheaters never win!" You will eventually all be voted out for this disgusting act.
10/20/25 11:08 AM	Dr Lisa Borgia		Do not redistrict. Our democracy depends on it
10/20/25 11:08 AM	Leila Kidd Wilkens	High school student	The new North Carolina districs are extremely unjust and undemocratic for us as a state. As a North Carolina citizen the previous districts that were develpoed in 2022 that presented the 7-7 ratio were fair and representative to the NC citizens. The new maps that are set in place are not fair to the voters and drown out the minorties votes. Because of these certain groups' votes will not be heard and it will go against our democratic values as a country. This plan which was devised by the republican leaders in north carolina show extreme examples of cracking the demorcratic regions to drown out their vote. The new districts without a doubt favor republican votes and create an inequality in voter rights and fair elections. With the new districts republicans will have 11 of the 14 seats in the House meaning they will control roguhly 79% of voter delegation. For example, district one is a perfect way to show how they used packing gerrmandering to create a major republican vote and force the democrats to have a minortiy voice.
10/20/25 11:08 AM	Nc zack pappas		I am writing to share concerns about the proposed Congressional district plan for North Carolina. It is vital that district boundaries reflect the interests and integrity of local communities across our state. When cities, counties, or neighborhoods are split into multiple districts, it can weaken their ability to advocate for shared needs and priorities. North Carolina has a history of legal challenges related to gerrymandering, and this underscores the importance of drawing maps that are fair, transparent, and compliant with both state and federal standards. I urge the committee to ensure that the final plan keeps communities together, promotes competitive elections, and upholds the principles of equal representation for all North Carolinians.
10/20/25 11:08 AM	Nancy Green	self-employed musician	This proposed mid-decade congressional redistricting is a manipulation of rules in order for the republican party to hold onto power and is a morally repugnant move designed to strip voting power from those they disagree with. It's deeply un-American, not to mention deeply un-Christian, no matter how righteous those lawmakers imagine they are.

10/20/25 11:08 AM Ashley Logue		Dear Members of the North Carolina General Assembly, I am writing to express my strong opposition to the proposed mid-decade redistricting of North Carolina's congressional maps. As a North Carolina resident, I am deeply concerned about this unprecedented action. My understanding is that our General Assembly has never voluntarily redrawn congressional districts mid-decade for political purposes,Äîprevious redistricting has only occurred in response to court orders. Breaking with this precedent sets a troubling standard for future legislatures and undermines public confidence in the integrity of our electoral process. At a time when North Carolina remains without a state budget, I respectfully urge you to prioritize the pressing needs of our communities. Our state faces challenges in education, infrastructure, healthcare, and economic development that deserve the full attention of our elected representatives. The principle of fair representation is fundamental to our democracy. Recent polling shows that an overwhelming majority of North Carolinians,Äîacross all political affiliations,Äîoppose the practice of drawing districts to benefit one party over another. This is not a partisan issue; it is a matter of ensuring that voters choose their representatives, rather than politicians choosing their voters. I urge you to reconsider this proposal and instead focus on: Passing a comprehensive state budget that addresses the needs of all North Carolinians Establishing transparent, nonpartisan redistricting criteria for future map-drawing processes Honoring the principle that our districts belong to the people of North Carolina, not to any political party Our democratic system works best when all citizens feel their voices are heard and their votes matter. I respectfully ask that you oppose this mid-decade redistricting plan and work toward solutions that strengthen, rather than weaken, public trust in our elections. Thank you for your time and consideration.
10/20/25 11:08 AM Ms. Anisha Sharma		Further gerrymandering of NC under the proposed plan would dilute the political power of Black North Carolinians. This is in direct violation of the Voting Rights Act, which protects against illegally diluting the vote of people of color. Manipulating district lines for partisan advantage is cheating, pure and simple. Additionally, North Carolina is already one of the most heavily gerrymandered states in the country. It is unacceptable to make the situation worse. We need to restore fair maps, not create even more unfair maps. North Carolinians deserve better! I expect you to make the right choice for our people.
10/20/25 11:09 AM Comment on Redistricting Camila Yupanqui Weir		To Whom It May Concern: I am a resident of Charlotte, and I appreciate the opportunity to provide input on the redistricting process. I encourage the General Assembly to consider the following principles: *Transparency:* The public deserves a clear understanding of how and why districts are drawn. *Representation:* Districts should reflect communities of interest and ensure fair representation. *Legal Compliance:* The process must comply with all state and federal laws. I,Äôm concerned that the future redistricting plan undermines the democratic principle of fair representation. Please support establishing non-partisan map drawing and ensure that districts remain competitive and community-focused. Thank you for your work and for considering public feedback during this important process.
10/20/25 11:09 AM Madeline Edmonds	High School Student	I dissagree with the proposed redistricting of the congressional map for North Carolina because it is unfair to the Democratic population of North Carolina. Phil Berger of Rockingham County agreed to these new proposed redistricting of NC's congressional maps and stated on social media that "The #NCGA is ready to help Republicans secure Congress and move @realDonaldTrump,Äôs agenda forward!", which shows his bias against the Democratic party. He is using cracking to split up a specific group of voters, in this case the Democratic party, so that their power is less than the Republicans and ultimately makes the Republican party become the majority. I do not agree with this because it provides a specific party an advantage, which is just wrong to do, especially when its only because you want a specific person to win the election.

10/20/25 11:09 AM D. Hughes		To Destin Hall, Ralph Hise, Phil Berger, and the rest of the General Assembly claiming to be "Republican:" Since we all know that this public comment period is just a sham to pretend you care about the voice of the people more than the voice of your autocratic leader, Donald Trump, I am going to skip talking about the details of these maps and get to the heart of the issue in today's politics. And I am going to explain this from my actual Republican point of view: You KNOW that you are violating the NC Constitution, the US Constitution, and the will of over 8 million NC voters. You KNOW that you are cheating, and that you are LYING to your poor, uneducated constituents to manufacture consent for a fascist takeover. Many of you are likely antisemitic holocaust deniers anyway, but for the few of you Republicans who still do believe some objective history, then you know that the Nazis came to power by exploiting unfounded fears about migrant communities, jews and leftists. The Nazis used this exploitation to further empower business elites and consolidate the power of politicians those elites could trust - which is to say, politicians that the elite could control or that were themselves elites. Does that sound familiar to you? You are the modern Nazi puppets. Our only hope, ironically, is that your party and certainly your party leader are nowhere close to as smart or savvy as the Nazis were. So whether or not you are aware of the historical tradition you are continuing, you are willing participants in giving a tyrannical president unconstitutional power via minority rule. I know you will go ahead and draw these corrupt maps because you have no soul, you have no shame, and you certainly have no backbone to resist your fascist daddy in the White House. You are accelerating the end of this country as we know it, and likely the end of the world. And the most upsetting part is that you know exactly what you're doing, and you do it with a smile. But I had to submit this comment so that it is on the public record that you are NOT Republicans. You are NOT partisan. You are NOT on the acceptable political spectrum in this country. You left the Republican party a decade ago, the last time you drew maps to guarantee minority rule. You are fascists, which have no place in America. By building your power on dehumanizing others, you have abandoned your own humanity. You are absolute scum. Shame on you.
10/20/25 11:09 AM Julian Johnson	High school student	We need to redo our districts in North Carolina because it doesn't accurately represent our people. In North Carolina all the presidential votes recently and the peoples general views are always more 50-50 which you would think should be 7 and 7 seats. That's not how it is though, our seats are currently 12 and 2 republican to democratic, which is cutting out the representation of the needs and opinions of the democratic half of our state. We need another supreme court order to redraw the lines like in 2022 which created and equally represented state with 7 seats for each side.
10/20/25 11:09 AM Mrs Sue Bennett		Absolutely no redistricting, especially to please the President.
10/20/25 11:09 AM PETER HASSELBERG		My name is Peter Hasselberg and I,Âôm a constituent from Louisburg. I'm writing to urge legislator Matthew Winslow to oppose attempts to redraw North Carolina,Äôs congressional district maps before the 2026 midterms. This blatantly partisan redistricting process would set a dangerous political precedent and rob North Carolinians of their rights. North Carolinians on both sides of the aisle agree that voters should choose their representatives, not the other way around. Thank you for your time and consideration.
10/20/25 11:09 AM Dr Marcy Litle	Retired	Please do not attempt to change North Carolina,Äôs congressional map to achieve partisan advantage. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable.
10/20/25 11:09 AM Dr. Robert Hellwig	Watts Street Baptist Church	The people of North Carolina deserve to have representation which reflects their proportion of the population. While it is fun to win, knowing that cheap tricks got you the majority which does not accurately reflect the actual majority of the voters is a poor way to win the confidence of the populace at large. Thank you for the opportunity to express my opinion.
10/20/25 11:09 AM I do not support this mov Marcia Bosworth	Citizen of NC	I do not support this move you are selling NC to Satan!
10/20/25 11:09 AM Natalie Dinkins	High School Student	I do not like, nor do I agree with, these redistricting maps because it displays obvious and unbashful jerrymandering. Our state is nearly half and half, yet our votes do not reflect this. Therefore, voter rights are being restricted, as people's voices are silenced, and their opinions manipulated. Forsyth County and District County are cracked, while District 12 displays packing. This is unfair and unconstitutional, contrasting the ideals which this country was built on.
10/20/25 11:10 AM Ms. Susan Kroll		1. I want US Congress to pass a federal law against gerrymandering 2. I want NC State to create an Independent NonPartisan Redistricting committee 3. I will vote for and only support Judges who will strike down partisan gerrymandered maps and are for fair maps.
10/20/25 11:10 AM Theresa A Gang		STOP the GOP gerrymandering! It's clear that you are trying to manipulate our maps because you know your policy is not popular. You are there to represent the people. Reps are chosen by the people. You don't get to choose who you represent. STOP. We want an independent board to determine the maps!

10/20/25 11:10 AM	Elizabeth Scott	High School Student	This new redistricted map for he North Carolina congressional districts is not a good representation of North Carolina voters and should not be used because it uses severe gerrymandering to sway the votes in favor of the Republican party. As you most definitely already know, the house votes are eleven to three with Republicans in favor. When looking at the votes from the citizens of North Carolina over the past several elections we can see that they have always been nearly 50/50, never have they resembled the eleven to three house votes. In 2022 after the court ordered redistricting we suddenly saw an accurate representation of North Carolina voters. With seven Republicans and seven Democrats, that literally perfectly divides North Carolina. The cracking and packing that is taking place does not represent the people and does not showcase their opinions on who should be our leader.
10/20/25 11:10 AM	Ms. JANINE NICHOLSON	Self	I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves.
10/20/25 11:10 AM	Deborah Vavra		NC needs a non-partisan independent commission to draw congressional district lines. In the meantime, I strongly oppose the newly proposed maps for NC. The proposed districts violate the NC Constitution (see the following sections in Article II): (section 2) Each representative district shall at all times consist of contiguous territory; (these districts that snake around may technically be contiguous, but sometimes just by a thread); (section 3) No county shall be divided in the formation of a representative district; (section 4) When established, the representative districts and the apportionment of Representatives shall remain unaltered until the return of another decennial census of population taken by order of Congress. (We are currently mid-decade, so not a legal time to redistrict. At the president's behest, Texas illegally redrew its lines. California answered by putting a proposed exception to their redistricting guidelines before the voters as a referendum. NC is following Texas by illegally redrawing the lines without a vote by the people. This is creating a domino effect.) There are about equal numbers of registered Republicans, Democrats and Unaffiliated voters in NC. The current split of 10/4 is already unrepresentative of the voters. A split of 11/3 would result in even less representation for minority and underserved populations and be blatantly unfair. If the GOP policies were popular, redistricting would not be necessary. Please do not follow through with the proposal to redistrict North Carolina's Congressional districts. Thank you.
10/20/25 11:10 AM	Crystal Gaspari		Stop gerrymandering the maps. Win your elections fairly by actually representing the community. Stop taking orders from a wannabe dictor
10/20/25 11:10 AM	Sonya Silvers		I am against redrawing our maps to overly benefit one party. Y'all are supposed to work for your constituents, not bow to the whims of a wannabe dictator who blatantly ignores the rule of law. Midterms are coming, and we won't forget
10/20/25 11:10 AM	Joel Ross		Democracy depends on voters choosing their elected officials, not the other way around. Republicans have still not passed a budget nor funded education. It,Äôs clear you care more about protecting billionaires than caring for the citizens of North Carolina. NO MORE GERRYMANDERED MAPS. This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation. This proposal will dilute the political power of Black North Carolinians. The biggest impact of this proposal will be the ‚Äúcracking‚Äù of the northeastern Black Belt into two districts. The national Voting Rights Act requires the legislature to proactively consider race in redistricting to protect against illegal vote dilution for Black and Brown voters. This proposal is a poorly timed distraction. North Carolinians are currently voting in local elections. Let us focus on finishing this year,Äôs election before dropping big changes to next year,Äôs.
10/20/25 11:10 AM	Erin Kizer		I urge the legislature to wait for the prescribed time to draw legislative maps. Redrawing now is a violation of our democratic norms, and could disempower thousands of voters, diminishing their confidence in our system.
10/20/25 11:10 AM	Joel Eder		Don't do it! Unlawful! Save our democracy!!!!!
10/20/25 11:11 AM	Ms Teresa Wignall		This proposal is unnecessary, rushed and costly. North Carolina has already been redistricted twice since 2020. The public is not being given enough time to consider the proposal and discuss the impact with their representatives. Legislators should focus on passing a state budget instead of a redistricting plan that will likely result in costly litigation.
10/20/25 11:11 AM	John Getty		By redistricting is this fair for both parties or does it give one party more power and more votes. Let's keep the playing field equal across the different counties in our State.

10/20/25 11:11 AM	Simon Moyer	High School Student	I disagree with the new redistricting plan because it does not provide equal representation for both parties. Like in past years, the members of the Senate have been unevenly distributed between the two parties. For example, in the 2016 election, the Republicans won 10 out of the 13 districts, and this trend stayed pretty much the same until 2022, when the House seats were split evenly between the democrats and republicans, 7 to 7. But with the new redistricting of 2024, the House seats were divided unevenly again with the republicans winning 10 of the 14 districts. I think that the new redistricting map that has been proposed will likely allow the republicans to win a majority of the House seats.
10/20/25 11:11 AM	Congressional district Shadow Martin	Occaneechi	We ask you from the bottom of our hearts to please reconsider and think of the future impacts this will place onto tribal members and the relations between tribes . This will dismantle the representation we have fought hard to protect and it will silence the voices of our elders and our youth who came too far to see ourselves be dispersed because of a political agenda . Please think of our future for everyone involved.
10/20/25 11:11 AM	Dr. Susan Ikenberry		As a resident of Black Mountain, NC I am registering my firm opposition to any mid-cycle redistricting maneuver. Mid-cycle redistricting moves reduce fair competition, confuse voters, and divide neighborhoods. They also silence voters who perceive that outcomes are rigged for partisan interests. When candidates win as a result of party-led redistricting maneuvers, they lose the urgent need to be accountable to the people they are paid to represent. I oppose these efforts to manipulate elections and undermine the democratic contract that is the basis of the powers of the state. I encourage legislators to show courage and oppose these maneuvers.
10/20/25 11:11 AM	Ms. Mary Annette Goldring		Please reject the 2025 proposed maps, which are an illegal attempt to gerrymander the NC congressional districts racially. This is an attempt to seize power for the GOP, and it is unacceptable. Please Vote NO.
10/20/25 11:12 AM	Susan Kauffman		Do NOT further redraw the voting maps. Where is our budget?!
10/20/25 11:12 AM	Caroline Walsh	High School Student	I believe that redistricting North Carolina is morally wrong because it goes against the very basic outlines of our constitution, and isn't democratic. Manipulating the map to ensure one result is the exact opposite of what we stand for as a country, which is that our leaders and our elected officials accurately reflect the citizens' needs and wants in order to give equal voice and representation to everyone. In the 2016 presidential election, President Trump won North Carolina by about 3%, less than 200,000 votes, but the districts reflected this result vastly different. 10/12 district representatives voted in were in the Republican Party due to gerrymandering; but this is clearly not an accurate representation of the leanings of North Carolina citizens. Gerrymandering is unconstitional and should not be implemented in North Carolina.
10/20/25 11:12 AM	MR. VICTOR LANCASTER		MAPS are not to be redrawn at the KINGS command. Follow CENSUS ONLY!
10/20/25 11:13 AM	Grant Whalen	High School Student	I do not believe that these new districts accurately represent the voters in North Carolina. Even though legislative gerrymandering is legal, it undermines our countries democratic principles. In the 2024 election for the House of Representatives, the votes in our state are almost perfectly split in half between Democrats and Republicans, but 10 out of the 14 seats were Republican. It doesn't matter which side you support, you have to recognize that the math does not reflect the distribution of votes. This extreme gerrymandering violates the equality that this country was built on, suppressing the voice of voters, and allowing the mapmakers to decide our Representatives, and not our people. I propose that the supreme court should oversee that the districts in North Carolina are gerrymandered as little as possible to unmute the voice of the people.
10/20/25 11:13 AM	Ginger Raimondo		Keep gerrymandering out of our election process! We all know where it,Äôs coming from. Let,Äôs be fair!!! Gerrymandering is cheating!
10/20/25 11:13 AM	Susan Bailey		You were elected to represent the people of NC. Shame on you for doing the work of the worst, dumbest, most corrupt president we've ever had. He lies, cheats, disrespects the office and thr American people daily. Represent the people of NC like you swore you would do when you took office.
10/20/25 11:13 AM	Unfair NC Redistricting LaTonya Smith		NC is a Purple State at best. All constituents should elect their representatives and not the other way around. All politicians should work for the people, not beholden to one polical party. Legislatures are to be elected. It should be a privilege to serve, not a guaranteed lifetime job. Further gerrymandering this state should be a crime. Doing things in the cover of darkness and silence means the actions are wrong and not good for the majority of citizens! No more gerrymandering!
10/20/25 11:13 AM	Denise Todloski		The extremists are at it again here in NC. Phil Berger had the audacity to publicly state he is bringing the General Assembly back on Tuesday to have NC congressional maps redrawn to give Donald Trump another Republican in Congress. We can,Äôt let that happen! OBJECT, OBLECT, OBJCT!
10/20/25 11:14 AM	Jane Hall		Fairness and equality should be our country,Äôs and our state,Äôs first priorities. Gerrymandering does not allow for fair and equal representation of the people.
10/20/25 11:14 AM	Dawn Young		Stop cutting up NC to favor the republican's cheating! They can't win legally--and THIS is their answer.
10/20/25 11:14 AM	Mr Marcus Rademacher		This bill is the worst kind of unprincipled nonsense that should be too embarrassing for elected officials to put forward. Representatives who are unwilling to face their voters are mere cowards. Create an independent, nonpartisan redistricting commission to set voting districts and stop being petulant authoritarians.
10/20/25 11:14 AM	Susan Marshall		I am against redistricting NC to give more power to one party over the other. NC citizens deserve fair maps and fair elections.

10/20/25 11:14 AM	Michael Banta		As a citizen of North Carolina, I'm opposed to redistricting. I'm against redistricting because it's naked power grab intended solely to subvert the will of North Carolina's voters. Voters are supposed to choose politicians, not the other way around.
10/20/25 11:14 AM	Ms Jan Lowe		I am opposed to the current redistricting of the NC maps. The members of the NC legislature should be selected by the voters. As it stands now the legislature is picking the voters. This makes them unresponsive to the voters' viewpoints and wishes. I would love to know what your committee's definition of democracy is.
10/20/25 11:14 AM	Ms Marianne Newman		Please do not vote to reconfigure the NC congressional district maps yet again, especially now, in an off-year for such action. Redistricting should only and always be done by a nonpartisan commission directly selected for this specific task. The proposed current action is not acceptable.
10/20/25 11:15 AM	Ashlyn Corley		When do the political games stop and politicians actually represent the constituents they serve? The vast majority of N Carolinians are against gerrymandering by either party. Enough is enough. Gerrymandering is wrong. The NC GOP pointing fingers at other states and politicians of the past and saying we do it because they are doing/did it doesn,Äôt make gerrymandering right. It just means you are poor decision makers, more interested in your own power versus the citizens of this state you are supposed to be representing and are quite frankly not worthy to hold the offices that you do.
10/20/25 11:15 AM	Mr Carlos Bellamy	Occaneechi band of the Saponi Nation	It is extremely harmful for our voice to split the tribe into multiple districts with the objective of gerrymandering. This is egregious and punitive to our tribal culture and community as well as diluting our political voice.
10/20/25 11:15 AM	Ms Carole Katz		Please don't steal this election. Everyone's vote should count. It's enough already. There's no reason for this . Want to win an election, do it honestly. Disgusted in NC!
10/20/25 11:15 AM	Bette Welborn		Really? You think this is democracy...to FURTHER gerrymander your way to unbalanced power in a purple state? Shame on you! History will remember.
10/20/25 11:15 AM	Ms Jacki King		This makes my blood boil. The reason we are mandated to have a census every 10 years is to alline congressional seats. Now the cheating republicans are going to violate our laws to bow to a want to be autocrat as he demands more power. Millions of Americans who love this country came together to show our love and loyalty to our country, And stood for NO KINGS. I am ashamed of the creeps cheating the citizens of NC of our voting rights.
10/20/25 11:15 AM	Claudia Grice		Do not redistrict NC again to gain another Republican in Congress. Please pass the state budget. You work for all pthe tax payers of NC, and we want a budget not gerrymandering.
10/20/25 11:15 AM	Ms Jennifer Beauvais	Me, Myself, and I	First: I love my country. I'm a proud North Carolinian. Born here. I was raised to believe that if you love something you fight for it; to make it better. I remember signs from when I was a kid saying "America: Love it or Leave it". Those people didn't understand that those protesting love it SO Much that they took to the streets to try to make it better for everyone. The same is happening again today. We believe that We the People get to choose who we vote for in our Representative Democracy. Our Republic. It doesn't work the other way around. That's unAmerican. It's called cheating. Maybe improve your product & more people will vote for you? Novel concept perhaps? It shouldn't be. Stop being unAmerican & cheating & let We the People decide.
10/20/25 11:16 AM	Cracking and packing Tamir Davis	High School Attendee	Dear Phil Burger, I don,Äôt believe the usage of congressional districts within our state is fair in representing what it means to be a democracy. A true democracy is a system where voices are heard through equally-weighted votes rather than filtered slop being cracked and packed within districts unrepresentative of what the North Carolinian people want and need to see in order to make change in our great nation.
10/20/25 11:16 AM	Richard Tanner		I strongly oppose the proposed congressional redistricting plan because it unfairly undermines fair representation by manipulating district boundaries for partisan advantage.
10/20/25 11:16 AM	Mrs Sue Hartman		Say no to redistricting! Stop the Gerrmandering
10/20/25 11:17 AM	Jeremy Meyers		You and I both know that this is just an attempt to steal elections. I look forward to voting y'all gerrymanderers out of office!
10/20/25 11:17 AM	Gary Ambert		Hi..... I am opposed to this Redistrcting Senate Elections action.!!!It is blatantly unfair to voters of our State. I object to allowing politicians to manipulate normal district lines.It undermines our treasured democracy.
10/20/25 11:17 AM	Margaret Kennedy		This,Ä¶this is wrong on so many levels and you KNOW it. You don,Äôt have enough already? Your silencing People,Äôs votes. This will just continue the unbalancing of power in the United States and will continue the unraveling of the fabric of this country.
10/20/25 11:17 AM	Katherine Murray		I oppose this absolutely unfair redistricting! Voters should pick their politicians, not the other way around. I oppose these unfair maps because they take power AWAY from voters, and are being done against your constituents will.

10/20/25 11:17 AM	Redistricted Map in NC Liam Applegate	High School Student	I believe that this new redistricted map favors the republican party and causes an unfair vote because the redistribution causes cracking in the 1st Congressional district. This also gives the Republicans a safe seat in the same district since the democrats have less power in that district. As stated in the article made by Adam Wagner it shows the impact these new districts could cause to the seats in NC. "The changes move the 1st Congressional District from one that narrowly voted for Democratic candidate Joe Biden in the 2020 Presidential Election (50.13% to 48.86%) to one that favored Republican candidate Donald Trump by more than seven points in the same race (53.05% to 45.76%)." This is why the new redistricted map favors Republicans because of the cracking of democratic power in districts.
10/20/25 11:17 AM	Sarah Chowning		Stop gerrymandering in NC. It is unacceptable for politicians to draw districts to help their own party win more seats. Stop rigging our voting maps.
10/20/25 11:17 AM	Susan Getty		Totally against the gerrymandering.
10/20/25 11:17 AM	Lindsey H		To see the NC GOP yet again engaged in anti-democratic redestricting that quite literally steals the opportunity for meaningful participation in the voter process is beyond disheartening. I used to be a swing voter, but extreme, anti-democratic tactics such as this have made it impossible for me to vote for Republicans in North Carolina. I know these pleas will fall on the deaf ears of power hungry authoritarians, but I beg you to find your morality and not to do this.
10/20/25 11:17 AM	SUSAN KNOX		Please do not redistrict! It was wrong for Texas and California to do so. We need to work towards healing divisions between people in this country. I,Âôm begging that you work towards legislation to help all of us rather than focusing on staying in power. Republicans already have total control over the state. Please don,Âôt continue to drive us further apart.
10/20/25 11:18 AM	Mrs Aisha Bolton Waugh		I AM ANTI REDISTRICTING. The disgusting overreach and manipulation needs to stop.
10/20/25 11:18 AM	Ms Jane Jerry		Please explain to me why it is important to redistrict at this time.
10/20/25 11:18 AM	Abby Wildman	High School Student	Dear North Carolina General Assembly, The redistricting and blatant gerrymandering of North Carolina's land is unconstitutional and a direct violation of the liberties United States citizens give up to the government. I find it despicable that the actions and propositions of Phil Berger have stood and been heard within North Carolina's courts, when their intended purpose is to suppress the voices of Democratic voters throughout North Carolina , which is the exact opposite of one's role as a senator. The November 2024 election resulted in a 2.5% win for candidate Donald Trump with 2,898,423 votes, while Kamala Harris followed in a close 2,715,375 votes. Despite this, 10 House seats were given to the Republicans, while 2 went to the Democrats. Almost half of North Carolina's population voted Democratic, yet only two seats were given to the party because of the deliberate packing and cracking the Republican Party has condoned for years, all over the state of North Carolina. Splitting the Black population within North Carolina A&T University is intentionally diminishing the votes of this population for one party's favor, using them for their say in government. This population of voters cannot trust that the government is going to uphold their wishes when they are consistently being outnumbered by Republican votes, leading to a overt demonstration of power abuse and constitutional representation of the Republican party, at the cost of Democrats. This was simply not how the United States of America was set up and organized by the founders, who promoted equal representation and a healthy balance of majority versus minority rights, all of which can be seen throughout the Constitution. Continuously attempting to lessen and silence the voices of Black and Democrat voters through gerrymandering and redistricting will result in further domination by governmental powers that hold no respect for its citizens and their individual liberties and rights.
10/20/25 11:18 AM	Ms Pat Blasius		I am strongly opposed to the redistricting currently approaching a vote in the NC General Assembly. This is a partisan affront on our precious democracy. I pray for courage for our leaders to fairly represent all the people in NC.
10/20/25 11:18 AM	Matt Utterback		NO NEW DISTRICTS UNTIL THE NEXT CENSUS! VOTERS PICK POLITICIANS, POLITICIANS DO NOT PICK VOTERS!
10/20/25 11:18 AM	Patricia Klavora		I strongly urge you to consider what you are doing in your redistricing efforts.. This state has a democratic governor and trying to change the rules and skew (effectively) cheat so republicans win is very undemocratic and against the spirit of the constitution and your oath. You work for the people not Trump.
10/20/25 11:18 AM	Susan Robinson		This proposed redistricting map does not reflect the North Carolina I know. Please stop this proposed redistricting plan now. It undermines fair representation, destabilizes our communities, and puts partisan interests ahead of the people of North Carolina. North Carolina deserves maps that reflect transparency, protect fair, stable representation, and equal power of every voter, not partisan gerrymandering.
10/20/25 11:18 AM	Ms Jan Williams		Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. And this is certainly not the right time---it appears to be a clearly partisan move, and that is wrong.
10/20/25 11:18 AM	No redistricting Gaye Hill		I do not agree with the new NC map. These maps should require compact, contiguous districts and keep communities whole - not serve partisan objectives. In fact, we should be working to adopt an independent citizen,Äôs commission so voters, not politicians, draw our districts. This plan is completely inappropriate and moves us away from developing fair maps, which is essential to a functioning democracy.
10/20/25 11:19 AM	Ms Brenda Hodson		The proposed gerrymandering is wrong as it prevents American from getting equal representation.

10/20/25 11:19 AM	Susan Shure		This is an outrage. There is no need to resistrict. You already have this state gerrymandered to the hilt and already don,Äôt care what your constituents think. Now you want to make it worse??
10/20/25 11:19 AM	Chanel Vaughn	High school student	The people of North Carolina are not being represented because the maps being redistricted makes it so that there are more republicans than democrats. With this happening, it makes it hard for people in certain districts to be there is so many republicans packed in certain districts that it dilutes democrats
10/20/25 11:19 AM	Sydney Sherrill	Angry Highschool student	Dear Phil, looking at the redistricting map for our great state of north Carolina instilled such a sense of dread in me for the nation. Not only because I've seen a toddlers the age of 3 understand sharing and fairness better, but also because it was only 2022 when the state of NC had a court ordered redrawing- one that significantly helped our state be truly represented. North Carolina, as seen in voter poll results, if you actually do your job right instead of funneling money and passing laws to just help yourself, is a 50/50 state. In every past election the winner won by an extremely small amount. The fact that the new redrawing map has a ratio of 10-4 is shameful. You all claim to be defenders of democracy, yet you buffoons redraw our state to be so strongly republican showing that you are actively taking away democratic votes. I know you old men that hold power don't understand basic empathy for people that are different for you so I will dumb it down. Imagine if Sally had 14 toy blocks, Billy comes along and wants to play too, Sally gives him 4 blocks and keeps 10 for herself, does that seem fair? This isn't a rhetorical question. The answer is no. The fact that you claim to be our representatives yet commit these deplorable acts truly should be put in the history books. Phil Bergers, I am deeply saddened that you are such a disgrace because your name is very cool, yet there you go, putting dirt on it. I truly hope the next generation isn't such an awful let down because simply seeing the way you run our state makes me absolutely petrified for what will come for our nation. I cannot wait for the faithful day I turn 18 next year and can vote, because you can rest in confidence that I will NEVER in all my years of life vote for you Phil, you have let me down more than a scratch off ticket. You suck and I don't like you, Sydney <3
10/20/25 11:19 AM	Dr Susan Crate		Do not pass this redistricting bill!! This new congressional district map is aimed at cutting another Democrat out of the U.S. House. This map was ram-rodded through the legislature. Presevre our democracy please!!!
10/20/25 11:19 AM	Ms Barbara Jewett	Retired teacher	Against the Electoral College. For public vote. Distracting would not be necessary or rigged.
10/20/25 11:20 AM	Amber Keeran		NO GERRYMANDERING! Let the proof NC decide the vote fairly. We all learned that it is wrong to cheat in first grade or before. It really seems like our representatives are just too scared they will lose but this kind of thing makes you losers anyway.
10/20/25 11:20 AM	Tucker Verheyen	High School Student	Looking at the proposed maps for the North Carolina congressional districts, I am appalled and disappointed in our legislature. This is a partisan power grab at the request of our scared president by Republicans in the North Carolina legislature who are too scared to say no to him. Our state is nearly 50/50 between Republicans and Democrats, yet our congressional maps are not representative of that. Republicans have engaged in the cracking and packing of minority groups and cities in order to maintain an unjust and unfair majority that is not representative of the people. In the next election, I, as well as many of my peers, will be able to vote, and these actions are only further making me more excited to vote for people who will hear my voice. 2026 is approaching, and many of you may not be ready, but our voices will be heard. Looking at the court-ordered map from 2022, it shows that we can have a more representative map, yet we do not. The Republican supermajority in North Carolina is not working for the people, and I cannot wait for it to come to an end. This map will only give people more reasons to vote against it, after, of course, the fact that you all aren't capable of doing your jobs. To representatives in North Carolina, stand up to our president; you have an opportunity to stand up for what is right, but instead you choose to act like cowards and sit idly by while you unfairly take power from the people. We are rapidly becoming a country following rule by law rather than following the rule of law. These maps also give Republican districts a smaller majority in each one, which will make it easier for you to be voted out in 2026. It is time for the representatives to start representing the people. Also, get to work passing a budget; there is no reason for us not to have a budget at this point in the year. Grow a spine, Tucker.
10/20/25 11:20 AM	Margaret Davide-Smith	N/A	I,Äôm writing as a North Carolina resident to urge the General Assembly to ensure that new voting maps are fair, transparent, and representative of all communities. Every voter deserves an equal voice. and maps should reflect where people actually live and work and not favor any party or incumbent. As someone who cares deeply about civic participation across the state, I want to trust that my vote counts the same as anyone else,Äôs. North Carolina,Äôs redistricting process should serve its citizens and not cater to the agenda or whims of President Trump. Our lawmakers should focus on doing their jobs and passing a state budget. Please hold open hearings, share draft maps and data for public review and comment, and use clear, nonpartisan criteria such as compactness, respect for county lines, and preservation of communities of interest. Legislators have an opportunity to restore public confidence in this process by putting voters first and drawing maps that serve ALL residents fairly. Thank you for your consideration.
10/20/25 11:20 AM	Erin Carson		This proposal is absolutely shameful! As a voter registered as an independent, I am appalled that the NC Republican Party would propose such a blatantly authoritarian map in our state. I have been an NC resident my entire life and have never been as embarrassed to be a North Carolinian as I am after seeing this proposal. I strongly urge you to vote against this proposal!!

10/20/25 11:20 AM	Dr James McGlinn		Drawing voting districts to favor a specific political party makes citizens who are negatively affected lose their right to a fair election. It diminishes the weight of their vote and therefore their ability to have their needs fairly represented by government. Equal representation is one of the principles fought for in American history and one of the gifts of living in a democracy. If citizens do not feel their needs are recognized by government, they may lose their respect for government and laws passed by an unfairly elected body. Please do not pass any law or follow any procedure that would further gerrymander our voting districts.
10/20/25 11:20 AM	Ms Cheryl Oliver		I do not think that there should be redistricting in North Carolina in order to unfairly represent one party over another. I believe that this is illegal and certainly does not represent the people of this state. It's called "stacking the deck" "rigging the election" and any other negative comment I can think of.
10/20/25 11:20 AM	Dr Regina Lawson		An incredibly undemocratic power grab. We are already infamously gerry mandered and I am disappointed that people elected to represent the people of NC would make such a bold, self serving power grab. We are all hard working residents of this beautiful state and need fair representation.
10/20/25 11:20 AM	Cassie Crawford		I am horrified by the new proposal to further gerrymander the state to dilute the voting power of black voters and others who aren't in power in this state. As an attorney, playing by the rules is an important value for me - shame on anyone who tries to manipulate the rules to deprive a significant part of this state's population of its constitutional right to vote.
10/20/25 11:20 AM	Richard Nicholl		This is completely unnecessary and is not in the interest of NC voters to have fair representation.
10/20/25 11:21 AM	Dr. Sarah Schulwitz		My name is Sarah Schulwitz and I was born in Greensboro, NC and raised and am a resident in Durham, North Carolina. Voters should pick their politicians. Politicians should not pick their voters. I am writing to express my strong opposition to the proposed redistricting maps in North Carolina that would help GOP pick up another Congressional seat. As a resident of North Carolina, I am concerned that these lines dilute our collective voting power and unfairly represent the will of the people of North Carolina. This map appears to be drawn to protect incumbents rather than to give voters a true voice. I urge you to adopt fairer criteria that prioritize compact and contiguous districts, keep communities together, and do not intentionally favor one political party over another.
10/20/25 11:21 AM	Rebecca Sevigny		Statement Opposing Politically Motivated Redistricting in North Carolina The proposed congressional map redraw represents a partisan manipulation of district lines that undermines the very foundation of our democracy. Gerrymandering allows politicians to choose their voters instead of voters choosing their representatives. This practice erodes public trust, silences communities, and weakens accountability. By carving up districts to favor one party, lawmakers dilute the voices of entire communities, particularly minority populations, and strip citizens of equal representation. This is not about fair governance ‚Äî it is about entrenching power. Such actions corrode confidence in elections, discourage civic participation, and threaten the principle of government by and for the people. North Carolina deserves fair maps that reflect communities, not partisan agendas. To protect the integrity of our democracy, I urge lawmakers to reject this politically motivated redistricting and commit to transparent, nonpartisan map-drawing that honors the voices of all North Carolinians.
10/20/25 11:21 AM	Ms Jan Martin		No. Redistributing for partisan advantage is unfair to all parties at one time or another.
10/20/25 11:21 AM	Jeremy Trantham	Union Prestyerian Seminary	Just because an unpopular President asks you to prop up his unpopular agenda by rigging the maps (again and worse than before) doesn't mean you have to jump. You could respect democracy by allowing the people to choose their representation with fair maps, but by passing these new maps you're proving (again) that you'd rather further the aims of a wannabe dictator. Pathetic.
10/20/25 11:21 AM	Colleen Leonard		I wholeheartedly OPPOSE partisan gerrymandering North Carolina,Äôs congressional districts. Unfair maps disenfranchise voters and lead to long-lasting political problems. Drawing districts to strongly favor one party leads to severe polarization, legislative gridlock, and a weaker Congress.

10/20/25 11:21 AM	Alex Brooks		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina‚Äôs federal voting maps and erode any North Carolinians‚Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters‚Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People‚Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 11:21 AM	Mr. ROBERT CHERNIAK	Retired	What do I say to my grand children regarding free and fair elections in North Carolina if the majority in the State Legislator redistricts the State in any year they are urged to do so by the US President then in office? It is very shameful that we have to witness the erosion of democracy and the blatant effort to hamstring genuine debates between qualified candidates and load the dice to guarantee the election to perpetuate the idea that "might makes right."
10/20/25 11:21 AM	Mrs Virginia Mitchell		I‚Äôm opposed to voting on redistricting-please vote NO.
10/20/25 11:22 AM	Mrs Alisa Ortman		Do not gerrymander further our voting districts. We are still a democracy and should have maps that reflect actual population demographics. Not what a single party wants.
10/20/25 11:22 AM	Stephen Shelton	High School Teacher	The new voting maps that are being proposed do not represent the state of North Carolina because historically, the return on elections has shown that North Carolina is a fifty-fifty state. If you go all the way back to 2011, you will easily see that gerrymandering districts has long been the game of the majority party in the General Assembly. It is well documented that the rebuttal is "the other party does it too;" however, they do not gerrymander to the extent of the current majority. The current majority party has shown from 2011-2025 that they are politically driven and not data driven. The current ratio of representatives stands at 11 republicans and 3 democrats despite no presidential candidate gaining 51% of the statewide vote. if you go to the Board of Elections website it shows that the highest vote percentage Donald Trump gained was 50.8% which amounts to him winning by a margin of 183,048 votes, a total less than the population of Winston-Salem. That is a marginal victory, yet, no one would think it is because of how disproportional state is in the House of Representatives. In 2022, the General Assembly had a court ordered redrawing which resulted in a 7-7 split in the house. This result is a true reflection of NC politics. However, when faced with a growing liberal vote, the majority party tucked its tail again in 2023 to eliminate Jeff Jackson, solely based on his growing social media popularity. We live in a Constitutional Republic, not an autocracy. The people elect their representatives. The people give the government power. These new map will disenfranchise millions of voters just to satisfy a power hungry President and a corrupt Phil Berger. I know this will not reach you, but I want you to know, the future of the country lies with our youth. Instead of redrawing maps, fund education, pay teachers, and PASS A BUDGET! Time to work for us instead of for yourself.
10/20/25 11:22 AM	Julie Noh-Smith		Dear Congress members, This is to let you know my disgust about your malicious intention and behaviors. Republicans already made North Carolina highly gerrymandered muzzling people's votes/voices for fair representation, and now you are planning to do it even further to squeeze out another R-seat for Pres. Trump?!?!? My district 10 looks like Lake Norman side ways which does not make any sense at all. If you really focus on real life issues like how to make people's living cost more affordable, healthcare more accessible and affordable, help the people in West NC recover quickly and so on, you will get our votes even without redistricting. We spent $87,000 to recover from Hurricane Herlene damages with no insurance payout or no state govenment tax break. My healthcare premium is going up by about 70%, deductible went up 38% and on and on. And you are doing gerrymandering again for grabbing power with which you are not helping people. What is your intention to do with the power? In great disappointment.

10/20/25 11:22 AM	Harper Hoffman	High School Student	As I have researched and gathered information on the redrawn contingent congressional map promoted by Phil Berger, I stand by my opinion that the new map is undemocratic, unjust, and does not properly represent the people of North Carolina. The new map aims to carve out yet another seat for a republican representative, though representative is not the word I would use here. The people of North Carolina stand clear: we are, at our core, a 50/50 state. Presidential elections dating back to 2016 clearly demonstrate this, as the republican and democratic candidates in all elections since then have had a 3% or less difference in the amount of votes. The map that stands currently, as well as the map that is proposed for 2026 does not reflect this. 11 out of 14 seats says enough, but 12 out of 14 further perpetuates the notion of packing that is happening here, in which more republican voters are being pushed into district 1 to intentionally dilute the democratic majority, and if that is not undemocratic then I do not know what is. Agree or disagree with political views, by suppressing people's voices, democrat or republican, we can no longer call ourselves just. The 2022 redistricting properly represented the even opinions of our beloved state, 7 versus 7, which was a step in the right direction, but we must continue to strive, as a nation in the midst of a partisan polarization crisis, to acknowledge the other parties right to representation. This gerrymandering is in clear opposition to that, as well as to justice, equal representation, and true american values of democracy.
10/20/25 11:22 AM	Juliet Emmerich	High School Student	Hello. I am a high school student and in class we have been looking into redistricting in North Carolina both in the past and now. Because of this we have been looking into the proposed redistricting for 2026. From our research I do not feel that this redistricting will be an accurate representation of North Carolina's voters. Although I can not yet vote I am a firm believer that everyone's votes need to be expressed accurately. As a state the ballot votes are almost always very close to 50/50, republican/democrat. But, even though this is true, 2022 was the only year where Republicans and Democrats were 50/50 for the district votes. With the possible upcoming changes the equal vote will no longer happen and our state will not be accurately represented. The enlargement of district 1 clearly shows the use of packing to skew votes. I can also see cracking in Guilford county, breaking up the often democratic voters at A and T college. These things along with others make it clear to me that the redistricting is not depicting the voters of North Carolina correctly and that needs to change.
10/20/25 11:23 AM	Miss Jeanne Wilson	Democratic Action Cimmittee	It is unconscionable that NC has stooped to the same level as TEXAS to disenfranchise Black voters ibn North Carolina
10/20/25 11:23 AM	Mark Wilson		This is a blatant attempt to undermine the foundation of our democracy and steal congressional seats through unethical gerrymandering and it must be stopped. This proposed district plan distorts representation and leaves many North Carolinians without a meaningful voice in government. We deserve fair maps that accurately reflect our communities and our votes and ensures that everyone has a voice in the coming elections. This proposed plan needs to be abandoned.
10/20/25 11:23 AM	THIS HAS TO STOP! Bruce Arnold		This BS has to stop. The rights of the citizens mean nothing to y,Äôall as long as you have the power. What has happened to working for the good of all?
10/20/25 11:24 AM	Michelle B		I am opposed to the proposed Congressional redistricting maps.
10/20/25 11:24 AM	Mrs Kris Rothw		Please do NOT let this happen!!!!
10/20/25 11:24 AM	Kari Johnson		Please, no more gerrymandering!
10/20/25 11:24 AM	Mrs. Jerika Daigle		I oppose the redistricting.
10/20/25 11:24 AM	Delea Boyle		GOP redistricting because their own actions are causing loss of support is pathetic. PLEASE protect the people of NC. Protect the vulnerable communities and neighborhoods. Protect the integrity of our state in voting. What about our districts have not been fair thus far? This seems deeply motivated. Fight for us please. Listen to us. We see through you when you don,Äôt and we will fight harder. Don,Äôt underestimate us.
10/20/25 11:24 AM	Roger Stancil		Please leave our districts as they are until the next census. Consider a bipartisan commission for drawing districts.
10/20/25 11:24 AM	Gerrymandering Patricia Brennan		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice
10/20/25 11:24 AM	Ms. Brenda Overcash		As a registered Unaffiliated, I believe gerrymandering will hinder my voice being heard. We make up a third of the registered voters. With a Republican gerrymandered state, my opinions and vote will be squashed.
10/20/25 11:25 AM	Susan Riley		I am exceptionally concerned by the republican power grab to redistrict areas and gain votes/seats. There appears to be no loyalty to the actual people you serve.
10/20/25 11:25 AM	Anne Benbow		There is no rationale for the redistricting proposal that is before the state legislature this week, other than political and/or racial bias. I am vehemently opposed to this action, and prefer to see a return to free and fair elections. And the legislature has better things to do - how about getting us a budget?
10/20/25 11:25 AM	Ms. Judith Mesko	self	Trump does not have a mandate any longer. More than 7 million people who marched in the No Kings rally on Sunday Oct. 19. Trump's approval rating has dropped to 31 percent. Also, previous redistricting has already skewed the election results unfairly. So you shouldn't listen to Trump when he tells you to redistrict. You should use your own brains and heart to tell you to do the right thing. Stop this redistricting.

10/20/25 11:25 AM	Unjust redistricting of Ace Atwood	high school student	I do not support the proposal for the new North Carolina congressional districting map because of its obvious partisan origins, which have led it to be an imbalanced mess with the sole purpose of ensuring the most seats in the House of Representatives possible for the republican party. North Carolina has historically been a very even state when it comes to the voting tendencies of its people, but the new district map blatantly manipulates district lines using both packing and cracking methods. For example, Guilford County is split into three different districts to crack the African American vote from the North Carolina Agricultural and Technical State University, thus dispersing it among the three districts, lessening the impact of their votes. The mess of a district map in Guilford County is also an obvious example of racial gerrymandering because the sole purpose of the ludicrous division of the county was to diminish the impact of African American voters coming from A&T University. As a result of the historic Supreme Court case Shaw V. Reno, the court outlawed Racial Gerrymandering, thus showing that the new congressional district map is, at its foundation, unlawful.
10/20/25 11:25 AM	Mrs Stacy Bounab		I respectfully submit my public comment in opposition to the proposed redistricting plan. I was raised to believe that every vote counts ,Äî that democracy only works when all voices are heard and represented fairly. Fair maps are essential to fair elections, and this principle is under threat when gerrymandering allows politicians to choose their voters instead of the other way around. Gerrymandered districts don,Äôt just distort representation; they discourage participation, tamping down voter turnout and eroding public trust in the process. This rushed redrawing of boundaries risks silencing communities that have already fought so hard to be heard. I urge the NCGA to halt the current map proposals, hold a transparent and inclusive process, and prioritize maps that keep communities together, promote competitiveness, and ensure equal representation. Our democracy depends on fair maps ,Äî and on keeping the promise that every vote truly counts. We will keep having No Kings protests until Trump,Äôs enablers in the legislative branches of the state and federal governments stop giving him royal powers. Thank you, Stacy Bounab
10/20/25 11:25 AM	Stephanie Kriner		I am writing as a NC voter in Greensboro, NC to tell you that I am strongly opposed to any plans to redistrict the state AGAIN! The republicans already took away votes by gerrymandering to their advantage. It is not ok to do this again in response to Trump's demands. I am very angry and do not trust this country's ability to ensure I have a fair vote as it is and this attempt to rig which votes count the most is only making me feel less like we live in a democracy. I am ashamed that our state is playing this game. Please understand I am a voter and my voice matters. Please do not support any legislation to redistrict!
10/20/25 11:25 AM	Ms Yvonne Hammond		I am against redistricting. This is all just so wrong.
10/20/25 11:25 AM	Ms Shannon Kuenzel		If you need to redistrict to win that is a sign that you cannot win on your policies. Might be time to do some deep introspection and see if you are just there for power or actually for the people you claim to represent.
10/20/25 11:26 AM	Patricia Brennan		Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Âô ability to hold their leaders accountable.
10/20/25 11:26 AM	Mayor Jennifer Roberts	Self Employed	Redrawing the political maps in the middle of the census 10-year updates is blatantly and shamefully partisan. We are a 50-50 state, if you look at the Council of State partisan split, and there is no way we should be represented by 11 Republican Congressmen and only 3 Democratic ones. If your platform is the best for the people you should not have to cheat to win. Voters should pick who represents them, not the other way around. In addition, we will lose an African American voice in Congress, which is needed to be fair in representing our population. Please be ethical and wait until 2031 to redraw our districts.
10/20/25 11:26 AM	Ms Ida Priscilla Ivester	retired person	Quit trying to gerrymander our districts to take away votes from Democrats.
10/20/25 11:26 AM	Brenda Sinners		This is obviously a payment for the Senator to get a presidential endorsement which is abolutely a grab for power. What are the Rupublicans afraid of.....North Carolinians don't like their policies or the fact they cut Medicaid or they haven't passed a budget or, or, or. There's just so much that is disgustingly evil for the love of money and power. Look yourselves in the mirror and then check your integrity, Rublicans!
10/20/25 11:26 AM	Avery Knox		If the NC GOP continues to pursue these redistricting efforts, it will leave a lasting negative impression with enduring consequences. I will campaign against supporters and will never cast a vote in their favor. I'm ashamed that NC is even considering participating in this national gerrymandering scheme. At what point do we decide democracy actually is important? Reconsider.
10/20/25 11:27 AM	Mr Robert Curtis		I lived in NC since 1983, retired public school educator. While state budgets go unfulfilled, THIS is your priority? Teachers, state employees without raises--AGAIN!!! It's incompetent. But cutting services to the least of God's children is downright sinful. Now, if you can't just win an election outright, you have to rig it. Know--God's word--you will reap what you are sowing. Or, as Richard Petty would say, what goes around comes around.
10/20/25 11:27 AM	Kindra Rajaniemi		This state has more registered Democrats than Republicans. This illegal gerrymandering must stop.
10/20/25 11:27 AM	Mr Daniel Stipe		Stop gerrymandering. Just stop.
10/20/25 11:27 AM	Ms. Anne Mase Lucas	NC voter	NO gerrymandering! The voice of every NC voter will be heard. Efforts at tipping the scales will be met with resistance and will go down as one more reason to vote Blue. The best way to insure the viability of any political party is to offer constituents an honest, well-intended platform that is in THEIR best interests. I urge you to say NO to redistricting. Ultimately your jobs and your political legacy depend on your honesty and your commitment to the well-being of the people of NC.

10/20/25 11:27 AM	Lynsey Olson		I strongly object to the redistricting happening in my state. It robs voters of their agency and serves a party that only seeks to line their pockets while harming constituents. I am deeply ashamed of the actions of the North Carolina legislature. You are doing a disservice to the people that have chosen to put you here. You are supposed to be fighting for them, not rigging elections.
10/20/25 11:27 AM	Who do you represent? Angela Wright	Clergy	I urge you to resist the impulse to continue restricting North Carolina to a mass fast power for one political party. I pray that you remember that you are called to represent those with no voice and no Resources, the least of these.
10/20/25 11:27 AM	Andrew s Waggoner		Redistricting done by anyone other than an independent, bipartisan committee is simply partisan gerrymandering. It is inherently corrupt, as it favors the party in power, allowing it to consolidate that power by disenfranchising its opponents. Moreover, in the current toxic political environment it enables and quickens the country's rapid slide into authoritarianism, having been mandated by the president in a mendacious attempt to fend off Democratic gains in this and next year's midterm elections. The very word "gerrymandering" speaks to the slippery nature of this exercise in might making right: the electoral districts created by Elbridge Gerry were so misshapen, flouting any meaningful relationship to geography or civic community, that they looked like salamanders. North Carolina is already a laughing stock nationwide for its hallucinatory approach to creating majority Republican districts; now is a terrible time to make things worse. NO MORE GERRYMANDERING!
10/20/25 11:28 AM	Ms Lois Roewade		I am against any attempt at redistricting at this time. This is a blatant attempt to deny voters the right to equal and fair representation. Your job is to work for the people of NC, not to enact Trump's illegal actions. 78% of Republicans do not approve of gerrymandering. Stop working against your own instituents! Lois Roewade 3835. Lakeview Dr Pfafftown NC
10/20/25 11:29 AM	Ms Gail Till		Please do better to preserve democracy in our state. Extreme partisan Gerrymanders are crumbling the foundation of what we hold dear. Your efforts to bring down public discourse will live in infamy. Don‚Äôt do it.
10/20/25 11:29 AM	No to Redistricting Charu Kumarhia		I am against republican efforts to bend the knee to this corrupt and incompetent president. We are already so gerrymandered that my congressional rep can‚Äôt keep up with the issues of constituents. We are so far from the common sense middle right now - right the current maps to reflect geographical boundaries better. If you have to cheat to win it doesn‚Äôt count.
10/20/25 11:29 AM	Mrs Patricia Anderson		Hello, I am writing today to urge you in the most emphatic terms to vote no on the proposed redistricting plan for our state. Redrawing congressional districts specifically to ensure that only one party ever has a chance of winning any given election is unequivocally wrong. Gerrymandering is just plain wrong. Do not stoop to that level. As your constituent, I ask you to vote no. Pat Anderson
10/20/25 11:29 AM	Jill Stevens		Stop trying to rig the system in Republican favor and ignoring the will of the people! If you have to try and redraw the maps to stay "in power," then you realize you are working against the people and not for the people. You are PUBLIC SERVANTS. Act like it. Do your jobs of passing a budget first instead of gerrymandering. You work for the people of NC and not a wanna-be dictator sitting in Oval Office.
10/20/25 11:29 AM	MS Lola La Fey	Move On	Vote No on Redistricting! The people want Helene Recovery Funds, Families getting to stay together, Due Process, money for America, not 40 billion for Argentina, getting to see a doctor when we are sick. There is no reasonable argument against any of this! Only cheating!
10/20/25 11:29 AM	Natalya Buckel		My family has been in NC since before the Revolutionary War. I love this state deeply but this most recent attempt to further gerrymander our already heavily gerrymandered state has got to stop. It takes the voices of North Carolinians away and is yet another blatant power grab. NC representatives should reflect the beautiful diversity of the state, not heavy handed manipulation of districts to favor the party currently leading the white house. It‚Äôs shameful and we will not accept it!
10/20/25 11:30 AM	Gennea Scott		I do not support redrawing districts to influence political gain or demand by political leaders. The federal government should not dictate how the State should govern electoral votes or representation in elections. Our current administration campaigned on separation of Federal and State Government powers. States have the duty to represent their citizens not who sits in the oval office for political maneuvers and gain.
10/20/25 11:30 AM	Caroline Banka		This is an unfair move to ensure that another Republican gets a seat in Congress. A blatant disregard for fairness and fealty to Trump, rather than the people of NC. This is another form of voter suppression that the Republican Party has shamelessly perfected. Shame on you!!
10/20/25 11:30 AM	Zandra Watson		Do not redistrict the state of north carolina.
10/20/25 11:30 AM	Jessie Floyd	Central Regional Hospital	Redistricting to silence the voices of anyone who is not Republican in North Carolina is Un-American. Independent voters such as myself and other non-Republican voters are not happy with this. North Carolinians do not want representatives who just follow orders of the president, we want people who represent our best interests. We will remember this.

10/20/25 11:30 AM	Mrs Cheryl Kelling		I am writing to urge you NOT to redistrict our state even more than it has already been done. The idea of one person one vote has already been shredded for the most part; please do not hit the final nail in the coffin. Have you NO sense of decency and integrity? Furthermore, restricting public comments only makes any actions you may choose to take even more outlandish. The obvious reason for restricting public comments is because you know the public does not approve.
10/20/25 11:31 AM	Billie WinnerDavis		Gerrymandering violates core principles of fairness, accountability, and limited government. It's cheating! Stop!
10/20/25 11:31 AM	Laura Allendorf		I am appalled by the recent efforts of the Republican-dominated legislature to once again attempt to gerrymander congressional seats in their favor. I strongly oppose this action and call for it to be defeated.
10/20/25 11:31 AM	Tammy Brock		I oppose this middle of the decade proposed district plan. Voting is the right of every citizen and gerrymandering the districts to allow Republicans to continue to have power over Congress just because you are able to snake around to get the votes you need is in my opinion immoral and unethical. We need to keep NC strong and that means we need to look at our issues and any pending problems from more than one perspective which can,Äôt be done if our state is not fairly represented.
10/20/25 11:31 AM	Caroline Jenkins		Doing all you can to steal votes because you are so afraid of losing? This is a total abuse of power. It,Äôs shameful, anti-democracy and pathetic of you. You continue to lower the bar. Your party is unrecognizable. Your loyalty should be to the constitution not to the personal goals of one man. If you go through with it, people will remember what you did.
10/20/25 11:31 AM	Ms Theresa Jones		I,Äôm against redrawing our congressional maps. Do not redistrict North Carolina
10/20/25 11:32 AM	Patricia Beaman		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Gerrymandering violates core principles of fairness, accountability, and limited government. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. True conservative values demand transparency, integrity, and competition,Äivictory earned through ideas and persuasion, not through the manipulation of electoral maps. Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 11:33 AM	Mr. Christopher Hudson	Old Saratoga, Inc.	Messrs. Berger, Hall and other Honorable Members: You folks know basic fairness in district drawing. I know this because you have flouted it repeatedly, especially after court decisions unfavorable to your wildly partisan and racially-discriminatory districts over the years. Do the right thing and stand with people advocating for basic fairness (and a nonpartisan NC redistricting commission). This is a horrible way to misrepresent a non-representative democracy as one which is legitimate. You know drawing anothe Dem out of thgei rseat weill create a less-representative, more divided government of this state we all claim to love. Is that what you wish for your legacy? W/regards, Chris Hudson Old Saratoga, Inc. PO Box 33877 Charlotte, NC 28233-3877 (704)295-6407 " 975-5165 Mobile hudsonchr@gmail.com
10/20/25 11:33 AM	Mr. Keith Sykes		Stop the gerrymandering of NC voting districts.
10/20/25 11:33 AM	Mrs Rachel Wheaton	None	Please reject the 2025 proposed maps, which are an illegal attempt to racially gerrymander the NC Congressional districts. This is an attempt to seize power for a GOP led by a twice impeached, pathological liar, insurrectionist, and 34 count convicted felon, and it is unacceptable. VOTE NO.

10/20/25 11:33 AM	Tammy Nortz		Our state is a purple state, this suits our citizens very well as many of us are on both sides of the political spectrum. Shifting and geerymangering disctricts should not even be considered. It disallows us as citizens of this great state to not allow our voices to be heard. Please do not agree with this and let us continue how we are today. This is just nonsense for no reason we need to start coming together and be represented by ALL not just Conservatives and not just Liberals we need a balance and approving this doesn't allow us to continue to do so. Thank you, Tammy Nortz 123 Hollingswood Drive Statesville, NC 28625
10/20/25 11:33 AM	Mrs. Gina Miceli	Whistle Hop Brewing Company	The lack of transparency behind this redistricting is telling. The failure to inform NC Democrats the time of the vote is even more so. North Carolinians deserve to have their voices heard. NC Republicans need to grow a back bone and stop cow towing to a man who throws public tantrums every time he doesn,Äôt get his way. Be on the right side of history.
10/20/25 11:33 AM	Amanda Cox		I,Äôm a voter in North Carolina, and I,Äôm asking you to keep our district maps fair. Gerrymandering divides communities and makes people lose faith that their vote matters. Please put fairness and representation above politics ,Äî we all deserve maps that truly reflect our state, not lines drawn to protect power. Thank you for listening.
10/20/25 11:33 AM	Ret. Sgt USMC Chrystal Ontiveros		In republican ran states the people are never considered. The people of Democratic ran states are considered and even allowed to vote on propositions. I hope these comments are read and we are given a voice. In order to make this fair let's let the people decide and vote on this matter if its that important. None of you ran on redistricting and we did not vote for you on these issues. You all ran to budget and take care of our educators, Healthcare workers, students and citizens. I want to see the work that was promised to the people. I want us to be prepared for hurricane season, for winter storms that so often had caught NC of guard. I want you all to think of every service member that retires in NC. I want you all to think of the many individuals who have been working to make their community thrive despite the help of NC government. We are tired of reaching out to you and you never offering a hand.
10/20/25 11:34 AM	Mr Greg Hendley		A mid-decade congressional redistricting is unnecessary give the lack of new census data. It is also a waste of taxpayer resources. In this case, redistricting in response to a request from a party outside of the state subverts our state's duty to represent its own people. This is especially so given our state is almost split between parties and the purpose of the redistricting is to largely represent only half of the state.
10/20/25 11:35 AM	Mary Honeycutt	Retired	Supporting President Trump by giving away North Carolina answers right to fair elections is unworthy of you and the NC Republican Party. I STRONGLY OPPOSE REDISTRICTING!
10/20/25 11:35 AM	Debbie Grude		Districts in NC have already been gerrymandered to the extent that the citizens of NC are not being represented. Legislators are not listening to their constituents, they are following MAGA, which many of us do not support. We are not being represented. I strongly oppose further gerrymandering. Our state is already not following our democratic principles and certainly not according to how our government was formed by our constitution. We are supposed to be a representative democracy. We currently are not. STOP further gerrymandering and destruction of our democracy.
10/20/25 11:35 AM	Kristen Mirek		I am against the redistricting proposal . With widespread, non-partisan opposition to gerrymandering and emphasize that elections should reflect the will of voters, not the will of politicians, it is unconscionable to re-do our maps for partisan gain. A recent survey found that 84% of North Carolina voters say it,Äôs NEVER acceptable for politicians to draw districts to help their own party win more seats, no matter the circumstances. Heading into 2026, that opposition holds across party lines, including 78% of Republicans, 87% of Democrats and 85% of unaffiliated voters. Do your jobs and listen to your constituents. You are there to represent them, not the President.
10/20/25 11:35 AM	George Sidman		I am opposed to redistricting.
10/20/25 11:35 AM	Gillian Albinski		Please vote against redistricting and disenfranchising voters!
10/20/25 11:35 AM	Katherine Crawford		I'm a citizen and voter from Brevard, NC (Transylvania County): an Independent who is embarrassed and ashamed that there's an attempt to redraw Congressional NC maps in order to give President Trump another seat. This is cheating, plain and simple. It's the work of authoritarianism, and it does not belong in North Carolina. STOP IT.
10/20/25 11:35 AM	Mary Mullis		NC is a purple state with 38% unaffiliates, 32% democrats, and 30% republicans (registered voters in 2024). Redistricting will steal the voices of over half of North Carolina citizens. Gerrymandering is wrong and undemocratic.
10/20/25 11:35 AM	Shelle Ball		I am opposed to the redistricting in NC (by any Party) for the purposes of gaining seats unfairly. Independents, Republicans and Democrats are all deserving of EQUAL representation. The proposed redistricting this year appears to be for the purposes blatant cheating.
10/20/25 11:35 AM	Carol Brooke		It is a disgrace to redistrict solely for partisan political purposes.

10/20/25 11:36 AM	Rebecca Fleischer		I am strongly opposed to redrawing the ALREADY GERRYMANDERED maps, hoping to give the GOP one more U.S. House Seat in 2026. This cynical move is an example of partisan politics at their absolute worst, rigging an election and disenfranchising voters. Instead, North Carolina should have non-partisan, independently drawn maps to ensure that representatives truly reflect the will of the citizens of North Carolina. This partisan gerrymandering only proves that the NC GOP knows it cannot win the desired number of seats in a free and fair election based on ideas and policy.
10/20/25 11:36 AM	Sue Throwe		WHAT AN ABSOLUTE DISGRACE! Republican legislators - you can't win without cheating! You do not represent the majority of us! You are just Trump's corrupt, mindless, spineless, puppets. STOP SUPPRESSING VOTES and DISENFRANCHISING North Carolinians! You're supposed to PROTECT US, help make our lives BETTER but you only want to HURT us! Why is power, financial enrichment and HATE, more important to you than people's lives amd wellbeing? Most of you claim to be of Christian faith! NOTHING CHRISTIAN ABOUT any of this. Those of you trying to push this through should never be allowed to serve in government again! We the Peope are FED UP with Trump and the NC Republican Legislators abusing power every chance they get. WE WILL NOT FORGET! Recorded History won't either.
10/20/25 11:36 AM	Shelley Armour		Please vote AGAINST redistricting NC. This is not a census year, therefore redistricting is not required. This is a blatant attempt to use NC as a political pawn with the federal administration because so many of their policies are unpopular (including ones that will cause tens of thousands of North Carolinians to lose health insurance and food). I pose this question to you- if a Democratic, Libertarian or Independent President requested states to do this to benefit their party would you allow it or would you fight? Please remember- you answer to us, NC citizens, not President Trump.
10/20/25 11:36 AM	Ms Jamie Powell		May I respectfully suggest that the NC legislators work to pass the budget as first priority and consider the needs of NC children who need Medicaid rather than focusing on gerrymandering our voting districts. When there is no opposing candidate due to gerrymandering, such as the case in Guilford and other counties, there is no choice and our right to vote is stolen away from us. You cannot call this democracy.
10/20/25 11:36 AM	Hailey Richburg		There is no legal or ethical reason to redistrict other than party greed. As a resident of North Carolina, I encourage you as our elected officials to prioritize making the lives of North Carolinians better through actionable policy instead of spending time staking claim for one party or another. This is a waste of our dollars, our time, and our resources.
10/20/25 11:36 AM	Y Watson		Reconstructing for political purposes is wrong. Representatives should represent the people not the party.
10/20/25 11:37 AM	Lynda Riddle		Stop the gerrymandering!
10/20/25 11:37 AM	Jeanne Bohrer	Individual	The current redistricting does not allow the people of North Carolina to freely choose the candidate that they feel would best serve our state. STOP PARTISAN GERRYMANDERING.
10/20/25 11:37 AM	Redistricting Jon Julien		Redistricting in favor of any party is completely un-American. We need fare and balanced elections. Not gerrymandering. If you support this I will not vote or support any of you.
10/20/25 11:37 AM	Mrs Bonnie Westbrook		I am vehemently opposed to any further gerrymandering , restricting, or stripping power away from positions that are elected. I,Âôm an independent voter and a former registered Republican for several decades, but I think the Republican Party has become a disgrace to our democracy. Cheating is NOT ethical and is harming our great nation. Those playing these cynical games with our democracy should be ashamed.
10/20/25 11:37 AM	Tara mattia		Stop gerrymandering our state. This is a disgusting partisan redistricting and ower grab.
10/20/25 11:37 AM	Mari Trosclair		This redistricting is wrong, unAmerican and beneath the real Republican party. Cheating to win diminishes our country and shows poorly on Republicans. You may be surprised how many Republicans are against this. It could backfire. Your jobs may be in jeopardy.
10/20/25 11:37 AM	noel thurner		Mid-cycle partisan gerrymandering has severe consequences: ,Ä¢ It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ,Ä¢ It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ,Ä¢ It weakens democracy. When maps are drawn to entrench one party's power, voters lose confidence in the fairness of the system ,Äî and many stop believing their vote matters at all. The League of Women Voters of North Carolina stands firmly opposed to these manipulative tactics. We will continue to advocate for independent, transparent redistricting processes that protect the voice of every voter ,Äî regardless of their political affiliation.
10/20/25 11:37 AM	Mr James Munroe		Congratulations. You are officially joining the race to the bottom!
10/20/25 11:37 AM	Emmily Wilson		We do not need redistricting. This is purely a political ploy to prevent people from voting!

10/20/25 11:37 AM	Mrs Anne Renihan		Please take care of hardworking North Carolinians instead of pandering to trump. Folks are struggling with housing, daycare, groceries, and healthcare costs. Or should we assume you just don't care?
10/20/25 11:38 AM	Mr. Jeremy Chundrlek	Private citizen	Gerrymandering is tilting the table, and tilting the table is cheating. Stop ?? cheating and let the people decide.
10/20/25 11:38 AM	Elizabeth Hiatt		I disagree with the new congressional redistricting plan. This is not the voice of the people. I demand our voices be heard and we be represented by those we have elected for office instead of the office cheating so our voices are silenced.
10/20/25 11:38 AM	Anna Smith		I,Äôm opposed to this.
10/20/25 11:38 AM	Jonathan Priest		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinian's power to elect candidates of their choice.
10/20/25 11:38 AM	Sharon Lowe		Rather than worshipping a person who wants to be a Fascist dictator, maybe y,ÄôÄôall should consider that our nation was established to give the People a choice. Redistricting just to appease Trump is a disservice to everyone person who resides in North Carolina but especially those who live in the areas being changed. No matter what you think, this change is wrong and it will come back to haunt you. You have no rational basis for making this change and it will be the subject of lawsuits. Rather than bowing to Trump,Äôs demands, do your job and focus on the issues that matter to State residents. We don,Äôt want our tax dollars going to the rich or being wasted on frivolous endeavors such as this one. We want our tax dollars going to better our schools, provide affordable health care for all, improve our infrastructure, and deal with the myriad of problems Helene caused. None of you have earned the trust we should have in our elected officials and none of you deserve to be reelected. NC has a diverse population and you are ignoring most of your constituents to appease those with money to buy you.
10/20/25 11:38 AM	Christopher Ward		The North Carolina Legislature can no longer be trusted to do redistricting, as it clear as day they are gerrymandering to give their party a better chance to win. While it is not illegal to gerrymander by political party, which it should be illegal, they run awful of the Voting Rights Act because of overwhelming number of Black Americans are Democrats, in the state of North Carolina and across the USA. By gerrymander by political party, they are really gerrymandering by race because of their party being unable to increase the number of Black American voters to join their party (in party. The GOP is to blame for the lack of Black American members because of their own policies: Remove Federal Troops from the South, which brought about the Jim Crow Laws and their party leadership not back the landmark Civil Rights laws of the 1960s.
10/20/25 11:38 AM	Gerrymandering Patricia Brewer		Please stop
10/20/25 11:39 AM	Mary Dunn		No to redistricting! Unfair and unconstitutional!
10/20/25 11:39 AM	Jamie Jones		Why do you need to cheat to win elections?
10/20/25 11:39 AM	Mr Charles Tyndall	citizen, voter, taxpayer	It is not time to redraw electorial districts as it has not been ten years. I completely oppose proposed redisticting as it doesn't benefit the citizens of North Carolina. This proposal will surely spark lawsuits over the legality. The North Carolina legislature needs to answer to the voters and citizens of our state and not the whim of the president.
10/20/25 11:39 AM	Karen Lloyd		I can't believe that I actually have to write this down. I do not want the maps gerrymandered yet again. And because they are gerrymandered the powers to be don't care because they rigged the vote so that what I think doesn't matter. If you can't win a fair vote you know you're doing something wrong.
10/20/25 11:39 AM	Kimberly Hoke		No to even more gerrymandering of NC. Don't NC legislators know how unpopular Trump is? To try this maneuver will only hurt their own political prospects in NC.
10/20/25 11:39 AM	Dr Laurie Stradley		Please keep NC politics local! Let North Carolinians follow the process rather than engaging in a political arms race. If we,Äôre going to do mid-decade redistricting, let,Äôs make our districts more representative of our population, not less.
10/20/25 11:39 AM	marilyn kaylor		Did you see how many people you represent turned out to have their voices heard at the No Kings Day events all over NC? Please do not continue the gerrymandering of the districts at Trump's orders. Please help keep this democracy a living, breathing republic that gives every person of every skin color and religion a chance to have their voice heard in a fair way. I find it offensive that this committee actually wants to bring the General Assembly back on Tuesday to have NC congressional maps redrawn to give Donald Trump another Republican in Congress.
10/20/25 11:40 AM	Lynn Melton		Instead of making people,Äôs votes mean nothing here in NC, we,Äôd like you to actually do your job- maybe work on the state budget that was due before Oct 1. Let,Äôs give our teachers and public servants a raise. Stop stealing the vote and letting the dictator in chief tell you how to run the state of NC. Listen to your constituents. Did you see the protests this past weekend?

10/20/25 11:40 AM	Daria Harvey		North Carolina should not proceed with another round of redistricting because repeated changes undermine public trust, voter engagement, and community representation. Every time you redraws maps, voters are forced to relearn new districts, candidates, and boundaries,Äîcreating confusion and discouraging participation. Is this actually your goal? Constant redistricting erodes our faith in the fairness of elections. The state,Äôs current districts have already been scrutinized and adjusted through years of lawsuits. North Carolina needs consistent, predictable districts that allow communities to build long-term relationships with their elected officials and advocate effectively for local needs. Frequent redistricting wastes taxpayer money and legislative time that could be better spent addressing pressing issues such as education, healthcare, and infrastructure. Instead of another divisive redistricting battle, the state should prioritize fair governance, electoral stability, and restoring public confidence in democracy.
10/20/25 11:40 AM	Joyce Sexton	NA	I am adamantly opposed to redrawing the NC congressional maps just to give Trump another Republican in Congress.
10/20/25 11:40 AM	Dr. Kathleen Malley		Dear lawmakers, I am extremely disturbed by the plans for the latest redistricting efforts by this body. Voters deserve to vote in maps where their voices are heard and there is ample opportunity for folks from all parties to win. Not to win because the maps have been drawn in a certain way but win because the voters support the candidate and what they stand for. Just because one party or another wins a national election does not mean that voters want that same party to win every other elected position. Our state is an excellent example of this as we often have voted for presidents, governors, and senators of varying political parties. To move forward with this redistricting effort will prevent our amazing, diverse NC voices from being heard. I urge you to vote against this redistricting effort.
10/20/25 11:40 AM	Mr John White	Self	The vast majority of North Carolina voters HATE gerrymandering. We need NO packing and cracking. Jonathan Mattingly, a mathematician at Duke University, is one of the pioneers of the quantitative analysis of the fairness of electoral maps. Common Cause vs Rucho clearly showed the impacts of gerrymandering--politicians choosing their voters. I beg you to stop partisan gerrymandering and work for democracy. Partisan gerrymandering is BAD! STOP WORKING AGAINST DEMOCRACY AND THE PEOPLE OF NORTH CAROLINA!
10/20/25 11:40 AM	Guilford County Represent Vinaya Kelkar		I was very disappointed to note that Guilford County, one of the largest in NC does not have Representation in Congress! Can this be fixed? So we in Guilford County have a Say!!! Thank you!
10/20/25 11:41 AM	MNs. Judith Bergman	Eno /river UU Fellowship	The voters should be electing their representatives not the reps choosing their voters! Partisan gerrymandering is an immoral scheme to allow one party to pick their voters to stay in power. This also skews the Electoral College representation putting population counts over participation. Minority rule of a largely white, largely elite, largely male group has been an effort that started after Bacon's Rebellion burned down Jamestown. several hundred years ago. I am an 86 year old retired speech pathologist. We are not stupid. North Carolina does not have a state government that is really by the people, for the people and of the people although we are making progress. We are watching. History is watching.
10/20/25 11:41 AM	Sara Crahan		Do not redistrict. North Carolina deserves fair representation.
10/20/25 11:42 AM	Mr& Mrs Dennis Burns	Citizens	Eliminating fair representation via mid decade gerrymandering goes against our Founding Principles, citizen opinion(recent poll showed 84% of NC voters object to partisan gerrymandering) and the real NC constitution. Do not pass the new rigged maps! BTW, as a Wake County resident, we only have one full time Congresswoman and two Part-time Congress Reps because of gerrymandering.
10/20/25 11:42 AM	Jennifer Howerth		I am AGAINST any further redistricting, as I am a registered democrat and already feel woefully represented by my current officials. In a state that votes roughly 50% to each party, these gerrymandered districts are already ridiculous. I believe there may be taxation without representation claims as it is.
10/20/25 11:42 AM	Mr Gaines Whitley		I'm opposed to this redistricting of our state. The purpose of redistricting should be to provide fair representation across the state. This redistricting was requested for the benefit of the current administration to further consolidate power and eliminate any hope for true checks and balances to the executive branch. North Carolina deserves better than this. Thank you.

10/20/25 11:42 AM	Mary Kopac	PRIVATE CITIZEN AND VOTER	HOW DARE YOU! HOW WOULD YOU FEEL IF YOUR RIGHT TO CHOOSE YOUR REPRESENTATIVE WAS TAKEN FROM YOU? YOU ARE ATTEMPTING TO MAKE IT EVEN WORSE FOR NC VOTERS TODAY. "OPERATION RED MAP" HAS ALREADY BEEN EXPOSED BY THE DAUGHTER OF ITS ARCHITECT. YOU ARE VIOLATING YOUR OATH OF OFFICE, AND YOU KNOW IT. HOW DOES IT FEEL TO KNOW THAT? YOUR ANCESTORS MUST BE SPINNING IN THEIR GRAVES. DO THE RIGHT THING AND AT THE VERY LEAST LEAVE THIS ALREADY GERRYMANDERED MAP ALONE! -MARY KOPAC
10/20/25 11:42 AM	Dr. Carson Hart		I strongly oppose the newly proposed redistricting maps in North Carolina. These maps represent clear partisan gerrymandering, undermining the fundamental principles of fair representation. Every resident of North Carolina deserves to have their voice heard and their vote count equally, regardless of political affiliation or geographic location. This kind of map manipulation silences communities and weakens the integrity of our democracy. Redistricting should be conducted transparently and fairly, with the goal of ensuring equal representation, not political advantage. Gerrymandering has no place in a healthy, functioning democracy and should be deemed illegal.
10/20/25 11:42 AM	Drew Parker		I have noticed the recent proposal of congressional redistricting, and I disagree with the fact that is created exclusively by elected representatives. The real decision is by the people and not elected officials. The people provide the votes for redistricting and elected officials must respect their decision. That is how democracy works.
10/20/25 11:43 AM	Mr. Donald Kraus		Thank you for soliciting comments on the proposal to draw new congressional districts in North Carolina this year. As a independent voter, I am opposed to this type of blatant power grab by any political party. While redistricting after each census is essential for fair representation, doing so more frequently has significant downsides. It undermines stability, increases the risk of gerrymandering, confuses voters, places administrative burdens on election officials, and disrupts community representation. For these reasons, limiting redistricting to once every ten years after the census is widely considered best practice for maintaining the integrity and fairness of the electoral system. Additionally, each round of redistricting requires significant administrative effort and financial resources. Election officials must update voter rolls, educate the public about boundary changes, and adapt election logistics. Frequent changes increase these costs and strain government resources, diverting attention from other important public services. This is an unwise use of my tax dollars. Frequent changes to district boundaries can create instability for both voters and elected officials. Constituents may find themselves repeatedly shifted into new districts, which can disrupt the relationship between representatives and the communities they serve. This instability makes it difficult for voters to understand who represents them and for representatives to address the long-term needs of their districts. And, doing so undermines the principle of fair representation and potentially skews the outcomes of future elections. Frequent redistricting can lead to voter confusion. When district boundaries change often, voters may be unsure about where to vote, which candidates they can vote for, or even whether they remain eligible to vote in their previous district. This confusion can reduce voter turnout and engagement, effectively disenfranchising portions of the electorate. For all the reasons I respectfully ask for the House Select Committee on Redistricting and Senate Elections Committee to trash this proposal and to not bend to the pressure of those in Washington DC who would undermine our democracy.
10/20/25 11:43 AM	Burton Kennedy	n/a	I think it is very wrong to again change the voting districts, especially outside the standard 10 year census cycle. The short time we had seven Democrats and seven Republicans representing NC in Washington was actually a fair delegation. By all measurements, NC is a 50/50 purple state. The Gerrymandering by the legislature should be against the law; but I realize it is OK as long as you claim not to use racial lines. Regretfully, even that little safe-guard may soon fall away. While I live in the middle of the state (Greensboro), not close to the newly drawn district, I still find it wrong. (I do spend a lot of time and pay property taxes in Pamlico County, but don't vote there.) I am still regretting that Greensboro, the state's third largest city was split into three districts that do not express the choice of the majority of our voters. In fact, it was deliberately done to cause Guilford County votes to basically not count. It is the traditional complaint of the elected officials choosing the voters instead of allowing the citizens to choose their representatives. Shameful!
10/20/25 11:44 AM	Dr Leda Van Doren	University of North Carolina at Chapel Hill	As a NC citizen and constituent, I am strongly against the new proposed redistricting map. This new proposed map is drawn only for political gain, and does not represent the will of the voters in North Carolina. Elected officials should win elections by convincing the majority of their electors that their ideas are in the interest of the state and of the country, and should not get to pick their electors to rig the gain. This is a step towards authoritarianism, and goes against the principles outlined in the Declaration of Independence stating that our government should be for the people by the people.

10/20/25 11:45 AM	Honey Minkowitz		I vehemently oppose the efforts to redistrict. This is a blatantly undemocratic effort to seize power and cheat by disenfranchising thousands of North Carolinians. GOP operatives have publicly admitted to only engaging in this effort to cement MAGA control because the president has asked them to do it. The GA should be working on issues that are important to the people of North Carolina. We want fair maps and fair elections and elected officials that recognize they work for the people.
10/20/25 11:45 AM	Mrs Leslie Griffin	None	Gerrymandering violates core principles of fairness, accountability, and limited. Please help structure FAIR elections, where voters select their political leaders and not the other way around.
10/20/25 11:46 AM	Ashlie Adams		I am writing today to urge you in the most emphatic terms to vote no on the proposed redistricting plan for our state. Redrawing congressional districts specifically to ensure that only one party ever has a chance of winning any given election is unequivocally wrong. Gerrymandering is just plain wrong. Do not stoop to that level. As your constituent, I ask you to vote no.
10/20/25 11:46 AM	Mr SIMON KING		The proposed changes create disparity. While governor elections in NC are close indicating a split population regarding voting preference, by redistricting we permanently give one party an unbalanced advantage. This is 100% in UnAmerican and against the intent of the founding fathers
10/20/25 11:47 AM	Linda Bottoms		Gerrymandering the district will not only illutrate the Republicans fear of losing power, but also their willingness to do anything to maintain that power. It makes the party look inept and serves only as a mask for the poor quality of leadership.
10/20/25 11:47 AM	Partisan Gerrymandering Michael Ellis		Using partisan gerrymandering to steal seats and turn an evenly divided electorate into a Republican rubber stamp is morally bankrupt. CREATE FAIR MAPS.
10/20/25 11:47 AM	Do Not Redraw Districts! Ellen Moyer		This is ridiculous and a blatant abuse of power. Please do not Redraw the districts. We are a democracy, not a dictatorship.
10/20/25 11:47 AM	ms Robin Samuels		This blatant attempt to rig elections to guarantee results in favor of one party (which only 31% of registered voters align themselves with, in a state that is nearly evenly divided politically) is un-American and offensive. If you can't win your elections without cheating - which is what this is - what does that say about the policies, principles, and platforms you are running on? Did you go into politics to represent the people of North Carolina, or to feed your egos and line your pockets? Democracy at its core says that political power comes from the people, and we CHOOSE our elected officials. This new map takes choice away from the people of North Carolina and we vehemently oppose it.
10/20/25 11:48 AM	Kirk Pappan		Out-of-cycle redistricting is a terrible partisan plan. The election maps in North Carolina already carry a strong gerrymander, and introducing further partisan bias into the maps will rightfully bring shame and scorn on our State and all involved in the process. Therefore, the simple remedy is: DON'T DO IT!
10/20/25 11:48 AM	Michelle Sandridge		I strongly oppose any efforts to further gerrymander the districts in NC. It is a disgrace that Republicans have succeeded in creating districts that allowed only 1/3 of the Congressional seats to go to Democrats last year even though Democrats received half of the votes in the state. We should have fair maps that reflect the will of the people, not the will of politicians or political parties.
10/20/25 11:48 AM	Mateo Collado		Blatant gerrymandering is extremely undemocratic
10/20/25 11:48 AM	Laura Coppola		This is bullshit and you know it. Cheating isn,Äôt what you were elected to do.
10/20/25 11:49 AM	Mr Henry Scheller	Citizen	The NC Legislature has already reduced representation through failure to follow court mandates. Redistricting again, outside of the 10 year cycle, will reduce our voices even further. NO to redistricting.
10/20/25 11:49 AM	Alicia Kelley		You were elected by the people for the people and your cheating with gerrymandering is a disgrace. You are no longer representing half the people of NC with your illegal gerrymandering. I guess you believe Republicans can't win if they don't cheat. And you're all cheaters.
10/20/25 11:49 AM	John Kepford		Redistricting is just a fancy name for gerrymandering. I live in district 13, which has been completely gerrymandered. This is nothing more than candidates electing voters not voters electing candidates. I believe it is unjust, immoral, and corrupt. I realize both political parties engage in gerrymandering, and I believe redistricting should only apply every 10 years based on population changes. I believe there should be open primaries and no gerrymandering. I am not going to comment further on my thoughts about the reason for your wanting to redistrict North Carolina now. I need to show self restraint concerning my opinion and feelings about the North Carolina General assembly and the Trump administration.
10/20/25 11:49 AM	Ms Pam McNeil		LEAVE THE DISTRICTS ALONE! They are already gerrymandered, there is absolutely no need gift another PARTISSN restructuring of the districts!!
10/20/25 11:49 AM	Say No to Redistricting Melissa Mericle		The map area is a historically Democratic area for more than a century. It is a diverse area that has historically elected Black representatives for 30 years straight. It is racially irresponsible to redistribute this area because Trump has demanded it. The job of the NC Congress is to represent all NC citizens, not just the GOP that aligns with Trump. Look at the history of the area and do not redistrict. I am a NC citizen and voter from Rockingham N.C.
10/20/25 11:49 AM	Kelli Carmody		I am opposed to redistricting. Please work on the actual issues that need to be addressed in our state, like the budget. What a gross waste of taxpayer time and money. You work for the residents of the state of North Carolina, not the felon and his merry band of idiots in the White House. How sad that the Republicans are continuing to silence the wishes and voices of the voters.

10/20/25 11:49 AM	Dr Denis Robitaille		Rather than present their political platform to the public before an election, North Carolina Republicans are rigging the electoral process to insure a greater likelihood of victory. Try rigging gambling rules in favor of the house and you will have scandal that will enrage gamblers and close the casino. We know you are cheating. You have no sense of fair play. Shame on all of you. Your principles are those of he KKK.
10/20/25 11:50 AM	Tamekia Brandon		When is the Senate back in session? This is supposed to be public knowledge. Voting is designed to.be fair - make sure it is fair. What is the purpose of redistricting? This also needs to be fair and not favor one party over another.
10/20/25 11:50 AM	Jennifer O'Neill		Redistricting to carve out a district that specifically benefits one party - the party that currently holds power in the NCLEG - is dirty politics and is absolutely unacceptable. It seems that many of you have forgotten that you're elected to serve ALL North Carolinians and not just the people who ideologically fall into lock step behind you. This state has been told repeatedly that the gerrymandering is unconstitutional and not only have you done nothing to remedy the issue, you're actually attempting to exacerbate it. Behave like adults and do the correct thing for ALL North Carolinians. Stop this blatant power grab and get to work.
10/20/25 11:50 AM	Aviva Tulasi		I am opposed to redistricting. This district plan goals appears to be strictly political. The result is to eliminate a Democratic held seat rather than making the congressional map more representative of the population.
10/20/25 11:50 AM	Ms Sharon Broussard	Public School Strong NC	The greed of the Republicans who hold the majority in both the NC Senate and House is unbelievable. They have, over approximately 10 years, destroyed North Carolina's position as a leader in providing public education, and choose, instead, to fund primarily religious private schools through vouchers while dramatically cutting taxes for corporations. North Carolina does not need to be redistricted mid census to enhance this power.
10/20/25 11:50 AM	Lynn Dransoff		I strongly object to your plan to spend time in Congress on this effort to draw a new federal legislative map. There is no need to do this as it was just done 2 years ago. You may not be satisfied with the current map, but this attempt to further gerrymander our legislative districts is just a blatant power grab. The Assembly has not done its job and authorized a state budget for next year yet, and should not spend time on this unnecessary redistricting plan.
10/20/25 11:51 AM	Jessica Gaydos		New districting to Cherry pick voters is wrong. Politicians of either party should be committed to fair maps/districting. Your job as politicians is to prove your work is worthy, you are elected to serve your constituents, and abide by what the voters want. We want fair maps and representation that actually represents the will of the people, not greedy power grabs. Why are the Republican congresspeople and senators focusing on drawing new maps to rig politics, when they haven't even done their duty of passing our state's budget. Say no to redistricting
10/20/25 11:51 AM	Dr Kelly Burich		I am writing to strongly oppose this initiative. The priorities of this state and country are more pressing than rezoning maps. This exercise is nothing more than padding the field in my opinion. You were elected to improve our state and country. This does nothing to support your oaths, your commitment to the people of this state and is a colossal waste of time. As a voting citizen, I ask you to not pursue this ridiculousness and do the job we elected you to do.
10/20/25 11:51 AM	Gabrielle Olexa		North Carolina,Äôs districts should reflect the actual makeup of our voters, not political manipulation. With nearly equal numbers of Democrats, Republicans, and unaffiliated voters, fair representation should be the goal. Extreme redistricting undermines trust in our elections and silences millions of voices. A transparent, nonpartisan redistricting process is the only way to ensure that every North Carolinian is represented fairly.
10/20/25 11:51 AM	Mrs Carol Diehl		I ask that you refrain from mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode any North Carolinians,Äô power to elect candidates of their choice. Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. 76% of North Carolina voters say it should be illegal for gerrymandering to be used to discriminate against voters based on their political party. There is also strong, bipartisan agreement on this point among voters, with 66% of Republicans, 79% of Democrats, and 82% of Unaffiliated voters saying the type of partisan gerrymandering being considered by Senate leadership should be against the law.
10/20/25 11:51 AM	Courtney Rousseau		As an unaffiliated registered voter, I strongly oppose this redistricting plan put forth by Republicans. They aren't even denying why they are doing it, which is (as they say) to promote Trump's agenda in Congress. Hey legislature: your job is to represent WE THE PEOPLE, the NC citizens. If you really think this is what the PEOPLE want, then put it up for a statewide vote next month before you try to ram it through the legislature. I have one suggestion first, and that is to PASS A BUDGET which you have failed to do so far! That is a LOT more important than an attempted gerrymander of our districts!
10/20/25 11:52 AM	Ms Jeanne Cannarozzi		I, along with my neighbors in Mooresville, demand fair elections maps for all our eligible voters and do NOT want rigged maps that favor MAGA corruption. All districts need to provide fair access to all those eligible under our constitutional to register to vote and to execute their right to vote. We demand NO RIGGED maps!!
10/20/25 11:52 AM	Patti English		I am not sure what can be done. I do believe in other states they are suing this project.
10/20/25 11:53 AM	Tracy Hayes		I am 1000% against this. Stop this OBVIOUSLY racist redistricting designed to silence citizens voices! The people will remember your votes come election time!

10/20/25 11:53 AM	Suzanne Kreml		My favorite part of the Declaration of Independence is the last sentence: ‚Äú And for the support of this Declaration, with a firm Reliance on the Protection of divine Providence, we mutually pledge to each other our Lives, our Fortunes, and our sacred Honor.‚Äù TO EACH OTHER! Fealty to trump is futile. His smallness corrupts everything and everyone around him, if they allow it. Why not just be a better person instead of goose-stepping behind a failure of a human being? If you can,Äôt win fairly, get out of the game.
10/20/25 11:53 AM	Eliza Salmon	None	Every vote should count. Stop distorting the power of a single vote. This is not a democracy. Do you want to get elected fairly? To know the people really wanted you in office? Just because a majority exists doesn't mean squash any voice of the minority. How would you feel about this if you were in the minority? END GERRYMANDERING! VOTE AGAINST FURTHER GERRYMANDERING THE MAPS!
10/20/25 11:53 AM	Glenda Blaisdell-Buck	Private Citizen	Please refrain from gerrymandering new voting districts. It's time to represent all North Carolina citizens with fairly drawn districts and equitable access to representation.
10/20/25 11:53 AM	Jamaya Johnson		America was once a beacon of justice and liberty for all. Gerrymandering to exclude Democratic voters directly contradicts these principles. It is shameful that instead of listening to the people who elected you, you are engaging in underhanded deals with a president who respects no one but himself. The fact that you are preparing to gerrymander to favor more Republican representation reveals your sheer fear. You know that amplifying Democratic voices will expose your true nature as frauds. If you weren,Äôt terrified of your poor performance as representatives, you wouldn,Äôt need to cheat to retain power. As a voter and constituent, STOP this misconduct. Pass a fair and just budget. Protect women's right to choose. Support representatives who serve the people honestly, rather than those who cheat and manipulate their way into power.
10/20/25 11:53 AM	Elizabeth Boltz		I am resident of Rowan County. I am joining others across the state in expressing my view that this move to employ mid-term gerrymandering does not come from the majority of the people in NC. Constituents would prefer to see the legislature working to create a budget and legislation that helps the people of NC. Please fund the rebase! ‚Äú For the sake of NC voters, our maps, our votes, and our collective democracy, we hope you consider our urging as sincerely as we offer it and stop this new gerrymandering push.
10/20/25 11:53 AM	Joan Mazzu		I‚Äôm a North Carolina resident, and gerrymandering rigs our democracy. You‚Äôre drawing lines to silence voices you don‚Äôt like, including mine. That‚Äôs not governing. That‚Äôs cheating. When you gerrymander, you‚Äôre declaring my vote doesn‚Äôt matter before I cast it. You‚Äôre making elections meaningless. Politicians pick their voters instead of the other way around. North Carolina is competitive,Äîour statewide races prove it. But you manipulate district lines to guarantee outcomes that don‚Äôt reflect how we actually vote. You‚Äôre manufacturing power you didn‚Äôt earn. Draw fair districts. Let voters decide elections. Stop rigging the game because you‚Äôre afraid of losing in a fair fight. My vote isn‚Äôt yours to neutralize. Respect it.????????????????
10/20/25 11:53 AM	Ms Robin Deane	None - private citizen	I am STRONGLY opposed to mid cycle redistricting aimed at increasing ANY political party's representation. It is not democratic to purposely skew a political party's influence, especially when in response to a craven, stated and corrupt request from any government official, ESPECIALLY a sitting President. I sincerely hope that this redistricting will not take place. I believe when such actions occur to unfairly skew congressional districts, my vote is diminished. I take voting very seriously and vote every election I am eligible to vote. A political party should not be able to gerrymander to the point where nonmembers of that party are disenfranchised, which is what will happen if this occurs. I say NO, NO, NO to this proposed mid cycle redistricting.
10/20/25 11:53 AM	Sean Browne		I am a resident of Greensboro and have been registered to vote in North Carolina for nearly twenty years. I strongly oppose any attempts to redraw North Carolina's congressional district maps before the 2026 midterm election. Our legislature is reconvening solely for the purpose of pushing a blatantly partisan redistricting process that will deny North Carolina voters their right to proper representation. The citizens of North Carolina vote to select our representatives, not the other way around. Our state districts are already textbook examples of gerrymandering. I urge you to consider what is best for the people of North Carolina, and to protect our voting rights, not for some administrative agenda in DC.
10/20/25 11:53 AM	Sarah Godwin		Mid-cycle partisan gerrymandering has severe consequences: ‚Äú It silences voters. Communities are divided, and districts are drawn to ensure predetermined outcomes, thereby reducing competition and accountability. ‚Äú It destabilizes elections. Constantly changing district lines creates confusion, suppresses participation, and wastes taxpayer dollars. ‚Äú It weakens democracy. When maps are drawn to entrench one party‚Äôs power, voters lose confidence in the fairness of the system ‚Äî and many stop believing their vote matters at all.

10/20/25 11:54 AM	Please Get Over Yourself. Amber Glaze		In what world does this new map make sense? Certainly not the real one. If you think this is representative of NC,Äôs beliefs, especially now of all times, you need to either dig your head out of the sand or go straight to the neurologist. Either way, publicly let us know how correct you think the new map is so that you can be voted out appropriately. Shameful.
10/20/25 11:54 AM	Lydia Kaus		There is a moral obligation to establish an independent, nonpartisan redistricting commission in NC state. Rigging congressional maps is an assault on NC voters,Äô rights.
10/20/25 11:54 AM	Cynthia de Miranda		I support redrawing fair maps, not additional gerrymandering for political advantage. We had a fair map in the 2022 midterms, and I support restoring that map. Thank you for this handy form for presenting my comment on the matter.
10/20/25 11:55 AM	Mr Rick Bason	Citizen	I do not approve or support the redistricting.
10/20/25 11:55 AM	Stephen Blanton		I can see no way this meets the greater needs of our state's citizens. When a dubious presidential agenda ignores and supersedes the actual truth of North Carolina political demographics --- and the fairest possible representation of ALL its citizens, the process becomes corrupt. Those putting this process forward are acknowledging fealty to an increasingly demagogic president rather than to its own citizens.
10/20/25 11:55 AM	Rachel Martin		I do not approve of redistricting North Carolina to unfairly rig our elections so republican candidates are more likely to win. I want to vote in fair elections, & rigging our elections so republican candidates are more likely to win is the exact opposite of a fair election. Our districts should be even with how many are democratic & how many are republican, so our elections can actually be fair & the voices of North Carolinians can actually be accurately heard & adhered to.
10/20/25 11:55 AM	Mrs Edith Poole		We should NOT redistrict to give Trump another seat!! NC is already gerrymandered enough! Listen to your constituents and remember you work for us, the people of NC, NOT Trump
10/20/25 11:55 AM	Doug Toth		I am against the proposal to redistrict at this time.
10/20/25 11:55 AM	Legal Disenfranchisement Arthur Iannacone	Child of Fort Bragg Veteran	Dear Redistricting Committee, With utmost respect, I am deeply disappointed in the proposed Congressional redistricting plan and its associated map. This map seems to have been drawn with the express purpose of further disenfranchising voters in Democratic-leaning areas from having fair representation in the US House of representation. The map would successfully all but ensure another Republican is elected to represent the state in the House. Drawing maps with the stated purpose of changing the balance of power is a corrupt use of the incredible responsibility NC voters have given to the NC legislature. Maps should be drawn in order to accurately and proportionately represent the voting populace of a state. The complex political makeup of NC is what gives it its strength on a national stage, and this map only further muddies the truth of the constituents' political values. I have lived in NC all my life. My grandparents chose to move here in the early 90s, after life in Connecticut proved to be too harsh. They loved North Carolina, and they thrived under the cooperative political balance of those earlier, fairer, more representative maps. It's just heartbreaking, to have grown up in this state, in Fayetteville, and see all the sacrifices of my high school peers, many who died in services of wars against in Iraq and Afghanistan, be further devalued by undemocratic actions of their state legislature. With all the avenues to political representation in NC cut off by the actions of the legislature's redistricting, we are no more represented than the poor Afghanis who our military tried desperately to improve the political conditions of through service and sacrifice. In the end, we left their country battered and destabilized. It was all pointless. That's how the redistricting actions of the NC legislature feel. A campaign in search of power and meaning that does nothing to improve the lives and power of the people living there. We are now again, three months without a state budget, and there is no political recourse for replacing the members of the legislature who have failed to budget. We fled to NC in the 90s, hoping for a better life. I can only imagine that someday, we will be clinging to the last plane out as it leaves the tarmac. Your politically imprisoned constituent, Arthur
10/20/25 11:55 AM	PA Sarah Saunders	NC constituent	This note is a NO to redistricting.. Redistricting now, for the second time in 3 years, outside of the typical 10 year cycle, is unnecessary and confusing, at best, and an egregious power grab at worst, potentially disenfranchising voters in Eastern NC. Get to work passing a budget, paying our teachers and LEOs and funding Medicaid and stop wasting time.
10/20/25 11:56 AM	Mrs. LaDorna Pfaff		Please make voting equitable! Every person, red, blue, or purple, they all count. "The people, YES!" (Carl Sandburg).
10/20/25 11:56 AM	Courtney V		Trying to further gerrymander our already gerrymandered maps ia a heinous act against the very people you are to represent. Just stop. We want REAL representation by people that care about North Carolinians.

10/20/25 11:56 AM	Dr Marilyn Disco		Dear House Select Committee, Please do not make changes to the mid-decade congressional redistricting that would further distort North Carolina,Äôs federal voting maps and erode many North Carolinians,Äô power to elect candidates of their choice. ,Ä¢Gerrymandering violates core principles of fairness, accountability, and limited government. ,Ä¢Allowing politicians to manipulate district lines for partisan advantage undermines the constitutional promise of equal representation and weakens voters,Äô ability to hold their leaders accountable. The founding fathers originally wanted proportional appointment of elector votes to avoid the modern distortions that aggregate power. ,Ä¢While we elect state and federal lawmakers under a partisan banner, we must carefully guard the People,Äôs confidence that, once elected, you will represent all North Carolinians and protect their votes equally. ,Ä¢Gerrymandering disrupts local control by dividing natural communities and concentrating power in the hands of political insiders rather than the people. ,Ä¢True conservative values demand transparency, integrity, and competition,Äîvictory earned through ideas and persuasion, not through the manipulation of electoral maps. ,Ä¢Ending gerrymandering upholds both the Constitution and the moral duty to ensure government remains accountable to the people it serves. Voting districts should be non-partisan and return to the 7 and 7 representation that truly reflects the registered voter make up of the state. Thank you Marilyn Disco, PharmD, BCGP Durham NC 27712
10/20/25 11:56 AM	Christopher Thompson		This is a gross redistricting scheme, one not voted on by the people either. Anyone pushing for this should be ashamed. This type of partisan gerrymandering should never be the answer. It is merely a way of suppressing the voices of the people. If a party's agenda is to be the will of the people, they should have the opportunity to vote for it in a fair election.
10/20/25 11:56 AM	Vote NO! Heather Adams		I,Äôm reaching out to strongly urge you to vote no on the proposed redistricting plan for our state. Redrawing districts to make sure only one party can win isn,Äôt fair to voters, plain and simple. This is a terrifying direction to head in. Gerrymandering is wrong, and I hope you won,Äôt be part of that. As your constituent, I,Äôm asking you to stand against it and vote no.
10/20/25 11:56 AM	Gretchen Ferrell		If you believe in democracy, then you will let the people have their voice. Don't rig the game. Please stop redistricting.
10/20/25 11:56 AM	Caroline Sparks		I honestly don,Äôt understand how some of you can go to church on Sunday and come here on Monday to pass maps that silence voters and divide our communities. Fairness and justice aren,Äôt just political ideals ,Äî they,Äôre moral ones. North Carolinians deserve maps that reflect our people, not maps drawn to keep yourselves in power. The Lord requires you to do justice and love kindness but I guess yall think Micah was just playing around? I,Äôll be praying for us all.
10/20/25 11:56 AM	Dr. Deborah Cosimo	Retired, DHHS, OIG	NO to redistricting!!!! Why would Republicans have to redistrict and gerrymander to win in North Carolina? Can't the party win without stacking the deck?
10/20/25 11:56 AM	Barbara Zelter	retired	OBEY THE CONSTITUTIONS OF NORTH CAROLINA AND THE UNITED STATES! Redistricting should only occur every 10 years, not in-between as a way to keep one party in office in perpetuity. NC: Article II, Section 4: The Representatives shall be elected from districts. The General Assembly, at the first regular session convening after the return of every decennial census of population taken by order of Congress, shall revise the representative districts and the apportionment of Representatives among those districts, subject to the following requirements.... UNITED STATES: Section 2, Clause 3. "Representatives and direct Taxes shall be apportioned among the several States which may be included within this Union, according to their respective Numbers, which shall be determined by adding to the whole Number of free Persons, including those bound to Service for a Term of Years, and excluding Indians not taxed, three fifths of all other Persons. The actual Enumeration shall be made within three Years after the first Meeting of the Congress of the United States, and within every subsequent Term of ten Years, in such Manner as they shall by Law direct."
10/20/25 11:57 AM	Alysa Kassay		No redistricting!
10/20/25 11:57 AM	Ms. Concerned NC Resident	Citizen	Please stop gerrymandering. It,Äôs just not ok. Districts should not be redrawn to suit any one political side and willy nilly eliminate seats that are fairly elected. This should be a nonpartisan issue enshrined in law. Thank you for ensuring that our government truly represents the majority and will if the people.

10/20/25 11:57 AM	Dr Brandon Craven		I vehemently oppose redistricting attempts that would further gerrymander North Carolina. This is an obvious attempt to subvert the will of the people and further consolidate power to a Republican party that is actually a minority in North Carolina. Please stop the power plays and get to work on the things that matter to voters - a budget, for instance
10/20/25 11:58 AM	jeff meaney		I don,Äôt want a one party system and I am republican. A one party system is called a dictatorship. Both parties do this when ,Äúthey have the power,Äù. I don,Äôt want either party to do this which hurts a fair process
10/20/25 11:58 AM	Paige Kennedy		No way! The will of the voters must stand, without you rigging the maps to slant the election results!
10/20/25 11:58 AM	Catherine Ballard		Cheaters never win (in what really matters - even if it does keep those hateful old fossils in office). If the representatives your party runs for office are so unpopular that you can,Äôt win an election without changing the district lines to game the results, then perhaps you ought to spend a little time with your conscience, or your constituents, and think about what it means to be a PUBLIC SERVANT. Perhaps you should rethink who you are allowing to run the show. NC is known nationally for a certain party gaming the system to hoard power over all, despite a fairly evenly-divided voting populace. It is (sadly) no surprise to see you,Äôre trying to perpetrate this on NC citizens (again). But this is not, and has never been, OK. Surely you are aware of this. Please make better choices.
10/20/25 11:58 AM	Michelle Campbell		What you are doing is Un-American, Un-Democratic! I am a registered independent and adamantly oppose this move. American values do NOT say, if you're scared you can't' win, CHEAT! It's pathetic. Michelle Campbell Mooresville, NC
10/20/25 11:58 AM	Jessa Tsutsumi		Please reconsider this action of gerrymandering. Can,Äôt you all as politicians, representing all of us come together to collaborate, compromise, mindfully listen, hear and talk?? Like mature adults? The whole point of being an American in the beautiful country is to give ALL a fair chance. Think about your children, all children and the kind of humans you want them to grow up to be.
10/20/25 11:59 AM	Gretchen Greene		When you need to redistrict in order to win, It is simply cheating. Do better. Every American deserves a voice.
10/20/25 11:59 AM	Shannon Roland		There is a hot place in hell for those shaitan the people. You are not our Daddy! No gerrymandering!!!
10/20/25 11:59 AM	Martha Jenkins		Redistricting is just a power grab to try to subvert the true will of the voters in the midterms.
