

OREGON REDISTRICTING BALLOT MEASURE LEGISLATIVE AND CONGRESSIONAL FINDINGS

Whereas Election Day is when Oregonians exercise their right to vote and make their voices heard, and the people of Oregon need an independent commission to draw fair and impartial districts so that every vote matters; and

Whereas under current law, Oregon politicians draw the boundaries for their own state and congressional districts, causing a serious conflict of interest that harms voters; and

Whereas state and national level districting and redistricting rules should be determined by a politically neutral entity; and

Whereas Oregon state legislators draw district boundary maps every 10 years based on national census data; and

Whereas in general elections going back twenty years, 97.4% of incumbent politicians of the Oregon Legislative Assembly seeking re-election were re-elected in the districts that they had drawn for themselves; and

Whereas current law allows politicians to draw districts to serve their interests, not those of our communities, dividing places like Clackamas, Salem and Eugene into multiple oddly shaped districts to protect incumbent legislators; and

Whereas, in past redistrictings where incumbents have been protected, many Oregonians have no political voice because communities have been packed into one district or split into many districts with no input from the public; and

Whereas, because current redistricting criteria in law do not require that districts are politically competitive where practical, the Oregon Legislative Assembly has tended to gerrymander the districts to create more safe districts where a favored incumbent or political party has an overwhelming advantage such that voters in the district cannot change their representation; and

Whereas the people of Oregon believe in fairness, accountability and transparency in political processes; and

Whereas more than 40% of registered Oregonian voters are not registered as Democrats or Republicans, they are now the largest segment of registered voters. However, they have little or no representation in the Oregon Legislative Assembly or United States Congress; and

Whereas Oregon legislative and congressional districts should be drawn to represent all residents, regardless of party affiliations, income levels, backgrounds, identities, or locations; and

Whereas voters across the country – from Arizona to California to Colorado to Michigan – have been moving to reject partisan gerrymandering and adopting reforms to make the redistricting process open and impartial so it is controlled by people, not partisan politicians; and

Whereas an independent Oregon Citizens Redistricting Commission provides a greater opportunity for under-represented communities like low-income Oregonians, persons of color, and rural Oregonians to have a voice in their representation; and

Whereas the people of Oregon, find it necessary to create an independent Citizens Redistricting Commission to draw the state legislative and congressional districts in an impartial and fully transparent manner that will promote inclusion and representation of all Oregonians; and

Whereas the people of Oregon, find it necessary to give persons who are not Democrats or Republicans—whose voices are under-represented in the Oregon Legislative Assembly and the United States Congress—an equal voice and vote on the commission alongside Democrats or Republicans; and

Whereas the people of Oregon, find it necessary to require the independent Citizens Redistricting Commission to draw state legislative and congressional districts based on strict, nonpartisan rules designed to ensure fair representation and to propose reform that will take redistricting out of the partisan battles of the Oregon Legislative Assembly and guarantee redistricting will be carried out by a group of impartial Oregonians, in open public meetings, without favor to incumbents or parties, and for every aspect of this process to be open to scrutiny by the public and the press; and

Whereas the people of Oregon, find it necessary to create an independent Citizens Redistricting Commission because we believe Oregon voters should choose their representatives—representatives should not choose their voters; and now, therefore,

(B) The commission must post records and data in a manner that ensures immediate and widespread public access.

(c) A member of the commission or commission staff or commission consultant may not communicate with an individual who is not a member of the commission or commission staff or commission consultant about redistricting other than in a public hearing. Any written communications regarding redistricting received by a member of the commission or commission staff or a commission consultant shall be considered a public record and shall be made available in a manner that ensures widespread public access.

(B) Achieve population equality as nearly as practicable using the total population of Oregon as determined by the decennial census preceding the redistricting process.

(C) Be geographically contiguous.

(D) To the extent practicable, and if possible without conflicting with the criteria set forth in subparagraphs (A), (B) and (C) of this paragraph, respect the geographic integrity and minimize the

division of a city, county, local neighborhood, government jurisdiction or community of interest or other contiguous population that shares common social and economic interests and is cohesive for purposes of its effective and fair representation.

(E) To the extent practicable, and if possible without conflicting with the criteria set forth in subparagraphs (A), (B) and (C) of this paragraph, achieve competitiveness.

(C) May not create a district for the purpose of or with the effect of diluting the voting strength of any language or ethnic identity group.

(d) As used in this subsection:

(A) Common social and economic interests are those social, cultural, ethnic, economic, occupational, trade, transportation, educational or other shared interests that are common to an urban area, a rural area, an industrial area or an agricultural area. Common social and economic interests are also areas in which individuals share similar living standards, use the same transportation facilities, reside in the same watershed, have similar work opportunities, or have access to the same media of communication relevant to the election process. Common social and economic interests do not include relationships with political parties, incumbents or political candidates.

(B) Competitiveness means that voting blocs, including partisan and non-affiliated voters, must be substantially and similarly able to translate their popular support into representation in an elected body and that such representation is substantially and similarly reflective of shifts in the electorate's preferences.

HEARINGS

(5)(a) The commission shall hold at least 10 public hearings at locations throughout the state prior to proposing a redistricting plan.

(b) In addition to the hearings required under paragraph (a) of this subsection, the commission shall:

(A) Hold at least six public hearings after each redistricting plan is proposed, but before the plan is adopted, for the purpose of taking testimony on the proposed plan; and

(c) In the event of unforeseen circumstances that make one or more of the hearings required under this subsection impracticable, good faith efforts shall be made to receive public comments on proposed maps before the adoption of a redistricting plan.

(d) In holding the hearings required under paragraphs (a) and (b) of this subsection, the commission must:

(A) Provide appropriate public notice of the time and location of each hearing in a manner that ensures widespread public access;

(B) Hold at least one hearing required under paragraph (a) of this subsection and one hearing required under paragraph (b) of this subsection in areas that have experienced the largest shifts in population since the previous redistricting and prioritize holding additional public hearings in these areas; and

(C) Permit and make provision for individuals at remote sites throughout the state, including tribal members, to provide public testimony at the hearings through the use of reliable and accessible means of electronic communication.

ADOPTION OF FINAL MAPS – TIMING, REPORT

(b) The commission shall issue, with the final maps, a report that includes an explanation of the basis on which the commission established the districts, responded to public input, and achieved compliance with the criteria listed in subsection (4) of this section and definitions of the terms and standards used in drawing each final map.

(c) If the commission does not approve a final map under subsection (2) of this section, any group of four or more commissioners including at least one commissioner from each sub-pool may submit a map to the Oregon Supreme Court by August 29, 2025, and thereafter in each year ending in the number one.

COURT REVIEW

(7)(a) The Oregon Supreme Court shall adopt rules of procedure for review of redistricting maps. The Supreme Court's review shall take precedence over other matters before the Supreme Court.

(b) Any voter registered in this state may file with the Supreme Court a petition for review of final maps approved by the commission. The petition must be filed on or before September 1, 2025, and thereafter in each year ending in the number one.

(c) If the Supreme Court determines that a map approved by the commission under subsection (6)(a) of this section substantially complies with the criteria set forth in subsection (4) of this section, the Supreme Court shall approve the map, which shall go into effect.

(d) If the Supreme Court determines a map approved by the commission under subsection (6)(a) of this section does not substantially comply with the criteria set forth in subsection (4) of this section, the Supreme Court shall remand the map to the commission for correction. The commission shall submit a

corrected map within 14 days of the issuance of the remand. If the Supreme Court approves the corrected map, the corrected map shall go into effect. If the Supreme Court does not approve the corrected map, the Supreme Court shall remand the map to the commission for correction. The process of correction and approval or remand shall repeat until the Supreme Court approves a corrected map.

(e) To assist the Supreme Court in reviewing maps, the Supreme Court may appoint a special master and vest the special master with the powers needed to assist the Supreme Court. The powers of the special master shall not include the development of alternative maps.

(f) If one or more maps are submitted under subsection (6)(c) of this section, the Supreme Court shall:

(A) Establish a process for interested persons to become parties;

(B) Review all submitted maps for compliance with the criteria set forth in subsection (4) of this section; and

(C) Select the submitted map that best complies with the criteria set forth in subsection (4) of this section.

(g) The map selected by the Supreme Court shall go into effect without any further action by the commission.

(h) The Supreme Court must complete review or selection of redistricting maps by December 31 of the year in which the maps are due to be certified by the commission under subsection (6) of this section.

(i) Notwithstanding any other law, the Supreme Court has original and exclusive jurisdiction in all proceedings in which a certified final map is challenged.

SUPERSEDEDENCE, SEVERABILITY

(8) The provisions of this amendment supersede any section of this Constitution with which the provision may conflict. If any provision of this amendment is held to be invalid, the court shall sever the provision and the remaining provisions shall remain in full force and effect.
