[3]All maps considered by the Special Redistricting Committee and Council are provided electronically in a PDF format, and allow the reader to zoom in on the image for closer examination. Shapefiles containing the relevant data supporting all the maps listed herein are also stored on the thumb drive hand delivered to the Court. Please note, GIS Mapping Software is needed to fully access the shapefile data. *See e.g.*, https://www.caliper.com/maptitude/gis_software/default.htm#:~:text=A%20Geographic%20Information%20System%20(GIS,information%20for%20analysis%20and%20presentation (discussing one available GIS system—Maptitude—and how to use it).

[4] Due to technical challenges associated with data exchanges between the City's GIS mapping software, and that of the mapping expert, Dr. Doug Johnson, some data on the Orange Map was mislabeled. The population numbers provided on the Orange Map for District 10 should have been designated as data for District 7; the population numbers provided for District 7 should have been designated as data for District 8; and the population numbers provided for District 8 should have been designated as data for District 10. Likewise, any references in the meeting minutes and meeting transcript by Dr. Johnson to Districts 10, 7, and 8, should actually be references to Districts 7, 8, and 10, respectively.

Introduced by the Council President at the request of the Office of General Counsel and amended on the floor of Council:

ORDINANCE 2022-800-E

AN ORDINANCE REGARDING REDISTRICTING OF THE JACKSONVILLE CITY COUNCIL DISTRICTS AND GROUP AT-LARGE RESIDENCE AREAS; ADOPTING AN INTERIM REMEDIAL PLAN PURSUANT TO THE ORDER DATED OCTOBER 12, 2022, IN *JACKSONVILLE BRANCH OF THE NAACP, ET AL., V. CITY OF JACKSONVILLE*, CASE NO. 3:22-CV-493-MMH-LLL, (M. D. FLA); PROVIDING LEGISLATIVE FINDINGS AND RECITALS; ADOPTING AND ENACTING AN INTERIM REMEDIAL PLAN REGARDING CITY COUNCIL DISTRICTS, CITY COUNCIL GROUP AT-LARGE RESIDENCE AREAS, AND SCHOOL BOARD DISTRICTS BASED ON THE 2020 CENSUS DATA, PENDING FINAL APPROVAL BY THE APPROPRIATE COURT OF LAW; AMENDING THE *CITY CHARTER* TO ATTACH DISTRICT BOUNDARY DESCRIPTIONS FOR FOURTEEN CITY COUNCIL DISTRICT BOUNDARIES AND FOR FIVE CITY COUNCIL GROUP AT-LARGE RESIDENCE AREA BOUNDARIES PURSUANT TO SECTION 5.01 (COUNCIL MEMBERSHIP, RESIDENCE AREAS AND DISTRICTS), *CITY CHARTER*, PENDING FINAL APPROVAL BY THE APPROPRIATE COURT OF LAW; AMENDING THE CITY CHARTER TO DESIGNATE THE SEVEN SCHOOL BOARD DISTRICTS PURSUANT TO SECTION 13.02 (SCHOOL BOARD DISTRICTS), *CITY CHARTER*, PENDING FINAL APPROVAL BY THE APPROPRIATE COURT OF LAW; PROVIDING FOR AN INDEX OF EXHIBITS; REQUESTING RULE 4.901 ONE CYCLE EMERGENCY PASSAGE; WAIVING RULE 2.102, COUNCIL

RULES, REFERENCE TO RULES COMMITTEE; PROVIDING AN EFFECTIVE DATE OF THE INTERIM REMEDIAL PLAN; DIRECTING THE OFFICE OF GENERAL COUNSEL TO NOTIFY THE CHIEF OF LEGISLATION SERVICES OF EFFECTIVE DATE OF INTERIM REMEDIAL PLAN FOR FORWARDING TO MUNICODE; AUTHORIZING THE OFFICE OF GENERAL COUNSEL AND PLANNING AND DEVELOPMENT DEPARTMENT TO MAKE CHANGES TO TEXT, EXHIBITS AND OTHER RELATED INFORMATION CONSISTENT THE COUNCIL'S ACTION; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, following the release of the 2020 United States decennial census data, the City Council engaged in the redistricting of council and school board districts as required by Sections 5.02 and 13.03 of the Charter of the City of Jacksonville and enacted Ordinance 2022-01-E on March 22, 2022; and

WHEREAS, the Jacksonville Branch of the NAACP and thirteen other plaintiffs filed suit against the City of Jacksonville and the Duval County Supervisor of Elections in the Middle District of Florida in case number 3:22-cv-493-MMH-LLL alleging the City Council violated the Fourteenth Amendment when it redrew the district lines by improperly taking race into consideration; and

WHEREAS, the Plaintiffs also sought a preliminary injunction preventing the City and the Duval County Supervisor of Elections from using the district lines in Ordinance 2022-01-E in the March 2023 elections and beyond; and

WHEREAS, on October 12, 2022, the District Court for the Middle District of Florida granted Plaintiffs' Motion for Preliminary Injunction in case number 3:22-cv-493-MMH-LLL and enjoined the City and the Duval County Supervisor of Elections from conducting any

elections using the districts enacted in Ordinance 2022-01-E; and

WHEREAS, the Court further ordered the City to enact and file with the Court no later than November 8, 2022, an interim remedial redistricting plan for use in all City Council and School Board elections held pending final judgment in the case; and

WHEREAS, the Court prohibited the City from using race as a predominant factor in the design of any district unless the use of race is narrowly tailored to comply with a constitutionally permissible compelling government interest; and

WHEREAS, in creating the interim remedial redistricting plan, the Council is obligated to ensure that all districts are as nearly equal in population and are arranged in as logical and compact a geographical pattern as possible to achieve and to ensure that all federal and state constitutions, laws, and requirements are complied with; and

WHEREAS, while the Council districts are based upon population with respect to their size, the geographical arrangement and territorial boundaries of the districts must take into consideration other factors, particularly compactness and contiguity, so that the people of the City, and their varied economic, social, and ethnic interest and objectives are adequately represented within the Council; and

WHEREAS, given the short timeframe within which the City must enact a remedial redistricting plan to comply with the Court's Order, the City Council developed an expedited process to allow the Council to deliberate new district boundaries, while also attempting to take into account public input, as appropriate and feasible; and

WHEREAS, because of the short timeframe established by the Court, compliance with the public hearings, public input and deliberative requirements of Chapter 18, *Ordinance Code* is not possible; now therefore

BE IT ORDAINED by the Council of the City of Jacksonville:

Section 1. Legislative Findings; Recitals. The City Council finds as follows:

(a) The City Council 2022 Special Committee on Redistricting, in seeking to comply with the Court's Order, has sought the advice and assistance of Douglas Johnson, President of National Demographics Corporation, working in conjunction with the City's Planning and Development Department, to assist the City Council in producing, analyzing, and assessing territorial and population maps of the City of Jacksonville based on the 2020 United States census data.

(b) The City Council 2022 Special Committee on Redistricting did, after holding noticed public meetings on October 20, 2022, November 1, 2022, November 2, 2022, and November 3, 2022, transmit a proposed plan, dated November 3, 2022 (the "Proposed Plan") to the City Council. The Proposed Plan was accompanied with a report attached hereto as **Second Revised Exhibit 1**, labeled as "Second Revised Exhibit 1, 2nd Rev Prop Plan, November 4, 2022 - Floor" containing the following information:

(i) A map of the General Services District showing both the existing district boundaries and the proposed district boundaries;

(ii) A table indicating the population of each proposed district and the variations of each such population from the population average for all the districts, with an explanation of the variation in each district;

(iii) A statement of the methodology used in arriving at the particular plan recommended by the 2022 Special Committee on Redistricting;

(iv) An appendix of any other interim remedial redistricting plans considered or created by the 2022 Special Committee on Redistricting in the process of creating the recommended

plan, with the reasons for the rejection of each such interim remedial redistricting plan; and

(v) Comments and recommendations deemed necessary or advisable by the 2022 Special Committee on Redistricting to explain or illustrate the interim remedial redistricting plan.

(c) The City Council Special Redistricting Committee, after consideration of redistricting standards, practices and principles and the testimony and evidence received at all of the public meetings and hearings, approved and reported the Proposed Plan (with or without amendments thereto (the "Amended Plan")) attached hereto as **Second Revised Exhibit 2**, labeled as "Second Revised Exhibit 2, 2nd Rev Amd Map, November 4, 2022 - Floor" to the entire City Council for its consideration.

(d) Upon recommendation of the Special Committee on Redistricting of an Amended Proposed Plan, and following a noticed public hearing at a Special Council meeting, the Council, with careful consideration of the public input and a lengthy debate upon the Amended Proposed Plan and other maps prepared at the request of the members of Council and submitted during the Special Council meeting (prepared by the Council's retained expert with the assistance of the Planning and Development Department), hereby approves the Final Amended Plan pursuant to the Court Order and within the Court's established timeframe.

Section 2. *Charter of the City of Jacksonville* amended to approve and enact the City of Jacksonville Redistricting Plan establishing City Council Districts and City Council Group At-Large Residence Areas, Pending Final Approval by the Appropriate Court of Law.

In accordance with the *Charter of the City of Jacksonville* ("*Charter*") and Chapter 18, (Redistricting of Council and School Board Districts), *Ordinance Code*, and in conjunction with the 2020

United States Census data, pending final approval by the appropriate court of law, the City Council approves, adopts, and enacts the City Council District and City Council Group At-Large Residence boundaries as set forth in the final (Amended) Plan (the "Council District and Group At-Large Residence Area Plan") attached hereto as **Second Revised Exhibit 3**, labeled as "Second Revised Exhibit 3, 2nd Rev Final Map, November 4, 2022 - Floor".

(a) **14 City Council Districts.** The *Charter* is hereby amended by repealing and removing Appendix 1 of the *Charter*, which defines the City Council Districts based on Ordinance 2022-001-E, as described by metes and bounds, attached hereto as **Exhibit 4**, and enacting and replacing same with a new Appendix 1 of the *Charter* which defines the City Council Districts based on the 2020 United States Census data and maps presented at the Special Committee on Redistricting, as described by census tracts, attached hereto as **Second Revised Exhibit 5**, labeled as "Second Revised Exhibit 5, 2nd Rev Census Tracts, November 4, 2022 - Floor".

(b) **5 City Council Group At-Large Residence Areas.** The *Charter* is hereby amended by repealing and removing Appendix 1-A, which defines the City Council Group At-Large Residence Areas based on Ordinance 2022-001-E, as described by metes and bounds, attached hereto as **Exhibit 6**, and enacting and replacing same with Appendix 1-A which defines the City Council Group At-Large Residence Areas based on the 2020 United States Census data and maps presented at the Special Committee on Redistricting, as described by metes and bounds, attached hereto as **Second Revised Exhibit 7**, labeled as "Second Revised Exhibit 7, 2nd Rev At-Large Leg Descript, November 4, 2022 - Floor".

Section 3. Charter of the City of Jacksonville amended to designate the seven school board districts pursuant to section 13.02 of the *Charter*.

Section 18.110, *Ordinance Code*, provides that the redistricting of the 14 Council Districts shall automatically reapportion the school board districts as provided in Section 13.03, *Charter*, as illustrated in **Second Revised Exhibit 8**, labeled as "Second Revised Exhibit 8, 2nd Rev School District Map, November 4, 2022 - Floor" attached hereto. Section 13.02, *Charter*, establishes that each School Board District shall be comprised of two adjoining Council Districts. The *Charter* is hereby amended by repealing and removing Section 1 of Appendix 2 of the *Charter*, which defines the Duval County School Board Districts based on Ordinance 2022-001-E attached hereto as **Exhibit 9** and enacting and replacing same with a new Section 1 of Appendix 2 of the *Charter* which defines the School Board Districts based on the 2020 United States Census data and maps presented at the Special Committee on Redistricting, attached hereto as **Second Revised Exhibit 10**, labeled as "Second Revised Exhibit 10, 2nd Rev Appendix 2, Sec 1, November 4, 2022 - Floor".

Section 4. Index of Exhibits. An index of the exhibits referred to in this ordinance are as follows:

Second Revised Exhibit 10	Appendix 2, Section 1- Ordinance 2022-800-E (School Board District Designations)

Section 5. Rule 4.901 Requesting one cycle emergency passage. Rule 4.901 one cycle emergency passage is requested. The nature of the emergency is that the Court Order dated October 12, 2022, requires that Council complete the redistricting process to enact an interim remedial plan and submit the plan to the Court on or before November 8, 2022. Accordingly, the Council has created an expedited process, including the creation of a Special Committee and Redistricting to recommend an interim remedial plan and maps, and has noticed a Special Council meeting and public hearing on the interim remedial plan for November 4, 2022, all to comply with the Court Order.

Section 6. Waiving Rule 2.102, Council Rules, reference to Rules Committee so that the Special Committee on Redistricting can make a recommendation to the Council within time allotted by the Court. Rule 2.102, Council Rules, provides that legislation on redistricting be referred to the Rules Committee. However, given the expedited process enumerated in the Court's Order dated October 12, 2022, the time allotted by the Court to Council to enact an interim remedial plan, and the creation of the Special Committee on Redistricting, it is necessary to waive Rule 2.102 so that the legislation can be assigned upon introduction to the Special Committee on Redistricting alone. The report from the Special Committee on

Redistricted shall be treated as a committee report to the full Council without additional waivers or suspension of the Council Rules or discharge.

Section 7. Effective Date of the Interim Remedial Plan. The interim remedial redistricting plan set forth in this ordinance shall become effective upon being deemed constitutional by Court order in case number 3:22-cv-493-MMH-LLL.

Section 8. Directing the Office of General Counsel to notify the Chief of Legislative Services of the Effective Date of the Interim Remedial Plan so that this Legislation is timely forwarded to Municode. The Office of General Counsel is directed to notify the Chief of Legislative Services in writing as to the Effective Date of the Interim Remedial Plan so that this ordinance may be forwarded by the Legislative Services Division to the Municipal Code Corporation when the Interim Remedial Plan is deemed effective pursuant to Section 7 above.

Section 9. Authorization to the Office of General Counsel and the Planning and Development Department to make changes to text, exhibits and other related documents consistent with the Council's Action. The Office of General Counsel and the Planning and Development Department are authorized to make changes to maps, charts, tables, titles, the table of contents, legal descriptions and references to census tracts, editorial and text changes consistent with the changes set forth herein to Ordinance 2022-800-E to effectuate the Council's action herein.

Section 10. Effective Date. This ordinance shall become effective upon signature by the Mayor or upon becoming effective without the Mayor's signature.

Exhibit 1

(iii) A statement of methodology used in arriving at the particular plan recommended by the Special Committee on Redistricting.

Statement of Methodology

The methodology used in arriving at the proposed interim remedial plan for Jacksonville City Council and School Board Districts is as follows:

On May 3, 2022, several organizations and individuals filed a complaint against the City of Jacksonville and the Duval County Supervisor of Elections alleging that certain City Council and School Board districts were unconstitutional under the 14th Amendment of the U.S. Constitution as racially gerrymandered. On October 12, 2022, the federal court issued an Order in the matter of *Jacksonville Branch of the NAACP, et al v. City of Jacksonville*, 3:22-cv-493-MMH-LLL, enjoining the City from using the district lines passed in Ordinance 2022-01-E in the March 2023 elections and beyond, and ordering the City to enact and file with the Court no later than November 8, 2022, an interim remedial redistricting plan for use in all City Council and School Board elections held pending final judgment in the case.

On October 18, 2022, and in response to the Court's Order, City Council President Terrance Freeman issued a Memorandum creating a Special Redistricting Committee. He charged the Committee with obtaining legally permissible considerations for redistricting in accordance with state and federal law, and to prepare a remedial map for review by the City Council at a Special Council meeting scheduled for Friday, November 4, 2022. The Special Redistricting Committee subsequently met on October 20, 2022, where Council President Freeman noted that openness and transparency during the Court ordered redistricting process were paramount. To ensure that the public could participate in the redistricting process and provide its input and feedback on any draft maps or proposed districts, a dedicated redistricting email address – 2022redistricting@coj.net – was created for citizens to submit their input or concerns. In addition, time was specifically reserved at each Special Redistricting Committee meeting for the public to comment, and a "map chat" was scheduled for November 3. Additionally, public comment was available before the full City Council at its special meeting on November 4, 2022.

Dr. Doug Johnson, of National Demographics Corporation, was retained to work with the Planning and Development Department to create new maps for the Council's review and evaluation. These maps were to comply with state and federal law, the City Charter, Sections 5.03, 13.02, and 13.03, the City Ordinance Code, Sections 18.101 *et seq.*, and must also address the concerns laid out in the Court's October 12, 2022 Order. The specific criteria used to create the interim remedial districts included: (1) creating districts that are nearly equal in population as possible in order to satisfy the "one person/one vote" requirement; (2) arranging all districts in as logical and compact a geographical pattern as possible; (3) creating compact and contiguous districts so that the people of the City, and their varied economic, social and ethnic interests and objectives, are adequately represented in the Council; (4) creating district boundaries along Citizen Planning Advisory

Commission Committee (CPAC) region boundaries, freeways, waterways and major roads; (5) accounting for the residence of City Council and School Board incumbents who can run for re-election and not pairing these incumbents against each other; (6) considering the political and socio-economic demographics of the districts; and (7) attempting to avoid changes to the boundaries of the unchallenged districts. The race of the potential district constituents was not considered when creating the interim remedial district boundaries, nor were the 2011 district lines preserved. Although not at issue in the underlying litigation, the City attempted to complete the required analysis to confirm compliance with the Voting Rights Act of 1965 (VRA). However, the compressed timeframe within which the Council had to craft a remedial interim map, coupled with time constraints of data processing and organizational issues, the Council was not able to conduct a complete and thorough VRA analysis. Rather, it focused its attention on forming districts that complied with the 14th Amendment by not drawing lines based predominantly on race. Although the Plaintiffs' VRA methodology process and corresponding results appeared flawed, the Council did, however, review the Plaintiffs' VRA analysis and determined that the its proposed maps (referenced below) complied with the Plaintiffs' proffered Voting Rights Act analysis.

On November 1, 2022, Dr. Johnson presented four potential maps to the Special Redistricting Committee: (1) Plaintiffs' proposed map, which was presented at the October 25, 2022 City Council meeting; (2) the Maroon map; (3) the Lime map; and (4) the Orange map. The Maroon and Lime maps received the majority of the Special Redistricting Committee's and visiting Council members' support, with some members expressing support for the Orange map. Plaintiffs' proposed map did not receive any Committee or Council support. On November 2, 2022, Dr. Johnson presented three additional maps to the Committee: (1) Maroon IIA; (2) Maroon IIB; and (3) Maroon IIC. After deliberation, the Committee rejected those three maps, and selected the Maroon map, with proposed amendments, to be submitted to the Council.

The City's Planning and Development Department and/or Dr. Johnson met with any City Council and School Board members who wanted to contribute input regarding potential changes to the challenged districts. The public also provided feedback and input for consideration at the October 25, 2022 City Council meeting, November 1, 2, and 3 Special Redistricting Committee meetings, the November 3 Map Chat town hall meeting, and through the dedicated redistricting email address. As of 9:00 a.m. on November 3, 2022, the 2022Redistricting@coj.net email account received 112 emails. Public feedback and input varied, with the greatest amount of feedback relating to keeping Avondale and Riverside in a single district. All public input and feedback was either heard by, or provided to, the Special Redistricting Committee. Council and public input, along with the expertise of Dr. Johnson and the City's Planning and Development Department, drove the creation of the interim remedial plan for the challenged City Council districts. The proposed maps

were revised based upon the changes requested by the public and Council members, which were presented to the Special Redistricting Committee for its review and comments.

The proposed interim remedial plan for Jacksonville City Council and School Board District Residence Area Plans, as approved for submittal by the Special Redistricting Committee on November 3, 2022, are the culmination of numerous recommendations made by City Council members and input from the public.

(iv) An appendix of any other redistricting plans considered or created by the Special Committee on Redistricting in the process of creating the recommended plan, with the reasons for rejection of each such redistricting plan.

(a.) Plaintiffs' Map – November 1, 2022 Special Redistricting Committee Meeting

Page 12 of 21

Reasons for Rejection: Plaintiffs' Map did not keep incumbents in their current districts and paired incumbents against each other; Map disrupted the Council's current political balance between Republican and Democratic members; District 11 grouped together otherwise distinct and differentiated communities; Districts 10 and 14 did not follow the natural boundary created by interstate 295, but rather each crossed this major interstate at different points with not clear explanation; Map mixed dissimilar areas together (i.e., urban and rural areas combined in a single district); and Map modified the boundaries of unchallenged districts.

(b.) Lime Map – November 1, 2022 Special Redistricting Committee Meeting

Page 13 of 21

Reasons for Rejection: While the Committee initially favored both the Maroon and the Lime Map, it was the general consensus of the Committee that the Maroon map and any potential changes would better accomplish the group's goals, rather than the layout and structure of the Lime map. Therefore, the Maroon map was selected over the Lime map for additional changes and amendments.

(c.) Orange Map – November 1, 2022 Special Redistricting Committee Meeting

Page 14 of 21

Reasons for Rejection: The Orange Map had a large district that spanned most of the east and northeast boundary; Map was based off the Plaintiffs' map.

(d.) Maroon IIA – November 3, 2022 Special Redistricting Committee Meeting

Page 15 of 21

Reasons for Rejection: The new maps drew incumbents out of their districts; drew candidates who would be elected for office on November 8, 2022, out of the districts for which they were seeking election; and split the Springfield and downtown areas.

(e.) Maroon IIB – November 3, 2022 Special Redistricting Committee Meeting

Page 16 of 21

Reasons for Rejection: The new maps drew incumbents out of their districts; drew candidates who would be elected for office on November 8, 2022, out of the districts for which they were seeking election; and split the Springfield and downtown areas.

(f.) Maroon IIC – November 3, 2022 Special Redistricting Committee Meeting

Page 17 of 21

Reasons for Rejection: The new maps drew incumbents out of their districts; drew candidates who would be elected for office on November 8, 2022, out of the districts for which they were seeking election; and split the Springfield and downtown areas.

(v) Comments and recommendations deemed necessary or advisable by the Special Committee on Redistricting to explain or illustrate the plan.

In responding to the Order of October 12, 2022, to present an interim remedial map to the federal district court by November 8, 2022, the Special Redistricting Committee ("the Committee") commenced its process with the understanding that it must not use race as a predominant factor in the design of any district unless that use of race is narrowly tailored to comply with a constitutionally permissible compelling government interest. Additionally, it was understood that, due to the timing required by the trial court, the Committee was limited in the depth of analysis, the scope of the Committee review, and the constituent input that would normally be available if the process was allowed to be conducted pursuant to the Charter, Ordinance Code and Council Rules, nor was there an opportunity for as thorough an examination of proposed alternatives to the maps as the Committee would have desired.

The Committee further framed its evaluation of the three maps (Lime, Maroon, and Orange) proposed by the retained expert, Dr. Doug Johnson, by examining the extent to which the drawn districts on those maps satisfied the following criteria:

- Creating districts that are nearly equal in population as possible in order to satisfy the "one person/one vote" requirement;
- Arranging all districts in as logical and compact a geographical pattern as possible;
- Creating compact and contiguous districts so that the people of the City, and their varied economic, social and ethnic interests and objectives, are adequately represented in the Council;
- Creating district boundaries along Citizen Planning Advisory Commission Committee (CPAC) region boundaries, freeways, waterways and major roads;

- Accounting for the residence of City Council and School Board incumbents who can run for re-election and not pairing these incumbents against each other;
- Considering the political and socio-economic demographics of the districts; and
- Attempting to avoid changes to the boundaries of the unchallenged districts.

The race of the potential district constituents was not considered when creating the interim remedial district boundaries, nor were the 2011 district lines preserved.

The Committee engaged in an initial evaluation of the Lime, Maroon, and Orange Maps, and also considered the Plaintiffs' proffered map. In doing so, the group consensus indicated that the Maroon and Lime maps were the Committee's top two preferences.

The Committee rejected the Plaintiffs' map for the following reasons:

- Map did not keep incumbents in their current districts and paired incumbents against each other;
- Map disrupted the Council's current political balance between Republican and Democratic members;
- District 11 grouped together otherwise distinct and differentiated communities;
- Districts 10 and 14 did not follow the natural boundary created by interstate 295, but rather each crossed this major interstate at different points with no clear explanation; and
- Map mixed dissimilar areas together (i.e., urban and rural areas combined in a single district)

The Committee also rejected the Orange map for the following reasons:

- Map had a large district that spanned most of the east and northeast boundary;
- Map was based off of the Plaintiffs' map.

Throughout its deliberative process, which included receiving feedback from the public (via email and in-person), the Committee also voted to direct Dr. Johnson to evaluate whether district lines in the Maroon and Lime maps could be shifted to accomplish the following:

- Permit Councilmember Pittman to remain in her current geographic district, which would also shift Councilmember Clark-Murray's district to include the Woodstock area;
- Allow for a neighborhood in the northeast corner of District 11 to be included in either District 13 or District 3 due to easier ingress and egress into that area from Districts 13 and 3, rather than District 11;
- Allow for the historic Avondale, Riverside, and, if possible, Murray Hill, areas to be in the same district, either proposed district 8, 10 or 14.

In response, Dr. Johnson presented the Committee with three variations to the Maroon Map (Maroon IIA, Maroon IIB, and Maroon IIC). The Committee ultimately rejected all three proposed revisions due to feedback from the public, as well as from their own colleagues. In particular

- The new maps drew incumbents out of their districts;
- Drew candidates who would be elected for office on November 8, 2022, out of the districts for which they were seeking election; and
- Split the Springfield and downtown areas.

The Committee subsequently voted to recommend the Maroon map to the entire Council, but with amendments made by Dr. Johnson to attempt to accomplish the following:

- Shift the Riverside and Avondale areas to District 10;
- Evaluate the data and potential outcomes from including the San Mateo area into District 2;
- Allow for the San Pablo area in the northeast corner of District 11 to be included in either District 13 or District 3 due to easier ingress and egress into that area from Districts 13 and 3, rather than District 11.

The Special Redistricting Committee believes that the Proposed Interim Remedial Plan appropriately, and to the extent possible, took into consideration these various criteria, the Court's Order, compliance with federal, state, and local law, as well as public and Committee requests to achieve the New Districts (2, 3, 7, 8, 9, 10, 11, 12, and 14) based on the Census Data for 2020.

All Concerned,

My name is Jose Lazcano and I am a Murray Hill resident currently residing in the bottle neck area of the very gerrymandered district nine. I have encountered many issues in this district because of its geographical boundaries. When I had to enroll my child in Lee High (Riverside) I found out that because of the gerrymandered districts I was not allowed to vote for the school board member that my home is zoned for because of the council district my home is in. My questions: Has the committee considered the school zones of each public school when they redraw the lines? Has the committee consider keeping the school zones, school board districts and city council districts in sync with each other? Has the committee factored in the neighborhood zones so as not to split up any neighborhoods within the council and school board districts? And is it the policy of every committee member to not return the calls or answer the questions of their constituents before they take to carving up the districts?

I reached out to every committee member with the hopes that I could explain to them the unique placement of my home in this gaggle that has been our districts for the past 20 years.

I hope the committee (who has been lackluster to this point of tackling this very serious problem in our city) will take my thoughts and questions into consideration before redrawing the new maps.

V/R,
Jose Lazcano

I live at 6241 Du-Clay Rd. I like 3 of the 4 plans. But i dont like the Maroon plan as it keeps us linked with the downtown area which the constituents where i live have different priorities than that of the downtown area. It would switch us from District 9 to District 14. I'm President of the Westland Communities HOA.

Thank you.

Dear members of the Special Redistricting Committee,

Thank you for taking the time to thoroughly review the proposed redistricting maps for Jacksonville. This is an extremely important role and we appreciate your thoughtfulness. We understand draft council maps MAROON and LIME are moving forward to be edited by the Committee today. With this process moving as quickly as it is, RAP wishes to make its position very clear.

Riverside and Avondale are adjacent historic neighborhoods that share a Historic Designation within the City of Jacksonville Planning Department. This overlay on our district has implications for nearly every department within the City and it has been invaluable to have a Councilperson who understands this distinction and has the expertise to navigate the City for their constituents.

As you continue to deliberate Jacksonville's redistricting, **we strongly request and ask that you retain Riverside and Avondale in one Council District. We are one neighborhood.** The map of our district is available on our homepage at RiversideAvondale.org.

As of November 1, the LIME map divides the commercial section of Riverside including the Riverside Arts Market, 5 Points, Memorial Park and more from the remainder of our community. The MAROON map divides our neighborhood into 3 parts with sections going north, west, and south. It is our intention to remain with neighborhoods that have similar infrastructure demands and community concerns, such as Murray Hill, Ortega, North Riverside and beyond.

RAP is determined to be involved in the redistricting process, and we ask that you consider our unique status and overarching concerns.

Thank you for your time,

Riverside Avondale Historic District is a recognized (Federal, State and COJ) neighborhood with defined boundaries. See link below.

Ten years ago Riverside Avondale was the first Florida neighborhood to be recognized by the American Planning Association as a Great Neighborhood. One of the assets noted was that HD was represented by one council member and spoke in a strong, unified voice.

The Maroon option splits RA into THREE councilmanic districts. I am opposed to that option.

The rationale for the split seems to be Republican vs. Democratic registered voters. I have neighbors who are vote differently than I do but we want the same things for our neighborhood. That is what binds us, not our political affiliation.

As an active member of the Riverside Avondale Community and a Board Member for RAP (past Board Chair), I strongly disagree with the redistricting proposals which would split Riverside and Avondale. While I understand the partisan nature of this exercise, the redistricting committee has fallen short of understanding the nature of our community beyond politics. What communities get combined with our neighborhood is less critical than keeping us together. Riverside and Avondale have a rich, shared history bound together by our historic overlay, Riverside Avondale Preservation, our 27 parks, common infrastructure needs, shared resiliency challenges, zoning issues that span both historic residential and commercial districts and a vibrant love of this diverse community. It requires a special council person that fully appreciates this community, its challenges, opportunities and culture. Splitting the council district among 2 or 3 council members diminishes the value of this district that contributes a significant economic benefit to the city, is culturally attractive to visitors and is the place thousands call 'home' because of the environment that has taken decades to coalesce.
Please reconsider and keep Riverside - Avondale as ONE.

Dear Commissioners.

There are many reasons to keep city commission representation of the Riverside Avondale Historic District under one city commissioner. Here are are few key reasons it is imperative for you to maintain the continuity of the Riverside Avondale Historic District in your final voting district map:

1) Economic Development
The Riverside Avondale Historic District is home to mostly locally-owned businesses with many of those owners living inside the district. These businesses rely both on residents of the district and people coming to the district to have a unique experience to be their customers. Many of you have traveled to cities where entrepreneurial imagination and community support created or enhanced destination environments and unique places. These are cities, large and small, where citizens, and their government, identified and defined their culture or distinctive amenities to create an ambience attracting visitors who desired to experience something different than what is offered where they live. The Riverside Avondale Historic District provides that experience for people. Keeping the Riverside Avondale Historic District under one representative commissioner allows that commissioner to focus on the needs of the business community.

2) Property Value Security
The Riverside Avondale Historic District attracts people who enjoy living in a historic community. With that comes the understanding that they are stewards of Jacksonville's history. As evidenced by the continued updating of our historic architectural gifts from the past by current residents, Jacksonville is able to promote the community to future residents. Under one representative commissioner the historic district is best able to prioritize government infrastructure needs.

3) Enhancing Civic Pride and Tourism
My wife and I just completed a four month tour of the West and Northwest in our RV. All totaled we stopped in 39 locations stretching between Jacksonville and Vancouver. We, along with our fellow tourists, were mostly looking for the same thing during our travels, the ability to immerse ourselves in nature, our shared national history and local food experiences. While enjoying these locations my wife and I would often comment on how the place we were visiting at that moment compared to Jacksonville. Anyone living in our historic district can point to the fact that we enjoy one of the most unique settings in Florida. You are often approving millions of dollars in taxpayer dollars to build new developments, some of which you hope will attract people to destinations that bring economic benefit to our city. I urge to support a destination that was built for you by past residents of Jacksonville that now is a current popular destination for people who are just passing through. People who want to experience Old Florida, incredible local food choices and an atmosphere unlike their local community. Maintaining our historic environment can only be accomplished with your support. The cost to the taxpayer is much less than what you spend on new development and it is the type of destination that people who travel want to visit. Again, keeping Riverside Avondale in one voting district will enhance the ability of the historic district to bring issues to a central representative to advocate for its needs.

Thank you for your consideration.

Good morning,

As a property owner on Stockton Street, I am asking you do not split up the neighborhoods of Riverside and Avondale. Historic districts have unique needs and their voices are already diluted within a large consolidate government like Jacksonville's. It is important these two neighborhoods share resources including City Council representation.

Thank you.

Redistricting Committee:

I read in a news report that there is a perception that there are no official neighborhood maps to go by in redistricting.

Here are two maps which clearly define the Riverside Avondale Neighborhood:

1. Riverside Avondale Zoning Overlay, legislation passed unanimously by the City Council in 2008. The different colors represent different character and zoning standards.
2. Riverside Avondale Historic District established in 1998. The Historic Preservation Commission reviews COAs within the Historic District (and with Springfield's and Downtowns.)

The Riverside Avondale Preservation neighborhood association has been active since 1974.

The city needs to keep the Riverside and Avondale combined neighborhoods together in one Council District. This neighborhood is one of the most vibrant, diverse and thriving neighborhoods in the city.

NOTE: Springfield also has a Historic District and a Zoning Overlay. San Marco has a Zoning Overlay and other neighborhoods do too.

P.S. I suggest that CPAC boundaries should follow the districts, not the other way around.

Redistricting Committee,

Please keep all of Riverside and Avondale in one district.

- Subdividing the neighborhoods is counterproductive. It divides an established and thriving community which will weaken the overall fabric of Jacksonville.
- It also complicates how our community coordinates with City Council which will frustrate all parties involved.
- Our neighborhood has a unique zoning overlay which requires additional attention. It is much more efficient and feasible for a single Council Member to understand the intricacies of the overlay than to burden two or three Council Members with this responsibility for an area which would make up a much smaller percentage of their district.

Please keep the best interests of established contiguous communities in mind when making such impactful and long-lasting decisions.

Thank you,

To those who may be concerned:

We are one neighborhood. It is Riverside Avondale Preservation for a reason. Splitting the neighborhood would be inappropriate and not achieve anything. We have worked exceptionally hard to celebrate our history. We are diverse in our unity but combined in our concern for our neighborhood and the city of Jacksonville overall. Please do not divide us. This should not be a time for division but for support of unity.
Diversity does not equal division. I argue that you could add more neighborhoods to our community but you should not split any out.

Dear Sirs and Mesdames,

Please do not fragment the Riverside-Avondale historic district into two or more Council districts. We deserve and expect that our interests will be represented by one person who can make sure the neighborhood can have a place at the table.

Thank you,

Dear Council
I am very disappointed that this committee did not have a balance of republican and Democrats.
I saw the maps and see communities are splitting up. I just hope their is a better balance in our city.
Thanks

To whom it may concern,

District 2 is still the only district crossing the St. Johns river. It's been this way the whole time despite the Judges ruling. Despite my public comments against it. Despite the fact that there is no incumbent for District 2 in East Arlington now. While also splitting up Oceanway and San Mateo. Let's not forget the fact that a District 2 candidates spouse was the assistant of the Chair of the redistricting committee during the first attempt at drawing these maps.

Why not move district 2 to the west instead of crossing the St. Johns River at arguably one of its widest points?

Respectfully,
Eric Parker

To the redistributing committee, I am a proud resident of the Riverside Avondale neighborhood and I want to express my concern that this neighborhood stay and be represented by one representative and not be broken into multiple districts. Our neighborhoods share a common purpose and goal and it is imperative that we keep this district together so that it can be represented fairly and equally. Breaking it apart makes no sense and will cause more work for us to keep the important fabric of the district together where we can remain a prosperous business district and bring visitors to the community making Jacksonville a better place to live.

Thank you for your consideration,

Council Members

Please thoughtfully consider keeping the Avondale/Riverside Historic district as one district. This is extremely important for continuity of the neighborhood and remains vital for continued management of the historic district. We have the opportunity to continue to create a valuable resource to our downtown and neighborhood. Please do not break us up into more than one district.

Kind regards

Hello

I have been made aware of the redistricting process in the Riverside/Avondale area and would like to know WHY this is happening. I've not seen anything in the news about this and am wondering why it is being implemented and expedited. If someone could explain or point me to an online resource where I could read about it that would be great.

Thank You

Hello,

As a resident and condo owner of Riverside and a homeowner of Avondale, I am deeply displeased at the proposed redistricting of our unified historical neighborhoods which would split portions of our neighborhoods into multiple Council districts. Both Riverside and Avondale share a common interest and are often considered one and the same when it comes to events, projects, and a general sense of community.

The ability of our neighborhood to speak as one has been invaluable in recent years under Councilwoman Randy Defoor's representation with projects being completed or budgeted by the city that improve both neighborhoods. I hope that the Special Committee reconsider their plans to divide two of Jacksonville's great historical neighborhoods.

Respectfully,
Andrew Bilello

MS. DEFOOR: Randy Defoor, District 14.

MR. FERRARO: Al Ferraro, District 2.

MR. GAFFNEY: Good morning. Reggie Gaffney, District 7.

THE CHAIR: All right. Good afternoon.

Thanks everyone coming in. I would like to start with a few comments prior to us getting into the process today and just regard to -- this is really housekeeping and this is a refresher from yesterday.

So what I'll start with it was my understanding that all materials provided to council members be provided to the public either before the meeting or during the meeting, and so I want to be perfectly clear again to our staff that we must have all copies ready at all times for those attending in public and online.

What we're starting with today are the two maps selected by this committee, and we'll move forward to move more input from our colleagues and the public. I remain committed to meeting this deadline. I'm going to do everything I can to meet this deadline, but if it looks like we're not going to, then I will look to our general counsel for best options.

One of the things I would like to do as we get started in this recap and our rehashing of yesterday is go through a few explanations, and this is really based off of just the questions that were asked and that I've heard. One of the

questions was asked of how did we go from four to two. We narrowed the maps -- the template maps from four to two yesterday for the following reasons:

The plaintiff's map doesn't reflect the current political representation of the council or the county, the combination of rural and urban communities, challenges, and it failed to acknowledge incumbents. In the Orange map -- the Orange map used the plaintiff's map as a starting point and then the experts added changes to protect incumbent, which suffered the same flaws as previously mentioned and with the plaintiff's maps.

And I wanted to give me colleagues if they had any other comments to why the Maroon and Orange were chosen that you had or that you add for the record yesterday that you would like to start with today. I wanted to offer that, and then I was going to check with Mr. Johnson just to confirm the things that I said and the reasons and the facts.

So I see Ms. Council Member Defoor.

MS. DEFOOR: Thank you, Mr. President.

You know, after a night of reflecting on the maps, none of the maps really addressed an issue that I have that has to do with the historic

neighborhoods that are in my district that have been carved out. And to anyone who has lived in Jacksonville for even a short period of time I think if when you look at District 14 you would know that none of those maps properly reflected real live human beings who live there; at least, again, not in my district.

Riverside, Avondale, and Ortega have been connected as any three neighborhoods could be and have been that way for over 100 years. They are intimately connected in our schools, our clubs, our churches, our newspapers, and our families often for several generations. This is why we have RAP represents both Riverside and Avondale. Their cousin Ortega has the highest voting participation and enthusiasm in the city.

Our collective (undecipherable) is equally robust. We know each other's homes almost as well as our own where Zillow is the local version of fun. In short, District 14 where my family has lived for five generations is known by everyone in town by a community of longstanding. To carve it up, particularly upon the misstatement the data as simple as plat information is not available as well as distance of data of districts is available, will

greatly imperil the chances of this map being upheld.

I will not vote for a map which does so and will urge the judge to restore the respect for this community in her ruling. In addition, I have learned from Jerry Holland that we do have additional neighborhood maps. In fact, properties are appraised by it. Therefore, as officers of the court, I ask that those attorneys who represent that they did not have that information correct the court record to acknowledge the existence of this public record.

Thank you very much, Mr. Freeman.

THE CHAIR: Thank you so much.

And just to remind everyone that we definitely have a short runway in meeting the timeline that the judge has given us. So it's not an easy task that we are tasked with, and so we're going to work through it.

I see Councilman Pittman. We're going to try to minimize this to two minutes because this is just the intro. Then we need to get ready to get into the (undecipherable).

MS. PITTMAN: Through the Chair, I'm not really sure this is the appropriate time to ask.

On yesterday, you know, I felt that I really couldn't see the information. I needed additional information, but I'm just wondering, you know, because of if we don't come up with something, it just feels like everybody kind of loses; right?

So I wanted to ask if it was an opportunity, you know, to even include -- this is my first time, so I'm just putting it out here if possible. For the plaintiff's to share their information and whatever we select, because the basis of what we're doing is to really come together to try to develop a map that is fair and equitable as well as making sure it's right in terms of what the judge has charged us to do.

I heard many come up yesterday, you know, stating why we just can't work together, and, you know, Jacksonville has had a history of if there's something that we want to get as a community, we can work together and get it done.

THE CHAIR: Yes, ma'am.

MS. PITTMAN: So that's all I'm asking --

THE CHAIR: Council Member Pittman, I'm sorry to cut --

MS. PITTMAN: Okay. I just wanted to know if this was the time --

THE CHAIR: I was really looking for if there was an explanation if somebody wanted to add to that and, Mr. Johnson, if you don't mind, just specifically -- to my colleagues, we're going to have time for us to share our thoughts and concerns or comments and articulate, and this is just one of several topics that I'm going on before we get started.

MS. PITTMAN: That's fine. I didn't know where it fit in.

THE CHAIR: No, no, it's good.

So when it comes to how we narrowed it from four to two, can you add any value to that?

DR. JOHNSON: Certainly. Just elaborate on what you introduced with. I completely agree with the points you made.

There are a couple things that, as was mentioned yesterday, the plaintiff's map makes a small change in District 3, which is not a really contested district, moving the area at the north tip of that cutting off the neighborhood at its point. That raised concerns.

Also, just the idea of District 12 that you're going to see in the red in the west Blanding, you know, rural Baldwin and Interstate 10

coming all the way up across 295 and into the Sherwood Forest, Osceola Forest neighborhood just was a very unusual mix of more urban and more rural areas, and, as you mentioned, the (undecipherable) of incumbents in that district as well.

THE CHAIR: Thank you.

Seeing there's no others in the queue, we'll go to the next point. Mr. Teal, if you don't mind coming up. There were a couple questions that were raised yesterday and we're looking -- I was looking for some explanations, and I'll just read them out first and then we'll address them one by one. We'll get through this pretty briefly.

Real time map analysis. I know initially that was something that was potentially could have been stated or was in the mix, so I wanted to ask about that. I also wanted to get assurance that Mr. Johnson's screen when we're going through the data that it aligns with the information that my colleagues have as well as those in the community that are watching either online or in the room. And then, lastly, there was a comment made during yesterday's meeting regarding Voting Rights Act that had some confused, so I wanted to hear your thoughts as well regarding the template maps comply

with VRA and will we ensure that whatever finished product is also in compliance with the Voting Rights Act.

MR. TEAL: Thank you, Mr. President.

Through the Chair to the Committee, surely the question or the statement regarding the real time map analysis I think that was a little bit of a confusion when I announced at the end that we had e-mailed out all of the PDFs to all of the council Members.

Now, those PDFs are, you know, the digital copy, if you will, of the physical maps that we printed and handed out. If you pull those PDFs up on your computer screen, you can zoom in to a street level view because there was some concerns about being able to read it on the maps or they weren't (undecipherable) on the maps. So that's what I was really intending to convey is that on those PDFs if you pull it up on your computer, you can actually zoom in to the street level and actually look at the finer details then you're able to see just on maps.

With regard to Dr. Johnson's screen, he was working off of his own internal maps that he uses to develop them. One of the things that we asked

was to try and get it as apples to apples as possible is that we asked when they are printed out and made public, that all of the colors are universal; in other words, District 1 is the same color on each map. That, you know, District 9 is the same color on each map. He was working on his own internal ones, which he had different colors assigned to his maps. The lines are all the same on all of them. So what he was showing to you and what you had handed out those are exactly the same maps. It's just that he hadn't gone through the process of changing them all internally to match. So that was the reason why the confusion was there.

With regard to the VRA analysis, what's referred to -- well, that's referring to it's Section 2 of the Voting Rights Act, which is a tool that local governments can use to make the case, if you will, for having a race based or minority district. The problem with it in this particular case is that requires a -- you know, as mentioned to y'all before, you have to go through these math exercises, if you will, in order to be able to demonstrate that there's a need, if you will, for a separate race based district.

We just simply don't have the time to do

that, and that's what Dr. Johnson indicated is -- we asked him if there's enough time. He said, I have enough time to throw some data together, but I wouldn't want to have to defend that in court because there's just not enough time to be able to go through that. So rather than opening that can of worms to have something that we don't think that we're fully confident of being able to defend in court, then we advised him just to focus on just the equal for the voting -- not voting age, but total population for the districts and just use a population based method for creating these maps to begin with.

So I hope that answers --

THE CHAIR: It did. Thank you so much for that. You can stay there for me a little longer.

We were talking about the website and their e-mails and there's some process with that. There's some maps that have been submitted from the public and even some that came with links to them, and obviously we have our cyber security issues here where we do not click on links.

Can you please explain the process in regard to maps that are sent to us?

MR. TEAL: Sure. So, as you all know, the

City Council website has an e-mail associated with it so that folks can publicly participate in this process. If they're not able to physically be there, then they can e-mail in comments, concerns, questions, those kind of things. And some folks have responded to that e-mail address by providing maps and some of those maps are just here's a map and nothing else. Others are providing maps with an external link to some other information.

The problem from our standpoint is that because of cyber security type issues then we're advised not to go pursue other additional data through those links, and so if -- with your indulgence, Mr. President, I'd like Dr. Johnson to kind of talk about what format you would need in order -- let me back up.

If anybody submits a map that they want us to consider, we have to have the data behind the map to be able to evaluate it. The reason being is we have to determine total population. We have to determine, you know, demographics and different kind of things like political demographics. So we need supporting data for that.

Dr. Johnson, you can probably talk about in what format could somebody submit something for you

to be able use that to evaluate just to communicate that to the public.

DR. JOHNSON: If someone wants to send in a map that they've drawn in a map system, they can send it either in what's called a shade file, which is kind of GIS software format that any GIS software can generate. They can send us a shade file, which is the outlines of the districts they've drawn, or they can send us what's called a block assignment file or block equivalency file, which is a list of every census block in the county and which district it's assigned to. Both are very standard for any software package online.

Yeah. They can deliver it by thumb drive actually if they -- either one of those is easily attached to an e-mail.

I would note for those that did click on the link to the redistricting map -- I'm not on the City system, so I'm not blocked by cyber security. Whoever drew that map actually unpublished it. So the reason they're getting a this map is not available is that the person that drew the map turned it off. It's not that there's some problem in the City processing or anything like that.

If someone does want to send in a map, they

could either, you know, deliver a thumb drive in person or e-mail in the shade file or the block assignment file.

THE CHAIR: So, to be clear, the link when you clicked on it, there was a map attached, but was no longer --

DR. JOHNSON: Well, there were two e-mails. One had the map attached to it and that was fine. We can see the map. All of the Council can see it; the public can see in the PDF. The other one said here's a link to my map. And, actually, anyone who has the PFD e-mail, can click on the link and you get this map is no longer available. The author of this map has turned it off essentially.

THE CHAIR: All right. And thank you for that.

And then, Mr. Teal, the last thing for you right now just be with the e-mails. To date I believe or as of yesterday we had 12 and I think maybe 13 more, but just that process of numbers increased and things of that nature. We know that we're providing all of our colleagues up here and all of our council members are receiving those e-mails should be hard copy printed, but as this process continues I would imagine that we would get

more, and I hope that we get more participation from the public.

What is the process then.

MR. TEAL: So legal requirement -- to the Chair, legal requirement is you're using the e-mail as an additional method of people talking to you-all to have the ability to do this. So if, hypothetically, we get a thousand e-mails, reasonably you can't all be expected to read all thousand of those e-mails.

So you recall those of you who were on when HRO was passed, there were a number of e-mails that came in through that process, and what we were able to do is to review those e-mails ahead of time, distill them down as there were a lot of foreign e-mails, a lot of e-mails that had different things, but, otherwise, it was a form, and we presented those to you at the meeting.

So if we do come to the point where we've got so many e-mails that are coming in that reasonably you can't all be expected to have reviewed, evaluated, and in your mind (undecipherable), we would have the ability to kind of summarize those and categorize those. Some of them are coming in that are reflecting districts that aren't being

touched by this process, so those are not really relevant to the discussion.

So there's a way to kind of distill those down, but, you know, obviously they will all be made available. They'll all be part of the public record and be inclusive in this process to take all of those in, but if we do come to the point where it's just simply too much volume, then we may come back and request the -- request the ability to go and do kind of a summary process.

THE CHAIR: All right. Perfect. Thank you so much.

So next question -- and this might be for Dr. Johnson as well or you. Mr. Teal, I need you to stay because both of you go back and forth.

There was a question asked yesterday regarding the plaintiff's maps and the process of, you know, where we're at now, but when we started with plaintiff's map, where did we start with and, you know, according to the Office of General Counsel I believe the judge never said that the plaintiff's map is constitutional.

And so, Mr. Johnson, and -- Dr. Johnson, I believe you started your work from the data to support. Can you just elaborate a little bit on

that process?

DR. JOHNSON: Sure. We wanted to show you a variety of maps yesterday, and so the Orange map actually started from the plaintiff's map and then addressed some of the issues that we talked about.

The Maroon map really started from scratch and worked based on the different factors that I talked about yesterday. So you had both approaches in front of you.

And then the Lime map was kind of the Maroon map with a little more adjustments on the districts.

So we took both approaches. One was starting with plaintiff's map, and one was starting from scratch and made into a version.

THE CHAIR: All right. Thank you.

Mr. Teal.

MR. TEAL: I did want to clarify too that the court hasn't seen any maps. So we didn't get the plaintiff's map until after the court ordered this process to unfold. We got it from the plaintiff's counsel. And so the court hasn't weighed in and said these maps are constitutional; these aren't. The court hasn't seen any map unless the court has been paying attention to the media.

So I do want to clarify that point that it's not like the judge is expressing a preference or has made a determination on any of those maps.

THE CHAIR: No. I appreciate it. I'm definitely not an attorney; just a coach. So every now and then I might get over my scheme. So thank you so much for clarifying that part of it.

Thank you. I am done with you-all for now.

To my colleagues, now bring it back to you. I just want to go over the process, and I need to make sure that we're on the same page. There will be some type of correspondence or communication going out to those of us or our colleagues who are unable to attend any of these meetings prior to Friday's meeting.

The special redistricting committee the group, the seven of us, will take up any changes to the maps as an amendment. So we're treating this process no different than we treat an ordinance and working through that process. This is a committee, so we will treat it as that. Any changes or proposed changes have to be submitted to the committee, and this is really coming at the suggestion of OGC, by today or tomorrow due to the turnaround time that it takes to evaluate the

changes.

And so I want to pause there before I go further because, Dr. Johnson, I'm going to call for you up here again just to comment on that turnaround point, but I will -- I'll yield.

DR. JOHNSON: Sure. Happy to.

So the challenge drawing these maps is, number one, under the court order we have a very short timeline. You recall we had weeks between meetings and now we have hours and so almost every change we make because the districts are so precise in population balance has to ripple through two or three other districts and has impact on all the other pieces we've been looking at in most cases. So that takes a lot of time.

So if we worked on different maps today and tomorrow and on Friday the council decides to switch between different maps that we've already drawn or just move pieces that we've already drawn around, we could do that relatively expediently, but any brand new ideas that come up on Friday we just won't have time to get drawn in terms to meet the court's timeline.

THE CHAIR: Thank you. It was important to put that on the record, and we will make sure --

and legislative services will help us make sure we get the rest of that word to our colleagues, but for those who are here and they have suggestions. Council members are encouraged to contact Bill Killingsworth or OGC to schedule a meeting to discuss any changes of the maps if they're unable to attend any committee meetings. So for any of our colleagues that are out of the area, he still is able to participate and schedule a meeting and send that in, and then they will bring that forward to the committee at the request of committee for special consideration. So then those points will be taken in and added to the conversation following a proper motion, second, discussion, and then a vote of the committee. So I just wanted to make sure that we were all understanding the process that we're going through as we move forward.

In closing, out of abundance of caution, I have extended Thursdays meeting to 3:00 p.m. So will start at 12:00, but it will be extended until 3:00 p.m.

With that said, before I go to our next point, which will be a map discussion, I see Council Member Defoor in the queue.

MS. DEFOOR: Thank you, Mr. President. I

just want to make sure I understand. So if we have a -- if we want to present -- I have met with Mr. Killingsworth and Mr. Johnson, so they know my issues. So how do I bring that to this body?

THE CHAIR: Thank you. And so the best example I can give would be during our budgetary hearing process there's a finance committee. All of us -- and I've attended many of the budget hearings over the last several years. You are able to participate, and we did. You bring up concerns, and one of the seven members that's on the finance committee brings that forward. They make a motion. It does move forward that way or on the day of the budget that night.

So in your scenario you've met with them, and as we continue to work through this process today, yes, I'm pretty sure that those thoughts or comments at some point will be brought to the table. I was more so looking for those who are unable to meet per se in person or be here. I wanted to provide them an opportunity just like we're providing the public through their e-mails an opportunity or chance to share their comments and their thoughts.

MS. DEFOOR: Thank you for that.

THE CHAIR: Yes, ma'am.

So with that being said, Dr. Johnson, we're going to open this up for a map discussion.

DR. JOHNSON: Thank you. There we go.

Just as I was reviewing my notes on the plaintiff's and Orange map, I did forget to mention one other concern that came up yesterday about the plaintiff's map was down in the south District 10, which is the green district down here, it crosses 295 into the north end of 10 and then 14 in the south crosses 295 run the other way. So we have one district's jumping the highway both ways. That's one of the things that the Orange map corrects, so the Orange map does correct that. I did mention that the Orange map comment yesterday.

The biggest one was one of council members mentioned just 12 being so long going from Baldwin and Interstate 10 down to the southwest all the way up past 95 so that was something just to get on record to recapture from yesterday's discussion.

So, as you mentioned, the committee yesterday focused the discussion on the Maroon map and the Lime map. So both of those are -- that we're talking about today are unchanged from the versions that the public received yesterday, so we have no

new maps to show today.

Really, we're looking for direction today on whatever variation you'd like to see; things that we should fix. I will mention a couple things that have come up so far for the community to deliberate on today.

There was been five things mentioned so far. One was Argyle Forest wants to be united, and I should note that in the Maroon map everything below Collins is united and everything west the -- part of the developments west of the Ortega River is also united, so the Maroon map achieves that.

As the council woman was mentioning, the Riverside historic district issue is another one that's been raised already.

The third one is in the north. As I talked about yesterday, the Maroon map was drawn to keep each council member in their own seat regardless of whether they're termed out or not. So there is, of course, flexibility there if the committee so wants where we can rotate those council members around. We'd end up with a pair, but one of the pair is termed out. So we can change around the north end of 10 and the south end of 7 to rearrange where different council members are located and, of

course, then renumber to match that.

So that is something that was done in the Orange map and that kind of reiteration can be done in Maroon and the Lime maps as well, if that's the direction.

Related to that, anyone looking at the Maroon map the first thing that they notice is kind of the long extended shape of District 9. We're not putting -- the reason for that is if we're going to keep each council member in their own seat. If we are not going to worry about the council members who are termed out, that upper neck can be -- the upper part of that neck can be kind of made more compact and we rotate with all the council members. So each council member who is not termed out would still be in their own district, and we can get rid of that neck there.

And the last issue that came up yesterday in discussion of all the maps was a concern about a change at the top of District 3, Queen's Harbour, and that was only in the plaintiff's and the Orange map. So that is already fixed in the Maroon and Lime as they sit before you today.

So those are the things we have on a list of questions that have been raised about things that

could be changed or fixed, and so we're happy to address any of those situations and any others that you wish to.

THE CHAIR: Thank you so much for that. We will get pause there, and you're welcome to have a seat. We will circle back to that.

But I want to take this time now that you've explained scenario with the maps, and I want to pivot and go to the public. And so at this time we're going to have public comments, and we'll do that again for 15 minutes. It's 12:30 now. So we have 21 of them. We'll do this for 20 minutes -- 21 minutes. So we'll still give everyone a minute to speak, so 21 minutes.

But I do want to pause and remind everyone of this: I definitely I'm a coach. I'm passionate about coaching baseball, and when I'm on the field, I'm very -- I get emotionally driven and I get into the game. This issue is an important issue to our City; one that none of us are taking lightly. And I understood that yesterday as speakers came up, and they were very passionate about that and that passion led to emotion, but today I do want to bring us back and I want to remind us all that we are going to follow the rules of decorum to the

best of our ability and your ability and follow along with Section Council Rule 4.505, which is one that I referenced before in our meetings. I still plan on extending grace to a certain extent, but there are some lines that if they are crossed, we will have to adhere to our council policy.

With that being said, Mr. Diamond, if you'd take the floor.

MR. DIAMOND: First three speakers are Shamari Lewis, Wayne Wood, and Nancy Powell. So if you'll come on down when I read your name.

First is Shamari Lewis followed by Wayne Wood followed by Nancy Powell.

Name and address for the record please, sir.

MR. LEWIS: Good morning. Shamari Lewis, Hyde Park Circle on file. I'm in District 9. I'm the President of the Coalition of Black Republican Americans.

And we have consensus on the Maroon map, but we want to say, President Freeman, that you and the council are doing a great job on this matter. We have to keep in mind that the federal judge ruled that the democratic maps were unconstitutional ruling that they were drawn improperly using race as the main criteria.

Someone said yesterday that it is a sham and a scam, and I'm saying that what we found out is that Black Lives Matter is a sham and a scam. And when did some of these organizations come online? Right around that same time. How does communism take root? One inch at a time. We have to find out where is the money coming from for this litigation. Where is it coming from? Where is the motivation? Because what we can find out is that it's not coming from northside. Where is the money coming from? We've got to follow it. You guys need a million. How much do they need, and how much did they receive?

Thank you.

MR. DIAMOND: Thank you, sir.

Next is Wayne Wood followed by Nancy Powell followed by Joe Ross.

MR. WOOD: Wayne Wood, 1228 Riverside Avenue.

49 years ago I started Riverside Avondale Preservation, which has become one of the largest neighborhood preservations in the south.

There are two maps that you're proposing here today would split up that neighborhood. This is one of the most distinct neighborhoods in all of Jacksonville. We've worked for almost 50 years to

make this a shining example of what a neighborhood would be. It's ludicrous that this would be split up into parts.

Our neighborhood is successful because we've had good representation, and I think our neighborhood boundaries are stronger than probably any other neighborhood in the entire city other than, perhaps, some gated community. So it is wrong to split this neighborhood up, and I urge you to revise your plans and it won't take much.

Riverside/Avondale needs to stay one single neighborhood represented by one single representative and to do otherwise is just ludicrous. It's not good for the neighborhood and it's terrible for the city. This is one of the great American neighborhoods, and I hope you preserve it.

Thank you.

MR. DIAMOND: Thank you, sir.

Next is Nancy Powell followed by Joe Ross, Sr., followed by JoAnn Brooks.

MR. POWELL: Hi, Nancy Powell. And I live in Avondale, and I am also asking to keep the Riverside/Avondale community together.

You have maps that were submitted by both

Shannon Blankinship and I sent one today. There is an established boundary of this neighborhood. There is a zoning overlay that was unanimously approved by this body in 2008 for this neighborhood, and there was a historic district that was established in 1998. All of that is indebted to our founder Wayne Wood. And we've been supported by Randy Defoor, and we know that she wants to also keep these neighborhoods together.

It has been an effective neighborhood association because we do have the zoning overlay. It's relatively important -- it is important that you understand what that is, and I would just say from a CPAC perspective, a CPAC is needed to follow the district and not be -- the districts don't follow them.

MR. DIAMOND: Thank you, Ms. Powell.

Next is Joe Ross followed by JoAnn Brooks followed by Shannon Blankinship.

MR. ROSS: My name is Joe Ross. I'm a proud member of the Northside Coalition.

MR. DIAMOND: Address please, sir.

Mr. ROSS: Excuse me?

MR. DIAMOND: Address.

MR. ROSS: It's on file. Thank you.

I want to bring this committee'S attention that the map that the court ruled against kind of brings in the element of incumbered protection. The District 9 and 10 on the map kind of shaped little awkward because it's trying to structure the race base kind of structure. So, I guess, from my point of view, as long as the map represents the community that the representatives that they're voting on and it's accurate and fair, then why are we having such a problem?

MR. DIAMOND: Thank you, sir.

JoAnn Brooks followed by Shannon Blankinship followed by Margaret Tocknel.

MS. BROOKS: Good afternoon. My name is JoAnn Brooks, and my address is on file.

I'm a member of the Northside Coalition. The Committee cannot approve the Maroon map. The Maroon map does not fully remedy the racial gerrymandering. Districts 9, 10, and 14 are still resolved and (undecipherable), but these districts split neighborhoods along racial lines.

Yesterday several council members, including the incumbent from District and 14, pointed out how these districts split neighborhoods along racial lines. Districts in the Maroon map remain racially

outlined compared to the products of our redistricting process that considers race only to the extent necessary to comply with the Voting Rights Act. The committee cannot approve the Maroon map.

Thank you.

MR. DIAMOND: Thank you, ma'am.

Next is Shannon Blankinship followed by Margaret Tocknel followed by Perry Reynolds.

MS. BLANKINSHIP: Thank you for your time. Shannon Blankinship at 1071 Talbot Avenue.

I'm the Executive Director of Riverside/Avondale Preservation. I want to reiterate some of the comments you've already heard today.

The Riverside/Avondale boundary is a distinct boundary within the district. There's a zoning overlay as well as a historic district overlay, and those have implications for nearly ever single City department including the Department of Public Works, the Planning Department, the Parks Department, and beyond.

Having a single source of representation for this overlay has been fundamental because of the expertise involved in understanding and navigating

on behalf of constituents.

So we ask that the redistricting committee retain Riverside and Avondale that district boundary within one council district. The Lime map is very close to that. There's a slight boundary change that would allow the Lime map to meet those ramifications.

Thank you for your time.

MR. DIAMOND: Thank you, ma'am.

I don't know if I'm butchering this last name, but Margaret Tocknel. I'm sorry. I did my best on that one. Followed by Perry Reynolds follow by Stanley Scott.

MS. TOCKNEL: I'm Margaret Tocknel of 3643 Oak Street in Avondale, and I'm here to ask you not to support the Maroon option, which splits my neighborhood into three council districts.

You know, the Riverside/Avondale district is recognized by federal, state, and city of Jacksonville as an important neighborhood with distinctly historic neighborhood. Ten years ago our neighborhood was named by the American Planning Association the first neighborhood in Florida to gain the recognition as a great neighborhood.

It's a great neighborhood not because we have

a certain number of democrats and a certain number of republicans. It's a great neighborhood because our neighbors contribute to the neighborhood. We work on things. We have common interests. I just learned the other night one of my neighbors is a different political persuasion than I am, which spun off from a conversation to something we were thinking about doing in the neighborhood. It's not political affiliation that makes the neighborhood; it's neighbors.

MR. DIAMOND: Thank you, ma'am.

Next is Perry Reynolds followed by Stanley Scott following by John Draper.

MR. REYNOLDS: Hi, I'm Perry Reynolds. 1525 Avondale Avenue.

I also happen to be a Chair of the Riverside/Avondale Preservation. I want to reinforce what Defoor said and what all the previous folks had been talking about from our neighborhood. It is a neighborhood and it deserves to be represented by one council person.

Thank you.

MR. DIAMOND: Thank you, sir.

Stanley Scott followed by John Draper followed by Ben Frazier.

MR. SCOTT: Stanley Scott with the African-American Economic Recovery.

We are here again.

MR. DIAMOND: Address, sir?

MR. SCOTT: Address on file. Sorry about that.

Once again, we have (undecipherable). Why are we here? Because of racism. You call it what it is. Now, I'm not talking as an individual. I'm talking as the African American (undecipherable). We do research; national research. Jacksonville has disenfranchised African Americans forever, and I don't understand why we're here today.

Now, the court said that y'all have failed. The problem is I say before yesterday why are y'all addressing this again when the judge had made a decision, but because of ignorance, hate, racism we continue to do the same thing over and over again. I'm talking about the leadership and I blame it on republicans, the republican party.

MR. DIAMOND: Thank you, sir.

MR. SCOTT: Yes. Thank you.

MR. DIAMOND: Next is John Draper followed by Ben Frazier followed by Mike Ludwick.

MR. DRAPER: I'm John Draper. My address is

on file.

30 years ago we put this basic plan together, and we called it minority access districts. Now that's illegal. We have to call them democratic access districts. If that's what we really want -- I'm sure some of you'd like that idea, but the problem with that is that you -- by creating three democratic access districts, you greatly reduce the effectiveness of democrats in the outlying district. So you dilute the input of democrats.

Now, this was done in Tallahassee, and the republicans giggled. They said, sure, we'll do that. One for you; three for us. Now Florida is a solid republican state. We don't need that in Jacksonville. The need issues are not partisan issues.

MR. DIAMOND: Thank you, sir.

Next three speakers are Ben Frazier, Mike Ludwick, and Salle Barnes.

MR. FRAZIER: Good afternoon. Ben Frazier. Address on record.

Yesterday the committee announced it did no Voting Rights Analysis to inform the (undecipherable). That is unacceptable. Voting Rights Act is federal law; not optional. Refusing

to perform this analysis will simply compound the legal violation of this committee and the entire redistricting process.

The path forward is simple. Ensure compliance with the Voting Rights Act with the appropriate analysis. Use race no more than it is necessary to do that.

Committee or consultants say it's not enough time. Plaintiff's repeatedly offered to provide analysis done by our expert. Judge Howard (undecipherable) just yesterday. The council has benefit of this analysis. Failure to do analysis will move us backwards. We need to move forward. Pass a map that complies with all legal requirements to the Constitution, the City Charter, and the Voting Rights Act.

MR. DIAMOND: Thank you, sir.

Next speaker is Mike Ludwick followed by Salle Barnes followed by Daniel Henry.

MR. LUDWICK: Hello. Mike Ludwick. Address is on file. Proud member of the Northside Coalition.

The committee must consider race to ensure it complies with Voting Rights Act. The problem with the old map wasn't that it used race. The problem

was that it used race beyond what was necessary to comply with the Voting Rights Act. Section 2 of the Voting Rights Act applies to Jacksonville and the map must comply. That requires a functional analysis of voting behavior.

Saying there wasn't enough time is not good enough. Federal law is not optional. The plaintiffs, us, have repeatedly offered our expert analysis. Why won't you take us up on this offer? We've offered you an olive branch of a map and you're hitting yourself on the head with it. Accept a constitutional, legal, and racially just unity map.

Thank you.

MR. DIAMOND: Thank you.

Next speaker Salle Barnes followed Daniel Henry followed by Essey Howard.

MS. BARNES: Hi. My name is Salle Barnes. My address is on file.

I'm here today that (undecipherable) for 44 years. We have pulled together as a group to make sure that we had the best quality in that area. Now you're saying that you want to be (undecipherable). We now have a city council person that is actually working with us. I don't

want to lose that for one. I can't speak for everybody because they're not here, but I can say we have someone that comes out and addresses our issue. They sent e-mails and everything else that's concerning in our area. This person came in working. I don't want to lose that.

District 9 I would like for us to stay like it is, but everybody is talking about voting. You can vote however you want here, but you can't tell me how to vote. Everyone is making it emotional. We don't have to vote democrat all the time. We vote for the person that we think is the best person for the job; that's me personally speaking. So I would ask you-all to let us keep District 9. (Undecipherable) they drop. If you keep it, it will make a lot of us happy.

Thank you for your time.

MR. DIAMOND: Thank you, ma'am.

Daniel Henry followed by Essey Howard followed by Vanessa Cullins Hopkins.

MR. HENRY: Hi. My name is Daniel Henry. My address is on file.

I wanted to start off with the direct quote from the injunction that was denied yesterday from the judge what she said in court.

MR. DIAMOND: Did you start Mr. Henry's time? Continue.

MR. HENRY: The court is convinced that allowing the election to proceed with districts that the court has found are substantially likely to be unconstitutional, pose a significant threat to voter confidence in the legitimacy of the election.

I make that point to dispute the conversations that have expressed in this hearing so far that the previous maps that were created were fair and congruent. District 12, which was mentioned in the last hearing, stated being a more rural count district. My family has lived in District 12 for 17 years and it's greatly grown from its current configuration. To still treat it as a rural district when it's suburban in many of its portion I think does not redirect its current configuration, particularly since it has the largest population of African Americans outside of 7, 8, 9, and 10.

And I want to agree with the comments that have been made regarding on Riverside/Avondale as to why they should not be split up.

MR. DIAMOND: Thank you, sir.

Essey Howard followed by Vanessa Cullins Hopkins followed by Brian Hicks.

MR. HOWARD: Yes. Essey Howard. Address on file.

Proud member of Northside Coalition. Here we go.

(Undecipherable) commit public comment; it didn't. Found that the council had ignored public concerns and that's part of why they ended up violating the Constitution last time around.

One, the committee is breaking their promise. Two, they did not release these maps publically before yesterday's hearing. Three, it eliminates two of four maps before any of the public comments. That's wrong. You got to include us. Include us and everything will go smoothly. Hear our concerns.

Thank you.

MR. DIAMOND: Thank you, sir.

Next is Vanessa Cullins Hopkins followed by Brian Hicks followed by Cornell Oliver.

MS. HOPKINS: Good evening. Vanessa Cullins Hopkins. 3283 Edgewood Avenue West, Jacksonville, Florida.

I want to thank you-all for having public

comment before you have deliberations and questions so you can take into account what the public is bringing to you.

Now, I believe that each city council district must have a strong economic base. I analyzed the maps based upon the best economic base for the northwest side of town, and especially for the KingSoutel Crossing and community redevelopment area. The best economic base is through the plaintiff's map where the entire KingSoutel Crossing CRA is located in 12, proposed District 12.

Proposed District 12 is huge. It has rural portions, but we can have more industry located in that area. Parts of that area that may be deemed more industrial than having it all along the northwest side of Jacksonville such as Kings Road. I want to point out that in the Maroon map the KingSoutel Crossing CRA is in three --

THE CHAIR: Thank you.

MS. HOPKINS: -- different districts. Three different districts.

MR. DIAMOND: Mr. Hicks, if you can hold just one moment. We're trying to see if you're allowed to wear that t-shirt at public comment, so we'll

skip you for a moment.

So Cornell Oliver followed by Kim Pryor followed by Breshawnna Stewart. I'll do my best on that one.

Cornell Oliver?

MR. OLIVER: Cornell Oliver. Address is on file.

One of the things I want to really highlight about these maps is that they're completely corrupt, because you took control when you was not supposed to take control. There's a due process within the functions of how government works. A lot of republicans want to talk about law and order. Where's the law and order when you're not following the Voting Rights Act?

You were given every opportunity to be good representation of this community, and as I've constantly put you on front street where a lot of y'all poor leadership tactics and manipulation of the system. You know that y'all absolutely wrong. Disconnect yourselves from this process. You paying somebody to come in and draw a new map for you, but it doesn't really represent the needs and the wills of the people in this community. Accept the plaintiff's map and let the dice role on the

floor, and if you hit seven --

MR. DIAMOND: Thank you, Mr. Oliver.

MR. OLIVER: -- it is what it is.

MR. DIAMOND: Mr. Hicks, you can't campaign up here with the t-shirt on. So you can have another t-shirt next time, but unfortunately I can't give you your minute.

Next speaker is Kim Pryor followed by Breshawnna Stewart followed by Ayesha Franklin Covington.

THE CHAIR: One second. Mr. Hicks, in the beginning of the meeting I shared that we would be following our council rules and that is Section 4.505. The first point is any form of political campaigning or election (undecipherable) of a candidate in any election and court.

Turn it inside out.

MR. DIAMOND: You can turn it inside out.

MS. PRYOR: Good afternoon. My name is Kim Pryor, and my address is 245 West 5th Street.

I'm here again to talk about how these maps have been drawn and I heard council president -- I'm sorry. The consultant -- I'm sorry. I don't know who said it, but someone said that the maps were drawn to not -- did not follow the current

political boundary and that they failed to protect incumbents.

Well, I am here to say that we don't need to protect incumbents. If you really, really willing to serve the people of this great city, you should be willing to serve them no matter what district you are in and what district you represent. That's what this job is all about.

We also need to continue to take into account public comment. I am the current Chair of the Urban Core CPAC, and no one has approached us so far for our input into this process, which I know is trying to get on quickly, but that's another thing that we are here for --

MR. DIAMOND: Thank you, ma'am.

Breshawnna Stewart followed by Ayesha Franklin Covington.

MS. COVINGTON: I'm Ayesha Franklin Covington. My address is on file.

This is your Maroon map. This is your Lime map. I am a plaintiff on the lawsuit. I stand with our map. We have a lot of time. We can help you make a fair and equitable map that the judge would approve. The judge has been very clear about her rulings concerning the Voting Rights Act, and

we have to follow the law.

These meetings are a waste of our time. We're not here for a fight; frankly, we already won the fight, and what you're doing is digging your heels in. Fighting with your constituents about a matter of federal judge ruled on. We are prepared to accept a fair map, but I hope you got the visual because that's what we want to do with your map --

MR. DIAMOND: Thank you, ma'am.

MS. COVINGTON: -- tear it up.

MR. DIAMOND: Is Breshawnna Stewart -- did Mr. Hicks get his t-shirt fixed?

MS. STEWART: Hello. My name is Breshawnna Stewart, and I live on 1214 Labelle Street. (Undecipherable) District 9; right?

THE CHAIR: It's public comment. Ma'am, we're here to hear from you. We're not able to respond to public comment.

MS. STEWART: All right. Okay. Okay. (Undecipherable) that they need to stop the crime, and Northside is crime too. Also they need to stop the sex trafficking with what's going on out there too. That's all I got to say. And then they police at the school and they need police at the airport.

MR. DIAMOND: Thank you, ma'am.

Mr. Hicks.

MR. HICKS: How everybody doing today? I want to talk about --

MR. DIAMOND: Name and address for the record, please.

MR. HICKS: Sir?

MR. DIAMOND: Name and address for the record, please.

MR. HICKS: 1316 Gladys Street and 1999 West 25th Street.

I want to talk about the map because I been in District 8 for 37 years, and I think the map should stay the same and everybody knows it and it's equalized for every race. I don't think number needs to be changed with the map. That's it.

MR. DIAMOND: Thank you, sir.

That's all the public speakers.

THE CHAIR: Thank you, Mr. Floor Leader. Thank you to the public for coming out and sharing.

Now we will go to our next section, which would be the questions from council members to Dr. Johnson. Please come back up, and we'll get the work done.

This is just a reminder to the committee. So those visiting you are visiting this committee. So we're not looking to queue up. We'll always start with the committee members first. Once we've done that, then we will acknowledge the visitors and then we will take up the request from one of the visitors, get a motion, a second, and treating this the same as we do (undecipherable). Thank you so much.

And so now I'll ask if anybody in the queue from the committee do you have any comments or questions? I have two names in right now. I see Council Member Defoor and Council Member Diamond. Am I missing anyone, because I know I was down.

Okay. Now they're popping up. Councilman Howland.

So we'll start with Council Member Diamond.

MR. DIAMOND: Thank you. Through the Chair, just one question and request, you know, for analysis. So I just want to go back to how you created the Maroon map.

Did you start with any other preexisting political map at all when you created the Maroon map?

DR. JOHNSON: I mean, obviously, we're aware

of the city council's previously adopted map and the plaintiff's map. I've seen both, but, no, it was drawn as we talked about yesterday in looking at the CPAC areas, the neighborhoods, the rivers, and major roadways.

MR. DIAMOND: And then is it possible for you to give us the analysis if you add the Riverside/Avondale neighborhood -- I'm sure you're aware of what that is and are very aware of it. Do you know if we add it to all of the 8, if we add all of it to 10, if we add all of it to 14, whether or not we can hit the numbers for that and see how it effects other pieces of the puzzle? Is that doable?

DR. JOHNSON: Certainly.

MR. DIAMOND: I'll just say this, you know, I've heard a lot of comments here. We weren't sued under the VRA. We were sued under the United States Constitution and the 14th Amendment. So our job is to write a constitutional map; that's our sole job. We are absolutely doing that. Even if we did the VRA analysis, I think the Maroon map will pass just fine. So I feel very comfortable supporting it.

THE CHAIR: Council Member Pittman, you're

up.

MS. PITTMAN: To the Chair, just kind of want to go back to what I shared on yesterday and this morning. I would like to meet with you-all regarding seeing how we can move some of the areas around, because I'm totally out. I was drawn out of my district, and so if there's a way for consideration, I'd like to get with you-all today and to Jason and look at how we can work and come up with a plan where it is a win-win, you know.

Based on what I heard yesterday, based on today, you know, if we work together, I don't know if they have a representation -- a representative that can meet with you-all. I don't really know how all of this works, but if we can, I'd like to make a recommendation and get those numbers and see what they come up to be. Is that possible?

DR. JOHNSON: Through the Chair, certainly happy to do it.

THE CHAIR: And also to my colleague, Council Member Pittman, you're also able to offer recommendations right now. If there are things that are popping out to you that are important to you, you can -- in regard to the community that you're referring to as well, I would remind them

that right now 2022 redistricting -- I can't remember verbatim, but there's a website -- there's an e-mail address that they can send that to us and that information is being considered in the process. Dr. Johnson and OGC they're all aware of it, and it's part of the conversation as well.

MS. PITTMAN: So, you know, I would -- unfortunately, I can't see this on here, but I'm sure that we can once I'm able to get with them, but to move where I am -- on this map that I'm looking at is to move me up going south for District 8 to be able to keep it consistent and come up with a consistent consensus and agreement in terms of what that map is. So I'll be happy to share. I just can't see the street, but if we can do that, I'll appreciate that.

DR. JOHNSON: Through the Chair, I'm happy to do that. Procedurally, (undecipherable) if the committee wants to endorse the idea of putting her in a district, then we'll sort the (undecipherable).

THE CHAIR: Thank you, Dr. Johnson. I want to repeat what you want her to say. My question to you would be -- and I'm getting some feedback as well here.

My question to you would be, is there a way with what you have right now to get a visual of that or enlarge it or is that something you're not able to do because of the sinking of our technology?

DR. JOHNSON: No. So I can very roughly show. Let me zoom in on this map a little bit. Actually, very handy technology. Thanks to your staff for showing me how to do this yesterday.

So, essentially, you can see on your screen this area is where the council member lives, and, as she mentioned, her district is traditionally being held to the north of that area. It's now drawn south.

And, through the Chair, Council Member, please correct me if I misspeak about any of this. So we would need to put that area into the district of the north, which would then have to -- it's adding population. So the district to the north would have to give up some population, you know. This most likely some in that area.

Obviously, I don't know the numbers as I stand here, but we'd have to do some kind of trade between the two to make sure for putting those people into the northern district and balancing the

populations, but it's certainly something you can do.

MS. PITTMAN: Thank you.

THE CHAIR: Does that -- are you good, Council Woman?

MS. PITTMAN: Yeah. If that's possible, that's what I'd like to do.

THE CHAIR: Absolutely. I just want to make sure that your thoughts and comments, as well as those taken in the audience and those that were streaming, they were kind of able to capture that as well. Visual auditory thing that we learn. I like to have all of them, and that was two of them there. So that was good.

Next, Council Member Bowman.

MR. BOWMAN: I mentioned this yesterday, but if you can expand a little bit on the upper right portion of the blue section District 11 down there and go to the very far right north portion. Keep on going.

DR. JOHNSON: Are you talking about this area over here?

MR. BOWMAN: So I think when you do redistricting, the numbers were a little bit different and we couldn't incorporate that area in,

but if you look at that area, all of the blank area to the south is part of the 27,000-acre ranch. So the only way to get that from District 11 is to drive down Butler Boulevard beyond six miles. So it's really never been a part of that district.

So I would like now that the numbers have changed a little bit to look at that -- putting it in District 3 and if it doesn't fit in District 3, probably fits in 13. So -- but it's kind of an albatross over there right now. So appreciate you looking at that. It is pretty much fully developed out now, so it's not an area that's going to grow.

The second thing -- and I'll say for Council Woman Defoor is -- I work downtown and I recognize what she's saying about Avondale and Ortega and Riverside and I would appreciate addressing her concerns and see what we can do in that area, because that really is consolidated speak with one voice area. I witnessed for years and I think maintain some integrity.

So that's all I have, Mr. Chair.

THE CHAIR: Thank you.

And did you understand, Dr. Johnson, Council Member Bowman's comments and questions? Were you able to -- did you understand those as well?

DR. JOHNSON: Yes.

THE CHAIR: And were you able to pull that up on the map for us just so we can see exactly the area he was referring to.

DR. JOHNSON: Yes. So this is right now we've got the highway coming across the northbound boundary. So this would -- you can see the screen is over here. They're kind of isolated. I believe it's a golf course and housing community. So put that area with either the green or yellow districts right next to it.

THE CHAIR: Okay. Thank you.

Next would be Council Member Howland.

MR. HOWLAND: Thank you, Mr. President. If you don't mind, I'm going to unfortunately take us one step back with a quick foundational question for Dr. Johnson, and then, if I can, a quick question for Mr. Teal.

THE CHAIR: Sure.

MR. HOWLAND: Okay. Dr. Johnson, in the creation of the Maroon and the Lime map, did you use race as a factor in your design at all?

DR. JOHNSON: No, we did not. After the map was drawn, we looked at the numbers to see how they would come out, but only once the map was finished.

MR. HOWLAND: Thank you, sir.

And now for Mr. Teal real quick. The whole basis of this discussion today is because the plaintiff's sued and the court directed, quote, any interim remedial plan the City enacts must not use race as a predominant factor in the design of any district unless that use of that race is narrowly tailored to comply with a constitutionally permissible compelling government interest.

Do we need to use race? I heard some of the comments and it confused me. Does race need to be a factor at all in the creation of these maps?

MR. TEAL: Through the Chair, Councilman Howard, no. It's not legally required to -- and, actually, it is specifically prohibited to have race be a predominant factor in drawing the lines.

As I mentioned at the outset, you can go through an analysis, which is what the court is referring to there. You heard me -- and Dr. Johnson can confirm -- we just didn't have the time to be able to do that analysis under these parameters.

MR. HOWLAND: So the court never mandated that we must use race a little bit; they just said you cannot use race as a predominant factor?

MR. TEAL: Not at all. That's just the court saying we're leaving it open for any legally available methods for you to draw their boundaries, but none of them are required except for one person one vote, which is the equal population analysis.

MR. HOWLAND: Thank you, sir. Appreciate it.

THE CHAIR: Thank you so much.

So I want to circle back to Council Member Pittman, and I know that you put out some comment in as well as Council Member Bowman.

And I just wanted to ask, as we mentioned, we're operating in our structure of committee. Is that something that -- and they will not work without a charge coming from this committee. So is that something that you would like for them to take back with them and start working on?

MS. PITTMAN: Yes.

THE CHAIR: Are you making a motion for them to?

MS. PITTMAN: Yes.

THE CHAIR: So I have a motion and a second on Council Member Pittman's request for you, Dr. Johnson, to do the work -- to run the numbers on work and show it on the screen as described.

Any discussion on that amongst the council

member committee members?

All right. Seeing none, we'll do this by -- we're going to -- we're going to do this by hand vote so that everyone can see.

All in favor of Council Member Pittman's amendment please raise your right hand or left hand. I'm sorry.

Those opposed have the same right.

The amendment carries.

Thank you. And, legislative services, are we documenting this? We're getting this?

Now, we have Council Member Bowman he referenced something in the Pablo Creek area. Council Member Bowman, you referenced that. Is that something -- is that a directive that we would like to --

MR. BOWMAN: Yes. Thank you, Mr. Chair.

And I will say Council Member District 11 supporting the hearing redistricting, so we'll have full support.

THE CHAIR: So we have a motion.

MR. DIAMOND: Second.

THE CHAIR: And a second from Council Member Diamond for Dr. Johnson to take a look at these numbers as well and see what can be done.

Any discussion on that?

Council Member Howland?

MR. HOWLAND: Thank you, Mr. President.

And this is just a motion to have Dr. Johnson look into?

THE CHAIR: Correct. So the map experts they are not at liberty just to do things on their own. It has to come as a directive from the special redistricting committee, and if we agree to it and vote, then it goes forward as an amendment and he'll do his homework and come back to us.

MR. HOWLAND: Thank you for that clarification.

THE CHAIR: So now that takes us to next on the queue, and I believe that we have now addressed the members on the committee, so I will --

MR. DIAMOND: We need to vote on Mr. Bowman's motion.

THE CHAIR: My apologies.

All in favor of Mr. Bowman's motion please raise your hand.

Those opposed have the same right.

The motion carries. Thank you.

DR. JOHNSON: Mr. Chairman, just procedurally, Mr. Diamond and Mr. Bowman raised the

Riverside question as well.

THE CHAIR: Mr. Diamond, you're recognized.

MR. DIAMOND: Thank you, Mr. Chair. I make a motion that we direct our expert to look at putting all of Riverside and Avondale just to see what the numbers look like all in 10 and all in 14, so we can see all three.

MR. BOWMAN: Second.

THE CHAIR: The motion is second by Council Member Bowman on that.

Any discussion?

Seeing none, all in favor of the motion raise your hand.

Those opposed have the same right.

Motion carries.

So far, Dr. Johnson, we have three directives from the Special Committee, and now we have some visiting council members that will bring some ideas and suggestions themselves to the committee and then the committee will take those on and make a motion to move it forward, second, or it will just be accepted and thank them for their contribution.

MS. DEFOOR: Thank you, Mr. President. First of all, I want to thank my colleagues on the Committee. That is very important to my

constituents that we look at consolidating Avondale and Riverside.

I want to raise an issue that Councilman Bowman raised yesterday, which is a legit issue on this Maroon map for District 14 and the way it goes out. I mean, I feel like we're kind of backing in a little bit in a sense where we are today in terms of people questioning whether that's a gerrymandering or not and I -- that concerns me. I don't want to waste anybody's time.

If that in fact -- if it's -- if the committee ends up believing that that may be a concern, I just want to raise the issue that if we end up with the Lime map, that I would like to have Riverside and Avondale back in my district because in terms of partisan it's not going to make a difference. So I just would raise that through my colleagues. Thank you.

THE CHAIR: Thank you. Council Member Clark-Murray, you're recognized.

MS. CLARK-MURRAY: Thank you. Through the Chair to Mr. Teal, there was some comments made earlier regarding incumbents and redistricting.

Can you address that because -- well, can you address those comments please, first of all?

MR. TEAL: Sure. Through the Chair, Council Member Clark-Murray, it's not a legal requirement when redistricting takes place that incumbents are protected. So as you-all know, the Charter requires that you live in your district. So when redistricting happens and we redraw lines, there's a danger that potentially you're redrawn and that you're no longer a resident of your district.

So it's a policy call as to whether or not the council wants to make that something that the map folks pay attention to, and so that was determined in both the original redistricting process and in the initial meeting for this process was we do want to protect our incumbent. We want to make sure that they are in a district.

So that's why, you know, you heard comments about, you know, it's drawn this way because we had to reach out, you know, to grab the incumbent.

And I did want to clarify both in terms of your question for your district, but also for Council Member Defoor is it's okay to have funny looking districts. It's okay that they look, you know, like they are, you know, oddly shaped. What you can't do is you can't have them be oddly shaped because you are grabbing a racial majority. So you

can't do it for racial reasons in order to pack a district. You already have these tendrils going out to grab people of the persuasion that you're going after.

So in and of itself it's okay to have weirdly shaped districts. So I want to be clear on that that just because it looks a little bit weird doesn't mean that it's improper or unconstitutional. We just have to say why does it look weird. If we can say it looks weird because we're keeping neighborhoods together or because of republicans verse democrats or to keep an incumbent in their district, that's perfectly okay.

MS. CLARK-MURRAY: Thank you. If I may ask one more question too.

Mr. Johnson, good afternoon. So looking at the Maroon map -- and I know that continuousness is an aspect of the map. So how it's drawn the way it's drawn fit the bill for continuousness?

DR. JOHNSON: Through the Chair, so there's two pieces of this. Continuity is required, but that's a simple -- all the pieces of the district must touch, and so that's pretty simple yes or no and all the pieces of this district do touch.

Now, related to that is compactness and kind

of the look of it is stretched out, and, as you just heard, things that look odd are kind of flagged as a potential issue, but in this case there's a clear explanation of why it's stretched to the north because of the policy decision in this map to keep each council member in their own seat and then that -- and then we run into development down south with so many people that it can't -- we can't keep each council member in their own seat and bring 9 all the way to the other border and pick up all that Argyle Forest area because there's too many people, but it does look stretched, but they are clear and policy does support that.

Does that answer your question?

MS. CLARK-MURRAY: It does.

Thank you, Chair.

THE CHAIR: Thank you. And, Ms. Clark-Murray, you mentioned yesterday in regards to something going east in your comments and the continuing of the neighborhood in that area. I just want to make sure -- I'm trying to recall what that was again.

MS. CLARK-MURRAY: To the Chair, through the Chair, in regards to it, it -- actually, in regards to one of the requirements, because where I see in

the Section 502 of our ordinance it says that basically the incumbent that it -- the redistricting can't be drawn so that the incumbent is no longer in his or her district. So that is one of the reasons why I wanted Mr. Teal to address that particular comment that was made earlier.

In just looking at the map what that does, the Maroon map in particular, you have -- District 9 is now in the middle of, as you can see proposed, I think that's District 10 that's around it, so you have this one spot of --

THE CHAIR: Yes, ma'am. And we're short on time --

MS. CLARK-MURRAY: And I'm answering your question.

THE CHAIR: Yeah. No. No.

MS. CLARK-MURRAY: So that is the Woodstock area. That is -- it's -- you have one particular portion according to this map of Woodstock that's going to be in District 9, whereas the others are going to be in another district.

THE CHAIR: Correct. And I just wanted to make sure that was put on record again, because, Ms. Clark-Murray, I was willing to probably make a motion or a recommendation if I can fully

understand how far east you were referring to. I could not recall -- I see where you're located, but I could not recall where you were talking about with Lackawanna or wherever that area was in Edgewood. If you can give me a particular street name or something along those lines and we can --

MS. CLARK-MURRAY: So, through the Chair, it is Commonwealth Avenue, Cassat Avenue, and then it should be Edgewood as well -- well, this is Ellis on here, but then you have the main road is Commonwealth and then you have Beaver and then you have -- yeah. That should be where you have the red asterisk and the blue asterisk is near it.

THE CHAIR: Thank you.

Dr. Johnson, can you put that up on your screen real quick just to be consistent just so we can see and Council Member Pittman wants to see those street names and I do as well.

Okay. Okay.

DR. JOHNSON: Mr. Chairman, if I might, with the motion that the committee already approved of moving Council Member Pittman to the north, we actually can rotate these 9 and 10 and 8 as well so that we wouldn't need 9 coming out. We would keep each council member in their own seat and that

would address both the incumbent issue and unite all of those into one seat. If that would be something, we're also happy to just move the lines a little bit, if that's your preference.

THE CHAIR: I think that's good just hearing you say that. I think that might at least get us to tomorrow, if that addresses the concern that my colleague had. Thank you so much for that.

We have two more in the queue, and I want to make sure that we give everyone a chance.

So, Council Member Ferraro, you're recognized.

MR. FERRARO: Thank you. Looking into District 2 where Eastport Road -- a little bit north. There you go. A little bill further north.

So we've got an area -- and I agree that -- I was going to talk about Avondale/Riverside and Queen's Harbour. I'm glad we were able to fix those. Those are important.

One of the reasons I'm looking into this area where it pulled out from before is the San Mateo area and Cedar Bay area are bordered by industrial parks, railroads, Main Street, and the river. So we're actually pulling out a neighborhood that is actually connected to an area, and I wanted to see

about having that put back into this area.

And I want to sit down with Bill Killingsworth later this afternoon and see if population is a problem removing a section from the south part of the river, but removing that Eastport down to Busch Boulevard that community over here it's kind of isolated even though you look at the map and it looks green and it looks like it's part of it, you're separated by industrial parks. You're separated by a railroad and Main Street, correct, and in that area and that really should be still connected.

A lot of times when you look at a map and you see a little thumb that sticks out -- I'm asking for something that is exactly what everybody else here on the diocese is asking for is to have the community where it's not being separated because the way that's sectioned out it is sectioned out to where, like I was saying, a main road, a river, a railroad. It's not part of the area. As you drive back, it goes into the park that is Craft Road and the San Mateo Park. So it's actually the park is part of it as well.

So I'll be sitting with Mr. Killingsworth about this later today, and if I could have the

committee to agree with putting that forward to joining as well.

THE CHAIR: And so we have Council Member Ferraro making a recommendation to move the area circled here Eastport Road forward to go -- to be added --

MR. FERRARO: The Eastport/Cedar Bay that area of the neighborhood to be joined up with the neighborhood to it.

THE CHAIR: District 2?

MR. FERRARO: Correct.

THE CHAIR: So we have a recommendation and a motion from Councilman Ferraro to -- well, he's bringing -- he's looking for someone on the committee to make a motion to move Eastport Road into District 2.

Are there any motions?

All right. Seeing none, we'll move on to the next one.

Council Vice President Salem.

MR. SALEM: Thank you, Mr. President.

Through the President to Dr. Johnson, I'm very supportive of the Riverside/Avondale connection. I grew up in that area; moved to Arlington in the 70s.

I heard no mention of Murray Hill during this whole discussion, and that's a historic area and, I mean, you can almost cross the street and go from Murray Hill to Avondale and none of the Avondale/Riverside mentioned Murray Hill. That would be a logical choice to me on your map. It's in that Cassat/I-10 area is Murray Hill, but I'm sure Council Member Defoor can better identify that.

That's a logical thing for me. I don't know if the committee would like to recommend that or not, but I mention it, but definitely the Riverside/Avondale area. Thank you.

THE CHAIR: So Council Vice President has brought an area Murray Hill and his question or his motion was to see about adding it where? Taking it from --

MR. SALEM: Including it with the Riverside/Avondale area would be my thought, if that's possible.

THE CHAIR: So removing it -- taking it from somewhere -- I'm trying to see it on the map here. Taking it from 9 and adding to 14.

So we got a motion -- well, we don't have a motion. Just bringing it to the Committee.

Council Member Diamond.

MR. DIAMOND: Thank you, Mr. President. In order to address what my colleague, I think, Council Vice President is doing, how about this: What I ask was that we would look and see what would happen if we added Riverside and Avondale into 14, 10, and 8. Can we look at those same numbers if we also add that section? I.

Don't know how hard it is to give us ideas on things what happens with our numbers with different things, but if we add that bit, then we can see what it looks like in the three different options. I don't want to just look at 14, just look at 8, and look at 7. I'd like to see all three.

DR. JOHNSON: Through the Chair, yes, we can certainly do that. The question is, do you want us to try to just Riverside/Avondale as one numbers and then Riverside/Avondale/Murray Hill as the same set of numbers?

MR. DIAMOND: That would be my preference. I would like to be able to see when we look at this tomorrow and see -- (undecipherable). If we move one piece, other things start to move around. So there might be really similar answer. Yeah, all three (undecipherable) or maybe it is more

complicated when you do it piece by piece.

DR. JOHNSON: Through the Chair, we can do that.

MR. DIAMOND: So that would be my motion.

THE CHAIR: So we have a second motion from Councilman Diamond, which is to add the Murray Hill numbers into his first motion of the numbers with adding the Riverside area and Avondale to it.

Looking for a second.

MR. BOWMAN: Second.

THE CHAIR: So I got a motion from Councilman Diamond and a second from Councilman Bowman.

Seeing all in favor of Diamond amendment two raise your hand.

Those opposed have the same right.

So we'll just rope those together.

We have, Councilman Gaffney, you're recognized.

MR. GAFFNEY: Yes. Through the Chair, first of all, Mr. Johnson, good luck. Good luck.

And I only say that because we agreed on a map yesterday, but what it looks like we adding to all these districts, but it looks like we is taking away from 7. You're taking way from 8. You're taking away from 9, and you're taking away from 10.

And I only say that because I'm interested in when you start taking away from those, where they going to get others from. They all neighborhoods. Now, you're going to take away from 9 to give to 8. You're going to take away from 8 to give to 10.

It's you guys got your work cut out. I'm not going to make no recommendations. Wherever the balls fall I'm going to take it, but I guess ask my colleagues don't be too aggressive trying to give everybody their Christmas wish because you'll hurt another district and that's what I see is going on now.

THE CHAIR: Thank you, Councilman Gaffney.

And that leaves no one else in the queue, and you hit the nail on the head.

And I'll come to you, Mr. Teal. This is not easy. This is not easy. We were put in a posture and position where we have a very short runway to do a tough task, and we're going to do our best to get that point.

Mr. Teal, while you're up there, I just want to make sure -- I did have one question. I don't have any recommendations, but I heard something said at the beginning and it was slightly troubling to me, but I want to just see if you were

(undecipherable).

Is it true that you said or Dr. Johnson said that all four maps, the plaintiff's map, will yield three minority access (undecipherable) and that will be down from the currently four that we have now? Did I hear that correctly?

DR. JOHNSON: Correct. So rather than using minority access phrasing, just looking at the numbers just so people are aware, will go down. In the plaintiff's map and all three maps will go down from four majority black districts in the adopted map that the court has thrown out to three.

Now, there's -- as you heard, there's a lot of debate about the effective number and 41 percent and all of that. So not characterizing that as a legal matter, but just from a simple numbers matter that all these maps have three districts where blacks are majority of the voting age population.

THE CHAIR: All right. Thank you so much for that.

Seeing nobody else in the queue, Mr. Teal, you're recognized.

MR. TEAL: Thank you, Mr. President.

Just a point of order that for Council Member Pittman's motion we had the question about District

9 and about taking a look at the changes to District 9. The discussion was that I think that we can handle that with the changes that we'll be looking at the maps based on Council Member Pittman's motion.

Is that your understanding is that, in essence, that request was scooped up into Council Member Pittman's request?

THE CHAIR: Yes, sir.

MR. TEAL: Okay. Thank for that clarification.

THE CHAIR: This meeting is adjourned.

(The meeting adjourned at 1:32 p.m.)
